A. Warren, F. V. Young, J. E. Lloyd, E. A. Hicks, A. B. McCann, and W. J. L. Little.

The clerk read the minutes of the last regular monthly meeting.  
The Council then proceeded to consider a resolution to amend the town by-laws for a increase to add a tent show, including moving pictures, vaudeville, etc., also to sell newspapers and specialties in town.  
The matter was referred to the Finance Committee for consideration.

The Finance Committee reported as follows:

The same census of the taps in town had been taken by the superintendent, but that they would have full information in two weeks, when they would be able to report fully.  
Moved by Councillor Hicks, and seconded by Councillor McKenzie, that the Committee be requested to report at a special meeting to be called on Monday evening next, the 16th instant, to consider the same.  
Amended read and approved, and Council adjourned.

## LETTER FROM THE TRENCHES

Extracts from a Letter Received from One of Our Young Soldier Townsmen

No. 1 Reading War Hospital, Reading, England.

My Dear Mother: Have just come in from church service, so will write a few words before lunch time.

Am feeling better now, my great trouble being that my legs are so weak, and have sharp pains in the bones, off and on all the time, especially at night. This keeps me awake sometimes. However, I am doing fine and eating plenty, and have fresh milk three times a day, and nearly always at 2:30 a.m. So I should be regaining the strength I lost through the fever. Yesterday another chap from my ward and I got a boat and went on the Thames for the afternoon. It was just lovely. The banks of the river are so very pretty, and the lovely gardens which come right down to the river bank. There are also many boat houses on the river, where people spend the summer months. Of course, here the river is only a canal, but we are lucky to be so near it.

I have just been thinking how different are my surroundings now, than a year ago yesterday, today and tomorrow, when we had our big scrap at Ypres. Never have we been in anything like it. No, not even in the days of Vimy Ridge, where the French lost 20,000 a year ago. And I sincerely trust no battle in the army will ever suffer what we did that day. It is not my own regiment that have been called to man both the bank and front, as we were left, of our two front line companies had to do for thirty-six hours, when we had been surrounded. Then ammunition gave out and we had no food. Then came the dash to the support trench, nine hundred yards, where our other two companies were. We were the only ones who did not get there, and we were the only ones who were left. By this time we were being shelled from the front and did not care what happened to us. Relieved at last, we had our muster call, just under the bank of the ramparts in Ypres, near the "Old Hall." That roll call will never be forgotten by any who were present. I have often thought, "Never get to Billy, I would forget all about France, but we cannot forget these things. Right now, I will sit and wonder how things are going with the bunch out there."

EVERETT.

**WHERE Will You Spend Your Vacation?**

WHY NOT ON A FARM!

The farmers are short of "hands" now, and will be in greater need of them at haying and harvest. In these war times no crop most go to waste because of labour shortage. Two or three weeks spent on a farm means a healthful, money-saving vacation, and at the same time you will be giving a patriotic service to your country.

Canada must not only feed herself, but must help largely in feeding the mother country. Nova Scotia must do her part. The season is late, but the general crop outlook is encouraging. Nature is now doing her "bit." Man must do his.

IF THIS VACATION-ON-THE-FARM IDEA STRIKES YOU FAVORABLY, SEND YOUR NAME, AGE, ADDRESS and the TIME OF YOUR VACATION to the SECRETARY OF INDUSTRIES and IMMIGRATION, Box 680, Halifax, N.S.

McCormick was bringing from Clements port, and throwing Mr. Troop from his carriage got quite a distance before it could be caught. Fortunately Mr. Troop escaped serious injury.

Granville readers of our highly valued MONITOR very much appreciate the "Digby Notes" now added to its town and village list. We congratulate the MONITOR most heartily upon good fortune in having as its publisher so able a manager as Editor Dunham, to whose ability is due the great success of his other paper, the Digby Courier.

The people of Annapolis may like to know that the fine specimen of wild deer, whose antics in their town on June 22nd, were so graphically described by the Spectator, was on his way to Granville Centre, where his wife, a very handsome doe, had arrived a few hours before. Not being so bold as her noble husband, she only honored one place with her presence. Mr. D. Gilliat was standing in his wood yard when she came quite near and after carefully inspecting the new bait being given the house, bounded swiftly away disappearing in the pasture of J. and G. McCormick.

## UNITED FRUIT COMPANIES' PRESIDENTS' ADDRESS

Delivered at Kentville, Nova Scotia, at the Fifth Annual Meeting in June, 1917

In bidding you welcome to this our fifth annual meeting of the United Fruit Companies, of Nova Scotia Limited, I want to call your attention to the present status of agriculture in this country.

The great world war is still in progress and is resolving itself into a world contest of Democracy as against autocracy which has always lent itself so readily to the military spirit.

We therefore see agriculture, the production of food products now raised to a status perhaps higher than in the primeval days of the Garden of Eden.

It is the present occupation and almost over-shoulders the soldier and munition worker even in military accomplishment. Already the unprecedented prices of potatoes, beans and all meat products have shown us the tendency of the times.

Not only happy financially will the farmer be who has full crops to dispose of next fall, but he will also be long made to serve his own country and the wants of all mankind.

Even in fruit growing, an industry which will result from present conditions. Before the war, fruit growing promised so much remuneration that the raising of crops and the keeping of live stock was rather looked upon as a hobby.

It may be not only in religion, and in the formation of character, but in our occupation of fruit growing, this war will teach us many important lessons. The report of the annual, will give us a fairly good review of the past season's operations of disposing and marketing our crops of apples and potatoes.

