

# DE VALERA TO HAVE FRIENDS AT INTERVIEW

## Expected Irish Leader and Lloyd George Will Meet First Time Thursday.

### TRUCE TERMS ARE FAIRLY WELL KEPT

#### Acts of Violence Reported Due to Failure of Bands to Receive Word.

London, July 11.—The two leading developments in the Irish situation today were the designation of next Thursday as the date on which Mr. Lloyd George and Eamon De Valera will meet in London to begin conversations looking to a settlement of the Irish question, and the coming into effect at noon of the truce in Ireland as agreed upon.

The official announcement that Mr. De Valera would come to London next Thursday to confer with the prime minister did not specify the place where the actual meeting is to be held.

Bringing His Friends

It is understood that the Irish Republican leader will have as colleagues Arthur Griffith, founder of the Sinn Féin, and Professor John MacNeill, E. J. Duggan and Austin Stack, Sinn Féin members of parliament.

Mr. Lloyd George's associates at the conference have not been announced. The Irish truce brought back to Dublin much of its old peace-time appearance, the streets lacking their usual military display and confidence being expressed that the Sinn Féin forces would observe the conditions of the armistice.

Strict observance of the truce also was observed throughout County Galway.

#### Crown Acts Quicker

In other parts of Ireland, notably Belfast, where desperate fighting occurred yesterday and continued with diminished severity this morning, the truce was observed in varying degree, its provisions apparently being complied with more promptly by the Crown forces than the Republicans.

Acts of violence in various parts of the country were reported in considerable number up to mid-day. These clashes largely occurred in the extreme western and southern sections of Ireland, and the authorities estimated that they were due to non-receipt of notice of the truce.

Riots on two Dublin branches of the Ulster Bank occurred during the day. The rioters obtained several hundred pounds in currency and made their escape.

#### Eleven Were Killed

The Central News version of the attack last night on a military patrol at Castle Island, County Kerry, says that eleven persons were killed and many wounded in a pitched battle which followed the attack.

#### Hold Private Meeting

Dublin, July 11.—All the available members of the Dail Eireann, or Irish Republican Parliament, returned at the last election, met private in the Mansion House here today.

# Storm Benefits Exceed Damages

## Whole Niagara Peninsula Storm Swept But Rejoicing in the Great Flood.

Toronto, July 11.—Storm damage in the Niagara Peninsula on Saturday was insignificant to the benefit of the abundant supply of moisture accompanying it, according to T. J. Mahoney, manager of the Niagara Growers' Limited. E. F. Palmer of the Vineland Experimental Station corroborated this view and stated that recent rains would mean many thousands of dollars to the growers of the fruit belt, especially those interested in berries and garden truck.

Mr. Mahoney says plums will be about a thirty per cent crop, peaches from thirty to forty per cent, grapes from seventy to eighty and pears about eighty per cent.

# Swear In Taft As Chief Justice

## Washington, July 11.—Wm. Howard Taft was sworn in today as Chief Justice of the United States.

The simple ceremony of elevating the former president to the supreme court was performed in the office of Attorney-General Daugherty by Justice Heblie of the District Supreme Court, in the absence of the justices of the supreme court from the city.

Those present included Mr. Taft's brother, Henry W. Taft, of New York, and John T. Adams, chairman of the Republican National Committee, who immediately after taking the oath, Chief Justice Taft went to the White House to pay his respects to President Harding.

#### N. S. MAN DROWNED.

Dismal Qu., July 11.—Jean Baptiste Gregoire, 35, was drowned in Lake Aymer near here today. He was from St. Ferdinand, Halifax, and was visiting here with a number of friends.

# BRITISH COLUMBIA TOWN IS BURNING

Ashcroft, B. C., July 11.—The town of Williams Lake, a divisional point on the Pacific Great Eastern Railway in the Cariboo district, is reported burning down. The fire broke out Sunday night and spread rapidly. The fire is still raging, and the property damage is estimated at \$100,000. Several stores, a hotel, a dance hall, the telegraph office and the post office have been destroyed.

# MEIGHEN LIKELY TO SEE HUGHES ON TRADE PACT

## Reciprocity Between Canada and Australia Subject of Negotiations Now.

### COMMONWEALTH HAS RIGHT TO BARGAIN

#### Interview Between Premiers Expected to Pave the Way for New Trade Agreement.

Ottawa, July 11.—Reciprocity between Canada and Australia is the subject of negotiations between the government here and that of the Commonwealth, now that the latter has finally adopted its protective tariff. Mr. Lloyd George's associates at the conference have not been announced.

The Irish truce brought back to Dublin much of its old peace-time appearance, the streets lacking their usual military display and confidence being expressed that the Sinn Féin forces would observe the conditions of the armistice.

Strict observance of the truce also was observed throughout County Galway.

#### Australian Tariff.

The Australian tariff was brought down in resolution form a year ago and has been operative meanwhile, but it is only a few days since legislative effect was finally given to it. By this tariff, preference is given to Great Britain, but to no other dominion or country. The effect is to operate against Canada. There is, however, a general provision authorizing reciprocal negotiations with other dominions, and this is now to be availed of in the hope of developing trade between Canada and Australia.

#### What Canada Gets.

Canadian imports from that country are largely fruits, meats, wool, certain kinds of wood and dairy products. Canadian exports to Australia cover a much wider range, the principal items being machinery of all kinds, automobiles, farm implements and newspaper.

The interview between Mr. Meighen and Mr. Hughes on the subject is expected to pave the way for reciprocal arrangement being concluded in the course of a few months.

# RUM SCHOONER'S CARGO CAPTURED

## Vessel Landed Huge Stock at South Head, Cape Breton, and Officers Got Lot.

Glace Bay, N. S., July 11.—Forty-five casks of St. Pierre rum, valued at \$15,000, said to have been landed by an unidentified schooner at South Head, Cape Breton, on Saturday last, are now safely aboard the revenue cutter, Restless, off Port Morien, under the charge of customs officers.

Residents of South Head, who are alleged to have seen the rum runner landing her cargo, discovered the forty-five casks concealed in bushes near the shore.

It is said that three truck loads had been taken away before the liquor was found.

# Flames Threaten Hun Ammunition

## Big Dump Near Ostend, Left by the Germans, in Path of Forest Fire.

Ostend, Belgium, July 11.—An enormous depot of ammunition left by the Germans in Houthout forest on the old Flanders front, is threatened by a fire in the forest and as part of the ammunition consists of poison gas shells, gas masks are being distributed to the peasants in the surrounding villages. The fire is spreading rapidly owing to the protracted drought, toward the centre of the forest, where a depot is located.

The military authorities considered the distribution of the masks as a precaution against an explosion releasing the deadly gas. Houthout forest was the scene of some of the bitterest fighting in the war. Held by the Germans it was first attacked by the French and later by the British, both attacks were repulsed with enormous losses. The wood was finally captured by the Belgians in October 1918.

# MACHINE GUNS AND FIRES IN BELFAST RIOT

## News of Truce Does Not Stay Heavy Fighting in Northern City.

### THREE CORNERED FIGHT CONTINUES

#### Dublin Uprising Only Event That Caused Great Loss of Property in Ireland.

Belfast, July 11.—Incendiaries, which was one of the worst features of Sunday's disorders, increased to-night, there being frequent outbreaks. A fire at Short Strand, where the Corporation stores are situated, was quenched, but several spirit grocers in the Leopold district were burned out. The police were fired upon tonight in York street, but no one was hit.

#### Damage is Large

In the extent of material damage to property, Sunday's rioting here can be compared to that during the Dublin rising in 1916. A fierce and savage spirit animated the factions throughout the whole day and evening and large areas of the city were swept by rifle, revolver and machine gun fire. From the confusion of conflicting accounts printed in the various party papers an attempt to impute responsibility for the disturbances cannot be made, but it seems clear it was a three-fold fight between Sinn Féin and Unionist supporters and Crown forces, the latter endeavoring to end the hostilities.

# ALBERTA HAS 48 CANDIDATES OF THE FARMERS

## Premier Stuart Only Man in Province to be Returned by Acclamation.

### EIGHT WOMEN IN THE CONTEST

#### Independent Nominations Represent Many Different Types of Politics.

Edmonton, Alta., July 11.—Liberals and Farmers today lined up their official forces in preparation for the election in Alberta on Monday next for a new legislature. Tonight there are 159 candidates in the field. There are fourteen Conservatives, fifteen Labor candidates, nineteen who are called Independents and two Socialists.

Premier Chas. Stewart was returned by acclamation for Sedgewick, a rural constituency. No other candidate is expected to be elected. The government has candidates for fifty-nine out of the sixty-one seats, the exceptions being Lethbridge and Claresholm. The Farmers are testing public feeling in the election of forty-eight members, the exceptions in this case being the five Calgary seats, four in Edmonton and Lethbridge, and one Sedgewick and Leduc.

#### Conservative Candidates

The Conservatives are running full slates in Calgary and Edmonton. There are eight Labor candidates in Edmonton and three in Calgary, and one Socialist in the field in each city. The Independent candidates represent a wide variety of political opinion and the six A. Calgary under this heading, include "Bob" Edwards publisher of Eye Opener. There are thirty-six rural constituencies where Liberal and Farmer candidates are meeting in straight two-candidate contests. These include the ridings where all of Premier Stewart's cabinet colleagues are seeking election.

Hon. J. R. Boyle is running in Sturgeon, as well as Edmonton city; Hon. Duncan Marshall, in Olds; Hon. J. L. Cole, in Groutard; Hon. A. J. McLean in Camrose. Chas. Pingle, speaker in the last house, is opposed by a Farmer in Redcliff.

Twenty-six candidates were nominated in Edmonton, and twenty in Calgary. In each case the five with the highest total will be elected. Eight women are in the contest.

# EDMONTON NOMINATION

Edmonton, July 11.—Twenty-eight candidates were nominated officially here this afternoon as candidates for the legislature to represent the capital city in next Monday's election. The five candidates receiving the highest votes will be elected.

#### LOYD GEORGE TO COME TO AMERICA?

London, July 11.—Premier Lloyd George may visit the United States to attend some of the meetings, at least, in connection with President Harding's proposed conference, according to the Daily Mail.

Late this afternoon the Chamber of Deputies also adopted this resolution, thus making it effective.

# News of The World

## CANADA.

Herbert Downie, secretary Central Baptist Sunday School, St. John, N. B., drowned at Brookville N. B., yesterday.

British Columbia town is reported burning from bush fires. Ram schooner's cargo worth \$15,000 is captured at South Head, C. B.

## UNITED STATES.

Mystery steamer was seen at close view by British ship 750 miles off Halifax.

Crime wave breaks out again with big hold-ups in New York and Schenectady, N. Y.

Crops in British Isles are suffering greatly from the prolonged dry spell.

Wonderful cheering when Lloyd George announces in Commons President Harding's call to peace.

U. S. ship "Western Front" is abandoned blaze off Lands End.

De Valera will see Premier Lloyd George in London on Thursday.

# LAUDS HARDING FOR PART TAKEN IN NAVAL PLANS

## World Awaited America's Lead Says Lloyd George

### GREAT CHEERING OVER MESSAGE

#### Far East Problems to be Considered by the Same Conference.

London, July 11.—President Harding's message looking to the calling of an international conference on the limitation of armaments has been received with the utmost pleasure by Great Britain, Mr. Lloyd George declared in the House of Commons today.

Speaking on the subject of the U. S. communication, the premier said: "I need not say that we welcome with the utmost pleasure President Harding's wise and courageous initiative."

The House cheered this statement and the premier added: "In saying that, I speak for the Empire as a whole."

The premier said China would be invited to the conference on Pacific affairs.

#### Waited for America

The premier continued: "The world has been looking to the United States for such a lead. I am confident that the House will esteem it as an act of far seeing statesmanship and will wholeheartedly wish it success. No effort will be lacking to make it so on the part of the British Empire, which shares to the full the liberal and progressive spirit inspiring it."

Colonel George Harvey, the U. S. ambassador, was in the gallery of the House to hear the premier's statement.

Mr. Lloyd George began his statement by referring to the Anglo-Japanese treaty. He said the Japanese government took the view that no notice of denunciation of the treaty had been given, and that this view was also held by Lord Curzon, the foreign minister.

The matter was referred to the Lord Chancellor, the premier declared, who after a consultation with the law officers of the Crown held that no notice had yet been given and that the treaty therefore remained in force.

