

BOARD MAY BUILD A MUSIC PAVILION FOR WESTERN FAIR

Annual Meeting of Big Exhibition Is Being Held Today.

CAPTAIN REID AGAIN PRESIDENT

Election of Last Year's Directors Is Likely—Financial Statement Presented.

CAPT. W. J. REID, Who Will Be Again Elected President of the Western Fair.

The annual meeting of the Western Fair Association is being held this afternoon, with a good representation of the members. The election of directors will form the most important matter of business to be discussed. Twelve will have to be chosen from this meeting. The representatives last year were: Capt. W. J. Reid, Lieut.-Col. J. W. Little, Ald. J. H. Saunders, T. H. Smallman, Jeffrey, Capt. W. M. Spencer, W. W. Gammon, Capt. T. E. Robinson, Lieut.-Col. W. M. Garthshore, John Pringle, R. A. Carrothers, William McNeill.

From present indications, these gentlemen will be re-elected. This will complete the board, the city council, and the East Middlesex Society having selected their representatives. The former are Mayor Graham, Ald. Richter, Ald. Johnston, Ald. Robinson, Ald. Glass and Ald. Rose. The latter society is represented by Messrs. James Murray (Westminster), Lieut.-Col. R. McEwen (Hyron), Ed. Douglas (Horton), Dr. A. Routledge (Lambeth), William Moore (West London), and Richard Oke (Broughdale).

Capt. Reid for President. After the board members are selected, they will meet and elect officers for the year. Capt. W. J. Reid will be again selected as president, Lieut.-Col. J. W. Little as first vice-president, and Ald. J. H. Saunders as second vice-president. Mr. A. M. Hunt will be re-elected secretary, and Mr. D. Mackenzie as treasurer. The chairman of the various committees will also be named. Not much change is anticipated.

Col. J. W. Little read his annual statement to the directors of the association. He congratulated the members for so large a representation on this forty-fifth annual gathering. He pointed to the fact that the fair held in September was an unqualified success. The weather was ideal, and everything was carried on most successfully. The surplus in the hands of the treasurer was \$10,755.

Capt. Reid referred to the completion of the Art Building, and declared it to be a most valuable addition to the fair. The president referred to the renewed interest in the exhibition by the city council and the citizens generally. This was most welcome, and greatly appreciated by the directors.

"Every building on the grounds was crowded with exhibitors," he declared, "and the proposition for more accommodation confronts the board of this year, and must be taken into consideration." In concluding, Capt. Reid thanked the directors for their kindness, and hoped that the present year would be more successful than any in the past.

Financial Statement. The financial statement was submitted, showing the receipts to be \$55,115.18 from all sources. Of this amount \$26,817.00 came from gates and grandstands, \$5,000 from the city of London, \$2,500 from the Provincial Government for the art building, \$5,074.70 from entry fees, \$1,220 from various sources completing the total. The expenses amounted to \$42,358.35. Of this sum \$16,379.10 was expended for prizes, \$4,483.35 for advertising, etc., \$3,069.99 for office help, \$1,511.17 for general expenses, \$4,152 for grounds and buildings, general account, \$3,913.26 for the new art building, \$4,772.54 for fireworks, attractions, etc., \$1,906.58 for cheese and butter, exhibits smaller sums making up the difference.

"The year was most successful in every respect," commented President Reid.

GIRL SLAYER AT LARGE

Called Her to the Door and Shot Her Through the Heart.

[Canadian Press.]

Minneapolis, Minn., Feb. 5.—No trace has been found early today of the man who shortly before midnight last night shot and killed Tarr Harison, 22 years old, at the latter's home. The police are searching for Clinton Smith, who earlier in the evening had called upon the young woman. He is reported to have departed after the two had quarrelled.

According to the story told by the police, Smith later returned to the home of the girl and calling her to the door, fired a bullet through her heart. The girl's brother, hearing the shooting, ran to her assistance and grappled with the man, but he escaped.

POSTED AS MISSING.

London, Feb. 5.—The British steamer Jura, from Baltimore, Nov. 20, for Rotterdam, has been posted at Lloyd's as missing.

ROYALTY IN PANIC FEAR MILITANTS WILL RAID COURT

Powerful Force of Soldiers and Police Gathered Around Buckingham Palace.

ONE SUFFRAGETTE PROVED REAL TARTAR

Doused Constables With Water, Smashed Jail Windows and Has Been on a Hunger Strike for Days.

[Canadian Press.]

New York, Feb. 5.—A cable to the Tribune from London says: Special but unostentatious precautions are being taken to prevent any untoward happening at Buckingham Palace through the action of the militant suffragettes. If anything is likely to be particularly warm, The King's principal London residence is in direct communication not only with Scotland Yard, but with Wellington Barracks close by, and the military protection of the palace can be increased almost immediately by a preconcerted signal.

May Raid the Court.

It is known that certain suffragettes have done their utmost to obtain the necessary passports to be present at the court that takes place in Buckingham Palace on Friday evening, and officials have received stringent instructions as to the manner in which they are to act in the event of any suspicious stranger presenting himself or herself for admittance. The staff of police, both uniformed and plain-clothed, detailed for duty, will be greater than ever before on a similar occasion.

Caught a Tartar.

The police seem to have caught a tartar in Margaret Morrison, a suffragette arrested outside the Leven town hall last Wednesday during the visit of Premier Asquith to that town. The charges brought against her yesterday were:

Throwing pepper in a constable's face.

Smashing twelve panes of glass in the Leven police station.

Throwing a bucket of water over a police sergeant in his office.

Lively scenes seem to have occurred while she was in custody. The evidence given shows that she managed to lock a policeman out of the passage leading to the cells, and then smashed the windows, and as the police broke open the door she threw a bucket of water over the first to enter. She has been on a hunger strike in the Dundee Prison since last Friday.

The sheriff asked her to lift her veil for identification, but this she refused to do, and there was a scene when an officer attempted to raise the veil, which was torn in the struggle. She was sentenced to thirty days' imprisonment.

MAJOR BEATTIE SHOULD RESIGN

Member For London Denies Responsibility for the Dismissal of Dr. Campbell.

The Toronto Globe says: Major Beattie, M. P. for London, denies responsibility for the spoils dismissal of the postoffice inspector. The only way a Government supporter in the House can avoid responsibility for the spoils in his constituency is to resign. Holding the seat is an indorsement.

FATAL PARALYSIS

Michael Waddick Was in M. C. R. Locomotive Department for Many Years.

[Special to The Advertiser.]

St. Thomas, Feb. 5.—The funeral of Michael Waddick, for many years in the locomotive department of the Michigan Central, was held today at the Holy Angels' Church and was largely attended. He died following a stroke of paralysis. He came here 22 years ago from Carlow, Scotland. He is survived by his wife and children, Lawrence and James, of the M. C. R.; Mrs. R. Palmerston, and Miss Margaret, of this city, and Mrs. J. Burwell, of Tillsonburg.

THE WEATHER.

TOMORROW—DECIDEDLY COLD.

Forecasts.

Toronto, Feb. 5.—8 a.m. Strong westerly winds; mostly fair and decidedly cold weather, with local snow flurries today and on Thursday.

Temperatures.

The following were the highest and lowest temperatures during the 24 hours previous to 8 a.m. today:

Station.	High.	Low.	Weather.
LONDON.	15	2	Clear.
Victoria.	36	34	Cloudy.
Calgary.	9	10	Fair.
Port Arthur.	8	22	Clear.
Port Huron.	20	4	Cloudy.
Toronto.	25	5	Clear.
Ottawa.	20	4	Fair.
Montreal.	16	6	Clear.
Quebec.	12	2	Cloudy.
Father Point.	14	—	Cloudy.

Minus (—) means below zero.

Weather Notes.

The disturbance which was south of Nova Scotia yesterday has passed to the Atlantic, and the western area of high pressure, with low temperature, is spreading eastward over Ontario and Quebec.

CHURCH CENSUS HAS BROUGHT MANY NEW MEMBERS IN TOUCH

But From a Statistic Standpoint It Is Not What Was Expected.

The recent church census will not be the success in regard to statistics that was anticipated is the opinion of Rev. G. F. B. Doherty, secretary of the committee of the Ministerial Alliance that had supervision of the work.

"Each of the individual churches," said Rev. Mr. Doherty, "has gone over the list of members, and made a complete return as possible. The census taking will be of great benefit to each of the churches, as it brings the new members in touch with the congregation of their denomination in that section of the city. The totals will not be of much value, however, as far as giving the relative strengths of the different denominations in the city is concerned, as the figures are not complete. A very large proportion of the cards returned have been marked 'not at home' or 'no preference,' and a few 'information refused.'"

"Some of the pastors, in sending in the reports, leave out the number of families, and give the total number of individuals in the district. Others give the number of families and number of individuals exclusive of families."

"Although the returns are now ten days late, there are a large number yet to be received, and there will have to be a meeting of the committee before any of the totals are published."

LONDON HAS NO CAUSE TO FEAR THE G.T.R. EMBARGO ON COAL

Supplies in the City Are Adequate—It Will Be the Smaller Places That Will Feel the Pinch, Say the Coal Dealers, When Interviewed by the Advertiser Today.

Mr. William Heaman to The Advertiser states that so far as the large majority of coal dealers in London are concerned, the embargo which the G. T. R. has placed on coal would not affect them greatly, but it would be hard on the smaller places.

"We have a good supply of coal on hand," he stated. "In addition, we can get it over other lines than the Grand Trunk, thus protecting ourselves from a famine. We are not alarmed."

"The conditions are serious for some of the smaller places. For some months they have been practically living from hand to mouth, as they could not get supplies earlier in the season. If the embargo lasts for any length of time, it may create much suffering."

Well supplied.

"I am well supplied," said Mr. John M. Daly, "but I do not like embargoes. They hurt the business. The people who will suffer are those dwelling in small towns, where it has been almost impossible all season to get an adequate supply of coal."

Superintendent Davidson, of the Grand Trunk, was out of the city today and could not be interviewed.

An official stated that the company was compelled to take this step owing to the rush of business, and the great demand for coal at points considered more important. For some time local manufacturers have been unable to get soft coal in large quantities as the G. T. R. had been taking that from the companies and using it themselves. Coal was scarce and the company was merely protecting itself.

BLAMES RETAIL MERCHANTS FOR HIGH COST OF LIVING

Union Grower Tells of His Experience in Trying to Dispose of His Crop to London and Toronto Warehouses.

[Special to The Advertiser.]

Leamington, Feb. 5.—At a large, attended meeting of the members of the Farmers' Institute of South Essex, Mr. E. E. Adams, one of the leading growers of onions in this district, placed the blame for the high cost of living on the exorbitant prices the consumer has to pay the retail merchant.

He instanced a recent experience of his own. As there was a large crop of onions prices were low, and when he was in Toronto and London a short time ago trying to sell some he found the warehouses filled and the onions being offered at 25 cents a bushel. On inquiring in the stores he found they were being sold at five cents a pound or nearly \$3 a bushel.

The Same Everywhere.

Mr. Adams says that similar conditions prevail to a greater or less degree everywhere. The blame is not received a price that will net him a fair profit on his work. He urged strongly that all fruit and vegetable growers co-operate in order to try and right present conditions.

Mr. W. G. Kerr, of Woodroffe, spoke on fruit growing, from the commercial aspect, pointing out the best methods to make the orchard pay. His address was chiefly upon apples.

Mr. A. Innes, of Clinton, spoke with much knowledge and experience upon the subject of breeding, feeding and culling of draft horses.

G. W. Coatsworth gave an interesting address on alfalfa growing.

Need of Good Roads.

John A. Campbell spoke upon good roads, to which he is devoting considerable attention. He has, and is doing, part of the concession fronting his own place, and is taking steps to do a considerable part of the concession on which he lives. He urged that the municipalities take it up. The Legislature has been quite generous in assistance. Should the county decide to spend, say \$300,000, the Government would contribute \$100,000 to it. He said the present system of statute labor was both wasteful and useless. The township of Mersea annually spend about \$10,000 on roads in this way. If this was capitalized and the amount it would realize spent it would make every mile of road in Mersea a permanently good one. He spoke of their advantage to the farmer, the increased value it would give to their land, the saving in their grocery bills, the market, and the increased pleasure to them. The day of the automobile had come to stay, and it was the farmers who were purchasing them, and would also have their auto trucks to go to market, and they needed good roads.

PUT DESERTED WIFE ON TRAIN SENT HER WITH CHILD TO LONDON

Charles Pettit, of Woodstock, Compelled to Support His Family.

One of the most heartless cases of wife desertion that has come before the notice of the local police was aired before Police Magistrate Judd this morning, when Charles Pettit, of Woodstock, was charged with a breach of the wife maintenance act.

The complainant, Mrs. Maude Pettit, stated that one day last week her husband placed her and their three-year-old child on a train leaving Woodstock for London, and after putting the ticket in her hand, stated that he would be back in a minute. She did not see him again until this morning.

Must Support Family.

Mr. Judd made an order whereby Pettit, who works for his father for 21 years, is to pay \$5 of that sum to the support of his wife and child. The first payment is to be made on Feb. 8. This morning Mrs. Pettit offered to go back with him, but he refused. When the father was leaving the court the child ran up to him and asked if he was going away, and the only answer the child got was a nickel.

A NEW BUILDING IS NEEDED FOR AN INDUSTRIAL SCHOOL

Alexandra School Is Not Very Well Suited For the Purpose.

The necessity of a new building for industrial education is being brought to the attention of the board of education, and an attempt will be made to secure proper accommodation. At the present time, the day industrial classes are being held in the old Colborne street school, while the evening classes are being conducted in the Alexandra school.

Neither are suitable for this work, and the finance committee of the board will endeavor to secure options on a suitable site.

There were some prominent citizens in London who were of the opinion that the Alexandra school should be given over for industrial education altogether, but in conversation with a number of school trustees, the opinion was general that this would be unwise, as the building is not the most suitable for this kind of work.

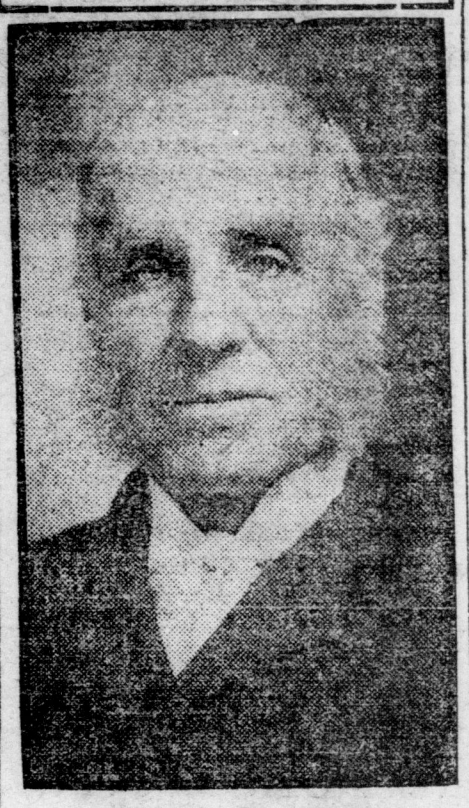

"We will have to secure a suitable building," said Chairman W. W. Gammon, of the industrial committee, "by the time we have secured an option on the site, the Government will have decided on a program of industrial education, I hope. This is a most important matter, and one that requires the closest attention."

TRUCK DRIVERS' STRIKE.

Havana, Cuba, Feb. 5.—A general strike of truck drivers began this morning in this city, paralyzing all freight traffic. The cause of the trouble is the dissatisfaction of the men with certain minor provisions contained in the municipal licenses they are compelled to obtain before receiving permission to drive trucks.

YOUTH WANTED FOR ASSAULT FOUND AFTER MANY MONTHS

Member for East Middlesex

MR. PETER ELSON, M.P., Stricken With Paralysis at His Home Near Hyde Park.

ABOLISH COMMISSION; COUNCIL HAS POWER

Not Necessary To Go to Toronto Regarding the Water Board.

It has been discovered at the city hall that the bylaw to abolish the water commissioners will not have to receive the sanction of the Legislature.

The announcement was made yesterday that this would have to be done, but it was found to be a mistake, a clause having been discovered in the waterworks act which gives the council the authority to do away with that board. This has been done, and the waterworks department has been legally placed under the control of the council. Its abolition will be consummated at the end of the present financial year, Nov. 30, 1913.

City Clerk Baker stated today that the city solicitor had given his opinion that the consent of the Legislature need not be obtained for the bylaw placing the waterworks under the control of the city council.

REMAINS OF WRECK VICTIM WERE BURIED

Interment Took Place on Monday Afternoon.

The funeral of Mr. James O'Neill, the cattle dealer, who died as a result of injuries received in the Gloucester wreck on Jan. 12, was held on Monday from the family residence, lot 19, con. 15, in London Township. The funeral was the largest seen in that part of the country for some years. The floral emblems, and the services were very numerous. The services were conducted at 2:30 o'clock by Rev. M. Turnbull, rector of the Anglican Church, and interment was made in the Blyth Cemetery.

HOSPITAL BURNS WITH MERCURY 30 BELOW

All the Patients Were Gotten Out Safely at Big River.

[Canadian Press.]

Prince Albert, Feb. 5.—Details of the burning of the hospital at Big River, the headquarters of the Mackenzie-Mann lumbering interests, situated 35 miles due north of here, are very meagre.

It is understood the fire originated in the basement from an overheated furnace pipe. Word has been received from Nurse Shevlin, in charge of the hospital, that all the patients were removed without accident, to nearby homes. The thermometer outside registered 30 degrees below zero at the time.

A FORMER LONDON SOLDIER HOMELESS, WAS SENT TO JAIL

Pathetic Plight of Robert H. Pidgeon, a Veteran of the Northwest Rebellion.

The Hamilton Times says: A very pathetic tale was unfolded by the jail authorities this morning, it being that of Robert H. Pidgeon, son of the late George H. Pidgeon, who was killed by a street car a few weeks ago, and who served his country faithfully and well, going through the Crimean war, and who was a member of the party which fired the salute over the remains of General Brock at the reinterment service, is lying in a cell at the Barton street castle, on a bed of pain, being confined therein because of having no other place whereat to spend his few remaining years. Robert Pidgeon, like his father, was a faithful soldier of the King for many years. He saw service at the time of the Northwest Rebellion and for many years was stationed at London, Ont., and then at Kingston. Some time ago, while working on the stables of the Kingston garrison, the unfortunate man was kicked by a horse in the abdomen. An abscess followed and Pidgeon was rendered practically useless. He returned to this city and was forced to live in a tenancy occupied by a short while afterward his father was slain by death, with the result that Robert Pidgeon was deprived of a home.

Sent to Jail.

For some time he lived at the Salvation Army Metropole, his small pension supplying the bare necessities of life. Finally he was in destitute circumstances and applied to the magistrate for an order admitting him to the common jail.

The authorities of St. Peter's Home became aware of the case and took steps to have him admitted to that institution. As soon as a vacancy occurred Pidgeon will be removed from the jail to a home of comfort and ease wherein to pass the remaining years of his rather adventurous life.

That a man who has served his country faithfully and well should be forced to live in the common jail when rendered unfit for service seems a hardship indeed, and a remedy will have to be provided somewhere. It was learned this morning that the suffering man will find a home in St. Peter's Home within the next few days.

John Cousins Murderously Attacked Mrs. Webb Conklin in 1911.

PRISONER WAS WORKING IN CITY

Police Not Aware of Fact Until Tuesday, When He Was Taken Into Custody.

County Constable J. H. Heath last night arrested John Cousins, alias George Jeffrey, on a charge of murderously assaulting Mrs. Webb Conklin, of London Township, on Friday, June 23, 1911.

Co. who is a Barnardo boy, was employed by Mr. Conklin as a farm laborer on his farm on the fourth concession of London Township during the early part of the summer, and one day while his employer was away from home attending a barn raising, the lad was engaged in cutting weeds in a field about 80 rods from the house.

He ceased work and went to the house, passing Mrs. Conklin on the way, but did not speak to her. When he reached his bedroom, he called to Mrs. Conklin, and she thinking that he was hurt, ran upstairs to the room.

As she was about to cross the threshold she noticed Cousins standing behind the door and she stopped. But it was too late, and Cousins struck her on the bridge of the nose with a stone which he had in his hand.

