TOMORROW'S BIG CHILDREN'S RALLY  
Free Patriotic Matinee After First Show at the Imperial—To Join Navy League

So that hundreds of school children may have the opportunity of joining the popular Navy League, get their badges and have their names enrolled before they leave town for the holidays, the Imperial Theatre management has placed the big house at the disposal of the league executive for tomorrow (Friday) afternoon starting after the first show, namely about four o'clock. The increase of the big Mary Pickford programme will be entitled to stay over for the patriotic function. There will be patriotic choruses with which the children are familiar, short addresses explaining the purposes of the league, a line display of British naval motion pictures and the decoration of all boys and girls who bring their 26c. buttons will be given out by naval officers in port. It will be a very pretty ceremony and children are requested to remember that if they bring their membership fees—twenty-five cents—tomorrow they will only have to get in line and walk to the stage and receive their insignia of enrollment.

MARY PICKFORD AT THE IMPERIAL TOMORROW  
Comedy holds full sway in "Amarilly of Clothes Lane Alley," the next Artcraft picture which stars Mary Pickford, and which will be exhibited at the Imperial Theatre, beginning tomorrow. While in every picture presenting Miss Pickford there has been more or less comedy and the star has time and again proven herself a comedienne of rare ability as well as an actress capable of any height of emotional acting. It is said that there has never before been a Pickford photoplay wherein humor predominated to such an extent as in this picture. The story of the film is a comedy of genuine pathos and any number of funny incidents. The picture is a comedy, dainty wit, presents a convincing figure of the little tenement girl, the far side of the moon, the realm of the idle rich, lured by the blandishments of a son of wealth, but returns at last to her natural environment, where she finds happiness. It is a wonderful picture for school-closing day and for Saturday before leaving on holiday jaunts.

CONSTANCE TALMAGE IN BRIGHT STORY AT IMPERIAL THIS EVENING  
That winsome little star, Constance Talmage, makes a splendid impression at the Imperial in "The Studio Girl," a story taken from the French novel "La Gasiniere." It was one of those superior sort of photoplays, elaborately staged and groomed, exquisitely set in splendid gardens, etc., and acted by a high-class company. The story is that of a village belle who hid herself away in a rich man's limousine to escape a foolish marriage to a lazy lout in the town to whom she had been betrothed by maiden aunts. The British Weekly and a Bobby Connelly-Rose Tapley Vitagraph comedy concluded the fine programme.

SAYS ONTARIO IS GOING HEADLONG INTO INSOLVENCY  
Senator Edwards Discusses New Quebec Lumber Tariff—Declares There's No Money In Lumbering Today

Ottawa, June 27.—"The Province of Ontario is going headlong into insolvency," declared Senator W. G. Edwards this morning during a brief comment on the new timber limit tariff which the Quebec government has just put into effect. While admitting that he and other large lumbermen would be seriously affected by the new tariff, which has increased stumpage and ground rent rates as high as 100 per cent, Senator Edwards was complimentary to the Province of Quebec. "After all," he said, "the Province of Quebec is the only civilized province of the dominion because it is the only province that is solvent and the only province that has a stable government."

REPORT IS DENIED.  
Ottawa, June 26.—According to A. E. Warren, chief operating officer of the Canadian Government Railway, there is no foundation for the report that laborers employed in tearing down the old intercolonial shops at Moncton have quit work, and that intercolonial employees from the detention camp at Amherst have taken their place.

A CHALLENGE  
The Franklin challenge the Athletics to a game of baseball to be played on the Canadian Government Railway, between Orange street diamond on Friday evening at seven o'clock.

ANOTHER MEN ATTRACTION FOR PATRONS OF THE ROYAL  
Ever mindful of the pleasure—as well as comfort—of their most discerning patrons, the Royal Hotel announce the addition of a new attraction in the form of a select musical programme by a special orchestra, during each meal hour, in the main dining room, daily, from 12.45 to 1.45 and from 6.30 to 7.30 p. m., in addition to the musical numbers in their popular garden cafe. There will also be orchestral selections from 11.30 each evening. This latest feature marks another forward step by the enterprising management of the Royal, and merits the hearty appreciation of both local public and summer visitors.

