Flemming Should Retire, Says Dugal

F. B. Carvell Characterizes Premier's Challenge as Childish and Foolish

No Government Meeting Held Today But Governor and Acting Premier Confer--What Fredericton Hears--The Feeling in St. John

L. A. Dugal, leader of the opposition in the legislature, the man who brought the charges against the premier, when informed of the findings, over the long distance telephone at his home in Edmundston, expressed his gratification that the charges had been sustained.

MR. CARVELL SPEAKS OF FLEMMING'S LETTER

Speaking of the findings of the royal commission and, particularly with reference to the exoneration of Mr. Flemming with regard to the specific charge that he had personally directed the extortion of money by Mr. Berry, F. B. Carvell, M. P., chief counsel for Mr. Dugal said this morning:

"I feel that the commission has done the proper thing. In the absence of Berry's evidence, and without giving credence to the evidence of Mr. Flemming, there is no direct evidence that the latter specifically directed Berry to get the money.

"But for all that no sane man would believe that Premier Flemming was not at the bottom of the whole transaction.

"The letter in which Mr. Flemming says that the findings are cruelly unjust is simply characteristic of what any man who found himself in such a situation would say. Twenty five years legal experience would lead me to expect just such a protest.

"I am glad to see that he has repented to the extent that he is willing to make restitution of the money. He is not the first man in his position who has announced such an intention in the hope of securing mitigation of the sentence.

"Mr. Flemming's letter is childish in the extreme, although much of it is what might be expected, but I certainly did not expect of him anything quite so childish and so foolish as his challenge to single combat in the political arena.

"I hope that the investigation and the findings of the commission will have the effect of clearing the political atmosphere of New Brunswick and that it will mark the dawn of a brighter day in provincial politics."

THE SITUATION IN FREDERICTON

Fredericton, N. B., Nov. 20--The government held no meeting this morning, but the members are still here. Governor Wood is also here. Mr. Flemming went to Woodstock last evening. It was reported today that the attorney general is looking into the charges made by E. S. Carter, Liberal organizer, against W. H. Berry, with a view of taking some action. Colonel Loggie, deputy minister lands and mines, is on leave from Fredericton.

Acting Premier Carvell was in conference with Governor Wood at noon but afterwards had no statement to make. "You have got the report," he said. It is believed here that Flemming's resignation is in the governor's hands, but that action will be deferred to allow him to stage a few scenes for the benefit of the galleries.

THE NEWS IN ST. JOHN

The findings of the royal commission appointed to investigate the Dugal charges did not come as a surprise to the people of this city for everybody was familiar with the evidence.

The general attitude has been one of disgust. With the report in and published the commonly accepted idea seems to be that Mr. Flemming has no further excuse for delaying his resignation.

Falling voluntary action on the part of the premier there is a general feeling that no further consideration should be shown him and that his resignation should be insisted upon.

THIS IS LETTER FLEMMING WROTE

Premier Flemming replying to the findings of the Royal Commission appointed to investigate the Dugal charges, has issued an open letter to the electors of New Brunswick in which he attacks the findings of the commission on some points and advises that he has written a letter to E. R. Teed, of Woodstock, telling him "in view of the commission's report that amounts contributed by various lumbermen which came to your hands ought to be made payable to them."

With a tone of injured innocence Mr. Flemming says that as neither "acquiesced in the collection" nor "directed the disposition" of any monies collected, even in spite of the fact that the commission found that there was evidence that "He (Flemming) directed the disposition of such monies when collected.

He also attacks the finding that "the money was extorted by Mr. Berry," by saying that he does not believe there was any extortion in spite of his letter to Mr. Teed.

With regard to the railway charges Mr. Flemming says that "the charge that contractors were compelled to pay large sums before they obtained their contracts is found by the commission to be sustained, but avoids the issue by saying that when the proper time comes to discuss the finding he will review Mr. Kennedy's evidence, on which the finding was reached, and show the public there is no justification for the finding in regard to the Kennedy payment. He says: "I do not wish to use language too strong, the least I can say is that the finding is cruelly unjust. Without evidence and without justification this commission have in this way injured my reputation and character as a public man."

Mr. Flemming ends his appeal to the public by challenging F. B. Carvell to test the public opinion by both resigning their seats and running in a bye-election in Carleton county.

Notwithstanding the finding of the commission Mr. Flemming ends his letter by saying that he has given the province honest, faithful service and is prepared to defend his administration both of the government and the crown and department.

HIS TRIBUTE TO EARL ROBERTS

London, Nov. 20--Among the thousands who lined the Thames embankment as the funeral procession of Lord Roberts passed was a wounded Indian warrior with his eye bandaged. He was supported by a nurse. He was in Charing Cross Hospital and had begged permission to get out to see the last of the hero of the Indian mutiny.

QUARTER MILLION FIRE LOSS

Keansburg, N. J., Nov. 20--Twenty-five small buildings, mostly stores, were levelled by flames here today. Twenty families were made homeless. The damage is estimated at \$250,000.

CATTLE EMBARGO AGAINST CANADA WAS LIFTED TODAY

Washington, Nov. 20--The quarantine against cattle shipments from Canada to the United States, imposed because of foot and mouth disease, was lifted today by the department of agriculture.

The quarantine against Canadian cattle was placed to prevent the return of infected cattle cars to the United States. The raising of the Canadian quarantine was said by officials to be an added evidence that the epidemic is being brought under control.

VILLA MARCHES ON MEXICO CITY

Little Difficulty in Reaching There, is Report

CALL BY OREGON

He Denounces Villa as One Ready to Sacrifice Country For Personal Ambition--Four Priests Put to Death

Washington, Nov. 20--Pressing southward at the head of an army eager for fight, after months of recuperation, General Villa will encounter little difficulty in reaching Mexico City, according to the opinion of American agents expressed in despatches received today by administration officials. Other reports told of the continuation of Villa's triumphant march. Queretaro, where they intended to make a stand, was not indicated.

Mexico City, Nov. 20--General Obregon issued a manifesto to the nation last night, calling upon all citizens to join the cause against Villa, whom he denominated as a "traitor and criminal, whose whole purpose is to sacrifice the country on the altar of personal ambition."

El Paso, Texas, Nov. 20--A military bulletin from Guadaluajara says that four Catholic priests had been executed by order of General Joaquin Amador, military governor in the State of Michoacan. It was declared that the clerics had headed an uprising. Several similar uprisings of the people against alleged confiscation and desecration of church property have been reported from points in southwestern Mexico.

KAISER'S VISIT WAS COSTLY IN SHELLS

Paris, Nov. 20--The inconvenience of having a sovereign who insists upon being his own generalissimo seems to have weighed heavily of late upon the German armies in the west. A French soldier who has been engaged in the district just south of the Somme gives particulars of the Kaiser's recent visit to his lines in that region. He says "to prove their zeal in his presence German officers increased their daily quota of about 100 shells fired at the French to 800 in forty-four hours."

The imperial traveler was five miles south of Lihous, where the same ceremony was repeated. There again the German infantry showed little enthusiasm to attack us, but some blows and threats improved their sense of duty. There was a frightful homicide. They again tried to capture the villages of Girona and Quesnay Sante on the following day, but although encouraged by the presence of the Emperor they failed ignominiously. An officer tells me that 500 German bodies have already been buried and that many still remain on the ground."

