USE THE BEST.

Nine years before the public, and
no preparation for the hair has ever
been produced equal to Hall's "Vegetable
Sicilian Hair Renewer," and
every honest dealer will say it gives
the best satisfaction. It restores
GRAY HAIR to its original color,
eradicates and prevents dandruff,
curing BALDNESS and promoting
the growth of the hair. The gray
and brass by few applications is
changed to black and silky locks, and
wayward hair will assume any shape
the wearer desires. It is the cheap-
est HAIR DRESSING in the world,
and its effects last longer, as it ex-
cites the glands to furnish the nutri-
tive principle so necessary to the
life of the hair. It gives the hair that
splendid appearance so much admired
by all. By its tonic and stimulating
properties it prevents the hair from
falling out, and none need be without
Nature's ornament, a good head of
hair. It is the first real perfected
remedy ever discovered for curing
diseases of the hair, and it has never
been equalled, and we assure the
thousands who have used it, it is kept
up to its original high standard. Our
Treatise on the Hair mailed free, if
sent for it.

Town and County News

LAWRENCE'S Silver Corset Band will
play on the Market Square this evening.

THE LUTHER AGRICULTURAL SOCIETY
will hold their first ANNUAL exhibition
at Luther Village on Tuesday, the 3rd
of October.

FOR IRELAND.—Mr William Jamison,
one of the first and most prosperous set-
tlers in the Township of Nichol, starts for
Ballymena, Ireland, on Monday next.

THE REFORM PICNIC AT GALT is favored
with auspicious weather to-day, and a
goodly number from this section have
been attracted thither.

FOR THE PENITENTIARY.—The Sher-
iff's officer yesterday left Guelph for
Kingston, with John Thompson, who
was convicted of an attempted burglary,
and sentenced to two years imprisonment
in the Penitentiary.

ALMOST A FIRE.—About eight o'clock
last evening, fire was discovered in the
varnish room of Mr Raymond's Sewing
Machine Factory, but as a large num-
ber of hands were engaged on extra work
in other parts of the building at the time,
it was quickly suppressed, and but little
damage done.

HOLIDAY AND EXCURSION.—This being
the civic holiday in Fergus and Elora,
a large number of the citizens of these
towns availed themselves of the oppor-
tunity afforded them by the excursion on
the G. W. Railway to visit Niagara Falls
and intermediate points. Only a few
joined the party at Guelph.

RESCUED FROM DROWNING.—The Fergus
News record says:—On Wednesday
afternoon a lad named Worsley, aged
about ten, and whose parents live over
the top of the stores, was poking round the
river above Mr Robertson's mills with a
pike-pole, when he slipped it. He man-
aged to get hold of the end of the pole,
which kept his head above water, when
he called lustily for help. Mr Robert-
son went to the lad's assistance, and
rescued him from his perilous situation.

FATAL ACCIDENT.—The Fergus News
records that James Campbell, a lad aged
5 years, only son of the late Jas. B.
Wyllie, Esq., of Fergus, came to his
death, while on a visit to Elmira, with
Mrs. Wyllie, in the following manner:—
The boy went out to a friend's, a few
miles from Elmira on Thursday, and
while chasing a colt in a field the animal
gave him a kick in the head which
knocked him insensible. The poor lad
lingered until Sunday evening, but he
never spoke after receiving the blow.
The body was brought back to Fergus
on Monday evening, and the funeral on
Tuesday afternoon was attended by a
large concourse of sorrowing friends.
When we say the bereaved mother has
the sympathy of the entire community,
we but feebly express public opinion.

OBSTRUCTING THE RAILWAY.—ARREST
OF "SUSPECTS."—Our readers will re-
member that a short time since some vil-
lains placed obstructions across the track
of the G. W. Railway, near Limehouse,
and that it was only by the intervention
of a freight train that the night passen-
ger train from Toronto was preserved
from an accident. The matter having
been placed in the hands of Chief Con-
stable Kelly, he followed up the suspi-
cious which had been aroused, until he
felt justified in arresting Alexander
McLachlan, last (Thursday) evening,
some seven miles above Erin Village.—
This morning he arrested a second party
upon Wyndham Street named Alex. Mac
Alpine, and we presume they will both
be brought before the Police Court to-
day. Of course it is impossible to say
how far the suspicions aroused can be
relied upon, but the crime is so wantonly
heinous that we hope to see the would-
be murderers, who ever they are, severely
punished.