It was, however, Mr. Lloyd George said, the desire of both parties that the agreement be brought into complete harmony with the covenant of the League of Nations.

#### Far East Policy

"The broad lines of the Imperial policy in the Pacific and the Far East was the very first subject to which we addressed ourselves, having special regard to the Anglo-Japanese agreement, the future of China and the relations of both these questions on the bearing of the British Empire with the United States. We were guided in our deliberations by three main considerations."

Continued on Page 2

# BRITISH SHIP MAY HAVE MET OCEAN PIRATE

## "Croxeth Hall" Encountered Strange Vessel 750 Miles Southeast of Halifax.

### RUNNING WITHOUT REGULATION LIGHTS

#### Steamed Completely Around British Freighter and Refused to Talk.

New York, July 11.—An unknown ship, which was violating international maritime regulations by running without proper lights and which refused to respond to signals asking her identity, was sighted last week 750 miles southeasterly from Halifax by the British steamship Croxeth Hall, which arrived today from Hull and Antwerp.

According to a report made by Captain Spencer of the Croxeth Hall, Sanderson & Sons, agents, the ship apparently a small freighter, was first observed ahead of him, showing a stern light. The Croxeth Hall caught up with the vessel, which suddenly swerved in her course and then came right at the British vessel. The stranger passed astern, went around and came up again on the opposite side.

#### All Lights Out

The red and green running lights indicating the port and starboard sides of the ship were not lighted, Captain Spencer said, and as soon as the Croxeth Hall came up the single stern light disappeared, repeated efforts to signal the vessel by flash light code and by wireless brought no answer. The vessel, after running with the Croxeth Hall a short time turned away and disappeared.

When the stranger was sighted the weather was rough, but not so thick that the vessel could not be seen clearly by the British captain. His first thought was it might be one of the sea patrol ships, but failure to answer signals and absence of regulation lights disproved this theory.

Agents of the line, while admitting they were puzzled at the unusual occasion, said they did not connect it with recent unverified reports that a mystery ship with piratical intent was operating off the Atlantic coast.

# O'CALLAGHAN IS BACK IN CORK

## Left America Quietly and Succeeded in Making His Way Back to Ireland.

London, July 11.—Donal O'Callaghan, Lord Mayor of Cork, is reported in the Central News to have arrived in Cork today from the United States. Council for Donal O'Callaghan in the United States announced on June 18 that the Lord Mayor had arrived safely in Ireland. Immigration officials at Washington declared that he was a member of the ship's crew and that he had no official knowledge of his departure.

In the belief of Assistant Secretary Hanning he did not leave in "a regular manner."

O'Callaghan came to the United States early in January as a stowaway, and under a ruling of the department of labor had until June 5 to ship as a seaman for the return voyage.

# Crops of Nova Scotia Need Rain

## Late Showers Have Done Much Good But More Are Required at Once.

Halifax, N. S., July 11.—Crops in Nova Scotia are badly in need of rain. The hay crop is very light throughout most of the province and although roots promise fairly well, prospects would be improved by a reasonable rainfall. The fruit crop of the Annapolis Valley, Nova Scotia's richest farming district, is especially suffering from the drought which has already accounted for the loss of thousands of dollars worth of strawberries, and threatens to reduce the apple crop by thirty per cent.

In Prince Edward Island, Charlottetown, P. E. I., July 11.—Grain and potato crops in Prince Edward Island are promising. Hay generally is short on account of lack of rain. Fruit prospects are average.

# Naval Reservists Demand Money

## March to Newfoundland Parliament Buildings to Ask for Prize Cash.

St. Johns, Nfld., July 11.—A body of naval reservists who served with the British fleet during the war, marched to the Parliament House today and at the bar of the assembly demanded payment of prize money which they said was due them. The government contends that the equivalent of the amount asked has already been paid.

# BRITAIN SUFFERING FROM DRY SPELL

London, July 11.—The great heat continues and Great Britain is suffering from the prolonged drought. There has been practically no rain in the South of England for two months and the highest temperatures for the past forty years have been recorded for the months of June and July. Extensive heat fires are reported from all over the country and thousands of acres have been consumed. There is a water famine in many districts and supplies are being carted from great distances.

# FREIGHT VESSEL ABLAZE; CREW IS LANDED SAFELY

## Fire Followed An Explosion When Off the Scilly Islands, Lands End.

### SEVERAL SEAMEN REPORTED INJURED

#### Early Reports Suggest That One Man is Missing and Probably Killed.

London, July 11.—The United States steamer Western Front, of Seattle, Wash., which left Jacksonville on June 22 for London and Hamburg, is afire six miles south of the Scilly Islands, near Lands End, England. Fire then broke out, says the report, and was not checked. One member of the crew is missing and several were injured. Later advices say the members of the Western Front's crew were taken off by the British Earl which transferred to a life boat from St. Mary's and landed on that island.

An explosion occurred in the hold of the Western Front when the vessel was about ten miles south of the Scilly Islands, near Lands End, England. Fire then broke out, says the report, and was not checked. One member of the crew is missing and several were injured. Later advices say the members of the Western Front's crew were taken off by the British Earl which transferred to a life boat from St. Mary's and landed on that island.

Later on Lord Curzon conferred with the Japanese Ambassador, the afternoon after the British Prime Minister made his statement to the House of Commons at the conference of premiers went into session.

#### Press Supports Harding

The British press is unanimous in stating that the step taken by President Harding was made possible only by the conference of premiers. It laid the foundation for what had been done, and the United States president did not make his offer, and quite properly, until he was certain a triumph of the conference idea marks the complete vindication of his stand. As well as of the Mother Country, belief in this step should be uniform, they had little faith in the possibility of its being brought about.

# BIG ROBBERIES IN U. S. CITIES

## Bandit Gang Got \$16,000 in New York and \$5,000 in Schenectady, N. Y.

New York, July 11.—Five robbers today held up the cashier and assistant cashier of the Horton Ice Cream Company outside the company's office on East Twenty-fourth street and escaped in an automobile with \$16,000 cash. The employees were starting for a bank with the money in a satchel.

Schenectady, N. Y., July 11.—Two armed men entered the jewelry store of Charis Grupper in State street this afternoon, held up Grupper, who was alone in the store, and escaped with diamonds and jewelry valued at \$5,000.

#### Got About \$5,000

# Harding Abandons Journey To Alaska

## Washington Officials to Spend Busy Summer at Their Desks.

Washington, July 11.—The United States government has decided to remain in Washington this summer. President Harding, it was learned today, has not given up hope of going to Alaska, a trip which he planned to make if Congress adjourned.

A poll of the cabinet today showed that all of the members have made plans to stay here during the summer. Secretary Hughes already has taken summer home here. Secretary Mellon may do so. Postmaster General Hays will make week-end trips to Indiana, and Attorney-General Daugherty to Ohio, when they can.

Secretary of Commerce Hoover won't try to get away. Secretary Fall may go on an irrigation and reclamation trip through the west, but it will be a hurried one.

The Senate today was on record against a recess.

The decision of the government to stay here caused a number of foreign diplomats to cancel options on summer homes and reservations at summer hotels. It is customary for a diplomat to stay close to the government to which he is accredited.

# CADETS UNDER CANVAS

Sydney, N. S., July 11.—Four hundred cadets from the Sydney district will go under canvas here tomorrow for the annual week's military training. Colonel Alderson, of the Staff, will command the camp and a party of thirty N. C. O.'s and instructors from Halifax are already on the ground waiting for the various groups to arrive.

# STATES' PEACE CALL BIGGEST NEWS IN YEARS

## Wild Scenes of Joy, Equalled Only at Armistice, When Announcement Made.

### MEIGHEN CONFERS AT DOWNING STREET

#### Entire British Press Strongly Supporting Message from President Harding.

By GRATTAN O'LEARY (Canadian Press Staff Correspondent)

London, July 11.—The world is on the eve of one of the most epochal events in history. This is the universal verdict of the newspapers and statesmen here following President Harding's offer and the British Government's acceptance, in connection with the holding of a conference for the discussion of disarmament and Pacific problems.

The scene in the House of Commons this afternoon when Premier Lloyd George announced Great Britain's hearty acquiescence in the proposal was a memorable one.

#### Epoch Making Speech

The British Premier spoke to a hushed and crowded chamber and when he declared that the government welcomed such a move and would do its utmost to make it a success, there was a crash of cheering from all quarters, which, in the opinion of old journalists in the press gallery, has never been equaled since the announcement of the armistice with Germany.

Mr. Lloyd George spoke with an earnestness worthy of the momentous subject with which he had to deal and the emphasis which he placed upon his declaration that if the conference failed it would not be because the British Empire withdrew its support, left no doubt in the minds of the members of the House as to the government's sincerity.

#### Meighen With Premier

Downing Street and the Foreign office pulsated with activity throughout the day. Premier Meighen, who as the representative of Canada and the strongest advocate in the Congress of Empire Premiers of the step which has been taken, has come to be regarded here as almost an interpreter of New World sentiment. He had a lengthy conference with Premier Lloyd George in the morning. Lord Curzon the British Foreign Secretary being present.

Later on Lord Curzon conferred with the Japanese Ambassador, the afternoon after the British Prime Minister made his statement to the House of Commons at the conference of premiers went into session.

#### Press Supports Harding

The British press is unanimous in stating that the step taken by President Harding was made possible only by the conference of premiers. It laid the foundation for what had been done, and the United States president did not make his offer, and quite properly, until he was certain a triumph of the conference idea marks the complete vindication of his stand. As well as of the Mother Country, belief in this step should be uniform, they had little faith in the possibility of its being brought about.

# Cloudburst Nearly Hit Three Towns

## Gloversville, N. Y., Centre of Terrific Storm of Lightning and Rain.

Gloversville, N. Y., July 11.—The villages of Wells, Speculator and Lake Pleasant in Hamilton County, were threatened by a cloudburst this morning and in many instances residents of that locality were compelled to flee to safety. Communications with that section of the Adirondacks is impossible.

Bridges were destroyed roads washed out and drivers of automobiles were forced to leave their machines in the roadway and flee before the rising torrent.

Megre reports of the storm were received in this city late this afternoon but because of the condition of the telephones and telegraph lines in the vicinity of the three villages, it is impossible to learn the extent of the damage.

# TODAY

IMPERIAL—Elsie Ferguson in "Lady Rose's Daughter."

OPERA HOUSE—Jack Root Musical Comedy Co.

QUEEN SQUARE—Conway Tearle in "Marooned Hearts."

STAR—"Rogues and Romance," Pathe Special and "Phantom Foot."

# A PAGE OF NEWS ABOUT THE MARITIME

## PRACTICAL JOKE LANDS AMERICAN IN PARIS CELL

Starts Telephone Cable Bobbin Rolling Down Steep Montmartre Hill.

## CRASHES THROUGH DOOR OF RESTAURANT

Diners Escape Without Injury But Waiter Has Leg Badly Hurt by Bobbin.

Paris, July 11.—Signorine Thayer, 34 years old, widow of Mrs. Van Rensselaer Thayer of New York, and holder of university honors in both the United States and England, is in the hands of the police as a result of the climax last night of what was intended to be a practical joke while he was with some friends in Montmartre.

After spending the night in a cell, Thayer was released today provisionally, pending the outcome of the injuries sustained by a cafe waiter who was an innocent bystander when Thayer started a half ton telephone bobbin rolling down the Rue des Trois Freres.

Out To See Sights.

Thayer has been stopping at the Hotel Burgundy for several months, and has engaged more or less in journalistic work in Paris for the last two years. Ordinarily a serious youth, he accepted an invitation from friends to investigate the mysteries and beauties of the Montmartre district. When the party reached the Rue des Trois Freres Thayer noticed an innocent bobbin at the top of the incline.

The young man's pent up spirit sought an outlet, and his companions stood by laughing. Thayer was said to have kicked away a stone which held the bobbin in place, and with a mighty effort started it careening down the hill. Two hundred meters down was a cafe with crowds of patrons sitting drinking on the terrace. They scattered in all directions before the huge wooden bobbin crashed into the entrance smashing the plate glass windows and splintering the tables and chairs.

One lone waiter was floored and one of his legs so badly crushed that he had to have hospital treatment. Thayer, taken to the Montmartre police station, was made to furnish a sufficient explanation for his act.

Taken To Prison.

