RAILWAY MAIL  
CLERKS MAY GO  
OUT TODAY

RAILWAY RUNNING TRADES

OFFICIALS OPPOSE TO

WALKOUT

NOYES, Minn., May 28, (Copy-

right 1919, By J. J. Conklin.)

Leaders and officials of union labor

connected with railway the organiza-

tions are gathering here from all

parts of Canada to be on the ground,

with the object of keeping in the

closest touch with strike conditions

here. A. McAndrew of Moosejaw,

Sask., General Chairman C. H. R.

Maintenance of Way employees

charge from coast to coast of 10,000

employees, is on the way here.

Speaking for publication, he said:

"Our men are holding to their work.

While they have been approached

with the object of securing their

active cooperation in the general

strike, they will not take such action

until our international headquarters

instruct them to do so. The men

are strongly in sympathy with the

objects on which the strike has been

inaugurated. The maintenance of way

men are the only railroad organiza-

tion that has a national agreement,

embodying uniform rates and rules

for all railroad employees, and

which was carried out under the

principle of collective bargaining. We

are hoping that the participation of

this service organization in the

general strike will be effected on

account of conditions brought about

by strike of other employees."

Another officer said: "We are

entirely in sympathy with the

policy of the organization to engage in

sympathetic strikes. Such will only

be tolerated in event of our member-

ship becoming directly affected on

account of conditions brought about

by strike of other employees."

The executive committee of the

running trades toward the present

sympathy strike." The speaker was

A. S. Kennedy, of the brotherhood

of locomotive engineers, who has

been attending a meeting of the run-

ning trades at their union headquar-

ters. The remark was in answer to

a question regarding the probable

action of the running trades in relation

to the Winnipeg strike, as well as

their feeling concerning the principle

of public utilities employees partici-

pating in sympathetic strikes.

While the running trades have not

yet come out they are waiting to

see if some loophole is available as

a sufficient excuse to impress the in-

dustrial headquarters at Cleveland.

They desire to have a strike available

if they are out and to be in posi-

tion not to have to lose the benefits

of the order after the strike.

The older members of the order

who have much to lose, have suc-

ceeded so far in holding back the

younger members from drastic ac-

tion. The Winnipeg postoffice was

closed tightly, back and front, all day

yesterday to citizens. It was open

this morning. There is some mystery

as to why business men and clerks

could not get mail. Postmaster Mc-

Intyre said he was reorganizing his

staff. Plenty of men had been se-

cured for all positions. Lawrence

Pickup, head clerk of the postal ad-

ministration, said only five of their

members were working inside and that

280 are still out.

While the executive officials of the

railway mail clerks association refrain

absolutely from making any official

statement, it was learned authorita-

tively to-day that railway men men

decided Monday night to walk out

to-night. This association is not affil-

iated with the trades and labor coun-

cil. It is said that a number of

industrial headquarters in Cleveland

are already in a state of readiness

to meet the association's action and

remain on duty. Lawrence Pickup of

postal employees executive stated that

postal men were practically unanimous

in their decision to stand together

in spite of all threats and promises.

About ten of their members had

been induced to return to their posts

but the best of our explanations and

have not the slightest doubt but that

they will remain true to each other

to the end."

SITUATION AT CALGARY

EDMONTON

CALGARY, May 29.—Business was

not noticeably disturbed to-day by the

general strike. Streetcars were op-

erating and lighting plants, theaters and

hotels were conducted as normally.

Volunteers are at work in the post-

office and more will be needed, it

was announced. About 200 of former

governmental employees are on strike.

Conditions at Edmonton were re-

ported as more serious. Streetcars

had stopped, restaurants and hotels

were closed or badly crippled and the

electric lighting system shut down.

Police and firemen were said to be

at work, under orders from the strike

committee.

NO INDICATION OF EARLY

SETTLEMENT

WINNIPEG, (via St. Paul), May

29.—Hon. Gideon Robertson, Minis-

ter of Labor, in an interview last

night said that he could see no indi-

cations of an early settlement of the

general strike which has been in

progress at Winnipeg for nearly two

weeks, although some strikers were

going back to their work. Senator

Robertson said that officers

of the running trades of the rail-

road organizations had a conference

with strike committee which had

definitely decided to take no part

in this sympathetic strike, "because

of the motives back of it."

Premier Norris has positively de-

clined to have anything to do with

RETURN ASTRONOMICAL INSTRUMENTS TO CHINA.—With

the presentation of the peace terms we find that the valuable and ancient

astronomical instruments taken from China years ago, forming part of the

Peking loan, must be returned to China. These instruments were made in

the year 1674.

the appointment of a board of con-

ciliation, as suggested by the strike

committee, until the sympathetic

strike is called off.

## WATERLOO NEWS RECORD

### Few Changes

Grand Dance Orpheus Hall, Friday evening. Free Krug's Orchestra.

Ascension Day Services will be held on Thursday evening at 7.45 in St. John's Lutheran Church, Waterloo.

The grading machine was put to good use yesterday at the Park and soon the Park will be open to the motorists and others.

Reeve Bohlender, Councillor Foster, of the Town Council, and Mr. A. E. Sanderson and C. W. Schiedel, of the Water and Light Commission, are in Toronto to-day attending the special meeting called by Sir Adam Beck.

### CROSSING BEING REPAIRED

The G.T.R. Crossing on King St. is being repaired the old plank being taken up and replaced by new ones. Autoists have complained of this crossing for some time and it will be indeed welcome news that it is being put in first class shape again.

Mr. H. Abbot, of Hamilton, was a business visitor in town yesterday.

Miss E. Rainey, of St. Catharines, has returned home after spending several days with friends in town.

Mr. J. Carey, of Toronto, was in town yesterday on business.

### ROOMS ARE CROWDED

School Board Meets

At the regular monthly meeting of the public School Board held last night one of the main items of business discussed was the present crowded condition of the rooms at the central school. It was pointed out that in some cases there were as many as 55 pupils in a room and a teacher could not be expected to bring out good results with such a large class. To overcome this overcrowding it was decided to secure another teacher at the commencement of the fall term these being a room on the main floor that can be utilized for an extra class. At present all classes have two divisions with the exception of one and when the full term opens this one will also be on the same level as the others.

Apart from the above there was the passing of the usual accounts and the receiving of the teachers reports.

Those present were Chairman A. Shantz and trustees Dr. F. J. Weidenhammer, J. Brueggeman, C. Hemphill, C.W. Snider, Dr. Noecker and Seely A.E. Devitt.

### THE NAVY LEAGUE

There was a fine attendance of Twin City patrons at the dance held in the Orpheus Hall last night which was held under the auspices of the Navy League. The music as supplied by Krug's orchestra was all that could be desired. Refreshments were served during the course of the evening and those present had a most enjoyable time.

### FORMER RESIDENT DIES IN CHICAGO

MRS. ALBERT J. DIRKS CALLED

The sad intelligence has been received of the death in Chicago following a lingering illness of Mrs. A.J. Dirks, formerly Miss Venoma Stricker of this city.

