A BELOVED AND RESPECTED LADY GONE.

In The Death of Mrs. George Stables, Newcastle Sustains an Inestimable Loss.

The death of Mrs. George Stables occurred on Thursday afternoon at Moncton hospital, whither she had gone on Monday to undergo an operation for a very serious internal trouble. The operation was successfully performed on Thursday afternoon, but the patient never rallied, dying in about half an hour.

Deceased was fifty-two years of age, and was the second daughter of the late John McAllister of this town, where her mother, brother John and sister Clara still reside.

She was a most valued member of the Presbyterian church and several of its philanthropic societies and of the Women's Christian Temperance Union. She was looked up to as one of the leaders of the best society in every sense of that term, and will be much missed in many walks of life.

Deceased was survived by her husband and the following children—James, Susie, Mrs. A. J. Ferguson, William, Adelaide, Helen and Stuart, also by her mother, brother John, and following sisters—Miss Clara, Newcastle; Mrs. Henry Seely, Minesota; and Mrs. Samuel Mitchell, Arizona.

The funeral of the deceased, which was held in St. James' church, Monday afternoon, was very largely attended. Rev. S. J. McArthur, assisted by Rev. J. M. McLean of Charlottetown, officiated, and paid an eloquent tribute to the worth of the departed. The hymns sung were "Come Ye Disciples," and "Asleep in Jesus." Mrs. Sargent presided at the organ, and music was rendered by a mixed choir from the different Protestant churches.

The mourners were: George and Stuart Stables, James and Wm. Stables, John McAllister and A. J. Ferguson, Duncan and George Parker, Chas. E. and Wm. E. Fish, D. Morrison and Alex. Stewart, Roy and Ray Morrison, John and Wm. Ferguson, Gavin Copeland and John Brander. The pallbearers were: Messrs Osborne Nicholson, J. A. Rundle, H. Williston, J. D. Creaghan, Geo. Stohart, W. A. Park.

The floral tributes were most beautiful. They included:

Pillow—Geo. Stables
Wreath—Misses Addie and Helen Stables

Anchor—Jas. and Wm. Stables
Pillow—Mr. and Mrs. A. J. Ferguson.

Wreath—Mrs. McAllister, Clara, and John.

Pillow—W. C. T. U.

BREEZY MEETING OF TOWN COUNCIL

Two New Assessors. Taxes will be \$23,050—\$4,220 More Than Last Year

Police Magistrate's Report Sent

Back for Correction. Some

Bills not Accepted

A special meeting of the town council was held in the Police Court room on the 25th ult.

There were present: The Mayor and Alds, Belyea, Doyle, Falconer, Morrissey, Russell and Shaw.

A letter from A. A. Davidson re claim of Mrs. Dunn for injuries was read, and on motion of Ald. Falconer and Doyle, was referred to the committee on petitions.

Communication of J. W. Reid re taxes, was on motion of Ald. Shaw and Ald. Russell, received and placed on file.

Letter from E. P. Williston, on behalf of J. J. Anslow, re taxes was on motion of Ald. Falconer and Russell, received and placed on file.

Notice of meeting of Union of N. B. Municipalities was read; and it was moved by Ald. Doyle and Russell that Ald. Belyea be a delegate from this council.

Ald. Belyea declined proffered appointment and seconded by Ald. Falconer, moved in amendment that no delegate be sent. Amendment carried.

School estimates (\$8,300) for ensuing year read, were on motion of Ald. Doyle and Falconer, referred to the Finance Committee to be included in the year's estimates.

A proposed agreement between Margaret Murphy and Mary Power and the town was submitted, whereby the two ladies mentioned undertook to release the town from any claim for injuries sustained by Madame Murphy upon remission by the town of the taxes outstanding against the John Murphy estate.

On motion of Ald. Morrissey and Russell, the communication was received and the mayor and town clerk were authorized to enter into an agreement along the lines now submitted to the council.

The report of P. J. McEvoy and J. J. Barron, auditors of school accounts, was read, and on motion of Ald. Doyle and Falconer, was received and ordered printed in the town report.

The report of A. S. Murray, Town Auditor, was read and, on motion of Ald. Belyea and Doyle, was received and ordered printed with the several accounts in the town report.

A request from Messrs. Voyer and Crangle for a special license for moving pictures was read and, on motion of Ald. Morrissey and Belyea their communication was received and a license ordered to be issued to Messrs. Voyer and Crangle at the rate of three dollars a week, payable in advance; not to cover license on other plays or concert companies playing in the Opera House during term of their lease.

The report of the finance committee recommended:

(1) That the following bills (Board of Health) be paid—R. L. Maltby, \$12.00; T. J. Durick, \$8.00.

(2) That the following amounts be assessed on the town for the current year.

Public Works	\$1,800
Police and Light	2,000
Park and Fire	1,750
Contingencies	1,800
Board of Health	400
Interest	6,000
Schools	8,300

(4) That the salary of town clerk be increased to \$900 per year to take effect from Jan'y 1st, 1909.

(5) That the printing of the 1908 town report be given the Union Advocate, theirs being the lowest tender.

The report on motion of Ald.

Belyea and taken section by section.

Sec. 1 passed.

On motion of Ald. Morrissey and Shaw, the assessment for Police and Light was raised to \$23,050.

On motion of Ald. Doyle and Russell the works assessment was raised to \$2,000.

Sec. 3 amended was adopted as a whole.

Sec. 4 passed.

Sec. 5 passed.

During discussion Ald. Belyea proposed that while less than \$5000 is assessed last year for interest in interest actually paid should be \$5,500, which should be assessed for.

On recommendation of the Light and Water committee, the following bills were ordered paid:

C. D. H. Hunt	\$2.25
Canada Gen. Elec. Co.	15.05
John Ferguson & Sons	6.86
Burns & Co.	6.00
John Ferguson	144.00
Miller's Foundry	42.54
Canada Gen. Elec. Co.	1.97
" "	232.44

Intercolonial Coal Mining Co.	127.50
P. Hennessey	32.83

On recommendation of Park and Fire Committee, following bills were ordered paid:

Geo. T. B. Thorne	\$3.00
E. O. Donnell	2.15
John Ferguson & Sons	7.24

Ald. Falconer submitted the Police Report, which was received and adopted. It stated that the committee had found it necessary to keep two policemen during year, as in addition to police work a considerable amount of collecting and other work had to be done.

During the year 68 cases had come before the police magistrate, of which 3 were dismissed, one dropped and one appealed.

