President Wilson's Envoy Extraordinary Apparently Not Afraid of Attack.

BY MEXICANS

They Give Him Inside Sidewalk as Mark of Respect.

VERA CRUZ, Jan.-John Lind has now spent five months in Mexico. The coolness with which he was received when he landed here a stranger to the country last August has given way to a local regard of some warmth, and President Wilson's personal representative does not walk the streets today without receiving many friendly salutes. He is invariably given the inside of the walk, a mark of particu-

lar respect in this city.

Mr. Lind himself finds the attitude dark clothing, making no concessions in the way of linen or duck, which is in the way of linen or duck, which is the customary apparel here. He has even discarded the wide-brimmed Panama which he purchased after the theft of his hat recently, and now appears in a pearl-gray felt.

Lives Among Mexicans.

One of his favorite walks is across the railroad yards to the edge of the town, from which point he takes a semi-circular course thru the out.

semi-circular course thru the out-skirts. If he has any fears of attack, he does not show them. Reports that he was afraid have only caused him annoyance, because they bring messages from Mrs. Lind importuning him to go aboard one of the American warships for safety. He cheeses, however, to live among the Mexicans, and he has taken up residence in the city at the American consulate, having recently left the Terminal Hotel, which was his

home for many weeks.

Persons seeking business with the

American representative do not find him hard to reach. No ceremony sur-rounds their reception. They are di-rected up a flight of stairs at the head of which is his open door, and he spends so much time in his room that may invariably be found in during ousiness hours In Windowless Room.

His room—his only room, which serves for the reception of his guests, the conduct of his business and for his stepping quarters—is next door to that of Consul Canada. It is quite like the living room of a comfortable American farm house, but a strking feature is the lack of windows. A lattice door opening upon a balcony which surrounds an interior court serves, howver, to admit some light and air.

A square table spread with a green patterned cover stands in the middle of the room. HOW SAPPHIRES ARE MINED IN MONTANA

from the ground of the New Mines Sap phire Syndicate, Yogo, Mont., is rather unusual and interesting. The matrix containing the stones is an

ntrusive igneous rock, weathered to a vellow clay, for a depth of approximately

yellow clay, for a depth of approximately twenty feet from the surface. From this portion the sapphires are easily separated by washing.

Below this belt, where the rock is harder, a writer in The Engineering and Mining Journal states that it has been found necessary to disintegrate it by expesing it in piles to the weather and wetting occasionally. The ere is placed on inclined floors and left for several months during the winter; the frequent freezing and thawing causes the lumps to slack and disintegrate.

A large stream of water is then played on the piles and the material sluiced similarly to placer gold.

Austen Chamberlain Spoke of Strathcona's Death in Feeling Terms.

LONDON, Thursday, Jan. 22 .- (C.A.P.) Austen Chamberlain, speaking at Southampion last night, referred to the loss death of Lord Strathcona. He was a splendid illustration of the opportunities which the British Empire offers her sons and the use the best of them can make and the use the best of them can make of those opportunities. He made a great fortune, and what is more used it nobly for his country and empire. He did more than make a mere fortune, he helped to make a great nation, the greatest of our sister nations over seas. He encouraged that larger patriotism, which, abating no jot of its own local spirit, can yet embrace the empire as a whole, can think imperially and place imperial interest before many local interests, however important at the moment they may seem.

Leo Fall, the composer of the music in "The Doll Girl," the new continental piece which Charles Frohman is to present at the Princess Theatre next week, with Richard Carle and Hattie Williams as its co-stars, is not unknown to Americans. Dr. Fall will be remembered for the charming melodies in "The Dollar Princess," and he undoubtedly stands in the front rank of the musicians in Europe, forming what is known as the new Viennese school of composition. Apart from its story, the great charm possessed by "The Doll Girl" lies in the gracefulness of Dr.Fall's score. There can be no doubt about it that in this score the composer has lived up to all of the expectations that he aroused in "The Dollar Princess."