LOCAL RAILWAY MATTERS

H. C. Groat, superintendent of the Atlantic division of the C. P. R., returned home last night after a trip of inspection along the line, as well as after having gone over the section of the Valley Railway between Fredericton and Gagetown. He was particularly well pleased, he said, with his trip over this section, saying that it was in excellent condition.

He was in attendance yesterday at a conference in Gagetown on the establishment of a regular train service between Fredericton and Gagetown. A. R. Gould promised to do all possible in this connection. Mr. Groat was present at the meeting merely by accident, and his visit had nothing to do with any contemplated action by the C. P. R. He had been in Fredericton and was invited to attend. It is believed that a German will be given over the section with rolling stock borrowed from the I. C. R.

SEDERQUEST BODY NOT FOUND

BU. SEA GIVES UP LIFE BELT

The body of H. Sederquest, one of the victims of Saturday's drowning accident in Courtenay Bay, has not been found, although the Times learned last night that a life belt, corresponding with the one which Sederquest was wearing, has been found near the Ballast wharf. It is feared that the body drifted out to sea.

WINS PROMOTION

Harold D. Finley of St. John Forges Ahead at Salisbury Plain

Many people in the city will be interested in the announcement that Harold D. Finley, of this city, who is now at Salisbury Plain with the first contingent, has been promoted to the position of paymaster for a double company in the 12th battalion, 3rd brigade, Canadian Expeditionary Forces.

WINS PROMOTION

This young man was a corporal in the 6thth regiment when he left the city, and is to be congratulated on his promotion to the responsible position he now holds. He is a son of Mrs. Ida M. Finley, 127 Duke street, and resigned a position in the Bank of British North America to volunteer for foreign service.

EIGHT TO THE WAR

Five other employees of the Canadian Express Company in the maritime provinces have enlisted with Canada's expeditionary forces. Four of the men are from the Halifax office--L. M. Southgate, J. E. Westerman, H. J. P. Hills and J. R. Law, and the fifth is a messenger from Sydney, J. W. Rose. This makes a total of eight former employees of Canada's forces.

MORE THAN HALF REQUIRED NUMBER NOW ON THE ROLL

Next Sunday's Church Parade Will See More Than 500 in Church March--Local Military News

About half the number required for the 24th New Brunswick battalion of infantry to go to the front under Lieut. Col. J. L. McElroy has been enlisted. When the regiment parades in church on next Sunday morning there will be more than 500 men in the ranks, as a little more than half strength has already been established. The last day or two has seen quite an increase in the number of men seeking positions in the battalion and further arrivals are expected in the city today from some of the rural districts. Additionally some forty-five men from Halifax, former New Brunswickers, who have been on parade duty there. Yesterday was one of the best days for some time in the recruiting of St. John men, some twenty-seven joining the colors.

Provisional School. Word is expected very soon by Lieut. Col. B. R. Armstrong authorizing a school of instruction for officers in artillery details. It will be attended by about twenty officers, almost all of whom have volunteered for foreign service with the second contingent. Barton Wetmore, who has been one of the provisional officers on home duty, left last night for Quebec, being the fourth to go from the 3rd Regt. C. A. to take instruction there. Men are being taken on the local artillery strength and no difficulty is anticipated in securing the required number, about ninety. Any surplus will be sent to the front. Mr. McClean, Major McKean, and other commanding, in recruiting for the transport section to be taken from the maritime provinces, and to be mustered in St. John. More than fifty per cent of the complement have thus far been obtained and applications from a fine class of volunteers are pouring in from Nova Scotia, New Brunswick and even from the states. No announcement concerning the selection of the five officers to be taken with the unit has been made from Ottawa as yet.

ANOTHER REPORT ON GERMAN OUTRAGES

Belgian Inquiry Commission Tells of Hundreds of People Shot Down

London, Nov. 20--The Belgian commission of inquiry into alleged German violation of the laws and customs of war, has issued another lengthy report which is published today by the British official bureau.

It covers what is described as the "massacre at Tamisart," "the sack of Dinant" and "the outrages in the province of Belgium Luxembourg."

The report says that more than 650 persons were shot by the Germans in the village of Tamisart. Referring in detail to this alleged massacre, the report describes how a group of between 400 and 450 men were collected in front of the village church. As shooting them down with rifles proved too slow, German officers ordered up a machine gun and those not killed by bullets from this weapon were finished with bayonet thrusts. According to the commissioners, more than 700 of the inhabitants of Dinant were killed.

Eighty-four of these were shot to death on parade square and fifty other outrages they had been detected by the German commission. The report alleges that more than 1,000 similar executions occurred in the province of Luxembourg.

ALL MUST BE IN BEFORE TUESDAY

More Generous Gifts of Tobacco For Soldiers Are Acknowledged

The committee of ladies in charge of the tobacco for the soldiers at the front request that all donations whether of money or tobacco, be sent to Miss Travers during the week before Tuesday, as the tobacco must be packed and shipped by that date, as the government has offered to take the boxes to England in a steamer sailing from Quebec next week. The response has been splendidly generous and the committee are rejoicing over the fine assortment of tobacco. The following donations have been received by Miss Travers during the past two days:

Longshorement' Association 25 pounds; 1,000 cigarettes; Knights of Columbus, 18 pounds; R. O'Brien, 10 pounds; Directors of Opera House, 80 pounds; Albert Novelty Co., 400 cigars; Jas. S. Neil, 400 cigars; Mrs. Geo. Prescott (Empire, printed by mistake, Mrs. Parsons), 1,000 cigarettes.

MOTHER GIVES UP HER LIFE FOR CHILDREN

Burned to Death With Her Daughters When Home is Destroyed

Pittsburg, Nov. 20--Mrs. Maria Petro and her daughters Arnie and Elizabeth were burned to death when their home in Homestead was destroyed by fire today.

Mrs. Petro, who saw the fire while preparing breakfast, was burned while trying to save her sleeping children. An adjoining house also was destroyed.

NEW STYLE OF TENT, CANADIAN'S IDEA, IS TRIED IN ENGLAND

London, Nov. 20--The wet weather prevailing at Salisbury Plain made yesterday a suitable occasion for the demonstration of a special military tent, invented by F. P. Aylwin, of Ottawa, formerly of the Royal Northwest Mounted Police. The "continover tent," as it is styled, is really a hut with vertical sides and slightly sloping roof, made of wood, covered with reinforced canvas. The chief superiority of the tent, beyond its comfort, lies in the fact that it is so constructed that it can be put together or taken down in a few minutes. The war office has given a contract for 10,000 of these tents, and it is hoped by Mr. Aylwin that his demonstration before the Canadian officers will result in further orders. Sample tents erected in Green Park, Piccadilly, and used by the Territorials, showed that both men and horses were better protected than under canvas.

ST. JOHN BOYS IN OTHER PARTS OF CANADA WHO GO TO BATTLE

Word of St. John boys volunteering for foreign service is being received from different parts of Canada. His friends here will be interested to know that Frank W. O'Connor, formerly of the news staff of the St. John Sun, has volunteered in Kingston, Ont., and been accepted for service with the 21st Battalion being organized there. He is a son of Mr. and Mrs. Wm. O'Connor of Cedar street.

