GOOD PROGRAM FOR LAST DAY OF THE EXHIBITION

Big Show Closes at 10.30  
Tonight—Special Performances of Diving Horses and New Feature at Amusement Hall—Looks Like Big Day.

Friday's Attendance

1906	1908
4,072	3,988
10,608	6,314
11,884	11,250
14,172	16,472
14,331	13,820
9,912	13,680
5,253	
71,022	
65,584	

The exhibition attendance to date is:  
Yesterday's attendance at the exhibition was a great surprise, breaking as it did all previous records for Friday's attendance. The exhibition has been singularly fortunate as regards the weather, and the indications for today are also encouraging.

FOREST FIRES SWEEPING OVER NEW YORK STATE

As Yet Only Brush has Burned But Valuable Timber Areas are Threatened.  
ALBANY, N. Y., Sept. 18.—New York State is threatened with forest fires which may equal those in 1902, when several lives were lost and millions of dollars worth of property destroyed, according to a statement made today by John Ward, counsel to the forest, and in the same commission. The forest fires raging in the Adirondacks are spreading rapidly and in the present drought up-state counties for a few more weeks, Mr. Ward says a very serious situation is sure to develop. In 1902 the fires extended over 10,000 acres of forest lands.

SAYS HUSBAND BEAT SON AND CHAINED HIM

Wife, N. H. Woman's Wild Tale of Cruelty to Insane Boy—Husband is Arrested.

PORTSMOUTH, N. H., Sept. 18.—That her 23-year-old son, Charles, was chained in a dark room, beaten like a wild beast and taken out into the field and tied to a tree, is the substance of the testimony of Mrs. Moses Brown, of Rye, N. H., who she appeared before the police court here at the arraignment of her husband who was held on a charge of assault in \$100 bonds, which he furnished.

SIX BICYCLE TEAMS GAIN ON THE OTHERS

NEW YORK, Sept. 18.—A furious spurt by Moran, who was later relieved as pacer-maker by Clark, resulted in the gaining of a lap by 6 of the 12 teams participating in the six day bicycle race now in progress at Madison Square Garden.

INTERNATIONAL LAWN TENNIS CHAMPIONSHIP

BOSTON, Sept. 18.—With the Americans in the strong position of two points to one, the British Lawn Tennis players went to Longwood today facing a hard proposition. The victory in the doubles yesterday by the Americans left Mr. B. G. Ritchie to play against Walter A. Larned and Jean G. Parke to meet Beals C. Wright in the singles today, the closing matches in the tournament to decide which country shall challenge Australia for the Davis cup.

MOUNTAINS FILLED WITH GOOD COAL

Alberta and British Columbia are Well Supplied.  
Areas Extend From Lethbridge Beyond Fernia, and North as Far as Banff—To Operate Widely.

FERNIA, B. C., Sept. 18.—The aggregate production of the coal mines in southwestern Alberta and southeastern British Columbia amounts to a few million tons annually when business is brisk, and since the first mines were opened many millions of tons have been placed on the market. But this is not only a handsome comparison with the quantity which is to be brought forth in the future. One estimate of the coal deposits underlying southwestern Alberta and southeastern British Columbia places the whole amount at about 2,000,000,000 tons, and a "geological intelligence" is necessary to comprehend what that figure means. It has been officially stated that the properties of the Crown's Nest Pass Coal Company, which has its headquarters here, contain coal enough to continue the present rate of production for a period of 10,000 years, and to the north and west, beginning at a point in the neighborhood of Lethbridge and run north and west, with variations in grades and quantity, to a point near Banff, in the heart of the Rocky Mountains. From there they run south and west to a point west of Fernia, and the district described by this triangle, which has the international boundary for its base, is covered by the estimate of 45,000,000,000 tons. It is within the limits of the triangle that the most active prospecting work has been carried on during the past few years, and new discoveries continue to give confirmation to the opinion that the rocks are filled with coal. It crops out in many places, and even the uninitiated may notice the richness of the deposits.

ALL KINDS OF COAL

There is a variety in the grade of the fuel. In the eastern grades of the bituminous, approaching the famous Pennsylvania soft coal in quality, and is most useful for domestic purposes. Further north it is of a semi-anthracite type, also of good quality and suitable for steam engines. In the region of which Fernia is the center, the coal is of the anthracite grade, and is the product, which is the most difficult to get, and is the most valuable. The coal is of the anthracite grade, and is the product, which is the most difficult to get, and is the most valuable. The coal is of the anthracite grade, and is the product, which is the most difficult to get, and is the most valuable.

THE CROWN'S NEST PASS COMPANY

As far as Fernia itself is concerned, the progress of the future in the development of coal areas depends upon the activity of the Crown's Nest Pass Coal Company. An estimate has already been given regarding the length of time which would be required to exhaust the properties of this company at the present rate of production. There are indications, however, that the rate of production is to be vastly increased. The extension of the Great Northern Railway from Fernia to Michel, thirty miles east in 1907, brought some of the most productive and profitable mines of the Crown's Nest Pass Company into closer touch with the coal-consuming centres of the Pacific slope. New bodies of coal are being uncovered continually in the present workings, and new shafts or tunnels will soon uncover additional seams. The coal is easily available, and all that is needed is the precaution to take it out. This precaution is furnished by the opening up of new markets for the coal and coke. As the railway facilities increase and improve, the output of the company is certain to be augmented, provided the labor can be found to operate the mines. Mines at Carleton Place and Coal Creek, both of which are within easy reach of this city, and which are served by the company's own line of railway, are to be worked much more extensively. It has been stated by some persons who are in a position to form an accurate opinion that employment for 15,000 miners will be found in Fernia by year's end, which means that there will be enormous advances in productive activity. At the present time about 500 Fernia miners find employment with the company, in addition to those who live at Coal Creek. The difference between 500 and 15,000 gives the range of the estimated development between now and an 1912.

YORK LIBERALS LIKELY TO CHOOSE NELSON W. BROWN

Big Crowd at the Capital for Today's Convention—Every Parish Represented—Thos. W. Smith, a Well Known Citizen, Died This Morning.

WASHINGTON, Sept. 18.—The tragic mishap which caused Lieut. Thomas N. Serridge, of the United States Signal Corps, his life Thursday, is the most recent of many casualties from man's persistent effort to conquer the air.

Grand Fall Opening of imported pattern Hats and fine dress Hats at F. W. Daniel and Company, Charlotte street, on Tuesday and Wednesday next. There will also be an extensive display of millinery novelties, fancy feathers and trimming materials.

The Liberal electors of the city of St. John will hold their first ward meetings on Monday evening. A large attendance at the various meetings is expected. The meetings will be held at the following places: Queens, Dukes, Sydney wards, Berryman's Hall; Kings, No. 11 Germain street; Prince, No. 8 Waterloo street; Wellington, Leitch's Hall; Brunswick street; Victoria, Hannah's factory, City road; Dufferin, hall, 640 Main street; over R. J. Adams & Co., Lorne, Lansdowne and Stanley, Temple of Honor Hall; Guy, Oddfellows Hall, West End; Berwick, No. 11 St. John street, West End.

This is to certify that at a meeting of the High Standing Committee of the High Court of New Brunswick, I. O. F., held at the Royal Hotel, St. John, N. B., on September 17th, 1934, the following resolution was adopted and the undersigned directed to publish the same, to-wit: "Whereas, some apprehension has arisen as to the cause of the increase of rates in the Independent Order of Foresters, which it is necessary to correct; therefore, be it resolved by this High Standing Committee of the High Court of the Province of New Brunswick, Independent Order of Foresters, that it is important in the interests of the order to assert to the membership and to the public that the sole cause of such increase in rates is due to the fact that the monthly assessments charged to those members joining the order before 1899 were insufficient to pay for the insurance carried by them, and to no other extent."

Attest: GEO. W. MERRIBEAU, High Chief Ranger. F. W. EMMERSON, High Secretary.

A STRANGE TEST OF MANHOOD. This ancient clan MacLeod used to exercise a strange test to prove the manhood of their chieftains. At Dunvegan castle, Island of Skye, there is preserved the large horn known as "Rory More's Horn." This capacious vessel holds rather more than a bottle and a half of liquor. According to the old custom, every heir of MacLeod was obliged on his coming of age to fill this horn with claret and without once laying it down to drain it to the dregs. This was taken as a proof of his manhood, and he was then deemed a worthy successor to the lairds of the post.—Dundee Advertiser.

A FRESH START. Dyer—Well, I see falling is on his feet again. yer—Yes; he was obliged to sell his auto.

THE GREATEST CLOTHING SALE OF THE SEASON AT HARVEY'S CONTINUES TODAY AND TONIGHT. This will be the last day of the big sale of brand new fall and winter clothing and furnishings. It has been a great sale, crowds, interest, sales increasing daily. Today will be the busiest day. The stores are in the Opera House block, and will be open till 11 o'clock tonight. Buy today while prices are almost cut in two.

Every Woman is interested and should know about this MARVEL Whirling Spray. It is a new discovery in the treatment of all kinds of skin diseases. It is a great relief to all who suffer from itching, redness, and irritation. It is a great relief to all who suffer from itching, redness, and irritation. HORSE TRAMPLES ON YOUNG WOMAN

A young woman named Mary Bonard, who arrived in the city yesterday morning to visit the exhibition narrowly escaped being seriously injured last night when returning from the fair grounds to the station.

The young woman was accompanied by some friends. They were walking along Prince William street when a horse and wagon came along behind them unnoted. Miss Bonard, who was swinging her handbag about in the air, accidentally let go and the object alighted on the road. She started to secure the bag and in doing so ran directly in front of the horse. She was knocked down and the horse's hoof struck her on the back of the head. Before the carriage could be stopped it had passed over her leg. Her friends ran to assist her and lifted her onto the sidewalk, where it was discovered that no serious wounds had been received. Her head was slightly cut and her ankle pained her somewhat. She was placed on a street car and taken to the station.

Mount Everest, the Himalayas is the highest mountain peak in the world, being over 29,000 feet high. The 18,000,000 packages representing one year's output of "Salada" Tea would, if placed end to end, produce a pyramid 5,600,000 feet in height, or 195 times higher than the highest mountain in the world. Can you grasp the magnitude of the demand for "Salada" Tea?

Last day of exhibition. Specials at Gilmore's clothing and tailoring store, 38 King street. Special discount of 25 per cent off the price of ready-to-wear winter overcoats ends tonight. This is an inducement for you to get acquainted with our superior clothing, particularly 20th Century brand fine tailored garments. Visitors will make a saving of their expenses by taking advantage of this offer.

ST. JOHN HAS COME WITHIN SMOKE ZONE

Rain is badly needed almost all over the northern part of the continent. From every region comes the tidings that the woods, dried by the long drought, have caught fire and that forest fires of alarming proportions are raging. A smoky haze covers a large section of the country. Navigation on the great lakes has been seriously hindered by the smoke from fires in New Ontario and on the St. Lawrence the same has occurred. Some idea of the magnitude of the forest fires in the region of the great lakes may be had from the fact that on Wednesday Philadelphia was enveloped in a smoky haze the source of which was the fires in Wisconsin, Michigan and Ontario.

