COMMUNICATION.

To the Editor of the Standard.

Sir,—As an advocate for social gatherings, I feel much pleasure in giving publicity to one of them on Thursday the 14th inst., that of the "Clamcook Sunday School Festival."

The place chosen was the lawn of John Wilson, Esquire. There were present on this beautiful spot from 50 to 60 children, who with Teachers, and a large number of parents and friends made up a goodly meeting.

I do not know that I ever witnessed a more enlivening scene—the day was fine and every arrangement had been made for the children's enjoyment, the tables set out upon the green, and covered with the "sweets of life," had every justice done them. In absence of Rev. Doctor Alley who, I hear, was unable to attend, through sickness of his nephew, the Principal of the School delivered a very appropriate address, and throughout the day, the greatest order, and sociality prevailed.

The Squire (as he is called) and his good lady shared in the happiness of the merry-makers, and seemed as though they had again entered upon

"Life's gay morn when brightly youth
With vital ardor glows,
And shines in all the fairest charms,
Which beauty can disclose."

I do not think that too much praise can be bestowed upon the promoters of these benevolent undertakings. I mean "Sunday Schools," they are the basis of morality, the groundwork of religion; and many a dying person has blessed with his last breath, the institution in which he was taught the principles of religion and the assurance of immortality.

Yours, &c.

A GUEST.

THE FIGHTING PREACHER.

The western ruffians (who were the *Terminus* of the American ministry of the day) were unusually brawny, athletic men; physically, if not mentally, educated almost to perfection. They had occasion sometimes to preach to their rude hearers with their fists as well as their stentorian lungs.

At a camp meeting, says Mr. Finley, a row was raised on Saturday by about twenty lawless fellows of the base sort, who came upon the ground intoxicated, and had vowed they would break up the meeting. One of the preachers went to the leader for the purpose of getting him to leave; but this only enraged him, and he struck the preacher a violent blow on the face and knocked him down. Here the conflict began. The members saw that they must either defend themselves, or allow the ruffians to beat them and insult their daughters. It did not take them long to decide. They very soon placed themselves in an attitude of defence.

Brother Birkenner, an exceedingly stout man, seized their bully leader, who had struck the preacher, and with one thrust of his brawny arm, crushed him down between two benches. The aid-de-camp of the bully ran to his relief, but only to meet the same fate; for no sooner did he come within reach of the Methodist, than with crushing force he felt himself on the ground on the back of his comrade in distress. Here they were held in defiance till the sheriff and his posse came and took possession, and binding them with ten others, they were carried before a justice who fined them heavily for the misdemeanor. As soon as quiet was restored, Bishop Ashbury occupied the pulpit. After singing and prayer, he rose and said he would give the rowdies some advice.

"You must remember that all our brothers in the church are not yet sanctified, and I advise you to let them alone; for if you get them angry, and the devil should get in them they are the strongest men to fight and conquer in the world. I advise you if you do not like them, to go home and let them alone."

In speaking of one of his brother itinerants one to whom it was owing "that Methodism is now the prevailing religion of Illinois," he says:—

At the camp meeting held at Alton, in the autumn of 1833, the worshippers were annoyed by a set of desperadoes from St. Louis, under Mike Fink, a notorious rowdy, the triumphant bully of countless fights, in none of which he had ever met an equal or even a second. The coarse, drunken ruffians carried it with a high hand—outraged the men and insulted the women, so as to threaten the dissolution of all exercise, and yet such was the terror the name of their leader—Fink—inspired, that no individual could be found brave enough to face his prowess.

At last, one day, when Mr. — ascended the pulpit to hold forth, the desperadoes on the outskirts of the encampment raised a yell so deafening as to utterly drown every other

sound. Mr. —'s dark eyes shot lightning. He deposited his Bible, threw off his coat and remarked aloud:—

"Wait for a few moments, my brethren, while I go and make that devil pray."

He then proceeded, with a smile on his lip, to the focus of the tumult, and addressed the chief bully thus:—

"Mr. Fink, I have come to make you pray."

The desperado rolled back the tangled festoons of his blood red hair, arched his huge brows with a comical expression, and replied:—

"By golly I'd like to see you do it, old snorter."

"Very well," said M. —, "will these gentlemen, your courteous friends, agree not to show foul play?"

"In course they will; they're role grit, and won't do nothing but the clean thing, so they won't," rejoined Fink, indignantly.

"Are you ready?" asked M. —.

"Ready as a race horse with a light rider," replied Mike, squaring his ponderous person for the coming combat.

But the bully spoke too soon, for scarcely had the words left his lips, when M. — made a prodigious bound toward his antagonist and accompanied it with a quick, shooting punch of his herculean fist, which hurried him to the earth like lead. Then even his intoxicated comrades, filled with involuntary admiration at the feat, gave a cheer. But Fink was up in a moment and rushed upon his enemy, exclaiming:—

"That wasn't fair, so it wasn't."

He aimed a ferocious stroke which M. — parried with his left hand grasping his throat with the right crushed him down as if he had been an infant. Fink struggled, squirmed, and writhed in the dust; but all to no purpose; for the strong muscular fingers held his windpipe, as in the jaws of an iron vice—When he began to turn purple in the face, and ceased to resist, M. — slackened his hold, and inquired:—

"Will you pray, now?"

"I doesn't know a word how," gasped Fink.

"Repeat after me," commanded M. —.

"Well, if I must, I must," answered Fink because you're the devil himself!"

The preacher then said over the Lord's prayer, line by line, and the conquered bully responded in the same way, when the victor permitted him to rise. At the consummation, the rowdies roared three boisterous cheers.—Fink shoght M. —'s hand exclaiming:—

"By golly, you're some beans in a bar fight. I'd rather set to with an old bear in dog days. You can pass this ere crowd of nose smashers with your picture."

