Austrians Retire to East of Vallone for Fresh Stand.

ROME, Aug. 11, via London, 7.45 p.m.—The Italians have occupied the entire Doberdo Plateau, the war office announced today. The Italians have also captured Rubbia and San Martino del Carso. They have reached the line of the Vallone River. The Austrians have retired to the east of the Town of Vallone.

The war office statement follows: "Yesterday the third army continued with increased vigor the attack on San Michel and San Martino sectors, which had begun on the 9th instant, and it succeeded in capturing very strong defences of the enemy between the Vippacco and Monte Cosich. From information gathered so far it seems that a fracas arose, involving a large number of men, altho it is now known that only five are concerned in the charge of murder. These five are all relatives of Martin, and it is alleged that they were armed with clubs. The accused states that he withdrew from the affray in the early stages before Powless had suffered any injury. A number of counter charges of assault have been laid by friends of the prisoner against men alleged to have been companions of Powless. LONDON, Aug. 12, 1.35 a.m.—A cor-espondent of The Times, recently returned from Syrla, writes as follows concerning conditions there:

"The state of the people of Syria is past all belief. It is estimated that from 60,000 to 80,000 have died from starvation in northern Syria. The Turks are proceeding with great thoroness in removing large sections of the population, and in some vilayets there are no Arabic-speaking Christians left.

"The epidemic of typhus is gaining everywhere, and a great many Turkish army doctors have succumbed to the disease. Many civilian prisoners, mostly British, also have contracted typhus. been seen. If the Russians get beyond Halicz they will have fairly open country for their operations.

On the northern flank of the Austrian group of armies the Russians are exerting great pressure against the Sereth River lines and they have extended their territorial gains in preparation for their march on the Tarnopol-Lemberg railway. Their present object is evidently to seize as many railways and vantage points and to threaten as many others as they can before they put on full steam to administer the finishing stroke to the Austrians. The German official communication assumed a boastful tone yesterday, altho the great general staff has had nothing worth bragging about, for a rigid defensive on the Stokhod lines is surely not what the Germans would elect to maintain. Meanwhile it may be expected that the Russians are making a concentration of shells for the daunching of strong hammer blows in some other quarter of their lengthy

After their success at Gorizia, the Italians are not only advancing eastward, but they have widened the gap that they have made on the Isonzo front by capturing the Doberdo Plateau. They also pushed on to the east from Gorizia and captured Rubbia and San Martino. Their third army has driven the enemy from his strong defences between Vippacco and Monte Cosich and forced him to retire to the east of Vallone. It has been ascertained that east of Monfalcone and Gorizia the enemy is holding trenches on the line of the Monte San Gabriel and Monte San Marto. Italian troops have already reached the southern slopes, both of this new line and of the line of Vertobizza. A great many prisoners and much war material continue to be taken. It is unofficially estimated that the Austrian casualties sustained in the storming of Gorizia by the Italians amount to 90,000 to 100,000. At any rate it was a terrific blow

The loss of so many effectives and of such a great quantity of war materials, as shells, creates a new and a tremendous demand on the resources of the already perplexed Austrian general staff. Austria has become unable to replace casualties with news drafts of recruits. Germans are called upon to fill the vacant positions in the ranks. But Germany also is beginning to feel the pressure of coming exhaustion. With the 1918 class of recruits just coming in, the return of the rejected among the classes of 1916 and 1917 and the coming return of the wounded to their ranks, it is estimated that she has still a surplus of three-quarters of a million in man-power to fall back on. The losses of Austrians and Germans at the present stage of the operations probably reach 400,000

The reports of the beginning of a heavy action on the Saloniki front with heavy artillery engagements by Lake Doiran, with the occupation of the village and station of that name by the allies, may presage the opening of an offensive to beat down Bulgaria and to liberate Serbia. Altho a section of foreign-controlled financiers in London has endeavored to conclude a peace with Bulgaria, that plot appears to have failed and the allies will proceed with the punishment of that state for its treacherous behavior. Meanwhile the long waiting for the allied attack has been a severe strain on that loosely-organized country. It is said that Bulgarian soldiers are now mostly without shoes. If the allies start in with a crushing offensive against Bulgaria it will greatly alarm the young Turks at Constantinople and they will set up a strong demand for the recall of those troops lent to Austria and reported to be at Lemberg.

As to the situation in the Caucasus, where the Russians have witharawn before a heavy concentration of Turks, they have already relieved the situation by striking the foe from Persia and the southern shores of Lake Van and driving him back a distance of several miles. But in Persia they have what and the from Hamadan under Turkish pressure. The previous reports from Petrograd of decisive defeat of the Turks appear to have

KNIFE RADIALS

What J. W. Lyon Says of the Members of Ontario Cabinets W

TIE UP PROPOSITION Declares Move is on Foot to Make Work Im-

possible.

GUELPH, Ont. Ang. 11.—A meeting of the Guelph members of the central executive of the Hydro-Radial Association was held in Guelph this morning. The purpose of the meeting was the drafting of a reply to a letter which had been sent by Premier Hearst in regard to the several memorials and petitions which have been sent to the government from time to time by the association asking that action should be taken in regard to the building of radials, or that at least right of way for the lines should be secured with the least possible delay.

The reply was drafted, but the officials stated that there was nothing for the press yet and would not be until the letter was sent out to all the members of the central executive for their conconsideration and approval, or otherwise. When this is done the letter will be made public, along with the letter from Premier Hearst, in reply to which the letter today is being formulated.

Tied Up With Corporations.

letter from Premier Hearst, in reply to which the letter today is being formulated.

Tied Up With Corporations.

J. W. Lyon, the president of the association, stated after the meeting that he believed the Ontario Government was sincere in regard to the power proposition, but not in regard to the building of the hydro radials. "I consider that the Ontario Government is as loyal to the power project as any government is to work that is being undertaken by the municipalities. The trouble is the that they are more or less tied up with the corporations. The people are in earnest in regard to the matter, and the whole scheme is a project of the people.

