Two Ways to Make Ginger Ale and How to Bettle H. This is a beverage at once healthful and refreshing in warm weather. Thinly peel two large lemons and put the rinds into an carthen pan with juice, which must have been previously straised ; one pound and a quarter of leaf sugar, one onneed formised boiling water. Let it stand, and lukewarm add a tablesponful of brewere's this quickly together a short time and then leave it until next day to fer- ment. Skim off the yeast, and having carefully poured the liquid from the sedi- ment it may then be bottled for use. Take care that the corks are good ; just before using placed them in the bottles, let them be firmly secured with wire. This quantity will make rather more than a dozen bottles, and will be ready in two days. Another way : Two ounces of whole ginger, bruised ; two pounds of loaf sugar, the thiffy pared that als attained juice of four lemons, over this pour two gallons of boiling water. When it has remained until lukewarm, spread a toast with yeast and put it in. Let it stand all night, then bottle it off. This quantity will make about four dezen bottle. Managing a Husband . We hear a great deal nowadays about the mangement of husbands, and the matter is discussed as if, like embalming the -dead, it was one of the loat arts, writes Edward W. The old saying, "It pays to be polite," has been illustrated again in the Tacoma post-office in favor of Miss Margaret J. Resea, the stamp clerk, a pretty young worman of 21. L. O. Landers, a grizzled, orabbed, one legged old tellow, has a fine farm on Vashon Island, near Tacoma. Although he lives the life of a hermit, it is believed that he is rich, for the Wawshon furti lands are among the most. productive in the State, and his farm has been under oultivation for a number of years. He visits the Tacoma office every week or two, and he sling Resea to cget his mail, for abs went to considerable trouble in looking up a letter for him once, and he timks no one else in the office is to be trunted. Some months ago, after she had handed him his mail, he laid \$200 in gold on her country, agying, "That's for you." Before the astonished girl had comprehended the act, but Landers was not to be thwarted him is desire to make her understand his gratiunde, for a damond necklace and earlings for her, and in explanation he suit othe sholkeeper that she wept, and when Landers returned alse week the money, telling him abs supposed he had forgotten it. If the normal schools taught girls book-keeping, many of them could become clerks and bookkeepers instead of trying to get place open to them turning to the stores and overcrowding them. Girls have few opportunities to prepare for politions that are remunerative. The two or three occu-pations which are considered genteel for women are overcrowded, while there is often a demand for girls as feather workers, for example. If trades such as the making of jewelry, surgical instruments and simi-lar manufactures were taught here in tech-nical and induitrial schools like those of Paris, girls would receive better wages than they do now. Even now girlsof equalability make more money in factories than in stores, excepting the few who have positions of trust. Overcrowded. The only trouble is in the dull season, when there is lack of employ-ment, but the wages when there is work are sufficient to caable a girl to get along even if she is idle a part of the time. Hr. Gladstene's Gingerbread. The piece of gingerbread that was thrown at Mr. Gladstone recombly, damsging his eye and causing a vast amount of indignation, has been bought for a considerable sum by an enthusiastic admirer of the Grand Old Man. The gingerbread is what is known as a "nnt," a rounded eracker the size of a quarter. The proud possessor will have it mounted in gold and gems. It has been discovered, by the way, that the woman who threw it is a very warm admirer of Mr. Gladstone. She simply threw it in a frenzy of enthusiasm, and was very much terrified by the result. A Mother's Presence of Mind. A dwelling house took fire in one of the chambers the other night from an exploding oil lamp, says London Tid-Bits. The flames were extinguished after a sharp struggle by the woman of the house, who had her hands radventure to a neighbor next morning, and an alarm-where was Bessie ?" "Bessie and her beau were courting in the parlor," was the calm reply. "And you never called to them ?" "Not a word. I have howen of cases where a sudden alarm has upset a young man just as he was about to propose, and changed the whole future of two lives."

For Heartburn. Relief for heartburn will be obtained by using the following mixture, which has been recommended : Juice of one orange, water and lump of sugar to flavor ; add in proper-tion to the acidity of the orange about half a teaspoonful of bloarbonate of acda. Dis-solve the sugar in the water, add the orange pioles, then put in the soda. Stir and drink while effervescing.