The same phenomenon was observed in St. John. Late in the afternoon the sun assumed a fiery color and the blue of the sky turned to dusky grey. After darkness fell the smoke, which had stayed high in the air, settled down and filled the air with a pungent odor.

Dispatches from St. Stephen state that big fires are burning within a few miles of the town. The country about Oak Bay is particularly suffering from bush fires. The probability is that the smoke cloud which has enveloped the city has been blown from the western part of Charlotte county by the wind. Inquiries by telephone that evening elicited the information that there were no fires east of Leppaux, although there were indications that forest fires were not far away.

OAK BAT IN DANGER. (Special to The Sun.) ST. STEPHEN, Sept. 18.—This section, in common with the rest of New Brunswick, is suffering from rain, of which less than five inches has fallen since the first of June. Tonight the atmosphere is dazed with smoke from fires that have wrought much damage. Oak at Madawaska is being swept the timber land for some days. Back of Oak Bay much damage has been done, and there is fear of it getting into the village. This afternoon a new fire started in Dugan's farm house, and it was feared that it would spread to the village. The farmers' wells and the brooks are dry and there is nothing to fight the fire with. In some places, particularly the bogs, the fire has penetrated the ground to a depth of three feet.

MIXED DOUBLES TO BE PLAYED TODAY. A mixed doubles team tournament will be held today in the courts of the St. John Tennis Club. The winners will become the holders of the club cups for one year. Each pair will play seven games with all the other pairs. Tea will be served during the afternoon. Play will begin at 2 o'clock.

The amendment was then put to the meeting and was carried. Alderman Baxter, McEldrick, Kelley, Lewis, Rowan, Hamm, McGowan, Holley and Sprout voted for and Alderman Frink, Elkin, Baskin, Scully and Willet against it.

Ald. McEldrick then moved that the Finance Board be authorized to furnish funds to the director of public works to allow him to proceed with the construction of blocks for laying up the ferry steamer in Market Slip, West St. John. Carried.

A letter from Chief Clark was read and it was decided that the matter be referred to the Treasury Board and that they had been attempting to get the matter straightened out, but were still awaiting another opinion from the recorder.

Ald. McEldrick said that if the city had a lawyer in the building to attend to these things the city would get its business through much faster.

The mayor agreed that the city should have such an official. It was decided to inform the railway that the bill was still under consideration.

COULD NOT PROCEED TOO FAST. Ald. Elkin said the city had adopted the policy of providing facilities in order to build up the winter port business. The western grain business is growing with enormous rapidity and he did not think the city could proceed too fast to keep pace with the development of the western trade. Experts have said that the business will grow more rapidly than the facilities could be provided. As the city is so well situated as to the coast, he drew attention to the time wasted in shifting the steamer and the consequent loss to the owners.

Ald. Scully said he had come prepared to vote against the proposition, but after listening to the discussion he thought the city should proceed with their inquiries for an elevator.

Ald. Baxter said the matter has been referred to the Safety Board, with power to act. Carried.

The western grain business is growing with enormous rapidity and he did not think the city could proceed too fast to keep pace with the development of the western trade. Experts have said that the business will grow more rapidly than the facilities could be provided. As the city is so well situated as to the coast, he drew attention to the time wasted in shifting the steamer and the consequent loss to the owners.

Ald. Scully said he had come prepared to vote against the proposition, but after listening to the discussion he thought the city should proceed with their inquiries for an elevator.

Ald. Baxter said the matter has been referred to the Safety Board, with power to act. Carried.

A letter from Chief Clark was read and it was decided that the matter be referred to the Treasury Board and that they had been attempting to get the matter straightened out, but were still awaiting another opinion from the recorder.

Ald. McEldrick said that if the city had a lawyer in the building to attend to these things the city would get its business through much faster.

The mayor agreed that the city should have such an official. It was decided to inform the railway that the bill was still under consideration.

AMUSEMENTS DON'T MISS TODAY'S SHOW AT THE HAPPY HALF HOUR LET THE CHILDREN SEE IT.

Prof. Woods does tonight. Don't HEAR HOLMES AND BUCHANAN miss seeing him beat Mr. Wood in the ring. Experience, from the musical air, the greatest aerial illusion ever comedy The Little Cherub, sung in seen here. Also see him catch real live gold fish, with hook and line, in the character costume. One big scream air. Many other wonderful feats. Nothing but encores demanded.

Bargain matinee for children, 5c; adults, 10c. Show worth 25c, so patrons say. Three thousand feet of pictures. See amusement column for particulars. Show lasts 1 1/2 hours.

ST. JOHN STAR.

ST. JOHN, N. B., SEPT. 19, 1903.

NOVA SCOTIA MINERS.

The long expected trouble has at last occurred in the ranks of the miners association of Nova Scotia. A number of the lodges, representing nearly one-half of the total membership of the P. W. A., will desert the central organization and become affiliated with the United Mine Workers of America. Before this matter is settled there will be a long drawn out contest in the courts over the division of the grand council funds, for the vote of this body is recorded against giving any of the funds to the disaffected lodges upon their secession. For upwards of a year the movement towards union with the U. M. A. has been in progress, and a few months ago a plebiscite on the question was taken. The P. W. A., an old organization, has been conducted chiefly by the older and more moderately inclined men, but their policy has not thoroughly satisfied the aggressiveness of the younger miners who believe that wages and working conditions could be improved if such improvement were properly sought. These men also believe that by affiliation with the U. M. A. they would be in a much stronger position to enforce their demands. This would indeed be true if the whole mass of Nova Scotian miners could come under the United States standard, but when less than one-half are ready to do so the outlook appears to be toward confusion. Mine owners in Nova Scotia have in the past got along well with the P. W. A. There have been occasional disagreements but on the whole both parties in these instances have endeavored to meet each other's views and have not insisted on any distinctly unfair arrangements. What the attitude of the seceding lodges will be remains to be seen. Mine owners view the situation with some little anxiety, but they are hopeful that the moderation which has in the past prevailed will continue and they are certainly not looking for trouble. If the lot of the miners can be improved without seriously affecting industrial progress in Nova Scotia the present dispute may be looked upon as unimportant, but it is to be regretted that United States influence is making itself felt in these provinces.

**THE EXHIBITION.**

The St. John exhibition will be brought to a close this evening. The attendance has not been quite equal to that of the fair held in 1902. No doubt the failure of the horse racing portion of the programme had some effect, as did also the circumstance that the Chatham exhibition occurred on the same dates. Yet in spite of these drawbacks the directors will feel gratified with the patronage which has been bestowed. The success or otherwise of the venture from the financial point of view will not be known for some little time. The weather has been beyond expectations. Not only has the week been without rain, but the days have had the brightness and warmth of July rather than of September. Now that the fair is about ended it is no harm to say that previous to the opening a good many persons at St. John entertained the opinion that it would not be quite up to the standard of former years. This may have been because of the fact that the city newspapers did not devote to it as much attention in advance as they have sometimes done. But on the opening day it was found that the display was well up to the mark, that in some departments the exhibits were in numbers and variety far ahead of previous years, and that the management had given particular attention to the comfort of visitors. The exhibition has been a distinct success. Of itself it has been deserving of praise, and the impulse it has given to trade in general can only be properly appreciated by St. John merchants.

The young men of St. John who give allegiance to the liberal party, made an excellent start at organization last evening. The first meeting looking towards the formation of a permanent association was full of enthusiasm, and it is apparent that the older leaders will not hereafter be left to carry alone the burdens of the campaign.

Major General Luard committed suicide because he had been accused of murdering his wife. The police of London have been enabled to discover any evidence concerning that murder which does not point to General Luard as the guilty one. Perhaps he did kill her. Anyway, it may be just as well that he died.

Newfoundland politics are like a Chinese puzzle. The conditions are more complicated than were found in the Province of Saskatchewan at the first general provincial election. In Newfoundland no man may say with certainty just what party or policy any candidate represents. The major-

ity of the leaders, including, perhaps, the premier himself, are again the government.

Fifty thousand dollars the Protestant churches of St. John have promised to give this year, and every year, to missions. This represents five dollars from each male member. Looking at it that way it does not seem very much, but the total is a gratifying amount. St. John can well afford to do this much at least.

**THE OLD OAKEN BUCKET.**

(A New Version.)

The following clever parody on "The Old Oaken Bucket" was written by Dr. Jas. C. Bayles, when he was president of the New York Board of Health, and read at a meeting of the New York Academy of Music.

With what anguish of mind I remember my childhood,  
Recalled in the light of a knowledge since gained,  
The malarious farm, the wet fungus-grown wildwood,  
The chill then contracted that since have remained;  
The scum-covered duck-pond, the pigsty close by it,  
The ditch where the sur-smelling house refuse fell,  
The damp shaded dwelling, the foul water, impure as the veins of iron,  
But worse than all else was that terrible well,  
And the old oaken bucket, the mould-crusted bucket,  
The moss-covered bucket that hung in the well.

Just think of it! Moss on the vessel that lifted  
The water I drank in the days called to mind;  
Ere I knew what professors and scientists signify,  
In the waters of wells by analysis find;  
The rotting wood fibre, the oxide of iron,  
The algae, the frog of unusual size,  
The water, impure as the veins of iron,  
Are things I remember with tears in my eyes.

And to tell the sad truth—though I shudder to think it—  
I considered that water uncleanly dear,  
And often at noon, when I went there to drink it,  
I enjoyed it as much as I now enjoy beer.  
How ancient I seized it with hands that were grimy,  
And quick to the mud-covered bottom it fell,  
Then reeking with nitrates and nitrites, and slimy  
What matter organic it rose from the well.

Oh, had I but realized in time to avoid them  
The dangers that lurked in that pestilent draught—  
I'd have tested for organic germs and destroyed them  
With potassium permanganate ere I had quaffed,  
Or perchance I'd have boiled it, and afterward strained it  
Through filters of charcoal and shortly after that  
A fire broke out in the house.  
Mr. Shoemaker extinguished this, and then went down the cellar to see  
Certain if any damage had been done there.  
Then he ran a nail into his right eye.  
Mrs. Shoemaker is apparently on the road to recovery. It is likely that Mr. Shoemaker will lose the sight of his eye.

**SATURDAY SERMONETTE**

**DRAGGED DOWN.**

When I was a boy I saw a number of boys, well up in their teens, and a dog chasing a half grown kitten. It ran up a tree and I was in hopes that it would escape the persecution of the dog and the other animals. But one of the boys, encouraged by the others, climbed the tree and although the kitten ran from limb to limb, clinging desperately and moving pitiously, it was at last shaken from the limb down to the dog waiting for it. I remember—although it must at least have been ten years ago since I was a little boy—how indignant I was and how I fought those boys even though they were twice my age and size until I was as bloody as the dead kitten.

I have always looked back with pleasure to that hopeless fight for it was my first (remembered) fight against cruelty and injustice. I hope I have done some fairly good fighting since then and now and then have won my battle, but none of my fights have given me so much pleasure as that one and I confess to a very warm feeling for that sturdy little boy of twelve who fought for a helpless kitten and went to his home (when fighting was looked upon as a deadly sin) with his trousers blackened, eyes scratched and scratched face but with a glow in his heart that is remembered after all this years.