Mrs. Conklin managed to make her escape from further injuries, and Cousins ran across the fields without a hat or coat. Dr. Ross, of Hyde Park, was summoned, and found that she was suffering from a fractured nose and a number of bruises. The county police were notified, and a warrant issued, but it was not until yesterday that the whereabouts of Cousins were known.

A Dastardly Deed.

That the deed was deliberately planned was shown by the fact that the next day when a search was made for the scythe that Cousins had been using an indentation was found in the ground near the article and which coincided with the stone with which Mrs. Conklin was struck.

The police were notified several times that a young man answering the description given of Cousins had been seen in different parts of the county, but nothing definite could be ascertained. A short while later a barn near Wyton was burned, and what were thought to be human bones were found in the ashes. Many people thought that these were the remains of Cousins, and an analyst at Toronto substantiated the conjecture that they were human bones.

The arrest of Cousins yesterday signifies that an unknown man lost his life in the fire.

Taken Into Custody.

Information was given to the police yesterday, and Constable Heath came to London with the warrant and arrested Cousins at his boarding-house on Ridout street, within a block of the courthouse. Cousins said that he had been working in a local factory since last fall under the name of Geo. Jeffrey.

The accused man was brought before Squire Chittick, last night, and was remanded until Monday, when it is expected that an additional charge of arson will be laid against him.

Shortly before the assault on Mrs. Conklin a warrant was issued by Squire Henry Jones, of Delaware, charging Cousins with setting fire to the barns of the squire earlier in the summer. Cousins had been employed by Squire Jnaes and the barns of Mr. Jnaes had been set on fire.

Cousins disappeared before any questions were asked, and the warrant for his arrest was not issued until some weeks later. Once when questioned by Mr. Conklin as to the cause of the fire Cousins stated that it was an accident. Cousins knows whether this question had anything to do with the assault on Mrs. Conklin.

Hospital Burns With Mercury 30 Below.

CLIP \$500 THIS
ILLUSTRATED BIBLE
CERTIFICATE
PRESENTED BY THE
LONDON ADVERTISER, Feb. 5
"NO LIBRARY IS COMPLETE WITHOUT TWO CERTAIN BOOKS—THE BIBLE AND SHAKESPEARE; HARDLY A QUOTATION USED IN LITERATURE THAT IS NOT TAKEN FROM ONE OF THESE WORKS."
The above Certificate with five others of consecutive dates
Entitles bearer to this \$5.00 Illustrated Bible
If presented at the office of this newspaper, together with the stated amount that covers the necessary EXPENSE items of this great distribution—including clerk hire, cost of packing, checking, express from factory, etc., etc.
MAGNIFICENT (like illustration in announcements from day to day) is bound in full flexible limp leather, with overlapping covers and title stamped in gold, with numerous full-page plates in color from the world famous Tisot collection, together with six hundred superb pictures graphically illustrating the Bible, and making plain the verse in the light of modern Bible knowledge and research. The text conforms to the authorized edition, is self-promoting, with copious marginal references, maps and helps; printed on this bible paper, flat opening at all pages; beautiful, readable type. Six consecutive free certificates and the amount of \$1.18 EXPENSE items.
The \$3 ILLUSTRATED BIBLE is exactly the same as the \$5 book, except that it is in silk cloth; contains all of the illustrations and maps, and is also a complete and useful reference. Six consecutive free certificates and the amount of 81c EXPENSE items.
Also an Edition for Catholics Through an exclusive arrangement, we have been most fortunate in securing the Catholic Bible, Douay Version, endorsed by Cardinal Gibbons and Archbishop (now Cardinal) Farley, as well as by the various Archbishops of the country. The illustrations consist of the full-page plates and maps approved by the Church, with constant looks and at the same time necessary for the Protestant. The necessary Free Certificates.
Any Book by Mail or Express Prepaid, 25 Cents Extra.

BLACKBALLING OF BARON CAUSED REFORM CLUB ROW

Sir Edward Grey and Lewis Harcourt Also Threatened to Resign Because Churchill's Nominee Had Been Rejected—The Resignations Explained.

London, Feb. 4.—The family quarrel in the Reform Club, which led to the resignations of Lloyd George and Winston Churchill, two members of the cabinet, was due to the blackballing of a prominent Liberal member of parliament, who, according to the Daily Express, is Baron de Forest. He was either proposed or seconded by Mr. Churchill, and his rejection is said to have caused indignation among the members of the cabinet. The Express says Sir Edward Grey, the foreign secretary, and Lewis Harcourt, the secretary for the colonies, also threaten to resign from the club unless a general meeting is called and the rejection rescinded. This can be done by a two-thirds majority. The rejection of a candidate for membership by a two-thirds majority is taken because of anything derogatory to his character.

FORCE OF POLICE WOMEN AND WOMEN'S COURT FOR TORONTO

Toronto, Feb. 4.—On Monday next at 10 o'clock No. 1 committee room at the city hall will be transformed into a courtroom. There Magistrate Denison will preside for a short while each day, but he will be the only man, except witnesses, allowed admission. The court will be called the women's court, where females who have transgressed will be tried hidden from the gaze of the usual court hangers-on.

SERVIANS SUFFER BY SORTIE FROM SCUTARI

Two Battalions Surprised and Captured by Turkish Governor.

Rome, Feb. 4.—The Turkish embassy here has a report to the effect that Essad Pasha, the Turkish commander at Scutari, aided by Albanians, surprised and captured two Serbian battalions, which he disarmed and paroled. He also captured 400 cartloads of provisions and ammunition. The reports that the Government has made overtures to capitulate are emphatically denied.

SIR WILFRID ILL

Has Severe Cold, But Is Expected Back in House in a Day or Two.

Ottawa, Feb. 4.—Sir Wilfrid Laurier was confined to his house today with a severe cold. His illness is said to be not serious, and he is expected to be back in the House in a day or two.

WELSH BILL PASSED ON SECOND READING

Government Majority Dwindles to Twenty-Five Over Crucial Unionist Motion.

London, Feb. 4.—In the House of Commons tonight the Irish Nationalists again saved the Government from defeat on the Welsh disestablishment bill. A crucial Unionist motion on this measure was beaten only by 23 votes, the poll standing 249 to 226. Even with the Irish support, the Government would probably have suffered a reverse, but for the energy of one or two of its supporters, who spread out their speeches, while the whips were drumming up enough followers to insure a Government victory. There was little enthusiasm among the followers of the Government in favor of the bill; in fact, there was some opposition, and three Unionist members voted in favor of the Opposition amendment on this division. The bill was ultimately passed on its second reading.

SIR GORDON SPRIGG DEAD

Was Four Times Premier of Cape Colony. Cape Town, Feb. 4.—Right Hon. Sir John Gordon Sprigg, who was four times premier of Cape Colony, died here today. He was born in 1839, and settled in Cape Colony in 1858. He was elected a member of the Colonial Parliament in 1869.

At drugists, dealers and hotels, \$1.25 a large bottle. The Duffy Malt Whiskey Co., Rochester, N. Y.

LIBERALS SHOW DANGER IN BILL

Opposition to Richelieu Capital Increase Develops in House.

THE MEASURE STANDS

Exception Chiefly Taken to Proposed Rights of Investment.

Ottawa, Feb. 4.—Opposition met the Richelieu and Ontario Company's bill in the House today, and it was finally allowed to stand for consideration on a day when more time could be given to it. The bill permits the increase of the company's capital from ten to fifteen million dollars, and provides that the new capital may be invested as seems expedient. Mr. Lesperance (Montreal) explained that the money was needed for new ships and terminals. This led Mr. Nesbitt (North Oxford) to point out that two large lake companies had merged, and to say that a merger with another corporation was now proposed.

Hon. Williams Pugsley took exception to the clause respecting the investment of the company's capital, and said that the clause might permit the Richelieu and Ontario Company to override the companies act by making loans to shareholders, which was prohibited. He was also prohibited unless authorized by its charter.

Right Hon. R. L. Borden thought the first part of the bill regular, but the second part rather unusual. The second part, he thought, would be overruled by the companies act. Mr. McKenzie, of Cape Breton, however, arose at this juncture and spoke until the hour for private bills had expired.

THIRTY MILLION LOSS BY MONTH LONG STRIKE

And No Sign of 150,000 New York Garment Workers Going Back.

[Canadian Press.] New York, Feb. 5.—In the month since the strike of about 150,000 workers in the men's and boys' garmentmaking industry began here, a loss of \$30,000,000 has been borne by the manufacturers and their workmen, according to estimates published today. It is declared that more than one-tenth of the annual output of men's and youths' ready-made clothing, amounting to \$20,000,000, has been lost to the industry in this city, while the loss in wages to workmen is estimated at \$10,000,000. This does not include the losses incurred by the strikes in the women's garment industry. There is no sign of peace in sight today. One manufacturer said that the industry had now lost so great a part of the season's business that further negotiations were out of the question. A proposal made by the United Brotherhood of Carriers Association more than a week ago, however, is being voted upon today by the cutters. This proposal provides for a 52-hour week and an increase in wages from 5 to 10 per cent. There was said to be little expectation of its acceptance. The tailors and other operators generally have even taken no steps to vote on the matter.

MRS. WARWICK ACQUITTED

End of Her Sensational Trial on Charge of Murdering Husband. Regina, Sask., Feb. 4.—Mrs. Amy Warwick was tonight acquitted by a jury of the murder of her husband. The trial of recent years excited greater interest in the province when it came before Chief Justice Haultain on Monday, by reason of many confessions alleged to have been made by the woman. She is about twenty-two years old, and was charged with complicity in the murder of Warwick, whose battered body was found in the stable on his farm last fall. It was charged that Mrs. Warwick had conspired with a man named Price to marry Warwick that she might get possession of his property after he had been put away by Price. Stanley Price committed suicide. The investigation into the death of Warwick was first instituted.

BROKE HIS COLLARBONE

[Special to The Advertiser.] Parkville, Feb. 5.—While practicing hockey at the rink here last evening Harold Hodson collided with one of the other players and fractured his left collarbone.

Mr. Gordon McCall left today for London for a week's visit.

Suffered From Boils Constipation And Sick Headache.

There is no more frequent source of illness than that arising from bad blood. When the blood becomes impure the whole system is impure; boils and pimples break out, the bowels become constipated, and the head aches more or less.

Do not neglect to purify the blood on the first appearance of a pimple or boil. Cleanse it thoroughly by the use of Burdock Blood Bitters and thus prevent untold suffering.

Mr. D. M. McBlaine, Niagara Falls, Ont., writes:—"It is with pleasure I testify to the sterling qualities of your Burdock Blood Bitters. After the Boer War, through which I served in the 1st L.I., I suffered from boils, constipation, and sick headaches, and tried many preparations, but got relief from none till an old comrade of mine got me to try the Burdock Blood Bitters. To say I got relief is to put it mildly. It made me what it is to be sick, and who has been, and it is still, an athlete."

"To anyone in want of purified blood and the resultant all round vigorous health I can conscientiously recommend B.B.B." Get the 3 B's. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

White Sale, Ladies' Underwear SMALLMAN & INGRAM, Limited White Sale, Embroideries

Women's Imported Novelty Suits

Specially Priced---Correctly Styled

JUST a few exclusive novelties—one only of each. If your size is here you may depend on getting a suit that you will not meet a duplicate of on the street or at the afternoon gathering. Each suit a novelty style, spick-span, new and up-to-date in every particular, and excellent suits for early spring wear. Nice medium weights, and the little points of style and tailoring which gives them the air of Paris and New York, fully sustain our reputation for leadership in women's suits. The wonder is that such suits as these have had their prices cut. Is your size 34, 36 or 38?

Hogs—Receipts, 3,000; market slow, \$6 to 10c up; light, \$7.60 to \$7.85; mixed, \$7.60 to \$7.75; heavy, \$7.50 to \$7.90; roughs, \$7.50 to \$7.60; pigs, \$5.40 to \$7.65; bulk of sales at \$7.75 to \$7.85. Sheep—Receipts, 25,000; natives, \$4.75 to \$5; yearlings, \$6.40 to \$7.35; lambs, natives, \$5.75 to \$8.50.

EAST BUFFALO, Feb. 5.—Cattle—Receipts, 150; slow and steady. Veals—Receipts, 50; active, at \$4 to \$12. Hogs—Receipts, 2,000; active, \$6 to 10c up; heavy, \$8 to \$9.15; mixed, \$8.15 to \$8.25; Yorkers and pigs, \$9.25 to \$10.30; roughs, \$7.20 to \$7.55. Sheep—Receipts, 25,000; natives, \$4.75 to \$5; yearlings, \$6.40 to \$7.35; lambs, natives, \$5.75 to \$8.50.

TORONTO, Feb. 5.—Trade was active at the cattle markets this morning. Receipts were larger at the city cattle market than for a long time. Several cents was paid for choice beef. Hogs were also higher, and other classes were higher. Union stockyards—Receipts—1,007 cattle, 121 calves, 1,504 hogs, 185 sheep. City cattle market—400 cattle, 35 sheep, 40 calves, 100 lambs. Export cattle, choice, \$6.75 to \$7.20; do medium, \$5.75 to \$6.50; do bulls, \$2.75 to \$3.75; butcher cattle, choice, \$5.50 to \$6.25; do medium, \$4.50 to \$5.25; do bulls, \$2.50 to \$3.25; feeding steers, \$5.25 to \$5.50; stockers, choice, \$5 to \$5.25; do light, \$2.50 to \$4.50; milkers, choice,

Some representative transactions were: Dunn & Leavack sold 104 cattle, from \$50 to 1.100 lbs, at from \$4.40 to \$8.80. H. P. Kennedy sold 3 loads of mixed steers and heifers, \$5.75 to \$6.40; common cows and canners, \$2.50 to \$2.75. Jesse Dunn bought 10 feeding steers, 1,200 lbs, at \$2.50. Swifts (Canadian Company) bought 200 good to choice butcher steers, \$5.50 to \$7.75; choice heifers, \$5.50; fair to good, \$5.50 to \$5.75; good cows, \$4.75 to \$5.50; medium cows, \$4.40 to \$4.75; common, \$2.50 to \$3.50; bulls, choice, \$5.10 to \$5.75; medium, \$4.25 to \$4.75; 400 hogs, \$8.60 to \$8.75. 7 sheep and lambs and 4 calves. Gunns, Limited, bought 200 butcher steers and heifers, \$6 to \$6.75; cows, \$4.75 to \$5.50. McClelland bought 2 loads butchers, \$5.50 to \$6.40. Western Cattle Market—Receipts here today were 1 load with 24 head of cattle, 7 sheep and lambs and 4 calves. Quotations were: Export cattle, choice, cwt., \$5.75 to \$7.20; Export cattle, medium, 5.75 to 6.50; Export bulls, 2.75 to 3.75; Butchers' cattle, choice, 6.50 to 7.00; Butchers' cattle, medium, 5.50 to 6.00; Butchers' cattle, common, 3.00 to 4.00; Butchers' cows, choice, 4.75 to 5.25; Butchers' cows, medium, 3.50 to 4.50; Butchers' cows, common, 2.00 to 3.00; Butchers' bulls, 2.00 to 2.25; Feeder, bulls, 2.75 to 4.25; Stockers, 5.00 to 5.25; Stockers, common, 2.50 to 3.50; Canners and cutters, 2.00 to 3.00; Milkers and springers, 4.00 to 5.00; Calves, good veals, 4.25 to 5.50; Ewes, heavy, 3.00 to 3.50; Bucks and culls, 3.00 to 3.50; Hogs, fed and watered, 8.50 to 8.75; Hogs, f. o. b., 8.25 to 8.35; Hogs, heavy, 8.00 to 8.00.

MONTEAL, Feb. 4.—Provisions firm. Dressed hogs, abattoir killed, \$12 to \$13.50; country, \$11.75 to \$12.75. Pork, heavy Canada short mess, bbls, 25 to 45 pieces, \$28.50; Canada short cut back, bbls, 45 to 55 pieces, \$27.50; Lard, compound, tierces, \$27.50; Wood rails, 20 lbs net, \$9.25; pure tierces, 275 lbs, \$14.50; wood rails, 20 lbs net, \$15. TORONTO, Feb. 4.—The higher prices for wheat futures in Liverpool helped the feeling here for wheat, which was in good demand. Ontario grades are in limited offer, with prices necessarily strong. Oats and other coarse grains very dull. Manitoba wheats firmer, with the Winnipeg market higher for futures. Chicago also a little higher. Flour—Trade here is dull in Ontario wheat flour; 90 per cent patents are quoted at \$4 to \$4.10 at the mill; export trade quiet at about \$3.90 at the seaboard; Manitobas unchanged; first patents, in Jute bags, \$3.30; second patents, in Jute bags, \$3.40; strong bulkers, in Jute bags, \$4.60; Manitoba wheat, No. 1 northern quoted at 95½c on track at bay ports; No. 2 at 92½c; and No. 3 at 92½c at bay ports; feed wheat, 65c to 66c, bay ports. Ontario wheat, No. 2 white and red wheat quoted at 95c to 96c outside, and sprouted at 75c to 80c. Oats—Receipts are moderate, with the demand fairly good. Oats, 35½c to 36c; No. 2 outside, and 27c to 28c on track at Toronto; Western Canada oats are quoted at 41c for No. 2 and 39½c for No. 3, bay ports. Peas—There are buyers outside for No. 2 at \$1.20 to \$1.25, but offerings are nil. Barley—Trade is quiet. 48-lb barley of good quality is quoted at 62c to 65c outside; feed, 40c to 45c. Corn—The market is firmer; No. 3 American corn is quoted at 58c to 58½c, all-rail. Rye—The market is dull, with prices nominal; No. 2 quoted at 65c outside. Buckwheat—The market is unchanged, with No. 2 quoted at 52c to 53c outside.

HOOD'S PILLS Cure Biliousness, etc. Best for all liver ills. Try them.

LONDON, WEDNESDAY, FEB. 5.

HIS HONOR'S SATIN BREECHES.

The news of today is that "Lieuten-
ant-Governor Gibson wore satin knee
breeches" at the opening of the Legis-
lature. About a hundred ladies have
their dresses crumpled, but they are
only the ceteras of this occasion, Sir
John Gibson wore white satin breeches,
silk stockings (color not specified, ap-
parently), gold buckles. In the excite-
ment over the satin breeches, seen for
the first time in Ontario political life,
the coat and shirt ruffles have been
passed over. But it was with those
breeches that Sir John outshone his
predecessors.

He outshone royalty itself. The
Duke of Connaught wore at the open-
ing of Parliament only a military cos-
tume, with long trousers, Sir John Gib-
son stands up for our home-grown
aristocracy. He will not permit the
British article, even royalty itself, to
put our new Canadian nobility in the
shade.

We must give the Lieutenant-Gov-
ernor credit as of old for courage. Men
fear ridicule, and it is rather ridiculous
as a matter of fact to be the first to
cast old trousers aside and put on new
knee breeches. But Sir John is no
coward. He took no half-way meas-
ures either, but put on also gold
buckles. Amidst the fierce light that
beat upon them from the candelabra
and from them struck forth in all
directions, the governor on his throne
was undismayed.

It is possibly an awkward precedent
for successors, however. Sir John's
underpinnings are sturdy and no doubt
carried off the costume well. But it
may be asking too much of a successor
to fill his stockings as well as his shoes.
The qualifications for a lieutenant-
governor, already exacting and mani-
fold, are rendered more complicated
than ever. Trouble is laid up for a
successor without Sir John's all-round
equipment. Certainly, to neglect a pre-
cedent now set up may be difficult. As
Shakespeare says, "New customs,
though they be never so ridiculous,
may, let them be unmanly, yet are fol-
lowed." Sir John is no unmanly man,
and the standard of his office is almost
generously enhanced.

On the whole, looking over the mat-
ters calmly, is one to conclude that Sir
John Gibson's democracy has been
knocked into his cocked hat? Do these
satins and gold buckles measure the
distance he has travelled from the old
plain John Gibson and his democratic
associations?

COUNCIL CONTROL OF THE
WATERWORKS.

