Want Samoa.

London, April 23.-New Zealand anxious to annex Samoa, and a majority of the islanders are said to be in favor of the movement. It is probable that the treaty powers would consent to the annexation. A Cabinet Meeting.

London, April 23.—The Cabinet was summoned to a council to-day. It is rumored to have been caused by the refusal of Radical members of Parliament to support certain Government proposals. The British Budget.

London, April 23 .- The House of Commons debated the budget this evening. After approving the increase of the income tax by one penny on the pound, and a few other details of the Government's proposals the House adjourned.

Shakespeare's Birthday.

London, April 23 .- There was a large number of visitors to the tomb of Shakespeare at Stratford-on-Avon to-day, the anniversary of the poet's birth. A large number of wreaths were laid on the tomb, and the boys attending the school in which Shakesreare was educated paid a handsome tribute to his memory.

but no colder. The crop prospects have improved. The wheat market has been quieter. In American wheat there was a small trade. Parcels of red winter, for April delivery, were quoted at 223 91; hard Manitoba was quoted at 26s.

A Dairying Duchess. London, April 23 .- The Duchess of Hamilton has had a large stable built for her cows and goes there daily, according to English papers, to milk her favorites. She also makes the butter, it is said, which is used on her table when she has guests. The stable is built of marble, and cost a large sum of money. The duchess has had gloves made especially to use when milking the cows, in order that she may not soil her

Newfoundland Affairs.

LONDON, April 23 .- Sir Francis H. Evans asked the Government to lay before the House the correspondence which had passed between the Government and Newfoundland in regard to the prorogation of the Newfoundland Legislature. Mr. Sydney Buxton, Under Colonial Secretary, declined to disclose the correspondence. The telegrams which had passed were of an extremely confidential nature. He would say, however, that the Government had prorogued the Legislature upon perfectly responsible advice.

Because He Was English.

Paris, April 23 .- The English colony in Paris is excited over the action of the Government in forcing Sir Edward Blount, who for 30 years had been chairman of the Quest Railway, to resign. The ground taken by the Government was that Chairman Blount, by virtue of his position at the head of a great railway, had access to the plans of the Government in the matter of mobilizing troops. The Government did not believe a foreigner should hold a position enabling him to become possessed of such information and took the step to oust him from his position. Premier Casimer Perier threatened that unless Mr. Blount retired the Government would introduce in the Chamber of Deputies a bill scluding foreigners from the presidency of

St. George's Day in London.

LONDON, April 23 .- The usual St.

The inquiry would be conducted as a special matter, and would occupy as little time as possible.

Rt. Hon. Henry Chaplin asked when the

inquiry would begin.

Mr. Gardner said the inquiry would begin when bulk cattle began to arrive from Canada. He was pressed to withdraw the restrictions at once, but said he could not do so prior to the investigation.

Rt. Hon. Alexander Stanley Hill asked if there existed any difficulty in enforcing the quarantine regulations in regard to cattle between the United States and Dominion of Canada.

Mr. Gardner said that the precautions taken by Canada against the entrance of diseased cattle from the United States had been materially strengthened during the year 1893. If it were only necessary to consider the question from this point of view he would not hesitate to conclude that ample security was not afforded for the withdrawal of present restrictions. The projected inquiry, he said, related chiefly to scrutiny of the

lungs of imported cattle. Mr. George Whitely asked whether Canadian cattle representatives would be present at the examination. Mr. Gardner replied that the usual course would be

ENGLISHMEN CELEBRATE

The Twenty-Seventh Anniversary of St. George's Society.

A Good Time Spent-Those Who Were There and Those Who Responded To the Toasts.

The 27th anniversary of the St. George's Society was celebrated in an appropriate manner last night. A public banquet was held in the Tecumseh House, and about 150 Englishmen and their friends helped to make the occasion all the more enjoyable by their presence. As is usual on all such occasions the first on the programme was the dinner. It was prepared in the very best of style, and while all were partaking of the many viands provided, the opportunity was taken to converse on general subjects. Some told stories of the good times spent in the early days at 'ome; others spoke of the work carried on by the society, while some even considered the work of sister societies.

The decorations consisted of the banner of the society, a large Union Jack, Stars and Stripes, and a number of smaller flags were scattered around the room. They were enough to remind one of the country to which they were so loyal, and which they take so great an honor in serving. The chairman of the evening was the respected president of the society, Mr. H. T. Smith. To his right was seated Mr. Wesley Webb, sen., 90 years of age, the oldest member of St. George's; on the left Mr. J. D. Clarke, president of St. Andrew's Society; Dr. Mitchell, president of the Irish Benevolent, and Mr. W. J. Imlach, while among those present were: A J. Perram, R. A. Jones, F. A. Before the toast list was taken up Mr. J. B. Cox, the secretary of St. George's, read letters of regret from Thos. Y. Yates, secretary of St. George's Union, Washington, D. C.; W. G. Thomas, president of St. George's, Montreal, and who was made the fourth life member of the local society; Sir John Carling, W. R. Meredith, Rev. Dean

Petrolea, Toronto and Montreal. President Smith then introduced the toast list, thanking all for their attendance and wishing all a very enjoyable time. "The Queen" was toasted by the singing of "God Save the Queen" and three cheers

and a tiger. "The Prince and Princess of Wales and Royal Family," brought forth "For He's a Jolly Good Fellow" from the entire gathering and "God Bless the Prince of Wales" by Capt. Williams, who narrowly averted an encore.

