Leading British Financier, In Canada Says Exchange Situation May Wreck The Worlds Truce

Very Problematical As To When British Exchange is Likely to Recover; Great Changes Coming; Germany is Starving

TORONTO, Jan. 29.—The conditions of the exchange, which ever-increasing depreciation, indicate conditions which cannot fail to disturb anyone who understands what such depreciation implies. The whole trade of the world is disorganized and it becoming almost impossible for any nation to make payment to any other nation for the things it needs, unless some plan is evolved to rectify this situation there is real danger that a situation will arise that one cares to contemplate. I am here to awaken people to the need of the situation.

In these grave words, Sir George Walsh, adviser to the Chancellor of the Exchequer on financial and economic questions on which he is the world's greatest authority, explained his presence in America. Sir George, who is also editor of the London "Statesman," arrived in Toronto yesterday from the United States, which he had visited to advise concerning the method of financing the European nations, which are in a dangerous state of collapse owing to the depreciation of currencies. This situation is aggravated by the absolute necessity of increasing their imports in order to replace the losses caused by the war.

During an interview at the King Edward, Sir George repeatedly emphasized the increased need for increased food production in Canada, especially of wheat, which he hoped would be shipped in increased quantities to Europe. If this were not done starvation appeared to be the only alternative.

In spite of the serious situation, Sir George refused to be pessimistic in reply to the query regarding the report of some Washington officials who declared Great Britain was bankrupt, he replied emphatically: "Great Britain is not bankrupt. There is no possibility of it. Europe is not bankrupt. People have a mistaken notion of what the situation is. There has been a great fire and all that is needed is to rebuild. As soon as it is rebuilt Europe will be as strong if not nearly as strong as ever. It isn't a question of making payment it is the actual process of placing the money from one country to another. We can pay interest in our own coinage, but because the United States in the past has endeavored to pay as little as possible from other nations, and also because Europe needs its own production, there is a physical difficulty in finding goods which the U.S. wants which Europe can produce to send to the U.S. to pay the interest. The question is not one of default but one of exchange.

"Which of the nations has emerged from the war the strongest financially, not necessarily immediately, but basically?" was asked. "I think it is the United States," said Sir George. "The net cost of the war has been little to her if she can collect her debts." Then he added, "I think the effect of the war will bring greater development in Canada than in any other country. It is certain that Europe needs more of Canadian goods than ever before."

"Is it not a fact that the 'drop' in British exchange has been welcomed, if not aided by British commercial and Government interests in order to build a real if an invisible barrier of tariff to aid British producers and curb importations of luxuries?"

"I think not," replied Sir George. "It is a question of a practical difficulty in mastering the exchange. We are doing things because we have to do them."

A Big Problem.
In reply to a question as to when the British exchange was likely to recover, Sir George replied: "It is not a question for Great Britain, but for the whole world. Every country needs to sell or needs to buy and at the moment the countries which need to buy cannot sell to the countries from which they buy. It is necessary for some method to be devised which will aid countries which need to buy to make payment to countries from which they buy."

When asked if Britain, with the pound sterling at a minimum in most

Lumbermen Demand "Afternoon Tea," And Back Demand With Firearms

FORT WILLIAM, Jan. 29.—One Big Union Finlander is terrorizing various lumber camps near here by strikes and an open display of firearms.

At a camp near Ignace a manifesto drawn up by "the camp committee" demanded, among other things, the serving of afternoon tea and a morning luncheon.

Armed with revolvers, the Finns compelled all workers to leave camp, and came to Port Arthur and demanded their pay, which was refused.

The matter will be thrashed out in the courts. Other camps axected are at Horns Payne, White River and two near Shabagua.

Judgment Given in a Number of Cases Tried in the County Court

Judge Campbell yesterday afternoon gave judgment in a number of cases tried in the County Court.

In the case of Benjamin Fretz, who sued Albert Blair for \$550, the price of some timber, the Judge awarded Fretz \$301, which amount Blair had already paid. Fretz was ordered to pay his own costs and also those of Blair. Blair claimed the timber was not up to representation.

W. H. Fletcher was given judgment for \$195.55, against the A. K. Wismer Carriage Co.

In the case of Giuseppe Pelligrini and Giacinto Tamassi against Casu in which they claimed repayment of \$10, a deposit on a contract, and \$300 damages, the judge allowed them the full claim, \$450.

The case of the town of Niagara-on-the-Lake against Dr. J. R. Gunn, of Dauphin, Man., who was sued for \$248.21 taxes in arrears on property he owns at Niagara-on-the-Lake, was adjourned to next court.

SCOUT THEORY OF MESSAGES BEING FROM ANOTHER PLANET

TWO LEADING SCIENTISTS DISAGREE WITH SIGNOR MARCONI.

MONTREAL, Jan. 29.—The strange undecipherable messages which have been received in New York and London, have not been duplicated in Philadelphia, in authentic form, according to a despatch to the Montreal Gazette from Philadelphia.

Prof. Doolittle, astronomer at the University of Pennsylvania, does not agree with Marconi, that the impulses registered by the wireless apparatus may proceed from some other world.

What is more probable, said Prof. Doolittle, is that the impulses are secondary results of a breaking up of a sun spot, and the accompanying tremendous electrical waves sent out.

Another Dissenter
NEW YORK, Jan. 29.—There has been no unusual interference with wireless communication in America, asserted Dr. E. F. W. Anderson, chief engineer of the Radio Corporation of America, in discussing today the statements which were made recently in London by Signor Marconi.

He scouted the suggestion by some of the scientists abroad, that the signals might have come from another planet. If any disturbance existed, according to Dr. Anderson, it was purely terrestrial.

"The supposed signals, which are considered unusual, probably are produced by some sparkplug," he said, "and are being heard at a greater distance than ordinarily because of the clearness of the atmosphere and the absence of the static. The fact that the mysterious signals are partly decipherable bears out my contention."

Miss Gladys Smith, Queen street, is attending the "Arts" dance at the University of Toronto.

REQUESTS THAT JOINT COMMITTEE OF CITY COUNCIL, BOARD OF TRADE AND T. & L. COUNCIL BE FORMED TO DISCUSS CITY POWER SITUATION

NO FLU CASES IN THE CITY AS YET—SIX NEW SMALLPOX CASES

There are no flu cases yet reported in the city Health Inspector Bonham said this afternoon.

Yesterday six new cases of smallpox were reported, making the total number of cases twelve.

There are about twelve cases of diphtheria also.

AN INCREASE IN SMALLPOX

The number of smallpox cases in the province continues to increase, according to the weekly report of the Provincial Board of Health for the period ending last Saturday, which was made public last night.

Last week the total number of new cases reported was 304, compared with 288 for the previous week, a ncrease of 16. There was one death from the disease last week. That was in Toronto, which city reported 142 cases last week.

Twenty-two municipalities report that the scourge made its appearance in their localities for the first time.

Drummondville was the hardest of those municipalities visited by the disease for the first time this winter to had eleven cases. Tweed was a close second with seven cases.

Sleeping Sickness Spreads.

The records of the Board show that sleeping sickness has made its appearance in all sections of the province. It cannot be classed as an epidemic, being more sporadic in its appearance. For the four weeks of January ending last Saturday 18 cases were reported an eight deaths. While these figures are sufficient to cause uneasiness, particularly because no means is known of checking its spread, there may still be more cases in the province. It is not a disease that is necessary that the municipal Boards of Health shall report to the Provincial Department, and the figures secured are obtained from information from doctors.

During the four weeks there were two deaths from the disease in Yorkmouth township, and one in each of the following places: Ottawa, St. Thomas, Tuckersmith, London township, East Hawkesbury and McNab township.