To mourn her sad demise there are left the sorrowing husband, Mother, three sisters and two brothers and to them the deepest sympathy is extended in this hour of sorrow. The sisters are, Mrs. A.C. Chambers, Philadelphia, Mrs. A.O. Crossman, Des Moines, Iowa and Mrs. Norman Pershke of this city. Mr. Robert Stricker and Mr. Fred Stricker of this city are brothers.

The funeral was held in Chicago where all that was mortal was laid to rest.

### MOTHER AND FATHER BOTH BEHIND BARS

Mother Arrested This Morning

There were more developments this morning in connection with the arrest yesterday of Mike Macbuck of Hagers Corners who is charged with sexually abusing his child. The mother of the child, who is being held in custody when she appeared to see her husband. With her were the four children ranging in age from a year and a half to eight years of age. Chief Crawford who held the warrant for her arrest was accompanied by Inspector Pullen of the County Home and after placing the mother behind the bars the children were taken to the St. Agatha Orphanage where they will be cared for.

The prisoners are Austrian Poles and the man has not registered it is alleged so when the case comes up in Preston on Monday he will have a double charge to answer. While the woman was expected the woman took her arrest quietly and the children went along without a murmur.

### Details Of Tragedy At Galt Told

RUSSIAN MURDERED BY HUNGARIAN, WITNESS CONFESSES

GALT, May 27.—The uneasy conscience of Stashe Boyoff, who says he witnessed the tragedy, was responsible for the revelation to-day of the murder of John Brown, 28, Russian, whose home was in Stratford. According to the confession of Boyoff, made last night to Rev. A. Kalsunoff, a Bulgarian minister at Stratford, and reported to-day to Chief of Police James Gorman, Galt, Brown was killed by a Bulgarian named Ivan, of Stratford, on Sunday afternoon in an old gravel pit on the farm of H.E. Sheldon, West River road, about a mile from the city.

### Argued Over Bolshevism

Boyoff's story to Chief Gorman was to the effect that he and the alleged murderer met Brown in Victoria Park on Sunday afternoon having previously fallen in with him the day before on the station platform at Stratford. They proceeded into the woods on the Sheldon farm until they came to the gravel pit and there, according to Boyoff, Ivan and the murdered man got into an argument over Bolshevism and began to fight. Boyoff says he perted them, when Ivan grabbed a stone and hit the Russian over the head. Boyoff says he then ran away and Ivan came after him. He asked Ivan if the Russian was dead and then he replied he says, was that "he overheard". Ivan is said to have then gone back to the scene of the crime and returned over half an hour later.

### Discovery of Body

The discovery of the body was made when Chief Gorman drove out to the scene of the crime with Boyoff after he had told what he knew. It was found under a pile of stones, with the head badly battered. The clothes were ripped and all the pockets turned inside out, indicating that robbery was the motive for the crime. Boyoff, who is detained in the local cells as a material witness, had \$1,110 in his possession, which he states he withdrew from a bank in Guelph. Coroner W. S. Dakin ordered an inquest after the jury had viewed the body to-night and adjournment was set for a week. Boyoff will appear before Magistrate Blake in the police court to-morrow and will be remanded.

Cannot Enact 8-Hour Day  
Ottawa May 27.—In the House this afternoon W.D. Euter asked if the Government proposed to enact legislation to make an eight-hour day compulsory to which Hon. Mr. McLean replied that it was not within the legislative jurisdiction of Canada to enact an eight-hour day law.

Ottawa May 27.—Sir Robert Borden made a statement in the House to-day on the labor situation in which he outlined the position of the Government. He made it clear that the Government proposed to maintain law and order and, second, that members of the civil service should not be allowed to dislocate the public service under the conditions which have arisen in the West. Sir Robert said that they represented all the people and the postal employees must make their choice as to whether they will serve the public whole or whether they will abandon once and for all the public service. Sir Robert was very definite in his statement on this subject and was warmly applauded.

Sir Robert also made it clear that every possible facility should be given for discussion between employees and employers and that arrangements should be made for bringing about industrial peace and stabilizing conditions. He intimated his belief in "collective bargaining" but said that the meaning of the term would have to be defined. It was evident that there was considerable misunderstanding. He also intimated his belief in the labor terms laid down by the peace conference and hoped that employers would be prepared to accept them.

To Be Governed by Report.  
Sir Robert hoped that the industrial commission would soon be prepared to report and said that legislation would be introduced based on this report. Sir Robert's exact words on collective bargaining are as follows: "So far as collective bargaining is concerned I have made a good many inquiries as to precisely what that term conveys and I am thoroughly satisfied that it has not any definite and final meaning which is recognized in all parts of the country. I am further satisfied that even in some parts of Canada in some cities in some country it may be understood by some persons in one sense and by other persons in another sense. I want to make it perfectly plain that, so far as my opinion goes, and I think it is the opinion of all the members of the Government, every possible facility should be given for discussion between employers and employees, and for the making of arrangements which will bring about industrial peace and maintain and stabilize conditions in this country to the end that wasteful unemployment used as a coercive measure may be put to one side and other methods—methods which must be established as to do complete justice and remove any inequality—substituted in its place."

Sir Robert continuing made a thoughtful statement on the Canadian situation to which every patriotic Canadian should give consideration. "The nations of the world at Paris," he said "set about the task of establishing such a society as will prevent war in the future. Would it not be rather a mockery if the nations engaged in that great purpose of all, should in respect of their domestic affairs, permit a condition to continue and to be perpetuated which if it reaches the stage of a general strike, must obviously involve the employment of some of the methods which was in use in modern warfare."

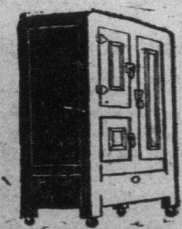

A Common citizenship.  
"I most earnestly hope that the report of the commission and appropriate action of the Government may eventually bring about between employers and employees a Canada much better understanding such more perfect relation of the viewpoint of one another as will prevent incidents such as are now transpiring. If we cannot accomplish this all-important purpose in respect of our domestic affairs there cannot by very much hope for that wider purpose which has been attempted in the constitution of the society of nations, in this country we have a common citizenship we have like ideals; we have practically the same aspirations, although sometimes different interests and sometimes prejudices may appear, but there ought to be a much more favorable condition for securing industrial peace and co-operation in this country through the effort and co-operation of employers and employees fully realizing their responsibilities than is to be discovered in the foundations of the society of nations from which we confidently anticipate a great service to the world."

CRERAR LIKELY RETIRING  
Minister of Agriculture to Return to Private Business in Winnipeg  
Ottawa May 27.—The fact that Hon. T.A. Crerar had a long interview last night with Sir Robert Borden started a rumor that he had tendered his resignation. Mr. Crerar was desirous of quitting last fall, but he was urged to remain at least till the premier returned from the peace conference.

Asked to-day as to the rumor of his resignation Mr. Crerar remarked: "The air is full of rumors. Rumors are one of the troubles of this country. I have nothing to say."  
Two things are well known; one is that Crerar took the portfolio for the period of the war only and the other that his views on the tariff coinciding with those of the Council of Agriculture are not in line with the views of the majority of the Cabinet.