I remember too the face of my mother, when I told my story. I saw the tears and the pity in her eyes and another look I did not understand then but do now, a glint of pride as she said: "I hope my boy will always fight for the poor and oppressed."  
I have, since that day of long ago, seen many more cruel things than boys and dogs pulling down from its refuge a frightened kitten.  
I have seen boys pulled down by evil companions until all that was good in them became bad.  
I have seen innocent young girls dragged down from purity to vice.  
I have seen wives pulled down by the

hands of their husbands as they have tried to climb up to something better. Sometimes his drunkenness has pulled her down. Sometimes his coarseness and vulgarly pulls her down, and there are few sightseers so pitiful than to see a girl pure and refined dragged down mentally and socially by a coarse husband. She thought she was in love with him when she married him, but as she realized him, she was soon disillusioned and dragged down from her "cool's paradise."

So many to pull down those who are trying to climb up. So few the hands to fight in defence of the climbers. So many to say I am small and weak and only a boy. What can I do against so many who are so much stronger. And we let the cruel pull down the weak because we are too cowardly to fight for them.

**LONDON, Sept. 15.**—A despatch from Simla gives more details of the explorations of Sven Hedin into Tibet. The explorer suffered terrible hardships because of the weather encountered. At one time incessant snow obliterated everything. The temperature was 28.8 centigrade. The feet of the explorer were partly frozen and all the sheep taken with the caravan for food died. No sign of life was seen for sixty-four days.

**MONDAY'S GRAND OPERA.**

Among the operas of Verdi, one which will undoubtedly survive is "Rigoletto," the story of which is the strongest of any of the modern operas. "Rigoletto" was the hunchback burlesque of the libretto by Francesco Maria Piave and his libretto assistant in all his licentious habits. He has gained the hatred of the courtiers by his religious observance at church, and his beautiful daughter whom he conceals from public observation with the most jealous care, so strictly has she been guarded that she has not been allowed to leave her home except to attend her father at her devotions and contrives to track her to her humble habitation, where, by bribing her servant, he gains access to her, representing himself to be a poor student deeply impressed with her attractions. He succeeds in inspiring her love, never dreaming that it is the daughter of his burlesque he is beguiling. The fact of the existence of a young and lovely woman in the main street" one day when he was escorted by a fellow-townsmen.

### YOUNG LIBERALS FORM IN LINE FOR THE FIGHT

W. E. FOSTER,  
Who Presided at Last Night's Meeting.

The meeting was called to order about 8:15 o'clock, when W. E. Foster was unanimously chosen chairman, and R. J. Walsh secretary of the meeting.

The chairman stated that it was in the best interests of the party that the younger element of Liberals should organize and it was most advantageous for the men themselves to follow the affairs of the country. He asked those present that they get down to good, hard work, as they would help the party greatly by doing so.

William J. Magee asked if the constitution of any other Liberal club in Canada were on hand.

The chairman replied that the desired information was on hand, but that first a motion should be put that the club be formed.

Edward Purchase moved that the meeting should form the Young Liberal Club of St. John. Carried.

John A. Barry moved that the chairman be authorized to appoint a committee of five to draw up the constitution and by-laws. This motion was unanimously carried.

A. W. Adams thought that it would be proper that the chairman would take time to consider who he would appoint, and felt that suggestions might be made from the meeting.

W. J. Mahoney said that the work of drawing up the constitution would be done by the committee.

The chairman stated that it would not be out of order to hear suggestions from those present.

A GREAT AID.  
John Keeffe here stated that a recent meeting of the Liberal executive committee consisting of Edward Sears and himself were appointed to see the Young Liberal Club and to convey to them the entire sympathy and approval of the executive. They felt that it was a great aid to liberalism and would turn out a big success. He stated that he was in a position to say that whatever the executive can do to assist the club will be readily and cheerfully done.

The chairman stated it would be wise to bring in as many young men as possible.

Dr. Robertson asked the definition of a young man.

John Keeffe here remarked that on invitation Dr. Pugsley and Mr. Pender would visit the meeting about 9 o'clock.

In considering the question of an age limit for the club, John A. Barry stated that the club should be for young men in order to get them in line. He said that the older Liberals were already in the fight and felt that while they would work hard in hand the club should be separate and distinct. (Applause.)

John Keeffe, in a brief speech, fully

agreed with the remarks made by Mr. Barry, stating that the younger persons were wanted and those young men over 17 years could be got into the club, so much the better.

Mr. Donovan stated that the young men could find teachers in the older men.

On motion of William J. Mahoney, the chairman was empowered to appoint a committee of three from each ward to bring in young members to the club.

T. M. A. Stewart thought that there should be an age limit of 35 years for members and 20 years for officers of this province.

Dr. A. D. Smith was in accord with Mr. Stewart.

T. H. Estabrooks moved that the meeting recommend to the committee that there be an age limit. Carried.

Dr. Ryan moved that the committee also speak on the matter of age limit.

GREETED WITH CHEERS.  
Dr. Pugsley and Mr. Pender entered the hall at this juncture and were greeted with loud and prolonged cheers and applause.

On motion of Wm. J. Magee it was decided to meet again on Tuesday evening, when the chairman's committee will make their reports on the constitution and the officers will be elected.

Mr. Pender was then introduced by the chairman and was greeted with hearty cheers. He referred to certain slanders which the Conservatives in this city were using against him and moved them to be false. Mr. Pender stated that Premier Hazen said that he (Pender) was opposed to the laboring classes. "My employees can give the best answer to that," said Mr. Pender.

In answering a slander which Dr. Daniel, M. P., is using against him, Mr. Pender stated that the candidate characterized the remark as "a most damnable lie." (Loud applause.) He stated furthermore that it was not necessary to go to church three times a day and ten times a week, and also that many leading men in the world, including Sir William C. McDonald and Andrew Carnegie, were not church members.

Mr. Pender stated that he wanted to describe a new trade, which had been patented by Hon. George E. Foster and characterized it as "scandal-mongery."

He said it was not "iron-mongery," but the deal was "political junk."

He said the greater part of the trade consisted of hot air and made special mention of the application of hot air by the Conservatives in Colchester, Nova Scotia, where Stanfield was elected. He declared that such gentlemen as these were the ones who proposed to defame the Liberal government, "Put a humane gag on all the wind bags and close their mouths forever," said Mr. Pender.

Three cheers were given for the speaker.

DR. PUGSLEY APPLAUDED.  
Dr. Pugsley, in rising, was greeted with loud applause. He told Mr. Pender not to test and teased and it was the advantage of Mr. Pender, for my friends did not say anything against me." (Laughter.)

The Minister stated that since 1885 his friends, though they had tried to destroy him politically, had failed to do so and in his honor county, where he was born and brought up, wherever he had appealed to the electors it was not in vain.

Dr. Pugsley, continuing, stated that he had good reasons for making the statement at his Fairville speech. He spoke of the action of the Tories in importing an American named Bayne to corrupt the electors in Colchester county as most deplorable and felt that Bayne was an agent of the opposition.

When he (Dr. Pugsley) went to Colchester he was made upon him, and it was stated that he would be denounced. As representative in the capital he attended to his duties and was prepared to meet any charges that might be made. The Minister cited several instances where attacks upon him had failed, and stated that if the right course had not been pursued and it was proven that he had slandered any member of the other party, he would surrender to the people of this constituency the trust which they had imposed in him.

REFERS TO LETTERS.  
Dr. Pugsley also referred to the letters between himself and Provincial Secretary Flanagan in regard to the

alleged overdriving of his account with this province. The Minister stated that Mr. Fleming had not done anything towards choosing an arbitrator, and added that the check for \$200 which he had enclosed in his first letter was still retained by the secretary. He further stated that Premier Hazen had deliberately refused arbitration in order that the true facts of the matter might not be proven before an election. He did not think this was at all fair treatment on behalf of the party and its leaders, who he carried on the government of this province.

Dr. Pugsley stated that he intended to conduct his department to the credit of the government and the best interests of the country.

SHOULD BE NO LIMIT.  
In referring to the club just formed, the speaker said there should be no limit for the younger men. He was especially glad that the young Liberals were showing lively interest in federal politics, for in the coming years they would take the place of the older men. He stated that there was a great work to be done and that the club should study the records of the records of the government in the past twelve years.

He produced the budget speech of Hon. Mr. Fielding, which showed the marvellous progress made in all departments by the Liberal government.

Dr. Pugsley also explained that alleged scandal-mongering and scandal and proved it to be a misrepresentation.

In speaking of this port he declared the money was promised and the promise was kept. Holmes and Buchanan sang "Experience," a comedy conversational duet from the musical comedy "The Little Cherub." The singers appeared in character costume, and both the lady and gentlemen performers had a splendid opportunity of studying the latest fall fashions, Mr. Buchanan's "Merry Widow" hat being especially admired. He was the recipient of a beautiful bouquet of carrots, evidently from a lady admirer, as the card attached bore the inscription "Are you engaged?" Encores were in demand. Prof. Wood again held the audience in breathless suspense while he hypnotized Miss Wood, floating her in the air. This is certainly the greatest aerial illusion ever seen here. Catching real live gold fish with red and blue in the air still keeps the audience guessing. Many other difficult feats of magic were performed. Prof. Wood closes his engagement tonight sailing for Boston Monday. Those who have not yet seen him should do so today. The pictures are splendid. The Reedham Boys' Fancy Drill is wonderful. The lady executes many wonderful figures to drill, especially when they spell the name of the school to which they belong. The Old Comedian is a pathetic dramatic picture. Metamorphosis is a trick comedy picture. When the men saw it they applauded it, and the ladies removed their hats for it shows the terrible effect of a Merry Widow hat had on a man who tried to see a picture show behind it. Farm Yard Friends shows prize winning poultry and live stock of old England. Bailed At The Altar, 100 feet long, every foot a laugh, kept the audience in roars. Prof. Tins sings In The Garden of Dreams, getting great applause. Let the children see this show. Bargain matinee today. See big ad. Visitors and citizens said last night "It's worth a quarter."

YESTERDAY'S SHOW REPEATED TODAY AT ELOU.  
If we could only repeat all the things people said about the pictures shown at the Eloou yesterday, we'd like to, but the editor will only let us use so much space, and we'll have to cut it short. Anyway, we're going to tell you about the picture that pleased us most, and that's saying the other pictures were not up-to-date. Oh, no, not by any means. The greatest picture ever shown, and we say this without any hesitancy whatever, is A Caribou Hunt in Newfoundland. This picture taken right in the heart of the richest game country in the world, beautifully tinted, showing the pretty azure of the sky, the beautiful reflection of the setting sun upon the tree tops and sparkling water of the pretty lake on the banks of which stands a poor innocent caribou, not thinking of the few short moments in which his earthly career shall be ended by the hunter who is stealing upon him, waiting his chance to fire the shot that ends all. In this picture are shown herds of running caribou, now in the dale then again in the upland, camp

Manufacturing Furriers.  
N. B. Write for our new Catalogue.