MASKED MEN ROB MAN; LEAVE HIM TRUSSUP

North Cobalt, Jan. 28.—Henry O'Brien, who lives on the Halleybury road near here, was held up at the point of a revolver by two masked men late last night and robbed of ninety-five dollars, all the money he had in his possession at the time.

The men, who are believed to be French-Canadians, but who could not be identified by O'Brien, entered his house, and told him they knew he had two thousand dollars in the building, but getting only the smaller amount, they left, after trussing O'Brien to the bed. There he was found early this morning by a neighbor named Martin, who discovered O'Brien half unconscious and suffering from shock and cold. The police are searching for the men.

A unanimous call to the pulpit of St. Paul's Presbyterian church, Toronto, was extended to Rev. P. M. Three Toronto motor bandits were sentenced, the two men to five years, the woman to five years and one year for bigamy.

At a meeting last night at the St. Catharines Voters' Association, held at Alexandra school, it was decided to ask that a joint committee be named of the St. Catharines City Council, the Board of Trade and the Trades and Labor Council to discuss the power situation of St. Catharines.

It was felt by the meeting that this city is not getting as fair a deal as it might with regards power supply. There is a shortage of Hydro power, yet right on the ground, like St. Catharines, Welland and Niagara Falls, are discriminated against.

Toronto can get new industries all the time by offering advantageous power inducements, but in the Niagara district it is a hard matter to secure a good block of power, and in view of the fact that the Chippawa-Queenston hydro power canal will not be completed for five years, the

probabilities are that the power-shortage situation will become more acute as the time goes on, rather than improve.

Some of the Hydro's best friends and supporters think the Ontario Hydro Commission should cease granting Hydro power to little villages and towns many miles away from the power supply until the new canal is finished and the half million extra horse power it will produce is forthcoming.

The meeting last night was not largely attended, but those present were enthusiastic and there were some good discussions.

Alderme nRiffer, Dakers and Avery were among those present, and they took part in the discussions. Peter Grant, president of the St. Catharines Trades and Labor Council, was also a speaker.

The chair was occupied by Percy G. Wilson.

A New Federal Franchise Will Be Enacted at the Next Parliament

OTTAWA, Jan. 29.—A new federal franchise will be enacted at the coming session of Parliament. The War Times election act was intended only for operation during the period of the war, though in the event of a sudden election it would still be utilized. For bye-elections there is a special act.

In the existing state of things it is recognized as most desirable that a permanent election law should be on the statutes, for emergencies may very well arise. The form which it will take is not announced, and it may not be finally decided until consus is taken of the ministerial caucus. The particular points of division are, primarily, as to whether the Provincial lists should be used or new ones prepared by the Dominion as was done in 1917. Then there is the question of disfranchising, for a term of years, all naturalized aliens of enemy nationality. They were banned in the general election, but this disqualification was partly removed in the Bye-elections Act. It is practically certain that the restriction will not be imposed in the per-

manent act to an extent greater than in the Bye-elections Act. Some of the Cabinet and Unionist members would eliminate them entirely now that the war is over.

Election This Year?

In many quarters there is a prevailing idea that this year, and the developments it will bring forth, will see a general election, though such is not all the idea of a majority of the Cabinet. The Government has a lead in the House of about forty-four over the Opposition and the cross-benchers, but a very material element in its support comprises Unionists from the West, where the low-tar agitation is strong. The Liberal Unionists number about forty. As the Liberal National convention adopted a fiscal platform last August, it is presumed that an early opportunity will be taken of dividing the House on its merits, and there is some speculation as to the measure of cross-bench and ministerial support it might command. An election might prove most desirable if the result of the vote were embarrassing.

Should Township Have to Pay Protest Against Conscription? Is Question For the Court

The embattled farmers of Brant, Oxford and Norfolk Counties were represented in the Appellate division of the High Court, Mr. Gordon Waldron, who appealed on behalf of Willia mBarker from a decision of Judge Hardy requiring the members of the Burford Township Council to restore to the said township's coffers money they took out of it to pay the expenses of an anti-conscription delegation which went to Ottawa.

Wm. Barker had been a member of the council. The other members, A. W. Eddy, A. W. Smith, H.E. Lester and W. H. Shillington were represented by W. S. Brewster, K. C. W. T. Henderson, K.C., appeared for Wm. Milmine, who opposed the payment and brought action to compel the members of council to pat the money back.

"In one of the darkest periods of the war," ran a portion of the judgment appealed from, "the government

decided it of paramount necessity that conscription of men should be enforced in order to meet the demands at the front for the safety of the Empire."

It was against this conscription order that 2,000 farmers met in the village of Harley, Brant county, on May 1st, 1918, and demanded that the order should be rescinded. Following that meeting the township council of Burford passed a resolution that the members of the council, with Clerk F. W. Taylor, ex-Reeve Burtis, ex-Reeve Doran, and William F. Gowdy should be a delegation to go to Ottawa to protest. They went, and afterwards drew \$219.15 from the township treasury to pay expenses. William Milmine brought action to have the money returned to the treasury, and Judge Hardy gave him judgment, as he asked, with costs.

On appeal it was contended that (Continued on page four)

POLITICAL DRIFTS

The professions of the United Farmers as a political party are no more and no less than those that have been made all down through the ages by groups of men and women who form a political school and try to carry out ideas.

The United Farmers as a party are as much entitled to take part in the Government of a province or a country as the people of the urban sections. In fact, in some respects, they have more to justify them, for they are hard-working producers, who give something to the public that helps to feed and clothe the masses.

All nations, by common consent, however, reserve to themselves what is known as the "right of eminent domain." That is, the power to invade the right of an individual citizen or a corporation when the public good requires such action.

In a way the existing League of Nations, the combination of the Allied world, stands in some such position to the individual nation as the State does to the individual or corporation. When it speaks it does so for the rights of civilization, the combined peoples of the League.

Holland is standing on her national rights. She does not love the ex-kaiser, but, since he has claimed the protection of her laws, she feels she must support them and harbor him. In doing this she is simply living up to her traditions of liberty.

But Holland is intelligent, and it is to be believed, she can be made to see that, in asking for the former kaiser, the League of Nations is speaking in the name of civilization and is exercising an international sort of domain. The League cannot afford to back down in this, its first united action, but neither is it probable, will be required to employ force against Holland. The latter has made its natural protest. In due time it is likely to be brought to see things in their proper light.

All political parties of the past, and of the present, have ideals. The older parties have done much for the advancement of humanity, for legislation and for better social conditions, and he who disputes this must be a mere beginner in the study of public affairs. If a new party of some kind can do more and do it better, then, that party has a right to be given a chance—as we have always held the Drury Government should be given a chance—but when four years roll round it will be found, no doubt, that the Drury Government, like all others, has done considerable that was good, and failed to do much that was needed. It will not turn the earth into an Eden, nor make living conditions a great deal better. It will contribute its part, as other Governments have done, but it cannot be said that any class can revolutionize society over night and dismiss all the ills of humanity which have existed for thousands of years, and will exist for thousands more.

FROM OTHER PENS

HOLLAND AND THE LEAGUE.

The Buffalo Enquirer: Holland is wholly human—and besides, she is Dutch. Her refusal of the Allied request for the surrender of the ex-kaiser is exactly what might have been expected. Moreover, nobody would have had as much respect for the people and the Government of the Netherlands if they had not stood on their dignity and refused an abject compliance.

Liberty-loving individuals and liberty-loving nations are jealous of their rights; they do not yield them to the people or of the world are paramount to the individual's or the nation's interest may these rights be violated with any justice.

All nations, by common consent, however, reserve to themselves what is known as the "right of eminent domain." That is, the power to invade the right of an individual citizen or a corporation when the public good requires such action.

In a way the existing League of Nations, the combination of the Allied world, stands in some such position to the individual nation as the State does to the individual or corporation. When it speaks it does so for the rights of civilization, the combined peoples of the League.