The table of figures given elsewhere
does not support the claim that a
reduction has been made in the
general expenses (including
office salaries) of the water-
works system by its union with hydro-
electric. It would be interesting to
know upon what grounds the claim
was made, when the question of mor-
gaging the waterworks board in the city
council was before the electors. The
one board has governed both the
water and electric departments, but in
other respects they do not appear to
overlap, or naturally lean on each
other with mutual advantage. In 1908,
before hydro-electric came, the general
expenses, salaries, etc., were 8.5 per
cent. of the water rates from consum-
ers. In 1912 the same items of expense
were 10.2 per cent. of the consumers'
rates.

The table which was presented to
the city council by Ald. Richter is also
an argument against the proposed
reduction of water rates. It shows that
the waterworks surpluses handed over
to the council shrink very considerably
when analyzed. They are to a great ex-
tent matters of bookkeeping. For in-
stance in 1912 the surplus was nominal-
ly \$68,897.76, less interest and sinking
fund, leaving \$25,514.35. Of the latter
sum \$13,812.51 represented rates paid
by the city itself. Deducting another
\$10,000 for depreciation, the actual sur-
plus was only \$1,701.87. By the same
calculation there was a surplus of \$12,
211.67 in 1908; a deficit of \$2,261.22 in
1909; a surplus of \$2,447.39 in 1910, and
a surplus of only \$499.07 in 1911. These
figures have a bearing upon the pro-
posal to reduce the discount to water
consumers from 30 to 40 per cent. This
would involve a reduction of 14 per
cent. in the revenue, resulting in de-
ficits for some years to come. The
surpluses have been artificially swollen
to the extent of \$10,000 a year for a
long period by a departure from the
recognized practice of taking depreci-
ation out of revenue. Practically
nothing is allowed for depreciation; the
sum of \$10,000 appears in the ac-
counts, but on both sides of the
ledger.

The claim is made that the water-
works department can be more
economically managed as an adjunct
of the city council. There is now a
divided jurisdiction over streets, which
causes unnecessary expense and incon-
venience. In any event, the city is now
committed to the experiment of coun-

cil control of the waterworks. If it is
not satisfactory, the dual system can
be reverted to at short notice.

AS TO MR. GABY.

The face of Mr. F. A. Gaby, whose
name is now pretty well known to
Londoners, looks out from a late num-
ber of "The Electrical News," framed
by a brief biographical sketch.

We learn that Mr. Gaby graduated
from the faculty of applied science in
Toronto University in 1903, spent some
years with the Canadian General Elec-
tric Company, and later with the city of
Winnipeg, where he was assistant elec-
trical engineer in the preparation of the
designs of a municipal plant. He joined
the hydro-electric forces in 1907, and
was chief assistant engineer from 1908
till his appointment as chief engineer
in July, 1912.

Mr. Gaby was educated as an elec-
trical engineer and has worked at nothing
else since his graduation. He has
not even helped to plan or build an
electric railway, much less manage or
operate one. Some facts suggest them-
selves in relation to Mr. Gaby and the
local railway situation:

1. The citizens were asked to spend
nearly a million dollars in electrify-
ing the London and Port Stanley
upon the strength of a report by Mr.
Gaby.

2. Mr. Gaby is the paid servant of the
hydro-electric commission.

3. The chairman of the hydro-electric
commission is the promoter of the
electrification scheme.

4. Mr. Gaby has had no railway
experience, electric or otherwise.

These statements are not open to
dispute. They carry their own con-
demnation of the men who tried to
compel the people to vote without in-
formation other than contained in the
Gaby report.

DODGING THE POINT.

The Free Press purposely evades the
point of the Manitoulin case. Because
Manitoulin carried the Scott Act, our
contemporary jumped at the conclu-
sion that the act was operative in the
whole province. It went on to say:

"The failure of Mr. Rowell's ban-
ish-the-bar campaign is made clear
in the contest in Manitoulin. The
Liberal leader's policy is unneces-
sary, since there is legislation al-
ready upon the statutes of Ontario,
which not only banishes the bar, but
the shop as well, and upon a simple
majority."

When our contemporary says that
Mr. Rowell's policy is unnecessary be-
cause liquor licenses can be abolished
by a simple majority, it must take the
logical consequences of such a state-
ment by admitting that his policy be-
comes necessary if the bar cannot be
abolished by a simple majority. As
a matter of fact the Scott Act, with its
simple majority provision, is operative
only in the provisional judicial districts
of the province, which comprise
a portion of Northern Ontario.

The Free Press is now bound by
consistency to denounce the three-
fifths clause of the local option act,
but we are not hopeful that it will.

The Lieutenant-Governor's satin
breeches quite outshone the speech
from the throne.

The farmer M. P. for Qu'Appelle put
it neatly when he said the naval
emergency declined to emerge.

Major Beattie says he has been
ignored in the matter of Dr. Campbell's
dismissal. Is he content to ignore the
ignoring?

The local school board proposes to
ask the Legislature to prohibit adver-
tising by municipal candidates. If
the school board is not joking, it is
making a joke of itself.

Do you hear of any Canadian farm-
ers praying to be saved from Wash-
ington legislation which would open
the American market to their grain,
cattle and dairy products?

In addition to the dangling \$250,000
worth of public works before the
electors of Antigonish, the agents of
the Ottawa Government announced
that the Intercolonial would bring in
hay free of charge. The Minister of
Railways now repudiates the hay
advertisement, but it served its pur-
pose as election fodder.

The assertion in an article in yes-
terday's edition that the city would go
to Ottawa and ask for power to spend
money on the L. and P. S. R. may
have been misleading. The applica-
tion for the authority to raise money
must be made at Toronto, but per-
mission must be sought at Ottawa if
the indebtedness of the road is to be
added to.

CONFLICTING NEEDS.

[Baltimore American.]

Mr. Pounds, the retired grocer, was
very proud of his new country estate.
He spared no expense in doing things
well. Judge, then, of his delight when
a pair of rooks began building a nest
in his park. But the farmer who owned
the next land was not so pleased.
In fact, he disliked rooks. So he gave
his sons orders to shoot the offending
birds. Along came Mr. Pounds, en-
raged.

"See here, my man," he said fiercely.
"I wish those lads of yours would let
my birds alone. I'm trying to make a
rookery, and—"

"That's all right, sir," replied the
sturdy son of the soil. "But I wish
your rooks would let my crops alone.
I am trying to make a living."

THE CRISIS.

[London Opinion.]

He—A decisive battle is about to
be fought. I hear the Bulgarians and
Turks are already engaged.

She—Oh, Mr. Tiding, what an en-
couraging example.

GREAT BRITAIN'S CRISIS.

[Ottawa Citizen.]

Land reform is surely the foremost
task of the British Liberal party. If it
is not made so, then it is certain that
another party shall be formed to meet
the strongest demand of British life
today. There is no evasion of the
inevitable crisis. Its settlement may
be postponed; it cannot be avoided.
Great Britain, and all her allied do-
minions, have reason for thankfulness

that at this time such a man as Lloyd
George has been raised up as a leader
in that movement which has as its
goal the real freedom of the British
people.

A SOFT DAY.

[W. M. Lettis, in the Westminster
Gazette.]

A soft day, thank God!
A wind from the south
With a honeyed mouth;
A scent of drenching leaves,
Briar and beech and hawthorn;
White elder flower and thyme;
And the soaking grass smells sweet
Crushed by my two bare feet,
While the rain drips,
Drips, drips, drips from the eaves.

A soft day, thank God;
The hills wear a shroud
Of silvery cloud;
The web the spider weaves
Is a glittering pet;
The woodland path is wet
And the soaking earth smells sweet
Under my two bare feet,
And the rain drips,
Drips, drips, drips from the leaves.

RIGHTWHEEL HAMILTON.

[Hamilton Spectator.]

Vital statistics of London, Ont., dis-
close a disproportionate number of il-
legitimate births. Now a census is
being taken to ascertain the number
of those who do not attend church.
Must be sad need of a reawakening
there.

INVESTIGATIONS OF A BOUR-
GEOIS KING.

[New York Sun.]

George III. was wondering how the
apple got in the doughnut.
"A soufflette hurled it in," they
told him.
Far from reassuring, this only fur-
ther alarmed the monarch.

HERE'S A HANDY MAN.

[Advertisement in the Kirkcubrightshire,
Scotland, Advertiser.]

Peter Glancy, alias "Moses," 61, Carl-
ingwark Hill, Castle-Douglas, begs to
express with grateful pride his deep
appreciation his heartfelt thanks for the
number of odd jobs put into his hands
for prompt and careful execution, and
earnestly solicits the continuance of a
charitable public's respected support.
Since the appearance in this column of
the last announcements of his abilities and
qualifications, "Moses" feels absolutely
assured that there is room in Castle-
Douglas for an obliging, energetic, punc-
tual, careful and general handy man,
who is both able and willing to do any
mortal thing at prices that will pay both
employer and employed, including the
insurance. In addition to the former list
of odd jobs, all of which he is still will-
ing to perform, "Moses" is prepared to
execute promptly and conscientiously the
following: Paring potatoes, exercising
puppies, bagging jewelry, hanging coats,
patching trousers, stuffing pillows, bak-
ing treacle scones, dipping sheep, arranging
sweet peas, shaving, turning, having
corns, killing pigs, making snowballs,
making soap bubbles, stuffing hutchins,
wheeling bath chairs, making swine meat,
in the shape of "crabs," making
wreath of moss, or to go to a ball, a
football match, or to a cinema, or to
the circus, or to sing children to sleep,
but "Moses" takes a better plan by imitating
some of nature's sweetest songs, and
advises the advertiser of one of our
modern, up-to-date educations, and was
dux of the nature knowledge class.
He is perfect in the "crab," and the
duck, and plays the bagpipes with a
skill that would make the Duke of
Macintosh die of envy. "Moses" sends
his kind regards to all his friends
and supporters, and wishes them a Merry
Christmas and a Happy New Year.

HIS OWN MAKE.

[Yonkers Statesman.]

Mr. Bacon (The Hon. Crossley, who
called last evening, is a self-made
man.

Mrs. Bacon—Too bad he couldn't
have made himself a little more agree-
able.

FOR HIM, NOT OF HIM.

[Houston Post.]

"What's his daughter doing?"
"Making that shrimp salad."
"I didn't know we had any shrimp
in the house."
"We haven't, but there is one going
to call on her this evening."

THE USE OF GOOD HUMOR.

[Milwaukee Journal.]

Thackeray says, "Good humor may
be said to be the very best article of
dress one can wear in society." Good
humor is a garment of home manufac-
ture which everyone may wear, and
which, in his design in his own coloring
and style. Whatever Dame Fashion's di-
cates may be, good humor is always in
order. There is no one but meets with
many little irritating things daily. He
gives away in vexation to each of
these, he is always unhappy and com-
municating his unhappiness to others.
But, meeting these small vexations
cheerfully, he finds a large part of them
smoothed away, while those that re-
main are borne more easily if taken
with good humor. "A laugh is worth
a hundred groans in any market." The
man who is always kicking against
pricks makes himself disliked. The
good-humored man is always a wel-
come member of society. People have
enough ill humor and temptation to fill
their own. It is the man who can
relieve others of theirs who is glad
to see, and he is the man whose good
humor bubbles over and brings light-
ness instead of gloom.

IMPORTANT STEAMSHIP NOTICE.

The Canadian Pacific Railway an-
nounces that, effective at once, the
prepaid fare from Antwerp has been
reduced to the exceedingly low rate of
\$29.50, including three days' board and
lodging at Antwerp, prior to the sailing
of the steamer. This should prove a
great inducement to intending pas-
sengers of prepaid tickets, as the same
unequalled service will be in order on
the company's steamers. The above pre-
valence when the higher rate was in effect,
it is important that bookings be made
early, as the above low rate is, in all
probability, temporary only. All infor-
mation pertaining to the above may be
had at the Canadian Pacific Railway
office, corner Dundas and Richmond,
from Mr. W. Fulton, the London repre-
sentative.

Looks as if King Winter will now
proceed to beat 300 for a stretch.

So far the bear has proved himself
a lyer, not a liar.

That February picnic we planned to
Springbank in an open car is off for
the present—the picnic, not the car.

Imagine the demoralizing effect of
those satin knee-breeches and gold
buckles of the Lieutenant-Governor
upon George Neely, M. P. P.

Funny how coal gets so scarce the
moment the thermometer takes a
dive.

Aldermen, Glass,
Stein,
Rose,
Moore,
White.

"Champions of the people," all of
them, in the recent campaign, they
tried to subvert the will of the peo-
ple at Monday night's council meeting
in regard to the abolition of the water
commission.

General Manager Glaubitz is busily
engaged in preparing the estimates for
the waterworks department. — News
Item.

When you have them finished,
Gloomy kiss them one last, fond, lin-
gering farewell. They will be the last
surpluses in their possession at
the present time. — News Item.

After the water commissioners are
abolished, what of that little old last
year's car? — News Item.

"I am absolutely convinced that the
change is suicidal,"—Chairman Po-
cock.

Speaking for yourself, Mr. Chair-
man?

Before the election Adam sought to
intrude his personality into the cam-
paign at every opportunity. Or has
he been keeping out of it. There's a
reason.

What mean these mournful faces.
Whence comes that rending sob?
This wailing, this wailing, this wailing,
Mourning for dear Herr Glaub!

One year hence the G. M. will have
to be content with calling himself the
Grand Mogul, and letting it go at
that.

A reader writes: "How is it those
five aldermen who shouted for the
people a few weeks ago, have changed
their tune? That's it! How is it?
We can't give the answer."

A north end lassie, dreaming that
mother had died awake with a fearful
howling, had seen the maternal hand
openly wranked her for raising a
row. Of such is life.

A California senator proposes to
start a human stock farm, where 20
perfectly matched couples and their
offspring may live with idyllic sur-
roundings. Such conditions have pre-
valled in London for years, only we
haven't called the system "Eugenics."

Have you heard any of London's
new residents complaining about the
bargain they received? Neither have
we.

Toronto has disclosed a cemetery
trust. Now we know the real "power
behind" in that town.

On a morning such as this at 6 a.m.
an alarm clock hasn't a friend.

Don't make us laugh about a coal
shortage, Mr. Coalman! Haven't you
been advertising an abundance of it
lately?

Some of the coal men evidently saw
the bear's shadow, anyway.

Speaking of harbingers of spring
one cannot depend on there's the bot-
tomless onion.

Scientists have decided to search for
the Garden of Eden. Western Ontario
get ready to receive 'em!

Fifteen guns boomed at Whitney
House, Toronto, Tuesday. During the
session another gun, which Sir James
doesn't know is loaded, will be heard.

Once more King Menelick is dead!
He has contributed himself to the
mortality statistics as often as a re-
giment of specially endowed felinas.

Anxious Subscriber writes: "Why
don't they announce the name of Lon-
don and other cities in connection with
departing trains at the Union Station,
Toronto?" The answer in a word is:
"Jealousy."

BRADLEY MARTIN DEAD.

London, Feb. 5.—Bradley Martin,
of New York, died here this morning
from pneumonia. He had been suf-
fering from a severe attack of influ-
enza, which suddenly developed into pneu-
monia yesterday.

Mr. Martin was in his 72nd year. His
daughter Cornelia was married to the
Earl of Craven.

The Source of
Many Ills

So many of the pains and aches we
suffer, and so much of the serious dis-
ease, is directly traceable to constipa-
tion of the bowels and sluggish action
of the liver and kidneys that most
people realize the danger of neglecting
these conditions.

The question is what treatment to
use, and this letter from Mr. Luttrell
leaves no doubt on this score. He has
personally proven the effectiveness of
Dr. Chase's Kidney-Liver Pills in
cleansing the system and invigorating
the derangements of the liver and
kidneys. They do their work in a
quiet way every time—no gripping—no
sickness, but most beneficial results.
We have also used Dr. Chase's Oint-
ment in our family for a long time,
and so long as we can get these medi-
cines shall not use others."

How to Make Your Flour Go Further

WHEN the oven is hot and you face the bustle of
baking day, don't forget that Rainbow Flour will
go further than any other brand.

Why? We'll tell you.

Only the cream of the wheat berry can meet the
exacting standard we set for Rainbow Flour.

There is no fibre, no germ, no dirt in Rainbow Flour.

We remove all these in our extra-careful milling. There
remains only a picked portion of the choicest of wheat,
the nutriment.

Most quality to the pound—that's why Rainbow Flour
goes furthest.

Try a 7-lb. bag. Its use is true economy.

RAINBOW FLOUR

MAKES GOOD BREAD

Sold in 7-lb., 14-lb., 24-lb., 49-lb. and 98-lb. bags
and in barrels.

Canadian Cereal and Flour Mills Limited, Toronto, Canada

Makers of Tillsen's Oats—Rainbow Flour—Star Flour

MAKE CANDIDATES QUALIFY SAME AS FOR ALDERMEN

Board of Education Will Ask Legislature to Change Law Regarding Trustees.

NO ADVERTISING TO BE PERMITTED

If Idea of Trustee Gunn Becomes Law—Prizes Awarded for Competitive School Plans.

Property qualification for the mem-
bers of the board of education will be
as necessary as for the aldermanic
board, if the suggestion of Trustee A.
M. Hunt becomes law. At the meet-
ing of the board held yesterday after-
noon he introduced a motion, which
was carried, to memorialize the Pro-
vincial Government to amend the mu-
nicipal act, compelling all candidates
for the office of school trustee to qual-
ify on real property.

The various boards throughout Ont-
ario will be requested to pass a simi-
lar motion, and send it on to the
Government. Trustee Hunt declared
that the board of education was a
most important body, expending large
sums of money, and it was his opin-
ion that those expending much money
should have some financial interest in
the city before they should be allowed
to become one of the members of the
spending body.

No Advertising.

Trustee John M. Gunn succeeded in
passing a motion to do away with the
pernicious habit of advertising at
municipal election time. Mr. Gunn
gave notice at a previous meeting
that he was about to take this pro-
gressive step, and he was successful
in getting the members to support
him. The Government in this instance
also will be memorialized to pass the
necessary legislation. Mr. Gunn be-
lieves that the city should advertise
all the candidates seeking the pos-
ition. The present method was not
satisfactory, and he was of opinion
that the change would result bene-
ficially.

Salary Increase Asked.

The male teachers at the Collegiate
Institute, the principals of the public
schools, Trust Officer Weir, and the
three domestic science teachers in
the public schools, requested an in-
crease in salary. The finance com-
mittee will

PERSONALITY AND PERFUME.

I believe there was a time when my lord, the man, used to perfume himself with sweet scents and pleasant flower odors, with the idea of rendering himself agreeable to the society in which he presented himself. And there are still men, I am told, who indulge in perfumed baths and sprinkle their locks with the essences gathered from flowers and fragrant herbs. But for the most part the men of our race limit themselves to toilet waters, aromatic rather than sweet, and if they do scent themselves they do so sparingly, leaving the profuse use of perfumes and sachets to the feminine half of the world. And the feminine half of the world has come to look upon perfume as an essential part of a woman's personality and charm. Therefore she is a woman and a woman of good taste who is fastidious and exclusive in the matter of perfume. She does well who delicately chooses the scent of some particular flower for her own—the violet, the white rose, the heliotrope, the lilac or carnation, or some delicious blend of flower odors, a bouquet cunningly blended by an expert, so that one is not sure which of the flowers of the garden or field heralds her approach, or heralds her presence. A perfume should be subtle, elusive, discreet, never conspicuous, never thrusting itself upon the olfactory nerves of others, but withholding itself, as it did in its flower, exhaling its sweetness only at close range, at unexpected moments stealing upon the senses, and then refreshingly, deliciously suggestive of all loveliness. Liquid perfume, distilled from the flowers, must ever be more grateful to the senses than the odor of sachets. The dried and powdered leaves used for sachets are apt to have

for their base strong smelling substances or flowers such as musk, lavender, patchouli. To many these strong heavy odors are not only unpleasant, they are distressing, and cause nausea and faintness. Only robust sense of smell can endure these powerful scents. Oris root as the basis of sachet powder is much milder and more refined, and when from Elysiac or Leghorn is usually pure. Its odor suggests violet, always a dainty and delicious perfume. But perfumes are costly items in one's expenditure, for they must be of the best. Better one drop of the best or no drop at all than a bottle of cheap common scent.