"But as far as the tadial railways are concerned," continued Mr. Lyon, "I believe the members of the Ontario Cabinet are determined to knife the proposition, and are out to see that they shall not be built. I am told on very good authority that there is not a member of the cabinet who is in favor of the building of these lines." Here Mr. Lyon produced a copy of the bill passed by the Ontario house in regard to the building of these lines and on which he based his opinion largely that the move now on is to tie up the hydro radial proposition so that it will be impossible to go on with the work.

WERE UNABLE TO RAISE NEW AGRICULTURAL HALL

Men of Markham Village Wil Make Another Attempt

The attempt to raise the big new agricultural hall in Markham Village yesterday by a large crowd of men proved ineffectual, and last night the plan as projected was abandoned and another effort will be made. It was thought by the contractor and carpenters on the job that by the aid of pike poles and stay ropes the twelve immense trusses could be raised into position, but this was proven to be too optimistic a view, and Mr. Miller of Unionville, the contractor, stated that heavy jelophone poles to stay the trusses, together with a sin post and steam traction power, would be utilized to raise the trusses in postion. The new hall which will be of another effort will be made. It was utilized to raise the trusses in posi-tion. The new hall which will be of modern design, will, once the frame-work is up, be rushed to completion in time for the Markham Fair, which pens this year at an earlier date than formerly. Splendid progress has been made by Mr Miller, the contractor, and Frank Frisby, the subcontractor on the masonry work.

The question of the proposed paving of Davenport road from Bathurst street to the C.P.R. tracks was the chief topic of discussion. C. E. Blackburn, J.P., spoke at length or the matter, pointing out that almost all the property owners interested were averse to the citys' proposal of a macadam road, and desired a bitulithic or an asphalt roadway.

Thomas Jones, on behalf of the residents, complained of a victous dog kept at a house on Arlington avenue, Wychwood, which had recently bitten several children, and was a nuisance to the neighborhood. Nippon Ware With Dutch Blue Design

"My Substance from the Common Earth was ta'en That he who subtly wrought me into shape Should stamp me."

"OLD BLUE NIPPON, HAND PAINT ED," is the mark plainly stamped upon each of the pieces of this set of semiporcellain, with good smooth

glaze. The decoration is in two tones of blue on white. and depicts a Holland scene with the customary wind-mills and boats. Being under the glaze, this pattern never shows the effect of wear. The set consists of one dozen each of dinner, breakfast and smaller plates; one dozen coupe soup plates, one, dozen cups and saucers, one dozen nappies and a fruit

bowl with cut-out handles; one gravy-boat, with stand attached; two round vegetable dishes; one sugar; one cream; and two platters, sizes 10 in. and 131/2 in. length over all. Price for the set complete is \$22.50.

Small Brass Vases and Candlesticks

OF BRIGHT JAPANESE FINISH are these charming ornaments, and in their style and design typify all the grace and beauty of line for which Japanese craftsmen are famed the world over. A Fireless Cooker Means Comfort in Summer

A Demonstration is Taking Place To-day, and Every Day Next Week, of This Wonderful Trouble and Money-saver, Which Was Devised to Bring Warm Weather Succor to the Housewife.

OT TO HAVE TO STAND FOR HOURS over the heated range; not to have the gas oven or coal fire raise the temperature of the whole kitchen unbearably; not to have to pay gas or coal bills for more than onehalf your cooking are some of the advantages of investing a small sum in a Fireless Cooker.

THE METHOD OF USING THIS TREASURE is so simple-merely to prepare your roast, your vegetables, your dessert, and while this is being done have heating the soapstone radiators which, like the silver lining in a cloud, lie concealed within each Fireless Cooker.

WHEN THE SOAPSTONE WILL BROWN FLOUR cast upon it, return it to the bottom of the Cooker; place your filled utensils on this, assuring yourself first that all covers are tightly clamped; then close the Cooker and your dinner prepares itself without further anxiety or labor on your part; the re-THE CONSTRUCTION OF THIS sponsibility is assumed by the Fireless

NOR IS A SEPARATE SOAPSTONE necessary for each dish which is being prepared. Sectional utensils may be procured, of which two or three may be adjusted side by side. Other utensils may be purchased which will fit two or three above each other in one compartment - in this case the upper ones must be "brought to a boil" before being placed in the Fireless

GREAT BOON of the sorely-tried cook of Summertime is evident from the illustration; the number and depth of the compartmen's varies; in

the top of each is a small steam ventilator; all utensils are of aluminum with tightly fitted clamped covers. Not only is this a cheaper, quicker, cooler method of cooking, but the actual flavor of the food is better if prepared in a Fireless

Prices: Two compartments, \$23.00 and \$26.00; three compartments, \$34.00 and \$37.00.

The "EATON Beauty" Electric Toaster

Also An "Electric Tea Machine" Certain to Prove of Equal Value to the Housewife to Whom the Quick Preparation of the "Cup That Cheers" is a Pleasure and Necessity

THE "EATON BEAUTY" TOASTER has a cast iron base heavily nickel-plated, and has a stamped steel frame enclosing the current-carrying part of the toaster; a rack on top serves to keep the

A "feed through" switch on the cord very near to the toaster is a point of interest, for it makes possible the turning off of the current without the trouble of going to the wall switch or of pulling out the plug, which sometimes causes the fuse to burn out. This toaster will brown two pieces of bread at once, and is notable for its rapidity. of operation. Special price, \$3.45.

THE ELECTRIC TEA MACHINE may be in plain style or with Colonial fluted panels, as illustrated. The handles are in ebony finish and a faucet is low on one side. This is quite handsome enough for all table use, with its bright copper or nickel finish, and makes possible the preparation of a "pot o' tea" with ease and rapidity.

THE METHOD IS SIMPLE: While the water heats the tea-ball is drawn up into the cover by means of a chain attached to the movable knob on top. When the boiling point is reached the current must be turned off and the tea-ball is lowered into the water for the three minutes allowable for steeping; again it is raised into the cover, and remains there quite out of the "fragrant brew" until all has been drawn off, as required. Special price,

THE BRASS BEDSTEAD NEVER WANES IN POPULARITY, for, in addition to the charm of its beautiful finish, it has the added advantage of being very sanitary. In bright satin, English lacquer finish, with massive two-inch posts and strong upright fillings, with fancy mounts as the cuts show, both bedsteads are exceptional value. To the left, in widths 4 ft., or 4 ft. 6 in., the price is \$15.75. To the right, in widths 3 ft. 6 in., 4 ft., and 4 ft. 6 in., the

IN CIRCASSIAN WALNUT OR MAHOGANY FINISH is a three-piece suite which would be admirable with the above, and which is greatly reduced in price. The design is plain, the wood beautifully finished and the mirrors may be oval or square. The dresser has an extra large top, six drawers opening with plain wood knobs and has brass casters. Price, \$29.50.

