GOOD THINGS COMING TO THEATRES OF ST. JOHN

### CLEVER CHILD ACTRESS IN "THE SILENT WOMAN"

In "The Silent Woman," a Metro presentation starring Edith Storey, the distinguished actress, which will be the attraction at the Palace Theatre on Wednesday for a two day engagement, some very clever work is done by Metro's littlest actress, Baby Ivy Ward. This wee four-old emotional player, is one of the cleverest and best loved children of the screen and has played important parts in many notable productions.

In "The Silent Woman," the little actress is seen in the role of Billy, around whom much of the vital interest of the play centers. In this part she has the opportunity to display the rare emotional ability of which she is such a wonderful exponent.

# EXPRESS CHARGES ON FISH SHIPMENTS FROM MARITIME PROVINCES

Ottawa, March 26—The commons committee on marine and fisheries failed to secure a quorum this morning but there was some informal discussion.

W. S. Loggie thought the committee should take some action in regard to the proposed discontinuance by the government of the payment of one-third of the express charges on shipments of fish from the maritime provinces to points in Quebec and Ontario.

Some doubt was expressed by members of the committee as to whether or not such action was contemplated and J. H. Sinclair of Guysboro expressed the view that payment of these express charges was provided for in the estimates tabled in the house the other day.

HERE THIS AFTERNOON

Washington, March 26—A message to the White House today from the American peace delegation at Paris said greater progress toward peace was being made than "appeared on the surface."

NURSES EXAMINATION.

Provincial registration examinations for graduate nurses were held in the General Public Hospital today. About fifteen graduate nurses were held in the examinations. The examining board is composed of Dr. W. W. White and Miss Maud Retallick, secretary of the board, St. John; Miss Sanson and Dr. Vanwart of Fredericton. Miss Retallick is in charge of the examinations today.

Notice of Births, Marriages

stroyed.

CORN AND OATS

Chicago, March 26—Gossip that seaboard exporters were bidding here gave considerable strength today to the corm market. Offerings were readily absorbed, and it took but little buying to lift March and May deliveries to new high levels for the season. Later months showed a tendency at first to sag. Opening prices, which ranged from 3-4 cent off to 1-2 cent advance, with May \$1.48-1-4 to \$1.48 1-2, and July \$1.38 to \$1.38-8-8, were followed by a moderate general down-turn, and then a rise all around to well above yesterday's finish. Oats were under pressure of liquidation sales from seattered longs: After opening unchangeod to 7-8 cent lower, with May 66 cents to 65 3-8 cents, the market underwent a further setback before beginning fo rally.

Provisions lecked aggressive support. fore beginning to rally.

Provisions lacked aggressive support.

Absence of demand was attributed in part of the decline in sterling exchange.

Rev. Dr. C. F. Swift Dead.

Denver, Colo., March 26—Rev. Dr.

Clarence F. Swift, fifty-seven years old, pastor of Plymouth Congregational church here, and president of the Congregational Educational Society of America, died at his home here last night of in-

sorrowing husband and two sons to ourn their sad loss.

Funeral on Friday at 2.30 from her te residence, 169 St. George street, fest St. John.

Passaic, N. J., March 26—More than 1000 weavers at the Garfield worsted mills walked out again yesterday aftergoon because, it was said, a woman union delegate was reprimanded for asking workers if they belonged to the union.

VANWART—Inu loving memory of Pte. James Vanwart who departed this life March 26, 1918.

Gone but not forgotten.

MOTHER SISTERS AND BROTHER.

### SUN LIFE LEADS A'L CANADIAN COMPANIES

Total Assurance \$340,000,000

It is evident from the report published elsewhere in this issue that the Sun Life Assurance Co. not only closed the best year in its history but has easily main-

Another year of striking progress, tained its lead over other Canadian companies.

The figures show that the big Monther of Company made new high records in volume of business transacted, in its total assurance in force, in income received, in total assurance in force, in income received, in total assets, and in net surplus.

The amount of new policies paid for amounted to \$51,951,000 while the total agairance in force now stands at \$340,990,000 a gain of nearly \$32,000,000 during the year. This large gain furnishes ample evidence of the careful methods employed by the company to obtain only the best business and to conserve the property of the past year and a half million dollars. The call income and bring the standard amount for \$97,020,000 a gain of nearly \$39,000 and property of the past year was a trying one to in surance companies owing to the war losses and the nemiciaries an unusual process of the careful methods employed by the company to obtain only the best business and to conserve the property of the past year was a trying one to in surance companies owing to the war losses and the nemiciaries an unusual process of the property of the past year was a trying one to insurance companies owing to the war losses and the henchicaires an unusual process of the past year was a result the company paid out to policy-holders and the henchicaires an unusual process of the property of the past year was a result the company paid out to policy-holders and the henchicaires an unusual process of the property of the past year was a result the company paid out to policy-holders and the henchicaires an unusual process and the henchicaires an unusual process and the henchicaires an unusual process of the proces

made for safety.

The past year was a trying one to insurance companies owing to the war losses and the influenza epidemic. As a result the company paid out to policyholders and the beneficiaries an unusually large sum yet the net undivided surplus stands at the large sum of \$8,027,378. Altogether the showing made by the Sun Life is a most gratifying one and policyholders and shareholders have every reason to feel gratified at the records made during 1918. It is the best year in the company's history even surpassing the records made in 1917, which in itself was a record year.