AN INSTRUCTIVE LECTURE ON HOW TO TAKE CARE OF YOUR FEET.  
In order that you may get full information as to the many foot troubles which the people of today are suffering, there is to be a free lecture given to the public on Thursday evening in the German Street Institute, corner of Germain and Queen streets, at 8 p. m. Waterbury & Hild have been during this week a foot specialist who has very high qualifications in his profession, being the right hand of Dr. Trolch, the world's greatest authority on foot troubles, and who, it is claimed, has relieved more people from suffering than any other man alive. This lecture is entirely free and will be illustrated by over 100 slides of an interesting nature, and no doubt it will be a great privilege for the people of this city to get such direct information of just how to take care of their feet and avoid the intense suffering which many have gone through in the past.

IN WALL STREET  
New York, June 27.—The rise in specialties and war shares which accompanied yesterday's later dealings, was resumed at the opening of today's stock market. Tobacco, leathers, motors, oils, coppers and issues of less definite character were most conspicuous at gains of large fractions to 1 1/2 points. S. Steel was again in demand, although advancing only a small fraction. Trading in rails was negligible and utilities were represented by a two-point decline in Consolidated Gas. Liberty bonds were steady.

Rescued People Aboard  
Halifax, N. S., June 27.—A local ship officer, in a small tug, rescued three men and a woman who were adrift in the sea after the arrival there of one of its vessels with several survivors of a torpedoed steamer.

SPEAKS OF KOREA AND THE KOREANS  
(Continued from page 1.)  
carries less weight in national affairs than the German Reichstag, the emperor being supreme and the affairs of the nation being carried on by the ministry appointed by him.

Credit must be given to the Japanese not only for giving the Koreans better government than they enjoyed under their own rulers, but also for their progressive policy in developing the country. When Mr. Robb went to Korea, there was only one short railway in the country, that from the capital to its seaport. The railway now being built, the standard broad gauge road is used and these lines, connecting with the trans-Siberian road, now form part of the round-the-world route bringing much traffic to Korea. Excellent highways are being constructed in place of the paths which formerly limited wheeled traffic to wheelbarrows and motor car stages.

The mineral resources of the country are being opened up and gold, coal, iron and copper are being mined, chiefly by Japanese interests, with some foreign capital assisting. The commerce of the country is being controlled more and more by the Japanese and they are also making the beginnings of industrial development. For manufactured goods, however, the country depends chiefly on the output of the factories of Japan.

With the advantages of better education and the stimulus of contact with outsiders, the Koreans may be expected to make a better showing in future years, if they are given a reasonable opportunity. They are a bright and intelligent people and in earlier centuries had outstripped the Japanese, in the development of their civilization. Pottery, bronzes and movable types were invented and in use in Korea before the idea had occurred to Europeans and specimens of these types are now preserved in the museums. The finest china, the work of the descendants of Koreans who originated the art. A Japanese visitor to Korea more than three centuries ago collected all the skilled workers in this line and took them to Japan. Korea lost a rare art and a profitable industry and Japan has been the better for it.

An intellectual people with scholarly leanings, the Koreans have taken kindly to modern science and the opportunity has offered and there are now many graduates of native and foreign institutions in the various professions. The women as well as the men are showing their ability to assimilate western ideas and recently a class of three women doctors received their degrees.

Christianity has been welcomed in Korea as in few countries. The beginnings of modern missionary work in that nation date back only about thirty-four years, but there are now 210,000 adherents of the Protestant denominations and 700,000 followers of the Catholic church. When Mr. Robb went there seventeen years ago there were only 100 foreign missionaries in Korea and today there are more than 400, including the wives of the missionaries who engage actively in the work. This by no means measures the strength of the church forces, however, as a strong body of native workers has been built up. There are now 400 native pastors, evangelists, full-time and Bible women giving their full time to the work of the church. Among the Presbyterian Korean churches the native workers are supported wholly by their own people and among the Methodists the local congregations contribute almost the entire support, these two denominations doing nine-tenths of the Protestant missionary work in that country. Last year the natives of the federated churches contributed \$146,000 for church, educational and missionary purposes. The generosity of these contributions may be better measured when it is remembered that the Korean laborer earns only twenty-five cents a day and a school teacher's pay is \$7.50 a month. Speaking of the war situation in the far east, Mr. Robb said that it was understood that Japan would be willing to furnish troops for the conflict, but that she would like in return a portion of Manchuria and possibly eastern Siberia.