Afterwards, Fink's party behaved with the utmost decorum, and M. — resumed his seat in the pulpit.

TWO WEEKS LATER FROM CALIFORNIA.

The Prometheus, with San Francisco dates to the 1st September, arrived at New York on Monday last, with \$1,000,000 in gold and 361 passengers.

Political affairs are the chief theme of the California papers.

The mining news is very cheering, although scarcity of water retarded operations somewhat in certain localities.

Two men, foreigners, detected in disposing of stolen cattle at San Antonio, were dragged out of the prison where they had been confined, and hung to the nearest tree without any kind of trial.

Three towns, Mokelumne Hill, Campose, and St. Louis have been burnt. Total loss, \$800,000.

Emigrants were pouring in rapidly by way of the Plains. Chinese were arriving in great numbers—no less than 2400 in the fortnight.

Two tribes of Digger Indians had had a pitched battle on the 22nd at American Flats El Dorado county. At last accounts five warriors had been killed, and many wounded. The fight was still going on.

During the month of August only 50 deaths occurred among the adult population of San Francisco. The City was never more healthy.

An association of citizens of foreign birth had been organized at Sacramento, in opposition to the Know Nothings.

News from Nevada to 28th, says that French Coral, a town of 75 to 100 houses, had been burnt the previous night.

The sloops of war seen going into San Francisco when the last mail left were the Amphitrite, British, and Artemise, French.

San Francisco, Aug. 30.

Business has not improved during the past fortnight, and importers have made few sales of magnitude, notwithstanding the orders from the East to realize. Dealers have ample stocks to meet any ordinary demand.

Advices from all parts of the country are favorable to trade, although the miners have been unprecedentedly successful. The ad-

VICES from the East per Brother Jonathan will tend still further to depress rates. Several vessels have cleared, and sixteen are up for Atlantic ports.

Loss of the Steamer "City of Philadelphia"—A telegraph despatch received at the News Room yesterday from Halifax, announces the loss of the steamship City of Philadelphia, near Cape Race, Newfoundland, on the 7th Sept., being out 8 days and a few hours from Liverpool, bound to Philadelphia. The passengers were all saved.

At the time of the disaster which was 11 p. m., she was running ten knots, and the night was very dark and stormy. After striking on Cape Race, she backed off and ran aground in Chance Cove, 7½ miles north of Cape Race, and lies in three fathoms water. About 8 feet of the stem are turned, and she has a hole in her bottom. The water extinguished the fires before she ran aground. Her cargo is valued at \$60,000, all in the lower hold being damaged. The Telegraph Company's steamer took one hundred of the passengers to St. John's and left again to render every assistance possible. One hundred and fourteen of the passengers landed at Halifax on Tuesday morning; the rest are at St. John's awaiting a conveyance.

The City of Philadelphia was a new English screw steamer, on her first voyage, and was commanded by Capt. Leitch. She had 540 passengers on board.

BUCHAREST.

Seen at a little distance, Bucharest appears a very handsome city. It contains some three hundred churches, and each of these have two or more tall spires. Most of the public buildings are also crowned by turrets or domes. Every spire, turret and dome is covered with tin. A thin gauze-like vapour hung upon the lower buildings, softening their outlines; and above this waving cloud rose the thousand domes, spires, and turrets sparkling with almost dazzling brightness in the sun. They crowned the city like a silver diadem.

Bucharest covers as great an extent of ground as Paris, but a third of the space is taken up with gardens, so that one saw the bright green foliage of the trees, appearing here and there above the shadowy vapour, and this served to increase the charming effect of the whole scene. I was not so much disappointed as I expected to be on entering the city. After passing the gate, where, as I need not say, I had to show my passport, and answer the three hundred questions in the Russian police catechism, we drove through a long faubourg of alternate gardens and one-storied houses, till we reached a broad well built street, containing some fine buildings. This is the part of the city inhabited by the wealthier Spanish Jews.

We then rolled on through three or four streets, with handsome shops on either side, and full of bustle, till we reached the post-office. Except in the principal streets, few of the houses in Bucharest exceed two stories in height. The place was formerly subject to shocks of earthquake, which was the reason for making the dwellings so low. There is a great deal of ornament about most of the newly built houses, succeed friezes, pilasters, and brightly painted or gilded balconies. The taste may be considered tasteful in England or France, but after the shaly houses of Turkey, the effect was very pleasing. Some of the small private houses, situated in the less frequented streets, with their projecting roofs, the whole embowered in trees, are very picturesque. The palace of the Hospodar is an unpretending building of two stories high, situated in the principal street, with a large court in front. Bucharest has an opera house, elegantly built, and capable of holding seven or eight hundred persons. We found an English prima donna succeeding with an audience chiefly Russian. The city is surrounded by a promenade, which on a fine afternoon, is crowded with vehicles. At one end is a triumphal arch, lately raised in honor of Nicholas.

THE FIRST TIME IN LOVE.—A youth who is in love for the first time is wonderfully romantic. The beloved object is far from ordinary mortality, and he could do more than humanity ever did before for her sake. He half wishes that somebody would run away with her, that he might ride upon a black horse, draw a pistol, and shoot his villain, and carry her back all in secret, slipping and unslipping upon his shoulders; and her father would then take his head in both of his, and make some elegant remarks. He cannot think anything more joyous than to live with her in some old castle, very far from steamboats, and post-offices; and pick geraniums for her hair, and read poetry with her under the shade of very dark ivy vines. And he would have a charming boudoir in some corner of the old ruin, with a harp in it, and books bound in gilt, with cupids on the covers, and a fairy couch with curtains hung upon carved doves. These first kindlings of love are very pleasant, but are they lasting?—(Home Journal.)

