Torontonian Has Invented New Mechanical Orchestra With Success.

### **FACTORY NEAR TORONTO**

Manufacture to Be Started Soon of Canadian Materials.

A new self-playing musical instrument, which boasts many new refinements and improvements, has just been invented by a Torontonian. The instrument is called the quintet orchestra.

It has several features

There was a notable array of federal and provincial speakers on the grounds during the afternoon, but the addresses siven under disadvantageous circumstances were necessarily brief, but withal permeated by a high note of loyalty to grice, \$500 up, which is less than half that charged for foreign-made instruments producing a similar amount of music; the fact that it can play from one to twenty times on one roll, and that a new valve system allows the instrument to play in any position.

Classical Selections.

The quintet orchestra is capable of playing the finest classical or operatic selections. It is operated by electricity. The instrument is suitable for private houses, hotels, ice cream parlors and theatres. The orchestra's ability to play continuously without any attention whatever makes it exceptionally suitable for moving picture shows. An unusual feature of the instrument is its small size, being only 5 feet 6 inches high, 3 feet 2 inches wide and 2 feet deep. If wished, snare and bass drums and cymbals can be also played by it. Two boys of the Huck Finn temerament fitted up a raft out near the Humber, yesterday afternoon, and the result at 4.15 o'clock was that they were drifting out on the lake towards Hamilton.

Excited spectators on the shore sent in a call to the life-saving station, and Captain Chapman and his crew were soon on the way to the rescue. Oh! yes, the boys were happy when they saw him coming, and when he arrived they had succeeded in effacing all evidence their tears.

Grand Motor Car Parade and Band Concerts Were Enjoyed.

For the first time in its long and mar-velously successful record as a social and political function, the North York Con-servative gathering, known the province over as the "Lennox" picnic, was not yesterday favored by sunny skies and ideal weather conditions as of yore. In lieu of this was a steady downpour of rain, with all the discouraging accom-paniments of a heavy electrical storm. To say that it did not damp the ardor of the 20,000 picnickers on the grounds during the day would be manifestly untrue The morning broke auspiciously, and by noon, the hour fixed for the big parade from Sutton to the "Point," more than 500 motor cars had entered the village. while five special trains on the Grand Trunk Railway north and south had brought between 5000 and 6000 people. The morning boats from Barrie and Orillia added their throngs, while thousands of farmers from York and the adjoining Counties of Peel and North and South Ontario, together with their wives and families, flocked into the town. In point of numbers and interest the Lennox picnic of yesterday breaks all previous records.

The feature of the day, and the only The feature of the day, and the only one which was successfully carried out before the storm broke over the grounds, was the decorated motor car parade from Sutton to the "Point." Headed by Herb Lennox, M.L.A. for North York, in an open buggy, the procession, in which scores of wonderfully-decorated cars and carriages, took part, and, headed by the Q.O.R. Band of Toronto, marched to the plenic grounds. Other bands taking part in the parade were the Aurora, Barrie, Mount Albert, Richmond Hill, Malvern, Stouffville, Rama (Indian), Uxbridge, Orillia, Allandale and Craighurst, playing martial and patriotic airs. One of the features of the parade was an automobile boat, handsomely decorated.

At 1 o'clock there was a fine patriotic band concert in front of the grand stand, in which 14 city and country bands were under the leadership of Professor Barricy of the Queen's Own Band of Toronto. There was a notable array of federal and provincial speakers on the grounds during the office was a notable.

Scores of young women were busily engaged in disposing of flags and patriotic souvenirs and trophies during the early art of the day.

Scores of men prominent in the professional and agricultural life of the city and county were present, and as evidence of this the officials of the picnic stated that nearly 2000 autos and as many carriages were on the grounds.

The baby show, always an important event at the North York picnic, was carried to a successful conclusion. The first prize went to Betty Smith of Sutton, the second to Manley Braden of Toronto and prize went to Betty Smith of Sutton, the second to Manley Braden of Toronto and the third to Norman Feasly of Whit-church. All the others, and there were 18 of them, were given a dollar each.