L. Cox, formerly of Sea Dog Cove, N. B., has volunteered with the 72nd Seaforth Highlanders in Vancouver, B. C., where he has been for the last four years.

Sergeant J. Fitzgerald, a South African veteran, formerly of this city, is with the Canadians in the first contingent at Salisbury Plain. His mother, Mrs. M. J. Northrup, of 48 Crown street, has received a letter from him describing affairs there, and speaking of his pleasure in again being on active service. Sergeant Fitzgerald was at the time of his joining in Calgary, where he had been for two years, and it was with a regiment from that city that he went to the front.

Eight to the War. Five other employees of the Canadian Express Company in the maritime provinces have enlisted with Canada's expeditionary forces. Four of the men are from the Halifax office--L. M. Southgate, J. E. Westerman, H. J. P. Hills and J. R. Law, and the fifth is a messenger from Sydney, J. W. Rose. This makes a total of eight former employees of Canada's forces.

NO INFANTRY ATTACKS; BIG GUN FIRE LESS VIOLENT

Weather in Northern Fighting Section Very Bad--Abandoned German Guns Found in Water

Paris, Nov. 20--The French official communication issued this afternoon says: "The day of November 19 was marked by the almost total absence of infantry attacks on the part of the enemy, at the same time their artillery fire was much less violent than on the afternoon of November 18.

"To the north, the weather has been very bad, and snow has fallen. All the region of the Yser canal, to the East of Dinant, is invaded by the waters. In front of Ramscapelle we have withdrawn from the water two 165 millimetre mortars abandoned by the Germans. There has been a very faulty intense artillery fire to the south of Ypres.

"On the centre there have been no important actions to report. In the Argonne, three vigorous attacks on the part of the enemy's infantry have been repulsed.

"On our right wing the Germans have recaptured the destroyed section of Chavrouet. Further to the east we have made some progress."

THE BRITISH

London, Nov. 20--From the British general headquarters at the front comes a further account of the fighting along the British lines covering the period from November 13 to 16. In this recital it is declared that the situation so far as it relates to the British, has not altered in that time.

The engagements consisted, for the most part, of shelling at long range and the violent German attacks, which had previously been so persistent, had not been resumed.

That several close encounters occurred, however, is indicated by references to heavy losses, and the admission that the Germans had succeeded in penetrating the British lines at one or two points, only later to be driven out.

WINTER CHECKS FIGHTING

Bruges, via St. Louis, London, Nov. 20--Quiet reigns in West Flanders. The sudden and violent coming of winter has caused a suspension of hostilities. The Yser region now has a temperature of that of the New England coast on a bleak, wintry December day. In this weather the armies are compelled to live in the devastated territory, where there are no houses to give shelter or warmth. Physical numbness, not military exhaustion, has caused the temporary lull in the battle. Many cannons and automobiles have been lost in new inundations.

GERMANS MAY TRY ANOTHER PLAN

Bruges, via St. Louis, London, Nov. 20--Large bodies of German engineers have been seen passing toward the front, according to information received here, and it is believed that the Germans are planning to cross the inundated country by scientific engineering methods.

In the meanwhile the western storm continues and the waters of the North Sea are sweeping inland through the six big locks at Nieport. German Steamers Sunk. London, Nov. 20--The Daily News states that news has been received that the Hamburg-American liner Ekbatana has been sunk in the Persian Gulf. There are no details of how this was accomplished.

GERMANS BREAK PAROLE

The Hague, via London, Nov. 20--Two German officers interested in Holland, who had given their word of honor that they would not attempt to escape, have broken their parole, and crossed the German frontier, according to announcement made here.

Calve Sings for Wounded

New York, Nov. 20--Emma Calve, opera singer, is serving with the Red Cross in France, and soothing the wounded with song. She made this announcement in a letter written to a friend in this city.

Their Own Consul Wounded

London, Nov. 20--An Amsterdam despatch to Reuters says that during the bombardment of the Turkish port of Trebizond, on the Black Sea, by the Russian fleet, the Russian consul was demolished and the consul was severely wounded.

Austria's War Loan

Venice, via Paris, Nov. 20--The subscriptions to the Austrian war loan during the first two days aggregated 700,000,000 crowns (about \$170,000,000). The announcement of Austrian victories over the Serbians, it is said, greatly stimulated public investments. The Imperial M. P.

WOULD ABOLISH CAPITAL PUNISHMENT IN CANADA

Montreal, Nov. 20--Palmerston W. C. T. U., yesterday, passed a resolution that capital punishment should be abolished in Canada. This was the outcome of a meeting at which addresses in favor of the abolition of hanging were given by the Rev. W. D. Reid and Robert Rickard, noted public investigators. The Imperial M. P.

Great Battle in West Poland; Three Points of Attack on Russians

Berlin Has No Official News But Says Fight Overshadows Contest in France and Belgium--Russian Ruse in Their Retreat?

Berlin, Nov. 20--The great battle in West Poland is in full progress. Official reports state that no decision has yet been reached but otherwise, no definite details of this titanic struggle are known here. It far overshadows the fighting on the west frontier.

The engagements previously reported eastward of the Masurian Lakes, at Silesia, Wloclawek and Cracow seem to have been merely preliminaries to a general engagement along the whole line. The Russian mainline marches fighting northward of Lodz, while the Austrians report the advance of their army engaged in the centre along north and south lines. Hence it seems that the Teutonic allies are leveling a concentric attack from three directions against the Russian forces.

RUSSIAN RETREAT A RUSE.

London, Nov. 20--The Daily Telegraph's correspondent at Petrograd, says: "A certain amount of apprehension was felt here with regard to the situation in northwest Russian Poland, but it has been obliterated by the latest general announcement, taken in conjunction with other authoritative information."

"The mere fact of the commander-in-chief admitting that the Russian troops are falling back on the river Bzura, suggests that this step is being taken deliberately for strategic reasons.

"It is to their advantage to entice the enemy as far as possible into the region of torn up roads, wrecked bridges and devastated railways, which he left behind him, on his retreat from the Vistula, for they can beat him with much more ease and comfort when he is separated from the well organized system of communications in his own country."

WEATHER BULLETIN. Issued by authority of the Department of Marine and Fisheries, R. F. Stupart, director of meteorological service.

Synopsis--A severe storm is situated off New England, causing heavy gales and snow in Quebec and the maritime provinces. In the west milder weather prevails.

Colder With Snow. Maritime--Heavy east gales with rain; Saturday, strong winds and gales; rest of the week, a little colder with snow showers.

New England--Rain, probably turning to snow tonight; colder; Saturday, fair and colder; fresh north-west winds.

WILE A MINUTE GALE AT EASTPORT

Boston, Nov. 20.—The first southern storm of the season to reach the New England coast, lashed itself to pieces off shore during the night, and by sunrise had apparently blown itself out. Shipping suffered considerably, and much damage along shore was caused by high tides.

At Eastport, Me., the wind blew a mile a minute for more than an hour, and at Cape Cod, Block Island and Nantucket velocities of more than fifty miles were recorded.