He was forwarded to the Central Prison, while his "previous record" was investigated. Meanwhile the injured waiter had been ordered to take a complete rest with medical treatment for a fortnight, at the end of which time Thayer will be made to undergo a trial that the Montmartre police will not stand for.

When the police sought Thayer's companions they had disappeared, but the bobbin today was still where it stopped at the cafe entrance.

## Teachers Galore To Replace All

Fredericton Starts to Fill Vacancies Caused by the Wholesale Resignation.

Fredericton, N. B., July 11.—One of the vacant positions on the teaching staff of the Fredericton High School has been filled, Miss Gladys Gregory of this city, having been appointed instructor in English.

The position is not one of those involved in the strike of members of the staff who tendered their resignations when the board of trustees failed to meet the schedule of salaries presented by the New Brunswick Teachers' Association for 1921-22.

The appointment is significant, however, inasmuch as the salary which Miss Gregory has accepted is less than that prescribed by the Teachers' Association schedule. Miss Gregory is an honor graduate of the U. N. B., holds a grammar school teachers' license and has been teaching at Chareholm, Sack.

The special meeting of the board of trustees to deal with the appointments to the balance of the positions on the high school staff is to be held tomorrow afternoon. R. D. Hanson, secretary of the board said at noon today that they were applications from more than enough teachers to fill all the positions on the staff of the high school. Most of the teachers who resigned have applied for reappointment, he said, and several male teachers were included among the new applicants.

## Fredericton Priest Scores Girl Bathers

Thinks They Should Wear More Clothing Going to the River.

Fredericton, N. B., July 11.—At St. Dunstan's Roman Catholic church here yesterday morning Very Rev. Dean Carney made reference to "the disgraceful practice of young women walking through the streets of the city with hardly any clothing on."

He said he was in favor of bathing as a healthy pastime, but he thought the young women, he did not know whether they were of his congregation or not, should clothe themselves properly going to and from the beach. He said he was driving in his car in the vicinity of the beach the other day and he "had to put his arms across his eyes to keep out the disgraceful sight of half naked young women coming from the beach."

## Retaining Walls Are Bone of Contention

Much Talk But Very Little Business Transacted at City Council Meeting Yesterday

Retaining walls were a very live subject at the City Council committee held yesterday morning and a number of resolutions were introduced. One of these resolutions, which was introduced this afternoon, but whether they will be built or not is a question, as there is not a unanimous vote on any of them and all are bone issues. Some opposition was made on the ground that the resolution did not say whether the work was to be done by contract or day's work, and also on the ground that sidewalks were included. Permission was granted the C. P. R. to raise the level of the diamond crossing at the western end of Douglas avenue, and petition from some of the residents of Murray street to have it graded up to Main street was received.

A letter from the secretary of the League Post Fund, asking the City Council to endorse the movement to have the government set aside a National Decoration Day in memory of those who died in the great war and to pay the sum of \$100 to the next of kin of all veterans who died in indigent circumstances, whether pensioners or not, was referred to the Mayor for a report.

Want Murray Street Graded.

A petition signed by 53 residents of Murray street, asking that the city grade that street up to Main street instead of renewing the steps, was referred to the Commissioner of Public Works.

Commissioner Bullock reported that the Purney, Withy Co. objected to the clause in their agreement calling for the company making good any loss if less than fifteen stamper loaded potatoes in any one year and moved this clause be stricken from the agreement and a provision for the cancelling of the agreement substituted.—Lost.

Mayor Schofield reported that the term of G. Herbert Green as a member of the Board of School Trustees had expired on June 30 and suggested that a member of the Common Council be appointed.

Commissioner Prink presented a request from the C. P. R. for permission to raise the diamond crossing at the end of Douglas avenue and permission to do so was granted, subject to the approval of the road engineer and the city solicitor.

Retaining Walls Planned.

Commissioner Prink moved that the

## GRAIN INJUNCTION STANDS

Winnipeg, July 11.—Mr. G. C. Curran in judgment handed down this morning, dealing with the Royal Grain Inquiry injunction restricted any further action of the commission and makes the injunction permanent. No opinion was passed as to the validity of the Canada Grain Act.

## Altered Epigrams.

Listen in haste; repent at leisure.

Following retaining walls be built and paid for by bond issue: Moore street, estimated cost, \$2,850; Burpee avenue, \$2,735; Duke street, west, \$760; King street, west, \$175. They were recommended to council by majority vote, but may be defeated when the time comes for unanimous vote. Commissioner Thornton objected to some because of lack of information as to whether they would be done by days' work or contract, and to others because the sidewalk was included in the bond.

Commissioner Prink asked if any progress had been made in the matter of additional paving from the head of North Wharf to the corner of Dock, 350 cubic yards, to complete the job now being done on the north Wharf and, said he would bring in a resolution at today's Council meeting.

## Searching For Buried Treasure

Special To The Standard.

Smithtown, N. B., July 11.—A search for buried treasure which has no existence has been brought to light by recent happenings around here. Some years ago a son of Andrew Belyea of French Village carved on a stone in the middle of the road, a cross, and other marks. Just lately a story has been going the rounds that the markings were done by the French before they left the country and was intended to mark the resting place of their gold and other treasure.

One night last week Mr. Belyea passed over the road and the stone was there. In the morning he was being perfectly safe until some one came to their assistance, or until the craft drifted into shallow water, the young ladies, who knew they couldn't swim, struck out for shore. Three of them, finding bottom on a sandbar, got ashore, and Miss Mildred sank in deep water. She was a lovely girl, 17 years old. The body was recovered.

## Girl Is Drowned In Nappan River

Slipped Off Flat Bottomed Boat and Sank Into Deep Water Before Help Came.

Chatham, N. B., July 11.—Miss Mildred, daughter of Mr. John M. Gillis, was drowned in Nappan river Friday evening. She and her sister, and two daughters of Mr. Charles Brommer, crossed the river in a flat bottomed boat and went in bathing, first upsetting the boat for convenience in climbing up the bank. They started to recross the river upon the upturned boat, but got nervous when in deep water, lost their balance, tipped the boat, and all fell into the water. Instead of taking hold of the boat, they were perfectly safe until some one came to their assistance, or until the craft drifted into shallow water, the young ladies, who knew they couldn't swim, struck out for shore. Three of them, finding bottom on a sandbar, got ashore, and Miss Mildred sank in deep water. She was a lovely girl, 17 years old. The body was recovered.

## Bush Fire Was Set Deliberately

Fredericton, N. B., July 11.—One case in which a bush fire is reported to have been deliberately set was reported to the department of lands and mines from Northumberland county today.

Chief Forester G. H. Prince at once started an investigation as to the correctness of the report and propositions are promised if the necessary evidence can be obtained. An investigation is also under way as to reports that a forest fire at McLeod Brook in the Salmon River district of Queens County, which is now the most serious of those in the province, was the result of carelessness of fishermen, including some Fredericton people.

## CHARLES SMITH DEAD

Chatham, July 11.—The death of Charles Smith occurred at his residence here on Sunday morning after an illness of two years. He was fifty-one years of age, and is survived by a widow, four sons and six daughters. Thomas, of Cambridge, Mass.; Charles, John and Harold, of Chatham; Mrs. Roy Richards, Toronto; Miss Hazel Smith, Harding, Mass.; Miss Mona Helen and Viola at home. The funeral will be held tomorrow morning at St. Michael's Cathedral.

ESPERANTO DOWN AGAIN.

Halifax, N. S., July 11.—A message received this morning from Sable Island by the Marine and Fisheries Department, stated that the schooner Esperanto which had been raised to the surface last week by the wrecking crew attempting to salvage her, is again completely submerged.

## Editor Is Dead

Halifax, N. S., July 11.—W. R. McCurdy, formerly news editor of the Halifax Herald, and later editor of the Sunday Leader, died at his home here today. Mr. McCurdy has been in poor health for some time, but only recently retired from active journalistic work. He was 65 years old.

## AMHERST ATHLETICS.

Amherst, N. S., July 11.—Work will be commenced on the athletic field tomorrow morning. Five double teams, with drivers and twenty men, will be employed in the grading, and later six or seven men will be required for the construction work on the fence, gates, bleachers etc. According to the informal estimates made at a special meeting of the Town Council the work should be completed within a month. If this is the case, the Amherst Amateur Athletic Association will prepare for a grand opening on Labor Day.

## BEAR AT SACKVILLE.

Sackville, N. B., July 11.—There is said to be a large bear wandering around on the plain road between Wood Point and Rockport. One DeLinton Day more than one Sackville person saw his bearship as he walked out upon the highway. He did not seem to be in any great hurry to get out of the way, and the bear was quite close to him before he took to the woods. After the car had passed the bear came out on the road again.

## Miramichi Ladies Had Successful Year

Presbyterian Hears Encouraging Reports—Much Work Accomplished in Past Year.

Special To The Standard.

Chatham, N. B., July 11.—The recent meeting of the Miramichi Presbyterian was one of the largest and best ever held here and the reports submitted showed that the year had been a prosperous one in all branches of the work. Inspiring addresses were given by Mrs. L. H. McLean, Rev. J. M. McLean, Rev. G. S. Gardner and Rev. H. H. Morton.

Resolutions appreciative of recent temperance legislation, the work of the Orange Order in securing the decision of the Privy Council on the marriage question were passed.

The statistical report showed the membership at 939, a gain of 62; new auxiliaries, 5; receipts of \$5,986 for all purposes and an increase of over 10 per cent in the regular missionary contributions.

The new officers are:—  
President, Mrs. L. H. McLean.  
Secretary, Mrs. Osburn Nicholson.  
Treasurer, Miss A. B. Cameron.  
Vice presidents: Mrs. Hugh Miller, Mrs. A. D. Archibald, Mrs. J. H. A. Anderson and Mrs. A. B. Carson.

## Swears He Told Story For Joke

But Grand Downs Man is Held on Charge of Burning Houses and Barns.

Special To The Standard.

Chatham, N. B., July 11.—Two houses and two barns were burned at Grand Downs the other night, and Sylvia Gotro boasted to Fathers George and Saindon that he did it. He had been unjustly accused of burning a house, he said, and thought he might have the same as well as the same. When arraigned in the Chatham police court he denied that he had burned the buildings and claimed that he had told the priests just for fun that he had done so. John Ramsay was examined and swore that Gotro threatened to burn houses if he was not used right. Other witnesses failed to appear. The case is postponed.

## LOG DRIVING ENDING.

Fredericton, N. B., July 11.—The St. John River Log Driving Company is drawing near the close of its operations on the river for this season. The extreme low water is hindering the sorting and rafting crews at the booms. The total of lumber which will pass through the booms in 1921 is about fifteen million feet. In other years the average has been about fifty million feet. Lumber operators expect next season to be slack also, with curtailed cut.

It is doubtful if the water in the St. John river has ever been lower than now. A clean up will be made as rapidly as conditions will be permitted when operations will be transferred to the Mitchell Boom at Lincoln, where there is a small quantity of lumber to be rafted, making the final clean-up.

## HELD UP OCEAN LIMITED.

Moncton, N. B., July 11.—Freight train No. 875 was derailed near Mont Joli, Quebec, about 7:25 o'clock on Saturday morning. The accident, it is reported, being the result of a burned journal on a freight car. About seven cars left the rails, the locomotive remaining on the track. It is reported that no one was injured, but there was considerable damage to rolling stock.

The Ocean Limited, east-bound, due in Moncton at 4:30 o'clock on Saturday, did not arrive until about midnight, having been delayed by the accident.

## FIRES IN GASPE.

Quebec, July 11.—Forest fires are raging around Gaspe and have now reached within 11 miles of that town, which is said to be threatened unless there is a rainfall. Fortunately there is no wind blowing. Five hundred men are working day and night to extinguish the blaze. The losses are said to be enormous.

## Mill Is Burned

Fredericton, N. B., July 11.—Reports have been received here that a portable mill owned and operated by Lynch and Fournier, near St. Quentin on the international railway division of the C. N. B., was destroyed by fire during the week-end. The fire originated in the mill yard or about the mill and the department of lands and mines have been advised that the flames were put out without spreading to the forests.

## Schools Open On September Sixth

### Tenders for New School Building on Newman Street Open Today.

Tuesday, September 6th, is set as the date of the opening of the city schools for the fall term by the Board of School Trustees at their regular monthly meeting last night. A motion was put and carried that tenders for the proposed new school building on Newman street be opened at a joint meeting of the building and finance committees to be called for that purpose this afternoon; and further, that the meeting be given power to act.