There is an evasiveness and subtlety to some of his numbers which might be supposed to be over the heads of a portion of life musical comedy public, but, as a matter of fact, it isn't at all. Without stopping to analyze it more definitely, the audience is fully aware that these numbers are out of the general run. The charm of them asserts itself as Remarkable as Bernhardt.

cit. Nearly every opera house is either subsidized by the government or by a group of public-spirited citizens who are known as guarantors or subscribers, and in this way deficits are met. The present enterprise would have been impossible were it not for the co-operation of public-spirited men who have the welfare of Canada at heart. But even with their co-operation, an organization of such magnitude could never have been assembled for Montreal alone. It is only by combining with other cities thruout Canada and with the co-operation of cities in the United States, that we were able to sign artists for a long season, and so secure really big ones, and likewise give ourselves opportunity to cover the initial expenses, which Montreal could not hope to meet in a season of eight weeks. If you want to give your friend a real treat take him to see "The Jolly Girls Company," with Mul Clark, at the Star Theatre next week. You will find this a bright and breezy burlesque, full of action and pretty girls; in fact, it is one of those classy entertainments that keep you amused from the start to the finish. Mr. Clark, who will be pleasantly remembered for his clever work in the past, is the feature of this organization, and the role of "Heinie Schmitz" in the two-act musical offering "On the Boulevard" is said to fit him like the proverbial glove.

Mexican Avocadoes (Alligator Pears)

O one who sees this odd specimen of food for the first time and hears it called an alligator pear can avoid looking like an animated question mark. If their curiosity is stronger than their frugality and they invest their pocket money in a sample, they are apt to have two questions to ask: "Is this a fruit or a vegetable?" and "What do you do wich

From October to March avocadoes are in season in Pueblo, Queretaro and other Mexican states. At this time of year great quantities are shipped to northern points, principally to hotels and clubs, where trained chefs know how to dress it and serve it in an appetizing manner. Little is sold on the open market, for those who buy it as a fruit are dissatisfied, and only a few know how to use it in salad.

"Anyone tasting the prepared salad for the first time would usually be pleased," says The Wells-Fargo Messenger. "The raw article is served with a great number of dressings and condiments and few salads are so easily

"Cut the fruit in half, using a silver knife. It will separate at the seed, like a halved peach, forming two cups. After the pit is removed, fill the cavity with whatever condiment or salad dressing you like. The flesh and dressing are scooped from the shell with a fruit spoon. Mr. J. C. Bosch of Mexico City writes: "Many persons slice the avocado and add it to soup. Northerners seem to like a small slice crushed and

added to a cup of bouition. It does give a pleasing flavor." A genuine native Mexican way of using it, that we have never heard of until recently, is to use it as a vegetable by combining it with other seasoning. It is done, we are told, by dividing the fruit in half, removing the seed, scooping the pulp out with a spoon and mashing it with salt, raw onion, a little tomato and plenty of green chili pepper minced fine. Tho this at first reading sounds rather too much a la Mexican for the majority seed, scooping the pulp out with a spoon and mashing it with salt, raw onion, a little tomato and plenty of green child pepper minced fine. Tho this at first reading sounds rather too much a la Mexican for the majority of our palates, a second consideration shows it to be not unlike our pictory callill. Served with meats, or as a relish with any entree, it might be very fine.

When rice is steamed and served as a vegetable, a spoonful of this spicy chop scattered thru each helping would certainly give a pleasing flavor. Especially would this be the case if one liked combinations of the mistake? And how quick, oh! We can only say what the country boy at the fair with his best girl was discussed and most of us do.

"The Ulster Women's Unionist Council held its annual meeting yesterday, and interesting details were forthcoming on the part the women are playing in the Ulster cause.

"Their duties comprise the formation of ambulance and nursing corps, the staffing of post houses thruout Ulster for the despatch of messages by volunteer despatch riders, the organization of working parties to make bandages and medical supplies, speaking, canvassing and the distribution of literature in England and Scotland.

"Altogether 234,000 Ulster women signed the solemn covenant at the same time as the men eighteen months ago, and nearly 140,000 of these are paying members of the Ulster Women's Unionist Council. Lady Londonderry presided at yesterday's meeting, assisted by the Duchess of Portland, the Dowager Marchioness of Dufferin, Lady Doreen Long and Lady Maud Rolleston.

Chicken soufffle.

This is a most satisfactory way of utilizing the left-over chicken. Mix a cup of chicken, chopped fine, with a cup of white sauce to which has been added a cit of chopped parsley, onion juice and thyme. Have it hot and stir into it the beaten yolks of two eggs, and, when it is cool, fold into the mixture the stiffly beater whites of the eggs.

Place in a buttered baking dish, bake in a hot oven for 20 minutes and serve at cnce. Veal or ham may be added to the chicken if desired.

Cut the stem ends off the peppers. Scoop out the seeds and tough dividing walls. Simmer in hot water on the stove for five minutes. For the stuffing use crab meat and boiled rice if equal proportions. First add some cream to the rice and grated cheese, a tablespoonful to each cup. Squeeze a bit of lemon juice over the crab meat and season with salt and pepper. Cover the inside butter. Then fill the shells with the mixture. Place them in a baking pan, pour boiling water around them and add a lump of butter. Baste them with this every five minutes. Bake is minutes, or until the peppers.

