MOTION OF BOSTOCK DEFEATED IN SENATE

Amendment to Defer Conscription's Enforcement Until After Election Rejected by Ten Votes—Big Majority for Second Reading.

Ottawa, Saturday, Aug. 4.—Senator Bostock's amendment was defeated early this morning by a vote of: Yeas, 34; nays, 44, a government majority of ten. No Liberal voted against the amendment. Senator DeVebe did not vote. The effect of the Bostock amendment was to delay putting conscription into effect until after a general election. The vote was then taken and there voted for the second reading 54, and against 25, a government majority of 29. The normal government majority is eight.

The following Liberals voted with the government on the second reading: Senators Bostock, British Columbia; McHugh and Bell, Ontario; Tait and Dewber, Alberta; Douglas, Saskatchewan; Watson, Manitoba; Gilmore and Thompson, New Brunswick. The French and Acadian members who stood by the bill throughout were: Senators Bolduc, Lariviere, Ferrier, Levesque, Bourque, Girroir. Senator Beaubien, also he voted for the Bostock amendment, voted for the second reading.

RUSSIA FACES NEW MINISTERIAL CRISIS

Kerensky Cabinet Resigns, But, Apart From the Foreign Minister, Reconsiders Action—Tchernoff Accused of Treason—Military Governor of Petrograd Assassinated

Petrograd, August 3.—Premier and War Minister Kerensky and all the other members of his cabinet, except Vice-Premier Nekrasoff, resigned tonight. Later, with the exception of M. Terestchenko, the foreign minister, they withdrew their resignations.

The action of Premier Kerensky and his fellow cabinet members came about as the result of the accusations against M. Tchernoff, the minister of agriculture, who is a Socialist, and a complete breakdown of the negotiations to bring the constitutional democrats into the cabinet. M. Tchernoff was accused of having been connected with the German general staff.

CANADIANS OPEN FIRE AS IN FLANDERS DRIVE

Bombardment Grows in Intensity Before Lens—Rain Causes Cessation of Infantry Activity—Many Explosions in German Lines.

By Stewart Lyon. Canadian Headquarters in France, via London, Aug. 3.—Four days of a steady downpour have made ditches of trenches all along the western front, and on this part of the line have brought about a cessation of infantry movement on any large scale. There have been several small encounters between the patrols out in No Man's Land, but for the most part the men in the trenches are fully employed in preventing the flooding of their positions.

Rain has not been permitted to silence the enemy. Many thousands of projectiles are expended daily. The cellars in Lens, in which the enemy now shelters his reserves, are subjected to a bombardment with the "heavies." The frequent explosions in the city indicate that the German stores of ammunition are also kept in these cellars, and that the loss of life among their garrison from the interminable pounding of our guns must be very great.

WOMEN UNITED IN OPPOSING ELECTION NOW

Second Win-the-War Mass Meeting as Enthusiastic as Yesterday's

NATIONAL GOVERNMENT

Resolute Demand Made for United Action of Political Parties.

If anyone has doubted the attitude of the women of Ontario regarding conscription, the answer was found in the deliberations at the Arena last night, when more than 2000 women responded to the call of the win-the-war convention. Wholeheartedly and unreservedly they declared themselves in support of the policy laid down and adopted by the mass meetings of the men on Thursday, to win the war by every possible means at the disposal of the country.

War had never been a comfortable thing for Sir Wilfrid Laurier, Senator Pope said. At the time of the Riel rebellion he had said he would shoulder his musket to shoot down British redcoats. At the time of the South African war he had to be forced to send men by an independent Canada. Laurier had stepped forward and backward, but had never been the true friend of the advancement of the British Empire.

The meeting backed up the call of the convention for a national government that will enforce the military service law and the conscription of the resources of the country. But they deplored the decision to hold an election. They had been asked.

Officer Prisoners Begin to Have Serious Doubts of Country's Prospects of Victory—British Gas Proves Effective.

By R. T. Small, Staff Correspondent of the Associated Press. Germany's loss in manpower they admit to be serious.

HURRICANE OF GUNFIRE PREVAILS IN FLANDERS

Determined German Counter-Attacks Merely Serve to Bring End Nearer—Weather Continues Deplorable—French Shelled.

London, Aug. 3.—(Via Reuter's Ottawa agency.)—Telegraphing from British headquarters in Flanders today, Reuter's correspondent says: "Since my last despatch there has been a hurricane of heavy shelling and determined counter-attacks, but the oftener the enemy launches his assaults, the sooner must the end come. It is impossible to estimate his losses yesterday afternoon during the series of assaults, but they must have been appalling."

"It is a striking contrast that while the Hun infantry curse their artillery for lack of support, ours praise our gunners. "Our new positions south of the Ypres-Comines road, and from the Ypres-Roulers railway to opposite St. Julien, seem to be causing the Germans great concern. They are devoting their heaviest shelling to that section. The French front between Koorsteke and Bixchoote is also being heavily strafed. The whole front shows no tactical change. The weather is deplorable. A fouler August was never known. "The number of prisoners must be well over 5000."

Field Marshal Haig Reports Gaining of More Ground South of Hollebeke, With Taking of Over Six Thousand Prisoners—Line East of Monchy Nearly All Restored.

London, Aug. 3.—Southeast of Ypres, in Flanders, Field Marshal Haig's troops again have established themselves in the Town of Saint Julien, from which they were driven early this week, says the official statement tonight from British headquarters in France.

East of Monchy-le-Preux the Germans have been driven from nearly all the ground they captured Thursday night.

On Tuesday, the statement says, the Anglo-French troops captured 6122 prisoners. The statement says: "In the hours of the day our troops again established themselves in St. Julien. North of the Ypres-Roulers railway bodies of German infantry massing for a further counter-attack were broken up by the fire of our artillery and the enemy was unable to develop his attack. We gained ground during the night south of Hollebeke."

"East of Monchy-le-Preux the enemy has been driven from nearly the whole of the ground gained by him in last night's attack. Hostile raiding parties were repulsed during the night north-east of Gouzeaucourt and south-east of Fontaine-lez-Croisilles. Parties of our troops successfully raided the German trenches south of Lombaertzyde."

"The number of German prisoners captured by the allies in the operations on Tuesday was 6122, including 132 officers."

"Attack on Infantry Hill. This afternoon's official statement says: "The weather continues wet and stormy. "Early last night the enemy renewed his attempt to drive us from our positions on Infantry Hill, east of Monchy-le-Preux. After a heavy preliminary bombardment his troops attacking on a front of about a half mile, succeeded in obtaining temporary possession of a portion of our front line trenches and a few prisoners. Our counter-attacks, in which we secured a few prisoners, have already regained part of the lost ground. "During the night the enemy also endeavored to raid our trenches south-east of Quent, and attacked one of our newly-established posts northwest of Warneton. He was repulsed in both cases."

"Quiet on French Front. The following French communication was issued this evening: "In Belgium the situation remains unchanged. "The day was comparatively quiet on the larger part of the front to the north of the Albert. The Germans to the east of Cerny attacked in force. The attack was completely repulsed. On both banks of the Meuse intense artillery activity is reported. "Aviation. The allied aviators have bombed many enemy camps in the region of Demir-Hisar and Lisse Gazele. "Belgium communication: Quiet prevails on the whole of the Belgian front because of the persistent bad weather."

"The text of the French afternoon statement follows: "Bad weather persists along the entire front in Belgium. "East and south of Cerny, after a bombardment of extreme violence German forces delivered on a front of about 1500 yards violent attacks, but they all were repulsed. The fighting was in the course of the day very heavy. "Artillery fighting on both banks of the River Meuse (in two points) was particularly active. The region of Avocourt, Wood and Hill 304."

MONTREAL TO HAVE PLENTY OF COAL

Fuel Situation Will Be Much Improved Next Winter.

