Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. TO those who seek a change of air and a summer resort, the purest and most invigorating atmosphere can be breathed at our very door. Summer residents are to be found in great numbers at Chelsea (Kingsmere), Kirk's Ferry, Cascades, Wakefield, and in the other villages.

Chelsea This beautiful place of resort is visited every summer by a large number of tourists and summer residents. Its sporting grounds and beautiful groves have attracted attention far and wide.

Kingsmere Mountains and Lake, four miles from Chelsea, and as well as Chelsea draws every summer a number of residents and pleasure seekers.

Kirk's Ferry This station is splendidly situated, and its approaches are very beautiful. Many summer residences have been built last year, making Kirk's Ferry one of the most popular resorts.

Cascades Is also fast becoming a favorite Pic-nic point, for everything in its lovely vicinity makes it such.

Wakefield Which is the centre of a large trade in forest products and general merchandise, and progressing rapidly, and is becoming an important and fashionable place of resort.

North Wakefield This place is widely known for the great catches of Bass, Pickerel, Pike and Trout, in the numerous lakes lying in its environs. Amateurs of the rod and line never miss to pay this place a visit when the season is opened.

Farrellton and Low are also two lovely spots for summer residents or picnickers. There are always a large number of summer people at these places. At Low, we have the famous Pagan Falls, which without doubt is one of the prettiest waterfalls in Canada. There is also a very fine natural park.

Venosta Another spot where the amateurs who like to pass a pleasant time in trout and pike fishing can delight themselves in that sort of sport in the numerous lakes which abound in its environs.

Kazubazua is also another brook trout fishing point. The Kazubazua Creek and Danford Lakes are a few miles from the well known Iroquois House, where sportsmen are sure to have good sport.

Gracefield The tourist can see there "one of the great black and silent rivers of the north"—the Pickanock, where good fishing can be had, and from this point is reached the famous Blue Sea Lake and twenty other good fishing lakes, where bass, trout, pike and other fish may be caught in plenty. Also game of all kinds abounds in the near vicinity to this point.

Extract from letter to "Forest and Stream," of New York, from
L. Z. Joncas, General Superintendent of Game and Fisheries
for the Province of Quebec.

Quebec Game and Fish Territories.

DEPARTMENT OF LANDS, FORESTS AND FISHERIES,
QUEBEC, March 11th.

Editor Forest and Stream:

Several of your fellow countrymen, who are no doubt desirous of acquiring exclusive hunting and fishing rights in this Province over certain sections which our laws allow the Government to lease out, after having previously erected them into hunting and fishing territories, frequently write me for information.

I hope you will allow me to make use of your paper to answer their questions, as it is read throughout the United States by all sportsmen, and by publishing my answers you will convey information not only to those who write directly to us, but also to all to whom the same may be of interest.

I will be as brief, as concise and as clear as possible, answering each question put to me.

1. To whom must applications for leasing a hunting territory, a salmon river or any lake be sent?

Always to the Commissioner of Lands, Forests and Fisheries, at Quebec.

2. On what conditions can leases be effected?

The conditions vary, according to the extent of territory, its proximity to means of communication, and the intrinsic value of the territory whose lease is applied for.

3. In what parts of the Province are the best lakes for fishing and the best salmon rivers?

The best salmon rivers are those of the Gaspé Peninsula and Labrador, which flow into the St. Lawrence on the north and south. There are also some which flow into the Saguenay. All these rivers are well known to American fishermen.

The best lakes for fishing are those in the Counties of Ottawa and Pontiac. They contain an abundance of speckled trout (*Salmo fontinalis*), gray trout (*Salmo conifinis*), touladi, bass, etc.

4. In what parts of the Province of Quebec are the best hunting territories situated?

In Labrador, the Counties of Ottawa and Pontiac, where there are numbers of moose, caribou, red deer and smaller game. Moose and red deer are found in abundance, especially in the Counties of Pontiac and Ottawa.

BLUE SEA LAKE.

5. Can the lessee of a hunting or fishing territory invite his friends to come and hunt or fish with him without their being compelled to take out a permit or pay for a license?

Undoubtedly. For all hunting and fishing purposes during the open season the lessee is master of his own territory, and may invite whomsoever he pleases to share his pleasures and amusements without his guests having to pay for licenses, whether they do or do not reside in the Province.

6. What rights are conferred by the lease?

The lease gives the lessee the exclusive right to fish and hunt in the territory leased to him during the open season.

