London, Dec. 2.-In an article in the Morning Post on Canadian railways, E. B. Osborne says that as long as Laurier leads the Liberal party there is not likely to be any danger of Americanization. Canada's traffic from west to east is strong enough to control the Americanizing element in his party and prevent any loss to Canada's

economic independence. The Chronicle says that if Laurier proclaimed his readiness to conclude treaty of commerce with Great Britain, why do not, then, the prefer-entialists on this side and on that hammer out a draft commercial treaty? Canada would then know exactly what the preferentialists of Great Britain are willing to give, and the people of this country what Canadian preferentialists are ready to give in return. The London Club and the trustees who are also members of the Historical Society were so anxious for the intellectual welfare of the citizens at large that they wanted the board his opinion that the chairman was ob-

to give financial support to the project of establishing a museum in the Historical Society's room upstairs. They said that if the board purchased the 'show cases," the society and other lovers of the arts and sciences would supply the fossils, the ancient crockery, the curious stones, etc., with which to fill them. Another member of the board hinted that not enough of these interesting articles to "fill a bushel basket" could be got together without paying out considerable cash, and doubted whether the citizens would appreciate the spending of the public money on such a step. Chairman Jeffrey put his foot down upon

the project most decidedly. The beginning of the whole discusmittee which had been appointed to meet a committee of the Historical Society to determine the conditions of the tenure of the room at present used by the latter. MY CHARGES are within reach of all, the poor man as well as the rich. Terms can be satisfactorily arranged, no reason why you should not consult me at once, during this visit.

MEN OF ALL AGES SUFFER

The universal tendency of these conditions is to grow worse and more complicated—leading to impotency, nervous debility, wasting, stricture, lumbago, sexual exhaustion, etc. Do you intend to allow this insidious affliction to sap away your vitality? It is doing so now and if not checked will result in the above conditions. No matter how serious your case may be, time afflicted, or the failure you may have experienced in trying to be cured by medicine—free trials, or Electric belts—my ure you may have experienced in trying to be cured by including—free trials, or fleetic belts—my Biotone system will cure you; the wormy veins return to their normal condition and hence the sexual organs receive proper nourishment, the parts become vitalized and manly powers return. No temporary benefit, but a PERMANENT one. NO OPERATION necessary. No detention from business. If you have hat the usual experience you have no doubt spent large sums of money and still larger quantities of time searching for the remedy that I offer you here.

WANTED-LADIES

To Buy Skirts -- Only Those Who Wish to Save Money!

TE want you to act as agents, not to sell our skirts, but simply to buy them at our store for 35% less than any other concern in Canada, and by wearing them you are bound to advertise our business; therefore, we are giving you the full benefit of the tremendous cut on all our skirts. We are giving you proposition after proposition that no other house in the city can give, and still we find that we have only about three-eighths of the London trade. Why not those who never bought a skirt from us give us a trial? And then, if not satisfactory, we are prepared to refund the money or make you a new garment. Your money is as good as the next one's, and we try hard to earn it by fair and square dealings. You must understand this, and you as well as ourselves must take advantage of every sale, every discount that is offered you through our concern, by dealing with us. Bear in mind that every skirt bought at our store is guaranteed, or, as mentioned above, money refunded. Don't hesitate and don't form your ideas of "Oh! they don't mean what they say, words are simple and can be twisted every which way." Not with us-every word we say, every statement we make, is strictly confirmed by the signature of the manager of our concern. Now, if after you have looked this over and convinced yourself that we are a reliable house to deal with, then come to us and ask to see the following skirts with prices marked in plain figures. Strictly no two prices.

PETER, A HORSE, PINNED THE THIEF

Owner Drove After a Fleeing Famous Tragedienne for Thirty Robber, Who Doubled and Redoubled in His Course.

