Sometimes in these severe fits of coughing spasms I was left weak and exhausted. Anything I tried only gave me temporary relief. I couldn't take anything but liquid foods. I couldn't sleep. I was losing weight every day. At times I suffered the most intense agony with headaches. A friend of mine told me about Carnol. After trying it for three weeks I noticed that my cough was beginning to soften, that my appetite was returning, that the headaches had left me, that I slept longer. After taking seven bottles of Carnol, I am perfectly well and enjoying better health than I have ever had

To Be Happy Though Human

I think that unmarried women are particularly prone to this kind of dealization. They have missed marriage and motherhood, the crown and fulfillment of woman's life, therefore they cannot possibly be happy. It is true that a thoroughly successful marriage is an ideal life. But how many of them do you know? And in the rest are there not quite as many heartach and disappointments as in single life? How to be happy though human is the problem, not how to be happy though married, or though unmarried Some people would be happy in either states and some would be happy in

FISH SHIPPED TO RIO.

the iron barque Helen Isabel Capt. Vine, owned by the enterprising firm of Baine Johnston & Co., and chartered by Bowring Bros., conveyed a large cargo of codfish from St. John's, to Rio de Janeiro. This fish was made up in different packages from the regular drums. They were made of soft wood, something similar to that used in fish casks-wide in the bottom and tapering to the top. Now another instance out of many that I know of. The famous brigantine, Ida, Capt. Harris, which was built by Michael Kearney on the ground at the easter corner of the General Post Office, opposite Crosbie's arch, and launched across the street into the waters of the harbor on the 30th January, 1855, was employed in the trade with Rio de Janeiro, taking a cargo of codfish direct to that port-discharged and took a cargo of coffee to Trieste, Austria, as it was then. I knew several vessels running between Harbor Grace and Rio de Janeiro in the days of Ridley & Sons, Punton & Munn and later Tessiers barque Camelia, Capt. Richard Harvey, barquentine Silver Sea, Capt Hoburg, and others went to Rio de Janeiro about twenty-five years ago. Some would call at Pernambuco for orders and others sail direct under sealed orders. The captain had much to do with the disposing of the cargo in the past, and, as a rule, the merchant had full confidence in his ability, honesty and discretion.

Killed His Son to Save His Soul.

Frank Piano, sr., who killed wayward son to "save his soul," was in Chicago, on March 23, acquitted for the second time. Piano killed his son exactly two years ago. A jury at that time adjudged him insane. The jury last week decided that he had since recovered his sanity, but he was insane when he did the killing. This sets him free, and the verdict meets with popular approval. Piano, who is Lloyd, Hr. Buffett; Mr. K. Goodyear, the hard-working head of a large family, was unable to control his son,

public that since starting our development on the above named area some three years ago, we have uncovered and prospected over FIFTEEN separate SEAMS of COAL, SEVEN of which come well within the range of workable COAL SEAMS, namely:-

No.	Containing
The Howley on the Robinson River4	ft. 2 inches Coal
The Cleary on the Barachois River2	ft. 2 inches Coal
The Jukes on the Barachois River5	ft. 5 inches Coal
The Furlong on the Barachois River3	ft. 3 inches Coal
The Murray No. 1 on the Barachois River 3	ft. 3 inches Coal
The Murray No. 2 on the Barachois River 5	ft. 5 inches Coal
The Tom Diamond on the Barachois River 2	ft. 2 inches Coal

As we are now satisfied we have a Coal property with sufficient Coal in sight to warrant any reputable Company to finance and work on an extensive scale, we have invited Engineers to ex-

amine the area during the coming spring. In order to defray the necessary expenses which must be met, such as keeping the shafts and tunnels on the various sections of the property open and ready for the inspection of engineers and buyers during the coming summer, together with the payment of Government rentals, office and travelling expenses until the property is sold, we are asking your co-operation in the purchase of some additional Shares

As the risk of speculation in this proposition has been borne by the pioneers we make no hesitation in stating that the present offering of shares may be regarded as an investment with enor-

The area contains 11 1-2 Square Miles containing according to surface measurements of Seams 2 ft. 2 inches and upwards calculated on the basis of 1,000 tons per acre-foot (the very lowest estimate) over 190,000,000 tons, thus guaranteeing enough of Coal to supply Newfoundland with 500,000 tons per year for 126 years in addition to export 1,000,000 tons per year over a similar period. The consumption of coal in Newfoundland at the present time is about 300,000 tons per year.

With regard to the possibilities and future value of this property we would call your attention to the Iron Ore Properties at

When the Dominion Iron & Steel Co. purchased from the Nova Scotia Steel & Coal Co. a portion of the Iron Ore properties at Bell Island for \$1,000,000 they based their calculation on 26,-000,000 tons of Ore just a margin over 3 3-4 cents per ton, it was looked upon as a wonder. To-day the total holdings of both these Companies are calculated to contain (according to some of the leading Geologists of the world) about FOUR BILLION tons

As a NATIONAL ASSET at a valuation of 10c. per ton in taxes and 50c. per ton in labour these Mines are worth to this Dominion about \$2,400,000,000 enough to pay off our NATIONAL DEBT about 40 times over.

