MOVE IN HUNGARY FOR RESTORATION OF CHARLES AS KING

Supreme Council Will Be Flouted When Time is Ripe and Kingdom Formed.

SECRET MOBILIZATION

London, March 3.—Alexander Vaidavoyed, premier of Rumania, in an interview printed in The Full Mail Gazette today regarding the appointment of Admiral Horthy as regent of Hungary is quoted as follows: "The new Hungarian regent will try in every possible way to effect a restoration of the dynasty with Charles as king. Under Horthy's direction the allied supreme council will at a ripe moment, be flouted and a kingdom established. "The Hungarians believe the allies are too weary to take serious action. There has been a secret mobilization in Hungary of all men between the ages of 18 and 26. Arms have been obtained in Austria and efforts made to obtain munitions in Warsaw. "M. Vaidavoyed predicts that the former emperor's son will be named as king. The plan to restore the emperor fails."

LIKENS HITCHCOCK TO A BRASS MONKEY

Democratic Senator Criticizes Stand of His Leader in Treaty Debate.

Washington, March 3.—The senate debate today on the peace treaty developed some sharp passages when it wandered into the field of European politics. Senator Borah, Republican, Idaho, asserted that the old regime still ruled in European courts and that the stand of the allied countries in the Adriatic controversy was only another illustration that the new day prophesied by President Wilson had not come.

In reply Senator Hitchcock, Nebraska, Democratic leader, declared that some European nations, particularly Great Britain, had become democracies, "in some cases more responsible to public opinion than is the government of the United States. "The voice of an American has become the pulling, mewing, mocking voice of a scycophant of Great Britain," Senator Reed, Democrat, Missouri, declared. "It is the vice of this treaty that it has poisoned the fountains of pure patriotism for the senior senator from Nebraska (Mr. Hitchcock). He stands here in the brass monkey claiming that all is pure and holy over there, while the president is threatening to withdraw the treaty and the league of nations because old Adam still rules the diplomacy of Europe. "Picture to yourself, if you can, the senator walking down the streets of the beautiful city of Omaha, his white hair lifted to the native breezes of Nebraska, arm in hand with the Mideado of Japan—the Siamese twins of modern democracy."

Hope to Break Deadlock.

While the treaty debate dragged on today in the senate, the treaty's friends began a final determined effort to rescue it from the deadlock toward which all leaders agree it is again headed. The Republican and Democratic senators joined in the movement, but they were only moderately hopeful of success. Putting collateral issues aside, they addressed their efforts to the Republican reservation to article ten, long the storm centre of the whole treaty fight, which the Republican leaders have said they cannot modify, and which President Wilson has said he cannot accept.

JAPAN UNSWERVING IN SHANTUNG ISSUE

Is Well Aware of Her Responsibilities to China and Civilization.

New York, March 3.—Japan's course in regard to the Shantung question will be pursued "unswervingly" no matter what action China takes, K. Shidehara, the new Japanese ambassador to the United States, declared at a dinner given by the Japan Society in his honor here tonight. "Ascertaining that Shantung cannot be a subject of difficulties between the United States and Japan, Mr. Shidehara said that "it remains for Chinese statesmen to decide which of two alternative courses would better serve the true interests of their country and the world. "Two alternative courses are now open for China to take," the ambassador said, "either to effect an early settlement of the Shantung question or to leave the question unadjusted and pending for an indefinite length of time. "In any case, Japan knows her responsibilities to China and to civilization. She will go forward unswervingly along the pathway which she believes leads to international peace and stability. What difficulties then could there possibly arise between the United States and Japan with respect to Chinese problems?"

COOKS AND THE MAN CHARGED WITH MURDERING HIS BROTHER-IN-LAW

James Davidson's Brains Blown Out With Shotgun in Supposed Drunken Brawl—Frank Larson is Charged With Murder and Three Children Left.

Special to The Toronto World. Cooksville, Ont., March 3.—James Davidson, a Cooksville farmer, was shot shortly after noon today while visiting his brother-in-law, Frank and Joseph Larson. Three arrests have been made, Frank Larson on a charge of murder, Nelson Larson, Joseph, and his father, Nelson Larson, as material witnesses. The prisoners were arrested between 3.30 and 4 p.m. and were taken on the 5.29 C.P.R. train to Brampton jail. The police believe that Davidson quarreled violently with the two Larson brothers and that Frank lost his temper, seized a shotgun, which was standing in the corner of the room and blew out the brains of his brother-in-law. Death was instantaneous.

Part of Davidson's skull above his right ear was blown off and brains and blood splattered over the wall, floor and furniture in the kitchen, where the shooting took place. The alleged murderer was dazed by his crime and made almost no attempt to escape arrest. His brother propped up the head of the dead man, but made no attempt to secure medical attention or to notify the police. Frank Larson loitered around the farm barns, making a half-hearted attempt to hide when the police arrived nearly three hours after the murder. The saddest part of it is that Davidson leaves a widow and three children, the eldest of whom is under five and the youngest only a baby.

Dead Some Time.

The shot was not heard, except by the prisoners, and nothing was known of the alleged crime until Mrs. Joseph Larson telephoned to Dr. A. H. McFadden, asking him to go to the Larson farm, telling him nothing of the murder. He reached the scene between 3.15 and 3.30 o'clock and found Davidson lying in a pool of blood with his head on a pillow. The body was quite cold, showing that life had been extinct for some time. County Constable W. C. H. Copeland and Sheriff J. H. McFadden, who were on duty, were called to the scene. The police do not as yet know the cause of the shooting, but the only living witnesses are in jail without having given any account of the shooting; but it is believed to have been a drunken brawl. Davidson was found by the police, but all the family are being held in custody. During the shooting the father was in the barn, and was the only one who heard the shot. Joseph Larson, who is adjoining with his father, and the fact that they used a common barn account for his being in the barn at the time. Davidson's wife later in the afternoon. The farm of Nelson Larson is used as a market garden, and is situated on the south side of Cooksville, on the southern outskirts of Cooksville. The place is owned by the Misses Zimmerman, who have a house with about two hundred feet from the Larson house, with the farm barns between. They knew of the murder until late in the afternoon.

Best of Friends.

Less than a week ago the whole Larson family was a family of friends, and parted the best of friends, so that it is the popular opinion in Cooksville that the shooting was done in the heat of a drunken brawl. The shot gun was always standing in the corner of the kitchen. Davidson thought that the participants had time to realize the seriousness of the affair. Joe Larson tried to prevent the deed, but was quick enough. When Dr. McFadden arrived the gun was taken in pieces and lying about in the room. Davidson's cartridge had been discharged thru one barrel, and two undischarged cartridges were being changed by two assistants. The prisoners were conducted to Brampton, the county town of Peel township, by Constable W. C. Copeland and Samuel Harris. The corpse has been taken to J. K. Morley's undertaking parlors.

KITCHENER TENT PROTECTORS PENALIZED THRU ASSESSMENT

Kitchener, March 3.—(Special.)—Kitchener tent protectors will be penalized by the assessment department this year by a sharp increase in assessment of houses where unreasonable rents are being charged on account of the scarcity of houses. One case mentioned by the assessment commissioner, M. Huebnergard, is that of a house-owner who has raised the rent on tenants from \$22 to \$45 a month. The commissioner stated today that the rental income will be figured as present on assessment at six per cent, and the houses assessed accordingly.

SPEAK ON TELEPHONE WINNIPEG TO MONTREAL

Winnipeg, March 3.—The first commercial call on the telephone from this city to Montreal was made today by H. B. McFarlane, who spoke to his son at the Mount Royal Club, as well as two other Montreal persons. The voices were distinct, tho in the ordinary tone, and connection was via New York, Chicago and Minneapolis without relay.

RAILWAY OFFICIALS AND UNION LEADERS ARE MARKING TIME

Neither Side Has Yet Appointed Representatives on Bi-Partisan Board.

CAUTION, WATCHWORD

Washington, March 3.—Railroad brotherhood leaders who are still in Washington may meet informally with officials of the roads preliminary to the actual beginning of wage negotiations. As a result of a suggestion to this effect, the union leaders took no action today toward naming their representatives on the bi-partisan board provided for in the transportation act and which they were urged to do yesterday by President Wilson. Director-General Hines had not been advised of the selections of the association of railway executives, to which the president sent a note, but no long delay was anticipated. It was understood the union officials would meet tomorrow to discuss their next move. Some of them feel, however, that they should do nothing until their announced policy has received the concurrence or rejection of the Brotherhood of Maintenance of Way Employees and Shop Laborers, which was not a party to the decision reached yesterday. They indicated they would call a convention of the union committee to be held in Chicago tomorrow. As soon as the brotherhood officials are informed as to the action of the maintenance workers, they will make a decision as to the suggested informal meeting.

LABOR TO FIGURE IN BY-ELECTIONS

Several Vacancies in British Commons Are Expected in Short While.

London, March 3.—The next few weeks will produce further interesting trials of political strength in several parts of England, Sir William Sutherland, the premier's private secretary, seeks re-election in Argyllshire on becoming a lord of the treasury, and is opposed by a Labor and land league candidate. Stockport will poll to fill the place of Spencer Hughes, a Liberal, and the Unionist sections of the coalition are squabbling over which side shall nominate a candidate. Meanwhile the Labor nominee has already opened his campaign. Other vacancies are in Dartford, Kent, thru the death of James Rowlands, and in Basingstoke, which Sir Auckland Geddes represented. Sir Harry Verney was chosen as Liberal candidate for Basingstoke a year ago. A Labor candidate is likely and the Unionists will meet on Friday to discuss the position. A vacancy is also possible in North Edinburgh, where Lord Advocate Clyde may receive judicial promotion, which might again cause a vacancy in South Edinburgh, thru the resignation of C. D. Murray. Finally there is also the possibility of a vacancy in West Lthorndra, thru the retirement of the aged miners' leader, William Abraham.

CANADA REPRESENTED AT RED CROSS CONGRESS

Geneva, March 3.—Twenty-seven states were represented at today's meeting of the Red Cross congress here. From Canada were Lady Drummond, Sir Richard Lake and R. G. Bennett. None of the new states created by the treaty of Versailles, with the exception of Poland, sent delegates, but all the old European countries, except Germany, Russia, Austria, Bulgaria and Turkey, have representatives here. Baron St. Geranstedt of Sweden is vice-chairman of the congress.

CONFERENCE ENDS LONDON SESSIONS

Report of Economic Conclusions of Council Will Not Be Divulged Till Saturday.

London, March 3.—The peace conference closed its London sessions tonight after preparing the Turkish treaty and its economic conclusions in substance. The treaty is completed by assistants. The treaty will be handed to Turkey at Paris on March 22, it was announced. It is possible that Premier Millerand will come to London the latter part of next week to confer with the foreign ministers and ambassadors on the Turkish treaty and on the conditions of the Hungarians regarding their treaty. It is not expected that the economic conclusions of the conferences will be made public before Saturday or Sunday. The supreme council will reassemble early in April at San Remo, Italy, where negotiations with the Jugoslavians will be resumed. The reason for the gathering at San Remo is that it was felt that Rome was too far distant and less suitable for conducting the negotiations with the Serbians. Premier Nitti of Italy, who is to proceed almost immediately to Italy, has not yet received any reply from the United States with regard to President Wilson's statement on the last communication of the allied premiers. The disposition of the Turkish navy was definitely settled by the allied supreme council today when it decided that the peace treaty should provide that the warships be broken up. The Turkish army will be reduced to such a point by the peace terms that it would not be effective against another country. The council deliberated this morning over the report of Marshal Foch on the military situation as regards Turkey, but it did not determine upon the details of the military terms of the treaty.