THE CZAR NICHOLAS.
An English journal quoted by Zion's Herald, sums up a long article on the policy and conduct of the Czar Nicholas, with the following terrible picture of that grasping Sovereign's wretchedness. Yet there is, doubtless, enough of truth in his statements to prove that the Czar must very fully sympathize with the sentiment of Shakespeare's Hamlet IV.

"Uneasy lies the head that wears a crown."

Thus has the proud man, the Emperor of all the Russias, passed his fifty-eighth birthday, sitting among the wreck of all his idols. They are of clay; and it is his own iron will that has shivered them all. Instead of achieving territorial extension, he has apparently brought on the hour of forcible dismemberment of his empire. Instead of court gaiety, his childish vanity has created only the mirk which breaks the heart and undermines the life. Instead of securing family peace by the comprehensive power of his will, he has made his sons the slaves, instead of himself the lord of their passions. Hated by his nobles; liked only by those who can give him no aid, and receive no good from him; drawn by his own passions to sacrifice them in hecatombs, while they fix their eyes

on him as their only hope; tricked by his servants all over the empire; disappointed by his army and its officers; afraid to leave his capital, because it would be laid waste as soon as his back was turned; cursed in all directions for the debt of his nobles, the bankruptcy of trade, and the hunger of his people; conscious of the reprobation of England and France, whose reprobation could be no indifferent matter to Lucifer himself; finding himself out in his count about Austria, and about everybody; but his own despised brother of Prussia, and (as an after-though) Naples; and actually humbled before the Turks; what a position for a man whose birth day once seemed to be an event in the calendar of the universe! Be it remembered the while, that he is broken in health and heart. He stoops as if burthened with years; he trembles with weakness because he cannot take sufficient food. The eagle glance has become wolfish. The proud calm of his fine face has given way to an expression of anxiety and trouble. He is perhaps the greatest sufferer in Europe, and let him be regarded accordingly. But, as we need not say, he is totally unfit for the management of human destinies.

Those who may be subject in the night time to that excruciating pain called cramp, may be secure against its attacks by tying any kind of a bandage very tightly round the leg, immediately above the knee; or it may be remedied by breathing forcibly, and taking long respirations, thus exciting the action of the lungs, which means the whole system will be animated, and perhaps in less than a minute the disorder will be abated, and the pain effectually removed.

FIRE AT QUEBEC.—We learn from the Quebec Observer extra of last Thursday that on the night previous a fire broke out in the officers quarters of the Royal Artillery above the mess room, it is believed from a defect in the chimney, and had been long smouldering. The military and firemen made incredible exertions to save the building and finally succeeded, although the two upper stories were completely gutted.

We are pleased to find by a paragraph in the Freeman that New Brunswick ships continue to add to their fame as sailing vessels. United States Marshal Sept. 20.—The Unconsiderable savit Attorney, Mr. John Mc —'s Successor of information for the guide; been actively engaged for — fitting out vessels in New York for the purpose of trafficking in slaves. According to H arrants were endorsed by Mr. Pillsbury to Marshal, as Mr. Horton, one of his deputies, and — for Nevins. Nevins then mounting succeeded in procuring the captain of the brig Julia Moulton, No. 362 Water street, where he was accused in the back passage. The following is a copy of the affidavit which implicates the captain:— James Willis, of the city of New York, mariner, being duly sworn, deposes that A. Smith, a citizen of the United States, being master of the brig Julia Moulton, a vessel navigating for and on behalf of the said Smith, did, sometime in the month of April, 1854, within the admiralty jurisdiction of the United States, on the coast of Africa, on the water, feloniously, unlawfully, and against the laws of the United States, and to the prejudice of the said States, with the intent to make such negroes, and each of them, slaves.

It further appears that after loading the 600 slaves on the island of Cuba, from the coast of Africa, the brig was bound to the office with which the captain had bargained a capital one, involving the forfeit life of him, and is therefore notailable.

The party arrested by officer Nevins on a charge of fitting out the vessel, contrary to the act of 1815, is a highly respectable ship chandler down town, and well connected in the city. We forbear giving his name until an investigation takes place, and the allegation is found to be true or false. The District Attorney imposed a rule of bail of \$40,000 on this gentleman, which was entered into by three responsible sureties before Mr. Commissioner Morton, by whom the warrants of arrests were issued.

If you are vexed or angry you will have two troubles instead of one.

European Intelligence. SEVEN DAYS LATER FROM ENGLAND.

The steamship America arrived at Halifax a little past 7 o'clock on Thursday morning, with Liverpool papers to the 16th inst.

The steamer Arctic arrived at Liverpool on the 13th. The Alps sailed from Liverpool on the 13th, for Boston, and the Liverpool on the 13th, for New York the same day, with 260 passengers.

The Commercial news exhibits little change. Breadstuffs remained at former quotations, except Flour, which was 64 per dealer.

The Cotton market continued in the same dull and irregular state as for some time past. Provisions generally were unchanged.

Iron was steady at £7 10s. to £7 15s. Bars £10 to 15. Wales; Scotch Pig £8 3.

Money was active. Consols closed at 95 3/4 to 95 1/2. Decrease in the Bank of England £46,400.

Canada 6 per cent Bonds were at 108 to 109.

Five ships with 600,000 sterling in gold had arrived during the week from Australia.

Freights from Liverpool to the U. States had slightly improved, with diminished tonnage—Passengers to New York £1; hardware and coarse goods 12s 6d; fine goods 17s 6d.

The Queen and Court are at Balmoral, Scotland. David Scott, Richmond & Co., Manchester, have failed; liabilities heavy, and may affect several Liverpool firms—Crane, Dale & Co. have also failed.

The celebrated yacht America is advertised to be sold.

THE WAR NEWS.

The Crimea expedition had sailed. It is the largest naval expedition in the annals of warfare, consisting of 700 ships, carrying at once 70,000 men, with horses, guns, pontoons, provisions, and all the materials of war.