REFORM DEMONSTRATION AT PORT
COLBORNE.—On the 25th inst. the above
demonstration took place at Steele's
Grove, near the village of Port Colborne.
The number present was estimated at
from six to eight thousand. Among the
speakers were Mr McKeezie, M.P., Mr
Thomson, M.P., Mr J G Currie, M.P.P.,
Dr Fraser (formerly member for the
county), Mr Edgar, the Reform candidate
for Monck, and other prominent gentle-
men. The proceedings were brought to
a close by the adoption of resolutions en-
dorsing the Opposition in both Houses.

Owing to the bothersome crowds
of idle visitors to London jail, to see
Phoebe Campbell, the Prison Inspector
has shut the doors against the public.

BY TELEGRAPH
THIS MORNING'S DESPATCHS

Affairs in Paris.

**Another Communist Con-
spiracy.**

**Partial Disarmament of the
Guards.**

**The Royal Meeting at
Gastein.**

**Settlement of the Roumania
Difficulty.**

**Religious Intolerance in
Mexico.**

**Collission Between Troops
and People.**

Paris, Aug 25.—The determination
of the Government to press in the Assembly
the bill for a partial disarmament of the
National Guard, and to use all the means
in its power to effect the measure, was
due to discoveries made by the police of
secret operations of the International
Society among the officers and men
comprising the National Guards. The
additional evidence elicited during the
trial of the Commune disclosed the fact
that many of the officers of the National
Guard are emissaries of the International
Society. The mischievous spirit of the men
is ready at any moment to break out into
open revolt. It has also been discovered
that a conspiracy is ripe to liberate the
Communist prisoners at the Orangerie in
Versailles with the aid of the National
Guard. The plot is alleged to have
been planned by the International Society.
As already telegraphed a provision was
adopted in the Assembly last night for
the gradual disarmament of the Guards.

A Vienna despatch says that a satisfac-
tory solution of the Roumanian difficul-
ty has been arranged at Gastein by
Prince Bismarck and Count Beust, with
the Government in Roumania. Thus
all further political complications about
this question will be avoided. The Ger-
man and Austrian bond-holders of the
Roumania R R will be indemnified by a
new loan issued by the Roumania Gov-
ernment and guaranteed by the Austrian
and Prussian Governments.

A special despatch from the City of
Mexico says that a Catholic priest named
Cavero preached a bitter sermon in
Mexico against the laws of reform and
religious toleration, and succeeded in
exciting the people to such a pitch against
the Protestants that his harangue result-
ed in the committing of breaches of the
peace by the multitude. Cavero was
sent to prison by the authorities, but the
people attempted to take him out of jail
by force. The Federal troops resisted
this attempt at jail delivery, and the
result was a great riot. A great many
persons were killed and wounded, and
incendiarism was resorted to by the
enraged followers of the priest.

London, Aug 24.—The amnesty as-
sociation of Dublin has resolved to hold
a meeting in Phoenix Park on the 3rd
of September for the purpose of getting up
a petition to the Queen for the liberation
of political prisoners.

A strike of 1,500 workmen has occurred
at Leeds. The disturbances at New-
castle-on-Tyne have not been renewed.
The newly employed workmen were
simply hired yesterday by the strikers,
and no serious trouble is now appre-
hended.

London, July 24.—The Times has
a special despatch from Paris to the effect
that the discussions upon the question of
the dissolution of the assembly are excit-
ing. That a conflict is apprehended, and
that grave consequences are possible.

Rome, August 25.—A shocking event
has occurred in the town of Balona, Italy.
The church was struck by lightning.
Thirty two persons were killed or injured.

Base Ball Items.

The Printers want to play a base ball
match with some trade on the morning
of the holiday. Wholl speak first?
They don't want a very strong team not
being much themselves.

About 2,000 persons witnessed the
game of base ball between the Forest
Citys of Rockford, Ill, and the Ath-
letics of Philadelphia, in New York on
Wednesday. At the commencement of
the sixth innings rain fell, and the
game was called. The playing of the
Athletics, both at the game and bat, was
excellent. The Rockford nine played
a fair game, although marked with con-
siderable miffing. The score at the end
of the game stood—Forest Citys, 3;
Athletics, 12.

The Buffalo Courier reports a
case of Asiatic cholera in that city on
Monday.

Ingersoll has started a free chess
market on certain days in the year.

M. Gustave Dore, the artist, re-
cently received a visit from the Prince
of Wales, the Princess Louise, and the
Marquis of Lorne.

Each of the junior counsel in the
Tichborne case, now on their way to
Australia in search of further evidence,
receives \$2,625 and his expenses.

