Just Two of a Kind

The long-haired fair and the German hand have struck town. The coincidence of their coming is significant, for the two are not unlike. Both, in general, are the same.

What place do you come from, baby, dear? Out of the nothingness, into here! So the girl fakes come into view, tall, rounded and noble, and carries no tale of his latest juggling of a board bill.

In the same way the German hand, with three wheezy hoarse and two croaky croaks for pleocion, is ushered in. Like a thunder-storm on a clear July day, unheralded and unwashed for the bettered assortment of what instruments of music violence have been at the hand of heaven, and you know your hour of tribulation has come.

What patriot but feels that a prober is blowing a loyal air to tatters? But in this land, so bereft of missionaries when our brothers the Germans are conspicuous, there is yet a Christian law that keeps one's hand off the offending musician.

As the Toronto looters give vent to their sensitive nerves, like a hiss to an olive when one expects a sweet, like a bitter word from a deaf friend, one's sense of the propriety of things is assailed and smothered.

What patriot but feels that a prober is blowing a loyal air to tatters? But in this land, so bereft of missionaries when our brothers the Germans are conspicuous, there is yet a Christian law that keeps one's hand off the offending musician.

Government and Tuberculosis

Editor Wood: I notice an editorial in this morning's issue which contains a complete and accurate account of the Government's policy in regard to tuberculosis.

It is stated that the Government has done nothing for the cure and prevention of the disease, but that it is content to let it run its course.

When our committee met the Government in March, it is true that nothing had been done, but since that time very much has been accomplished.

The legislative act of the Government for the cure and prevention of the disease, which by which people, municipalities and provinces are bound to observe.

It is in addition to this that the Government has done nothing for the cure and prevention of the disease, but that it is content to let it run its course.

Fads of British Cyclists

The English rider's fad for leading down his machine with every conceivable device has been reported in the press.

His idea seems to be to get as much weight as possible on his wheels, and he has been seen with a bicycle loaded with lead.

CHATHAM HAS A SENSATION

Strong Flow of Mineral Water Tapped After Boring Nearly a Thousand Feet, AND THE HEALING PROPERTIES

Are said to be Fully Equal to Those at the Mount Clemens Springs.

Chatham, Ont., Aug. 1.—A phenomenally powerful mineral spring was struck to-day at the McGregor farm at a depth of 984 feet. The hole is 14 inches in diameter and the stream flows to a height of eight feet above the surface. A local syndicate, having in view the establishing of a sanitarium, have after three weeks' work, drilling over 600 feet thru red rock, struck a water, which, upon analysis, is found to contain identical properties with the water at Mount Clemens, Mich. A railroad man named James Strzhan, who some years ago received an injury to his hand, resulting in a stiffened thumb, to-day bathed his disabled member in this water, and in three hours regained the use of the member.

The healing properties of the water have become known, and hundreds of people have visited the well to-day and carried off quantities of the water to use for various ailments. The present spring, which is 20 years ago a syndicate, after spending something like \$10,000, gave up the scheme as a failure. WHERE IS THIS \$1000?

The Prince of Wales Scholarship Granted in 1860 Yearly is Forgotten in Toronto.

PRIZE WAS GIVEN FOR ONE YEAR, But in 1861 the Boy Who Earned the Inheritance Did Not Get His Prize.

Of course, everyone knows that the Prince of Wales visited Toronto on Sept. 7, 1860, and that a little dissonance arose because at the behest of the Duke of Newcastle, who accompanied the Prince, the archbishop of the Orangeism of Toronto was given \$1,000, as it was intended, but was passed by on the other side. But there seems to be a paucity of intelligence regarding the fact that the Prince on that visit gave \$200 to the Toronto Model Grammar School, the interest on which was yearly to be devoted to the purchase of a prize to be given to the dux of the school.

A Silver Inheritance

The World chatted yesterday with an exception of the old Toronto Model Grammar School, who was dux of the school in 1861. He said that Jeffrey Robertson, barrister, of Newmarket, was head boy in 1860, and had been given a silver inheritance, purchased by the interest on the \$200 donated by the Prince. During the session of 1861 this donation was common talk among the pupils. Principal G. H. Cockburn repeatedly told the students that the Prince of Wales' prize would be given to the head boy of 1861. However, when the closing exercises of the school were held no Prince of Wales' prize was given.

Was It Ever Given After?

The World's informant could not say if the prize was ever given after 1861. The question arises, What became of the interest on the \$200 in 1861? As the prize was not awarded, was the interest added to the principal, and has the interest on the interest been added year by year to the present time? In short, where is the interest for the year 1861 on the Prince of Wales' \$200?

Mr. Cockburn was Brought Out.

To appreciate this question, it is necessary to know that the Toronto Model Grammar School was an institution separate and distinct from the Toronto Normal School. Both were established in 1857, and were located in the same building, the present Normal School, which was then the Model Grammar School, a university preparatory school, and a training school for high school teachers. The principal was G. H. Cockburn, who was the forerunner of all that followed.

THE OFFER OF SIR W. C. McDONALD

Was Accepted by the Special Committee, whose Report Was Endorsed by the Trust.