The fleet musters 25,000 sailors, and 3,000 cannon. The land force comprises 20,000 English, 35,000 Turks, 10,000 Egyptians, 5,000 Austrians, and 5,000 of other nationalities.

The greater part of the British squadron, with the British troops on board, left Varna on the 3d, and on the 5th, the French, under St. Arnaud, and the Turks, left to join the British at Fidonia, or Serpent Island, off the mouths of the Danube.

The debarkation will take place at Point Baha, near the mouth of the river Kavcha, where there are 15 fathoms water. When landed the Allies will entrench themselves.

The Russian army must be beaten in the field, and the Allies will occupy the heights about the city.

From sea, Fort Constantine, mounting 110 guns, will be the principal object of attack. A position is already discovered whence the Russian fleet can be deflated, and either set on fire in the harbor or compelled to come out and fight.

Not much is known of the Russian preparations. Prince Menchikoff personally conducts the defence of Sebastopol. He attaches great importance to the fortifications of Oozakos and Kherson, and some thousand men are occupied in strengthening these places.

Continual reinforcements arrive at Odessa, and on one day six thousand men are a full garrison in ships are being con-

A new levy of 1 men in a thousand is ordered throughout the West of the Empire. There are strange rumours current that French Admiral Ho- lin strongly opposes the Sebastopol expedition; that St. Arnaud takes the sole responsibility, and that sealed orders were on the way from France to stop it when the expedition sailed. These may be r- diers.

The correspondence of the London Daily News reports a disagreement already between Omar Pacha and the Austrian Commanders.

Asia.—The Russian army corps lately operating under Prince Bebutoff against the Turks on the frontier of Georgia, has made a sudden and unexpected retrograde movement towards Geniri. The Turks found the Russian camp deserted and guns spiked.

Not known whether the retreat was caused by the presence of Schamyl with a large force near Tiflis, or from the report of the allied movements in the Black Sea.

The movement gave rise to a report that Schamyl gained a great victory at Tiflis. The Russians are said to have lost 7 guns, 3,000 tents, &c.

The Times of August 25th says, the rupture between Persia and the Parie is complete.

Austria and Prussia.—The Western Powers have expressed themselves satisfied with Austria's resolve to remain for the present in armed neutrality.

The Germanic Diet resumed its sittings on the 14th, when the Prussian Representatives would inform the Diet that Prussia never having bound herself by the guarantee demanded by the Western Powers, will in future remain strictly neutral.

France.—Military exercises continue at Bologne. On the 13th, the Emperor reviewed 10,000 troops in camp at Ambletuse. On the 14th, a grand sham battle was enacted; invading army of 40,000 advanced from St. Omer to attack Bologne, was met by army of defence, also of 40,000; and after immense fire and smoke, Bologne was supposed to be taken. On the 16th, the Emperor returned to Paris.

A loan of 400,000,000 francs is proposed. The French Minister is recalled from Berlin.

The Cholera is rapidly abating in Paris. SPAIN.—Intelligence from Madrid is important. The Republican party is extremely active, and a new outbreak is considered near.

It has been discovered that Republicanism is extensively organized, and almost ready for action throughout Spain. A programme of the intended movement is clandestinely circulated. The Marquis of Albalade, the recognized head of movement, has gone into concealment, the better to direct the secret operations; opinion connects Mr. Soule's absence with the same cause.

Christina has arrived at Lisbon—she travels under the name of Countess Dirmende, and will embark at Oporto for France. The Count of Montemolins has issued circulars to the Chartists, advising them to remain quiet.

SWITZERLAND.—The arrest of Mazzini at Basle is reported.

AUSTRIA.—It is reported that Count Berol will soon be superseded by Count Frederic.

A plenipotentiary from Prince Danie, of Montenegro, is in Vienna, offering to transfer allegiance to Austria, for a yearly subsidy.

ITALY.—The Government of Modena has ordered all the arms in the City of Carrara to be given up within 15 days. More executions had taken place at Parma.

INDIA AND CHINA.—Trade in India is favorable. Trade in China very dull. Great confusion at Canton. The insurgents have taken several places near, and threatened Canton.

Holloway's Ointment and Pills, a Universal Remedy for Old Wounds and Obsolete Sores.—Mr. John Mackie, proprietor of the Northern Ensign, Wick, informs Professor Holloway, by letter, dated April 3, 1853,

"That he is aware of numerous instances in which Holloway's Ointment and Pills have been of the greatest service to sufferers in that part of the country, more especially as regards wounds of long standing, and that he could, if permitted, give the names of many respectable parties who have been entirely cured by their use."

No family should be without a supply of these excellent medicines, which are so justly celebrated throughout the civilized world.

Richmond Railway Completed.—The Railway from Quebec to Richmond, on the River St. Francis, was opened on the 19th instant. A train bearing Sir Cusack P. Rodney, and other gentlemen came through from Montreal to the Point Levi in eight hours.

By this Railway Quebec is 162 miles from Montreal, and 320 miles from Portland, Me.

The Quebec Chronicle of the 23rd instant announces that the Bill adopting the provisions of the Reciprocity Treaty was passed through both Houses of Parliament the previous night, and the Governor's assent was to be given that day.

THE STANDARD.

WEDNESDAY, OCT. 4, 1854.

ENGLISH NEWS.—In our columns this morning, we give extracts of the latest news received by the steamship America, from which it may be seen that the best understanding exists between England and Prussia as to the operations carried on by them against Russia.

The papers state that Prince Albert was warmly received by the Emperor of the French, at Boulogne, and the people evinced their feelings in the most enthusiastic manner. The report of the withdrawal of the allied fleets from the Baltic, is contradicted. The harvest in Great Britain is reported to be most bountiful.

We are requested to announce, that the Rev. Mr. DONALD from St. John, will preach in the Scotch Church in this Town, on Sabbath next, 8th inst., in the morning and afternoon.