Howden. excitement tonight was the discovery of four small fires within the plant, which broke out almost simultaneous which broke out almost simultaneous ly, but were easily controlled,

The strikers late today rejected an ultimatum from the company that their proposals would be considered general, and even if such were the provided they returned to work tomorrow morning. Sheriff Eugene Kir keal, who succeeded in pacifying the strikers, arranged a conference be-tween a strikers' commission and the tween a strikers' commission and the company officials for tomorrow. Of 11 of the special deputies whose presence led to the disorder, six were taken to the Hudson County Jail in Jersey

City.
Sheriff Kinkead said tonight that h would not permit any guards outside the Standard Oil Plant. He said he was able to handle the situation and did not need state militia.

Trouble Begins.

The trouble started after eleven

special deputy sheriffs had left the Standard plant and walked toward the plant of the Tide Water Oil Company As they neared the plant they met a crowd of several hundred strikers from the Standard plant. Menaced by the strikers, the deputies, it is said, started to run and were pursued by the strikers who hurled various missiles. The deputies separated while one party went thru the plant of the Tide Water Company, the other, numbering six, sought refuge in an engine house. The strikers pursued the first party thru the Tide Water Works, but all

WINNIPEG, July 22.—Arguments were concluded in the parliament building contracts' case before the royal commission today. The commis sion meets again on Friday for the purpose of taking some evidence from Hugh Armstrong, but that will no take up much time. As there is small likelihood of Thomas Kelly comin within the commission's at least for some time, the commissioners will at once prepare a report on the evidence taken so far. The sessions were taken up today with the arguments of A. J. Andrews, K.C. in defence of the late ministry and the reply of C. P. Wilson, counse for the present government.

Places Blame on Horwood. Andrews contended that the evidence did not connect Sir Rodmond Roblin, or ex-minister Montague, Coldwell or Howden with the frauds. He asked the commission to find that former Provincial Architect Horwood was the guilty man, and to refuse credence to his evidence where it conflicts with that of the late ministers. Incidentally, counsel admitted that the by Russian detachments in the Bug that the payments for rings and lumsector when parties of the enemy ber and the caissons were highly imsteel contracts were indefensible, and proper. He also conceded that Dr. Simpson had been shown to be the financial man of the Conservative party In rebuttal, Mr. Wilson contended that a vast amount of evidence established the complicity of the late government of the province. Corroboration from many sources, he said, completed the chain of Horwood's story. The destruction of the official documents relating to the \$802,000 contract he dea disagreement with his leaders and scribed as a criminal act and asked took an independent stand, with a the commission to name who, in their leaning toward the Conservative op-

pinion, was guilty of it. Justice Mathers explained the attitude of the commission with regard to the taking of evidence. He declared that in all their rulings the commission had been unanimous.

Evidence of Two Manitoba Four Small Fires Discovered Washington Government Will Make Stand on Latest Decision.

> WASHINGTON, July 21 .- President Wilson and Secretary Lansing, conferring at the White House tonight, completed the new note to Germany, warning her that the repetition of a disaster such as that visited upon the Lusitania, or any violation of American rights on the high seas resulting in loss of Americans' lives. would be regarded as "unfriendly." It

will be despatched tomorrow The note is in the nature of a final statement by the United States of the interpretation that will be placed by this government on future transgressions of American rights, and repeats that the American Government will leave nothing undene to stand by the position it has previously declared

Among the points in the new note are "The assumption by the United States that Germany, by declaring her sub marine warfare to be a retaliatory mea sure against the alleged unlawful acts of her enemies, has admitted that the destruction of unresisting merchantmen

without warning is illegal. "German submarine commanders have already proved that they can save the passengers and crews of vessels and can act in conformity with the laws of hu manity in making war on enemy ships. "The United States cannot allow the relations between the belligerents to operate in any way as an abbreviation of the rights of neutrals and therefore, any violation of the principles for which the American Government contends, result-ing in a loss of American lives, will be

ing in a loss of American lives, will be viewed as 'unfriendly.'

Repeats Representations.

"The representations which the American Government has made in previous notes for disavowal of the intention to sink the Lusitania, with Americans aboard, and the request for reparation are repeated with renewed insistence.

"The proposals made by Germany to give immunity to American ships not carrying contraband, and to four belligerent ships under the American flag, are rejected with the emphatic assertion that to agree to such a suggestion would be to agree to such a suggestion would be to admit Germany's right to set aside the American contention based on funda-mental principles in international law-

Discussion Concluded.

The note is about 1200 words long. While nowhere in it is there any direct intimation of the course which the United States will pursue in the event of another disaster similar to the Lustiania tragedy, there are emphatic statements thruout the communication pointing out that the discussing of the principles involved has been virtually concluded, and that future conduct of German submarine commanders will determine the responsibility for the continuance of friendly rebility for the continuance of friendly lations between the two countries.