### Mentally Deficient Children

In reply to a communication from the Board of Health regarding some action in regard to the mentally deficient children in the schools, it was decided last night to appoint a committee of three to be appointed to determine the Board of Health's prerogatives and powers in this matter.

A petition signed by twenty citizens requesting that the Centennial playgrounds be closed, was referred to the playgrounds association.

Trustees George E. McGowan, as chairman in the absence of his Honor Chief Justice McKewen, recently appointed chairman of the board in succession to Dr. A. F. Leary. Last night was the first regular meeting of the board since his appointment.

The other members of the board present last night were: Trustees Michael C. Allen, A. McVicker, Thomas Nagle, E. R. W. Ingraham, Dr. H. S. Bridges, H. Coby Smith, F. P. D. Lewis and G. Herbert Green.

Applications for appointments to the teaching staff received from Mrs. Brooks of St. John, and Della Kirkus, of Fredericton, were referred to the teachers' committee.

Applications from Mr. Evans in regard to the painting of the flag poles and fire-escapes of the west side schools, and an application from W. J. McCullum for a position as janitor were referred to the buildings committee.

### Board of Health's Resolution

A copy of a resolution passed by the Board of Health was submitted to the board. It was decided to refer the matter to the Board of School Trustees more fully consider the matter of securing quarters for the teaching of mentally deficient children, and to report thereon to the board at a future meeting.

Dr. Bridges stated that he, in company with Dr. Emory, had spent all day yesterday with the medical officer of schools as being mentally deficient.

Of the twelve cases reported, there was only one in which they considered required special training. They did not consider any of the others feeble-minded. Some of them were referred to the Board of Health.

Trustee Lewin thought the school's medical officer should be official to determine whether students were, or were not, mentally deficient. He thought the board should investigate its responsibility under the Health Act, and not the individual pupils.

### Doctors' Opinions Differ

Trustee Nagle thought it was the board's duty as human beings to protect the children placed under their care during the summer months.

The closing of a child as mentally deficient would be hotly resented by any parent, especially when the child found mentally deficient by the school's medical officer.

Trustee Lewin moved that the Board of Health's communication be referred to a special committee of three to determine the prerogatives and powers in regard to mentally deficient children in the schools, and that the committee report back to the board.

The superintendent and trustee Lewin were appointed members of the committee.

### Close Centennial Playgrounds

A communication signed by twenty citizens residing in the vicinity of the Centennial playgrounds was received, praying that the board close the playgrounds for the summer months, on the grounds that the grounds were not suited to the purpose and were a nuisance to the residents of that vicinity, and the cause of considerable destruction of property for which adequate compensation could not be recovered.

Trustee Day took exception to the statement that the playgrounds association was responsible for the destruction of property. He was sure that some occurred while the association had charge of the grounds, and did not think they should be held accountable for any that might occur at any other time.

Trustee Nagle said that the twenty names signed to the petition did not consist of five per cent. of the residents of the neighborhood.

The playgrounds association considered the grounds suitable for the purpose, and he thought that the petitioners should make their grievances before that body, especially in view of the fact that the school board had given the playgrounds permission to use the grounds during the summer months.

A motion was put and carried that that effect.

Trustee Day reported the receipt of a deed transferring the Newman street property to the board.

Trustee Smith stated that the finance committee had with the \$17,500 from the striking fund, acquired \$20,000 in mortgages and City of St. John bonds. This action was confirmed.

## TORONTO WOMAN TO ATTEND CONVENTION

Miss Mary MacMahon, president of the Toronto Business and Professional Women's Club, has accepted the invitation of the American National Federation of Business and Professional Women's Clubs to attend their annual convention to be held at Cleveland, July 13-23.

So far there is no affiliation of similar Canadian organizations with the American Federation, which includes some 150 individual clubs, in the fall, it is expected that a Canadian Federation will be formed and there is the probability that eventually the Canadian Federation may affiliate with their American cousins.

## HALIFAX PRINCIPAL NOW IN TORONTO

Miss Nutt, principal of the Victoria School of Art, Halifax, is at present in Toronto assisting Arthur Lester, vice-president of the Ontario School of Art, in the summer course for teachers.

Miss Nutt, an English woman, was a fellow student with Mr. Arthur Lester at the Sheffield Art School, and followed him in the principalship of the school. She has given two interesting lectures in St. John before the St. John Art Club.

## PRAYER FOR RAIN USED IN TORONTO

The Bishop of Toronto requested his clergy to use at all services on Sunday last the appointed "Prayer for Rain" in view of the continued heat and its menace to health and to the fruits of the earth.

The following is the context of the prayer referred to: "O God, Heavenly Father, who by Thy Son Jesus Christ hast promised to all them that seek Thy Kingdom, and the righteousness thereof, all things necessary to their bodily sustenance, send us, we beseech Thee, in this our necessity, such moderate rain and showers, that we may receive the fruits of the earth in comfort and to Thy honor, through Jesus Christ our Lord.—Amen."

## Beauvais' Letters Are in Evidence

Millionaire Wins a Point in His Legal Action Against Wife.

Poughkeepsie, N. Y., July 11.—Daniel J. Gleason, referee in the Stollman divorce case, handed down a decision today admitting in evidence two letters offered by the attorneys for Gleason and known as exhibits "B" and "C," alleged to have been written by Fred Beauvais to Mrs. Anne U. Stollman, the defendant.

Exhibit "C" is understood to be the letter in which Beauvais is said to have threatened to kill any one who attempted to make love to Mrs. Stollman, containing the declaration: "I am all yours and Guy's to the end."

The ruling is regarded as an important victory for the plaintiff, since Referee Gleason in an earlier decision had struck out Exhibit "C" with the stipulation that should sufficient additional evidence be introduced, it might later be admitted. It is understood that the present decision admits the letters only insofar as they relate to Mrs. Stollman and her infant son Guy, and excludes references to Beauvais as being father of the child.

John E. Mack, guardian ad litem, for Guy Stollman, returned here from Yonkers, where he attended a conference of Mrs. Stollman's attorneys. He expressed to the court that Mrs. Stollman would not be present at the resumption of hearings before Referee Gleason Wednesday morning. She is at present visiting friends in Chicago.

A man occasionally interferes with the affairs of a woman without getting the worst of it—in books.

The man who leads the truly simple life is usually too busy to waste any time talking about it.

YOU MAY HAVE KIDNEY TROUBLE AND NOT KNOW IT

If your back aches and you suffer from dragging pains, it is an evidence your kidneys may not be acting just right. What you need is a course with Dr. Hamilton's Pills. They contain both Mandrakes and Butterbean and act very beneficially upon the liver and kidneys. "I was bothered a great deal with my kidneys, but got quick relief from Dr. Hamilton's Pills. My trouble manifested itself by pain in the back and by constant headache. I quickly recovered after using a few boxes of Dr. Hamilton's Pills. They brought me health, strength and vigor." Sold everywhere, 25c., or The Catarthosone Co., Montreal.

schools be empowered to have a room in the west side orphanage prepared as a school-room for the children thereof, the room to be ready for the opening of the schools in September.

The motion was carried, but gave authority to consider the proposition. Trustee Lewin thought the board should take action so as to have direct control over all such school-rooms.

Trustees Green and McVicker thought the same policy should obtain in all school-rooms not held in all orphanages in the city.

The Finance committee was given authority to issue debentures to the amount of \$25,000, the sale of same to be advertised on August 1. The meeting then resolved into a teachers' committee.

## REFLECTIONS OF A BACHELOR GIRL

By HELEN ROWLAND (Copyright, 1920, by The Wheeler Syndicate, Inc.)

To a man, the sweetest part of a kiss is looking forward and hoping for it; to a woman, the sweetest part is looking backward and dreaming about it.

Love is like a cold in the head. A man will fight it and deny it to the very last minute, but he feels a thousand times better, when he finally gives up the struggle and frankly succumbs to it.

The surest way in the world to make a man do anything you want him to do, from loving you to leaving you, is to tell him that he OUGHT not to do it, that he MUST not do it, or that he CANNOT do it.

Divorce is becoming so simple and advanced in its methods, that soon it will be merely necessary for a society woman to postcard the Court to send her up two or three on approval.

The world may be getting more sophisticated and cynical, but "the old girl" seems to go as well as ever, whether it is offered to men in the form of stock, or to women in the form of flattery.

Before marriage, it's a woman's "cunning, little baby-ways" that cause her attraction for a man; after marriage, it's her "feeble-minded nonsense" that drives him to distraction.

The shallower a man's love, the more it bubbles over into eloquence; when his emotions go deep, words stick in his throat, and he has to be hailed out of him with a derick.

Nothing makes a small boy so indignant as to be patted on the head and called "a good little fellow," and nothing delights him so much as to be frowned at and called "a wicked little devil." And he doesn't change much when he grows up.

Some women put men on pedestals; other women use them as pedestals to stand on, so that they can attract other men.

## Claim Gallon Can Was Small

Allege It Held Only a Pint and a Half Because of False Bottom.

Fredericton, N. B., July 11.—One of two Moncton men who are alleged to have sold to the foreigners at the Miramichi mines containers with bottoms that were supposed to hold a gallon of alcohol but which in reality contained not more than a pint and a half of alcohol, has been arrested and his comrades in the enterprise is expected to be picked up at almost any hour.

The man already arrested is Fred. Dolands, of Moncton, and his partner is said to be from the same place. Prohibition inspector Fraser Saunders arrested Dolands at Moncton and brought him to Miramichi, where he left a deposit of \$200 for his appearance in court next Friday. The inspector returned here this morning and reported to Chief Inspector Hawthorne that the second man would probably soon be caught.

## WORDS.

Of all the words I ever see, This is the worst Of all to me:

Of all the words I ever hear, These are the best That hit my ear:

Of all the words I ever see, These are the two DINNER'S READY.

Of all the words That hit my eyes, These are the two PLEASE REMIT.

No. Henrietta, the porter on a sleeping car isn't called a quartermaster, yet he is.

Mostly Guff.

Early to bed and early to rise, May make a man healthy, wealthy and wise;

The milkman, the cop, the farmhand so rough, Are all good examples of this sort of guff.

—Pats and Knocks.

The early bird may catch the worm. But this will never make us squirm Out of our bed at break of day For what's a still man worth, anyway

## Fine English Story At The Imperial

"Lady Rose's Daughter" With Elsie Ferguson Creates Splendid Impression.

Elsie Ferguson's latest appealing Paramount picture, "Lady Rose's Daughter" which is being shown at the Imperial theatre again today, is a superb production of Mrs. Humphrey Ward's celebrated novel of the same name which scored a world success several years ago.

The story, which is regarded as one of the best ever written by Mrs. Ward, was first published as a serial in Harper's magazine and later it appeared in book form. It was dramatized by George Fleming and produced in London. Under the management of Charles Frohman, "Lady Rose's Daughter" was presented with enormous success at the Empire Theatre in New York, with Fay Davis in the title role.

The heroine of the story is Julia Le Breton, an orphan girl who is born out of wedlock. Her misfortune is concealed from her father and she grows up in a comfortable home, but she is very much in earnest over their work. The Central Committee in every case are allowing the local education authority to run the scheme in their own district, and consequently, the West Ham Education Department are looking after the first centre.

Taking To Service.

There are 90 girls at the centre; their original employments have varied from caramel wrapping, fruit-canning, tin-box making, and chocolate packing to the rougher branches of domestic service, such as kitchen and bar work. There is no compulsion on any girl to enter domestic service after the course, which lasts six weeks, but already about two-thirds of the girls have made it quite clear that they will go into service. They have taken to it kindly. There is a flat where the warden and his wife live when at the settlement, and as they are now on holiday the girls are spring cleaning the flat, and are gaining a good practical idea of what spring cleaning should be like. The slush-pans are the chief fault of the untrained maid, and she rarely knows how to lay a table.

Every day one of the girls is told off to find the necessary knives and forks and lay a breakfast, luncheon, or dinner table for a different number of persons. Some quaint ideas in the disposal of cutlery result, and the other girls say how they think it should be done. It is apparent that many girls would have already taken up domestic work had they not a certain fear of having to do these very things in other people's houses, and having to look after an invalid, for the nurse who is teaching them infant welfare and first aid has given a satisfactory demonstration in the changing of an invalid's sheets and other sick room details, one of the girls playing the invalid.