To the toast of "The President of the United States," nothing but "Yankee Doodle" would do. Mr. C. W. Davis sang 'The Star Spangled Banner" in a rich voice and was given a vociferous encore. "The Governor-General of Canada and

Lieutenant Governors" was drank with "For They Are Jolly Good Fellows." Mr. W. H. Bartram responded on behalf of their excellencies. It afforded him, he said, great pleasure to respond to the toast. He thanked all for remembering many old faces, and also the many new ones. Mr. Bartram also referred to Mr. Wesley Webb, sen., who had no doubt the honor of being the oldest St. George's Society member in Canada. (Cheers.)

Mr. Joseph Graham donned his plug hat and sang "The Bank of Monte Carlo," and The first vice-president, Mr. H. J. Carter, then took charge of the list and in-

troduced "The Army, Navy and Volunteers," to which the band played and the company sang, "Rule, Britannia." Mr. W. H. Skinner also sang a song in his usual fine voice, and gave for an encore

'The Mountain Dew.' Capt. Williams also responded in an address. He had seen 50 years of service, 22 of which were served in the British army, and the remainder in the Canadian militia. He had always found the Canadian volunteer equal to any emergency. He had never met a body of men who were so ready

Lieut. Hunt, formerly of the London Field Battery, also responded, and Mr. Cox read a telegram from D. J. Whitehead, president of Hamilton St. George's. was from. Some are under the impres-

"The Day We Celebrate" was pronounced by Mr. Carter as the most important on the list. It was accompanied by "Home, Sweet Home," by the band, an amusing pieno selection by Mr. W. J. Imlach, and a solo by Mr. A. R. Galpin.

Mr. Imlach, whether he was a saint during the whole year, certainly was one on the day they celebrate-the anniversary of the great and glorious St. George. The British empire, he said, had been more than blessed with saints, fer besides
St. George they had Andrew, Patrick, and the lesser David. But the followers of all

these saints were actively taking part in making and keeping together the empire. (Cheers.) Not a saint in the calendar, however, had been more abused than St. George, and as an example Mr. Imlach said that he had picked up a paper recently and saw a large cut of St. George and the dragon. He thought he had got something to suit him, but when he read the article attached he found it an advertisement for a bilious pill. (Laughter.) But it would be a pretty heavy dose for any person. (Cheers.)

"Our Sister Societies" was coupled with the names of Mr. J. D. Clarke, president of St. Andrew's, and Dr. Mitchell, of the Irish

Benevolent. Mr. Clarke sincerely congratulated his distinctively English brethren on the manner in which they had celebrated their anniversary. He was glad on behalf of St. Andrew's to help promote the good work carried on. Mr. Imlach had praised St. George as the one saint worthy of note, and he had spoken of St. Andrew as a fish peddlar. Well, history had two stories about St. George, one of which made him begin life as a contractor for army bacon-(laughter)-and in the absence of a reconciliation of the two stories it was just as well, not to enter on comparisons of saints. The one thing now to bear in mind is that the national saints were remembered by the worthy charitable institutions carried on by the sister societies. The patriotic sentiments of Mr. Imlach be indorsed. The English-speaking race had a great heritage. Let us, he added, lock well to it in whatso. ever sphere we move that we are true to our traditions of freedom in every sense of the word.

Dr. Mitchell held up to the company the many good workers of St. Patrick, and expressed bis pleasure at participating in the festivities.

Mr. Joseph Hook, for the Sons of England, referred to the advancement of his order, it now being working in almost every country on the face of the earth. They were a purely benevolent order, though

"Our Guests" brought "For They Are Jolly Good Fellows" from the company, a song from Mr. Skinner and responses from

several present. Second Vice-President John Sussex then took charge of the list and introduced "The Mayor and Corporation," which was replied to by Mayor Essery and Ald. Par-

"The Ladies" and "The Press" were also honored, and the 27th annual celebration of St. George's Society was brought to a close by singing "Auld Lang Syne."

HIDING THE TRUTH.

Dr. Bergin and Hon. John Haggart Reprove Their Tory Colleagues

For Attempting to Stiffe Investigation by Barring the Oath-Lister's

[Special to the ADVERTISER.]

OTTAWA, April 24 .- At a meeting of the public accounts committee this morning on the accounts respecting Bering Sea, Mr. McMullen moved that Joseph Pope be examined under oath. Mr. Pope was one of the Ottawa officials given a trip to Paris in this connection. Mr. McMullen said he had examined the accounts, and he gave his word that it was necessary to have Mr. Pope examined under oath.

Sir C. H. Tupper asked to have the resolution read as follows: "Mr. McMullen having stated on his word of honor, as a member of the committee, that he believed it necessary,

Mr. McMullen-I have examined the Bering Sea accounts and I consider that the witnesses should be examined under Sir C. H. Tupper did not think this was

enough and refused to accept Mr. Mc-Mullen's statement, although it was what Mr. Tupper had previously declared the only necessary preliminary to granting the request. There was a long and warm discussion. The Minister of Finance, the Minister of Marine and others of the Government opposed the motion, but one of their prominent supporters, Dr. Bergin, bolted and made a strong speech in favor of examining anybody and everybody under oath, becouse he did not wish it to go out that the Government he supported was afraid of investigation.

Mr. Foster said he wanted to know Mr. McMullen's reasons for thinking there was something wrong about the accounts. On a division the motion was defeated by a majority of five, the House standing 20 to 25. Dr. Bergin voted against the Govern-

Mr. Langelier moved that power be asked from the House to investigate the Curran bridge accounts under oath. Mr. Foster warmly protested against the motion. "It puts us back where we were him as an old past president of St. George's. a fortnight ago on this question of the It also afforded him pleasure to meet so oath," he said, "and the committee is asked to stultify itself."

