GERMAN MINES WRECK FOUR NEUTRAL VESSELS BRITAIN GIVES WARNING

Danish and Dutch Ships Reported by British Admiralty To Be Victims of Mines Scattered Indiscriminately Upon Trade Routes—No Mines Laid by Britain Yet.

Canadian Press Despatch. LONDON, Aug. 23, 3.10 a.m.—The British official news bureau makes the following announcement: "The admiralty draws attention to its previous warning to neutrals of the danger of traversing the North Sea. The Germans are continuing their practice of scattering mines indiscriminately upon the ordinary trade routes. These mines do not conform to the conditions of The Hague convention. They are not to become harmless after a certain number of hours, they are not laid in accordance with any definite military scheme such as the closing of a military port, or as a distinct operation against a fighting fleet, but appear to be scattered on the chance of catching individual British war or merchant vessels.

Neutral Ships Destroyed
"In consequence of this policy, neutral ships, whatever their destination, are exposed to the gravest danger. Two Danish vessels, the steamer Maryland and the steamer Broberg have, within the last 24 hours, been destroyed by these deadly engines in the North Sea, while traveling on the ordinary trade routes, and a considerable distance from the British coast. "In addition to this, it is reported that two Dutch steamers clearing from Swedish ports were yesterday blown up by German mines in the Gulf of Finland.

Timely Warning
"In the circumstances, the admiralty desires to impress not only on British but on neutral shipping, the vital importance of touching at British ports before entering the North Sea, to ascertain, according to the latest information, the route and channels which the admiralty is keeping swept, and along which these dangers to neutrals and merchantmen are being removed as far as possible. "The admiralty, while reserving to itself liberty of action against this new form of warfare, announces that it has not so far laid any mines during the present war, and is endeavoring to keep the sea routes open for peaceful commerce."

Ahead of the Procession.
Twenty-fourth of August and one week away from the "Fair." That means early fall is with us and that white ducks and straw hats have been shelved. The Dineen store makes a specialty of the arrival of Stetson's new fall hats. The stock is remarkably complete in block and color. High crown soft hats with contrast bands are quite new, and they are likely to have a very big sale. Stetson's \$4 and \$5. You have a wide choice at Dineen's in new hats made by Henry Heath and in the City of London, Eng., and by other great English makers. There is a complete assortment now on hand, and if you require a new hat—and who does not?—visit Dineen's, 140 Yonge street.

RUSSIANS 30 MILES IN GERMANY

Canadian Press Despatch. PARIS, Aug. 23.—A despatch to the Havas Agency from Vilna, Russia, says an announcement from an authorized source sets forth that the Russians, after their victory at Gumbinnen, successfully pursued the Germans and occupied Insierberg, Germany, 30 miles from the Russian frontier, in the direction of Koenigsberg.

German and Austrian Goods Are Boycotted By People of Britain

Canadian Press Despatch. LONDON, August 23.—A bitter commercial war against Germany and Austria has been inaugurated in England. It has the loyal support of the press and the public. The London Chamber of Commerce committee held a private meeting today to discuss this anti-German trade campaign. It calls the attention of manufacturers to the following lines which Germans sell heavily in England: Electrical appliances and apparatus, iron and steel, wire, stone and earthenware, chinaware, cutlery, hollow ware, cotton hosiery, woolen and worsted piece goods, cotton prints, furniture, leather, gloves and boots and shoes. It is estimated that \$12,000,000 worth of German dynamos and motors are sold annually in British territory. Patents Suspended. The board of trade has arranged for the suspension of German and Austrian patents in England, wherever manufacturers can make use of them in the public interest. All English chambers of commerce have been advised of this opportunity and urged by the London chamber to interest manufacturers in cornering German business, especially in hosiery. Germany shipped over \$17,000,000 worth of stockings and socks to England last year, as well as much underwear. Furthermore, Germany has enjoyed an extensive Canadian trade in women's suits and cotton goods. The English papers are making an especial attack on the German manufacturers of Christmas cards and toys. All parents are being urged not to buy their children playthings made by the enemies of the empire.

TWO BATHERS DROWN WHILE BEACHES CROWD LOOKS ON EARLSCOURT BABY DROWNED

Heavy Undertow at Balm Beach Sucks Bertram G. Dye and Leslie P. Ede Into Deep Water—Impossible to Launch Rescue Boat—Bobbie Patience Drowned in Rain Barrel.

