Political Crisis in Denmark.

On Monday of last week a crisis ocarred in the political history of Dennark, when a final debate was being had in Parliament (Rigsdag) on the supply bill. Messrs. Halls Safe and Lock Co., Louisville, Ky., Gentlemes;—The large number 13 Double Doer Fire Proof Safe purchased from you in March, 1872, was in the disastrous fire, corner Eighth and Main streets, on the night of the 16th inst., when over a half million dollars of properly was burned, and stood nobly one of the most severe tests possible, dilling into the cellar with the walls of the building, and several hundred barrels of whiskey stored in the upper stories poured their contents into the

ing, and several hundred barrels of whiskey stored in the upper stories poured their contents into the celler, keeping the safe literally boiling in burning whiskey for over forty hours. The bricks and stone were burned into ashes and line, and it was the hottest fire ever known in Louisville. The safe was buried several feet under the bricks and ashes for two days, and after being flug out of the ruins was opened, and we are proud to say the books and papers were found uninjured, not even discolored or scorched. Several gold watches and some valuable jewellery were found untarnished. We wish you to deliver, to-day, a duplicate of the safe to our new store, No. 9 Main street, and we still send you a check for the money. We want no PURE AIR & EVEN TEMPERATURE other safe but a Halls. Yours truly,
A large lot of all sizes and kinds of these Standard Fire Proof Safes constantly on hand, at prices to suit the times.
