ROBINSON & RALSTON. Ayer's Cherry Pectoral For Diseases of the Throat and Lungs,

such as Coughs, Colds, Whoopin Cough, Bronchitis, Asthma, and Consumption. Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it his rised higher and higher in their estimation; as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to midder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of Orosep, it should be kept on haffid in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled Consumption is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the Therry Pectoral. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the Cherry Pectoral in small and frequent doses. For a Cough and Cold, no better remedy can be had. Take small doses three times a day and put the feet in warm water at night, until the disease is broken up.

For Influenza, when it affects the throat or lungs, take the same course.

For Whooping Cough, give small doses three for four times a day.

For Crossp, give large and frequent doses until the disease is overcome.

For Croup, give large and freque he disease is overcome. For Crossp, give large and request cases until
the disease is overcome.

No family should be without the Cherry Pectoral on hand to protect them, in case of attach,
from the above complaints. Its timely use often
spares the patient a great amount of suffering and
risk, which he would incur by waiting until he
could get other aid. Parents, keep tit, nyour houses
for the exigencies that arise. Lives dear to you
may be saved by it.

So generally are its virtues known, that we need
hot publish certificates of them here, or do more
than assure the public that the best qualities it ever
possessed are strictly maintained.

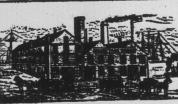

Prepared by Dr. J. C. Ayer & Co., Practical
and Analytical Chemists, Lowell, Mass., and sold
all round the world.

New York Sun for 1872. TO ALL WHO CAN READ. The New York Weekly Sun Doubled in Size without Increase in Price.

With the beginning of 1872, THE WEEK'LY Sun has been doubled in size. It now contains eight pages instead of four, making it equal in nsions to any other weekly secular journs published in this country. At the same time its price has not been increased. It will be furnished to subscribers at the uniform rate of one dollar a year for each copy. To this rate no exception will be made and no reduction will be possible, either to clubs or agents. Every subscriber who sends a dollar will receive a copy for a year.

While THE WEEKLY SUN thus furnishes as much reading matter as other papers published at double or treble the price, it will contain new features which will add greatly to its interest and value as a family newspaper. Its inde pendence of opinion, and its unqualified hostility to Tweedism and Grantism, and every form of public robbery, bribery, and corruption, will be maintained, while in point of political news its readers may rely upon always receiving the most accurate, as well as the freshest, intelligence that can possibly be obtained. The enlargement enables us also to devote additional pace to valuable agricultural intelligence, and to print interesting stories and romances more extensively than hitherto. For miscellaneous reading, presenting the quaint and humorous aspects of life, and for useful information repecting not only what takes place in this me-tropolis and this country, but in all other parts of the world, we now have ample room.

In its new form THE WEEKLY SUN is the WHOLESALE ONLY:

In its new form this wagen for the United States; cheapest paper of its class in the United States; and we appeal to such of our readers as approve its ideas and objects, and find it interesting and

valuable, not only to renew their own subscriptions, but to recommend the paper to their friends and neighbors.

This year is destined to be a memorable one in the history of the country. We are on the eve of a most significant Presidential election. and political movements will for many months be watched with unusual interest. As a journal, free from the trammels of party, THE WEEKLY SUN will continue to uphold the principles of true republican government. Its readers are invited to sustain it in that work. The truth, respective of party prejudice or official in-uence, will always be told in its columns.

A journal containing eight large pages, pub-lished every Wednesday morning—To all mail subscribers, whether single or in clubs, one dollar year each, always in advance.