Ald. Falconer submitted the Police Committee's report on the Canada Temperance Act, which was received and adopted. During 1908 there had been thirty-one complaints laid for violation of the Act of which twenty-nine were for first offence and two for second offences, with the result of convictions in 30 cases and dismissal in one. The fines collected totaled \$1,486, which after deducting necessary expenses leaves at the credit of the fund the sum of \$821.26.

The Police and Appointment to Office Committee submitted the following recommendations:

(1) That bill of Stoddart & Co. for coal, \$38.47, be paid.

(2) T. W. Butler for services re Miller vs. Hill, \$20.00.

(3) T. W. Butler re C. T. Act, \$18.00.

(4) T. W. Butler, re Licenses, Accs., \$133.00.

(5) That James Falconer, Andrew McCabe and John Clark be appointed Assessors for 1909.

(6) That in the opinion of the Committee the Mayor should refund the amount of \$24.00 charged as costs in the case of Miller vs. Hill.

Report was received and taken up section by section.

Section 1 was adopted, and the bill ordered paid.

In reply to Ald. Morrissey Ald. Falconer said that the Town Clerk and Policeman Ashford had told him that the coal had been purchased and that he was, therefore, prepared to certify the bill.

Section 2 evoked considerable discussion. Mayor Miller said

that the town should not pay either Mr. Hill's legal bills or his (the Mayor's). He had paid his own lawyer, and so should Mr. Hill.

Ald. Falconer and Belyea argued that, as the policeman was the servant of the Town, he should be protected by the Town, and that therefore, the bill of Mr. Hill's legal adviser should be paid by the Town.

On motion of Ald. Morrissey and Doyle, Section was 2 rejected and payment of the bill of T. W. Butler for \$20.00 for defending Mr. Hill in the suit of Miller vs. Hill, was refused—Yeas: Morrissey, Doyle, Russell and Shaw. Nays: Belyea and Falconer.

Section 3 was adopted and bill ordered paid.

Section 4 was referred back to Police Committee for consultation with Mr. Butler re his account for \$133.00.

Re Section 5, Ald. Morrissey said that, talking over the matter with the Aldermen, the latter favored three new assessors, to do their duty and make fair assessments; that of those who had been assessors, only Mr. Falconer was, in their opinion, worthy of re-appointment of last year's men. Mr. Falconer had had nothing to say—Mr. Ferguson did everything to suit himself.

Ald. Falconer and Russell moved that Section 5 be adopted.

Ald. Morrissey said that he had understood from Ald. Belyea and Falconer last year that the assessors were no good—that Mr. Ferguson ran everything and Mr. Hickey did not do justice to the work.

Ald. Belyea didn't remember having expressed himself so strongly.

Ald. Doyle and Shaw moved in amendment that Section 5 be held over to a meeting of full board. Ald. Doyle doubted whether Ald. McMurdo, the absent member of the Committee, was in favor of this Section of the report.

Ald. Falconer and Belyea said that Ald. McMurdo was in full agreement with their choice.

The Mayor said that if Messrs. Falconer and Hickey had let Mr. Ferguson run the board, they must have been pretty easy going.

Ald. Falconer said that the only objection he had heard against Mr. Ferguson was that it was thought that he had assessed himself too low and he supposed Mr. Hickey had agreed in order to get his own taxes low.

Ald. Doyle and Shaw withdrew this amendment.

Ald. Doyle moved that the old assessors be reappointed. No Second.

Ald. Morrissey said that the general objection to Ferguson and Hickey was that Ferguson assessed his sons and, Hickey himself, too lightly.

Ald. Doyle considered that Ferguson and Hickey had done perfectly right in their work as assessors.

Ald. Falconer said that his father had expressed a preference to work with the old board; that Ferguson was the best man that could be got for the work.

Ald. Morrissey moved that John Ferguson be substituted for John Clark. No Second.

Section 5 was then adopted.

Regarding Section 6, the Mayor said that it appeared to him that the committee were endeavoring to mislead the public when they recommended that he should refund \$24.00 to the Town, as he had never received any bill from the Police Magistrate for his charges, and he was prepared and intended to pay whatever was required whenever he should be notified, and he never did intend that any expense should be borne by the Town, and if the committee did not have some special motive in bringing in such a report common courtesy at least would have directed them to consult him in the matter before reporting.

On motion of Ald. Belyea and Falconer of the Police Committee, Section 6 was struck out.

The Police Magistrate's report was discussed, but not read. On

Dr. Pinault Gives Valuable Information

On Consumption Which Should be Studied And Heeded by All Who Read.

To the Editor of the Graphic.

Taking in view the ever increasing ravages caused by tuberculosis under its different forms, especially by pulmonary tuberculosis, nearly all the countries in the world have organized to wage war against that terrible scourge. Here in Canada the fight is hardly begun and we have yet much to do. The large cities only have commenced the crusade; but since the evil seeks its victims everywhere we must be everywhere organized to fight that redoubtable disease rightly called the "white plague."

Considering the numerous victims which tuberculosis makes around us, I thought it would be doing a useful deed to group in a few lines the principal cures that should be taken by those suffering with the disease, as well as those who are exposed to it.

People are considerably frightened by a few cases of smallpox, which rarely causes death, but they dread little the daily contact with careless persons affected with tuberculosis, who expectorate everywhere bacilli by the

millions and sow the disease everywhere they pass. The aim of this little work is, especially, to teach how tuberculosis is contracted and how it may be prevented.

Consumption is a Preventable and a Curable Disease

Information for Consumptives and Those Living With Them

Don't Give Consumption to Others
Don't Let Others Give it to You

Consumption is Chiefly Caused by the Filthy Habit of Spitting

Consumption is a disease of the lungs which is taken from others, and is not simply caused by colds, although a cold may make it easier to take the disease. It is caused by every minute germ, which usually enter the body with the air breathed. The matter which consumptives cough or spit up contains these germs in great numbers frequently millions are discharged in a single day. The matter, spit upon the floor, wall or elsewhere, dries and is apt to become powdered and float in the air as dust. The dust contains the germs, and thus they enter the body with the air breathed. The dust is especially likely to be dangerous within doors. The breath of a consumptive does not contain the germs and will not produce the disease. A well person catches the disease from a consumptive only by in some way taking in the matter coughed up by the consumptive.

Consumption can often be cured if its nature be recognized early and if proper means be taken for its treatment. In a majority of cases it is not a fatal disease.

