ROAD FROM SOURIS TO EAST POINT. Mr. Mccowan, as Chairman of the Commit-tee appointed to prepare an Address to His Excellency, in conformity with a Resolution of the House concerning a Petition of certain In-habitants of the First electoral District of King's County, praying for the opening of a new line of Road, reported the following:

May it please your Excellency;
The House of Assembly respectfully request that your Excellency will be pleased to appoint two disinterested persons in conjunction with the Road Commissioner of the 5th District King's County, for the purpose of executing a Survey to ascertain the practicability of selecting so much of a new line of Road as may avoid three certain Hills on the highway at Black Pond, leading from Souris to the East point (South Side); and to furnish a Report and Estimate of the probable expense thereof, for the information of this House at its next Session.

House of Assembly, 13th April, 1854.

THE CHINESE REBELS AND THE GOSPEL. To the Editor of the North-China Herald:

To the Better of the North-China Herald:

Dear Sir—As everything regarding the insurgents possesses a degree of interest at the present moment, I beg leave to send you the following account:

Having obtained admission into the city of Shanghae this afternoon, I proceeded to one of the chapels belonging to the London Missionary Society, where I commenced preaching to a large congregation which had almost immediately gathered within the walls. I was descanting on the folly of idolatry, and urging the necessity of worshipping the one true God, on the ground that he alone could protect his servants, while idols were things of nought, destined soon to perish out of the land—when suddenly a man stood up in the midst of the congregation and exclaimed, That is true—that is true, the idols must perish, and shall perish. I am a Kwang-se man, a follower of Tas-ping-wang; we all of us worship one God (Shangte) and believe in Jesus, while we do our utmost to put down idolatry; everywhere demolishing the temples, and destroying the idols, and exhorting the people to forsake these superstitions. When we commenced, two years ago, we were only 3,000 in number, and we have marched from one end of the empire to the other, putting to flight whole armies of the Mandarin troops that were sent against us. If it had not been that God was on our side, we could not have thus prevailed against such overwhelming numbers: but now our Mr. Besk presented a Memorial from the Royal Agricultural Society, and praying for suggesting such an alteration in the Act by which the said Society is incorporated, as would enable them to retain imported Stock in their own possession, retain imported Stock in their own possession, and under their own management, for the purpose of breeding improved Stock for distribution throughout the Island; a mode of proceeding which, they think,—besides enabling them to guard against loss by the sale of the imported animals at low prices, and to effect a considerable saving in the present annual outlay—would be found of more service than the present system of dividing imported animals between the three Counties; as the Stock so bred would be more saitable from the circumstance of their being better able to stand the climate.

Ordered that the Memoral do lie on the Table.

and prayer. What is the use then, he asked, of you Chinese going on to burn incense, and candles, and gill paper; which, if your idols really required it, would only show their covetous dispositions; just like the Mandarins who seize men by the throat,

the Mandarins who seize men by the throat, and if they will not give money, squeeze them severely; but if they will, they only squeeze them gently. He went on to inveigh against the prevailing vices of his countrymen, particularly opium-smoking—that filthy drug, he exclaimed, which only defiles those who use it—making their houses stink, and their clothes stink, and their bodies stink, and their bodies stink, and their souls stink, and will make them sink for ever in hell un-