There has been no small share of surmise as to the writer of the letters which have appeared in our columns over the signature of "Civis;" and it is amusing to hear the paternity placed upon Mr. A, B, C, or D. In one instance the name of the writer has been demanded, but we need hardly say, the person went away "as wise as he came."

The editor of a newspaper, which professes any independence, is sure not to "lie upon a bed of roses,"—for whether he or a correspondent says anything on any topic of general interest to the community, that is unpalatable to individuals—his office is entered by offended patrons, and he is catechised and even threatened; so that whether he does his duty or perchance neglects it, he meets with abuse—and perhaps an order "to stop the paper," and an intimation that he is running a risk of losing his friends.

These very parties will talk about the constrained to say they would, if they could,—muzzle the press—merely because the editor is guilty of the crime of having an opinion of his own and the independence to give expression to it.

BREADSTUFFS.—Notwithstanding the panic about "short crop," prices of breadstuffs have steadily declined,—and there is every reason to believe that instead of the "hard winter" which many predicted, the poor will have a supply of the necessities of life at far more reasonable rates than were anticipated. The following comparative statement will show the decline in flour in a single week at New York:

Tuesday, Sept. 19. Tuesday, Sept. 26. Com S Flour, \$8.75 25,87 1-2 \$7.50 27,02 1-2 Good do 8.87 1,229.00 7.00 27,57 1-2 Choice do 9.00 9,12 1-2 7.25 1,228.00 Br: Genesee 9.25 210.50 8.37 1-2 229.75

Even at this decline, the market is depressed, and holders are free sellers, while buyers are looking for still lower rates.—N. Y. Jour. of Com.

FIRE.—The house owned and occupied by Mr. Rice, within two miles of this Town, was destroyed by fire last evening about 5 o'clock; the furniture &c., was saved. It is supposed that the fire caught some matting near one of the stoves, and the flames had made such headway before being discovered, that all efforts to save the building proved unavailing. The House was insured—but Mr. Rice's loss is considerable. We give the report as it reached us just before going to press.

COMMERCIAL BANK.—A run was made upon the Commercial Bank, St. John, last week, which originated from a forged note of the Bank of British North America, having been offered at the Bank, and withheld. Specie having been readily paid out by the Bank, for their notes the panic, soon ceased. A sounder, more stable, and better conducted institution is not in the Provinces, than the "Commercial." It is reported, there are several forged notes of British North America Bank, in circulation.

Homicide by a Giant.—At the Canadian Exhibition now being held at Quebec, a French Giant, named Jean Antoine Joseph Bihin, was for some days exhibited. He is described as being "a native of France, seven feet nine inches in height, fifty years of age, and extremely well proportioned."

One night after he had retired to rest, three Policemen entered the house where he lodged, and got something to drink, and blustered a good deal. They went out at the request of the mistress of the house, but soon came back and rapped at the door for some time.

and swore they would come in. The Giant who is described as being of a very nervous temperament, got up and went to the window and showing his cause, told them if they did not go away he would soon make them.—Soon after this they broke in the door, and at the moment they did so the Giant discharged his pistol at them and shot one of them named Thomas Flanagan, dead on the spot. An inquest was held, and the jury returned a verdict of "Justifiable Homicide." The Giant immediately departed for the United States.

The bountiful crops with which all parts of the world have been favoured the present season are not only to be regarded as a blessing in so far as man and beast will have abundance of food and to spare, but also as the instrument by which a commercial crisis which was impending over us will in all probability be, for the time at least, averted, and we trust from the salutary check which has been given, may allow another cycle of prosperity to open before us.

The present depression in our staple export, Timber, can be only temporary so long as the general business of the world is prosperous, and a general good harvest insures point. It only requires, therefore for us that there should be as much as possible of general forbearance and accommodation until prosperity returns. A great deal of money has been made in this Province during the past three years, and our merchants and lumberers generally are quite able to bear the partial losses which the present low prices of timber will occasion. The Banks we believe were never in a better condition to afford accommodation to the public, and they have all surplus profits enough to warrant them in extending instead of curtailing their circulation. Some little excitement was got up amongst the laboring classes a few days ago, arising from two forged notes having been detected and payment refused at one of the Banks. This led to a rumour that the Commercial Bank had failed, and quite a rush was made by the labourers' wives to get gold for their notes. As there was plenty for all who came, however, they are now becoming satisfied that the Bank is not broke yet, and the run is now about over.

This foolish panic will probably have one effect that was not calculated upon. The Bank will very likely think it prudent to curtail its discounts, so that its notes may not be quite so easily obtained, and by this means laborers' wages will be apt to fall from two dollars to below a dollar a day.

As Flour is now approaching eight dollars a barrel, and potatoes half a dollar a bushel, it is but reasonable that the price of labour should fall in proportion, and laborers have themselves to blame if they have helped to bring their own wages down a little faster than they otherwise would.—Courier.

We understand that it is very probable that a short Session of the Legislature will be held immediately, to take into consideration the Reciprocity Treaty. It was supposed that it might have been possible to secure the benefits of the Treaty by the action of the Government; but as it appears by the way Mr. Secretary Guthrie reads the Treaty that the President cannot issue his proclamation until Legislative assent is given by each of the Provinces affected, it may become necessary that New Brunswick and Nova Scotia should legislate speedily, or otherwise allow our citizens to lose some one or two hundred thousand pounds which they might gain by the new trade.—Ibid.

DEPARTURE OF SIR EDMUND HEAD.—His Excellency, with Lady Head and family, arrived in this city from Fredericton on Monday last, accompanied by the Hon. Messrs. Street, Parriew, Wilmot and Hayward. On Tuesday His Excellency received a number of gentlemen at the St. John Hotel, and on Wednesday he held a farewell levee in the Common Council Chamber, which was numerously and respectfully attended. On Thursday His Excellency, with His Lady and Family, left in the Steamer "Governor" for Portland, en route for Boston and Quebec. In Boston Sir Edmund expected to meet and confer with his successor Sir John Manners Sutton. Colonel Gardiner has been sworn in as pro tem Administrator of the Government. He will wear his honours but a short time, as the New Governor is expected to arrive here on Wednesday next.—Chronicle.