The house of O'Brien, Pearce &
Co, of Portland, Maine, heavy grain
dealers, has failed, causing a number of
smaller houses to go down also.

The eminent surgeon, Mr James
Paget, recently received the honor
of knighthood from Queen Victoria, in
recognition of his professional merits.

The Rev Morley Punshon is so
popular in England that 20,000 applica-
tions for tickets of admission to the
Wesleyan Chapel, Leeds, were made
when he preached there recently.

The Central Exhibition.

To the Editor of the Guelph Mercury.
From a little curiosity I have been
induced to read over the Prize List of the
Central Exhibition, to be held in Guelph in
the month of October next. I do not in-
tend to enter into any discussion as to
whether the Town or County will derive
more benefit from such an undertaking, but
merely to place in a few words before my
brother farmers the great encouragement
that is offered to them for leading a help-
ing hand to make this effort a great success.
Any one who has studied the several re-
ports of the Provincial Shows cannot have
failed to observe what a handsome pro-
portion the County of Wellington takes of
the prize lists. There is it not a laudable
step to endeavor to accumulate annually
in our midst, the best we have to exhibit,
and thus bring this flourishing County
more prominently forward than can be done
in a Provincial enterprise. See that
about \$1200 is apportioned for horses, over
\$1100 for cattle, \$360 for sheep, \$360 for
pigs, \$200 for dairy produce.

These items above mentioned represent
only 20 classes, and when it is understood
that there remain some 27 other classes to
share the prizes, there can be but little
doubt that the exhibitors will not
return home disappointed. Now, I would
appeal to the agriculturists not to
share the prizes, but to make these mem-
bers of such a Society, but take a lesson
from the liberality shown by the Town and
County Councils, and give the most
willingly of their two dollars at least, and
thus give the working Committee a help-
ing hand to render the Exhibition an ac-
complished fact, and having done this much
do not forget that there are other points
in which they can aid those who are laboring,
so assiduously in this arduous undertaking,
by taking into consideration the requisites
for the purpose of such an Exhibition,
and endeavoring to secure the requisites
for a large influx of visitors to
Guelph possessing so much railway con-
venience. I understand that the Com-
missioners of the Provincial Shows have
declined altogether. This is most dis-
appointing, especially where the Township
of Guelph is concerned. It is not our
own individual benefit we seek, but the
good name and prosperity of the County
of Wellington in which we live. The
County of Wellington is large, and no bet-
ter place than the County Town could be
selected for the purpose of such an Exhibi-
tion, taking into consideration the requisites
for a large influx of visitors to
Guelph possessing so much railway con-
venience. I understand that the Com-
missioners of the Provincial Shows have

appointing, especially where the Township
of Guelph is concerned. It is not our
own individual benefit we seek, but the
good name and prosperity of the County
of Wellington in which we live. The
County of Wellington is large, and no bet-
ter place than the County Town could be
selected for the purpose of such an Exhibi-
tion, taking into consideration the requisites
for a large influx of visitors to
Guelph possessing so much railway con-
venience. I understand that the Com-
missioners of the Provincial Shows have
declined altogether. This is most dis-
appointing, especially where the Township
of Guelph is concerned. It is not our
own individual benefit we seek, but the
good name

HALL'S
VEGETABLE SICILIAN
HAIR
RENEWER

Nine years before the public, and
no preparation for the hair has ever
been produced equal to Hall's "Vegetable
Sicilian Hair Renewer," and
every honest dealer will say it gives
the best satisfaction. It restores
GRAY HAIR to its original color,
graduating and preventing dandruff,
curing BALDNESS and promoting the
growth of the hair. The gray
and brassy hair—few applications is
changed to black and silky locks, and
ward hair will assume any shape
the wearer desires. It is the cheap-
est HAIR DRESSING in the world,
and its effects last longer, as it
excites the glands to furnish the nutri-
tive principle so necessary to the
life of hair. It gives the hair that
splendid appearance so much admired
by all. By its tonic and stimulating
properties it prevents the hair from
falling out, and none need be without
Nature's ornament, a good head of
hair. It is the first real perfected
remedy ever discovered for curing
diseases of the hair, and it has never
been equalled, and we assure the
thousands who have used it, it is kept
up to its original high standard. Our
Treatise on the Hair mailed free;
send for it.

Sold by all Druggists and Dealers in Me-
dicines. Price \$1 per bottle.

Town and County News
LAWRENCE'S Silver-Corset Band will
play on the Market Square this evening.

THE LUTHER AGRICULTURAL SOCIETY
will hold their first annual exhibition
at Luther Village on Tuesday, the 3rd
of October.