Sir C. H. Tupper also opposed the motion, but the Hon. John Haggart, Minister of Railways and Canals, got up and said he thought the motion should pass. Here was a disagreement among the members of the Cabinet who clustered around the head of the table. What Mr. Foster said was improper and inconsistent, Mr. Haggart said, was quite proper. Finally Mr. Foster moved that there be added to the motion the reasons for adopt-

ing it, and in that shape it carried. Mr. Lister moved that leave be obtained from the House to examine D. O'Connor, of Ottawa, the Deputy Minister of Justice, and other witnesses under oath, respecting the accounts of O'Connor for legal expenses. He said he believed it necessary to have an examination under oath.

This was precisely what was refused at the last meeting of the committee, but such was the good effect of a debate in the House that this time the motion was not opposed, although there were at first cries of "lost" even from Mr. Foster. Mr. Lister made one or two statements, however, which were startling. Mr. O'Connor Mr. Imlach-We did not hear who that in the last nine years has drawn \$122,000, and in the same period almost \$1,000,000 sion that it came from Coxey's army. has been paid to lawyers by the Government for work which should be done mostly by the department.

Mr. Lister's motion for papers in Soo Canal contracts carried.

ywt JAS, BURNETT, proprietor. Mr. Mulock's Bill in Re Swearing Witnesses Read the First Time.

The Government's Persistent Obstruction to Reciprocity With the United States Clearly Shown by Mr. Charlton-Still Further Tariff Changes.

(Special to the ADVERTISER.) OTTAWA, April 23.—This was private members' day in the House. The British schedule against Canadian cattle, and the state of our trade with the United States were subjects of discussion.

Mr. Mulock's bill to provide for the examination of witnessess under oath before the public accounts committee was given a first reading this afternoon.

On Mr. Casey's attempting to call attention to the delay in issuing the militia recort, he was informed that he would have to give notice of a question. Mr. Daly stated that it was the intention

of the Government to offer some of the Thousand Islands for sale this summer by private sale at an upset price. Dr. Sproule introduced a bill to provide

for the labeling of honey made from sugar or glucose. In reply to Mr. Brodeur, Sir John

Thompson said that the Government had eccived a delegation of members of Pariament, who asked that a bill redistributing the constituencies in Quebec Provnce should be introduced this session, but it was not the intention of the Government at present to introduce such a bill, and if the Government should determine to do it the House would know it. This is a very non-committal answer and conveys no information.

The Minister of Militia informed Mr. Fraser that the recent order of the Imperial Government respecting the issue of good conduct medals and decorations to officers and men of the volunteer force did not apply to Canada. It was not the intention to reward officers and men as was done in England.

Sir John Thompson, replying to Mr. Lepine, said that the act of the Quebec Legislature creating two additional judgeships, had been left to its operation, though exception was taken to the statement in the preamble that the Court of Queen's Bench as now constituted was inadequace. A petition had been received from the French members of the Quebec bar asking that their nationality be considered in making the appointment.

In moving for correspondence regarding the British embargo on Canadian cattle, Mr. McMullen complained of the high freight rates charged by steamship companies for carrying cattle to Great Britain. He charged that Sir Charles Tupper's failure to avert the scheduling of our cattle was evidence that the usefulness of the High Commissioner was gone. He dwelt on the result to Canada's cattle trade, which was rapidly falling off.

After a discussion, in which Messrs. Sproule, Innes, Featherstone, McMillan and Mulock took part, the Minister of the Interior, Mr. Daly, said the principal ob-Jetion of the British Minister of Agriculture to the abolition of the schedule as regards Canadian cattle, was that cattle coming into Manitoka and the Northwest were not subject to the same quarantine regulations as cattle coming into Eastern Canada. This objection was now, however, removed, as cattle in the Northwest were subjected to 90 days' quarantine. The motion for papers passed.

Mr. Charlton after recess moved for a statement showing the exports to and imports from the United States. In doing so, he charged the Government with putting every obstacle in the way of Canada obtaining a treaty of reciprocity with the United States. Under the pretense that nothing but commercial union could be obtained, no genuine efforts had ever been made by the Administration. The plea was also made that nothing could be done without discrimination against Great Britain. Both of these precensions Mr. Charlton denied, and showed from authoritative sources that it was possible to obtain a treaty free from both these objections. He claimed that a treaty containing a long list of manufactures might be concluded which would not affect importations of British manufactures. He showed that the United States were willing to enter into negotiations of this character. Such a treaty might contain such manufactures as barbed wire, coal oil, axes, spades, printing paper, wall paper, leather, boots and shoes, carriages, glassware of certain kinds, nails, tools, safes, printing presses, manufactures of wood, certain grades of cotton, furniture, agricultural implements, engines, sawmill machinery. Other articles could be named without in the slightest degree discriminating against British manufactures, and in return we could secure preferential treatment in the markets of the United States for our natural products and many of our manufactures whose chief need was

extended markets. Mr. Kenny, of Halifax, replied. He tried to identify the Opposition with a policy of commercial union, but the nearest he came to it was an extract from a Halifax Liberal newspaper. He referred to speeches by Mr. Laurier and Sir Richard Cartwright at Boston and to utterances by Senater Blair, Mr. Hitt, Senator Sherman and others. Mr. Kenny's extract from Mr. Sherman was a hope that some day the Stars and Stripes should float over the entire continent. He attempted to hold Mr. Laurier responsible for Mr. Sherman's dream, but Mr. Laurier observed that he could not be held responsible for everything Mr. Sherman said. Mr. Kenny wriggled out of it as best he could, and sought to evoke some applause by declaring that he would never consent to a foreign country fixing Canada's tariff.

Mr. McMullen followed, and pointed out that no one but Mr. Kenny himself and his friends had ever suggested that a foreign country should fix our tariff. The only obstacle to the negotiation of a treaty of reciprocity with the Unired States was the hostility of the Canadian Government and

the protected manufacturers. Mr. Laurier reproached Mr. Kenny for his unfairness in trying to hold him responsible for the utterances of Ameri-

After some further debate Mr. Clarke Wallace said he did not think it "conducive" for a Canadian politician to go to Boston and use language which was not loyal to England.