Holland is standing on her national rights. She does not love the ex-kaiser, but, since he has claimed the protection of her laws, she feels she must support them and harbor him. In doing this she is simply living up to her traditions of liberty.

But Holland is intelligent, and it is to be believed, she can be made to see that, in asking for the former kaiser, the League of Nations is speaking in the name of civilization and is exercising an international sort of domain. The League cannot afford to back down in this, its first united action, but neither is it probable, will be required to employ force against Holland. The latter has made its natural protest. In due time it is likely to be brought to see things in their proper light.

CHASING RAINBOWS
 Montreal Gazette: In the United States there are many persons who look with a kindly eye across the sea to Ireland, and they are not all sons of men and women of Irish nativity. Home rule for Ireland they would like to see, but it is doubtful if the De Valera policy catches their fancy.

Bonds are good investments when there is something behind them other than promises. The bonds of the Irish republic are in the "promise" class. As Ald. Quinn of New York said in criticizing Mayor Hylan for his attitude towards the De Valera plan: "A bond issue is a financial lien against tangible property. The mystic dream of a deluded agitator is not and never can be, called security for a bond issue. Do not forget," continued Ald. Quinn, "that this man De Valera is doing almost the same thing in this country that we are deporting the so-called radicals for."

The \$10,000,000, concluded this frank critic, might do enough harm to embroil the United States in a war with Great Britain.

Leading British Financier in Canada

(Continued from page 1)

European countries, was not purchasing raw or partly manufactured articles there, processing them in England and selling them to the United States, thus benefitting by the dollar premium there, Sir George replied in the negative.

"What is your opinion of the Canadian dollar discount in the United States?"
 "I don't know how you are keeping up the exchange at this figure," said Sir George, who said that the Americans must have great faith in the future of Canada.

"Do you think the Canadian dollar discount will become greater?"
 "You will be lucky if it doesn't," he said. "There is nothing being done to take care of the situation."

"Do you consider the Canadian dollar discount largely due to the fact that prior to the war Canada paid her trade deficit with the States through London, with a portion of her credit balance with Britain, and that the present discount can be attributed directly to sterling discount?"

"Yes, I think so. You are in the same boat as we are," he replied.
 "Is not the exchange situation making it possible for British ship-owners to compete with the U. S. semi-Government marine, even if the latter cuts freights to cost?" was asked.

"The freight rates now being charged are profitable to everybody," was the reply. "There is room in the world for all the ships both the U.S. and we can put out."
 "There will probably be the greatest expansion of international trade that the world has ever seen," said Sir George. "The whole economic structure is being transformed from a national to an international structure. Nations tried in the past to foster national trade, but the world has now to adopt an international structure. Food in Europe has gone down never to recover. I doubt if Europe will ever again produce as much food as in the past. I think it is physically impossible to get it back. The man-power has been lessened by death in the war, and low wages have gone forever. An agricultural inventor who used to be paid sixteen or eighteen shillings, now gets two pounds."

In reply to a question as to whether prices would be lower Sir George said: "I think the high prices will come down in a period of years through a readjustment of production and greater use of machinery, and production becoming more wholesale. Also by producing special lines of articles in very large quantities."

Great Changes Coming.
 "There is no doubt that great changes are coming in Europe," but I believe that when they have come they will be beneficial. The civilization of Europe instead of going back will go forward if we now take the steps which should be taken."
 "Principal step," he said, was the providing good food for Europe. Canada and the United States would have to produce more food. European nations when they recovered would resume their old position of manufacturing nations. Canada, he thought would manufacture for her own needs but her overseas trade must be in food and raw materials. He hoped that the western wheat lands would be far larger developed.

Referring again to the conditions in Europe, he added:
 "But if America refuses to send food and accept our securities, you reduce us to starvation, and starvation brings anarchy and chaos."
 Of the possibilities of Bolshevism in Italy he said:

"Italy is subjected to more economic distress principally because she cannot get credit. Bolshevism is the child of starvation."
 Asked for his views of the feasibility of the likelihood of the funding of the Entente war debts or the deferring of interest payments on some for a term of years, he said:
 "I think the whole of the internal war debt will be paid shortly, chiefly by a levy on wealth made during the war. Practically all the debts have been subscribed for by money made by someone. This system seems to meet with approval in every country. There is no possibility of bankruptcy in any of the great countries. We are raising taxation sufficient to take care of the international payments."

Strengthen Trade.
 "Do you consider that the British Empire has been strengthened commercially as a result of the war, and that the exchange situation may tend to increase trade in Imperial channels?" was asked.
 "It will tend to increase all international trade, and the British Empire is producing most of the things the world wants, and as Canada, Australia, South Africa and India are producing most of the things Great

Everyone Should Drink Hot Water in the Morning
 Wash away all stomach, liver, and bowel poisons before breakfast.
 To feel your best day in an day out, to feel clean inside, no sour bill to coat your tongue and sicken your breath or dull your head; no constipation, bilious attacks, sick headache, colds, rheumatism or gassy acid stomach, you must bathe on the inside like you bathe on the outside. This is vastly more important because the skin pores do not absorb impurities into the blood, while the bowel pores do.
 To keep these poisons and toxins well washed from the stomach, liver, kidneys and bowels, drink before breakfast each day, a glass of hot water with a teaspoonful of limestone phosphate in it. This will cleanse, purify, and freshen the entire alimentary tract before eating more food.
 Get a quarter pound of limestone phosphate from your pharmacist. It is inexpensive and almost tasteless. Drink phosphated hot water every morning to rid your system of these vile poisons and toxins; also to prevent their formation.
 Britain wants, there should be not only a great international trade, but a great inter-Empire trade. I will mean a more rapid development of the Colonies. Such a development is absolutely necessary." Sir George

Peace Incomes and War Prices

TEN years ago a Canadian clergyman was forced by illness to retire from active work. The largest salary he had received in the forty years of his ministry was \$1000 and a furnished house. The average did not exceed \$800.

On this sum he had maintained and educated his family. He and his wife were given to frequent hospitality. They supported every good cause, and even contributed to the maintenance charges of the Church they served.

A Minister's Budget
 By good management and economy they were able to carry an endowment insurance policy, pay an assessment to their Church Superannuation Fund, and accumulate some small savings. When that clergyman was superannuated in 1909, he bought a house. His income during the first year of retirement was as follows:

The retiring allowance from the Church (being \$10 for each year of active work)	\$400.00
Interest from investments	100.00
Wedding fees and sundries	75.00
Summer supply work	100.00

Against this total of \$675 stood the charge for taxes, insurance and maintenance of the house; say, \$75, leaving a net annual income of \$600.

The Shrinkage in Values
 Before the war, the rise in the cost of living had necessitated careful management of this income. Today, the pressure is too great to be borne. If the statisticians are correct, the dollar of 1913 is worth now in purchasing power about 47c.
 Therefore, the real income available to maintain these people of refinement and culture is \$282 a year.

Veterans of the Cross
 These men gave a lifetime of unselfish service for their Church, their country, their neighbors; visiting the sick, burying the dead, comforting the bereaved, preaching Christ crucified, and doing their part in making Canada "God's country." In a time when the payment of pensions to old employees is accepted as a reasonable thing by industrial firms, these veterans deserve more consideration than they have been getting from the Christian people of this Dominion.

The Forward Movements
 The Superannuation, Beneficiary or pension funds of the five Communions co-operating in the United National Campaign must be largely increased to yield a reasonable and adequate income for these old heroes of the pulpit.
 They ARE heroes. They make no complaint. They still are found doing all that their strength will permit for the great and noble Cause to which they devoted their lives. They still are enduring hardness as good soldiers of Jesus Christ.