The chiffonier is tall and topped by a smaller mirror. Price, \$26.50. The dressing table of the same design is \$15.00.

IN COLONIAL DESIGN WITH MASSIVE CURVED STANDARDS is another three-piece suite of walnut suitable for use with the brass beds. This type of furniture is particularly adapted for a room of handsome proportions because its every line seems to suggest size and strength. The subtle curve of the standards is repeated on the front of the dresser and in the legs of chiffonier and dressing table. The dresser has four drawers with wood knobs. Price, \$26.50.

The chiffonier is topped with a small mirror. Price, \$22.50. The dressing table is \$16.50.

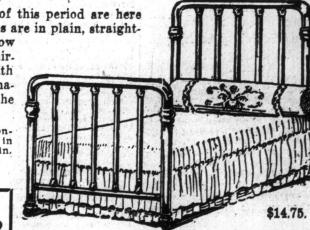

IN ADAM MOTIF IS A CHARMING BLACK WALNUT SUITE with antique brass trimmings in attractive ring design against plates of the metal, all handsomely ornamented.

THE SMALL WREATHS AND GARLANDS which are so characteristic of this period are here reduced to make a decoration of the utmost simplicity and charm. All the pieces are in plain, straightline construction, with the shape accentuated by a narrow

rope moulding. The handsome dresser with large plate mirror is priced at \$36.00; the three-mirror toilet table with movable "wings" is \$32.50; the chiffonier has a low ornamental pediment in place of mirror, price \$31.00; and the AN IRON BEDSTEAD with snow-white enamel finish, con-

tinuous posts, and large mounts has five upright fillings and is in every way well finished, widths 3 ft. 6 in., 4 ft., and 4 ft. 6 in. Price, \$4.75. -Third Floor, Furniture Building, James and Albert Streets.

WEEK'S RECRUITING WAS SATISFACTORY

The Daily Average Higher Than for Some Time Past.

IS DEAD OF INJURIES

Pte. James Henderson Succumbs to Self-Inflicted Wounds.

Recruiting has maintained a higher daily average this week than for many weeks past. Even considering that Monday was a holiday the average for the first five days of the week is higher than usual, and this is an encouraging fact both to recruiting officers and commanding officers of battalions. It is also an indication that recruiting is not as dead as some would represent it, and when summer is over a partial return of the spring's activity may be confidently looked for. Yesterday out of 40 who were examined by the doctor 27 were declared to be medically fit and were attested. The 238th Forestry Battalion is still retaining its remarkable ability to secure recruits, eight joining yesterday. The other units gained as follows: 208th Battery, 1: 213th, 1; 47th Battery, 2; 69th Battery,4, and the C.A.S.C., 6.

Number of Close Range Encounters With Germans in Past Week.

WEATHER HAS CLEARED

Artillery Carries on Systematic Firing With Excellent Results.

CANADIAN FIELD HEADQUAR-TERS, Aug. 10, via London, Aug. 41 .-During the past week the weather was particularly tine. Good progress was made in the improvement and consolidation of our defences. Our artillery maintained its activity and carried out frequent systematic shoots upon selected sections of the German front line. Enemy trench, mortar and machine gun emplacements were bombarded and hostile batteries engaged

John English Last with marked success. On more than one occasion the German guns were

silenced by our fire.

Numerous enemy working parties were dispersed by our field and machine guns. Indirect fire by our machine guns was also constantly employed upon points in rear of the Ger-man position. One machine gun company in one night fired over seven thousand rounds in this manner. The enemy exposed themselves more usual and our snipers accounted for a considerable number. Hostile retalia-

killed two more of the enemy. Sud-denly encountering still another Ger-man, he threw a bomb in his face and

knocked him down.

Sergt. Mackle shot three more of the garrison, and then began bombing along the German trench. Lieut. Har. ris attempted to secure a wounded German as a prisoner, but was hit in the arm. Pte. Burrell, who had been wounded before entering the trenches assisted the officer until he himself became faint from loss of blood. Eventually both men regained our lines.

Not a Man Lost, In the meantime another party of three men under Sergt. Scott had entered the trench and bombed their way down it. Sergt. Scott shot two German wit hhis revolver, and several others were accounted for by grenades. When the signal to retire was given, smoke bombs were dropped in the German trench, and under cover of the smoke our party returned safely without the loss of a single man. · On the previous day Sergt. Mackie had crawled to within twenty yards of the German trench by daylight,

and had made a close examination of the wire and parapet, securing information of great value for the raid. Under cover of darkness a patrol of New Brunswick battalion under Captain Russell and Lieut. Carling approached the German trenches, supported by a covering party under Lieut. Boa. For ten minutes a lively exchange of bombs took place and then a party of about twenty-five Germans came out in an attempt to cut off our patrol. Lieut. Boa and his men immediately attacked with bombs, driving the enemy back and inflicting

casualties estimated at fifteen.

On the same night a patrol of a Canadian regiment under Lieut. Woods and Lieut. Bole crept thru a double line of wire entanglements surrounding an enemy post. A charge of gun cotton was placed beneath the parapet.

The lighting of the fuse alarmed the garrison, who threw a number of bombs Before the explosion occured our party had managed to withdraw to a distance and during the interval forty bombs were thrown by the garrison on the post. Afterwards no bombs were thrown. It is probable that the whole garrison was destroyed. Dog Bore Message.

SATURDAY MORNING, AUGUST 12.

What a Railway Strike Means in the States.

Human imagination can scarcely grasp what a universal railway strike and the up in the United States would mean. Indeed the consequences would be so terrible and far reaching that men shrink from their contemplation. So dependent is the organization of our neighbors upon railway communication that were such communication to be abruptly cut off for any considerable time such economic anarchy and distress would follow that the great war in Europe by comparison would lose much of its tragedy.