I could perceive, from the style of his ex-

RETURN TO THE WRIT OF ELECTION FOR THE FIRST DISTRICT OF QUEEN'S COUNTY Hon. Mr. WHELAN rose to present the subjoined Petition from Seven Electors of the First District of Queen's County (complaining of the Sheriffs' Return to the Writ of Election at the late General Election,) agreeably to notice, given by him in the Order Book, which he read in his place, having, in a speech of some length, taken a review of the proceedings confected with the Election which gave rise to the Petition, the hon. gentleman concluded by reading the subjoined resolution, which he said he intended to submit. "That the Petition he received and referred to a Committee of the whole House, on Thursday next, together with the opinion of the Hon. Wm. Young, now before the House, on the subject to which that Petition refers, with the view of amending the Return to the Writ of Election for the First District of Queen's County." The reception of the Petition was spoken against by Mr. Douse, Mr. H. Haviland, and the Hon. the Attorney General, on the grounds that the House was précluded, by a Statute of the Colony, from receiving any such Petition, either from a Candidate, or Electore, after the expiration of aix days from the commencement of the Session. In the end the Hon. the Speaker was appealed to, to sustain the objection made to the reception of the Petition; and he decided that the Petition could not be received. Hon. Mr. Whelan aid he had a right to appeal to the House from the decision of the Hon. the Speaker; and, dissenting from his opinion, but with due respect, he would divide the House then divided on the question:

For sustaining the Hon. the Speaker's decision—Hon. the Attorney General, Hon. the Colonial Secretary, Hon. Mr. Montgomery, Hon. Mr. Conroy, Hon. Mr. Macaulay, Mr. Macgowan, Mr. H. Haviland, Hon. Mr. Macsachen, Mr. Goff, Mr. Douse, Hon. Mr. Lord, Mr. McLeod, Mr. Clark, and Mr. Fraser—14.

Against it—Hon. Mr. Whelan, Hon. Mr. Warburton, Mr. Gur, Mr. Money, and Mr. Maggill—6.

So it was carried in the affirmative. RETURN TO THE WRIT OF ELECTION FOR THE PIRST DISTRICT OF QUEEN'S COUNTY Mandarin troops that were sent against us. If it had not been that God was on our side, we could not have thus prevailed against such overwhelming numbers: but now our troops have arrived at Teentsin, and we expect soon to be victorious over the whole empire. He then proceeded to exhort the people, in a most lively and carnest strain, to abandon idolatry, which was only the worship of devils, and the perseverance in which would involve them in the misery of hell; while by giving it up, and believing in Jesus, they would obtain the salvation of their souls. As for us, he said, we feel quite happy in the profession of our religion, and look on the day of our death as the happiest period of our existence. When any of our number die, we never weep, but congratulate each other on the joyful occasion, because a brother is gine to glory, to enjoy all the magnificence and splendour of the heavenly world. While continuing here, we make it our business to keep the commandments, to worship God, and to exhort each other to do good; for which end we have frequent meetings for preaching and prayer. What is the use then, he asked, of you Chinese going on to burn incense, and candles, and gilt naper; which.

To His Excellency Sir Alexander Bannerman, Knight, Lieutenant Governor, &c., &c., &.

May it please your Excellency; I could perceive, from the style of his expressions, and from his frequently quoting the books of the Tae-ping dynasty, that he was familiar with those records, and had been thoroughly trained in that school—no Chinaman, who had not been following the camp of the insurgents for a considerable time, could have spoken as he did.

He touched also on the expense of opiun-smoking, which drained their pockets, and tept them poor in the midst of wealth: whilst we, he said, who never touch the drug, are not put to such expense: our master provides us with food and clothing, which is all we want, so that we are rich without money.

House of Assembly, 13th April, 1852.

The Committee who prepared the Address were appointed a Committee to wait upon His Excellency with the same.

Mr. Maccowan, as Chairman of the Committee appointed to prepare an Address to His Excellency, in conformity with a Resolution of the House concerning a Petition of certain Inhabitants of First Electoral District of King's County, praying for a grant in aid of the construction of a Wharf at Campbell's Cove, North Side, Township No. 47, reported the following!

was that a considerable amount of useful instruction was delivered, and such as would serve to promote the objects we have in view, in putting down idolatry, and furthering the worship of the true God. Another thought also struck my mind; viz: this is a class of men that can with difficulty be controlled. They must for a time be allowed to go their own way. It may not be in prove—but it does not appear to run directly counter to our objects. In the mean time we can go on in ours, and inculcate such truths as they may forget, or state correctly what they fail to represent aright. Taely counter to our objects. In the mean time we can go on in ours, and inculcate such truths as they may forget, or state correctly what they fail to represent aright. Taeping-wang may thus prove a breaker-up of our way, and prepare the people for a more just appreciation of divine truth, as soon as we can get the sacred Scriptures freely circulated among them. I am, yours truly, W. H. MEDHURST.