New York, Dec. 1 .- Dr. Peter Hughes' bay horse, Peter H., 2:174, nobly did his part in catching Charles Curtis, 22 Brunswick Home at Amityville, L. I., years old, a fleeing burglar, in Williamsburg, yesterday. Dr. Hughes, failing rapidly for several months. surgeon-in-chief of St. Catherine's Janauschek was one of the great Hospital, did the rest. After a long chase, in which Curtis doubled and redoubled in his tracks, Peter H. pinned Curtis against a fence and Dr. Peter Hughes captured him.

Mrs. Mortimer D. Metcalfe returned to her home on the third floor of the big apartment house, No. 574 Bedford avenue, at 3:30 p.m. On the second floor she met Curtis coming from Dr. A. C. HOW COXEY GOT CREDIT

Enabled Him to Speculate.

Columbus, Dec. 1.—Jacob Sechler Coxey, who led the commonweal army eived 52,000 votes as the Populist candidate for Governor of Ohio, professes to be a bankrupt, with debts aggregating \$287,741 90, and has filed a peti-tion in the federal court here asking discharge from these obligations.

Those who knew of "General" Coxey nly as a political dreamer and dramatic sensationalist will wonder how he obtained credit for so large a sum, but the fact is that he has always been a fairly good enterprise pusher, and even when leading the army of hoboes ten years ago had business schemes at work that turned out well stone quarries at Massillon and sand, steel and silica works at Mount Vernon. These properties were eventually turned over to the Coxey Steel and Silica Sand Company, of Mount Vernon. The petition affects him only as an individual. His connection as organizer and supposedly large owner of the company probably gave him credit, which he used in other ventures that which he used in other ventures that were not successful. He procured \$50,-000 from the Union National Bank, of Massillon; \$30,000 from the Hussey estate, of Pittsburg; \$100,000 from the Dime Savings Bank of Mount Vernon, and \$12,500 from the Israel estate, of

BEHIND ZEMSTVOS HIS IDEA

Imperial Council Directed to Work Out the Project With as Little Delay as Possible.

St. Petersburg, Dec. 2.-Extraordinry precautions are taken to prevent eakage of information as regards the progress made by the members of the mstvos in drawing up proposals of new measures of reform, which, if they do not exactly make a new constitution, are as near to that as the condition of the Russian people admits of. Reports are carefully and intentionally spread to tell of the dismissal of the commission, of its having no official character, and others of a similiar nature. Do not believe a word of The commission has sat and has drawn up a document containing eleven main points exactly on the lines ndicated a few days ago.

The report was in due course handed o the Minister of the Interior to be handed by him to the Emperor. His Imperial Majesty received the solutions with every sign of satisfaction. Indeed, the whole idea was initiated

by him, and has been his dream ever since he came to the throne. True, there has been ar intense antagonism to it on the part of certain august persons, and also from the Holy Synod, which looks upon any liberal measures as destructive of power and prestige of the Orthodox

These influences the Emperor has overcome, firmly believing that something can and must be done in the way of altering the present system of government throughout Russia. At the present moment this all-important history-making document has been handed over by the Emperor to members of the Imperial Council, and may be altered according to suggestions made by that august body, but there are points which the Emperor has lready decided on.

These are as follows: First, that there shall in future be perfect freedom of the press. Second, that perfect freedom of conscience shall be allowed. This means a great deal, especially to the Hebrews, as it permits them to hold property in districts hitherto restricted. Third, that people shall have a right to vote in the Legislature of the coun-(which means representative

Houses) Fourth, that for the impartial rendering of justice judges shall be immovable, as in England. (Hitherto on the slightest pretext they have been removed by the chief of the Zemstvos.) His Majesty tions of the commission. sanction the control of the budget by the people.

The Imperial Council has been direct. ed to work out the project with as little delay as possible.

When this has been done the highly nteresting question will arise as to when the Imperial ukase will be issued making law of the newly-given reform. might come in the event of a great Russian defeat in order to buoy up the spirits of the people and rouse them renewed enthusiasm to meet great trials again. It might be given as a crowning act upon the day of rejoicing and as a climax to the grand day when the war is over and a treaty of peace shall have been signed. Both possibilities are already talked

Precious Metal Found in Large Quantities, But Is Hard to Mine.

