The Eighth Annual Meeting of this Conference is now going on here. The first committee meeting in connection therewith was held in the vestry of the Church on Monday. Thomas and Alonzo McCulley Were recommended to return to Sackville Ministerial representative from each District. The business of this committee is to appoint stations for Ministers who may be removing to other fields of labor, and is, we may say, of the utmost importance in the eyes of most of the brethren, clerical and lay, within the bounds of the Conference.

The Supernumerary Fund committee met in the afternoon. During its sitting the Miramichi District was referred to by the Rev. Dr. Pickard in the most complimentary terms, on account of the increase in the subscriptions of the brethren in aid of the Supernumerary Fund, and its general satisfactory standing this year in relation to all the connexional funds of the Church.

The committee on Education also met in the afternoon. In the evening the Missionary committee held its first setting. Several laymen were on this committee, the Miramichi District being represented by Mr. J. J. Anslow. A slight increase was exhibited in the contribuceipts from the Miramichi District for the ence. year being \$287.80 as against \$266.66 for. the previous year. A large school of boys and girls were conning over their lessons. The teacher tried hard to keep order, to make all take to their studies, to help those who needed aid, and to make all happy. He opened the doors and windows to give them fresh air; but all would not do. Some felt discouraged with their lessons, some felt
sleepy, some felt cross, and everything. all would not do. Some felt discoursleepy, some felt cross, and everything seemed to drag and linger. By and by the heavy tread of a foot on the doorstep was heard and, without knocking, in walked a hard faced man, somewhat old in years, but with a firm step. The children at first felt afraid of him, but they soon found that beneath his hard looks there was a bright eye, a pleasant smile, and a kind heart. But, instead of sitting down and staring at the school, he sat down by the side of one of the little girls who was trying to get her spelling a SECOND-CLASS FARE, with good berth

AN AUTOMATIC REED

44 THE ORGUINETTE may now be called a celebrated instrument. In tone it is akin to the Cabinet Organ, but the organ must be manipulated by an artist in order to produce music; the Orguinette is on the other hand entirely mechanical in its action, and at trifling expense it can be made to furnish an unlimited supply of all kinds of music.— **THE ORGUINETTE is indeed a musical wonder. It is a minature reed organ, with as strong and melodious a tone as the Cabinet Size. It surpasses the Cabinet Organ for the reason that the ignoramus in music can play it as well as the most accomplished professor. The Orguinette is strong and accurate in its mechanism, and consequently not liable to get out of order."—Montreal Gazette.