### AMUSEMENTS.

#### NICKEL GREAT SHOW TOAY.

The Nickel will wind up a notable week of visitation with a great big matinee for the school children and children from outside of town, and in the evening a specially attractive programme. The last five days have been marked with enormous crowds of people who were in town to attend the exhibition, and all are taking back with them excellent impressions of the Nickel's way of entertaining. The big feature today is the fairy fantasy Bobby White in Wonderland, the story of a lad who was carried to a strange land by toy balloons. The Humano Co. will make their farewell appearances in the farce Waxed, a Maid, and several other long pictures—comedies, dramas, etc.—will conclude a programme over 90 minutes long. Two new songs and the best music in town.

#### AT THE PRINCESS THEATRE.

There will be a special matinee at the Princess Theatre today when one of the best performances in the city will be presented to the public. The new pictures received direct from the best studios in the world will be presented. The Courageous Flower Girl in the title of a dramatic picture which is enacted with the strongest situations. The Stone Breaker is a picture that is interesting in every detail. Mother's Darling is a picture that should not be missed by all lovers of the little folk. A picture that is full of fun is entitled The Comic Singer is Late. This quartette of pictures is the best bill of the week.

So charming a wonderful magician, as a mystifying as ever in her numerous acts of illusion. Harry Nowcombe, who is rated as one of the best illustrated songsters now before the public, has a good solo for today, and his illustrations are exceptionally fine. Visitors to the city should not miss visiting this leading family amusement resort.

#### SHOWS WORTH SEE. SAID PAT- RONS OF HAPPY HALF HOUR.

Packed to the doors was the rule at the Happy Half Hour last night. The biggest and best show ever given for the money was promised, and the promise was kept. Holmes and Buchanan sang "Experience," a comedy conversational duet from the musical comedy "The Little Cherub." The singers appeared in character costume, and both the lady and gentlemen performers had a splendid opportunity of studying the latest fall fashions, Mr. Buchanan's "Merry Widow" hat being especially admired. He was the recipient of a beautiful bouquet of carrots, evidently from a lady admirer, as the card attached bore the inscription "Are you engaged?" Encores were in demand. Prof. Wood again held the audience in breathless suspense while he hypnotized Miss Wood, floating her in the air. This is certainly the greatest aerial illusion ever seen here. Catching real live gold fish with red and blue in the air still keeps the audience guessing. Many other difficult feats of magic were performed. Prof. Wood closes his engagement tonight sailing for Boston Monday. Those who have not yet seen him should do so today. The pictures are splendid. The Reedham Boys' Fancy Drill is wonderful. The lady executes many wonderful figures to drill, especially when they spell the name of the school to which they belong. The Old Comedian is a pathetic dramatic picture. Metamorphosis is a trick comedy picture. When the men saw it they applauded it, and the ladies removed their hats for it shows the terrible effect of a Merry Widow hat had on a man who tried to see a picture show behind it. Farm Yard Friends shows prize winning poultry and live stock of old England. Bailed At The Altar, 100 feet long, every foot a laugh, kept the audience in roars. Prof. Tins sings In The Garden of Dreams, getting great applause. Let the children see this show. Bargain matinee today. See big ad. Visitors and citizens said last night "It's worth a quarter."

#### AN ILL-USED WORD.

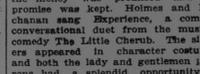

"Aftermath" is a persistently ill-used word. Early in June is the time of the "math," that is, the first mowing of the meadow. The short grass—with a sufficiency of rain—will grow again, and later will come the "second mow" or "aftermath." The phrase "the storm and its aftermath" seems a favorite with some story writers, but it is difficult to understand how a storm can have a second mowing.

The phrase "the storm and its aftermath" seems a favorite with some story writers, but it is difficult to understand how a storm can have a second mowing.

#### YOUNG MOTHERS

A mother who is in good physical condition transmits to her child the blessing of a good constitution; a healthy, alluring mother, who reverses the tiny babe brings to her a living responsibility. At such a time too great care cannot be taken to build up the mother's general constitution, and restore her normal system to a healthy, firm condition. The greatest assistance this any woman can have in accomplishing this all-important work is

#### LYDIA E. PINKHAM'S VEGETABLE COMPOUND

Mrs. M. Gilmer, of West Union, S. C., writes to Mrs. Pinkham, Lynn, Mass.

"I was greatly run down in health suffering from a weakness peculiar to my sex. I began to take Lydia E. Pinkham's Vegetable Compound, and I was not only restored to health but am the proud mother of a fine baby girl. I wish every sick and ailing woman would give Lydia E. Pinkham's Vegetable Compound a trial."

Mrs. Paul Oliver, of St. Martinville, La., writes to Mrs. Pinkham:

"For years I suffered from the worst form of female troubles, and the doctor said I could not get well without an operation. Lydia E. Pinkham's Vegetable Compound restored me to perfect health, and I have the sweetest little baby girl. I will never cease to praise Lydia E. Pinkham's medicine."

#### FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with the worst forms. Why don't you try it?

## NO 2034

SIX

THE STAR, ST. JOHN, N. B., SATURDAY, SEPTEMBER 19, 1908

### Anty Drudge Tells How to Prevent Washday Smells.

Jones—"Holy smoke! Is some one burning glue in the kitchen?"

Mrs. Jones—"No, Theodora. It's washday you know, and what you smell is the suds-steam from the wash-bowler."

"Anty Drudge—"Why don't you use Fels-Naptha and do away with the washbowl? Then there will be no steam to permeate the whole house every washday."

The Different Kind of Soap. That, in a nutshell, is Fels-Naptha.

Different—because Fels-Naptha is more than a soap—it is a different way of washing.

Different—because Fels-Naptha gets the wash ready for the line, in about half the time of any other soap.

Different—because Fels-Naptha itself does the work of loosening the dirt from the fabric, which every other soap leaves to you to do with the washboard.

Different—because with Fels-Naptha there's no backache; no need for long bending over the tub, as with other soaps.

Different—because Fels-Naptha saves the clothes: (1) from weakening of the fibre by heat; (2) from the wear of hard rubbing.

Different—because Fels-Naptha actually does in cool or lukewarm water what the best other soaps will not do even in scalding hot water.

Follow directions on the red and green wrapper, summer or winter.

## EXPERT SAYS ST. JOHN IS BEST FREIGHT PORT

Louis Coste, an engineer in the Public Works Department at Ottawa, and a leading authority on harbor matters, is in the city. When seen at his hotel here last evening by a reporter for The Star, Mr. Coste gave out the following statement:

"I am here, under orders of the Minister of Public Works, to advise with him as to how the harbor of St. John can be enlarged and made one of the safest and most commodious ports on the Atlantic coast." Mr. Coste began. "For years, as you know, I have been greatly interested in the development of all the harbors of Canada—on the Georgian Bay, on the St. Lawrence, and on the Atlantic coast. The result of my studies in this matter has led me to form the opinion that it is not possible at any one point, either on the Georgian Bay or on the St. Lawrence, or on the Atlantic coast, to create a large harbor which would have a monopoly of the trade, so that at the west end of the Great Lakes, Port William and Port Arthur will inevitably share the immense traffic which will be brought them by our three great railways, the C. P. Ry., the G. T. Pacific Ry., and the Canadian Northern Ry. At the east end of the lakes, the lakes of Ontario, Victoria, Collingwood, Parry Sound, Goderich, Key West, and others, will share a portion of this traffic. On the St. Lawrence, Montreal, Quebec, Three Rivers will come into play, and on the Atlantic coast St. John, Halifax, Sydney and other smaller harbors will also play an important role in the transportation problem, principally during the winter.

St. John is the Best

"It is evident, however, that the harbor having the better geographical

position, and thereby an advantage over the others in point of distance, will, if properly equipped, take the most prominent part, and in this connection I have no hesitation to say that as far as Atlantic ports are concerned I am satisfied that St. John is the best point at which freight can be handled, and that it will, when properly equipped, seriously compete with the largest American ports for freight from all over this continent, and that at any rate it will realize the dream of all the Canadians of seeing all Canadian freight shipped from a Canadian port.

"You probably want to know, as being more to the point, what I am prepared to suggest for the improvement of the harbor of St. John. Well, today in conversation with the Minister of Public Works I stated that in my opinion the following works were required:

1.—The entrance channel should be made 800 feet wide and 20 feet deep at low water in a direction almost north and south, widening to not less than 1,500 feet opposite the projected new wharves on the Carleton side of the harbor. This will necessitate the removal of a considerable part of the Beacon Spit, but it will, in my opinion, greatly facilitate navigation.

2.—On the remaining portion of the spit basins 700 feet in length with a water depth of 20 feet wide should be built, as laid down on the plan prepared by Mr. Sheven, the engineer of the department in St. John. In my opinion this is essential to the future welfare of the port.

3.—I must mention a very important project, which the Minister of Public Works has earnestly asked me to consider, viz., that of utilizing Courtenay Bay for a terminal harbor for the

Grand Trunk Pacific in St. John. I may say that I have already made a casual examination of the locality and that the idea of the Minister seems to be entirely feasible. At any rate I am at work on the question and hope in a few weeks to be able to give the Minister a full report.

WHAT THEY WILL COST.

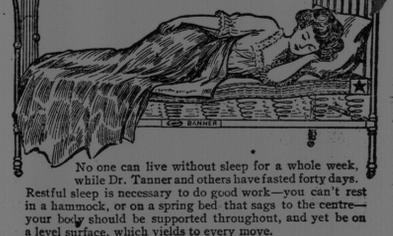

"How much are all these improvements going to cost?"

"Probably a large sum of money, but nothing like what it has cost to make most of the European or American harbors. In England, Liverpool, London, Glasgow, Bristol, Southampton, in France, La Have, Boulogne, Marseilles; in Italy, Genoa; in Austria, Trieste; in Germany, Hamburg, Bremen; in Holland, Rotterdam; in Belgium, Antwerp. All these harbors have cost millions of dollars, and you know that in New York and Boston enormous sums of money have been expended, and let me tell you that long before the whole of the works outlined above for St. John can be constructed, however fast it may be done, the development of the country will more than warrant the expenditure, and directly or indirectly the people of Canada will derive yearly benefits from these works equivalent to several times the interest of the money expended.

"We are well forward in our transportation facilities. In railways and canals we beat the world, but we are behind in our harbor facilities, and my opinion is that the great effort of our young country must be now in the line of improving all our harbors."

Mr. Coste leaves for Ottawa today.

## SLEEP Is More Important Than FOOD

No one can live without sleep for a whole week, while Dr. Tanner and others have fasted forty days. Restful sleep is necessary to do good work—you can't rest in a hammock, or on a spring bed that sags to the centre—your body should be supported throughout, and yet be on a level surface, which yields to every move.

A "Star" Felt Mattress and a "Banner" Spring fill this bill exactly—will give you comfort and rest—will prevent that tired feeling next morning. The two cost less than a cheap hair mattress, and are good for an ordinary lifetime—no cleaning—no repairs.