### CONCERNING AGRICULTURE.

The new list of publications of the department of agriculture at Ottawa contains titles of about 300 bulletins, circulars and other pamphlets that deal with agricultural practices. These cover the whole range of agricultural and horticultural pursuits, including dairying, field crops, live stock, orchard and garden crops, poultry, insects and plant disease, farm building tonstruction, farm machinery and many other topics. The subjects are arranged alphabetically under general titles. Not only are the lists themselves available from the publications branch of the department but any of the publications therein contained.

A fourteen-year-old girl has been placed on trial in New York city for the murder of Tomassa Troia, who had attacked her. The girl took a revolver which her father had and shot Troia dead, surrendering to the police immediately after the killing. It is believed that the case will be dismissed and that the girl will be placed in the custody of the Children's Society. It is probably the first time that one so young has been brought to trial on any charge liable to punishment by death.

Hon. Mr. Murray was able to show that the last year had been a year of prosperity in New Brunswick, with greatly increased farm production and sound business conditions. So far as provincial firfances were concerned, the higher cost of labor and materials operated there as elsewhere, but the expenditure was kept within \$207 of the income. He sets out clearly the purposes for which the expenditure was made, and the budget debate will give fuller information, in reply to opposition criticism, as to the details of that expenditure. The provincial secretary forecasts increased expenditure in some important directions this year, for the further development of progressive government policies, and reductions in some other directions. The comparative statement presented will be found worthy of a careful reading. Hon. Mr. Murray is to be congratulated on the clearness of his annual statement, and the government on the record of progressive administration.

According to the Saskatoon city and itors report for 1918, the public utilities show a net profit of \$14,314 for the year. The electric light and power department fad a surplus of \$19,808, water department as a surplus of \$19,808, water department as a surplus of \$14,835.

### CUT OUT THE GAMBLING

Coronto Globe.)

Despatches from Ottawa forecast the removal of war-time restrictions and a wide-open season for the racetracks. With horse-racing as a sport there can be little room for quarrel; with gambling as the chief interest and horse-racing as the necessary adjunct for sustaining it, there is every cause for criticism. That is why, coincident with the growth of the gambling spirit, there is an increasing body of public opinion recognizing its evil influence and determined to wipe it out. "Clean sport" is every cause for contract to wipe it out. "Clean sport" is every cause for criticism. izing its evil influence and determine o wipe it out. "Clean sport" is eve he slogan of the true sportsman, as dis inguished from the gambler, whose is erest in any form of sport is measure only by what he can get out of it. Two Ontario newspapers a few days go, each in its own way, voiced the in-ceasing aversion of the public to the ew, after referring to an incident co. cted with a hockey match played i

nected with a hockey match played in Toronto, said:

"It seems impossible in this country to keep any sport free for a long time from the evil influences of the gambling element. Horse-racing, in itself one of sports, has been brought into disgrace by the gamblers. Professional usee ball has become almost a business rather than a sport. It is long since lacrosse began to fall away in the estimation of people who love sport for sport's sake. And now hockey is snowing the effects of the evil influence."

In Windsor it is alleged that nambook operations have been carried on to such an extent and in such a manner that sharp action on the part of the police became imperative. The Borner Chies Star, after some comments on the daring manner in which the offenders conducted themselves, says:

"Windsor prides itself on having a business-like police department. It doesn't fool with sentiment or 'friend-ship'—at least the citizens of Windsor like to believe so. It has started to raid thandbooks. Now it can finish the job—and finish it thoroughly—because the handbook operators themselves have invited it to do so. And apparently the

The Story of the Diamond

Chapter 1.

The word "diamond" is erived from the Greek 'adamas" meaning "invinc-

It is well-named "invinc-ible" since it is the hardest, thle" since it is the hardest, the most unconquerable, substance known in nature; it is also the most imperishable for "moth and rust" will not corrupt it although thieves may "break through and steal" it. Added to this industrial to the state of the s is the fact that it is most

of the "diamond" as a gem is by Manlius in A.D. 16, whilst Pliny in A.D. 100 refers to it as "the most valuable of gems known only to Kings."

It was at one time worn as a charm to avert insanity. In fancy we now hear some poor fellow call out "it seems to me it more often indicates insanity—the madness of love." Don't pay any attention to him; he's a poor cynical bachelor and doesn't know what he's talking about.

In the middle ages it was known as "pietra della reconciliziaone," that is a peacemaker between husband and wife in which respect numerous testimontals as to its miraculous cures in the present day are readily obtainable.

MONTREAL

# Its Name.

A busy day and on your feet most of the time—a long tiresome trip or a hike in the country—new shoes to break in—all these mean tired feet. Soothe and rest them by applying a few drops of Absorbine, Jr. Or, if you are very tired and your feet burn, ache or swell, soak them in a solution of Absorbine, Jr., and water. Relief will be prompt and lasting. You will like the "feel" of this clean, fragrant and antiseptic liniment. It penetrates quickly, leaves no greasy residue, and is intensely refreshing. Only a few drops needed to do the work as Absorbine, Jr., is highly concentrated. You will find dozens of uses for Absorbine, Jr., as a dependable first-aid remedy and regular toilet adjunct; to reduce inflammatory conditions—sprains, wrenches, painful, swollen veins. To allay pain anywhere. To spray the throat if sore or infected. To heal cuts, bruises, lacerations and sores.

Absorbine, Jr., \$1.25 a bottle at druggists or postpaid. Liberal trial bottle mailed for 10c, in stamps.