Montreal, Aug. 3.—The fuel situation in this city during the coming winter will be much better than it was last winter. This was stated today at a meeting between C. A. Magrath, Dominion fuel commissioner, H. P. McCub, assistant fuel controller for Canada in the United States, and representatives of the railways and coal dealers today in the board of trade meeting rooms.

WAR SUMMARY

THE DAY'S EVENTS REVIEWED

THE chief news from Flanders is the reoccupation of St. Julien and the capture of some 6000 prisoners of the British army on Tuesday. The British, it is reported, took 112 prisoners on Tuesday. The enemy continues to waste his men by throwing his shells, when possible, against the British positions along the Ypres-Roulers railway.

Sufficient has developed in the war this year to show that Von Hindenburg and Von Ludendorff are incapable of managing the situation in the west. They are specialists on conditions in the eastern theatre of the war, whereas the allies are making sure of winning in the west.

Captured German officers confirm the truth of stories about the desperate plight of Germany, politically and militarily. These men admit the seriousness of Germany's loss in man-power. The entire 1918 class, with a portion of the 1919 class, has already appeared on the field. The German officers are beginning to fear that Germany will not win the war and they also fear, above everything else, another winter campaign.

The Canadian artillery, before Lens, has increased the violence of its fire to the intensity of the fire on the Belgian coast before the great offensive. The Germans are also prodigal with their shells, but they lack observation facilities, so their shooting is far from accurate.

The Italians have engaged in heavy air fighting again, such as preceded their previous big offensive. They are striving to advance on Trieste by two roads, one from Gorizia and the other along the coast.

The best feature of the Russian military situation is that the Russian forces are now fighting hard, but they have not completed their retirement. The Germans have pushed them across the Zbrocz River at its confluence with the Dniester and they are also withdrawing south of the Dniester. They have evacuated Czernowitz and Kimpolung. From along the Dniester has probably retreated their seventh army from a bad predicament and the retirement south of the Dniester River is only a corollary of the bad retirement from the region of Brezany. It is a strategic move forced on them by the defection of socialist troops, mostly from Petrograd.

The resignation of M. Tchernoff, and the unsettlement of the Russian Cabinet over the charge of Tchernoff's complicity with the German general staff will increase the strength of the duma. It will be seen that under the regime of the socialists matters have proceeded from bad to worse. The some of the ministers are doubtless honest enough, their extreme individualism verges on anarchy. The French Government is also dropping the socialists, including M. Thomas, who, with Arthur Henderson, played a great part in securing allied commencement of the Russian Socialist Government and who even probably had a hand in the relaxation of army discipline under the theory of democratic control.

WEST WILL OBTAIN MEN FROM EAST

Thirty-Eight Thousand Harvesters May Proceed to Prairies.

Winnipeg, Aug. 3.—That the west will obtain 38,000 men in the east to help in gathering this year's harvest is expected by representatives of the Dominion Government, the railways, and the provincial authorities, who met in the general passenger agent's office at the C. P. R. depot this morning.

Message of Premier On War's Anniversary

Issue Still in Balance at Beginning of Fourth Year of Conflict, and Canada Must Consecrate Fullest Powers to Cause.

By a Staff Reporter. OTTAWA, Aug. 3.—Sir Robert Borden issued tonight the following message to the people of Canada, calling for renewed concentration for national war effort on the occasion of entering the fourth year of the war:

"Once more we reach the anniversary of that fateful day three years ago, when Germany challenged the future of democracy and the freedom of the world. The resolve of the nations of the British commonwealth is now once more renewed. Today they again affirm their inviolable determination to sustain the ideals of liberty and justice to a victorious issue."

"The anniversary brings to us proud but solemn memories, with an intense realization of all the sacrifice and sorrow entailed on our people. We are conscious that Canada has vindicated her place among the world's greatest and truest democracies. Assuredly her sons have not suffered and died in vain for liberty and justice are to have any meaning in the future of humanity."

The Political Crisis

Tom King, one of the World's special correspondents in the press gallery at Ottawa, left the capital last night for Winnipeg, along with the members and senators who will take part in the great Liberal convention in that city next week. Mr. King is known as one of the fairest and best-posted observers of our politics. He is not only a political reporter, but also a keen student of the attention of the people of Canada in a series of letters in "The World" which have done more to bring the revolution that had been effected by the grain-growers of western Canada, and what still more revolutionary things they had in view for the welfare of all the people of the Dominion.

Every one reads Mr. King's regular contributions, "On Parliament Hill," in "The Sunday World." He knows all about the west and the grain-growers, and has attended their big conventions in the past. Inasmuch as the present political crisis at Ottawa will be powerfully influenced by the convention at Winnipeg, also our readers by the men who are to be sent to parliament in the coming election, "The World" will endeavor, by the aid of Mr. King and other members of its staff, to present the facts and their significance to the readers of the World, free of any political bias. "The World" believes that the political regeneration of Canada is already under way, and that the opening of the struggle in a big way of way has already begun at Winnipeg.

The departure of the western members and senators from Ottawa last night and today to attend the Liberal convention at Winnipeg next week, only increases the importance of that event in the minds of all Canadians, and that the opening of the struggle in a big way of way has already begun at Winnipeg.

The World has reproduced portions of an article of "The Morning Leader" of Regina of Monday last. The article of Wednesday, two days after, is much on the same lines, and blames the Conservatives for the present condition of affairs, and charges them with trying to make politics rather than win the war the prime consideration. It upholds Sir Wilfrid Laurier, but says the west has a glorious

opportunity to render a valuable service to Canada and the empire at the present moment. It thinks the west can place the political life of the Dominion on a higher plane than ever before. In another article on the same date, "The Leader" is very hard on Sir Clifford Balfour, but it is asking too much when he asks the west to lay the blame on Sir Wilfrid Laurier in regard to winning the war. He does not think that the western people will listen to Sir Clifford because he betrayed the west on the trade question in 1911.

The London Free Press of yesterday is favorable to the unionist movement, but says it must be headed by Sir Robert Borden, who is prime minister, who has held the government together in these trying years of war, and has maintained a Canadian army at the front under most trying circumstances, an army that has done great credit to itself and to the country which sent it over.

The Winnipeg Tribune of Wednesday says that a severe arraignment of Sir Clifford Balfour, should say the "Toronto Telegram," after his former denunciation of Sir Clifford, should say that inasmuch as the issue is between the Kaiser and Sirton it prefers the latter. "The Tribune" says: "Give us rather than Balfour, but it is not quite as who Barabara is, also it says of hints that Hon. Robert Rogers might be playing the part."

The London Free Press of yesterday says that while it hopes to see Sir Wilfrid Laurier premier of Canada again, yet it does not think that the government is to be decided on, and neither of the present leaders selected, there should be no difficulty in finding some other man on whom all would unite.

WHITE DENIES ANY SURRENDER

Independent relatives from \$2,000 to \$1,500. Hon. Charles Marcell and Mr. Knowles (Moore Law) thought that a married man without children, but Sir Thomas White would be conscripted this year and 100,000 next year if necessary, and so on until the last man was taken, but could it be said that any such thore policy was being followed in the matter of conscription of wealth? On the contrary, the government by abandoning the business tax on excess profits and substituting a flat 4 per cent. income tax on the profits of all corporations, was relieving the profiteers of a great burden. A corporation today with capital stock of \$100,000 and clearing 100 per cent. profit had to pay into the treasury as a business tax \$64,500. Next year the same corporation making the same amount of money would only have to pay an income tax of \$4,800.

OIL BOOM IN DOVER.

Recent Strike of Old Company Brings Others into the Field. Special to The Toronto World. Chatham, Aug. 3.—Extensive drilling operations in Dover Township, in quest of oil and gas, is expected in the near future, following the recent oil strike of the Union Gas and Oil Company. The formation of a new company, known as the St. Luke's Oil and Gas Co., a large proportion of the stock being held by New York and San Francisco capitalists, was announced today. It is understood that the company has secured leases on some twenty thousand acres, and plans are being made to commence drilling within a few weeks. Other companies are also prospecting that district.