Dawn disclosed a three-masted schooner in distress off Cape Porpoise, Me. Two of her crew attempted to reach land but were frozen, and returned to the vessel. A tug left Portland to aid the schooner.

The committee regret to state that in a former acknowledgment 1,000 cigarettes were credited to Mrs. Parsons of Albert County. It should have read Mrs. Prescott, Albert County.

Recruit's Death Natural. Montreal, Nov. 20.—George Williams, a young recruit who died on Saturday night in a private lodging house, on 29 Craig street, died a natural death, and a sensational story, in which blood marks and bullet holes in a wall played an important part was entirely disproved at the coroner's inquest today. The jury returned a verdict "no crime."

Winnipeg, Nov. 19.—Bank clearances for the week ended yesterday were \$88,935.168 as compared with \$51,219,238 in the corresponding week last year, and \$46,622,987 in 1912.

FORMER WAR MINISTER OF FRANCE PROMOTED ON FIELD OF BATTLE

Paris, Nov. 20.—Major Adolphe Messimy, at one time minister of war in the French cabinet, and who recently was decorated with the Legion of Honor for an act of bravery on the battlefield, has been promoted to the rank of lieutenant colonel. He went to the front at the outbreak of the war as a member of the general staff.

APPEAL TO BELGIANS

The Belgian government has just issued in the name of the king and the nation, a solemn appeal to all able bodied Belgians and chiefly those between the ages of eighteen and thirty in order that they join the army as volunteers for the duration of the war.

All those who are able to pay their passage across, should immediately report themselves to the nearest Belgian consul who will give them instructions respecting the European centre they should reach. As to those who cannot pay their passage across, they are invited to tender their services by letter to the consul.

The government's proclamation reminds them the same duty of incumbent upon all Belgians living abroad—"Let them never forget the distant fatherland where relatives, friends, and fellow workers are suffering cruelly. Let them by their courage and their dignity, in these days of trial, strive to still increase the sympathetic feelings which all right minds and all generous hearts in the whole world are professing toward Belgium. Let their thoughts, their hopes and their acts constantly work towards this sacred object: liberation of their country."

The Belgians who are fit for military service are still numerous abroad. Spontaneously, thousands of volunteers have joined the army. It is important that all those who are in a position to do so should follow their example.

The government counts upon them all to do their duty.

The proclamation ends with the following words:—"Victims of a crime which finds no equal in history, never was Belgium more entitled to claim the help of her children. Under the leadership of a king of whom we all are proud, let us do our utmost to hasten the hour when we shall find ourselves again united, independent and free, on the soil of that beloved fatherland, whose sufferings have made her still more dear to us."

GOOD FOR TRAVELERS. A telegram received yesterday at the local offices of the Canadian Express Co. from the superintendent of the money order department in Montreal, advised that the issuing of travelers' checks, payable at points in Europe, which had been suspended on July 31 as a result of the outbreak of the war, might now be resumed. This is taken to indicate that the company's representatives on the other side are prepared to meet the demands of holders of their checks.

A HEALTHOGRAM.

Cold weather brings cold sores. Bataing with two and a half per cent of carbolic acid solution, followed on re-lying by an application of carbolic salve, quickly puts the eruption out of business. This remedy is effective either when the sore is in its incipient or when it reaches an advanced stage of inflammation.

A young woman was recently introduced to a voluble old lady as "sister to So-and-so, the artist." Instantly the latter exclaimed: "I should have known the resemblance. Why, it is perfectly startling. I never saw two faces more exactly alike in contour and—"
 "But, Mrs. C., interrupted the girl, "I am only his sister-in-law."
 "Which makes it all the more wonderful," continued the other, without displaying the least embarrassment or hesitation.

Cream of Tartar

Many people use cream of tartar for quick baking. They value its superior qualities and will not knowingly accept substitutes made of alum or lime phosphates, such as are sometimes offered.

But even the most careful cannot always know. The high price of cream of tartar has led to efforts to substitute alum and phosphate of lime compounds which are vastly inferior and not as healthful to use.

The easiest way in which the housekeeper can be sure of quality and economy is by using Royal Baking Powder, which is made from pure cream of tartar.

Royal Baking Powder gives perfect results, is less trouble to use, and has not been advanced in price.

Anyone who has once become accustomed to using Royal Baking Powder never reverts to home-made mixtures or any other product for raising biscuit, griddle-cakes, doughnuts, or cake.

EXIT FLEMING.

The report of the Royal Commission on the Dugal charges has been given to the public, and carries with it a complete condemnation, not only of Premier Fleming, but of the government and legislature which permitted such a condition of affairs as has been revealed to exist.

ed to ask him to come and testify. If, however, there was absence of proof of "direction" in the case of Mr. Berry, Mr. Fleming's letter shows us that he has now given direction to Mr. Teed, and he seems to assume the role quite naturally.

With regard to other features of the inquiry, the Commission finds that \$100,000 borrowed by Gould and his associates from the Prudential Trust Company did not go into the railway, and they direct attention to a number of improper charges in connection with the affairs of the railway.

THE RECRUITING CAMPAIGN. It will be well at the present time, when an appeal is being made for recruits for foreign service, not to get the habit of imputing motives or suggesting cowardice or asserting that this or that man should go to the front.

More astounding than the report of the Royal Commission is the letter which Premier Fleming has contributed to this morning's papers. In it he sharply criticises the Royal Commission, unblushingly informs the public that in view of the findings of the Commission he has advised Mr. Teed to hand their money back to the lumbermen; seeks to divert attention from his own condemnation by boasting of the increased revenue from timber lands; attacks Mr. F. B. Carvell, and challenges the latter to contest with him the county of Carleton.

FROM A CHAPLAIN AT THE FRONT

A Graphic Letter Telling How the Battle of the Aisne Began

Number 8 of Rev. Owen Spencer Watkins' letters from the front to the Methodist Recorder and the Toronto Christian Guardian is here given.

The victory on the banks of the Marne brought no rest to the British Expeditionary Force. The enemy was in full retreat, and, if possible, they must be kept on the run, so doggedly we followed after their heels. How the weary, hard-rired infantry kept at it was nothing less than miraculous. Rarely have troops been tried, for it must not be forgotten that the men who now pursued were the same who had passed through the privations and horrors of the retreat from Mons, and they had not rested, or even had proper hours of sleep since they had landed in France. It was a devastated country through which we passed—ruined villages, trampled vineyards, wrecked farmhouses, and constantly by the roadside the still, grey-clad figure of a German soldier who had fought his last fight. The almost tropic heat of the previous days had changed to driving rain and bitter cold; the roads were turned into deep mud by the passing of thousands of horses, men, guns, and transport, and at night most of us found no better bivouac than a field of turnips, and were thankful if it had a hedge under which we could crawl to shelter from the rain.

