PLEBISCITE ON FOOTBALL CONTROVERSY

THE Student Body of the University faces a plebiscite on Wednesday, March 1st. The subject of the plebiscite will be Canadian Football versus English Rugby. The student body will be asked to state their preference—in case one of the two sports must be abolished due to a lack of funds.

This decision was made by the Student Council last Wednesday March 1. The subject of the plebiscite will be Canadian Football vs. English Rugby. The student body will be asked to state their preference—in case one of the two sports must be abolished due to a lack of funds.

It is quite apparent that the majority of SRC reps favor the upper Canadian game. On motion of Guntensperger-Bliss, the Council unanimously passed a motion recommending to next year's Student Council that Canadian Football be supported in preference to the traditional Maritime game. The question to be used in the plebiscite is: "If one of the sports has to be cut out, which do you wish it to be: Canadian Football or English Rugby."

Certain members of the Council later commented that they did not think the plebiscite would accomplish anything definite.

Supports Toronto On Books

A letter from the Student Council of the University of Toronto asked the S.R.C. for student support for Toronto's actions to reduce prices on books by 10 per cent. The Council adopted a motion to this effect which condemns the actions of certain publishers who will not give the usual 10 per cent discount.

Higgs Thanked

Dave Higgs, a Junior Class rep., has resigned from the Student Council because of his intention to leave the University. The secretary was asked to send a letter of thanks to Dave for the sincere interest he has taken in student activities during his term of office on the campus.

Elections Called

Nominations have been called for the elections to fill positions vacated by Dave Higgs, rep., and John Glass, Freshman rep., who has been absent from the S.R.C. for the past five meetings. Nominations must have a nominator and a second and be placed in the S.R.C. Office by March 14th.

Wants Permanent Dates

Gordon Glencross suggested to the S. R. C. that enough criticism and changing of dates for various social events had taken place this year that some effort should be

made to schedule certain big social events for the same week every year. The suggestion was referred to the Co-ordinating Committee for proper action.

Campaign Approved

The Council approved a March of Dimes campaign on the campus for aiding polio victims.

Guest Speaker

DR. LINUS PAULING

who spoke at the Memorial Hall Tuesday night. One of the 150th Anniversary speakers his topic was "The Place of Chemistry in Medical Research".

Dr. Pauling is Chairman of the Division of Chemistry and Chemical Engineering, and Director of the Gates and Crellin Laboratories of Chemistry at the California Institute of Technology. In 1949 he was elected president of the American Chemical Society. Dr. Pauling has studied at, and has been honoured by universities in the United States, Great Britain, France, Germany, Denmark and Switzerland. He has won many awards including the Davy Medal of the Royal Society in 1947.

Bliss Awarded New Scholarship

A bequest of \$2,500.00 to the University of New Brunswick by the late William A. Perkins, a life long citizen of Fredericton, was announced today by the President of U.N.B., Dr. A. W. Trueman. The income from the trust funds will be used to found a scholarship to be known as the William A. Perkins Scholarship. According to the terms of Mr. Perkins' will, the new scholarship must be awarded to a graduate of Fredericton High School or a University of New Brunswick student whose home is in the county of York.

William A. Perkins was a well known and respected citizen of the city of Fredericton. He had never attended the University of New

Brunswick or had any connection with it, but he was apparently impressed by the influence which U.N.B. exerts in the New Brunswick community, and in the national and international sphere, and by the value of education in a democracy.

For some years Mr. Perkins was the proprietor of Globe Laundry. After he disposed of this business, Mr. Perkins joined the office staff of the Canadian National Express. He was a brother of the late Mrs. Hugh Calder.

The new scholarship has already been awarded for the year 1949-50, and the honour of winning it for the first time, has fallen to George Richard Bliss, a sophomore student at U.N.B. George Bliss is the son of George L. D. Bliss, and a graduate from Fredericton High School. He is taking the Electrical Engineering course.

Veterans' Bursary and Loan Campaign Launched

THE 1950 campaign on behalf of the Veterans' Bursary and Loan Fund, which was so successfully established last year, and which was so generously supported by the class of '49, is to be launched this week. Arrangements were completed for a mass meeting in the Memorial Hall. Dr. Trueman authorized professors to excuse from lectures and labs the veteran students and others who might be interested.

The Veterans' Bursary and Loan Fund was established last year by veteran students who desired to express their appreciation in a material and enduring way for two major benefits which they had received: (1) The D.V.A. educational programme which had so substantially assisted them to obtain a University education; (2) The efforts which the University of New Brunswick administration had made to accept every veteran who applied for admission, and the efforts which the professors and instructors had made to give the veterans, and other students, courses of as high a standard as always prevailed at the University.

The sum of \$5,856.50 was subscribed or pledged to the fund last year, by 193 members of the senior class. The average contribution was \$30.30; the range of contributions was from \$1.00 to \$110.00. The worthiness of the plan was also demonstrated by last year's S.R.C. which voted to transfer \$3,000.00 worth of S.R.C. bonds to the Veterans' Bursary and Loan Fund. This sum, plus the amount which the bonds had yielded in interest, increased the fund to \$9,156.50.

Three members of the original committee are still in Fredericton. They are John Clark, Forestry '49, who is on the staff of the Entomological Lab., Cec. Charlton, senior Forestry student, and Harold Chapman, senior Electrical student. Charlton will act as chairman of the meeting on Tuesday, and both Clark and Chapman will speak briefly. It is also expected that Rod McLeod, S.R.C. president, will be called upon for a few remarks.

Plans call for every veteran student on the campus to be solicited for pledges or contributions to the fund. Teams of canvassers have

already been organized on a faculty basis, and they will begin their work immediately following the meeting.

ALREADY AWARDED

Gordon Stairs and Gordon White, both Freshman Science students have achieved the distinction of being awarded the first two Bursaries provided by the Veterans' Bursary and Loan Fund. The Bursaries were awarded recently by the Board of Deans as laid down by the terms governing the administration of the Fund.

Gordon Stairs' home town is Fredericton, and he graduated from F.H.S. last year. He has already made the limelight of student affairs by making the senior varsity basketball team.

Gordon White was born in Timmins, Ontario, but his guardian Dr. A. L. Walsh, lives in Montreal. Unlike most scholarships and bursaries, academic proficiency is not the first consideration governing the award of the Veterans' Bursaries. Financial need is the prime factor which determines the selection of the successful candidates.

ALUMNI COMMITTEE REPORTS ON GOLD MEDAL & ALUMNI PRIZE

The Committee has considered both phases of the duty assigned to them and begs leave to report as follows:—

1. Touching the awarding of the Medal: It is recommended that the medal be awarded, as at present, on the recommendation of the Professor of Classics. The Committee considers this method preferable to the former one which called for the submission of an original Latin Essay, or a translation of a selected portion of English prose into Latin.

2. Touching the proposed Alumni Prize: The Committee would hope, and would recommend—

(a) That the amount of the Prize be ONE HUNDRED DOLLARS, this amount to be divided equally between money and books.

(b) That the award be made on the basis of the highest average of marks made in the examinations of the required subjects of the Freshman year.

(c) That in the matter of the choice of Books, the winner of the prize take counsel with, secure the approval, of a member of the Faculty, the Books when selected and approved, to be stamped with the coat of arms of the University and designated as a prize from the Alumni Society.

(d) That the Society shall base its nomination of the winner to the Senate on the report of the Registrar, and shall make available both the Money and the Books at the opening of the second year of the successful student's course at the University of New Brunswick. (In the event of the winner not returning, the prize shall go to the student with the next highest average.)

(e) That the presentation of this prize be made at the October meeting of the Associated Alumni at a student meeting held in October.