Canadian Ministry.—The new Ministry in Canada have been sustained by large majorities. The Address to the Governor was finally passed in the House of Assembly on the 20th instant. The paragraph relating to the Secularization of the Clergy Reserves passed by a vote of 70 to 33; the Seigniorial Tenure clause by a vote of 67 to 30; and the Elective Legislative clause by a vote of 94 to 6.

The Artillery Barracks in Quebec were nearly destroyed by fire on the night of the 30th instant.

THE HYDROMAGEN, OR WATERPROOF, ANTI-CONSUMPTIVE, CORK SOLES. Manufactured by HARCOURT, BRADLEY & CO., 44 MARKET ST. MANCHESTER.

The Hydromagen is a valuable discovery for protecting the feet from damp or cold, and therefore a preventative of many Lung diseases, with out any doctoring whatever. The Hydromagen is in the form of a sole, and worn inside the boot or shoe. Its medicated character is a powerful antidote to disease.

For Gentlemen it will be found agreeable, warm, and healthy, to wear in the coldest or rainiest weather, as the foot cannot become wet if the Hydromagen is inserted. Ladies may wear the lightest soled boots or shoes in the most inclement weather with impunity; while Consumption, so prevalent among the young of our country, may be thwarted by their general adoption. They entirely supersede over-shoes, as the latter cause the feet to perspire in a very unhealthy manner; and, besides, are not dangerous wear to pedestrians in icy weather, like India rubbers. While the latter cause the feet to appear extremely large, the Hydromagen, being a mere thin slice of cork prepared, peculiarly placed inside, does not increase the size of the boot, or cause the foot to appear untidy. To Children they are extremely valuable, as they may engage in exercise with comfort and healthy effects. Their expense is so slight as to scarce need mention; besides, those who patronize them will find their yearly doctor's bills much diminished thereby.

As the Hydromagen is becoming more known, its sale is increasing to an almost incredible extent. Last year in London, Manchester, Birmingham, Liverpool, Glasgow, Leeds, Dublin, Paris, Antwerp, Hamburg and Berlin, our sales reached 1,752,450 pairs of Cork Soles. This year the number will far surpass that.

Ask the Faculty their opinion of their value as a preventative for COUGHS, COLDS, BRONCHITIS, ASTHMA, and CONSUMPTION. Men's Size, per pair, 35 CENTS. Ladies do, do, 30 do. Boys' & Misses do, 25 do.

THE CHEST. Sir Astley Cooper, Bart., M. D. THE EMINENT MEDICAL PRACTITIONER, HAS LEFT A VALUABLE LEGACY TO THE WORLD IN HIS GREAT PREVENTATIVE OF CONSUMPTION, THE CHEST.

INFALLIBLE CURE FOR PULMONARY DISEASES, WITHOUT THE USE OF MEDICINE. Sir A. C. Bart., invented and advised the use of the MEDICATED PUR CHEST PROTECTOR.

To all persons of all ages and conditions, as a certain and a safe shield against those fearful diseases, Consumption, Bronchitis, Asthma, Coughs, Colds, and other affections of the Lungs, which arise from the exposed state of the chest, according to fashion, and the continual changes of our climate.

RETAIL PRICES. Gent's Size, \$1.50 each. Ladies do, 1.00 do. Boys' & Misses do, 75 do.

H. B. & Co. are establishing Depots for the sale of "The Protector" in all parts of America. Physicians, Surgeons, Druggists, Clothiers, Dry Goods Merchants, Hatters, and Milliners, also Gentlemen's Furnishing Store-keepers, are entrusted with the wholesale and retail distribution of them, and to whom most liberal terms are offered for their enterprise, and a splendid opportunity opens to them for safe and profitable business.

THE ALL-HEALING REMEDY!!! Holloway's Ointment. A most astonishing cure of Scrofulous Ulcers—a case certified by the Mayor of Boston. Copy of a letter from J. Noble, Esq., Mayor of Boston, Lincolnshire. To Professor HOLLOWAY. Dear Sir,—Mrs. Sarah Dixon, of Liquorpond street, Boston, for this day deposited before me, that for a considerable time she was severely afflicted with Scrofulous Sores and Ulcers in her arms, feet, legs, and other parts of her body; and although the first of medical advice was obtained, at the cost of a large sum of money, she obtained no abatement of suffering, but gradually grew worse.

Being recommended by a friend to try your Ointment, she procured a small pot, and a box of the Pills, and before that was all used, symptoms of amendment appeared. By persevering with the medicines for a short time longer, according to the directions, and strictly adhering to your rules, as to diet, &c., she was perfectly cured, and now enjoys the best of health. I remain, dear Sir, your's truly, (Signed) J. NOBLE. Dated August 12th, 1852.

An extraordinary and rapid cure of Erysipelas in the leg, after medical aid had failed. Copy of a letter from Mrs. Elizabeth Yeates, of the Post Office, Aldwick Road, near Bognor, Sussex, dated Jan. 12th, 1853. To Professor HOLLOWAY. Sir,—I suffered for a considerable period from a severe attack of Erysipelas, which at length settled in my leg, and resisted all medical treatment. My sufferings were very great, and I quite despaired of any permanent when I was advised to have recourse to your Ointment and Pills. I did so without delay, and am happy to say the result was eminently successful, for they effected a radical cure of my leg, and restored me to the enjoyment of health. I shall ever speak with the utmost confidence of your medicines, and have recommended them to others in this neighbourhood similarly affected, who derived equal benefit. I am, Sir, your obliged and faithful servant, (Signed) ELIZABETH YEATES. A dreadfully diseased Ankle cured after being given up by the Faculty at Malis and Eastmanqu Hospital.