Tear Sponge Prevents Malignant Germ Growth

By Dr. LEONARD KEENE HIRSHBERG

A. B., M. A., M. D. (Johns Hopkins)

VERYBODY has a slate, his brain, to write upon but it is often forgotten that there are sponges soaked with moist brine, hidden away in the head. Your tears and briny showers come from two little living sponges. One is located in the outermost part of your left eye-socket, the other is in the corresponding position of the right one.

When anything irritates your sensitive nature; when sorrow fills your heart; if pain-provoking dust, sand or particle of dirt comes in actual contact with your eyeball, there is an automatic internal sqeezing and evulsion of these human sponges.

Then the tears flow. The sponges eject more and more dew and repeated showers of salty rheum in an effort to wash away the troublesome intruder. That it is not necessary to induce chagrin, sympathy, sorrow, local

stimulation, or directly local or emotional disturbances to bring tears is well recognized.

If a person has not a woman's gift to rain a shower of commanded tears, an onion will do well for such a shift. The tears that live in an onion, in ammonia and in the vapors of many drugs, crocodile tears, the tears of laughter, the tears which arise from sharp light, the lachrimation which is associated with optical distempers—all have meanings of their own.

Tears Serve Good Ends

Even the two little sponges—each no larger than a pea, but as full always as the widow's cruse—become at times diseased.

Some unhappy mortals strangle their timulation, or directly local or emotional disturbances to bring tears is

Moreover, it has been discovered that the flow of tears comes before you feel sorrow, distress and depressing emotions.

On the other hand, tears are also stimulated to flow after pain, irritation, laughter, or the malodor of an onion.

The tear that you shed "though in secret it rolls, shall long keep the memory green in your souls." Even Wolsey shed tears, and Antony begs his hard-

THE HIGH COMMISSIONERSHIP

sioner in London in succession to Lord Strathcona is Sir Edmund Walker. The position of high commissioner is not one properly to be used as a reward for political activity. The service is a national one, and as nearly diplomatic as anything the Dominion requires. It is, moreover, a position that needs the most intimate acquaintance with all the business and commercial interests of Canada. There is probably no man of similar experience who knows Canada from end

tions better than Sir Edmund Walker. To maintain the high traditions of the office there is no fitter figure in Canadian life. In addition to his great commercial experience Sir Edmund has kept in touch with the artistic, the musical and literary life of Canada. His assistance during the Quebec tercentenary, to the battle-fields commission, brought him in contact with Lower Canadian society in a pleasant way, and wherever he in a pleasant way, and wherever he has gone he has won the respect and esteem of all classes. As a representative of Canadian citizenship on its highest level intellectually, commercially, socially, Sir Edmund would carry to England an ideal of native Reform Association and learn a little Canadian citizenship of which Canada about the taxation of land values and could well be proud. BABYLONIA DISCOVERY SHOWS ANCIENT TEMPLE

Thought to Be Over Five Thousand Years Old-Liturgical

Institution Probably.

That man has been a seeker after knowledge from time immemorial is now so well understood that the discovery so well understood that the discovery among the ruins of Nippur, in ancient Babylonia, of tablets proving the existence of a college or temple of learning over 5000 years ago causes little surprise among investigators in the orient. This newly-found temple—which, it is thought, may have been the earliest institution for the exposition of the ancient liturgical system which in later years spread thruout Babylonia and Assyria and influenced the religious thought and forms for the exposition of the ancient liturgical system which in later years spread thruout Babylonia and Assyria and influenced the religious thought and forms and ceremonials of other lands—has been revealed in a series of tablets which were collected in three successive explorations. Prof. S. H. Langdon of Oxford. England, a recognized authority on Assyriology, who investigated the collection for the University of Pennsylvania, has ascertained from the tablets that priests conducted this temple college as early as 3200 B.C., and that it existed about a thousand years. It was a great university, a centre of learning, and the first of its kind of which the world has any record. The professor believes that a great religious order existed at Nippur, and that the discoveries made and to be made will throw a flood of light on the origin of religious orders, When the tablets yield up their secrets, the enquiring minds of the present day will know more of the religious beliefs and ordinances of that far-off time, and the world may be enabled to trace their influence on the that far-off time, and the world may be enabled to trace their influence on the creeds of those civilizations that were transformed at the beginning of the Christian era—especially the creeds of early Greece and Rome.