Saturday, September 13th, is memorable to the members of 14th Field Ambulance, for it was then that, for the first time during the campaign, they enjoyed the luxury of a "billet." We marched into the little town of Chacrice at dusk, the rain coming down in sheets, and were told we were at liberty to find shelter in the houses, stables, and barns, and make ourselves comfortable for the night. My billet was in the house of an old couple, all of whose sons were away fighting, and whose joy it was to make my comrades and self as comfortable as they could. Everything they had was placed at our disposal, and we spent a delightful evening by the great open fire in their quaint, old-fashioned kitchen, and later I made my bed on the tiled floor in front of the same fire. But even here we were not permitted to forget that we were on active service, for a seriously wounded Hussar was brought and he had at once to be attended to. Whilst on reconnaissance with his regiment he had been shot through the abdomen, and had actually galloped two miles in that condition to where he knew the ambulance was billeted, with the result that his serious injury was greatly aggravated. The medical officer who examined him returned with a grave face, reporting, "I fear that side has finished him. His only chance is for us to operate at once. Hastily the little parlor of the farmhouse was converted into an operating room, and the surgeon started their grim, but merciful work. But it was in vain. The Rev. D. P. Winnifreth (Church of England Chaplain) was with him at the end, and at dawn he was laid to rest in the cemetery of the little church below the hill.

The beginning of a Long Stand

The next day was Sunday, but was by no means a day of rest, for then began that long-drawn-out battle, or series of battles, which is not yet ended, and which, for want of a better name, is called the Battle of the Aisne. At 8.20 a. m. we were on the move, and dawn the heavy guns came into action, and later we learned that the cavalry were in touch with the enemy. The rain had cleared off, but the wind was keen and searching; my horse went dead lame, and for the rest of the day I had to trudge through the ankle-deep mud. At mid-day we reached the beautiful little town of Serches, surrounded by steep, pine-clad hills, and here the three ambulances of the 5th Division were "parked" in a meadow, houses were occupied as temporary hospitals and dressing stations, and after a hurried meal the stretcher parties started to look for and bring in the wounded. The noise of battle was now deafening, and through the roar of artillery and the bursts of rifle fire could be heard the regular rip-rip of the Maxim, which told that the infantry must be in close touch with the enemy.

In company with Majors Goldsmith and Fawcett, and the drivers of No. 14, I went forward in the direction of the awe-inspiring din, and as we advanced we learned that our whole strength was being hurled upon the German line in order to force the passage of the River Aisne. In the village of Jury we halted the bearers and rode on to Serches. Soon we were passing through batteries which were hotly engaged, and from a hillside got a fine view of the German fanfare fighting in the plain below, but soon decided that for the present it was impossible for the bearers to reach the wounded, who we know must now be there in great numbers. Still the dreadful noise of battle, and the hurrying of the shell in the midst of the batteries we

BREAK A CHILD'S COLD BY GIVING SYRUP OF FIGS

Cleanses the Little Liver And Bowels and They Get Well Quick

When your child suffers from a cold don't wait; give the little stomach, liver and bowels a gentle, thorough cleansing at once. When cross, peevish, listless, pale, doesn't sleep, eat or act naturally; if breath is bad, stomach sour, give a teaspoonful of "California Syrup of Figs," and in a few hours all the clogged-up, congested, watery, sour bile and undigested food will gently move out of the bowels, and you have a well, playful child again.

If your child coughs, snuffles and has caught cold or is feverish or has a sore throat give a good dose of "California Syrup of Figs," to evacuate the bowels, so difference what other treatment is given.

Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach. They also know a little given today saves a sick child tomorrow.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. Get the genuine, made by "California Fig Syrup Company."

Overhead a German and a British aeroplane were engaged in an exciting duel, and at the same time both sides seemed to be shelling them. As we watched with strained eyes the German gave a sudden lurch and appeared to be falling, then turned and lolloped about in a lame duck, dropping sea-weed, and just managed to reach its own lines, closely pursued by our bursting shrapnel—two British airmen were victorious. Then came tidings—"the German have been driven from their first line of trenches, and have crossed the river, blowing up the bridge behind them," and a bridging train of the Royal Engineers went rumbling by at the gallop with their great pontoons, advancing to bridge the river, so that the infantry might continue their pursuit. Five hundred yards from the river we found an advance dressing-station, and meanwhile Colonel Crawford had pulled up on his ambulance (No. 14) and had established his headquarters in the village of Jury, where was ample accommodation in great barracks for wounded and for his own men, whilst in a farmhouse a room had been converted into a hospital, and a credit to any hospital, then, but still the dreadful noise of battle, and the hurrying of the shell, and the noise of the machine guns, and the violence. Our arrangements were hardly complete before the ambulance station began to roll up with their loads of mutilated men, and still they said the bearers are bringing them in as fast as they can across the heavy, rain-soaked fields.

Night Work in a Field Ambulance

All through the night the bridging train worked at their bridges, whilst a

GRAY HAIR BECOMES DARK, THICK, GLOSSY

Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also cures dandruff, itching scalp, and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyn's Sage and Sulphur Compound." You will get a large bottle for about 50 cents. Everybody uses this old, famous recipe, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You simply sponge or scrub with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy, and you look years younger.

GLAD CLOTHES FOR DOLLY.

separate underskirt, built upon straight lines to avoid "fullness," a cape and a box pleated hat.

To make the dress requires 3/4 yard all-ovv lace 37 inches wide; the underskirt, 1/2 yard 3-inch lawn; the cape and hat, 1/4 yard cloth of silk 27 inches wide and 3/4 yard material 18 inches wide for revers.

The underskirt, front of waist, cape and hat are cut on a lengthwise fold of the material. The lace collar, collar and center-back to centers and press. Make 2 rows of stitching, 1 row 1 inch and remaining row 1/4 inch from outside edge.

Cape and hat will perhaps prove the most difficult articles in the outfit to make. For the cape sew yoke and saash to cape section, which is notched. Small "o" perforations indicate the front. Slash cape on line of small "o" perforations; finish edge for opening to pass saash through. Sew revers and collar to neck and front edge as notched.

Find the front of hat by large "o" perforation; then pleat, bringing slot to corresponding small "o" perforations and bring folded edges near center. Press front and center-back to centers and press. Make 2 rows of stitching, 1 row 1 inch and remaining row 1/4 inch from outside edge.

With such an elaborate outfit Miss Dolly is fashionably ready for any social demand.

Regarding the personal charges, he simply stated the case for and against Hon. Mr. McLeod and left the commissioners to draw their conclusions. With Mr. Flemming he was not so gentle. Declares Inquiry Will Make Possible a Saving Of Half Million Dollars

F. B. Carvell in Able Summing-up of Evidence Before Dugal Commission Deals With Alleged Diversions of Large Sums of Money— Counsel Argue Case and Matter Now Left With Commission

The Dugal inquiry into the charges against Premier Fleming and members of his government, which has been replete with sensations from start to finish, was brought to a dramatic close with the telling speech of F. B. Carvell, leading counsel for Mr. Dugal, yesterday afternoon.

The final day of the public hearing was devoted to the arguments of counsel in the Valley Railway case, and Mr. Carvell's address to the commission was a statement which should command the attention of every resident of the province.

That the inquiry will make possible a saving to the province of more than half a million dollars was one of the most interesting of Mr. Carvell's statements, and he quoted the facts and figures to prove his assertion.

This immense sum is made up of entries totalling more than \$150,000 which Mr. Carvell asserts should not be paid out of the proceeds of the bonds guaranteed by the province; by the \$100,000 still due on the debt to the trust company, not used in construction but assumed by the construction company, and by the \$400,000 of additional aid to which the company is not entitled but which Mr. Carvell asserts, would be made available to the company by the methods of bookkeeping employed by the company.