We are the largest Bedding Manufacturers in Canada, and protect you by this trade mark, which is plainly shown on each, and is a "Money Back" Guarantee. If you don't sleep well, or have that tired feeling in the morning, it will pay you to change your present Spring and Mattress for a "Star" and "Banner."

MANCHESTER ROBERTSON ALLISON, LTD. ST. JOHN, N.B.

## LAST DAY OF THE EXHIBITION

## WILL RENDER THEIR DECISION MONDAY

Evidence All In in Case Against Fredericton's Chief of Police

FREDERICTON, Sept. 18.—The police commission met this evening and finished the evidence in the charge of accepting hush money preferred by Norman Cameron against Chief of Police Winter. Alex. Terrence was called and swore that Cameron told him a short time ago that he had been persuaded to make the charges against the policeman. Cameron, who was called, testified that he had failed to make a case. Allen on the other hand contended that the charge had been proven. The commission will meet Wednesday evening to prepare decision.

## How to Get Rid of Fat

A Remarkable Discovery That Can Reduce Fat Harmlessly at the Rate of a Pound a Day

A TRIAL BOX SENT FREE

A quick, harmless reducer of fat, called Rango, has come into popular use which far surpasses any method of treatment heretofore used.

You Eat Rango Like Fruit or Candy and Easily Reduce Your Fat a Pound a Day.

Rango is perfectly harmless, pleasant to take and it is chewed like candy. It attacks abnormal tissue with unerring accuracy, and causes a gradual, harmless but effective reduction in weight and without leaving wrinkles which are nearly always present after taking drugs and other dangerous materials commonly called "anti-fats."

There is nothing "just as good" as Rango. For sale by all druggists at \$1.00 per full sized box, or by mail prepaid, by The Rango Co., 3386 Rango Bldg., Detroit, Mich. The company will gladly send you a trial package free by mail, if you write them direct to Detroit; no free packages at drug stores.

For sale in St. John by All Druggists National Drug and Chemical Company, Wholesale Distributors.

OTTAWA, Sept. 18.—Joseph D. Moran, an Ottawa letter carrier, was this morning found guilty of stealing two letters containing fifty dollars. He was sentenced to serve three years.

## BAR COLLISION NEAR SYDNEY

Oceland and Regulus Meet

BOTH DAMAGED

Oceland Had Just Sailed for St. John With Cargo of Coal

HALIFAX, Sept. 18.—One of the most serious marine accidents that has occurred on Cape Breton in many years took place about noon today, when the steamship Regulus, under charter to A. Harvey & Co., St. John's, Nfld., collided with the Norwegian steamship Oceland, of the Black Diamond line, leaving the latter very badly damaged on the port side, with a large hole about four feet square near the stern.

The weather was very thick and hazy at the time and it is thought the officers could not see the Oceland in the heavy mist. The accident occurred off New Point, in St. John's Bay, and the Oceland had just sailed from International with a cargo of about 5,000 tons of coal for St. John, N. B. The Oceland immediately began to fill with water and it was necessary to fill the starboard tanks and close the water tight compartments. The Oceland then returned to port and anchored off the pier, where temporary repairs will be effected before she proceeds to St. John.

The Regulus was badly damaged as a result of the collision, and she also put into North Sydney for repairs.

## NEWFOUNDLAND GETS INTO THE GAME, TOO

ST. JOHN'S, Nfld., Sept. 18.—The Newfoundland legislature was dissolved today, and Monday, November 2, was named as the date of the general election.

Sir Robert Bond, the premier, will be the government leader during the campaign and the opposition will be headed by Sir Edward Morris, who, until last year, was attorney general in the Bond cabinet.

The elections occur just one week after the general election in Canada.

THE OVERTHREW CONDUCTOR.

When the horse cars were in existence there was a greenhorn known as Jones who conducted on the Thirtieth and Fifteenth street lines. He boarded with his two aunts, who lived on Catharine street, between Thirtieth and Broad. One day his aunts thought they would take a ride with John and see how he was getting along, so they waited for his car. Soon the car began to get crowded and passengers got off and on at every square. John began to get angry. As last he became so steamed at having to stop so often that when an old lady asked him to stop at Chestnut he bawled out: "I'm darned sick and tired pulling the bell. It's nothing but stop here and stop there, stop here and stop there. Away with youse all down to Catharine street with me aunts, and you get out in a bunch."

During July 8646 retail liquor dealers in the United States got out of business largely on account of the passing of state prohibition laws.

## PREMIER WILL BE JOINED BY MURPHY

New Minister to Meet Laurier at North Bay Next Friday

OTTAWA, Sept. 18.—Sir Wilfrid Laurier will address a meeting in Russell county at the end of the month in the interests of the incoming Secretary of State, Mr. Charles Murphy, K. C. The latter will join Sir Wilfrid on his Ontario tour at North Bay next Friday. At the conclusion of the present series of meetings in Ontario the prime minister will probably go to the province of Quebec, where dates are now being arranged for him. Sir Wilfrid had hoped to be able to make a tour through Western Canada before elections, but the undue length of the last session and the fact that his duties here and at the Quebec tercentenary since the end of July left him only a brief six weeks for campaigning necessitated the foregoing of a western trip. The brunt of campaigning in the Liberal interests west of Winnipeg will be borne by Hon. Messrs. Oliver and Stinson and local Liberal speakers.

## BOMBARDMENT OF TABRIZ IMMINENT

TABRIZ, Sept. 18.—A decisive struggle between the Sultan and the nationalists for the control of Tabriz is imminent. At the outbreak of the revolution the Sultan's forces have sent an ultimatum, Satar Khan to lay down his arms and surrender the city in forty-eight hours, threatening otherwise that he would bombard the capital and that his troops would storm the nationalist quarter. Satar Khan has refused to comply and is preparing for the defense. Foreigners here are in great danger. The nationalists, thinking that their presence will interfere with the bombardment, refuse to permit them to leave the city.

"I tell you what," said the old maid, "they make love for a faster than they do to do in my day."

"Yes," replied the sweet young thing "in your day it was a tested horse and buggy; now it's a motorized 40-horse power mile-a-minute touring car."

## BABY HAD DIARRHOEA FOR SEVEN WEEKS

Thousands of infants die annually who could be saved by the timely use of Dr. FOWLER'S EXTRACT OF WILD STRAWBERRY.

There can be no doubt about it. Sixty-three years experience has proved this sterling remedy to be the best for Diarrhoea, Dysentery, Colic, Cramps, Cholera Infantum, Cholera Morbus, Summer Complaint, and all bowel troubles in both children and adults.

Many of the imitations sold are positively dangerous, as they often check the diarrhoea too suddenly and cause inflammation.

Always insist on the genuine Dr. FOWLER'S Extract of all medicine dealers at 35 cents a bottle.

Mrs. A. B. De Marchand, Bath, N.B. writes: "My baby was troubled with Diarrhoea for nearly seven weeks. I tried three different doctors, but none of them could do her any good. I was advised to try Dr. FOWLER'S EXTRACT OF WILD STRAWBERRY and less than half a bottle cured her."

Manufactured by The T. Milburn Co., Limited, Toronto, Ont.

See that their name is on the wrapper and thus insure getting the genuine.

## PENDER'S MEN ANSWER HIS ACCUSERS

To the Editor of The Sun:

Sir—The assertion has been made from the public platform that James Pender is not the friend of the working man. We, the undersigned, flatly deny that statement and would point out for the guidance of our fellow workmen in this city the fact that during the past twenty years Mr. Pender has proven himself the friend of labor and the unwavering and outspoken advocate of everything pertaining to the welfare of our city. We might also state that during this period the wages of the employees have never been reduced but have been advanced, though it has occasionally been necessary to go on short time in order to keep stocks from accumulating.

With regard to his attitude re the Compensation act he could have no objection to an equitable arrangement, and so far as the James Pender Co., Ltd., is concerned, no matter how stringent in favor of the workmen it would not affect them, for the whole plant is installed in such a way that accident is almost impossible and could not occur through negligence of the company. Nevertheless, they have always been willing to compensate any one who should meet with a serious accident, out such has not occurred during the twenty years or more of the company's existence.

Mr. Pender's personal attitude toward the working man is one which might well be copied by other manufacturers in our city, for he not only takes a personal interest in our welfare, but in times of trouble assists us unflinchingly and otherwise in spite of the fact that he pays a higher

average wage than any other manufacturing concern in the province.

We do not address you on the political issues of the present campaign as over fifty per cent of the employees are opposed to Mr. Pender politically, but we feel that this is a matter of great importance to us and one in which Mr. Pender is being slandered by his political opponents, and we, his employees, a majority of whom have been in his employ over 15 years, are always willing and anxious to fight the battles of our generous employer. (Signed)

## BOY CONVICTED OF STEALING PAPERS

Wilfred S. Penny, a nine-year-old boy who has been selling papers in St. John, appeared before Judge Ritchie yesterday afternoon, charged with stealing morning Telegraphs from houses on Wentworth, Mecklenburg and Charlotte streets.

Representatives of the Telegraph circulation department stated that the boy had been caught stealing a bundle of papers from R. H. Coleman, Mecklenburg street, and he was known to have also taken papers from H. J. Dick's shop door on Charlotte street.

The boy's mother pleaded for her son and said that if he was allowed to go she would not allow him to sell papers any longer. The boy said that he took the papers and that he had been caught in the act. He then returned the papers.

His honor gave the boy sound advice and allowed him to go on suspended sentence of four years in the reformatory.

## WILSON'S FLY PADS

Every packet will kill more than 100 sheets of sticky paper

SOLD BY—DRUGGISTS, GROCERS AND GENERAL STORES 10c. per packet, or 3 packets for 25c. will last a whole season.

## CEETEE UNDERWEAR

**Where True Comfort Begins**

Some men and women spend hours deciding what they shall select for a new suit of hat, and almost ignore the question of underclothing—which is the basis of true comfort in dress.

**"CEETEE" Underclothing**

is full-fashioned, and knitted to fit the form. It has no rough seams—is absolutely unshrinkable, and retains its softness and elasticity no matter how often washed.

We manufacture it in all styles for men, women and children and want you to try your "desire to show your "CEETEE" underclothing. It is fully guaranteed by us.

**THE C. TURNBULL CO. OF GALT, Limited**  
Established 1859 Galt Ontario

## POSSIBLE TO MEASURE THE INTELLIGENCE

THE INTELLIGENT PERSON.

Dr. Van Bierijs, the Dutch psychologist, has, after long years of research, come to the conclusion that the intelligence can be measured, and that because it depends upon mental application and reflection, its "variant" can be found among all sorts and conditions of men. Here is the argument he advances in support of his novel theory:

The most complex intellectual operations are all reducible to a deductive process which depends for the results it gives on the soundness of the nervous system and its fitness. You cannot, for example, get from a "note" the effects which are to be obtained from the violin, the reason being explained by the fitness of the strings. Although in their specific qualities the notes extracted from either instrument may be supreme, there can be no question that in far-reaching effect that of the more delicate instrument immeasurably exceeds the other.