Montreal, Aug. 1.—(Special.)—Montreal is to have a new crematorium. At a meeting of the Mount Royal Cemetery Trust to-day Mr. Richard White moved, seconded by Mr. William Clendinning, and it was unanimously resolved:

That in accordance with the recommendation contained in the report of the Special Committee, appointed to consider the offer of Sir W. C. McDonald, dated the 20th June last, which report was adopted by the trustees at their meeting of the 3rd of July last, the promoters of the Mount Royal Crematorium be authorized to accept the offer of Sir W. C. McDonald, herein above referred to, and to execute the erection and operation of a crematorium, upon the property of the company, and for that purpose to obtain any necessary legislation.

THE SHUT OFF OF TICKERS

Has Caused a Lot of Trouble to Brokers in Chicago and Other Cities.

Chicago, Aug. 1.—Hold and stock tickers gave no Chicago Board of Trade quotations on grain and provisions to-day, and many exchanges in other cities and buckets were closed. The Chicago Board of Trade, which has been closed since the 28th of July, and who were occasionally chafed at the fact that they were closed, were closed to-day. The Chicago Board of Trade, which has been closed since the 28th of July, and who were occasionally chafed at the fact that they were closed, were closed to-day.

Disappointed Brokers.

New York, Aug. 1.—There were a good many disappointed brokers around the wheat pit to-day. All visions of a heavy speculative trade at the expense of Chicago, whose quotations were cut off from the tickers to-day, were replaced by New York prices, vanished, instead of clamorous activity there. Brokers sat around and gloomily watched the Chicago board, where prices were occasionally chafed at the fact that they were closed, were closed to-day.

MONTREAL CUSTOMS RETURNS.

Collections for July Reached \$984,419, or \$184,500 More Than Last July.

Montreal, Aug. 1.—(Special.)—Customs collections for the port of Montreal for the month of July amounted to \$984,419, an increase over the same month of the year of \$184,500. The collections for the past five July have been as follows:

1900.....\$ 984,419
1899.....\$ 800,210
1898.....\$ 715,688
1897.....\$ 680,705
1896.....\$ 699,992

The increase this year over last year was largely owing to the "exaggeration" of goods, principally dry goods, which were left in store until the beginning of July, so that the importers might take advantage of the 30-1-3 per cent duty reduction, which was in effect on July 1, 1900. A TORONTO GIRL'S ESCAPE.

How Dr. Arnold's English Tonic Pills Saved Miss Ida Hobkirk's Health.

Long Hours, Unceasing Attention to Business and Close Confinement Broke Down Her Health—Dr. Arnold's English Tonic Pills Fully Restored It.

The young woman who is closely confined to a room or office during six or eight hours every day, obliged to breathe the impure air of the city, and to use the same, perhaps being under the necessity of being on her feet the greater part of the time, cannot but feel languid and depressed—utterly worn out, in short—when she goes home in the evening.

Miss Ida Hobkirk, Harbord-street, Toronto, endured the hardships we have so vividly sketched, and she was miserably after her day's work, the girl will be free of the tedium of her confinement.

Dr. Arnold's English Tonic Pills, the greatest brain, nerve and nerve-strengthening tonic, and the most powerful tonic, and, though her work was not unusually exacting, she became unable to do it. She used Dr. Arnold's English Tonic Pills, and, she writes, "they set me on my feet, and I have been able to do my work ever since."

Dr. Arnold's English Tonic Pills are sold by all druggists, large box 75c, small box 50c, or sent postpaid on receipt of price by The Arnold Chemical Co., Limited, Canada Building, 41 King Street West, Toronto.

MANY SHEEP AND HOGS KILLED.

Cow Sleeping on the C. P. R. Track Caused a Serious Wreck—Fireman Badly Hurt.

Owen Sound, Aug. 1.—At 9 o'clock last night a cow sleeping on the C.P.R. track near Arnot, about 16 miles from here, caused a bad wreck.

Engine 521, manned by Driver Ernest McConnell and Fireman Robert Wallace, was derailed by the cow.

When the engine struck the cow, the engine struck a cow sleeping between the rails. The train was not going at a high rate of speed, and in consequence the engine was derailed by its left side.

Two stock cars piled up on it and were badly wrecked. The other cars, which were loaded with stock, did not leave the tracks.

The stock, sheep and hogs belonged to Patrick McConvey of Chisworth. A large number of the animals were killed.

The Engineer Jumped. When the engine struck the sleeping cow, Engineer McConnell jumped, and a badly bruised leg, Brakesman Simpson, who was on the engine, also jumped thru the window.

Fireman Wallace Badly Crushed. Fireman Wallace was, however, seriously injured. He was crushed under the engine, and his back was broken.

When You Were a Child, and you required an aperient, it was usually administered in the shape of gripping Epsom Salts or nauseating Castor Oil. When you need an aperient now you prefer it in a pleasant mild form, such as Abbey's Effervescent Salt. The children should be treated with some consideration, and Abbey's Effervescent Salt combines gentle effectiveness with pleasant taste, and is relished by young and old. It is uniform and reliable, made by expert chemists from the original English formula, and combines every good quality that an aperient and antacid digestive should contain. A pamphlet explaining the many uses of this fine preparation will be mailed free on application to The Abbey Effervescent Salt Co., Limited, Montreal. For sale by all druggists, 25c and 60c a bottle.
