

PRE-WAR EVENTS GIVEN PUBLIC BY LORD HALDANE

His Book Entitled "Before the War" Published Yesterday and is Being Received With Considerable Interest.

PRESS NOTICES WERE SCANTY

Gives First Hand Information on Many Events That Transpired Between Germany and England Before the Clash.

London, Jan. 15.—(Canadian Press)—Lord Haldane's book entitled "Before the War" was published today. Seeing that he is the first member of the Campbell-Bannerman and Asquith governments to break silence on matters which happened during their administrations, it is rather singular that press notices of the book this morning, with the exception of the Daily Telegraph, are very scanty, although the explanation partly may be found in the fact that the book consists, to a certain extent, of articles already printed. The new book certainly bears no apologetic tone, and probably most readers will admire the lucidity with which the author explains the pre-war policy of Great Britain towards Germany.

His personal account of his famous mission to Berlin, although somewhat ancient history, certainly is illuminating in some details. The author's discussion of the question "Were we prepared for war?" is, however, more entertaining. His policy was to avoid a confrontation by every effort possible, and at the same time insure the House in case of failure," he says.

Lord Haldane maintains that it was certain that "our assistance to France was to transport our small mobile force across the channel without delay." He continues: "Neither of our great political parties nor military leaders were prepared to adopt compulsory service, so an expeditionary force of 150,000 was created with a territorial force behind it."

Press Support.

The Daily Telegraph supports Lord Haldane's contention that Germany came to grief through attempting to be strong at sea as well as by land, and points out that when the question is asked if "We Were Prepared," it must be remembered that the British fleet had already taken up its war stations before the German ultimatum of August 1914 had expired, and also reminds its readers of the saying that the Empire floats on the sea.

The Daily Telegraph further believes that Lord Haldane was justified in drawing attention to the fact that Britain fulfilled its contract to the French by mobilizing, without a hitch, an expeditionary force and the territorial. "We believe that history will honorably acquit this country of being unready for the order," says the Telegraph.

SEGREGATION OF NEGROES URGED UPON CONGRESS

Representatives of the Negro Race Appear Before Judiciary Comm. With Feasible Proposition.

Washington, D. C., Jan. 15.—Establishment of a separate state, under the protectorate of the United States, for segregation of the negro population was advocated before the House Judiciary Committee today, by representatives of the negro race. Dr. Moses Madden, of St. Louis, told the committee a state should be established along the Rio Grande river on territory ceded by Mexico and the State of Texas, and that it should be inhabited and administered entirely by negroes under the general protection of the United States.

The Rev. R. D. Jones, of Philadelphia, advanced a plan for concentration of negroes in Liberia.

Conference At Helsingfors To Have Bearing On Russian Situation

Helsingfors, Wednesday, Jan. 14.—(By The Associated Press)—Representatives of Estonia, Latvia, Lithuania and Poland arrived in Helsingfors today to participate with Finland in a conference which is expected, if its objects are attained, to have an important effect on the Russian situation.

The principal aim of the conference is to discuss organization by all states of a defensive alliance against Soviet Russia, and a second defensive alliance against Germany. The correspondent is informed that Finland will not be a party to the second project, believing that, owing to her geographical position she has nothing to fear from German encroachment in the Baltic. Moreover, it is declared, Finland feels such gratitude toward Germany for aid given in the spring of 1918 in saving Finland from the Red Terror that she could not join in a movement which might be regarded by Germany as hostile.

RENEWED HOPE OF COMPROMISE ON PEACE TREATY

Bi-Partisan Conference of U. S. Senate Leaders' Negotiations Toward Compromise on Reservations Were Inaugurated.

BRYAN VISITS SENATE LEADERS

Interviews Both Democrats and Republicans, Urging An Immediate Compromise and Ratification of the Treaty.

Washington, D. C., Jan. 15.—At a "Bi-partisan round table" conference of Senate leaders, today, formal negotiations toward a compromise on reservations toward the Peace Treaty were inaugurated. While no agreements were reached at the meeting, which was participated in by four Republicans and five Democrats, and which lasted two hours, another meeting will be held Saturday, and in Senate circles tonight there was renewed hope of a compromise.

The conference, in which Republican Leader Lodge and Senator Hitchcock, administration leader, were present, followed the unsuccessful attempt of Democratic Senators at a party caucus to elect a leader to succeed the late Senator Martin, of Virginia. After two attempts to the vote of 19 to 19 on Senator Hitchcock and Senator Underwood, of Alabama, the two candidates, the caucus adjourned, subject to the joint call of the two Senators. Another caucus is planned after Carter Glass, Senator-elect from Virginia, an Underwood supporter, takes his seat, but the result still remains in doubt, because of the position of Senator Smith, of Georgia, who withheld his vote today and took no sides for or against either Mr. Hitchcock or Mr. Underwood.

Another development today in the Treaty situation was a visit to the Capitol by Mr. Wm. Jennings Bryan, the former Secretary of State conferred with several Republicans and as well as Democrats urging an immediate compromise on reservations and ratification of the treaty. He also advocated his plan of withdrawal of Democratic participation in voting on the Treaty if compromise negotiations should fail, suggesting that the Democrats decline to vote and permit the Republicans to ratify the Treaty alone and accept sole responsibility.

PROVINCIAL GOVT MEETS FRIDAY, JANUARY 23RD

Will Consider Question of Taking Over Offices of Employment Service in Canada in New Brunswick.

Special to The Standard.

Fredericton, Jan. 15.—The next meeting of the Provincial Government, which was to have taken place here next Tuesday, has been postponed until Friday, January 23rd, it was learned today. One of the most important questions which will be before the Government at that time will be the matter of taking over the offices of the employment service of Canada in New Brunswick. This service was instituted by the Federal Department of Labor, and the Premier said today that the Provincial Government had been advised that the appropriation would be exhausted by April 1st and have been asked to take over the service from that date, dividing the expense equally with the Federal Government. While the matter has been under consideration for some time, no definite decision has yet been made, Premier Foster said.

Winnipeg, Jan. 15.—(By Canadian Press)—R. B. Russell was unanimously nominated by the local lodge Socialist Party of Canada, last night, as the Socialist candidate for Winnipeg at the next provincial election. No other candidates entered the field against the convicted labor leader.

Clemenceau Accepts Nomination For The Presidency

Authorized His Supporters to Place His Name Before the Plenary Caucus of Versailles Congress Today.

Paris, Jan. 15.—Premier Clemenceau has accepted the nomination for the presidency of the republic, it was announced tonight.

M. Clemenceau formally authorized his supporters to place his name before the plenary caucus of the Congress of Versailles tomorrow, and promised that, if elected, he would accept the mandate entrusted to him. Supporters of the Premier immediately decided to order ballots printed bearing M. Clemenceau's name. These will be distributed among the voters at Versailles on Saturday, when the Assembly convenes.

Tonight's announcement was the first definite information that Premier Clemenceau would stand as a candidate, although it had been assumed generally that he would run for the office, or at least would not refuse to serve if elected.

One of the supporters of M. Clemenceau told the Associated Press that the Premier would have refrained from a public declaration had there been no opposition to his candidacy.

DEATH AND INJURY FOLLOW FIRE IN OFFICE BUILDING

Fire in New Haven's Chamber of Commerce Building Caused Two Deaths and Many Injuries.

New Haven, Conn., Jan. 15.—Fire in the Chamber of Commerce building this afternoon caused the death of Charles W. Eavis, an attorney widely known as New Haven's County Health Officer and as a legislator, and the engineer of the building named Evans. The former was overcome by smoke in his office. The latter was burned while in the basement. Many persons were slightly hurt in being taken down ladders and fire escapes or in jumping into nets. But as scores were trapped in the ninth, tenth and eleventh floors, with some fire and dense smoke in the seventh, the escape from death or serious injury of so many was considered to be remarkable. The fire probably started among waste matter in the basement, and ran to the seventh floor where it died out. The fire in the basement was soon controlled.

MILLION DOLLAR SUIT AGAINST THE CUSTOMS MINISTER

United States Papers Bring Suit on Account of Stopping Export of Paper from Fort Frances Mill.