(f) That the Society set up a small Committee of its members whose duty shall be to endeavor to make known and popularize the Society's awards and suggest such changes in the rules and practices governing these as experience and changing conditions in University life and activities may indicate, and generally, and at a much earlier stage, than at present, bring the Alumni and the undergraduate body into more intimate and sympathetic relationship.

Reform Necessary . .

The student government of the university is in dire need of reformation. Lack of efficiency, co-ordination, and responsibility are the chief complaints.

Caused by a lack of interest and enthusiasm on the part of the student body, only second rate performance will be and is the result. Whether they do not care or whether they entertain no sense of responsibility we maintain the majority of students really don't give a damned who runs the campus or how it is run as long as someone else donates his time and energy.

Ignoring this general complaint may we make a few suggestions which will stimulate interest in student activity and at the same time provide some degree of stability, efficiency, responsibility, and co-ordination.

THE S.R.C.

Student elections for all S.R.C. and A.A.A. positions should be held in January annually. Each new council will appoint sports managers in February. Thus when a Junior or fourth year student in applied science becomes President of the Council he will have the past president to advise him. This also eliminates the argument that one council cannot bind its successor. Furthermore, it permits long-term planning in the sports department. The President of the Council could be either a fourth or fifth year student. We would abolish the position of second vice-president—it's useless.

The N.F.C.U.S. Chairman should automatically be a member of the Council. The Editor-In-Chief of The Brunswickan should not be a member of the council since he should be free to criticize council policy.

Non-athletic awards and salaries for the executive of the Yearbook and Brunswickan should be abolished. The first is a useless luxury, the latter exemplifies discrimination. This step would save the Council \$500.

A.A.A. REFORM

The A. A. A. President should be a member of the S.R.C. Executive and be either a fourth or fifth year student. He should attempt to promote a greater spirit of economy within the A.A.A., his views should be those adopted by the majority of A.A.A. members, and he should not be relegated to the position of mouthpiece of the Athletic Department.

DEBATING

The University should establish a department of speech and should encourage the Debating Society through financial aid. The Debating Society should organize inter-faculty debates.

UNIVERSITY PRESS

Here is one way for both the University and the student body to save money. Establish a University Press. \$20,000 in university and student administrations' expenditures on printing plus provincial government printing makes it not only feasible but economically sound.

PUBLIC RELATIONS

The appointment of a student public relations officer to publicize student activities. A glance at outside newspapers makes this suggestion obvious.

BOARD OF PUBS

True, pubs might be a good thing at U.N.B. We're not suggesting this though. There should be one Editor-In-Chief for all publications. Each publication would have an Editor. The Editor-In-Chief, the editors, the business managers and one advertising manager for all publications would form the Board of Publications or "Pubs". This board would not only co-ordinate the activities of publications in order to reduce expenditures but would also handle all advertising solicited from business firms. Thus a hardship would not be worked on numerous business firms, goodwill would be increased, and advertising would give greater returns.

—Photo by DUKE

On Saturday, Jan. 28, the members of the U.N.B. Radio Club enjoyed a very interesting and informative afternoon. The Club gathered at the radio "shack" at Alexander College and from there proceeded to the Army Headquarters on Woodstock Road, where they were taken on a tour of the Army radio and teletype installations. The various pieces of equipment were described and demonstrated by Capt. Baker and Sgt. Anderson of the Army Signal Corps.

From Headquarters, the club members were taken via army transport to Maryland Hill where a new radio teletype installation is nearing completion. This station is being constructed in order to establish radio teletype connections with Moncton, Saint John and Halifax.

The Club wishes to thank the Signal Corps for the courtesy they have shown in making this tour possible.

Whose Misconception

A "LETTER TO THE EDITOR" has criticized our editorial "So What? . . . Withdrawal?" The author of the letter wrote: "the funds which are collected across Canada in universities are not used to pay for the International Seminars in Europe", implying, of course, that we stated that the universities had collected the funds for these trips. This is entirely incorrect. At no time did we say any statement to this effect. A careful reading of our editorial would indicate that quite the opposite was true.

Secondly, we were serious when we suggested that U. N. B. withdraw from I. S. S. In comparison with other universities, \$500 is a reasonable figure to be used as the expected total to be subscribed by U. N. B. students. The campaign fell short by \$300 or 60 per cent. This result was not due to the efforts of the committee which Miss Bliss heads. Judging by their efforts we could reasonably expect five times the amount raised. The fact of the matter is, that the majority of U. N. B. students is just not interested in supporting I. S. S., no matter how worthy an organization it is! They are so prejudiced against I. S. S. that an irrational attitude prevails.

We would like to point out that U. N. B. is indebted to I. S. S. while we have not been of any real aid to that worthy organization—a role we are supposed to fill. Through the influence of I. S. S., U. N. B. has been able to send two delegates to the European Seminar from funds provided by provincial governments—roughly \$1,200. We, in return, have given only \$260.00 to the I. S. S. in the past two years. If we did not belong to I. S. S. in all probability we would not have received our quota of two delegates to this seminar. Hence, directly or indirectly we receive more from I.S.S. than we give in return. I.S.S. is a relief and service organization. It appears to us that I. S. S. is supplying relief to U. N. B.

SUMMARY

If these suggestions were adopted we seriously believe the students could operate both Canadian Football and English Rugby and the levy could probably be reduced to \$15 per year. THIS OUR LAST

The present editor-in chief, seeing the handwriting on the wall, deems it necessary to resign. Therefore this is the last editorial by the present editor. His only hope is that the S.R.C. will consider some of the suggestions mentioned above.

He wishes to convey his heartfelt thanks to all the Brunswickan staff members with whom he has been associated during the past year and sincerely desires that his successor will have the same co-operation and support as he received.

R. G. H.

LIKE A COW

Dear Sir,

This is a letter directed to the Co-Eds of U.N.B. on the publication of their Brunswickanne. The material was excellent except for the editorials. I fear that some little Co-Eds' pen ran away with them.

In "Never Underestimate" I am afraid that life, for the average student, would be sad at U.N.B. if all the Co-Eds had the Editors' egotism, living in constant fear of being made a "hero or a snake", a "king or a crumb".

Evidently our "little" Editors allies herself with this "Clever female", entirely without foundation, and wants the rest of the Co-Eds to believe this balderdash. Personally if a Co-Ed looked at me, like a cow waiting to be milked, it would give me a pain in the neck. The poor Co-Eds are even now so filled with their own importance that they are almost impossible. However it is a good paper.

Yours Truly,
 J. R.
 R. O.

LAST WEEK'S SHOW

February 1, 1950

Dear Editor:

After reading the Co-Ed Brunswickanne I would suggest that in future there should be no issues of the Brunswickan put out by particular groups on the campus unless they are of a much more mature quality than last week's exhibition of juvenility produced by the Co-Ed Editors. They certainly are not to be congratulated on publishing a UNIVERSITY paper which was typically HIGH SCHOOL in content. I would even go so far to say that most high schools in this country could produce a much more mature piece of journalism. The Co-eds' Brunswickanne was just another piece of evidence proving that they are here only to get a man. They didn't show that they had learned anything in their college days thus far at any rate.

Respectfully yours,
 DIGNIFIED ARTSMAN.

Three Debates This Week

The University of New Brunswick Debating team next week will be out to retain the Maritime Intercollegiate Debating Championship won by U.N.B. last year. All of U.N.B.'s scheduled Maritime Intercollegiate Debating League contests for this year will be staged next week.

On Thursday evening a team from Mount Allison University will visit Fredericton and will defend the negative of the resolution, "Resolved that the Canadian Broadcasting Corporation operates in the best interests of the people of Canada". U.N.B.'s lineup for this debate will be Julian Guntensperger of Quebec City and Miss Jacqueline Webster of Fredericton. The debate will take place in the Forestry Building getting underway at 7.45 p.m.