MILITARY AND POLICE IN DUBLIN RAID REVOLUTIONARY CENTRES

Arrest Leader of Transport Workers and Sinn Fein M. P.—Infantry at Queenstown Conduct Search for Stolen Rifles.

Dublin, March 3.—The military and police today raided Liberty Hall, the headquarters of Larkin's transport workers; Banba Hall, headquarters of the Grocers' Assistants' Organization, now on strike; the Gaelic League offices, the rooms of the Leinster College of Irish and numerous private houses. The principal arrest already known is that of William O'Brien, leader of the transport workers, who was prominent in the corporation and recently successfully hunted the removal of the race and sword. Thomas Hunter, Sinn Fein member of parliament for Northeast Cork, was also arrested, together with his partner, Peter Clancy, in the tailoring business, under the style, "Republican Tailors." A detachment from Queenstown states that a large force of infantry, fully armed, with seven officers, and police, today surrounded the Rushbrooke docks and held up and searched three hundred workers, from manager to messenger boy. Every department of the docks was searched with the object of finding recently stolen military rifles.

REORGANIZATION IN FACULTY CONFIRMED

Committee of Seven Medicos Causes Flutter at University.

The story published in The World yesterday concerning the unsettled internal conditions at present surrounding the faculty of medicine at the University of Toronto, has been confirmed by the present management body, and the entire medical profession of Toronto, as it was believed the secret of the reorganizing committee of seven was being well kept. Although an almost concerted effort was made yesterday by the powers that be to talk around the story, no one in authority could be found to state in plain words that the facts as disclosed by The World were incorrect or wrong in detail. One member of the faculty, however, told The World that the story disclosed some of the facts of the so-called reorganization scheme of which he was unaware, but after diligent enquiry he found that the facts were absolutely as stated. Dr. C. K. Clarke, M.D., LL.D., dean of the faculty, when seen by an evening paper yesterday was "silent concerning the reorganization of the faculty. The World understands that the professors in the following subjects are five of the gentlemen serving on that committee: Professor of pathology, physiology, otology, medicine and gynecology.

LENINE THREATENS BLOW TO POLISH AGGRESSOR

London, March 3.—A Moscow wireless despatch received here says the proposed peace conditions with Poland have been denounced as extravagant. The despatch adds that Nikolai Lenine, the Bolshevik premier, in a speech at the Congress, said: "The Polish aggressor invades our country we will give him a blow that will not be forgotten. The Polish nobles and capitalists are making threats and uttering a claimant territory which exceeds even the frontiers of 1772."

Winnipeg, Man., March 3.—R. D. Waugh, who has been appointed to serve on the Saar Valley commission in Germany, representing the British government, will leave this city on March 17 and will sail from New York March 20.

SENATORS APPLAUD CAILLAUX'S RETORTS

Accused Declares One of Present Ministers Subscribed to Defeatist Paper. ACTIVITIES IN U. S. Paris, March 3.—Nettled at the trend of the cross-examination of Theodore Lescauve, Procurator of the Republic, former Premier Joseph Caillaux, on trial before the senate sitting as a high court on the charge of having his treasonable dealings with the enemy, displayed a greater feeling of bitterness today than at any time since the trial opened. The spectators and even some of the senators, joined in the applause and counter-manifestations that greeted many of his caustic replies to M. Lescauve. Leon Bourgeois, the presiding officer, immediately warned the senators that applause or an exhibition of sympathy either for the defence or prosecution would cause him to disbar immediately senators "guilty of such a breach of conduct becoming to judges. An incident occurred when M. Caillaux, in replying to M. Lescauve's question as to why he had subscribed 500 francs to the defeatist newspaper Tranche-Republicaine, the editors of which, Jacques Landon and M. Goldsky, are now serving prison sentences for their connection with the Bonnet Rouge affair, said: "Louis Loucheur, at present minister of reconstruction, thru his agent subscribed six thousand francs to the same paper." Several senators applauded, in which they were joined by numerous spectators in the galleries, while others of the judges and spectators snouted "Shame!"

FARMER MOVEMENT SCORED IN COMMONS

BY W. F. COCKSHUTT

Fears It is "Dangerous"—Crerar, as a Reply, Raises Hat and Bows.

AMUSING INCIDENTS

Ottawa, March 3.—(By Canadian Press.)—With the exception of one or two breezy interludes, continued debate on the address in the house today followed stereotyped lines. Largely, the speeches were in French, and as the debate wore on, benches assumed a deserted look, while members of the government in attendance at one time totaled but two. Mr. Trahan's eloquent opened the discussion. In passing, he spoke of Mr. Gauthier's reference on Tuesday to the "hour of Quebec" and when Quebec would be prepared to confer with other provinces. Mr. Trahan deprecated any idea that Mr. Gauthier's remarks as a threat, or that they implied coercion. But he reflected the opinion of Quebec. Personal dignity and pride of conscience," declared Mr. Trahan, Quebec members cheering, "is to refuse courtesies intended to divide us in order that we may be better controlled." Mr. Trahan condemned the state ownership, criticized the eight-hour day, and argued that now the country was half bankrupt, this was not the time for branching into naval and military plans. A speech by Mr. Cockshutt of Brantford, who followed, led to some amusing incidents. Mr. Cockshutt, urging his favored economic doctrines, struck at the farmer movement. "It is a dangerous movement for Canada," said Mr. Cockshutt, "and those who embark on it will find it out later."

ROB IRISH TRAIN IN WESTERN STYLE

Belfast, March 3.—A score of armed men entered the Kincassulough (County Donegal) railway station Tuesday night shortly before the arrival of the Londonderry train, seized the station master and porter, bound them with ropes and placed them in the waiting room. When the train arrived the raiders pulled their revolvers and boarded the engine and placed the engineer and fireman under arrest and then ran the train. The passengers were not molested. The cash box board the train was the only booty secured.

I.O.D.E. IS DOWN ON HEARST PAPERS

Action by Provincial Chapter Executive—Explain Jane Addams Matter.

Hamilton, March 3.—(Special.)—At an executive meeting of the Provincial Chapter, I.O.D.E., held here today, it was decided that the order should vigorously against the Hearst sale in Canada of all Hearst publications. As a result of discussions at this first meeting of the executive of the Ontario Provincial Chapter, it was decided that some explanation should be made to the public regarding the ability of bringing Jane Addams to Toronto, which had been brought up in Hamilton at the organization meeting of the chapter on February 6. In the first place the gathering was not one of Hamilton Daughters of the Empire, but there were present representatives from every city and town in Ontario, the meeting being presided over by officers of the National Chapter. Elect Toronto Women. As to the failure of any resolution going from that meeting, favorable or unfavorable, such resolution would have been entirely out of order, as the meeting was simply an organization one and could not take up any other business. Mrs. Barker (Toronto), Mrs. Mulholland (Port Hope), Mrs. Rutger (Toronto), Mrs. Hoberlin (Toronto), and Mrs. Ameron (Toronto), were elected to the board of councillors.

CROSS BENCHES APPOINT A WHIP

Choose Levi Thomson of Qu'Appelle—T. A. Crerar to Speak Today.

Ottawa, March 3.—(By Canadian Press.)—At an organization meeting of the cross benches today Levi Thomson, of Qu'Appelle was chosen whip and will be assisted by two others, probably Wilfred Kennedy, Stormont-Glenary, and John F. Reid of McKenzie. Interviewed after the caucus, Mr. T. A. Crerar said the organization had been carried out successfully. He expects to speak on the debate some time tomorrow. Asked if he would vote with the government on Mackenzie King's amendment, he replied that he had nothing to say for the moment. There were about a score of members present, including T. A. Crerar, Marquette; Dr. Michael Clark, Red Deer; Levi Thomson, Qu'Appelle; T. McNeill, Saltcoats; T. W. Caldwell, Carleton Place; Wilfred Kennedy, Stormont-Glenary.

SEVERAL ARRESTS MADE IN CAIRO BOMB OUTRAGE

London, March 3.—A Cairo despatch to The London Times says that the inquiry into the bomb outrage against Cheik Pasha, the minister of agriculture, on February 22, is progressing. The police have discovered the society to which the bomb thrower and his accomplice belong, and several of the members have been arrested. "It is believed that further investigation will show extensive ramifications, possibly connecting this with other outrages."

UNION GOVERNMENT BITTERLY ATTACKED BY SEN. DANDURAND

Also Prophees Loan of Five Hundred Millions Will Be Announced.

ROCHE WANTS PRINCE

Ottawa, March 3.—(Canadian Press) —Condemning the Union government was the keynote of a speech by Senator Dandurand in the senate today. He said that Sir Robert Borden had failed to secure French-Canadian support for his cabinet. No French-Canadian worthy of the name would serve under such a man. A French-Canadian cabinet would be a cabinet as a beaten dog. Senator Roche did not agree with the assertion of the government that the status of Canada has been advanced through the peace conference. He hoped that the name of Wales would be named as the general name when Canada was made a separate nation under the British crown.

Senator Pope replied, supporting the Union government, which, he said, could be sure of a victory in the next election if it adhered to sound principles.

Dandurand's Speech. Congratulating Senator Chapais on his entrance to the senate, Senator Dandurand today remarked that he understood the Hon. Mr. Chapais had declined a senatorship three years ago when it was coupled with a portfolio in this "slam Union government."

The speaker said that last summer Sir Robert Borden was in Quebec in search of French-Canadian colleagues and had failed. His belief was that the government was too weak to bring down a policy which would enable the country to meet its pecuniary obligations. He was convinced that the government before September would announce a loan of five hundred millions. The taxpayers of the country would be tied to the tune of two hundred millions a year to establish equilibrium between expenditure and revenue.

Claims Loss of Ontario. Senator Dandurand said that, having deliberately isolated Quebec, the government lost the support of Ontario by deliberately breaking an election pledge that conscription should not be applied to the sons of farmers.

CANNOT INTERFERE WITH HUNGARIAN REGIME

London, March 3.—The question was raised in the house of commons today whether the government's attention had been drawn to the murder of Bela Somogyi, editor of the newspaper Nepszava at Budapest and whether Great Britain would protest against such a regime as has continued since the overthrow of the Hungarian soviet government.

Sir Hamar Greenwood, under secretary of home affairs, replied that the British commission at Budapest had constantly urged on the Hungarian government the necessity of discovering and punishing the guilty parties in this and similar cases. Great Britain, however, would hardly feel justified, he added, in protesting against the Hungarian people's right to choose any such regime as they prefer, provided there was no restoration of the Hapsburg dynasty and no hostilities were undertaken against neighboring states.