Fort Frances, Ont., Jan. 15.—(By Canadian Press)—An action for one million dollars is being taken against the Canadian Minister of Customs and other members of the Cabinet for stopping the export of paper from the Fort Frances Pulp and Paper Company, it was stated by the solicitor of the company this morning. This action is not taken by the company itself, but is generally taken that the new embargo would be applied to the Fort Frances mill as long as it refused to comply with the orders of the paper controller and furnish sufficient news print in Canada to supply the western press.

Hürried Conference of Heads of Naval and Military Depts. With Lloyd George Gives Rise to Much Speculation.

BOLSHEVIK SUCCESS BECOMES ALARMING

Their Rapid Advances in the Middle East Have Given Soviets Mastery of European Russia.

London, Jan. 15.—(By the Associated Press)—Before peace with Germany is a week old the British public has been brought up sharply against the possibility of another war. Winston Spencer Churchill, Secretary of War, Walter Hume Long, First Lord of the Admiralty, Baron Beatty, Commander of the Grand Fleet and Field Marshal Sir Henry H. Wilson, Chief of the Imperial Staff, left tonight, having been hurriedly summoned to Paris for a consultation with Premier Lloyd George and other British officials there on important military and naval matters.

Bolshevik Cause

This summons is inevitably connected in the public mind, with the semi-official statement published today calling attention to the threatening situation in the Middle East as a result of Bolshevik military successes, which have given the Soviets virtual mastery of the whole of European Russia, for, although it is not confirmed that they have entered Odessa, it is believed it cannot be long before they are in full possession of the coast regions. By their victories the Bolsheviks have secured command of enormous supplies of food, raw materials, coal and rolling stock and other means of transport that they formerly were in need of.

Next Move Awaited

Speculation is active in the European capitals as to what will be the next move by the Bolsheviks. It is regarded as certain that, flushed with success, they will not be content with their present conquests, but will seek to extend Bolshevikism either Eastward or Westward. Expert military opinion inclines to the belief that their next move will be an attack on Poland and the Baltic States, and Warsaw despatches to the London papers already indicate that the Poles are fully anticipating such a move.

The Soviet move is a large factor. Against the likelihood of an attack on Poland, which it is stated will be the first with the Red generals, is the fact that the Bolsheviks have been composed on the North to an attack by the Letts, and on the South by an attack by the Rumanians.

The semi-official statement issued at London today seems to indicate that the British Government is more apprehensive of a move Eastward, threatening India.

THE SOVIET "ARK" WILL TODAY REACH DESTINATION

Believed the Port at Which Buford Will Tie up is Hanggo, Being Nearest to Frontier of Soviet Russia.

Washington, D. C., Jan. 15.—"The Soviet Ark" Buford, carrying undesirable aliens deported from the United States, will reach her European destination tomorrow, officials here said tonight. They would not reveal the port to which the ship is bound.

PAPER EMBARGO NOW EFFECTIVE

Went Into Force on Fort Frances Mill Yesterday by Order of the Minister of Finance.

Ottawa, Jan. 15.—A complete embargo, a hundred per cent effective, has been placed on all exports of the Fort Frances Pulp and Paper Company by Sir Henry Drayton, Minister of Finance. The order went into effect for the first time today and resulted in the customs officer at the border stopping all shipments of paper from the Fort Frances Company to their customers in the United States. In news print circles last night it was generally taken that the new embargo would be applied to the Fort Frances mill as long as it refused to comply with the orders of the paper controller and furnish sufficient news print in Canada to supply the western press.

The Note Asks for the Extradition of the Former German Emperor, Citing Authority for Extradition.

Paris, Jan. 15.—(By the Associated Press)—The Supreme Council has drafted a note for the Dutch Government, asking for the extradition of the former German Emperor. It will probably be sent Saturday.

The note refers to Article 227 of the Treaty of Versailles and invites Holland to join the Allied powers in the accomplishment of this act.

Article 227 of the Treaty of Peace with Germany declares: "The Allied and Associated powers publicly arraign William II, of Hohenzollern, formerly German Emperor, for a supreme offence against international morality and the sanctity of Treaties."

"A special tribunal will be constituted to try the accused, thereby assuring him the guarantees essential to the rights of defense. It will be composed of five judges, one appointed by each of the following powers; namely, Great Britain, France, Italy, Japan and the United States of America."

The article also declared that it will be the duty of the tribunal to fix the penalties which it considers should be imposed.

CLEMENCEAU MAKES SHORT SPEECH

Treaty Provides That Hungary Shall Formally Waive Claim to Fiume and Other Designated Territories.

Paris, Jan. 15.—The terms of Peace for Hungary, framed by the Hungarian delegation here this afternoon. The Hungarians were given fifteen days in which to present their objections.

The Treaty was received by Count Albert Apponyi, head of the delegation, from the hands of Paul Dutas, General Secretary for the Peace Conference, in the presence of Premier Clemenceau, Lloyd George and Nitti, who were conferring in the office of the French foreign ministry, and Hugh C. Wallace, the United States ambassador, and Baron Matsui, the Japanese ambassador, who entered the office shortly before the Hungarian plenipotentiaries.

Premier Clemenceau made a short address in the course of which he specified the time allowed Hungary to reply. He added that the Council had decided unanimously to grant the request of Count Apponyi that he be permitted to explain verbally before the Allied Council the present situation of the Hungarian Government. M. Clemenceau said this would be allowed, provided that no discussion should follow. The Council will hear Count Apponyi tomorrow. The entire ceremony lasted barely five minutes.

Paris, Jan. 15.—(Havas)—The Hungarian Peace Treaty provides that Hungary shall formally waive claim to Fiume and all the former Austro-Hungarian territories awarded to Italy, Rumania and Yugoslavia and to Czechoslovakia. Hungary must adhere to the clause of the Treaty with Austria, signed at St. Germain, concerning national minorities.

Under the terms of the Treaty, the Hungarian army must not exceed 35,000 men, with guns of not more than ten centimetre calibre. Hungary assumes a proportional share of the Austrian debt.

Most of the remaining clauses of the treaty are similar to those of the Treaty of St. Germain.

Municipal Elections In Ireland Yesterday Created Some Excitement

Belfast, Jan. 15.—The Irish municipal elections, which were fought out for the first time today under the proportional representation system in 1916, boroughs and urban council areas, created great excitement. Although the Sinn Fein candidates are in the majority in many areas the issues are complicated by the appearance of the municipal reformers and other parties with numerous women candidates. Among these were Mrs. P. Sheehy Skeffington, Mrs. T. M. Kettles and Mrs. Alice Ginnell.

In Dublin alone 155 candidates were running for eighty vacancies. These included the following:—Sinn Fein, 61; Municipal Reformers, 24; Nationalists and Laborites, 2. The latter parties were working together. The results of the elections will be announced next Saturday.

HALIFAX HEARS THE HON. PETER DISCUSS ROADS

New Brunswick Minister of Public Works Tells Commercial Club of the Road Building in This Province.

WORK TOGETHER FOR BETTER ROADS

Thinks a Union of Two Provinces on Road Betterment Would be to the Advantage of All.

Halifax, Jan. 15.—(By Canadian Press)—The Commercial Club today listened to a dissertation upon a matter of more than average importance when it was addressed by Hon. P. J. Veniot, Minister of Public Works for New Brunswick. He spoke of the road building in his province, and what had been accomplished there. Most vital of all was his appeal for the co-operation of the people of Nova Scotia in changing the rules of the road and obtaining more advantageous terms of Federal aid. The luncheon was one of the largest in months. Frank Gillis was the chairman, and among the guests were Mayor Parker, and T. P. Regan, president of the New Brunswick Automobile Association.

Hon. Mr. Veniot spoke of the boyhood days, which had been spent in Pictou county, Nova Scotia. He desired to extend to Nova Scotians the hand of good fellowship. He had always been interested in the development and progress of this province and had been forcibly impressed with the rivalry between the two provinces, because of the winter sports controversy. He insisted that, even though Maritime Union could not be obtained, there should be some union of commercial interests to prevent complete engulfment by the West-Province. Nova Scotia and New Brunswick should walk hand in hand and become better acquainted; to do this there was no better way than through good roads.

Road Building in N. B.

Mr. Veniot then passed to the subject of road-building in his province, where there were seventeen thousand miles of roadway, almost as many as in Nova Scotia, although the population was much smaller. Since 1917, twelve months actual work had been put in and twelve hundred miles of road had been repaired. This had been effected with the co-operation of the people, the engineers and the New Brunswick Automobile Association. The people had made an enormous gift their road roads, the people of Nova Scotia should do the same.