A ROLLING TIME FOR PATRONS OF GEM  
Acrobatic, Comedy and Musical and Travel Entertainment in Specialties and Pictures

The new programme at the Gem, enjoyed last night, provides a well diversified bill in vaudeville acts and pictures. Fisher and Hartwell are a good pair of entertainers, man and woman. They sing well, dance well, and the conductor, "The Hand of Man," is very effective. The kiddies will be delighted with the monkey, Galvin, Leves and Galvin, two women and a man, provide a jolly quarter of an hour in a sketch "The Messengers." The latter is a spirited comedienne and the other girls in the joy-making with jokes and songs and chatty dialogue. Dancing also is a feature.

### THE WAR SITUATION.

The world waits for the next move on the part of the Central Powers. They have failed on the western front and the Italian front. It is generally believed the next blow will be struck in France and soon. Today's cables report a serious epidemic of influenza in the German army, but it is added that there is no evidence that this is responsible for postponement of the offensive. The longer the enemy delays, the more American troops he will have to reckon with, and therefore an early resumption of the offensive is anticipated.

A French official statement warns against founding extravagant hopes upon what may happen in Austria, as the chances of a successful revolt there are not very good, despite the food-famine and growing discontent. It is quite true that Austria is not in a favorable position for breaking away from Germany. She must look to the latter country for what food she requires, as the Allies could not supply it, and Austria's debt to Germany is enormous. Moreover there are said to be eleven different nationalities in Austria-Hungary, some of whom hate each other as much as any of them hate the Germans. The aims of Austrians and Hungarians are not the same. Thus an attempt at revolution on the part of one group might not be supported by the others. As time goes on the dual monarchy will undoubtedly be seething with the spirit of revolt, but as yet the iron will of Germany is supreme. Revolution, disintegration and reconstruction are coming, but perhaps not as soon as we are tempted to hope. It is nevertheless true that Austria today is a menace less true than it is daily becoming a less formidable factor in the war.

A new turn is given to the discussion of Russian affairs by the arrival of Kerensky in London, en route to America, and his assertion that the Russian people are turning again toward the Allies. In that direction the outlook improves. Replying to criticism of Von Kuhlmann's reference in his speech in the German Reichstag to diplomatic negotiations, the foreign secretary hastened to say that military success must precede any such negotiations, and Chancellor Von Hertling emphasized the same point. In other words, they still profess to believe in German victory. There is, however, a hint in today's cables that Von Kuhlmann may be invited to resign office.

### HOUSING IN CANADA.

National and Municipal Housing is one of the subjects to be discussed at the annual convention in Victoria, B. C., next month of the Union of Canadian Municipalities. It will be introduced by Mr. Thomas Adams, town-planning expert of the Commission of Conservation.

The housing problem will be acute after the war. It is now attracting national-wide attention. In Ontario there is now a shortage of houses, that is especially felt in Toronto, and in that city it is almost daily discussed in the newspapers. Some proposals which have been made are stoutly opposed on the ground that they would result in a new tenement problem. The Globe calls for individual homes as far as it may be practicable. The medical health officer protests against the creation of tenement districts. The Globe says: "The aim should be to provide houses of moderate cost or rental, suitable for wage-earners, in parts where the land has not been fully occupied, where space may be obtained for lawns and gardens. The city, like other urban communities of rapid growth, is paying the penalty of land speculation and of the short-sightedness of municipal government in not protecting citizens against it. The solution of the housing problem, or such a partial solution as land abuses will permit, is related to transportation facilities. When a single street car fare will carry a passenger to the city limits in any direction, building will be given an impetus in the suburbs, where vacant land is still plentiful. Rapid and adequate transit must soon follow the acquisition of the street railway lines by the city. Housing programmes and policies should be based upon this development of the near future. It would be a blunder which could not be rectified if in the meantime rows of unsightly tenements, built with no regard for the amenities, crowded upon sites with no room for playgrounds or gardens, were to be rushed up in localities where individual houses are still the rule."

The Toronto News is decidedly radical in its views, and declares that municipal housing must come, not only in Toronto but throughout Ontario. It says:

"Houses are needed in Toronto, in Hamilton, in London, in Peterboro, in every industrial part of Ontario. Because of the scarcity, families are 'doubling up'; that is to say, the occupant of a house sub-lets the bath-room flat. All sanitary conveniences must serve both families. There are common halls upstairs and down, and a common front door. Privacy, which is the chief end of family life, is not to be obtained under such conditions."