The following important communication has been forwarded to Professor Holloway for publication, by Mr. B. Dixon, Chemist, King St. Norwich. Copy of a letter from Captain Smith, of Great Yarmouth, dated January 19, 1853. To Mr. Dixon.

Dear Sir,—I send you the particulars of a cure effected by Professor Holloway's valuable medicines.—Mr. John Walton late in Her Majesty's Service, in the British fleet at Malta, had a very bad ulcerate ankle, and after being in the Malta Hospital for six months, was sent to England, as an invalid to Portsmouth Hospital, where he remained an inmate four months, then at Malta, refusing to have the limb amputated, he was turned out incurable. He then came to Yarmouth, and was under a medical gentleman for about three months but his ankle became so much worse that all hope was lost. At this period, by my advice he tried Holloway's Ointment and Pills, which by unremitting application, healed all the ulcers, and restored him to perfect health and strength.

I remain, dear Sir, your's very truly, (Signed) JOHN SMITH. Albert Hotel, Great Yarmouth. Surprising cure of a bad Breast, Nervous Debility, and general ill health. Copy of a letter from Mr. T. F. Ker, Chemist, &c., Lower Moss Lane, Manchester, dated Feb'y 12th, 1853.

To Professor HOLLOWAY. Dear Sir,—I have great pleasure in forwarding to you the particulars of a very extraordinary cure of a bad breast, effected solely by the use of your celebrated Ointment and Pills. Mrs. Maria Bell, of Calais street, in this town, had been for a considerable time labouring under nervous debility, loss of appetite, and general ill health, occasioned by ulcerated wounds on her breast. She had much experience of the most known remedies for three years, use of op, but without any beneficial effect of ulceration had nearly lost all faith in fact as a resolution after the use of the Ointment and Pills, which she immediately did, and in the course of a very short time the effect proved was most astonishing; her appetite was speedily improved, the sores and ulcers in the breast gradually healed, and her nervous excitement of her system wholly removed.

I remain, dear Sir, your's faithfully, (Signed) T. FORSTER KEEL. The Pills should be used conjointly with the Ointment in most of the following cases: Bad Legs, Chiango-foot, Bad Breasts, Chiblains, Burns, Chapped hands, Bunions, Corns (soft), Bite of Moschetoes, Cancers, and Sand Flies, Contracted and Stiff Joints, Coo-bay, Fistulas, Elephantiasis, Gout, Glandular Swelling, Scurvy, Lumbago, Sore Heads, Piles, Tetter, Rheumatism, Ulcers, Scalds, Wounds, Sore Nipples, Yaws.

THE PHILOSOPHY OF MARRIAGE AND THE SECRET INFLUENCES OF YOUTH AND MATURITY.
 With fifty Coloured Engravings on Steel, in a Sealed Envelope, price 2s 6d sterling.
SELF-PRESERVATION: an Analytical and Scientific Investigation of the Physiology and Functions of Marriage, in all the bearings in which that important subject affects the health and happiness of man, with its difficulties, and impediments, tracing its influence to the effects of juvenile habits, and its influence on the reproductive system, followed by practical directions, founded on twenty years experience in the treatment of impotence, nervous debility, local weaknesses, spermatorrhoea, syphilis, and all diseases of the urinary and generative system. Illustrated by fifty Coloured Engravings on the anatomy of the reproductive organs and their relative conditions in health and disease. By SAMUEL LAMBERT, M. D., No. 37, Bedford-square, London, Doctor of Medicine, Matriculated Member of the University of Edinburgh, Honorary Member of the London Hospital Medical Society, Licentiate of Apothecaries' Hall, London, &c.

The essential object of this treatise is to point out, the fatal consequences resulting from certain habits, irregularities and excesses, which have produced more misery in youth, degeneration in manhood, and premature decay at all stages of life; than perhaps, any other class of disease known to modern pathologists. Its perusal is particularly recommended to persons entertaining secret doubts of their physical conditions, and who are conscious of having hazarded the health, happiness and privileges which every human being is entitled to. The contents embrace the origin, effects, prevention and treatment of the deplorable plague of malades connected with nervous debility, exhaustion of the vital energies, local and general weakness, acute chronic spermatorrhoea, and their end, &c. The treatment adopted is based on experience, and is the most celebrated schools of medicine, and by the most eminent practitioners, both in Great Britain and in Continental Europe. Every peculiarity relating to the physiology, pathology and general treatment of the diseases incidental to the generative system is fully explained, and the means of immediate relief and ultimate cure described in detail. The professional reputation of Dr. Lambert, who has taken the most distinguished medical and academic honours, attests the value of his work, and is itself a sufficient guarantee that those who may place themselves under his care will, in every instance meet with that delicate consideration and individual success which are so requisite in the treatment of these cases.

CAUTION.—In consequence of the extensive sale of this work, which has now attained its sixteenth edition, several spurious and imperfect copies are in circulation. Now Publishing By JOHN TALLIS & CO OF LONDON THE LIFE AND TIMES OF THE LATE Duke of Wellington;

By Lieut. Col. Williams; (a Companion in Arms of His Grace.)
 Comprising the Campaigns and Battle Fields of Wellington and his Comrades, the Political Life of the Duke and his Contemporaries, and a detailed account of England's Battles by Sea and Land, from the commencement of the Great French Revolution to the present time, interspersed with Anecdotes, Personal Incidents, and Adventures, &c.