National Peace Thank-Offering
 Simultaneous Every-Person Canvass by Each Communion
 February 9-14

What Are You Going To Do About It?
 This is not a question of Charity. It is a question of justice, of chivalry, of common honesty.
 Your Church is seeking, through the Forward Movement, to do its full duty to the retired clergymen.
 Your interest and your subscription are needed.
 Tell your Church leaders where you stand. Do it NOW.

THE STABLE IN WINTER

Keep Your Dairy Cows Comfortable and Clean.

Spray the Place With White Wash. Add Some Germ-Killer—All Broken Windows. Provide Other Ventilating of Plants in Winter.
 (Contributed by Ontario Department of Agriculture, Toronto.)

THE period of long winter is here. Of our milk cows from special protection from cold, and at the same time made as comfortable as possible. The whole of the inside of the stable should have a thorough cleaning. The dust and cobwebs should be swept from the walls, ceiling, windows; the windows should be thoroughly cleaned, also the feeders and stalls. Then spray and wash all over the inside, except windows. To the whitewash add a disinfectant such as a carbolic preparation, or a chloride of lime. This will kill disease-carrying germs, and will also maintain the health of the milk which is at the foundation of the stable milk production.

The next step is to put in all the "window lights," but where the owner thinks he cannot afford to glass at the present high price, a piece of coarse cloth, such as a sack, may be tacked over the window space. This will provide ventilation in a stable not otherwise ventilated.

Cow stables need ventilation in winter by having the foul air led out and fresh air introduced by a draft directly on the cow. A simple way to do this is to have windows at the bottom and to have them to open inward, so as to draw the air toward the ceiling. This should be a V-shaped board at side or end of the window, to prevent the side-draft. Foul air should extend below the ceiling of the stable, and preferably have outlets for four air—two near the side and one at the ceiling, as in this the foul air is removed without disturbing the stable too much, by closing the top outlet. No system of cheap ventilation works automatically. They all require some attention.

Other points in stable preparation to have all ties secure so that cow may not get loose; clean mangers and gutters should be so that they may be kept clean and sanitary without too much labor. Litter and feed carriers are great sources of labor in looking after a stable during the winter.

In a word, make the cow comfortable and lessen the labor of stabling cows by having them stabled in a convenient, well-ventilated and comfortable way. It helps as possible in the form of chivalry.—Prof. H. H. Dick, O. A. College, Guelph.

Care of Plants in Winter.
 Water-growing pot plants when they need it, then water thoroughly. When the soil has to get dry and powdery on the surface, or when the pot is tapped the knuckles or a knife handle, it emits a ringing sound, the soil requires water. Give sufficient so that it runs out through the bottom of the pot. Water plants in morning in cold weather, not at night. Use tepid rain water, or water that has been exposed to air for a day or two. If possible, water should be lukewarm, about 60 degrees F. in winter.

Humidity in the atmosphere is one of the main requirements for successful with plants indoors. Pans or saucers of water on the floor or registers. A steaming pot or pot of water on the stove, or a great help in this respect.

When the pots become light roots, or where the soil is poor, or out or exhausted, liquid fertilizer can be given plants. The soil should be moist, not dry, or very wet, the fertilizer is applied. There are several good plant foods sold at stores. "Sterling Food, Plant, Fels" or "Bongora" are both good. About one-half pint of water dissolved in a little warm water and cold water added to make a gallon; also makes a fairly good diluter for pot plants. Apply every week.

Spraying with water will help down insect pests. A fine spray of water applied to all parts of plants is necessary to be effective. Plants having very rough birch bark, should not be sprayed, especially in winter, as plants having glossy, glaucous leaves, insect pests increase and best in a dry, warm atmosphere. Aphis or green lice, white fly, spider and thrip, "Sulpho-Tobacco Soap" is a good remedy. Black fly is also a good remedy for insect pests on house plants. Salt water or a solution of whole oil and tobacco water are beneficial to scale insects on plants.

Scale about one-half pound of fresh lime in a pail of water, stir it to settle. Give about a teaspoon of this solution once or twice to each plant suffering from earth worms. Put frozen plants in a dark place at once, temperature about 45 degrees F. Do not touch the plants. Sprinkling with ice cold water is beneficial.—W. Hunt, O. A. College, Guelph.

A Chat About Chickens.
 In very cold weather to make a hen comfortable and to keep her in good condition feed her a little of good condition feed (a little of the best in a dry, warm atmosphere. Aphis or green lice, white fly, spider and thrip, "Sulpho-Tobacco Soap" is a good remedy. Black fly is also a good remedy for insect pests on house plants. Salt water or a solution of whole oil and tobacco water are beneficial to scale insects on plants.

Choice cut flowers, potted plants and floral designs, at all times. Walker's Florist, 104 St. Paul Street, Phone 763.

STABLE IN WINTER

Your Dairy Cows Comfortable and Clean.

the Place With Whitewash and Some Germ-Killer - Fill Broken Windows, Panes, and Provide Other Ventilation - Plants in Winter.

(Reprinted by Ontario Department of Agriculture, Toronto.)

THE period of long winter is here. Of necessity, our milking cows must have special protection from cold and at the same time must be as comfortable as possible. The whole of the inside of the stable should have a thorough cleaning. The dust and cobwebs swept from the walls, ceiling and floor; the windows should be thoroughly cleaned, also the stalls. Then spray with all over the inside, except the walls. To the whitewash add some such as carbolic acid, or a chloride of lime. This will kill disease germs in any cracks, crevices, and in the health of the cows is at the foundation of good milk production.

Next step is to put in all window lights. But where the light is not wanted, as at the present high price of coarse cloth, such as an awning, may be tacked over the window. This will provide ventilation in a stable not otherwise obtained.

Stables need ventilation by having the foul air removed fresh air introduced without directly on the cows. A good way to do this is to have a side-draft. Foul air out through the ceiling, and fresh air in through the side-draft. Foul air out through the ceiling, and fresh air in through the side-draft.

Stables need ventilation by having the foul air removed fresh air introduced without directly on the cows. A good way to do this is to have a side-draft. Foul air out through the ceiling, and fresh air in through the side-draft.

Care of Plants in Winter. Winter growing plants need it, then water them. When the soil gets dry and powdery on the surface when the pot is tapped with a knuckle or a knife handle it is a ringing sound, the plant is thirsty. Give sufficient water. It rains out through the bottom of the pot. Water plants in cold weather, not in tepid rain water, or water has been exposed to air and day or two, if possible. It should be lukewarm, about 60 degrees F. in winter.

Children love Cascarets because they taste like candy. When your child has a white tongue, feverish breath, foul stomach, give Cascarets anytime to "work" the nasty bile, souring food and bowel poison from the clogged-up places.

Employment Service of Canada. The Employment Service of Canada has been created to grade the various classes of workers—trained and untrained—and to place the best in the country at your disposal through a system of Employment offices from Coast to Coast.

Returned Soldier. A Chat About Chickens. In very cold weather to make them comfortable and to keep their condition good, feed a little at a time in dry straw or other some kind of mixed grain. Do not let them drink, or about a quart of water each day.

Children Cry for Fletcher's

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are especially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea, biliousness, Feverishness arising from indigestion and by regulating the Stomach and Bowels, aids the assimilation of Food, giving healthy and natural sleep. The Children's Comfort - The Mother's Friend.

BUILDING AN ICEHOUSE

Good Type for Use on the Average Farm.

Every Milk Producer Should Have One. The Work and Cost of Erection Light Compared With the Benefits.

EVERY Ontario farmer who produces milk—and most of the farmers do—should store a quantity of ice each winter, in order to make it easier for him to cool the milk down after the evening milking, and to keep it sweet for such short periods, week-ends for example, as he may be required to keep it before delivering it to the cheese factory or other point of disposal. In order to preserve the ice satisfactorily some form of ice-house or shelter is necessary. The purpose of this article is to describe in a few words a type of ice-house which will give good satisfaction.