A Useful Case

A suggestion that has proved a great success is a week-end case. This is made of heavy linen, or fine pique (two materials that wash well), or a very dainty crotonette, and is cut about seven inches wide and about 14 inches long, five inches being allowed for the flap that folds over like an envelope. The case is lined with white rubber and is then bound with white linen tape or wash ribbon. A pretty pattern in cross-stitch can be worked across the edge of the flap, or a monogram makes a most appropriate decoration. The flap is fastened by a loop and button, and the case is small and compact enough to fit either into a handbag or a dress suit case, and is kept especially handy for rainy day purposes. It may be made more dainty by embellishing it with ribbons of a dainty color, with bows at the corners. When it is soiled, the ribbon can be removed and the case can be scrubbed and made to look like new again.

The articles for filling such a case can be bought in miniature size at a very moderate cost. They include a hand towel, a wash rag, a cake of toilet soap, a small tube of tooth paste, and a toothbrush. Sometimes such a case is made with two pockets, the one for the towel and wash cloth and the other being divided into two or three compartments for the soap, toothbrush and tooth paste.

The Birthday Calendar

FEBRUARY 5.
IF THIS IS YOUR BIRTHDAY

You will travel with benefit to yourself, and other activities will result. Be careful of your conduct toward a friend of the opposite sex. Those born today will have strong characters and will be fond of political affairs and scientific arguments. They will be happy with congenial people and will accomplish much, but if associated with narrow minds they may degenerate into mere quarrellers.

VEAL STUFFING.

In making stuffing for a loin of veal have it very moist, for the meat itself has little moisture.

SMOKED CEILINGS.

Wash smoked ceilings with a cloth wrung out of water in which a small piece of washing soda has been dissolved.

PERSONALS

Subscribers are invited to write their items of personal news on this slip and hand it in to The Advertiser office.

PURE FOOD BABY IN SUFFRAGE MARCH.

HARVEY W. WILEY, JUN., son of the famous pure food expert, is to be a prominent feature of the great equal suffrage parade in Washington on March 3, if he doesn't have the croup or stomachache. Mrs. Wiley is an ardent suffragist, and is bringing up her son with the same views.

"MADE-TO-ORDER" CORSET BEST —MAY COST MORE, BUT LASTS LONGER—THE BRASSIERE

Corsets have undergone an entire transformation, not only in shape, but in materials, in the last few years. No longer does a woman have to buy one of a few styles and try to fit her figure to the corset. She now may choose from as many styles as if she were selecting a dress, and in particular type of figure she can, by a little looking about, find exactly what she needs, even to details that will correct faults of proportion.

Whether a corset is long above the waist or not depends very much on the figure. If the top edge cuts into the flesh, it is a sign that it is not the right corset for the wearer, and sometimes with it. On the other hand, every corset is long below the waist, some long as to be skitlike. Of course, the inset supports of whalebone or other sustaining fabrication, do not descend much below the hips, but they are not needed below, the material holding the surplus flesh firmly in place.

The brassiere. The brassieres are made to match the

corsets or of eyelet-worked linen, and have seams stayed by tubular bias bands into which little supports may be inserted, and which are removable for laundering. Those to wear with a low-necked gown are on quite different lines from those for daytime wear, in some cases being attached to the corset top, and not over the shoulders and lower.

It goes without saying that these corsets cost more than the ordinary ready-made kind, but, fitting the figure, they last much longer, and, therefore, are not more expensive in the end. The expense is more in the time taken to find the right corset for the figure, as a number of shops must be visited in order to make comparisons.

Feminine Frills

Clumps of berries, in gold, silver, velvet or satin, are fashionable for millinery. Maidenhair fern is used with most of the corsage bouquets that are so fashionable now.

The very latest Parisian touch is achieved by a combination of tulle, round wooden buttons trim separate skirts of Scotch mixtures. Accordion plaited waists are fashionable.

CREAKING DOORS.

Rub the sides and edges of creaking doors and drawers with hard soap. It is better and cleaner than grease.

"YELLOW SPRING AND WHITE SUMMER"

Writes Miss Mortimer From Paris.

[By Maybelle Mortimer.]

Paris, Feb. 5.—The new spring styles will usher in a number of seemingly original ideas. For instance, you in Canada, will surely see a number of odd loopings of narrow skirts which form draperies only on one side of the gown.

I saw the other day a frock that consisted of an underskirt, half a panier and half an overskirt, and over all this a whole Russian blouse. This came from the house of Marit & Armand, and was made of pink tulle. Pink, however, except in the deeper coral and American Beauty shades, will not be used quite as much for frocks as in seasons past. Yellow seems to have taken a new lease of life. You see it in every kind of fabric, and very springlike it is in appearance when combined with green in yellowish olive shades.

All shades of yellow will be worn, from the faint tint of cream to the yellow brown of the underside of the autumn leaf. Many of the new all-over designs are in yellow brown or cream yellow.

One of the new shades, which will be much in evidence this spring, is the yellowish green one seen in the pussy-willow, when it first puts out its catkins. This shade, however, is very trying and should only be worn by the woman with the irreproachable complexion and dark eyes.

Brown Coming Back. Brown will be worn more this spring than in many seasons, and it will almost always be combined with some shade of yellow. There is also a new shade of blue, which will be very popular, a little pinker than the blue that was worn so extensively a few years ago. Taupe has run its course during the winter. This color has not enough life in it to be chosen for spring costumes when all nature is waking up to joy and love.

Green also will be relegated to the background, which is a pity, as green seems to breathe the very fragrance of spring.

It looks now as though we are going to have a white summer, the shops are full of exquisite lingerie costumes of hand embroidery and real lace.

The woman who thought she had seen the acme of luxury in last year's filmy frocks will gasp when she realizes the time and money expended on those which are being made for this season's wearing.

Cotton Crepes Popular. Chinese crepe is beginning to make a strong impression upon the woman

who likes the individual fabrics, and I have even seen a number of gowns made of the very noticeable blue and white Chinese cotton crepe, that we use in room decoration. There are also a great many all-over designs in cotton, some of them looking like the

old-fashioned chintz which we saw in grandmother's bedroom. Rough weaves will predominate for silks, reflecting the popularity of green and ratine that have been so fashionable this winter. Cotton ratines and eponges will be used almost to the elimination of linen for heavy-tailored tub gowns. Cotton crepe, however, will be the popular novelty for wash gowns this summer. Some of these crepes are made of a heavy, finely twilled thread that gives a very decided character to the cloth and increases its coat-clinging effect.

Everything must, cling, even one's tub dresses. Starch has gone completely out of style, and women who are planning their summer wardrobe will do well to include at least one of these clinging voile or crepe dresses for dressy occasions.

A great variety of belts are being used. It is only a few years ago that we were all wearing one-piece dresses and to such an extent did this style prevail that there were a number of failures among the belt manufacturers.

However, you seldom see a gown from the best designers, nowadays, without some kind of a belt. Flat collars turning away from the neck with frills and jabots will be worn, as well as the collarless and Dutch necks. No one but a woman with a long, ugly neck will wear a high collar this summer.

FOLLOW FRENCH STYLES. The number of hats imported into this country from France, as compared with the quantity manufactured here, is almost infinitesimal. The French hats are used only for copying and for ideas, and as long as Paris continues to hold her position as the fountainhead of style for the whole world in the matter of women's wear, apparel, so long will the steamship list be filled at the beginning of each season with the names of buyers bound for that centre of fashion, for which there has not been found any rival.—The Millinery Trade Review.

Problems of the Fair Sex Solved by Cynthia Grey

[Correspondents are requested to make their inquiries as brief as possible, and to write on one side of the paper only. It is impossible to give replies within a stated time, as all letters have to be answered in turn as they are received. No letters can be answered privately.]

A Peculiar Correspondence.

Dear Miss Grey: Will you kindly answer a few questions for me through your helpful column?

1. I have got a girl chum, who was corresponding with a gentleman friend who was living in another city. Some time ago he was coming to visit her, and as she had spoken to him of me he said he would bring a friend with him. I had never met his friend, but he sent me a card, introducing himself and asking me to answer, which I did. Something happened, and they did not make their intended visit, but this gentleman and I have kept up a correspondence ever since, and he has sent me his photo. Am I doing wrong in writing to him when I have never seen

him? He says he is coming to see me.

2. I have dark hair, blue eyes and very fair skin, but I haven't much color, although I am healthy. What will bring red to my cheeks?

3. What will keep the hands white? Hoping I am not bothering you too much, and thanking you in advance, I am, AN ORPHAN BRUNETTE.

A.—1. It does seem rather foolish to correspond with a person whom you have never met, but I presume the fact of his being "a friend of the friend of your friend" gives him a prestige, as it were, that he would not otherwise have. Perhaps it would be a wise thing for him to visit your home; the result would either be a confirming of your friendship or an awakening that would do both of you good.

2. Probably nature didn't intend you to have rosy cheeks, and if you are healthy and have a fair skin, be satisfied.

3. Careful drying before going out into the wind helps to keep the skin from "chapping." A little of this lotion rubbed in nightly is a material aid in softening the skin and keeping it white: Rosewater, 1 ounce; glycerine, 1 ounce; carbolic acid, 10 drops; juice of half a lemon. Rub in well after washing the hands, and then draw on a pair of loose cotton gloves.

Trimming a Dress.

Dear Miss Grey—Could you suggest a nice way to make a white voile (cotton) dress for a 14-year-old girl? I thought of trimming it with crocheted lace or insertion. ALLIE.

A.—Bands of hand-made insertion would indeed be very pretty and suitable trimming for your dress. You could use a wide band of the insertion to form a square neck finish, and also on the skirt just above the hem.

Holding a Social.

Dear Miss Grey—I always read your correspondence column, and find it a great help to me. So if it will not be too much trouble, I would like to ask you a few questions.

1. We, the young girls and boys, are getting up a social every month. What could we have to amuse everyone besides the program? It will not be very long. We hold it in the basement of the church.

2. What would be nice, and not too much trouble, for lunch?

3. What could we have for a valentine social, besides lunch? What games or amusements?

4. I am sixteen, and also the housekeeper for two. Am I too young to go out driving with fellows?

5. What do you think of my writing? ANXIOUS.

A.—1, 2 and 3—I gave some hints for a St. Valentine social in this column on Jan. 29, and I feel sure you could use some of the amusements mentioned therein for your social evening this month. I will ask you to look these up as it will save printing them again, and space is somewhat limited.

4—I presume you mean that you keep house for your father? In any case, I should advise you to seek his approval regarding the company you keep, and respect his wishes about the drives.

5—Your letters are rather carelessly formed, and it is not necessary to capitalize every second or third word, while as to punctuation, my dear, in your whole letter of queries I cannot find one interrogation mark!

Gives Rules for

Good Figures

Bad figures are a disgrace, according to Hazel Bess Lauenour, of the University of California, the only woman who ever swam the Golden Gate at San Francisco, and the girl who has arranged to swim the English channel next year.

Her rules for women who yearn for a good figure are these:

"If you want to fill out your chest and be well, walk. Don't walk one day and lie in bed the next."

"Coffee kills curves."

"Eat only a few things and don't mix them. Eat the things you like and eat when you are hungry. Eat often and little."

"Don't eat rich pastry. Eat plain cake if you like."

"For breakfast drink the juice of a grapefruit with a lemon in it. Walk after you eat in the morning."

"Don't eat too many potatoes."

"Coarse meat is good for you; also lean meat and green vegetables."

"Baking does not make you thin. I have tried it, and I've seen too many fat chorus girls to believe it."

"The majority of society women want to do only the comfortable and easy things, and one can't get a perfect figure that way. Lounging and eating chocolates will ruin figures."

"It is easier to sit up straight than to cave in, the way so many women do."

"It is a disgrace to have a bad figure because it indicates laziness and selfishness. A little self-denial, a little conscientious exercise, and any woman may have a figure that is the envy of the hollow chested."

"A pretty face fades so much quicker than a pretty figure, and it is so much more of a care."

That lemon juice and a little salt will remove all stains from white ivory knife handles.

SIX

HAIR STOPS FALLING, DANDRUFF DISAPPEARS—25-CENT "DANDERINE"

Save Your Hair! Beautify It! Invigorate Your Scalp! Danderine
Grows Hair and We Can Prove It.

Try as you will, after an application of Danderine, you cannot find a single trace of dandruff or a loose or falling hair, and your scalp will not itch, but what will please you most, will be after a few weeks' use, when you will actually see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine now will immediately double the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it

through your hair, taking one small strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy and have an appearance of abundance; an incomparable lustre, softness and luxuriance, the beauty and shimmer of true hair health.

Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove to yourself tonight—now—that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all.

Your friends

FOX---ATWELL

Pretty Wedding at the Bride's Home
in West Nissouri.

One of the prettiest weddings of the season took place at the home of Mr. and Mrs. Richard Fox, concession 2, West Nissouri, when their daughter, Mary E., became the bride of Mr. Elmer J. Atwell, of the same township.

At six o'clock, amid the strains of the "Bridal Chorus from Lohengrin," played by Mrs. James Fox, sister-in-law of the bride, the bridal couple, who were unattended, entered the drawing-room and took their places under a beautiful arch of evergreens and cut flowers.

The bride, who was given away by her father, looked charming in a gown of ivory duchess satin, trimmed with rosebuds and cream lace, with the conventional veil and wreath, and carried a shower bouquet of cream roses and lilies of the valley. She wore the groom's gift, a pearl and amethyst pendant. Rev. J. Smith, of Dorchester, performed the ceremony. The groom's

SOCIAL CLUBS WILL COMBAT CITY'S EVILS

In Rousing Meeting in Wesley
Hall Different Bodies Federated for the Purpose.

IMMEDIATE WORK NEEDED IN LONDON

Sheriff Cameron Claimed Urgency in
the Matter Is Necessary—The
Addresses.

Taking the view that "In unity there is strength," the men's social clubs belonging to the various churches of the city, at a meeting held in Wesley Hall of the First Methodist Church, on Tuesday evening, unanimously decided to federate into one body, and to have but one end in view, namely, that of combating the social evils which exist in London. The gathering was a most enthusiastic one, and much force was added to the spirit of the gathering by an address given by Mr. J. E. Starr, commissioner of the juvenile court, Toronto.

Social societies were organized in many of the churches several months ago, but concerted action was lacking. In the amalgamation of them all, a more direct and determined effort will be immediately made to eradicate vice and crime, particularly juvenile crime, from the city.

A Plan of Campaign.
A committee of fourteen, representative of the churches in the city, was appointed for the purpose of drawing up a plan of campaign. The names of the members of the committee are as follows: Sheriff D. M. Cameron, Ald. H. Ashplant, ex-Ald. R. G. Blain, Rev. H. H. Bingham, Rev. J. H. Boyd, Rev. C. A. McKenzie, Rev. G. N. Hazen, Rev. D. A. Whitmore, Major Morris, Mr. A. M. Hunt, Mr. H. B. Archer, Police Magistrate J. C. Judd, K. C., and Mr. John K. McDermid.

Commissioner Starr, in commenting upon the need of this organization, declared that with an active membership of 300 they could accomplish anything that was required in the way of reducing crime.

Immediate Work Needed.
Sheriff Cameron wanted immediate and concerted action before the evil work in London had advanced too far. The "girl" problem especially needed attention. He felt that the society should be held responsible for a permanent officer, whose duties would consist of keeping in touch with the various churches and have a general knowledge of social conditions in the city. The sheriff made the motion that the men's social clubs should federate and organize for immediate service.

Mr. Starr's Address.
Commissioner Starr's address was a worthy effort, and in it he brought home some strong points, which had much to do with the final result of the meeting.

His theme was based on the question, namely, "How is it that in this land of the maple we have not nearly approximated the divine idea?" The reason, he explained, was obvious, notably, that the church and state in this land had not blended in their ideas. In the past, and were not working hand in hand for the future good of the nation.

Politics and the Church.
"It is only a bluff of 'milk and water' Christians, to say that politics should be kept outside of the church," said Mr. Starr. "There is scarcely a public question that has not a nine-tenth religious side to it, and there is scarcely a religious question which has not a great percentage of politics involved. The church is to inspire the state with the divine idea, and keep it pure. Reciprocating, the state is for the purpose of advancing the church."

Advancing Salvation.
Continuing, Commissioner Starr contended that salvation could not possibly be secured without state legislation. The ballot, representing public opinion, was in many cases a great agency for advancing salvation, and the application of Christian principles in the service of the state.

Following the Master.
The application of these principles and the desire to serve God were not accomplished by a rendering church, contributing generously to the collections, or by praying for those ostracized from Christian society, but by serving these people at the altar of their needs, like Jesus Christ, who came to minister, and not to be ministered unto. A suitable environment was a great factor of the need problem. By serving the needs of the young people he considered it the best way to serve a municipality or state.

Social Work.
In concluding, the speaker mentioned several branches of social service work which could be conducted in a community.

The first thing he considered necessary was to secure a juvenile court. Instead of sending a boy to an industrial school after he had been convicted, he would give the lad a probation card and lend him all possible encouragement to his reformatory work. He also deemed it wrong to give the foreigners a vote until they knew enough about the country to cast an intelligent ballot. The poor mother who was burdened with several children, he advised, should be given suitable work, and the children placed in a decent home.

The daily occurrence where motorists pick up young girls for a ride and then drop them, he considered one of the worst kind of crimes. He stated that this was an almost daily crime in Toronto.

A vote of thanks was tendered Commissioner Starr for his excellent address. The newly-appointed committee remained after the regular meeting to form plans.

COMMISSION TO RUN ROADS OF PROVINCE

Government May Place Ontario
Highways Under an Independent Board.

Toronto, Feb. 5.—The extension of road construction under the supervision of a provincial commission, with provision for the widening of the present highways, legislation to take care of provincial roads, and the maintenance of all highways in Ontario is, it is expected, to become the substance of a plan of road improvement to which the Ontario Government will give consideration.

The announcement made by the Government at the opening of the session yesterday, through the speech from the throne, was the first intimation of the plan the Government has in mind. In pointing out that the work the Government will be called upon to do for the highways will require perhaps more than five million dollars, a low figure has been given as the probable expenditure such a plan as that indicated would entail.

BRIDGEN CONCERT GREATLY ENJOYED

Presbyterian Annual Entertainment
and Supper Was a Great
Success.

[Special to The Advertiser.]
Bridgen, Feb. 5.—The Presbyterian annual supper and entertainment was attended by a large crowd from all over the district.

After a splendid supper had been served by the ladies in the basement, an adjournment was made to the church, where a rare treat indeed was provided for the music-lovers, when Mrs. Kennedy, soprano, of Toronto, and Mr. Redfern Hollingshead, tenor, also of Toronto, rendered a number of selections.

Bridgen people have long borne the reputation of being highly appreciative, musical listeners, where none but the best will be taken into account, and last night's program added another successful treat to their many previous successes.

Mr. Holgate, of Toronto, performed the duties of pianist throughout the evening. Local clergymen made humorous remarks from time to time.

The pastor, Rev. Thomas Oswald, occupied the chair. The proceeds exceeded \$180.

THAMESFORD W. F. M. S.

Report On Presbyterian Meeting Heard
By Large Audience.

[Special to The Advertiser.]

Thamesford, Feb. 5.—The W. F. M. S. of St. Andrew's Church held its monthly meeting in the lecture-room of the church yesterday.

A large number were present to listen to the report of the Presbyterian held at Glencoe, which was ably given by Miss Thompson. The society is taking up the study of the New China this year, and the first paper was given by Miss McMurray, and was listened to with much interest, as it was well prepared.

A paper on social was held last evening in the old rectory by the ladies of the A. Y. P. A.

Mr. Newton Leader and Miss Phillips, of London, spent the week-end with Mrs. F. P. Newton, and attended the Foresters' "At Home."

Mr. R. Newton, of Detroit, has been visiting his brother John for a few days recently.

BURIED AT WARDVILLE.

[Special to The Advertiser.]

Sarnia, Feb. 5.—The remains of Miss Alice Dibb, who died in the hospital here, were taken to Wardville, where interment was made. Deceased only recently left the home of Rev. C. K. and Mrs. Logan at Alvington, where she had spent many months.