EWHITEST, LIGHT

To settle the long standing dispute between the provincial and the Dominion Governments, regarding the jurisdiction over the water lots fronting on the bay shore and Coote's paradise, government agents on Saturday will visit this city to confer with the Hamilton harbor commissioners. It is expected that a final ruling on the subject will be made.

Council to Deal With it

After a three hours' conference with architects and builders this morning, the board of control passed the new building bylaw on to the city council. The principal objection to the new bylaw, as framed, was that it allowed nothing but first class, fire proof buildings to be erected in the central business district. This was considered a hardship and as likely to curtail building operations.

INFECTION OF LEPROSY

NOT OF HIGH CHARACTER Yet Continued Menace of the Disease is Surprising-Prevalent in India.

The former prevalence of leprosy seems to be partly explained by the fact that the name was made to include various skin diseases in addition to that due to the bacillus leprae. There are still many thousand cases of true leprosy in India, and smaller numbers in other parts of Asia, South Africa, the United States and elsewhere.

The continued menace of the disease is surprising, in view of its feeble con-tagiousness. Dr. H. Bayron, South Afri can bacteriologist, states that infection occurs in only about two per cent. of the persons living under the same roo and it is not known how the transmis sion of the disease takes place, bacillus is so slightly toxic that the extract must be concentrated for giv-ing treatment by injection. LONDON BONSPIEL **GETS UNDER WAY**

The World and Methodist Book Room played ten minutes' overtime to a tie, 2 to 2. In the third fixture of the Publishers' League, at Clinton street rink last night. The game started off with a rush, and after some end to end play. Rutledge netted from in front for The World. Five minutes later, Smith beat the Book Room net guardian by a high one from the corner. The Book Room got one back just before the bell for half time.

The second half started with the same speed, and the Book Room evened up the score by a two man combination play. After this the game developed into a rag game, cross checks, trips and boarding being handed out from both sides. Towards the end, Cain of The World and Williams of the Book Room engaged in a free fight, and both took a rest fon the balance of the game. The ten minutes' overtime resulted in no scoring. Except for the rough stuff the game was good and fast. This is a bad feature of the Publishers' League, which, unless nipped in the bud, bids fair to give it a bad deputation. It is up to the league executive to get out some referees who will kee pthe teams to clean hockey.

BRAMPTON DEFEAT SIMCOE JUNIORS

-Preston Again-All the Hockey Games.

Playing fast hockey from the bell, Brampton defeated Ted. Marriott's Sim-coe juniors, 4 to 1, at Ravina rink last night. Brampton have developed a nice combination and worked it to perfection last night. They had it 4 to 0 at the half way stop, but Simcoes came like a house on fire in the last half, and had the visitors on the defensive most of the way. The teams:

Brampton (4)—Goal, McClure; defence, Russell, Duggan; rover, Brookbanks; centre, Park; right wing, Ingoldsby; left wing, Anderson.

Simcoes (1)—Goal, Hayton; defence, Patton, Findlay; rover, Goldsmith; centere, Brown; right wing, Hicks; left wing, Wagner.

Referee—Bill Hancock.

LET THEM HAVE THE GROUP:

GUELPH, Jani. 21 .- The Guelph O.A.C. intermediate team were again defeated by the Preston team on their own ice here tonight; altho they showed up somewhat better than when in Preston, there is still room for improvement. The score was 7 to 3 in favor of Preston. Lina-up: Preston (7)—Goal, Short; point, Bowman; cover, Vunendo; rover, Hetherington; centre, Muir; right wing, Rahn; left wing, Mulroy. wing, Mulroy.
Guelph O.A.C. (3)—Goal, Dustan; point, Fraser; cover, Kedey; rover, Agar; centre, Oswold; right wing, Herder; left wing, Vair. Referee-W. A. Dennis of Galt.

Ottawa Breaks Tie Beat Canadiens

MONTREAL, Jan. 21.—Breaking the three-cornered tie existing in the N. H. A., Ottawa defeated Canadiens tonight by a score of 3 to 2 in one of the most brilliant games played here in many years. The result of the match was in doubt until the call of time, and there was little advantage to be claimed by the winners. Each team had its share the winners. Each team had its share of lucky breaks. The game was practically free from roughness, altho the players of both teams checked hard and close, cutting off many a shot on the nets. Four major penalties were handed out, but they were for infraction of the ew bodychecking rule, which went into new bodychecking rule, which went into effect tonight.