He is one of those advancing extensive tariff changes as one remedy for the labor situation. His retirement from the Cabinet, it is generally expected will not long be delayed, as he is anxious to return to his business in Winnipeg.

Sir Robert also made it clear that every possible facility should be given for discussion between employees and employers and that arrangements should be made for bringing about industrial peace and stabilizing conditions. He intimated his belief in "collective bargaining" but said that the meaning of the term would have to be defined. It was evident that there was considerable misunderstanding. He also intimated his belief in the labor terms laid down by the peace conference and hoped that employers would be prepared to accept them.

To Be Governed by Report.  
Sir Robert hoped that the industrial commission would soon be prepared to report and said that legislation would be introduced based on this report. Sir Robert's exact words on collective bargaining are as follows: "So far as collective bargaining is concerned I have made a good many inquiries as to precisely what that term conveys and I am thoroughly satisfied that it has not any definite and final meaning which is recognized in all parts of the country. I am further satisfied that even in some parts of Canada in some cities in some country it may be understood by some persons in one sense and by other persons in another sense. I want to make it perfectly plain that, so far as my opinion goes, and I think it is the opinion of all the members of the Government, every possible facility should be given for discussion between employers and employees, and for the making of arrangements which will bring about industrial peace and maintain and stabilize conditions in this country to the end that wasteful unemployment used as a coercive measure may be put to one side and other methods—methods which must be established as to do complete justice and remove any inequality—substituted in its place."

Sir Robert continuing made a thoughtful statement on the Canadian situation to which every patriotic Canadian should give consideration. "The nations of the world at Paris," he said "set about the task of establishing such a society as will prevent war in the future. Would it not be rather a mockery if the nations engaged in that great purpose of all, should in respect of their domestic affairs, permit a condition to continue and to be perpetuated which if it reaches the stage of a general strike, must obviously involve the employment of some of the methods which was in use in modern warfare."

A Common citizenship.  
"I most earnestly hope that the report of the commission and appropriate action of the Government may eventually bring about between employers and employees a Canada much better understanding such more perfect relation of the viewpoint of one another as will prevent incidents such as are now transpiring. If we cannot accomplish this all-important purpose in respect of our domestic affairs there cannot by very much hope for that wider purpose which has been attempted in the constitution of the society of nations, in this country we have a common citizenship we have like ideals; we have practically the same aspirations, although sometimes different interests and sometimes prejudices may appear, but there ought to be a much more favorable condition for securing industrial peace and co-operation in this country through the effort and co-operation of employers and employees fully realizing their responsibilities than is to be discovered in the foundations of the society of nations from which we confidently anticipate a great service to the world."

CRERAR LIKELY RETIRING  
Minister of Agriculture to Return to Private Business in Winnipeg  
Ottawa May 27.—The fact that Hon. T.A. Crerar had a long interview last night with Sir Robert Borden started a rumor that he had tendered his resignation. Mr. Crerar was desirous of quitting last fall, but he was urged to remain at least till the premier returned from the peace conference.

Asked to-day as to the rumor of his resignation Mr. Crerar remarked: "The air is full of rumors. Rumors are one of the troubles of this country. I have nothing to say."  
Two things are well known; one is that Crerar took the portfolio for the period of the war only and the other that his views on the tariff coinciding with those of the Council of Agriculture are not in line with the views of the majority of the Cabinet.

He is one of those advancing extensive tariff changes as one remedy for the labor situation. His retirement from the Cabinet, it is generally expected will not long be delayed, as he is anxious to return to his business in Winnipeg.

## EMPLOYERS AND THE HOUSING PETITION

There have not as yet been many signatures attached to the housing petition. This notwithstanding that the hour of receiving signatures was set to close at noon to-morrow.

There can be no gainsaying the fact that a housing shortage exists. When a Want Ad announcing even a room or two to let, an excited scramble follows to see who can get them. This means that small families are doubling or tripling up.

Those who are playing the role of the Good Samaritan and leasing a part of their homes to others are to be commended but it is not the proper solution of the problem. This at least is only a shift. At the Industrial Relations inquiry last week, Mr. E. O. Weber stated that 1000 more mechanics could be given employment in the community were houses available. From what we learn this is a conservative estimate.

Putting two and two together, it will be found that there are not sufficient dwellings to accommodate persons who have employment here and practically precludes any of our industries taking on additional mechanics.

The head of a supply house assures the Record that most of the shoe factories are, through their inability to take on additional mechanics, operating at 60 per cent. of capacity. Were houses available, they could secure sufficient orders to run at 100 per cent.

This untoward condition places the industries in the position where they are obliged to decline orders now that they are readily obtainable and were no effort made to remedy the housing situation, it would mean that the merchants of other cities, who are desirous of placing orders here, will be obliged to go elsewhere. Having done this and formed new connections, they are apt to stick to those who met their requirements when goods were difficult to get.

Inquiry as to the why of so few having signed the housing petition presented by the Council, we are informed that it is not because would-be owners are unable to provide the 15 per cent. required as a guarantee of good faith. Instead it is said that those who are inclined to share in the loan, fear that if they signed the petition their names would be published and their landlords be offended. With the result that they might be asked to vacate the houses or rooms which they now occupy.

This difficulty could easily be overcome. On request, the Council would consent to withhold the names of those who sign the petition.

That which the Council is seeking to guard the city's interests. It is of the opinion that it would not be wise to encourage indiscriminate building; that were the Housing Act adopted, every one assisted under its provisions, should as far as can be foreseen and provided, carry out the terms and complete the contract. This to the end that the municipality would not have houses report to it.

The Council will not be open to criticism in taking the stand that before appointing a Housing Commission it should be shown that a considerable number of new homes are needed and that those for whom they are erected will make good. Were only a dozen applications to be made, they would be right in concluding that private enterprise could supply this number. On the other hand, were it made clear that 50 or 100 or more houses were actually needed and that reasonable guarantees were forthcoming, it would probably adopt the Act.

Providing there is a disinclination on the part of city employees desiring homes, to sign the petition for fear of having their rentals advanced or being obliged to vacate, should not their employers step into the breach and apply for them?

Employers could either advance the 15 per cent. or furnish security for an amount which would be satisfactory to the Council and warrant it in proceeding. The situation seems to be too serious to permit of this effort to supply needed housing to go by default.

## THE OTTAWA SITUATION

With the return to the capital of Premier Borden, the Ottawa correspondents are endeavoring to forecast what will occur when he is again in the saddle. However near the truth, or wide of it, their predictions are at least interesting.

They claim that no serious inroads will be made on the tariff by the forthcoming budget. Whatever is in store has been closely guarded. Yet it is asserted that the 7 1/2 per cent. war tax on imports will be retained on luxuries and removed from necessities and that the British preference will be increased to 50 per cent.

That the income tax will remain, and be increased seems to be taken for granted; while new revenue producing measures may be introduced. But as for the general tariff it is likely to remain intact until a parliamentary committee or special commission has gathered information at first hand and reported on the matter.

It is with respect to Premier Borden's intentions that the correspondents find the widest scope for their penwork. According to political correspondents, he has returned to clear up his house and put through the franchise bill, after which, it is said, he will return to Britain, accept an office and a peerage.