WHY BACKS ACHE

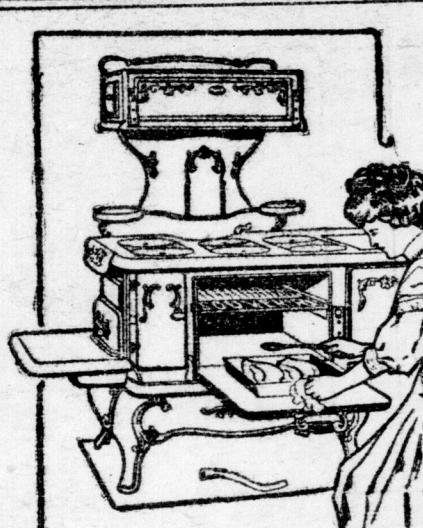

The Kidneys Seldom to Blame—
The Trouble Due to Blood
Impurities.

There is more nonsense talked about backs than any other disease. Some people have been frightened into the belief that every backache means deadly kidney trouble. That is utter rubbish. As a matter of scientific fact, not one backache in twenty has anything to do with the kidneys. Most backaches come from sheer weakness and kidney drugs can't possibly cure that. You need something to brace you up and give you new strength, and that is exactly what Dr. Williams' Pink Pills will do. Other backaches are really muscular rheumatism, and Dr. Williams' Pink Pills have cured the worst cases of rheumatism by driving the poisonous acid out of the blood. Other backaches are the symptoms of ordinary ailments such as influenza, indigestion, constipation and liver complaint. In women, backaches often come from the troubles that follow so surely on any weakness or irregularity in the usual blood supply. The one way to cure these backaches is to strike at the root of the trouble with Dr. Williams' Pink Pills, which enrich the blood and bring strength to aching backs and weak nerves. Mr. Alex. Cockburn, Deloraine, Man., says: "About three years ago I suffered terribly from backache. I consulted a doctor and took his medicine, and wore a plaster, but did not get the least relief. Then I got a belt, but this was useless as the other treatment, and my suffering still continued. Then one of my friends asked me why I did not try Dr. Williams' Pink Pills, and I got a box. Before they were all used there was some improvement in my condition, and I got three boxes more. By the time I had taken these all the signs of the pain had gone, and as it has not since returned I feel that the cure is permanent. My only regret is that I did not hear of Dr. Williams' Pink Pills sooner, for not only would I have got rid of the pain sooner, but I would also have saved some twenty-five dollars, uselessly spent in other treatments."

Dr. Williams' Pink Pills are sold by all dealers in medicines or may be had by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Company, Brockville, Ont.

PERSONALITY AND PERFUME.

I believe there was a time when my kind, the man, used to perfume himself with sweet scents and pleasant flower odors, with the idea of rendering himself agreeable to the society in which he presented himself. And there are still men, I am told, who indulge in perfumed baths and sprinkle their locks with the essences gathered from flowers and fragrant herbs. But for the most part the men of our race limit themselves to toilet waters, aromatic rather than sweet, and if they do scent themselves they do so sparingly, leaving the profuse use of perfumes and sachets to the feminine half of the world. And the feminine half of the world has come to look upon perfume as an essential part of a woman's personality and charm. Therefore she is a wise woman and a woman of good taste who is fastidious and exclusive in the matter of perfume. She does well who delicately chooses the scent of some particular flower for her own—the violet, the white rose, the heliotrope, the lilac or carnation, or some delicious blend of flower odors, a bouquet cunningly blended by an expert, so that one is not sure which of the flowers of the garden or field heralds her approach, or betrays her presence. A perfume should be subtle, elusive, discreet, never conspicuous, never thrusting itself upon the olfactory nerves of others, but withholding itself, as it did in its flower, exhaling its sweetness only at close range, at unexpected moments stealing upon the senses, and then refreshingly, deliciously suggestive of all loveliness. Liquid perfume distilled from the flowers must ever be more grateful to the senses than the odor of sachets. The dried and powdered leaves used for sachets are apt to have

for their base strong smelling substances or flowers such as musk, lavender, patchouli. To many these strong heavy odors are not only unpleasant, they are distressing, and cause nausea and faintness. Only robust sense of smell can endure these powerful scents. Oris root as the basis of sachet powder is much milder and more refined, and when from Florence or Leghorn is usually pure. Its odor suggests violet, always a dainty and delicious perfume. But perfumes are costly items in one's expenditure, for they must be of the best. Better one drop of the best or no drop at all than a bottle of cheap common scent.

Care of the Hair in Winter

It is a well-known fact that the hair does not grow or thrive as luxuriantly during the cold weather as in the summer time, which is probably due to the heated condition of the average room, for the scalp becomes dry and the hair wiry and brittle—although one authority on the scalp seems to place the blame upon the heavy fur and fur-trimmed hats worn in winter.

This specialist goes on to say the greatest care should be observed in the selection of tonics and restorers, because oftentimes they do more harm than good.

For instance, in using an oily preparation for a dry scalp only the tiniest quantity of oil should be applied, because if too much is rubbed in the natural oil flow grows less, and so the cells, having no function to perform, gradually become useless.

Massage or manipulation of the scalp is recommended rather than a restorer bought in a bottle, and, if a professional is out of the question, the owner of the hair can do it herself.

Unless the scalp is flexible and rather loose the blood cannot circulate sufficiently to nourish the hair, and this means dull looking and thin locks.

If one will give fifteen minutes twice a day to massage the result will be a delightful surprise.

At night when the hair is taken down it must be thoroughly brushed to remove the dust accumulated during the day. Next place the grouped fingers at each side of the head just above the ears, and with the finger-tips gently but firmly rotate upward until the fingers meet at the crown. This movement must be repeated several times.

To make the scalp flexible clasp the hands and move them from one side to the other in a line parallel with the shoulders.

Do this rather vigorously for from three to five minutes, and the scalp will be more pliable and tend to increase the thickness of the scalp.

ADD LEMON JUICE.

When using beef or mutton dripping instead of butter for pastry, try beating it to a cream with a squeeze of lemon juice. This will take away the taste some people object to in dripping-made pastry, and makes it beautifully light and crisp.

A Useful Case

A suggestion that has proved a great success is a week-end case. This is made of heavy linen, or fine pique (two materials that wash well), or a very dainty cretonne, and is cut about seven inches wide and about 14½ inches long, five inches being allowed for the flap that folds over like an envelope. The case is lined with white rubber and is then bound with white linen tape or wash ribbon. A pretty pattern in cross-stitch can be worked across the edge of the flap, or a monogram makes a most appropriate decoration. The flap is fastened by a loop and button, and the case is small and compact enough to fit either into a handbag or a dress suit case, and is kept especially for going away purposes. It may be made more dainty by embellishing it with ribbons of a dainty color, with bows at the corners. When it is soiled, the ribbon can be removed and the case can be scrubbed and made to look like new again.

The articles for filling such a case can be bought in miniature size at a very moderate cost. They include a hand towel, a wash rag, a cake of toilet soap, a small tube of tooth paste, and a toothbrush. Sometimes such a case is made with two pockets, the one for the towel and wash cloth and the other being divided into two or three compartments for the soap, toothbrush and tooth paste.

The Birthday Calendar

FEBRUARY 5.

IF THIS IS YOUR BIRTHDAY

You will travel with benefit to yourself, and other activities will result. Be careful of your conduct toward a friend of the opposite sex.

Those born today will have strong characters and will be fond of political affairs and scientific arguments. They will be happy with congenial people and will accomplish much, but if associated with narrow minds they may degenerate into mere quarrellers.

VEAL STUFFING.

In making stuffing for a loin of veal have it very moist, for the meat itself has little moisture.

SMOKED CEILINGS.

Wash smoked ceilings with cloths wrung out of water in which a small piece of washing soda has been dissolved.

PURE FOOD BABY IN SUFFRAGE MARCH.

HARVEY W. WILEY, JUN., son of the famous pure food expert, is to be a prominent feature of the great equal suffrage parade in Washington on March 3. If he doesn't have the croup or stomachache, Mrs. Wiley is an ardent suffragist, and is bringing up her son with the same views.

"MADE-TO-ORDER" CORSET BEST —MAY COST MORE, BUT LASTS LONGER—THE BRASSIERE

Corsets have undergone an entire transformation, not only in shape, but in materials, in the last few years. No longer does a woman have to buy one of a few styles and try to fit her figure to the corset. She now may choose from as many styles as if she were selecting a dress, and for her particular type of figure she can buy a little looking about, find exactly what she needs, even to details that will correct faults of proportion.

Whether a corset is long above the waist or not depends very much on the figure. If the top edge cuts into the flesh it is a sign that it is not the right height, even though a brassiere is worn with it. On the other hand, every corset is long below the waist, some so long as to be skirtlike. Of course, the inset supports of whalebone or other sustaining fabrication, do not descend much below the hips, but they are not needed below, the material holding the surplus flesh firmly in place.

Hygienic Weaves. Today a stout woman need not be imprudent in heavy corsets, as the strong open-mesh tricot weave may be used, and is much more hygienic than that closely-woven material. Besides, most of it ladders, and a corset can be kept in good condition.

There are those, however, who like the prettiness of the pale pink and blue balisette corsets, or the white ones embellished with a little colored flower or fleur-de-lis. In these corsets, to get elasticity in certain parts, matching silk elastic webbing is inserted to give ease to the wearer, and sometimes a band is placed inside in front to give extra support to the abdomen.

The Brassiere.

The brassieres are made to match the

corsets or of eyelet-worked linen, and have seams stayed by tubular bands into which little supports may be inserted, removable for laundering. Those to wear with a low-necked gown are on quite different lines from those for daytime wear, in some cases being attached to the corset top, and not over the shoulders.

It goes without saying that these corsets cost more than the ordinary ready-made kind, but, fitting the figure, they last much longer, and, therefore, are not more expensive in the end. The expense is more in the time taken to find the right corset for the figure, as a number of shops must be visited in order to make comparisons.

Feminine Frills

Clumps of berries, in gold, silver, velvet or satin, are fashionable for millinery. Round wooden fern is used with most of the corage bouquets that are so fashionable now. The very latest Parisian touch is achieved by a combination of turquoise and lavender.

Round wooden buttons trim separate skirts of Scotch mixtures. Accordion plaited waists are fashionable.

CREAKING DOORS.

Rub the sides and edges of creaking doors and drawers with hard soap. It is better and cleaner than grease.

"YELLOW SPRING AND WHITE SUMMER"

Writes Miss Mortimer From Paris.

[By Maybelle Mortimer.]

Paris, Feb. 5.—The new spring styles will usher in a number of seemingly original ideas. For instance, you in "Canada" will surely see a number of odd hoppings of the narrow skirts which form draperies only on one side of the gown.

I saw the other day a frock that consisted of an undershirt, half a panier and half an overskirt, and over all this a whole Russian blouse. This came from the house of Martini & Armand, and was made of pink tulle. Pink, however, except in the deeper coral and American Beauty shades, will not be used quite as much for frocks as in seasons past.

Yellow seems to have taken a new lease of life. You see it in every kind of fabric, and very springlike it is in appearance when combined with green in yellowish olive shades.

All shades of yellow will be worn, from the faint hint of cream to the yellowish green one seen in the autumn leaf. Many of the new all-over designs are in yellow brown or cream yellow.

One of the new shades, which will be much in evidence this spring, is the yellowish green one seen in the pussy-willow, when it first puts out its catkins. This shade, however, is very trying and should only be worn by the woman with the irreproachable complexion and dark eyes.

Brown will be worn more this spring than in many seasons, and it will almost always be combined with some shade of yellow. There is also a new shade of blue, which will be very popular, a little pinker than the blue that was worn so extensively a few years ago. Taupe has run its course during the winter. This color has not enough life in it to be chosen for spring costumes when all nature is waking up to joy and love.

Green also will be relegated to the background, which is a pity, as green seems to breathe the very fragrance of spring.

It looks now as though we are going to have a white summer, the shops are full of exquisite lingerie costumes of hand embroidery and real lace.

The woman who thought she had seen the acme of luxury in last year's filmy frocks will gasp when she realizes the time and money expended on those which are being made for this season's wearing.

Cotton Crepes Popular. Chinese crepe is beginning to make a strong impression upon the woman

who likes the individual fabrics, and I have even seen a number of gowns made of the very noticeable blue and white Chinese cotton crepe, that we have seen in the past. There are also a great many all-over designs in cotton, some of them looking like the

**MOTHER and
BABY and Doctor
Helen MacMurphy**
BILLY STEVENS—His Story

V.—What Was the Matter With the Feeding-Bottle?

Copyright.
There was Death in the feeding-bottle for Billy. Not the feeding-bottle that the nurses will use for him by and by, but the feeding-bottle that Mrs. Katepans had for him. Who was Katepans? For as Mrs. Katepans was, so is her feeding-bottle. Or was she a baby-farmer? Do you think there are no baby-farmers in our Canadian cities and towns? If you do, you are mistaken, judge, mayor, magistrate, alderman, lady, gentleman, man, woman, doctor, lawyer—wherever you are, that thinks there is no baby-farmer in your town or city. You have not looked for there is—and more than one, too. But about the feeding-bottle. It is a great deal of trouble to clean a feeding-bottle of trouble to clean a feeding-bottle of trouble to clean a feeding-bottle.

That is a good test of degeneration of character, to catch yourself saying that anything is too much trouble. Beware. To be willing to do anything and not find it any trouble as long as it does good is about the only proof that we are going to improve a little.

Mrs. Katepans's feeding-bottle was dirty. And every Mrs. Katepans who feeds a baby from a dirty feeding-bottle is poisoning the baby and perhaps one of these days when we get a little more civilized, it will be considered the same kind of crime as putting strychnine in the feeding-bottle is now.

The feeding-bottle was dirty. That was what was the matter with the feeding-bottle.

The "Winter Goods Clearance" Of Our Removal Sale Ends Saturday

THE FIRST section of our Removal Sale, i.e., the clearance of all winter goods, will end Saturday. The last few days of this big sale will see many exceptional money-saving values for you.

Problems of the Fair Sex Solved by Cynthia Grey

[Correspondents are requested to make their letters as brief as possible, and to write on one side of the paper only. It is impossible to give replies within a stated time, as all letters have to be answered in turn as they are received. No letters can be answered privately.]

A Peculiar Correspondence.

Dear Miss Grey: Will you kindly answer a few questions for me through your helpful column?

1. I have got a girl chum, who was corresponding with a gentleman friend who was living in another city. Some time ago he was coming to visit her, and as she had spoken to him of me he said he would bring a friend with him. I had never met his friend, but he sent me a card, introducing himself and asking me to answer, which I did. Something happened, and they did not make their intended visit, but this gentleman and I have kept up a correspondence ever since, and he has sent me his photo. Am I doing wrong in writing him when I have never seen

him? He says he is coming to see me.

2. I have dark hair, blue eyes and very fair skin, but I haven't much color, although I am healthy. What will bring red to my cheeks?

3. What will keep the hands white? Hoping I am not bothering you too much, and thanking you in advance, I am, AN ORPHAN BLUNETTE.

A.—1. It does seem rather foolish to correspond with a person whom you have never met, but I presume the fact of his being "a friend of the friend of your friend" gives him a prestige, as it were, that he would not otherwise have. Perhaps it would be a wise thing for him to visit your home; the result would either be a confirming of your friendship or an awakening that would do both of you good.

2. Probably nature didn't intend you to have rosy cheeks, and if you are healthy and have a fair skin, be satisfied.

3. Careful drying before going out into the wind helps to keep the skin from "chapping." A little of this or that rubbed in nightly is a material aid in softening the skin and keeping it white: Rosewater, 1 ounce; glycerine, 1 ounce; carbolic acid, 10 drops; juice of half a lemon. Rub in well after washing the hands, and then draw on a pair of loose cotton gloves.

Trimming a Dress.

Dear Miss Grey—Could you suggest a nice way to make a white voile (cotton) dress for a 14-year-old girl? I thought of trimming it with crocheted lace or insertion.

A.—Bands of hand-made insertion would indeed be a very pretty and suitable trimming for your dress. You could use a wide band of the insertion to form a square neck finish, and also on the skirt just above the hem.

Holding a Social.

Dear Miss Grey—I always read your correspondence column, and find it a great help to me. So if it will not be too much trouble, I would like to ask you a few questions.

1. We, the young girls and boys, are getting up a social every month. What would we have to amuse everyone beside the program? It will not be very long. We hold it in the basement of the church.

What would be nice, and not too much trouble, for lunch?

2. What could we have for a valentine social, besides lunch? What games or amusements?

3. I am sixteen, and also the housewife. Am I too young to go out driving with fellows?

4. What do you think of my writing? ANXIOUS.

A.—1, 2 and 3—I gave some hints for a St. Valentine social in this column on Jan. 30, and I feel sure you could use some of the amusements mentioned therein for your social evening this month. I will ask you to look these up as it will save printing them again, and space is somewhat limited.

4—I presume you mean that you keep house for your father? In any case, I should advise you to seek the approval regarding the company you keep, and respect his wishes about the drives.

5—Your letters are rather carelessly formed, and it is not necessary to capitalize every second or third word, while as to punctuation, my dear, in your whole letter of queries I cannot find one interrogation mark!

COVER ROAST.

If a roast of meat browns rapidly, cover it with a buttered paper so that it will not burn.

SEVERE COLDS

If your cold is severe, if it is distressing, if it is causing you a good deal of trouble, banish it by taking

FRY'S

Nut Milk Chocolate

The Best of All Sweets for Children

Noted Swimmer

Gives Rules for

Good Figures

Bad figures are a disgrace, according

to Hazel Bess Laugenour, of the University of California, the only woman who ever swam the Golden Gate at San Francisco, and the girl who has arranged to swim the English channel next year.

Her rules for women who yearn for a good figure are these:

"If you want to fill out your chest and be well, walk. Don't walk one day and lie in bed the next."

"Coffee kills curves."

"Eat only a few things and don't mix them. Eat the things you like and eat when you are hungry. Eat often and little."

"Don't eat rich pastry. Eat plain cake if you like."

"For breakfast drink the juice of a grapefruit with a lemon in it. Walk after you eat in the morning."

"Don't eat too many potatoes. Course mush is good for you; also lean meat and green vegetables."

"Dancing does not make you thin. I have tried it, and I've seen too many fat chorus girls to believe it."

"The majority of society women want to do only the comfortable and easy things, and one can't get a perfect figure that way. Lounging and eating chocolates will ruin figures."

"It is easier to sit up straight than to cave in, the way so many women do."

"It is a disgrace to have a bad figure because it indicates laziness and selfishness. A little self-denial, a little conscientious exercise, and any woman may have a figure that is the envy of the hollow chested."

"A pretty face fades so much quicker than a pretty figure, and it is so much more of a care."

"That lemon juice and a little salt will remove all stains from white ivory knife handles."

MANY LONDON RINKS WIN
ON FIRST DAY OF BONSPIEL

Outside Skips Ran Into Hard Luck From the Start—None But Local Rinks Left in McNeen Competition—Ice In Great Shape, and Bonspiel a Splendid Success.

The London city bonspiel, although not as large as in former years, proved just as interesting on the first day of play as in former years, and the London Club and Thistle Club rinks were filled with a jolly bunch of curlers yesterday afternoon and evening. The bonspiel opened at 1 o'clock yesterday afternoon at both rinks, and play continued until nearly 10 o'clock at night. The preliminaries and first round games were played in the McNeen and Teumseh trophy events, and in some cases a couple of the third round games were played.

Ice in Great Shape.
The bonspiel is proving a grand success, as far as the ice is concerned, and that is the main thing, after all. The local curlers are enjoying better ice right now than they have had all season, and better sheets than those at the Thistle and London clubs yesterday could not be found anywhere in the country. Many of the curlers, mostly through lack of practice, put their stones right through the boards on many occasions, and it took the players some time to get wise to the keenness of the ice.

Only two of the outside rinks entered failed to show up. J. C. Waddell, of Petrolia, was one of those. It is some years since Skip Waddell missed a London bonspiel, and it is not likely that he would have this season had not unforeseen circumstances kept him away. McDonald, of Galt, was the other skip who failed to show up.

Bob Emslie Beaten.
One of the greatest of the many surprises of the day was the defeat of Bob Emslie, the great St. Thomas skip, who in summer months officiates as a National League umpire. Bob was put out of the McNeen in the preliminaries by Johnston's London Club rink, a scrub rink picked up at the last moment. The score was 14 to 4. However, Emslie came back in his next game and won out, beating McIntyre, of Alisa Craig.