Penalties:. Ottawa—Ronan, 1 major, \$3; Duford, 1 major, \$3; Broadbent, 1 major, \$3; Darragh, 1 minor, \$2; Broadbent and Shore warned. Canadiens—Lalonde, 1 major, \$3; D. Smith, 1 minor, \$2

Sec. - Treas. OSHAWA AND P. C. C. AT ARENA TONIGHT

T. F. RYAN,

Oshawa and Parkdale will be the local O.H.A. feature here tonight at the Arena, and the Paddlers are going into the fray with a vengeance. They have several sore spots that they wish to apply soothing lotions to since their recent defeat in Oshawa, and the only balm for their hurts is a good victory over their opponents. With the big stretch of ice and a good rest behind them, the locals expect to turn the tables and end the story.

An intermediate fixture will be played at Ravina rink, when Riversides and Victorias hook up and the fur should fly. These two teams are just about on an equal footing now, and a victory one way or another will put them out of the running. Riversides have strengthened up a lot, having secured Lunan of last year's Canoe Club team to guard the net, while Dennison has thrown in his lot with them also and is playing a star game. They have a well balanced aggregation now and will take some beating. The Vics are always a hard bunch to get by; so that it looks like anyone's game until the final whistle blows.

In the Mercantile Hockey League the Imperial Oil Co. defeated Rice, Lewis last night at little Victoria rink, by the score of 6 to 0. The play thruout was close. The fast following up of Imperial forwards proved the undoing of Rice Lewis. The winners lined up as follows: coal. Anderson: right defence, Palmer; left defence, Mills; rover. Pope: centre, Graydon; right wing, Campbell; left wing, Butler.

No Residence Rule in Curling

A wag from Newmarket blames A wag from Newmarket blames the absence of a residence rule in curling for knocking his club out of the Ontario Tankard. Under the O.H.A. code the judge could never have qualified, and he says Andrew Patterson could have beaten no one else in town. 24 to 8.

KNOCKING OUT SINGLE RINKS

Splendid Progress Made in Canada Life Curling Competition-The Scores.

The single rink curling competition was yesterday reduced to the sixteens, except that two Granite rinks elected to play off today instead of yesterday. The ice was good at Lakeview. Granite and Queen City afternoon and evening, when the first round was concluded, and also the second, except the game between T. Rennie and C. Bulley. There were many close competitions, including an extra end between Dr. Tate and Davey Prentice. T. Rennie beat T. Robson, chapping the shot on the tee with his last stone.

ping the shot on the tee with his last stone.

Aberdeens are the first to lose their lot. They won the cup a year ago when F. Blaylock represented the East Toronto club, but he was less successful with Queen City, going out yesterday in a close game with C. Bulley of the Granites.

Granites have a long lead with seven skips still in the running, or really only six, as two of them are down to meet in the thirty-two's. Parkdale has three left, Toronto and Queen City two each, and Lakeview, West Toronto and High Park one each.

Manager Lowden hopes to play some more of the games today so that he will not interfere with the Tankard preliminaries. The skips and scores:

Hon. Mr. Lougheed and Sir George Ross Lauded Strathcona's Qualities.

Tributes to the memory of Lord Strathcona were paid by the leaders of the senate today and a motion to adjourn out of respect to the late high house rose after an hour's sitting.

Hon. Mr. Lougheed, the government called, said it was his sad duty to re-port that Lord Strathcona. high com-missioner for Canada, had died at his residence in London early in the morn-

ing.

"Coming to Canada at a period when men were living who had lived when Montcaim and Wolfe fought on the Plains of Abraham, he began to carve for himself that wonderful career with which Canada is today so familiar. Subjecting himself to all the hardships and rigors, the privations and adven great importance to the industrial development of Ontario, with special revelopment of Ontario, with special reference to the eastern portion of the Canada, he surmounted every difficulty province, where at the present time until he reached the highest position

Career Was Luminous.
In seconding this Sir George Ross aid that one of Canada's greatest men said that one of Canada's greatest men had fallen by the way. "In such cases we usually say we stand in the shadow of a great career," he said, "Today we do not stand in the shadow, but in the luminous light of the greatest career of any Canadian with whom most of us have been acquainted. Of the various qualities which distinguished Lord Strathcona, the first, to my mind is the resolute purpose he showed from his earliest days to his latest hours."

Sir George said he had first met Lord Strathcona when both were members of the house of commons in the session of 1873. Lord Strathcona was then in accord with the party in power, but found it necessary, as he thought, to ally himself with the party in opposition. Everyone knew it took courage to sever oneself from all associations. Lord Strathcona did so

openly.