Tens of thousands of people would practically in a state of siege. Some cient proof to the contrary. store of food stuffs would of course be on hand, but prices would soar at this piece of road should at once take once to an almost prohibitive point. Within a week all commercial values as we have known them in the past would cease to exist. The president at Washington would find himself three months instead of five days distant from California. The government would be utterly upable to cope against riots, rebellion or invasion at

The our trainmen in Canada have re- WANTED CONDITIONS AT. fused to join the eight hour strike we would not escape its far reaching conlargely cease, all commodity prices would soar to startling figures and business would be greatly demoralized. Our roads might run east and west, but during the past year or two ocean tonnage has been very scarce on both coasts, and they would be utterly unable to deliver freight and passengers to or receive freight and pas-

That a great people should opinion that the government, thus be at the mercy of private corporations and their employes seems almost incredible. If the strike really comes, and it may come any hour, and lasts even for a week, it will probably pay \$10.85 railway fare. cost the country more than a year of war has cost any belligerent. But self- TURKS HARSHLY TREAT preservation will demand the immediate nationalization of all the railways of the United States. If the present crisis can be averted, no time should be lost in applying such surgery to the body politic as will make a recurrence of the danger impossible. The state must own and operate all lines of communication or confess it self no longer supreme. Our neighbors may come from under the shadow of their great peril and save themselves from ultimate disaster. Will the lesson be lost upon Canada?

The Hamilton Press and Nickel

If the Hamilton papers had gone after the nickel trust early in the day and helped The World to expose the unpatriotic policy of the two parties thereon that city might have had the new nickel refineries in its locality. After The World had forced action on the two governments without any help from the Hamilton papers the plum went to Port Colborne. Hamilton ought to be a great centre, not only steel. When the Hamilton authorities got busy this week they were told by the Ontario Government that they came too late. The citizens of Hamilton might in the meantime recall the cheap jibes of the Hamilton papers MICHIE & CO., LIMITED, at The World. The Herald did all it

could for the nickel trust, but nothing for a nickel industry in that great manufacturing centre. The kaiser ought to subscribe for the Hamilton papers.

Yesterday morning The World published in its news columns an inter view with Mr. A. K. McLean, the good roads commissioner of Ontario. CITY HALL NOTES

The Loyal Order of Moose Carnival which is coming to Bayside Park, may have its license canceled in view of the number of complaints that are coming to Mayor Church. The steam boat companies are particularly strong in their objections to this carnival. The application has passed the from W. H. Pearson alleged to be due city but not the Harbor Commission.

Hon. Robert Rogers, the minister of public works, will speak at the Can-adian National Exhibition on Aug. 31, sold and delivered. according to Mayor Church.

Mayor Church stated yesterday that he would try to aid the Sunshine Circle, whose raffle of a motor car was stopped by the police. He said acted in good faith and the error was made by a city official who issued a permit for a \$50 raffle without stating the nature of the article to be disposed of. The permit then went thru without question.

Go Where the Ocean Breezes Blow-Seaside Excursions to the Maritime Provinces.

From Montreal to where cool ocean breezes are blowing is an easy journey, and one made on the best-equipped trains on the continent. 'Ocean Limited" and the "Maritime Express," the through trains on the Canadian Government Railways, furnish a fast and luxurious service for those who desire to reach the watering places of the Lower St. Lawrence or points on La Baie de Chaleur, the Straits of Northumberland, the Bay of Fundy, or the sea-girt shores of Nova Scotia.

These annual excursions over the Canadian Government lines afford the only. right kind of an opportunity, as for a generous vacation period the special low fares prevail. The going dates are from Aug. 18 to Aug. 21, with a return limit to Sept. 6. Particulars regarding fares to the arious points will be furnished at the office of the General Western Agent, 51 King street east, Toronto, and sleeping car reservations may be se

The generosity of the city council resterday in granting a fixed assessment to the York Hotel amounting to a cash donation of \$498,957 of the ratepayers' money, or with interest at six per cent for the period of thirteen years, a sum of \$724.623, is causing much talk thruout the city.

Other hotels that will come into competition, with the new venture are disclaiming the need of greater hotel accommodation, and state that they have several hundred rooms va-cant al lthe time. One hotel man stated that there were only four days a week when there was any business in the Toronto hotels. Visitors, he claimed, arrived late Monday and remained until Friday. From Friday until Monday the staff often outnum bered the guests.

MUNITIONS OUTPUT **BEHIND IN ONTARIO**

Labor Shortage Has Greatly Hampered Manufacturing Plants.

APPEAL TO CITIZENS

Women and Men Ineligible For Overseas, Asked to Help.

"The deliveries of munitions from Ontario are running far behind the quantities promised, and we are seriously apprehensive if the existing

conditions cannot be bettered." Such is the statement of the Imperial Munitions Board to the provincial organization of resources committee which has been conducting a preliminary investigation into labor conditions in munitions plants in Toronto, Hamilton and other Ontario cities.

This shortage in production been largely due to the fact that there has been a very inadequate supply of labor sufficiently skilled to make deliveries effective. This has hampered factories turning out steel forgings and component parts, which, in turn, have adversely affected operations at the machining and assembling plants. But these also have been unable to make deliveries as scheduled, even when they are fully supplied with forgings and component parts, largely owing to the shortage

The provincial committee is pealing to all those engaged in the munitions and allied industries to co-operate and do all in their power to secure a steady and increased supply of munitions for our forces at the front.

It urges upon all those who are ineligible for overseas service and who are anxious to voluntarily do their best in this struggle to consider ployment on munitions as their next best service to going overseas, and asks Women's Emergency Corps to register women for munition work or for work which will release men for the munitions industry.

Peel Off Your Freckles

To remove freckles, blotches or any complexion difficulty, the best thing to do is to remove the skin itself. This is easily and harmiessly done by the application of ordinary mercolized wax. The wax peels off the defective outer skin, a little each day, gradually bringing the second layer of skin to view. The new skin is beautifully soft, clear, white and young looking. Just procure an ounce of mercolized wax at any drug store and use like cold cream,

SOCIALISTS DEMANDING FREEDOM OF BELGIUM

International Congress Also Urges Making Poland Independent,, Re-Establishing Both.