But for the glare of light thrown on the transactions of the railway promoters by the investigation, Mr. Carvell declared that every cent of this money would have been taken by Mr. Gould and his associates and this great additional burden placed upon the province.

Mr. Carvell argued that many payments, legitimate in themselves, were not to be included in the cost of the railway upon which the government aid is based, and that the province had no right to assume the liability for them. These amounts included the payments for the preliminary survey, amounting to \$30,000 and many of the heavy charges for legal expenses.

In addition to this were the payments for which, he asserted, there was no justification, the payment of interest on money borrowed and not used for construction, the Seely payment of \$4,000, the \$1,000 to the Gleason, the \$3,000 to Mr. Winslow, the \$15,000 paid to Mr. Gould for salary, the \$1,200 to him for office expenses at Presque Isle, and various expense accounts of from \$100 to \$1,100.

Then there is the amount of \$62,000, cunningly concealed, as Mr. Carvell said, in the progress estimates this year to provide a ten per cent profit for the construction company. This amount has been paid, but there is also the entry of \$338,000 for the same purpose representing ten per cent on previous work, which has not yet been paid, but which Mr. Gould said he intends to secure if he can. Mr. Carvell pointed out that the province is financing the entire cost of the road which Mr. Gould will own when completed, and denounced his attempt to secure a ten per cent bonus along with the gift of the road.

RAKING OFF ANOTHER \$100,000. Of the \$350,000 borrowed from the Prudential Trust Company the accountant of the construction company was able to show only about \$250,000 used for construction purposes, but the construction company has agreed to repay the entire amount and has paid all but \$97,000 out of progress estimates. If steps are not taken to prevent it, Mr. Carvell asserted that this additional \$100,000 would eventually be found in the bill which the province must foot.

What the extra \$100,000 was used for Mr. Carvell said he had been unable to prove, because of the refusal to produce the books from the New York office of the railway company. The fact that loan had been made at the time of the last provincial election, he declared, indicated the purpose for which it was required, and he boldly stated that amount had found its way either into the pockets of Premier Fleming or into the campaign chest of the Conservative party.

The tremendous sum of \$400,000, not yet paid, but upon which Mr. Carvell declared Mr. Gould has designs, is the extra \$20,000 a mile of additional assistance over and above the cost claimed for the road which is made available by the legislation of the last session of the legislature.

The highest cost claimed for the road is \$38,000 a mile and this is covered by the Dominion subsidy, the first guarantee of \$25,000 a mile and \$8,000 of the second guarantee. There is still \$2,000 of the second guarantee available if the cost can be shown to be so great as to require it, and Mr. Carvell pointed out that the wording of the act makes it possible to apply this amount for the entire 200 miles of road to the ninety-four miles not yet built, and he asserts that the methods of the company will make it possible for the management to claim this additional amount if they are not checked.

Mr. Carvell argued that actual diversion of funds had been established, and that the proposed and evidently planned diversion will be even more serious. STERN ARRAIGNMENT OF PREMIER FLEMING. Regarding the personal charges, he simply stated the case for and against Hon. Mr. McLeod and left the commissioners to draw their conclusions. With Mr. Flemming he was not so gentle. Much to the disadvantage of the premier he compared his refusal to answer questions and his efforts to shield himself behind the rights of the accused, with the frankness with which Mr. McLeod gave his evidence, and showed himself ready to take his medicine if any was to be administered.

The payment of John Kennedy was sufficient evidence, he declared, of the willingness of the premier to profit by his position and of the fact that he did so. He also referred to the alleged payment by James H. Corbett which could not be proved because of Mr. Corbett's absence from the province and his refusal to come to St. John to give evidence.

Mr. Carvell's arraignment of the premier should be sufficient in itself to drive that discredited politician from public life.

A solemn warning was given by Mr. Carvell to the effect that unless the railway is continued to St. John and Grand Falls to make it part of the Trans-continental system the road, instead of being an asset to the province will be a liability which will hang like a mill stone around its neck.

The argument for the complainants was opened by Mr. Stevens with a mastery review of the evidence. He was followed by M. G. Teed, K. C., who defended the financial transactions of the company, with the exception of the Gleason and Winslow payments, and a general defence of campaign contributions. G. W. Fowler, K. C., M. P., followed for the defence in support of Mr. Teed, and buttressed his arguments with an old-style attack on the opposing counsel and the previous provincial administration.

When Mr. Carvell concluded his argument the Royal Commission rose after sitting altogether for thirty-five days of which twenty-four had been devoted to the Valley Railway case and eleven to the timber charges. The date of the first organization meeting was June 4, that of the first in the hearing of the timber charges, June 16, while the Valley Railway case began on June 23. The case is now closed, the evidence is in and the arguments are made. Doubtless by this time the people of the province have passed their own judgment upon the matter, but there is still to come the official finding of the independent commission appointed for the purpose.

GRAZED MAN KILLS HIMSELF AFTER WOUNDING WIFE

Pawtucket, R. I., Sept. 3.—After sending a bullet into the neck of his wife yesterday morning at 8 o'clock at their residence, 18 Privat street, Albert E. Henry, aged 48, turned the revolver on himself and fell dead with a ball in his right temple. The woman was hurried to the Memorial Hospital where an X-ray is to be taken for locating the bullet. It is expected that she will recover.

The woman rose this morning to get breakfast and afterwards lay beside her little daughter. The child got up soon afterward and was startled by two shots and her mother rushing through the kitchen, exclaiming "I'm shot." In the bedroom was found the body of the father and near was a revolver with two chambers empty.

Henry was a man of some prominence having formerly been superintendent of the mills of the Solway Manufacturing Company of this city and for a time he was private secretary of James R. MacCall of the Lorraine Manufacturing Co. Of late he has worked as salesman for a Providence concern. The members of the family attribute the act to drink and say that Henry has acted strangely of late. There are two sons and three daughters in the family. Henry was a member of the Masonic Order and well known in the city socially.

ECONOMIZE!

We Will Show You How!

AT THESE TIMES, when the scourge of war is felt in every home, the man who is used to paying fancy prices will do well to save unnecessary surplus of high-priced tailors and investigate the wonderful values of the *English & Scotch Woollen Co's one-price tailoring service.*

HUNDREDS of the finest fall fabrics in the country are the choice; any style you fancy is your privilege and you have the satisfaction of knowing that \$15 is all that you are charged, with *nothing* tacked on for "extras."

Fall Suit or Overcoat

Exclusive to Measure

These Are Busy Days for the "Calamity Howlers"—but the howl can be discounted 99%. War is, beyond doubt, a calamity, but good times and better international relations are sure to follow. In the meantime it behooves us all to economize in every way possible. You men who have been paying over \$15 for your Suit or Overcoat have always paid *too much* because you have not received full market value for your money as established by our Mill-to-Man trading. You men who have paid less than \$15 for your garments have been paying *too little* because you have been wearing inferior fabrics that don't and can't stand the wear and tear of every day life. Get your next Suit or Overcoat from the English & Scotch Woollen Co. and demonstrate to your own satisfaction the "Real Economy" of our Mill-to-Man plan.