The STORY OF SLEZAK'S CAREER

It is doubtful fany o

It is doubtful if any operatic star ever brought to America has attracted more attention and admiration than Leo Siezak, the gigantic Czech tenor. Slezak is invested with a stupendous personality—physically, artistically and vocally. He is a real giant in size, being six feet four and a half inches tall and weighing more than two hundred and fifty pounds. There is such an even distribution of his weight, however, that there is no suggestion of adiposity. He is fair as to hair and complexion and has blue eyes.

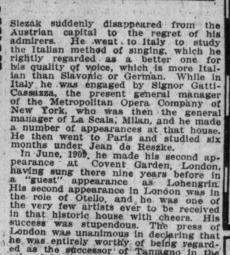

suggestion of adiposity. He is fail as to hair and complexion and has blue eyes.

Still well within the thirties, he has an experience of great scope and variety, and his position today as the world's foremost tenor of distinctly dramatic tendencies may not be disputed. Indeed, it is said that when Jean de Reszke was asked recently how he could be quoted with regard to Slezak as a singer, that noted artist and teacher replied: "You may say for me that I regard Leo Slezak as the greatest dramatic tenor living, and I might even go further. I believe that he is the greatest dramatic tenor that ever lived. He has all of Tamagno's good qualities and none of his bad ones."

This was high praise indeed, coming from a man himself regarded as the greatest dramatic tenor of his time, and who since then has been given general recognition as the greatest of ail teachers of singing. He, too, was a contemporary of Tamagno, wno was considered in his earlier years without an equal, and so is in a position to compare.

Leo Slezak was born in a small village in Moravia and was apprenticed to locksmith. As soon as he had learned

The trouble with most thin folks who wish to gain weight is that they insist on drugging their stomach or stuffing it with greasy foods: rubbing on useless "flesh creams." or following some foolish physical culture stunt, while the real cause of thinness goes untouched. You cannot get fat until your digestive tract assimilates the food you eat.

Thanks to a remarkable new scientific discovery, it is now possible to combine into simple form the very elements needed by the digestive organs to help them convert food. Into rich, fat-laden blood. This master-stroke of modern chemistry is called Sargol and has been termed the greatest of flesh-builders. Sargol aims, through its regenerative, reconstructive powers, to coax the stomach and intestines to literally soak up the fattening elements of your food and pass them into the blood, where they are carried to every starved, broken-doyn cell and tissue of your body. You can readily picture the result when this amazing transformation has taken place and you notice how your cheeks fill out, hollows about your neck, shoulders and bust disappear and you take on from 10 to 20 pounds of solid, healthy flesh. Sargol is absolutely harmless, inexpensive, efficient. Your druggist has it and will refund your money if you are not satisfied, as per the guarantee found in every package.

THE NEAL INSTITUTE FOR THE DRINK HABIT

The results of drink to the business man—or to any other man—can easily be defined in one word of four letters—R-U-I-N, ruin. Mental, physical, social, financial RUIN.

A sober man—one who never touches liquor—always feels good!
His nerves are steady, mind clear, ambition high. In business he is
ALWAYS successful. The drinker—no matter whether he takes one or
ten drinks a day—is NERVOUS, irritable—morose—things do not go
right—stomach disordered—appetite bad—erratic—fictitious ambition one
minute and none at all the next—no wonder he is a FAILURE. This
condition—the nerve and physical necessity for liquor—is due to accumulated alcoholic poison in the system demanding MORE.

In THREE DAYS the Neal Treatment drives all alcoholic poison from the system and eradicates all craving or appetite for liquor.

This plan of redistribution was reported by Compissioner Forman and City Clerk attlejohn. Greenwood avenue was change. redistribution was reported by Complisioner Forman and City Clerk Littlejohn. Greenwood avenue was suggested as the dividing line for the two wards out of Ward One.

"By 1916 Ward One will have 100,000 people, or practically one-fifth of the city's population," Ald. Robbins said. Construction of the Bloor street viaduct will undoubtedly compel the annexation of Todmorden district."

City Clerk Littlejohn insisted that every ward should have an equal number of aldermen.

"In ten years there will be three wards east of the Don river," Faker declared. "There is a residential section east of the city limits, rimning up from the lake to the heights, that now sells at Rosedale prices."

sisted that the neads of departments had given full consideration to the agree upon anything proposed, Commissioner Forman suggested as an alternative that Ward One be given four aldermen instead of three. Ald. Robbins, however, pointed out that the Beaches especially require more representation, and there would be no assurance that the fourth alderman would be selected from the Beaches.