FOR IRELAND.—Mr William Jamison,
one of the first and most prosperous set-
tlers in the Township of Nichol, starts for
Ballymena, Ireland, on Monday next.

THE REFORM PICNIC AT GALT is favored
with auspicious weather to-day, and a
goodly number from this section have
been attracted thither.

FOR THE PENITENTIARY.—The Sher-
iff's officer yesterday left Guelph for
Kingston, with John Thompson, who
was convicted of an attempted burglary,
and sentenced to two years imprisonment
in the Penitentiary.

ALMOST A FIRE.—About eight o'clock
last evening, fire was discovered in the
Wärnisch room of Mr Raymond's Sewing
Machine Factory; but a large num-
ber of hands were engaged on extra work
in other parts of the building at the time,
it was quietly suppressed, and but little
damage done.

HOLIDAY AND EXCURSION.—This being
the civic holiday in Fergus and Elora,
a large number of the citizens of these
towns availed themselves of the oppor-
tunity afforded them by the excursion on
the G. W. Railway to visit Niagara Falls
and intermediate points. Only a few
joined the party at Guelph.

RESCUED FROM DROWNING.—The Fer-
gus News-Record says:—On Wednesday
afternoon a lad named Worsley, aged
about ten, and whose parents live over
the store was poking round the
river above Mr Robertson's mills with a
pike-pole, when he slipped in. He man-
aged to get hold of the end of the pole,
which kept his head above water, when
he called lustily for help. Mr Robert-
son went to the lad's assistance, and
rescued him from his perilous situation.

FATAL ACCIDENT.—The Fergus News-
Record says that James Campbell, a lad
aged 5 years, only son of the late Jas.
B. Wyllie, Esq. of Fergus, came to his
death, while on a visit to Elmira, by
Mrs. Wyllie, in the following manner:
"The boy went out to a friend's, a few
miles from Elmira on Thursday, and
while chasing a colt in a field the ani-
mal gave him a kick in the head which
knocked him insensible. The poor lad
lingered until Sunday evening, but he
never spoke after receiving the blow.
The body was brought back to Fergus
on Monday evening, and the funeral on
Tuesday afternoon was attended by a
large concourse of sorrowing friends.
When we say the bereaved mother has
the sympathy of the entire community,
we but feebly express public opinion."

OBSTRUCTING THE RAILWAY.—ARREST
OF "SUSPECTS." Our readers will re-
member that a short time since some vil-
lains placed obstructions across the track
of the G. T. Railway, near Limehouse,
and that it was only by the intervention
of a freight train that the night passen-
ger train from Toronto was preserved
from an accident. The matter having
been placed in the hands of Chief Con-
stable Kelly, he followed up the suspi-
cions which had been aroused, until he
felt justified in arresting Alexander
McLachlin, last (Thursday) evening,
some seven miles above Erin Village.

This morning he arrested a second party
upon Wyndham Street named Alex Mc-
Alpine, and we presume they will both
be brought before the Police Court to-
day. Of course it is impossible to say
how far the suspicions aroused can be
relied upon, but the crime is so wantonly
heinous that we hope to see the would-
be murderers, who ever they are, severely
punished.

REFORM DEMONSTRATION AT PORT
COLORNE.—On the 25th inst. the above
demonstration took place at Steele's
Grove, near the village of Port Colborne.
The number present was estimated at
from six to eight thousand. Among the
speakers were Mr McKenzie, M.P., Mr
Thomson, M.P., Mr J G Currie, M.P.,
Dr Fraser (formerly member for the
county), Mr Edgar, the Reform candidate
for Monck, and other prominent gentle-
men. The proceedings were brought to
a close by the adoption of resolutions en-
dorsing the Opposition in both Houses.

Being owing to the troublesome crowds
of life visitors to London, go to see
Ph. Campbell, the Prison Inspector
has shut the doors against the public.

Base Ball Items.
The Brinters want to play a base ball
match with some trade on the morning
of the holiday. Whom shall we pick?
They don't want a very strong team
not being much themselves.

About 2,000 persons witnessed the
game of base ball between the Forest
Citys of Rockford, Ill., and the Ath-
letics of Philadelphia, in New York on
Wednesday. At the commencement of
the sixth inning rain fell, and the
game was called. The playing of the
Athletics both at the game and bat was
excellent. The Rockford nine played
a fair game, although marked with con-
siderable miffing. The score at the
close of the game stood—Forest Citys, 3;
Athletics, 12.

The Buffalo Courier reports a
case of Asiatic cholera in that city on
Monday.