Were this within the mark, it would signify that Sir Thomas White would succeed to the leadership of the Union forces and reconstruct a cabinet. Rumor claims that under cabinet reconstruction, Sir Lomer Gouin, premier of Quebec, will be given an important post.

The penmen assert that the purpose in seeking the adhesion of Sir Lomer is to give representation to the protectionist forces of Quebec.

Another interesting phase of this declaration is that immediately after cabinet reconstruction and before the new leader, to be chosen by the Liberals in August, had had time to get into the saddle, a general election would be held.

The correspondents claim that Quebec favors protection and cordially dislikes Borden but would accept White. Carrying on their size-up, they claim that Cregar would drop out of the cabinet, Carvell probably be ousted and Cochrane likely be permitted to retire.

They go as far as to supply the possible cabinet with an election slogan, namely: "We won the war, and we will build up Canadian industry, to pay the war debt."

Were their surmises to prove in the main correct, the results of a general election would be unique. Instead of two parties there would likely be half a dozen: Grits, Tories, Unionists, Labor, Returned Soldiers, Farmers and perchance a Socialist or two.

The impression is abroad that Premier Borden will shortly retire from public life in Canada.

## CANADA'S ARCTIC BELT

Largely through the representations of Mr. V. Stefansson, the government has appointed a commission, consisting of the explorer himself Dr. J.G. Rutherford of the Dominion Railway Commission, J.S. McLean, and J.B. Harkin, commissioner of the Dominion parks, to inquire into the possibilities of the Arctic and sub-Arctic regions as a grazing and food-producing country.

It will be remembered that before the Senate recently Mr. Stefansson referred to the huge herds of reindeer and musk-ox in northern Canada and the enormous grazing lands which he estimated as covering at the least 1,000,000 square miles.

## LONDON AND DAYLIGHT SAVING

Notwithstanding that the London city council passed a bylaw bringing "summer" time into use, a considerable percentage of its citizens continue to use "winter" time. It had successfully tried the innovation last year and many ratepayers urged its Council to reintroduce it. Objections were raised and a fund gathered to test the bylaw. It was declared ultra vires. The upshot was that part of the citizens continued to follow the new and a part reverted to the old time.

The objectors next attacked the Board of Education, which had continued to use "summer" time. The trustees to circumvent the objection, applied to and obtained permission to open the school at 8 a.m. old time. The street car men next expressed an unwillingness to operate their cars on the new time schedule, and as a consequence cheap fares, on which many children were taken to school, have been withdrawn.

To solve the matter the voters of the city are at a special election to be asked to decide whether standard or "summer" time is to be used in London.

Human nature is a queer commodity, London citizens are because of their difference losing a lot of genial sunshine and garden hours.

### "Fetiching up the Boy"

New York Outlook—My household directions for "fetiching up the boy" have been short and swift. As I think of them they follow:

By my plan of keeping clean inside just as you would keep clean outside—without comment and simply as a matter of course.

By not hounding him into a corner by too many unnecessary questions.

By never admitting in his presence that a boy is capable of underhanding doing.

By suggesting to him that if he ever felt any superiority to any human being—that he go upstairs and take a bath and get over it.

By intimating that no one is ever offended by refined language and decent manners.

By maintaining a great respect for any reserve he may have attained.

By respecting him as an individual.

By realizing that he has his own leadings, intuitions, tastes and preferences and that he may be an older, more inspired soul than I am.

By praising him very often.

By leaping upon him and changing condition on the minute when he slumped.

By evading sharing with him the great universal joke.

By understanding when he was bored by Milton's "Comus" and by being thrilled when he chose to read it.

By loving him when he came from the boiler works covered with soot and by continuing my affection when he was in fresh linen.

By accepting at home all the courtesies I wished to have him distribute abroad.

By running along with him in the study of the star garden, politics the daily news, industrial and social affairs, cookery and everything from boilers to trench mortars.

By my faith in him—His Mother.

### TO OBSERVE SOLAR ECLIPSE

Observers of celestial spheres are today discussing the total eclipse of the sun which will occur tomorrow. It will be the most interesting event of the year in astronomical circles, but unfortunately the phenomenon will not be visible in North America. The path of totality will cross South America from Chile to Brazil then cross the Atlantic Ocean to Africa crossing Africa from French Congo to East Africa and ending in the Indian Ocean.

The eclipse is attracting more than ordinary interest in scientific circles by reason of the fact that the moon at this time happens to be so near the earth that its black disc will appear appreciably larger than the sun and hence the sun will be hidden for a long time. Thus in South America, at points where observations may easily be taken, the eclipse will last for nearly five minutes and for somewhat more than five minutes in Africa. In mid-Atlantic totality will last 6 minutes 50 seconds, an unusually long time, the maximum possible being 7 minutes 58 seconds. The shadow path is thus unusually wide, and the darkness at the middle of the eclipse will be unusually intense.

Several expeditions of astronomers, equipped with photographic apparatus and any completed instruments, have gone to points from which observations of the eclipse may be made. From Europe the most of the scientists have gone to Africa for their observations, while American scientists have gone to Brazil for a similar purpose.

Much interest is manifested in astronomical circles in the experiment to be undertaken by Professor David Todd, the Amherst College U.S. astronomer, who has gone to Montevideo with a view to taking observations of the eclipse from a naval seaplane. It is planned to take the observations at a height of from ten thousand to fifteen thousand feet. In this way it is expected to obtain clearer photographs of the eclipse than have ever been made before as the plane will soar well above the interfering clouds.

## Hadn't Seen Well Day For Twenty Years

Taylor Says Wife is in Better Health than He Ever Saw Her Praises Tanlac

"My wife has been a great sufferer from a disordered stomach ever since I first knew her but she is in better health now than I have ever seen her, and the reason is, she is now taking Tanlac is what Richard A. Taylor said to the Tanlac representative the other day. Mr. Taylor lives at 3 Oak street place, Toronto, and is employed at the Consumer's Gas Plant.

"She always had a poor appetite and I don't believe I have ever seen her enjoy a good hearty meal like other people. What little she did eat seemed to sour on her stomach and the gas formed from her undigested food would blot her up till she felt perfectly miserable, and after a meal she would often complain of a heavy feeling in her chest. Her food did not seem to do her a bit of good for she fell off in weight and I don't believe she had a real well day till recently, in twenty years. Her nerves were shattered she said she felt tired and worn-out all the time, and she had so little strength and energy that her house-work almost broke her down.

"I believe she has taken about every medicine there is on the market trying to get well, but nothing did her a bit of good until she got hold of Tanlac, and that is the only medicine she ever found that helped her any. One of her friends who had taken it told her about it, so I got her a bottle. She has taken only four bottles so far and she is now feeling and looking a much better than her friends are congratulating her on her improvement. That stomach trouble has almost entirely left her and she is feeling stronger than ever. Why she can do all her house-work now without getting all tired out, like she did before, and it sure is a pleasure to see how she enjoys her meals like she does. Really I was so taken with the way she began to pick up after starting on Tanlac that I tried the medicine myself and it sure did me a world of good, too."