Controller McCarthy suggested that Ward One be divided into two wards next January, with two aldermen to each, and that the neads of departments had given full consideration to the agree upon anything proposed, Commissioner Forman suggested as an alternative that Ward One be given four aldermen instead of three. Income Blanks Are Being Distributed

EWS FROM THE CITY HALL

From the assessment department are now being distributed to hundreds of citizens the blanks which are to be filled in as a sworn statement of the amount of income that is assessable. The blanks, which are returned to the department, are accepted face value. How many blanks go into waste paper baskets is of course known to the department.

It all means that civic revenues from assessable in-comes are the least depend-able of all revenues. The public-spirited men form the class who are prompt to re-turn sworn statements of

TRUE AD WRITING **PAYS IN LONG RUN**

Dr. P. H. Wiley Gives Toronto Ad Club Some Ethical

PUBLIC GROWING WISE

Has Been Fooled Too Often-Ad Should Not Exagggerate.

An appeal for truth in advertising, to replace the widespread misrepresentation and exaggeration at present in ogue, was made by Dr. H. P. Wiley, former chief of the Pure Food Bureau of the United States, before the Ad Club at the Grand Union Hotel last night.

night.

In opening his address Dr. Wiley expressed his sympathy with the citizens of Canada in the loss of Lord Strathcona, whom he held up as a model for all young men, and in the illness of Ontario's premier, Sir James Whitney

Whitney.
Fooling the Public Is Bad-Dr. Wiley, who was one of the pion-eers in the reformation of ad writing, explained that the public had been so often fooled by the misrepresentation of products by advertising, that they have almost reached the point where they characterize every advertisement as a lie. He stated that if the impress amount of advantages of the state of mense amount of advertising that is being done all over the world at the being done all over the world at the present time is to continue to bear fruit, there must be a change. In the long run, truth in advertising would be much more profitable than wholesale misrepresentation. "A good article will sell itself," he said. "Its merits should not be exaggerated, but the advertisement should state principally where this good article can be purchased,"

Produce Pure Foods.

He strongly advocated the production of pure foods, as conducive to the health of the citizens of the country, a health of the citizens of the country, a far more important consideration than the accumulation of wealth. He noted the fact that President Woodrow Wilson was the first president of the United States who had expressed the intention, in his inaugural address, of making the promotion of the health and welfare of the citizens his chief aim, and that he had done this only after the same statement had been made by the Duke of Connaught.

The method of keeping track of stores is criticized, and it is pointed out that an inventory taken at the beginning of the current fiscal year fails to agree with stores records.

The annual report of 1911, which was delayed nearly a year in preparation, is to be declared of no value for a current audit, and is useful for history. ent audit, and is usef

Delay in payment of bills is blamed for considerable added expense to the city, because accounts have first to be passed by the works committee and

Officer Overcrowded. Referring to equipment, the report finds that the offices are overcrowded in a way which endangers the health of the cierical staff, and that the noise of the typewriters hinders the work of bookkeeping. Macdonald Dividend

The regular quarterly dividend, at the rate of 7 per cent. per annum, has been declared on Macdonald preferred stock, to be paid on Jan. 31 to shareholders on record yesterday.

At the annual meeting of the company, held at Winnipeg, the report showed net profits for the year of \$330.000, which is more than 5 per cent, on the common stock after providing for the preferred dividend. G. P. Grant retired from the presidency and the board of direc-

tive trading.

Recent reports of improving business conditions, especially in the steel and iron industry, found partial confirmation in the weekly steel trade reviews. It was said that the change toward better sentiment had become more marked and that there had been some increase in the volume of busi-

Peterson Lake in Further Advance-Rumors of Chambers-Ferland Strike.

Chambers-Ferland took a jump on unconfirmed news that a strike had

been made on the property. Some of the lost ground of last week was regained and the stock took on a firm tone towards the close of the market. Several big blocks of Pearl Lake changed hands yesterday at 10½, and changed hands yesterday at 10½, and a steady enquiry was in evidence all day, but no great price fluctuation occurred. Other Porcupines were firmer. Porcupine Gold, ranging around 11½, and Dome Mines touched \$16, the highest point since the reaction following the boosting of the market a few weeks are weeks ago.