Ingersoll has started a free chess
market on certain days in the year.

M. Gustave Dore, the artist, re-
cently received a visit from the Prince
of Wales, the Princess Louise, and the
Marquis of Lorne.

Each of the junior counsel in the
Tichborne case, now on their way to
Australia in search of further evidence,
receives \$2,625 and his expenses.

The house of O'Brien, Pearce &
Co. of Portland, Maine, heavy grain
dealers, has failed, causing a number
of smaller houses to go down also.

BY TELEGRAPH
THIS MORNING'S DESPATCHES
Affairs in Paris.

**Another Communist Con-
spiracy.**

**Partial Disarmament of the
Guards.**

**The Royal Meeting at
Gastein.**

**Settlement of the Roumanian
Difficulty.**

**Religious Intolerance in
Mexico.**

**Collision Between Troops
and People.**

Paris, Aug 25.—The determination
of the government to press in the Assembly
the bill for a partial disarmament of the
National Guard, and to use all the means
in its power to effect the measure, was
due to discoveries made by the police of
secret operations of the International
Society among the officers and men
comprising the National Guards. The
additional evidence elicited during the
trial of the Commune disclosed the fact
that many of the officers of the National
Guard are emissaries of the International
Society. The mutinous spirit of the men
is ready at any moment to break out into
open revolt. It has also been discovered
that a conspiracy is ripe to liberate the
Communist prisoners at the Orangerie in
Versailles with the aid of the National
Guard. The plot is alleged to have
been planned by the International Society.
As already telegraphed a provision was
adopted in the Assembly last night for
the gradual disarmament of the Guards.

A Vienna despatch says that a satisfac-
tory solution of the Roumanian diffi-
culty has been arranged at Gastein by
Prince Bismarck and Count Brest, with
the Government in Roumania. Thus
all further political complications about
this question will be avoided. The Ger-
man and Austrian bond-holders of the
Roumanian R R will be indemnified by
a new loan issued by the Roumanian Gov-
ernment and guaranteed by the Austrian
and Prussian Governments.

A special despatch from the City of
Mexico says that a Catholic priest named
Cavero preached a bitter sermon in
Mexico against the laws of reform and
religious toleration, and succeeded in
exciting the people to such a pitch against
the Protestants that his harangue result-
ed in the committing of breaches of the
peace by the multitude. Cavero was
sent to prison by the authorities, but the
people attempted to take him out of jail
by force. The Federal troops resisted
the attempt at jail delivery, and the
result was a great riot. A great many
persons were killed and wounded, and
incendiarism was resorted to by the
enraged followers of the priest.

London, Aug 24.—The amnesty as-
sociation of Dublin has resolved to hold
a meeting in Phoenix Park on the 2nd
of September for the purpose of getting up
a petition to the Queen for the liberation
of political prisoners.

A strike of 1,500 workmen has occurred
at Leeds. The disturbances at New-
castle-on-Tyne have not been renewed.
The newly employed workmen were
slightly agitated yesterday by the strikers,
and no serious trouble is now appre-
hended.

London, July 24.—The Times has a
special despatch from Paris to the effect
that the discussions upon the question of
the dissolution of the assembly are excit-
ing. That a coalition is apprehended and
that grave consequences are possible.

Rome, August 25.—A shocking event
has occurred in the town of Balano, Italy.
The church was struck by lightning.
Thirty-two persons were killed or injured.

NEWS ITEMS.
FLAX.—The List well *Beehive* says
Flax has been coming into the market
during the past few weeks at
from 100 to 150 cents a day—the average
being 125 cents. The quality
is of the best and readily brings
the price.

MRS. M. H. H. H.
and Wm Jardine,
clerk of the Toronto City Chamberlain's
Office, have been arrested upon an infor-
mation laid by the Mayor, for embezzling
the city funds. Hetherington being also
charged with forgery. That Duke has
had the ran of the Toronto Treasury for
some time.

MRS. M. H. H. H.
The Court for the trial of this
case opened at Dunnville, on the 22nd.
Various charges of bribery on both sides
having been overruled or withdrawn,
the legality of the (claimants) voters' list
was impugned, and the points there-
on raised were referred to the Court.
After that tribunal had given judgment
the Court will sit at Dunnville on the 22nd
of next month.

A B. O. OFFER.—A company of New York
capitalists, in anticipation of the con-
struction of the International and the
Woolstock Railways, offered Mr Fraser
ninety thousand dollars for the water
privileges of the Riviere du Loup,
between the Grand Trunk Station and the
St. Lawrence, intending to establish his-
tories. Mr Fraser refused what most
people would consider an extravagant
offer, as there is plenty of water power
along the line of both Railways.