LONDON-The complete-re-estab-lishment of the independence of Belgium and Poland and a democratic fedaral union of the Balkan States were points unanimously agreed upon at the opening of the international yesterday.

The question of Belgian independence was raised when a letter was read from Emile Vandervelde, the Belgian minister of munitions. Minister Vandervelde, who is one of the leaders of the Socialist party in Belgium, insisted that the conference should declare itself unreservedly for the restoration of his native land. There was no op-position to this, but it was decided not to attempt to deal with the thorny question of Alsac-Lorraine.

Algernon Lee, Socialist candidate for the governorship of New York, reviewed the effect of the war on Socialist organizations in America. He said that during the first year the influence was very depressing, people being more or less thrown off their balance, but that they have thoroly recovered now. Mr. Lee said that, the a small Socialist wing in America is pro-German and perhaps a somewhat larger section definitely anti-Germans, the great bulk of the party thought it would be best if neither side was

crushingly defeated. The American delegate said that the United States had its own problem in a very strong militarist movement which had grown up there. While the advocates of a bigger army and navy always talked of national defense, the Socialists, he said, felt it really meant a tendency of American capital to get the power to exploit Mexico and South America. Pleter Jelles Toestra, head of the Dutch delegation, said that national differences among the beligerent Socialists were still too strong for united Socialist action. He urged all Socialists to see that the development of socialistic tendencies by the war was not used for the strengthening of absolutism and bureaucracy.

Manning and Rhodes in Pitchers' Duel in Second Game That Went Ten Innings.

the plate to head off Hendryk with the winning run.

Three bases on balls, coupled with infield hits, netted two runs for the locals in the fourth innings, and a pass, a stolen base and a single scored another in the seventh. Toronto counted one in the sixth off a pass, a stolen base, a wild pitch and Graham's sacrifice fly. Singles by Blackburne and Kelly, a pass, an error by Priest and a fielder's choice gave the visitors their final two runs in the seventh.

visitors their final two runs in the seventh.

Thompson's beautiful throw to Blackburne, who covered third, in the eighth innings, cut off the run-getting for the locals in that frame.

With two down in the tenth innings, McTigue tripled to right, but was left on when Murray went out, Priest to Eibel.
Opening the tenth for Richmond, Hendryx drew a pass and was sacrificed to second by Bankston. Kelliher was called in to hit for McDermott, and singled to left, scoring Hendryx with the winning run.

In the sixth innings of the first game Birmingham's bat was hit by a pitched ball and he was thrown out at first. He contended with Umpire Westerveit that he was not out, and as the result was put out of the game, McTigue relieving him and playing an excellent fielding game. Russell and Herbert will probably oppose Keating and Ross in tomorrow's double-header, which starts at 2.30 o'clock.

St. Louis Browns Win Two From Cleveland

At St. Louis (American)—St. Louis defeated Clevelond twice yesterday, 5 to 4 and 3 to 1, and moved into a tie with Detroit for fourth place, 4½ games behind the leaders. St. Louis played an uphill game in the first contest, overcoming a four-run lead. Bunched hits off Klepfer and Becbe won for the locals in the second game, which was called after eight innings on account of darkness. Scores;

At Philadelphia—Circinnati won the final game, 3 to 2, altim for a time it looked as the the Phillies had pulled the victory out of the fire by a ninth innings rally. With one out in the ninth, Dugey on second and Stock on first, Killifer sent a drive to left field. Dugey and Stock scored and Killifer reached third. Umpire Rigler declared that a bleacherite had touched the ball as it bounded toward the stand and that Killifer was entitled to only a single Dugey was sent back to third base and Stock to second. Knetzer then fanned Paskert and caused Cooper to force out Killifer, ending the contest. Score:

EXHIBITION TRAP-SHOOTING.

Over \$2000 will be distributed in prizes and trophies at the international trapshooting tournament, which is down on the program for the Canadian National Exhibition. It will extend over five days—Aug. 29 to Sept. 2—and, aside from the Grand American Handicap, will be the biggest event of its kind on the continent. Entries have been received from a large number of the United States cracks, and, as many of the leading scatter-gun men as many of the leading scatter-gun men as many of the leading scatter-gun men of Canada have also signified their intention of entering, the prospects are for an exceptionally successful meet.

The ground has been laid out for the tournament just south of the big ring overlooking the lake, and it is expected there will be great public interest in the event. The danger spots will be wired off and every precaution taken to protect the public. The tournament opens on Tuesday afternoon, and thereafter will tect the public. The tournament opens on Tuesday afternoon, and thereafter will continue, morning and afternoon, until Saturday. This is the first time a tournament of this kind has ever been held in connection with the Exhibition. Nine

Products of Canadian Manufacturers on View at Toronto Fair.

"Toy making in Canada" is treated extensively in the supplement to The Weekly Bulletin, published by the authority of Right Hon. Sir George E. Foster, minister of trade and com-merce. The article deals with the toy The final game of the Bowmanville fair, which was held in the Royal Bank tournament for the Goodyear Trophy was played between two Toronto rinks last difficulty dealers were experiencing in obtaining goods to make up the shortage occasioned by German supplies being cut short on account of the war. It will be recalled by those who visited the exhibit that the number of tays collected and the evidence of workments in the supplies that the number of tays collected and the evidence of workmanship superior to anything that might have been expected in the short time that had been expended upon the output, were matter of pleasurable surprise, the collection being larger than anything anticipated and the quality and makeup, in some instances, showing no small amount of artistic

skill, as was the case in some of the dolls made during the months immediately preceding the fair. The Bulletin comments on the interest shown by various women's organizations, an interest evidenced by the attendance at a conference and of the resolution passed asking that the resolution passed asking that the "Made in Canada" dolls and other toys be brought to the knowledge of women thruout the Dominion, and also that there be a "toy fair" at the time of the Canadian National Exhibition.
Patriotic Endeavor.

Mrs. Lorenzo Evans of Quebec City began to interest herself in the establishment of a Canadian home toy industry. As a result on the 13th of August, 1914, the Home Workers' Club August, 1914, the Home Workers' Club was founded and later the Home Workers' Patriotic Toy Industry, with headquarters at Morin College, Quebec City. Eight bright artistic girls whom Mrs. Evans interested in the work, made models for toys. Later work was found for convalescent soldiers. In April, 1916, an exhibition was held at the college at which a large collection of varied toys were shown, one stall of varied toys were shown, one stall being devoted to the output of the men from overseas.