Representative of The Season's Decrees in Spring Footwear

With the passing of Winter the first call of Spring is for Clothing, and foremost in this direction is Footwear.

Seldom, if ever, has this store been in a more favored position in interpreting the season's demands and requirements in Spring Footwear.

Seems as though the designers directed their efforts with an eye to the thought and with a full appreciation of the auspicious period which the Spring of 1919 represents.

Here will be found for man or woman, boy or girl, miss or youth the most gladsome style in Footwear. Impossible to do complete justice here to the line—suffice it to say that the colors showing are grey kid, dull kid, rich brown, mahogany and combination leathers. Also the patents are holding their place. The showing is in Boots, Oxfords

pleasure of his safe return from "over there." He is receiving a hearty welcome.

CHARGES AGAINST PRINCIPAL.

A school board committee appointed to investigate charges of too severe corporal punishment made some time ago against the principal of the Winter street school, held a very long session one evening last week. No reporters were present. Eleven parents, representing eight families, were present and gave evidence. Some others were unable to attend that evening. The evidence was taken down in full. The citizen who preferred the charge leading to the investigation informed the Times today that he would welcome a sworn enquiry and the publication of the evidence.

The Maine state shores, lumber camps and hunting haunts have grown quite popular with movie companies of late years ever since Edmund Breese, Harold Lockwood and May Allison were starred in some hale and hearty outdoor fictions in that region even as close to St. John as Bangor city.

THE EASTPORT BOWLERS

The members of the Eastport bowling team, who were in the city playing against teams from Black's alleys and the Y. M. C. I., left for their homes on the Boston train this morning. They expressed themselves as well pleased with the trip, despite the fact that they were defeated in all three matches. The visitors were all good sports and became quite popular with the local bowling fraternity during their brief stay. After the matches on Monday and Tuesday evening their opponents entertained them and assured them of a more elaborate in the bowling tournament for the championship of the maritime provinces and Eastern Maine, which is to be held in the Y.M.C.I. late in April.

CITY PUBLIC WORKS

Board

About five weeks ago the president of the Free Kindergarten Association sent a letter to the school board asking for the use of the asteroly board asking for the use of the astory-telling hour for the children. It would be open to all the young children of the south end who cared to go. These story-tellings are a great sucess in the public library and also in the kindergartens in other parts of the city. More than 100 attended the last one in the Marsh Road kindergarten. There is no hall in the south end, the Free Kinderagrten being in the same condition in that respect as the South End Improvement League.

Mrs. Vincent has not yet received the courtesy of a reply to her request of five weeks ago. At the last meeting of the Rotary Club the president reported that two communications to the board were still unanswered.

### PYTHIANS GIVEN ROYAL TIME IN MONCTON

that all equipment and material would be ready in his department by May I, the date on which the spring and summer activities usually start. Two new asphalt mixers have arrived and will complete equipment in that line. The new ones are built by the Barber Asphalt Company and are regarded as very serviceable machines.

The Indiantown crusher is to be tested this afternoon and the Carleton ones some day this week.

Preparations are now under way for the removal of the water fountain at the foot of King street. It has long been admitted that this was most inconveniently placed and altogether too near the car tracks for such a busy corner. Last January it was decided to remove the fountain to a more suitable location in Market Square, and appropriation was made for the cost of the work. Yesterd ay afternoon the members of the common council visited the square with the view of selecting a new location. The majority were in favor of the centre of the southern section, about east of the line of Water street and in line with South Wharf.

Commissioner Fisher, while not personally favoring the location, said that he would stake off the proposed site around which would be hung lights an injaht so as to give the public the opportunity of saying whether or not they liked the new location of the water foantain. Any objections, he added, would be considered but not necessarily adhered to. The transfer of the fountain will be made as soon as the frost is sufficiently of the ground.

GETING READY FOR

Repairing to Pythian Castle Hall, the banquettors held high carnival in song and speech until the train whistle blew.

### QUEBEC WANTS GRAIN TRADE

G. T. P. Brings Seaport 214 Miles Closer by Rail to the Wheat Fields-Other Advantages, Too

tinental Railway is in good working order.

"In the opinion of the Quebec Board of Trade," says the report, "the fatal mistake has been made of building 98 percent, of our elevator storage (180 million bushels) at points on the Great Lakes and in the interior, and only 7 per cent, or thirteen million bushels, at Canadian seaports. The result has been that in 1917 180 million bushels of western Canadian grain were shipped from Fort William by water to Buffalo for export via New York, and Montreal exported only sixty million bushels, much of which came from Ontario and Quebec, and St. John only fifteen million bushels.

"This is a bitter disappointment to Sanadian seaports, which expected to do the shipping trade of these three railways, which have cost the country such a colossal sum of money. The disappointment will be increased if the new Eric Canal reduces the rate of freight from Buffalo to New York, as its managers say it will, to half of the five cents perpushel which the railways now charge between these veicht."

Quebec Claims Advantages.

"Canadian Pacific Railway - 1,564 "Canadian Northern Railway-1,607

miles.

"And in addition to this, the first named road has been so carefully built and with such easy gradients that, according to Col. Leonard, the government engineer, its trains are able to haul nearly double the tonnage heretofore handled between Winnipeg and Quebec.