The ice-house does not necessarily have to be expensive, but certain conditions in regard to it must obtain if the ice is to keep well. These I shall mention briefly. They are: protection of ice from sun's rays, this is the wall; good drainage from the bottom of the house, either natural or artificial, free circulation of air through the top, and tight foundation, plenty of good quality of sawdust on all sides of the mass of ice, and close packing of the ice. If these conditions can be secured in a rough bin built under a shed, or a lean-to on the shady side of a building, all well and good unless one has other good reasons for building a more expensive structure elsewhere.

This particular type consists of a lean-to structure of wood at one end of the barn which has the stable underneath. The size would vary with the amount of storage required, probably a building 15 feet square and 12 feet high would be large enough for most farmers' needs. In this structure and at the side adjacent to the barn, or rather the basement wall, is built a concrete enclosure about 6 feet square and 6 or 6 1/2 feet high. A door in the basement wall admits one to it. In the side opposite to the doorway there is a row of 3 or 4-inch iron rods, the bottom of which is fastened to the concrete storage on all three sides and over the top as well. Between the top of the concrete and the iron there is a narrow passage-way or flue for allowing the foul or used air to get out, hence good circulation in the storage is provided for. In this particular case the farmer has his milk-room containing cream separator, etc., adjoining this storage and whenever he wishes to cool milk or cream or store it he puts it in this storage. Other articles, such as butter and meat, are also stored at times but of course only for a few days at a time. Hence much handling of ice is saved as well as considerable time. The building is made of wood, the studding being boarded on both sides. It would be advisable to fill the space between the two boardings with planer shavings or good quality sawdust. The roof is covered with shingles. The gables are left somewhat open for ventilation. Plenty of sawdust is used around the ice next to the walls, and also a good depth over the top, however is used between the cakes of ice. If a few cakes of ice are required for household use they may be easily taken out of the sawdust in the top of ice-house or at one side if more convenient.

It will be seen, therefore, that this type of ice-house does double duty in a degree, namely, providing a small ice-cold storage room, cooled by the ice mass directly, in addition to housing ice for various incidental uses in the summer-time. In a case of this kind there would not be much need for taking out ice except for supplying the household refrigerator as the storage room would take care of the ordinary cooling and preserving of products.

Believing this arrangement to be valuable, and in many cases practicable on Ontario farms, I have much pleasure in recommending it to farmers in general.—R. R. Graham, O. A. College, Orillia.

Still a Place for the Good Horse.

Horses have not been meeting a keen demand in Canada since the war broke out and have increased about \$50,000 since 1914. However, a real good heavy draft horse is hard to find, and if Old Country markets are any criterion of the trend of affairs an awakening in the Canadian Draft Horse market should soon follow. Draft geldings are selling in Ontario for from \$300 to \$500 and even up to \$1,000 each. A returned officer told me recently of seeing a number of Canadian geldings in Old London for £100 (\$500) each. About one-fifth of Great Britain's ordinary supply of work horses went to the war and a number of useful brood mares were also taken. France, Belgium, Russia and Germany, four of the great horse-producing countries, have lost a heavy percentage of their horse stock during the war. Already a shipment of Percherons has gone from Western Canada to France, and it would seem that during the period of reconstruction our horse market will be East and West. If it will pay to breed any horse on the Canadian farm the heavy draft of good quality should turn in most money to his owner.

BRITISH RELEASE

GERMAN ADMIRAL London, Jan. 25.—Admiral Von Reuter, the chief officer of the German fleet, a Sempa Flow, who gave the order for the scuttling of the German fleet there last June, has been set free by the British authorities. The admiral has returned to Germany, it was announced today.

SAGE TEA BANDY TO DARKEN HAIR

It's Grandmother's Recipe to Bring Back Color and Lustre to Hair

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old-fashioned Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray-haired unattractive folks aren't wanted around so get busy with Wyeth's Sage and Sulphur Compound tonight and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

MISS UNA CARPENTER

Miss Una Carpenter, who plays the Hawaiian dancing girl in "A Night in Honolulu," which comes to the Grand Opera House next Monday, February 2nd, is a young woman who has made her way on the stage by careful study. Players are often asked about how to get on the stage, and how to succeed after they have managed to secure an engagement. It seems a question which is always being asked by folks outside the theatre. The inevitable question was put to Miss Carpenter, and the interviewer found the young lady had very definite and set ideas on the subject of her profession. The only and practicable way for one ambitious to learn the ways of the stage is to "act" said Miss Carpenter. The various schools of acting may be well enough in their way, but my observations of their graduates has been that they are harder to fit into a role than a person who has had no training at all. The stock company is the best school which can be found in the country today, while there is little chance for study and characterization, still it does give the student the opportunity to study, and see the result certain intonations and gestures have on audiences. Getting to know the temper of an audience proved my greatest difficulty. Finding our audience and forcing response upon it is one of the great secrets of winning success.

A thrilling mystery narrative entwined with an embracing love story of old Hawaii—the Island Paradise—is "A Night in Honolulu," by Howard McKent Barnes. From the opening scene to the end of the play the spectator feels that he is really living among these fascinating natives, sharing with them the sorrows and joys of their picturesque life. The author has reproduced these quaint people and their manner in an atmosphere that is most realistic.

"What Shall I Do Then With Jesus, Who Is Called Christ?"

Pilate's Question Is Yours To-day

THE Church is not impersonal. It is a company of individuals, each of whom has expressed determination to acknowledge Jesus as Lord and God, to accept His teachings and follow His example.

The Active Christians

Those who persist in the Way find their lives radiant with hope. They have an object in living. They are not plunged into hopeless misery by bereavement. They develop character. They learn contentment. Being themselves men of hope and good-will, they are centres of hope and good-will in the world.

The Inactive Christians

Not all continue faithful. Many neglect to keep the Pattern before them. They cease to pray. They forego public worship. They become only nominal Christians. Their sympathies are on the side of Right, but they miss the full-orbed peace that comes from being obedient to the Heavenly vision.

Aiding the Enemy

Apart from their own loss, lukewarm Christians do positive harm to the Faith. Enemies never cite the lives of notable Chris-

tians as a proof of the inefficiency of the Church, or of the Gospel it proclaims. If, therefore, all lukewarmness should disappear the critics of Christianity would be confounded.

Where Do You Stand?

You are a Christian. Are you ardent or careless? Are you whole-hearted or half-hearted? Do you realize that the Church in Canada faces unprecedented responsibilities?

You believe that the Gospel of Christ is a perfect solvent of selfishness and class-hostility. Will you do your part to give it free course?

A Great Possibility

"Righteousness exalteth a nation, but sin is the reproach of any people." If all the Church Members of Canada would begin today to follow earnestly the principles enunciated by their Divine Master; if they would acknowledge their stewardship in full measure, the name of Canada would ring around the world. Therefore, the Question is to you:

"What shall I do then with Jesus, who is called Christ?"

A United Appeal

FIVE Christian Communion—Anglican, Baptist, Congregational, Methodist and Presbyterian—have in Canada ten thousand congregations, over one million communicants, and represent more than half of the population of the Dominion. Under the stimulus of five great Forward Movements, it is in the power of these people to root out the evils of materialism in Canada, and to conserve the spiritual values revealed by the chastisement of War. Are you ready for active service?

The Decision Is Yours

LET Christianity have a fair trial in your own life. Make Jesus Christ master in your home. Test the reality of prayer. It will give your life direction, purpose and power.

You can help to cure the ills of Canada and the world. Be prepared to serve. Begin NOW.