Mr. Veniot professed ignorance of the condition of Nova Scotia highways, but said outside impressions were far from favorable. Three million dollars had been expended in Nova Brunswick during the past three years, a large portion of it being derived from funding motor fees which were steadily increasing. He was strongly opposed to standardizing road construction. He advised against costly highways instead of roads planned to meet the particular traffic to which they were subjected. He hoped for the co-operation of the Nova Scotia government in any attempt which was made to have the Federal authorities change the Federal Aid Scheme, so that the Maritime Provinces would receive more advantages. Mr. Veniot said that good roads were claimed to add sixteen dollars an acre to the value of farm lands. On closing his address, he urged Nova Scotia to join New Brunswick in abolishing the left hand drive.

CIVILIANS NOW IN CONTROL OF OCCUPIED AREA

In Conformity With the Terms of Peace Military Control of Occupied Area of Germany Ceased Yesterday.

AMERICAN AREA ONLY EXCEPTION

U. S. Section Must Remain Under Armistice Status Until the Senate Takes Definite Action on Treaty.

Coblentz, Monday, Jan. 12.—(By the Associated Press)—Military control of the occupied areas of Germany, excepting the zone held by the Americans, passed today into the hands of civilians, the inter-allied Rhineland high command becoming the governing power, according to the terms of Peace, with headquarters at Coblentz. In every town and city of the Rhineland the proclamation and ordinances of the high command were posted this morning, giving notice to the Germans that the commission under the presidency of Paul Frensdorff of France, is the supreme representative of the Allied governments in the regions occupied by the armistice.

In the United States area, which must remain technically at least, under the armistice status until the United States Senate takes definite action on the Peace Treaty, ordinances were published in the forms of a general order from the commander of the zone. Major General Henry T. Allen. The programme of the commission will be carried out by the Americans conforming with the other occupied areas of the Rhineland through co-operation between the commission and the United States military command. Under the commission's ordinances, German local governing bodies will continue to conduct affairs in the respective districts under supervision of representatives of the high command, which is charged with carrying out the terms of the Rhineland agreement included in the Treaty of Versailles.

SETTLEMENT OF RY. CONTROVERSY NOT ENCOURAGING

Every Indication That Acceptance of Gov't's Compromise Proposal Had in it Possibility of Being Short Lived.

Settlement of the railway wage controversy by the Unions' acceptance today of the Government's compromise offer appeared tonight to have in it the possibility of being short lived. This contingency seemed likely, judging from the statements of labor experts and the press.

The railway workers approved the Government's terms by a majority of only two votes, and some say by only a single vote. Moreover, the resolution specified stated that acceptance was made under protest because the scheme was unsatisfactory. The reason for agreeing to the government's proposals, according to the Herald, the labor organ, was that a majority believed it an impossible time to strike. The Daily Mail labor expert says a definite resolution in favor of a strike last Friday was lost by only four votes. The newspaper adds that discussions throughout the week on this issue were extremely bitter and were conducted in the midst of incessant turmoil.

GAS IN THE STOMACH IS DANGEROUS

Recommends Daily Use of Magnesia to Overcome Trouble—Caused by Fermenting Food and Acid Indigestion.

Gas and wind in the stomach accompanied by that full, bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so-called "acid indigestion." Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastritis accompanied by serious stomach ulcers. Food ferments and sours, creating the distressing gas which distends the stomach and hampers the normal functions of the vital internal organs, often affecting the heart.

It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. Instead get from any druggist a few boxes of E. M. Blount's Magnesia and take a teaspoonful in a quarter glass of water right after eating. This will drive the gas, wind and heat right out of the body, sweeten the stomach, neutralize the excess acid and prevent its fermentation and there is no sourness or pain. Bismuth Magnesia in powder or tablet form—never liquid or milk—is harmless to the stomach, inexpensive to take and the best form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

NEWSPRINT SENT TO WESTERN PAPERS BY FORT FRANCES CO.

Two Carloads Shipped Yesterday in Bond by Way of the Loop—Company Say They Are Ready to Fulfill Contract.

Fort Frances, Jan. 15.—(By Canadian Press)—Two cars of newsprint, one for Regina and one for Moose Jaw, were shipped west by the Fort Frances Pulp and Paper Company this afternoon. The company has not given an assurance in sufficiently definite form to make it acceptable to the paper controller, whose orders are that a certain specified tonnage shall be allowed to Canadian customers.

TO DARKEN HAIR APPLY SAGE TEA

Look Young! Bring Back Its Natural Color, Gloss and Attractiveness.

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just as your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store already for use. This is the old-time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not stylish, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time, by morning all gray hairs have disappeared, and after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

"SMASH REDS!" GENERAL WOOD URGES NATION

Deport Alien and Try Native Offenders, He Counsels at Passaic, N. J.

New York, Jan. 15.—Immediate deportation of alien "reds," trial of American citizens of dangerously radical tendencies, more careful supervision and treatment of immigrants, fair treatment of labor, protection of the rights of property, increased production and the preparation of American industry for an economic struggle were urged yesterday by Major-General Leonard Wood in an address in the High School auditorium at Passaic, N. J.

Introduced by Major John H. McGuire as "one of America's foremost patriots and generals and as the man who looms up and stands out as likely to be called to be the next President," General Wood was enthusiastically received by about a thousand persons who are taking part in the campaign to raise \$500,000 for the Passaic Y. M. C. A., the Passaic Y. W. C. A. and the Passaic Boys' Club. Acting Governor William N. Rutan was the other speaker at the meeting.

General Wood stated that the Y. M. C. A. and the Y. W. C. A. had demonstrated their value during the war and said that their activities had contributed greatly toward the morale of the American soldiers. "There is a good deal of discontent in the world today," he said, "and you people want to tackle it with the same vigor that you attacked the problem of getting the men overseas, sound in body and sleep in soul."

"Insist on 'Human Element'" "You have got to inject into the situation between labor and capital a little more of the human element. We couldn't run an army unless we kept closely in touch with the men and women who they were fed, dressed, looked after, in the hospital and all these things. We have to have a human element."

"This is no time for new experiments. This is the time for work, and the slogan should be 'law and order, the right of property and constitutionality.' Hold on to the things that made us what we are. Don't rock the boat." "We want to look after labor with a friendly care. We want to see to it that it is given American leadership. We want to take from labor the leadership of the alien and the 'Red,' which is few in number in comparison with our entire population but dangerous because of its activity. "The 'Red' element can be very easily disposed of. Those who are aliens ought to be deported immediately. Those who are native born

CLOTHIERS' SECTION OF RETAIL MERCHANTS' ASSOCIATION ASK AID OF COMMERCE BOARD

Request Amendments to the Order Respecting Ready-to-Wear and Partly Made Suits and Overcoats—Want Privilege of Adding Little More to Sale Price on Certain Styles and Grades of Making.

Ottawa, Ont., Jan. 15.—(By Canadian Press)—Representatives of the Clothiers' section of the Retail Merchants' Association of Canada waited upon Judge Robson, Chief Commissioner of the Board of Commerce, this morning, to present a resolution, passed unanimously at a meeting of the Dominion Board of the Association, asking for amendments to the order respecting ready-to-wear and partly made suits and overcoats. The resolution asks that the order limiting the gross profit to 33 1/3 per cent. of the sale price shall not apply to suits or overcoats of extreme style, such as fancy suits, waist-tails, dress frock, morning suits and such like models. It asks that in the paragraph defining cost price the following words may be added: "And an allowance be made for the cost of making, covering the cost of altering, finishing or making the garment ready for the purchaser," and also by adding a provision to the effect that "where a merchant purchases goods in job lots, or at a price less than the regular price, he shall be allowed to mark, offer and sell the same had he purchased them in the regular way and at regular prices." Finally, it provides that goods in the hands of the merchants "shall be marked at prices not in excess of goods of like style and quality received into stock after this order comes into effect; and that on goods of like quality received into stock at different times, the price may be averaged."

Judge Robson asked the delegation a number of questions designed to get at the effect of the tariff on clothing prices. The chief commissioner stated that it might be necessary for the board to go to the trouble of making a special trip to the United States in order to find out what clothing prices were there. Mr. Humphreys "customers coming to the States tell us that retail prices are very much higher there than here."