Provided that a fixed numerical symbol be given in the ratios of results derived from the experiments in hearing and in seeing upon a series of normal individuals, a definite scheme of mental measurement, having as its basis the nerve-cell power, could be drawn up and applied in the case of all who had passed the age of puberty.

Dr. Louis Martin, of the Pasteur Institute in Paris, agrees that even in the case of retarded mental development—it being an admitted scientific fact that certain minds, even among the most intelligent, only reach consciousness of their own power at a comparatively advanced age in life—the results of the visual and auditory test will afford ample grounds for a sound calculation of the subjects' mental "potential."

### THAT RED SUN; WHAT MAKES IT

How Scientists Explain the Phenomenon of Recent Days.

Forest Fire Smoke Also Has Something to Do With It—The Aurora Borealis.

By astronomers, these spots representing tremendous disturbances on the sun, such as come in cycles of 11 or 12 years. In places favorable for observations the auroral displays, or northern lights usually attending the solar eruptions, have been particularly beautiful. The aurora borealis has been of the highest tint of red, silver and green and has been seen in New York, Maine, New Hampshire and Vermont. At times it has been observed to cover the whole horizon. Such displays are likely to be repeated for some time.

Shown of the scientific reasoning through which the astronomers come to their deductions, the explanation of the existing heat wave, which coincides with the forest fire smoke to give a strange color to the sun and moon, is that it is generated largely by the frequent solar eruption into which a planet of the size of the earth would sink like a pebble in the ocean. Somehow the activities create an extra stratum of radiation material, so the earth's atmosphere must be warm, and gloomy; the sun and moon must be red, and there must be auroral displays.

### Seasickness Quickly Cured

"Mother's Milk" quickly cures Sea and Train Sickness. Guaranteed perfectly harmless to the most delicate. Money refunded if not satisfactory.

For sale at Drug Stores and first-class Steamer, or Mother's Milk Remedy Co., Ltd., 201 State Street, Detroit.

For sale and recommended in St. John by A. Chipman Smith, G. A. Moore, Royal Pharmacy and G. A. Rieker.

### ST. JOHN CHURCHES WILL RAISE FIFTY THOUSAND

The Protestant churches of St. John are pledged to raise \$50,000 during the coming year for the purpose of extending operations in both the Home and Foreign Mission fields. This magnificent result has come from the second visit to St. John of J. Campbell White and other gentlemen interested in the Laymen's Missionary Movement.

In March last the churches pledged themselves to give \$25,000 to the same cause, but yesterday at a luncheon held at White's restaurant the resolution of the laying was reaffirmed and it was decided to raise an amount equal to \$50,000.

A public meeting was held last night at St. Andrew's church, with T. S. Simms in the chair.

Rev. W. T. Stackhouse, J. Campbell White, Consul General Wilbur and Rev. Dr. McKay, were the speakers, and their addresses were intensely listened to. At the close of the address by Rev. Mr. Stackhouse a resolution was presented by R. T. Hayes expressing the opinion that Canada should assume the responsibility of spreading the gospel to \$5,000,000 of those who have not yet heard the preaching of the faith. This resolution was adopted.

A resolution presented by Judge Davies was passed to the effect that the Protestant church members pledge themselves to raise \$5 per member to the cause of Home and Foreign Missions.

Rev. Mr. Crisp reported that the Methodists at their denominational conference in the afternoon had decided to raise \$5,000 per year for missions. After the addresses the conference was brought to a close.

### DIED WHILE MAKING REPAIRS AT SEA

Tragic Occurrence During a Fearful Hurricane.

Two Men Were Killed in the Hold by Noxious Gases and in Attempting a Rescue Another Met the Same Fate.

COLON, Sept. 15.—In a hurricane that badly damaged the steamer "Colon," running between Colon and New York, two of the crew went into the hold to make repairs and were killed by noxious gases. Another officer going after them was also killed and a fourth man had a narrow escape.

The Colon encountered the hurricane at a point forty miles north of Watling Island. The wind blew 100 miles an hour, and tremendous seas were soon sweeping over the vessel from stem to stern. The state-rooms and the dining saloons were flooded. One of her smokestacks was carried away, three boats were washed overboard and the wireless telegraph apparatus was dismantled. Orders were given that no passengers were to be deck and the travelers had to spend Sunday and Sunday night in the dining saloon. The water got to the mail bags and the registered and ordinary mail was badly damaged. Sunday night passengers were discovered huddled below in a state of panic. Early Monday morning it was discovered that salt water was making its way into the forward fresh-water tank. The seriousness of this was at once recognized and the fresh water would give out, the second assistant engineer, William Lilley, and the ship's carpenter, a man named J. Olsen, were sent down into the hold Monday afternoon to change the tank connections. The two men were below for an hour without giving any signs of returning. Anxious for their safety, R. Barthel, a water-tender, and A. Sands, a junior engineer, volunteered to go below and learn what had happened.

Barthel was the first to enter the hold with Sands a few feet behind him. Barthel had walked but a few paces when he was seen to drop. Sands staggered and fell, but managed to make his way back to the hatch ladder. "Silence," he was assailed to the deck by the chief engineer. He was partially unconscious and in a condition of prostration.

It was then seen that the hold was filled with noxious and deadly gases and all hope for the three men had to be given up. When the storm abated efforts were made to reach the missing men.

The hatches were removed and the sun air was pumped out of the hold until it was possible to go below. The bodies of the three men, Lilley, Olsen and Barthel were then found. Just what caused the presence of these deadly gases in the hold of the Colon has not been explained.

Lilley, Olsen and Barthel were buried in Olan.

The Colon brought in 135 mules and 200 pack passengers. Her officers declare that the hurricane of Sunday was the worst storm they had ever experienced.

The steamer Colon, Captain Clark, is in the regular service of the Panama R. R. between Colon and New York. She was formerly the Mexico, of the New York and Cuba Mail S. S. Company. She was built in Philadelphia in 1898. She is of 4185 net tonnage.

### GRIPPLES CAPTURE MAN WHO SET WOODS AFIRE

Blind Prisoner With Ropes and Bring Him to Millin County Jail.

LEWISTON, Pa., Sept. 18.—James Bohman, of Millin, was brought to the county jail this evening, securely bound with ropes. He was captured by John Pennington, Kirby Wertz and Edward Dumbman, three cripples, after a terrific struggle. The three men say they caught him setting fires in the mountains in the Lewistown narrow. The fire is burning fiercely, and should the wind continue tonight it will carry the flames into the farming district.

Hundreds of men are engaged in a struggle to stop the flames.

Bohman, a striking match and throwing them into the dry leaves.

The cripples, two of them walking with crutches and the third minus an arm, furnished an unusual sight as they carried Bohman into town. The prisoner says he started the fire because of a feud.

### PERTH MAN KILLED IN RUNAWAY ACCIDENT

Joshua Hathaway Caught in Wheel of Carriage and Had Spine Broken—Wife Escaped.

ANDOVER, N. B., Sept. 17.—Yesterday morning (Wednesday) a very sad accident occurred in Perth, when Joshua Hathaway, accompanied by his wife, were driving and the harness broke, letting the shafts fall on the horse's heels, frightening it so it ran away. Mrs. Hathaway jumped from the carriage almost immediately, escaping with only a few scratches. But later, Mr. Hathaway tried to jump, but got caught in the wheel, throwing his headlong, breaking his spine. He was taken to the home of Mr. Aberton, where he died within a few hours.

### FOOTBALL PLAYERS KILLED.

PITTSBURG, Pa., Sept. 18.—Thomas Conley, aged 15, and Clyde Stokes, aged 16, were instantly killed and the other members of a football team narrowly escaped death when they became confused in crossing railroad tracks adjoining the gridiron where they were to play a practice game this evening.

### A POSSIBLE GLUE.

NORTHAMPTON, Mass., Sept. 18.—Another possible clue in connection with the disappearance of Miss Esther A. Gilbert, of Chesterfield, came to the attention of Deputy Sheriff Reuben Bell, of this city today. The deputy was informed by the young woman telephone operator at the Union Station in Springfield that she observed a young man and a woman waiting at the station on Monday afternoon last, acting somewhat strangely. The young man asked the operator if she could cash a check.

### AGAINST THE KING.

Many people blithely imagine that less majesty—that is, insulting royalty—is a crime peculiar to foreign countries and unknown in free and happy Britain. That, however, is where they make a mistake.

It is, for instance, technically a punishable offense to stick a penny stamp on a letter upside down. Doing so is to insult the King through his effigy, and a few centuries ago—supposing penny stamps to have been then invented—might easily have landed the offender in prison on a charge of seeking to bring ridicule on the sovereign or to express contempt for his authority by causing his stamp to stand on his head. Also, it is a punishable offense to deface a coin of the realm bearing the royal image and then deliberately put it into circulation again.

To strike the King would, according to the strict letter of the law, render the assailant liable to the death penalty, no matter how trivial the blow was in reality.—Pearson's Weekly.

### THAT NASTY TASTE IN YOUR MOUTH MEANS INDIGESTION

That nasty taste in your mouth, with the dull, run-down feeling which accompanies it, the loss of appetite, loss of strength, loss of interest in life, means that your stomach is out of order and must be put right, or worse will follow. Mother Seigel's Syrup strengthens stomach, liver, and bowels, regulates them to natural action, and so makes an end of all digestive disorders. Here is an example—I suffered terribly with my stomach, and could find no benefit from the many remedies I tried. But Mother Seigel's Syrup gave me immediate relief, and now I am completely cured.—From Mrs. Legambe, Hammer, Ont.

## Take MOTHER SEIGEL'S SYRUP AND BE WELL.

Price 50c. per bottle. Sold everywhere.

A. J. WHITE & CO., LTD., MANUFACTURERS.

### NURSE'S FATAL MISTAKE.

SAN DIEGO, Cal., Sept. 18.—Carelessness of a nurse in leaving water containing strychnine where it was accidentally used in taking medicine, has up to tonight caused three deaths among patients at the county hospital. A fourth death is expected and four other persons are seriously ill.

### GASOLINE EXPLODES AND KILLS SUBMARINE SAILORS.

VAJLEJO, Cal., Sept. 18.—The explosion of 2,500 gallons of gasoline on board a barge moored abreast the submarine boat Grampus and Pike at the Mare Island yard this afternoon, resulted in the death of Chief Machinist Teddy May, and in injuries to Lieut. J. S. Townsend, chief gunner's mate, W. H. Lehy and Morrin.

### BALDWIN BALLOONS TRIAL.

ST. JOSEPH, Mo., Sept. 12.—In the face of a stiff breeze, Lieutenant B. D. Foullos and Sergeant Edward Ward, of the aeronautic corps, took the Baldwin dirigible balloon out for its first trial here early this evening. Rising to a height of 200 feet they circled about the military tournament grounds for 15 minutes before alighting.

### HISTORY OF SMALLPOX.

Smallpox appears to have been first described by Rhazes, an Arabian physician living about 900 A. D. It was introduced into southern Europe in the time of the crusades and slowly spread into the more northern regions. In 1517 it was carried from Spain to Santo Domingo and thence to Mexico, where it is said to have swept off 2,000,000 of the natives. It spread rapidly all over the new world, and whole villages and even tribes of Indians were carried off by it.