Claim Insane Murderer Has Recovered His Reason

Kitchener, Ont., March 3.—(Special) It was announced here today by George Bray, solicitor for Ivan Petroff, who is serving a life term for the murder of John Sorokaty, as a result of his death sentence being commuted following his becoming insane in the cells at Kitchener jail, that Petroff had completely regained his reason as a result of being placed in company with Bulgarian prisoners at the "pen" and hearing his own language spoken again. There is some hope being held out for a pardon for the prisoner.

YORK COUNTY AND SUBURBS TIME RIPE FOR NEW TOWNSHIPS

Amalgamated Ratepayers of York Township Consider Partition.

The annual meeting and election of officers in connection with the amalgamated association of York township ratepayers' organizations was held last night in Odessa hall, 404 Bathurst street. Nelson A. Boylen, president, occupied the chair. The following officers were elected: William Jarvis, Oakwood, president; Sept. Stowe, first vice-president; Denis McCarthy, secretary; J. Gairfaith, treasurer; organization committee, N. A. Boylen, D. McCarthy, Cmas. Bausley, W. T. Riggester and E. Clarke; auditors, George Thompson and W. Stretton. One delegate from each district ratepayers' association was appointed to form the executive committee.

Nelson A. Boylen, the retiring president, complimented the members on the good work of the past year and pointed out that although the amalgamated ratepayers' candidates in the last municipal campaign failed to secure seats on the township council board, yet the old council were required to put forth their best efforts to secure their re-election. Mr. Boylen severely criticized the roads department of York township and stated that, in his opinion, Mr. Snyder and the road foremen should be dismissed, and the department's methods of performing their duties thoroughly investigated. No action was taken by the members in this regard.

In connection with the suggested division of the township into two towns considerable discussion was held. Mr. McCarthy suggested that the time is now ripe for action in this regard by the council. He pointed out that by forming the township into one or two towns the rate of taxation would be reduced. The taxes now appropriated by the county of York would be largely devoted to the township and that the residents are entitled to the control of their own funds and to enjoy the privileges of a town.

Greater Power Over Finances. The following resolution was adopted: That York township council be requested to approach the Ontario government to seek special legislation to give York township greater powers and control of its own finances and that application be made to the legislature at the next session of the Ontario government.

J. Galbraith pointed out that the residents of the township south of Donlands avenue, between Pape and Donlands avenues, have under way a petition to be presented to the city council in the near future, requesting that they be taken into the city. The speaker's statement, it is already signed by over 80 per cent. of the residents. There is also an agitation, he stated, to take in a much larger portion of the eastern section of the township.

The time is now ripe for a division of the township into two towns, one east and one west of Yonge street, Mr. Galbraith contended. There is also a movement on foot in the Silverthorn and Fairbank districts for the formation of a town. J. Hall, delegate from the Fairbank Ratepayers' Association, pointed out that 14 petitions, all fully signed for incorporation, are in the hands of the committee. Many members expressed dissatisfaction with the later scheme.

The erection of an isolation hospital in the township was next discussed and it was decided to ask York township council to inform the association where the Red Cross nurses are located throughout the township. It was felt that the nurses and doctors were sufficient to cope with the cases of communicable diseases at present in the township. Other matters discussed were compulsory voting at municipal elections, the installation of the water service and the local improvement plan and more police protection.

SEWERS FOR TOMMORROW. As water and sewer system for the Tommordien district will be the principal subject of discussion at the next meeting of the Tommordien Ratepayers' Association, which will be held in Tommordien school on Tuesday evening next. P. J. Cooper, president, will preside.

DIED IN CONVULSIONS

Mrs. J. Finch Succumbs Shortly After Arrival in Hospital—Ambulance Stalled.

Mrs. J. Finch, 583 Chisholm avenue, Danforth Park, who was seized with convulsions shortly before midnight on Monday, died in the General Hospital a few hours after arrival in the ambulance from her home. The late Mrs. Finch leaves a husband and seven children.

The case has aroused much sympathy in the district and an effort is being made by local residents to relieve the bereaved family. Much difficulty was experienced in securing medical assistance when Mrs. Finch became ill, and on the arrival of the doctor and ambulance the patient had to be carried a considerable distance to the ambulance, which became stalled in the snow drift and did not arrive at the hospital until five o'clock the following morning. Mrs. Finch died about two hours after admittance.

CORNER BUILDING PROGRESSES. Work in connection with the public lavatory at the corner of Broadview and Danforth is now being proceeded with by the works department, and the foundations are well advanced. It is expected that the convenience will be finished in the early summer.

RAISE WINNIPEG RENTS. Winnipeg, March 3.—House rents in Winnipeg will advance from \$5 to \$10 per dwelling in the spring and notices to tenants advising them of this fact are now being prepared and sent out.

AMERICAN PASTOR TORONTO-BOUND

Say Rev. W. J. Hall, Franklin, N.H., is Coming to "Queen City."

Franklin, N.H., March 3.—(Special) —Rev. W. J. Hall, pastor of the Christian Church here, announced that his resignation had been handed to the church committee and that he would leave Franklin immediately. His leaving will cause, it is expected, as during the period of his incumbency here he gained a host of friends, the some differed with him in his views. He was regarded as a man with advanced ideas who could bring others to a better understanding of these same ideas.

To Aid Forward Movement. According to the statement made to the church committee, Rev. Mr. Hall intends to associate himself with the church Forward Movement and is leaving immediately for Toronto to begin his duties with the American Christian movement. It is understood that he has been tendered the superintendency of this movement in Ohio, but it is inferred that this is contingent upon developments at Toronto this week.

In other case Dr. Hall will be associated closely with Toronto church affairs as Toronto is part of the territory coming under his direct charge, should he accept the superintendency in Ohio with headquarters at Dayton. The family of Dr. Hall will remain in this city for the present.

HAMILTON

Hamilton, March 3.—The five officials who have been working for two years on an appraisal of Hamilton's waterworks system, have had majority and minority reports.

The question of asking the legislature for permission to spend \$20,000 on a new fire alarm by issuing debentures was referred to the works committee back to the council.

John W. Jones, one of Hamilton's best-known lawyers, died suddenly this morning, aged 72.

At the annual meeting of the Dominion Canadian Club, an increase of profits of \$75,000 was shown.

Thomas Johnson, 30 Hunter street, fractured two ribs while at work today.

J. P. Bell addressed the Women's Canadian Club today, explaining the exchange situation.

WINE FOR CEREMONIAL

Jews of Hartford Are Allowed Fifteen Gallons a Year for Religious Purposes.

Hartford, Conn., March 3.—(Special) —Fifteen gallons of wine a year is the maximum quantity a family of Jewish faith may receive for religious ceremonies, according to a ruling received today by internal Revenue Collector James J. Walsh.

The ruling says that Jewish families, after gaining the approval of the rabbi of the respective congregations, who, in turn, will obtain permits from the office of the prohibition enforcement director, may get a maximum of fifteen gallons of wine a year. Permission is granted in each case to make the wine himself, and it is also provided that not more than the maximum amount may be manufactured in the home for the purposes outlined.

The wine may be drunk during the established religious ceremonies only.

FIRE AT HUNGARIAN MINISTER OF WAR

Attempt to Assassinate Him, and Assembly Building Surrounded by Soldiers.

Berlin, March 3.—Telegraphing from Budapest, the correspondent of The Berliner Tageblatt says that some strange incidents marked Monday's sitting of the Hungarian national assembly, when a regent was elected.

"On Tuesday," says the correspondent, "at the sitting of the assembly the president said the building was surrounded on Monday by soldiers who refused to admit Finance Minister Koranyi. Premier Huszar said that such things should not be tolerated. War Minister Stephen Friedrich said that he had been fired at while passing through the city, but that he had not been injured."

Several shots were fired at his motor car as he was crossing the Elizabeth Bridge shortly before noon. The war minister's assailant escaped in an automobile held in readiness.

SAYS DOMINION-WIDE REFERENDUM COMING

London, Ont., March 3.—A Dominion-wide referendum with a view to prohibiting the importation of liquor from one province to another is the inevitable result of the refusal of the provincial government to consider any amendments to the Ontario Temperance Act, according to Mr. T. D. McCulloch, secretary of the Dominion social service council.

PRESENCE OF ENVER PASHA IN BERLIN IS CONFIRMED

London, March 3.—The London Times Berlin correspondent has received confirmation from a wholly independent source of the presence of Enver Pasha, the former Turkish war minister and leader of the Young Turks. He is credited with a desire to enter into relations with the entente representatives. There is no indication, however, of a reciprocal desire on the entente's side.

TORONTO TO HAVE TEN-STOREY GARAGE

Prediction Uttered at Retail Automobile Dealers' Convention.

There was a good attendance on hand yesterday morning at the second day's session of the annual convention of the Ontario Retail Automobile Garage and Accessory Dealers held in the Merchants' Hall, College street. A further discussion took place on used cars, during which Mr. Ferguson remarked that there would be a shortage in new cars this year and consequently there would be a brisk demand for used cars. Mr. Moore thought that a central appraisal bureau would get away from the man who goes from one dealer to another to see from whom he would get the best price. Under this system a standard value would be put upon a certain make of car.

Mr. Banyan gave an instructive account of the building of garages in the States, instancing a six-storey one in Boston which cost \$1,700,000, while another in that city had nine storeys and seven elevators. He said Toronto would soon have a ten-storey building capable of parking 1000 cars, and, he added, "Murine's Reins, Refreshes, Soothes, Heals—Keep your Eyes Strong and Healthy, if they Tired, Smart, Itch, or Burn, if Sore, Irritated, Inflamed or Granulated. Safe for Infant or Adult. At all Drugists in Canada. Write for Free Book. Murine Company, Chicago, U. S. A."

"Toronto in this connection is still in its infancy." J. M. Leary gave a comprehensive address on the new bankruptcy act, which comes into effect on July 1, next. The speaker also said re- with the present confusion which exists in the bankruptcy laws of the different provinces.

He said three things in the act were vital: (1) Compulsory liquidation, which is not possible at the present time, except in Quebec; (2) a debtor has the right voluntarily to file a petition for bankruptcy and (3) provisions are made for discharge of a debtor who becomes bankrupt under certain restrictions, one of which is that he has paid fifty per cent of his debts.

Trustees to be Appointed. Trustees in the bankrupt estate will be appointed by the government and they have to furnish adequate security for the protection of the creditors. His remuneration is fixed by the act at a rate not exceeding five per cent on the money received and a similar remuneration to the solicitor. The speaker also said re- striction and regulation had been provided for in regard to transfer of property within periods of one year and five years of bankruptcy. The husband or wife of a bankrupt will not rank on the estate until all the other creditors are paid in full.

Hon. W. A. McLean, deputy minister of the department of public highways, gave a resume of the government's program on highways. Last summer, he said, they had 5000 men employed, when they had under their control 420 miles of highway, and now that they had 1800 miles to undertake this year, there would be a larger number of men employed. He was optimistic enough to predict that the day is not far distant when Ontario will have half a million automobiles and trucks. He said Ontario had about 42,000 miles of graded highways. Construction was a slow process and patience had to be exercised till completion.