Shanghae. December 14th, 1853.

Shanghae, December 14th, 1853. I CAN'T AFFORD IT.

At this season of the year, when people are called upon to subscribe to papers, the excuse, "I can't afford it," is very frequently made; which, being interpreted, means, "I regard other things of more consequence to myself and family than a newspaper." Rightly considered, there are few influences which tell more immediately and effectually upon the improvement of the family circle than a well conducted and high toned paper. Judge Thomas of Worcester, Massachusetts, in a recent lecture before the young Men's Association, in this city, said: "The newspaper press is destined to be the chief instrument of popular culture. It is, intellectually, the daily bread of the people. The power of the press, great as it is, is continually increasing, and will draw to itself and demand for its service more and more of the learning and talents of the country. The eloquence of the bar, of the assembly, and of the stump, create a stronger immediate impression, but their sphere is too limited to compete with the wide-spread influence of the pen. An instrument for swaying the popular mind, they all yield to it. The pen is the true lever of Archimedes, and in the newspaper press has been found the place for a fulcrum."

A man cannot afford to deprive his family of the advantages which a journal afford. What are a few dollars and cents in comparison with right views, sound principles, and generous feelings! A word in season fitly spoken, may change the whole tone of life, and like the seed sown in good ground, bring forth an hundred-fold in noble living and energetic acting. It is a short-sighted policy that consults only immediate effects, while it overlooks the far reaching results which the most trivial causes often develope in character. If persons would only take a second thought, we are sure they would never say, "I can't afford" to subscribe for a paper which contains practical suggestions with regard to making this life, with all its varied interest, what it should be. But in papers, as in everything els I CAN'T AFFORD IT.

their bodies stink, and their souls stink, and will make them stink for ever in hell, unless they abandon it. But you must be quick, he adds, for Tae-ping-wang is coming, and he will not allow the least infringement of his rules, no opium, no tobacco, no snuff, no wine, and no vicious indulgence of any kind. All offences against the commandments of God are punished by him with the soverest rigour, while the incorriand better as we grow older—we "can't afford" to act as though there were no future, no life beyond this life, no eternity beyond time, for our attainments in knowledge and excellence in this world will be mandments of God are punished by him with the severest rigour, while the incorrigible are beheaded—therefore repent in ledge and excellence in this world, will be the measure of our happiness in the next.— Country Gentlemen.

THE PRESDOM OF THE PRESS IS undeniably a vast and excellent privilege. It is the best proof of a nation's freedom, and the best safeguard of a nation's rights, when it is exercised with moderation and

when it is exercised with moderation and with justice; but on the other hand it becomes as evident a type of that nation's degeneracy, and of its having lost a vast portion of its manly and moral feeling when sinking into coarse and illiberal criticism or vulgar abuse, it substitutes invective for argument, and personalities for reasons, and yet continues to be read.

Abuse is not argument. As well might a man daub a wall with mud and call it painting. The acts of all public men may undoubtedly be canvassed in every free country, but there are two ways of doing this; the one serves a good purpose and imposes a salutary check, the other is the one we have qualified above, which never yet persuaded any honest or reasonable man, while it has most frequently defeated its own object, and secured friends where it hoped to raise up.—N. B. Head Quarters.

Amonger the Wonders of the DAY.—We have visited with considerable gratification the "repertoire" of foreign newspapers of all nations at Holloway's Pill and Contents Establishment, 244, Strand, which present an immense amount of information on all subjects, political, mercantile, statistical, and philosophical, from at least 2,000 foreign papers, received in this Establishment in the course of each week. This immense collection of journals affords,

which is all we want, so that we are rich without money.