### THE INTELLIGENT PERSON.

An almost identical process takes place with the mind, the superior mental organ being that which is composed of most nerve-cells, or, as we would say, which is most highly strung. In projecting its attention or radio-active power upon any given questions which requires reasoning out the will simply calls upon its supply of cerebral nerve-cells. Naturally the more there are of these the greater and more effective will be the "training" of the intelligence upon the subject under consideration.

Now, a fairly approximate gauge-of the power of the nervous system can be obtained either from the sharpness of hearing or the sharpness of sight

### THE SHIRTS THAT FIT BETTER

Because a Regatta shirt is tailored to size and shape—not merely laundered into shape, like most shirts. It conforms to every part of a man's figure, as well as to each exacting demand of a tailor. Made of better fabrics, in a better way, so it wears better, and fits as no ordinary shirt will. It costs no more—but it pays best—when you demand this brand.

Makers of Good Shirts at BERLIN, CANADA

### ARISTOCRAT STABBED TO DEATH BY ACTRESS

#### Told He is Going to Forsake Her, She Plunges Knife Into His Body

PARIS, Sept. 18.—The number of crimes of violence show no signs of decrease in France. A particularly bad one occurred at Avignon yesterday. M. Raoul Dreyon de Perry, a young aristocrat, aged 26, well known in local society, was killed by Marie Thulle, a music hall artist, with whom he was living at a villa near Avignon. After having spent most of his fortune on the woman the young man yesterday told the actress that he would not live with her any more. Blind with fury, she took up a knife from the table and plunged it into her lover's chest, killing him outright. She has been arrested.

Two murders occurred on one day at Terolaga, a little village near Brest. A woman, the wife of a bricklayer, was found beside her bed with her skull smashed in, while at the bottom of a well the dead body of a young sailor was discovered. The sailor had been seen drinking heavily the previous day in company with several bad characters. It is believed that he quarrelled with them and was knocked in the head in the dark. No clue was discovered in the case of the woman.

Near Paris two more mysterious murders of the kind becoming so unpleasantly frequent have been discovered. Yesterday the body of an unknown woman with her throat cut was discovered in a quarry near Cherbourg. It is believed that she is the victim of "spooks."

This afternoon at Levallois-Perret, on the outskirts of Paris, a woman named Alice Lefort was found dead in her bedroom with a knife sticking in her breast.

### BOARD OF INQUIRY GIVES ITS FINDING

WASHINGTON, D. C., Sept. 18.—Fort Myer, the scene of yesterday's aeroplane disaster, which resulted in the death of Lieutenant Thomas E. Selfridge of the signal corps and serious injury to Orville Wright, presented a somewhat different aspect today.

The finding of the board of inquiry was given out by Major Squier, as follows:

"The board finds that the accident which occurred in an official flight made at Fort Myer, Va., at about 4:15 p. m., on September 17, 1908, was due to the accidental breaking of a propeller blade and a consequent unavoidable loss of control, which resulted in the machine falling to the ground from a height of about 75 feet.

"The board finds that first, Lieutenant Thomas Selfridge, First Field Artillery (attached to the signal corps by war department orders, and assigned to aeronautical duty), accompanied by Mr. Wright, by authority, on the aeroplane, for the purpose of officially receiving instruction, and received injury by the falling of the machine which resulted in his death."

### ANIMALS THAT SEE BEHIND.

Nature has enabled some animals to see objects behind them as well as in front without turning round. The hare has this power in a marked degree. Its eyes are large, prominent, and placed laterally. Its powers of seeing things in the rear are very noticeable in greyhound coursing, for though the dog is mute while running, the hare is able to judge to a nicety the exact moment at which it will be best for it to double. Horses are another instance. It is only necessary to watch a horse driven invariably without blinders, to notice this.

The giraffe, which is a very timid animal, is approached with the utmost difficulty on account of its eyes being so placed that it can see as well behind as in front. When approached this same faculty enables it to direct with great precision the rapid stream of kicks with which it defends itself.

### THE ST. JOHN EXHIBITION ASSOCIATION

will entertain the newspaper men of the city at dinner this evening. The dinner will be given in the restaurant at the Exhibition Buildings. It will begin at about ten o'clock, after the close of the exhibition.

### JUDGE TAFT TO MAKE 3 TOURS

#### Starts for the West September 23.

#### IN SOUTH LATER

#### Last Trip Will be in East With a Speech in New York

CINCINNATI, Ohio, Sept. 18.—Judge W. H. Taft will make three campaign tours. His first will begin here Sept. 23 and end at Galesburg, Ill. The trip will take him through Wisconsin, Minnesota, North and South Dakota, Iowa, Nebraska, Colorado, Kansas and Missouri. He will make one or more speeches in each of these states and fill in with numerous short addresses from the rear platform of his special train.

The second trip, which will be arranged in detail later, will take him into Kentucky, Tennessee and possibly North Carolina.

The last trip will be in the East. New York city will be visited and a speech will be made in the northern part of the Empire State. It has been decided that New England will not be included in this trip, but speeches will be made in Maryland, Pennsylvania, West Virginia and Ohio, which will bring the candidate back to his native city for the election.

Judge Taft will travel in a special train, and with him will be two other speakers of national repute. While it has not been determined definitely who these will be, it was stated here today by Senator Dooliver of Iowa, would likely be one, and Senator Foraker another.

### ROYAL GOLFER.

King James II. was a fine golfer in the sense of fondness for the game, and in other senses too. He was as Duke of York, who, when challenged by two English noblemen at the Scottish court to a match, the duke to take any partner who he could find, took to his side an Edinburgh shoemaker named John Paterson. The duke and Paterson won, and the latter, being given half the stake, built for himself a house, which is to be distinguished by the record upon it in Canongate to this day.

### EASIER.

"That house I have taken from you," said the distressed tenant, "is horribly drafty. When I am sitting in the middle of the room my hair blows all over my head. Can't you do something to the windows?"

"Don't you think, sir," replied the house agent sardonically, "it would be easier and cheaper for you to get your hair cut?"—London Telegraph.

### BURGLARS VISIT MARK TWAIN'S HOME

#### And He Posts a Notice for the Next Gang.

#### Interrupted as They Were Packing Up Dining Room Silver, Chased and Caught.

REDDING, Conn., Sept. 18.—Two burglars, who broke into the residence of Samuel L. Clemens (Mark Twain), in Redding late Thursday night, were captured Friday on a N. Y. N. H. & H. train. The burglars, Bethel and Redding after a desperate fight in which Deputy Sheriff Banks of Redding was injured, were taken to the jail. The burglars, who are believed to be professional crooks, who came from New York for the express purpose of entering the Twain villa refused to talk.

Miss Lyon, the humorist's secretary, was aroused about midnight by a sound of breaking glass in the lower part of the house. She went softly down the stairs to find a flood of light in the dining room and that the sideboard with its rich load of solid silver was missing from its customary place in the room. Cautiously slipping along in the shadows to a point where she could have a view of the garden, she saw the burglars at their work. Without giving the burglars any cause for alarm, Miss Lyon saw two men forcing the door and drawers the sideboard which they had carried out apparently in the hope that they would not be interrupted in their work. Without giving the burglars any cause for alarm, Miss Lyon saw two men forcing the door and drawers the sideboard which they had carried out apparently in the hope that they would not be interrupted in their work. Without giving the burglars any cause for alarm, Miss Lyon saw two men forcing the door and drawers the sideboard which they had carried out apparently in the hope that they would not be interrupted in their work.

### NEW MACHINERY FOR COLONIZING

#### Ontario Ministers Now in England Will Urge Radical Changes

#### Good Laborers for Farmers of Older Ontario—Offices in England, Ireland and Scotland

LONDON, Eng. Sept. 17.—An important and somewhat radical measure, dealing with the whole question of provincial immigration and colonization, will be introduced by the Government at the next session of the Ontario Legislature. If the Cabinet, as a whole, approves of the recommendations to be submitted by the Ministers now in the city.

In addition to the proposal, which has been already more than once discussed by the Ontario Provincial colonization headquarters, Hon. Nelson Monteleith, who has direct supervision of the work, will submit recommendations calling for changes in the present act dealing with settlement. Under these it is proposed to modify the existing three-year term, it is not unlikely that the time may be reduced to one year on condition that the settler undertake to put a proportionately large acreage under cultivation within that period.

MORE THAN ONE HOMESTEAD.

The question of permitting one settler to take up more than the regulation 100 acres may also be considered subject to enactments which protect against land speculation.

These concessions, if made, will be the result of the investigations of the Minister of Agriculture, and in view of the likely settlement of certain agricultural tracts of Northern Ontario by Irish and Scottish immigrants of some of the land and build homes promptly. To allow themselves of the proposed concessions of the new Act, the settlers will have to satisfy Ontario's London office of their bona fides and of their financial ability and the development of the land immediately.

The operations of the contemplated colonization office are to be restricted exclusively to supplying the best obtainable in farm labor to the agriculturists of Older Ontario, and to the settlement and opening up of the newer northern portions of the Province. City dwellers, laborers and mechanics will not be encouraged to emigrate under the Provincial policy, the ground being taken that the urban centres of Ontario are well supplied.

#### BATH AS BALLROOM; WALTZES IN WATER

#### Society Folk in Swiss Town Do Curious Stunts for Local Charity

GENEVA, Sept. 18.—A fancy dress ball in which the dances took place in water was held on Wednesday night at Louche-les-Bains.

The ballroom was the "Grand Bain," which was full of heated water, and was decorated with electric lights, Chinese lanterns, flags, plants and flowers. All the available seats at the sides of the bath were sold, the proceeds going to charity.

At an early hour the spectators' seats were crowded with women and men in evening dress, and at 8:30 p. m. there was great excitement, as the dancers and singers—all amateurs, and dressed in expensive costumes and some wearing jewelry—entered the water. Many of the women wore silks and satins, which were ruined in a few seconds but stepped gaily into the water.

Some of the most striking costumes represented reigning queens and kings, Chinese mandarins, Mephistophiles, cowboys, terminators, English policemen, etc. The evening commenced with a concert, all the bathers, up in their chests in water, staging past songs and choruses.

Afterward dancing commenced in the water. First of all there was a quadrille, which had been studied beforehand and was well executed. Then followed very slow waltzes, and finally two-steps. Not till the early hours did the aquatic ball come to an end.

The spectators remained to the last, and congratulated the dancers, most of whom were Americans and English.

Who Doesn't Like Toast?

Bread of our baking toasted properly is a treat to almost every one, sick or well, whether it's dry, or buttered, covered with boiling water or boiling milk there's not a man, woman or child not fond of good toast. See that Heat's Hygienic Bread is the foundation. Bakery—114 to 112 Mill Street, Phone, day and night, 1177.

ERNEST J. HEIAT, Proprietor.

