OTTAWA, Feb. 14.—St. James' Hall was more than filled to-night on the occasion of the Right Hon. Sir John Thompson's address to the Macdonald Club. The platform was filled with members of the Cabinet, the representatives of the city and the officers of the club. The body of the hall was crowded to its utmost capacity, and the stairway was packed almost to the street, while many had to go away disappointed at being unable to obtain admission.

President O'Brien, in introducing the speaker of the evening, said that he knew the gathering of the immense audience here before him was caused by the great popularity of the Premier not only in the city, but throughout the whole Dominion. [Applause.] Following the Chief's speech, Sir John Thompson on rising was greeted with prolonged applause, and after this he announced he intended to read the resolution passed at its annual meeting congratulating him on the mark of honor which Her Majesty had been pleased to bestow on him and attested to the fact that although he had been long a resident of Ottawa this was the first time he had addressed a political meeting outside of the House of Commons. He referred in feeling terms to "the greatest statesman the Empire had produced," after whom the club was named, and said that when he died he had left no successor, and none aspire to succeed him, but what they did wish to do was to uphold the principles of the Liberal Conservative party as laid down by Sir John Macdonald. [Applause.]

In Manufacturing Cordite Nobel's Patent Was Not Infringed. LONDON, Feb. 14.—Justice Sir Robert Romer of the Chancery Division of the High Court of Justice today gave a decision in the case of the Nobel Explosives Company against the War Office for alleged infringement upon Mr. Nobel's patent for the manufacture of ballistite. The plaintiff claimed that the Ordnance department of the War Office had in manufacturing cordite appropriated to its own use Mr. Nobel's invention of ballistite. Romer finds that cordite is not produced by the method used to manufacture ballistite, and consequently the Ordnance department is not liable for infringement of Mr. Nobel's patent. Judgment was accordingly given for the War Office.

FREE WOOL OR NO TARIFF BILL.

Home Democrats Disturbed at the Senate Changing the Bill—Sugar and Lead.

WASHINGTON, Feb. 14.—The report that the Senate Finance Committee proposes restoring the duty on wool to some extent has had a disquieting effect in New England and the West.

The report in circulation that the Senate proposes changing the Wilson bill in many particulars is not at all gratifying to the Democratic members of the House. One of the members of the Ways and Means Committee said this morning, referring to the report: "The House will not stand monkeying with the Wilson bill. It represents the policy of the Democrats of the country. We will not agree to a duty of 50 cents on wool or iron ore. We might as well change a ton of wool to a ton of iron ore."

The report in circulation that the Senate proposes changing the Wilson bill in many particulars is not at all gratifying to the Democratic members of the House. One of the members of the Ways and Means Committee said this morning, referring to the report: "The House will not stand monkeying with the Wilson bill. It represents the policy of the Democrats of the country. We will not agree to a duty of 50 cents on wool or iron ore. We might as well change a ton of wool to a ton of iron ore."

MORRISON'S DRASS WORKS AGAIN SUFFER LOSS.

Damage To the Extent of Fully \$35,000 Occasioned. The Firemen's Work in Considerable Difficulties in Subduing the Flames—A Stubborn Fight Which Lasted Until After Midnight.

A fire which is believed to have originated in the elevator shaft of the second floor occasioned \$35,000 damage to the storeroom of the James Morrison Drass Manufacturing Co. (Ltd.), at 80-87 Adelaide Street West, last evening.

The storeroom, which contained a large stock of plumbers' and engineers' supplies and the workmen's tools, was totally destroyed.

The fire was discovered shortly after 10 o'clock P.M. by a fireman. He gave the alarm, and in a short time the whole fire department was on the scene. The flames had reached the roof of the building. The firemen first tackled the flames in the top story, and while they were engaged in this work the flames broke through the windows of the second and third stories. After the fire had been in progress for about an hour the floor of the building gave way and fell to the ground.

The fire will throw 15 or 20 men out of employment until the storeroom can be rebuilt.