The work of Mrs. H. D. While the meeting will undoubtedly be held by th "Illinois Jockey Club," a shifting of the stock of that body from the original stockholders to Thomas Carey, owner of Hawthorne, in consideration of his assuming and paying the deficit, said to be \$10,300, of the recent meeting, leaves the question of financial responsibility somewhat up in the air. Indications are, however, that Carey will again be the power behind the throne, unless a rumored project on the part of certain interests hene of leasing the track, lock, stock and barrel, for the thirty days, materializes.

customary meeting this winter. Under normal conditions on the border, with New Orleans again in full swing and the Pacific Coast, it would have been a serious problem to get sufficient horses to hold a meeting at the Mexican town; but, with political conditions as they are, and the necessary "back door" to the powers that were effectually barricaded, a winter session seems folly to attempt. That the management also is inclined to hold this view is evidenced by the fact hat Manager Winn has thus far withheld-his customary assurances of a meeting, while Secretary Jasper has accepted a similar position at Essex Park, Hot Springs, running collaterally with the usual first month at Juarez.

Private advices from the east indicate that C. J. Fitzgerald will be the general manager of the coming winter meeting at New Orleans, to replace Judge Joseph A. Murphy. It seems a pity that in the general explosion of racing affairs at the Crescent City, following the last meeting, Judge Murphy should be the one to suffer most. Murphy brought back the sport in Louisiana, amid all the turmoil, and he should have been allowed to enjoy the fruit of his labor in times of peace. If Murphy must go, however, the Business Men's Racing Association of New Orleans, in selecting Fitzgerald, might have gone further and fared worse.

The weekly athletics at Moss Park brought out the speed artists in goodly numbers last evening, each fellow working to condition himself for the big race meet to be held next month. The senior quarter proved the best of the evening. The stirring finish between Stan. Nugent and Will Ryan was the best thing seen on the grounds in some moons. The junior event also furnished a surprise when Geo. Hurst won from Midge Shaw in a fine finish. Results:

Ministerial Shake-Up Has No Significance in This Regard.

PETROGRAD, Aug. 11, via London 8.40 p.m.-The rumors which were circuiated following Premier Sturmer's appointment as foreign minister, that Russia might entertain proposals for a separate peace, have elicited a definite denial of such a possibility from the new foreign minister. In denying General Cadorna Expresses the rumors to a correspondent of The Russky Slovoe, Premier Sturmer said:

"I have learned that my appointment

is commented upon in some circles as forecasting a separate peace. I desire to strengthen the public belief that the change in post of foreign minister must not be considered in any sense an indication of the variation of Russia from the line of conduct of the last two years toward her allies. The agreement with them will not be changed.

"Russia considers it her duty to support all measures England desires accomplish with regard to Germany, and I, as a tool in the hands of the emperor, will do my best to work hand in hand with our allies and will strive to strengthen the friendship between Pussia, England and France."

On the way we examined the Italian and Austrian trenches, for which many long months had been within speaking distance of each other. So accurate was the Italian artillery fire that while the Italian trenches, lined with steel lattice work, were still intact, those of the enemy, lined with a strategy in aiming direct at the eyes, kind of wickerwork, were almost as brain and heart of the Austrians, that badly smashed as the German trenches on the Somme. On our left rose all their observation posts and staff Mount Sabotino, the key to the formidable Gorizia bridgehead. When last Sunday the mount was taken by the Italians; its loss, combined with the errific bombardment that has so sady marred the charm of Gorizia, caused the Austrians to flee. How unexpected was the retreat may be judged from the fact that among the booty were many mules laden with hot rolls for the Austrian officers' breakfast." talian Press Recalls Kitchener's Words With Proud Satisfaction.

A GLOWING CHAPTER

Story of Fall of Gorizia Yet to Be Told in

LONDON, Aug. 11.—A Daily Chronicle despatch from Milan says: "The army that succeeds in battering down the defences of the Isonzo will be justly able to boast itself the first army in the world."

This judgment, attributed to the late Lord Kitchener during his visit to the Italian front, is cited with proud satisfaction in the Italian press today.

Accounts of the battle still filtering thru are necessarily of a fragmentary character, but suffice to reveal what glowing chapter will be contributed to the history of the great war when the fall of Gorizia can be fully told. Its outstanding feature on the Austrian side would seem to be a stubborn struggle, kept up till the very last, from hundreds of caverns, where infaniry who sweep their way thru cavated, serving at once as huge the city on the way to the conquest of munitions depots and as lodgments for thousands of men.

Smoked Enemy Out. From one of these great tortuous grottoes on Podgora Heights, 800 Hungarians with hand bombs and transport of men, guns, munitions and food, and the incoming transport of Red Cross, we arrived in sight of the serpentine Isonzo, bluest of rivers. Thence we walked to the lower bridge, which the Italian engineers already had repaired.

machine guns m from the big straw and petroleum fires which were lighted at the entrances of the cave. Twenty large guns, all in excellent condition, were secured at this spot, besides many tens of munitions.

So effective was Gen. Cadorna's during the early phase of the attack headquarters at Gorizia were utterly destroyed, thereby producing confusion and demoralization. The palace of justice, where the chief of the army staff was directing operations, and whence an enormous network of telegraph and telephone wires connected with every sector of the battle-front, was reduced to a mass, or wreckage, beneath which hundreds of higher officers fet their fate. Among the incidents of the victory

the Italians had the happiness of releasing nearly all their captive comrades, for they had been stowed away in underground galleries and armored recesses on Podgora and Oslavia.

WINNIPEG GRAIN MARKET. WINNIPEG GRAIN MARKET.

WINNIPEG, Aug. 11.—Wheat closed %c up for October, %c down for December, and unchanged for May. Oats were 1%c up for October and %c for December. Flax gained 10c in October and November and 6c in December. The feature of today's trading was the big gain in flax. It was a very erratic market, with a good volume of trade. Like Thursday, traders preferred to deal in small quantities, but the activity of the markets made these small lots aggregate a fair amount. The damage reports which came in were received by a flat market. Cash demand was good for the higher grades of wheat, but oats were very poor.