He was interrupted by remarks from the Opposition about his own disloyalty to England when he threatened to march to Ulster with active aid against her Majesty's Government if a home rule bill became law.

Dr. Landerkin followed with references to the same subject, and was called to order by Mr. Speaker. The doctor said he was in order in pointing out the disloyalty of the honorable gentlemen who had made the alleged disloyalty of the Opposition the

text of their remarks. Mr. Speaker insisted on his ruling, and book.

Sir Richard Cartwright and Mr. Mulock protested against the unfairness of the Speaker in always ruling subjects out of order on the Opposition side after allowing them on the Ministerial side.

After amending the motion so as to include a similar return of exports and imports to and from Great Britain it was allowed to pass and the House adjourned. Mr. Foster gives notice of another change in the revised tariff. Acetic and pyroligueous acid (which means the red liquor for dyeing and calico printing) and vinegar bore a duty of 15 cents a gallon and I cent for each degree of strength in excess of the strength of proof. Foster's amendment is to substitute 2 cents for 1 cent.

SUFFERING AND MISERY ENDED.

Paine's Celery Compound Cures a Bad Case of Indigestion.

The Cured Man Can Now Eat Anything.

ALWAYS READY FOR HIS MEALS.

Every Man and Woman Can Rid Themselves of Indigestion and Dyspepsia.

One of Canada's most prominent physi cians says: "When people can avoid indigestion, they escape the majority of troubles that make life miserable."

This very common affection arises from a great variety of causes, and its many symptoms can be easily understood. The sufferer often has a want of appetite, coated tongue, bitter taste in the mouth, a desire for acids, headache, constipation, sluggish bowels, nausea, sallow skin, heartburn and dizziness.

Sufferers who experience these troubles that arise from indigestion, are amongst the most unhappy mortals on earth; they cannot possibly enjoy life and its pleas-

gestion require a medicine that acts di- lic officers. The amount of emolument in rectly upon the nervous system, bowels, kidneys and liver.

All distresses and troubles yield readily and quickly to Paine's Celery Compound. Thousands in the past have found a perfect cure after having used nature's great renovator and healer. Day after day letters of testimony come from people in every section of the country, affirming that Paine's Celery Compound has no

equal as a medicine. Mr. John Jeffers, 384 McDonnell street, Peterboro, Ont., who suffered terribly for many years from indigestion, writes as

follows: "The case of Hugh Reilly, of Montreal, mentioned in Paine's Celery Compound Record and Register, might well be taken as a type of my own troubles. For years indigestion has been the bane of my life. Always after eating I experienced great difficulties, vomiting and retching, often accompanied with blood. I vainly tried many remedies, but never found relief until I used l'aine's Celery Compound. I continued with the medicine and I am now cured. I don't use the compound now, I don't need any, as I can eat beef, pork, mutton, veal, sausages, or any other eatable food, and I am always ready for the next meal. I know of several others who have been cured by the use of Paine's Celery Compound. I am 40 years a resident of Peterboro.

Relation to the Separate Schools Act

Comes Up for Discussion in the Legislature.

Mr. Fraser Takes Part in the Debate-The Registration Bill Read a Second Time.

PARLIAMENT BUILDINGS, TORONTO, April 23 .- The debate on Mr. Conmee's bill to amend the Separate School Act-making the election of trustees optional-began this afternoon. Mr. Conmee made a very vigorous address. Mr. Fraser followed and spoke for twenty minutes, when he was forced to discontinue, becoming entirely exhausted.

Mr. Conmee spoke for over an hour, reviewing the antagonistic position which the Conservative party in the Legislature had assumed for twenty years against the Roman Catholics of the Province. In their desire for office, they were willing to sweep away all the rights retained for the Catholics by the B. N. A. Act. The Liberals, on the other hand, had ever evinced a desire to conserve the rights of Catholics in accordance with the provisions of Confederation. Mr. Conmee spoke of the manner in which Mr. Meredith, a few days before, had referred to the Administration as possessed of the "solid support" of a certain religious body. Could he not just as properly ask: What about the "solid support" of the the Orange body accorded the Opposition? The Conservatives, in his opinion, had had more solid support from Orangeism than the Liberal Government had received from the Roman Catholic Church. The Opposition leader had adopted a policy of whipping Roman Catholics out of his ranks. Referring to Mr. Meredith's contention that the ballot should be made compulsory in elections for separate school trustees in order to prevent clerical domination, Mr. Conmee maintained that Catholics were the best judges of their rights, and would not be slow to resent clerical interference. He pointed out in this connection that the P. P. A. had a minister as its leader. There, indeed, was clerical interference!

Mr. Fraser, in the course of his remarks, said that while at the last analysis secret voting might be termed cowardly, because men were not as free to evidence their opinions as formerly, he would not object to having a ballot in separate school elections. The Catholics would resent-as Protestants in the same position would resent-any attempt such as the Opposition proposed, to force a ballot upon them. But when the proposition was made with the offensive and insulting statement that the Catholics needed the ballot to enable them to successfully escape the domination of the clergy. Then the suggestion was intolerable.

EVENING SESSION. A lengthy debate on the fee system arose this evening out of Mr. Ross' motion for the second reading of a bill to amend Men and women who suffer from indi- the act respecting the fees of certain pubalmost every instance is to be regulated, in a reasonable manner, after the salaries reach a certain amount, or percentage on the surplus fees will revert to the public treasury.

Several members of the Opposition taunted the Government with adopting a principle which had been proposed by them two years ago, and insinuated that they were about to abandon the fee system. Sir Oliver Mowat claimed there was not

even a suggestion in the bill that would lead anyone to such a belief. He pointed out that the fees system was inherited from the ancestors of those now in Opposition. Several changes had been adopted, but the system was practically the same. It was reasonable and economical and the public revenue would greatly suffer were any change made.

