

TIME DEFEATS THE RELIANCE

Race Declared Off as She Was About to Finish.

LIPTON IS STILL OPTIMISTIC

As to Shamrock's Ability and Hopes for a Spanking Breeze in the Next Test.

New York, N. Y., Aug. 27. — With Reliance less than a third of a mile from the finish and Shamrock III, fully two miles astern of the defender, the fourth race, like the first of the present series for the America's Cup, was today declared off because of the expiration of the time limit, five and a half hours.

Although officially it was no race, the defeat administered to the challenger was no signal that whatever lingering hope remained in the breast of the friends of Shamrock III, must have vanished into thin air. Reliance's victory was in every way more decisive than that of last Saturday. Outrigger, outpointed and outfooted, it was a procession from start to finish. The Herreshoff wonder boat the Shamrock hopelessly in the fifteen miles of windward work, rounding the outer mark 12 minutes and 30 seconds ahead of her, a gain in actual time of 11 minutes and 29 seconds, and down the wind she steadily increased her lead.

The real race of the day was not against Shamrock, but the exciting struggle of Reliance in the last half hour to reach the finish line before the regatta committee fired the gun, which should announce the expiration of the time limit. Had the wind freshened twenty minutes earlier than it did, the cup series would have ended today with three straight wins for the defender.

Fully as discouraging as the sailing qualities displayed by the challenger was the manner in which she was handled. The Yankee skipper not only outmaneuvered his rival in the spectacular battle for position at the start, as he has done every time they have met, but worse still for the downhearted supporters of Shamrock, Captain Wringe repeated his blunder of Tuesday. He crossed the line 61 seconds behind Reliance. Both boats, it is true, went over after the smoke of the hand gun, but the line was so handicapped it is only the sternmost craft which actually suffers.

It was not a pleasant day on the water, and the observation deck which put out to sea to witness the races was hardly more than half as large as on the preceding day. There was a chill in the atmosphere and low, wet clouds shut out the sky. The sea was smooth and a light breeze of about four knots blew out of the southwest. The course was laid fifteen miles dead into the wind and return from Sandy Hook lightship.

At the end of the first hour Shamrock was beaten, and the interest waned. The Reliance was a good boat up to windward after the start, while Shamrock III, tried to make up for it by footing faster. At the next tack, 25 minutes after the start, Shamrock had lost ground, and as they lay about the same course, it was a quarter of a mile astern of the American craft. Reliance started to gain on each tack thereafter, Barr declining all invitations to split tacks, as he had Shamrock beaten. At the turn Shamrock was a mile astern. After rounding the float for the run home and setting his balloons, the wind, which had strengthened to six or seven knots on the beat, died down, and the towering clouds of canvas drifted lazily down an ocean lane a mile wide between the two divisions of the excursion fleet.

Even in the light air it was astonishing how the boats slipped along. With the gentle breeze extending the surface of her hull, sails and her stern crowded up close to the water, her head up, she moved along as serenely and peacefully as if in a dreamless sleep. Yet the gap between her and the challenger steadily widened until two miles separated them.

Half an hour from home, when the spectators had abandoned any hope that the finish line could be reached in time, the wind suddenly freshened and Reliance came bowling down at a merry clip. But the wind had come too late, and when still a hundred yards from home the gun on the tug Navigator boomed out, signaling the end of the race.

The official starting time of both the boats was 11:02, but their actual start as timed by the regatta committee was as follows: Reliance, 11:02:41; Shamrock III, 11:03:42.

The next race will be sailed Saturday over a windward and leeward course.

LIPTON STILL HOPES

Sandy Hook, Aug. 27.—Both boats came up quickly to the Hook after the failure to finish and took up their anchorages. Sir Thomas, speaking of today's affair, said: "I am willing to repeat what I said this morning. I still have hope, slight though it is. Let us hope for a spanking good breeze Saturday."

"I called my friends around me this afternoon and we went over and expressed my regret at my failure, when I happened to look at my watch. Then I reserved decision and I may never have to make this speech."

Mr. Iselin and Capt. Barr declined to talk, except that Mr. Iselin regretted that the wind was not sufficient to bring the boats in on time.

NO AMERICAN NEED APPLY THE HARVESTERS ON THE RAMPADE

They Terrorize the Residents Along the North Shore.

RAID RAILROAD RESTAURANTS

Eating All Food and Refuse to Pay—Smash Furniture and Attack Employees.

White River, Aug. 28.—There was great excitement in this settlement Monday. For the past week there have been half a dozen "specials," taking the harvesters from eastern Canada to the north shore of Lake Huron, and White River every day. Monday the Nova Scotia contingent came on the scene. They have run things pretty much as they like since leaving North Bay. There they smashed everything they could lay hands on around the depot, and as a result eight men were locked up. They held high links at Cantier and some other smaller stations along the line. At Chapeau they demanded that the railway restaurant be opened up, and when it was they ate everything eatable in sight (without paying for the same). They then broke all the dishes, lamps, mirrors and windows, and even pulled up part of the station platform. Every male citizen in the place was sworn in as a special constable, but with such a crowd they could do nothing. The railway authorities issued instructions to their employees further along the line to prepare themselves for the coming of this gang, and later sent messages to close all restaurants and station buildings as far as Port Arthur. Although the train which was bringing this gang left North Bay Sunday afternoon, it was late Monday before it reached White River. Instead of coming into the railway yards, this is a divisional point on the railway—an engine and train crew met the harvesters outside the settlement, intending to change engines and pass through without stopping at the platform. This plan proved successful, though some of the crowd got off and entered the place. They stripped clothes lines, pulled up potato plants, and amused themselves shooting chickens with revolvers. There is a Swedish family named Creneve living here. Mrs. Creneve was locked into one of the rooms and about fifty men ransacked the house, breaking dishes and furniture and carrying off all the eatables in the house. The garden surrounding the house, which is noted for many beautiful flowers, was totally destroyed. A few of the crowd attempted to carry off some of the belongings of men engaged in building cottages for the railway, but they were driven back by the men with their tools, a teamster striking one of the crowd with his shovel, rendering him insensible. There is a Swedish officer came from the west to take the party in charge, but his primary duty will be to mark out the ringleaders and have them arrested when the train reaches Winnipeg. He advised the White River people to defend themselves with firearms. The local police awaited the train at Port Arthur and Fort William.