Tanlac is sold in Kitchener by E.O. Ritz & Co., in Galt by R.W. McKelheim, in Hespeler by Jno. R. Phin, in New Hamburg by W.H. Boulton in Milbank by R.B. Hamilton, in West Montrose by A.E. Richard & Co., in Preston by H.L. Rick, in Waterloo by A.B. Leorn, in Doon by L.C. Bullock.

The death occurred at Newcastle of J. Creighton, caused by stepping on a rusty nail. The barn belonging to A. Matchett McCullough, Newcastle, was burned to the ground.

## A Plain Statement of Policy

YOU have seen A.H.M. advertising before. You will see it again. We shall continue our efforts to make it a fit representative of the character of this house, and of the product which we sell.

At the opening of each new season, we will make a plain statement of the conditions which govern the market for shoes, and will endeavour to give you clear and impartial advice as to how you may obtain the best possible value. We will seldom ask you to buy A. H. M. Shoes, being content to leave that to your own good judgment.

In a word, we shall continue in our advertisements, and in such printed matter as we issue, to tell the Canadian public how they may obtain shoes of good quality at fair prices. For the success of this company depends, in the long run, upon that very thing.

Our booklet "How to buy Shoes" will be sent with our compliments to any address in Canada. Please mail requests to our head office at Montreal.

## Under-Currents

By The Duchess

"I can't think why on earth you won't run away with me," says Mr. Peyton, who is a bit of a dandy, and this alternative upon her for the past few days with the utmost vigour.

"And leave Vera here alone, to meet his vengeance?"

"It would be only for a sort of time. We could then—"

"Much can be done in a short time," says Grisdale, with an expression of ominously suggestive of dark deeds done, that for the moment Peyton is silenced. "No," sighing, "I shall never desert my Mieswiler."

"Meaning me?" asks he, whereupon Grisdale, with a look of the most perfect indifference, replies: "But even in the midst of his mirth the smile freezes on Tom Peyton's face—a look of abject fear overcomes every feature, and his knees begin to shake beneath him."

"What is the matter with you?" cries Grisdale, looking suddenly aware of this unbecomingly change in his appearance. Where is the point? Oh, Tom, do speak! you look awful. You know I have often warned you about those apples, and—speak, can't you—what has happened?"

"The end of all things," replies he in a ghostly tone. He has now lost his pallor and grows apoplectic. "Hide me," he groans, making a wild but ineffectual effort to conceal himself behind Grisdale's slim figure. "here is Greece coming up the garden-path, Grisdale; keep steady, Merciful Heavens, I see her lynx eye on me; all is lost."

"So far as she is concerned it certainly is."

"Tom, Tom, that's you, Tom," cries Lady Riversdale in clear, strong tones, at once out of an end to subterfuge of any kind.

She stops upon the pathway and furls her huge white umbrella with quite an awful air, after which she bears down upon the luckless pair with all sails set.

"This unwise woman who knows her own brother under some circumstances," mutters Tom, with suppressed wrath, now that hope is denied him, coming resolutely forward with as much grace as he can muster at a moment's notice, and such a moment.

"How do you do?" says he affably if defiantly, that fear of a while since entirely gone. Perhaps, after all, it was fairly genuine, and a sense of amusement had even then entered into his chagrin at being thus brought to bay.

"How do you do?" says he affably if defiantly, that fear of a while since entirely gone. Perhaps, after all, it was fairly genuine, and a sense of amusement had even then entered into his chagrin at being thus brought to bay.

"Lady Riversdale seems stricken dumb by the frivolity of this address, given under such terrible circumstances. She remains deadly silent, as if speech is more than she can compass. Indeed, a touch of tragedy seems to have fallen into the quiet garden, and Grisdale, who has by this time mastered the fact that the unfriendly earth is not going to open and swallow her up, is just upon the point of giving way to tears, when Lady Riversdale breaks the oppressive silence."

"Oh, Tom, what a way to speak to me," she says in a heart-broken tone. She casts an eloquent glance at poor Grisdale, who is trembling in every limb. What kind of girl must this be who has led her brother into such a disgraceful position, and so deplorably altered him for the worse, both in manner and appearance? And yet as she looks at Grisdale's frightened appealing face, it hardly seems to her that so pretty a creature can be altogether deluded. To her the lady's best justice, it might be admitted that she seems devoid of guile, and a prey only to the most open, the most undisguised consternation.

"Well, how did you expect me to speak to you?" asks Mr. Peyton finally, not, however, roughly demoralized; "should I have hoped your health was bad?"

Here two trembling protests fall upon the air: "Oh, Tom," from Lady Riversdale, and "Oh, don't," from Grisdale.

There is such misery in both voices that Mr. Peyton, glancing from one to the other and seeing that both are on the point of tears—the former from dismay, the latter from nervousness—and being beyond all things a tender-hearted man, instantly grows furious.

"Well, what have I said now?" demands he fiercely, throwing his arms abroad in a very abandonment of despair. "Will nothing please you? Bless my stars, if I had committed murder, I could not be regarded with more reproachful eyes."

He positively glares upon Lady Riversdale, who looks back at him with mournful eyes. "xxxxxx"

"Is it really you, Tom?" asks she with a gentle reproach that drives him wilder still.

"But my soul, I don't know," says he distractedly; "if you have arranged that it is not, I'll give in to your opinion."

He stands back from her, that awful rabbit-skin cap cocked triumphantly, if unconsciously, over his left eye, and stares at her blankly. It is terrible, and renders his expression positively sinister. Has he, with the clothes, imbibed the madness of the clown? Lady Riversdale naturally kindly, if worldly, hatches within her. At this moment certainly her brother is not a thing to be proud of, and even as she comes to this sorrowful conclusion, he deliberately lifts his hand and sortches his head. Could the country bumpkin further go? Truly this girl has ruined him; and yet, perhaps it may be the clothes.

**BAD BREATH? DON'T BE OFFENSIVE. REMOVES THE CAUSE.**

Follow this advice and your Breath will Soon be sweet and Pure

The bad part of Bad Breath is the fact that nearly every case shows considerable trouble from indigestion, belching gas, bloating, piles or some form of stomach misery. Often than not a pimply face, a sluggish constipated condition is the true cause of many a man's failure in life.

By adding digestion and building up the weak muscles of the stomach and bowels, DR. HAMILTON'S PILLS completely overcome constipation and all forms of stomach illness.

"I was terribly run down with stomach trouble that arose through neglected constipation," writes Mrs. P.D. Quigley, from Washburn, P.O. I simply couldn't half digest my food. I had dreadful headaches, piles and yellow muddy skin. The effect of DR. HAMILTON'S PILLS was phenomenal. I have gained in weight have a clear skin no more headaches I eat well, sleep well and enjoy my meals.

There is no need to be in failing health when cure is so sure, so easy by taking Dr. Hamilton's Pills of Mandrake and Butternut, 25¢ per box at all dealers. REFUSE A SUBSTITUTE.

## WOMAN SO ILL COULDN'T WALK

Lydia E. Pinkham's Vegetable Compound Restored Her to Health.