The News protests vigorously against

the remedy offered by tenement houses erected by speculators after the city has lowered its building requirements to suit them, citing Montreal as an illustration of the evils of this policy. It warns the city council to walk warily, and remarks that Philadelphia was careless some years ago with the result that "Hell's half-acre" is within easy distance of the City Hall. It says that only when there is a financial depression are houses plentiful and rents low, and that "housing as a private enterprise carried on by private builders is a failure." Then it says:

"Municipal housing will come in Toronto and in all Ontario. How soon? That depends upon the ability of the Trades and Labor leaders to stir up community out of its indifference. For assuredly housing is primarily a Labor problem. It has been our boast in Canada that the laboring man has as good a chance as any other for a decent home life. It is a boast that sounds empty and puerile at this moment. Good housing is of vital interest to the manufacturer and the business man. Efficient labor seldom comes from a slum area. The common interest in suppressing all incentives to vicious courses and in preventing the spread of communicable disease makes modern municipal housing vital to every man, woman and child in the community."

Continuing, the News cites the example of the United States in appropriating \$10,000,000 to house its municipal and other workers, and that of England which has undertaken housing schemes at great cost. Ontario has a provincial act enabling private capitalists to co-operate with the municipalities, which guarantees bonds to an amount not exceeding 85 per cent of the value of the completed property. The News understands, however, that the Toronto Housing Company, operating on this plan, has not yet paid a dividend. Hence it says:

"This plan is better than none, but it has disadvantages in large scale operations. It is not always easy to find men of wealth willing or able to invest large sums with the prospect of a mere bare interest as a return. The burden should be directly upon the municipality as a public utility investment."

A committee has just been appointed by the Ontario government, with Sir John Willison as chairman, to investigate housing conditions in Ontario. Sir John, in a recent interview, said:

"I should think we will take some evidence, but my point of view is that it would be waste of time and money to prove that there is a scarcity of houses, as we all know a scarcity exists. The business of the commission will be to get the best information possible in the shortest space of time and recommend a remedy, if one can be suggested."

"Although Great Britain has spent millions of pounds since the war began to provide houses for the workers in munition and industrial plants, which the war has made necessary, and while the United States has appropriated hundreds of millions of dollars for the same purposes, in Canada we have as yet done nothing along these lines."

Bangor Commercial: A special correspondent of the New York Herald, who has just returned from a stay of five months in Russia, states that Lenin is simply an agent of Germany, a decision reached long ago by many Americans who have not been favored with a close-up view of Russian conditions. The Herald further states that the Bolshevik ideals advanced by Lenin were made in Moscow that aided in placing the Bolshevik leaders in control was engineered by Germans and led by German officers and prisoners of war. But the correspondent believes that the day of Lenin and his colleagues has about reached its sunset, the reaction against them reaching everywhere in Russia and being participated in by the vast majority of the Russian people.

Apparently the western grain crop will not be as good as had been hoped for. There is the more reason for substituting other foods for wheat, and releasing as much as possible of the crop for export to England, France and Italy.

### REPLY OF FRENCH PREMIER TO CARDINAL.

Paris, June 27—(Havas Agency)—In answer to a letter from Cardinal Luçon, Archbishop of Rheims, who wrote President Poincaré asking that official public prayers for France be said, Premier Clemenceau said that all citizens of France are free to assemble in the churches for the ceremonies the cardinal desires but that the law prohibits official participation by the government in religious ceremonies. M. Clemenceau added that he appreciates the nobleness of the sentiment which inspired the request of the cardinal and said that the sympathies of the government and of all French people were entirely with those persons, "who make an effort to contribute by prayers or acts to the triumph of our great fatherland."

Still Here. A sick man had just emerged from a long delirium. "Where am I?" he asked, very feebly, as he felt the loving hand making him comfortable. "Where am I?" in heaven?" "No dearie," said his wife gently, "I am still with you."

### 124,525 MORE CALLED TO COLORS IN U. S.

Washington, June 26—White and colored draft registrants numbering 124,525, were summoned to the colors for general military service in a call issued today by Provost Marshal General Crowder. Mobilization will take place at intervals during the month of July, starting with the enrollment of 27,257 white selected men on July 2.