It is not dangerous to live with a consumptive, if the matter coughed up by him be properly destroyed. This matter should not be spit upon the floor, carpet, stove, wall or sidewalk, but always if possible in a cup kept for that purpose. The cup should contain water so that the matter will not dry up or better, carbolic acid in a five per cent. watery solution (six tea-spoonsful in a pint of water). This solution kills the germs. The cup should be emptied into the water closed at least twice a day, and carefully washed with boiling water.

Every person suffering from consumption suffers from a disease which may be communicated to other persons. This takes place through the spit which contains bacilli.

So long as the spit is moist it can do no harm.

The spit is gravely dangerous only when allowed to dry, become dust and so infect the air we breathe.

Great care should be taken by consumptives to prevent their hands, face and clothing from becoming soiled with

the matter coughed up. If they do become thus soiled, they should be at once washed with soap and hot water. Men with consumption should wear no beards at all, or only closely cut mustaches. When consumptives are away from home, the matter coughed up should be received into a pocket flask made for that purpose. If cloths must be used they should be immediately burned on returning home. If handkerchiefs be used (worthless cloths, which can be at once burned, are far better), they should be boiled at least half an hour in hot water by them selves before being washed. When coughing or sneezing small particles of spit containing germs are expelled, so that consumptives should always hold a handkerchief over their mouth during these acts; otherwise, the use of cloths and handkerchiefs to receive the matter coughed up should be avoided as much as possible, because it readily dries on these, and becomes scattered and scattered into the air. But, when possible, the matter should be received into cups or flasks. Paper cups are better than ordinary cups, as the former, after being used, a pocket flask of glass, metal or pasteboard is also a most convenient receptacle to spit in when away from home.

Cheap and convenient forms of flasks and cups may be purchased at many drug stores. Patients too weak to use a cup should use moist rags, which should at once be burned. If cloths are used they should not be carried loose in the pocket, but in a waterproof receptacle (cigar case, pouch), which should be frequently boiled. A consumptive should never swallow his expectoration; it may infect the bowels.

A consumptive should have his own bed, and if possible, his own room. The room should always have an abundance of fresh air—the windows should be open day and night. The patients soiled wash clothes and bed linen should be handled as little as possible when dry, but should be placed in water until ready for washing.

If the matter coughed up be rendered harmless, a consumptive may frequently not only do his own work without giving the disease to others, but may also thus improve his own condition and increase his chances of getting well.

No consumptive ought to kiss or be kissed, except on the cheek or brow.

Before eating always clean the hands and nails thoroughly. Men should in addition, wash the beard and mustache, or better still, keep his face clean shaven.

Sunlight and fresh air are never-failing disinfectants. Use them freely.

How to Prevent Consumption

Don't spit on sidewalks; it spreads disease and it is against the law.

Don't spit on the floor of your room, or your shop or hallways.

When you spit, spit in the gutter or into a spittoon. Have your own spittoons half full of water, and clean them at least once a day.

Don't cough without holding a handkerchief or your hand over your mouth.

Don't live in rooms where there is no fresh air.

Don't work in rooms where there is no fresh air.

Don't sleep in rooms where there is no fresh air.

Keep at least one window open in your bedroom day and night, fresh air helps to kill the consumption germs.

Fresh air helps to keep you strong and healthy.

Don't eat with soiled hands, wash them first.

Don't neglect a cold or cough.

How to Cure Consumption

Don't waste your money on advertised cures for consumption but go to a doctor. If you go in time you can be cured; if you wait until you are so sick you cannot work any longer, or until you are very weak, it may be too late; at any rate it will in the end mean more time out of work and more wages lost than if you had taken care of yourself at the start.

Don't drink whiskey, beer or other intoxicating drinks, they will do you no good, but will make it harder for you to get well.

Don't sleep in the same bed with any one else, and if possible, not in the same room.

Good food, fresh air and rest are the best cures, keep in the sunshine as much as possible and keep the windows open winter and summer, night and day. Fresh air night and day is good.

Stop That Cold

To check early colds or Grippe with "Preventics" means sure relief for Pneumonia. To stop a cold with Preventics is safer than to let it run and be obliged to cure it afterwards. To be sure, Preventics will cure even a deeply seated cold, but take it early—at the mere stage—they break, or head of these early colds. That's surely better. That's why they are called Preventics.

Preventics are Little Candy Cold Cures. No Quinine, no physic, nothing sickening. Nice for the children—and thoroughly safe too. If you feel chilly, if you sneeze, if you ache all over, think of Preventics. Promptness may also save half your usual sickness. And don't forget your child. If there is feverishness, night or day, Heroin probably lies Preventics' greatest efficiency. Sold in 5¢ boxes for the pocket, also in 25¢ boxes of 48 Preventics. Insist on your druggists giving you

for you, eat plenty eggs and other nutritious foods. The careful and clean consumptive is not dangerous to those with whom he lives and works.

Consumption is not communicable by the breath or perspiration.

Rooms which have been occupied by consumptives should be thoroughly cleaned, scrubbed, white washed, painted or papered before they are again occupied. Carpets, rugs, beddings etc. should be disinfected.

FISHERIES DISCUSSED.

Government Not Considering an Export Duty Upon Pulp

In Ottawa the other day the attention of the minister of marine and fisheries was called by Dr. Daniel to a press statement that Hon. Mr. Gummer, of the New Brunswick government, had been informed that under the fishery treaty between Canada and the United States, the regulations would apply to the spawning grounds of Grand and Little Manan and to other New Brunswick points near Passamaquoddy Bay and in the Bay of Fundy. Dr. Daniel said that if this was the case American fishermen would have authority to go right into St. John harbor and cast their nets. Not only that, but they could fish all the way up the St. John river. He wanted to know if the treaty and the proposed regulations would permit of this.

Mr. Brodeur stated that this was not correct, as the treaty clearly specified that the Americans would only have fishing rights on two sides of the international boundary and the Canadians would exclusively be restricted to fishing on the Canadian side.

Mr. A. K. McLean, of Lunenburg asked if there were negotiations in progress between the Dominion Fisheries Commission and the provincial authorities. He expressed the opinion that it was a most unfortunate thing that the decision of the privy council in the fisheries case had created a conflicting jurisdiction between the provinces and the Dominion in the fisheries. As far as Nova Scotia was concerned he believed the province would be willing to abandon any advantage given to it by this decision of the privy council and transfer them to the Dominion. He believed that the province would be willing to go as far as to favor an amendment of the British North America act to make it clear that complete jurisdiction and control of the coast fisheries belonged to the Dominion.