In Meantime Workmen Remain Idle and Nothing is Done.

As a result of the tangle between the contractors and the action of the Dominion Government in calling them to task for alleged faulty operations, construction work on the Toronto: harbor development scheme continued at a standstill yesterday. Late in the afternoon the workmen were all idle Record for Three Weeks Only and representatives of the concerns involved were present waiting developments while government engineers went on with their examination of the

District Engineer Public Works Department J. M. Wilson said that everything would probably be held up until the arrival of Mr. Sweeney, when some action will probably be taken. In the meantime nothing is being done.

Nothing but sandals should be worn defined of the heel; upon the preservation of this line depends the well-shaped foot.

The wearing of shoes with pointed toes or shoes that are too short will cause the toes to converge to a point at the centre and the joints of the big toes to become enlarged.

When you and I were children we were bribed or punished, perhaps, to keep our "foots turned out." This pose was considered graceful, and the "piscen-toed" child was held up to us as a terrible warning. Now it is generally acknowledged that "toeing out" will cause a distortion of the feet, and that "the straight foot" is the ideal.

## Dainty Costumes Show the Trend in Line and Ornament

MILITARY NOTE DOMINATES FASHION

By ANNETTE BRADSHAW

HE military note is still dominant where fashion is concerned. On every hand there are tailored suits whose braid and button trimmings proclaim them to have been inspired by the uniforms worn by the officers of the European armies. Millinery for street wear has a decidedly military cast, and the latest recruit to join the advance guard of fashion is the military afternoon costume shown in

this drawing. This frock has many unusual features, and is almost futurist in character. In the first place, instead of being developed in practical materials such as serge, cheviot or tweed, usually associated with the military, it is fashioned of a combination of dainty fabrics.

The bodice is severely military. while the skirt is a flounced, wideflaring echo of the early Victorian

For the former the designer used a soft silk in a wide blue and white awning stripe weave. The long sleeves are snugly fitted to the arms and have narrow cuffs finished with silk fringe. The epaulettes of plain blue silk are also edged with fringe n true military fashion.

The pointed neck line is finished with an oddly-shaped collar which rolls away softly from the throat, and the bodice is fastened by means of a row of small dark blue bullet

Yards and yards of creamy white chiffon were used to make the skirt, and the full flounce is stitched to the bottom with a rather pronounced heading. Single roses of a rich, pale yellow tone are arranged about the heading at regular intervals.

The pointed girdle is narrow, and the lower edge is effectively trimmed with a band of the striped silk and a row of fringe.

To further emphasize the military note of this stunning afternoon costume a soldierly hat of blue, and white straw is worn.

The only ornament this fetching bit of millinery boasts is a stiff brush of dark blue ostrich fronds which closely resemble a miniature pine

When Toronto decided to erect technical school which would be worthy of the city, and help to place the citizens on a competitive level with the people of Germany and other highly organized communities, it was not anticipated that any opposition would be met from the educationists of the city. Yet, astounding to hear, the prinicipals of the high schools have taken action which virtually means that they object to the parents of prospective students in the Technical School receiving information about the classes and courses there.

The high school principals constitute an examining board for the entrance examinations, and they declined to permit the list of pupils passed by the board with their addresses to come into the hands of the officials of the technical school and the commercial school. These institutions are for the benefit of anyone in Toronto who desires to make use of them The high school principals virtually declare that so far as they are concerned they will afford no opportunity to parents of knowing what facilities there are in the city for giving exactly the sort of training of which Canadians most stand in need.

#### Conflicting Ideals

Nothing has been more remarkable n this war than the manner in which every part of the British Empire has rallied to the colors. During the long years of peace the new nations and the old peoples that lived under the folds of the Union Jack were busy with their own affairs, stirred by aspirations after greater independence or after more self-government. Then the war came, and in the twinkling of an eye the whole outlook was changed. No matter what real or imagined causes of discontent existed, there came, in a flash, the consciousness that only within the British Empire could national freedom exist side by side with the common duty of defending its integrity.