The train consisted of 24 coaches, and there were 1,200 men in the party. The excursionists from Ontario and Quebec had women and children among them, and the party was under great strain on the spirits of the parties, for, though they whooped it up, they committed no depredations.

THE TROUBLES OF EMPEROR JACQUES

The Governor of Cape Jubi Refuses to Give Up Lebandy's Sailors.

Paris, Aug. 28.—A dispatch from Les Palmes published here says the French cruiser Gallie, which has arrived there from Cape Jubi, West Africa, reports that the governor of that place refuses to give up the five men who were captured from the expedition landed on the Moorish coast by Jacques Lebandy, who intended to found there an empire of his own, without orders from the French government. The Gallie is awaiting instructions from the French government.

One of the wealthiest young men in France, is of an original turn of mind. He has invented a flying machine, and also a successful flying machine. Last June he organized an expedition which landed on the coast of Morocco, between Cape Jubi and Cape Pojedo, and seized the territory, which was not fully occupied by a recognized power. He issued a circular proclaiming himself "Emperor Jacques the First" of this territory. He had a scheme for the construction of a railway across the Sahara at his own cost, and had fixed on a place called Troja for his future capital. This adventure caused some commotion in political circles in Great Britain and Spain. The self-styled emperor, however, had some difficulty with the governor of Cape Jubi, and had to leave his new dominions in a hurry, leaving the Gallie at Les Palmes and suit for damages have also been entered against him by members of his expedition.

A PANIC UNDERGROUND

All Paris Is Nervous Since Recent Catastrophe.

Paris, Aug. 28.—There was a panic on the Metropolitan Underground Electric Railway yesterday afternoon, caused by one of the cars catching fire. A number of passengers jumped from the train while it was moving out from a station. Many persons were injured, but none of them seriously. Some of the passengers leaped to the track and others jumped on the station platform. One woman had her skull fractured and a man had his shoulder dislocated.

HOTEL THIEVES BUSY

Enter House at Aberfoyle and Take Cash and Clothing.

Guelph, Aug. 28.—Some time during Wednesday night an entrance was effected into the hotel of Ignatius Lehman, Aberfoyle, and the burglars carried away the till, containing \$62, several bottles of whisky, six boxes of cigars, and a bunch of keys. They gained access to the hotel by raising the rear window and confined the ravages to the bar. Mr. Lehman had a hat and coat hanging in the hall. The coat was new, the hat not so good. The burglars took the hat, but left the coat. This is the same gang that operated at the Peabody Hotel about ten days ago, where they carried off a valuable gun, \$3 in cash, six boxes of cigars and five-gallon jug of whisky. They are the same people who entered the freight sheds at Elio Tuesday night and secured a two-dozen case of wine.

FANCY CHEESE MAKING

Norwegian Professors to Open Schools in the Dominion.

Ottawa, Ont., Aug. 28.—Mr. R. Ramsun is in the city for the purpose of making inquiries into Canadian dairy conditions. Mr. Ramsun is a Norwegian, who has been connected with dairying in Norway and Denmark, and will introduce the systems in vogue in those countries into Canada. He will bring a staff of professors from Denmark, who will conduct dairying schools in different parts of Canada and teach Canadians the art of butter-making and fancy cheeses as they are made in the countries where he has been engaged. During his stay as a dairymaster, this should prove a most important innovation in Canadian dairy circles.

JUDGE BRITTON AND THE SENATE

The Treadgold Commissioner Attacked and Defended in the Upper House.

Ottawa, Aug. 27.—In the Senate today Hon. Mr. Ferguson called attention to the continued reports of disorder at the Treadgold commission inquiry, declaring that the proceedings were not shedding lustre on the bench in the person of Judge Britton.

Hon. Mr. Templeman asked where in the reports published detracted from the reputation of Judge Britton.

Hon. Mr. Ferguson replied that Judge Britton should have explained his authority to Graham Campbell, and not have stated that he had authority to commit him to jail.

Hon. Mr. Templeman—What, explain his commission to Graham Campbell? I have the advantage of the honorable gentleman, as I know Graham Campbell intimately.

Hon. Mr. Ferguson wanted to know what Mr. Justice Britton's remuneration was to be. It should not be less than \$2,000, a specific sum in addition to his salary.

Hon. Mr. Dandurand was surprised at Mr. Ferguson's remarks, and was appointed on commission, endeavoring to attack the bench on the strength of the reports. There is a report of an alleged insult to the bench.

Hon. Mr. Ferguson said he had not attacked Judge Britton, but the bench. If it was wrong, it was the fault of the Government for placing a judge on a commission in a judicial matter.

Sir Mackenzie Bowden read a telegram from Mr. Borden to Mr. L. Borden, charging that the solicitor acting in the Treadgold inquiry for the commission was not qualified to be a judge.

Hon. Mr. Scott knew nothing of the matter, except what he saw in the paper. He attached very little importance to the telegram from Dawson, as the people were very excited there. He would be surprised if the statement were correct.

The matter then dropped.

TRAINS COLLIDE; 16 ARE KILLED

Terrible Italian Disaster Puts a Damper on the Royal Festivities at Udine.

Rome, Aug. 28.—A disastrous railroad accident has cut short the festivities and demonstrations in honor of the King and Queen at Udine, on the eastern frontier, 60 miles from Venice, where the sovereigns had gone to view the grand army maneuvers.

At 10 o'clock last night near Udine a train overloaded with soldiers collided with a freight train and sixteen soldiers were killed and over 60 injured. The trains took fire a few minutes after the collision, but the flames were soon extinguished.

Special trains brought a corps of physicians, who administered to the wounded. King Victor Emmanuel visited the hospital in person later to see the victims of the accident.

PREFERENTIAL TRADE

Australian Protection Conference Is in Favor of It.

Melbourne, Victoria, Aug. 28.—The interstate conference of protection associations, under the presidency of Sir William Lyne, Minister for Home Affairs, and the Australian Federal Government, has called to Colonial Secretary Chamberlain, announcing that the conference is in favor of preferential trade on the basis of the existing tariff without interfering with colonial protection.