Mr. Brodeur stated that there had been no negotiations with the provincial authorities in regard to jurisdiction except casually during the past few days at the conference just concluded.

So Wilfrid stated to Mr. James that there had been no negotiation with the United States looking to a reduction of the duty on wood pulp and ground upon conditions which would prevent Canada placing an export duty on pulp wood. He also said that the government were not considering the placing of an export duty on pulp wood or ground pulp.

A bill was introduced by Mr. Turf to compel companies chartered to build railroads to do a certain amount of construction work each year or forfeit the charter.

Notice has been given by E. W. Lewis, of Amherst, to the Canada shipping act. The bill provides that every steam yacht or motor boat, used exclusively for racing purposes, over five tons displacement, shall be adequately equipped with life boats, life buoys, axes, etc., and that every steamship or steamtug, while occupied towing, shall carry a rocket gun and a distance of at least 200 feet.

Mr. Lewis has also introduced a measure providing that all Canadian registered sea-going vessels must be equipped with wireless telegraphy apparatus.

Wm. Fahey of Bass River, Kent Co., and M. VanBuskirk of Moncton, spent last week at St. Isidore, Gloucester Co., in connection with the coal mining development in that section. Others interested in the operation are J. Perron and Robertson Bros. The Government steam drill is at work and at the depth of 24 feet, they went through a seam of 20 inches was struck. At a depth of 498 feet last week the drill went through a seam of four feet.

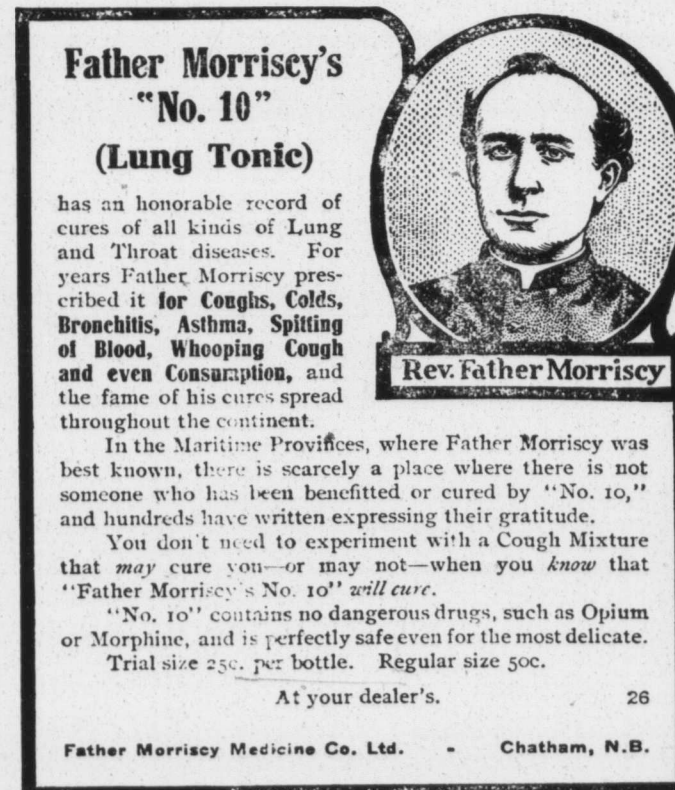

In consequence of this latest strike, the company are naturally feeling quite jubilant over the outlook.

Business Improving.

The financial depression in Canada, which has never been so pronounced as in some other countries, shows signs of improvement. The Dominion customs returns for February, 1909, were \$54,919 greater than for February, 1908.

A Mistake.

It was a mistake for Newcastle Town Council to vote down the proposition to send a delegate to the New Brunswick Union of Municipalities. This Union, representing the local legislative bodies of the province, provides the machinery by which many reforms may be effected, and at every meeting each town and county should be well represented. Among other important questions not yet settled is the matter of telephone rates. The refusal to send a delegate was a backward step.

THE WORKER BEING RECOGNIZED.

In olden times and until quite recently the chief honors within the gifts of governments were reserved for those who had distinguished themselves in war—those who had contributed most to the crippling and destruction of the people who, rightly or wrongly, were regarded as enemies of the nation. Even to-day, and among the most enlightened nations, too, this view has wide acceptance. But a more healthy view of what really constitutes greatness and entitles men to medals and other distinctions is rapidly gaining ground, as instanced by the founding, by His Majesty King Edward VII, of the Imperial Service Order, to which are admitted all civil servants who have been twenty-five years or more in the employ of any of the governments of the British Empire. The Long Service Medals will hereafter be worn not only by old soldiers who have killed men, but by lighthouse keepers, who have saved men's lives by keeping their lamps burning steadily; by railway workers who have averted disaster by the prompt distribution over their lines of fuel, food and clothing; by geologists, surveyors, and other civil servants whose work has been quite as effective in advancing the good of the country as has been the service rendered by the military.

The granting of Imperial Medals to all those who have served the country twenty-five years as a recognition on the part of the governing class of the true dignity of Labor is a promising sign of the times. More and more, as the common people push their claims for consideration, the laborer is advanced in the eyes of the public and deemed worthy of national recognition. This is just. The quiet steady toiler forms the backbone of the country, and without him progress is impossible. Therefore to him belongs all the honor he has so far been accorded and much more.

Behind the Times.

The New Brunswick government have notified the New Brunswick Temperance Federation that, seeing only 9,731 signatures were appended to the Petition in favor of Provincial Prohibition, and only 4,407 of those were secured in the license counties, which, the opinion shows that not even the counties under Scott Act, much less those under license, have any strong desire for provincial prohibition, does not see their way clear to grant a provincial prohibitory act at this time. They say that if the License counties want prohibition they can adopt the Scott Act, and even parishes of License counties can have the sale of liquor prohibited. All they promise the temperance people is the strict enforcement of existing license laws, and new legislation making it easier for parishes of license counties to banish the liquor traffic from their limits.

The small number of petitioners does not furnish conclusive evidence of the people's indifference. What the government should do is to take a referendum on the subject, thus giving every voter in the province a chance to express his opinion at the polls. Why are they afraid to submit the question to the electorate? The Kent-Norumberland Sons of Temperance demanded, not the arbitrary foisting of a prohibitory Act upon the people but the immediate referring of the matter of provincial prohibition to the voters for their decision. This influential body of Temperance workers has not yet been favored with an official reply to its demand, although its plan is most reasonable and in perfect accord with the most advanced principles of democratic government. The Conservative opposition of Alberta have adopted Direct Legislation by the Initiative and the Referendum, and also Proportional Representation and the Right of the electors to recall before the end of the term legislators who cease to suit their constituents; and the conservative government of New Brunswick shows no such laudable ambition to keep up with the times. In the path of political progress they are hopelessly behind.