That sentiment is of great and pregnant value in the development of a world civilization that carries within itself the possibility of a far grander federation, based not on an artificial onstitution or the might of the sword. out on a true co-operation, voluntary, indeed, but on that account all the more vital and stable. ### The Rally for Recruits

Such a demonstration as the Massey Hall recruiting rally indicates at least the year lately closed the officers hope that the heart of the community is sound on the subject of the war. But this has been fairly assured all along. The next thing is to communicate that sanity to the hearts of the young men opportunity of centuries calls them the new waterworks plant. to action. If ever there was a time past, their opportunity awaits them in Europe at this moment.

Can it be that nothing but the most sordid motives will move these hunstreets and places of amusement who are too listless even to amuse themselves, but let other men engage in games while they stand and criticize, unable even to stir up interest in the issue unless they hazard some money upon it? If our young men are like that, then the war came not a moment too soon. Our social structure needs purification. If they refuse to go voluntarily; if they fail entirely to uncerstand what the issue is; if they are unable to appreciate the great privilege of living under the freest Heroes of Balaclava, of flags, then it is time they learned these things, and their reluctance to go voluntarily will presently necessitate compulsory measures. But what a stain to rest upon the men who refuse to go until compelled!

There were two things evident from the great meeting. One was that a very large number of young men would take the patriotic step of enlisting when the matter was placed before them in a proper light. Perhaps our appeals have been made too largely to the selfish side of men, on their own account, on account of their own country, their own liberty, and do not regard their action in this way. so forth. #### Danger at the Waterworks

Commissioner Harris has put it up to the board of control and thru the controllers to the aldermen that the city is in peril of a water famine. It is not a famine that can be anticipated for any special time or season. It might occur tomorrow, or next week. or next year. But unless something is done it is inevitable. If it occurs suddenly it will be on account of accident and it will be an almost total famine, with no water supply to speak of, and a general hold-up of husiness and manufactures and everything depending upon a water supply. If it comes more gradually, but more certainly thru the gradual increase of population and consequent greater demand for water, it will eause no less

The city is using sixty millions of water frequently in a day and never less than fifty millions. The pumping apacity is one hundred millions. Any slight accident would be a serious matter to the city. Any grave accident would be a tragedy. The new plant, which will take four years to construct, will add sixty-five million gallons to the pumping capacity. It is not unlikely that in four years we shall have exhausted the capacity of the present plant.

Apart from this, however, exists the constant danger of a breakdown in the tunnel or in the present pumping plant, with no duplicate plant to rely upon. The delay in constructing the new plant means practically that before the city gets it completed the waterworks department will be figurng on how to supply a further new

## LANCASHIRES ARE **ONTARIO CHAMPIONS**

Defeat Ottawa Thistles Handily in Ontario Final for Connaught Cup.

Lancashire (Toronto) and Thistles (Ottawa) met at Varsity Stadium last night in the final of the Ontario Cup, the win-

ners qualifying to represent Ontario in the Dominion championships, to be held the first week in August for possession of the Connaught Cup.

In the first five minutes Lancashire forwards completely bewildered the Ottawa boys by their clever combination, and when Thompson scored the first goal for Lancashire the spectators arose en masse to cheer their success.

when Thompson scored the first goal for Lancashire the spectators arose en masse to cheer their success.

The Red Rose continued to have the better of the game, and before the Capitals had found their feet Bowman had the ball in the net for a second time from a well-taken corner by Art Jones. Gradually the Ottawa boys got their bearings, and displayed pretty combination, and from a nice shot by Virgette, Harmer rushed in on Laycock before he had time to clear and scored a good goal for Ottawa. From this on to half-time the game was interesting. Sam Jones, at centrehalf for the Red Rose, was the most outstanding player on view. Half-time: Lancashire 2. Ottawa Thistles 1.

The second helf was more even. The Ottawa team, playing much better together, had several dangerous rushes on Laycock's charge, but the Lancashire halves were playing a great game, and prevented the downfall of their goal. Bowman was keeping his wings going nicely, and but for the brilllant display of Brown in the Capitals' goal would have added to their score. McGhie also is due a word of praiss for his magnificent display at back. When Bowman scored the third goal for the Red Rose, the game was cinched for Lancashire. Result: Lancashire 3. Ottawa Thistles 1. Teams:

Lancashire (3)—Laycock, Arden, Hammett, Woodward, S. Jones, Knowles, A. Jones, Thomson, Bowman, Taylor, Thisties (1)—Brown, McPhie, Holford, Hutchins, Tinnian, Ward, Watt, Waddell, Virgette, Falconer, Harmer, Referee—N. J. Howard,