RENEW INTERNATIONAL FENCE.

Special to The Toronto World. Cornwall, Aug. 3.—A number of government surveyors are at work along the boundary line between the United States and Canada remodeling and setting new concrete posts at markers for the boundary. The surveyors began at Rouse's Point and are working westward, the survey being continued the entire distance across New York State at the line. These surveyors will be followed by others, who will map the country lying across the boundary line.

Easy on Profiteers.

Mr. Kyte (Richmond, N.S.) said that the income tax bill was supposed to be the government's attempt to conscript the wealth of the country as they were conscripting its man power. The house had been told that 100,000 men would be conscripted this year and 100,000 next year if necessary, and so on until the last man was taken, but could it be said that any such thore policy was being followed in the matter of conscription of wealth? On the contrary, the government by abandoning the business tax on excess profits and substituting a flat 4 per cent. income tax on the profits of all corporations, was relieving the profiteers of a great burden. A corporation today with capital stock of \$100,000 and clearing 100 per cent. profit had to pay into the treasury as a business tax \$64,500. Next year the same corporation making the same amount of money would only have to pay an income tax of \$4,800.

Farmers Escape Lightly.

Mr. Nickle also pointed out that munition makers and big profiteers were escaping lightly indeed. The business tax on war profits ceased with 1917, and the big corporations would then be subject to "no other tax than a 4 per cent. income tax. The discrepancy between what they paid under the business tax and what they would pay under the income tax was so startling as to justify the charge that the big interests were being let off with very inadequate taxation.

per cent. as much under the income tax law as they paid under the business tax law.

Mr. Pardee followed along in the same strain. He said that the real conscription of wealth in the measure before the house. We required a poor man to give up his life, but we only require the rich man with an income of \$100,000 to pay an income tax of \$14,800. It was idle to tell the people that you were taking this man's money to the same extent as you were taking his neighbor's blood to win the war.

White's Defence.

Sir Thomas White replied at length to these criticisms. He said the tax was as heavy as the income tax in the United States, and to make it too heavy would be to defeat the purpose of its enactment. Rich men would simply move out of the country and no fresh capital would come in if we embarked on a wholesale confiscation of wealth. Some members seemed to think that the purpose of the tax was to punish somebody. That was not the idea at all. The purpose was to collect money for the public revenue, while at the same time maintaining the business prosperity of the country. In making the tax comparatively low, he had in mind the generous contributions by generous people to the patriotic fund and Red Cross. If the income tax was made too onerous, these sources of contribution would be dried up.

Sees Time of Stress.

Sir Thomas said that while the war tax on business profits law expired at the end of this year, it must be remembered that the tax on the profits of 1917 would be collected and paid in 1918. They would be the heaviest taxes levied on business by any government in the world. He knew of one firm that would have to pay over a million dollars tax on excess profits in 1918. The passage of the income tax law would not relieve them at all as far as 1918 was concerned. If the war was not over a year hence, parliament could re-enact a law imposing abnormal taxation upon abnormal profits. He thought, however, that a year from now we would be in the reconstruction period and most of our big corporations would be drawing on their reserves to keep afloat at all. The debate was continued by Mr.

Maclean (Halifax) and Judge McKenzie (N. Cape Breton), who insisted that there should be some substitute legislation for taxing the excessive profits of the big corporations.

Special to The Toronto World. Brockville, Aug. 3.—The steamer John Webster, built the past winter by the Brockville-Morristown Ferry Co., and since the opening of navigation plying between these two ports, has been sold to the United States Government at a price, it is stated, in the neighborhood of \$40,000. After making two trips on the ferry today the boat was taken to Ogdensburg and arrangements for delivery were to be made there with a government inspector. It is said that the Webster will be used for transporting troops across a river in Virginia, and will, it is probable, be taken there immediately, down the St. Lawrence and along the United States Atlantic coast to its destination. She is 106 feet long, 26 feet beam and cost \$25,000.

DEES WHILE AT BREAKFAST.

Special to The Toronto World. Kitchener, Aug. 3.—Joseph Seiffert, aged 79, for many years a resident of this city, died suddenly at the home of his daughter here this morning. He had been in his usual health and did not complain when he came to breakfast this morning. Before he had finished his morning meal he dropped dead. He is survived by five sons and two daughters. Burial will be made at Southampton.

LEAVES WIDOW CRITICALLY ILL.

Special to The Toronto World. Kitchener, Aug. 3.—Edward Heller, aged 64, a native of this city, died near midnight at his home since the first being in failing health since the death of his wife. He was an active member of St. Peter's Lutheran Church. He leaves his wife, who is critically ill; a daughter, two brothers and one sister, to mourn his death.

# YORK COUNTY AND SUBURBS

## SCHOOL EXTENSION AT NEW TORONTO

Addition to Public School for Continuation Classes Nearly Completed.

New Toronto's new continuation school on Fifth street, an extension of the old public school, is rapidly nearing completion, but is not expected to be ready for the opening of the fall and winter term. Up to the present time almost all the plastering has been completed and as the whole interior trimming is yet to be done, Chairman John Gaunt yesterday stated to a reporter for 'The World' that it will be impossible to have the building ready before another six or seven weeks. Bad weather during the winter and the scarcity of labor, he said, was chiefly responsible for the delay in the construction.

When fully finished, New Toronto will have a school which will be proud of, built on the most modern lines. The addition is costing \$28,000, and will provide accommodation for 600 pupils, making the total capacity of the school 850. It is in the rear, and will contain four very large and airy rooms, including a semi-circular kindergarten room, constructed almost entirely of windows, and directly at the back. Another innovation in the new building is that the staff of eight teachers will have a special room with all conveniences on the second floor where the board room is also being enlarged.

New Auditorium. But the feature of the whole structure is the fine new auditorium on the third floor, which will seat 400 and will be fully equipped for stage and motion-picture purposes, with platform and dressing-rooms. It measures 35 by 35 feet, and has a 12-foot skylight.

To give the pupils the purest and best air, the board is installing a modern ventilation system fed by high-powered fans. This innovation is being fresh, clean air. The heating system is being overhauled, by adding to the old steam heating plant a second furnace and a new set of radiators. Commodious playrooms are also being provided in the basement, where the plumbing system is being entirely remodelled. The basement steps have been moved from the front of the building to the back, so that a finer entrance to the school could be constructed. Instead of the former square entrance, a neat arch has been built, enhancing the appearance of the atrium.

In building this continuation school at the present time, the New Toronto School Board has made New Toronto the centre for such education, as no other town or village between Toronto and York County has such an institution. Five new teachers have been appointed, making a total of eight, over whom Principal J. W. Tait is in charge of the continuation school work.

## Findings Commission Can Make Municipalities Pay

The Ontario Railway and Municipal Board has issued its opinion regarding the proposed reconstruction of bridges on the Toronto-Hamilton highway. The board has the power to order the replacing of bridges if in their opinion the present bridges are not adequate for traffic and they are the sole authority. The board has also decided that the municipalities "must pay on demand a sum equal to the amount that should have been expended in the replacing of the bridges had the Commission Act not passed."

## ASK GRANT FROM COUNCIL

Weston Public Library Board to Appeal for Funds. At a meeting of the Weston Public Library Board it was decided at once to appeal to the town council for a grant of \$200 as the board had already expended their funds.

## EARLSCOURT LEAGUE SOCIAL.

The help-one-another league in connection with the women's Bible class at the Central Methodist Church, Annet avenue, Earlscourt, held an ice cream social at the residence of Mrs. J. Colley, 20 Peterboro avenue, last evening, in the interest of the Earlscourt boys in the trenches. A number of interesting letters from the front were read by the secretary and several parcels of comforts were packed and despatched by France.