On Friday evening, two U.N.B. teams will be active in Nova Scotia. At Antigonish, Ronald Stevenson of Edmundston and Robert Allan of West Saint John will debate the affirmative of "Resolved, that the Communist Party should be outlawed in Canada", against a Saint Francis Xavier University team. At the same time John Hildebrand and Ralph Hay, both of Fredericton will be visiting Dalhousie University in Halifax and will oppose the resolution, "Resolved that a system of compulsory military training be established in Canada immediately".

Guntensperger, Stevenson and Hildebrand were members of last year's championship team. The other members of that team were Edward Fanoj of Hartland and Harold Stafford of Fredericton, both now studying at the University of New Brunswick Law School in Saint John, and Hugh Whalen who is now pursuing post-graduate studies at the University of Alberta.

A Chignecto

It is unnecessary to argue the construction of a Chignecto canal. The Brunswick have many times of which would accrue if this canal became a development, benefiting shorter distances stressed along its points. Indeed it is at Chignecto would an irrigation ditch field as far as M is concerned. The proposed project is ed enough to cause pious of people feasibility.

The Historical has also been given publicity. Mention the Minette survey of 1825, and of 1826, and the C. 1843. General attention to the report given to the Allen Commission this Commission w adian canals into those which were the standpoint of ment, those which sirable but did no dertaken at once, had economic shelved indefinitely was placed in the

A Chignecto Canal?

By Art Parks

It is unnecessary to emphasize the arguments advanced for the construction of a canal across the Isthmus of Chignecto. Within recent months the people of New Brunswick have been informed many times of the advantages which would accrue to our province if this canal became a reality. Industrial development, agricultural development, benefits to transportation, shorter distances have been stressed along with many other points. Indeed it has been claimed that the construction of a canal at Chignecto would be like digging an irrigation ditch through a dry field as far as Maritime economy is concerned. The discussion of the proposed project has been one-sided enough to cause the most unsuspecting of people to question its feasibility.

The Historical Aspect

The historical aspect of the canal has also been given considerable publicity. Mention has been given the Minette survey of 1822, the Hall survey of 1825, and Telfer survey of 1826, and the Crowley survey of 1843. General attention has been given to the report of the Sir Hugh Allen Commission of 1870. It was this Commission which divided Canadian canals into three classes—those which were imperative from the standpoint of economic development, those which were highly desirable but did not have to be undertaken at once, and those which had economic merit but could be shelved indefinitely. Chignecto was placed in the first group.

Early in 1875 "the Daily Telegraph" of Saint John carried a plan put forward by a civil engineer, H. G. C. Ketchum who was born in Fredericton, to build a ship railway across the isthmus. For several years this plan was given considerable attention. In 1881 Mr. Ketchum made a survey at his own expense and submitted his plans to the Dominion Parliament, seeking financial assistance. At the same time he undertook to form a company and to furnish private capital. Parliament passed a bill granting a subsidy of \$15,000 a year for 25 years, and a company was formed in London to carry out the project. Work began in 1888 and continued until July, 1891 when, owing to the failure of Baring Brothers in London, no more funds could be obtained. Three-fourths of the work was finished and another year would likely have seen the enterprise ready for operation. But failure of the company to raise money and the refusal of the Dominion Government to contribute led to the collapse of the whole project. Now only silted up terminal docks dismantled buildings and the right-of-way across the isthmus remain. The railway was 17 miles long, extending from the mouth of the Musquash to Tignish on Baie Verte. Vessels were to be admitted to the docks placed on cradles lowered into the water. Then they would be hoisted by hydraulic power, and placed on railway trucks to be hauled to the other terminal.

Not Economically Feasible

The most recent complete report on the proposed canal is that of the Chignecto Canal Commission of 1931, of which Arthur Surveyor was chairman. This Commission was assisted by the Department of Railways and Canals. Since the report has been given very little publicity in recent months it is wise to consider it in some detail. The 1931 Commission found the project feasible physically, but not economically. A canal with locks would have to be built, since the unusual tidal conditions at Chignecto would set up a current of scouring velocity and make an ordinary run of water canal impossible to navigate. This raised the question of water lockage purposes. The commission found there was a deficiency of water along the route declared by the engineers as most necessary to build a pumping plant at the Baie Verte end since the water of the Bay of Fundy could not be used because of the silt which it contained. In the absence of hydro-electric power, usually a by-product of modern canal construction, steam would have to be used to operate the pumping plant. The canal would necessarily be a full-tide project because of the loss of time caused by awaiting entrance to a half-tide canal. For coastal services and the smaller type of ocean going vessels a canal would have to be 18 feet deep, have a bottom width of 70

feet, and a lock 48 feet wide and 200 feet long, and in 1931 would have cost \$23,045,000. A somewhat larger canal to accommodate passenger and freight vessels engaged in the West Indies trade would have cost \$38,553,000. Annual charges on the canal, interest on capital stock at 5 percent, depreciation at one-half of one percent, maintenance, repair and operation would have been \$1,804,200 on the smaller project and \$2,762,400 on the larger. In arriving at these charges 10 percent was added to capital cost to cover interest during construction. In estimating the annual traffic which could be expected to pass through the canal, the Commission decided that to balance the annual charges the traffic would have to greatly exceed the maximum annual capacity of the canal. After considering the savings which would accrue to shipping as a result of the canal it was found that the annual savings would be above 15 percent on the smaller project and 30 percent on the larger of the annual charges on the two canals. Another estimate on savings, based on goods then going by water and probable increase, was much smaller, and amounted to \$127,490 on the larger and \$129,490 on the smaller project.

Navigation Conditions

Navigation condition in the Bay of Fundy is not subject to any particular difficulty. A study of fog conditions indicated that Bay of Fundy waters experienced rather less fog than is to be found on the Atlantic shore of Nova Scotia. The Bay does have unusually strong tides but these should present no great difficulty. The tidal conditions present difficulties such as the necessity to enter and leave a port at certain stages of the tide, and make it necessary to be aground at dock between tides. However a full-tide canal at Chignecto would not meet these difficulties as far as the canal itself was concerned. The upper waters of the Bay of Fundy are not likely to prove attractive as an ocean liner route.

The report of the 1931 Commission points out to those who stress shorter distances by sea as an argument for the canal, that distance alone is not an absolute criterion. The time consumed in navigation is of equal importance. It is only when time of navigation is reduced to terms of equivalent distances that a correct estimate of relative advantages is possible. The necessity of approaching carefully and traversing a canal with locks and a restricted channel consumes time which could be utilized on the sea by sailing full steam ahead. Considering this in certain cases the canal would offer little advantage, in some none whatever in point of time. However to reach northern United States ports from Prince Edward Island and mainland ports adjacent to the canal there is an advantage in both time and distance.

The St. Lawrence Waterway

Another important fact brought forward by this Commission was in answer to those who advocate construction of the canal because of Canada's great outlay and annual charge for canals, very little of it in the Maritime Provinces. There is no alternative to the St. Lawrence waterway. The Welland and the Sault Ste. Marie Canals are part of the only navigation route leading to the heart of the continent. These canals benefit all Canada, including the Maritimes. The country could not prosper without this improved waterway connecting the Great Lakes and the Atlantic Ocean. The situation at Chignecto is quite different. All points on the Gulf of St. Lawrence and the Bay of Fundy have access to the sea, the question being one of shorter distances. As a through maritime highway it would not likely be attractive to shipping, considering the preferable navigation conditions in more open waters.