Coal is the foundation on which Nations are built, no country can be great or even prosperous without Coal of its own, and as we have proven beyond doubt we have MILLIONS of tons of high grade Coal on our property, we are making this appeal to our SHAREHOLDERS and also to the GENERAL PUBLIC for their earnest support in the purchase of some additional SHARES to enable us to carry through to a successful finish the work so

As this may be our last appeal and your last opportunity to participate in this venture we would ask you to let us have your application as quickly as possible.

By defeating Greg Flynn in the fiies last night, T. Ryan, the old veteran, became champion of Newfoundland. His majority over his opponent was 272 points. Two big breaks were made by Ryan, one of 66 and another of 80. Flynn played a good game but his luck was out and he was unable to get the balls running. Ryan's breaks amounted to 835 which is a record in local billiards, and by his victory last night he wins the billiard cue donated by Mr. J. M. Tobin. Lecture at St. Patrick's.

SERRIES CONCLUDED,

The concluding lecture of a series Building Fund was delivered by Rev.-Fr. St. John to a crowded house, in the Convent Schools last evening. The the Chairman, Mr. J. Fitzgibbon, and taking for his subject: "Beacon Lights of History," with the eloquence of expression and grace of dictation for Our Agricultural which he is noted, held his audience enraptured from start to finish. Folowing the trend of history, and touchng in different phases, the speaker showed clearly by the light of past events the necessity and importance of moral guidance in the educational sphere. At the conclusion a hearty vote of thanks, proposed by J. J. Rossiter, was tendered by acclamation. During the evening, choruses by the pupils and solos by Misses Dicks and McCarthy were delightfully rendered. As these lectures have become very popular, it is to be hoped that the Rev-Pastor will see fit to inaugurate auother series in the near future.

PRODUCTION.

In looking over the value of our Agricultural produce as shown in the Budget Speech one is at first glance struck with the remarkable increase shown during the last 20 years. According to the report in the Budget Speech the total value as taken in the 1901 census was \$5,930,825.55, but from this account there was apparently omitted about one million dollars worth of milk, so that the total should be about \$6,830,825.55. In 1911 the returns show a value of \$7,137,238.25. In the census taken last year the total value is given at \$14,252.090.37. To have strong and healthy children, sons strong as lion's whelps, and daughters flawless as doves, is the primary amion of every normal Newfoundland man, and in the upper and educated classes of society she often chooses her husband, not from passions, not

pose solely—"Will he make a good father of my children?" CHARITY AND HOW IT SHOULD BE

In my opinion charity, to be wisely ispensed, should be discriminate, more so than it is at present in this amunity; and those who are dealwith the difficulties of the poor om the side of voluntary effort, should be in close touch with the responsible administrator—the Poor Commissioner-Mr. O'Dwyer. There is endless overlapping, and, what is perhaps worse, a demoralizing reliance upon doles. Charity is very good and very necessary, but charity should, as far as possible, be confined to helping people to help themselves, rather than accustoming them to rely upon a pit-tance doled out week by week or month by month all the year round, without any hope or prospect of their getting out of their position of dependence. The Feast of

Unleavened Bread. OBSERVED BY ALL JEWISH PEO-

The Feast of Unleavened Bread, othewise known as Passover, begins this

year on Wednesday, April 12, and will be observed by all Jewish people for a period of seven or eight days, according to their interpretation of the Biblical injunction in Exodus 23:14. During the Passover week all Jewish families abstain from eating leaven in any form and in its stead use the Matzoth, concluding the festival on April

The first and last days are days of holy convocation. That is, services are held on these days in the synagogues. The evening of the first day of Passover is particularly important.

This evening is known in Jewish circles as "Seder Night." Its intent is to unite members of a household about the festive board and there read together the ritual compiled for the occasion and known as the "Haggadah." This liturgical composition recites the chief events of the Exodus of the Children of Israel from Egypt and with many a quaint song and story revives

Upon His Honor as Minister of the Gospel REV. W. A. THOMPSON WRITES OF DR. F. G. KINSMAN'S

I had heart trouble severely for fifteen years and had many doctors to treat me with no discernible effect. I had become so low that I could scarcely walk fifty steps. At night I was troubled with fluttering of the heart, and by no means had a night's rest for that length of time. I had pains most excruciating and could not lie on my left side even for a moment. I tried five boxes of your Heart Tablets and can now truthfully say that I am well. I am a Minister of the Gospel and upon my word as such, I believe I could not have lived had it not been for your remedy. I am not, generally speaking, willing to give testimonials, but I fully owe this or more to you as owner of the Heart Tablets.