In the McNeen preliminaries at the Thistle rink, all the London rinks won, Milton, Wingham and St. Thomas going down. In the first round, Van Norman, of Wingham, beat McCreary, of the Thistles, but he succumbed to Tillson, of the Thistles in the second round.

At the London Club the same state of affairs existed, the London rinks winning from the outsiders in the preliminary events. Alisa Craig, Petrolia, Simcoe and St. Thomas rinks were beaten, and the McNeen trophy will remain in London for another season.

The rinks and the results were as follows:

AT THISTLE RINK.

The McNeen trophy will go to the London Club. Both Thistle Club rinks were put out of the running this morning. Allen, of the London Club, beat Tillson, of the Thistles, at the Thistle rink by 12 to 9, and Hindmarsh, of the London Club, beating Mayor Graham, of the Thistles, at the London Club by the score of 13 to 7.

The finals being played at the Thistle rink this afternoon.
Only three games were played at the London Club this morning, the semifinals in the McNeen competition, and a game each in the Teumseh and Bank games. Peacock, of Milton, put Van Norman, of Wingham, out of the Teumseh trophy event, and Richardson's London Asylum rink defeated Strong, of the Thistles, in the Bank of Toronto competition.

The Scores.
The scores of this morning's games are as follows:
AT THISTLE RINK.
McNeen Trophy—Semifinals.
London Club, London Thistles.
F. N. Allen, s. 12 L. Tillson, s. 9
Teumseh Trophy—Third Round.

"I tell you I am glad I went on that trip around the world." "So was everyone else who knew you."—Hous-ton Post.

EMPIRE BRASS
BEAT PERRINS

London East Aggregation Are Now Leading Manufacturers' League Without a Loss—McCormicks Won From Greene-Swifts in First Game.

Before one of the largest crowds ever crammed into the Westminster rink the Empire Brass team defeated Perrins in a scheduled Manufacturer's League game last evening by the score of 6 to 2. The game was a splendid exhibition, and it was only in the last period that the brass workers demonstrated their superiority. The half-time score was 2 to 1 in favor of the Perrins team, and they had much the better of the play in the initial period. In the second half, however, the Empire Brass team got the team play working in fine shape, and during the greater part of the half, the play was merely an attack on the Perrins nets. Howson, in goal, for the biscuit men, played a great game between the nets, and had his defence men played out more and not crowded him so closely he might have stopped some of the shots that went in.

Arthur's Star.
George Arthur was easily the star of the Empire Brass team. Arthur is playing a wonderful game at present, and he should be given a place on the London Junior O. H. A. team. It was mainly his good work that won the game for the Empire Brass. Ballantyne and Morrison also played a great game, while Thorne and McPhee were good. The Empire team displayed better condition, and more team work than their opponents. Watts in goal was the same old Hally, and what he cannot stop is impossible to stop. In the second half, he had little to do, but he was right on the job when anything came his way.

Perrins' Stars.
For the Perrins team, McIntosh, Seltzer and Morison were the stars, with Walker also playing a great game. Howson, in goal, was equally as good as Watts, but he lacks the experience. Sid Rankin handled the game and kept the comparative play clean. It was a real game, and the players showed their selves to hockey, and let the rough work go.

The teams were as follows:
Perrins—Goal: Simons; point: Bryce; McIntosh, rover; Seltzer, centre; Murray, left; Walker, right.
Empire Brass—Goal: Crowley; point: Morrison; cover: McPhee, rover; Ballantyne, centre; Arthur, left wing; Thorne, right wing.

McCormicks Won.
Greene-Swifts were handed the small end of a 2 to 3 score by the McCormicks in the opening game of the evening. The teams played good hockey, and were pretty evenly matched. The McCormicks team was a light, fast aggregation. At half-time the score was 2 to 1 in favor of the McCormicks, but in the second period, Tommy Brodison, and his teammates got going, and they would not be denied. The scored two goals, and kept their opponents scoreless.

THORPE'S CONTRACT
CALLS FOR \$6,000

[Canadian Press.]
New York, Feb. 5.—In sporting circles it was said today that the figures at which Manager John J. McGraw, of the New York Nationals, won James Thorpe over to signing a contract with the Giants had leaked out from authoritative circles. According to the story Thorpe's contract calls for a salary of \$6,000 for one year, but that he also received an extra bonus of \$500, while Glenn Warner, the Carlisle coach, who brought Thorpe here and exerted his influence to help McGraw, is reported to have received \$2,500 for his services.

Ingersoll Wants
London To Win

[Special to The Advertiser.]
Ingersoll, Feb. 5.—An analysis of the hockey sentiment reveals a lively interest in the prospects for the district championship. Now that Ingersoll has been "eclipsed," the race is between the London and Woodstock teams, and some people evidently think that Ingersoll, if necessary, could well afford to be a little magnanimous with London. A victory for London would tie the district with Woodstock, and then—could London win?

CREOSOTE WON IN
STRAIGHT HEATS

Mackenzie Trotter Had Little Trouble in Capturing 2:35 Trot.

MATCH RACE THURSDAY

Royal Grattan and Grand Opera Will Meet at Ottawa—Big Crowd Attended Tuesday.

Ottawa, Feb. 4.—Rod Mackenzie's Creosote easily won the 2:35 trotting stake today, taking it down in three straight heats. The victory practically did Captain Laramie in the first classified. The slow classified was not decided until five heats had been trotted. Then Brantley's Nomin, from Malone, N. Y., finally captured it.

The track was fast and a large crowd attended. It was announced that Royal Grattan and Grand Opera would meet on Thursday night. Neither will start in the free-for-all tomorrow. Sumner classified, purse—
Nellie Parker, J. Goodmoat, 1 1 1
Ottawa, J. Goodmoat, 1 1 1
Springfield, J. Goodmoat, 2 2 2
Hal H. G. McColl, St. Thomas, 3 3 3
Bonne, J. Goodmoat, 3 3 3
Thomas, J. Goodmoat, 4 4 4
2:35 Trotting stake, \$1,000.

JACK FRYER SIGNS
UP WITH GUELPH

Canadian League's Leading Slugger Sends Back His Contract Without a Complaint.

Guelph, Feb. 4.—There was joy at the headquarters of the Maple Leaf Baseball Club this morning for the mail brought in the signed contract of Jack Fryer and Billy Wright, the two hard-hitting outfielders of last year's team. This makes the outfield complete, as Joe Dunn had sent in his contract before. Another contract which arrived this morning was that of a pitcher named Way, who lives in Fenetang. He was tendered a contract by the Montreal International League team, but preferred a season in the Canadian League. A long letter was received from Manager Louis Cook. It contained the news that he had received the signed contract of Roy Schryer, the elongated twirler who played last season with Hamilton and Ottawa. He was the property of the Baltimore Club, but has received his release. Manager Cook also states that he has accepted the terms of three new pitchers and two infielders, and is dickering for several more. A letter received from Schaeffer, of last year's team, states that he is not satisfied with the figures in his contract and has refused to sign.

PRESTON SENIORS
CAME BACK TO LIFE

But Even Then They Could Not Beat Toronto R. and A. A.

Toronto, Feb. 5.—They were a long time about it, but the Preston Seniors came to life last night and played the Toronto R. and A. A. to a 3 to 2 game at the Arena. Preston blanked the group champions in the second half, the score at the intermission being 3 to 1. The result of the game had no bearing on the championship, and the crowd was very small. Keen ice was to the liking of both teams. The teams:
T. R. and A. A.: Addison, point; Hunter, cover; Heffernan, rover; McKendrick, centre; Meeking, right; Brown, left; McLean.
Preston: Goal, Short; point, Bowman; cover, Palmer; rover, Walker; centre, Eltherton; right, Roby; left, Mulroy. Referee—A. Anglin, Toronto.

VICTORIA WON
AT VANCOUVER

"Goldie" Prodder, the Local Boy, Scored Three of the Winning Goals for His Team—Victoria Practically Wins Coast Championship.

[Canadian Press.]

Vancouver, B. C., Feb. 5.—Outplaying their opponents in every period and finishing at the long end of a 7 to 4 score, Victoria defeated the Vancouver all-stars before one of the largest crowds ever gathered in the local arena. Victoria went into the lead within five minutes of the start, and the issue was never in doubt from then on. Victoria's superior all-round playing kept Vancouver back on the defence, and the forwards were unable to make any progress against Victoria's defence. The league leaders outskated Vancouver in all three periods. Their shots came from all angles. Vancouver showed the best form in the first twenty minutes, but were outskated, Lindsay stopping shots that seemed impossible to get. Prodder and Lester Patrick starred for Victoria, while Jack McDonald and Kendall were Vancouver's most effective workers.

Vancouver played away below form and failed throughout to show any combination. The victory practically gives Victoria the championship. The Senators have a long lead, and have yet to meet their first defeat on the home ice. Summary:
First Period—(1) Victoria, Dunderdale 5:39; (2) Victoria, Dunderdale, 1:14; (3) Victoria, Prodder, 8:59.
Second Period—(4) Victoria, Prodder, 3:53; (5) Vancouver, Harris, 2:08; (6) Victoria, Small, 1:55; (7) Vancouver, Taylor, 1:54; (8) Victoria, Prodder, 8:55.
Third Period—(9) Vancouver, Harris, 10:35; (10) Victoria, Poulin, 7:02; (11) Vancouver, F. Patrick, 1:34.
Penalties—Patrick, Rowe, Total (Victoria), 11 minutes.

The Live Oak Hall

BATTLE CREEK BALL CLUB
OFFERS PLAYERS TO LONDON

Owing to Low Salary Limit in South Michigan League, They Will Be Unable to Pay Them Enough Money—The Players Mentioned Are Good Ones.

[BY JINX.]
Over in Battle Creek, Mich., they are suffering from a surplus of ball players, owing to the fact that the salary limit in the South Michigan League has been set so low that real ball players have been forced, for the sake of their reputations, to hire their services to other clubs in other leagues.
This is what President Stevely, of the London Club, received in his mail this a.m., a letter from the sanatorium and breakfast club of that city, stating that the South Michigan League club of that place has some likely ball players who would fit nicely into London club uniforms. These players can all be secured for a paltry consideration, and London has the first chance to land them.

The Players.
The players include Gilbert, an outfielder; Norrumburg, a pitcher; Nevitt, an infielder; Callahan, an outfielder, and Potts, also a performer in the outer gardens. The Battle Creek club assures the London club that these players are all good ones, and are really too high-priced for the present limitations of the Michigan circuit.
Norrumburg is the former Bay City twirler, and he made quite a showing with that club until it dropped out of the league. The rest of the players are former Bay City or Battle Creek players who are well known in that part of the universe included in the South Michigan League.

CITY LEAGUE GAMES
AT SIMCOE TONIGHT

Any previous Winnipeg bonspiel. The only Saskatoon entries are Lake, Esterhazy, Hostetter, Gainsboro, and Gillespie, of Moose Jaw.
It is altogether likely that there will be no international fought out this year as there are only two rinks from across the border, these being Helmack and Jones, of Duluth.

OXFORD COUNTY CURLERS
GATHER AT WOODSTOCK

Woodstock, Feb. 4.—Oxford County began its first annual curling bonspiel here today, the competitions being open to all rinks in the county. Rinks were present from Ingersoll, Tillsonburg, Embro, Drumbo, Bright and Woodstock. The principal trophy is a cup presented by Harry McIntosh, president of the Woodstock club, while many other good prizes are offered.

The following were the scores in the preliminary and first rounds played this afternoon:
Embro, Tillsonburg.
Day, s. 17 Gerwy, s. 8
Woodstock, Woodstock.
Holmes, s. 11 McWhinney, s. 12
Woodstock, Ingersoll.
Ure, s. 25 Jones, s. 10
Ingersoll, Woodstock.
Robinson, s. 18 Forbes, s. 6
Ingersoll, Woodstock.
Sumner, s. 16 Graves, s. 15
Ingersoll, Drumbo.
Peters, s. 13 Laidlaw, s. 14
Woodstock, Woodstock.
Millman, s. 17 Whitehead, s. 10
Cuthbertson, of Bright, defaulted to Beakly, of Drumbo.

WINNIPEG BONSPIEL
COMMENCES TODAY

Winnipeg, Feb. 4.—Over one hundred and seventy-nine rinks will take part in Winnipeg's twenty-fifth annual bonspiel, which starts tomorrow morning with a 9 o'clock draw in the Dingwall competition.
The regular contingent of Ontario curlers have arrived, consisting of the following rinks:
Flavelle, Lindsay; Rice, Toronto; McCaulay, Southampton; Gillespie, Brampton; Argent, Seaford; Crawford, Wingham, and Cameron, St. Thomas.

Fort William will be represented by Macdonald and Fox, while Smith, Johnston and Hudson have brought rinks from Kenora. The far-off Pacific coast city, Vancouver, has sent two rinks, Whalen and Crisp; but the west, particularly Alberta, which is not represented at all, fell far short of

Juarez Results.

El Paso, Feb. 4.—The work of knocking down the favorites was kept up at Juarez today, not a single first choice finishing in front. Robins rode two winners. Summary:
First race, six furlongs—1 Blaze B, 2 Luke Vanzandt, 3 Evran. Time, 1:14 4-5.
Second race, one mile—1 Palma, 2 Flying Fox, 3 Silver Gray. Time, 1:41.
Third race, six furlongs—1 Galea, 2 Ruth Esther, 3 Native Son. Time, 1:14 3-4.
Fourth race, six furlongs—1 Gold of Ophir, 2 Kootenay, 3 Lackrose. Time, 1:12 1-2.
Fifth race, six furlongs—1 Orimar Lad, 2 Azurea, 3 Voliel. Time, 1:13 2-5.
Sixth race, one mile—1 Californian, 2 Acumen, 3 Cantem. Time, 1:39 2-5.

HAIR STOPS FALLING, DANDRUFF DISAPPEARS--25-CENT "DANDERINE"

Save Your Hair! Beautify It! Invigorate Your Scalp! Danderine Grows Hair and We Can Prove It.

Try as you will, after an application of Danderine, you cannot find a single trace of dandruff or a loose or falling hair, and your scalp will not itch, but what will please you most, will be after a few weeks' use, when you will actually see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine now will immediately double the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it

through your hair, taking one small strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy and have an appearance of abundance; an incomparable lustre, softness and luxuriance, the beauty and shimmer of true hair health.

Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove to yourself tonight—now—that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all.

FOX--ATWELL

Pretty Wedding at the Bride's Home in West Nissouri.

One of the prettiest weddings of the season took place at the home of Mr. and Mrs. Richard Fox, concession 2, West Nissouri, when their daughter, Mary E., became the bride of Mr. Elmer J. Atwell, of the same township.

At six o'clock, amid the strains of the "Bridal Chorus" from Lohengrin, played by Mrs. James Fox, sister-in-law of the bride, the bridal couple, who were unattended, entered the drawing-room and took their places under a beautiful arch of evergreens and cut flowers.

The bride, who was given away by her father, looked charming in a gown of ivory duchess satin, trimmed with rosebuds and cream lace, with the conventional veil and wreath, and carried a shower bouquet of cream roses and lilies of the valley. She wore the groom's gift, a pearl and amethyst pendant. Rev. J. Smith, of Dorchester, performed the ceremony. The groom's

TROUBLED WITH KIDNEYS COULD NOT SWEEP FLOOR.

It is hard for a woman to look after her household duties when she is suffering from a weak and aching back, for no woman can be strong and well when the kidneys are out of order.

The weak, lame and aching back comes from sick kidneys and should be attended to at once so as to avoid years of suffering from the kidney trouble which is sure to follow if the back is neglected.

On the first sign of a pain in the back Doan's Kidney Pills should be taken. They go right to the seat of the trouble.

Mrs. Joseph Throop, Upper Point De Buie, N.B., writes:—"I cannot speak too well of Doan's Kidney Pills. For two years I was so tired, life was a burden and I got up more tired than when I went to bed, and my back was so lame I could hardly straighten up. I took different kinds of medicine, but none of them did me any good until a friend advised me to try Doan's Kidney Pills. I did so and to-day I don't know what it is to be tired and my lame back is all gone. I can recommend them to any person suffering with lame back and that terrible tired feeling."

Price, 50 cents a box, 3 for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

When ordering direct specify "Doan's."

SOCIAL CLUBS WILL COMBAT CITY'S EVILS

In Rousing Meeting in Wesley Hall Different Bodies Federated for the Purpose.

IMMEDIATE WORK NEEDED IN LONDON

Sheriff Cameron Claimed Urgency in the Matter Is Necessary—The Addresses.

Taking the view that "in unity there is strength," the men's social clubs belonging to the various churches of the city, at a meeting held in Wesley Hall of the First Methodist Church, on Tuesday evening, unanimously decided to federate into one body, and to have but one end in view, namely, that of combating the social evils which exist in London. The gathering was a most enthusiastic one, and much force was added to the spirit of the gathering by an address given by Mr. J. E. Starr, commissioner of the juvenile court, Toronto.

Social societies were organized in many of the churches several months ago, but concerted action was lacking. In the amalgamation of them all, a more direct and determined effort will be immediately made to eradicate vice and crime, particularly juvenile crime, from the city.

A Plan of Campaign.

A committee of fourteen, representative of the churches in the city, was appointed for the purpose of drawing up a plan of campaign. The names of the members of the committee are as follows: Sheriff D. M. Cameron, Ald. H. Ashplant, ex-Ald. R. G. Blandford, Rev. H. H. Bingham, Rev. J. H. Boyd, Rev. G. A. McKendrick, Rev. G. N. Hazen, Rev. D. A. Whitmore, Major Morris, Mr. A. M. Hunt, Mr. H. B. Archer, Police Magistrate J. C. Judd, K. C., and Mr. John K. McDermid.

Commissioner Starr, in commenting upon the need of this organization, declared that with an active membership of 300 they could accomplish anything that was required in the way of reducing crime.

Immediate Work Needed.

Sheriff Cameron wanted immediate and concerted action before the evil work in London had advanced too far. The "girl" problem especially needed attention. He felt that the society should be held responsible for a permanent officer, whose duties would consist of keeping in touch with the various churches and have a general knowledge of social conditions and social needs in various parts of the city. The men's social clubs should federate and organize for immediate service.

Mr. Starr's address was a worthy effort, and in it he brought home some strong points, which had much to do with the final result of the meeting.

His theme was based on the question, namely, "How is it that in this land of the maple we have not nearly approximated the divine idea?" The reason, he explained, was obvious, notably, that the church and state in this country had not blended in their ideas in the past, and were not working hand in hand for the future good of the nation.

Politics and the Church.

"It is only a bluff of 'milk and water' Christians, to say that politics should be kept outside of the church," said Mr. Starr. "There is scarcely a public man who does not have a religious side to it, and there is scarcely a religious question which has not a great percentage of politics involved. The church is to inspire the state with the divine idea, and keep it pure. Reciprocating, the state is to give the purpose of advancing the church."

Advancing Salvation.

Continuing, Commissioner Starr contended that salvation could not be secured without state legislation. The ballot, representing public opinion, was in many cases a great agency for advancing salvation to millions of Canadians who consented to political wrongs by voting for party and not principles and the cause at stake. He stated that his politics were neither Grit nor Tory, but the application of Christian principles in the service of the state.

Following the Master.

The application of these principles and the desire to serve God were not accomplished by attending church, contributing generously to the collections, or by praying for those ostracized from Christian society, but by serving them people at the altar of their needs, like Jesus Christ, who came to minister, and not to be ministered unto. A suitable environment was a great factor of the need problem. By serving the needs of the young people he considered it the best way to serve a municipality or state.

Social Work.

In concluding, the speaker mentioned several branches of social service work which could be conducted in a community.

The first thing he considered necessary was to secure a juvenile court. Instead of sending a boy to an industrial school after he had been convicted, he would give the lad a probation card and find all possible encouragement to his reformation. He also deemed it wrong to give the foreigners a vote until they knew enough about the country to cast an intelligent ballot. The poor mother who was burdened with several children, he advised, should be given suitable work, and the children placed in a decent home.

The daily occurrence where motorists pick up young girls for a ride and destroy their virtue he considered one of the worst kind of crimes. He stated that this was an almost daily crime in Toronto.

