Stackpole Patent Improved Street Sweeping Machine Is the Standard of Perfection

Because no sweeper so effectually does the work for which it is designed as "The Studebaker," it Sweeps Clean. No sweeper is constructed with the same degree of sure and mechanical precision. It Wears Well. "The Studebaker" has the smallest number of working parts, and has less gearing than any other sweeper made. It is free from all unnecessary complications. With reasonable care it does not get out of order. Send for complete descriptive catalogue

Studebaker Sprinkler (PATENT IMPROVED.)

Does not clog or get out of order. Greatest width of spray Can be graded from driver's seat to any volume. We also make an...