Judge Robson—"I would like to cross-examine the party who made that statement. It does not agree with my own experience."

Judge Robson also stated that he would not advocate a reduction in the tariff for the purpose of allowing American goods in, but, he said, "the manufacturer is taking advantage of the tariff and making us pay too much if you bring the tariff down a little, you will bring the manufacturers' prices down without letting the American stuff in."

Objection was raised by the clothing men to the board's requests that certain statements should be supplied to the board, and that some of these statements which it was requested should be prepared by chartered accountants were, it was argued, almost impossible to obtain from merchants in certain localities.

GREAT BRITAIN MAY BE FACED WITH SERIOUS BOLSHEVIKI SITUATION WITHIN THREE MONTHS

There is Little Hope of Stopping Bolshevism from Overrunning the Caucasus and Success There Means Union With Kemal Pasha for Mesopotamia Aggression.

London, Jan. 15.—(By the Associated Press.)—Within the next three months, says a long semi-official statement dealing with the near Eastern affairs, Great Britain may be faced with a serious Bolsheviki situation in the near East which would mean military equipment according to expert opinion based on official advice from the theatre of war.

Likewise Red occupation of Trans-Caspia gives the Bolsheviki a base for operations against Persia and extending to India, with the co-operation of Afghanistan, Georgia and Azerbaijan are anti-Bolsheviki, but they are not strong enough to resist the invasion which threatens them from the north when General Denikine's right wing is being pressed back, and from across the Caspian, where the Bolsheviki seem to be well established.

Daghestan is even more helpless than Georgia and Azerbaijan. Numerous Turks are also penetrating into the Caucasus from the south with the object of fomenting trouble.

LIVER TROUBLE AND HEARTBURN

All liver diseases of whatever character are diseases of the highest importance and demand close attention. The liver is the largest and one of the most important organs of the body. Its duty is to prepare and secrete bile and serve as one of the filters of the body, cleansing it of all impurities and poisons. Therefore when the liver gets out of order it is the starting point of trouble in nearly every part of the body.

Mrs. John Kadey, Chipman, N. B., writes: "I have used Milburn's Laxa-Liver Pills for some time and can recommend them to any one suffering from heartburn and liver trouble. I tried other remedies, but they only relieved me for a short time. I always recommend Laxa-Liver Pills to all sufferers, as I think they are a valuable remedy."

The Easiest Way To End Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This dissolves it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have. You will find, too, that all itching and itching of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.

In the British area and has threatened an attack in case of non compliance with his demands for evacuation of certain districts. The British General, MacMunn, commanding in Mesopotamia, has issued an ultimatum ordering the cessation of this agitation and has attacked and dispersed Ramadan's forces which had crossed into British territory.

The Reds are pouring troops into Trans-Caspia by greatly improved railways. They have sent detachments toward Khiva, probably with the object of rounding up the scattered forces of the Siberian army. A party of Bolsheviki Turks is reported to have arrived at Perat, Afghanistan with two cars containing airplane parts and wireless installation and to have gone on by way of Kandahar and Kabul escorted by Afghan cavalry.

The Reds have opened fifty propaganda schools at Tashkent, where Oriental languages will be taught from which Red agents will be sent into India and China and all the countries. The Tashkent Soviet recently determined to concentrate all its efforts first on India.

From Siberia comes the report that the remnants of the Siberian army numbering 6,000 have laid down their arms. General Semenov, who was defeated in an attack on Irkutsk, is said of Baku trying to consolidate his position supported by Japanese.

Vladivostok appears to be quiet, although a general strike is in progress. It was preceded by a violent manifesto in which the Allies were bitterly assailed.

In South Russia the Reds are driving on towards Odessa, and the invasion of Crimea, with Sebastopol, would give the Reds free way to the Black Sea.

This notice in a Montreal afternoon paper today caused a friend of Mr. McGovern to call at the above address. He was staggered to hear the door opened to him by the supposed corpse who was much surprised to hear of his death in this way.

A number of other friends called today and more will probably do so tomorrow, although steps have been taken to inform relatives that the notice was a hoax.

Industries Needed in West to Increase Population—Manitoba Farmers After John Barleycorn at Home.

West Needs Industries.
(Winnipeg Telegram.)
It has been generally accepted that the vigorous national policy initiated and pursued by Sir John Macdonald provided the opportunities which made remaining in their own country attractive to young Canadian youth. Unless the ample means for promotion, for commercial activities and a general outlet for the mental and physical energies of the manhood of the country to be provided most assuredly, the young men and women will go where they are obtainable. If the figures quoted be correct they cannot be offset by any shadowy appeal to patriotism and love of the home land. Definite action must be taken to find concrete undertakings to absorb the energies of the young people of Canada. They must have business outlets through which to seek what fortune their lives may hold in store for them. Canada again cries for a national policy which will keep its men at home. To do this it must have industrial expansion. This West cannot always abate with a transient population. It is not for its ultimate upbuilding that men shall come and reap the golden profits of its wheat and then disappear

with their wealth into the comforts of other countries. Alongside of the wheat should grow up other industries in this West.

Sir W. Hearst's Appointment.
(La Patrie.)
"As a member of the International Joint Commission Sir William Hearst will receive a salary of six thousand dollars per annum, as well as his travelling expenses. The former conservative Prime Minister of Ontario has not been allowed to remain for long unattached to some office. The aged with which his friends have secured this position for him stands out in marked contrast to the forgetfulness with which public men of the province of Quebec have been allowed to suffer in public favor. The Journal of Ottawa gives this reason as an excellent one to excuse the omission to nominate a French-Canadian to replace the Hon. Mr. Mignault, namely, that the late Mr. T. Cloutier, who represented Quebec, but Sir William Hearst will represent the whole of the Dominion. This argument could be applied to justify the deprivation of French-Canadian of every public office. The province of Quebec possesses French-Canadian advocates equally as competent as Sir William Hearst for the office he has just been appointed to fill."

Worrying Provincial Libs.
(Montreal Gazette.)
The beginning of a speaking tour by Mr. Mackenzie King created some interest during the past week, which the address delivered at Newmarket, did not justify. The Liberal leader, judging from the reports, was prolix rather than precise in what he said. He may think that events are shaping themselves to help his cause and that the less he says now the less he may have to explain later. He did not intimate that, in his mind, Liberalism and Labor were congenial causes, and held that "what the workers in one form or another are seeking is what we as Liberals have all along been speaking of as more in the way of equality of opportunity." He even saw Liberalism in the farmers' movement, which is hithering some Liberal provincial administrations not a little.

Thin, Nervous People Need Bitro-Phosphate

Weak, thin people—men and women—are nearly always nervous wrecks; thus conclusively proving that thinness, weakness, debility and neurasthenia are almost invariably due to nerve starvation. Feed your nerves and all these symptoms due to nerve starvation will disappear.

Eminent specialists state that one of the best things for the nerves is an organic phosphate known among druggists as Bitro-Phosphate, a five-grain tablet of which should be taken with each meal. Being a genuine nerve builder and not a stimulant or habit-forming drug, Bitro-Phosphate can be safely taken by the weakest and most delicate sufferer, and the results following its use are often simply astonishing.

By strengthening the nerves, weakened people regain energy and vigor; thinness and angularity give way to plumpness and curves; sleep returns to the sleepless; confidence and cheerfulness replace debility and gloom; dull eyes become bright, and pale, sunken cheeks regain the pink glow of health.

CAUTION—Bitro-Phosphate, the use of which is inexpensive, also wonderfully promotes the assimilation of food so much so, that many people report marked gains of weight in a few weeks. Those taking it, who do not desire to put on flesh, should use extra care in avoiding fat-producing foods.

Manitoba Farmers.

The United Farmers of Manitoba met at Brandon and in connection with things political adopted some strong declarations. It was demanded that "Canadian citizens" should not be deported without trial by jury. A plank declared favor for the new national policy of endeavoring to secure unrestricted trade in natural products with the United States along the lines of the reciprocity agreement of 1911, and of placing of all food-stuffs on the free list. Other clauses approved of a naturalization act based on personnel naturalization only and "a new Dominion election act based on the principle of establishing the federal electorate on the basis of provincial franchise. The Canadian Government was asked to repeal all censorship regulations, which were declared to be a "formidable obstacle" in the development of democracy. By a standing vote the province was asked to make it illegal for residents of Manitoba to purchase intoxicating liquor for beverage purposes or to have such liquor on their premises. The resolution also

"SYRUP OF FIGS" CHILD'S LAXATIVE

Look at tongue! Remove poisons from stomach, liver and bowels.