A vote of thanks was tendered Commissioner Starr for his excellent address. The newly-appointed committee remained after the regular meeting to form plans.

COMMISSION TO RUN ROADS OF PROVINCE

Government May Place Ontario Highways Under an Independent Board.

Toronto, Feb. 5.—The extension of road construction under the supervision of a provincial commission, with provision for the widening of the present highways, legislation to take care of provincial roads, and the maintenance of all highways in Ontario is, it is expected, to become the substance of a plan of road improvement to which the Ontario Government will give consideration.

The announcement made by the Government at the opening of the session yesterday, through the speech from the throne, was the first intimation of the plan the Government has in mind. In pointing out that the work the Government will be called upon to do for the highways will require perhaps more than five million dollars, a low figure has been given as the probable expenditure such a plan as that indicated would entail.

BRIGDEN CONCERT GREATLY ENJOYED

Presbyterian Annual Entertainment and Supper Was a Great Success.

[Special to The Advertiser.]

Brigden, Feb. 5.—The Presbyterian annual supper and entertainment was attended by a large crowd from all over the district.

After a splendid supper had been served by the ladies in the basement, an adjournment was made to the church, where a rare treat indeed was provided for music-lovers, when Mrs. Kennedy, soprano, of Toronto, and Mr. Redfern Hollingshead, tenor, also of Toronto, rendered a number of selections.

Brigden people have long borne the reputation of being highly appreciative, musical listeners, where none but the best will be taken into account, and last night's program added another musical treat to their many previous successes.

Mr. Holgate, of Toronto, performed the duties of pianist throughout the evening. Local clergymen made humorous remarks from time to time. The pastor, Rev. Thomas Oswald, occupied the chair. The proceeds exceeded \$180.

THAMESFORD W. F. M. S.

Report On Presbyterian Meeting Held By Large Audience.

[Special to The Advertiser.]

Thamesford, Feb. 5.—The W. F. M. S. of St. Andrew's Church held its monthly meeting in the lecture-room of the church yesterday.

A large number were present to listen to the report of the Presbyterian held at Glenora, which was ably given by Miss Thompson. The society is taking up the study of the New China this year, and the first paper was given by Miss McMurray, and was well prepared.

A pancake social was held last evening in the old rectory by the ladies of the A. Y. P. A.

Mr. Newton Leader and Miss Phillips, of London, spent the week-end with Mrs. T. P. Newton, and attended the Foresters' "At Home."

Mr. R. Newton, of Detroit, has been visiting his brother John for a few days recently.

BURIED AT WARDVILLE.

[Special to The Advertiser.]

Sarnia, Feb. 5.—The remains of Miss Allie Dibb, who died in the hospital here, were taken to Wardville where interment was made. Decayed only recently left the home of Rev. C. K. and Mrs. Logan at Alton, where she had spent many months.

WHY BACKS ACHE

The Kidneys Seldom to Blame—The Trouble Due to Blood Impurities.

There is more nonsense talked about backs than any other disease. Some people have been frightened into the belief that every backache means deadly kidney trouble. That is utter rubbish. As a matter of scientific fact not one backache in twenty has anything to do with the kidneys. Most backaches come from sheer weakness and kidney drugs can't possibly cure that. You need something to brace you up and give you new strength, and that is exactly what Dr. Williams' Pink Pills will do. Other backaches are really muscular rheumatism, and Dr. Williams' Pink Pills have cured the worst cases of rheumatism by driving the poisonous acid out of the blood. Other backaches are the result of ordinary ailments such as influenza, indigestion, constipation and liver complaint. In women backaches often come from the troubles that follow surgery on any weakness or irregularity in the usual blood supply. The one way to cure these backaches is to strike at the root of the trouble with Dr. Williams' Pink Pills, which enrich the blood and bring strength to aching backs and weak nerves.

Mr. Alex. Cockburn, Deloraine, Man., says: "About three years ago I suffered terribly from backache. I consulted a doctor and took his medicine, and wore a plaster, but did not get the least relief. Then I got a belt, but this was useless as the other treatment, and my suffering still continued. Then one of my friends asked me why I did not try Dr. Williams' Pink Pills, and I got a box. Before they were all used there was some improvement in my condition and I got three boxes more. By the time I had taken these all the cure of the pain had gone, and as it has not since returned I feel that the cure is permanent. My only regret is that I did not hear of Dr. Williams' Pink Pills sooner, for not only would I have got rid of the pain sooner, but I would also have saved some twenty-five dollars uselessly spent in other treatments."

Dr. Williams' Pink Pills are sold by all dealers in medicines or may be had by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Company, Brockville, Ont.

Don't Say You Can't Eat

You'll Never Have Stomach Trouble
After You Read This, and Act on
It. Stuart's Dyspepsia Tablets Are
the Open Secret.

Thousands of people who hadn't really enjoyed a meal for years have given their stomach a new lease of life through the wonder-workers, Stuart's Dyspepsia Tablets. They promptly put an end to flatulency, heartburn, dizziness, sick headache, nervousness, burning sensation, brash fermentation and the other ill attendant upon a disordered stomach.

The Stomach Sends a Message to the
Brain the Instant There is Trouble.

In this day and age of known facts, there is absolutely no excuse for anyone to suffer with stomach trouble, indigestion, sour risings, catarrh of the stomach, gas formations, etc. Stuart's Dyspepsia Tablets are composed of known and approved ingredients that help out the gastric juices of the stomach. They are Nature's digestives, the same kind the stomach uses when it is in good health.

Stuart's Dyspepsia Tablets do not merely aid digestion—they actually digest the food themselves. All the hard work is thus taken off the stomach and it gets a chance to rest and recuperate. The undigested food, which formerly produced nauseating gases in the stomach, becomes thoroughly digested and as a result provides new brain and brawn and nerve cells to replace natural waste always on hand.

Stuart's Dyspepsia Tablets act quickly, safely and naturally, just like Nature herself. They are a familiar and standard part of the stock of every properly equipped drug store and are sold at 50c a box.

Those who once try Stuart's Dyspepsia Tablets are never at a loss to know how to overcome any form of indigestion or stomach trouble.

DEBATE ON THE SPEECH BEGINS ON THURSDAY

Mr. Rowell Absent From House
With a Cold—Gamey After
Fenow's Scalp.

Toronto, Feb. 5.—In the Legislature yesterday the usual motions were carried to strike the standing committees of the House, and on motion of Sir James Whitney the debate on the address will commence on Thursday.

After routine business has been disposed of the House will adjourn today out of respect to the memory of the late Col. Arthur J. Matheson, Provincial treasurer.

The usual bill respecting the administration of oaths of office was introduced by the Prime Minister, and the House adjourned about 3:30. The absence of Mr. N. W. Rowell (North Oxford) on account of a severe cold, was a matter of considerable regret. Mr. Rowell will be confined to his room for a few days, and it is not yet known whether he will be able to be present when the debate is taken up on Thursday.

NOTICES OF MOTION.

Mr. R. R. Gamey, (Manitowish) is after Dr. Fenow's scalp. Mr. Gamey has filed the following notices of motion, returnable tomorrow:

(1) Is it the intention of the Government to hold an investigation relative to the statements made by Dr. B. F. Fenow, professor of forestry of the University of Toronto, in his report presented to the conservation commission? (2) Was Dr. B. F. Fenow employed by the Government in any capacity to examine and report on soils of North Ontario? (3) Is Dr. B. F. Fenow an employee of the Government in any capacity? (4) Does the Government believe the statement made by Dr. B. F. Fenow? (5) Has the Government in the past at any time had the soils of Northern Ontario assayed? If so, what were the results and where were the soils taken from and where assayed?

Child Had Bronchitis

Once people get acquainted with the wonderful control which Dr. Chase's Syrup of Linseed and Turpentine exerts over bronchitis, whooping cough, croup and colds it is not easy to persuade them that anything else is "just as good." This is why the imitators never get very far.

In 1902 Mrs. Eugene Her, King Street, Truro, N. S., wrote as follows:

"From an infant one of my children was troubled with bronchitis, and the worst cold would aggravate the trouble. We could not get anything to help him, and were often greatly alarmed. Hearing of Dr. Chase's Syrup of Linseed and Turpentine as a treatment for bronchitis we used it, and are glad to state that it effected a complete cure. If any of the children take a cold or cough I give this medicine, and have never known it to fail to bring relief."

Mrs. Her now writes that she has since proven this medicine to be a cure for whooping cough, and would not be without it in the house.

URGE TAKING A PLEBISCITE ON THE ISSUE OF NAVY

Borden Promised It, Says a
Western Critic in Power-
ful Address.

OTTAWA, Feb. 4.—The House today settled down to a trial of endurance so far as the naval debate is concerned. This debate will be made the first order on every Government day until a vote is reached, but the Opposition members will be compelled to do all the talking.

The discussion today was carried on by Mr. Turgeon, of Gloucester, N.E., Mr. Thompson, of Qu'Appelle, Saskatchewan, and ex-Speaker Maclellan. Mr. Thompson adjourned the debate and came out flatfooted in favor of a plebiscite or referendum. Mr. Maclellan, who adjourned the debate before concluding his speech, feared that the proposals of the Government were entwined with some sort of imperialism, and pleaded for autonomous action by the Canadian people.

Armament Trouble-Breeder.
The naval debate was resumed by Mr. Turgeon. He was followed by Mr. Thompson, who said that he did not altogether believe in the doctrine that the way to avoid war was to prepare for war. A good many people came out west armed to the teeth with guns and bowie knives so as to be ready for trouble, and they soon found occasion to fight. On the other hand, sensible people who came unarmed plowed the fields and did not look for trouble, and seldom found any.

We had been told by the Prime Minister that Canada owed England \$400,000,000 without interest for money expended for defence purposes during the nineteenth century. "If we owe the principal," Mr. Thompson continued, "we also owe the interest, which brings the claim up to at least one billion. The Minister of Fisheries (Mr. Hazen) says he cannot think of this debt without a blush. I am not blushing, but he says he could defer over this blushing habit altogether if \$55,000,000 were paid into the imperial treasury. He would settle the claim by paying 3 1/2 per cent. Many of us would like to settle our private debts in that way if we could go so without blushing." (Laughter.)

Canada Ultra-Loyal.
Mr. Thompson said that Canada was most loyal to Britain when it was most loyal to the British North America act, money could only be voted by Parliament for the defence of Canada. The French, declared Mr. Maclellan, were loyal in 1776, "when they were given their choice, and they would remain loyal now and forever. Britain should not bring any pressure to bear upon Canada's decision in this matter. Canada should be left to make her own choice."

YOUNG PEOPLE HELD A SPLENDID BANQUET

A Most Enjoyable Affair in
King Street Presbyterian
Church.

The second annual banquet of the Young People's Societies of the King Street Presbyterian Church was held in the basement of the church Tuesday evening, and was largely attended. A splendid menu had been provided and the tables and room were prettily decorated. Following the banquet, a splendid program of toasts and solos were given. Mr. L. Sumner presided as toastmaster. Rev. W. R. McIntosh proposed the toast to the Young People in a brief but interesting address, and the following responded: J. E. Stevenson for the Bible Club; Roy Campbell for the Hockey Club; Gordon Scott for the choir; Miss E. McKay for the Girls' H. M. Club; J. E. Leckie for the ushers; Harrison Link for the Sunday school; Eldon Wegg for the Boys' Club; and Ross McKay for the Tennis Club. The toast to the ladies was proposed by Mr. Eric McKenzi, following which an excellent address on "Some Things To Be Done," was given by Rev. D. C. McGregor, B. A., special service secretary of the Presbyterian Church in Canada. During the course of the program, songs were rendered by Miss Irene Strach, Miss Mary Sheebottom and Mr. Forbes. The evening concluded with "Auld Lang Syne."

ADAMS WAS TAKEN TO HAMILTON ASYLUM

Man Who Set Fire to a Barn
Placed Out of Harm's
Way.

James Adams, who was found guilty of setting fire to the barn of John R. Waters near Mount Brydges on Dec. 18, was taken to the Hamilton asylum yesterday afternoon. At the time of the trial Judge Macbeth postponed sentence until an examination could be made to determine the sanity of the prisoner, and the report of the doctors showed that Adams was insane. When he was being conducted from the court room Adams threatened to take Waters' life when he was released from confinement. He was an inmate of the same institution some years ago, and in all probability will be kept there for life.

PRESENTATION MADE TO RECORD-KEEPER SPENCE

A Large Attendance at a Meet-
ing of the Maccabees Last
Night.

There was a large attendance at the "at home" of the Knights and Ladies of the Maccabees in the Dominion building, Tuesday evening, when, among the guests, were Hon. D. P. Markey, of Detroit, supreme commander, and Provincial Commander S. W. Truher. Many friends of the members were invited and all had a thoroughly enjoyable time.

During the evening Record Keeper J. Charles Spence, of Tent No. 17, London, was honored by an address and presentation. The former was read by Lieutenant Commander Geo. Summers, and Commander Wm. Sankey presented, on behalf of the members, a fine travelling bag. Sir Knight Spence made a suitable reply, thanking them, and assuring them of his appreciation of their thoughtfulness.

Short addresses were given by Sir Knights Markey and Truher, both of whom congratulated the local tent upon securing such handsome rooms, the Maccabees having taken up quarters in the former Masonic lodge rooms. Dancing and cards were enjoyed by the guests and during the evening the ladies served refreshments.

WANT CHEAPER FRUIT FROM THE EAST

Saskatoon, Feb. 5.—The board of trade discussed the question of cheaper fruit for the west. It was decided to communicate with the fruit men of the east and of British Columbia to see if direct shipments can be arranged, cutting out the middlemen's profits.

FOUND ON TRACKS

Guelph Man Is Supposed to Have
Been Killed by Train.
[Canadian Press.]
Guelph, Feb. 5.—Carmillo Angelo, aged 42, was found dead on the C. P. R. tracks near the station today.

Woman's Hair Reaches to Knees

A Year Ago Was Threatened With Bald-
ness. Tells How She Made Her
Hair Grow.

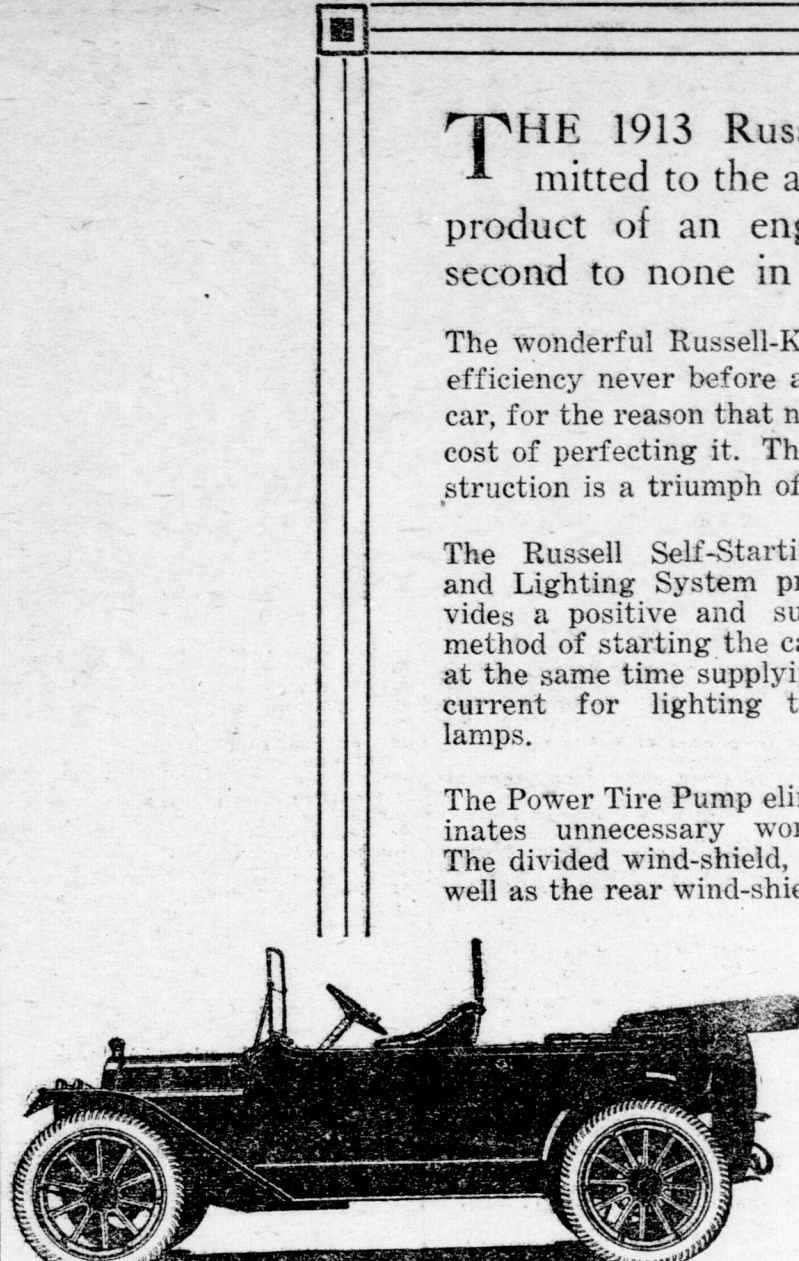

Mrs. Esther Emery, now visiting friends in the city, is the fortunate possessor of marvellously beautiful hair, which, when released from coils, falls to her knees. Moreover it is of soft, silky and fluffy texture and in color a glorious glossy gold. Yet just three years ago she was threatened with baldness. Urged to tell how she had obtained this wonderful growth in so short a time, Mrs. Emery said that she had used a hair restorer called "Menthol Crystals," and that she had used it for a year. "I had my hair cut very short, and it was falling out very rapidly. I decided to try it and I had my druggist mix 2 ozs. of the Lavore and Camphor with 8 ozs. of Bay Rum and 1/2 dr. of Menthol Crystals, and started to use it. My hair quickly began to grow again. I had my hair cut long, and the itching ceased and the dandruff disappeared. Then my little hairs appeared all over my head, and I was ever so glad. They are growing yet and will, of course, I have used the treatment gradually and expect to continue it, at least until my hair reaches the floor. I might have stopped and been perfectly satisfied at the end of three months. I think that any woman can get long, thick, beautiful hair by using this prescription. I have recommended it to several friends and all are delighted with the results. The prescription is very inexpensive, and my druggist can tell you. Those who use it should be careful not to get it on the face or where hair is not desired."

WOULD NOT ATTEND

St. Catharines Separate School Board
Members Are Angry.
[Canadian Press.]

St. Catharines, Feb. 5.—The public library board organized for the season last night without any representatives from the separate school board being present. The separate school trustees refused to appoint representatives because the library board would not permit a Catholic encyclopedia to be placed in the library.

Mr. and Mrs. H. J. Holladay, city, are in Toronto attending the funeral of Mr. Holladay's sister, Mrs. E. Stewart, Dovercourt road.

Russell-Knight "28"
Touring Model, \$3,250
Russell-Knight "28"
Roadster Model, \$3,200
Russell-Knight Seven
Passenger Model, \$3,500
F.O.B., West Toronto

THE 1913 Russell-Knight "28" is submitted to the automobilist as the finished product of an engineering staff which is second to none in the automobile world.

The wonderful Russell-Knight Engine reaches a degree of efficiency never before attained by an engine in any other car, for the reason that no restrictions were placed upon the cost of perfecting it. The materials are the best. Its construction is a triumph of mechanical accuracy.

The Russell Self-Starting and Lighting System provides a positive and sure method of starting the car, at the same time supplying current for lighting the lamps.

The Power Tire Pump eliminates unnecessary work. The divided wind-shield, as well as the rear wind-shield

for the protection of the occupants of the tonneau, helps to make this model a most comfortable car.

The Heating System, that warms the tonneau from the exhaust of the engine, is a feature which makes winter driving more comfortable.

By the adoption of the Left-hand Drive and Centre Control, all four doors of the car can be used.

Call and see this magnificent new model. If you can't call, write for a fully descriptive pamphlet. Address the branch or agent nearest you.

Mueller Company Has Under Construction Seven Big Factory Buildings.

SARNIA BRANCH OFFICE,
209 Front Street.
Office hours, 9 a.m. to 5:30 a.m., 3:30 p.m. to 5:00 p.m.