"If we get the men and the material we will during the next five years spend ten million dollars annually upon the 42,000 miles of road. Good roads are essential to the self-respect of any province or country," he concluded.

Liege Chapter, I.O.D.E., Presents Annual Report

No Further Announcements On Temperance Question

Attorney-General Raney said yesterday he would have no further announcements to make on the temperance question. The reply of the government to the referendum request concerning importation will be given by the referendum deputation on March 11. Matters of mere enforcement of the O.T.A. are not covered in the attorney-general's discouraging reply to Rev. Sen. Spence.

HAD TIRES OF STOLEN CAR

Walter Freeland was arrested at Fairbank yesterday afternoon by Detectives Nichols and McIlwraith, charged with stealing an automobile belonging to Wm. T. Harris, 170 Grenadier road. Freeland is alleged to have driven the car to Fairbank Saturday and after stripping the wheels of the tires to have stolen the tools from the car and abandoned the machine. The tires and tools were found by the police in Freeland's room.

TORONTO GROCERS WITNESSES

A number of Toronto wholesale and retail grocers will be asked to appear before the board of commerce at Hamilton on the 8th inst. to give evidence concerning a number of alleged illegal combinations in which they are said to be involved. The board at first started out to investigate the Hamilton grocery trade, but after the attorney-general's department had made certain enquiries it was decided to question a number of Toronto men. It is understood that 10 Toronto men have already been subpoenaed. Commissioners O'Connor and Murdoch will hear the cases and A. W. Roebuck will represent the crown.

EPIDEMICS PAST AND GONE

The influenza and pneumonia epidemics are now practically a thing of the past. For the 24 hours, only 22 deaths occurred in Toronto, 5 of them due to influenza, 4 to pneumonia, and the rest from various causes.

COAX 'EM

Stop Whipping Bowels into Activity, but take "Cascarets"

Put aside the Salts, Pills, Castor Oil, or Purgative Waters that irritate and lash the bowels into action, but which do not thoroughly cleanse, freshen and purify these drainage organs, and have no effect whatever upon the liver and stomach. Keep your "insides" pure and fresh with Cascarets, which thoroughly cleanse the stomach, remove the undigested, sour food and foul gases, take the excess bile from the liver and carry out of the system all the constipated waste matter and poisons in the bowels which are keeping you half sick, headachy, and miserable. Cascarets tonight will make you feel great by morning. They work while you sleep—never gripe, sicken or cause inconvenience. Cascarets cost so little too.

DOUGLAS FAIRBANKS TO TOUR CANADA

Says C. A. Robinson, Guest of Honor, at United Artists' Luncheon.

Carlisle R. Robinson, personal representative of Douglas Fairbanks, the famous moving picture star, was the guest at a luncheon given at the King Edward Hotel yesterday by A. C. Bernham, Canadian sales manager of the United Artists Corporation. Mr. Robinson left Los Angeles recently to make a tour of the country and get in touch with distributors, theatre proprietors and others concerned in the picture world. He expects to be back again in California about the middle of April, to report to his chief his observations on the situation in the east.

Mr. Robinson, in a conversational vein, gave the party interesting sidelights on the character of Mr. Fairbanks, and of other notables, including Charlie Chaplin, with whom he formerly worked for some years. Mr. Fairbanks, he said, was planning a tour of Canada and the United States, and would undoubtedly visit Toronto this summer, coming by way of Vancouver and Winnipeg. Among the two dozen at the luncheon were N. L. Nathanson, Herb Allen, of the Allen Theatre Enterprises; Thomas Scott, secretary of the Canadian Exhibitors' Association; W. R. Greene, editor of Canadian Moving Picture Digest, and J. R. Moody, associate editor of The Motion Picture Journal.

HEMLOCK PRICES JUMP.

Lumber merchants announce another jump in the price of hemlock, oak trimming and other varieties that enter into the house building industry. The best grades will now sell at \$63 to \$67 per M., an increase of about \$3. This grade sold at \$24 to \$26 before the war. The new price for No. 2 grade of hemlock runs from \$68 to \$73. Hardwood flooring has also advanced about \$25, the prices now ruling for three-eighths stuff running from \$215 to \$225 per thousand. Oak trim is scarce, and practically out of reach.

The Ottawa-Prescott road will be designated as a provincial highway. A deputation from Prescott was so informed yesterday.

Good Advice for Nervous People

WHAT WORN, FRAZZLED, UNSTRUNG, "JUMPY" NERVES REALLY NEED.

When you are run down, out of sorts, tire easily, have lost confidence in your ability to do things, and ambition seems to have deserted you, it's a sure sign your nerve force has run down and that your nerves need a stimulant to restore to your system its old-time strength and energy, and bring back the good old pep that used to make you famous. All leading drug stores in Toronto and vicinity are selling a wonderful nerve remedy called Ferro-Peptide on a positive guarantee of satisfaction or money back. It's amazing how quickly Ferro-Peptide tones up the entire system, calms and steadies the nerves, and puts vim, vigor and vitality into men and women who are fagged out, nervous, despondent and ambitious. Thousands testify to their remarkable value in cases of severe mental depression, nervous prostration, nervous degeneration, trembling "jumps," "hiccups," and the generally unstrung nerves that come from excessive work, worry, lack of sleep or overindulgence in drinking, eating or smoking. They never fail to benefit. If you are blue and feel as though you didn't give a hang, or are cross, irritable, and your nerves are right on edge, get a package of Ferro-Peptide right away. It comes in tablets to a box. Eat one with every meal for a few days, and see what a wonderful improvement they make in your whole nervous system.

NEWS OF LABOR

ARE WIDE AWAKE BUT LACK VISION

Vice-President of Structural Workers Thus Criticizes Canadian Employers.

Many of the common laborers in the United States centres are receiving better wages than the most skilled mechanics in Canada. This was a statement made by Vice-President J. D. Shay, Structural Ironworkers of America...

"Now, let me tell you something," continued the union vice-president. "The average time spent by the majority of the men in our union is nine months a year. In order to make out a comfortable, shall we bet, make out a proper existence each man should make not less than a dollar an hour. This would give him \$2400, making an average of 400 working days a year. Fifteen per cent of our men work the whole year round and ten per cent of them only six months."

ONE CENT AN HOUR.

Frank Healey, general organizer for the International Union of Stationary Engineers, who has returned to Toronto after an extended absence in Montreal and other centres, stated yesterday afternoon that his organization won the fight against the muny wage relative to the waterworks and other engineering hands down. He stated that they at first two hours increased the wages of the engineers only one cent an hour, and offered the same to the firemen. The final result was a raise of both engineers and firemen to 37 cents.

AN AMBIGUOUS STATEMENT.

Canadian Federation officials yesterday afternoon expressed themselves as rather amused at a statement appearing in an evening paper to the effect that "the presence in Montreal of so many international organizers is having a salutary effect in adjusting the differences between the National Union, which is chiefly Catholic, and the international unions." Charles Clay, general secretary of the Canadian Federation, stated that the statement

Ottawa, March 3.—(By Canadian Press.)—A total of 57,702 immigrants to Canada during the last fiscal year is reported in the annual report of the department of immigration and colonization, tabled in the house of commons today. Of these, 49,715 came from the United States, 9,914 from the United Kingdom, and 7,073 from other European countries...

BELGIAN CHAMBER VOTES FOR SUFFRAGE FOR WOMEN

London, March 3.—The Belgian chamber has voted in favor of votes for women 21 years of age as well as men, in communal elections, says the Brussels correspondent of The London Times. An amendment offered by Burgomaster Max, excluding women of "notorious misconduct" was adopted. In view of the fact that voting at elections is compulsory, the presence of only one woman in the public gallery during the debate would seem to indicate how little interest women take in the question.

CITY HALL NOTES

The board of control are determined to justify their existence as far as keeping down the tax rate is concerned. They sat in session yesterday morning to consider the estimates of the works department, and then again in the afternoon to go over those of the parks department. When their busy pencils had finished striking out and adding down the various items on the works commissioner's estimates, they had managed to eliminate expenditures amounting to \$150,000. From the original estimates of \$3,550,000, the works committee had already cut \$229,250, so that the estimates as they will now go on to council are \$3,174,419. The total cuts amount to \$389,676.

GADSBY ITEM DISPLEASURES.

A delegation composed of representatives from most of the veterans' associations interviewed the editor of Saturday Night last evening and protested against the tone of an article in February twenty-first's edition of that paper, which, they alleged, was entirely untrue. The editor, who is a veteran himself, sympathetic, was written by H. P. Gadsby, and expressed his, not the editor's, views. He promised, however, to insert an explanatory item in his next issue, and the delegation departed satisfied.

THIN, NERVOUS PEOPLE NEED BITRO-PHOSPHATE

What It Is and How It Increases Weight, Strength and Nerve Force In Two Weeks' Time in Many Instances.

SHOULD BE PRESCRIBED BY EVERY DOCTOR AND USED IN EVERY HOSPITAL. Says Editor of "Physicians' Who's Who."

Take plain bitro-phosphate is the advice of this thin, delicate, nervous people who lack "nerve force" and there seems to be ample proof of this in their appearance. The increase in weight frequently being astonishing. Clinical tests made in St. Catherine's Hospital, N. Y. C., showed that 27 patients gained in weight 23 and 27 pounds, respectively, through the administration of this organic phosphate. This increase in the past twelve years, with it, a general improvement in the health. Nervousness, sleeplessness and general weakness, soon disappear, dull eyes become bright and pale lips again assume their natural color. Physicians and hospitals everywhere are now recognizing its merits by its use in ever increasing quantities. Frederick Koller, M. D., editor of New York "Physicians' Who's Who," says: "Bitro-phosphate should be prescribed by every doctor and used in every hospital to increase cells with the necessary phosphoric food elements, bitro-phosphate quickly produces a welcome transformation in the appearance; the increase in weight frequently being astonishing. Bitro-phosphate is made entirely of the organic phosphate compound referred to in the National Standard Dispensary as being an excellent tonic and nerve acquired preparation which has recently been found to be of great value in the treatment of neurasthenia. The standard substance is beyond question, for every Bitro-phosphate tablet is manufactured in strict accordance with the U. S. Pharmacopoeia test. Bitro-phosphate is therefore not a patent medicine and should not be confused with any of the secret nostrums, so-called tonics or widely advertised "cure-alls."

Good Gracious! How My Back Aches!

That's Many a Woman's Complaint—It's Work All Day Without Rest. Sometimes the Feet Swell and Ache—or the Head Aches.

It's all due to an over-abundance of that poison called uric acid. The kidneys are not able to get rid of it. Such conditions you can readily overcome, and prolong life by taking the advice of Dr. Pierce, which is avoid too much meat, or tea. Drink plenty of pure water, preferably hot water, before meals and drive the uric acid out of the system by taking "Anuric." These anti-uric-acid tablets can be obtained at almost any drug store, in tablet form, and will dissolve uric acid as hot water dissolves sugar.