Mr. Ross' bill respecting registration of manhood suffrage voters in certain cities was read a second time. Mr. Meredith objected to the men who had been named as those before whom lists were to be prepared, saying that they were all partisans and nominees of the Government.

Mr. Hardy mentioned several localities where the officials were almost evenly divided as regarded politics, and asserted that Mr. Meredith was annoyed merely because he couldn't have it all his own way, and have the voters' lists prepared solely under the supervision of Conservatives.

Mr. Clark said that the bill should be cited as "a bill to disfranchise one half of the manhood suffrage voters of Toronto." This would be demonstrated to be the case at next election. The Attorney-General defended the measure.

When Dr. Riddall was crossing the Market Square at about 10:50 last night he heard groaning and sounds of apparently deep distress. Investigation showed that him a total wreck. He suffered agonizing the noise came from a man who was writhing in agony on a seat under the veranda of the Covent Garden market. An empty two-ounce bottle labeled "Ammonia" was found on the floor beside the man, He acknowledged drinking the stuff, but said it had been in mistake. It apparently had not agreed with him, as he had vomited probably a quart of blood. The doctor called P. Cs. Alton and Woolway and the patrol wagon was summoned. An emetic was administered in the meantime, and when the wagon came the man was sent to the hospital. He gave his name as Michael Rogers and is a tailor by trade. He would probably be 50 years old, of ruddy complexion and iron gray mustache and goatee. His name does not appear in the local directory, but the police say that he has been around town for some years. At the hospital he was very anxious to know whether he was going to die or not. and did not express any wish to live. He admitted to the nurses that he bought the ammonia at a Dundas street drug store and drank it.

No caute nas as yet been assigned for the rash act, although it is surmised that the man was out of work and melancholy.

Very properly the measure will provide a life interest to the present incumbents, and at the termination of their incumbency by death the endowments will be devoted to national purposes. MAKING THE BEST OF THINGS. The Government of the British colony of Natal and the President and members of the Congress of the Transvaal Republic in South Africa have signed a convention which practically establishes a railway and customs union between the colony and the republic. The Government of the Transvaal Republic undertakes to construct as quickly as possible a railway from the boundary terminus of the Natal line to Johannesburg and Pretoria. Each government will fix its own rates subject to certain specified limitations, and the through rate from Port Natal to Pretoria will of course be the sum of the two, but the governments bind themselves to work together in the matter and so regulate the through rate that it shall not interfere with the traffic of the Netherland Company's line from Delagoa Bay. The two governments bind themselves also to work together in the event of any circumstances arising which may render a readjustment of the rates desirable. In other words, their railway alliance is offensive and defensive. With regard to customs, the Government of Natal binds itself not to charge higher dues on Transvaal goods from foreign ports than those now in force at Port Natal, nor lower dues than those in force at Delagoa Bay, and in return the Transvaal government gives to Natal all trade tacilities which have been or may be given to any other government. Between the Transvaal and Free State there is a treaty which gives free trade in many articles of natural produce. If in the case of Natal this is to extend to the fruit and sugar trade it is evident that the advantage will be substantial. Even without so liberal an interpretation of the article the admission of Natal to a trade on terms hitherto reserved to the two republics is fa concession of considerable importance. The Cape and the Free State have already entered into a railway and customs union with one another. The new railway con-

INQUIRY UNDER OATH. In 1891, "in a moment of weakness," the Dominion Government permitted witnesses to be examined under oath in the public accounts committee at Ottawa. The revelations then made shocked the country from one end to the other. A gigantic system of corruption was revealed, which resulted in the disgrace of more than one member of the Government and the humiliation of the whole Canadian people. Where it would have ended if the Government had not most determinedly suppressed all investigation into the Haggart and Caron scandals, no one knows. Apparently on the eve of another exposure, the Administration suddenly becomes suspiciously cautious. It refuses to authorize the examination of all witnesses under oath, and insists that so wholesome a method would bring the oath into disrepute if applied to Ministers and civil servants! Why so? Men who go into a court of justice, however humble, are sworn to tell the truth. No distinction is made in court between after the prosperity of the disestablished the knights, the K. C. M. Trial of the Government Suit Against Larkin, Connolly & Co .- A Ques-

tion of Church and State. (Special to the ADVERTISER.)

OTTAWA, April 23 .- The trial of the civil suit of the Government against Larkin, Connolly & Co. began in the Exchequer Court this morning before Mr. Justice Burbidge. The claim is for about \$500,000 said to have been fraudently obtained from her Majesty by reason of a conspiracy entered into between Thomas McGreevy and Larkin, Connolly & Co., and overpaid on account of contracts at Quebec and Esquimalt, already made so notorious in the public mind.

Messrs. B. B. Osler, Q.C., W. H. Hogg, Q.C., and Dr. O'Connor, Q.C., appeared for the Crown, and S. H. Blake, Q.C., and A. R. Aylesworth, Q.C., for the defense. Robert McGreevy and all the old familiar faces, including ex-Chief Engineer Perley were in attendance as witnesses. Robert McGreevy was examined this afternoon, The trial may finish Saturday night, but will likely go over next week.

It was announced that owing to the insolvency of Robert McGreevy and the death of Owen E. Murphy the case would not be pressed against them. This left Michael Connolly, Capt. Larkin and Nicholas K. Connolly sole defendants.

Mr. Osler applied to put in the evidence and verdict in the criminal suit against N. K. Connolly, but the defense objected. Mr. Osler rested his application on the ground that the crown was in a different position from any ordinary plaintiff, but Judge Burbidge dissented, and held that in this case the crown was simply trying to get a debt and had none of the prerogatives claimed. He admitted the record, however, subject to his objection in order that it might be decided on appeal if the decision was appealed.