7. What extent of territory can be leased for hunting purposes?

A hunting section cannot be greater than 400 square miles, but there is nothing to prevent any individual, company or club from leasing several sections. Sections of 10, 20, 30, 40, 50, 100, 200 or 300 square miles can also be leased.

are miles,
y or club
o, 50, 100,

8. What is the cost per square mile of hunting territories ?

Everything depends on the location of the land selected, but it cannot be less than \$1 per square mile. If the territory contains a considerable number of large game, such as moose, caribou and red deer, and if it is easy of access, as much as \$10 per square mile may be charged. The territories most easy of access are those along the the Pontiac Pacific Junction and the Ottawa and Gatineau Railways.

The Pontiac and Ottawa & Gatineau Railways run through territories containing considerable numbers of large game.

Of course, in a letter like this I am compelled to restrict myself to general information, but I will always be at the disposal of those who may wish for more details. Moreover, I will in a future letter revert to this special and very important subject.

9. For how long are the leases ?

They cannot be for less than two nor for more than ten years.

10. When, where and to whom are the rents paid ?

The rent is paid on signing the lease, and every year afterward at the same date, at Quebec, to the Commissioner of Lands, Forests and Fisheries.

11. Can the lease be transferred ?

The lessee may sublet, sell his rights or transfer his lease ; but such transfer or sale is subject to the approval of the Government.

12. Have lessees the privilege of cutting timber needed for building their houses, for fuel, etc., on lands belonging to the Crown ?

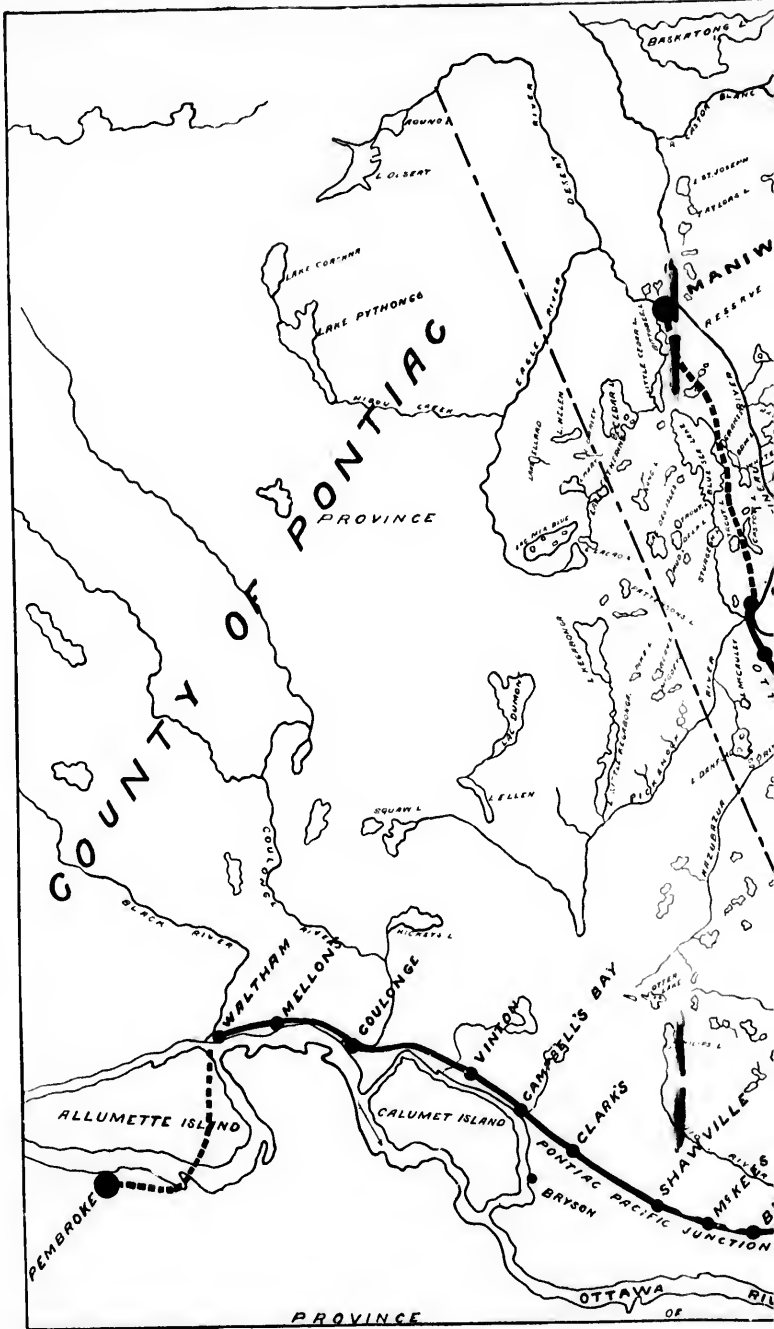

Yes.