## Little New Steel Business In Sight

Even Price Cutting Fails to Bring New Orders Says Empire Steel Chief.

Sydney, N. S., July 11.—"Even with price being slashed as they are, I do not see how to indicate any great amount of new business," declared D. H. MacDougall, vice president of the British Empire Steel Corporation, when he was asked today whether the drastic cuts in the price of the steel product announced by the United States Steel Corporation would be met by the Canadian companies. Mr. MacDougall intimated that the Canadians would have to follow suit in price cutting, but said that even so he did not look for any immediate response in the way of a rush of new business.

## To Train Women For Domestic Service Break Occurred In The Union Ranks

6,000 Will Study Homecraft at English School—90 at Centre Now.

The first centre for training women in homecraft, which was opened at the Lees Hall, Canning Town, a month ago under the Central Committee on Women's Training and Employment, was open for inspection, when Miss Baker executive officer to the committee, visited the centre. In order to inaugurate the training the Central Committee gave £100,000, and this was added £50,000 surplus from the Ministry of Labor training scheme.

It is expected that about 6,000 women of ages from 13 to 25, will be trained in the elements of domestic work in various parts of the Kingdom, chiefly in districts where there is a scarcity of factory work—where unemployment is acute. The girls are carefully chosen, and judging by those seen at Lees Hall they are the right type of girl (mostly about 20 years of age) for domestic service personally neat and tidy and very much in earnest over their work.

The Central Committee in every case are allowing the local education authority to run the scheme in their own district, and consequently, the West Ham Education Department are looking after the first centre.

Manager Congratulated.

Mr. Thomson has received encouraging communications from outside centres, regarding his stand in the dispute. Bodell & Company, Providence, R. I., who operated five street railways in the United States, wrote that "the stand the company is taking for better and more loyal employees is right and bound to succeed. Similar outbreaks occurred in our services, and in every case the trouble was settled in favor of the company and resulted in much better service to the public."

He also calls attention to the fact that the N. B. Power Co. is not the only company operating a street railway that has refused to be a party to a conciliation board asked by employees to hear disputed points. The Toronto and York Company has taken the same position as that taken by the N. B. Power Company, and has decided to run its own business.

## Accepted Reduction.

He informs The Standard that the Cape Breton Electric Company reduced the wages of its employees to a scale ranging from 37 to 40 cents. The men, he said, took the reduction in good spirit and without opposition.

Manager Thomson hands to The Standard a card received by him Saturday which reads as follows: "A Sample of Union Consistency. The parade Friday evening was headed by a non union band while the services of a union band could have been procured. Why—Union wages were too high for the motorman."

## Didn't Succeed.

The local members of the Legislative Assembly were in conference with Manager Thomson yesterday afternoon. They were endeavoring to settle the dispute between the company and men, but only met with the same success that has fallen to those emmisaries who preceded them in a laudable undertaking.

Twenty-five men were at work yesterday on Douglas avenue in laying rails.

## Plain Cooking Taught.

Plain cooking, such as of a dinner consisting of a joint and two vegetables and sweet, is taught, and also laundering ordinary small things that are washed at home in small households. Sewing is an important item of the girls' day's work, and they have already made themselves pint dresses for the morning and caps and aprons. That they may tread lightly they are having a certain amount of physical drill, which should be also to their physical advantage. In about two months' time these girls will be ready to go into service; already there are a dozen applications for their services, and Miss Ware, or Miss Hicks, who is in charge of the centre, will put the girls in touch with suitable vacancies.

## Portlands Won From Carleton

Nine Innings of Fast Ball Played in West End League—Score Seven to Six.

After having the game all their own way throughout the first five innings, Portlands tossed out of the game with one run ahead of Carleton in the West End League game played last night. The final score being seven to six. The fielding of Johnson and the hitting of F. Bourke and of Mitchell were features of the game that took the eyes of the large crowd of over a thousand spectators in attendance. The full innings were played.

## Very Fine Tennis Played At Toronto

Canadian Championships Was Full of Thrills—Crack New Yorker Beat Englishman.

Toronto, July 11.—In perfect weather today, a large and enthusiastic crowd came to witness the Canadian championships. Phil Kelly, of Toronto, won a terrific match from A. M. Milne, of Montreal, in the final of the men's singles, 6-4, 6-4, 6-4. Kelly's play was a combination of good spirit and without opposition.

Manager Thomson hands to The Standard a card received by him Saturday which reads as follows: "A Sample of Union Consistency. The parade Friday evening was headed by a non union band while the services of a union band could have been procured. Why—Union wages were too high for the motorman."

## Carpentier Will Defend His Title

### Signs With Tex Rickard to Fight for Light Heavy-weight Championship.

New York, July 11.—George Carpentier today signed a contract with Tex Rickard to defend his world's light heavy-weight championship during October. His opponent will be selected later, the agreement reading that the French boxer shall meet any light heavy-weight contender either in the Jersey City arena, where Carpentier lost to Jack Dempsey, or in Madison Square Garden, this city. While the selection of an opponent will not be made until late, it was thought that the choice lies between Garry Greb and Tom Gibbons. The second week of October is tentatively named as the date which probably will be staged at Columbus Day, October 12.

Plans were completed today for the sailing of the Carpentier party on the steamer La Savoie for France on Thursday. Manager Francois Descaumet, Pierre Mallet and Henri Marcot, camp chef and sparring partner, will accompany Carpentier. A stay of from two to three weeks will be made at the home of the French pugilist and then the party will return to the United States to prepare for the October bout.

Carpentier's hand, which he injured in the Dempsey encounter, is still swollen and painful, but he expects it to heal within the next six weeks. He says it will not prove a handicap in future ring contests.

## Ready To Start Woodstock Races

### New Race—A 2.14 Trot—Is Added to the Card for Thursday.

Special to The Standard  
Woodstock, July 11.—Everything is set for the big three days' meet this week. Over 100 horses are already stabled on the island and more are yet to come. The management have added another class to Thursday's programme, a 2.14 trot with nine or ten starters. This promises to be one of the best races of the meet. Every trot in every class is sure to be closely contested, and this will probably be the best racing of the season. John R. Braden and Gary Earl are both here and they are both pipkins.

A large number of booths are now up and open for business and Woodstock will probably see the largest crowd ever to witness the celebration races.

Jockey Out Again  
Jimmy Boutiller was thrown from his sulky in the first heat in 2.13 pace at Houlton and run over by Delia Patch, but escaped with a slightly injured head. He will be able to drive his horses this week.

Red Hanfraz was also thrown when his horse, Signature, fell. Red broke his arm and will not drive this week or for some weeks to come.

Tomorrow is Orangemen's day with a big parade at noon in New Brunswick and Maine Orangemen from the island park. Three classes, 2.12, 2.20 and 2.30 races. Fireworks at 9 p.m., mandeville and dancing. Wednesday is Citizens' Day. Polynesian and trade parade, three classes, 2.15, 2.30, 2.21. Fireworks at 9 p.m., mandeville and dancing.

Thursday is the State of Maine Day, ball game, free-for-all, 2.13 trot and pace, 2.14 trot. First meeting of Gary Earl of Houlton and John R. Braden of Presque Isle, a matched race for \$1,000 a side and a big purse.

## Hilton Belyea To Championships

### Champion Sculler Will be Sent to Canadian and National Regatta.

A meeting of citizens interested in rowing, and with the principal object of sending champion Hilton Belyea to the Canadian Championships at St. Catharines, July 29 and 30, and also to the National Championships at Buffalo, N. Y., August 5 and 6, assembled in Pythian Castle, Union street last night, and while the attendance was not as large as expected those present were able to conduct a lot of business and make plans for defraying the expenses.

Officers Elected.  
J. C. Chesley was chosen chairman. Walter Goding secretary, J. A. Gregory treasurer, and the executive is composed of Charles Owens, Harry Erwin, Frank White, Wm. McMahon.

After the chairman explained the reason for calling the meeting and told of the wonderful manner in which the St. John sculler won the New England championship a number of speakers made suggestions and the meeting was of the opinion that Hilton Belyea should be sent away well equipped.

It was decided that funds be raised with an objective of three thousand dollars. Harry Belyea, a brother of the champion is to start immediately to build a new shell and the champion will go away with two good boats so that he will have a boat for either smooth or rough water.

Frank White suggested that the city merchants be solicited for funds and it was decided to request the Rotary Club to take charge of this campaign.

Benefit Ball Game.  
Frank White, manager of the Commodore ball team, Thomas McGovern, manager of St. Peter's team, stated that the ball players were only too anxious to play an exhibition game. Wm. McMahon, manager of St. Peter's grounds, offered the use of the ball park, free-of-charge. All will be free and every cent will be donated to the fund.

It was decided to sell tickets for the game and the officials of the Boy Scouts will be asked if a number of scouts can be obtained to sell tickets previous to the game.

It was further decided that this benefit game be played on the evening of Wednesday, July 28, at the Rowing Club building, affiliated with the Canadian Rowing Association.

A New Shell.  
Harry Belyea informed the meeting that he could build a new shell which would be light and was instructed to proceed with the work. A committee was also appointed to look into the matter of transporting the sculler, boats and attendant, along with the boats to St. Catharines and Buffalo.

The drive for funds will commence immediately and the executive will meet this evening at the Royal Hotel to receive reports and further complete the plans.

It is thought that there will be very little trouble in quickly procuring the amount necessary to send St. John's fastest sculler on the trip.

## From Out of West Comes The Winner

### Reynolds of Kansas, Mo., Pilots Winner in Fort Meigs \$3,000 Stakes.

Toledo, July 11.—From out of the west came Jim B., a black gelding, owned by J. B. Reynolds of Kansas City, Mo., making his first start of the season and winning the 2.09 pace, the Fort Meigs \$3,000 stakes, the feature race of the opening day's grand circuit meeting at the Fort Miami track. The Edman entry, Ruth Patch and J. L. Jr., was the favorite among the talent, but Jim B., third choice, had no trouble in winning in straight heats.

The track was fast and the large crowd saw some thrilling finishes. E. Colorado showed the way in the 2.07 trot, the first event on the afternoon's card-winning in straight heats, and making a new record by trotting the second heat in 2.14 1/2.

Four heats were necessary in the 2.13 trot, the Great Miss Morris, Grootown, and Princess Nadena, each winning a heat; but when the heat winners started their mile, Cox piloted his mare out in front and led from wire to wire, making his eighth race on the grand circuit this season.

The Great Rose, a three-year-old filly by Peter the Great, was sold this morning by Stoughton A. Fletcher of the Laurel Hill Farms to Tom Taggart (E. Cox) for \$15,000.

The summaries follow:  
2.07 Trot, 3 Heats—Purse, \$1,200  
E. Colorado, b. h., by Colorado (E. Cox) ..... 1 1 1  
Brooks Worthy, b. h., by Justice Brooks (Murphy) ..... 2 2 2  
Alison Dillon, b. m., by Allegan (Walsworth) ..... 4 3 3  
Wild Wilk, br. g., by Anvil (Geer) ..... 3 5 4  
Edith Carter, ch. m., by Kinroy De Lopes (Childs) ..... 5 4 6  
Tommy Todd, also started.  
Time—2.06, 2.04 1/2, 2.05 1/2.

Fort Meigs Stakes, 2.09 Pace—Purse, \$3,000  
Jim B., blk. g., by Everview (Reynolds) ..... 1 1 1  
Lawyer Swift, blk. h., by Heit at Law (Gray) ..... 2 2 2  
Hing Dan (Cook) ..... 3 3 3  
Strongwood (Geer) ..... 7 5 2  
Charley Sweet, b. g., by Directly Boy (Stokes) ..... 4 3 5  
Ruth Patch, b. m., by Twinkling Star (Dodge) ..... 3 3 3  
Minnie Williams, Queen Oak, Kokomo George and J. L. Jr., also started.  
Time—2.04 1/2, 2.04 1/2, 2.05.

2.13 Trot, Three Heats—Purse, \$1,200  
The Great Miss Morris, ch. m., by Peter the Great (Cox) ..... 1 3 1  
Grootown, br. g., by Baron Native King (Dodge) ..... 2 1 3  
Princess Nadena, b. m., by Justice Brooks (Murphy) ..... 4 5 1  
Alison, b. m., by Bergen (Egan) ..... 3 3 2  
Worthy Etawah, b. h., by Ohawah (McDonald) ..... 4 4 4  
Edna Forbes and Great Excitement also started.  
Time—2.07 1/2, 2.07 1/2, 2.05 1/2, 2.08 1/2.