### Budget Presented In The N. B. Legislature

Hon. Mr. Murray Shows Province Lived Within \$207 of Income Apart From Valley Railway; The Estimates; Business of House

Fredericton, N. B., March 25—The budget speech delivered in the legislature this afternoon by Hon. Robert Murray, provincial secretary-treasurer, marks a new

For the first time in the history of the province he was able to present to the house a detailed account of the actual business transacted by the province during the last fiscal year, instead of a mere statement of the cash receipts and expenditures. The net result of the year's financial operations, he pointed out, was that the province had lived within \$207 of its income, apart from the Valley railway receipts and expenditures. Hon. Mr. Murray's speech was a clear and fair presentation of the provincial finances, giving in detail the records of the last year, and in dealing with the estimates a comprehensive statement of the anticipated revenue and expenditures for the current year.

TRIBUTE TO FIGHTING MEN. In opening his speech he referred eloquently to the close of the war and the valorous deeds of the men of the army and navy, adding a tribute to the men of the mercantile marine, and not overlooking the part the women had played during the years of warfare.

The close of the war, he said, found the people of New Brunswick prosperous as was shown by their liberal subscriptions to the war loans, and the increase of \$13,000,000 in the bank clearings. With reference to the Valley railway, he showed that if the contractors completed the road by June 1 they would owe the province \$54,000 in penalties at the rate of \$300 a day since November last, when their time limit expired.

The cost of the road to March 1 was \$6,946,021, and the net cost to the province to complete the Gagetown-Westfield section will be \$90,000. The patriotic and war purposes each had yielded \$99,079. Of this, \$32,031 had been spent for patriotic and direct war purposes, and the balance had been used towards the extra cost of operations due to the war.

Under this administration fees for the collection of succession duties are not paid to the attorney-general as formerly, and the saving thus effected last year was sufficient to pay the salary of the deputy attorney-general for two and

The estimates for the current year which the provincial secretary present ed, showed a net reduction in the estimated income of \$70,949, and a net reduction of \$91,107 in the expenditures. He showed the liabilities on capital account to be \$17,163,089, an increase of \$1,353,233 during the year, due chiefly to expenditures on permanent roads and bridges.

The receipts from the motor vehicle fees had enabled the province so far

to issue bonds for permanent roads for \$700,000, and if the revenue this year is equal to the estimate, they will be able to issue \$450,000 more for this purpose. The minister made the gratifying announcement that it was expected that

ncome under the health act would meet the cost of the new department. ses in the estimates include new or additional sums for such purposes

as agriculture, vocational education, forest service, survey of water powers, prospecting new coal areas, exhibitions, public health and school books, as well as for increases in public works and interest charges.

Mr. Murray, leader of the opposition, moved the adjournment of the debate, and will speak tomorrow afternoon.

The House went into committee and approved a bill to enable coal mine operators in Queens county to provide for the payment of taxes by their miners by deducting the amounts from their wages.

The bill to extend the franchise to women was taken up and in reply to an inquiry the attorney-general announced that it was not the intention to enable women to become members of the legislature.

A discussion on the advisability of allowing alien women who had become British subjects by marriage to vote without any other qualifications, was in progress when the committee arose.

British subjects by marriage to vote without any other qualifications, was in progress when the committee arose.

Official Report.

Assembly Chamber, Fredericton, N.B., March 25—The house met at 3 o'clock. Notices of inquiry were given as follows:

By Mr. Smith (Carleton), as to amounts paid to Concrete Builders, Limited, and the Hartland Cement Block Company for pipe furnished last year.

By Mr. Prinder, as to the amount paid P. J. Hughes for professional services last year, and as to the cost of the McQueen inquiry.

By Mr. Smith (Albert), as to the tenders for the Salmon River Mouth bridge; as to the purchase of wood from A. R. Carter; as to details of expenses of the office staff of the St. John & Queber railway.

By Mr. Mersereau, as to the office or registrar of Kings county and as to whether Fred. M. Sproul, the late registrar, was under bonds to the province, the date of his appointment, and who recommended him for the position.

By Mr. Melanson, as to money paid directors, engineers and for legal expenses in connection with the St. John & Queber Railway for the years 1917 and 1918.

Hon. Mr. Tweeddale introduced a bill to amend the act relating to rates relating to reason of \$500 a year. Last year, owing to the high cost of fertilizer the amount had been increased by order-in-council to \$1,000, and the object of the manual reports as to the cost of the McQueen inquiry.

By Mr. Smith (Albert), as to the tenders for the Salmon River Mouth bridge; as to the purchase of wood from A. R. Carter; as to details of expenses of the office staff of the St. John & Queber Railway for the years 1917 and 1918.

Hon. Mr. Wender and the act relating to rates and an appropriation of \$500 a year. Last year, owing to the high cost of fertilizer, the explained that the object of the McLore and the act relating to swers in the priling to an act providing for an issue of debentures.

Mr. Barter introduced a bill to amend the act to encourage the use of must be an opportune to expense the petition of the best presented the pe

tion, also voted with the government forces.

Mr. McCrea opposed the amendment because he is a paper manufacturer and disagreed with several features of the amendment. Mr. Lapointe, of St. James, voted against his party because he represents a manufacturing constituency.

The exhibition of war trophies and process the manufacturing constituency. Mr. Fielding stood with the government for the reason that tariff amendments, in his opinion, should be introduced during the debate on the budget,

4. Elimination of duties on machiners, needed for the farm, mining, fisheries

5. General downward revision of the tariff måde after careful investigation

tariff made after careful investigation and with the object of relieving the consumers and of bringing more revenue into the coffers of the state.