## RUMOR THAT FOSTER WILL GO TO SENATE

Ottawa Citizen Says Hon. A. K. MacLean May Get Portfolio—Other Changes Possible.

Ottawa, June 27—The Citizens says this morning: "When Sir Robert Borden returns to the capital, rumor has it that a number of changes will be made in the cabinet. It is reported, for instance, that Sir George Foster, minister of trade and commerce, will go to the senate and retire from the department, while Hon. A. K. MacLean, who made good as acting minister of finance, is likely to get a full cabinet portfolio. At present he has none, but is head of a committee on reconstruction and development."

"The announcement that Dr. Blondin is to return to the post office department suggests the probability of his qualifying with a seat in the senate. It is rumored, for example, that Lieutenant Governor Leblanc, of Quebec, will resign because of ill health and be succeeded by Hon. Joseph Bolduc, speaker of the senate, thus creating a vacancy in the upper house for Mr. Blondin. A parliamentary secretaryship of the post office department may be created, and in that connection the name of J. E. Armstrong, is prominently men. "Other changes are also mooted. It is to be remembered that the prime minister is pledged to give liberal cabinet representation on the fifty-fifty basis and they are now about three short of it, so the new men are likely to be largely of that political stripe. F. F. Pardee and one or two of the prominent men not in politics may land in the cabinet. If Mr. Crothers retires, Hon. Gideon Robertson, with a seat in the house, would probably succeed him."

## Emerson & Fisher Ltd.

Violations of food rules resulting in penalties. Orono, Me., June 27—According to advice received by Federal Food Administrator Leon S. Merrill more than 800 penalties for violations of rules and regulations governing licensed dealers in foodstuffs have been imposed during the last ten months by the United States food administration. About 180 companies and individuals have been ordered to quit business in licensed commodities for a limited or unlimited period, and over 600 have voluntarily made a money payment, usually to the Red Cross or

have temporarily abstained from doing business, rather than risk calling down drastic penalties upon their heads. A vast number of other cases have been disposed of by federal food administrators in the various states and territories under the authority of, but without specific appeal to, headquarters at Washington. In a large number of other cases the desired compliance has been secured without penalty. More than 2,500 cases arising out of shipment of foods, many of them perishable, have been disposed of.

**MAKE YOUR STORAGE PREPARATIONS.**

Plan for your winter storage of vegetables now. Remember that you did not plant your war garden merely for the amount of fresh vegetables you were going to have this summer but for the continuous supply you hoped to have all the year round.

The vegetables you use next winter are going to be of the utmost importance in the conservation of meat and wheat. You will need all that you can dry or can or store. A woman's patriotism may be measured in these days by the state of her cellar, her pantries and her ice-box.

By the time the war gardens have ceased yielding up the good things of the earth every housekeeper should have well-stocked pantry shelves and a good supply of fresh winter vegetables stored in her cellar.

In the past there has been too much preventable waste through lack of proper storage facilities. See that this does not happen again. Better spend a little money now in making proper preparations which will be of permanent value than allow any food to go to waste.

We must supplement our commercial stores of food more and more with home canned, dried and stored products and it is to her women that Canada looks for this patriotic service.

Increase in Sugar Price, Washington, June 27—An increase of five cents a hundred pounds in the price of sugar at seaboard points was authorized by the food administration yesterday.

Gas in the Stomach is Dangerous, Gas and wind in the stomach accompanied by that full bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach.

Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastritis accompanied by serious stomach ulcers.

Food ferments and sours, creating the distressing gas which distends the stomach and hampers the normal functions of the vital internal organs, often affecting the heart.

It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids.

Instead get from any druggist a few ounces of Bismarck Magnesia and take a teaspoonful in a quarter glass of water right after eating. This will drive the gas, wind and bloated right out of the body.

Bismarck Magnesia (in powder or tablet form) never liquid or milk) is harmless to the stomach, inexpensive to take and the best form of magnesia for stomach purposes.

It is used by thousands of people who enjoy their meals with no more fear of indigestion.

MORNING NEWS OVER THE WIRES, Lieutenant Allan O'By of Georgetown, killed in action last October, has been mentioned in despatches by General Haig for conspicuous bravery.

Private Carl Sheers, who has been stationed at Amherst, was arrested yesterday at Coverdale, charged with the theft of a horse and carriage. He is said to have skipped with a young woman. The girl was held and will be sent back to her parents.