2.05 Pace, Three Heats—Purse, \$1,200  
Roy Grattan, b. g., by Gust-roy Royal (Murphy) ..... 1 2 4  
King Hedgeswood, b. h., by Hedgeswood Boy (Whitehead) ..... 7 3 3  
Edna Early, blk. m., by The Volvering (Thomas) ..... 3 2 2

Bole Alcantara, Lillian B. and George Yolo also started.  
Time—2.04 1/2, 2.05 1/2, 2.05 1/2.

To Beat 2.11 1/2 Trotting  
Leo Tids, b. g., by Leo Aworothy (Cox) ..... 2.07 1/2

To Beat 2.22 Trotting  
Volante, b. f., by Peter Yolo (Phelan) ..... 2.16 1/2

## Pirates And Saints Play Tie Game

### Sensational Ball Witnessed on East End Grounds—Pitchers' Battle and Good Support.

On the East End grounds last evening the Pirates and St. Peter's played six innings of fast baseball before a large crowd of spectators, who were thrilled time and again by sensational plays. The game from the very outset was a pitcher's battle between King and Kerr, with the latter having a small edge on his opponent.

St. Peter's was the first to score and pushed a run across the plate in the third on an error and two singles. The Pirates, however, tied it up in the fourth on two singles and two passes. The real thrills of the game came in the Pirates half of the sixth when Riley and Miaz pulled off two sensational catches in the field. Riley's was, perhaps, the most thrilling, but Miaz's deprived Cox of what appeared to be a home run. This is the second time in the past few days that these two teams have given the fans an exhibition of gilt-edged ball.

The box score and summary follow:

St. Peter's	AB	R	H	PO	A	E
Dever, c	3	0	1	1	1	1
B. Mooney, 2b	3	0	2	2	0	1
Gibbons, ss	3	0	1	1	0	1
Doherty, lf	3	0	0	1	0	0
McGovern, 3b	3	0	0	0	4	0
Milan, rf	2	0	0	0	3	0
O'Regan, 1b	2	0	0	0	0	0
Riley, cf	2	0	0	2	0	0
King, p	1	1	0	0	1	0
	23	1	4	18	6	1

Pirates	AB	R	H	PO	A	E
Fraser, ss	3	0	1	1	1	1
J. Mooney, 3b	3	0	0	0	0	0
Brogan, rf	3	1	1	0	0	0
Garnet, cf	3	0	1	2	0	0
Latham, lf	3	0	0	2	1	0
Cox, c	3	0	0	1	0	0
Kerr, p	2	0	1	0	5	0
Marshall	2	0	0	0	1	1
Willett	2	0	0	0	7	0
	23	1	4	18	8	2

Score by Innings:  
St. Peter's ..... 000100—1  
Pirates ..... 000100—1  
Summary—Batted runs, St. Peter's 6; Pirates 6. Bases on balls, off King 2; off Kerr 1. Struck out by King 6; by Kerr 4. Double play, Fraser to Willett. Hit by pitched ball, Fraser. Left on bases, St. Peter's 4; Pirates 7. Time of game 1 hour, 20 minutes. Umpires, Atchison behind the plate, Case on the bases. Scorer, Gilding.

## Big Field For American Golf

### Final Figures Give 232 Entries for National Open Tournament at New York.

New York, July 11.—A field of 232 of the leading professional and amateur golfers of the continent, in addition to the famous British professionals, George Duncan and Abe Mitchell, has entered for the National open tournament which begins at the Columbia country club, Washington next Tuesday. The entry list, announced tonight, shows the second largest number of players ever listed for this fixture that fielding a few below that which completed at Toledo last season.

Two Days Qualifying.  
Play will open with a two day qualifying round on July 19 and 20. On the first day, half of the field will play an 18 hole round and the second day will see the other half of the entrants in a similar qualifying test. Those players with the thirty four lowest stroke scores, as well as any tied for sixteenth place will compete in the tournament proper beginning on July 21. The entire field of survivors will play 36 holes on July 21 and 22, the winner being the player with the lowest aggregate stroke score for 72 holes. In case of a tie for first place, the play-off will be on July 23.

## Very Fine Tennis Played At Toronto

### Canadian Championships Was Full of Thrills—Crack New Yorker Beat Englishman.

Toronto, July 11.—In perfect weather today a very fine tennis in the Canadian championships. Phil Kelly, of Toronto, won a terrific match from A. M. Milne, of Ottawa. Losing the first set, he captured the next two, 7-6, 6-4, B. A. Rhodes, of Vancouver, defeated J. V. McKenzie, Toronto, in straight sets. His service was very effective. A. Milne, the other Pacific Coast entry, won his game against M. Brennan without losing a game. The Vancouver pair created a very favorable impression by stalling play. A. Morris, of Montreal, defeated R. C. Johnston after three good sets. Johnston took the first set by a series of beautifully placed line shots. After this, Morris's fine net play won the event for him.

The best match of the day was between the crack New York players, Steinkamp, and C. K. Andrews, of England. Steinkamp has a very useful chop stroke and combine this with strong net work. Andrews gave him time and time again with beautifully placed drives, but Steinkamp stuck to his game and eventually won in the third set, 8-4.

The veteran Col. Foulkes was the match of the day, his placing being very good.

B. A. Rhodes and A. Milne and B. H. Latham and H. Morris, the Vancouver and Montreal pairs, both came through in the double with a losing set. Foulkes and Andrews from Kingston, another strong pair, won handsily. Bates and Levy, with their lightning drives and volleys, beat the Ottawa pair, R. H. Hamilton and A. M. Milne, easily.

## Baseball Games With Big Leagues

### American League

## Famous Davis Cup Has Travelled Some

### Has Record of 100,000 Miles and Now in Vaults of New York Jeweller.

New York, July 11.—With a travel record of 100,000 miles established, the famous Davis Cup is safely locked in the vaults of a Fifth Avenue jeweller in New York, pending the day, soon to come, when it will be brought forth from its wrappings polished and put on display. Strangely enough, it has done all its travelling without mishap and is today as sharply and clean-cut in every line as when first it was chosen as a fine example of the silversmith's art.

The mileage record of the cup itself shows a significant sidelight on the magnitude of the contest. Last year, for instance, the United States team that brought the cup home from Australia where it had travelled for years, travelled 27,000 miles. "Billy" Johnston had to go from San Francisco to New York, then to London, then back to San Francisco by way of New York, then he sailed from Vancouver to Auckland, New Zealand, dashed off a thousand miles or so to Sydney, put in another thousand miles in Australia and then embarked again for San Francisco and home.

The other members of the team, of course, had to cover the same ground, so it was not surprising that when they got back, Sam Hard the captain said he had had all the globe trotting he wanted for a while. The team record was for one season only, and since the cup has been in more or less steady circulation for 20 years, Great Britain and the various states which have shared the honor of holding it during that period. It needs only a glance at the map to gain some idea of the distance it had to go whenever it changed hands.

Another notable thing is that the silver sides are now so closely covered with the names of men who have played on the various teams, that space for additional engraving must be found. Consequently Dwight F. Davis, the donor, has asked Black, Star and Press to design a pedestal on whose sides further inscriptions can be made. It is likely therefore, that when the cup makes its next appearance it will be somewhat changed from the shape that has grown familiar to the public through a score of years.

## Fredericton Races Held Next Week

### Large List of Entries for Three Days' Meet—Total of 136 Entries for Eight Events.

Fredericton, N. B., July 11.—The list of entries for the Fredericton Park Association's second races of the season here on July 19th, 20th and 21st, comprise some about 136 entries of 105 horses from Quebec, New Brunswick, Nova Scotia and Prince Edward Island and the States of Maine, Massachusetts and Vermont. The number of entries for the events is as follows:  
2.13 trot and pace, 10  
2.16 trot and pace, 20  
2.22 trot, 15  
2.17 trot, 10  
2.32 pace, 22  
2.16 trot and pace, 15  
2.20 trot and pace, 22  
2.21 trot, 14  
Calgary Earl, 2.02 1/4 and John R. Braden, 2.07 1/4 will meet in a match race for the special Barker House purse for free-for-all paces on the second day of the meeting.

THE CONNAUGHT CUP.  
Montreal, July 11.—The second race for the Connaught Cup (Quebec section) between Calvin and Canadian Pacific Railway soccer clubs again resulted in a draw, this time of two goals each. The two hours' play tonight, including thirty minutes of overtime. The game will be played again tomorrow evening.

CUREW IN BELFAST.  
Belfast, July 11.—The curlew was reintroduced here today as a result of the discovery of Sunday.  
Belfast now is the only place in Ireland under the curlew regulations, despite the fact that the curlew was raised generally.

## Shooting At Bisley Camp

### Petty Officer Hillman High Man in Queen Mary's Prize—Scores by Canadians.

Bisley Camp, July 11.—Petty Officer Hillman of the warship Excellent, was high man in the Queen Mary's prize competition which ended here on Saturday. His score was 128. Scores made by Canadians included:  
Private F. M. Emslie, Toronto 102;  
Gunner W. E. Tinsman, Quebec, 94;  
Major Northover, Winnipeg 102.

The shooting in the Queen Mary's competition is divided into four "categories." The first is ten shots at 220 yards snipe shooting; the second, five shots at 200 yards, rapid fire; the third, five shots at 300 yards, the distance being from 600 to 1,000 yards, ten shots being fired by each competitor during the movement; the fourth, deliberate, five shots at 600 yards, time limit 20 seconds for each shot. The winner got the Queen's prize and £20. The competition extended over Thursday, Friday and Saturday.

## CANADA'S BUDGET COMPARED WITH SOUTH AFRICA'S

Administration of Dominion Costs Five Times That of Union.

**SPECIAL TAXES TO MEET DEFICIT**

Our Interest on War Debt Exceeds South Africa's Entire Expenditure for Year.

Washington, July 11.—It requires about five times as much money each year to administer the Dominion of Canada as is needed to manage the Union of South Africa, according to statistics of the South African budget for 1921-22, contained in a report recently made by the United States committee on the budget to the government here. The total estimated expenditure of the South African Union for the current fiscal year is \$23,545,900, or \$135,651,275.26, placing the pound sterling at \$4.26 Canadian money estimated public expenditure for Canada for the year 1921-22 is \$465,237,212.90.

According to the same authority the South African Government is having considerable difficulty balancing its accounts. During the fiscal year ending March 31, 1921, there was a deficit of 250,000 pounds, while for the current year the estimated revenue is \$7,000,000 less than the estimated expenditure. This deficit is to be met with economies in various governmental departments to the extent of \$700,000, while new taxation is expected to yield 2,425,000 pounds, leaving a deficit of 224,000 pounds.

Comparison between various South African budget items and corresponding items in the Canadian budget are interesting. In practically every case the Canadian expenditure is higher. Even the Governor-General in the Dominion costs more than the Governor-General in South Africa. The salaries and expenses in the South African Government are \$1,488,916.66 annually, including salaries and expenses. In the South African budget the sum of \$12,590,000 covers the vice royal cost. In this instance, as in other items, the pound is placed at \$4.26 Canadian.

Parliamentary Expenses.

The South African Senate is set down in the estimates as costing \$121,490.50. The Upper House in Canada charges the people for its valued legislative efforts \$12,590. The House of Assembly at Capetown is set down in the budget as costing \$391,603.50. The House of Commons of Canada, according to the estimates tabled during the past session of Parliament, costs \$64,777.

When it comes to such features of the budget as interest on public debt and pensions the disparity between Canadian and South African expenditures becomes more apparent. Due to her heavier war burdens, Canada pays more in interest on her public debt alone than South Africa spends in her entire budget. Against South Africa's interest payment of \$2,851,985 on public debt, the Dominion expends for this heading \$142,281,057. In pensions Canada expends annually \$37,070,485.57 against South Africa's \$5,292,750.

Another fact that makes Canadian expenditures loom large beside that of South Africa is the Government railway policy of the Dominion. South Africa does not, as yet, manage her railways. Canada this year will spend more on its railways and canals than South Africa will have to spend on its entire administration. The estimate for 1921-22 Ottawa's income expenditure on railways and capital expenditure at \$30,477,750, a total of \$198,487,500.