You know that before an insurance company will take a risk on your life the examining physician will test your water, and report whether you are a good risk. You should send a bottle of water to the chemist at Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., and you will receive free medical advice as to whether the kidneys are affected.

Hamilton, Ont.—"I have suffered with rheumatism for the last five years and I have only taken three bottles of Dr. Pierce's Anuric (anti-uric-acid) Tablets and three bottles of 'Golden Medical Discovery' and am nearly cured. I also had that dread disease, Spanish Influenza, leaving me in a terrible condition. Only those who have had it know what an awful condition it leaves one in. I am sure if it had not been for Dr. Pierce's medicines I would have died. 'I want to recommend Dr. Pierce's Anuric to any sufferer with kidney trouble. Also try Dr. Pierce's Pleasant Pellets for constipation.'—MRS. ESTELLA GRANBY, 54 1/2 James St. North.

GOOD ROADS MEN HOLD CONVENTION

Minister of Works Would Help Farmers, Not Tourists.

With delegates from all over the province in attendance, the eighteenth annual convention of the Ontario Good Roads Association was held yesterday afternoon in the council chamber of the county office building.

The delegates were welcomed to the city by his honor the lieutenant-governor, who stated that the organization was representative of the people of the province, and that it had great importance to the province which were to be discussed.

For Farmers, Not Tourists.

Mr. F. C. Biggs, minister of public works and highways, stated that the people of Ontario must be prepared to pay for good roads to handle the rapidly growing traffic of the province and also that the farmers' need for good roads were more important than the requirements of the tourists.

"As far as I am concerned," he said, "I shall build the roads of this province irrespective of any party consideration. Now that we are called upon for further good roads legislation I hope that you will give us your fullest co-operation."

"Last year there was spent in Ontario only about \$1,250,000. This year we have a working agreement with the Dominion government for highways and this year we expect to receive back 40 per cent of the money expended. Ontario's share for highways this year will be \$6,000,000.

Help to Both.

"I contend that we must build roads not with a view to the tourist traffic so much, but rather we must build roads to develop our agricultural industry and to meet the necessities of the farmer. Good roads are most important. If this is done it will help the rural communities and urban communities. For what will help one will help the other."

The minister contended that a system of special roads would not be feasible. "A better system of special roads would never become popular," declared the speaker. "There are 1,874.7-10 miles required at present time for trunk roads. A comprehensive system of good roads of 1,874.7-10 miles is the only solution to our problem."

By taking a provincial county road with the Dominion government paying 40 per cent, and the county 40 per cent, the provincial government is enabled to develop the roads up to reasonable standards of construction," declared the minister.

"If the counties can keep their road expenditures about normal it will mean much for the towns. The government hopes to pay you forty per cent for all work done in suburban areas."

Built and Forgotten.

"Too many roads are built by county superintendents that are built and forgotten. These roads should be kept up and not be allowed to deteriorate. You must keep your roads up to continuous maintenance. If you don't keep them up we are going to forget the maintenance clause until you do."

The helping out of the townships in building roads is a new departure for any government," said Mr. Biggs, "but we believe that this policy will prove highly beneficial. I believe that nothing will tend more to make this policy a success than to have a sane, efficient road superintendent for each township."

"We want the townships to let the government pay them 40 per cent towards the superintendent's salary and see what it can do."

Mayor Church stated that it was the sixth time that he had had the pleasure of welcoming the delegates to their annual convention. He declared that the city of Toronto had

done much pioneer work in the good roads movement. "I believe in good roads because it cheapens production and brings the people more in touch with each other," said the mayor.

The delegates were invited to luncheon at the Government House at one o'clock by His Honor Lieutenant-Governor Clarke and Mrs. Clarke.

Ten Thousand Miles.

"Ten thousand miles of road have been assumed by the county council, of which 223 are included in suburban areas," said President K. W. McKay. He said that the estimated provincial subsidies payable for 1919 amount to \$2,300,000, and the expenditure on all classes of highways, township, county and provincial, would exceed \$8,300.

"Each township should be looked upon as a construction area inasmuch as roads located there are concerned and their contribution to the cost of roads limited to from twenty to thirty per cent."

"The highways department should procure a report on actual conditions in different parts of the province with a view to having the assessment law properly administered."

The old question of civil liability was one of the points touched on, and it was decided that the matter should be brought before the legislature. The announcement of the minister of highways to extend aid to townships was referred to, with the suggestion that it be granted in such a way as to encourage township councils to be progressive.

Welfare Administrator Imperial Oil Dies Suddenly From Heart Failure.

Rev. Dr. Daniel Strachan, industrial welfare administrator of the Imperial Oil Company, died suddenly at 3 o'clock yesterday morning at his residence, 18 Meredith crescent, from heart failure.

Dr. Strachan was in his 54th year and was born in Glencoe. He was educated at Queen's University, where he received the honorary degree of D.D. He began his career in the Presbyterian ministry at Sarnia and later had charges at Hespeler, Brockville and Rosedale Presbyterian Church, Toronto.

In August, 1918, at the request of the late Hon. W. J. Hanna, who was then president of the Imperial Oil, Limited, Dr. Strachan assumed the administration of the relations between the company and the members of the Imperial Oil organization. To him much of the credit is due for the operation of the industrial relationship plan, which has been in effect for a considerable period.

Held in High Esteem.

He was known personally by thousands of employees from the Atlantic to the Pacific, and held in high esteem by the members of the various industrial councils. Dr. Strachan made his last inspection of the refinery in November, and since then had been in failing health, but was actively engaged in his duties until about the middle of January, when he was compelled to relinquish his work. He went to Atlantic City to recuperate, returning home last week.

Dr. Strachan was a member of the Rosedale Golf Club and of the Granite Curling Club, and was chaplain of St. Andrew's Society and of the Alexander Fraser Chapter of the Sons of Scotland. He was also a prominent member of the Burns Club and Argyle Society, Toronto. He was on the board of management of Knox College, trustee of the Queen's Theological College board of trustees, a member of the council of Queen's University, and president of the Queen's Alumni Association, Toronto.

His widow, a daughter of the late Dr. Thompson of Sarnia, and one son, Ian Strachan, who is now in the army, has been attending Toronto University, survive him.

TAX BILLS, 1920.

For the convenience of ratepayers who own various properties, and agents, companies, etc., in charge of estates and who pay the taxes thereon, the city treasurer on being furnished with list forthwith (or not later than 12th March), giving proper descriptions of such properties, will have the bills for same mailed or delivered at one address. After that date it will be impossible to have this plan followed out.

FAVORS DISMISSAL

Judge Snider Unfavorable to Retention of Seven C. P. R. Car Porters.

U. E. Gillen, general president of the Toronto Terminals Company, and Judge Snider Hamilton in a majority report relative to the question of seven car porters of the C. P. R. dismissed allegedly for general inefficient service have recommended that the dismissal stand. On the other hand, Fred Bancroft in a minority report has recommended that the seven men be retained in the employ of the company.

The majority report states that the seven men in question were among more than thirty men dismissed from the company's service as far back as last October, and that they have been dismissed as being generally inefficient and not because of any affiliation with trades unionism.

The minority report points out that each of the seven men in evidence stated that he knew of no given reason for his dismissal and that they believe themselves to have been fired because of trades union activities.

Artistic Educational Pictures For Toronto's Schools

So much enthusiasm was aroused among the picture competition in September of last year that we have been persuaded that an arrangement whereby a wider distribution of these beautiful pictures can be made would be the interest of the children of all the schools. We have therefore arranged with ten of the moving picture houses to present one set of pictures each to the leading schools in a voluntary competition. The set consists of three handsome educational pictures framed ready to hang on the wall.

In the collection from which a choice may be made are copies of famous masterpieces—The Angels, The Gleamers, by Millet; Canterbury Cathedral, Cologne Cathedral, by Russell; The Dance of the Nymphs, by Corot; Alhambra, The Parthenon and Milan Cathedral. The very fine picture count are that shown at the Montreal Harbor, Parliament Buildings at Ottawa and Quebec Tercentenary, are also included. The competition has been arranged as follows: Each of the ten moving picture theatres listed below will distribute with every admission ticket a voting coupon. The schools obtaining the greatest number of votes according to the plan of competition will be awarded the pictures.

There are two classes of coupons—A and B. Class A coupons, which are given in, will entitle the school designated to five votes if the coupon is brought to the store and deposited in the Polling Booth. Class B coupon, if sent by mail or otherwise, will entitle the school to one vote for the school. The following picture houses will supply coupons. It will be noticed that the coupons are scattered throughout the city, giving schools in all districts a chance to compete.

- Madison, Bloor West.
- Beaver Allen, 2842 Dundas West.
- Classic, 1006 Gerrard East.
- Model, 181 Danforth.
- Oakwood, St. Clair.
- Doric, 1088 Bloor West.
- Temple, 1088 Queen West.
- Corn Bazaar, 1012 Davenport.
- Prince Edward, Beech and Queen.
- Aster, Ossington and Dundas.

In addition to the picture prizes, there is a capital prize of a handsome talking machine, or the sum of \$100 to be awarded for any school for which there is deposited at this store 10,000 or more Class A Coupons. This is bound to create a splendid spirit of rivalry among competing schools.

The grown-ups can materially help the children with their sympathetic interest and support. Nearly everyone enjoys an evening at the movies, and there will be an added zest given by the knowledge that you are helping the children to obtain their objective. Enter into the fun and excitement of collecting coupons. Vote for the school that your children or your little friends are interested in, and see to it that you and your friends and their friends are all helping that particular school to win Coupons—Votes—Prizes.

CANADIANS BEWARE OF U.S. OFFERS

Reconstruction Association Warns Purchasers of Goods at Par.

The Canadian Reconstruction Association, in a statement issued tonight, says: "Alarmed at the prospect of losing many profitable Canadian accounts, an increasing number of United States producers and merchants are offering to accept payment in Canadian currency. Canadian buyers should clearly understand that all purchases of imported goods, even if Canadian money is accepted at par, help to pile up a balance of trade against this country and to increase the discount on our money. In reality, the offer of the foreign sellers means either that they are quoting higher prices to Canadian purchasers to cover the loss on exchange, or they are practicing a form of dumping by selling to Canada in Canadian currency at the same nominal price as they charge United States customers who pay in United States funds.

Keeps Up Premium.

Every purchase in the United States of goods which could be bought in this country means an unnecessary increase in our adverse balance of trade. Moreover, it tends to maintain and even to increase the exchange premium which we must pay on essential imported commodities such as coal, cotton, etc. There is no real relief for the exchange situation

WM. SCOTT, B.A. LAID TO REST

Educational Representatives Attend Funeral of Late Principal of Normal School.

The funeral of the late William Scott, B.A., former principal of the Toronto Normal School, was held yesterday afternoon with interment in Mount Pleasant Cemetery. The service, which was held at 575 Church street, was attended by many educational representatives and was conducted by Rev. W. Muir Auld of Old St. Andrew's Church, assisted by Rev. Dr. Milligan and Dr. Tolling.