MINING AT SALT LAKE.—A Salt Lake
despatch reports that the transactions in
mining property in Utah last week
amounted to \$1,500,000, and that ar-
rangements were making to organize a
Stock Board and Exchange. It is also
stated that several large sales of Utah
mining stocks have lately been made by
cable in London. Money is so plenty on
both sides of the water that this new
field for speculation seems likely to be
eagerly sought.

A BASE BALL NOVELTY.—The Hamil-
ton Spectator says that "A novel game
of base ball is in progress this afternoon
on the grounds on upper James street, par-
taking somewhat of the nature of a chess
match, inasmuch as 'white' is pitted
against 'black' and the feature renders
the game peculiarly interesting and
amusing. The competitors are the
Rapid Club, of Lockport, N. Y., composed
exclusively of colored players, and the
Maple Leaf Club, of this city. The
Rapids are an agile set of fellows, very
handy with the bat, and, as their name
implies, rapid and expert in their field
evolutions. The innovation is certainly
an improvement in base ball, the differ-
ence in color enabling the spectator to
readily distinguish the respective sides.
When in position on the field, the scene
suggested a game of chess on an elabor-
ate scale, and one could easily fancy
where 'white' or 'black' might castle
from base to base, or make a master
stroke on some other point. The pros-
pects were that 'white' would be check-
mated." We may add that the Hamilton
boys astonished themselves by beating
the colored men.

The Central Exhibition.
To the Editor of the Guelph Mercury.
Sir, From a little curiosity I have been
induced to review the Prize List of the
Central Exhibition, to be held in Guelph,
in the month of October next. I do not in-
tend to enter into any discussion as to
whether the Town or County will derive
most benefit from such an undertaking, but
merely to place in a few words before my
brother farmers the great encouragement
that is offered to them for sending a help-
ing hand to make this effort a great success.
Any one who has studied the several re-
ports of the Provincial Shows cannot have
failed to observe what a handsome pro-
portion the County of Wellington takes of
the prize lists. Then, is it not a laudable
endeavour to accumulate annually
in our midst, the best we have to exhibit,
and thus bring this flourishing County
more prominently forward than can be done
in a Provincial enterprise. I see that
\$1100 for cattle, \$300 for sheep, \$200 for
pigs, \$200 for dairy produce.
These items above mentioned represent
only 20 classes, and when it is understood
that there remain some 27 other classes to
share the premiums, there can be but little
doubt that the exhibitors will not return
home empty handed. Now, I would I
appeal to the agriculturalists not to
forget that when the time arrives, and
members of such a Society, but take a lesson
from the liberality shown by the Town and
County Councils, and plank down most
graciously, any three dollars each, and
thus give the working Committee a help-
ing hand to render the Exhibition an as-
sured success, and having done this much
do not forget that there are other points in
which they can aid those who are laboring
so zealously in this arduous undertaking.
It is not only in subscriptions our duty lies,
but we should when the time arrives, send
the best of every description of stock
and produce we may possess, so that the
random and commodious landings now
erecting should be filled. It cannot be ex-
pected that every exhibitor will get a prize,
and we should endeavor if possible to un-
derstand that it is not our own individual
benefit we seek, but the good name and pro-
sperity of the County of Wellington in which
we are all so deeply interested. The
County of Wellington, large and no better
placed than the County Town could be select-
ed for the purpose of such an Exhibition,
taking into consideration the route of the
Canadian Pacific for a large influx of visitors,
Guelph possessing so much railway con-
venience. I understand that the Govern-
ment has been very liberal in its grants,
and we should appeal to the various munici-
palities to do the same. It is a matter of
deep regret to many that the County has
some have liberally responded others have
declined altogether. It is most dishearten-
ing, especially where the Township is
so handy to Guelph will derive the
benefit of the great concentration of hands,
bringing their stock and produce but a
distance and the opportunity they offer
of supplying the Society with all the ne-
cessaries of life. Apologizing for the
length of this letter,
I am, sir, your obedient servant,
Wm. G. H. H.
Bramose, August 21, 1871.