A DRASTIC DEATH

Facing Divorced Wife a Man Drinks Carbolic Acid.

Chicago, Aug. 28.—Facing his divorced wife, who had married again two days after the divorce was entered into, a man drank carbolic acid and died. The man, who was 40 years old, was found by a neighbor who had been drinking with him. He was found lying on the ground, and a neighbor called a doctor. The doctor found the man dead, and a coroner's jury returned a verdict of suicide.

EMBITTERED TURKS

London, Aug. 28.—According to a dispatch in the Daily Mail from Uskub, Europeans, believing it to be their intention to drive the Turks out of Europe. The correspondent says he is convinced that any hostile action by any European power will be the signal for the massacre of every European in European Turkey.

TURKEY LOSES 15,000 SOLDIERS

In Effort to Crush the Insurrection in Albania.

REBELS CLOSE TO THE CAPITAL

Suburbs of Constantinople Heavily Guarded—The Powers and the Beirut Murder.

Paris, Aug. 28.—The assassination of the American vice-consul at Beirut attracts much attention here, but no official has been received in an official or other quarters concerning the details. The French officials say the gravity of the situation depends on whether the shooting was done by a Turkish soldier, which would make the case similar to the assassination of M. Rostowski, the Russian consul at Montevideo, and would warrant a demand on Turkey similar to that made by Russia. It is officially stated that if an American squadron goes to Turkish waters, the action of the United States will not be regarded by France or the other European powers as having any political significance in connection with the Beirut case.

The increasing gravity of the conditions in Turkey is shown by an official report just received from Philippopolis, giving details of the revolutionary plot to blow up the Oriental express. One of the plotters had been designated to assassinate the vice-consul at Beirut and throwing the bombs. This plot, probably, was connected with the dispatching of the Turkish troops to Albania. The report establishes the fact that the original plan was to blow up the train at Salonica and Monastir, and the report received here from the French consuls at Salonica and Monastir are more reassuring. They say they had no further fear for their lives, unless the Turkish soldiers become more lawless. The report adds that forty-nine Turkish battalions have been withdrawn from Albania and concentrated around Salonica, as all Albanian disorders have been crushed. The most remarkable feature of the reports discloses the fact that the Turkish forces, which totaled 50,000 men when the troops entered Albania six months ago, has now been reduced to 35,000 men, showing a loss of 15,000 troops. Few of the soldiers died of disease. The loss was chiefly in men killed while crushing the Albanian uprisings of the country.

Constantinople, Aug. 28.—Considerable forces of troops have been stationed in various suburbs of the city of Constantinople as a precautionary measure, in view of the appearance of insurgents there in a hundred miles from the capital.

A trainload of troops was dispatched yesterday when thirty miles from the capital, village of Adrianople, near which place three Bulgarian villages were recently attacked by Bulgarians, and their inhabitants massacred.

The troops sent to reinforce the garrison at Adrianople were routed by insurgents, whose numbers in the village of Adrianople are estimated to be 6,000 men. Bulgaria, Aug. 28.—The Government has dispatched two regiments to the frontier to strengthen the guard and enable them to exercise greater vigilance in view of the anticipated attempts of additional bands of insurgents to enter Macedonia.

THE BRITISHERS WERE SURPRISED

Chamber of Commerce Tourists Marvel at Resources.

HAD A TRIP ON DETROIT RIVER

Banqueted at Walkerville—Fruit and Vegetable Exhibits From Essex County.

Port Huron, Mich., Aug. 27.—The tour of the British delegates to the Chambers of Commerce of the Empire continues to move favorably, though today the weather was somewhat unpropitious.

Last night the party were taken for a moonlight excursion under the auspices of the Windsor (Ont.) Board of Trade, calling at Walkerville on their return, where a banquet was given by Mr. Hiram Walker at the Walker distillery. Speeches were made and a most enjoyable evening spent, the party returning to Detroit about midnight.

This morning the party started on a trip up the Detroit River through Lake St. Clair and up the St. Clair River to Sarnia, the latter point being reached about 8 o'clock. The party was met by a motor launch, and the party enjoyed the boat trip and dancing and other amusements were indulged in. Luncheon was served at Detroit about midnight.

One of the special features of the boat trip was a fruit and vegetable exhibit from Essex County, Ontario, under the directions of Mr. A. McNeill, senior fruit inspector of the department of agriculture, Ontario. The exhibit consisted of a variety of peaches, some of which measured nine inches in diameter. There were also varieties of pears and plums, and some very fine specimens of melons, tomatoes, egg plant and corn.

The delegates were very much interested in this exhibit, and many expressions of surprise were uttered when it was made known that tomatoes could be purchased in quantities at 25 cents per bushel, while in England they bring sixpence per pound. The sample of cornstarch that was on exhibition was ten feet high, and the delegates were very much interested in it. Many of the party never having seen one before.

Another feature of the tour was the fact that all the products were grown out of doors. Mr. McNeill was the question of the country, but also on all subjects connected with the agriculture of the country, and much information was gleaned with regard to this subject during the day.

On arrival at Sarnia, Ontario, the trunk special train was waiting at the wharf, and the party embarked and sailed for Sarnia. The party was met by a motor launch, and the party enjoyed the boat trip and dancing and other amusements were indulged in. Luncheon was served at Detroit about midnight.

ARBITRATORS WANTED

The Venezuelan Tribunal Has Been Postponed.

CLERGYMEN OF LONDON

Archdeacon Davis

St. James' Church, South London, has as its rector one of the most prominent clergymen in the Diocese of Huron—Archdeacon Davis. Mr. Davis has been rector of the church for nearly twenty years, and has brought it from the lowest position it once occupied to that of one of the largest and most influential churches in the diocese. Archdeacon Davis is an enthusiast in military affairs. At present holds the office of chaplain of the Seventh Regiment. He has been archdeacon of the diocese since the retirement of Archdeacon Marsh several years ago.

TERRIBLE TALE TOLD BY DIARY

How Edith White, Dentist of Chicago and Dawson, Was Lost in Wilderness.

Minneapolis, Minn., Aug. 28.—Edith White, former wife of John A. White, general agent for the Detroit division of the International Harvester Company, died of starvation in the Klondike country and her body probably has been discovered by wild beasts.