There is no possibility of developing water power along the route proposed by the engineers who assisted the Commission. There is an insufficient supply of water for lockage purposes. It would be possible, however, to instigate a combined navigation and power project, by harnessing the water of the Bay of Fundy. The estimated total cost of the combined project at the time was given as \$72,185,000. This figure would be about \$8,000,000 more than the navigation project

alone along the Missiguash route, plus the total cost of a tidal power project. There would be no economy in combining a navigation and power project. But subject to the approval of the Dominion, which exercises jurisdiction in tidal waters, and subject also to the safeguarding of navigation rights, it would be possible to proceed with a tidal power project independently of the canal, should the development of tidal power on a commercial scale become a practical proposition for the provinces concerned, or for private industry.

Iron Ore Concessions

During recent months the Hollinger-Hana iron ore concessions in Quebec and Labrador have come into prominence. Advocates of the Chignecto Canal use the expected development in this area as an argument for undertaking the project. By some unfamiliar economic analysis a number of these people have concluded that this ore would pass through the Chignecto Canal, some of it would be diverted and steel mills would be set up in the Maritime Provinces. This argument completely overlooks several basic facts. First it is not guaranteed that the ore will go to the Atlantic seaboard of the United States, if development takes place on the scale hoped for. It could go up the St. Lawrence to the industrial centres in the interior. A short time ago an announcement of the discovery of very high grade ore near the sea-coast of Venezuela, which would enjoy all year water transport to United States centres, complicated the picture still further. These people overlook too, navigation conditions in the Gulf of St. Lawrence and Northumberland Strait during the winter months. They disregard the lack of power, particularly in New Brunswick. They do not consider markets or transportation costs for the finished product. Certainly there is an opportunity for development in these provinces, but it does not seem this can be in the field of heavy industry.

Employment Situation

The construction of the canal has been urged as a means of improving our employment situation. The project would provide work for a number of persons during the construction, but what would happen to them on its completion? We do not want a make-work project which will provide employment for a time. We want economic development which will provide permanent employment for our people. The New Brunswick Committee on Reconstruction along this line. It recommended federal projects as emergency work projects to ease unemployment while private industry adjusted itself to peace time conditions. However it was stressed that these projects must be no mere series of make-work projects. They should be designated to increase the capital assets of the province and lay the groundwork for future development. In connection with a canal at Chignecto the committee presented this recommendation—"It is recommended that the Provincial Government request the Dominion Government to make a comprehensive investigation of the engineering and economic aspects involved in the construction of a canal through the Isthmus of Chignecto"

Improvements

The report of the House of Commons Committee on Reconstruction of 1943, states on Maritime development, "Improvement can be brought about through a proper development of the fishing industry; through assistance to the farming community by the applications of the provisions of the Prairie Farm Rehabilitation Act, by the installation of rural electrification facilities; through proper forest conservation and extended utilization of forest products; through the introduction of additional secondary industries, where the development of such industry is economically sound by reason of proper markets and of primary production within the Maritime Provinces or in neighbouring lands, such as Newfoundland."

The New Brunswick Committee on Reconstruction made similar recommendations. The most important step to be taken with long term planning toward improving New Brunswick's economy is the further development of existing industry, and the creation of new industry. Primary industries should be developed about these primary industries, so that some of the processing of raw materials now done

STUDENT FORUM

This Column is open to any student who wishes to express his views on any controversial subject.

Last Wednesday night at the S.R.C. meeting, Canadian and Rugby football came up again. The majority of those present felt that next years S.R.C. cannot finance both games at the present rate of expenditure, because the finances will be down by at least \$4000.00. It was decided to refer the matter to the students, to see whether the big step should be taken, and Rugby be deleted from the athletic line up here. Looking on the record of Canadian Football, one must say that the game seems to be far more popular than Rugby, both as far as numbers participating and numbers of spectators. Rugby last fall was a complete farce. The only game which drew a large crowd was the Mt. A. one, and that simply because of the long standing rivalry with that institution. But has Canadian football caught on? It was a novelty last year, most Maritimers had never seen the game before, and may have come out of curiosity. Because Canadian football is the fall game in Upper Canada does not mean the same will happen here. I personally feel Canadian football is one of the best if not the best sport to watch, but then I am not a Maritimer and not brought up to look through their eyes. What I would like to point out is that we should not be too hasty and give Rugby football one more year if it is at all possible. There are ways by which this can be done. One is to raise the levy to \$20. A lot of fellows agree with me, and I think all the students will if they gave the matter thought. Some say they don't get enough for their levy, that is their own fault. Looking through this year, on the student pass, one could have seen 3 Rugby games, 2 Soccer games, 4 Canadian football games, 8 basketball games, 2 boxing meets, a track meet, which adds up to \$9.50. The three formal at say \$1.00 a couple, the

Year Book at \$2.50 and the Brunswickan at \$2.00. The sum total is \$17.00. That is just the value of the student pass without participating in any sport. Also if one looks at the other Canadian Universities, it will be found that the students do not get as much for their levy which is higher in all Universities than ours. But even with a raise in levy about \$2000.00 has to be found. This can be done by reducing finances. Most of the time this is left to the council, I would like to suggest that this is a student matter, and the students could help the Council by giving their ideas. I have some ideas myself, one is that in future any team that goes on the road will pay for their own meals. I am sure that before good times came to this university, participants in various activities used to bear some of the brunt of expenditures. Another one is that trips be shortened so that it would entail a minimum of overnight stops. Look at the Canadian football team, they payed for their own meals, and when they had away games they would leave in the morning and return in the morning, no pullman for them. The same could be done in other sports. They seem to be the only ones who played a game for the sake of the game, and not for what they could get out of it. I would like to see the student body give these ideas some thought, and to get some ideas of their own, and tell some Council Representatives what they feel.

Before I finish, I'd like to mention that the U-Y club has been given the go ahead sign to run the March of Dimes Campaign on this campus. This is a worthy cause, it may be able to help you one of these days, let's hope not. Anyway, they only ask for a dime, let us all give our dimes and any other money that we can spare, and let's see this campaign a big success.

elsewhere could be accomplished in the province. The committee considered that such development is vital not only to the future welfare of the province, but perhaps to its economic survival. The report goes on to state that "the development of manufacturing industries in New Brunswick is in direct opposition to the long term trend of concentrating manufacturing in the central provinces—a trend fostered by the monopolies and by national government policy. Through the instrument of government policy the tendency toward monopolistic control of industry can be offset. The care for such a policy can be stated simply in terms of general social and economic welfare of the nation. The continuation of a vast hinterland paying title to a small and wealthy industrial area does not lead to national unity or to general economic and social welfare".

In its submission to the House of Commons Special Committee on Reconstruction, the New Brunswick committee stated the approach to the problem appears to involve—

- (1) Compiling an index of New Brunswick's resources and analyzing the existing methods of utilization.
- (2) Compiling information regarding processing and utilization techniques in use and being developed outside the country.
- (3) Preparing a program making use of the best available information concerning the various fields of enterprise suited to New Brunswick's natural resources.

formation concerning the various fields of enterprise suited to New Brunswick's natural resources.

A New Commission
It is only in the broader field of Maritime economic development that the Chignecto Canal can be considered. If it can be proven to be of value in a comprehensive plan for such development let us continue to strive for it. If it cannot let us forget it and divert the capital more profitably elsewhere. If necessary let us ask for a new Commission to investigate the problem as recommended by the New Brunswick Committee on Reconstruction. If such a commission should decide against the project the propaganda in its favor and the mysterious interests behind that propaganda would be effectively quieted.

PINK FOR GIRLS!

Paul Keleher, captain and leading scorer on U.N.B. football line-ups, has scored again. That man who hobbled around the campus on a pair of crutches most of the fall is the proud papa of a baby girl. Felicitations "Pop."