Ferth Amboy, N.J. — "For three years I suffered with a severe female trouble, was nervous, had backache and a pain in my side most of the time. I had dizzy spells and was often so faint I could not walk across the floor. The doctor said I would have to have an operation. I read about Lydia E. Pinkham's Vegetable Compound in my newspaper, and tried it. Now I am better, feel strong, have no pains, backache or dizzy spells. Every one tells me how well I look, and I tell them to use Lydia E. Pinkham's Vegetable Compound, that is what makes me feel well and look well. I recommended it to my sister and she is using it now. You can use this letter if you wish, for it is certainly a grand remedy for a woman's ills." — Mrs. MARTHA STANISLAWSKI, 524 Penn St., Ferth Amboy, N.J.

For forty years Lydia E. Pinkham's Vegetable Compound has been overcoming such serious conditions as displacements, inflammation, ulceration, irregularities, periodic pains, backache, dizziness, and nervous prostration of women, and is now considered the standard remedy for such ailments.

## Report Many Cases of Rheumatism Now

Says we must keep feet dry; avoid exposure and eat less meat. Stay off the damp ground, avoid exposure, keep feet dry, eat less meat, drink lots of water and above all take a spoonful of salts occasionally to keep down uric acid.

Rheumatism is caused by poisonous toxin, called uric acid, which is generated in the bowels, and absorbed into the blood. It is the function of the kidneys to filter out from the blood the poisons of the skin and excrete them in the urine. The pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly cold weather the skin pores are closed, thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate this uric acid which keeps accumulating and encasing the joints, the system, eventually settling in the joints and muscles causing stiffness, soreness and pain called rheumatism.

At the first twinges of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of this impurity.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism.

## To Keep the Face Fresh, Clear, Youthful

More important than the cosmetic care of the complexion is the physical care. To keep the face fresh, clear, youthful, there's nothing better than common sense. It absorbs the soiled or faded complexion. Common sense simply adds an unwholesome wax habit. It's so easy to get an ounce of the wax at the drugist's, apply it night like cold cream and get off to a bad morning. There's no detention indoors, the skin coming off so gradually no one suspects you're using anything. When in a week or two the alluringly youthful, rose-like underlain is fully in view—well, you won't want, or need, a make-up complexion after that. It must be apparent that this process means complete ridance of all cutaneous blemishes, like freckles, pimples, blotches and blackheads.

## Grand River Railway Company

Notice is hereby given that the Grand River Railway Company will apply to Parliament at its present session for an Act to amend Chapter 47 of the Statutes of Canada, 1904, by repealing Section 3 thereof, which enacts that the acquisition by the Company of the Galt, Preston & Hespeler Street Railway and the Preston & Berlin Street Railway shall not make such Street Railways subject to the Railway Act or works for the general advantage of Canada but that they shall remain subject to the Legislation of the Province of Ontario. This amendment is designed to have these railways declared works for the general advantage of Canada.

## Breezy Items in Busy Elmira

About eleven o'clock last Saturday evening the citizens of Elmira were startled by the blowing of the big "Siren" fire alarm. The building which was on fire was Mr. I. Laschinger's home on Erb St., and the fire originated in the chicken house, where a lamp in a chickenbrooder became overheated and exploded. About forty little chicks were burned but the fire was not as serious as was at first anticipated and with the assistance of some of the neighbors, it was extinguished before the fire brigade reached the scene.

Miss Vera Appel, of the Public School, staff, spent the week-end with friends in Listowel.

## Senator Turfitt Says They Are Cause of Unrest

OTTAWA, May 26.—Criticism of public expenditure was made by Senator Turfitt to-day when Sir James Loughheed, Government leader, put the Senate into committee on the Government measure providing \$350,000,000 for demobilization and other purposes. Senator Turfitt said that the big interests to assert that there should be no reduction of the tariff as the treasury had to maintain the tariff to gather its required revenue. The unrest that prevailed in the country, he said, was largely due to the fact that profiteers had made millions of dollars in the war. The Minister of Finance had said that Canada had made more out of the war than she had put on the war. That meant that the profiteers of the country had gathered something more than a billion and a half dollars. I was in the hands of a few, but the payment of the war debt of the country would have to be undertaken by the many.

In the blackest hour of the war, when the price of ship plate in Canada was the highest, the imperial munitions board informed the admiralty outfit it could get plate at \$180 a ton for a 4,800-ton ship. The reply was that the price was high, but ships must be had, and the contract should be made. The contract was made for \$190 a ton for the delivered ship. The naval service in the United States, contracted for ships of the same size at \$200 a ton. Canada, to-day, could cancel ship building contracts and by placing on the Clyde, get tonnage as quickly and save millions.

There was unrest and almost rebellion in some places on the country. He was not surprised in view of the statements of industrial institutions that were appearing in the press. Dominion Textiles recently showed net profits on a year's operations of \$1,539,000. available for dividends after all costs, taxes and every other charge had been paid. People who bought fabrics paid this, which was 31 per cent. the capital of the company. As long as such profiteering was permitted there would be trouble in the country, when a wage of \$4 a day would not enable a man to cloth and feed his family.

If the farming community were to be relieved of some of the burden it now carried, people could not be kept off land with a club.

## What About That Wasted Five per cent?

Most of us fritter away at least five per cent. of our weekly wages in trifles.

If we stopped to reckon it up, we would find it hard to remember where the money went.

If we could make that money earn more money without troubling to think out a plan or attend to details, we would consider that we had done a good stroke of business.

The Government has made it possible for us to do that. Here is the plan:

You say to your employer: "Every week I want you to hold back five per cent. of my wages and invest them in War Savings Stamps. When you have bought a War Savings Stamp with my money, put it in my pay envelope. Go on doing that for a year."

You will never miss that five per cent. which you had previously frittered away. But at the end of a year you will have a little package of Stamps which, in 1924, will be worth \$5.00 for every \$4.00 odd you pay for them now.

The guarantee of safety behind the War Savings Stamps is the whole Dominion of Canada.

In May W.S.S. Cost \$4.04

In June W.S.S. Cost \$4.05

War Savings Stamps can be bought wherever this sign is displayed.

**MAKES AZORES-PORTUGAL FLIGHT**

Hawker to Try Again

NEW YORK, May 27.—A special cable to the New York Herald from London states that Hawker, the intrepid aviator, is again to try a Transatlantic flight.

WASHINGTON.—Blazing the way of the first air trial from the Western to the Eastern Hemisphere the United States navy seaplane, NC-4, under Lieut. Commander Albert Read, swept into the harbor at Lisbon, Portugal, to-day, the first airship of any kind to have crossed the Atlantic ocean under its own power and through its natural element.

Taking the air at Ponta De Gada Azores, at 6:06 a.m., Washington time, on the last leg of the Transatlantic portion of the voyage from Rockaway Beach, Long Island, N.Y. to Plymouth, England, the NC-4 covered the 800 miles in nine hours and 43 minutes, maintaining an average speed of better than 80 knots an hour. The total elapsed flying time from Newfoundland to Lisbon was 26 hours and 41 minutes.

At the first opportunity the big airplane will continue to Plymouth 775 nautical miles to the north. Possibly Commander Read can start to-morrow.