Such is the information contained in a dispatch from Seattle, which gives the details of the finding of the unfortunate woman's diary, containing a story of her life from the time she left her former home, and her body probably has been discovered by wild beasts.

Mrs. White was a graduate of the dental school of the state university, and was practicing dentistry in Dawson City two years ago. She wrote her diary, saying she was going into the interior and probably would not be heard from for some time.

In a letter written from Central Alaska, July 25, 1924, William Shafter, a petty officer in the employ of the Government, told the finding of the diary, and a diary tending to show that Mrs. White was in the Klondike country, and was probably lost in the interior camp in the Copper River country.

A PECULIAR DROWNING

Lad Falls Into River and Is Stunned From Blow.

Chatham, Ont., Aug. 28.—Fred Bally, a 12-year-old boy, was drowned in the Sydenham River at Wallaceburg Wednesday morning, and the manner of his death is wrapped in mystery. The lad was engaged by Mr. Philip to wash a buggy on Doyle's dock. As he did not go home to dinner inquiries were made and a search started. The body was found in the river by Fred Thomas. As the lad could swim it is supposed that in reaching for a pair of water he fell in and must have struck against some obstacle, which stunned him. The lad's brother was drowned a few years ago near the glass works.

SPLENDID TWO-BLADE KNIFE GIVEN AWAY WITH ALL SCHOOL SUPPLIES.

300 Splendid Two-Blade Knives, with handsome handle, very strong and durable, just the thing for every boy and girl going to school. We are also giving away delightful floorcloths with all smaller purchases of School Supplies.

WOODS' FAIR.

TO CONVERT MORMONS

Elijah Dowie Says He Will Tackle the Problem.

Chicago, Aug. 28.—Mormonism is threatened with extinction more absolute than could be attained by any mere legislation. The innermost fortress of the Mormons at Salt Lake City is to be attacked next year by the legions of John Alexander Dowie. "Conversion to Zion City tenets" will be the slogan of the Dowie battle array.

The restoration hosts will assuredly crusade to Utah in 1904, said one of Dr. Dowie's disciples yesterday. "From Chicago and the neighboring states we will move 3,000 or 4,000 strong. In the west Zion has many followers, and they will be expected to join the army."

The founder of Zion City anticipates a decidedly lively campaign against the serried ranks of Mormonism. He thinks that the trend of affairs will be anything but dull. No secret has been made by Dr. Dowie of his long-expected conversion of the Mormons, and the deeds that they hope to do in the Utah stronghold are constantly being discussed by the citizens of Zion.

After the inquiry of Chicago and New York, Dr. Dowie, it is understood, believes Salt Lake City to be the worst of remaining wicked American cities. Salt Lake's superlative badness, according to Dr. Dowie, is based not so much on the actual vice there holding sway, or on the number of crimes committed, but rather on the practice of Mormonism, which is particularly abhorrent to Zionists.

But the expedition to Salt Lake is only a beginning. It is nothing more than a first battle in a campaign. San Francisco has been charted as the scene of warfare in 1905, and on it the crusaders will move at that time. It is said that all the cities on the continent which Dr. Dowie thinks in need

of moral reform and regeneration have been listed in the order in which they will be attacked, one by one and year by year in the order of their immorality. It is possible that a foreign expedition to China will be arranged. Dr. Dowie taking intense interest in the Chinese. When San Francisco warfare is waged, particular attention will be given to Chinamen.

THE LITTLE DOCTOR FOR THE FEET.

When your feet bother you in any way, call in the aid of Foot Elm. The wonderful specialist for all troubles of the feet.

A white, odorless, soothing, healing, antiseptic powder, "Foot Elm," when shaken into the shoes simply works wonders in relieving painful, sore, blistered, chafed feet. It rests tired feet. Cools hot, burning feet. Reduces swelling and inflammation of the feet. Destroys all disagreeable, sweaty odors, takes the sting out of a corn and the burn out of a burn.

New shoes that pinch and cramp the feet, fit easy when Foot Elm is used. There is not an ache or ailment of the feet that Foot Elm will not relieve and cure. Price 25 cents a box of 18 powders at druggists or by mail. A. STOTT & JURY, Bownsvill, Ont.

Movements of Vice-Royalty.
Ottawa, Aug. 28.—The royal excellencies and party, who are now in Quebec, are expected to return to Ottawa on Sunday morning. They will leave on Wednesday morning for the Pacific coast. The party will consist of his excellency and the countess, Lady Allen, Lady Talbot and Captain Bell.

The British Journalists.
Hamilton, Aug. 28.—The party of British Journalists who have been touring the west arrived here yesterday afternoon and were met by the reception committee of the city council and a number of local newspaper men. They were taken in a special street car to the mountain top and Dundurn Park and afterwards dined at the Waldorf Hotel.

Headache
Biliousness, sour stomach, constipation and all liver ills are cured by **Hood's Pills**
The non-purging cathartic. Price 25 cents a box of 10 pills or by mail of C. I. Hood & Co., Lowell, Mass.

CHICAGO THIEF GIVES BACK LOOT

He Steals Checks Aggregating \$65,000 and Then Restores Them to Owners.

Chicago, Aug. 28.—After stealing certified and canceled checks to an aggregate of \$65,000, a thief yesterday took the trouble to restore them to the bank from whose messenger he had secured them.

The checks were in a valise which appeared while George Nelson, messenger for the Milwaukee Avenue State Bank, was riding on a Milwaukee avenue cable car.

Apparently the thief thought the valise contained currency, as when he discovered to the contrary he sent a telephone message which put the bank on the track of the missing paper. The police have a good description of the thief, but up to a late hour no arrest has been made.

Nelson, who is 22 years old, accompanied by another employee of the bank, left the institution at Milwaukee avenue and Carpenter street at 1 o'clock, and went to the Chicago National Bank at 152 Monroe street, where the Milwaukee Avenue Bank clears. The two men turned over the checks, which were certified, and returned to them. They then boarded a Milwaukee avenue cable train, Nelson carrying the satchel.

The car was crowded with passengers, and Nelson placed the satchel at his feet, thinking no more of it until the train reached the Milwaukee avenue viaduct, when he discovered he had been robbed.