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious fruity taste. Full directions for child's dose on each bottle. Give it without fear. Mother! You must say "California."

sought a referendum on importation of liquor and requested that no license be granted in Manitoba for liquor warehouses.

Perhaps.
(La Presse.)

"The legislators at Quebec will be called upon very soon to define what is to be understood by a 'club.' Certain vendors of intoxicating liquors have given to that word such a wide meaning that it is important that its precise sense should be definitely set down. If the ordinary dictionary is not to be respected, perhaps a legal dictionary will be."

A Question For Mr. Crerar.

(Le Soleil.)
"Mr. Crerar deceives himself if he thinks that his present political ideas will persuade Quebec to follow in his train. We are quite willing to be democratic, but we are not going to allow ourselves to become demagogues. There is good in democracy, there is indeed, a great deal that is very excellent in it. That is what Mr. Crerar appears to forget. Demagoguery may very easily conduct us to bolshevism. Has Mr. Crerar thought of that?"

This train, now leaving at 11:45 p. m., will on and after Monday, January 19th, leave at 11:00 p. m., reaching sunset at 12:25 a. m. and Moncton at 2:05 a. m. The time of other trains is unchanged.

Why McKim Campaigns are Successful

Successful advertising is not a matter of so many inches in the newspapers and magazines.

In the first place, there must be a correct understanding of the relation of the product, or service, to the public. Then follows the determination of the IDEA—the key to the appeal.

Next comes a wise selection of media, and the decision as to sizes, sequence and frequency of advertisements. Then illustration, text and setting must be designed to attain the maximum effect—to make the idea LIVE!

It may seem simple to follow this plan, but many who have copied the outward appearance of the successful campaigns we have put on, miss the vital essentials, and make failures where unqualified success is deserved.

During the War it became necessary for the Dominion Government to propagate certain IDEAS regarding military service, food resources, finance and so on. A. MCKIM LIMITED was chosen—not once or twice, but time after time—to assist in propaganda work, and this new idea in advertising accomplished all that was expected.

Groups of manufacturers, as well as individual firms, have been advertising in this light, and have successfully created new uses for their products, as well as new users.

There is a tremendous field for commercial development of this nature, if it is skillfully presented.

Advertising is neither a gamble, nor is it a "sure thing." It is a straight business undertaking, requiring sane judgment and shrewd common sense.

With the wide experience gained in thirty years' successful work, we are able to offer guidance that makes valuable the newspaper and magazine space that is used.

Some of the largest manufacturers in Canada are among our clients, and have been for years. Over three hundred advertisers—great and small—trust us with the handling of their advertising—the largest clientele of any advertising agency.

Before you reach any decision regarding the expenditure of your advertising appropriation for 1920, we would like to discuss the possibilities with you.

To Manufacturers Public Opinion

Advertising, well directed, is a first consideration in your plans for more business in 1920. Why not break away from the old fixed market and develop new uses for your product?

If competition is keen, your campaign should put you beyond its reach. If you cannot keep up with the demand, your expenditure for advertising is well invested because of the Goodwill created.

A new word coined during the War—"Profiteering"—is being used very freely. Quite often, if the public knew the truth regarding earnings, opinion would be much more favorable. Well directed advertising has a salutary effect on unjust agitation, and is of inestimable benefit.

Financial houses realize that advertising is of the greatest importance where new stock is to be issued for public subscription. So much depends upon the general attitude towards the enterprise, that the ground should be carefully prepared by judicious advertising before the prospectus is issued to the public.

If what has been written above "touches" upon your business, you will be interested in reading the book to be issued shortly, "The Force that Makes Ideas Live."

Business executives are invited to write for a copy to our nearest office.

The St. John Standard

Published by The Standard Limited, 82 Prince William Street, St. John, N. B., Canada. H. V. MACKINNON, Manager and Editor. THE STANDARD IS REPRESENTED BY: Henry de Clerque, Mallers Bldg., Chicago; Louis Kleban, 1 West 34th St., New York; Freeman & Co., 9 Fleet St., London, Eng.

ST. JOHN, N. B., FRIDAY, JANUARY 16, 1920.

THE NURSES' HOME.

Yesterday the Finance Committee of the County Council recommended that the sum of \$181,000 be voted to build the proposed Nurses' Home in connection with the General Public Hospital, and it is to be hoped that the Council will adopt the recommendation and instruct the Hospital Commissioners to proceed with the erection of the building without delay. If the Council had been able to make up its mind when the project to build the Nurses' Home was first mooted the work could have been done for considerably less than it will cost today, and there is no good reason to suppose that the continuation of the policy of dissipation and vacillation will not prove equally unprofitable. There is no great likelihood of an appreciable reduction of the cost of labor or materials for years, and anyway the situation at the hospital is sufficiently urgent to counsel action without further delay.

For a matter of eight years the Public Hospital Commissioners have been urging the need of providing additional accommodation for patients. Various proposals have been made to meet the difficulty, and that of erecting a Nurses' Home, which the public-spirited members of the Women's Aid have made their own, seems to offer the most satisfactory solution, and the most economical. At the present moment the overcrowding at the hospital is a serious matter; one commissioner of the hospital describes the situation as "terrible"—which may or may not be an overstatement of the case. While there may be an occasional vacancy in the female wards the accommodation for male patients is at present and has been for a long time grievously overtaxed.

By erecting a Nurses' Home and converting the quarters now occupied by the nurses for the use of patients, additional accommodation would be obtained for forty or fifty patients, and unless there is a very rapid increase in the population of the city, the hospital requirements would be satisfied for some years to come. However, it is provision for present rather than future needs that is required. The vigorous presentation of the case for the Nurses' Home made by Mrs. E. Atherton Smith, on behalf of the Women's Aid, before the Finance Committee of the County Council yesterday afternoon evidently impressed that body with the urgent need of action, and if the members of the Finance Committee go to the meeting of the County Council determined to support their own recommendation the project which has been hanging fire so long will be put in process of realization; and high time it was. Neither the people of the city or the county desire that their representatives should show a niggardly spirit when it is a matter of making adequate provision for the sick and suffering.

MR. KING AT ST. JOHN.

Today St. John is honored by the visit of a young man who if he lives long enough and has an extraordinary run of luck may be the Premier of Canada. Some time ago he was elected leader of the Liberal party, but he has not been working very hard at the job. At any rate he has not as yet given the party a definite lead in any direction; and it has to be determined whether he has the capacity to lead it anywhere. He has made several speeches, very rhetorical and discursive; he has rather crudely imitated his desire to attach his disorganized party to the tail of the Farmers' kite; but he has as yet thrown no great light on the Liberal programme, or upon the problems of the day.

If Mr. King ever does anything so reckless as to read The Telegraph he must know that his Newmarket oration, which he repeated at Halifax, did not satisfy the aspiring souls of the faithful hereabouts. "As the Liberal Leader," said The Telegraph, "proceeds with his series of public speeches, which are to be a sort of preparation for the coming session of Parliament, the country will expect from him a definite statement of constructive policy affecting the principal public issues which press for action. He will do well in touring a somewhat restless and critical country to be even more definite than the Liberal party platform with respect to some of the outstanding questions of the hour."

Possibly Mr. King, in view of The Telegraph's criticism, has been keeping his light under a bushel until he could appear in St. John and dazzle the faithful who will be gathered together under the thoughtful gaze of Premier Foster. Perhaps Mr. King will this evening begin real work upon the upbuilding of a Liberal programme, and "give the country a definite statement of constructive policy." If Mr. King will only favor St. John with a definition of a Liberal, he may throw a searching light on one of the great questions of the hour in St. John: Why did the local convention of old line Liberals declare that Premier Foster was not a Liberal at all, and refuse to

recognize him as a leader? Mr. King has a great opportunity and a great responsibility. Will he rise to it? Those who regard him as a political accident will not nourish extravagant hopes. But doubtless the old line Liberals who have not forgiven Fielding for deserting his leader or Premier Foster for taking up a position on the fence, are awaiting the evening's entertainment with bated breath. If Mr. King will come down from the heights of generalities long enough to give an expectant city a definition of a real Liberal, he may clarify the local Liberal situation, and show Premier Foster in the classic language of the old line Liberals "where he fits." As a political accident himself he may have considerable sympathy with Premier Foster, and it is not impossible that he will be able to define a Liberal in a way that will permit Mr. Foster to enter again into the bosom of a badly regulated family. Perhaps his heroic efforts to include the Farmers in his definition of Liberals has been in the way of preparation to establish harmony in the local Liberal ranks; at any rate if there is any other explanation of his confusion it is not apparent.