## SIDEWALKS IN BAD SHAPE.

Resident Says They Will Wear Out Long Before Payments Are Completed. "It would be interesting to figure out in thousands of feet the extent of cracked sidewalks throughout the Earlscourt district and the cost of repairing," said a prominent resident of the district yesterday. "The sidewalks are all of comparatively recent construction, and the cost of laying them is heavy burden on the taxpayer and will have to be met for many years to come. In my opinion the entire surface will require renewing long before the present liability for the way of local improvements is liquidated."

The Toronto Sunday World is for sale by all news-dealers and newsboys at 5c per copy. Readers and Dealers are advised that the price of the Sunday World has NOT been increased.

## CUSTOMS RECEIPTS SHOW INCREASE IN BUSINESS

Jump of Over Three Hundred and Thirty Thousand for Month of July.

Business in West Toronto at the present time is increasing at such a rate that the customs receipts for the month of July show the phenomenal jump of \$330,381 over July, 1916. Last July the collections totalled \$123,777, while this year the returns for July are \$464,158. Since April 1st this section of the city collected the large amount of \$1,780,351 for the customs department, whilst for the same period last year the figures were \$1,102,294, an increase of \$648,057.

## DISASTROUS BARN FIRE ON FARM NEAR KESWICK

John Smith Suffers Severe Loss by Spontaneous Combustion Developing in New Hay.

The barn, outbuildings and machinery of John Smith, farmer residing near Keswick, on Lake Simcoe, were totally destroyed by fire late Thursday night. Part of the season's hay crop, valued at \$45 and head of sheep were burned to death. Spontaneous combustion, developing from the new hay stored in the barn, is believed to have been the cause of the fire. The buildings were the property of O. B. Sheppard, Toronto, while Mr. Smith owned the sheep and contents of the barn. The buildings and stock were insured, but the loss is estimated at \$2000.

## MIMICO HOTELMAN FINED FOR SELLING LIQUOR

Evidence Showed That Liquor Was Sold to "Spotters" While Proprietor Was Away.

For selling liquor to two spotters, employed by the license department, on William P. Young, proprietor of the Bruce House, Mimico, was yesterday fined \$300 and costs by Police Magistrate Douglas Davidson. The trial took place in Crown Attorney Greer's office, and from the evidence submitted by the Crown, the violation of the Ontario Temperance Act took place when Young was in Detroit, and that the liquor was disposed of by his bartender, S. W. Burns, appeared for the defence and was acquitted. Magistrate Davidson, who was in charge of the Ontario license department, falling to put in an appearance for the second time, the case was adjourned. He is also charged with violating the Ontario Temperance Act.

## WEDDING IN EARLSCOURT.

Pte. Stanley Gordon Atkins Weds Miss Debina Robertson.

An event of considerable local interest took place last evening in Earlscourt, when Pte. Stanley Gordon Atkins, of the Earlscourt avenue, a returned wounded soldier, was united in marriage to Miss Debina Robertson, Teignmouth avenue. The wedding took place in Earlscourt Central Methodist Church, Annet avenue, and Rev. Ernest Crossley Hunter, B.A., officiated. Mr. and Mrs. Atkins will take up their residence in the district. Pte. Atkins, who was gassed and wounded in France, has two other brothers at present on the firing line.

## DEATH OF MISS B. WEEKS.

Was for Many Years Organist of St. John's Church, Weston.

The death occurred at Grace Hospital on Aug. 3, Miss Birdette Weeks of Earlscourt, after an illness of ten days. For many years she was organist of St. John's Church, Weston, and resigning from this position she was presented with a testimonial by the minister and choir. Besides her parents, she is survived by five brothers and sisters—F. W. Weeks, architect; J. E. Weeks, of the Olive Flour Mills, Montreal; George A. Beachville, Mrs. John W. Budd, Toronto, and Mrs. W. P. Griffith, Weston.

## HONOR SOLDIER MEMBER.

Caledonia Ratepayers Present Fountain Pen to Pte. S. A. Vance.

Pte. S. A. Vance, 118 Caledonia road, who has enlisted for overseas, was last evening presented with a gold fountain pen by the members of the Caledonia District Ratepayers' Association at a special meeting of the executive committee, held at the residence of the president, Dr. G. W. McIntosh, Caledonia road, Annet avenue, and the vice-president of the organization and one of its most energetic members.

## Man Found Drowned in Lagoon Identified as Peter Frederick

The body of the man who was found drowned in the lagoon at Centre Island yesterday morning was identified at the morgue late last night as Peter Frederick, 25 Earlscourt road. The man left his rooming house on Thursday afternoon to go bathing at the island. At 10 o'clock the same evening his clothes were found on the beach. The body was taken from the water at noon yesterday by Matt Aikroyd. The identification was made by E. P. Davidson, proprietor of the house where he roomed. Frederick was a gold beater by trade, and has a brother residing in Chicago. An inquest will be held.

## CITY HALL NOTES

Mr. Bradshaw has refused to sign any debentures to provide money for the extension of the Bloor street car line, owing to the present financial condition.

Considerable amount of evidence was submitted to the railway dispute conciliation board yesterday, and Chairman Judge Snider is hopeful of a settlement. He states that he has asked the men not to ask anything unreasonable.

The Harbour conservatory of mud has been allowed exemption from taxation on its institution on Wellesley street, with the exception of the residential portion.

The court of revision has reduced the assessment of the Selby House by \$6,000. It was assessed at \$21,995.

## OSHAWA PLANT BOUGHT BY McCLARY COMPANY

Canada Malleable and Steel Range Works Acquired by Well-Known London Firm.

The plant of the Canada Malleable and Steel Range Company, which went into voluntary liquidation some months ago, has been purchased by the McClary Manufacturing Company of London and they have taken a six months' lease of the property. John Lang, former superintendent of the old company, has been engaged to act in a similar capacity, and all former employees available will be re-engaged. Col. Gardner, general manager of the McClary Company, who was in Oshawa on Wednesday, expressed satisfaction with the plant and buildings and stated that he contemplates to establish a permanent industry in Oshawa. He considers the town an excellent industrial centre. G. Hazen, former manager of the Canada Malleable and Steel Range Company, has purchased the manufacturing stock and bills receivable of the old company, and he has his time to sales and collections, making his headquarters in Toronto.

## DEER PARK PATRIOTIC LEAGUE

Very Satisfactory Report of Year's Work Presented.

The Deer Park Patriotic League, a society organized at the outbreak of the war, has ever since been actively engaged in patriotic work. During one year only, 181 pounds of yarn, 190 yards of flannel, 158 yards flannel and 283 yards of muslin were made. They completed 1000 pairs of socks, 132 grey shirts, 230 pyjamas, 122 gauze shirts, 26 hospital shirts, 100 pairs of trousers, 80 pairs of mitts, 75 handkerchiefs, 78 property bags, 84 hot water bag covers, 18 Christmas stockings, 36 pillow slips, 114 pads, 230 slings, 1500 pairs of socks, 1000 pairs of ties and 14 boxes of miscellaneous supplies. They are, however, now concentrating on the making of hospital supplies, and a list of the work done above is sent to the headquarters of the Red Cross for distribution.

## HUMBER BOULEVARD OPEN

For Benefit of Motorists During Civic Holiday.

To allow the hundreds of motorists to proceed along the Humber boulevard during the Civic holiday, the city authorities will today open the boulevard for two traffic and keep it open until Tuesday, when it will again be closed to complete the repaving and widening, which has been going on for the past month. This favorite and picturesque route starts from the Lake Shore road, runs north to the new viaduct, and then follows Bloor street, from which the boulevard proceeds towards the Dundas road. It is over three miles in length and according to an announcement made yesterday by Home Smith, turn of whose property the road runs, the whole boulevard will be entirely completed by the end of next week.