A case that will likely be made the subject of inquiry in Parliament, as it involves the relation between Church and State and the principle of one denomination claiming the support of members of another denomination. During the last session of the Quebec Legislature a bill was passed authorizing the municipality of the town of Nicolet to borrow \$16,000 for the purpose of giving it to the bishop to help build a cathedral. There are a number of Protestants in Nicolet who were thus taxed for the bishop's cathedral. The mayor of the town, in fact, was a Protestant. Mr. Ball and a portion of the council protested against the municipality borrowing money for this purpose, but the bishop by threat-

diocese, got his way. Hon. Mr. Mercier, who is here, in an interview to-day said that he remembers the bill and that he protested against it as wrong in principle.

NEWARK, N. J., April 23 .- An 8-yearold boy was on the towpath near the bridge at New Brunswick, playing with his dog, when he fell into the water, which is about six or eight feet deep. The lad was in a fair way to drown, when his tdog, a big Newfoundland, jumped in and swam to his side. The boy grasped the dog tightly by the hair on his back. The animal then swam to the shore, so that the lad could grasp the dock log and haul bimself out. Poople who saw the incident declared that the dog showed almost human intelligence.

Hon. C. F. Fraser appears to have charged the Province but \$3 50 for his entire traveling expenses last year. This may be extravagant, but if it is what then shall we say of the action of Hon. ## LACROSSE.

THE LONDON CLUB. Lacrosse in London has been dormant, if not practically dead as a sport for a number of years, but from present indications that health-giving pastime is going to meet with a decided revival this summer. Several old-time players of renown have lately interested themselves, and last week a club was formed and officers elected. An adjourned meeting was held in the Grigg House parlor last night to complete the details of formation and to get down to business. The meeting was well attended, and everyone appeared to be brimfull of enthusiasm. It was decided to affiliate with the C. L. A. and to begin practice at once. Those who have sticks will commence to-night on that scene of many a well-played game of lacrosse-Queen's Park. Later on Tecumseh Park will be used, and all games will be played there. The membership fee was fixed at \$2. Mr. Art Stiles resigned the position of secretary and Mr. J. A. Tune was elected to the vacancy. An effort will be made to interest the citizens, more especially the merchants, in the enterprise, and to that end Messrs. Minhinnick, Tune Dreaney, Ferguson (James) and McAlpine were appointed a committee.

Messrs, Skey and Franks were appointed a committee on suits. These different committees will report at the next meeting which will be held at the call of Secretary Tune. Among those present were Capt. Joe McPhillips, "Nip" Tune, J. Minhinnick, George Wilson, E. Skey, J. G. Franks, W. C. Latimer, B. Cleveland, H. Snell, Chas. Caswell, W. H. Wilson, Camp-Alex. Ferguson, Robt. McAlpine, Harry Dreaney and Charley Swaisland. Among those who have expressed the intention of joining are John Brown, Dave Mills, Fred Beltz, W. Woods, G. O'Neil, Joe Heintzman, Geo. FOOTBALL. REFORMED BULES. NEW YORK, April 23 .- The task of re-

vising the playing rules of the inter-collegiate football is practically completed. Saturday the "reformers" met once more and were in session nearly three hours. The former action of the committee was ratified excepting that it was decided to allow the scoring to remain as at present. A very important change adopted relates to the playing time. The present playing time was reduced to 35 minutes. This is due to the belief that the open kicking game likely to be in vogue this season will be too much of a strain if prolonged 45 minutes. Another point settled is that the ball muss be put into play after going "in touch," either by a kick or by a down from a point in the field of play at least five yards and not more than fifteen yards from the point at which the ball went into "touch." This was done to prevent the almost unavoidable roughness of the play

as the rule now stands. The rules formed by the experts will now be codified. A final meeting will be held Tuesday, May 1. Their report will then be submitted and promulgated. THE TURF.

The new jockey club will pass a rule prohibiting jockeys from owning horses. The new rule will affect many of the leading jockeys in the east. Among those who own horses are McCafferty, Garrison, Bergen, Doggett, Fitzpatrick, Griffin, Donohue and Isaac Murphy. The man at whom the rule is probably aimed, and who will certainly be most affected by it, is McCafferty.

DATES OF THE GREAT RELAY RIDE. It seems to the almost unanimous opinion of wheelmen along the relay line that June 15 and 16 should be the dates of the great race against time. It has been shown that at that time the roads are likely to be in excellent condition, the riders in good form, and the moon to be sufficiently bright for those who will require to ride during the night. A later date would be too near the C. W. A. meet for flyers who desire to take part in both the relay and the meet. Also, road improvement commences in the later part of June in many localities, which would militate against fast time. An earlier date would be too far distant from bell, McLean, H. New York, April 23 .- A special meeting under the auspices of the People's party in their newly established headquarters at 50 East Tenth street was held tonight to receive Gen. J. S. Coxey. I guess they can starve there just as well as in Ohio and Illinois, If enough of them die there the stink will be so great that they will grant what we want to get rid of us. You see we can hit them in a great many ways." Then a collection was taken up for the benefit of Coxey's army and the meeting adjourned.

Opening of the Court of Revision on the Ontario Lists.

A Great Many Cases Disposed of in Short Time.

Names Added by Both Parties - An Interesting Decision-Crowd in Attendance.

The court of revision on the Ontario voters' list opened this morning at 10 o'clock before Judge Wm. Elliot.

The court room was filled with would-be voters. Both parties were fully represented by legal talent. Liberal interests were looked after by Messrs. J. B. Mc-Killop, J. Macpherson, R. K. Cowan, Fred Harper and J. R. Milne. On the Conservative side were Messrs. Hellmuth, Toothe, Gunn and Flock. City Assessor McCoubrey resumed his old job as a Tory factotum.