**Postpone Franchise Act.**

Ottawa May 27.—There is some probability that the Franchise Act provisionally the most contentious of the sessional program will be allowed to stand over till the next session of Parliament particularly in view of the fact that there is little or no prospect of a general election meanwhile.

The matter will be considered in the very near future in its two phases, whether the bill will be proceeded with and if so, what form it will take.

As there is much on the order paper still to be disposed of, and especially in view of the pressing problems of industrial unrest, the disposition is to defer whatever measures are not of particular urgency.

The question, however is not decided.

**Gouin May Come in.**

Ottawa May 27.—A movement for the consolidation of the Unionist party on broad lines of half and half, or perhaps better, if more Liberals, can be induced to come in the Cabinet, is on foot and is expected to take more definite form before the end of the session. Much the same argument as was invoked during the war as to the necessity of united effort is heard.

The serious problems that confront the country, with new ones looming up daily, the burden of debt, and the rather perplexing general outlook are held to call for the maximum of effort and the minimum of politics.

**Will Gouin Join?**

In that connection an interesting rumor to which considerable credence is attached is that Sir Lomer Gouin will come to Ottawa and join a reorganized ministry.

The provincial elections in Quebec are set for June 23 and there seems no doubt of the return of the Government.

After securing for his successor, probably Hon. L.A. Tachereau, a new lease of power, the report is that Sir Lomer may move to the federal field and share in the formation of a national Government.

Opposed to this theory is the fact that recently he attended a meeting here and approved the idea of the national Liberal convention and the reorganization of the party.

Cabinet reconstruction is likely to be deferred for some time.

**May Not be Called on to Pay Reparations**

PARIS, May 26.—Representatives of the new states carved out of the former Hapsburg monarchy were given a hearing to-day by the reparations commission to present their objections to the proposed solution of the Austro-Hungarian financial problem under which they would be held responsible for their share of the pre-war debt, the war issue of currency and reparations and would be required to compensate Austria and Hungary as the will be constituted in the future or the value of the public buildings and property inside their limits.

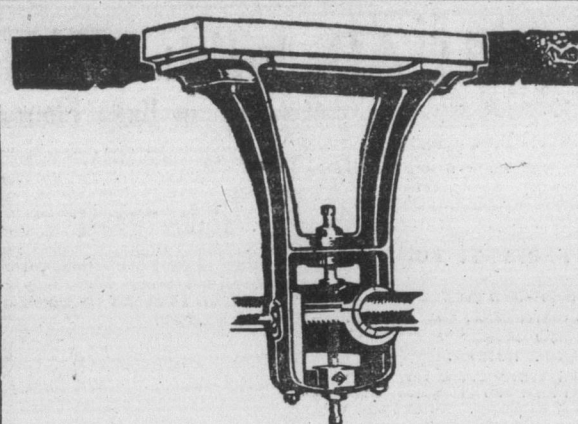

The process is a great burden was met sympathetically by the council of four, which sent the question to the reparations subcommittee for a rehearing. This subcommittee will be supplemented by Franco-British representatives, who are understood to be opposed to any change. The British representatives delegated are Gen. Smuts and John M. Keynes, and the French are Capt. Andre Tardieu and Louis Loucheur.

The belief is held here that a new report will be made, exempting the new states from any payments on account of reparation for public property taken over. The prime factor in the negotiations heretofore has been the fact that about three billion francs of the Austrian pre-war debt is held in France and the French Government has promised to secure repayment to its nationals. Hence it has been anxious to distribute the financial burden in order to prevent bankruptcy in Austria.

Five children of Alfred Duperron, 20 farmer of La Patrie, near Sherbrooke, Que., ranging in age from seven years to one year, perished when their house was burned.

Joseph Menon and his wife, o Huntley, and Mrs. Ryan of Ramsey, were instantly killed, and Mr. Ryan seriously injured when a motor car was struck by a C.P.R. train at Carleton Place.

Senator Peter Meardon, of Perth, died at the age of 80.

Mrs. Hugh L. White, of Columbia, Miss., who was appointed trustee of the State Industrial and Training School, is the first woman in Mississippi to be honored with a position as trustee of any State institution.

To Miss Hilda Florence Simpson of Liverpool, has fallen the distinction of being the first woman in great Britain to be admitted to the Society of Incorporated Accountants and Auditors.

Attempts to solve the problems of the present-day woman worker were made by 13 State labor conventions during the year 1918.

## CITY AND DISTRICT

ALL THE LATEST LOCAL AND DISTRICT NEWS

Mr. J. Cotton Again with us. Mr. Joe Cotton of the F.W.D. Co. is visiting in the city.

St. Jerome's College Commencement. On Wednesday June 4, the commencement exercises of St. Jerome's College will be held. These formalities will mark the end of the 54th Scholastic year of the College and will open at 10:30 o'clock a.m.

Two Fines in Liquor Charges. Charges of having liquor illegally on the premises and of operating a still were heard and disposed of in Court this morning. A plea of guilty was entered by the defendant, Adolph Kern in the first case a fine of \$200 and costs was levied and in the second \$100. The first charge was laid by the License Department and the second by the Inland Revenue Department.

Has Received The Medal. Spr. E. P. Lindsay formerly of the 10th Canadian Railway Troops has received the military medal awarded him for bravery on the field.

The intelligence from London, Ont. that came with the medal was: "I have the pleasure of forwarding the military medal awarded to you. My congratulations."

The medal is a handsome one.

Ascension Day Services. The festival of the Ascension will be celebrated to-morrow in St. Matthew's Lutheran Church. Divine services will be held in the evening at 8 o'clock. The Rev. John Schmeider, pastor, will preach. The mixed choir under direction of Mr. O. G. Smith, will render appropriate music.

Police Chiefs Convention postponed. Owing to the unsettled conditions in the Northwest at the present time the Dominion Police Chiefs Convention which was to have opened in Calgary June 10th and continue for several days has been postponed to some future date. The holding of the convention just at this time of the year however interfered somewhat with a number who would otherwise have gone owing to the Ontario assizes being held the first part of June and now that a postponement has been ordered it will no doubt meet with the approval of a great many who will be able to go later on.

Met Sir Baden-Powell. "We were highly pleased with the visit. It was a pleasure to attend the gathering." Scoutmaster A. Appelby said this morning when asked about the attendance by him and a patrol of local scouts at the gathering of three thousand scouts in Toronto yesterday when the father of the scout movement Sir Baden-Powell made an inspection. Mr. Appelby by the way had the good fortune to shake hands with Sir B. in the same accident.

The distinguished father of the Scout organization was also pleased to meet the local scoutmaster. By the way, he was aware of the fact that Mr. Appelby two years ago met with a serious accident and that a local scout helped him in the same accident. The review was held on the stadium of Toronto University. Scouts and scoutmasters were present from all over the country.

More Boys Arrive. The boys still continue to arrive home from overseas and the same hearty welcome goes on. Last night Gunner H. W. Hommer, 135 Wellington Street, arrived. ### Custers Again Take Beavers Into Camp

Battle Creek Takes Entire Series of Three Games—Play Flint To-day  
The Custers amply repaid for themselves for the loss of their solid game to the Beavers here last week when they cleaned up on the entire series of three games.