Export of Deals To Trans-Atlantic Ports

Although Shipments From Saint John Were Small During August, They Were Greater Than in the Corresponding Month Last Year

It is worthy of note that, although the exports of deals from St. John to Trans-Atlantic ports were small during the month of August, they were greater by nearly 2,500,000 feet than in August of last year. For the eight months ending August 31 the exports were only 8,700,000 sup. feet less than in the corresponding eight months last year. The totals for the period just closed were 83,715,646 sup. feet, and for the like period last year, 82,480,000 sup. feet. This relates to spruce lumber. The quantity of birch shipped was considerably larger than in the like period last year. Following is the statement:

SPENT HONEYMOON IN THE WAR ZONE

Rev. J. A. MacKeigan, pastor of St. David's Presbyterian church, and Mrs. MacKeigan have returned to the city after thrilling adventures in Europe where they had been to spend their honeymoon. Mr. and Mrs. MacKeigan passed through Belfort, France, shortly before war was declared. They passed through Germany on their way from Constance, Switzerland to England and, while there were some demonstrations in Germany, Rev. Mr. MacKeigan and his party were treated with courtesy. They even rode in the same train with German soldiers who seemed rather reluctant at the thought of going to war. In speaking to some officers of the German army, Mr. MacKeigan learned that they blamed their government for the conflict and that they themselves were compelled to fight. The steamer on which they returned to the Atlantic coast was...

MARRIED RECRUITS TO GET MORE PAY

Government to Allow Wives and Families of Those Who Enlist \$20 Monthly in Addition to the \$1.10 a Day

Ottawa, Sept. 3.—(Canadian Press)—The government has approved of a separation allowance of \$20 a month, being paid to wives and families of married men serving with the Canadian expeditionary force. This will be paid direct to the wives and families by the paymaster general's office, department of militia and defence, Ottawa. Rolls of the married men are now being prepared at Valcartier and as soon as they are received at Ottawa, the work of issuing checks will begin. This allowance will also be paid to the wives and families of those left at Valcartier after the contingent sails. The government reserves the right, however, of withholding this allowance from any who are in receipt of pay from its sources. In addition, men may assign portion of their pay to their wives and families and rolls of this assigned pay are being prepared and as soon as received the assignments made by men to wives and families will also be direct from Ottawa. This special separation allowance...

RECENT DEATHS

Mrs. John Gallagher died at her residence in Ennisville (N. B.) on the 19th, aged 77. She leaves three sons and two daughters, Henry and Frank, of Ennisville; Patrick, of Wyttopick; Mrs. John Keegan, Wyttopick; and Mrs. John Watson, of Monroe (Me.). There are also left two brothers and two sis-

ters—Charles Mooney, of Ennisville; John Mooney, who is in California; and Mrs. Hugh Monaghan and Mrs. Frank Blakeley.

Jonathan Hodgson, one of the most prominent citizens of Montreal, died yesterday at the age of eighty years. He was senior member of the firm of Hodgson, Summer & Co., director of the Merchants Bank, Victoria Life Insurance Company, Herald Publishing Company

and several other corporations. He was a strong Liberal in politics.

Two remarkable cases of unbroken succession of tenancy were mentioned at the sale of part of Sir David Davies Broughton's Cheshire estate at Crewe, Eng. The Parton family had been tenants on the estate more than 200 years while the Cooke family had been tenants in unbroken succession for 267 years.

SPORT NEWS OF A DAY; HOME AND ABROAD

BOWLING

High Scoring
In the City League on Black's alleys last night the Tigers took three points from the Giants, making a season's record of 1417 for the alleys. McDonald of the Tigers had a high-man average of 104, while Morgan and Collins of the Giants each had an average of 100. The Athletics last night defeated the Red Sox on Black's alleys in the third of a series of five games, the totals being 1200 to 1184.

CURLING

Thistle Club Meet
The Thistle Curling Club met in their rooms last evening and elected match and managing committees for the year. Geo. L. Warwick, the president, was in the chair and Dr. F. Sawaya, Mr. Thayer and Dr. P. C. Bonnell were elected members. The names of two members with the first Canadian contingent will be kept on the rolls of the club during their absence.

THE WHEEL

The Six Day Grind
At 11 o'clock last night there were thirteen teams left in the New York six day grind, ten of them hunched in the lead with 1884 miles, two laps, Verdi, Kaiser, Drobach, Anderson and Wohlzab, mixed up in a spill about ten o'clock but none were forced to retire. The leaders are still two miles, two laps ahead of the record.

THE RING

Lightweight Match a Draw
Freddie Welsh, world's champion lightweight, and Jimmy Duffy, of Lockport, N. Y., fought a ten round draw at Buffalo last night. The bout was a spirited one, both men being in good shape. Ritchie and Attell Have Made Up
Abe Attell and Willie Ritchie, both California ex-champions, who fell out some time ago, are reported to be good friends again. The reason for the difference is not known definitely but is thought to have followed Ritchie's refusal to engage Attell as sparring partner when Ritchie was matched with Charlie White for championship honors.

CANADA IN THE WAR

Alec Whitehead, formerly on the staff of Macaulay Bros. & Co., King street has written to friends from Salisbury Plain, where he is now with the Canadian contingent, that he has been promoted to quartermaster sergeant. Representatives of the Standard, Globe, Telegraph and Times, of this city, and J. T. Hawke of the Montreal Transcript at a meeting last night decided to take active steps towards a publicity campaign in the interests of recruiting. F. B. Ellis was chairman and H. V. McKinnon secretary.

A "mother" member of the Women's Canadian Club has written to the press suggesting a "tag day," the idea being to tag with a red rose all young men about the city who are willing to serve the flag.

There is also a suggestion that the many women who occupy seats at the Imperial at the big recruiting meeting this week should make a canvass in the interests of volunteering.

Lieut. Cyrus Inches in a letter to a friend in St. John from Salisbury Plain tells of an inspection by the King and Queen and says His Majesty spent some five minutes or so in conversation with Major Frank Magee talking about the

Follow Shackleton

Follow Shackleton's example. He is taking Bovril to the Antarctic because his men must get every ounce of nourishment out of their food. You, too, can be sure of being nourished if you take Bovril.

In a single bottle of Bovril is packed away the nourishing value of many pounds of beef, and in addition Bovril has the peculiar property of making other foods more nourishing. Even a plain meal yields much more strength and nourishment if you are taking Bovril. Shackleton's lead is a good lead—remember his words:—

In lowering a large steel storage tank to its foundation in a deep pit, Honolulu engineers built up a temporary rest-

ing place of blocks of ice, and then, after the structure had been properly centered, melted the ice uniformly with live steam. The reservoir is 24 feet in diameter, 25 feet high, weighs 14 tons and has a capacity of 89,000 gallons.

THE EMPIRE TYPEWRITER
"Stands up" Under the Hardest Usage

"THE EMPIRE" has at least one-third less parts than any other standard typewriter. So well are these parts designed and made that even a blow of the clenched fist on the keyboard does no damage. The "Empire" action is an easy, sliding, horizontal stroke instead of a swinging, upward hammer blow—less wearing, yet more effective. No other typewriter has this action. Accurate, permanent alignment is ensured by an exclusive "Empire" device which locks the type at top, bottom and both sides at the moment it strikes the paper.