The acting prime minister said that he realized the importance of tariff matters to the country, and he expressed the belief that the policy of the government on the tariff would meet with the support of the house and the people of Canada. There would be proposals and revisions. He asked that members in discussing this subject remember that this is still a war year, that the expenditures are still on a war scale and that Canada is still in the position of providing for a large army.

In closing, Sir Thomas said that the amendment was virtually a vote of want of confidence in the government and that it should therefore be voted down.

Leader of Opposition.

D. D. MacKenzie, leader of the opposition, said he wished to deal with the point raised by the leader of the government as to the effect of the resolution. The tariff question he said, was one of vital importance, and he considered that there was nothing improper in the Liberals laying their cards on the table and telling the house and the people of this country what they were prepared to do, if they so desired.

The people of Canada, said Mr. MacKenzie, did not care a fig whether the amendment was characterized as a vote of want of confidence or not. What they wanted was relief from the present situation. The tariff, said the leader of the opposition, was not a matter to be discussed behind closed doors. No doubt the government would have preferred to deal with it by order-in-council if permitted to do so. Leader of Opposition.

Hon. Mr. Carvell's Position. Hon. F. B. Carvell, minister of public works, said that he wished to speak only for himself. The amendment which had been moved by the member for Brome

Mr. McCrea opposed the amendment because he is a paper manufacturer and disagreed with several features of the amendment. Mr. Lapointe, of St. James, voted against his party because he represents a manufacturing constituency. Mr. Fielding stood with the government for the reason that tariff amendments, in his opinion, should be introduced during the debate on the budget. The Western Grain Growers who have been clamoring for the very things the amendment advocated, spoke against and voted against it because "The sole object of it is to put us in a false light."

While supporting the government now, they made it clear that they will expect tariff concessions when the budget is brought down. The acting premier, Sir Thomas White, stated that he would produce a budget that would appeal to a majority of the members of the house and the people of Canada, metalian and of seven and a half per cent. on goods from Great Britain and of seven and a half per cent. on goods coming from other countries.

MAR TROPHIES DRAW CROWDS.

The exhibition of war trophies and pictures in the Eastern Steamship building was very largely attended yesterday afternoon and evening and many were the admiring comments overheard. None concept with the sole of the sole and the sores of returned men who were present. One very interesting feature of last evening's attendance was the fact that Private Martin was stationed beside the large gun captured by the 26th battalion which holds the place of honor in the exhibition and will eventually be assigned to the lieutenant governor of the province. Private Martin was one of the squad that succeeded after a desperate struggle in capturing that gun from the Germans who, seeing that it was about to be lost beyond all hope had put a bomb in it and exploded it in such a way as to totally destroy its future usefulness. Private Martin was called upon again and again to repeat his thrilling account of that capture.

which will be directly or indirectly the great employer of labor, and employment will not be available regardless of the natural conditions which must in ordinary times regulate it. The government absorption of the products of labor will have fallen to a very low level relatively, and prosperity will depend in considerable degree upon competitive powers in foreign markets. The normal international exchange will have commenced afresh, and the country which has the lowest cost of production and transport, other things being equal, will become the dominant force in world trade.

New Trade Rivalry

trupture between capital and labor will be a fatal handicap, especially if it occur now, when every effort must be made to insure a sound reconstruction after the financial and commercial upneaval of the last few years. Will it be avoided and under what conditions? Of no use to come to terms on a basis which will overweight industry at the start. Industrial tranquility bought with an uneconomic bargain will be of no avail and must speedily react against those who gained the victory.

LADY ROBERTS VOTES.

The Lady Roberts Chapter, I. O. G. T., transacted much business for the benefit of the community by way of generous donations at its meeting held last evening at the residence of Miss Ruby

Report Adopted.

and all the commissioners were present.

Report Adopted.

The report of the committee of the whole was adopted without amendment. A formal resolution was adopted publishing the intention to pave Union street between Brussels and Waterloo under the local improvement act, and also publishing the cost per lineal foot as required by law.

Mr Jones said that he believed this unnecessary because from what he had learned in the street no one would pay under the local improvement act. He first voted against it, but on being advised that it required a unanimous vote of the council to proceed with the plan he changed his vote to the affirmative.

Barnhill, Ewing & Sanford, as solicitors for Archibald W. Smith, an Ontario man, submitted a claim for \$89.50 for injuries sustained and clothes destroyed in a fall on the slippery pavement. It was referred to Mr. Fisher.

A communication was received from the Nail Makers' Union, asking that the city council see to it that when the New Brunswick Power Company's rates are being reconsidered that provision be made for workmen's carfares as in other cities, to be obtained at eight for a quarter. On motion of Mr. Bullock the matter was referred to committee.

D. McLaughlin & Sons called attention to the disgraceful condition of the pavement in front of their property, 32 Forest street, and asked that steps be taken to repair it. The matter was referred to Mr. Fisher.

The Union of Canadian Municipalities submitted a bill for the city's annual fee—\$150, which was ordered paid. There was some discussion as to benefits derived and finally it was agreed that the expenditure was profitable.

Mr. Thornton reported on a claim of \$57.50 he had made against the New Brunswick Power Company because of destruction of a hose which a street car cut in two. The company was willing to pay \$30, and on Mr. Thornton's recommendation the settlement was accepted.