Following, Wilgall replaced him at this juncture but slow fielding of batted balls filled the bases and eventually proved the visitors' undoing. Kitchener's showing at Battle Creek demonstrated one thing and that is that the hurling corps as now constituted will not do because of the inability of the pitchers to go the entire route, and the new men in view for this staff cannot show up too quickly.

SHAUGHNESSY'S TIGERS  
AGAIN BEAT BAY CITY  
Bay City, Mich., May 27.—Hamilton to-day defeated Bay City 4 to 2 and dropping the locals to a tie with Brantford for second place in the standing. It was a great game, with Glasier pitching gilt-edged ball. Three double plays, two of them by the visitors, featured the contest.  
Batteries: Glasier and Lapp; Steffen and Brge.

THREE STRAIGHT FOR FIRED  
Flint, Mich., May 27.—Brantford made it three straight from Flint this afternoon, winning by 6 to 1. Estelle allowed but four hits, and, barring the fourth inning, was never in danger. The visitors had one big inning, the third, when passes to Estelle and Brady, coupled with a hit by J. Murphy and errors by Hill and Trefrey, let three runs across. Flint used Lipke, a factory league catcher, in place of Joe Murphy, and Brantford stole seven bases. The score: Brantford 6 Flint 1  
Batteries: Estelle and Witry; Fisher and Lipke.

LONDON PITCHER-MANAGER  
NO MYSTERY TO SAGINAW  
Saginaw, May 27.—Star Mason brought up several new players from Detroit and went into the box himself to-day, but Saginaw ran rough-shod over the Tecumseh again, winning 17 to 2. Mason was wild and was hit hard, while Gilbert was no mystery, and the London team backed their pitchers up shamefully. Mason finally took himself out in the fifth inning, after Saginaw had run in an even dozen tallies, with two men on bases and none out. The score: London 2 Saginaw 17  
Batteries: Mason, Gilbert and Tree; Wismer and McDaniels.

### ON THE SIDE

Andy Kyle had a busy time in left garden yesterday. He had five put-outs and assisted in a double play. Two double plays, three stolen bases, eight hits and a five run lead should be enough to win any old game these days for a pitcher. Beatty may be justified in trying to emulate the example of the manager of the New York Giants, but even Muggsy McGraw yanks them out when their is still a chance to win.

Wade accepted six chances without a skip and also lammed out a brace of hits.  
London is keeping up its dizzy pace. Saginaw bumped the lovely Londoners worse than ever yesterday. The score was 17-2. The visitors committed eight glaring misplays and otherwise contributed to the buffoonery by indifferent playing. Catcher Tree over whom ex-manager Keenan created such a fuss before the opening of the season, has three errors charged against him and allowed six stolen bases. Manager Mason was in the box.

The Red Sox and Hams are still winning. The former won the three game series from Flint. Crystal's Wolves were the Hams' victims yesterday.

### NEW OUTFIELDER FOR KITCHENER.

Toronto Globe.—President McCaffery announced last night that the Toronto club had released outright George Westlake to the Kitchener club of the Michigan-Ontario League. Westlake is a local player and tried out with the Leafs this season. He later reported to Kitchener and has played regularly since. Yesterday in Battle Creek he made two hits and fielded his position well.

### Heart Of Humanity Is Strong Picture

Of the multiplicity of feature films which have been produced for public approval there are only a few which have survived the acid test of public opinion, and remained popular from season to season. "The Birth of a Nation" was the first and for a long time the only picture, which no matter how often shown always maintained its popularity. Then "Hearts of the World" came along and in the minds of many has threatened to oust "The Birth of a Nation" from its premier position. The latest picture to be considered as a production in the same rank is "The Heart of Humanity," which by the way is a truly Canadian story of Canadian heroism, patriotism, and sacrifice. It will prove of much greater value than the official war pictures, good as many of them have been, in preserving the spirit and memory of Canada's gallant deeds during the recent war.

"The Heart of Humanity" has many meritorious features, and while not a "thriller" in the ordinary sense of the word, for real human interest and heart throbs holds the attention of the audience right from the opening of the first reel to the closing "Finis". The photography is of the best, and some showing Canadian scenery in the far north which will bear favorable comparison with anything in the Alps or in

Norway. The battle scenes are very realistic, and the equal of anything seen here.

The story told is a remarkably strong one, of a widowed mother and her five sons and of Nanette, who married the eldest son just on the eve of the declaration of war. All the sons answer the call, and Nanette sends her heart's beloved to fight for humanity. Eventually the call of the motherhood and suffering orphans in the war-stricken area proves too much for Nanette to resist, and she herself dons the uniform of a Red Cross nurse and does such good work that she is awarded a medal. The inevitable German spy of course is on the job, but to tell the story would spoil some of your enjoyment when you see the picture, and if you haven't seen it yet there are only remains to-night and to-morrow for you to do so.

Dorothy Phillips in the part of Nanette has a role which gives her ample opportunity to display her talent, and her portrayal of the part leaves nothing to be desired. Her picturization of the conflicting emotions which tear her soul while she bids her young husband answer the call and at the same time tries to comfort the sorrowing mother, is particularly fine. The whole production has such a strong heart appeal that there were many wet eyes in the audience last night.

### MUNICIPAL HOUSING

In the opinion of the Council, it would, before taking definite action in the housing matter, be expedient to ascertain how many of our citizens would apply for house loans, were such loans limited to the following classes: A. Those desiring to secure loans with which to erect houses, costing up to \$2500, including lot, and who would be prepared to pay 15 per cent. of such sums in cash on making application to the Housing Commission. B. Those desiring loans to purchase houses and lots, whose individual costs would exceed \$2500, and who would be prepared to pay 20 per cent. of the amount in cash on making application to the Housing Commission. C. Those owning lots whose values are respectively less than the sum represented by the 15 and 20 per cent. ages named above, and who would agree to pay the differences in cash, so as to make their initial payment equal those of either Class "A" or Class "B".

For the information of the Council, will persons desiring to secure assistance to erect houses under the above conditions, and pursuant to the provisions of the Housing Act, apply to the City Clerk at the City Hall, up to Thursday, May 29th. Office will be open from 9 to 5 daily, and on the evenings of Friday 23rd and Wednesday, May 28th, until 9 p.m.

D. GROSS, Jr.  
Mayor.

### Rates for Long Distance Service

The new schedule of rates for Long Distance Telephone Service as approved by the Board of Railway Commissioners is effective May 25th.

Following is a comparison of old and new rates for a 3-minute talk to points most frequently called by Kitchener subscribers:

	OLD RATE	NEW RATE
Kitchener to Toronto	\$ .40	\$ .45
Galt	.15	.15
Hamilton	.25	.25
London	.25	.30
Guelph	.15	.15
Windsor	.30	.40
Brantford	.25	.20
Windsor	.80	1.00

The new rates, based upon air-line mileage, correct inequalities in the old schedule and embody both increased and decreased charges. Every Bell Telephone is a Long Distance Station.