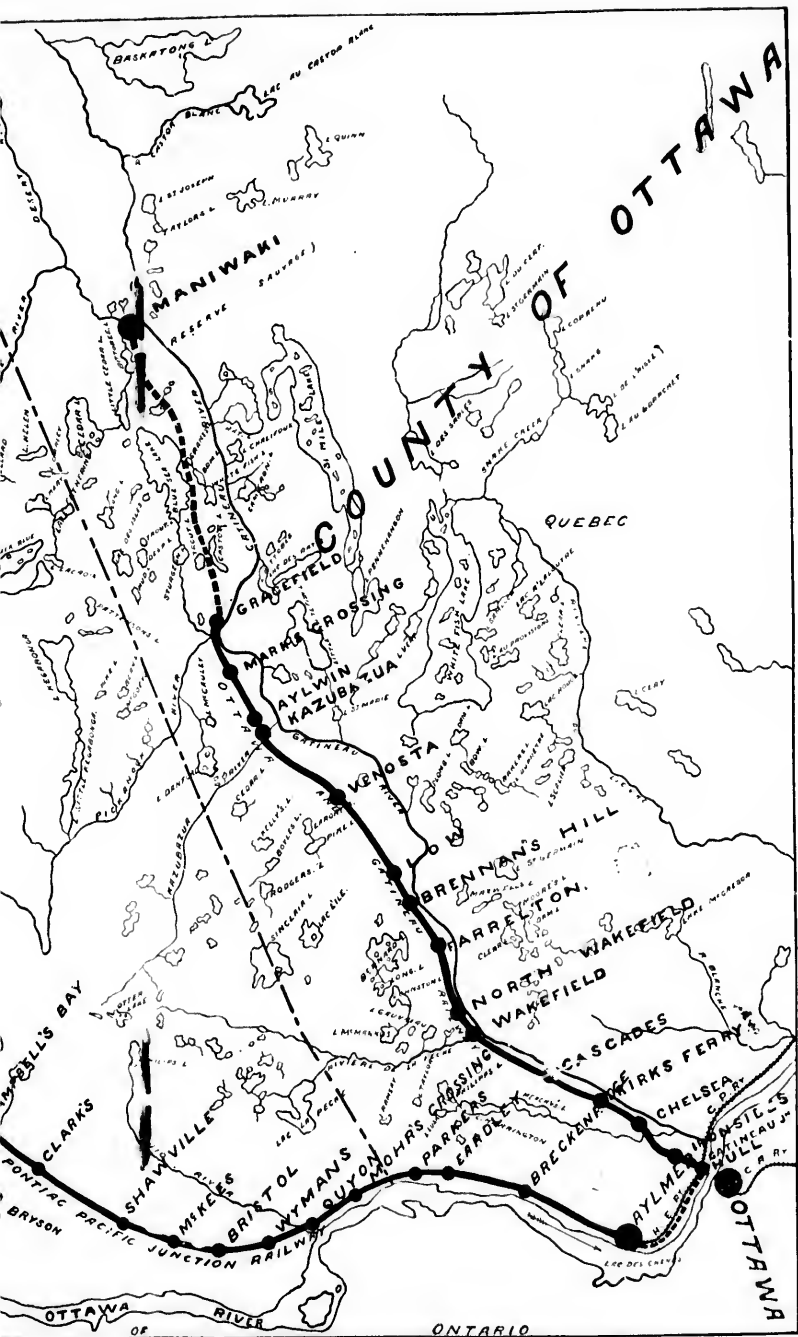

13. Have lessees the right to take to the United States the game killed or fish caught by them.

Beyond a doubt, provided the hunting and fishing have been within the open season.

Permits and information may be obtained through Mr. N. F. Cormier, Gen. Supt., F. F. G. K. & F. O., Aylmer, Que.; also through the O. & G. Ry., 31 Central Chambers, Ottawa, Ont.