LOUD DRESS TABOOED IN MUNICH BY POLICE

Trunk Agent, or write C. E. Horning,

Well-dressed women are liable arrest now by the police in Munich, the military governer there having issued an order to that effect. Conspicuous dress, it is stated, means waste, which is not permissible. The first arrest occurred within two hours of the issue of the order. A woman belonging to one of the best military families in Bavaria was taken to the police headquarters, but was released after a few hours' detention, having been warned to wear simpler clothes

THE KAISER'S BUTCHER

to wear simpler clothes.

The police, while inspecting the promises of butchers in Berlin to discover if any were holding back supplies so as to maintain the high prices for beef, met with the pleasant fact that there

was no such meanness. There was but one exception. woman, and further enquiries revealed the unpalatable truth that she supplied ment to Potsdam, the home of the kaiser. She probably knows him.

CANADIAN WHEAT **OUTLOOK BETTER**

Cooler Weather Has Apparently Lessened Peril From Black Rust.

REPORTS CONFLICTING

Prices Closed Lower at Chi cago in Face of Uncertainty.

CHICAGO, Aug. 11.—Despite num-erous upturns, the wheat market today averaged lower, influenced to a conaveraged lower, influenced to a considerable extent by assertions that owing to cooler weather the black sust danger in Saskatchewan might not prove as serious as many traders had been led to believe. The close was weak 1-2c to 1 1-4c down, with September at \$1.43 1-8 and December at \$1.46 3-4 to \$1.47. Corn showed 3-4c to 1 3-8c net decline and oats a loss of 1-4c to 1-2c, Provisions unchanged to 1-4c to 1-2c, Provision's unchanged to

25c lower. Uncertainty as to the Canadian crop outlook prevailed in the wheat pit the greater part of the day. Bears contended from the outset that the prospect was more reassuring, but were overborne at times by pessimistic advances, especially a report from a leading expert that 75 per cent. of the Saskatchewan fields would be damaged if there were frost, and that the peril of such a disaster would not be out of the way under Monday next. On the other hand, good authorities were quoted to the effect that the reduced temperatures in Canada had lessened to a notable degree the hazard of black

to a notable degree the hazard of black rust, especially thruout the southern part of Saskatchewan.

Buying Had Effect.

Buying tended somewhat to check the aggressiveness of wheat bears. It was said that aside from other European purchases, the sales to Holland alone today amounted to 500,000 bushels. Gossip was current also that yesterday's export buying attained much larger proportions than the trade in larger proportions than the trade in general had been given to understand.

Welcome rains eased down the corn.

Speculative selling was heavy at times, but on the whole the market was firm. Oats were slightly weaker on hedging

Provisions were slightly weaker, especially in lard. The market, however, was partly upheld by the high prices of live hogs.

RAILS WERE ERRATIC

Conflicting Rumors Respecting Mediation Conferences Reflected in Market.

NEW YORK, Aug. 11.—The course of prices in today's trading indicated rather plainly the uncertainty and ecufusion prevalent in speculative Opening prices were firm to strong, these giving way to general recessions and points of weakness before mid-day. Later the movement became more irregular, rails as well as specialties often pursuing opposite directions. Reading, again the market leader, imparted strength to the entire list in the final hour when it recovered from its early heaviness and advanced three points to 103, Other rails were held in partial check conflicting rumors affecting the diation conferences, but hardened

Among specialties, General Motors was the outstanding feature, supplementing yesterday's gain of 25 points with an additional 50 on reports of another large prospective dividend. The preferred shares rose 4 1-2 points, with average gains of two points for Studebaker, Maxwell and Chandler Motors Similar gains were made by kindred issues on the curb. made by kindred issues on the curb, Stutz scoring a new high record at

Equipment and munition issues were visibly strengthened by the remarkable annual earnings of American Locomotive, which showed a fivefold increase over the preceding year. New York Airbrake, which is in receipt of further foreign con-tracts, gained six points, with one to three points for other shares of the same group.

U. S. Steel varied only fractionally and closed at a slight advance, but Bethlehem Steel gained 13 points. with a moderate advance in Crucible Steel. Shipping shares repeated their recent activity, but proved more than ordinarily susceptible to realizing

Coppers were more firm, but made little headway despite the circulation of reports indicating recurrence of last year's enormous foreign demand for the refined metal. Sugars and Petroleums fluctuated within narrow limits on light dealings.

Total sales 345,000 shares. Bonds were irregular with a slight concession in Anglo-French 5s. Total sales, par value, \$2,720,000.

CUNARD LINE TO EUROPE.

The Cunard Line are certainly to be congratulated upon the excellent pas-senger service they are maintaining between New York and Liverpool, and New York and London. The steamers sailing at present from New York are the well-known vessels Orduna, Carpathia, Saxonia, Cameronia, Tuscania. Alaunia, Pannonia and Andania and have excellent accommodation in all classes. Now that the submarine scare is over, the company is carrying big lists from New York, and the best berths are being taken up a long time in advance. Prospective passengers may secure all information from A. F. Webster and Son, general agents for the company, at 53 Yonge, between

Colborne and Wellington streets. "EARLY DAYS AT THE ISLAND" Will appear in The Sunday World of Aug. 13. The article was written by Eunice Gunn Ramsey, whose research has resulted in a historic document,

The market in mine stocks at the Standard Stock Exchange yesterday was fairly active and generally strong in tone. The liquidation, which had a depressing effect on the market up until quite recently, seems to have come to an end and moderate advances thrucut the list from day to day have been made. The outlook, according to those in close touch, is good.

The Porcupine stocks held the limclight yesterday, several issues making new high points for the movement. Buying was in good volume, especially for some of the smaller stocks.

Dome Extension continued in demand and sold up one point for the day, touching a new high for the movement at 35 and closing at the top. Newray was quite active also, with close unto 7000 shares changing hands. This stock made a new high record in its history when it sold up a point to 49. It closed 1-2 point lower at 48 1-2. Reports coming down from this property are consistently bullish.