Mr. Bullock presented an application for damages from Hilton Belvea, a ferry

commendation the settlement was accepted.

Mr. Bullock presented an application for damages from Hilton Belyea, a ferry hand, injured in the recent accident. He said that Mr. Belyea received fifty-five per cent, of his salary from the compensation board, and he wanted the additional forty-five per cent, from the council, along with doctor's expenses and medical supplies, together with a sum to compensate him for his suffering. The council decided to pay his bills while he was ill and also make up the forty-five per cent, of his salary, the whole amounting to \$68.05.

## **DOMINION** RAYNSTERS

"Made-in-Canada" Raincoats

## Are Good Style

Dominion Raynsters correctly interpret the happiest styles of the spring season in men's, women's and children's coats.

In addition, they are absolutely waterproof;

which means that a Dominion Raynster will retain its stylish lines and a shapeliness after many months of wear.

This is because of the absolute reliability of the materials used in these garments and the thoroughness of every detail of their manufacture.

Made in a wide variety of styles and patterns. Ask to see the new spring models at your favorite store. All genuine "Raynsters" carry the guarantee label of the Dominion Rubber System. Look for it in the coat you select.

### **Dominion Rubber** System Belting is Uniform and Dependable

A uniformly high quality of materials put together by a process into which no element of chance can possibly enter insures an infallible uniformity of construction.

This gives to our transmission and conveyor belting a sturdy dependability that enables it to carry loads in excess of its intended

This dependability for service is maintained throughout our entire organization and it is on this basis that all of our products have been made for more than fifty years.

Although uniformity, dependability, economy and satisfaction are built into each foot of our belting, we maintain a staff of belting experts to make its dependability doubly

These experts will analyze all of your belting cquipment without charge, and any recommendations they may make will provide a belt that will not only live up to our claim for dependability but it will create a greater efficiency in your plant.

This service is obtainable through any of our service branches. Phone, wire or write the one nearest to you and let us prove its value to your satisfaction.

### ONE AGAINST 60

How Barker, of Canada, Won His V. C.

Only Twenty-five But Rich in Decorations Won in Air Fighting -Thrilling Combat That Ranks With Best in History

(By Mail, Written for the Canadian Associated Press by Arthur Beverley Baxter.)

ganizations for publicity, this has been a war of anonymity. Out of the obscurity a few names have shot like meteors, and the public at large, led by the journalists who followed the path of least resistance, have made household words out of these few names, forgetting that they are representatives of many others possessing the same qualities.

of the divisional commanders of the corps?

If anyone were asked to name a great Canadian airman, his first instinctive reply would be "Bishop."

Yet Bishop, great airman as he was, is only one of a group of Canadians whose names were dreaded in every aerodrome behind the German lines but who are returning to Canada almost unknown to their own people.

Who are the great Canadian airmen?

A few remember young McLeod whose winning of the V. C. beggars description and who was destined to die of sickness on his return to western Canada. A certain number recall that an airman named Barker won the V. C. in a fight against sixty. There the memory of Canada stops and yet in Colishaw, Bar-

They you to publish my letter."
It is only natural that people write us enthusiastic letters about Gin Pills. Wouldn't you do the same, if, assume, if, assume that the only reason that prompts people to write us praising this great remedy.

Read what Isidore Thomas says in part:

"My case was very serious, and I was so sick everybody expected my death any day. No suffering could be worse than what I had to endure. Eight boxes of Gin Pills were sufficient to cure me entirely. I beg you to publish my letter and tell all sufferers of Kidney Trouble not to despair nor wait, as Gin Pills will cure them. I have to be very thankful to you, and I recommend Gin Pills to all my friends suffering from kidney trouble."

are vitally important but do not show in an airman's record.

"I used to do some spy dropping in Italy," said the major. "I left an Italian count once at his chateau and gave him a supply of pigeons. By the way, I did a lot of work with Major Wedgewood-Beun, English M. P., who was my observer. He was a fine chap."

We did not mention his V. C. exploit, but the bare official record is as thrilling as the most expressive wording could make it.

It tels of his fight on Oct. 27 with an enemy two-seater when he was attacked by a Fokker biplane which, although he was wounded in his left thigh, but sent two Huns down in a spin.

Losing consciousness, he let his machine get out of control, but recovered only to find a still larger formation attacking him from every side.

This Canadian of twenty-five years then singled out one machine and deliberately charged it. It meant almost certain death for both but he cleared once more as the Hun went down in fames.

With his left elbow shattered, he again fainted but once more he came out of control but once more he came out of control but once more he came out of control but he cleared once more he came out of control but when the came of the came of the was volution in an airma

# Greets Heroes

How Y. W. C. A. and Other Organizations Care for Men at St. John-Comfortable Quarters

(Toronto Globe.)

The great ocean liner, with its precious burden of khaki-clad mer-slowly steams into port, and the war-worn heroes at last tread the shores of their native land, for which they have longed through days and nights of horror. The citizens of St. John have the honor of representing all Canada in the first reception of our returned men and their wives who come to us as new members of the national family, and St. John greets them with a welcome so warm and so glowing that it banishes all the clouds of difficulty with immigration red tape and with arrangements for the long railway journey that so many have before them.

Government representatives, civic officials and officers of all the patriotic and social organizations in the city await the travelers at the entrance to the Y. W. C. A. reception and rest rooms in the immigration building, and repeat with voice and handclasp the cheerful "Welcome Home" of the huge steamer that greeted the eye on arrival.