I could not help being struck, also, with the appearance of the man, as he went on in this earnest strain. Bold and fearless as he stood, openly denouncing the vices of the people; his countenance beaming with intelligence, his upright and manly form the very picture of health, while his voice thrilled through the crowd. They seemed petrified with amazement, their natural conscience assured them that his testimony was true, while the conviction seemed to be strong amongst them that the two great objects of his denunciation, opium and idolatry, were both bad things, and must be given up. He spoke in intelligible Mandarin, with an occasional touch of the Canton or Kwangse brogue. His modes of illustration were peculiar; and some of the things which he advanced were not such as Christian missionaries are accustomed to bring forward. The impression laft on my mind, however,

A Great Lumberine Establishment.

—The valley of the Ottawa river, in Canada, is noted for the extensive lumber operations which are carried on there, and the magnitude of the interests embarked in the trade. There is one firm alone which employs in the forests seventeen hundred horses and two hundred head of bullock, independent of four hundred double teams which are constantly on the road engaged in the conveyance of food and forage. In the report of the engineers employed on the Montreal and Bytown railway, it is stated that this firm have at present 3500 men in their service, and one hundred lumbering establishments, scattered over several hundred milles of territory. Their consumption of pork is ten thousand barrele annually, and their daily consumption of oats during the winter months from one thousand to twelve hundred bushels. The firm is now constructing a sawmill at the Chats, on the Ottawa, which will saw fifteen million feet of boards annually, and their annual cash payments for keeping their immense establishment in motion exceed two million dollars.—Boston Journal. A GREAT LUMBERING ESTABLISHMENT.

Affecting Death of a Minister.—The Jackson Flag of the Union, a newspaper published in Jackson, Mississippi, alludes to the sudden death in that city on the 6th inst., of Rev. Joshua T. Russell, a minister of the Baptist Church. At a meeting of the Jackson Bible Society, an association in which he was deeply interested, Mr. Russell made a brief and eloquent address upon the subject of the Bible. He sketched the agency by which the Scriptures had been given to man; how they had been transmitted through successive generations, and the means by which they had been so generally diffused. He said—"millions now around the throne of God, singing the song of Moses and the Lamb, had been saved by the blessed influences of that book.", While he uttered this sentence, he looked up, as if he had a vision of what he described: he then paused a moment and said—"I have done." These were his last words. He sunk back in an apoplectic fit and died in a few hours. AFFECTING DEATH OF A MINISTER.-The

The Coasting Trade Bill has been read a second time in the House of Lords. Lord Stanley said that by repeal of the laws of the British Coasting Trade, there was no doubt the United States would in time see the advantage of making similar concessions.

Earl Derby asked would the effect of passing the present Bill, which would throw open the British coasting trade to American shipping, be to give the British the benefit of the coasting trade of America. Lord Stanley replied that he did not mean that it was incumbent on the United States to open their coasting trade. Date it would relieve them from the constitutional objections that had been urged against opening the carrying trade to California.

ITALY.—Accounts from Turin state that Calabria has been visited with a succession of earthquakes, attended with a fearful loss of life. The castle of Cosena has been entirely destroyed, and the garrison buried in the ruins. A village, containing nine hundred inhabitants, mear the same place, has likewise, with its whole population, been destroyed. The loss of life is calculated to amount to upwards of three thousand souls.

It will be observed the Chancellor of the Exchaquer contemplates the imposition of a Stamp tax upon Colonial as well as other Bills of Exchange—a measure of some importance to this Province. A correspondent writing to us from London the 17th March, thus alludes to it:—