The police were informed at once, and while detectives were searching Milwaukee avenue resorts, a young man, apparently 19 years old, walked into the Home restaurant at 150 South Canal street. He was well dressed and carried a small, black satchel.

"Pardon me," he said to the girl cashier, "but would you care for this grip for me for a while? It will be called for soon."

The satchel was placed beneath the counter, and the young man hurried to a drug store nearby. He had intended a telephone booth and called up the Co-operative Department Store, which is across the street from the Milwaukee Avenue Bank.

"This is Morrison, a conductor on the Milwaukee line," he said. "Someone left a grip in my car yesterday. It was some checks bearing the name of your concern. You will find the satchel in a restaurant at 150 South Canal street."

The detectives were notified of the telephone message, and, hurrying to the restaurant, found the satchel with contents undisturbed.

AGAINST IMMIGRATION

Crusade to Stop Emigration From the Emerald Isle.

London, Aug. 28.—An Irish anti-emigration conference was held at Cork yesterday, under the presidency of the Roman Catholic bishop. One of the speakers said that emigration agents should be treated by the Irish people now as they had treated the land-grabbers in the past. The New York agent of the conference reported astounding revelations of a money man who had been robbing the Irish people out of a total of over 150,000 female emigrants at that port last year, over 60,000 were Irish.

GIVEN THE RED HAT

Cardinal Espinosa, of Valencia, Receives the Honor.

Rome, Aug. 28.—At the Vatican yesterday afternoon the red hat of a cardinal was conferred on Cardinal Herrero y Espinosa, Archbishop of Valencia. Cardinal Herrero was at the point of death during the conclave, but has now recovered, though still weak. He was carried to the papal apartments by the late Pope Leo's sedan chair. Pope Pius, assisted by Cardinals Gregorio, Massimiliano and Moran, performed the function. Except in unusual cases the cardinal's hat is presented at consistories. Cardinal Herrero was appointed to the cardinalate at a consistory held on June 22.

A KINDLY DEED

Commercial Delegates Help a Dead Engineer's Family.

Port Huron, Mich., Aug. 28.—A noteworthy feature of the annual meeting of the Chambers of Commerce of the Empire are making their headquarters at the Hotel Windsor here, where the party were en route by steamer to Sarnia. Having learned that, though an accident Wednesday morning, a Canadian locomotive engineer had been killed, leaving a wife and four children to mourn his loss, it was suggested by one of the members that a letter of sympathy be sent to the widow and that the party be given an opportunity to contribute what they wished to accompany the letter. This suggestion was carried out and several of the young ladies in the party passed among the delegates with the result that \$200.00 was subscribed and forwarded to the bereaved family.

Never Say Die.

You may be weak, miserable, nervous, sleepless, your digestion may be poor and you despair. Never say die, until you have used Ferrozone, the most wonderful blood maker, nerve strengthener and brain invigorator. It tones up the whole system. You can eat anything and digest it if you use Ferrozone. You sleep peacefully in a short time you're well. Try Ferrozone, which you can obtain at all drug stores.

A man's knowledge is to little or no purpose unless he utilizes it.

While a blacksmith may have many virtues, he must have at least one vice.

MODERN MEDICINE.

Cod-liver oil is good. Purified petroleum is better. Angier's Emulsion is made of cod-liver oil and cod-liver leum, glycerine and hypophosphites. It does all and more than cod-liver oil and similar preparations. It is pleasant to take, agreeable to the stomach.

PROFESSOR SEES A BOOKLESS AGE

When the Talking Machine Will Supplant the Printed Page of Today.

Chicago, Aug. 28.—Summer girls and their temporary or permanent affections will sit in hammocks while companions of love from popular novels, when the prophecy of Prof. H. Marion, of the United States Naval Academy at Annapolis, is fulfilled.

Prof. Marion told a score of Chicago University professors and ambitious language students in Cobb Hall yesterday that it would not be long before printed books would be classed with "wall sweep" clocks, and that libraries would be made up of talking machine desks.

Prof. Marion is an advocate, with Prof. Scrabble, of Annapolis, of Annapolis, and de Sumichrast, of Harvard, of the advanced "talking machines" which deliver effusions of love from popular novels, when the prophecy of Prof. H. Marion, of the United States Naval Academy at Annapolis, is fulfilled.

"In time," he declared, "these disks will take the place of books. Paper-backed novels will disappear, and instead of reading printed books the literateur will only have to put a disk in the talking machine and have the novel read to him in the living voice of its creator."

"After the talking machine has displaced books, how can an emigration be made?" suggested a student. How could Ignatius Donnelly have written the "Great Zerkow" if it were not for the passages of the poet of Avon spoken in his own voice?"

But Prof. Marion was not speaking to convince his hearers of the value of the new talking machine for fiction readers, but for the students of languages. He declared that the new pedagogical method of teaching the languages, the necessity of necessity of linguists wasting valuable time in teaching pronunciation.

"Such a student will own his own talking machine," he said, "and he will place the disk in the machine, and listen to the correct pronunciation of the word."

Prof. Marion predicted it would not be long before "circulating libraries of records" would be established. "The talking machines will not die of fever," he urged, "and they never get out of notice."

SAVED OLD MAN'S LIFE

And Receives a Legacy of \$12,000 After Many Years.

New York, Aug. 28.—Morris Gros, an assistant in an Eighth avenue butcher shop, has received a legacy of \$12,000 from the estate of a man who had been his friend for many years. When notified of his good fortune Gros recalled a day in 1888 when, as he was fishing on a Strassburg dock, he rescued from drowning an elderly man whose sailboat had capsized. Gros said he did not learn the man's name for some time, but supposed the incident had been forgotten.

"GIVE HIM CARBOLIC ACID"

Father in Pity Urges Doctors to Put Son Out of Misery.

St. Louis, Aug. 28.—"Give the boy carbolic acid and put him out of his misery," was the prayer of the father of little Joseph Hammer to the physicians operating upon the youth, who had been run over by an Iron Mountain train. The boy is but 14, and his arm was taken off at the shoulder and his leg a few inches below the body. Should he survive his injuries he will be a hopeless burden to himself and his friends. He cannot wear an artificial leg, as there is nothing to which he can attach a leg. He has a crutch under the stump of his arm. As both the lost arm and the leg are on the right side, this makes his case even the more pitiable.