The United National Campaign

Representing the Simultaneous but Independent Forward Movements of the Anglican, Baptist, Congregational, Methodist and Presbyterian Communion in Canada.

SHOULD TOWNSHIP PAY

(Continued from page 1)

the payment came within the statute which gave the township permission to spend \$500 towards the reception or entertainment of persons of distinction or the celebration of events of national importance, or for travelling expenses incurred in respect to matters pertaining to or affecting the interests of the corporation.

The action of the council, Mr. Waldron argued, was not open to review, otherwise the court might be called to pass upon the question, where money was spent for the entertainment of a distinguished guest, as to whether the guest was really of importance or not. A Governor-General or even a distinguished judge might thus be dragged into discussion and degradation without a chance to defend himself.

"The Legislature never intended," said Mr. Waldron, "that judges should assume the function of passing judgment on the political opinions of the people. It would be calamitous if judges assumed such functions."

Mr. Waldron further pointed out that there was no local discontent with the action of the council. There was no question as to the payment raised at the next township elections.

"Some hundreds of municipalities did the same thing," he added. "Public opinion would be aroused by a judgment which would interfere with the political opinions of the people."

Chief Justice Mulock: "What difference does that make to us? We are here to interpret the law. We are indifferent as to what public opinion is."

Mr. Waldron: "If your Lordships were indifferent you wouldn't review it."

Chief Justice Mulock: "Don't threaten us. Why cite such instances as that to interfere with the administration of justice?"

Mr. Waldron: "It would be inexpedient, impolitic, for the Judiciary to..."

construe this statute so that it would take upon itself to pass upon the political opinions of the people."

Chief Justice Mulock: "Expediency has nothing to do with it."

Mr. Waldron: "The minds of the people are inflamed."

Chief Justice Mulock: "Let it be inflamed. Please drop this method of argument."

Mr. Henderson argued that the Council would only be justified in voting money for travelling expenses for the purpose of promoting or opposing matters which affected the corporation as a corporation.

THE WEATHER

TORONTO, Jan. 29.—The area of high pressure is moving slowly eastward and weather is fair and cold from the Ottawa valley pastward, but it is moderating in western Ontario. The chinook of yesterday in Alberta has been followed by northerly winds and zero temperatures. **FORECASTS—SOUTHERLY WIND, FAIR AND MODERATING. FRIDAY FAIR AND MILD.**

N. Y. SUFFERS FROM FLU

Many More Cases Than During 1918 Epidemic
NEW YORK, Jan. 29.—Influenza cases reported here today totalled 5,589, or 280 more than developed on the worst day during the 1918 epidemic. Sixty-seven deaths from influenza were reported today, with 686 new pneumonia cases.

Hospital for Sick Children

TORONTO
Upkeep of Big Charity Requires Cents a Minute.

Dear Mr. Editor:

The 44th annual report of the Hospital for Sick Children, Toronto, shows a notable advance in the department of its service to the suffering and crippled youngsters of this province. The ward accommodation has been taxed to its capacity and the summer annex, the Lakeside Home, was opened for the first time since the outbreak of war. The daily average of out-patients has increased during the year from 192 to 233, including children from practically every county in Ontario. Even had the cost of supplies and labor remained stationary the substantial increase in the number of patients would also account for the addition to the charity's work which at the close of the fiscal year was \$109,000. This debt has become an embarrassing burden. Further increase must threaten impairment of an enviable efficiency.

The Hospital is in the forefront of all institutions upon this continent devoted to the care of sick children. It cost \$335,399 to maintain last year. This great sum not only defrays the salaries of the staff, but Ontario all the resources of medicine, science, but, in addition, provides a training school for 125 nurses for unsurpassed clinical facilities for the University students who are preparing to engage in their profession throughout the province.

The income which must be forthcoming to finance this absolutely essential work figures out at several hundred dollars a day; and, as there is no endowment fund, a small fraction of that amount has to be derived from individual benevolence. Therefore the Trustees are making a Christmas appeal to every lover of children to foot the bills for some period of time, no matter how small it may be. A minute of merey costs fifty cents.

For churches, societies, lodges, etc., who have more ample funds wherewith to assist the youngsters to a fair start in life, the naming of a cot is suggested. A number of memorial cots have been thus dedicated in honor of the overseas service of fellow-members. This privilege is extended in recognition of gifts of \$2,000 to the Main Hospital or \$500 to the Lakeside Home, which can be paid in annual instalments so desired.

Literature, illustrative of the branches of the past year's work, together with any other information desired, will be gladly furnished on application to the Secretary, Hospital for Sick Children, College Street, Toronto. Contributions should also be addressed to the secretary.

IRVING E. ROBERTSON, Chairman of Appeal Committee.
ADVERTISE IN THE JOURNAL

DOCTOR WARD, The Specialist

SPECIALIST IN THE TREATMENT OF NERVOUS CONDITIONS, NERVE EXHAUSTION, BACKACHE, LUMBAGO, RHEUMATISM, STOMACH AND LIVER TROUBLES, ACNE, SKIN DISEASES, CATARRH, ASTHMA, RECTAL TROUBLES, PILES, FISTULA AND BLOOD CONDITIONS. The knowledge gained from many years' experience in treating diseases just like yours is of much benefit to you and assures the ailing man of prompt relief. When a man knows that he is again feeling well, he is rid of his ailment—he feels that a heavy load has been lifted from his shoulders. I give every patient the benefit of the knowledge acquired through the long experience of a graduated, licensed and registered specialist, in order to bring about the most satisfactory results in the shortest possible time.

NERVE EXHAUSTION
A CONDITION AFFECTING MANY MEN—THE GREAT AMERICAN DISEASE—IT IS BROUGHT ON BY OUR MANNER OF LIVING—OUR WORRY AND HURRY—AMERICANS EXHAUST MORE NERVOUS ENERGY THAN ANY OTHER RACE OF PEOPLE.

There are a great many men who need treatment for their nervous system. These men do not know what is the reason they don't feel right—why they can't work like they used to—why they tire so easily and why they are irritable, nervous, despondent, weak, pale and lack ambition. These conditions require the expert knowledge and treatment of a specialist who has had many years' experience in just such ailments. A specialist learns by experience to know just the right treatment at the right time so that the patient can be dismissed at the earliest possible time. Men affected with nervous exhaustion have no endurance—no ambition—everything they attempt is an effort. Life to them appears as a long, gloomy future. Their appetite is poor and variable—they become irritable, cross and discouraged. They have pains and aches in various parts of the body and there is often indigestion and pains in the stomach. Sleepless, wakeful and restless nights follow.

RHEUMATIC AILMENTS
SCIATICA AND OTHER FORMS OF RHEUMATISM, LUMBAGO, PAINS IN BACK, SWELLING, ACHING, PAINFUL CONDITIONS IN ANY PART OF THE BODY—INFLAMED AND SWOLLEN JOINTS OF LEGS AND ARMS—MANY OTHER SYMPTOMS.

Hundreds of men are suffering with some form of Rheumatism. Many of these men go from day to day suffering untold agonies thinking they cannot be cured. They have tried liniments, rubbing, massage, salts and other treatments without experiencing any relief, and they are now going through life thinking they are martyrs to that burden called Rheumatism. If these men could only know how easy it is to get rid of many rheumatic conditions I know they would not suffer another single day. Then all sufferers of rheumatism would be strong and healthy if they could get rid of the condition. Rheumatic patients are nearly all strong and robust before being attacked by this ailment, and therefore it is so hard for the man to understand why he should suffer the agonies of such a condition. When a man gets rid of such a condition he feels that a heavy burden has been lifted from his life, and he starts right out to make up for lost time both in money and pleasure. When a man comes to my office suffering with the above condition he is given a most careful examination, and he is given treatment that he feels is giving him great benefit.