Hon. H. W. Wickwire, recently appointed minister of highways in Nova Scotia, was elected by acclamation in Kentville yesterday.

In his reply to the Ministerial Association of Guelph, Hon. C. J. Dochert, acting prime minister, said that as his son reached the age of nineteen years in December, 1917, he was not liable for military service. The young man had, however, offered himself for military examination and had been found physically unfit.

### MUCH MAY COME FROM KERENSKY'S VISIT TO STATES

Washington Interested And Speculates on Outcome

SEES RUSSIA AGAIN IN WAR

Former Dictator Declares in London That His Country Oace More Will be Battling Hun—Russia Would Welcome Intervention

Washington, June 27.—The unbridled appearance of Alexander Kerensky in London, together with his announcement that he is on his way to the United States and that he is certain Russia soon will be fighting again with the forces of democracy against German domination, furnished the subject for a discussion in official and diplomatic circles. The belief seems to be general that he is not only seeking to enlist the support of his own people in this country in his efforts to rehabilitate Russia and cast off the German yoke, but will discuss the subject with officials. Appearing as he does at a time when both the United States and the Entente governments are earnestly considering what they may best aid Russia to rid herself of German influence and establish a stable government, the visit of the late dictator of that stricken nation is regarded by officials as having many and far-reaching possibilities. Coincident with the appearance of Kerensky in London, the British member of the Russian commission sent to the United States by the Kerensky government, arrived in New York, and a few months ago, Mr. Soukhie said, this action would have been intolerable to the people, but German aggression in spite of the Brest-Litovsk treaty, had caused such suffering and privation that Allied intervention now would be hailed with relief.

### BELIEVE PREPARATIONS FOR NEXT GERMAN DRIVE ARE ABOUT COMPLETED

More Troops on West Front Meanwhile Suffer From Grippe and Typhus

With the British Army in France, June 26—(By the Associated Press)—German troops on the western front are suffering from an epidemic of grippe which incapacitates them for a week or ten days. There are also many cases of typhus and dysentery in their lines southwest of Lille. There is no evidence, however, that these illnesses are responsible for the postponement of the next offensive. It is believed that the German high command has nearly completed its preparations for the next great attack. The artillery in the last two days has been rather below normal. The German infantry in Flanders has been complaining of the bad shooting of the British behind the front. German troops have been suffering badly from the British fire, one order showing that the spirit of the enemy troops had deteriorated in consequence. A captured order signed by a colonel of the German regiment shows the anxiety of the German command to ascertain the exact strength of the allied forces opposing him. The order complains of the failure to secure prisoners and recommends a renewed attempt by an ambush patrol because information of the disposition of the British behind the front is scanty. The patrol went out as ordered. The officer in charge was captured by British and the men with him bolted back to their own lines.

### War Gave London Cafeteria Idea

Plan of Serving Food to be Undertaken By the Government

London, June 27.—The war has brought the cafeteria idea to London. This plan of serving food to the public at minimum prices is to be undertaken by the government, and will be known as the Ministry of Food's Model National Kitchen and Restaurant. The Director of National Kitchens announced recently that he hoped by the new method to be able to supply good wholesome food at less than one-third the prices charged at popular tea shops and restaurants in London, and not only pay rent and all establishment charges, but also to clear a profit of 25 per cent. All food is to be prepared and cooked within plain view of the public, windows separating the kitchen from the dining room proper. It is also proposed to deliver food at an additional charge of a few cents. The food kitchen officials say the table napery, cutlery and crockery will compare favorably with that used in the good London restaurants. The restaurant is to be in New Bridge street, Blackfriars, not far from Fleet street. In the demand from night workers in the newspaper offices and other shops it is planned to keep the restaurant open all night.

### New Enemy Device Of Frightfulness

Incendiary Bomb Collects Crowd, Then Projectile is Dropped

Paris, June 27.—"Flegmaur," a new device of frightfulness, is the name given by the Germans to a recently perfected bomb which, according to their own claims, will multiply one hundredfold the precision and effect of night bombardments. The bomb weighs less than two pounds, enabling an aviator to carry hundreds at a single trip and is said to be employed especially against crowds of people. Instructions found on the person of a German aviator who was made prisoner the other day say that in order to get the greatest efficiency and precision the low flying aviator to see the result obtained, the following method is employed: First, the aviator must throw several incendiary bombs on the object of attack. After a pause of some minutes to permit the crowd to gather around the burning object, as they naturally would in order to extinguish the flames, the aviators must swoop down and throw this flegmaur into the midst of the group.