I would like to see this meeting of shareholders, coming as it does not once a year, but once a year, to give our members of our subsidiary Companies. It would be manifestly unjust in practice to give each member a vote at such times, for one could easily see that the year-by-year or large membership Companies, would easily out-vote and control it.

During our past season, the information and enthusiasm of our members, to make better acquaintance and to create a brotherhood feeling through the members as I believe would be produced, such good will with the members. It is not only in the marketing of the crop to be marketed, and this must be obtained.

Another lesson which has been referred to in former years is, Subsidiary management must be good, and the general manager must be the one to manage the company and not do the work in their own Subsidiary management. Last season some Companies did with only a book-keeper and foreman and without a manager at all.

It is not only in the marketing of the crop to be marketed, and this must be obtained. Another season has also demonstrated that with the varying condition of our crops, with the inherent characteristics of packers and with the motive of justice to all we cannot afford to operate a single season without efficient management.

This brings us to the crop outlook for the coming season. There is one advantage in holding the annual meeting at this time of the year. Usually we have an abundant bloom and we are all in the optimistic spirit. The promise of an abundant crop is pleasing to all growers, but especially is it to the co-operative member who does not have to worry about transportation and markets.

He knows that the best brains of our membership is to be employed and used for that purpose, with the influence and power of our organization behind them. It is here we are opening and avenues open to the speculator, if new markets have to be tried, it is transportation is feasible at all—surely our organization has this advantage.

We should therefore elect our best brains to make good, and in making good will forward the best interests of all. So, why worry? There is, however, one problem that we will have to solve, and that is, provided we have a bumper crop not only for the men and packers to handle it, but also to secure it, but also to secure it. It behooves each one of us after we have done our duty at this gathering not to neglect this most important problem that may confront each one of us individually and collectively.

In looking back over the past five years we must confess that wisdom has generally directed the progress of this organization. That mistakes in the management have been made in each and every year, no one even on the Board of Management would deny. "To err is human," so the poet says, and it is very easy at the end of a season to look back and say, "this should have been done," or "that should have been done."

But here at the end of a fifth year, our organization stronger than ever, more popular with the members, and with better financial standing than ever before. The management knows its power, there are fewer "kicks" among the membership, while the banks and wholesale dealers respect its credit. Orientations those who are nearest, fall to appreciate the magnitude of an undertaking. The soldiers on the far side of battle fields of France are making history in an epoch of developing changes in the world destinies of many nations.

So we apple growers during the past five years do not realize we have developed an apple organization never before attained in any other country of the world. Some individuals are still looking to petty individual gains over their outside neighbor, as though that were the end and substance of organized co-operation. We acknowledge that our organization has often been successful in the marketing of our apple products, and to see in the purchase of his supplies. But why object? Co-operation should receive credit for even this. We claim, however, a far higher and more worthy principle is at stake.

### Are The Four Fruits Used In Making "Fruit-a-tives"

"FRUIT-A-TIVES" is the only medicine in the world that is made from the juices of fresh ripe fruits. Thus, it is manifestly unfair to say, "I won't take Fruit-a-tives because I have tried other remedies and they did me no good!"

On the other hand, the fact that "Fruit-a-tives" is entirely different from any other preparation in the world, is just why you should give it a fair trial, in any trouble of the Stomach, Liver, Bowels, Kidneys or Skin.

"Fruit-a-tives" is composed of the active principle of fruit and the greatest nerve tonic ever discovered. 50c. a box, 6 for \$2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

## Will Women Volunteer?

THEY MAY SERVE, IF THEY WISH, IN THE LAST LINE OF TRENCHES—THE TILLED FIELDS.

Thousands of men who used to do the farm work in Nova Scotia are now fighting overseas. Their places must be filled. Yet the required number of men is not forthcoming. There are more jobs than there are men available.

THEREFORE WOMEN ARE ASKED TO VOLUNTEER FOR THIS WORK

We want the names and addresses of all women of this Province who are able to engage in a healthful open-air occupation. Applicants should state the date they can begin work and the length of time they can spend on the farm. Wages according to ability will be paid. We believe that the women of Nova Scotia will respond to the call of the land as promptly and as efficiently as did their sisters in the countries of our allies.

Apply at once either to F. W. HARRIS, ANNOPLIS ROYAL; R. E. THURBER, BRIDGETOWN; W. E. READ, BEAR RIVER; C. N. ROOP, MIDDLETON; SECRETARIES FARM LABOR EXCHANGE, or to the SECRETARY OF INDUSTRIES AND IMMIGRATION, HALIFAX.

THRIFT IN FOREST FIRES Last year 265 Canadian men, women and children perished because of forest fires. About six million dollars worth of property, disappeared from the same cause. The easiest and best-paying Thrift Campaign for 1917 is to keep the next five months clear of such needless sacrifices. The neglected camp fire, the tossed-away match and cigarette, the burning of settlers' "stashes" have heaped up our national account for wasted life and property.

This is the Programme If you are a settler—Guard well your clearing fires. If a hunter, fisherman, camper, prospector—Put that Camp Fire out before you leave it. Put it DEAD. Try a couple of extra pails of water, or shovels of earth. Never build a fire except in rocks, or gravel, or other safe spot. Keep your fire small. It cools better and is safer. Please do not throw away lighted tobacco or matches. It is the trick of the amateur. No veteran, no good citizen, fools with fire. All the big Contagionnaires have started with a wisp of flame. Your lighted match, your cigarette, your camp fire are exactly what is needed to ignite the fuse.