MR. KING AT HALIFAX.

The Montreal Gazette: "If language was given to the leader of the Opposition to conceal his thoughts, he is making the fullest and most effective and successful use of the endowment. He has spoken twice in course of his present tour, once at Newmarket and once at Halifax, in each instance at considerable length, and the concealment is still complete and comprehensive. If the present political situation calls for anything from the Opposition leader, it is for a clear and unequivocal statement not only of the principles for which he stands but of the manner in which he proposes to apply those principles, practically and specifically, to the conditions which have arisen. The closest examination of his utterances fails to disclose any single concrete suggestion of a constructive character. Generalities of a familiar and platitudinous sort there are in great volume, but the country will search in vain through these academic deliveries for anything in the nature of a lead; it is not there. Mr. King, in preaching the desirability of national unity may have some notion of fitting himself for the mantle which has fallen upon him, but that idea, however laudable in itself, is far from meeting the requirements of the situation. The ideal of national unity is, of course, an attractive one, but what means does Mr. King suggest for realizing that ideal? There exists at this moment a condition which is far removed from national unity and which is progressing in the direction of still more marked disunion. What are the remedies which the leader of the Opposition proposes, and where and how are they to be applied? If, as must be inferred, he has no remedy to offer, no plan to suggest, his repeated and lengthy references to the subject of unity are lacking in force and altogether without point or value."

What is the object of Mr. King's pretension that the farmer, labor and veteran movements are wayward children of Liberalism? Is he merely making a gallery play with the demagogic idea of placating those organizations, or has he a serious purpose? The Montreal Gazette says: "The Opposition Leader professes to find in the farmers' movement, in the aims of labor, and in the organization of war veterans, the expression of Liberalism. The principles of Liberalism which Mr. King believes are the hidden springs actuating those several groups are certainly not sufficiently manifest to justify the hope, if it be a hope, which the Liberal Leader appears to have found upon them. The United Farmers, whether imbued with Liberalism or not, are not falling in behind the Opposition Leader. Is he prepared to go to them, and if so, at what political price? If he means nothing by these discoveries of Liberal instincts and principles, why talk about them, why warn these other 'Liberal forces' that they must co-operate against a common enemy? If the Halifax speech of the Opposition Leader means anything, which remains a matter of doubt, it means that he seeks the support of the farmers and of labor, apparently as a step toward what he regards as national unity, and as he cannot hope to obtain that support without embracing the platforms of the farmers and of labor, it must be assumed that he is prepared to go that far, taking the Liberal party with him."

WHAT THEY SAY

Keeps the Politicians Guessing. (Baltimore American.) The women's vote in the presidential election is worrying the politicians. The slogan: "He kept us out of war," which turned so many fem-

inine ballots to Wilson, is wanting, nor is there another equally effective to take its place, particularly in the light of later history.

The Profit System?

(Commercial West.) If leather is dear and labor is dear, there surely is a reason for cutting overhead expenses to the lowest possible figure. The products of labor seem to pass through too many hands, and too many people are paid for doing unnecessary work. We do not blame the persons engaged in these occupations. They work the system as they find it. But the system appears to have outlived its usefulness.

Subject Races.

(Egyptian Mail.) Egypt's connection with Great Britain under the proposed new constitution would be a form of co-operation rather than subjection. British declarations have made it quite clear that anything degrading to Egypt, anything that would prevent her, taking her rightful place in the world, would be inconsistent with British policy. There is no idea of interfering with Egyptian national individuality or national distinctiveness. Canada, Australia, the other young nations making up the brotherhood of the British Empire, certainly do not look on themselves as subject races; how much less then should Egypt do so.

Who is the Gooser?

(From Lloyd's Bank, London, Monthly Financial Report.) It may be true that in the past capital has taken too large a share of the profits of industry, and that under our industrial system, as it has existed during the last fifty years, their fair share of the profits which manual workers have not received their fair share of the profits which they have helped to produce. But do not let us jump from the one extreme to the other, because by so doing we shall be making things worse, instead of better, by "destroying the goose that lays the golden egg." You cannot at a single stroke remedy the mistakes of half a century.

Misusing a Good Word.

(Kansas City Star.) The good old word, "liberal," has fallen on evil days of late. There was a time when it was a designation of distinction. Washington was one of the great liberals of his day. So was Lincoln. So was Cleveland. So was Roosevelt. The great forward-looking practical statesmen were liberals. Now the term is claimed by every person with a half-baked theory to reform the world. The more visionary and impractical the theory the louder are its author's protestations that all who agree with him are the real liberals, all who disagree are reactionaries.

A BIT OF VERSE

GIVE US PEACE. O Lord of Peace, who art Lord of Righteousness, Constrain the anguished world from sin and grief, Pierce them with conscience, purge them with redress. An give us peace which is no counter-fet!

HE CAME TO MAKE INJUSTICE RIGHT. He comes to make the long injustice Come to push back the shadow of the night, The gray tradition full of flint and flaw. . . . Yes, He will bear the safety of the state, For in His still and rhythmic steps will be The power and music of Alcione, Who holds the swift heavens in their starry fate. . . . More than the light of law that burned on Rome. —Edwin Markham.

The United Farmers, whether imbued with Liberalism or not, are not falling in behind the Opposition Leader. Is he prepared to go to them, and if so, at what political price? If he means nothing by these discoveries of Liberal instincts and principles, why talk about them, why warn these other 'Liberal forces' that they must co-operate against a common enemy? If the Halifax speech of the Opposition Leader means anything, which remains a matter of doubt, it means that he seeks the support of the farmers and of labor, apparently as a step toward what he regards as national unity, and as he cannot hope to obtain that support without embracing the platforms of the farmers and of labor, it must be assumed that he is prepared to go that far, taking the Liberal party with him."

Another Mis-Alliance.

Annie—"So Jack is engaged, is he? And is Mabel the bride-to-be?" Fanny—"No, she is the tried-to-be!"

Observant Youth.

Little seven-year-old James came home from school the first day with a determined look on his face. He was decided on one point. "Mother," he cried, "I'm going to quit school."

LONGEST PURSE CUTS SOME FIGURE. London Press Comments on Small Number of Cases from Dominions Before Privy Council's Winter Term.

Children's Coughs Quickly Cured. It is very hard to keep the children from taking cold. They will run out of doors not properly wrapped—play too hard and become overheated—get their feet wet—kick the bed clothes off at night.

There's nothing so good for children's coughs, croup, whooping cough or bronchitis as Dr. Wood's Norway Pine Syrup. It is so pleasant to the taste the youngsters take it without any fuss, and at the same time its promptness and effectiveness in loosening the phlegm, and healing the lungs and bronchial tubes and such that the cough is checked before any serious trouble can possibly develop.

Mrs. Harold Acker, Lake Pleasant, N. B., writes: "I have three children, the eldest eight years and the baby ten months old. They all had a bad cough. I knew of quite a few persons who had used Dr. Wood's Norway Pine Syrup with good results, so I got three bottles. I am glad I did so, as it is a sure cure for coughs and colds. A home where there are children should never be without it. I highly recommend it to those who need a quick cure."

Mine Boss Says He Lay Helpless

Was Six Feet Tall and Only Weighed 116 Pounds — Went to Hot Springs and Tried Eight Doctors Without Relief.

"I lay helpless when my wife ordered our first bottle of Tanlac from El Paso, Tex.," writes Harry E. Scott of Dragon, Ariz., in telling of his remarkable recovery.

Mr. Scott's voluntary statement has the true ring of sincerity and gratitude and is unquestionably one of the most remarkable ever given in connection with a proprietary medicine.