Police activities in South Africa make up a heavy item in the annual expenditures. It costs nearly four times as much to police the Union as it does to maintain the federal police system in Canada. The figures are: South Africa, \$12,300,435; Canada, \$3,227,570.75.

Cost of Native Affairs.

Despite the large native population in South Africa, native affairs in the Union are administered at a lower cost than Indian affairs in Canada. Where South Africa spends \$1,848,257 yearly on the aborigines, the Dominion this year set aside \$2,750,539 to look after its Indian wards.

Public works in an infinitely larger spending department in Canada than in South Africa. While the Union this year will spend \$3,014,325.00 on public works, the Dominion for the same purpose will spend \$11,115,283.42 out of the income accounts and \$29,041,365.48 on capital accounts, a total of \$40,156,648.90.

Police and Defence in Canada is also as heavy in expenditure as in South Africa. In the Dominion this year the Department of Militia and Defence calls for an expenditure of \$11,880,000, while in South Africa the sum of \$5,895,208.25 has been appropriated for the purpose.

In order to cope with the deficit the Union of South Africa imposed new taxation this year, the new taxes coming into effect June 7. Postage was increased to 24 per cent for letters within South Africa, with newspapers in bulk placed at 1/2 for 4 ounces. Increases were made in stamp duties, duties on biocopic films, spirits and beer reduced rates on excise tobacco as duty, income and companies taxes. Duties on wheat and flour were also reimposed.

**BARS THE REPORTERS.**

Toronto, July 11.—Attorney-General Ranney has already intimated that newspaper reporters will be barred from witnessing the execution of Fottum and McPadden in Toronto jail, which has been fixed for August 3. His opinion is that the events of the nature should not be given publicity, said Mr. Ranney.

### ERRATIC TRADE ON WALL STREET

**Oils and Steels Figure in Confused Selling, Falling First and Advancing Later.**

New York, July 11.—Movements of stocks in today's Wall Street were highly confusing. Shares with an exceptionally strong interest were heavy or weak, while other issues manifested occasional strength, though easing at the close.

The rubber group, as well as equities, Sears-Roebuck, Famous Players and Industrial Alcohols were under constant pressure, losing 2 to 4 points.

Oils, especially the foreign group, were most erratic. Most of them rallied some five points from their early reversal and closed at a net gain of 3 to 4.

Leading steels and metals as well as Baldwin Locomotive, American Woolen and American Sugar, rose one to four points under short covering and rallies were inclined to improve. The whole list, however, reacted when call money rose to six per cent. In the final hour, sales amounted to \$2,000,000.

Developments in international affairs probably would have exercised a beneficial influence had it not been for the collapse of foreign exchange. The British rate fell nearly four cents more and continental bills dropped five to 25 points.

Trading in bonds relatively exceeded dealings in the stock market, but the trend was no less uncertain. Liberty issues closed mostly at moderate losses and domestic industrials and rails were irregular. Internationals, including war flotations, displayed steadiness. Total sales, par value, aggregated \$12,773,000.

### Wheat Market

Winnipeg, Man., July 11.—With crop reports continuing to occupy much attention, the local wheat market today was dull and featureless. Losses were recorded in both July and October with July, after the unchanged opening dropping to 171.5-8 and October to 172.5. The close was 174.2 to 2.7 cents lower. Coarse grains were also showing a weaker tendency today.

The demand was very poor for cash wheat today and premiums on most grades were lower. Close: Wheat, July 171.75 bid; October 174.5-8 bid; Oats, July 48.25 bid; October 48.25 bid. Cash prices: Wheat, No. 1 Northern 174.75; No. 2 Northern 171.75; No. 3 Northern 168.75; track 171.75; Oats, No. 1 44.25; No. 2 43.25; No. 3 42.25; No. 4 41.25; No. 5 40.25; No. 6 39.25; No. 7 38.25; No. 8 37.25; No. 9 36.25; No. 10 35.25; No. 11 34.25; No. 12 33.25.

### Arrest Leads To An Indian Uprising

**Troops Had to Be Sent to Disturbed Districts in Ecuador to Quell Riots.**

Lima, Peru, July 11.—The arrest by the authorities of an Indian chief in the province of Chimborazo, Ecuador, resulted in a general rising of Indians in that province that spread terror among the inhabitants for more than a week, according to advices received here from Guayaquil. The insurgents, it was said, had sworn to liberate their leader.

A newspaper correspondent reported that the villagers had organized defence committees in various parts of the province to protect the families of farmers, a number of whom had been kidnapped and that there had been sanguinary encounters between troops and the Indians.

The advices said additional troops had been sent to the disturbed districts and that it was believed order soon would be restored.

### CHEAP RAIL RATES.

Ottawa, July 11.—The minister of labor said today that the department intend to make the usual arrangements with the railway to take men at reduced rates from eastern points for harvest work on the prairie.

### TORONTO UNLISTED

Toronto, July 11.—Unlisted: 100 B. A. Oil, 28; 250 McIntyre, 188; 20 Laurentide, 72.5-4 to 73.10; Wayagmack, 38; 2 Shawinigan, 100; 25 Ontario, 25; 10 Ontario, 25; 10 Ontario, 25; 6 Dominion Glass, 20-1-4.

### FEW GAINS IN MONTREAL LIST

**Only Five Stocks Out of Forty-Five Listed Make Any Advance.**

Montreal, July 11.—The list was generally weak on the local stock exchange today, only five of the 45 issues listed registering a gain. Thirteen stocks scored losses of fractions to four points.

Laurentide was the least inactive issue traded in and it suffered a loss of two points on the day. The paper group was noticeably weak with Rioridon slipping back 4 points; the Spanish Rivers each losing half a point; Wayagmack lost a point and Brompton a quarter point, albeit alone of the group remained unchanged.

National Breweries trading was very small and the issue lost a half point at 32.

Shawinigan, which was fairly active, lost a large fraction at 100.3-4; Power held its own whilst Steamship preferred was up 2 1/2 points to 45 on light trading.

The steel stocks showed an inclination to firmness, iron sold down a point but closed unchanged at 27. Ontario Steel, on a single board lot transaction gained a point at 48. Steel of Canada was unchanged.

Stronger stocks took in Asbestos up half a point; Quebec Railway up half a point; Bank of Commerce, a point; and Merchants' Bank, three points. Total sales: Listed \$3,195; bonds \$226,160.

### Montreal Sales

(McDougall & Cowans)	Asked	Bid
Brazilian L. H. and P.	26 1/2	25 1/2
Brompton	21 1/2	20 1/2
Canada Cement	50 1/2	49 1/2
Detroit United	64	63
Quebec Railway	35 1/2	34 1/2
Shaw W. and P. Co.	100 1/2	99 1/2
Spanish River	47 1/2	46 1/2
Steel Co. Can.	46 1/2	45 1/2
Wayagmack	39	38

### Bar Silver

London, July 11.—The tone of the stock market today was firm. Bar silver, 36 1/2 per ounce; bar gold, 112, 10d.

Money, four per cent; discount, three months' bills, 5 1/4 per cent.

### London Oils

London, July 11.—Close: Calcutta linseed, 21; linseed oil, 34s. 1/2. Petroleum, American refined, 1s. 9 1/2; sprits, 10 1/2.

Rosin, American strained, 15s. 6d. Lauricene, 12s. 2d.

### Montreal Produce

Montreal, July 11.—Oats, Canadian western, No. 1, 60c. to 61 1/2c.; No. 2, 56 1/2c. to 57 1/2c.

Flour, Manitoba spring wheat, patent, firsts, \$10.50.

Milled—hulled oats, bag 90 lbs., \$2.05; bran, \$25.25; shorts, \$27.25.

Eggs, fresh, 38c. to 39c.

### GOSSIP AROUND THE MARKETS

Interest on Kaminitiquia Pulp and Paper Company's bonds, due July 1, has not been paid. Bond holders have been circulating asking them to subscribe to a further stock issue up to 50 per cent of their holdings. It is expected that the amount received from this new issue—about \$350,000—will enable the company to reopen the plant at Port Arthur closed since last March.

Shareholders of the Goodyear Tire and Rubber Co. of Canada, Ltd., have received a letter from the president, stating that considerable progress has been made in liquidating the liabilities of the company and in reducing the inventory of manufactured and raw material on hand. From March 31 to date, \$2,000,000 of indebtedness has been liquidated. There are now no overdue accounts payable.

New York funds in Montreal, 14 1/2 to 1 1/2 per cent. premium. Starting in New York, demand, 3 1/2c.; cables, 3.5d. In Montreal, demand, 4.16 1/2c.; cables, 4.16 1/2c.

Unlisted transactions reported by Montreal Stock Exchange yesterday: New Rioridon, 155 at 2, Rioridon paid, 5 at 15. Tram Power, 10 at 96. Car Script, 2.275 at 70. Western Power of Canada, 7 p.c., 400 at 66.

At a meeting of the Board of the Imperial Bank of Canada in Toronto, Mr. A. E. Phillips, who up to the present has been assistant general manager, was appointed general manager of the bank, on Wednesday.

Wayagmack still continues to attract considerable attention and rumors of all sorts are hanging round it. The rumor of a dividend being declared is one of the chief topics of conversation and some of the best judges of the market attributes the recent drop partly to the discounting of a decline in the rate of the dividend. It is pointed out that a 6 per cent. dividend at the present value of the shares would work out at 16 per cent. a return out of all keeping with the rest of the market. There is some talk of the dividend which is due next month, being reduced to 5 per cent. or even 3 per cent.

Other circles are dubious as to whether any dividend will be declared and on the whole there is a good deal of uncertainty as to the actual position of the company.

The rumor of the Laurentide Company having acquired control is generally discredited.

An attempt is said to have been made by certain parties to influence the market by means of bogus wires. Today, Wayagmack is a difficult stock to judge. The tendency is bearish, but it is difficult to say whether it will be a good deal rather than a bad one.

BAIRD, WHITE & CO.

### Bond Market Stronger

Montreal City and District Bank remains 180 bid, offered at 160. Sterling Bank is quoted offered at 110—a loss of two points; Provincial Bank is 12 1/2 bid, offered at 12 3/4—a loss of one point in the bid price, and Home Bank remains unchanged.

The market for bonds was rather erratic at the beginning of the week, but later showed a stronger tendency following the New York market. There were practically no offerings of short term municipals which are still in strong demand, but there was rather active trading in the Public Utility bonds such as Montreal Tram & Power 6's, 1924, Cedar Rapids 5's, Western Quebec Cedar 5 1/2's, and Calgary 5's 1940. There was not much demand for Industrials with offerings rather free at slightly lower prices.

BAIRD, WHITE & CO.

### Will Appeal Judgment

Ottawa, July 11.—The judgment of Mr. Justice Curran, at Winnipeg today, making permanent the injunction against the grain enquiry and implying that the whole Canada Grain Act is ultra vires will be appealed at the earliest opportunity. Col. Oliver Mowat Biggar, K.C., general counsel of the government in the case, so limited this afternoon. "In all probability there will be an appeal," he said, "but the matter is one upon which I must consult the minister of justice." Hon. C. J. Doherty is out of town today.

The tribunal to which appeal would be taken in the first instance is the Manitoba Court of Appeals, but with the consent of that body, the case could be brought directly to the supreme court here. It is argued in appeal at Winnipeg then, as a matter of right, either side could appeal directly to the privy council without regard to the Supreme Court of Canada. It is believed that eventually the case will go to the court of last resort.

In official circles here disappointment and some surprise are expressed over the case. Should the grain act be held finally to be ultra vires, each province would become a law unto itself in the administration of the grain business, with results which, it is feared, might be chaotic to the trade.

Another view that is voiced is that the successful seeking of the injunction under the particular circumstances of the case justifies the belief that unsavory revelations are featured.

Hay, No. 2, per ton, car lots, \$25 to \$27.

Eggs, fresh, 38c. to 39c.

### Few Changes in Unlisted Market During Last Week

**Laurentide Power Made Three Point Advance—Bank and Bond Market Firm.**

Special to The Standard.

Montreal, July 11.—During the past week New Rioridon common sold down to 2, and was active between 2 and 2 1/2; the preferred sold at 16 1/2 and 17, closing 16 1/2 to 17 1/4. North American pulp sold freely at 3, and down to 2 1/2, closing 2 1/2 bid, with no offerings. Metallurgical common is now being offered at 1 1/2, with the preferred quoted at 30 to 33. Whalen common is now offered at 10, with no bid, and the preferred is offered at 35, with no bid, and no transactions. Dryden Paper remains unchanged, and was very dull.