Within a space of ten minutes two young men bathers lost their lives in the lake waters at the foot of Beech avenue, Balm Beach, at 2 o'clock yesterday afternoon. The first victim was Bertram G. Dye, 31, 7 Park avenue, superintendent of the Tait Electric Garage, Church street, who, while bathing in five feet of water, was suddenly swept out by the heavy undertow of water which was running all afternoon. While beachers were making futile efforts to launch a boat to rescue Dye, 19-year-old Leslie P. Ede, 19 McLean avenue, was swept out into the heavy surf. Neither body was recovered until an hour later, when both were washed up on the beach. A third bather, Paul Pillner, 2 Scarborough road, got out beyond his depth. He was rescued by a neighbor, who was reusitated by men on the beach. **Rough Sea in Years.** Campers all agreed that the lake waters yesterday were rougher than at any time in years, and it was due to the heavy seas which swept the beach that both men lost their lives. Both were fair swimmers, but could not battle the heavy waves which broke over their heads and smothered them. Four attempts were made to launch rowboats, but in every case the craft were upset and the occupants hurled into the water. A crowd of 200, amongst whom was Dye's brother, were forced to stand on the beach and witness the double drowning. The crew of life-savers at the island were summoned to the scene, and forty minutes after the men went down were seen some distance out in the lake. The heavy sea, however, proved too much for even their staunch boat, and they could not make a landing. **Third Drowning Rumored.** Owing to rumors of a third drowning, life-savers dragged the beach waters until 7 o'clock in the evening, but could not find a third body. Dye is an Englishman and had been in Canada two years. As an expert electrician he had volunteered for service with the Canadian Field Engineers and expected to leave with the next contingent. Leslie Ede was a Woodstock boy, spending the summer season with friends at the beach. Both bodies were removed to the morgue. **Drowned in Rain Barrel.** Robert McKenzie Patience, eighteen-month-old son of Mr. and Mrs. John Patience, was drowned in a rain water barrel on Saturday morning in the back yard of Mr. Morion's residence, at 244 Cedar avenue, Oakwood. Mrs. Morton has been ill for some time, and shortly before noon Mrs. Patience, who lives at 250 Cedar avenue, called to assist her, leaving the little boy playing outside. When his mother came out, ten minutes later, she discovered the little tot hanging head down in the rain barrel. **Barrel Uncovered.** The barrel is about one foot above the level of the ground, and was almost full of rain water, the top being uncovered. Mr. Bailey, a neighbor, worked over the body for about half an hour, until the arrival of Drs. Tandy and Prentice, who brought a palanquin with them from the Toronto Electric Company's premises at Wychwood, but all their efforts were unavailing. Robert McKenzie was the only child of his parents, who are natives of Inverness, Scotland and have been in Canada four years. No inquest will be held.

RUSSIAN ARMY ADVANCES SLOWLY BUT STEADILY TOWARDS BERLIN; ALLIES ATTACK GERMAN FORCES

\$100,000,000 FOR BELGIUM

Canadian Press Despatch. LONDON, Aug. 23.—A despatch to the Havas Agency from Paris says that France and Great Britain have agreed to advance Belgium 500,000,000 francs (\$100,000,000) to enable her to face the necessities arising from the war. France and Great Britain will each provide one-half of this sum.

SERVIANS ROUT ARMY OF 200,000 AUSTRIANS

OFFICIAL COMMUNICATION SHOWS THAT SERVIAN VICTORY ON DRINA WAS COMPLETE—AUSTRIANS, AFTER GREAT LOSSES, FLED IN DISORDER—TWO COMMANDERS KILLED

Canadian Press Despatch. NISH, Serbia, Aug. 23, via London.—The following official communication was made public here today: "After the great Serbian victory the Austrians fled in complete disorder before the Serbian pursuit. "The 91st, the 102nd, the 110th and 28th Austrian regiments were completely routed. The commander-in-chief of the 21st division of Austrian infantry was killed, as was also the commander of the 28th regiment. "Seventeen Austrian river craft have been sunk by the Serbian artillery. "The details of the great battle of Aug. 20 are only now becoming known. The Austrian forces were composed of nine divisions and numbered nearly 200,000 men. The Serbians were much inferior in numbers, but showed greater heroism. Their handling of their artillery, their superior marching and endurance, their discipline and the accuracy of their fire insured them the victory. "During their flight the enemy committed atrocities in the Villages of Bobritsch, Bogossavatz and Aarehatz, slaying women and children."

PRINCESS PRESENTED COLORS TO REGIMENT

Inspiring Addresses Made by Duke of Connaught, Princess Patricia and Col. Farquhar, Commander of New Regiment—Ceremony at Ottawa Viewed by Ten Thousand Spectators.