A Visit to the Red River.
Mr Bayard Taylor has been visiting
Manitoba, and gives us in the following
some reminiscences of his visit, which we
take from the New York Tribune:
With the music of the band and the
chimes of church bells, we left St. Boni-
face, crossed the river, and set out on our
drive up the Assiniboine. Our Bros. Mr
Bromley, and myself were the fortunate
guests of Dr Schultze, one of the staunch
Manitoba loyalists who suffered most
in the rebellion. We had a fearfully
sultry day, with rattling thunder all
around the horizon. The loam, black as
ink, was cracked with the heat, yet a
little moisture converts it into a greasy,
sticky mass, which resembles tallow
rather than earth. My chief desire was
to see the wheat-fields, and I was present-
ly gratified. Wheat, oats, barley, and
potatoes—it was difficult to say which
flourished most opulently. Such an
array of bearded heads, or such huge
green clusters, I have seldom
seen. The yield of wheat is 35
bushels to the acre on this frequently
watered soil. On the fields which
have not been so favored, the wheat crop,
with the exception of a few years, has
been of a most incredible
scarcity. The foundation of
the soil here produces the
phosphoric acid that the people say
is the reason of the increased
increase of the stronger element. No
other varieties have been introduced.
The reports of the Red River Winter
agree at all points—Fort Abercrombie,
Pembina, and Winnipeg. The extreme
of cold is frozen mercury—or 44° below
zero. The ordinary snow-fall is about
two feet, the air is pure and dry, and a
temperatures of zero to 10° below is
not felt as severe. When there is a storm
however, the out-of-door becomes almost
impenetrable. The guards at Pembina
can be relieved every fifteen minutes,
in spite of their double garments. The
autumnal weather, every one says is
delightful. At present we have a daily
heat of 90° in the shade, which is the
city at sunset, leaving a long, delicious
Northern twilight, and a cool, restorative
night.

We reached the Governor's country
in time to escape a violent
dew, and also to enjoy the great
hospitality of Mrs. Schultze. A library,
a piano, and a garden suffice to
make an elegant home anywhere, and
we seemed not far from New York
for the time of our visit. Then
through watery air and insect-
infested shades, we reached Winnipeg in a dilap-
idated plight, but all the more ready to
appreciate such a dinner as we had not
tested for a week. The Consul and Dr
Schultz sustained the members of our
party who had not gone to the Old Fort,
and, very early we found the fish-ponds of
Winnipeg better than any other dry
statistic, or comparing latitudes. In
fact, I was more interested in knowing
Mr Stewart Murray, Esq. and Mr Begg,
newly than in ascertaining the naviga-
bility of the St. Charles. In a dilap-
idated party of 600 inhabitants starts
into life with three newspapers and one
author the material interests of the region
are not likely to languish. If the Sac-
katchewan had difficult rapids, there will
be a dam, canals, and locks in the course
of time. There will be a railway to Fort
Garry in less than three years, I firmly
believe; and the peculiar proposition of
Capt McLeod that we should "all meet
as one great railway company" was only
prophetic of what is coming. Minnesota,
Dakota, and Manitoba only require a
bridge here and there, and their natural
grading does the rest. The rich soil
everywhere will carry settlement along
as fast as the roads can be built, and it
is a very safe prediction to say that some
of our party may yet ride in a Pullman
car to Slave Lake.

Well—at dinner the night came on
with sweltering heat, pitchy darkness,
rain and thunder. The captain of the
Selkirk was bound to start at ten, in
order to meet the officers of the North
Pacific at Frog Point; one by one our
draggled friends came back from the Old
Fort; we left the Attorney-General to
the mercy of the Manitoba mob, and
took our own Col. Wheaton away from
the threats of some forty U.S. deserters,
all came to an end, and Winnipeg, Fort
Garry and St. Boniface vanished from our
eyes in a blaze of red celestial fire, fol-
lowed by the downward rush of a very
wet and black drop-courtain. Reviewing
the pictures of yesterday and the night
before, I find them all singularly distinct
and original. The landscape background
is monotonous, the political feuds are not
wholly comprehensible (in so short a
space of time) but the three corners, in this
remote corner of the Continent, are
clearly marked, their habits of life are
apparently fixed, and their future—like
that of all new British settlements be-
yond the frontier—is already united to
and identical with, our own.

Guelph Evening Mercury

FRIDAY EVENING, AUG. 25, 1871

EDITORIAL NEWS.

IRON.—Great Britain exported to the United States in the month of July 287,169 tons of iron rails; being nearly 10,000 more than her export to all other countries, including India and her Colonies; her total export being 565,472 tons. Her next largest customer for rails was Russia.

THE RINDERPEST.—Despatches from Shanghai show that there is some possibility that the dreaded rinderpest, shut out from the United States by legislative enactments relative to the Atlantic seaboard, may effect an entrance on the Pacific coast. The disease is passing through Siberia to the eastern shores of Asia. It is suggested that, as there is considerable trade in sheep between the extreme north of the Continent and America, germs of the disease may be thus transported to the Pacific States. It is also warned that the disease is very remote, and may be brought to sea in their arms.