Necking is a form of davenports

The stork is charged with a lot of things which should really be blamed on a lark.

FIVE TEAMS TOP COMPETITORS IN HOOP LEAGUE

With four weeks of regular play left in the intramural league, things are really tightening up. The play is becoming rougher and rougher all the time, although it doesn't seem quite possible that the present style of basketball could be any rougher than it now is. By the end of the term—but let's not talk about that. It's going to be a fight down to the wire in Section A with the Faculty and Foolish Frosh, as yet undefeated, and the Kigmies and Frosh Combines suffering only one defeat. In Section B it appears as if the Newman Club is in full control as yet. The Kigmies redeemed themselves by downing the Soph. Science 48-40 in a high scoring contest. The Foolish Frosh came up with its fourth consecutive win by defeating the Eastern Townships 43-36. In a really vicious contest the Frosh Combines managed to edge the Residence 33-29. The Faculty continued its winning way and swamped the Hangovers 54-37. Also the Newman Club won its fourth game in as many starts by downing the Sr. Civils 28-15. The Soph Engineers were held to nine points by the Mooseheads who defeated them 38-9. Finally the Soph. Foresters edged the Sr. Foresters 36-31. On Monday last the Alumni scraped past the Debating Society 20-19.

Varsity Knocked Out Of Running, Intercollegiate Left

THE University of New Brunswick Varsity hockey squad last Tuesday was eliminated from further competition in the Southern N. B. Hockey League playdowns. The pucksters received a severe 7-0 shellacking at the hands of Saint John Carleton & Yorks. By virtue of the victory, the port city team enters the league finals against Fredericton Capitals. In showing the Red and Black team out of the playoffs, the Saint John squawked up three victories and a draw to pick up the required six points which qualified them for the league finals.

Although the Hillmen forced the play throughout most of the game they were off colour around the nets and consequently Gerry Lynch hung up his first shutout of the season. On the other hand the more experienced Carleton-Yorks hung back and waited for the breaks and the strategy paid off. The Red and Black defense also looked weak on several of the goals, particularly in the first part of the game.

The contest was a direct contrast to the previous affair, when the two teams played to a bruising 5-5 draw. Only two penalties were handed out, both to Saint John as everybody stuck strictly to hockey.

Spike Larabie led the scoring parade with four markers while the others went to Butler, Price and Edwards. Edwards, Price and Heenan also got three assists apiece. The Hillmen played without the services of Tom Ballentyne and Jim Pike. Their positions were filled by

Ralph Donkin and Alan Golding. Carleton-Yorks were minus Joe O'Toole who is out with broken ribs, and Don Garey.

JUNIOR GAME

In a junior contest which was played Tuesday night Fredericton High School edged U.N.B. juniors by a 5-4 count. The game was fast and clean with only one penalty being handed out to Barton of High School for tripping. F.H.S. took the lead 14.10 of the first period and were never headed although U.N.B. twice knotted the score. The winning goal was netted at the 12.20 mark of the third period.

The scoring was divided for F.H.S. with Dunham and Smith each getting a goal and an assist while Stafford got two goals and an assist.

U.N.B. scorers were Ketch with two goals Hallett and McAdam. Elliot, Golding and Myers came in for assists.

Poor Attendance At Basketball Games

At the recent Basketball game in the Gym between Varsity and Ricker Junior College of Houlton, Me., there was a crowd of 400. Of these 150 were paid admissions and the remaining 250 were students admitted through S. R. C. passes. The Gym has a capacity of 1,500. These crowds are a far-cry from the packed gatherings who used to watch the Red and Black in former years. Perhaps the brand of ball was better in those days. The varsity team, however has succeeded in winning two home games in succession and certainly deserve more support from the student body. Their shooting and plays are beginning to click and should pack the gym when the intercollegiate playoffs start.

"Was that your best girl I saw you with last night?"
"No, necks best."

Q. How do chorus girls get mink
A. The same way mink get mink

Queens May Drop Collegiate Hockey

Montreal (CUP)—In a late report it is rumored that Queen's University of Kingston may drop out of the Senior Intercollegiate Hockey League due to lack of funds. Several players on the squad are rumored to be dissatisfied with the setup and on the request of these players, the Hockey Board which controls the senior squad must be shown reason why the team should not be withdrawn from the league. The final decision will be reached tonight.

It is generally known that the Queen's hockey squad has been losing money due to several reasons. Firstly the students and public do not support the teams. Secondly the teams are weak. It has not been decided how the other three teams would be affected in the event that Queen's dropped out.

Ski Horizons

By Ulla

All things being equal this coming week-end the Red and Black Varsity ski aggregation will be competing in the Laurentians. The comparatively small ski village of St. Sauveur will be host to the Intermediate Intercollegiate Ski Championships this year. McGill has undertaken to run the annual race in which the Alpine events will be held on Friday, Feb. 10th, and the Nordic events on the following day. The team plans to leave New Brunswick early this week to get some much needed practice due to the unusual lack of snow. However our competitors in Quebec have been hampered by the same lack of the "white" as we have locally. Their boys will hardly be better trained than our own team.

The jumping will take place near the 1949 Dominion Championships Jump at Christeville. The downhill will be held probably on the St. Sauveur downhill, snow permitting. The slalom will be held on Hill 71, again providing snow conditions permitting. At last word from the Laurentians there have been 5 or 6 inches of snow and the meteorologists expect more snow to fall soon. All we can do is trust to ULLA and hope for snow. The team will be much the same as last years, with maybe some new blood added due to the influx of new students this year. We hope our team will go to Middlebury.

The Nordic World Championships have been struggling to start off well despite the lack of snow. The special jump last Sunday was won by Christian Mohn, a Norwegian exchange student of Middlebury. According to those who saw him jump, they say he is true poetry in space. Simon Slattik, a locomotive engineer from Norway won the jumping half of the Nordic events, followed closely by four other countrymen. The 18 km. Langlauf will be held on Friday, Feb. 3rd at Rumford Me. Due to recent arrival of snow at Placid, the 50 km. and the 40 km. relay race will be held there. Norway looks good for the Nordic combined, but the prediction of the Finn's chance to win still the edge due to their cross country prowess, at least that is our contention. Finland, however lost a good man last Sunday when one of her men broke his arm in two places on the slick landing of the 65 metre Intervale jump at Lake Placid. Crushed ice is very difficult to jump on due to its slippery surface.

The Alpine events should have no trouble due to a lack of snow, as Aspen Colorado has long been re-

Seniors Win Interclass Swim Meet

by John Alward

THE Interclass Swim Meet, held in the Residence pool last Monday evening, turned out to be a very successful one. It was highly regrettable that the Co-eds failed to put in an appearance, especially for the numerous onlookers. A Sophomore representation was also missed but from all other aspects the meet was a decided success.

The Seniors proved that they retained some of their energy in spite of their old age by amassing 63 points to sweep the meet. The Juniors followed 10 points behind with a total of 53 points while the Freshmen wallowed deep at the bottom of the pack with 19 points. Don Biggs put on a spectacular exhibition of diving which moved the crowd to cheers. In another exhibition Don Bell chopped 2 seconds off the Maritime intercollegiate 100 yd. free style record.