The pallbearers were Dr. H. B. Anderson, Dr. Merchant, inspector of normal schools, Dr. A. T. Cringan, Mr. Thon, Yellowless, Dr. Mosher, Robert Weir, William Prendergast and Mr. D. White. Among the many floral tributes were ones from the staff at the Toronto Normal School, the Durham Old Boys' Association, and the Provincial Normal school inspectors.

General St. Pierre Hughes, of Ottawa, inspector of penitentiaries for the Dominion, and a brother-in-law of the late Mr. Scott, was present. Sir Sam Hughes, M.P., was unable to come owing to illness.

"Drys" in New Brunswick Favor Government Control

St. John, N.B., March 3.—At a delegation of temperance workers here it was announced that amendments to the provincial act are desired. These include government control of the dispensing of liquor, limit of eight ounces on prescription, limit of number of doctors' prescriptions and that they be handled by the attorney-general's department, and that the medical act be amended so that the medical council might be able to deal effectively with doctors who violate the law.

THURSDAY MORNING, MARCH 4.

The New Foster.

Some parliamentarians, anxious for a real chiefship at Ottawa, are asking, "What's the matter with Foster?" The veteran of the cabinet is the veteran, but also because he has developed qualities in his maturity which he was not supposed to possess when he was in the heyday of youth. In former times he was regarded as the man with the serpent's tongue. He could make more wounds and rub more salt into them than any of his compeers. There was an aloofness about him, and an absence of the kind hand, which, while they may have been statesmanlike, did not make him personally popular.

But age has generalized, without staling his variety. He has become more human as he has become more experienced. A week ago today he performed an unexampled feat in his annual. After his seventieth birthday he learned the French language, and on the opening day of the new parliament buildings he spoke French for 15 minutes, with the ease of a Quebec orator.

After he returned from attending the economic conference of the allies in Paris four years ago Sir George Foster lamented his inability to speak the language of diplomacy, and said that if he were a young man again he would not allow himself to suffer from that disadvantage.

Can a man be born when he is old? Linguistically, Sir George has proved that he can. The reconstruction of what is now impossible, even for a fool, to call the serpent's tongue, must be counted to him for righteousness not only in Quebec, but wherever it is remembered that French is spoken officially in the high court of parliament, in the supreme court of Canada, and is accepted as a test for any person in any province who desires to become a naturalized Canadian.

With all possible goodwill towards Mack and absent premier, parliamentarians yesterday, a premiership should be in a chronic state of suspended animation. When there was a double about making a Union government, during the summer of 1917, and western Liberal leaders, who had gone into the pro-Laurier convention in Winnipeg, were dubious about fusion for war purposes, they expressed their willingness to serve under any one of four men who were named, with Sir George Foster as first choice. There was a day on which it was confidently expected, by those who were behind the scenes, that Sir George Foster would be premier within a week or two.

But the Conservative caucus would not think of Sir Robert Borden's retirement, so there was good feeling towards the older man, and Sir Robert himself would have been quite content to serve under him. He wished an honorable discharge from a post which had become exceedingly heavy. Sometimes first-class governmental situations develop with great speed, but as a rule they ripen like fruit upon the tree. There is no doubt about Sir Robert Borden's anxiety to be relieved of embarrassment, as well as of responsibility. If the government supporters could be reasonably unanimous, not only as to a house leader, but as to a premier, under whom they could work during the uncertain life of this parliament, the cause of constitutional government would be well served. The present case is one for parliamentarians and not for a junta, however clever and obscure, to deal with.

The Third Party Has Arrived.
 This session will be memorable in Canadian history. For the first time a private member appeared at the opening of parliament wearing a dress suit. He was Mr. Caldwell, the representative of the United Farmers of New Brunswick. The first whip of the first duly organized third party in the commons was appointed. Yesterday Mr. Crerar's forces caucused and made Levi Thomson of Qu'Appelle their whip. He is to have two assistants—not a bad proportion out of a total assembly of about twenty.

When Mr. Crerar was at the U.F.O. convention last December he was hailed as the next premier of Canada. Whoever may be crowned at the advance of agriculture—at the prospect of Cincinnati wearing the purple, there is a great constituency in the country to which Levi Thomson is a shadow of greater things to come. Today Mr. Crerar is to speak as the formal leader of the third party. The event is portentous—of how much no man will care to prophesy.

Find Out the Real Situation.

There may be more in the idea of a party taking over the street railway without waiting for September. It can be disposed of by a

curt refusal to examine it. "There's not to reason why" is not applicable to any prospect of giving half a million people relief from a situation that has been intolerable for many years. The Street Railway Company deserves no consideration from the city council or from the citizens. But the people who have been irritated by it for twenty-eight years deserve every consideration. Dictators of civic procedure seem sometimes to be intent on leaving the railway people to stew in their own juice, as if retaliation were the only object that counts. It would be good policy, or it would not, now to call it 1921—as, in the house or commons, Mr. Speaker is sometimes asked to call it six o'clock. But the question has not been thoroughly discussed anywhere.

It may be assumed that because the railway company is willing to sell out there is abundant reason for refusing to look into the matter. It can also be grasped, even by the most frenzied fooler, that while it may be good to punish the company much, it may be worse to punish the citizens more.

Two questions cover the ground that is involved in the prospect of calling it 1921. What service could be rendered to the public? Would the anticipation of the agreement's death place an undue burden on the taxpayers? Who has made any real attempt to answer either of these questions? It will be worth something to the company to get off its hands the milk cow which, for it has run dry. But is it worth nothing to the city to get speedy control of the animal, and take the kick out of her? If the company is being hit at our expense, it may possibly be wise to stop the expense.

Half a million Torontonians are abominably crowded into cars when they are entitled to comfortable service. A large proportion of them have to use two systems to travel from home to work and back again. Not a nickel should go to the company for surrendering the franchise before it expires. But if putting it out of its misery also put us out of our excruciation, would a year's advance in comfort—assuming that it would take from now till September to reconstruct the service—be worth an average of two cents per week per passenger?

A short session with the vital and financial statistics of Toronto transportation might conceivably do a world of good, and prove that there are none so blind as those who refuse to see.

Is It Our Geddes?

Sir Auckland Geddes is to be the British ambassador to the United States. His appointment has been announced by President Wilson; but the acting minister of external affairs at Ottawa has not yet announced that it is agreeable to the Dominion government—and Mr. Rowell is a highly skilled and timeous applier.

It is said that the new ambassador became known in the British House of Commons as Sir Awkward, because he never learned how to take parliament smoothly. He is a former college professor. Even a period at McGill did not cure him of that air of dominating condescension, which may do very well in the classroom, where the right of reply is strictly limited, but is scarcely suited to the forum of the state. He was president of the board of trade, and if he received fewer cracks than the unapproachable Winston, it was because he is not Winston's size.

President Wilson is the professor, running on high or on low gear, according to one's conception of what academic gear is. As the schoolmaster ordained to bring congress and the nations to time, he has produced remarkable effects. Lord Grey is understood not to have been to his liking—which may explain why he did not see Lord Grey during the four months he was in Washington. Lord Grey was only a statesman and a diplomat, who always preferred fishing and tennis to didactics. The new ambassador won't have to wait long for official recognition when he reaches Washington some time next month. He is to the Wilson manner born.

Meantime, no doubt it is taken for granted in London that Sir Awkward—Sir Auckland Geddes' transfer to Washington will be agreeable to Canada, seeing that he once immigrated to Montreal, and was the president-designate of McGill. But why has the acting minister of external affairs told us nothing of Canada's disposition towards the appointment? Perhaps it may be assumed that it has been favorably received. As Canada's attitude towards republican objections to her full status in the league of nations was conveyed to the proper authorities in London, and transmitted by them to Washington, Canada's temper towards Sir A. Geddes may have been intimated in the same venerable way. Still, it would be comforting to know whether anything has been said in our name. There have been stories, that seemed to wear an official color, to the effect that at last we were going to appoint our own real, living ambassador to Washington. In a few days, mayhap, we shall hear whether Sir Auckland Geddes will speak for us, or whether he will be one of our very external affairs.

Raney Not So Dry.

Mr. Raney points out that it was a mistake to think that he told Mr. Spence's committee that there would

JULIUS CAESAR UP TO DATE

I've had about the men that are fat, sleek headed men, and such as sleep o' nights: Yon Cassius has a lean and legal look, He thinks a heap: such men are needed here.

be no changes in the Ontario Temperance Act during the pending session. Mr. Ben Spence and his friends of the Dominion Alliance demanded a bone dry act, regardless of what has been done about importation at Ottawa. Mr. Raney replied that the O. T. A. expressly excludes from its view "bona fide transactions in liquor between a person in Ontario and a person in another province or a foreign country." If importation is to be prevented the government evidently thinks it should be done by the referendum which the legislature must demand from the federal government. But that does not exclude improvements on the main question in the O. T. A. enforcement machinery, which the government is considering.

Perhaps Mr. Raney would like to oblige the Spence delegation, but the cabinet as a whole has become convinced that on the main question it had better observe strictly its mandate to stand by the act, the whole act and nothing but the act, as far as its basic decrees are concerned.

The attorney-general's deliverance shows him to be a reasonable man of the law and not the narrow fanatic he has been pictured. Even the devil is not as black as he is painted; and a Raney is not as dry as he sometimes seems.

The Next Gallantry.

Lawyers sometimes hunger for more law much more than they do for more justice. President Gash of the Optario Bar Association, called for both in his annual address yesterday. He wants a federal divorce court that will relieve Ontario and Quebec citizens from the inconvenience of having to get an act of parliament to dissolve a personal bond. All the other provinces, he said, have courts which may grant divorce. Divorce may be made vastly too easy, but so long as the grounds upon which it is granted are really serious, it is the truest gallantry to make it less difficult, because in the majority of cases it is the women who suffer oftener and most severely from marital woe.

One of the best safeguards against disaster after marriage is the facilitation of knowledge of character before marriage. The freedom of friendship between young men and women which distinguishes our social state, is admirable and might be improved upon. In Toronto sixty thousand women earn their living in factories and offices. Many thousands of them have to dwell in boarding houses, under disadvantages which it is a civic duty to minimize.

There is room for the Y.W.C.A. to do on a larger scale what the Y.M.C.A. does. Why should there not be great club centres in different parts of the city for our feminine independents? And why should not the wise gentlemen who have established the three Y.M.C.A.'s in health and wealth, give the young sisters their hands, and lead them into campaigns for community accommodations? It would be a good and pleasant thing for the Y.M.C.A. and the Y.W.C.A. to work together in the new gallantry of mutual service.

Next Irish Turn.

Today there will be conferences in Dublin which will signalize the return of Sir Horace Plunkett from the United States. All sorts of Irishmen, including Sinn Fein members of parlia-

Socialist, in Pressing for Confiscation of Properties, Rattles Reputation.

Berlin, March 3.—The fight to deprive the former emperor of his properties and fortune began in earnest yesterday, when the motion of the Majority Socialists of the diet to refer the issue to the national assembly precipitated an acrimonious debate. The Majority Socialists vied with the Independents in denunciation of the former ruler in an effort to defeat the proposed settlement by accomplishing the confiscation of the Hohenzollern possessions. This would be a new leap, but that he had been the guardian of peace had been disproved by his continuous rattling of the sword and proclamations of the mailed fist.