TRADE WITH JAPAN.—Beginning to see the extension of the steam across the ocean, notes the shipping of York of eighty tons. These teas are from Hong Kong monthly service, the emergence of a full cargo of Hong Kong of bread, Japan commencing to receive tea has interested the merchants.

THE MONTREAL AFFAIR.—The Imperial Government have consented to leave a company of Royal Artillery in charge of the Quebec citadel. We presume that in doing so they have yielded to the urgent and repeated remonstrances of the Ottawa Cabinet. When we ascertained that the Imperial authorities had sent out a supply of muzzle-loading 150-pounder rifled cannon for the defence of the citadel, to replace the old guns, we felt confident that the representations of the Dominion authorities would receive attention.

THE GASTEN AFFAIR.—The Berlin Kreuz Zeitung of the 24th categorically denies the reports of the unfavorable turn to the negotiations at Gasten; and that a coolness has sprung up between the Emperors of Germany and Austria. The same journal says that no special arrangements were intended to be made at Gasten. The London Echo has despatch from Vienna to the effect that overtures made by Prince Arnim to the Austrian Government aim at more than the settlement of the Roumanian Railway dispute. The correspondent says the British foreign office has been warned to watch the proceedings at Gasten.

NEWS FROM ST. JOHN UP TO THE 24th state that the deepest sympathy is manifested there with the Tyne crew on account of Renforth's death. The St. John Race Committee offer to pay all funeral expenses. The doctor's all concur in attributing Renforth's sudden death to congestion of the lungs. His remains will be put on board the steamer for England tonight; Kelly and Walton will most likely go with it. Chambers, Percy and Bright talk of remaining in Halifax to take part in the sports to come off there during the next week.

SALT IN WATRALOO.—The Chronicle says:—There seems to be some prospect at last, that the matter whether salt is to be found in paying quantities or not, will be fully tested. The preliminary steps for the formation of a new company have already been taken, and the necessary stock subscribed, and the Company will be permanently organized by the election of Directors in a few days. It is proposed to sink the old well 300 feet deeper and a contract, or at Goderich has already been communicated with who offers to do the work at a rate of three dollars per foot, find his own tools—a very reasonable offer in our opinion. We believe it is the intention to go on with the work at once.

TERRIBLE STORM.—A tremendous storm passed over Ottawa on Thursday morning, between 2 and 3 o'clock, causing immense damage. Two men were reported killed by lightning. Several were struck blind. Houses and barns were destroyed, and also a great number of horses and cattle. The bridges have been swept away altogether.

THE WALFORD MURDER.—Joseph Robertson, who was shot by Horton, on Wednesday last died on Thursday night. Robertson's death is deeply regretted by all, as he had many warm friends and being a very quiet, industrious and inoffensive man the indignation against Horton is very intense. A post-mortem examination will be held to-morrow.

HORRIBLE ACCIDENT.—At Newburg, on Thursday, a man named Ames Switzer, of Camden, while attending a threshing machine, had his leg caught in the cylinder, and jammed to atoms. After examining the wound, Dr. A. Rutan, of Napanee, was telegraphed for to amputate the limb, but unfortunately arrived just as the man had expired. The deceased leaves a wife and four children to mourn his sad death.

BRITISH COMMISSIONER.—Mr. Gurney, the British Commissioner under the Treaty of Washington, calls for the United States on the 9th of September, accompanied by Sir Blanford Northcote's eldest son as secretary.

BAB.—The St. Catharines Times says the bailiff has been hovering around the Journal office in that town for some time past, and thinks the Patent Combination and its St. Catharines organ will give up the ghost together.

MR. WILLIAM WALLACE, the philanthropic Englishman who so much for the wounded at Paris, during the siege, has been made a Baronet by the Queen, in recognition of his humanitarian services.

TOWN OF GUELPH

PROCLAMATION

Civic Holiday

Friday, the 1st of Sept.

GENERALLY OBSERVED

Money to Lend

Carriage to Hire

NOTHING is so annoying to a man as buying bad oil. Good machines essential to our comfort. We notice that Mr. John Horsman of this town has had in a most excellent stock of both kinds, and all who have had transactions with him are aware that he will not recommend oil or anything else that is not good. We understand that coal oil is not likely to remain at the present low figure very long, we would therefore recommend our friends to lay in a supply without delay as the price is sure to advance.