### DEATH OF CHANCELLOR OF QUEEN'S UNIVERSITY.

Kingston, Ont., June 26.—Prof. Watson, vice-president of Queen's University, will represent the university at the funeral of Dr. James Douglas, chancellor of Queen's, who died in New York yesterday. The funeral will be held on Friday morning to Quebec.

### PUTS AMERICANS ON SUGAR ALLOWANCE.

Washington, June 27.—The restriction of the American people to one and half ounces of sugar a day for each individual during the next six months was ordered yesterday by Food Commissioner Herbert Hoover.

### freedom of movement of enemy craft through the northern exit to the North Sea, are proving very fruitful. Secondly, the steps taken to defend merchant shipping against mines and U-boats—providing ships with other mine protection and organizing convoys—are giving admirable results. Thirdly, apart from the wonderful record the Americans are putting up in shipbuilding, British yards are making headway owing to the fact that plans drawn up several months ago for the extension of yards and engine shops are beginning to be productive." Mr. Hurd says that the losses in British shipping in May exceeded the tonnage built by 28,000 tons and concludes: "There already is evidence to show that the situation has still further improved since the end of May. The curves are continuing a most encouraging course."

### NEW STAMPSAGE REGULATIONS IN PROVINCE OF QUEBEC

Quebec, June 27.—As a result of an interview which the timber limit-holders had recently with Sir Lomer Gouin and Hon. Jules Alard respecting timber dues and ground rent, and at which the limit-holders agreed to forego certain privileges, a new tariff has been issued which for stampage dues will come into effect at the beginning of 1918-19, and for ground rent, next May. The new tariff is: Stampage dues, for the first five years, \$26 a thousand feet; second five years, \$3; red pine, \$3 for ten years; spruce, \$1.60 first five years, \$1.60 second five years; cedar, \$1.40 for ten years; cedar ties, 10c for the first five years and \$8 for the second five years.

Hon. Mr. Veniot Inspects Roads

The road from St. John to St. Stephen is in excellent condition at the present time and there are several sections of it that are equal to, if not better, than the Maine State gravel road, said Hon. P. J. Veniot, minister of public works in the provincial government, last night at the Dufferin Hotel.

LIVER TROUBLE and HEARTBURN CURED BY MILBURN'S LAXA-LIVER PILLS

When the liver is torpid and influenced it cannot furnish bile to the bowels, causing them to become hard and constive. The symptoms are a feeling of fullness or weight in the right side, and shooting pains in the same region, pain between the shoulders, yellowness of the skin and eyes, floating specks before the eyes, coated tongue, bad taste in the morning, heartburn, water brash, etc.

has inspected the road to Spruce Lake and was over the four miles of narrow road in that vicinity and laid out some work that is necessary to be done. "This road is not in as good condition as we would like to have it," said the minister, "but we intend to do as much work as we possibly can upon it this season."

**EIGHT THOUSAND FREED FROM SCHOOL CARES**

Holiday Time Tomorrow—High School Graduating Class Largest in School History—Marjorie Fitzpatrick Leads

Eight thousand happy Canadian children will be freed from their school cares and spring terms of study in the public schools tomorrow afternoon, when they will be free to enjoy the cherished days of vacation. Special exercises of an appropriate nature, generously interspersed with musical and speaking selections indicating the patriotic spirit of the hour, will be gone through with in the school buildings throughout the city, amid profuse decorations of summer blossoms and bunting and doubling in the presence of many interested parents and officials.

**LARGEST GRADUATING CLASS IN HISTORY**

Chief among the closing exercises tomorrow will be those of the High School, Union street, where the principal, W. J. S. Miles, will graduate the largest class in the history of the city—a highly creditable achievement. A deeper appreciation of the value of the public school system, and a growing ambition on the part of parents to have their boys and girls finish their public school course properly, are advanced as among reasons for this large class. In the graduating class will be forty-eight girls and thirty-two boys, a total of eighty.