"IMPERIAL LIEUTENANT"

Is Title Given by Czar to General Alexieff.

St. Petersburg, Aug. 28.—The text of the imperial decree, playing the Amur district and the Kwang Tung Province under General Alexieff, who will assume the title of Imperial Lieutenant of these territories, shows that the Czar trusted Alexieff with superior powers in civil administration, with-out being under the jurisdiction of the Russian ministers. Diplomatic negotiations regarding the affairs of the territory with neighboring states are placed in the hands of the Imperial Lieutenant, who is also entrusted with the command of the naval forces in the Pacific and all the troops stationed in the territory under his jurisdiction. A special council will be appointed to aid the administration, but Alexieff will avoid administrative measures for approval of the Czar.

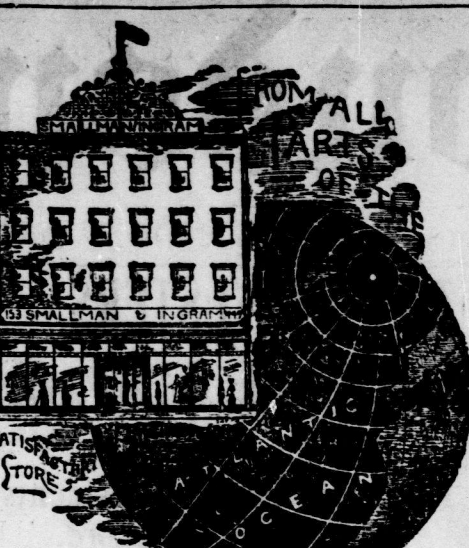

LIVER COMPLAINT AND BILIOUSNESS

Accompanied by Stomach Troubles and Headache, Are Cured by Dr. Chase's Kidney-Liver Pills.

Pale, sallow, yellow skin tells of a tired, sluggish liver and impurities in the blood which will be entirely removed by Dr. Chase's Kidney-Liver Pills. By acting directly on the liver and bowels this great medicine brings prompt and lasting cure for all

As a stuttering man always thinks twice before he speaks he ought to avoid mistakes.

In after years when a woman wants to take the conceit out of her husband she repeats some of the things he said during their courtship.

These waists are all our own make, in dainty styles, are lined throughout, and made of beautiful quality goods. We've been selling these waists right along at \$3, \$3.25, \$3.50 and \$3.75. Your choice of any one on the table now for only

CIRCUS TRAIN SMASH-UP

Runaway Freight Hits the Performers' Sleepers.

Pittsburg, Aug. 28.—The third section of the Barnum & Bailey circus train, composed almost entirely of sleeping cars for the performers, was struck at Wildwood, Pa., on the Pittsburg and Western Railroad, early yesterday by a runaway freight train. A derailed freight car crashed into the rear sleeper and damaged it badly. The 40 people on board were shaken up, but escaped serious injury.

LYNCHBAUM IS CAPTURED

Irish Police Agents Run Him Down at St. Louis.

Chicago, Aug. 28.—A pronounced stir in two countries, with possibilities of subsequent revelations that will make affairs uncomfortable for persons in both, is the result of the capture of "James Lynchbaum," yesterday, by detectives and members of the Royal Irish Constabulary.

The arrest took place at Indianapolis, where the prisoner had fled from Chicago, an escapee from a British secret service agents and constables. In the person of "Lynchbaum" the police have captured the notorious James Lynchbaum, the most widely known Irish fugitive of the decade.

The capture of Lynchbaum in Ireland, and the co-operation of Chicagoans in keeping him out of the clutches of the officials, is now said to account for Lynchbaum's marvelous good fortune in leading the police a merry chase across two continents and the Atlantic Ocean.

Lynchbaum was formerly an Irish school teacher, and was at one time a police officer. The question whether he had been an English spy, reporting Irish affairs to the British government, has stirred up considerable bitterness among Irishmen, both in Ireland and the United States, particularly in Chicago.

In both places he has sympathizers and accusers. His arrest was the indirect result of the action of Michael Davitt, who met Lynchbaum at the Grand Pacific Hotel several months ago, and when the latter extended his hand in greeting publicly denounced him and called for the police.

Lynchbaum fled from the hotel. The incident, however, called attention to his presence in Chicago, and put the officers on his track, finally resulting in his capture.

STEAMERS ARRIVED.

Quality, easily washed and a splendid dryer, worth 25c, for 10c.

BAYLEY'S.

Literary Notes.

THE CENTURY.

The September Century will have two full-page portraits of the late Pope Leo XIII., the one from an exceptionally satisfactory sketch from life by Andre Castagne, the other based on an excellent photograph by P. De Fredericks. Editor L. Sabin's "The Match Game" will be the third in the Century's series of stories of village life, stories which bring nine out of ten of our readers to the door of the editor's office. The story is by Eric Dorr Steele and is a fine, carefully written and carefully read, Fred. Steele's story of the match between "our" change in "Pelle" and "A Wonderful" illustrated by photographs. This issue also contains a number of other interesting articles and sketches by the known writers and a liberal variety of fiction, including the last installment of one of Richard Williams' new novel "The Yellow Van."

THE AUGUST.

The August Century is entirely out of print except for a few copies in the hands of some dealers. The time required to reprint the colored illustrations makes a second edition impossible.

THE SMART SET.

G. Vere Tyler's novelette, "The Promoters," opens the September number of "The Smart Set." It is an absorbing story and a notable piece of literary writing. Jean D. Halliwell's "The Bishop's Wild Oats" is a humorous and interesting story. "The Joint-Stocking of Wallace" is a story of a thrifty and luxurious life. "The Pompadour's Progress," by Kate Johnson, is a story of a daughter. "The Two Grandfathers," by Dora Sherman, and "The Mills of the Gods," by Edna Kenton, John Strange Winter contributes a remarkably study of social life in "A Taste in Comedy." The poetry shows the good work of such authors as Frank Dempster Sherman, Theodore Carson, Charles Cheney, Zona Gale, Charles Hanson, Towle, Seumas MacManus, Elsa Barker, Edna Wheeler, and Charles Becker and Arthur Stringer. As usual, humor is a feature of The Smart Set.

SEPTEMBER SUCCESS.