[Special to The Advertiser.]

Sarnia, Feb. 5.—The branch factory of the Mueller Brass Company, located here, and now under construction, is a large and modern plant, and will consist of seven buildings when finally completed. The headquarters of the company is in Decatur, Ill.

Following the publicity given to the plans of the Imperial Oil people are

HANDS SO SORE COULD NOT SLEEP

Chapped and Cracked. Could Not Put Them in Water. Skin Red and All Swollen. Cuticura Soap and Ointment Cured in Two Days.

Emerald, P. E. L.—"I got my hands chapped and they cracked. If I would close my hands the cracks would bleed. I could not put them in water or do hardly any work. The skin was red and my hands all swollen. They were so sore I could not sleep. I tried everything I could get in the drug store, and all kinds of ointment; and they did me no good till I used Cuticura Soap and Ointment. They cured my trouble in two days. Cuticura Soap and Ointment are the best that can be made." (Signed) C. W. Murphy, Dec. 23, 1911.

ERUPTIONS COVERED FACE

415 Huntley St., Montreal, Quebec.—"My one year old son was troubled with eruptions in the face. It started with redness and irritation, then it was like a pimple. Afterwards it was an open sore with matter oozing out, causing itching and keeping him from sleeping at night. His face was covered with eruptions. After unsuccessful attempts with different remedies, I tried Cuticura Ointment, which I used one week and he was completely cured of eczema." (Signed) Mrs. J. N. Racicot, Nov. 15, 1911. Cuticura Soap and Cuticura Ointment are sold by druggists and dealers everywhere. For a liberal free sample of each, with 32 p. Book, send post-card to Foster Drug & Chem. Corp., Dept. 52D, Boston, U. S. A.

Park will be coming over to work at either the Imperial or the Mueller plant. It might be mentioned that South Park is essentially a manufacturing centre and in that case a ferry would do a good business.

HASHED MINNOWS

Port Huron People Are Disgusted Over Water Supply Troubles.

[Special to The Advertiser.] Sarnia, Feb. 5.—Sarnia isn't the only town that is having trouble with the intake pipes as the result of ice conditions. Port Huron, the American city across the river, has been serving hashed minnows to the residents for the last day or so, much to the disgust of the citizens. The mouth of the intake pipe was so clogged with ice that it was necessary to take the gates off the opening into the well, with the result that about a shoal of minnows paid impromptu visits to various parts of the town. Sarnia fortunately has managed to evade the fish so far.

STRICKEN WITH PARALYSIS.

[Special to The Advertiser.] Windsor, Feb. 5.—The funeral of Wm. A. Dalton, for many years treasurer of St. Andrew's Presbyterian Church, held this afternoon, was conducted by Rev. J. C. Tobin. Mr. Dalton was stricken with paralysis while taking a nap on a couch at his home. He came here from Comber, where he lived for some time.

Catarrh Brands You An "Undesirable"

So Loathsome Is the Disease That Few Will Associate With a Catarrhal Victim.

Is Your Trouble Catarrh?

Poor remedies have given Catarrh the reputation of being incurable. But it is curable easily and quickly, if the right method is employed. Sniffing a powder or ointment up the nose won't cure Catarrh, neither will tablets, douching or stomach medicines cure. These treatments fail because they only affect local conditions; they do not remove the cause, which is germ life established in the lungs, bronchial tubes and nasal passages. Ordinary remedies do not reach these remote parts, but Catarrh-ozone does, for it is breathed through the inhaler into every air cell in the lungs, into every air passage in the head and throat. No matter where the Catarrh is, Catarrh-ozone will reach it. It kills the germs, heals sore spots, clears the nose and throat instantly. Universally used; pleasant and clean; guaranteed to cure or money refunded. Don't be an object of aversion to everyone you meet—get Catarrh-ozone today and use it regularly; it will cure your Catarrh, Bronchitis, Throat Trouble, spitting and gagging. Large size 50c. All dealers, or the Catarrh-ozone Co., Buffalo, N. Y., and Kingston, Canada.

THREE CALLS WERE RATIFIED BY THE LONDON PRESBYTERY

Rev. Dr. McCrae, of Westminster, Comes to Hamilton Rd. Presbyterian Church.

GLENGARRY PASTOR REFUSES MOSA CALL

Rev. Dr. Munro, of Birr and Bryanston, Is Anxious for a Rest Now.

The Presbytery of London, at its meeting in the First Presbyterian Church on Tuesday afternoon, ratified three calls. As a result, Rev. Dr. McCrae becomes the pastor of the Hamilton Road Presbyterian Church; Rev. James Argo, of Ivan, in North Carleton, goes to Egmondville, in the Huron Presbytery, rendered vacant by the death of the late Rev. Neil Shaw. The third call dealt with that to Rev. M. A. Lindsay, of Wardsville and Newbury. The reverend gentleman becomes pastor of the Presbyterian churches at Colborne and Lakeport in the Peterborough Presbytery.

Call to Rev. Mr. Argo. The call of Rev. James Argo to Egmondville was first considered by the presbytery. A large delegation, representing the North Carleton congregation, was present, and expressed regret at the decision of their pastor. Rev. Mr. Carswell and two elders from the Huron Presbytery were present, urging Mr. Argo's translation to Egmondville. The Ivan delegation stated that they would not take any measures to prevent Mr. Argo going to Egmondville if the latter so desired. Mr. Argo's call being sustained, he becomes pastor of Egmondville at a salary of \$1,600, a free manse and four weeks' holidays. A motion for his translation to take effect on Feb. 16 was carried. Rev. Dr. Munro, of Birr, was appointed interim moderator, and with Rev. J. G. Stuart, was appointed a committee to look after the interests of the Ivan and Mount Brydges congregation in regard to a successor to Mr. Argo.

Dr. McCrae a Strong Man. Rev. Dr. McCrae's call to the Hamilton Road Presbyterian Church was then introduced by Rev. John Smith. Mr. C. W. Summers, of the Hamilton Road Church, presented the call of the congregation in securing Dr. McCrae as their pastor. A great many people were moving into the eastern end of the city, and they wanted a strong man to cope with the situation. Mr. Collins, another delegate, declared that they were losing ground since they had had no regular minister.

Departure Regretted. Mr. Argo, who had been in the city for some time, was very popular. Mr. H. Elliott, W. L. Laidlaw and T. Van-slyke, of Wilton Grove, all bore testimony of the excellent work done by Dr. McCrae since he had gone to Wilton Grove over twenty years ago, and regretted that he was responding to the summons of the Hamilton Road Church. However, Dr. McCrae's wishes in the matter would be theirs also, and he would be very glad to leave them in the way of his departure to London. In conclusion, Mr. Y. L. Laidlaw added a touch of humor by stating that no one but a Scotchman need come to Westminster as a successor to Dr. McCrae.

Dr. McCrae Accepts. In accepting the call, Dr. McCrae stated that he felt that the divine hand was in the matter, though he was very hardy away from Westminster. He stated that just after receiving the call to the Hamilton Road Church, a call had been extended to him from a large British Columbia congregation, but he had been obliged to refuse this. The reason for his leaving was that it was a severe strain on his physical strength to carry on the ministry in two congregations. He was leaving Westminster for his own congregation, and in splendid shape, and his successor would have one of the best charges in Ontario. Nobody could say of him that increased salary induced him to leave, as was the case with the call to the Hamilton Road Church than he had in his former location.

Induction on March 31. The translation of Rev. Dr. McCrae was moved by Rev. J. G. Stuart, and seconded by Rev. Dr. McDonald, of Kintore. Dr. McCrae's induction will take place on March 31, when Rev. Dr. McDonald will address the congregation, and Rev. Dr. Stuart will preach the induction sermon. April 6 is the date set for Dr. McCrae's ordination Sunday.

The call of Rev. M. A. Lindsay, of Wardsville and Newbury, was presented by Rev. A. K. McLeod, of the Peterborough Presbytery, supported by Mr. R. McLean, of Colborne.

Messrs. William Atkinson and Farquhar McCrae, of Wardsville, and Duncan Fletcher, of Newbury, representing the respective congregations, of which Mr. Lindsay has been the pastor for the last three years were present and voted in favor of the call. Mr. Lindsay's departure, Mr. Lindsay's translation will take effect within two weeks, and will take up his new charge on Feb. 23. Rev. George Weir, of Glencoe, was appointed interim moderator.

Call Was Refused. Rev. W. M. Martin, clerk of the presbytery, read a telegram announcing that Rev. S. D. McPhee, of Avamore, county of Glengarry, had refused the call to become pastor of Burns' Church, Mossa.

Rev. Dr. Munro, pastor at Birr and Bryanston, and who has been in the ministry for nearly 40 years, requested the presbytery to take steps with the general assembly to secure his retirement from active service from the pulpit.

Dr. Munro stated that certain conditions in his home demanded his retirement, not that he was physically incapable. The presbytery decided to take the necessary steps to secure Dr. Munro's retirement.

"Did you make a hit with your speech at the banquet last night?" "I guess so. I forgot what I intended to say, and I forgot to forget to have said."—Detroit Free Press.

RIDS FEET OF CORNS. IS SAFE AND PAINLESS. No substitute has ever been devised that gives the quick, painless results you get from Putnam's Painless Corn and Wart Extractor. Its success is unequalled. It soothes, eases, heals and painlessly removes callouses, bunions, warts and corns in 24 hours. Perfect satisfaction guaranteed with 25c bottle of Putnam's Painless Corn and Wart Extractor. Refuse a substitute preparation. Putnam's is sold by druggists.

G.T.R. PLACES EMBARGO ON COAL DEALERS WIRE STRONG PROTEST

Railway Commission Is Asked by Secretary R. J. Webster to Protect the People From the Suffering and Inconveniences Occasioned by Similar Embargo of a Year Ago.

The Grand Trunk Railway Company has placed an embargo on all freight, except perishable goods, at the Niagara frontier, and as a result no coal will be shipped to London and vicinity for some time.

Notice of the embargo was furnished Mr. R. J. Webster, secretary of the Ontario Coal Dealers' Association, last night. Fears of a coal famine, not so much in London, as in the district surrounding the city, impelled Mr. Webster to immediately wire Mr. H. I. Drayton, chairman of the Dominion railway commission, asking him to take the matter up at once, and to compel the G. T. R. to forward coal to this city and district.

Last winter there was an embargo for some time, and thousands of tons of coal were piled up in the Niagara yards on cars. Considerable suffering resulted, but conditions will be much worse this season, if the coal is not forwarded.

A Serious Matter.

"It is a serious matter," explained Mr. Webster. "The London dealers

have some coal on hand, and might be able to supply their customers if the embargo was not of too long duration. However, the supplies in the smaller towns are very limited, and if the embargo lasts for any length of time there will be a great deal of suffering. We want to prevent this if at all possible."

Immediate Action Asked.

Mr. Webster's telegram to Mr. Drayton, of the Dominion railway commission, is as follows:

"H. I. Drayton—I am advised that the Grand Trunk has placed an embargo on freight along the Niagara frontier. One year ago similar action was taken, with the result that serious trouble in manufacturing interests and suffering in homes through non-delivery of coal occurred. Would you urge on Grand Trunk officials the necessity of keeping all anti-railroad coal moving promptly, as stocks of this fuel are very light throughout the province, owing to mining troubles last spring, and serious suffering is inevitable unless prompt action is taken.—R. J. Webster."

WATERWORKS SURPLUSES HAVE ALMOST VANISHED IN THE PAST FEW YEARS

Figures That Are an Argument Against Reduction of Rates—Expenses of Water System Have Not Been Reduced by Co-operation With Electric Department.

The figures in the appended table were submitted by Ald. Richter at Monday's city council meeting in support of the bylaw to place the waterworks department under the control of the council. Ald. Richter combatted the assertion made at the municipal election that a large sum, estimated at \$14,000, had been saved by the joint management of the waterworks and hydro-electric departments. The figures show that the proportion of the general expenses to the amount received in water rates has increased since the advent of hydro-electricity. The surpluses handed over by the water commissioners to the city for the reduction of taxes are also largely fictitious. In fact there was a deficit in 1909. The table explains itself, as follows:

FROM REVENUE ACCOUNT LONDON WATERWORKS.		Year Ending Nov. 30, 1908.	
Water rates from consumers.....	\$94,092 66		
Water rates charged to city.....	9,196 79		\$103,289 36
General expense account.....	\$2,345 87		
Office salaries.....	2,973 00	equal to 3.2% of cons. rates	
Other salaries, not in other accounts.....	2,640 00		
Total.....	\$7,958 87	equal to 8.5% of cons. rates

FINANCIAL AND COMMERCIAL

LOWER PRICES ON THE LOCAL MARKET

Fifteen Loads of Hay Were Offered for Sale Today.

Fifteen loads of hay and one load of oats composed the total offerings on the local market this morning. The somewhat large supplies sold during the last few days were a tendency towards lower prices. While the selling prices ranged from \$11.50 to \$12.50 per ton, the larger portion of the sales were made at prices in the neighborhood of \$12 per ton. The load of oats was sold for \$1.09 per cwt.

For Other Markets See Page 2

LIVE STOCK.

MONTEBELL, Feb. 5.—First End market: Receipts—Cattle, about 400; cows and springers, 40; sheep and lambs, 150; hogs, 800. Trade was rather slow. There were no prime heaves on the market and no good mediums, excepting a few large fat cows, which sold at about 60 per cent. While some of the common stock sold at less than 40 per cent. Cows, \$3.50 to \$4.50 each; calves, 40 to 50¢; sheep, 60¢; lambs, 75¢; hogs, 90¢ to 1.00.

PRODUCE.

LONDON AND DISTRICT

Mission to Lepers.

At the regular meeting of the Mission to Lepers, held in this city, Mrs. Duncan gave a very interesting address. The society is doing a good work for the poor sufferers of that dread disease, leprosy, and will heartily welcome new members at any of its meetings, which are held at 4:30 the first Monday of each month, in the F. W. C. A. rooms, Wellington street.

A GOLD FOB WAS GIVEN TO MR. CUSHING

Secretary Was Remembered By Branch 498, C. M. B. A.

Branch 498 of the C. M. B. A., at a recent meeting, presented Bro. C. L. Cushing, who has been recording secretary since its institution, with a gold fob, suitably engraved. Bro. Galarneau made the presentation upon behalf of the members. Bro. Cushing made a suitable reply.

Rev. Father Hanlon was also present and spoke in the highest terms of Bro. Cushing's work as recording secretary.

OFFICERS OF MYRTLE LODGE INSTALLED

Interesting Ceremony Held by K. of P. Last Night.

One of the largest gatherings ever present at a meeting of Myrtle Lodge, No. 2, Knights of Pythias, attended the installation of officers of that lodge last evening in the rooms in the Albion Block.

N. E. Gibbs, of Sarnia, district deputy grand chancellor, acted as installing officer, and was assisted by several of the local brethren. Following the completion of the ceremonies Brother James Bull, retiring grand commander of Myrtle Lodge, was presented with a gold signet ring bearing the symbol of the order. Speeches were made by Brothers Herton, ex-Mayor Geddes, McDonald, and Lutton, of St. Thomas. Refreshments were served and a short musical program was given by local talent.

WHAT DO YOU KNOW ABOUT THE BIBLE?

Interesting Statistics That Took More Than Three Years of Tedious Work to Compile.

The Bible is indeed a most interesting compilation any way we may look at it. Here are some Bible statistics that are said to be the result of three years' labor by the indefatigable Mr. Home and given by him in his introduction to the study of the Scriptures. The basis of these interesting statistics is an old English Bible of the King James version.

Old Testament—Number of books, 39; chapters, 939; verses, 23,214; words, 593,493; letters, 2,728,100.
New Testament—Number of books, 27; chapters, 260; verses, 7,959; words, 181,253; letters, 838,380.
The Bible—Total number of books, 66; chapters, 1,199; verses, 31,173; words, 774,746; letters, 3,566,480.
Apocrypha—Number of books, 14; chapters, 184; verses, 6,091; words, 125,155.

The middle book of the Bible is Micah; the middle and smallest chapter is the 11th Psalm; the middle verse is the eighth verse of the 118th Psalm; Psalms is also the largest book of the Bible, and the largest chapter is the 119th Psalm; the twenty-first verse of the seventh chapter of Ezra contains all the letters of the alphabet; the smallest chapter of the Bible is the thirty-fifth verse of the eleventh chapter of St. John.

The Advertiser believes it has stirred up a renewed interest in the Book of Books by the presentation of the statistics in full on another page of today's issue. Clip the certificate today. Such an offer cannot continue long.

A Good Tonic for Winter Weather

Our damp, cold and foggy weather is most trying even to the strongest constitution, and is particularly hard on those who suffer from nervousness, sleeplessness, anæmia or stomach and liver troubles in any form. To overcome the depressing effect of the weather, strengthen the weakened nerves, stomach and liver, and start rich, red blood coursing through the entire system, carrying renewed life, energy and vigor to every part, a good tonic is necessary, and nothing has been found to equal the prescription recently recommended in an article by the eminent French physician, Dr. Pasquier.

It consists of 2 oz. Tincture of Cardamoms, 2 oz. Elixir Calisaya, 2 oz. Fluid Salsogyn and 2 oz. Distilled Water—all easily obtainable at slight expense from any druggist. Directions: Ask the druggist to mix all the ingredients except the Salsogyn in an 8-oz. bottle, and give you the Salsogyn separately. When you get home add half the Salsogyn. After taking three doses pour in the remainder of the Salsogyn and continue taking as before. Dose: Two tablespoonfuls twenty minutes before meals.

The feeling of increased strength, vigor and vitality after the first day or two will be most astonishing. Inquiries among leading druggists reveal that all the ingredients of this prescription are simple, standard pharmaceutical products, kept in stock by most druggists.

GOOD READING FOR THOSE WHO NEED IT

Aberdeen Association Is Continuing Its Good Work.

The thirteenth annual meeting of the London Branch of the Aberdeen Association was held in the city hall on Tuesday. The work is progressing as usual, and lumber camps, mining centres, mission stations, as well as new settlers in isolated districts of the country are being supplied with good wholesome reading matter to help them through the long winter evenings.

The election of officers resulted as follows:

Honorary Presidents—Mrs. H. A. Boomer, Mrs. Beck, Mrs. C. M. R. Graham.
President—Mrs. Jeffrey Hale.
Vice-Presidents—Mrs. Saunders, Mrs. J. Marshall.
Vice-Presidents—Mrs. Jordan, Miss Manigault, Miss Fraser, Miss Nellie.
Treasurer—Miss Waugh.
Recording Secretary—Miss Jeffrey, assisted by Miss O. Weld.
Corresponding Secretary—Miss McMillan.
Convener Parce Committee—Miss Boyd.
Convener Roads Committee—Mrs. Carlton.

NORMAL STUDENTS "WITHOUT CARE"

"Sans Souci" Club Hosts of a Very Pleasant Affair.

The Sans Souci Club, an organization of Normal School students, were the hosts at a very pleasant informal dance given in the ballroom of the new Masonic Temple on Queen's avenue last evening. Over 60 couples were present, and the young people had a very enjoyable evening.

The music for the dancing, which concluded about 12:30, was furnished by the Dayton & McCormick orchestra.

The room was prettily decorated, and much credit is due to the committee in charge for the success of the annual affair. The members of the committee were Misses Myrtle Johnston, Marion Johnston, Velma Kaiser and Bertha McIntyre, and Messrs. H. Jackson and Stonehouse.

PRIMROSE WINS CASE TAKEN BY HIS WIFE

Victor in Legal Battle to Settle Their Marital Difficulties.

White Plains, N. Y., Feb. 4.—George Primrose, the minstrel, formerly of London, Ont., by a decision of Supreme Court Justice Keogh today won a legal battle started by his wife, Mrs. Esther Primrose, to settle their marital difficulties.

Mrs. Primrose sued for separation and alimony. The court's finding simply states: "I direct judgment for the defendant without costs."

Mrs. Primrose, in her suit, alleged that her husband had been cruel and inhuman and that he had abandoned her. Primrose denied her allegations and made counter charges of cruelty.

Mrs. Primrose contended that her husband's income was at least \$25,000 a year, but he claimed this was a gross exaggeration.