The deputy expressed doubt as to whether the former emperor had subscribed to war loans, as had been claimed, while his claim that he had been the guardian of peace had been disproved by his continuous rattling of the sword and proclamations of the mailed fist.

Mr. Armstrong's Niche.

East Lambton has a useful if not a brilliant member in Mr. J. E. Armstrong, who is bringing down motions to place the steam traffic under the control of the railway commission and for a permanent body to control steamship traffic between Canada and British ports.

STARKVILLE COMPLAINS.

Editor World: I am writing in regard to the service given us by the Canadian National Railway at Starkville station. Formerly when any person wanted to go on the train, the train was flagged by the agent, and it took on whatever business was there.

This last year, say we have had next to no service. The trains stop on Wednesdays and Saturdays. Wednesday is a half holiday in all our towns, leaving Saturday the only day for one to do business and go by train. There has been a great deal of complaint in regard to this service. A petition was signed by a great many of the Starkville citizens and sent in to some letters of complaint. A representative of the C. N. R. came, but did not give much encouragement. All we ask for is a flag service as before. The C.N.R. man said they were running a thru train for the city people, but was asked if the people here were to receive no benefit. We have the inconvenience, but little or no flowers to be found in most gardens of every country. What is its name? —ANSWER TO NO. 126. THE DAY AT OTTAWA

BY TOM KING.

Ottawa, March 3.—(Special).—The return of the envoys and whatever they brought back from Sir Robert Borden engrossed the attention of the capital today more than the sitting of parliament. All eyes were turned to the prime minister almost restored to health. My point is that we can do more for temperance by moral suasion than by drastic legislation.

Mr. Cocksbutt opposed Mackenzie King's motion calling for an early appeal to the people. He warned the rough sledding in his native province of Ontario. Everywhere he would be asked where he had been during the great war and what he had done to bring about the victory. That would be the acid test applied to every candidate in many counties in Ontario.

The Farmers' party held a caucus this morning and elected Levi Thompson of Qu'Appelle, one of their number, as party whip. They are to hold another meeting tomorrow to agree on amendments in respect to the King amendment.

MENTIONED FOR OTTAWA POST.

Ottawa, Ont., March 3.—It is confidently predicted today that Senator M. J. O'Brien of Renfrew, the prominent railway contractor and mining magnate, will be next chairman of the Ottawa improvement commission.

THE GIRL WHO SMILED THRU
By MARION RUBINCAM

A PARTY. CHAPTER 22.

"This isn't really an affair, not really even a small party," Lois explained to David a few nights after their drive. "You see, I'm in deep mourning, and not going out. But in little places like this, these things aren't observed formally."

She smiled up at him as they stood on the porch. Her manner of referring to Farmington was always a little ironic; she spoke to David as one city dweller to another, as tho the people of this little town were inhabitants of another world.

"You are foolish to wear black, my dear," David advised her. "Don't you know it's the hottest color you could put on? And these days are hot enough as it is."

"Yes, I wish she wouldn't," Alice said, coming thru the doorway. "Lois, dear, no one would criticize you if you put on that little blue chiffon, and it's so becoming. Do run up and change into it. I like it so much."

Lois left them obediently, and David moved over to Alice and took her hand. "Not here," she said, and smiled at him. "It's light yet, and the neighbors can see in on the porch."

"I haven't had a chance even to look at you for a whole day," David grieved. "You won't have much chance this evening, either," Alice said teasingly. "Someone has to do the work of this party, and as I'm giving it, I'm afraid I'll be busy."

"What shall I do then?" David wanted to know, making a solemn face about it. "Be nice to Lois," Alice said. "She likes you and you like her by this time, don't you?"

"Yes, I misjudged her. There's something very appealing about her," David confessed. "I want Lois to meet some of the young folks about here," Mrs. Fairbanks said later. "How nice you look in your summer flannels, David. Our town boys will be terribly jealous."

"I suppose you are to be the queen of the party on a cushioned throne?" David asked, sitting down near the big chair where Mrs. Fairbanks, in her best black tulle, was comfortably reclining. The old lady smiled at him. She had taken to her heart this honest-eyed young chap from the city, who seemed to adore her Alice so thoroughly.

"Here comes the party," David announced when he heard voices at the gate. "And, look here, will you, at Lois!"

As he spoke, Lois came down the stairs. She was exquisitely dainty in her fluffy little chiffon and lace dress, made in a simple, baby-like fashion. She was so pretty she dazzled the younger boys of the neighborhood, many of whom were afraid to talk to her.

But the older women and the girls, already friends with her, crowded about as to how her dress was made. "Where is Alice?" David asked several times. And the reply was usually the same: "Alice is in the kitchen."

She came in later, her face scarlet from hurrying and from the hot night. The knot of her hair had slipped to one side, where it wasn't becoming, and the ruffles of the well-worn gown had lost their crispness. She stood beside Lois for a minute—she was the healthy, sun-burned, country girl, and Lois was the fragile, pretty bit of city-bred perfection.

David stood and looked at the two girls, and something of disapproval crept into his eyes when they rested on Alice.

"My dear, why can't you fix yourself up a bit?" he whispered. "I know you have been working, but you have no business working so hard to give Lois a good time. Go on up and make yourself presentable. I'll wait for you here."

Alice looked at him and her eyes were gray and resentful, and a little hurt. At the other party he had said the same thing, only more gently. Then she laughed. What a silly thing to worry about!

"A night, I'm thru now. I'll powder my nose, and come down as cool and fresh as a cucumber." And she went upstairs to join the group of merry girls who were in her room drinking and laughing. But when she came down, David had disappeared. And so had Lois. Standing by the window talking for a moment to Clara, Alice caught the childlike laugh and the high, sweet voice of Lois saying: "O, but you mustn't," and David's answering laugh. They were out on the lawn.

She felt suddenly sick and very tired, and resentful—not at David, but at the selfish little cousin who could spend time to make herself attractive.

Plays, Pictures and Music

"The Unknown Purple."
At last we have something new under the theatrical sun. Rotations and the beaten path of the play-stage, violated all the rules of the stage, with the result that we have a character who the author asks his audience to believe is able to make himself invisible before their very eyes. With the aid of electrical effects he does it. In one scene we have him as a natural human being, in an instant he is enveloped in a purple haze, which slowly fades him from view, quite the same effect as obtained in the "movies."

The piece proved a tremendous sensation in New York last season, where it played for an entire year at the Lyric Theatre. This year it repeated its metropolitan success in Philadelphia and Boston, and now it is scheduled for a week's run at the Strand Theatre, commencing next Monday evening, with matinees on Wednesday and Saturday.

George Froberg, spending the winter in New York, has organized a company, comprising Miss Marion Rogers, Benedict MacQuarrie, Herbert Ashton, Joseph Slayton, Arthur LeVing, Miss Marion Allen, Miss Eveta Knudsen, Henry Redding, Grant Sherman and E. L. Duane.

Patrons are warned to be seated before the curtain rises, as no one will be seated during the prologues. Matinees at 2:15, and evening at 7:15, 7:45 and 8:15 o'clock. Seats are now selling.

"The Passing Show."
With a wonder cast of super-excellence, and with the most gorgeous production ever turned out by the famed New York Winter Garden, the "second edition" of "The Passing Show" twenty-fourth annual revue from this notable temple of original amusement delights, comes to the Royal Alexandra week beginning Monday, March 15, with matinees Wednesday and Saturday. Mail orders now.

"Three Wise Fools."
"Three Wise Fools" of the biggest comedy hits ever recorded on Broadway, comes to the Princess the week of March 15. This exquisite comedy established a record of 323 consecutive performances at the Criterion Theatre, New York, last season, and at the Royal Philadelphia and other cities played this season, discriminating reviewers pronounced it the best comedy brought to the year. John Golden, who produced "Turn to the Right," "Lightnin'," "Dear George" and other successful comedies, entire New York cast and production in fact, thus affording local playgoers an opportunity to witness the finest comedy and comedy company under the same favorable conditions which characterized the presentation elsewhere.

"Roly Boly Eyes."
Seats are on sale today for next week's attraction at the Princess which will be John Cort's production, "Roly Boly Eyes," a different and successful musical comedy "Roly Boly Eyes," with its well-known comic duo, Ed Leonard, who is over a year since Leonard was seen here, as he has been playing continuously in New York for the past forty-two weeks, where his popularity is greater than ever. Were it not for the fact that Mr. Cort was unable to buy an extension of time at any New York Theatre, "Roly Boly Eyes" would still be on the Atlantic coast playing on city business. Eddie Leonard, the star of the production is ably assisted by Queenie Smith, a beautiful girl who sings, dances and acts well; funny May Foley, the comedienne; Edna and Earl Gates, eccentric dancers.

"Down Limerick Way."
Fiske O'Hara will present the popular Irish star, Fiske O'Hara, in his new romantic comedy, "Down Limerick Way," by Anna Nichols, at the Grand Opera House next week. With the role of a carefree nobleman, possessing a fine estate on the Emerald Isle, who after being married to a girl, who later is seen in a scene, he is in two acts and six scenes, taking for his foundation some of the incidents in "Polly and the Past," "Garden of Eden," "Before Pleasure" and the big oriental scene from "East is West," and blended the satire into a comedy.

"The Unknown Purple."
A wonderful array of vaudeville acts enforces: Julian Ross, character artist; Marie Russell, comedienne; "The Brown"; the Al Golen troupe, the Persian marvels; Stuart Black & Co., presenting "Scotty Villa"; J. J. Hines and Gordon, the musical laughmakers, and Leonard and Wright, in modern dance ideas.

Next Week at Gayety.
Everything new but the title is what Balthus Gerard offers to "Polka of the Day," which will be the attraction at the Gayety, beginning with a matinee, next Monday. To back up his statement, Mr. Gerard states that he has written an entirely new book, which he has christened "Polka of the Day." The play contains many new and novel ideas, and says nothing of the ludicrous lines and situations built to amuse patrons of this line of entertainment.

At the Star.
Aiming to present something a little different from what is offered by the usual run of burlesque shows, "Oh Frenchy," which opens next Monday at the Star Theatre for an engagement of one week, will present the laughable two-act musical piece, "A Day at the Movies." The popularity of this production everywhere it has been seen thoroughly demonstrated the fact that the audience, that the music is tuneful, that the girls are pretty and that the scenic and wardrobe appointments are of a high scale. There are many unusual innovations which deserve special attention, and the play, with its many of present-day success, such performers as Bert Weston, Mitty Denby, and the French and eastern portions of the continent, while fairly pronounced disturbance covers the entire play.

year, for "Pinto" literally ropes the man of her choice, and takes him back to the range, together with an old-timer who has tried in vain for years to get the afternoon tea habit.

"By Right of Purchase," a very good sample of Miss Falmagne's work, sketches a chapter in the life of a young woman who acquiesces in a marriage of convenience, and turns into one of love.

Packed houses have attended the performances of "Mr. Wu," Matheson Lang's striking photoplay presentation of his great London stage success. This English production, which is receiving its first audience, this side of the Atlantic, runs for the balance of the week.