It is now in order for the local opposition to declare their policy.

J. HOWARD CROCKER. SERIOUSLY ILL.

Sad News Flashed Over the Wires
From Denver, Colorado.

On Monday morning T. W. Crocker received several telegrams from Denver, Colorado, conveying the sad news that his son, J. Howard, had been taken suddenly ill and was then in St. Anthony's

"I can testify to the great merits of your Emulsion, especially in all diseases of a pulmonary nature. It has saved many lives that otherwise would have yielded to consumption. . . . we keep Scott's Emulsion in the house all the time and all the family use it."—MR. C. J. BUDLONG, Box 158, Washington, R. I.

Scott's Emulsion

does ALL it does by creating flesh and strength so rapidly that the progress of the disease is retarded and often stopped. It is a wonderful flesh builder and so easy to digest that the youngest child and most delicate adult can take it. If you are losing flesh from consumption or any other cause take Scott's Emulsion. It will stop the wasting and strengthen the whole system.

A GRAND KIDNEY MEDICINE

"Fruit-a-tives" Cured Him When Everything Else Failed.

Everton, Que., March 15th, 1908.
I wish to place on record, for the sake of others who may be suffering in the same way that I suffered, that no medicine I ever took did me so much real good as "Fruit-a-tives" did. I suffered for many years with Kidney Trouble, with bad pain in the back.

I took every known kidney remedy and kidney pill, but nothing gave me any relief, and I was getting discouraged.

I was advised to try "Fruit-a-tives" and did so—and this medicine cured me when everything else failed.

I used altogether fifteen boxes of "Fruit-a-tives" and from the outset they gave me relief and I am now practically well again; no pain, no distress, and all symptoms of kidney disease have entirely left me. I am very thankful to be once more well, and I freely make this statement for the sake of others who may suffer as I did. To them, I say try "Fruit-a-tives," as they are a grand kidney medicine.

hospital, Denver, and that his recovery was doubtful. His sister, Miss Bessie, has been with him in Colorado since last June; and on receipt of the news of their brother's illness, Frank and Miss Florence left Chicago for Denver to be with him.

Mr. Crocker's many friends in New Brunswick will be very sorry to hear of his illness. He was a graduate from the University of N. B., and gave promise of a bright and prosperous career. For a short time he was Principal of Newcastle Superior school, and about nine or ten years ago he was connected with the Editorial staff of the Union Advocate, and in that work, as in everything else he undertook, he was highly successful.

MAJORITY FAVOR CHATHAM

Department of Agriculture Yet to Be Satisfied.

Ottawa, Feb. 26.—At a meeting of the Liberal members of New Brunswick yesterday a vote was taken on the question of recommending the Dominion Exhibition grant for 1910. Messrs. Reid, Turgeon, Loggie, LeBlanc, Emerson, Michael and Carvell voted for Chatham, and Messrs. Pugsley, McLean, McAlister and Todd for St. John. The Government propose to send a commissioner to see whether Miramichi can accommodate enough people if it gets the Exhibition grant.

NORTON FLOUR MILL BURNED.

\$10,000 Plant and Much Grain Destroyed, and only \$1,000 Insurance.

Norton, N. B., March 1.—Harmes's flour, cornmeal and feed mill caught fire last night about 10 o'clock and in two hours was in ashes.

The mill and first class equipment was a total loss. The plant cost between \$9,000 and \$10,000 a short time ago. The insurance was \$1,000.

A car load of buckwheat from J. D. Irving, of Buettouche, which was shipped a few days before he was burned out, was stored in the mill as well as large quantities of barley, corn and oats.

About ten tons of manufactured goods were on the ground floor ready for shipment.

The engineer, Fred Leonard, was in the mill about 5 o'clock last night and everything was as usual. There was no night watchman. The origin is a mystery.

OBITUARY.

MISS MAUDE MCTAVISH.

At her home in Cassilis, Feb. 22nd, Maude McTavish, daughter of Mr. and Mrs. Allan McTavish passed triumphantly from this life to the home above, aged 32 years.

Religion to Miss McTavish was a life which continuously bore fruit.

She was of a pleasant disposition and was to the home as a ray of sunshine ever brightening it up. Her life was one of self denial and christian fortitude, never thinking of self, but always of the welfare and comfort of others. All who had the privilege of forming her acquaintance knew her to love her. Miss McTavish might well be termed a second Helen Keller in many respects. Having been deprived of her eyesight at an early age she was educated at the Halifax school for the blind, music being a speciality. In this branch of education she displayed a wonderful talent. She was organist of the Presbyterian church at Redbank for some years. She also taught music up to a short time before her decease. Although in declining health for the past few months, she was always able to be around the house until Saturday when she was confined to her room. She was conscious to the last and asked the family not to grieve for her telling them that in passing from this life to the one beyond it meant to her a happy release. She urged them all to meet her in heaven. For her to live, indeed, was Christ; to die, gain.

She leaves a sorrowing father and mother, three sisters, Mrs. John Russell of Maine; Mrs. Alex. McDonald, Black River and Sophia at home. Three brothers, Hazen and Weldon at home and William who is married and lives at Lytleton, Little South West. All were present at the funeral excepting her sister Mrs. Russell who was home in the summer season.

The funeral services were conducted by her pastor, Rev. E. Mowatt, who spoke in a very feeling and comforting manner to the mourners.

The family have the sincere sympathy of a large circle of friends.

DIED

At Chatham Head, Feb. 27th, Mary, infant daughter of Mr. and Mrs. Thos. McLachlan, aged 3 months.

WEDDING BELLS.

SEWELL-DAVIDSON.

A quiet wedding was celebrated on Wednesday evening, February 24th, at the home of the brides parents, Mr. and Mrs. Wm. P. Davidson, Upper Blackville, where Miss Jennie C., their second daughter, one of the most popular and highly esteemed young ladies of the place, in the presence of a few of their most intimate friends, was married to Thomas H. Sewell, of Fredericton, who graduated from U. N. B. at the age of twenty, and is a machinist.