The leader of this record class is Miss Marjorie Fitzpatrick of West End, daughter of Capt. David Fitzpatrick. Miss Fitzpatrick tops the list with the remarkable standing of 90.84, a mark equalled only three times in twelve years. Edith Trentowsky comes second in the list of honors with 89.76, a close second indeed. The honor list also includes the following:

Sidney Murray, Gladys Burritt, Grace Slipp, Francis Wetmore, Marguerite Barrett, Kenneth Sullivan, Marjorie Robertson, Marjelle Owen, Aubrey Clark, Kenneth Naves, Kathleen Blizard, Marion Smith, Zella Parlee.

The graduation class complete in the alphabetical order of names is as follows:

Edwin Akery, Marguerite Barrett, Ralph Bates, Marjorie Belyea, Edna Blackie, Kathleen Blizard, Pauline Bradbury, Marion Brown, Gladys Burritt, Hazel Bushan, Eleanor Butland, Kenneth Cairns, Louise Campbell, Robert Campbell, Edna Cameron, Sydney Murray, Ethel I. Chittick, Ethel M. Chittick, Aubrey Clark, Redvers Corbett, Alexis Crawford, Mervyn Crahan, Arthur Cunningham, Paul Doherty, Marion Elliot, Mary Ella, Lorene Evans, Marjorie Fitzpatrick, Lorene Fraser, Ellen Gregory, Elizabeth Hamilton, Arthur Holman, Olivia Humphrey, Audrie Hunter, Douglas Jamieson, Bertina Jones, Charles Jordan, Elsie Key, Marjorie Kelly, Jessie Machin, Helen Mallman, Herbert Markham, Redvers Massey, Mary Merritt, Raymond Moore, Sidney Murray, William McBriarty, William McCauley, Donald McFar, Marjorie Napier, Kenneth Naves, Marybelle Owen, Zella Parlee, Marion Patterson, Horace Parry, May Purves, Marjorie Robertson, Willis Russell, Carol Seely, Edna Shaw, Dorothy Sinclair, Grace Slipp, Gordon Smith, Marion Smith, Kathleen Speight, Elsie Spence, Marion Stirling.

**FORMER REPORTER HERE DIES IN THE WEST**

Harry M. Leonard Passes Away in British Columbia

News of the death of Harry M. Leonard, son of the late Edward Leonard, for years a valued member of the St. John fire department, reaches the city by letter. He died at Caboro Bay, Victoria, B. C.

Mr. Leonard succumbed to a brief illness of cerebral hemorrhage, although previous to this, a peculiar ailment had not been in his usual state of good health for several months. He was thirty-seven years of age and leaves besides his aged mother, his wife and two small children, a son aged four and daughter two years. Mrs. Leonard, Jr., will be kindly remembered here as Mabel Andrews of North End, and daughter of James Andrews, carriage builder.

Before leaving for the Pacific Coast about eight years ago, Harry Leonard was engaged in newspaper work in this city and was a young man of excellent habits, many bearing and ability along the lines of his chosen work. He is most respectfully remembered by his fellow parishioners here. In Victoria he was alert and progressive and had provided a cosy home for his little family and mother. Therefore his death at such an early age is especially sad, and the sympathy of a large number of St. John people will undoubtedly go out towards Mrs. Andrews and her saddened household.

**WOOD-WHITE**

William L. Wood of this city and Miss Emma E. White of Whitehead, Kings county, were united in marriage last evening at the home of the groom, 266 1/2 Pitt street, in the presence of a few friends of the contracting parties. Rev. R. P. McKim was the officiating clergyman. Mr. Wood is a returned soldier. He went overseas with the 1st Field Ambulance in the First Contingent, was wounded and returned home in October of last year. The bride received many gifts, and the good wishes of many friends attend her and her husband. They will reside at 289 1/2 Pitt street.

**PT. F. H. SAUNDERS DIES OF WOUNDS**

Mrs. E. S. Russell of 28 Dorchester street has received word that her nephew, Pte. Frederick H. Saunders of Cambridge, Mass., was severely wounded on June 2 and died of his wounds on June 18 in France.

He went overseas with an American unit. Private Saunders visited St. John every summer and had many friends here who will learn with sincere regret of his death.

**OFF FOR REPAIRS**

The steamer Aramoor, which runs between Boston and Yarmouth, and which forms an important link in the only remaining water connection between St. John and the states, has been taken off the route and laid up for repairs. It is expected that she will be able to resume the service early in July.