"If I Should Go to College Again," by E. Benjamin Andrews, is the strong article with which the September issue of Success begins. Dr. Andrews holds that the system of "fraternities" is a mistake, and that many young men take it to heart because they can not join a fraternity and feel that by being deprived of this privilege their chances for graduation are menaced. He maintains that a large percentage of college graduates can not write good English, that too much time is given to sports and too little to mind development. Other times articles include one by Vance, "The Right Hand of the Lord," the man who is to be made the chancellor of the Russian Empire and whose rose is the rank of the peasants. "How Dictionaries Are Made," is described by W. C. Stiles. Roy Stannard Baker tells how the sun ray is being used in place of steam. Josephine Wright Chapman writes interestingly about "Architecture as a Profession for Women." "The Confession of a Croesus" is brought to a stirring close. Besides these there is a long list of other merited contributions by prominent writers.

ST. NICHOLAS.

The September number of St. Nicholas is bright with good illustrations and stirring stories. Among the choice pictures are reproductions of George Romney's "At the Spinnet," Rudolf Lehmann's portrait of Robert Browning, and Guercino's "The Guardian Angel." Oliver Tappan, Howard Pyle, E. W. Kemble, Maud Humphrey and other notable illustrators also contribute interest. The pages of the story of Sir Arthur and his knights grows more and more thrilling as it draws to a close. The long list of articles that will be especially attractive to boys includes Ralph Henry Barbour's "Rowers' Doubt," a tale of football honors; "The Story of the Bouncer," Charles Battell Shuler Williams' "The Sports of the Children," "Kitty White," "Was He a Coward?" "A Novel Fishing Boat," "A School Savings Bank," "With the Birds in Autumn," etc. There is plenty of poetry and the departments deal with timely topics in an attractive style.

AN ADVANTAGE TO THE COUNTRY

Mr. F. B. Wade, of Nova Scotia, Carries on Debate on Railroad Resolution.

Ottawa, Aug. 27.—Mr. Wade, Annanville, resumed the debate on the Grand Trunk Pacific measure, in the House of Commons this morning. He at once said he was convinced the proposed railway was necessary, and that the Government was in possession of sufficient information to justify its immediate construction. In spite of the opposition, he would not be deterred. He then referred to the fact that the Government was not all wool and a yard wide. Mr. Bell had made statements reflecting on the loyalty of the people of Nova Scotia, saying that they were not all wool and a yard wide. Mr. Wade said that every Liberal in Pictou, Nova Scotia, had acted as a traitor to the Government, and yet he was a gentleman. He then referred to the fact that the Government was not all wool and a yard wide. Mr. Bell had made statements reflecting on the loyalty of the people of Nova Scotia, saying that they were not all wool and a yard wide. Mr. Wade said that every Liberal in Pictou, Nova Scotia, had acted as a traitor to the Government, and yet he was a gentleman.

AN INTERNATIONAL CUP

British Yachtsmen Talk of Putting Up Another.

Glasgow, Aug. 28.—In yachting circles here up to the present nothing definite has been done concerning the proposal to offer an international cup for competition in British waters, and to invite Americans to compete, but such a project has been discussed.

WORSE THAN DEATH

Chinese Reformers Prefer It to Imprisonment.

London, Aug. 28.—The Shanghai correspondent of the Times says Viceroy Chang Chi Tung has informed the Chinese Government that if the reformers of the reform party, who are accused of seditious writings, are sentenced to imprisonment, it is to be hoped, they will be more merciful than the Chinese Government.

CIRCUS WRECK VERDICT

Jury Blames the Air Brakes and Engineer's Propriety.

Durand, Mich., Aug. 28.—The coroner's inquest into the death of the circus train on the Grand Trunk Railroad on Aug. 7, was concluded yesterday. The jury rendered a verdict that the wreck was caused by the failure of the air brakes on the second section; that the engineer, Charles M. Brown, was not at fault; and that the circus train was properly equipped with hand brakes.

TO BLOW UP PALACE

Tunnel Discovered Beneath Prince Ferdinand's Residence.

Vienna, Aug. 28.—It is reported from Sofia that the police have discovered a tunnel leading under the Konak of Prince Ferdinand. It is 20 yards long, and it is believed that the intention of blowing up the palace.

MAN ESCAPES DROWNING

And Then His Wife Gave Him Terrible Slugging.

RUSSIA INTRIGUING

To Get Complete Control of the Bosphorus.

London, Aug. 28.—The St. Petersburg correspondent of the Daily Telegraph announces that a project is under consideration for broadening the plan of reforms in Macedonia, which the Porte has already accepted. The essence of the project is to give Austria and Russia a greater voice in the choice of the Governor-General.

NOVA SCOTIA IS GIVEN HARD NAME

Port Arthur and Chapeau Residents Say Maritime Harvesters Are Bad Lot.

Port Arthur, Aug. 28.—From what can be learned of the row which took place at Chapeau between the farm laborer excursionists and the town constants, it appears that several participants were more or less injured.

A general fight followed the efforts of the constables to prevent the looting of stores by the harvesters from the Maritime Provinces. The harvesters, armed with knives and revolvers, in an effort to escape arrest, succeeded in beating off the constables. One constable was seriously injured by being struck with a bottle, and another received a slash from a knife. One harvester got a scalp wound from a flying bullet.

For the past three years the people along the north shore have been compelled to protect their lives and stores with firearms from the attacks of excursionists from Nova Scotia.

NEAR-BY JOTTINGS

Though correspondents' names are not published, they should always sign their letters.

BROWNVILLE.

Brownsville, Aug. 28.—The annual garden party recently held under the auspices of the Brownsville Methodist Church was in every way a grand success. Harold Jarvis and Mrs. Helen W. Jarvis, of Detroit, were the guests of honor.

BYRON.

Byron, Aug. 28.—Mr. Wesley Elwood went to the Northwest yesterday morning to the Northwest. He was accompanied by his wife and children.

PETROLIA.

Petrolia, Aug. 28.—The Presbyterian and Episcopal Sunday schools pickednicked on the island yesterday. The excursion party, they left Petrolia in the morning, and returned in the evening.

ST. MARY'S.