Mr. Scott's letter was addressed to C. F. Moss, a well-known druggist of Benson, Ariz., who has the Tanlac agency for that territory, and was forwarded by Mr. Moss to the Tanlac offices at Atlanta. His letter follows:

Dragon, Ariz.
Mr. C. F. Moss,
Benson, Ariz.
Dear Sir:—As you expressed a desire to hear more about my case, I will try and tell you part of it. I was down and out nearly all the time for two years with rheumatism and stomach trouble, and went to eight doctors, two of whom were osteopaths. Three of them refused to take my case, saying it was incurable, and the others might as well have done so as they did me no good. I guess I have taken a barrel of medicines, internally and externally. I also went to Hot Springs, and out of all that was ever done, I never got over one week's relief at a time.

After going down to one hundred and sixteen pounds—which is very light for a six-footer—I kept getting worse until I couldn't move, even to feed myself. I had no desire to eat and couldn't sleep more than two hours at night. Some of the officials of the mine, of which I am foreman, would call to see me, and then go out and say, "Poor old Scott has fired his last mine." My wife thought I would never get out of bed alive, and she knew my condition better than anybody.

At last, when I lay helpless, my wife ordered a bottle of Tanlac from the druggist at El Paso, Tex., which was the nearest place we could get it at that time. One evening about four days after I began taking Tanlac, I ate a fair meal and enjoyed it the first in many months. By the time I had taken half of the first bottle I thought I had a good appetite, but when I finished my second bottle I could hardly eat enough to satisfy me. Well, I have finished my ninth bottle, have gained eighteen pounds and am back on the job every day.

The Commissioner of Safety said he had suggested that the City Hall could be remodelled for use as a school, but that the people of the West End had expressed opposition.

Commissioner Jones opposed the idea of leasing the structure for a long period, with option of renewal.

It was finally decided that the Commissioner of Safety report back on the terms of the proposed new agreement.

Commissioner Fisher gave notice that he is calling for tenders for a "sand-drier," which will be needed if street work is carried out on the contemplated scale. The cost would be several thousands of dollars. On motion, his action was confirmed.

Engineers Report Against Paving Brussels Street

Reports from the city engineer and the road engineer, to the effect that it was inadvisable to pave Brussels street next summer, were presented in committee of the Common Council by Commissioner Fisher this morning. On motion, the reports were filed.

Commissioner Thornton recommended that A. C. Smith be allowed to surrender his present lease of a portion of the ground floor of City Hall, West, and take a new lease for five years from May 1st next, at an annual rental of \$400, with provision for renewal for an additional three years, at an annual rental of \$450. Present rentals are \$200 for the theatre and \$144 for an office.

The Commissioner of Safety said he had suggested that the City Hall could be remodelled for use as a school, but that the people of the West End had expressed opposition.

THE STANDARD'S SPORTING SECTION

Fredericton Takes First Hockey Game

Defeats Marysville in Opening Game of the League Series.

Special to The Standard.
Fredericton, Jan. 15.—Fredericton won the opening game of the N. B. H. L. here tonight from the Marysville team by a score of 5 to 2.

The local team's victory was more or less of a surprise, but as a matter of fact Fredericton played a formidable line-up of all former soldiers, and played the fastest hockey seen here in years. Only at one stage of the final period did the Marysville team look at all threatening, as they scored their two lone tallies in rapid succession, but Fredericton soon afterwards scored the final goal of the game and it was all over.

"Tut" Titus, who understated old Stonewall Morrison in the days of the Capitals a dozen or more years ago, was in the net for the Fredericton team and did a wonderful comeback, as he kicked out all kinds of likely shots and proved almost invulnerable. Fredericton's scoring machine was largely a combination of U. N. B. players, Burgess getting three and Billy Lounsbury two of the winners' tallies, while Clarence Jewett, at coverpoint, was a big factor in the offensive work of the team, as he carried the puck well. Eddie Colwell, in centre, also played well. Leo Jarvis was at point most of the time for the Fredericton team and blocked well. Mike Murphy went on at point for a short spell in the final period, but the one time star's scintillating days are apparently over, as he showed little of his old-time form.

Mark Wade and Brewer were the pick of the Marysville team, the former scoring his team's only goals by individual rushes and clever stick handling. Bidlake, in goal, had little support from his other defence players, and one of two of the goals scored against him were instances of rank blocking. There was no outstanding dirty playing. Referee Blaine Hugh, the U. N. B. coach, keeping the game well in hand all the time. More than 500 people saw the game, and it looked as if hockey was in for a fine revival here. The teams lined up as follows:

Fredericton. Goal, M. Wade; Defence, J. Jarvis, E. Wade, Lounsbury, Arnold; Centre, Colwell; Right Wing, M. Wade; Left Wing, Jewett, E. Wade; Coverpoint, Lounsbury, Arnold; Skating, Jewett, E. Wade, Lounsbury, Arnold.

BOGUS MONEY CIRCULATING IN RAILROAD TOWN

Ten Dollar Counterfeit Bills on Royal Bank Discovered — Investigations Being Made for Source.

Moncton, Jan. 15.—Evidence that some party or parties in a North Shore town are engaged in putting in circulation bogus Royal Bank of Canada ten-dollar bills came to light today in the local branch here. W. C. Hazen, manager of the Moncton branch of the Royal Bank, has in his possession three or four worthless ten-dollar bills which were sent in from Harcourt, Kent County, by parties who were duped by the genuine appearance of the paper currency. "The method employed by the counterfeiters is to cut a genuine bill in two and attach the halves to counterfeit bills similarly treated. By this means the bills put in circulation show one-half genuine and the other half counterfeit. Anything akin to a close inspection of the bills reveals the deception, but they might easily be taken by the unwary for good money. The head office of the Royal Bank has been advised of the counterfeiting, and an effort is being made to trace the bogus money to its source.

SKATING PARTY.

The Y. M. C. A. Business Boys are planning a skating party for Saturday afternoon on Lily Lake. The skate is to be followed by a bean feed in the Log Cabin "down past the bears' den," and an evening before a roaring fire. Stories will be told and marshmallows roasted as the flames shoot up the big fireplace.

Pigeons were used extensively during the world war, and as a consequence pigeon racing was forbidden in order that the bombing pigeons would not interfere with the birds used by the military authorities. This practice was resumed with the Honors' Grand National, when several thousands of birds were released at Bournemouth, in England. The birds are released from their cages in the trains that bring them to the starting place of the races. The accompanying pictures show the thousands of "homers" at the moment of their release from the wicker baskets that brought them to Bournemouth.

RAILROADS' RETURN TO OWNERS WILL ADVANCE LIVING PRICES, ROBERT W. WOOLLEY DECLARES

Interstate Commerce Commissioner Says Large Increase of Rates Will be Demanded, Adding at Least \$215 a Year to Every American Family's Budget.

Washington, D. C., Jan. 14.—Robert W. Woolley, Interstate Commerce Commissioner, declares that the return of the railroads to private control at the time now scheduled will result in a substantial increase in the present high cost of living, as it will mean increased freight rates.

Commissioner Woolley, says he is informed from reliable sources that the railroad presidents have decided to ask for a general increase of 25 per cent. and that the New England railroads will ask for as much as 39 per cent. He figures that the proposed increase, if it goes into effect, will cost consumers in the United States the stupendous sum of \$4,375,000,000 and increase the family budget of the United States something like \$215 a year.

No increase in rates is necessary, Mr. Woolley states, until after the reconstruction period is well under way and things again get normal, when the return can be made without disturbing the entire industrial and commercial fabric.

The Commissioner says he is not an advocate of government ownership, but if the railroads are turned back at the time scheduled and before normal conditions are restored or are in sight, it will mean government ownership in the end.

President Wilson does not favor increased freight rates, Commissioner Woolley says, and he adds that Director General Hines has declared that an increase is not necessary under a continuation of federal control and that efficient service can be rendered.

Mr. Woolley's statements are significant, as he is close to the President and was instrumental in having the President commandeer the railroads on December 31, 1917.

THIS WEEK, NERVOUS MOTHER

Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health.

Philadelphia, Pa.—"I was very weak, always tired, my back ached, and I felt sickly most of the time. I went to a doctor and he said I had nervous indigestion, which added to my weak condition kept me worrying most of the time—and he said if I could not stop that, I could not get well. I heard something about Lydia E. Pinkham's Vegetable Compound and I found my husband wanted me to try it. I took it for a week and felt a little better. I kept it up for three months, and am now well. I do not think the Vegetable Compound can be beaten for women's ailments.