ADDRESS.
 The earthly career of Arthur Duke Wellington has closed; one of the greatest men of the nineteenth century, the foremost military commander of any age has paid the debt of nature. The time has not arrived for giving to the world a History of the Great Captain—the Events of his Life and Time—a life marked by patriotism and honour, and events the greatest which have ever agitated the civilized world, and whose influence will be felt upon society till the end of time. Such a work must appeal to the best and proudest feelings in the heart of every Briton—the glory of his country, the honour of its name and position among the nations—may his own existence as a freeman, as recorded and engraven in the annals of the "well fought fields," and "the deadly imminent breaches, the immortal battles and the glorious sieges in which Wellington and his Companions in-arms gathered undaunted laurels, placed their country's honour and renown on the highest pinnacle of fame and glory, and tore the victor's wreath from the brows of heroes decorated with the trophies of Italy, Egypt, and Germany.

To supply such a desideratum in English literature, the publishers of the Life and Times of the Duke of Wellington have determined to produce a book which shall present to the reader, not only the dry details which a mere biographical sketch would afford, but a comprehensive work, embracing the contemporaneous history of the period; exhibiting the circumstances which brought about the great events in which the Duke and his contemporaries were engaged, and giving to the reader a connected narrative of the lives and actions of the Warriors and Statesmen of the nineteenth century; and this from the pen of one who was a companion in arms of the great hero, and participated with him in many a well-fought field.

In order to carry out their views, the Publishers have determined that the work shall be profusely illustrated by Portraits of the Warriors and Statesmen of the last half century who have shed a lustre upon the history of their country; also representations of some of the most important engagements by sea and land from the period of 1780 till 1832; so that the work, when finished, shall form an illustrated Gallery of the Naval and Military Exploits of England.

It has been well said, "Character is the true strength of nations; true glory their best inheritance. When the time shall come that the British heart no longer thrill at the names of Cressy, Poitiers, Agincourt, Blenheim, Ramilies, Oudenard, Malpique; of Talavera, Salamanca, Toulouse, Waterloo—the last hour of the British Empire will be struck." The promotion and elevation of national spirit and feeling is therefore the duty and interest of every true and loyal subject of England. May Heaven inspire the hearts of every one of us with the spirit and feeling.

Conditions of Publication.—The work will be issued on the 1st and 15th of every month, in Parts at 1s. 3d. and Divisions handsomely bound at 9s. 4d. printed on Imperial 8vo. double columns, each part will be embellished by two highly finished steel Engravings, and will contain 32 pages of letter-press. A beautiful steel Engraving 13 by 19 inches, the storming of Seringapatam, the first victory in which the late Duke of Wellington was engaged in India, to every subscriber to the work.

HEALTH RESTORED!!

HOLLOWAY'S PILLS.
 Surprising Cure of a confirmed Asthma, after five years' suffering.

The following testimonial has been sent to Professor Holloway, by a Gentleman named Middleton, of Scotland Road, Liverpool.
 SIR,—Your Pills have been the means, under Providence, of restoring me to sound health, after five years of severe affliction. During the whole of that period I suffered the most dreadful attacks of Asthma, frequently of several weeks duration, attended with a violent cough, and continual spitting of phlegm intermixed with blood. This so shook my constitution that I was unfitted for any of the active duties of life. I was attended by some of the most eminent medical men of this town, but they failed to give me the slightest relief. As a last remedy I tried your Pills, and in about three months they effected a perfect cure of the disease, totally eradicated the cough, and restored tone and vigour to my chest and digestive organs. I am, Sir, your obedient servant.

A Permanent Cure of a Diseased Liver.

of many years duration.
 Copy of a letter from Mr. Gamis, Chemist, Yeovil, to Professor Holloway.
 Dear Sir,—In this district your Pills command a more extensive sale than any other proprietary medicine before the public. As a proof of their efficacy in Liver and Bilious Complaints I may mention the following case. A lady of this town with whom I am personally acquainted for years was a severe sufferer, from disease of the Liver and digestive organs; her medical attendant assured her that he could do nothing to relieve her sufferings, and it was not likely she could survive many months. This announcement naturally caused great alarm among her friends and relations, and they induced her to make a trial of your Pills, which so improved her general health that she was induced to continue them until she acquired a perfect cure. This is twelve months ago, and she has not experienced any symptoms of relapse, and often declares that your Pills have been the means of saving her life.
 I remain, dear Sir, yours truly.

An astonishing Cure of Chronic Rheumatism.

after being discharged from the Hospital incurable.
 Copy of a Letter from Mr. W. Moon, of the Square, Winchester.
 To Professor Holloway.
 SIR,—I beg to inform you that for years I was a sufferer from Chronic Rheumatism, and was often laid up for weeks together by its severe and painful attacks. I tried every thing that was recommended, and was attended by one of the most eminent surgeons in this town; but obtained no relief whatever, and fearing that my health would be entirely broken up, I was induced to go into our County Hospital, where I had the best medical treatment the Institution afforded, all of which proved of no avail, and I came out no better than I went in. I was then advised to try your Pills, and by persevering with them was perfectly cured, and enabled to resume my occupation, and although a considerable period has elapsed, I have felt no return whatever of the complaint.
 I am, Sir, your obliged servant,

An extraordinary Cure of Dropsy.

after suffering for eighteen months.
 Copy of a letter from Mr. G. Briggs, Chemist, Goole, dated February 15th, 1853.
 To Professor Holloway.
 SIR,—I have much pleasure in informing you of a most surprising cure of Dropsy recently effected by your valuable medicines. Captain Jackson of this place was afflicted with Dropsy for upwards of eighteen months, to such an extent that it caused his body and limbs to be much swollen, and water oozed as it were from his skin, so that a daily change of apparel became necessary, notwithstanding the various remedies tried, and the different medical men consulted, all was of no avail until he commenced using your Pills, by which, and a strict attention to the printed directions, he was effectually cured, and his health perfectly reestablished. If you

deem this worthy of publicity, you are at liberty to use it.
 I am, Sir, yours respectfully,