Every Emergency Met.

These Two Mothe Bainbridge, N.Y.

"My little daughter, 18 years of overworked and was run-down, tire all the time, nervous, had headache couldn't eat and had to stay out all the time, nervous, had beadache couldn't eat and had to stay out all the time, nervous, had beadache couldn't eat and had to stay out all the time, nervous, had beadache couldn't eat and had to stay out all the time, nervous, had beadache couldn't eat and had to stay out all the time, nervous, had beadache couldn't eat and had to stay out all the time, nervous, had beadache couldn't eat and had to stay out all the time, nervous, had beadache couldn't eat and had to stay out all the time, nervous, had beadache couldn't eat and had to stay out all the time, nervous, had beadache couldn't eat and had to stay out all the time, nervous, had beadache and has a good appetite, no more head and had to stay out all the time, nervous, had to stay out a

Education Versus Health.

The teaching resources of the community are so organized as to give each child a minimum of education, and the cost is distributed over the entire population. Medical resources are not so organized, and the sick have to pay for the doctor's advice when the sickness itself has reduced their ability to do so. Some day, Miss Dyke predicts, Toronto will make an investigation into her medical needs and resources, and will draw up a constructive health programme.

At a meeting of the Nail Workers' Union, held in their hall, Simonds street, last evening, an excellent address was given by A. B. Saunders on war stamp saving, and resulted in the formation of a society by the members of the union.

# DISCIPLINE FOR MEXICO NEEDED

fime Has Come When Nation May Get It

Big Account To Settle

Murders and Destruction of Property Not Yet Dealt With— Pro-German Attitude Another Item in the Bill

(Toronto Mail and Empire.)

If the Peace Conference should entrust the United States with the task of restoring and preserving order in Mexico the result would be a benefit to the world, and particularly to Mexico, as well as to the United States and Great Britain, which are more largely interested in Mexico than any other foreign nations. Both have long accounts to settle with the Mexicans. The nationals of both have been murdered and their murderers left at liberty. Property owned by them to the value of millions has been looted and destroyed. Neither can have forgotten the pro-German leanings of the Carranza government, the efforts made to stop the production and shipping of the oil so vital to the British and Allied navies, nor the constant extortions and blackmail to which British and American property owners have been subjected. Mexico has not the potentialities for a future world war that one of the Balkan States has, but Mexico has been a disturbing and hostile neighbor for years. It is high time she was made to walk the carpet—or the plank—and the United States is now in admirable condition to attend to her.

Watchful Waiting a Failure.

President Wilson's policy of "watchful waiting" would appear to have been a failure. If Mexico is not now so insolent as she was when the policy was first announced it is not because of the policy, but because of the fact that the United States in the meantime has come to a war footing. Villa and his band are still at large, and there are many thousands like Villa roaming the country, according to Russell Hastings Millward, F. R. G. S., who has spent many years in Mexico, and who gives his impression in the New York Sun. The dountry, fabulously rich in natural resources, is practically bankrupt, with a public debt of 575,000,000 pesos, upon which the government cannot pay even the interest. Mr. Millward thinks that only through outside aid will Mexico be put on her feet, and this outside aid, meaning outside capital, as well as advice, will not be forthcoming until there is an honest and stable government appointed. In fact, he seems of opinion that Mexico is hardly better fitted for self-government than is Egypt. She needs a man like Cromer, and another man like Kitchener.

Mexico's greatest days were the days of Diaz, notwithstanding that in those days there was oppression, bribery, corruption and a general throttling of popular government. But what is popular government in a country where ninety per cent. of the people are steeped in ignorance, and another five per cent. steeped in corruption, to give Mr. Millward's estimate? In the fity-seven years immediately preceding Diaz's entry into the city of Mexico, the country had fity-one revolutions. There had been virtually no development, the land was a wilderness. The twenty-seven different tribes that made up the Mexican population dwelt in a state of uncivilization bordering in many cases on savagery. The adventurers who from time to time, and at intervals of only a few months, got control of the country's government, plundered it to the best of their ability and then with their spoils left it to the next successful revolutionist. In the thirty-one years of Diaz, all the old abuses were by no means eradicated, but law and order and security were established. Foreign capital was encouraged, railways were built, natural sources of wealth were uncovered. It may be that the people of Mexico themselves—the average man, the half-breed that makes up the bulk of the population—did not find themselves rolling in wealth, nor did they find their children better educated than their father was.

What Revolution Achieved.

It was because under Diaz these hard conditions were not greatly improved, because Diaz apparently was not particularly interested in improving them, that Madero was listened to when he began to talk revolution, and followed when he raised the standard. Madero was something like Kerensky, although a better man than the Russian. But he as little understood the forces he was dealing with. Like Kerensky, when he failed immediately to usher in a new Heaven and a new earth, he was murdered, and Huerta took his place. Huerta was simply a desperate adventurer, and he gave place to Carranza and Villa. There has hardly been a peaceful day in Mexico since old Diaz was dethroned. Villa, of course, is simply a clever bandit and murderer. It is not so easy to classify Carranza, except to classify him as a failure in so far as solving the great Mexican problem is concerned. Things have not improved under him. Maybe if he had to deal with a man of another type from Wilson, with a Roosevelt, for instance, Carranza would have displayed different traits.

One of Diaz's Secrets.