London, Dec. 1. - The Cape Town correspondent of the Times says with reference to the discovery of alluvial gold at Fern Spruit, Rhodesia: "I understand the Chartered Company's engineer will arrive at Cape Town next week and proceed at once to inspect the locality. Government's Plans. Paris, Dec. 2.-Following the ministerial and pariamentary crisis, which led to the resignation of M. Berteaux as minister of war, the president of the council of ministers addressed to the prefects a circular relating to in-

He tells them they should seek for them from officials of every class and also from persons whose past record and devotion to the republic renders them worthy to be chosen as correspondents. This circular could not fail to pass unnoticed. The progressist opposition on the one hand and two members of the Walderk-Rousseau Cabinet, MM. Canadians its utter absurdity forms its chief attraction. The hero of the novel is Donald Glendearg, a Canadian of immense physical strength, colossal wealth, and an intense and overpowering hatred of England. He is the owner of 244 square miles of land near the Laurentian Mountains, as was his father and his grandfather before him. The latter had emigrated to this country from Scotland, through sheer hatred of British institutions. WONDERS BY MESMERIST

Philippe Credited With Marvelous Cures at Lyons.

Parls, Dec. 1.—Philippe, the mesmerist, who a few years ago had an extraordinary influence over the Czar, is now at Lyons, working wonders with a fellow-wizard. The newspapers state that Philippe often stays with the Czar at When the Czar was last in France he summoned Philippe to Complegne and had an interview with him which lasted several hours, much to the astonishment of the French officials. It is asserted that Philippe then foretold the birth of the Czarevitch.

According to the papers Philippe can heal all diseases by thought. No passes, no incantations or massage are needed. A look or thought will suffice. But cures are only possible when the patient's re-lations or friends deserve it by their moral conduct.

The papers tell a story of how by his presence Philippe cured a child who was at death's door with tubercular meningitis. Fifty persons were present at the time. Philippe merely asked all present to pledge their honor not to talk scandal for forty-eight hours. Everyone protest-ed that this was too long, and Philippe accordingly compromised on two hours, at the end of which time the child was

The papers say that after this and other such miracles should the people disbelieve in Philippe, they can only say they are sorry for them.

her voyage will end at New York.

The Uradd is the egg-shaped lifeboat invented by Capt. Olaf Brude, and he planned his long voyage to prove that she is the stanch craft he says she is. She has traveled nearly 1000 members are too be side, and the fact indicates that even under such adverse conditions had she been full of people they would have been rescued within five or six weeks.

Sir Herrick, drawing Paula away into the shrubbery. Then he stands and 5,000 miles so far, having gone as far north as latitude 64, and the run has occupied just 100 days, or twice as long as Brude expected.

The boat is a gigantic egg-shaped structure, floating on its side and enby a horizontal belt, which serves both to fend her hull off from wharves and ships and also, like a bilge keel, to diminish her oscillations in a heavy sea. She is built of steel an eighth of an inch thick, and belt being

An extra aid to stability is a centerboard keel, which, when lowered, increases

her mean draught of 3½ feet to 8½ feet and greatly aids her sailing She is propelled by a large lateen sail, attached to a mast 20 feet high, fixed in a tube in the forward part of the upper half of the shell. the conical raft is fitted with a low railing, and to this, during the voyage, long sweeps were rigged by means of which the crew could row her in calm weather. Aft rises a coming tower or hood with four portholes. The only entrance to the

boat is behind the hood, a hole two feet in diameter, and closed with a hatch with a watertight cover. Her interior is a large apartment, em-bracing the entire hull, and capable of accommodating twenty persons comfort ably, and forty if crowded. On both sides, from end to end run benches or seats that also form lockers for the

stowage of food, clothes and supplies. She can carry stores and water for twenty persons for four months, and can supplement her water supply by a huge can-vas receiver like an inverted umbrella, which is set up on deck in rainy weather and from which a hose leads to her tanks. She is the conception of Capt. Brude.
He is only 22. Between the ages of 7 and 10 he lived with his parents in New York.
Then he returned to Norway for five years, and since that time has been serving in ships of British and American register, having been a quartermaster on the United States transport McPherson during the Cuban war. He has been two rears working out his idea. He sailed from Aalesund on Aug. 7. At