St. Mary's, Aug. 28.—The artesian well at the waterworks is now down to the depth of 40 feet. Drilling will be continued until the water is reached.

MAN ESCAPES DROWNING

And Then His Wife Gave Him Terrible Slugging.

THE MARKETS

NEW YORK.

H. C. Becker, broker, Bank of Commerce

building, received the following

by private wire from Bartlett, Frazier

& Carrington today:

New York, Aug. 23.—Noon.—There is a

slightly better sentiment today as far as

activity goes there is no betterment

worth mentioning. The prospects, that

Secretary Shaw will be able to hold

60,000 in reserve for a protective string-

ency antidote was well received. Of

course the question of the legitimacy

of the methods by which he has accom-

plished this is suggested in the Washington

dispatch and excited discussion. It is

well to take the ground, however, that

he knows just what he is about. The

opening market was decidedly dull,

later became somewhat better and the

strength of the copper stocks was the

stimulating feature. It is evident that

some developments affecting copper

impending. St. Paul and Union Pacific

were perhaps the most active features of

the list. Some strength was evidenced

in rubber goods and in the realty con-

struction which indicated for a time a bet-

ter market. The general list fluctuated fre-

quently and without special feature. The

market in entirely professional, sales to

noon, 116.00.

they moved up and down the river,

going as far up as the St. Clair falls

and down several miles south of De-

troit. The band of the Twenty-first

(Essex) Regiment was on board, and

furnished music. Lunch was also

served on the boat. At 3 o'clock the

boarded the Owens pulled up at the

docks of the company in Detroit,

and for the next two and a half hours

the visitors were taken through the

immense establishment, in which from

1,800 to 2,000 men, girls and boys are

employed. There was much to be seen

that was interesting. The manufac-

ture of the scores of different prepa-

rations made by the firm was witnessed,

but most interesting section to the

medical men was the biological build-

ing. It was there that the toxins of

the company are manufactured, and as

there have been great discoveries in

this line during recent years the at-

traction for the doctors was doubly

great. Connected with the biological

section were found immense stores of

Wall Paper, Painting and Paper Hanging.

JUSTICE PROUDFOOT
The will of the late Justice Proudfoot, brother of the late Rev. Dr. Proudfoot and Mrs. Coyne, of this city, has been filed for probate in the surrogate court. The estate amounts to \$32,048.40, of which \$12,000 is in realty. The personalty is \$1,200 in household effects, \$1,239.50 in stocks, and \$1,488 in bank. The realty includes a leasehold lot, which is part of the University Park, Toronto. The will gives \$10,000 to the late judge's daughter, Jessie Agnes Proudfoot, who executed the will. Another daughter, Isabel Aitchison Proudfoot, of Allegheny, Pa., receives \$2,000 and one-seventh of the residue. William Proudfoot, of Saskatoon, N. W. T., \$3,000, and one-seventh of the residue. Hume Blake Proudfoot, of Saskatoon; Annie Blake Proudfoot, of Hamilton; Mary A. H. Marsh, of Toronto; Catherine George, of Allegheny, Pa.

NO PARK COMMISSION

Board of Works Does Not Favor Appointment of One.

Draymen Must Stand at Some Other Place Than at Present.

Two questions of considerable importance were submitted for discussion at last night's meeting of the board of works. One was the matter of appointing a commission to control the city parks and avenues. In Toronto and Montreal this plan has been successfully followed, and Ald. Campbell, who brought the matter before the city council some time ago, was of the opinion that such an arrangement was just what was needed in London.

The commission, which would be composed of the mayor of the city and six citizens, not aldermen, would have full charge of the parks and avenues, and revenue for the expenses would be obtained by levying a tax not to exceed half a mill each year. The commission would not be paid for its services. The committee discussed the question for some time, finally coming to the conclusion that London was not sufficiently large to adopt such a method of running the parks. A motion was accordingly made recommending that no action be taken.

Mayor Beck then moved that advertisements be printed asking for applications for the position of park ranger. On a vote the motion carried by a majority of one.

Warren & Co., who are constructing the roadway on York street, wrote two letters to the board. The first was a request that their contract be extended ten days owing to the many rainy days recently, which prevented them from going on with their work. The other notified the board that they would have to withdraw their guarantee as to the laying powers of their pavement if the space at the rear of the G. T. R. station was to be used for a dray stand. The kind of pavement they were putting down would not last if horses claved it constantly, especially when it was new. Ald. Cooper, who had the space planked over until next summer, but no one agreed with him. No provision had been made for another stand, and it was concluded to have a new blyaw governing dray stands drawn up.

The opening of tenders for the pavement on King street, between Adelaide and William streets, was left till next meeting.

Charmers Wyatt, Alderman Gerry, Abram, Cooper, Mayor Beck, Secretary Bell and Engineer Graydon were present.

To piteon the Scaffold.

Cuero, Texas, Aug. 28.—Sam, Stiles, a negro preacher sentenced to hang Wednesday for murder, was respite for two days by Governor Lanham, but it was about as close a call as a human ever had. The message came to the sheriff as he was lowering the black cap over Stiles.

A WAR OF WITS IN VANCOUVER

Jim Hill's Road and the C. P. R. Have Fight Over Entrance to the City.

Vancouver, Aug. 28.—The war of wits which, during two years past, had been in progress here between the C. P. R. and James J. Hill, the one party endeavoring to secure an entrance for the Great Northern to Vancouver and the other blocking that scheme, for very obvious reasons, culminated in a pitched battle in the dark hours of Wednesday night, when a gang of men, personally commanded by Managing Director A. E. Wood, of the Vancouver, New Westminster and Yukon (the Great Northern's subsidiary road in Canada at this point), quietly lifted a considerable section of the Canadian Pacific track, near Sapperton, New Westminster, and provided for the much-opposed crossing by putting in a diamond. The entire work was completed when the C. P. R. trackmen went to stop work and the city solicitor at this point, quietly lifted a considerable section of the Canadian Pacific track, near Sapperton, New Westminster, and provided for the much-opposed crossing by putting in a diamond. The entire work was completed when the C. P. R. trackmen went to stop work and the city solicitor at this point, quietly lifted a considerable section of the Canadian Pacific track, near Sapperton, New Westminster, and provided for the much-opposed crossing by putting in a diamond.