It was agreed by counsel to take up first the additions of both sides, so as to give those present a chance to enroll their names as voters with-out further attendance at court. Things went along very smoothly in contrast to the cumbersome and inquisitorial methods of the Dominion Franchise Act. A few simple questions sufficed to establish the rights of the witness. He was not required to tell how much he made, how he made it, how long he had been making it, whom he worked for, whether board was included in wages, how much he paid for board, whether washing was included in his board, what his laundry bill amounted to, whether his pa owned property, how much it was mortgaged for, and a hundred and one other private affairs, such as characterized the big farce in the City Hall before the late Dominion election.

The only argument of any account occurred over the case of Wm. Bawtinheimer, who had lived in Saginaw, Mich., four months of the year. He had gone there on a visit and had secured work. His home, however, was in Ontario and he re-

Mr. Hellmuth submitted that where a person lived in the United States during the preceding twelve months-not for jection dismissed. pleasure or as a mariner, but as a worker-

The judge ruled that in this case the witness had not been completely severed from his domicile in the Province and chances of his recovery are held out to-day allowed the vote. This decision will open up a wide door for other similar cases to follow on both sides.

LIBERAL ADDITIONS. The following votes were added by the Liberals this morning: W. A. Bawtinheimer, W. J. Cody, F. T. Webster, Michael Quirk, Austin Hodgins, James O'Connor, sen., Geo. W. Saunders. This Afternoon. About 12 o'clock the order of procedure was changed and additions, repeaters, and objections were huddled together in a

promiscuous heap. Geo. H. Gardner went to the United States for the benefit of his health. He remained away fifteen months and returned last fall. His daughter kept house part of the time while he was absent, his wife being dead. The daughter afterwards stored the furniture and went boarding.

The sudden change in his humor took even courtiers by surprise. Faces a moment before broad with smiles grewlong again. The less important personages looked uncomfortably at one another, and with one accord frowned on me; "If your Majesty would please to hear the end of the story at another time?" I suggested humbly, beginning to wish with all my heart that I had

"Chut!" he answered, rising, his face still betraying his perturbation. "Well, be it so. For the present you may go, sir. Duchess, give me Zizi, and come to my closet. I want you to see my puppies. Retz, my good friend, do you come too. I have something to say to you. Gentlemen, you need not wait. It is likely I shall be late. And, with the utmost abruptness, he broke up the circle.

## CHAPTER X VII.

Had I needed any reminder of the uncertainty of court favor, or an instance whence I might learn the lesson of modesty, and so stand in less danger of presuming on my new and precarious prosperity, I had it in this episode, and in the demeanor of the company round me. On the circle breaking up in confusion, I found myself the center of general regard, but regard of so dubious a character, the persons who would have been the first to compliment me had the king retired earlier, standing farthest aloof now, that I felt myself rather insulted than honored by it. One or two, indeed, of the more cautious spirits did approach me; but It was with the air of men providing against a danger particularly remote, their half-hearted speeches serving only to fix them in my memory as belonging to a class, respecially abhorrent to me—the class, I mean, of those who would run at once with

the hare and the hounds.

I was rejoiced to find that on one person, and that the one whose disposition towards me was, next to the king's, of first impor-tance, this episede had produced a different impression. Feeling, as I made for the door, a touch on my arm, I turned to find M. de Rambouillet at my elbow, regarding me with a glarce of mingled esteem and amusement; in fine, with a very different look from that which had been my welcome earlier in the evening. I was driven to suppose that he was too great a man, or too sure of his favor with the king, to be awayed by the petty motives which actuated Court generally, for he laid his hand familiarly on my shoulder, and walked on beside me.

"Well, my friend," he said, "you have distinguished yourself finely! I do not know that I ever remember a pretty woman making more stir in one evening. But if you are wise you will not go home alone to-

I have my sword, M. le Marquis," I an-"Which will avail you little against a knife in the back!" he retorted drily. "What attendance have you?"

"My equeery, Simon Fleix, is on the stairs." "Good, so far, but not enough," he replied, as we reached the head of the stair-case. "You had better come home with me now, and two or three of my fellows shall go on to your lodging with you. Do you know, my friend," he continued, looking at me keenly, "you are either a very clever or a very foolish man?"

I made answer modestly. "Neither the one, I fear, nor the other, I hope, sir," I

Well, you have done a very pertinent have let the enemy know what he has to expect, and he is not one, I warn you. to be despised. But whether you have been very wise or very foolish in declaring open war remains to be seen."

"A week will show," I answered. He turned and looked at me. "You take it coolly," he said.

'I have been knocking about the world for 40 years, marquis," I rejoined. He muttered something about Rosny

having a good eye, and then stopped to adjust his cloak. We were by this time in the street. Making me go hand in hand with him, he requested the other gentlemen to draw their swords; and the servants being likewise armed and numbering half a score or more, with pikes and torches, we made up a very formidable party, and caused. I think, more alarm as we passed through the streets to Rambouillet's lodging than we had any reason to feel. Not that we had it all to ourselves, for the attendance at Court that evening being large, and the circle breaking up as I have described more abruptly than usual, the vicinity of the castle was in a ferment, and the streets leading from it were alive with the lights

and laughter of parties similar to our own.
At the door of the marquis's lodging I prepared to take leave of him with many expressions of gratitude, but he would have me enter and sit down with him to a light refection, which it was his habit to take before retiring. Two of his gentlemen sat down with us, and a valet who was in his confidence, waiting on us, we made very merry over the scene in the presence. I learned that M. de Bruhl was far from popular at Court; but being known to possess some kind of hold over the king. and enjoying besides a great reputation for recklessness and skill with the sword, he had played a high part for a length of time, and attached to himself, especially since the death of Guise, a considerable number of followers.