The results were as follows:
60 yd. Medley Relay—
1st Seniors; Gale, McPhail, Dunlop; time: 35.7 secs.
20 yd. Free Style—
1st Neil, Jr.; 2nd Andrews, Sr.; time: 9.9 secs.
20 yd. Breast Stroke—
1st Coke, Jr.; 2nd Dunlop, Sr.; time: 12.1 secs.
80 yd. Free Style Relay—
1st Seniors; 2nd Juniors; time: 1:06.0 mins.
20 yd. Back Stroke—
1st Boucher, Jr.; 2nd McPhail, Sr.; time: 11 secs.
40 yd. Free Style—
1st Neil, Jr.; Nettleton, Sr.; time: 21.8 secs.
40 yd. Breast Stroke—
1st Coke, Jr.; 2nd Curtis Sr.; time: 28.5 secs.
40 yd. Back Stroke—
1st Babin, Jr.; 2nd Moore, Sr.; time: 29.5 secs.
Diving—
1st Watson, Sr.; Coke, Jr.
100 yd. Free Style—
1st Rath, Sr.; 2nd Boucher, Jr.; time: 1:01.6 min.
100 Yd. Free Style Exhibition—
Don Bell; time: 57.6 secs.

Varsity To Meet McAdam Team

On Thursday night the U.N.B. Senior Varsity Hockey team will travel to McAdam to participate in the official opening of the new rink there. Its opponents on that night will be the Saint Andrews Senators. The game should help to keep the boys in good playing condition for Saturday's encounter with Mount Allison Varsity at the York Arena.

garded as one of the snowiest places in the American West. Depths of 5 and 6 feet are mere common place, and drifts of 30 feet not too rare. It is indeed too bad that the westerners could not spare some snow for us here in the east.

St. Thomas Re-Enters Collegiate Hockey

Saint Thomas University Hockey squad has re-entered the N.B.-P.E.I. hockey league. U.N.B. received notification from the Chatham College before Christmas that it would be unable to play in the circuit due to North Shore league interests. However it seems the teams up north have been unlucky regarding ice this year and in order to give its team more play Saint Thomas decided to return to intercollegiate competition. As a result U.N.B. will meet the Tommies on Saturday, February 25 at York Arena. The away game will be played at Chatham on a date yet to be chosen, probably between the 20th and 23rd. Last year U.N.B. defeated Saint Thomas in the N.B.-P.E.I. finals, winning the opener of the two game total goal series 8-0 at Chatham and the return engagement 6-5 at Fredericton.

Life Saving Class This Week

Lifesaving classes started Monday night in the Lady Beaverbrook Pool and will continue nightly through Thursday. The sessions start at 7.30 and wind up at 9.30. George Noble is the instructor, assisted by members of the Varsity Swim Team. U.N.B. and Teachers College students eligible to attend with the University students having preference if the pool is crowded. An exam will be conducted by Ted McLean of Saint John on Friday night and the participants will compete for the Award of Merit and the Bronze Medallion.

"Gateway" Suspended

Edmonton, Alta. (CUP) — The Gateway, student newspaper of the University of Alberta, has ceased publication once again. Editor-in-Chief of The Gateway, Miss Irene Bowman, has been informed the facilities of the university print shop would no longer be available until further notice. Presumably the university took this action as the result of a special Engineers' edition published on January 31.

(Continued on page eight)

U.N.B. H

On Friday night the Red and Black cage team went down 52-48 after a powerful Ricker Co. The game was played and was the second season between the U.N.B. won the first home 57-56.

U.N.B. Hoopsters Defeated 52-48

by BILL AYER

On Friday night the hard fighting Red and Black Senior Varsity cage team went down to a close 52-48 defeat at the hands of the powerful Ricker College quintet. The game was played in Houlton, and was the second meeting of the season between the two squads. U.N.B. won the first encounter at home 57-56.

Again this week the U.N.B. five fell far behind in the first half, then almost pulled the game out with a terrific spurt in the closing minutes. During the first half Varsity showed their early season shooting form, scoring only 13 points to trail at half time 24-13. The feature of the half was the shooting of Rivers, of Ricker, who dunked 12 points the second quarter. About the only Red and Black play worthy of comment was a beautiful hook-shot by Boulton.

The second half saw a much improved U.N.B. team outplay and outscore their opponents, especially in the last quarter. Varsity opened the scoring on a tap-in by Hanusaik, who soon after was banished from the game for making unnecessary comments to the officials. Ricker followed Hanusaik's basket with four of their own, to

hold their greatest lead of the game, 32-15.

At this point the Red and Black took over as Smith poured six straight points through, and at quarter time the score stood at 38-27 for Ricker.

In the final quarter, U.N.B. led by the sensational shooting of Smith and Jenkinson, outscored their opponents 21-14, but just could not overcome Ricker's early advantage. The climax of the rally was Jenkinson's field goal from center, with two seconds remaining.

High score from Ricker and for the game was Trafton, with 19 points. Rivers racked up 13, all in the first half. Bob Smith turned in his usual stellar game to lead UNB with 16 points. Lorne Jenkinson followed with 12 points.

LINEUPS—

Ricker: Rivers 13, Cormier 6, Fitzpatrick 6, Libby 2, Trafton 19, Walton 2, Pound, Warner 1, Lovely 7.

U.N.B.: Roberts 2, Atkinson 3, Nakash, Stairs, Hanusiak 3, Smith 16, Jardine 5, Boulton 6, Buchan 2, Jenkinson 12.

Joene Moores is stopped in a bird like pose as she gets a shot away against St. Peters C.Y.O. (Saint John) in their latest home game here.

Silver Streaks, Jr. Foresters Top Intramural Leagues

By GORDY MOTT

After two weeks of poor weather the Intramural Hockey Leagues have completed their schedules, the concluding games being played on Sunday. The Silver Streaks and the Junior Foresters headed into the play-offs at the top of their respective leagues, the American and National. The Junior Foresters had an amazing record, neither losing nor tying a game. A tie marred a perfect record for the Streaks. Naturally the Junior Foresters were involved in the best games of the week; on Saturday they conquered the strong Senior Civils and next day they edged the battling Angels.

The most convincing margin of victory was 12 goals obtained by Sr. Civils over Freshmen Combines. The leading teams did not hold all the limelight however. The cellar dwellers had exciting moments in the midst of annihilating defeats. Hut 13, in the cellar of the American, reached up into the leaders and tied the Sr. Foresters, and the York River Cruisers managed a deadlock with the Freshman Combines.

The leader of the point parade—that fast right winger with 11 points—is Paul "Rocket" Poirier of the Senior Civils who has 7 goals and 4 assists to his credit.

Hockey Team Smothers Mt. A. 8-1 Shuts Out St. Dunstan's 7-0 to lead in N.B.-P.E.I. Championship

The University of New Brunswick Senior Varsity Hockey Team of Fredericton N. B. started their long trail to the Maritime Intercollegiate Hockey Championship in Sackville on Saturday night when they smothered the highly rated Garnet and Gold sextet from Mt. Allison 8-1.

Harrigan in the U.N.B. nets had his chances of a shut-out spoiled at the 19.30 mark of the first period when Duffy of Mt. A. on an assist by Macmichael scored the marsh rats only tally after U.N.B. had gone out in front 2-0 on goals by Lorimer and Malone. The second period was all U.N.B. as they scored four goals to take a 6-1 lead.

The third period was spotty with U.N.B. scoring two more goals to run their final count to 8-1.

LINE UP:

Mt. A.: Goal, Irving; Defence: Wells, Machmichael, and Pringle; Forwards: Wilson, Cullen, Duffy, Whalen, Eastman, Slipp, French, Matheson, Landers and Smith.

U.N.B.: Goal, Harrigan; Defence: Ballantyne, Gaudet, Wagar, Dohaney; Forwards: Lorrimer, Malone, Snow, Kennedy, Tim Bliss, Bob Bliss, Thompson, Golding and Dickson.

SUMMARY:

1st period—1, U.N.B., Lorrimer 4; 2, U.N.B., Malone (Lorrimer)

17.55; 3, Mt. A., Duffy (Macmichael) 19.29.

Penalties—Slipp, Ballantyne, Cullen, Macmichael, Dickson, T. Bliss, Malone.

