K BENNETT, RT. HON. RICHARD BEDFORD (1870-1947)

Microfilm, 1878-1947, 597 reels. Finding Aid No. 434.

Richard Bedford Bennett was born at Hopewell Hill, New Brunswick, 3 July 1870. He taught at Douglastown, New Brunswick, 1888-1890. After having studied law at Dalhousie University, 1890-1893, he became a partner in the law firm of L.S. Tweedie in Chatham. In 1897, Bennett moved to Calgary as a junior partner of Senator James Lougheed. The partnership was dissolved in 1922 and Bennett established the firm of Bennett, Hannah and Sandford. He remained a member until 1937. Bennett was a member of the Legislative Assembly of the North-West Territories 1898, and the Alberta Legislative Assembly, 1909-1911. In the House of Commons, Bennett represented Calgary West, 1911-1917 and 1925 to 1938. He was Federal Minister of Justice and Attorney General for three months in 1921 and was Minister of Finance for two months in 1926. At the first convention of the Conservative Party in Winnipeg in October 1927, Bennett was elected leader. Following the defeat of the King government in July, 1930, he became Prime Minister. Bennett also held the offices of Minister of Finance, 1930-1932 and Secretary of State for External Affairs, 1930-1935. After the Conservative defeat in 1935, Bennett served as Leader of the Opposition until 1938 when he retired from active political life. In 1939, he moved to England and settled on an estate in Surrey where he lived until his death, 27 June 1947. In 1941, he was created Viscount Bennett of Mickleham, Calgary and Hopewell. He never married.

The Bennett Papers were given to the University of New Brunswick in 1949 by Ronald V. Bennett, who inherited them from his brother R.B. Bennett. In 1965, the University loaned the papers to the Public Archives of Canada to be arranged, microfilmed and indexed. The papers were returned in 1976. The papers mainly cover Bennett's period as Prime Minister, 1930-1935. There is only one reel of political papers for the period up to 1919. The papers contain material for most of Bennett's adult life, but they are weakest for the New Brunswick and Alberta periods.

The finding aids to the Bennett Papers consist of four parts. Part 1 contains file lists to the Political Series and Personal Series. Part 2 contains file lists to the Invitations Series and Clippings Series. Part 3 is a detailed computer index to the Political, Personal and Invitations Series, arranged alphabetically by keyword. Part 4 is a variation of part 3. Instead of being sorted alphabetically, the computer index is arranged by volume number. This last finding aid will be of particular assistance to researchers using material in consecutive volumes, since it is in effect an extremely detailed file list, showing the significant contents as well as the titles of each file. All of the parts of finding aid 434 are also available on microfilm, and the Public Archives makes them available on interlibrary loan. Parts 1 and 2 are filmed together on reel C-4495, part 3 is on reels C-10855 to C-10858 and part 4 is on reel C-10859. Researchers are urged to read carefully the introductions to each part of the finding aid to determine which part will be of most help to them.

Political Series, 1878-1947. Microfilm, 435 reels (also University of New Brunswick Volumes 1-873).

Correspondence, memoranda, notes and printed material arranged in subject files alphabetically by file title within eight time periods. The largest group of files is contained in Section F which covers the period when Bennett was Prime Minister. The prime consideration of the Bennett ministry, 1930-1935 was the depression. Among the matters about which there is a considerable amount of material in the papers are banking, civil service, Conservative Party, farm relief, finance, grain, Imperial Conferences of 1930 and 1932, railways, requests for assistance, tariff revision, trade and unemployment relief. The original organization of the papers has been retained for the most part.

Section A, 1878-1911, (Vols. 1-2): Reel M-907.

Section B, May 1911 - April 1917, (Vol. 3): Reel M-907

Section C, May 1917 - November 1921, (Vols. 4-5): Reels M-907 and M-908.

Section D, December 1921 - 16 October 1927, (Vols. 6-26): Reels M-908 to M-916. This section contains many files which were apparently created by Hugh Guthrie as Leader of the Opposition, 1926-1927.

Section E, October 1927 - August 1930, (Vols. 27-75): Reels M-917 to M-948. Leader of the Opposition files.

Section F, August 1930 - October 1935, (Vols. 76-830): 373 reels (see microfilm conversion list for actual reel numbers). Prime Minister's Office files.

Section G, October 1935 - July 1938, (Vols. 831-867): Reels M-1471 to M-1490 and M-1497 to M-1498. Leader of the Opposition files.

Section H, July 1938-1947, (Vols. 868-871): Reels M1498 and M-1499.

Additional material, 1928-1938, (Vols. 872-873): Reel M-1500.

Personal Series, 1877-1960, Microfilm, reels M-3140 to M-3186 (also University of New Brunwick Volumes 874-972). The 47 reels of personal papers contain Bennett's business, financial and family correspondences, letters of congratulations and messages of appreciation as well as a great deal of correspondence for the period 1939-1947 when he lived in England. In addition, there is genealogical material and non-official correspondence for the period when Bennett was Prime Minister. The Personal Series also contains a wealth of political papers. Of particular interest are the Notable Persons Files, 1910-1947, which are organized alphabetically by author and contain letters from numerous persons of note.

Invitations Series, 1927-1946. Microfilm, reels M-3859 to M-3868 (also University of New Brunswick Volumes 973-995). Invitations to and from Bennett, related political and personal correspondence and occasional drafts of speeches by Bennett. This series is arranged chronologically by province.

Clippings Series, 1870-1949. Microfilm, reels M-4476 to M-4580 (also University of New Brunswick Volumes 996-1317). This series consists mainly of clippings from the Prime Minster's Office and Leader of the Opposition's Office, arranged alphabetically by file title within nominal and subject subseries.

## INTRODUCTORY NOTE

This is parts 1 and 2 of finding aid 434 on microfilm, consisting of file lists to the four series of the Bennett Papers.

The inventory entry presents a general outline of the Bennett Papers available at the Public Archives of Canada, Briefly, the papers are divided into four series, the Political, Personal, Invitations and Clippings Series.

The Political Series is arranged alphabetically by file title within eight time periods. The Personal Series includes personal correspondence regarding business, financial and family matters and political correspondence, including the Notable Persons files (reels M-3173 to M-3178). This series is arranged neither chronologically nor alphabetically. The Invitations Series is arranged chronologically within provincial breakdowns. The Clippings Series is arranged alphabetically by file title, within nominal and subject subseries.

Part 3 of the finding aid is a detailed computer index to the Political, Personal and Invitations Series, sorted alphabetically by keyword. Part 4 is a volume sort of the computer index. It will be particularly helpful to researchers who require more detail than the file lists provide, since it contains not only titles but significant subjects and authors. Part 3 is available on microfilm reels C-10855 to C-18058 and part 4 is on C-10859. The Public Arhives makes the microfilm copy of finding aid 434 available on interlibrary loan. Parts 1 to 4 of finding aid 434 are also available in hard copy at the Public Archives.

The Public Archives has only a microfilm copy of the Bennett Papers. The originals are held by the University of New Brunswick. Persons wishing to borrow portions of the papers on interlibrary loan should take note of the UNB reel number. This is essential since the University, not the Public Archives, makes the microfilm copy of the Bennett Papers available on interlibrary loan.

Pages missing on the microfilm copy of the papers may mean several things, such as the presence of duplicates or an error in numbering. Also, most periodicals and other published items available in large libraries have not been filmed.

The microfilm conversion list indicates the inclusive volumes and page numbers of each microfilm reel.

Roy R. Maddocks