"The truth is," one of the marquis's gentlemen, who was a little heated with wine, observed, "there is nothing at this moment which a bold and unscrupulous man may not win in France !" "Nor a bold and Christian gentleman for

France!" replied M. de Rambouillet with some asperity. "By the way," he continued, turning abruptly to the servant, "where is M. Francois?"

The valet answered that he had not returned with us from the castle. The Marquis expressed himself annoyed at this, and I gathered, firstly, that the missing man was his near kinsman, and, secondly, that he was also the young spark who had been so forward to quarrel with me earlier in the evening. Determining to refer the matter, should it become pressing, to Rambovillet for adjustment, I took leave of him, and attended by two of his servants, whom he kindly transferred to my service for the present, I started towards my lodging a little before

The moon had risen while we were at supper, and its light which whitened the could scarcely eat anything, and was gables on one side of the street, diffused a troubled with pains similar to those I sufglimmer below sufficient to enable us to avoid the kennel. Seeing this, I bade the men put out the torch. Frost had set in, and a keen wind was blowing, so that we were glad to hurry on at a good pace; and the streets being quite deserted at this late hour, or haunted only by those who had come to dread the town marshal, we met no one and saw no lights. I fell to think-ing, for my part, of the evening I had spent

searching Blois for Mademoiselle, and of the difference between then and now. Nor did I fail while on this track to retrace it still farther to the evening of our arrial at my mother's; whence, as a source, such kindly and gentle feelings welled up in my mind as were natural, and the unfailing affection of that gracious woman required These, taking the place for the moment of the anxious calculations and stern purposes which had of late engrossed me, were only ousted by something which, happening under my eyes, brought me violently and

abruptly to myself.

This was the sudden appearance of three men, who issued one by one from an alley a score of yards in front of us, and after pausing a second to look back the way they had come, flitted on in single file along the street, disappearing, as far as the darkness permitted me to judge, round a second corner. I by no means liked their appearance, and as a scream and the clash of arms rang out next moment from the direction in which they had gone, I cried lustily to Simon Fleix to follow, and ran on, believ-ing from the rascals movements that they were after no good, but that rather some honest man was like to be sore beset.

On reaching the lane down which they had plunged, however, I paused a moment, considering not so much its blackness, which was intense, the eaves nearly meeting overhead as the small chance I had of distinguishing between attackers and attacked. But Simon and the men evertaking me, and the sounds of a sharp tussle still continuing, I decided to venture, and plunged into the alley, my left arm well advanced, with the skirt of my cloak thrown over it, and my sword drawn back. I houted as I ran, thinking that the knaves might desist on hearing me; and this was what happened, for as I arrived on the scene of action—the farther end of the alley -two men took to their heels, while of two who remained, one lay at length in the kennel, and another rose slowly from his

You are just in time, sir," the latter said, breathing hard, but speaking with a preciseness which sounded familiar. "I am obliged to you, sir, whoever you are. DO NOT WAIT

Till Baby Becomes Sickly.

Many mothers continue to feed their little ones from day to day with foods soon become sick and weakly, restless and peevish. Then some experienced friends are interviewed for advice, or the medical man is called in.

Very Rev. Dean Carmichael, of Montreal, delivered one of his most celebrated lectures "A Royal Rough Diamond" before a large crowd in the new synod hall last night. Dean Innes occupied the chair and Rev. Principal Miller had a seat on the platform. Frederick William, of Prussia, father of Frederick the Great, was the roya "diamond" in the rough that formed the subject of the address. That gentleman's life, his characteristics, peculiarities, fancies and withal sterling worth served excellently as a topic for the celebrated visitor. "He walked around the city," said the lecturer, in referring to Frederick William, "with a thick bamboo cane in his John Friend, baker and contectioner, has band, which he used at times for other 118, North Side Builday Street, fresh pastry on hand every day. will be interested to learn of the very friendly spirit toward the movement for honest taxation now manifested by the Chicago Times. In the Sunday edition of that great paper is a regular weekly single tax department conducted by the Chicago Single Tax Club. In this department is printed a resume of all single tax movements, victories or reverses, quotations from single tax publications, discussions of the purposes and methods of the single tax by eminent advocates, and other matter of interest to students of taxation. In its daily the Chicago Times prints letters from single taxers and from persons hostile to the movement, carrying on thus a constant and stimulating debate. Important phe-nomena bearing upon the sulject of the single tax are discussed in its editorial columns almost daily. The whole editorial tone of the Times is one of friendliness to the movement for removing the incubus from the shoulders of the toiling millions. It is liberal, even radical, in its treatment of the industrial revolution, and stands in the very front of the papers which believe the world was made for all men, not for a ring of land owners or money monopolists. Mr. and Mrs. Chute, of Aylmer, desire that we should publish their testimonial and let other sufferers know what Williams' Royal Crown Remedy (Nature's Liquid) has done for Mr. Chute. He writes: "For ten years or more I have been a sufferer with dyspepsia, and doctored with six of the most skilled doctors in this part of the country with but little relief and no benefit in return for the very large doctors' bills that I paid. I tried almost every conceivable remedy, but all to no purpose, until April, 1893, when I took to myself a wife, and it so happened that three years previous to our marriage she had been in poor health, and used part of a bottle of Royal Crown Remedy, and, knowing of its excellent qualities, she prevailed upon me to give it a trial. I purchased one bottle of the Remedy and Pills, and by the time I had them used my general health was much improved, and by the time I had taken three bottles I was restored to good health, and my neighbors say that I am looking better than I have done for years. I believe Royal Crown Remedy to be the best value for the money on earth, and am thankfully yours.