## CHURCH TEMPORARILY CLOSED.

Davenport Road Anglican Congregation Hold Services in Oakwood Collegiate.

Owing to structural alterations at present taking place at Davenport Road Anglican Church, the regular Sabbath services are being conducted at Oakwood Collegiate Institute.

Under the supervision of the contractor, Allan McCarthy, the building is being rearranged to accommodate the Sunday school, which is growing rapidly.

## NEW ROUTE TO WESTERN CANADA PROVING POPULAR

Runs Through Famous Clay Belt of New Ontario and the Cobalt Mining District.

On your next trip to Western Canada why not travel over a new route, see the wonderful land opened up in Northern Ontario and gain a glimpse of Timagami and the Cobalt silver mining region? Two famous trains on your journey without any added expense for railway fare as compared with any other route. The International Limited will carry you to Toronto, where "The National" starts on its westbound flight. "The National" uses the rails of the Grand Trunk to North Bay, the Timiskaming and Northern Ontario (provincial government line) to Cochrane and the Canadian Government railways to Winnipeg, where it links up with the Grand Trunk Pacific for all important points in Western Canada.

A pleasant daylight run to Toronto, an evening in the Queen City and "The National" is ready to carry you westward. The departure of "The National" from Toronto is at 10:45 p.m. on Tuesdays, Thursdays and Saturdays. North Bay is reached early next morning, and there open up for your admiration all the lakeland beauties of the territory served by the T. and N. O. line. The day is followed by a wonderfully interesting trip through the sparsely populated territory of New Ontario, giving the traveler an opportunity of inspecting this fertile region, including the famed clay belt, where tens of thousands of settlers will make their homes in the future. The area of New Ontario is 330,000 square miles, straight level roadbed embankment, and in addition to great expanses of good farming land it has wonderful resources in timber, minerals, water power, and many other things. The three railways have combined to make the passenger service over this new road the equal of that offered anywhere on the continent.

The smooth straight level roadbed embankment at all has been learned in the experience of a century of railroad travel. The greatest travel comfort is assured.

## PROTEST AGAINST VIADUCT DELAY

Deputation Urges Increased Activity on Part of the City.

## CANNOT GET RAILS

Mayor Promises That Work Will Be Pushed Night and Day.

The net result of a conference at the city hall yesterday over the early completion of the Bloor street viaduct was:

That those who live over the Don, in Rosedale and up Yonge are most anxious to have the use of the bridge at the earliest possible moment.

That the finance commissioner will be able to provide the money necessary for the early completion of the bridge and approaches, to the end that the bridge be put in commission this fall.

That there is some uncertainty yet whether the rails for the car tracks and for the main bridge can be had in time to put them down before the snow comes. That the good offices of the government of Ottawa might be invoked to ask the Government of the United States to allow the rolling mills over there to roll enough rails for this purpose.

That an arrangement might be made with the contractors of the bridge to turn over the work to the city as soon as it is done, even though the contractors in advance of the stipulated time.

That in any event by using a temporary curb it would be possible to have a roadway which would be filled in with the specified crosstie blocks, in a very short time after the bridge was finished, or that perhaps a special contract could be brought with the contractors to do the paving and rail laying as part of their contract without asking them to turn over their work earlier than the specified time.

That in regard to the smaller or Rosedale viaduct, the officials of the city stated that they had sufficient for the viaduct, and they were only waiting for the oak ties; and as they already had the crosstie blocks on the work there was no reason why the Danforth work could not be started almost immediately.

As to the approaches of the bridge, a new information was brought, and it was in order to complete the 900 feet of pavement from Broadview along Danforth avenue to the east end of the bridge, it would be necessary to bridgehead it with the new viaduct, and to have this done the mayor undertook to call an early meeting of the council and committee to charge with the work.

That according to Mr. Powell, one of the city engineers, the roadway in Rosedale between the west end of the main viaduct and the east end of the Danforth viaduct could be also completed and paved in time for use this fall.

That further conferences will be held next week when Works Commissioner Harris will have returned to town to state his exact attitude on the situation.

But there was considerable surprise expressed by members of the large deputation who waited on the mayor, that the city would not seem to be anxious to have the bridge opened and completed this year; that definite statements could not be had as to what would be the actual cost of the bridge, and why the city, having had so much money of which the bridge was to be a part, had not been able to get the bridge, and had not all the approaches not only under way, but completed by this time; and that legislation to complete the bridge was not only passed but operative.

Among those present who took part in the discussion were Mayor "Ottawa," Aldermen Aldermen Robb, Robb, Bell, Beamish, Risk, Mr. John Harris, W. F. Maclean, M.P., Dr. E. A. MacDonald, president of the North York Ratepayers' Association, and others. Those who addressed the mayor in favor of the early opening of the bridge were Controller Foster, the aldermen, Mr. Maclean, Mr. Harris, Mr. Robb and Mr. Maclean. They all urged that a great many citizens had expected the bridge this fall; they all needed a local viaduct, and the completion of the city; the opening of the bridge would relieve the pressure, shorten the time, and save an enormous saving in time and wear and tear of vehicles and most of all in the time of the thousands of citizens who wanted to get across the bridge. The bridge was the greatest single public improvement Toronto had ever undertaken and the people wanted it as soon as it could be got ready.

Ald. Robb thought that the city officials were rather lax in their methods. The work had been going on for two years and it seemed very strange to him that they had not provided for a supply of rails before now.

Mr. Powell stated that Commissioner Harris was endeavoring to obtain rails thru sources for which he was not permitted to make public. Up to the present the works department had exhausted all the possibilities of the ordinary market. In explaining the situation to the deputation, he stated that the city was to lay all the rails and put the approaches to the viaduct into condition. As there was a time limit in the contract with heavy penalty attached the contractors might be unwilling to allow the city to get on with the track laying until the remainder of the work was completed as there might be delay in completing the viaduct itself as a consequence. Should the city insist it would relieve the contractor of the work with a heavy penalty attached the contractors might be unwilling to allow the city to get on with the track laying until the remainder of the work was completed as there might be delay in completing the viaduct itself as a consequence. Should the city insist it would relieve the contractor of the work with a heavy penalty attached the contractors might be unwilling to allow the city to get on with the track laying until the remainder of the work was completed as there might be delay in completing the viaduct itself as a consequence.

The suggestion was offered by Mr. Maclean that the city officials approach the government at Ottawa with the request to help the city out of the difficulty. All the steel plants in the United States and Canada were more or less under government control, he said, and if representations were made it might be possible to have some of the contracts held up for a few days.

In order to give Toronto the necessary rails, he pointed out that there was a loss of time estimated at an extra cost of \$500 a day for wear and tear on vehicles. At present residents of the east end had to make a detour of Gerrard and Winchester hills, which was almost impassable.

Mr. Powell told Mr. Maclean that Mr. Harris had been endeavoring to get results along the lines of the suggestion, but no satisfaction had been obtained. Replying to Ald. Beamish, the engineer stated that the approaches to the viaduct were not affected by the original contract. The alderman then wanted to know why the work was not proceeding, and Mr. Powell surprised the deputation and the board by declaring that the approaches at the Danforth avenue end would have to be carried out under the Local Improvement Act. The work on the Parliament street end had already started.

Ald. Bell asked if the matter of local improvements had anything to do with the delay of the work, and particularly at Danforth avenue, and Mr. Powell replied that under the act no local improvements had been recommended this year.

Criticized Commissioner. Commissioner Harris was criticized by Controller Foster for not having notified the board of the completion of the work. If the contractors would complete their part of the work immediately and lay the rails and complete the sidewalk.

According to Dr. J. A. Macdonald, president of the North York Ratepayers' Association, 20,000 residents of North York would lose one hour a day by reason of the non-completion of the viaduct, and Mr. Harris stated that if the rails could not be obtained it would be a great convenience to use the sidewalk and have the wagonways completed this fall.