At the close of the Lancashire-Ottawa game the Rev. Mr. McKenzie of the Fred Victor Mission, presented the cup to Lancashire and congratulated them on

The Lancashires had a social meeting afterwards, when the cup was filled and the toasts of the Dominion, notario and Toronto and District Football Associations, were duly responded to by Mr. Tom Robertson, President Spencer and Vern Guthrie on behalf of their respective associations.

cial mention should be made of the Special mention should be made of the fact that eight of the Lancashire team have joined the Canadian army, namely, Laycock. Conway, rden. Sam Jones, Art Jones, Thomson, Abram, Woodward, and unless the militar authorities grant these men leave of absence it is doubtful if the Red Rose will be able to put a team in the field for the Dominion finals. The T. and D. officials are doing their utmost to get the commanding officers' consent to let these men off on this occasion.

BROADVIEW HANDICAPS.

At Broadview Y.M.C.A. last night, the weekly handicaps brought out a good crowd of competitors, as well as spectators. The 1½-mile run had seven starters, with A. Makings on scratch. This was rather an easy thing for R. Hood, the limit man, as Makings and the other men did not run to expectations.

The quarter-mile run was a close race, and was fought out to the last word. Greene, with a start of 40 yards, managed to keep ahead of J. Carroll and W. Stone, who both ran nicely. Results:

1½-fulle run—1, R. Hood (800 yards);
2. F. Johnson (250 yards);

SENIOR PLAYGROUND LEAGUE AT RIVERDALE PARK.

The eastern section of the Senior Playground League is developing into a race between the Elizabeth and Osler teams. From this distance it looks like a toss-up between these two aggregations, and Saturday's game between these two, which will partly decide the matter, should be a hummer. With Patterson and Black in the pink of condition, both teams are confident of victory, but it is a run that counts, and many things may happen in the course of a baseball game. Moss Park and East Riverdale will meet for the last time in the series on Saturday. Both of these teams have played good ball during the season, but both of them have lacked the necessary breaks thruout the season, hence their positions in last place. The game should be worth watching.

With Soldiers at

PARIS, July 21, 5.10 p.m.—The celebration of the 85th anniversary of the independence of Belgium today was in sharp contrast to that of previous years. There were Te Deums in Bordeaux, Cherbourg, Havre, and other cities, where there are considerable Belgian colonies. At Havre flags were displayed on all houses. The Belgian cabinet attended the service at Havre. During the service the Belgian national anthem was sung by the congregation.

gian national anthem was sung by the congregation.

At Bordeaux Cardinal Andrieu officiated. The chaplain in his sermon said:
"The songs you have just heard are not yet those of triumph, but songs of mourning and confidence."

The Belgian Army Courriere at Bordeaux issued a special edition, in which there were articles written by the leading members of the Belgian government. King Albert passed the day in his own country with his soldiers.

MONTREAL GRAIN AND PRODUCE. MONTREAL, July 21.—There was very little demand from foreign buyers for Manitoba spring wheat today, but considerable business must have been worked from other sources, as there was quite an improvement in the demand for ocean grain room for July-August and Septem-ber-October shipment, and engagements amounting to 800,000 bushels were made at 8s to 8s 6d to all ports. An easier feel100 ing prevailed in the market for oats to5,000 day, and prices declined ½c per bushel, 200 in sympathy with the lower prices in the 100 Winnipeg option market during the past two days. The demand from local buyers 440 for car lois was quieter. There continues 311 to be a steady demand for Manitoba bar-24 200 ley, with sales of 10,000 bushels No. 1,500 8lc c.i.f. There was a little bette 5 mand for all grades of flour, and 1,500 slc c.i.f. There was a little better demand for all grades of flour, and the market is steady. Demand for milifeed continues good, of which the offerings are small. Butter quiet and easy. Cheese slow. Eggs in fair demand.

Prospect of Bumper Yield of This Occasioned a Drop in Spring Wheat Discouraged Bulls.

300 caused lower prices here today, not- being slow and draggy. withstanding big export sales. The market closed steady, but %c to 1%c 1,200 under last night. Corn wound up %c to 1%c advance, oats unchanged to 5c to 10c.

Ideal conditions for wheat left the market at first with scarcely any support. It seemed as if every house in the trade had selling orders only. The July option in particular showed acute weakness, being the most open to attacks based on an increase of receipts.