Dorothy Dalton at Strand.
Mystery, thrills, love, romance, and adventure are intermingled with wonderful effect in "His Wife's Friend," starring lovely Dorothy Dalton, at the Strand Theatre this week. This Paramount picture directed by the masterly skill of Thomas H. Ince gives Miss Dalton new scope for the display of her brilliant talents as an actress, and her winning personality sparkles out more appealingly than ever.

The unique mystery plot of "His Wife's Friend" grips an audience and holds it in breathless suspense. A dark tragedy just suddenly in a beautiful English home in which the wife is unhappy with her self-absorbed titled husband. The question is: What is behind the tragedy? The wife's friend is suspected. The wife also seems to be implicated in the crime. The plot is completely baffled, and the dark mystery of a Chinese avenger's plot seems impossible to unravel until the astonishing final climax comes.

"Friend," is a play of real thrills, but it is also rich in romance and racy scenes of great beauty. The feature is being shown at 11:15, 1:45, 3:45, 5:45, 7:45 and 9:45.

Next week the Strand will show the thrilling, beautiful, and spectacular play of southern romance and racy, "In Old Kentucky," starring winsome Anita Stewart.

Tom Mix at Madison.
There are few if any Western stars playing today who enjoy a wider or a better deserved popularity with movie fans of all ages than does Tom Mix, who will be seen in his latest William Fox production, "The Feud," at the Madison Theatre today and for the rest of the week. Always an actor of great strength and appeal, in this picture he excels himself.

Alhambra Theatre.
Today is the last chance for theatre-goers to see "The Unknown Purple" at the Alhambra Theatre. The picture has been playing to capacity audiences all week, and the famous Cecil De Mille story has proven to be a huge success. Irene Castle, in "The Invisible Bond," will be shown today and Saturday.

Sir Oliver Lodge Coming.
Sir Oliver Lodge, one of the world's greatest authorities on spirit phenomena, but holds a foremost place in the world of science. He has devoted much study to the subject of stigmata. The distinguished scientist will lecture at the Alhambra Theatre, Saturday, March 13. The seat sale opens Tuesday next.

In addition to showing Constance Talmadge in "Erstwhile Susan," an extra special attraction will be presented in the form of a vastly amusing four-act comedy, entitled, "Twilight Baby."

COMMISSIONER WILL NOT STAND FOR IT

Giant Cut in Estimates Rouses Ire of Commissioner Chambers.

More than half a million dollars was cut away from the estimates prepared by the board of control at yesterday afternoon's session. When the wholesale slaughter was nearly over Commissioner Chambers could contain his growing ire no longer and burst forth.

"Mr. Mayor," he vociferated, "I wish to protest strongly against the haphazard and foolish manner in which these estimates are handled. I have been in the civic employ for twenty-five years and I know the way these matters are dealt with. It is antiquated, unbusinesslike and unfair. I intend bringing a new plan for considering estimates before the board and if it is not favorably received, I will take it on to the city council and fight the matter out."

"The mayor," Mr. Commissioner, you are casting reflections on the board of control."

Commissioner Chambers: "I am not throwing the blame on the board, I am blaming the system under which the estimates are handled. It is antiquated, unbusinesslike and unfair. I intend bringing a new plan for considering estimates before the board and if it is not favorably received, I will take it on to the city council and fight the matter out."

"I'm sure we'd be glad to consider any new plan," said the mayor, soothingly.

A Heavy Pruning.

The original estimates totaled \$1,255,890. From this the parks committee had already cut \$109,112, and they, together with yesterday's cut, makes a total pruning of \$604,540. A complete budget amounting to \$109,096 for park improvement works, was struck out in its entirety. A like fate befell an item of \$129,950 for new buildings, and \$153,049 for special items was struck out. Attached to the latter was the proviso that three of these items, namely, the resurfacing of roadways in High Park, the extension of a stone wall on the Humber boulevard, and a new concrete walk at Allan Gardens, might be reworked for discussion.

The entire cut in the maintenance account for the Exhibition Park was \$6,774 from \$58,780 asked. The total cut on the estimates for the C. N. E. amounted to \$29,774.

BOND STREET CHURCH BAZAAR

Yesterday afternoon Bond Street Congregational Church launched a bazaar comprising many departments. The stock in trade was valued at \$25,000 and in addition to the usual display of fancy work included groceries, hardware, candies, furniture and dolls. The decorated booths were placed in the parlors and in the school church choir. Tea and dinner were served. The bazaar continues today and Friday.

REAL ESTATE NEWS

Messrs. Harry and John Chinn, of the Toronto Wood-Turning Co., on Richmond street, west of Bay, have purchased the business and premises of Messrs. Cameron and Campbell, of the Don Esplanade, near Queen street, for about \$25,000, and will reorganize and enlarge it. The new name of the concern will be the National Showcase Co. The goodwill, machinery and premises are involved in the deal. Leo Wakely will be associated with Chinn Bros. in the new enterprise.

The old Albion Hotel on Jarvis street, which includes part of the Brothers Hotel, has been purchased in the name of Frank R. Darrow for the Yellow Taxi Cab Company. The property takes in Nos. 33, 35 and 37 Jarvis, with a frontage of 78 feet and a depth of 138 feet. The assessment is about \$24,000, and the sale price about \$59,000. This hotel is a landmark, part of the building having been erected over 90 years ago. Charles Harley bought the site in 1839, and shortly after built the hotel, which he conducted until 1888, when he sold to Thomas Berkingshaw, who carried on the hotel business until 1898. It was then leased to John Holderness. The hotel was closed down in 1901, and the premises have been used for different purposes since. It is understood the purchasers are expanding their business and will operate under the name of the Yellow Service Corporation.

A new company capitalized at half a million has taken over the assets and goodwill of the International Machine and Tool Co., Ltd., and the Reliance Motor and Tool Co., Ltd. The new company are: Messrs. Thomas L. May, Harry A. Newman, barrister, and John George Baukat. The business of the company is now carried on at 183 George street, and at 111 Adelaide street west.

The lot at the southeast corner of Queen and Crawford streets has been purchased by the Patterson-Candy Co., who now have all the Queen street frontage from Massey to Crawford streets. The price is said to have been \$350 a foot.

ESCAPED FROM DON CASTLE

Hannah Hoffman was arrested in Hamilton yesterday afternoon for the Toronto police on a warrant charging her with escaping from custody. Accused, along with a woman still at large, escaped from the Toronto jail on August 5 last. Both women dug their way out from beneath the Don castle wall and were gone nearly two hours before it was discovered by the authorities. Detective Crowe will leave today to bring the prisoner back for trial.

It is the intention of the sales department of game and fisheries of the federal government to continue the business during the current year.

SOCIAL SERVICE WILL EXPAND ACTIVITIES

Expansion of the activities of the Social Service Council of Ontario is being planned, the scope to include educational, legislative and other forms of work, the idea being to include all the forces of the province and of the community interested in welfare work.

Under the guidance of the community centre committee, community associations are now being formed thru which the council will co-operate with the Ontario government in schemes for community centres in connection with consolidated schools as well as with all organizations active in this field of endeavor. Among other things reported is the appointment of a promoting secretary to develop child-welfare work, and an effort will be made to assist the aims of the Neighborhood Workers' Association. Indications point to co-operation between the council and all interested in the betterment of social legislation and social conditions generally.

CHANCES TO MAKE BIG MONEY

In Most Enterprises, Are by Investing at the Beginning of the Undertaking.

DOLLARS have turned into thousands by this method. THE THOMPSON POWDER COMPANY, LIMITED, of Deseronto, is about to start the manufacture of the new explosive—THOMPSONITE.

Exploration Completed on the HERRICK GOLD MINES

Main vein cut at 800 feet by diamond drills indicating existence of a shoot containing a huge tonnage of ore—average assays show a value of over \$15 in gold to the ton

THE big vein of the Herrick Gold Mine, which is 1000 feet long on the surface, has been proved by diamond drilling to a depth of 800 feet. The existence of an ore shoot 1000 feet long, 800 feet deep and at least 10 feet wide is strongly indicated.

A large tonnage of excellent mining ore should be "blocked out" in a few months of aggressive development.

A mill should be in operation within a year. In view of this very favorable outlook the shares should have a substantial rise even within three months.

The treasury is well fixed, therefore, the present offering is a limited one of 100,000 shares at 40 cents a share.

Spring Notes

"My heart's in the Heilan's," sings Dame Fashion this Spring Season and launches the most bewildering variety of woollen plaids the world of fine fabrics has ever known.

Design, for instance—blocks within a block in many tones of the same color—little checks running rampant over big squares, interspersed with shadowy stripes to give a further and still lovelier plaid.

But 'tis not alone in the design that the great appeal of the Spring 1920 plaid lies; 'tis in the wealth of coloring—rich, softly-harmonizing, rare. Two, three and even four tones of a shade are often seen in one plaid.

Just now our Silk and Dress Goods Departments are showing a magnificent assemblage of the newest plaids of the new season. So many of them, indeed, that your only difficulty will be in choosing which you like best.

Most important of all is the fact that these beautiful plaids are featured in fabrics of unsurpassed quality, at prices as low as equally substantial weaves are obtainable for anywhere.

The New Serge and Jersey Dresses for Women

Are Here in a Host of Designs, Possessing Many New Style-Notes That Will Delight and Fascinate the Fancy.

Rippled coat models, many tiered skirts, rich embroidery in silk, chenille, wool and tinsel on both bodice and skirt, novel panniers and panelled effects—they merely hint of the many clever features of these new frocks.

The serges are mostly in navy and black, but the jerseys have taken on loveliest shades of jade, blues, fawns, taupe and gray. Prices range from \$29.75 to \$55.00.

Women's and Misses' Dresses, \$9.95 Regularly \$15.00 to \$18.75

50 dresses only—silk poplins and velveteens, with smartly draped skirts or tunics and braid or button trimming. Various shades. Morning special, today 9.95

French Trimming for Your Spring Hat

Just Arrived in Time for the Spring Millinery Openings—Their Beauty, Novelty and Variety Present an Endless Array of Ideas to the Woman Who Trims Her Own Hat.

Great bunches of luscious red cherries and cherries in lacquered black or green or Oriental colorings—or unique combinations of fruit and flower in loveliest of bunches.

Flowers of the favored cellophane are in glistening blues, orchid, purple, bronze. Colorful foliage in silk, linen or cellophane—realistic or brilliant tones—we never saw lovelier.

Roses have started on a wonderful career this season—and there's a veritable garden of them in red, pink or American Beauty tones, priced all the way from 50c for some beautiful bunches to \$8.00 for exquisite specimens of the "hothouse" variety.

Feathers Are Favored

And you may choose from smartest of bands of burnt goose, glycerined ostrich or vulture or heron. Curled ostrich bandings in vivid colorings that stress jade, rose and marine blue are too lovely for words—some showing the revival of the fluffy "foxtail."

Wonderful waxed wings range from chic little fly-away to broadly sweeping effects, and numid stick-ups in vivid tones are immensely chic.