Financial Problem. The mayor stated that it was not only an engineering problem but a financial one and he had instructed the finance commissioner to see that nothing stood in the way. So far as was concerned night and day shifts would be engaged until the work was completed. He thought the

## A Soft, Clear Skin

There is a very good reason why so many women always keep Dr. Chase's Ointment at hand. The reason is apparent if you will but notice the soft, clear skin of the person who uses it.

Unlike pore-clogging powders, Dr. Chase's Ointment promotes the healthful action of the pores of the skin, and while it heals and cures eczema and every form of irritating skin disease, it is also equally effective as a beautifier of the skin.

Rough, red, harsh skin becomes soft and velvety when this soothing, healing ointment is applied at night after a warm bath. Write to us for a free sample box, or buy a large box from your druggist and put this ointment to the test. You will be surprised and delighted at the results obtained.

## GO BACK TO FRONT

Returned Men Fully Recovered Asked to Return to France.

It is now expected that recruiting among Canadians will be slack until after the harvest, owing to the united efforts of the Dominion and provincial governments to secure all the suitable help possible for the farmers.

Finding the mobilization in the early fall, presumably under the Military Service Act, the military authorities are making a wide scrutiny of the former overseas men, the various losses and the normal health and physical condition of the service overseas men. A large number have already been found, and they have willingly consented to go back to Europe to again take part in being back the Hun from the western front.

U. S. Doctor Joins. Dr. Albert Randall is among the Canadians who have come from the States to do military service. He was at Konoabo, Wis., and has been attached to the military hospital staff.

Altho there has been a let-up in allied recruiting overseas, the call for practically all the other branches of the service. With respect to artillery, it is understood that a second artillery division is being sent to go to Ontario to do temporary garrison duty at Bermuda, for the purpose of releasing a well-trained infantry battalion there for immediate shipment overseas.

In addition to infantry, the chief call just now is for railway construction, forestry, army medical corps and mechanical transport men.

Enemies at Large. Warnings have been received by the military authorities concerned with the oversight of aliens in Canada to be on the lookout for a number of Germans and Austrians who have left their settlements in the west for other parts of the Dominion to avoid the operation of the Military Service Act. In some cases they are said to have used their local political pull to get permits to travel from civic officials who have furnished such certificates, which, however, have no legal value.

Sixty-one men were examined at the Toronto mobilization centre yesterday, and 31 attested for overseas service. In addition 45 military police were examined only. The 31 attested included 13 from the United States. The attested recruits were allotted as follows: Q.O.R., 1; 10th R.G., 4; 48th Highlanders, 7; 109th, 1; C.M.S., 2; Engineers, 2; A.M.C., 2; U. of T. Training Co., 1; York and Simcoe Forestry, 6; Forestry Draft, 1; I.W.T., 1. Five recruits were attested for the Royal Flying Corps.

## Boy Collides With Wagon Receiving Internal Injuries

Riding his bicycle down the grade on Simcoe street the Union Station yesterday afternoon fourteen-year-old Ralph Finston ran into a team of horses attached to a Dominion Forestry wagon, and one of the horses stepped upon his stomach, forcing the wagon to stop. He was taken to the general hospital, where it was found the boy was suffering from internal injuries. His condition is critical. The wagon was driven by James Simms, 443 Montrose avenue.

### SOLDIERS' DOUBTS ARE REASSURED

#### Returned Men Demand Statement as to Sincerity of Convention.

### RESOLUTIONS PASSED

#### Yesterday Morning's Win-the-War Meeting Drafts Messages to Government.

At the meeting of the win-the-war convention in the arena yesterday morning, Sergt. Turley, secretary of the Great War Veterans' Association, dropped a "whizz bang" speech that for a few minutes threatened the serenity of that gathering.

Following a resolution for the creation of a national government, Sergt. Turley rose to the feet and inquired about the sincerity of the gathering, and criticized the reception that had been given N. F. R. Knight, Dominion secretary of the Great War Veterans' Association, at the previous evening's event.

"I have come down for information," said Sergt. Turley. "Up to last night the Great War Veterans had felt that the win-the-war convention was a sincere movement. We went away with doubts about that. We have thought and talked it over a lot during the night, and we felt that some explanation should be given of the reasons for putting an end to the speech that was being made by Dominion Secretary-Treasurer Knight of the Great War Veterans.

"When he was stopped he was criticizing Sir Wilfrid Laurier. We felt that he was a fit subject for criticism. We want to win the war, no one more so; we consider conscription the best way to shorten the war and we regard the opponents of conscription as enemies. Col. Mulloy admitted that the voluntary system had failed. Sir Wilfrid Laurier says he is for the war, but for the voluntary system. It is sincere that is not the statement of honest sincerity after three years' war."

F. B. Peirsonhaugh said that there should be no general election and moved "that in order to endorse the basic principle upon which the win-the-war league has been founded, the prime minister should again ask for an extension of parliament immediately upon the formation of a national government, and that he should be allowed to become a by-word and reproach to all the world as a nation of quitters and the present generation to be a disgrace in the eyes of its children.

"Are we going to allow insincere, unscrupulous and servile politicians to prevent all the duty to God, to King, country, to mankind, to democracy, humanity and civilization for all time to come? But motto should be 'Carry on, Canada!'"

Some disturbance and uproar followed these remarks and Mr. Burgess of Carleton Place took the platform and asked if the statement of Sgt. Turley was true.

"You are not in order," ruled Chairman Godfrey.

"It looks as though this is a cut and dried affair," shouted Mr. Burgess.

Cries of "sit down" and a further ruffling from the chair prevented Mr. Burgess continuing.

J. Walker Curry, K.C., said he did not propose to permit Sgt. Turley to say that those who did not see eye to eye with him were disloyal. His son he said, had lost his life at the front, and he was not trying to play politics.

"I will warrant," said Sergt. Turley, "that if Mr. Curry's son were alive today he would advise more extreme action than I do. I am not making any accusations against any individual; was calling attention to what appeared to be suspicious conduct."

Sergeant Is Answered.

"My credentials are that I have more than fifty of my blood serving today at the front," said Mr. Burgess. "Thirteen will never come back. There is no trick. There is nothing but one aim, namely to win the war, and that is the duty of every individual; was calling attention to what appeared to be suspicious conduct."

"Thank you," replied the sergeant, "that is the information I came here to get."

Following the meeting the following statement was handed to the press by the win-the-war committee:

"In view of the fact that there was some feeling expressed that speakers from the great war veterans were entitled as to terms, Mr. Frank Wise, secretary, makes the following official statement: "The first part of the program for the main meeting of the night was in the hands of the secretary of the Great War Veterans' Association. Their officers gave us no particulars as to what time was to be allotted to different speakers. The speakers names were given to us but that was all it was clearly understood by both associations that the advertised time table be rigidly adhered to. The arrangement was that the war veterans should close their program at 8.50, and it was so advertised. In pursuance of this

#### HEALTH OF THE NATION GUARDED BY "FRUIT-A-TIVES"

#### Hundreds of Canada's Sturdy Sons in Khaki Owe Their Vigor and Vitality to This Fruit Medicine.

In the shell-swept trenches of Belgium, in the poppy fields of Flanders, in the great concentration camps of England, the fierce energy and driving power of "the Canadians" are the admiration of the armies.

Anything which means improved health for the man and woman of today is of vital importance to the country.

This is why "Fruit-a-tives" has been, and is, of national service. This famous remedy—so pleasant to take, so curative in action—has relieved more cases of Stomach, Liver, Blood, Kidney and Skin Troubles than any other medicine. And in severe or chronic cases of Rheumatism, Sciatica, Lumbago, Impure Blood, Headaches, Constipation, Neuralgia, Pain in the Back and chronic Indigestion, it has brought relief to those who had given up all hopes of being better.