The bride's wedding suit was of white silk and her travelling costume was of blue broadcloth with hat to match. The ceremony was performed by Rev. A. D. Fraser. After returning from their wedding trip they will make their home in Chipman, Queens county.

Mr. and Mrs. Sewell received many congratulations and wishes for a long and happy married life.

Suggestive Questions on the Sunday School

Lesson by Rev. Dr. Linscott for the

International Newspaper Bible Study Club.

March 7th, 1909.

Philip and the Ethiopian—Acts VIII: 26-40.

Golden Text—Ye search the Scriptures because ye think that in them ye have eternal life; and these are they which bear witness of me.—John 5:39.

Verses 26—When God directs us by circumstances or by a friend, or by an angel, is it just as much from God as though He spoke to us direct?

I do not know whether this angel was a devout man, or woman, or a mental picture, or a dream, or a spirit; but he, she or it, convinced Philip, that God wanted him to go South; now how did Philip know that the impression to go south was of God; and how may we know under similar circumstances? (This question must be answered in writing by members of the club.)

May any person who is not playing double with God, safely trust "the inward voice," to direct as to outward circumstances?

Verses 27-28—Philip found that he had not come on a fool's errand; now is it not invariably so, that results of to-morrow, always justify the faith vision of to-day?

Seeing this Ethiopian was a man of exalted position, in a foreign country, what was the significance of Philip being sent to him?

Verses 29—When Philip saw this man's chariot looming up in the distance, perhaps after days or weeks of waiting, with more or less doubt; he got the impression that this was his opportunity; now from whom did he get the impression?

With what sort of a voice did the Holy Spirit speak to Philip?

If we should learn that the Holy Spirit used the circumstances, and Philip's reasoning processes, his hope

and his fears, as God's voice, would that this really the voice of the Holy Spirit, as if words were spoken by God out of the clouds?

Is it always safe for us to do as the Holy Spirit tells us, as in this case?

Verses 30—Was this Ethiopian a devout man?

If a man devoutly searches the Scriptures, is he sure to find God?

If a man devoutly searches the book of nature, with a desire to obey her laws, is he sure to find God?

Verses 31-34—Where in the Bible is the passage which the Ethiopian was reading?

Is it always necessary, that someone should explain the Scriptures to us?

Can we understand the Scriptures without the aid of the Holy Spirit?

Why could not, or why did not, the Holy Spirit explain this Scripture to the Ethiopian direct?

As a matter of fact, was not the Holy Spirit guiding the Ethiopian as much as he was Philip?

Was Isaiah conscious when he wrote these words, that they applied to Jesus or did he think that he was describing some other person or persons?

Did not the prophets, as other inspired men, often write more wisely than they knew?

Verses 35-38—Did this Ethiopian need "converting" the same as a willful sinner, or did he, as a devout child of God, simply recognize Jesus as the son of God, and was then baptized in his name?

Verses 39-40—Was Philip, so to speak "spirited" away, or did he leave in a natural manner?

Letter from A FORTY-NINER

How is a simple, interesting and sincere letter from a rugged pioneer of '49, who braved the dangers and hardships of the overland trail to California. It should appeal to all catarrh victims.

Santa Rosa, Cal., May 3, 1908. Booth's Hyomei Co., Buffalo, N. Y.

Dear Sirs—I was afflicted with catarrh and tried a number of remedies, but received no relief. I purchased an outfit of Hyomei, and before I had used the bottle I noted a marked relief. I used it for a month or so, and thought I was cured, and stopped using it for a year or so. Thought I was getting catarrh again, and started using it again. I use it every morning, and keep myself clear of catarrh. I consider it the best catarrh medicine that is used. I have often recommended it to my friends. I am 81 years old. I came to California in 1849, and of course am not as vigorous as I was 58 years ago. My address is 841 4th Street, Yours truly, W. Mock.

Hyomei (pronounced High-o-mei) is guaranteed by T. J. Durick, not only for catarrh, but for grip, coughs, colds, bronchitis and croup. A complete outfit, including inhaler, costs only \$1.00, extra bottles at Hyomei. If after war is needed, cost but 30 cents.

TOWN COUNCIL

(Continued from page 1.)

motion of Ald. Morrissey and Doyle, the report of the Police Magistrate was referred back to the Police Committee for correction.

Ald. Belyea gave notice that at the next regular meeting a bye law will be introduced that the assessors be paid a fixed yearly salary.

The annual report of the Finance Committee was read, and on motion was received and ordered to be printed in the Town Report.

Ald. Belyea stated that the bonded debt of Newcastle was now \$179,000.

Permission to issue \$25,000 additional bonds was applied for, \$10,000 of bonds would be needed for new school houses.

This will bring Newcastle total bonded debt up to \$244,000, or nearly \$90 per head.

On motion of Ald. Morrissey it was decided to charge to Police and Light \$1500 for street lighting instead of \$1200 as formerly.

On motion of Ald. Morrissey it was resolved to apportion the Water and Light charges of the Water and Light Department as follows:—Water two-fifths of total light, three-fifths instead of as formerly, water one-fifth and light four-fifths.

OBITUARY

FREDERICK DRISCOLL

The many friends of Fred, youngest son of Benjamin Driscoll, will regret to learn of his early death which took place at his home in New Jersey, after two days' illness of diphtheria.

The deceased was thirteen years of age. He leaves, besides his parents, to mourn the loss, two sisters, Mary and Martha, and one brother, Maxine. Much sympathy is felt for the bereaved family.

MISS MARIE McEACHERN.

The death occurred late Friday night of Miss Marie McEachern, eldest daughter of Arch. McEachern, of Chatham, the well-known musician and orchestra leader. She was 19 years old and leaves to mourn her loss, her parents, six brothers and one sister. The funeral Sunday afternoon was very largely attended.

R. R. CROCKER.

Robinson Rowland Crocker died at the home of his sister, Mrs. E. N. Betts, Millerton yesterday morning, aged fifty-two years. Deceased was a well known and much respected citizen, and leaves a vacancy hard to fill.

He was the youngest son of the late Rowland Crocker. Besides his sister, Mrs. Betts, deceased leaves the following brothers: Timothy W. of Newcastle and Christopher and James of Millerton.

JAMES PAE.

The death of James Pae, an old and much respected resident, who until his removal here nine years ago, ran a blacksmith shop in Chatham, occurred on Wednesday morning. He was 81 years old and had for some time been afflicted with rheumatism, being confined to his bed since last September. He was a native of Scotland, coming to Millerton in his early boyhood. He was an adherent of the Presbyterian church. His wife was Miss Mary Gibbs, of Chatham, who died nine years ago. He leaves two sons: John, of Newcastle, and James of Denver, Colorado, and one brother, James, aged 83, in St. John. The remains were interred in Chatham on Friday afternoon.