Quick and Lasting Results Assured the Ailing Man
BLOOD YOUR WHOLE HEALTH OF BODY AND MIND DEPENDS ON YOUR BLOOD. Any "building process" of the body and mind, of the muscle and tissue formations, of any of the various vital organs, can be accomplished only by working direct through the blood stream.

The Canadian Press Has Set Out to
The Presbyterian Church in Canada has undertaken to raise \$4,000,000 as a thank-offering to God for the deliverance granted our country from the ravages of war and for the return of peace. If one has nothing to offer for favors received, but a heart-felt expression of thanks in words that ring true, that would be sufficient. But the Church has more to offer. It is within the power of the Churches of Canada to lay at the feet of the Prince of Peace an offering for the carrying on in the world of His work that shall be truly a thank-offering because it has in it the element of sacrifice. Until the Church actually sacrifices in order that His Kingdom may come and His Will be done in earth as it is in Heaven, it cannot be said that the spirit of thanksgiving is much in evidence.
The sum asked seems very great—four millions of dollars—but it is nothing compared with that which we actually gave to carry on the war.

A NIGHT IN HONOLULU

The eruption of the volcano and the fire scene in "A Night in Honolulu," which comes to the Grand Opera House next Monday, February 2nd, is one of the most spectacular efforts of the producer for the stage in many years. This is the reproduction of the active volcano of Kilauea, which is located on the side of Mount Loa, elevated about four thousand feet, the summit of which is crowned by the magnificent crater called Moku-we-weo. At intervals for many years the lava has rolled down with tremendous bursts on one side or the other, to the sea coast. The eruptions of Kilauea form great fountains, spouting immense sheets of flame and smoke. The light being plainly visible from the sea for a hundred miles or so. In the year of 1859 such a display occurred, burning with terrific fury, throwing up its crimson lava and white hot rocks and destroying miles of valuable property. This crater, in the legend, was supposed to be the home of the Goddess of the Volcanoes, and when these eruptions occurred the natives feared the great wrath of this deity. In fact no one ventured within the shadow without an offering to appease the anger of this wild goddess. Young women were sometimes thrown into the crater that their friends might be looked upon favorably by Pele and her family. Numerous and interesting are the stories that may be told. One of the greatest acts of courage ever performed to break the Hawaiians' superstition was that of a woman who in her youth had been an intemperate drinker and a desolate character. She was known as Kapiolani, who afterwards became a model of virtue. Up to the time of her act it was considered certain death to ascend Kilauea and pluck the ohelo berries held sacred for Pele. This woman converted the superstitious natives to worship the true God and before the awe-struck people she made the journey from whence no other had ever returned. About a hundred natives, inspired by her bravery, followed her to the Black Ridge and watched her descend over five hundred feet and there in full view she hurled her defiance at Pele, throwing stones into the burning lake. Kapiolani mocked the goddess as she ate the berries consecrated to the deity. Turning to the natives she said: "My God is Jehovah, it is He Who has kindled these fires. I call you to witness that if I perish by the anger of Pele then she is your goddess, and you may live in fear of her, but if my God preserves me while mocking her taboos, then you must serve Him!" From that day many natives were converted and at the present time there are many examples set forth by the Hawaiians in faith, but most of all in loving their neighbors as themselves.

Religion Is Patriotism

It is the Root of Personal Righteousness, the Mainstay of Social Order, the Bulwark of International Peace

The Makers of Canada

The earliest settlers in Canada were roused by the Call of the Church to develop a noble and useful citizenship. Young and old were invited to turn their eyes from material things, and to regard the splendor of unseen realities. Knowing that Religion is the only true safeguard of stability in the State, they built Churches, Schools and Colleges, to train men for the Christian Ministry, and to spread abroad in the land the benefits of education. This they did in their poverty, and thus directed the course of history in Canada to this day.

The Testing of Canada

Because of such sacrifices, there arose in Canada a public spirit hostile towards all injustice, dishonesty and cruelty. The War tested the moral fibre of the Canadians of a later day. Would they choose material ease and wealth, or would they risk all in defence of freedom and the rights of the weak?

Over 400,000 men voluntarily offered their lives, and endured hardships as good soldiers for the defence of equity and fair dealing in all human relationships, and for the vindication of public right. Nor were the people at home less steadfast. Besides bearing the national cost of the War, they gave voluntarily for the help of the soldiers more than \$90,000,000. Canada nobly stood the great trial.

The Menace of To-day

That conflict is ended. Now comes another test. Not only in Canada, but all over the world, sectional and class struggles for material rewards and for mastery threaten the present basis of Society. The vision of spiritual values gained in the War is in peril of being forgotten. The supremacy of sacrifice, the nobility of service, the reality and glory of the Unseen and Eternal, the promises of Christ; these were the things by which we lived during the War. Now there is great danger that they may fade from view, giving place to selfishness and the love of ease.

The great non-Christian peoples of the world comprise two-thirds of the human race. They are mastering our modern scientific knowledge, and if they remain Pagan may yet turn it to our destruction. Paganism stands for the supremacy of Might, the very ideal

we fought and conquered in more than four years of war.

Victory only through Christ

How can we retain the heavenly vision? How can the world be guarded against another attempt to establish the Pagan ideal? Only through the Church of Jesus Christ. There is no other agency or society that has any possibility or hope of bringing about a full

Fight the Good Fight

realization of the brotherhood of all mankind, and the reign of the Prince of Peace.

What the Church Has Done

All the progress of humanity in Civilization for the last 2000 years has been inspired, directly or indirectly, by the Gospel of Jesus Christ. It has ended slavery, protected life, ennobled women, educated the children and safeguarded their lives, sanctified the home, established schools, missions and charities.

The Coming Era

Victory places upon the shoulders of the Allied Nations the responsibility for directing new conditions to right ends. Canada must do her share. The Church must prepare to meet the needs of the new day. Old standards of life with old habits of thinking and of giving will be wholly inadequate. We must do in our day what our fathers did in theirs. The hope of the world is bound up with the strengthening and extension of the Church of Jesus Christ.

The World's Need is Spiritual

I speak as one standing upon the watch-tower, and know what the need of the land is. It is not material, it is spiritual. Get the spiritual, and the material will follow. The wounds of the world are bleeding, and material things will never heal them! And that is why I hail any movement which brings the great spirit of brotherhood. The one need of England and France today is the healing and the brotherhood of the Cross of Christ.

— Rt. Hon. David Lloyd-George, Before the Brotherhood Convention, London, September, 1919.

The Forward Movements

FIVE Christian Communions, Anglican, Baptist, Congregational, Methodist, and Presbyterian, are convinced that the time has come to rouse all Christians to a clearer understanding of their calling and stewardship in Christ, their King. They believe that the Church should be equipped adequately with men and money to enable it to meet the needs and opportunities of the New Day.

These five separate Communions are of one mind as to their be-

lief in God, the Father Almighty, Maker of Heaven and Earth, and in Jesus Christ, His Son, Our Lord. They now

EACH of the Communions named is in the midst of a Forward Movement. Each is seeking by prayer and by earnest effort to accept all its responsibilities. Each is striving to extend its activities in Canada and in Foreign Lands.

Your Church needs your help, but, far more, you need the help of your Church to learn the difficult art of living wisely and well.

Consult your Clergyman. He serves you and your children. Ask him how and when you can serve in this day of national emergency. Give yourself to the task. Say: "Here am I, send me."

declare to their respective constituencies, and also unitedly, to the Canadian people, that the only effective method of making good citizens is by urging men to a more faithful practice of Christianity, by inculcating personal faith in Jesus Christ. They insist that there is no other dependable way of correcting evil tendencies in individual and national life. They call the people to repentance. To all Christians their message is, "Awake, Arise. Fight the Good Fight, For Canada and For the World."