You must be at your best to serve your country best. If you are troubled with any of the complaints mentioned above, get a box of "Fruit-a-tives" today.

arrangement, Mr. Godfrey simply notified Mr. Knight privately that his time was nearly up. The war veterans were allowed the full time under the arrangements made between the two committees.

Committee on Resolutions.

A. E. Ames, chairman of the committee on resolutions, was called upon as soon as the convention opened, to present his report on the work performed since organization. The following was read as the selected part of the first resolution which had been prepared from several that overlapped each other:

"This convention declares that in this crisis in the affairs of Canada, the following principles ought to be adopted by all true Canadians:

"1st.—That Canada must dedicate all resources of men and means to winning the war.

"2nd.—That in order to justify our national existence, to succor our living and to be worthy of our dead, measures conscriptive of men and resources must be immediately adopted and enforced to maintain the strength of our forces at the front and to discharge our full duty in the existing emergency.

"3rd.—That a national non-partisan government must be established for the vigorous prosecution of the war.

"4th.—That all elements in the country which place winning the war above all other considerations must be united, to the end that they may be made effective to overcome difficulties and in difference, and that the people of Canada may be consecrated anew to their high destiny of service in the war.

"5th.—That action on all controversial questions not affecting the war must, so far as possible, be postponed until after the war.

"6th.—That measures in accord with the above principles are greater than men, and that allegiance to any leader who has not himself accepted these principles is inconsistent with win-the-war principles.

"And this convention therefore declares that it will not approve or support the parliamentary candidacy of any person who does not endorse the above principles."

Like Another National Crisis.

Col. Mulloy, in rising to move the above resolution, was received with a great ovation. He said he moved the resolution particularly on account of the sixth clause. He compared the present crisis to that of fifty years ago, and said that only by pulling together as Brown and Macdonald had done could the country be saved.

The voluntary system has been tried until it failed, and the problem of whether or not the war should be proceeded with had to be faced. Regarding Sir Wilfrid Laurier, the colonel spoke as follows:

"The leader of the anti-conscription party says, I have been misquoted. I am in the war to the end on the voluntary system. That means that he is in the war to the end upon a system which is as dead as Julius Caesar. He is in favor of the system which must please every pro-German in this continent. You cannot get recruits on the voluntary system, and the question is, shall there be equal sacrifice and equal bearing of burdens?"

"There is going to be a general election," added the speaker, who argued that the delay of the war, and the alien would favor those against conscription.

"Shall the destiny of this country be placed in the hands of a group of men who hold those principles?" he asked.

"We will not support any man who does not stand for compulsory national service and does not repudiate all connection with anti-conscription forces."

Quebec Would Come In.

In seconding the resolution, B. A. Gould urged that all controversial matters should be left in abeyance. Sir Wilfrid made it impossible for any win-the-war Canadian to support him or any of his candidates. The people of Quebec had been under the influence of selfish politicians and

churchmen, but he held, amid cheers, that if they were made to understand the question they would stand by the win-the-war party.

N. F. Davidson, K.C., moved as an amendment that the last clause read: "That I will not approve but will take steps to oppose the parliamentary candidacy of any person who does not endorse the above principles."

After some discussion the motion passed with the following addition: "That no activities incident to an approaching election be allowed to delay the impartial enforcement of the military service bill of 1917 immediately upon its becoming law."

A resolution by Col. R. W. Leonard, seconded by J. P. Murray, was as follows:

"Whereas this convention, deeply deploring as it does the holding of a general election in time of war, recognizes that one now appears to be imminent, resolved, first, that the prime minister should without delay form a national government of all who demand vigorous prosecution of the war, and in determining upon its members should disregard questions of previous party affiliation.

Win-the-War Candidates.

Draft resolution No. 4 was moved by Arthur Hawkes. It reads:

"Whereas this convention holds it of prime importance that any election during the war be purified from the poison of partisan strife and made a demonstration of the courage and determination of our people to cast aside lesser things and unite for the performance of our national duties.

Resolved that in any Dominion election during the war all the win-the-war elements in each constituency in Ontario should unite upon a single candidate pledged to win-the-war policies, that such candidate should not accept the nomination of any political party nor represent it, and that strenuous efforts be made in each constituency to have such win-the-war candidates elected by overwhelming majorities.

Mr. Hawkes said it was useless to protest against a general election now. He was surprised at the advancement in the government ranks of a desire for unionism. There was throated the country almost a universal demand for union government, and the great faith in the women's vote to elect non-partisan candidates. An amendment was voted down and the resolution carried on a standing vote.

Resolution No. 5 was moved by J. G. O'Donoghue as follows:

"Whereas this convention shares the deep-seated conviction of the people of Canada and the accumulation of wealth out of the exigencies of the war.

Resolved that the government should recognize that the chief burden of taxation fall upon those able to sustain them, and especially in large measure exorbitant profits due to the war.

Extend Parliament's Term.

The chairman of the committee on resolutions brought in the following, which was carried:

"Whereas this convention deeply deploring the extent to which a general election during the war, resolved that the prime minister should without delay form a non-partisan government, representative of all who demand the vigorous prosecution of the war; and, immediately on the formation of such government, the leader should introduce a resolution requesting the extension of the term of parliament."

The resolution was opposed by E. Gould, J. W. Curry and Capt. Duncan, who has just returned from the front, and believed that no part of the country which place winning the war above all other considerations. He did not see the reason to fear an election.

The two following resolutions were passed unanimously:

Moved by Mayor W. B. Burgess, St. Catharines, Ont.; seconded by F. W. Fresham, Hamilton, Ont.

"That this convention appeal to the department of militia on behalf of the brave remnant of the first contingent, the splendid body of men who left Canada nearly three years ago and, for now nearly 40 months have so splendidly upheld the honor of Canada upon the battlefields of France and Flanders, that as soon as new forces can be sent from this country to take their places they be given a furlough of at least three months, and an opportunity to revisit this country."

A resolution was received by the secretary of the win-the-war convention from John Vick, vice-president of the Greater Toronto Labor party, in which the views of the party were set forth and the necessary measures to bring the war to a close were outlined. The resolution was referred to the committee on resolutions.

Among the measures suggested by

Mr. Vick were: That the production of munitions be placed in control of a commission responsible to the Canadian government and that labor representatives be appointed to such a commission; that all concerns producing or storing foodstuffs should be placed under government control; that adequate measures be adopted for the support of the members of the Canadian expeditionary force and their dependents; that a legal rate of interest of ten per cent. be established for the continued period of the war; that in addition a graded income tax be established on incomes up to \$100,000 and that all incomes over this maximum be appropriated for war purposes, and that all transportation and communication facilities be placed under government control during the period of the war.

On motion the chairman was empowered to appoint a delegation to go to Ottawa for the purpose of presenting the resolutions to the prime minister and others. Mr. Godfrey selected a large committee to meet with him at the National Club in the afternoon and proceed to Ottawa later.

The delegation included the following: A. E. Ames, S. R. Parsons, A. Hawkes, J. G. O'Donoghue, Col. Mulloy, J. L. Counsell, and Mrs. Torrington, Mrs. Stevens, Mrs. L. A. Hamilton, Mrs. A. M. Huestis and Mrs. A. E. Gooderham.

### GEORGE B. KIRKPATRICK DIES AT EIGHTY-TWO

Had Been One of the Early Settlers in This Part of Ontario.

George Brownly Kirkpatrick, one of Ontario's early settlers, who for over fifty years was in the employ of the Church and was always much interested in the welfare of the Sunday schools of the church. He was also a member of the Forestry Depot, which had to have them medically examined and categorized. Now Casualties are being made into what is known overseas as a "communit depot." When all this preliminary work is done, and when the men are properly categorized, they will be re-transferred to units for which they are found fit.