ROBINSON EXONERATED

And Braithwaites License Is To Be Suspended.

Hon. W. C. H. Grimmer, Surveyor General, has given out his decision in the investigation of the charges preferred by "Uncle" Henry Braithwaite, the veteran hunter's guide, against Arthur Robinson, of New York, the millionaire sportsman and broker.

In his decision the Surveyor General finds Mr. Robinson not guilty of the charges preferred against him and recommends the suspension of Mr. Braithwaite's license as a registered guide for such time as the Government may decide.

Voys and Ganges who have been the Opera House are giving a show consisting of motion pictures and Vaudeville. They are greeted with a full house. Their good audience every night shows a complete change of program tonight and again on Friday and Monday. The music is abundant and excellent. Shelley is an elegant soprano, and Miss Mack, a spirited singer. Archie White, as old Jack, furnishes lots of fun. Mr. White is 55 years old, and well preserved, is a total abstemious from alcohol and tobacco. He started show business then after a successful career, retired for twelve years, and has now come on the stage again. He has acted many complimentary parts, from important personages, among whom is, Wm. J. Bryan, the great democratic leader for whom, though Mr. White has never voted, the shows that the company have been giving for ten cents, elsewhere cost much more money.

The Doctor's First Question
"How are your bowels?" This is generally the first question the doctor asks. He knows what a sluggish liver means. He knows what a long list of distressing complaints result from constipation. He knows that headaches, bilious attacks, indigestion, impure blood, and general debility are often promptly relieved by a good liver pill. We wish you would talk with your own doctor about this subject. Ask him at the same time if he approves of Ayer's Pills. Do as he says. J.C. Ayer Co., Lowell, Mass.

**"THIS IS
THE ROOFING
THAT NEEDS
NO PAINTING"**

THERE was a time when everybody bought roofings that required painting. It was the regular thing to do. In fact there was nothing else to do, for all roofings were "smooth surfaced" and required painting regularly to keep them from deteriorating.

Now there is Amatite, an improvement over painted roofings, having a real mineral surface imbedded in pitch—making a kind of flexible concrete.

This mineral surface needs no painting. The waterproofing material, Coal Tar Pitch, is the greatest enemy to water known. It is the base of many waterproof paints. Only in a paint the pitch is diluted and made into a thin film, whereas the Amatite waterproofing is solid pure Pitch—two layers of it. It would take something like a dozen coats of pitch paint to equal in thickness that upper sheet of pitch in which the Amatite mineral surface is buried. And under that heavy sheet of pitch is a layer of wool felt and under that another sheet of pitch, just as thick as the outer one. And below them all is another layer of strong felt. That makes two roofs in one.

If the storms were away the mineral surface and dug through the pitch and destroyed the felt, they would still be only half way through. And if the weather then removed the next sheet of pitch, you would still have left a final layer of felt—nothing more or less than an ordinary smooth surfaced roofing which could keep off the rain very nicely if painted every year or two.

But as a matter of fact, the weather never gets past that mineral surface securely gripped in its matrix of pitch.

The mineral surface is there to stay. No further expenses after the roof is once laid.

We should be glad to send you a free sample of Amatite, and you can see for yourself how much better it is than the smooth surfaced kinds.

LOCAL NEWS.

Campbellton Y. M. C. A. thinks of building a \$20,000 Hall.

The Intercolonial Railway station at Cross Creek on the Canada Eastern branch was destroyed by fire about noon Wednesday.

At Hoyt, Sunbury Co., one day last week, the house of T. S. Groat, station agent of the C. P. R., caught fire and his three sons, Charles Albert, Gordon Roosevelt and Willis Franklin, perished in the flames.

BIG LUMBER CUT.

Surveyor General Gummer estimates that this season's lumber cut on Crown lands, upon which the government will collect stumpage, will be in excess of 100,000,000 feet. Last year the lumber cut on Crown lands totalled 151,000,000 feet.

Among the horsemen who attended the Government sale of horses in St. John on Wednesday were: Sheriff O'Brien and Wm. Johnston of Nelson; and John Russell, Charles Sargeant, D. Doyle, R. H. Grenley, J. H. Whalen, T. Foley and others of Newcastle. None made any purchases, however.

Fortify now against the Grip—for it comes every season sure! Preventives—the Little Candy Cold Cure Tablets—offer in this respect a most certain and dependable safeguard. Preventives, at the "sneeze stage" will, as well, also surely head off all common colds. But promptness is all-important. Keep Preventives in the pocket or purse, for instant use. Box of 15 for 25c. Sold by all dealers.

W. C. Paver, secretary of the I. C. R. Employees Relief and Insurance Association, has submitted his monthly report for February. There are four deaths among the members of the association in this period, with total insurance of \$1,000, divided into amounts of \$250 each. The deaths were James Gould, of Moncton; David Cool, of Newcastle; N. Marier, of Lewis; and M. Morrison, St. John, the latter being a retired member. The fees and levies for the month are: Class A, \$1.10; Class B, 80 cents, and Class C, 65 cents.

HOUSE BURNS WHILE

BOTH PARENTS AT WORK.
No. 250 Duke St., St. John, a one-story, two-roomed house, occupied by Mr. and Mrs. Fred Boyd, and their three children, was destroyed by fire Saturday morning about 11:30. Mr. and Mrs. Boyd got an early breakfast and both went out to work, leaving the children in bed, and a fire burning in each room. Shortly after ten o'clock smoke was seen issuing from the house. The children were heroically saved by a colored lady, Miss Higgins, the nearest neighbor. The contents of the house were completely destroyed.

5,000 FACTS ABOUT CANADA.
The public will welcome the 1909 revised Edition of this valuable booklet, which has been happily described as a tabloid encyclopedia of Canada. It is unique and clever in its arrangement as worked out by its compiler, Mr. Frank Yeigh, of Toronto, the well known writer and lecturer. 20,000 copies have already been sold. The resources, wealth and business of the country are given in a concrete form—a fact in a sentence. Mr. Hamar Greenwood, M. P. for York, Eng., says: "It is an eye-opener to even a keen Canadian like myself." A copy may be had for 25 cents from the Canadian Facts Publishing Co., 167 Spadina Ave., Toronto.