Moneta was again a feature, selling a point to 49. It closed 1-2 point lower at 48 1-2. Reports coming down from this property are consistently bullish.

Moneta was again a feature, selling up to 20 in the morning and reacting later on profit-taking to 17. The offrepeated story of chenge of control was again circulating freely in an endeavor to account for the rapid advance made by this comparatively inactive issue. McIntyre had a busy day, opening at 135 and selling up to 140, closing a point lower at 139. McIntyre Extension opened higher at 50, but eased off to 46. Hollinger displayed strength, selling at the advanced price of \$28.50.

Dome Lake was again an active feature, opening at 41, selling up to 43 and easing off to the opening price and closing there. Teck-Hughes at 26.1-2 was higher. West Dome Consolidated advanced to the high point of the previous day at 41, but failed to retain the ground won and closed at a net to make the selling way at 41, but failed to retain the ground won and closed at a net to make the selling at the point of the previous day at 41, but failed to retain the ground won and closed at a net to make the selling at the province of \$2.50 to preferred 20. advanced to the high point of the previous day at 41, but failed to retain the ground won and closed at a net loss of 1-4 for the day at 40 1-2.

There were no great changes in the Cobalt list except in Adanac, which advanced 18 points from the recent low at 22, selling yesterday at 40.

Crown Reserve at 42 was steady.

Timiskaming opened two points down at 61, but strengthened up one point on the close. Seneca held steady at 50, while McKinley was a little easier at 60. Beaver was comparatively steady at 40.

Moneta—Nothing Official.

The advance to the highest record for 'some time, made by Moneta yesterday on the Standard Stock Exchange when it touched 20, gave rise to the old rumor that certain interests were endeavoring to gain control of the property. It was reported that Hollinger Consolidated was the party interested. Since the beginning of the month the stock has sold up six the month the stock has sold up six points, and there is a greater amount of activity at the present than for a long time. The story on the street is that 25 has been offered for control. Nothing official could be learned. One of the directors of the Moneta when approached stated that he had Crown Reserve 42

LONDON, Aug. 11.—Money and discount rates were quiet today. A spurt in home rails was the feature of the trading on the stock exchange. The advance was due to Chancellor McKenna's statement of the financial condition of the nation. Foreign issues showed firmuless, diamond stocks advanced again on good support, and Kaffirs were firmulative. The Russian groups were steady, but shipping shares reacted under profit taking. American securities were firm, but transactions were small.

Spanish River Supplied Feature, Advancing to New High for Movement.

Business fell off considerably in volume yesterday at the Toronto Stock Exchange, brought about, partly at Exchange, brought about, partly at least, by the holiday today. For the present the local market followed the lead of the Monireal Exchange, which was devoid of feature with the exception of Spanish River, in the afternook trading. As in Montreal, Spanish River was the feature of the afternook trading. As in Montreal, Spanish River was the feature of the afternoor, session here, being the most active issue on the list and advancing to 12 7-8, which is a new nigh point for some time and 7-8 above the high point reached on the previous day.

Smelters opened at an advance over night of one point at 38, but failed to hold and sold back to 36 7-8, closing a little better at 37. Cement was up to a new high at 60 3-4, but closed easier at 60.

at 60.
Sieamships opened higher at 27 1-4
and dropped in the afternoon to 26 1-2.
Toronto Rails sold at 91 1-2, a gain
overnight of 3-4 points. Dominion
Steel, on the other hand, opened 1-2
point down at 54 1-4 and failed to gain
ground during the day.

Mining Notes

SHINING TREE DISTRICT.

Manager S. Cohen of the Crown Reserve Mine of Cobalt was in town today and when seen by The World stated that he had just been up in the West Shining Tree district, which he declared was the coming gold camp of northern Ontario. Mr. Cohen stated that he has seen some remarkably rich ore taken out, and unless the formations proved pockety and did not persist at depth, more would be heard from the district when sufficient capital had been put in to properly develop the different prospects.

NIPISSING PRODUCTION.

Comparison of the Nipissing monthly report with previous statements shows the extent to which this company is taking advantage of the high price of silver. July production of \$288,577 compares with \$294,669 in June, \$291,898 in May, \$167,446 in April, \$169,999 in March, \$171,850 in February and \$169,802 in January. The July figures were the third largest of the year to date and 72 per cent, ahead of January.

TO SELL TRETHEWEY.

R. E. Kemerer in his weekly market leter says. A notice has been sent out to the shareholders of the Trethewey Company, asking for the ratification of the sale of the Trethewey property, which is to include the sale of the buildings, mining plant and property, which is to include the sale of the buildings, mining plant and equipment, but is exclusive of the milling and concentrating plant which is to remain the property of the Trethewey Company, which will use it in connection with the operation of the Rochester Company, which latter company is now controlled by the Trethewey. The price at which the Trethewey property is to be sold is \$125,000 which will be payable, \$25,000 in cash, and \$25,000 each three months until the whole of the sum is paid. In the circular to the shareholders the president of the company states that "owing to the continually decreasing tonings and value of the ore wheing met with, and the consequent curtailment of the tonings available for treatment in the mill, there is now very little margin of profit in the operation, notwithstanding the improved price of silver as compared with that ruling in 1915, when a certain amount of high grade ore was still being met with in the old workings. The Northern Customs Concentrators Limited is carrying on a large operation in the Cobalt camp, and requires further ore to maintain its mill tonnage capacity. It is thereand requires further ore to maintain its mill tonnage capacity. It is there-

its mill tonnage capacity. It is therefore in a position to deal with this class of ore from the various properties to better advantage than the individual companies themselves. Moreover, the purchaser has in contemplation the erection of a custom plant for the treatment of tailings at a central point which will enable it to handle the tailings from the Trethewey property advantageously, whereas, in the opinion of a highly qualified metallurgical expert whom your directors recently consulted in regard to the retreatment of the tailing dumps, owing to the small margin of profit coupled with metallurgical difficulties ing to the small margin of profit coupled with metallurgical difficulties in dealing with Cobalt ores, and the product obtained by flotation, the Tretheway Company would hardly be warranted in making the necessary capital expenditure to treat its own

residues as a separate operation." Pictured.—Some of the boys of the 50th Battery, C. F. A., in this week's Sunday World.