2nd period—4, U.N.B., B. Bliss, (Kennedy) 2.00; 5, U.N.B. Golding (Thompson, Wagar) 12.48; 6, U.N.B. Kennedy (R. Bliss) 13.44; 7, U.N.B. Ballantyne (Thompson) 16.02.

Penalties—Slipp (2), Wagar. 3rd period—8, U.N.B., Gaudet (Kennedy) 9.56; 9, U.N.B., T. Bliss (Kennedy) 15.04.

Penalties—Wells, Gaudet, Tim Bliss.

Acadia Swim Meet Cancelled

The proposed Acadia-U. N. B. swim meet to be held at Wolfville N. S. on the 15th or the 16th of February has been cancelled. The idea of this trip caused a lot of commotion at a recent S.R.C. meeting where members of the swim team stomped out of the debate in a huff after the S.R.C. had slashed the budget. The Swim team manager, Tony Taylor, has hinted that the team will approach the S.R.C. in the hope of obtaining funds to make a trip to Halifax for a meet with Halifax Navv.

qualifications of the applicant and his policy.

All applications must be submitted to the present editor-in-chief or business manager before 12 o'clock noon, Monday, February 13.

A meeting of the Managing Board shall be held Tuesday, 7.30 p.m., February 14, in order to approve a recommendation to be laid before the S.R.C. on Wednesday, February 15. Thus the new editor shall assume his new duties on February 15 until the end of the present college year.

The following members of the Managing Board are requested to be present at that meeting:

Business Manager: J. Robert Howie; News Editor: Bernard Ganong; Editorial Staff Representative: Azor Nason; Business Staff Representative: Ray Roy; S.R.C. Representative: Syd Forbes.

Applications Wanted

TO WHOM IT MAY CONCERN:

Applications for the position of Editor-In-Chief of the Brunswickan for the remainder of the college year are now called for.

All applications must be in writing and must contain the

Referee School Successful

What is the cause of the rough tactics in modern hockey? "Bad officiating," says Eddie Shore without hesitation. "The prompt application of penalties could stop the trouble at its source. But the referees are lax: they let the game get out of hand. The result is that tempers get hot and fights break out."

He should know — he received 978 stitches from physical combat from hockey wars.

Last Wednesday evening Pete Kelly conducted the first session in a U. N. B. referee School. Ten prospective officials attended the three hour discussion of the C. A. H. A. rules. Those taking the course are to receive practical experience officiating in the intramural games at Alexander.

Mr. Kelly, who has conducted many referees' schools throughout the province, made the talk an informative one. The book was discussed rule by rule and the conduct of the hockey officials was stressed. Poor umpiring is hurting local hockey and its status must be improved. Different methods of officiating were outlined and the potential officials were told of the importance of the referees' absolute control. If you desire to learn the rules of our national game and become an arbitrator then contact the physical education department and they'll give you the gen.

A widow is a most fortunate woman. She knows all about men, and all the men who know anything about her are dead.

Debaters Argue Outlawing Commies

At a regular meeting of the Debating Society on Tuesday night Jan. 30, a practice debate was held, the subject, "Resolved that the Communist party be outlawed in Canada", with Ron Stevenson and Bob Allen on the affirmative and Buzz Kerr and Derek Wiggs on the negative.

"No freedom to destroy freedom" was the affirmative argument. In other words the communist party should not be given the chance to destroy Canadian freedom by undermining as they have been doing and are doing now. They said the only safe and sure way to prevent this from happening was to outlaw the communist party and thus this menace to Canadian freedom would be checked.

The negative said that the Canadian Criminal Code as it now stands is adequate enough to deal with the communist menace and that the menace to civil rights created by such a bill would be greater than any benefits that any bill might bring, and that faith in "Canada strong and free" and faith in ourselves would ultimately improve conditions in Canada and insidious Communist propaganda would fall on barren ground.

After the opening speeches were over the judge, Prof. Love had to go but before leaving he said, "I feel that the negative case was materially stronger spurred on by the affirmative, came back strongly in the rebuttal but an audience vote at the end was unanimous in favor of the negative and it was on this note that the debate ended after a few constructive criticisms of some of the speeches.

U.N.B. is out to retain the Maritime debating league championship this week. On Friday the tenth, Allen and Stevenson will meet St. FX. on the affirmative side of the resolution of the debate "resolved that the communist party be outlawed in Canada" and on the same date at Dalhousie Hay and Hildebrand will take the negative of the resolution "Resolved that a system of compulsory military training be introduced in Canada immediately".

Here on Thursday the ninth at seven o'clock Julian Guntensperger and Jacquie Webster will take the

Trueman Speaks To Foresters

A meeting of the Forestry Association took place in the Forestry building on Monday, January 30. President Len Barnett was in the chair.

President Len Barnett spoke to the Association about the Summer Employment Committee. He explained its functions and urged all foresters to co-operate with the committee by filling out and returning the employment forms which have been given them.

CLASS PHOTO Bruce Kelly moved that the Forestry Association sponsor a group photo of the graduating class, as it will probably be the largest class in the history of the University. This motion was tabled for discussion next meeting.

Len Barrett then introduced the evening's speaker, Dr. Trueman, who delivered a very interesting speech in his usual amiable and informal style. Dr. Trueman stressed his desire for a more balanced education in the professional courses. He would like to see more humanitarian courses and centres introduced and developed for those foresters who are interested in them.

Next meeting's main attraction is a Brains Trust, to which many eminent foresters and members of the faculty have been invited. Sid Forbes was elected Master of Ceremonies, so bring a question and have a lot of fun.

The next meeting is scheduled for February 13.

Alumni Establish New \$100 Prize

The Associated Alumni of the University of New Brunswick have resolved to establish a new prize of the value of \$100 for competition among the first-year students at the university. The new prize will be awarded annually to the freshman who makes the highest average in the examinations of the first year. The amount of the prize will be divided in equal parts or as nearly equal as possible and the prize winner will receive one part in money and the other part in books.

The alumni have also decided to continue to award the alumni gold medal on the same basis in the department of classics. At present the medal, which was established in 1863, is awarded to the best classical scholar upon the recommendation of the professor of classics.

The U.N.B. alumni decided to take steps to foster a closer relationship between the alumni and the students and to make the students more aware of the aims and activities of the Associated Alumni. By resolution, approval was given for an alumni ball to be held in the Lady Beaverbrook Gymnasium on March 31. All the students will be invited to be the guests of the alumni at this social function.

The report of the treasurer, Dr. J. W. Sears, revealed that the Associated Alumni was in a reasonably healthy financial position and that membership in the society was

at an all-time high. The traditional Encaenial dinner will be held in May and a committee was appointed to choose an orator to give the alumni oration at that time.

ADVT. Smoke K.O.'s, the Mickey-finn of cigarettes. K.O.'s contain opium-aucocaine, a mild narcotic. Pass them amongst your friends and watch your friends pass out amongst YOU. Rush to your neighborhood tobacconist and get a pack today before the R.C.M.P. get your neighborhood tobacconist. And don't forget, smoke K.O.'s and we'll see you—in HALE.

In a kick it's distance, in a cigarette it's taste, and in a rumble seat is impossible.

A drunk stepped through an elevator shaft and plunged 43 stories. As the horrified crowd heard the body crash to the elevator cellar, they craned their necks. To their amazement, they saw him pick himself up, brush himself off and heard him mutter: "I should have said Up."

18 New Selections

It was announced recently by Major R. J. Love that from a large number of applicants, eighteen candidates were selected for entrance to the University of New Brunswick Contingent of the Canadian Officers' Training Corps at a meeting of the Selection Board held on Monday evening, January 30th. All of them will proceed to camp during the approaching summer for the initial phase of their practical training with pay of rank. This brings to the Contingent a total strength of fifty-eight officer Cadets of whom ten will complete their training this Spring.

