UNION PUBLISHING COMPANY

PREFACE.

In presenting to our patrons our ninth Directory of the City of St. Thomas, we hope it will meet with their approval. A thorough canvas of the city has been made, and every effort used to obtain the name of every person who should be represented in a city directory.

Mistakes will occur, but we are confident that no more thorough canvass of the city has ever been made.

We have aimed to make our work a fit representative of the public spirit and importance of the City of St. Thomas, and an accurate and complete guide to all public places, business locations and private residences of the inhabitants of the city

THE CLASSIFIED BUSINESS DIRECTORY is a complete mirror of the business interests of the city, and represents it to the outside world only as a business directory can.

THE MISCELLANEOUS DIRECTORY furnishes a large amount of information useful to strangers.

Thanking our patrons for the liberal patronage bestowed on our work, we remain,

Yours respectfully,

THE PUBLISHERS.

SOME we to the job a l times t are sat look on their h year an a numb shown GOOD ING. I now an if good them. ing, it inferior men in we're at jingle o and we and it is just even st the best

Printing

SOME business men when in need of Printing do as they would were it a cord of wood they wanted sawed — go to the nearest place at hand, especially if they can get the job a little cheaper than they paid for it last time. Sometimes they're satisfied, sometimes not. Usually when they are satisfied it is from the fact that they have learned to look on ordinary printing as fulfilling their highest expectations. During our year and a half's business we have met a number of this turn of mind and have shown them the difference between GOOD PRINTING and INFERIOR PRINTING. Result is we're doing their work now and we propose continuing to do it, if good printing and fair prices will hold them. Good printing is like good painting, it demands and obtains a second glance, but doesn't cost any more than inferior. There are more of the same men in town yet, and they are the ones we're after. If you are one of them, just jingle our telephone, No. 189, next time you've printing to do, and we will call with samples, and quote prices if you wish, and it won't be a fault of ours if we do not add you to our list of regular customers. Our second year's business so far is just double our first year's and we don't propose to let it even stop there. It won't either so long as we continue to do the best printing, and we'll never be content doing other.