The majority of mothers nowadays overdo, there are so many demands upon their time and strength; the result is invariably a weakened, run-down, nervous condition with headaches, back-ache, irritability and depression—and soon more serious ailments develop. It is at such periods in life that Lydia E. Pinkham's Vegetable Compound will restore a normal healthy condition, as it did to Mrs. Worthington.

SCIENCE PROVES THE DANGER OF BLEEDING GUMS

Medical science proves that unhealthy gums cause serious ailments. People suffering from Porrhoea (a disease of the gums) often suffer from other ills, such as rheumatism, anaemia, nervous disorders, or weakened vital organs. These ills have been traced in many cases to the Porrhoea germs which breed in pockets about the teeth.

Four out of five people over forty have Porrhoea. It begins with tender and bleeding gums. Then the gums recede, the teeth decay, loosen and fall out, or must be extracted to rid the system of the infecting Porrhoea germs. Guard your health and your teeth. Keep Porrhoea away. Visit your dentist often for tooth and gum inspection, and make daily use of Forhan's For the Gums.

Forhan's For the Gums will prevent Porrhoea—or check its progress—if used in time, and used consistently. Ordinary dentifrices cannot do this. Forhan's will keep the gums firm and healthy, the teeth white and clean.

WHY HIGH PRICES FOR CLOTHING?

The Ordinary Amount of Wool in Man's Suit Costs \$5.25 Today.

Salt Lake City, Utah, Jan. 14.—The statement of H. R. King, of Seattle, in an address before the National Retail Clothiers at Chicago yesterday that clothing prices will advance from twenty-five to fifty per cent. because of higher wool prices was characterized as absurd by Dr. S. McClure, secretary of the National Wool Growers' Association.

"The truth of the matter is that wool is no higher in Boston, the wool market of the country, than it was ninety days ago," Dr. McClure said. "Ordinary three-eighties blood wool is selling today in Boston at from \$1.30 to \$1.40 per pound scored.

"To manufacture a suit of man's clothing requires about sixty-two ounces of wool, which can be bought in Boston today at \$5.25. Thus, on a basis of the present price, the total amount of wool in an average man's suit can be bought for \$5.25."

MARKET REPORTS

STOCKS, BONDS AND PRODUCE

LAKE CARRIERS' ASSOCIATION HAD HARD SEASON

All Known Elements, Antagonistic to Favorable Operations, Were Encountered.

Detroit, Mich., Jan. 15.—A series of adverse circumstances contributed to a generally unsatisfactory season for the fleet of 388 ships of the Lake Carriers' Association during 1919, according to the annual report submitted to the association's convention here today.

Beginning with the uncertainty in the steel trade last spring, the report said, almost all known elements, antagonistic to favorable operations, were encountered. The total net tonnage for the season was eleven million, one hundred and thirty-one thousand, one hundred and fourteen tons, against one hundred and fourteen million during 1918.

The fleet, which at the beginning of the season consisted of 1,982,800 tons lost sixteen vessels through sales, withdrawals from membership or destruction by the elements.

STOCK MARKET DISPLAYED SIGNS OF STRENGTH

Unsettled Money Conditions Prevented the Confusion In Speculative Circles.

New York, Jan. 15.—An undercurrent of strength prevailed in today's stock market, although the undefined attitude of the Federal Reserve Bank and attendant monetary uncertainties intensified the confusion already prevalent in speculative circles.

Railroad stocks, however, were the acute depression of the previous season were due, according to popular belief, to an overall condition, rather than to any more positive or potent influence.

The call money market was materially easier, the opening rate of nine per cent. holding until the final hour when, on the 12th, a new course, loans were offered as low as six per cent.

So far as actual transactions were concerned, money existed only in a minor degree, but a rate of eight and a half per cent. was offered for short maturities, but offerings were almost negligible.

Stocks were at their best in the early afternoon, after an advance accompanying word from Washington that the officials of the Central Bank had adjourned without acting upon or even consulting questions of higher interest or discount rates.

There were several outstanding features of weakness, notably secondary oils and specialties. Prominent among these were middle states oil, Union Oil and Columbia. Prominent among which gross reactions ranged from five to seventeen and a half points. Sales amounted to 1,000,000 shares.

Foreign remittances weakened with another collapse in German and Austrian exchanges. Sterling derived no benefit from the more favorable week by statement of the Bank of England.

The heavy bond market embraced investment rails, Liberty and International war flotations, but numerous speculative individuals. Total sales were valued at \$17,200,000.

Old issues of bonds were unchanged on call.

Montreal, Jan. 15.—Atlantic Sugar returned to prominence today as an active leader of the stocks dealt in on the Montreal Stock Exchange, some 7,000 shares changing hands and the price rose to 101 and closing price represented net gain of 3 1/2 points. Spanish Common sold 4,450 shares and had a rise in price to 82 1/2, closing at 87 1/2, a net gain of a point. Quebec Railway was also in good demand and the price showed a gain of 1 1/2 points at the close at 31. The paper stocks, as a whole, showed material improvement, although Wayamack fell from 83 1/2 to 74 later recovering to 78 1/2, which still left a loss of 5 1/2 points. Rordon rose eight points to 188 and held five of them at the close at 185. Brazilian reached a new low record of 47 1/2, after a year at 47 1/2 with close at 47 1/2, a net loss of 1 1/2 points. STOCK MARKET HELD TO A RALLY

(McDOUGALL & COWANS.)
 New York, Jan. 15.—Except for a few weak spots in minor issues which are comparatively new concerns on the exchange, the market held its rally in the early afternoon and tended to work higher. Another moderate reaction occurred about the beginning of the last hour, but the tendency was again upward before the close and final prices were generally well above yesterday's closing levels. The call money rate eased off to 7 per cent. in the afternoon. No definite announcement was made regarding the Federal Reserve Bank's attitude on discount rates and Washington dispatches quoted a representative of the Federal Reserve Board as saying that that body had not had discount rates under consideration at its recent meeting today. Bankers here did not regard this statement as finally disposing of the idea that the rates are to be advanced. They still expect to see higher discount rates in the near future. Sales 1,021,800. STOCK MARKET HELD TO A RALLY

(McDOUGALL & COWANS.)
 Montreal, Jan. 15.—The paper stocks continued their activity yesterday, and with the exception of Wayamack, closed higher than last night. During the noon hour interim, it was announced that Wayamack had declared a 1 per cent. dividend for the quarter, and the stock acted as if it was disappointed that it was not a larger distribution. It opened 9 points down to 74, but recovered to 78 1/2. Spanish River was the most active; it was heavily traded in during the day. It sold as high as 88 1/2, closing at 88. Brazilian was again heavy, declining to 47 3/4, a new low on this movement. There is more of this stock than any other on our list, held abroad, and there is heavy selling of it for Europe.

MacDonald and Quebec Railway were active and strong, the former selling up to 44 and the latter to 31. Atlantic Sugar, which was under pressure yesterday, opened strong this morning, and sold up 6 points to 101. It reacted two points at the close. The market acted well, and was much more active than yesterday. McDOUGALL & COWANS.

United Services Well Attended

Mastery Sermon Preached Last Evening by Evangelist James Dixon—Listened to by Large Congregation.

A large congregation at Centenary Church last evening listened to a mastery sermon delivered by Evangelist James Dixon. Speaking from the text "Likewise I say unto you, there is joy in the presence of the angels over one sinner that repenteth." (Luke 15:10). The preacher said that we owe to hostile critics of Christ one great truth which is a gospel in itself: "He receiveth sinners." The lost sheep, lost piece of silver, and the lost boy in the parable show that the sinner is out of his proper place and that he is something of value, highly esteemed by his owner. In illustrating this, Mr. Dixon spoke of the fact that he had a small medal with a bar, in itself a thing of small value but something from which he would not part for a great deal. It had been pinned on his breast by the good Queen Victoria after the South African War in which he had lost his arm. The service last evening was conducted by Rev. Henry Penna, prayer being offered by Rev. George Morris and Rev. G. S. Dawson. It was announced that a united service for children will be held this afternoon at four o'clock in the Emmouth street Church, at which Rev. James Dixon will address the children and Miss Dixon will sing. Last evening Miss Dixon sang very sweetly "The Ninety and Nine."