the start he expected to cross in six weeks senate and the Canadian Government and went north to catch the northeast breezes, but this season was marked by an absence of such winds, and the delay proved fatal to his plans, though he be-lieves it has proved the utility of his craft more completely than he expected. What he claims for this boat is that she is absolutely unsinkable, that she can sail as well as the ordinary lifeboat, that her occupants are sheltered and comfortable in all weathers, that her voyage can be indefinitely prolonged without risk to those on board. She can hang from a steamer's davits like an ordinary lifeboat. If drawn down into the vortex of a sinking ship she must come to the surface again because of her buoyancy. QUIRK'S MURDERER IS WELL KNOWN

Detective Murray's Important Statement as to Brantford Tragedy.

Toronto, Dec. 1 .- Detective Murray knows who murdered Jimmy Quirk. At present there is not sufficient legal eviuence to convict, but the facts, he says, are bound to come out very soon. These important and interesting statements made by Detective Murray in his autobiography, published in England, the first copy of which has just been received for review. The detective

"The theory advanced was that Quirk had been climbing to the loft to look at some game chickens he kept there, and that he missed his footing, and fell head foremost to the floor where he lay moaning until Kennedy, the bellboy, heard him. This theory is not tenable. The blood spatters showed a murder, and not an accidental fall. Quirk was struck with an iron bar, or an axe with a blunt head, or a weapon of that kind. It

Many women are denied the happiness of children through derangement of the generative organs. Mrs. Beyer advises women to use Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM: - I suffered with stomach complaint for years. I got so bad that I could not carry my children but five months, then would have a miscarriage. The last time I became pregnant, my husband got me to take Lydia E. Pinkham's Vegetable Compound. After taking the first bottle I was relieved of the sickness of stomach, and began to feel better in every way. I continued its use and was enabled to carry my baby to maturity. I now have a nice baby girl, and can work better than I ever could before. I am like a new woman." - Mrs. Frank Beyer, 22 S. Second St., Meriden, Conn.

Another case which proves that no other medicine in the world accomplishes the same results as Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM :- I was married for five years and gave birth to two premature children. After that I took Lydia E. Pinkham's Vegetable Compound, and it changed me from a weak, nervous woman to a strong, happy and healthy wife within seven months. Within two years a lovely little girl was born, who is the pride and joy of my household. If every woman who is cured feels as grateful and happy as I do, you must have a host of friends, for every day I bless you for the light, health and happiness Lydia E. Pinkham's Vegetable Compound has brought to my home. Sincerely yours, Mrs. Mar.

There will be many appreciations of his character and work, but all will agree that he was a godly man, gifted with a clear and powerful intellect, unswerving purpose and in his day and generation has been a power for good in church and state. His spare figure and unassuming manner were known to the multitude, but to those who had the opportunity of meeting him in private there was a keen humor and wonderful knowledge of men and their ways which made his conversation bracing and profitable. Although of great humility anyone who presumed on this soon found his pre-sumption demolished. > Rev. Dr. Ross, pastor of St. Andrew's Church, while not a student at Knox College under Principal Caven, had a long acquaintance with the deceased. Dr. Ross said Principal Caven was one of the chief minds in the church, and a recognized leader in all philanthropic and religious work. "I do not know of a man in the church that I estimate more highly than I did Dr. Caven," said Mr. Ross. "His death is undoubtedly a severe loss to the church in Canada. According to the rumor the company during the past summer lost about \$1,300 on its theatrical venture. That is, it cost the company \$1,300 more to put on the attractions than was taken in at the gates during the season, but of course, the company made money on Springbank as a whole through the carrying of passengers to and from