"Leave has been obtained in the Commons to bring in a Bill to impose a stamp duty on Foreign Exchanges, under which it is intended to class Colonial Bills—the rate named would amount on the business from New Brunswick for the past year to about 220,000. My opinion is, that the Home Government, in bringing forward this measure, are interfering with the privileges granted to the Colonies to remain the Colonies is made between the buyer and siller at their local Logislature has not imposed any tax upon the transaction; but when the Bill reacher this country, and before the party on whom it is drawn dure to accept, it must be atamped, thereby effectually interforing with our local rights, as much as the old Stamp and Tea Duties did on those of the old Colonies. Another most important piece of news has, on Tuesday hast, arrived from China, which, except it shall have been printed in time to reach you by one of the newspapers going in the ship which conveys this letter, must also be per ectly new to your readers. Mr. Medharst, the Chinese missionary, writes that everything promises great success to the gospel in the land in which he labours. From whatever motive, The Ping Wang, the insurgent chief, has declared himself more unequivocally than ever in favour of the gospel. It has in his pay 300 men, whose duty it is to distribute good books, and especially portions of the Bible, among his followers, and over the whole country where he has access, and the way is everywhere paved for the hearty reception of gospel truth.

Mr. William Porteous;

Doir Sir.—As the very eatifactory parting examination of the Fanning Grammar School, in Princetown Royalty this day, affords us. (the Trustess of said School) a pleasing opportunity of giving expression to sur feelings, as to your invariable correctness of conduct and excellent management of that School, which the forward state of the Pupils, manifestly proves. We with pleasure accord to you that meed of praise, so justly due to merit; and, in doing no, we are parfacily confident that the whole of the School empiorities to in the occasion, go with us and are as warning inclined to express their regret at parting with you as 'we can be; but, as your future calling and movements in life are destined,—as we presume, by Previdence—to be of a higher description, we part with you with regret, but with every wish, and almost an answerd confidence that God will guide you, bless you, and place you in a more honorable situation than you were with us.

(Mr. William Porteous' Reply.)

Gentlemen,—The highest reward which man can look for in this life, is the consciousness of having faithfully discharged his duty, and the approval of those in whose service he has been more immediately engaged. The value of this approbation is much enhanced, when ceming from those who are capable of judging the services rendered. You will, therefore, easily understand, Gentlemen, what gratification your kind, but I fear toe flattering address affords me, though as adding one more to the many acts of kindness in my behalf, while conducting your School; I confess, it but heightens my regret at our separation. Accept then, my sincere thanks for yourselves as well as the supporters of the School generally; and, rest assured, that nothing but the hope of a vocation for a higher and holier calling, could induce me to 'relinquish the useful prefession in which I have, however, temporarily engaged, and the prosperous and intelligent community among whom I have had the happiness to spend the last two years.

I have the honor, Gentlemen,

To remain,
Yours, very respectfully,
WILLIAM PORTEOUS.

To the Trustees of the Fanning Grammar School, In Princetown Royalty, April 7th, 1854.

'It is seldom that we recommend what are termed Patent Medicines, to the confidence and patronage of our readers; and therefore when we recommend Dr. Hooftand's German Bitters, we wish it to be distinctly understood that we are not speaking of the nostrums of the day, that are unised about for a brief period and then forgotten after they have done their guilty race of mischief, but of a medicine long established, universally prized, and which has met the hearty approval of the faculty itself."

"Scott's Weekly," said. Aug. 25—

"Scott's Weekly," said, Aug. 25—
"Dr. Hoofind's German Bitters, manufactured by Dr. Jackson, are now recommended by some of the most prominent members of the faculty as an article of much efficacy in cases of female weakness. Persons of debilitated constitutions will find these Bitters advantageous to their health, as we know from experience the salutary effect they have upon a weak system."

Hon. C. D. Hineline, Mayor of the City of Camden, N. J., suys:
"HOOLLAND'S GERMAN BITTERS.—We have seen many flattering notices of this medicine, and the source from which they came induced us to make inquiry respecting its merits. From inquiry we were persuaded to use it, and must say we found it specific in its action upon diseases of the liver and digestive organ, and the powerful influence it exerts upon nervous prostration, is really surprising. It calms and strengthens the nerves, bringing them into a state of repose, making sleep refreshing.