PRESENTATION OF

FUR-LINED COAT.
On Friday evening, February 26th, a large number of the friends in connection with Underhill Baptist church, gathered at the residence of their pastor Rev. F. T. Snell, in Blackville. The gathering having been called to order, Mr. Hugh Fickenson, on behalf of the churches at Underhill and Upper Blackville and friends in other communities, presented the pastor with a handsome and expensive fur-lined coat. In thanking the donors for the same, the Rev. gentleman said, while he had heard some rumors concerning the coming gift, the realization of the same for execution is most sanguine expectation. He thanked God for so thoughtful and generous a people. Music, singing and refreshment followed. Lottie Underhill presided at the organ.

Rev. A. W. Williams of St. John occupied the Baptist pulpit here on Sunday.

SUCCESSFUL OPERATION.

Mr. George W. Mersereau, school inspector of Doaktown, was operated upon at the Moncton City Hospital one day last week and is reported to be doing well.

EYE SPECIALIST COMING.

O. J. McCully, M. D. M. R. C. S. Land Specialist in diseases of the eye, ear, nose and throat, will be at the Robertson House, Bathurst, Thursday, March 18th, where he may be consulted. P. No. 21-2 wks.

Daniel Madden, a restaurant proprietor, and William McMullin, proprietor of the Hotel Windsor, were taken Friday to Dorchester by the police, being arrested on commitment papers, as the result of a sentence of one month for Scott Act violation. — Moncton Times.

Have you a pain—of any kind, anywhere? Stop just a minute, and think! It matters not whether it be womanly pains, head pains, or any kind of a pain, one of Dr. Shoop's Little Pink Pain Tablets will surely stop it in 20 minutes. Formula plainly printed on the 25c box. Sold by all dealers.

The Black River Presbyterian church has issued a directory for 1909. In 1908 the congregation had 81 families in Black River, 37 in Napan and 13 in Hardwicke. There were 282 communicants, 43 of them new members. Four couples were married, and 25 infants and 2 adults baptized. 14 of the flock died. The finances were well managed. The pastor is Rev. A. J. W. Myers.

If you know of an item or piece of news tell us about it. That's what we want. But a newspaper man sometimes experiences more difficulty in gathering news than one would imagine. This was the case with a reporter in a certain town, who a few days ago was sent to write up a fire in a house in town. Going to the door he enquired for the lady of the house. The maid said she was out. "Are any of the family at home?" inquired the scribe. "No, they are all out," was the reply. "Well, wasn't there a fire here last evening?" "Yes," said the maid, "but that's out too."

CLOSE GAME OF HOCKEY.

Newcastle and Millerton Hockey teams had an exciting game, at Millerton, Friday evening, when the town boys were beaten, 13 to 15. The line up was:
Newcastle. Millerton.
Goal—W. Malby. H. Parker
Point—J. Wood. W. Peterson
C. Point—E. Wiseman H. Crocker
Centre—A. Ritchie J. Murphy
Rover—D. Ritchie G. Langin
R. Wing—C. Barton Geo. Peterson
L. Wing—K. Hennessy W. Robinson
Arthur Doran and Willis Nicholson were timekeepers.
After the game an excellent supper was served.

A failing tiny nerve—no larger than the finest silken thread—takes from the heart its impulse, its power, its regularity. The Stomach also has its hidden nerve. It was Dr. Shoop who first told us it was wrong to drug a weak or a failing Stomach, Heart or Kidneys. His prescription—Dr. Shoop's Restorative—is directed straight for the cause of these ailments—these weak and faltering inside nerves. This, no doubt, clearly explains why the Restorative has of late grown so rapidly in popularity. Druggists say that those who test the Restorative even for a few days soon become fully convinced of its wonderful merit. Anyway, don't drug the organ. Treating the cause of sickness is the only sensible and successful way. Sold by all dealers.

Wednesday evening was the fifty-fifth anniversary of the organization of Richibucto Division, No. 12, Sons of Temperance. It was also the night on which the division meets each week. It therefore planned to celebrate by inviting the various divisions throughout the county, preparing an interesting programme and providing a lunch with fruit and confectionery. A snowstorm came up in the afternoon, however, with a heavy southerly wind. About sunset it turned to rain and this, together with the icy state of the roads, prevented many from assembling to enjoy the good things provided. However, Harcourt was represented, Rev. R. H. Stavert and Miss Ethel Wathen being present; a number came from town and all present declared the celebration a splendid success.

Nothing in the way of a cough is quite so annoying as a tickling, teasing, wheezing, bronchial-cough. The quickest relief comes perhaps from a prescription known to Druggists everywhere as Dr. Shoop's Cough Remedy. And besides, it is so thoroughly harmless that mothers give it with perfect safety even to the youngest babes. The tender leaves of a simple mountain shrub, give to Dr. Shoop's Cough Remedy its remarkable curative effect. A few days' test will tell. Sold by all dealers.

LONG SERVICE MEDALS

Presented to Veterans of the Intercolonial Service.

A very pleasing function took place in the waiting room at Newcastle station Saturday afternoon when District Superintendent Evan Price, on behalf of the government, presented Wm. Henry Bell, Car Inspector, with an Imperial Long Service Medal.

Mr. Price said it was a great honor to present a medal to one of the old guard. Highest soldiers of twenty-five years or more received medals, but, some years ago, King Edward decided that all government employees of over twenty-five years were equally entitled to public honors. He hoped Mr. Bell would see many more years.

Mr. Bell made a fitting reply. Friday evening, at Harcourt, similar presentations were made to Michael Macdonald, tankman, and James Chrystal, section foreman. On Friday afternoon, a medal was presented to the widow of Charles Bingley Dunham, of Cannan, Monday. Donald Stewart McKay of Dalhousie Jct. received his medal at Campbellton. One is due the heirs of Thos. McLean, deceased, who was formerly section foreman at Petit Rocher.

Mr. Bell's time of service was from May 1871 to Sept. 30, 1907; Mr. Macdonald, Nov. 1875 to April 30, 1907; Mr. Chrystal, April 1876 to June 30, 1907; Mr. Dunham, May 1877 to April 30, 1907; Mr. McKay, April 1880 to Nov. 30, 1908; and Mr. McLean, from Nov. 1875 to April 30, 1907.

GENTLEMEN.—My daughter, 13 years old, was thrown from a sleigh and injured her elbow so badly it remained stiff and very painful for three years. Four bottles of MINARD'S LINIMENT completely cured her and she has not been troubled for two years. Yours truly,