The "Empire", with less outlay for repairs, will do good work longer than any other typewriter made. The harder the usage, the more noticeable is the "Empire" superiority.

ROBT. THOMSON LEFT \$343,000 AND INSURANCE

Public Bequests of Generous Amount and Bulk of Estate to Family

In the probate court today the will of Robert Thomson, steamship owner, was proved. He gives to the St. John Local Association of the Victorian Order of Nurses for Canada, \$3,000; to the Salvation Army Evangeline Home and Hospital, St. John, \$3,000; to the Presbyterian Hall in Rothesay, \$500; to the St. John Home for Incurables, \$5,000; to the St. John Association for the Prevention of Tuberculosis, \$3,000; to the Home for Aged Females, St. John, \$3,000; to his grandson, Eric Donald Thomson, \$5,000 to be invested for him, the principal and accumulation to be paid to him on his attaining the age of eighteen years; to Robert Murray, captain of his yacht, \$500; all of his silver, pictures, household furniture, horses and vehicles, to his wife for life and after her death to his son Percy Walter Thomson and his daughter Mabel Gordon Thomson and Monica Clyde Clinch, wife of Major Herbert W. Clinch of Folkestone, England, equally. His summer residence at Rothesay, known as "Rothiemay," he directs that his wife is to have the use of for life, then to form part of his residuary estate. He gives to his two daughters annuities and practically the balance of the income to his wife for life, on her death the estate to be divided equally among his three children, and he nominates his wife and son executors and trustees. They were accordingly sworn in as such. Real estate consists of the summer residence "Rothiemay" at Rothesay, valued at \$5,000; personally \$38,000; total estate \$43,000, besides life insurance. Messrs. Baxter & Logan are executors.

SCRIBNER FIRST TO HAVE FINGER PRINTS TAKEN BY LOCAL POLICE

Eighteen Year Old Youth Arrested - Suspected of Several Thefts - Keys in His Possession

Scott Scribner, eighteen years old was arrested between twelve and one o'clock this morning in the act of rifling the cash register in Main street on two recent occasions. He is also suspected of breaking into several other places. Among the articles found on him were eighteen keys. Scribner was arrested on October 4, 1911 charged with stealing \$10 from Stanley Gilbert. He then pleaded guilty and was allowed to go. Scribner is the first to have his finger prints taken at the local police office. The prints which were taken by Chief Clark and Detective Lucas turned out well. They will be forwarded to Ottawa. The act regarding the taking of finger prints states clearly that a prisoner must not resist while the work is being done, otherwise the police are not to be held responsible for any injury they may cause the prisoner while the prints are being taken.

SOME FORTY SACKS OF MAIL LEFT BEHIND

The train containing the mail for the Boston train broke down in Smythe street this morning between six and seven o'clock. The result was that more than forty sacks of mail for different points on the C. P. R. and the United States were left behind.

Street Railway Matter Must Wait End of War

MATTERS OF IMPORTANCE

Lancaster Board of Trade Hears Reports on This and Other Subjects - Lights For Mill Street—Activity For Missions

The Lancaster Board of Trade met in special session last evening to hear reports of committees appointed for night ago to interview Commissioner Wigmore in regard to the new stand pipe water equipment and H. M. Hopper, manager of the street railway in regard to several matters of local interest. Daniel Campbell reported progress in regard to numbering of houses and the committee of which he is chairman will continue their work. The committee interviewed Mr. Hopper reported that arrangements had been made to have Mill Street lighted as it had been clearly shown that that section was dangerous after dark. It is understood that installation will be commenced very soon. In regard to the eight o'clock through car the company had promised consideration and had placed a car on the route on Monday two weeks ago, and even standing room was at a premium as far as Paradise Row. The following day there was no car and at a later date, when replaced a poor connection was made, being a little late and so was not patronized as formerly. It was believed the present intention was to operate the through car in bad weather as far as that could be foreseen. The Manawagonish extension according to the committee will have to lay over until the war has stopped. Mr. Hopper again stated his proposition to the highway board for the payment at the rate of \$400, a mile for the upkeep of the road and clearing from snow, between the tracks and eighteen inches on either side, with \$600 per annum for double tracks. The members of the highway board acting on the committee contended he had offered only \$300 a mile previously, but he declared otherwise. From where the Fairville car now stops to Manchester's Corner is about nine-tenths of a mile. Commissioner Wigmore was unable to be present last evening to explain the new system of the water department and a further effort will be made to have him appear before the board at the next meeting. Considerable discussion arose over the action of the highway board in building a new concrete sidewalk in Beaconsfield without calling for tenders. One member of the board would cost about \$800, half of which was to be paid by the man whose premises were served by the new walk. It was mentioned that the street in question was rarely used by the general public, while the sidewalks in more thickly populated sections were neglected. A new crossing had been placed opposite the residence on Lancaster Heights on the same basis of half payment by a property holder but meantime Main street, Fairville, was suffering. In reply to a question a number of the committee said that Mr. Hopper had emphatically declared the railway company would not build around South Bay and pipe line loop until the city made provision to sell the land it held to be used for general building purposes. The railway company, he contended, was not going to exploit any private property and the city was no better than any other real estate holder. Let the city dispose of their lots, the community would grow up and then the railway would serve it. The board will go thoroughly into the water and sewerage question at the meeting two weeks hence, with Commissioner Wigmore. An undenominational missionary institute conducted in Fairville a few weeks ago by the Protestant churches co-operating, generated a great deal of enthusiasm at the time and the success of the movement surprised even the promoters, but it would seem as though the effect had gone even further, judging by results of a meeting of the standing board of contribution and arrangements were also made to canvass every member in the interests of missions. This step is the more pronounced when it is stated that the duplex system was under consideration before in the same church but did not meet with sufficient approval to warrant making the change. The hundreds who attended the excellent addresses and lectures of the course will no doubt learn of this matter with interest.

Y. M. C. A. NIGHT SCHOOL

A night school for employed boys over thirteen years of age, who have not finished their education in the public schools, will be opened soon in the Y. M. C. A. building under the supervision of the boys' department of the association. George Morrissey has been engaged to teach. The school will be held on Monday and Friday evenings and each pupil will be given individual instruction in whatever subject will be most useful to him in his work. The principal subjects taught, will be reading, writing and practical arithmetic.

Between a Man's Marked Down Suit at \$15.00 and a Standard \$15.00 Suit There is This Difference.

One of them is probably a suit marked up in order to be marked down in order to sell for more than it is worth.

The other is a suit at the lowest-ock-bottom price that good, all-wool and hand-tailored suits can be sold for.

In our Men's Clothing Department today we have a large number of men's and young men's brand new, all-wool, hand-tailored Oak Hall Winter Suits to sell at \$15.00 to \$25.00.

They are very popular and it is surprising how many sound, shrewd business men try this kind of clothing.

They are made of good fabric, wear well, and they "hold their fit."

They are worth the money. Finer suits for business wear and general wear, expressing the top notch degree of tailoring skill and the last word of fabric, up to \$35.00

There are no better ready-to-wear suits to be had no matter what the price.