The following candidates were selected:

For the Royal Canadian Engineers: E. B. Zinc, Lunenburg, N. S., R. S. Shephard, Newcastle, N. B., E. L. Bryenton, Bryenton, N. B., J. R. Clarke, Millerton, N. B., P. G. Brewster, Moncton, N. B., F. J.

MacNaughton, Fredericton, N. B. For the Royal Canadian Armour-ed Corps: J. W. McAllan, West St. John, N. B., H. Fairbairn, Kirk-aldy, Scotland.

For the Royal Canadian Artillery: W. B. Ganong, Springfield, N. B., D. G. Anglin, Rothesay, N. B.

P. Mitcham, Dalhousie, N. B., W. B. Haines, Sault Ste. Marie, Ont., D. A. Geldart, Hillsboro, N. B.

For the Royal Canadian Electrical and Mechanical Engineers: J. R. Roy, Moncton, N. B., J. M. L. Currie, Beauharnois, Que.

For the Royal Canadian Corps of Signals: R. Burrigide, Plaster Rock, N. B.

For the Royal Canadian Army Service Corps: G. W. Kolding, Fredericton, N. B.

Members of the Selection Board were Major R. J. Love, Officer Commanding, Major R. M. Bourgeois, Resident Staff Officer, Capt. W. S. MacNutt, Adjutant, Prof. W. G. Jones, Prof. A. Stuart, Prof. R. B. MacLaughlin.

A TAKING GIRL

She took my lips in sheltered nooks,
She took my heart a prisoner,
She took my letters meant for her;
She took my words of love and care—
She took my jewels, rich and rare;
She took my youth for quite a while,
She took my time, took my style;
She took my kisses, maid so shy—
She took, I must confess, my eye—
She took whatever I would buy,
And then she took another guy.

— Bourayne, in The Manitoban.

LIKE the frustrated bride at the village altar our boxing team has been stood up not once, not twice, but three times since the season began. The Magnificent, and McGill (twice) have been the offenders. It's no tea party getting in shape for these pugilistic encounters and the funds and energy expended on advertising deserves more than a week-kneed rejection by McGill of our humble invitation.

It is pure conjecture on our part but we view two angles of this tale:

1.—We think the Redmen snubbed the U.N.B. team because they believe our mitt-slingers were inferior to theirs. A meet was scheduled for last Saturday night but the athletic department was notified Tuesday that McGill would be unable to meet their commitments because of an approaching blizzard which would hamper their automobile operations. Despite their fears Laurentian skiers are deploring the lack of snow and the stuff those Montreal boys are shovelling ain't snow brother. Or maybe rumors have seeped through the drifts of a flyweight who has the kick of a mule in either fist and a light-heavy who felled a New Brunswick moose with one mighty wallop. Maybe "they can't take it."

2.—On the other side of the ledger the fault lies with our managerial set-up. The athletic department feels that managers should be elected the previous spring and their schedules drawn up immediately. This would leave dates open for exhibitions and the bigger-name universities could be contacted months beforehand. McGill could argue that it did not have time to make the necessary arrangements. However, with the system we advocated it is unlikely that they could give us the cold shoulder!

But need we be so concerned with our cosmopolitan cousins! There is a university four times the size of U.N.B. which could provide excellent competition in at least six sports. This seat of learning is nearer than any major Maritime college. It is only 205 miles to the University of Maine which boasts a student body of 4,000 and a competent athletic department. Their facilities include an outdoor track, an indoor track and a field

house; a stadium seating 12,000; a gym twice the size of ours and coaches and assistant coaches for every major sport. Like U. N. B., a wide variety of sports are available to the athlete with the stress on football, basketball, baseball and track. These four compete in the same league as Yale, Harvard and Connecticut. With such competition and facilities their varsity squads would undoubtedly be superior to ours. However, their seconds or freshman squads would be good opponents for our corresponding teams. A name university like this would be a better drawing card than Dalhousie, Acadia or St. Thomas on our campus field.

Although U. of Maine does not have intercollegiate boxing any more, Amby Legere says they could field a creditable team from their intra-mural ranks. Using our long-range schedule system, next year's boxing team may not have to reach so far for a suitable opponent. A similar situation could exist between our cross-country, skiing, and tennis squads. Perhaps Maine would appreciate our superior competition in hockey which is in the embryo stage of development. Moreover, the international goodwill which would be fostered between the participating team members is immeasurable and invaluable.

A young minister was reading announcements at the Sunday service.

He stumbled across one of them and the following words slipped: "The little Mothers League will hold their meeting this afternoon. All those who wish to become Little Mothers please see me in the rectory."

Humour . . .

Some girls are like flowers—they grow wild in the woods.

She—Did you get home the party alright last night?

He—Well, yes. I got home alright, except when I was going up the front walk, some fool came along and stepped on my fingers.

Scotch is a beverage which makes you see double, but feel single.

"Hell, yes," said the Devil, picking up the phone.

Theta: I said some awfully foolish things to Bill last night.

Kappa: Yes?
Theta: That was one of them.

Two drunks blundered into a girls' dorm coming home one night. One lost his head and ran; the other remained calm and collected.

"Take it from me," said the old maid, "don't get married."

He: Is my face dirty, or is it my imagination?

She: Your face is clean, but I don't know about your imagination.

"Give me a dime, Daddy."

"Not today, sonny."

"If you give me a dime I'll tell you what the iceman said to mama this morning."

"Here, son, quick — what did he say?"

"He said: 'Lady, how much ice do you want this morning?'"

"Sensational! Mr. Likkitysplit! Will you say a word to your legion of admirers about your impressive victory?"

"Sure—to keep ahead of the other guy use 'Vaseline' Hair Tonic regularly. It beats Dry Scalp and keeps the hair in first place."

Ottawa Paper Banned Article "Disapproved"

Ottawa — (Special) — The last edition of La Rotonde, weekly student newspaper at the University of Ottawa, was seized and burned soon after it appeared last week.

The decision to destroy the paper, a student official informed the press, was made by Rector J. C. Laframboise. University officials objected to an announcement in La Rotonde calling attention to the fact that Gerard Filion, editor of Le Devior, had been invited by the local committee of the Canadian Federation of Catholic University Students to address the Ottawa students.

This announcement, a spokesman for the Ottawa students declared, was considered by the university authorities to be "offensive" since Filion had criticized the University of Ottawa editorially for establishing courses which were to be given in English only.

Rosarie Beaulieu, editor-in-Chief of La Rotonde, said he had "no comment" when contacted by the press. A few hundred copies of the paper had been distributed on the campus before distribution was stopped.

COUNCIL MEMBERS HAVE RIGHT TO ADVISE AND WARN EDITORS

Ottawa—CUP — The managing board of The Carletons to have a greater control in the publication of the college newspaper and the Students' Council will have the right to "advise and warn" only, it was tentatively decided Sunday.

Complete control of their own affairs, as previously demanded by the editors of The Carleton, was not granted.

At a joint meeting of a five-man committee of the Students' Council and the managing board of the Carleton, held in the council offices, it was decided that some form of control over the paper

should be retained by the council. Meeting in complete harmony, a proposed amendment to the constitution was accepted by both bodies.

Terms of the amendment gave any member of the Council the right to withdraw the paper from circulation for 24 hours only if, it contained indecent material or other items prejudicial to the good name of the college.

This was in now way to be considered as a form of censorship, it was emphasized at the conclusion of the meeting.

"GATEWAY"

(Continued from page 4)
The editors of The Gateway are appealing to Canadian University Press editors for copies of their "gag" editions. They apparently intend to fight the suspension order.