If this medicine was more generally used, we are satisfied there would be less sickness, as from the stomach, liver and nervous system, the great majority of real and imaginary diseases eminate. Have them in a healthy condition and you can bid defiance to opidemice generally. This extraordinary medicine we would advise our friends who are at all indisposed, to give a trial—it will recommend itself. It should, in fact, be in every family. No other modicine can produce evidences of the same merit,"

In this mammon-worshipping Age, it is rare to find a man place, his usefulness to the public, before his interest. During a late visit to the 'City of Spindlest,' we were presented by a professional friend, to the calelerated Chemist, Day J. C. Aven, whose name is now perhaps, more familiar than any other, at the bedside of sickness, in this country. Knowing the unprecedent popularity of his medicines, and the immense sale of them, we had expected to find him at millionate, and rolling in wealth. But so, we found set in millionate, and rolling in wealth. But so, we found set in this in his laboratory, beny with his laborates, among, it has crucibles, absurbes, and retords—giving his they presend care to the compounds, on the viriate of "the which, thousands hang for health. "Ann You a SHEEP?"—Some years ago, when the present clerk of the house at Washington was domiciled in the Quaker city, his young son, a lad of some six years, happened to be at his father's office one morning, when the "hatless prophet." George Mundy, made his appearance, and getting into conversation with the child, the latter asked him, in the course of their chat, "Why don't you wear a hat Mr. "Why don't you wear a hat Mr. Mandy?" "O!" answered the prophet, "because there is no use in it. God's creatures are not so furnished. Sheep and other animals don't wear hats."

Quick as lightning come the child's philosophic and clinching response, "are you a sheep Mr. Mundy?"—[Knickerbocker, or New York Magazine.]

Oue evening John Clerk (Lord Eldin) had been dipping rather too deeply in the courivial bowl with a friend in Queen sir his intellects become a considerable degree confused, and not being able to distinguish objects with any degree of minuteness or certainty, he thought himself in a fair way of losing the road to his own house in Picardy Place. In this perplexity he espied some one coming perplexity he espied some one coming towards him, whom he stopped with this query, "D'ye ken whaur John, this query, "D'ye ken whaur John, Clerk bides?" "What's the use o' you specin' that question?" said the man, "you're John Clerk himsel." "I ken that,', answered John, "but it's no him-sel that's wanted, it's his house."

MUSIC THROWN TO THE COCKS .-- A writer in Fraser contends that poultry enjoy musical sounds, stating that he has often gratified a feathered audience. A noble cock "would come with all his train, and comport himself like a first-rate critic at the opera, listening with halfed eye, while we sang softly "The Meeting of the Waters," or some other wild and sad strain; and if a stupid or inattentive hen, intent on her sand bath. shuffled too noisily, he would give her a peck to teach her betters manners. The erformance generally ended with. "Over the Hills and far Away !"-the termination of which invariably elicited a hearty

PAPER Houses .- A paper village for exportation was recently set up in the grounds of a factory. It consisted of ten houses. It is not the simple paper mache as ordinarily used, but contains an adas ordinarily used, but contains an admixture of rags not reduced to pulp, which enables it to solidify as hard as a board. The walls are double, to ensure ventilation, and the partitions have a strength and duability which will put to shame the lath and plaster mockeries of too many of the London houses that Jack built. It was found on trial that one of the smaller houses could be pulled down and built up again in four hours.

EXTREME LENGTH OF THE HAIR.-Charles Wilkins states that while he was resident at Benares, he saw a Fakir, the hair of whose head reached the enormous length of twelve feet .- [Saturday Magazine, No. 168. The tails hair of the Chinese frequently reach the ground, and their mustachoes have been cultivated to the length of 8 or 9 inches. White mentions an Italian lady whose hair reached to her feet when she stood upright; the same observation may be made of the Greek women. A Prussian soldier had his hair long enough when loosened to touch the ground; and in several in-stances English ladies have had it six feet long.—[Rowland on the Hair.]