Our many patrons will remember that during exhibition seasons we have always given special prizes on our goods. This year will be no exception. The New Williams Sewing Machine is always a leader, but we would invite you to call and see our recently adopted throw out and replace and automatic brake, which prevents the machine running the wrong way when you call we will give you our special prizes for EXHIBITION WEEK ONLY. The Williams Mfg. Co., 25 Dock Street.

### TO FORM BIG TRADE UNION IN CANADA

#### Trades and Labor Congress Takes First Steps Toward Big Canadian Organization.

QUEBEC, Sept. 18.—The National Trades and Labor Congress got down to business yesterday afternoon, and listened to reports from the various provinces, followed by speeches made in the interest of labor.

Resolutions from a special committee dealing with proposed amendments to the constitution, suggestive of a more concrete basis of the congress, in drawing with its general policy of a national or altogether Canadian organization, were presented and read. These resolutions, which include an affiliation of trades unions with the congress, will be acted on today.

In answer to Delegate Patterson, Nova Scotia, with a view to affiliation, He then called upon Secretary Griffiths to give details to the negotiations in question. The latter explained what had transpired at Gloucester Bay one year ago, and also read a letter from the Secretary Griffiths that the officers of the National Trades and Labor Congress had recently forwarded to the P. W. A., who were to convene in convention yesterday. This letter is a strong plea for federation of all Canadian labor into one great Canadian national organization, that would be altogether distinct and independent of the American Federation of Labor. The latter addressed to the grand president, P. W. A., particularly the grand president of Nova Scotia, urging them to affiliate at the same time pointing out that they did not receive any benefits by being connected with the American Federation of Labor.

A resolution was also adopted calling attention of the Dominion government of the necessity of the organization of the shipping trade of the St. Lawrence.

A reputed humorist went out from his late the other day and finally reached our office where he discovered a victim.

"Why," said the R. H., "is a man who has seen London on a foggy day and a man who has not seen London on a foggy day?"

"Give it up," said the victim sardoniously.

"It's easy," quoth the R. H. firmly.

"Give it up," repeated the victim. "Why?" was the reply, "one has seen the mist and the other has missed the scene. Ha. Ha! Catch it!"

"Of course I do you lunatic," answered the victim, "but what in the world has the sandwich to do with it?"

"That's where you bite," said the joker as the Fighting Editor assisted him to reach the street.

### THE TOO FAT.

Fat hens, being wretched layers, are always sold off by farmers. The carry Romans banished all useless persons, including the fat in this category.

Ovid, in his "Art of Love," says, "Keep ever slender and supple, for the fat has no success with women."

The Gontoo tribe enter their houses by a hole in the roof of a certain prescribed size, and they who grow too bulky to enter by this hole are slain as useless and lazy.

In England it was once the law to put the fat to death—"All dronkitts, fat gluttons and coarseners of vittalls more nor was necessary to the sustentation of men, were fane, and first commandit to sweely their fourth of gubst drink they pleast, and incontinent tairfater was drount in ase fresche rever."

### SPINACH OMELET.

Makes a surplus of spinach in the usual way—that is to say, after having boiled it till tender chop it very fine and rub it through a coarse wire sieve, season with salt and pepper, stir over the fire and add two ounces of butter and a little cream. Take two tablespoonfuls of the spinach and stir it into four eggs which have been previously beaten, yokes and whites separately. Add a little piece of shallot which has been rubbed through the sieve, and salt and pepper to taste. When thoroughly mixed put the whole into an omelet pan with two ounces of butter and fry a pale brown. Serve very hot.—Bystanler.

### LOCAL NEWS

**St. John Exhibition, September 12th to 15th.**

During the past week there have been five marriages in the city, and nineteen births, eleven of whom are males.

A bunch of keys found on Brussels street yesterday was handed to the police.

A carriage rug found on Sydney St. early this morning awaits an owner at the police station.

The funeral of Mrs. Thos. Duffy will take place at 2:30 o'clock Sunday afternoon from the new Catholic cemetery.

All members of St. Mary's Band are requested to meet at their room, in uniform, at 2 o'clock tomorrow afternoon.

A Boston despatch says Frank Gould and a party of friends left for St. John in the Helena last night. They will go hunting.

James Fleming has been reported for standing his horse and carriage unoccupied on King street and refusing to move to his proper stand when ordered by the police.

A horse driven by Harry Gorman took fright at a car on Charlotte street last evening and ran away. The horse struck a man named Medley Craft and knocked him down. The man's ankle and arm were injured.

The delegates from the local union of railway clerks have returned to the city after presenting their petition to the management for increased wages. They profess themselves as very well satisfied with their treatment.

It would hardly be fair to miss St. John's Exhibition, but if you don't care to spend the price of admission, make a purchase of 25¢ at C. B. Pidgeon's store, corner Main and Bridge streets, and you will get a ticket free. Or if you want a child's ticket, a 25¢ purchase will do the trick.

The death occurred yesterday at Silver Falls of Margaret Duffy, wife of Thomas Duffy, in her forty-fourth year. Besides her husband Mrs. Duffy leaves three daughters and one son. The funeral will be to the new Catholic cemetery at 2:30 p. m.

The funeral of James Robertson will take place this afternoon at 2:30 o'clock from his late residence, Elm street. Mr. Robertson was a member of No. 1 hose company, and the firemen and Salvage Corps members will attend the funeral in uniform. They will assemble at No. 3 station at 2 o'clock sharp.

Fifteen burial permits were issued by the Board of Health during the past week. The causes of death were as follows: Infantile 2, heart failure 2, cholera infantum 2, uraemia 1, enteritis 1, senility 1, pneumonia 1, heart disease 1, gastro enteritis 1, heart disease 1, malignant disease of spleen 1, tuberculosis of intestine 1.

On the afternoon of Tuesday last Rev. W. W. McMaster officiated at the marriage of Miss Dorcas Potter, of New Bedford, Mass., and Norman Perle Lomax, of Lepraux. The ceremony was performed at the German street parsonage. Miss Potter, who was unattended, wore a travelling suit of grey with a black plaid skirt. After taking in the exhibition Mr. and Mrs. Lomax went to Lepraux, where they will reside.

### POLICE COURT

In the police court this morning six drunks were dealt with in the usual manner.

James Walker was charged with stealing a ride on an I. C. R. train from Sussex to St. John. He was given a warning and fined \$50, which was allowed to stand, and told to get out of the city.

Wm. Turner, charged with being a common vagrant, leading in the I. C. R. station, was allowed to go on condition that he leave the city.

### PERSONAL

Miss Nellie Hanna, who has been visiting friends in St. John, leaves this evening on the Calvin Austin for her home in Boston.

Mrs. Mary Thompson and Miss Thompson, of Jacksonville, Florida, are visiting friends in St. John, after an absence of nineteen years.

Mrs. G. B. Armstrong, of Lancaster Heights, leaves this evening for Montreal to visit her son, H. V. Armstrong.

Geo. L. Warwick calls today from Rimouski by the S. S. Empress of Ireland to visit the Staffordshire pottery on a purchasing trip for the O. H. Warwick Co., Ltd.

Mrs. L. Patrin has returned from a visit to Hillsboro, N. B., where she was the guest of Mrs. James A. Tilley.

Miss E. N. Boyer will leave this evening for New York on a three week's visit.

N. R. Burroughs, of the Royal Bank of Canada, at Montreal, passed through the city this morning on his way from Halifax.

Joe Hainie came in on the early train this morning.

Mr. Austin Dunphy, of the Fredericton "Herald," Mr. and Mrs. McLean, of Yarmouth, N. S., were guests with Mrs. W. G. Shanks, 12 Chipman Hill, this week.

### DR. GRAHAM BELL IN ST. JOHN THIS MORNING

Noted Inventor on His Way to Washington to Attend the Funeral of Lieut. Selfridge.

Dr. Alexander Graham Bell, the noted inventor, passed through St. John this morning on his way to Washington, D. C., to attend the funeral of Lieut. Selfridge, who was killed while testing an airplane with Wilbur Wright. Dr. Bell has been spending his summer at Cape Breton perfecting his own apparatus, and expects to test the new design about the middle of October.

While in Washington he will attend the emergency meeting of the Aerial Experiment Association which is called for tomorrow.

### WANTS PERMISSION TO ADOPT A WIDOW

Chicago Man Asks Ruling Which Will Give His Daughter-in-Law Legal Rights.

CHICAGO, Sept. 12.—Legal authority to adopt a 45 year old widow is brought in the circuit court. Edward Lees, a Chicago widower, who is at present in Guadalajara, Mexico, makes the strange request in a petition filed yesterday.

Mrs. Mary Grace Lees, his daughter-in-law, who is now with him, is the person whom the petitioner would legally place on the same footing as a law as though she was his own child. The court action becomes necessary in order that an insurance policy which Lees has carried for years on his life will not become worthless.

The policy provides that sons but blood relations, adopted children or parents may be beneficiaries. Lees' only son, who married Mary Grace Lees, is dead, so he has hit upon the adoption plan.

### UNITED STATES NAVY IS SHORT ON TORPEDOES

Only Five Hundred on Hand While Great Britain Has Ten Thousand.

NEW YORK, Sept. 12.—A Tribune special from Newport, R. I., says: In accordance with figures that have leaked out here, there appears to be a shortage of torpedoes in the navy, especially those of Whitehead make, compared with those on hand in the great other countries. It is said that the United States is far behind Great Britain, Germany or Japan.

It is understood that this country has only 400 submarine torpedoes on hand, while Great Britain has ten thousand stored away. Germany and Japan are each said to have four thousand. The Government supply has been increased one hundred during the year and will go up more when the new torpedo factory here is started about the first of the year.

### MRS. BURNSIDE IS DEAD AT FREDERICTON

FREDERICTON, N. B., Sept. 12.—Mrs. Burnside, a widow, daughter of the late Hon. John A. Baskin and maternal aunt of Premier Hazen, died at her home in this city at an advanced age. Her husband, who was an Englishman, has been dead many years. One daughter, Miss Fanny Burnside, a professional nurse, survives. The funeral will be held at 3 p. m. Monday.

Fredericton horsemen are making an effort to have a day's racing here the last of September with purses for the 215 and 219 class.

### McGUIRE WILL JOIN THE CLEVELAND TEAM

CLEVELAND, O., Sept. 12.—James McGuire, former catcher and manager for the Boston American League baseball team, has signed with the Cleveland aggregation for the remainder of the season.

"I am here," said McGuire, "because I may be able to help Cleveland out. The Clevelanders are playing great ball, and I think have a splendid chance to win the pennant. I am not as frisky as I was once, but I will help all I can in coaching and in other ways. If Demis should be hurt, I am willing to go behind the bat."

### LIVED FOR TWO YEARS IN A BLOCK OF ICE

NEW YORK, Sept. 12.—A special to the World from Middletown, N. Y., says: An employe of an ice company here was delivering a cake of ice to a customer on Orchard street today when he discovered a frog in the center of the cake. The ice was melted and the frog taken out. After it had been exposed to the sun for about 10 minutes the frog commenced to hop about apparently none the worse for its imprisonment. It is a remarkable fact that the ice from which the frog had been taken was in storage for two years. The frog was exhibited about the city for some time.