An all-English football team, picked out of the whole camp, defeated an all-Scottish team at Soccer football by a score of 2 to 0.

NEW HIGH RECORDS ON STOCK MARKET

Steele, With War Specialties, Attract Bulk of Traders.

New York, Aug. 3.—The third consecutive session of higher prices marked today's broader stock market operation.

As usual the greater part of the trading was in stocks and the number of transactions was unusually large.

Industrial Alcohols responded to the advance to yesterday's dividends of 22 per cent.

United States Steel led the list at an advance of three-quarters of a point.

Canada and low-grade falls were the most active issues in the market.

Coppers, oils and motors were dull or moderately heavy.

London, Aug. 3.—The feature of the trading on the stock-exchange today was a sharp rise in Canadian railroads.

Ontario Steel Products. The profit and loss account of the Ontario Steel Products Company for the last year is as follows:

Net profit for year after providing for depreciation, business profits, tax, etc., \$152,295.90

Dividend for 1916, \$100,000.00

Provision for 12 per cent on arrears of preferred dividend, \$120,000.00

Payable 15th August, 1917, \$2,750.00

Amount transferred to reserve fund—1st July, 1916, \$12,000.00

—1st July, 1917, \$12,000.00

LITTLE VARIATION IN LOCAL PRICES

War Bonds, Hold Firm, But Speculative Issues Make No Sustained Advances.

There was little variation in the Toronto stock market yesterday.

The steel market was active, but the advance was not made for market conditions were not made for market conditions.

Domestic Steel closed 61, but some realising brought the price back to 60 1/2.

Kemerer, Matthes & Co. in their report to the shareholders.

Since the Hollinger management met the demands of the men in the matter of increased wages.

The company is now working on one hundred faces, and it is estimated that about 5,000 feet of something that, about a mile per month of drilling and cross cutting is done.

The Hollinger has abandoned the practice of issuing monthly statements.

SILVER STRONGER WITHOUT EFFECT

Mining Market Continues Dull and Traders Even Up Books Over Holiday.

Silver made another rise yesterday, but the speculative apathy in the mining market did not admit of any recognition of this.

Traders were not willing to make any new commitments, and traders long and short

biased themselves only in evening up books over the holiday.

The high price of silver was ten points stronger and Dome almost a similar amount.

Drabbling sales of McIntyre carried this stock below 160.

Crown held steady with sales at 9 1/2, and Dome Ex. eased down to 15.

In the silvers, good buying was reported in Adanac and Hargraves.

Interest is centering in these two stocks owing to the possibility of overnight news that would mean an active and sharp rise.

The New York offering found a ready market at 65, and sales about two points higher were reported from the New York Curb.

Timskaming held steady around 24, but the market for this stock is booming congested and it no longer has the freedom it used to have.

Investors are gradually disposing of holdings and brokers fall to see where a market is to be had should a selling movement develop.

The market generally is quiet and business is resumed. Yesterday's sales were below \$5,000 shares.

PRODUCERS WILL HOLD THE SILVER OUTPUT

Hamilton B. Wills in his weekly market letter says: "The world's production of silver is falling off at the very time when the demand is increasing."

This indicates that producers will naturally hold their silver until the price conforms to the law of supply and demand.

With increased profits according to the operating companies, the silver stocks of necessity will seek higher market valuations.

At ruling low quotations the silver stocks of Cobalt, Timskaming, Utah and the Cour d'Alene districts are incomparable bargains.

MARKET HAS BETTER TONE.

Heron & Co. had the following at the close: Montreal Aug. 3.—Dominion Bridge was easily the feature of today's market, advancing another five points to 140.

While Fortings was strong again, early trading in these two stocks was given the whole market a better tone.

Dom. Steel, Steel of Canada, and Steamships were strong stocks in the early morning, but interest lagged towards the close as was natural on the eve of a holiday.

BANK OF FRANCE.

Paris, Aug. 3.—The weekly statement of the Bank of France shows the following changes: Gold in hand increased 1,000,000 francs.

Gold in circulation increased 1,000,000 francs.

Drilling Results Favorable at the North Davidson

The North Davidson at Porcupine meeting with success in diamond drilling. Some delay was caused in the start by hollers having to be replaced, but since then the work is progressing well. It is expected before the season is over that the North Davidson will have considerable oil reserves. The management are well satisfied with the results so far attained, and will continue to drive the drills to the westward. Considerable inquiry has been created for the stock which is at present closely held. As soon as the stock is listed these shares will be considered for the shares of the North Davidson.

WINNIPEG GRAIN MARKET

Winnipeg, Aug. 3.—Trading in wheat for future delivery was moderate today, although the market was firmer and higher.

October opened 10 cents better than yesterday's close, at \$2.25, and was bid up to \$2.30 during the session, but reacted before the close.

Oats were steadier and fractionally higher. The December option in first appeared on the board today for the first time.

There was no business done in barley. There was a continued demand for all grades of wheat and oats in the cash market, but offerings were light. Prices were higher for all grades under No. 1.

# The Eleventh Hour Strikes!

## ---there remains but four and one-half hours in which to prepare for the holiday. Store Closes Today at One o'Clock

Today, more than ever before, men compare values, realizing that quality is hard to get, and that there are more quality seekers than there are quality clothes.

By comparison many men have found in Simpson's a Men's Store that believes primarily in quality, but only to the point of supplying better values, not as a gateway to high prices. Men have also found at Simpson's a Store of correct styles--styles that are backed by the authority of Michaels-Stern of Rochester, and the House of Kuppenheimer.

### Here's One of the Many Low-Priced Holiday Offers for Today--Summer Suits \$9.90

There are ready for early shopping a special lot of suits in tropical weight tweeds, flannels and mohairs, broken lines and odd sizes, including the popular two and three-buttoned sacque suits, as well as these smart Norfolk and pinch-back styles. Two-piece suits, some unlined, some half lined; all are carefully tailored. Sizes 34 to 44. Of course they're greatly under the usual 9.90 selling price. On sale today at . . . . 9.90

- Two-Piece Suits of Heavy Wool at \$3.50

### Outing Shirts One Dollar

These are shirts for which many stores get one-twenty-five, and at that price the assortment is limited, compared with what our men's store is prepared to array.

"Why?" you may say. Because we bought almost the entire output of a large shirt maker. He is known as one of the best shirt makers in the country, and gets credit for selecting the handsomest materials.

The shirts are tailored from fine percales and English cashmeres, the former in neat pin stripes. The latter may be had in the new Persian stripes in many colors, etc.

Designed with thin, soft attached collar that may be turned under when linen collar is to be substituted. Sizes 14 to 18. Exceptional value at 1.00

### Panama Hats \$5, \$7, \$8 Values Today \$2.95

(No Phone or Mail Orders Filled.) We believe in giving men whatever advantage we have to offer at a time when it would be most appreciated, hence this grand Panama Hat opportunity here in time for the holiday. Dashing hats, every one of them; lines taken from swift-selling stock, including tele, scope, fedora and negligee shapes--styles that earlier in the season would readily bring the regular prices: \$5.00, \$7.00, \$8.00. Today you may have any hat in the lot for 2.95

### Straw Hats

We have put the hurry-out tags on all our straw hats, not because there is anything wrong with any of them, and not because we think the season is over with, but because it is our custom to clear stocks quickly. Your opportunity to get a new hat for the holiday at less than makers' cost is here. Come today. Straw hat prices for today are . . . . .69, .95 and 1.45

### A Special Purchase Outing Pants On Sale Today \$1.49

Just 250 pairs of men's Cotton Worsted Trousers in "outing" style, with belt loops and cuffs. Being a smooth, light weight material, they make an ideal trouser for this hot weather. Sizes 30 to 42.

English Flannel Trousers, in a white ground with blue stripe patterns, made outing style; perfect fitting. Sizes 32 to 44. Today 4.00