DIMENUTION OF THE POPULATION OF THE SANDWICH ISLANDS.—The Dative population are melting away like snow before a summer's sun, The official re-turns of James W. Marsh, Esq., to the Governor of Oahu, in the Islands, for the year 1853, show the following results for the First District, in which Honolulu is ted:-Births 191; deaths 3759;

the List District, in which Honolulu is situated. Births 191; deaths 3759; marriages of natives 453; marriages of foreigners 62. This district is comprised between Maunama on the cast, and Mosnalua on the west, a distance of some fourteen miles, and containing a population of about 10,000 souls. The deaths from small-pox, included in the above, are supposed to be above 2900—the balance from other diseases.

In the same district, during the year 1852, there were births 337, deaths 906, marriages 418. It is to be remarked that it was in this district that the small-pox first broke out, and was more fatal, perhaps, than in any other portion of the Islands. From the limited returns that have been collected, we infer that the population does not exceed 70,000 souls on all the Islands—a diminution of 10,000 since the census of Jaunary, 1849.

Statistics of the population of the Cona district, from the official returns:—Natives, 10,186; Foreigners, 1169—total, 11,356. In 1850 the number was 14,484, showing a decrease of 8128 in three years.

For Children Teething.

Forthe Nervous Affections, Convulsions, Fever, Infammation of the Bowels, &c. that attend this period of children, she recommends it as sure to produce the desired effect, giving Rest to the Mother, and Relief and Health to the Infami.

A child in Congress-Street was cured by the Soothing Syrup, of Infantile Dysentory or Diarrhous after being given over by the attending Physician.

Mr. Blackman, of Eddington sups, it has never railed to cure the Dysentory or Diarrhous in children whenever used in the village. Lots of it is sold.

One parent informs see his child has suffered to an alarming extent, with Flatulence or Wind Cholic. Lately they have used the Soothing Syrup, and it always effects a speedy cure.

Hundreds of like instances might be enumerated.

by valuable lives saved, by caning ine attention of mothers to this valuable prescription of an old and experienced nurse:

Dear Sir:—I am happy to be able to certify to the efficiency of Mr. Winslow's Soothing Syrup, and to the truth of what it is represented to accomplish. Having a little boy suffering greatly from teething, who could not rest, and at night by his crice would not permit any of the family to do so, I purchased a bettle of Soothing Syrup, in order to test the remedy, —and when given to the boy according to the directions, its effect upon him was like magic, he soon went to sleep, and all pain and nervousness disappeared. We have had no trouble with him since; and the little fellow will pass through with comfort, the excreasting process of teething, by the sole aid of Mrs. Winslow's Soothing Syrup. Every mother who regards the health and life of her children, should possess it.

This may certify, that for about four years I was seriously afflicted with a disease in the hip, which Physicians termed Neurology, or Sciatic Rheumatism, and resorted to various remedies without any permanent relief; have been under the care of a regular Physician for six months at a time. Last spring, had a very violent attack, which laid me up, when I made use of the Oranp and Pais Killer, prepared by Mesers. Curtis & Perkins, of Bangor. It gave me immediate relief, and I do not hesitate to say, that it is the best article I ever used. I cheerfully recommend it to all who may be afflicted with similar complaints.

perform their appropriate duties, with regularity.

COSTIVENESS.

Habitual Costiveness is, if not removed in time, a cause of more than half of the disorders and pains to which humanity is subject. The medicines too generally had recourse to, do more harm than good, as they weaken the peristaltic action of the bowels, and thus aggravate instead of removing the complaint.

Also, in all Bilious Diseases, attended with Pain in the Side and Right Shoulder Blade, with a dall, sallow countenance. In all Diarrhess, Ague and Fever, Bilious Fever and sick headache, they are an invaluable Remedy.

They will be found the best Family Physic in the world, purifying the blood, restoring the appetite, and leaving the stomach and bowels in a healthy state. Price 35 cauts per hex.