One of the secrets of Diaz's ability to keep peace in Mexico was related to Mr. Millward by Porfirio Diaz, jr., son of the former president. It was the threat of American intervention that he held over the heads of the turbulent generals who were disposed to challenge his authority, especially when they were located in the north, to indulge their natural taste for raids on American territory. If they did not fear Diaz, they feared an American army, and the old president contrived to keep this fear constantly before them. Of course they would never fear such a bashful and circumscribed invasion of Mexico as was made by Pershing a few years ago. That was a joke, but a real invasion by land and sea for the purpose of punishing those responsible for crimes committed against American citizens they would fear, especially if the prospect were held out to them of having the name of the country changed from Mexico to Annexicos

An Irishman was declaiming against the injustice done to his country, and instanced absentee landlordism as one of the worst, "But," said one of his listeners, "that evil has been considerably remedied in recent years. There are not so many absentee landlords now." "Sorr," was the reply, "the country swarms 'wid 'em."

# FARMERS

## For Forty Years We Have Been Allies

Do you remember what farming was like in Canada forty years ago?
We remember very well what manufacturing was like, what there was of it.
The farmers were struggling on farms and getting low prices for their produce.
The few manufacturers were also struggling, for the most part unsuccessfully.
For forty years we have worked together. Have we not both prospered?
We buy from you most of what you grow. You buy from us most of what we make. That has been and is the basis of our alliance.

The manufacturing establishments in Canada employ nearly 700,000 people. Their wage-roll is about \$700,000,000 a year. Moreover, they buy annually nearly \$2,000,000,000 worth of raw material, mostly in Canada. Around these factories are congregated a hundred other forms of business. All these are your customers, and statistics show that this home market is four times as valuable to you as your entire foreign market. Decrease its buying powers, and your sales lessen and your prices drop.

### How A Minority Seek to Sever Our Alliance

The Prairie Grain Growers are urging the Government to throw down the tariff wall between Canada and the United States because they want to save a little money (mainly on freight rates) by buying from the United States manufacturers just south of them. They, who constitute about 20 per cent. of the agricultural population of Canada, ask all the other farmers, who constitute the remaining 80 per cent., to change the policy which they have supported for forty years.

Furthermore, to raise the Dominion Government revenue, they would substitute for the tariff, which collected last year about 60 per cent. of that revenue, an increase of income taxes, inheritance taxes, corporation taxes and taxes on unimproved land values. As it is quite obvious that such taxes would affect the farmer but little, this is the inducement they are using to get you to forsake us and follow the free trade prophets no one knows where.

We think this appeal will fail. First, because it seems to be founded on the assumption that the farmers of Canada want to slip out of paying any increased taxes that may be needed for soldiers' pensions, gratuities and

re-establishment. We have found in all our experience that the farmers of Canada are not this class of men. Second, because the argument is unsound. It requires little reflection to see that if our market is thrown open and flooded, many of our manufacturers, caught in the struggle to re-adjust themselves from war to peace conditions, will not be able to keep going. Would this not result in many of our people, unless they were able and willing to take up farming, leaving for the United States? Would not the rest of the population then, which might consist chiefly of farmers, have to pay all the taxes?

The Grain Growers do not represent the entire population of the Prairie Provinces. They do not represent the business population; they do not by any means represent all the farmers. The Prairie Grain Growers' Associations are dominated by a group of free traders whose one idea seems to be to get free trade all over the world. Unfortunately for their theories, just at the present time all the rest of the world seems desirous of getting protection.

### Tariff Policy of Other Nations

GREAT BRITAIN is shutting out the goods of other countries (except the Dominions). FRANCE and ITALY are shutting out the goods of other countries by import

THE DEMOCRATIC PARTY in the United States, which advocates low tariffs, seems to be going out of power, and the Republicans, who always support high tariffs, have now a majority in both Senate and Congress. Do you think that this means that the United States' tariff is going up or down?

SOUTH AFRICA is increasing its tariff. Australia, New Zealand, Newfoundland, Japan, Brazil and Portugal are all jealously maintaining their tariffs.

Why is this wave of protection sweeping over the world? In a word, because the various countries are trying to produce all they need at home, in order to provide work for their own people—many of them returned soldiers.

Why then is this Western minority of the farmers of Canada determined to go in the exactly opposite direction?

In opposing the demands of the Grain Growers, we do not in any sense intend, as they sometimes say, to show hostility to them. They are our customers. Is not our prosperity affected by theirs? Beyond all this, if the farmers do not prosper, neither we nor the country can prosper. Agriculture and industry are the basis of the country's strength. But we feel that these demands of the Grain Growers aim a deadly blow, not only at industry but at the whole

What justifies the Grain Growers in demanding that their personal grievances be cured at the expense of the rest of the country? Are they in a desperate position? Have they been losing heavily? Are they suffering from too much adversity or too much success? Are they in any danger comparable to the one great danger in Canada now?—

### THE DANGER OF UNEMPLOYMENT

the danger which may place thousands in need of shelter, food and clothing?

Most Canadians feel strongly that until this danger is avoided, and the country safely restored to a peace basis, the nation should not be disturbed by any tariff controversy at all.

When this danger is passed, and the country knows where is stands, and what other countries of the world are going to do, then the tariff question should be taken up and such a tariff should be framed as will suit, not the manufacturers merely, nor the farmers merely, but the country as a whole, and by adding to the prosperity of the nation, add to the prosperity of each and every class—the only safe path to prosperity for any country or any class in that country.