**THROBBING HEADACHE
MADE TO DISAPPEAR
OVER NIGHT**

Follow This Advice and You'll
Get Relief Mighty Quick

Headaches are caused by the accumulation of poisons in the blood. The cure is not difficult.

First, cleanse the entire intestinal tract.

Secondly, stimulate the action of the kidneys and liver.

Third, keep the pores of the skin open.

avoid constipation as you would the plague.

The remedy is Dr. Hamilton's Pills, which cure the dizziest headache ever known.

In fact people who use Dr. Hamilton's Pills never have headaches because they regulate the system so thoroughly that no chance is given for a sick condition to develop.

Away with your headaches, be done with dizziness, languor, and biliousness—use Dr. Hamilton's Pills and enjoy that health they alone can bring. Contain nothing but vegetable extracts and juices, and are absolutely safe for children, women and men. Get the genuine Dr. Hamilton's Pills in yellow boxes, 25c each.

FRENCH LABOR SHORTAGE

PARIS, Jan. 28.—Repatriation of German prisoners may bring about a critical situation in the labor market in some parts of France, according to an Amiens despatch. Work of restoration of devastated districts will be retarded, it is said and farmers, who have been employing large numbers of Germans, fear they will not be able to sow a large acreage this spring. Efforts have been made to replace the Germans, who have reports state that but few applicants for work have made their appearance.

**PREMIER HUGHES SEES
NEXT WAR IN PACIFIC**

LONDON, Jan. 29.—G. A. Hughes, Australian Premier, speaking at Melbourne yesterday, said the next war would probably break out in the Pacific, according to a Central News despatch from Sidney. "We must be ready with a sufficient, numerous army to say 'this far and no farther,'" he is quoted as saying. We are hedged about with nations just after this country."

**SAGE TEA TURNS
GRAY HAIR DARK**

IT'S GRANDMOTHER'S RECIPE
TO BRING BACK COLOR AND
LUSTRE TO HAIR.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns grey or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's" Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the grey hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous.

**CALIFORNIA RAISIN CROP
LARGEST IN STATE'S HISTORY**

FRESNO, Cal. Jan. 28.—The total payment for the 1919 raisin crop here will amount to between \$8,000,000 and \$40,000,000 to the grower, the largest return ever made, according to an announcement to-day by W. M. Giffen, President of the California Associated Raisin Company.

**VATICAN ENVOY IN CANADA
IS TRANSFERRED TO LISBON**

ROME, Jan. 29.—Monsignor Ernesto Phillippi, Secretary of the Apostolic Delegation in Canada, has been appointed to the post of Secretary of the Delegation at Lisbon, where he will take the place of Monsignor Aloisio Maspella, who has been appointed Papeal Munio to Chile.

The Methodist National Campaign
IN CONNECTION WITH THE INTER-CHURCH FORWARD MOVEMENT—FOUR MILLION FOR METHODISTS.

The Methodist National Campaign was initiated by the General Conference, organized by the co-operating departments in connection with the Inter-Church Forward Movement, and approved by all the annual conferences and by the General Conference Special Committee.

St. Catharines District of the Methodist Church has an objective of \$51,000, while the three city churches are planning to raise \$17,000.

Rev. Dr. Chowan says: "This is no time for a timid church. It's zero hour, and the Church must go over the top and dig in on advanced ground or be driven back by the forces of the world."

Objectives.
The definite objectives of the Methodist National Campaign are:
200,000 intercessors.
300,000 personal workers.
100,000 Christian stewards.
100,000 new members of the church.
100,000 new members of the Sunday School.
50,000 new members of the Young Peoples Societies.
5,000 Volunteers for life service.
\$4,000,000 of a special offering in addition to the usual current revenues and connexional funds of the Church.

Its Aims Are:
1. Lifting the church up to a larger spiritual vision and broader Christian service.
2. Deepening the Prayer life of all.
3. Promoting Evangelism—persistent, personal and general.
4. Enlisting all the working forces of the Church in definite Christian service.
5. Stimulating religious education in home, church, school and college.
6. Teaching and practising the principles of Christian stewardship.
7. Securing definite commitments to some specific form of life-service.

Financial Objectives.
A special offering of \$4,000,000 for purposes of equipment and extension as authorized by the General Conference, October, 1918.
This combined objective is for the following special subjects:
Missions: Equipment and Extension fund, \$1,500,000.
Superannuation: Epdowment fund, \$1,500,000.
Education Society: College debts and new buildings, \$750,000.
Special fund for current revenues, \$250,000.
After careful organization and ed-

ucation the campaign will culminate in an every-person canvass during the week of February, 8-15, 1920. Subscriptions to the special objectives of the Methodist National Campaign will be in addition to the annual subscriptions to the Current Connexional funds, and are payable as follows:
- 50 per cent. cash.
- 20 per cent. June 15, 1920.
- 20 per cent. September 15, 1920.
- 20 per cent. December 15, 1920.
- 20 per cent. March 15, 1921.
The watchword for the whole church is "Forward," and the command from Divine and human leadership is "Advance all along the line."

**Urges Election
Of H. H. Asquith**

LONDON, Jan. 28.—Former Premier Asquith arrived at Paris yesterday to open a political campaign. The contest will last three weeks.

While opinion is clearly divided over running a Unionist candidate against him, there are signs of a split among the democratic section, J.M. Biggar, the Labor candidate, apparently not holding strong enough views to suit the extreme Paisley Socialists, who threaten to bring out another man.

J. A. Maclean, the Unionist candidate, who unsuccessfully contested the constituency in 1906, is well known locally, being a member of the town council.

The Daily Telegraph, which has consistently supported the Coalition government, and generally in pre-war days advocated Unionist principles, frankly expresses regret that local Unionists should oppose Mr. Asquith, declaring that all men of any judgment recognize him as a Parliamentarian of the first rank and the leader of a considerable party with definite and distinct opinions on most questions.

"We hold, therefore," continues the Telegraph, "that his return to the House of Commons is in the national interest, and is to be desired and should be welcomed even by those who generally have been and are likely to remain his opponents."
The Telegraph's advertisement columns, curiously enough, contain an advertisement declaring that the lawyer-politician is the enemy of today, and appealing for funds to fight "Mr. Wait and See Asquith."

**RECONSTRUCTION
REORGANIZATION
REHABILITATION**

The Globe.

Coming Events Cast Their Shadows Before

Not since the pre-Confederation days has the political life of Canada been surcharged with so much uncertainty.

Great events in Canadian politics are about to take place. The reorganizing and rehabilitating of great political parties is in progress. New leaders are appearing.

The order is changing. All things are becoming new.

THE next two years will be a momentous period in the political life of the country. Reconstruction is a greater task than Confederation.

How will you take your place in the affairs of the nation? What opinions will you form? How will you cast your ballot intelligently if you do not keep in touch and inform yourself on the great questions of the day by reading a daily newspaper national in viewpoint and international in scope?

This is the task and responsibility of The Globe—to give all the news, progressive views, and space for opposing opinions. Such was the threefold purpose of George Brown. His ideal was a Great Family Newspaper with a place in every home. That is The Globe's ideal to-day.

It is not a party organ, but a medium for the development of public opinion and an advocate of reform. It is the servant of the people from whose needs it draws its inspiration.

To be informed of the progress of events, you should avail yourself of The Globe's great news gathering organization. For an analysis of these developments, and clear, sober thought upon them, read its editorial discussions from day to day. They are written by close students of economics, politics, industry, commerce, social reform and religion.

And further, what The Globe has been in the past is a sure guarantee of what it will be in the future. The personality and ambitions of its founder ever dominate the activities of its publishers.

Therefore, nothing will be left undone to make The Globe the newspaper that George Brown would have it be and to earn a place for it in every Canadian home.