On the whole Cobalts were strong, but they did not enjoy any heavy trading. Crown Reserve gained several points to 180, Nipissing was over \$8 bid, while the other issues made an according cool of the company of the c

Yesterday's mining market had a tinge of the activity that brought the Standard Stock Exchange out so prowas dealt in, with the higher priced Peterson Lake was active, and buy-ing orders put up the price to 26. Al-tho there have been rumors afloat of a Peterson Lake dividend, nothing has been announced. At the present time the company is credited with having over \$200,000 in the bank, or over ten cents a share on the outstanding stock. Manipulation on the market of this issue has been quite apparent, and considerable talk has been heard of insiders knocking down the market to increase their holdings on a very profitable basis.

LONDON, Jan. 21.—(C. A. P.)— Speaking at the Colonial Institute lunch today, Cunningham Craig, who for some years has made a special study of the oil fields of western Canada, said if as much as one per cent.

proved profitably productive, Canada
would own one of the world's greatest oil fields. The great oil fields in Alberta foothills, however, cannot yet be regarded as a certainty, altho prospects appear distinctly good. The speaker deplored speculative mischief in Calgary, where oil leases were practically hawked about streets

Gain in Year Was More Than Four Hundred Mil-

lions.

CHICAGO, Jan. 21.—The annual live stock report of The Orange Judd Farmer, made public here today, show-ed a farm wealth in this form of pro-perty that broke all records. The in-crease in value for 12 months was placat \$443 759.000, while the total value of all classes of farm animals reached \$5,596,024.000. Of this total, horses furnished \$2,105 555.000, mules \$529,furnished \$2,105 555.000, mules \$529, 330.000 and milch cows \$1,032.960,000 By way of comparison the total value represented 50 per cent. more than the total money in circulation in this country and was almost equal to all

in the 74,000 national banks in existence. The numbers of meat producing animals, however, showed a decrease, beef cattle recording a falling off in numbers of 1,762,000 head, or 5 per cent; hogs a decrease of 4.982,000, or 7 per cent. Milch cows showed no material change, while horses increased slightly in number

ed slightly in number.

The decrease in numbers caused a heavy increase in average value per head, milch cows advancing 21 per cent.; other cattle 18 per cent.; hogs 17 per cent. and sheep 8 per cent. The decrease in hogs was the result of heavy cholera losses in important states, coupled with a shortage in corn, while the decrease in sheep resulted from low priced wool and dissatisfaction with the wool tariff.

GENTINE SURPLUS OF WHEAT SMALL

hrinkage in Estimate Caused Advance at Chicago-Corn Weaker.

CHICAGO, Jan. 21.—Shrinkage worse than at any previous time this season appeared today in estim. Is of the Argentine exportable surplus of wheat. Prices here made a corresponding advance, and closed steady with a gain of 1-8 to 3-8c net. Other leading staples all finished at a loss compared with the night beforecorn, 1-4 to 3-8c; oats, a shade to 1-8c, and provisions, 21-2 to 10c. Revised figures from threshers brought the probable yield of wheat in Argentina down to where the margin for export could not be put at more than 6,000,000 bushels a gainst 18,000,000 bushels a year ago. The effect of this builtsh news was increased by dread that the cold wave northwest of Chicago might spread over the winter crop belt and cause a dangerous sudden freeze.

Improved European demand for wheat here, thruout the west and at the eastern seaboard gave prices an additional lift, which, however, failed to last, the bulge having led to rather heavy selling on the part of a leading firm. Nevertheless the dip from top figures was kept within 3-8c, and was not regarded by the bulls as more than what might naturally have been expected.

Statements that the number of meat producing animals on farms' had decreased 5 to 7 per cent. as compared with last year, tended materially to pull down the price of corn. The market made only a temporary response to early advices that the Argentine crop was failing to maintain recent high promise.

Oats weakened with corn. Selling from commission houses developed as soon as prices had shown a little upturn.

Provisions regained much of a de-

Provisions regained much of a de-cline due to more liberal receipts of hogs than expected. The rally came about in consequence of the reported falling off in the total of meat-producing animals on farms.

Over Six Million Dollars' Worth Passed Thru Winnipeg Yards.

WINNIPEG, Jan. 21.—In a review of the Western Canada live stock industry in 1913, The Free Preas says:

"The opening of the market to the south has lent additional interest to the market of live stock this year. The shipments from Eastern Canada to Chicago have been very large, but the west has also made a splendid record, particularly in the shipment of stockers and feeders.

Over 1200 of the latter have been sold in the Union Stock Yards at South St. Paul alone and 5314 head of Alberta cattle reached Chicago. The value of the shipments of cattle thru the Winnipeg yards for the year 1913 was \$6.861,346.