Naturally this state of affairs doe not please the company, and the rumor says that the company is determined to make the theater pay. Under their agreement with the city, however, by which it is allowed to conduct the theater at Springbank, the company cannot charge any prices but those now in force—5 cents and 10 cents nor can the company inclose the theater. To get over these restrictions the company is credited with a desire to build a theater of its own on its own ground, and to charge what prices it sees fit and what prices the people are willing to pay. To do this it will, of course, be necessary to purchase land outside the jurisdiction of the park. able articles behind. terday afternoon and evening to hear Mrs. Mary Foster Bryner, Peoria, Ill., who is in charge of the primary department of the International Sunday School Union, and Mr. J. A. Jackson, B.A., of Toronto, general secretary of the Ontario Sunday School Association. Rev. A. J. MacGillivray was in the chair, and the remarks of the two speakers were listen-ed to with the greatest attention and Mr. Jackson said the best way to get at the efficiency of a Sunday school wa to compare the average attendance wit the number of pupils on the roll, thought that it was very necessary

the teachers to take a practical interest in their scholars, and keep track of the absentees, either by writing to them or by paying them a call during the week. The speaker also recommended that the scholars be systematically trained in contributing to the various church funds Another interesting point made by the speaker was that the Sunday school made as homelike as possible It had, he thought, to enter successfully into competition with the theaters and similar institutions.

Mrs. Bryner spoke principally with regard to the methods of teaching, and made many very helpful, practical suggestions. These were grouped under the following heads: Read all the lessons; chalk up the names of the books of the Bible from which the lessons are taken; state the characters to be studied; the location of the lessens given; the various periods covered; the repetition of the thoughts dealt with, and questions from the Golden Text.

Both of the speakers were tendered hearty votes of thanks by the gathering.

in accordance with specifications pre-pared by City Engineer Graydon, the tenders to be in by Dec. 22. The board is asking for prices on the work of construction only, the city supplying the

CAUSE OF DECREASE. The decrease in the customs collections for London last month is mainly due to the fact that merchants have been stock-taking, and therefore have not been entering goods which are already here and will be cleared this month. The Grand Trunk Railway is now clearing part of its coal supply at Chatham, its imports being between Port Stanley and Rondeau. This will mean a contribution to the collections this

WEDDING AT MOSSLEY. On Wednesday last about 100 guests gathered at the pretty home of Mr. and Mrs. Thomas Cornish to witness the marriage of their eldest daughter, Eva, to Mr. Walter W. Scott. The bride looked dainty and sweet, gowned in white India lawn. She was attended by her sister, Miss Mary Cornish, while Mr. Lorne Shaine assisted the groom. Rev. Mr. Moorehouse performed the ceremony, the wedding march being acceptably rendered by Miss Sara Johnston. The numerous presents showed the good wishes and esteem of a host of friends. Mr. and Mrs. Scott will reside at their handsome new residence in Mossley.

APPOINTED TOWN ENGINEER. A recent issue of the Star, of Johannesburg, South Africa, contained the following dispatch from Pietersburg, a municipality in the Transvaal: the town council meeting this afternoon, Mr. W. Ashplant, of Pretoria, was selected as town engineer, and Mr. Mynhardt, local resident, as compound manager. There were 58 applicants for the first-named position, and 83 for the second-mentioned post. Applications were received from all parts of South Africa." Mr. Ashplant is the younger brother of Mr. H. Of \$462,640 on the Roll for 1904 All But \$39,000 Has Been Turned in Already.

A statement prepared by Major Hayes, London's efficient tax collector. gives some interesting facts regarding the taxes collected in this city. It shows that the city council of 1904 had nearly \$112,000 more money to spend than had the city council of 1896, when Mr. J. W. Little was mayor. In 1896the year before Mr. Hayes was appointed—the taxes collected amounted to but \$351,137, whereas the taxes this

year total over \$462,000. Major Hayes reports the collections of taxes this year as very satisfactory. Of the total amount of \$462,640, cash to the amount of \$415,000 had been paid in up to Dec. 1, and discounts totaling \$8,500 had been allowed, making the total amount of taxes paid a large space in the European press. \$423,500.