Laurentide Going Up.

Cuba-Canadian Sugar preferred is now offered at 13 1/2, with no bid, and the common is unchanged offered at 15.

Laurentide Power was firm with sales at 70—a three point increase—closing 69 bid, offered at 70. Argonaut Gold is still offered at 35 cents, and Cosgrave Breweries sold at 10—now being offered at 10 1/4, no bid. Frontenac Breweries, which closed the week 67 bid, sold at 69 and is now 69 bid with no offerings. Loews Metropolitan common is quoted 4 1/2 to 6; Loews Ottawa preferred is now 7 1/2 bid, offered at 7 1/2. Western Grocers preferred is quoted 62 to 65. Famous Players preferred with a bonus of 50 per cent in common, is still offered at 77. Canadian West Inghouse common is quoted 102 to 104. Hollinger 7.10 to 7.14, with sales at 7.10; Canadian Woolens preferred is quoted 83 to 84, a loss of a point. Southern Canada Power preferred is offered at 75 with no bid, and the common is 15 bid, offered at 20.

### Canada Grain Act

At the same time His Lordship said he did not feel it incumbent on him to express any opinion as to the validity of the Canada Grain Act, which had been enforced for twenty-one years without any complaint or protest, and without its validity being attacked.

The question of costs was reserved until it had been decided whether an appeal would be taken. C. P. Wilson, K. C., representing the minister of justice, immediately wired the decision to Ottawa and asked for instructions.

P. Foley, K.C., who represented the members of the privy council, made no statement to make as to whether his clients would appeal.

### GRAIN PROBE IS ULTRA VIRES

**Court Issues Permanent Order Res training Commission from Continuing Hearings.**

Winnipeg, July 11.—Mr. Justice Curran, in supreme court chambers this morning delivered judgment dissolving the Royal Grain Inquiry Commission. He held that the order-in-council constituting the commission was invalid, and that the commission itself, therefore, was ultra vires, and that the members thereof should be restricted from proceeding further with their investigations.

It is maintained, in effect, that the activities of the commission constituted a direct interference with and in violation of the plaintiff's property and civil rights in the province. He pointed out that the government of Canada did not attempt to inquire into the business of insurance companies, which, although operating all over Canada, enjoyed rights under provincial governments.

### West Starts Wheat Harvest August 1st

**Rain Needed in Parts of Alberta and Saskatchewan—Rust is in Manitoba.**

Winnipeg, July 11.—With the crop situation promising and the best in any year at this date, with the exception of 1912, wheat harvesting in Western Canada should commence about the first week in August and be fairly general a week later, states the weekly report issued by the Canadian Pacific Railway here today. Approximately fifty per cent of the wheat is headed out and the remainder is well advanced in spot blade. Rain is needed in parts of Western and Northwestern Saskatchewan and in Southern Alberta. Red and black rust is reported from some points in Manitoba and Saskatchewan, but it is neither serious or extensive at present. Much, however, states the report, depends on weather conditions between now and the maturing of the crop. Hay is reported from several areas as doing varying damage, but beyond the usual average for this time of the year.

### Raw Sugars

New York, July 11.—The raw sugar market was firm and unchanged early today at 4.37 cents for centrifugal with sales of 10,000 bags of Porto Rico, prompt and July shipment, reported at that level. It was announced this morning that the commission late last week sold 5,000 tons of Cuba centrifugals to France at 1.05, Cuba.

Raw sugar futures were firmer on scattered covering and trade buying, prompted by the firmness of the spot market, but after advancing five to six points prices eased off under realizing and at midday were unchanged to 2 points net higher.

Refined was firmer with several of the leading refiners advancing bid prices to the basis of 5.60 for fine granulated while two were unchanged at 5.50. Business was fair.

Refined futures were firmer and ten points higher on covering, although trading was light.

### TURPENTINE AND ROSIN

Savannah, July 11.—Turpentine, firm, 51 1/2; receipts, 440; shipments, 235; stock, 9,188.

Rosin, firm; sales, 1,047; receipts, 686; shipments, 1,235; stock, \$5,516.

### Railway Earnings

Toronto, July 11.—Canadian National Railway earnings for week ending July 7, 1921, show an increase of \$98,914 over the corresponding period a year ago. The figures are:

Week ending July 7, 1921, \$2,032,875.

Week ending July 7, 1920, \$1,932,961.

Montreal, July 11.—Canadian Pacific Railway earnings for week ending July 7, 1921, \$3,440,000; decrease \$353,000.

### CANADA'S BUDGET COMPARED WITH SOUTH AFRICA'S

Administration of Dominion Costs Five Times That of Union.

### SPECIAL TAXES TO MEET DEFICIT

Our Interest on War Debt Exceeds South Africa's Entire Expenditure for Year.

Washington, July 11.—It requires about five times as much money each year to administer the Dominion of Canada as is needed to manage the Union of South Africa, according to statistics of the South African budget for 1921-22, contained in a return recently made by the United States consul at Capetown to his government here. The total estimated expenditure of the South African Union for the current fiscal year is 29,542,829 pounds, or \$125,651,872.30, placing the pound sterling at \$4.25. Canadian money estimated public expenditure for Canada for the year 1921-22 is \$662,237,212.90. According to the same authority the South African Government is having considerable difficulty balancing its accounts. During the fiscal year ending March 31, 1921, there was a deficit of 250,000 pounds, while for the current year the estimated revenue is 7,700,000 less than the estimated expenditure. This deficit is to be met with economies in various governmental departments to the extent of 27,000, while new taxation is expected to yield 2,425,000 pounds, leaving a deficit of 224,000 pounds. Comparison between various South African budget items and corresponding items in the Canadian budget are interesting. In practically every case the Canadian expenditure is higher. Even the Governor-General in the Dominion costs more than the Governor-General in South Africa. The incumbent in the Dominion House, Ottawa, represents an expenditure of \$148,891.90 annually including salaries and expenses. In the South African budget the sum of \$11,376.75 covers the vice royal cost. In this instance, as in other items, the pound is placed at 4.25 Canadian.

### Parliamentary Expenses.

The South African Senate is set down in the estimates as costing \$121,490.50. The Upper House in Canada charges the people for its valued legislative efforts \$122,000. The House of Assembly at Capetown is set down in the budget as costing \$391,503.50. The House of Commons of Canada, according to the estimates tabulated during the past session of Parliament, costs \$654,777.

When it comes to such features of the budget as interest on public debt and pensions, the disparity between Canadian and South African expenditures becomes more apparent. Due to her heavier war burdens, Canada pays more in interest on her public debt alone than South Africa spends in her entire budget. Against South Africa's interest payment of \$32,519,985 on public debt, the Dominion expends under this heading \$12,223,087. In pensions Canada expends annually \$37,070,485.75 against South Africa's \$5,829,750.

Another fact that makes Canadian expenditure here large is the fact that South Africa is the Government railway policy of the Dominion. South Africa does not as yet manage its railways. Canada this year will spend more on its railways and canals than South Africa will have to spend on its entire administration. The estimate for 1921-22 at Ottawa places income expenditure on railways and canals at \$18,300,790.72 and capital expenditure at \$30,477,750, a total of \$188,878,540.72.

Police activities in South Africa make up a heavy item in the annual expenditures. It costs nearly four times as much to police the Union as it does to maintain the federal police system in Canada. The figures are: South Africa, \$12,300,455; Canada, \$3,027,570.75.

### Cost of Native Affairs.

Despite the large native population in South Africa, native affairs in the Union are administered at a lower cost than Indian affairs in Canada. Where South Africa expends \$1,848,257 yearly on the aborigines, the Dominion this year set aside \$2,760,530 to look after the Indian situation. Public works is an infinitely larger expending department in Canada than in South Africa. While the Union this year will spend \$3,101,432.50 on public works, the Dominion for the same purpose will spend \$11,115,233.42 out of the income accounts and \$29,041,365.48 on capital accounts, a total of \$40,156,648.90.

In Mills and Defence in Canada is as heavy in expenditure as in South Africa. In the Dominion this year the Department of Militia and Defence calls for an expenditure of \$11,880,000, while in South Africa the sum of \$6,895,208.25 has been appropriated for the purpose.

In order to cope with the deficit the Union of South Africa imposed new taxation this year, the new taxes coming into effect June 7. Postage was increased to 2d per ounce for letters within South Africa, with newspapers in bulk placed at 1/4d for 4 ounces. Increases were made in stamp duties, duties on biocopic films, spirits and beer customs and excise, tobacco excise, income and companies taxes. Duties on wheat and flour were also reimposed.

### BARRED THE REPORTERS.

Toronto, July 11.—Attorney General Raney has already intimated that newspaper reporters will be barred from witnessing the execution of Horton and McPadden in Toronto jail, which has been fixed for August 3. "My opinion is that events of that nature should not be given publicity," said Mr. Raney.

### "SUPERNATURAL" LIGHTS SCARE SUPERSTITIOUS

Weird Glimmer on Church Tower Thought to Portend Doom.

### CROWDS FLOCK TO WATCH IT GLOW

Proves to Be Only Reflection from Trains Passing Thru Nearby Tunnel.

New York, July 11.—Such of the residents of Jersey City as are addicted to the habit of expecting the end of the world at any odd time had a weight taken off their minds yesterday when it developed that a weird red light which had flickered from the bell tower of St. Joseph's Catholic Church in that city on four successive nights was traceable to natural causes and was not a portent of judgment day.

First Seen Sunday. It appeared first last Sunday just after evening devotions in the church and attracted little attention then because it was assumed to be part of the lighting of the building and probably devotional in character. Then when it reappeared on Monday night some alarm was given at the fact that as to have been the scene of the Dempsey-Carpenter fight. Most of the people who heard him laughed at this, but a few wags took the light seriously and suggested to the scoffers that they call at the church rectory and inquire whether there was a real light in the belfry or not.

No Light in Church. Upon inquiry the sexton denied brusquely there was any light about the building which he lacked information, and was invited promptly to come out on the street and take a look. He looked, and after turning several shades had a couple of policemen accompany him while he went to the top of the bell tower and made a thorough examination. There was no light there and nothing which by any possibility could be used to light a light.

Cause Discovered. By the next night some one had thought of the expedient of sitting flour on the steps leading up to the belfry, but this developed nothing either. And by Wednesday night the light still flickered intermittently where it had been visible for the three night preceding, and a crowd that had grown too big for comfort had possession of the street.

But the phenomenon was solved yesterday and now the wonder is off. A man who is in the engineering department of the Hudson tubes system wrote to Jersey City Police Headquarters explaining that he had seen the crowd about the church the night before and was amazed that people could be so worked up over the reflections of lights cast by trains running in a deep cut near the church.

### SALESMAN WANTED

A SALESMAN — A Self-respecting salesman, whose ambition is beyond his present place, might find more congenial employment with us and at the same time double his income. We require a man of clean character, sound in mind and body, of strong personality, who would appreciate a job's position with a fast-growing concern, where industry would be rewarded with far above average earnings. Married man preferred. Apply to Mr. W. H. Cowan, second floor, 167 Prince William street.

### WANTED A SALESMAN OF PROVEN ABILITY.

A manufacturing house in Eastern Canada, selling to Men's Purchasing and Dry Goods stores, and enjoying the largest sales of any house in its line, wants a salesman. He must be young enough to have enthusiasm, he must have the vision to see the possibilities of development, he must have the sound judgment and tact to keep his sales force working for him instead of against him, and he must be able to jump out and close prospects which the salesmen cannot sell. He will be responsible for the advertising as well as sales, so that a knowledge of modern advertising methods is essential. Address your letter, giving age, what you have done and salary expected, to Salesmanager, P. O. Box 1934, Montreal.

### ESTATE SALE

THERE WILL BE SOLD AT PUBLIC AUCTION ON Saturday the 16th of July next at Chubb's Corner in the City of St. John at twelve o'clock noon (Daylight Time) all the property belonging to Samuel Creighton at Silver Falls, consisting of a Farm of about 57 1/2 acres and 3 houses situate thereon. For further particulars apply to C. S. HANINGTON, Barrister-at-Law, 127 Prince William St. F. L. POTTS, Auctioneer.