Canadian Press Despatch. OTTAWA, Aug. 23.—Her Royal Highness Princess Patricia this morning presented camp colors to the Princess Patricia Canadian Light Infantry at church parade at the mobilization ground of the regiment, Lansdowne Park. A crowd of over ten thousand occupied the huge grand stand at the park, while the corps stood in front during the service and presentation ceremonies. His royal highness the governor-general was present and addressed the men as did the princess. "It affords me great pleasure," said his royal highness, "to be present and to think that the first parade of the battalion is a church parade." He said he hoped that his presence on parade and the fact that the name of his daughter was associated with the regiment would show the interest he took in it and would serve as an additional incentive, if incentive were needed, to put the battalion on its mettle. He knew that the words, "Duty, discipline and mercy," were strongly engrained in all British soldiers and the manner in which the battalion has been shaken together in little over a week showed that these principles were strongly marked in the Princess Patricia Infantry. In conclusion, he wished the battalion the best of luck, a distinguished career and a successful campaign. "I have great pleasure in presenting you with these colors, which I have worked myself," said H.R.H. Princess Patricia. "I hope it will be associated with the history of what I feel will be a distinguished corps. I shall follow the fortunes of you all with intense interest, and wish every man good luck and a safe return." **Colonel Farquhar's Appreciation.** On receiving the colors, Colonel Farquhar, the commander of the regiment, said: "In the name of every officer, non-commissioned officer and man, may I express the great gratification we feel at your royal highness's presence here. The fact that you should have attended the first parade of the battalion, and that you should have been accompanied by their Royal Highnesses the Duchess and Princess Patricia, gives us that touch of honest pride and confidence which does so much to make up the esprit de corps that your royal highness's presence here. The fact that you should have attended the first parade of the battalion, and that you should have been accompanied by their Royal Highnesses the Duchess and Princess Patricia, gives us that touch of honest pride and confidence which does so much to make up the esprit de corps that your royal highness's presence here. GERMANS CONTINUE TO PLANT MINES ON TRADE ROUTES

Belgian cavalry officer who took part in the battle said today at Ghent that the attack of the Germans on the wire entanglements leading to the fortress was a terrible sight, the butchery was so inhuman. German dead, he declared, were piled as high as a railway carriage. They came in the darkness, and when the foremost touched the wire, thru which a strong electric current ran, they shuddered convulsively and fell.

Every now and then the powerful searchlight of the fort was turned on the advancing soldiers, and the men leaped and staggered back as the light set them blinking. The next instant cannon and rifle fire strewn them in heaps.

BIG BATTLE IS NOW ON.

PARIS, Aug. 23.—(11 p.m.)—The following official announcement was issued tonight: "A great battle is now in progress along a vast line extending from Mons to the frontier of Luxembourg. Our troops, in conjunction with the British, have assumed everywhere the offensive. We are faced by almost the whole German army, both active and reserve. The ground, especially on our right, is thickly wooded and difficult. The battle is likely to last several days.

"The enormous extent of the front and the great number of forces involved makes it impossible to follow step by step the movements of each of our armies. We must await the result of the first phase of the combat before we can form any conclusion as to the situation. Otherwise, we should be giving to the press divergent and contradictory news, since such a battle naturally is made up of actions and reactions which follow and connect in a continuous manner."

"In Vosges the general situation determined us to withdraw our troops from Donon and the Saale Pass. Those points were no longer of any importance, since we occupied the fortified line, beginning at Grand Courmeur de Nancy. Lounville is occupied by the Germans, and at Namur the Germans are making great efforts against the forts which resisted energetically.

LIEGE FORTS STILL HOLD OUT.

"The forts at Liege still hold. Fort Chateaufontaine has been the scene of an act of heroism which affirms once more the brilliant valor of the Belgian army. The fort, which commands the railroad to Aix-la-Chapelle, Verviers and the tunnel to Chateaufontaine was subjected to a continual and extremely violent bombardment. When it was reduced to a mere heap of ruins, and Major Nameche, the commanding officer, judged that further resistance was impossible, he blocked up the tunnel by running several locomotives into each other and set fire to the fuses leading to the mines surrounding the fort.

"His mission then accomplished, Major Nameche, determined that the German flag should not fly even over the ruins of his fort, blew up the powder magazine and perished."

GERMANS FIGHTING AT CHARLEROI.

LONDON, Aug. 22.—A fierce battle is said to be raging in the vicinity of Charleroi, on the Sambre, between the French and German troops. It is reported the Germans have not yet invested Ghent.

STEAMERS STRIKE MINES.

LONDON, Aug. 22.—An official statement issued tonight, says that the steamship Maryland struck a mine in the North Sea on Friday night and foundered. The fate of her crew is uncertain.

The steamship Broburg, while searching for the crew of the Maryland, herself struck a mine on Saturday and also foundered. All the members of the crew, however, were saved with the exception of the second engineer.

The mines which the steamships Maryland and Broburg struck were undoubtedly placed in the North Sea by the Germans.

200,000 GERMANS NEAR NORTHERN FRANCE.

AMSTERDAM, Aug. 22.—Word has reached here that the German armies in Belgium are proceeding toward Lille, France, by way of Ninove, Alost and Hal.

Lille, which has a population of over 210,000, is an industrial town, and capital of the Department of Nord, in France. The German objective point in the advance thru Belgium has been Lille, but owing to the checking of the kaiser's troops by the valiant Belgian soldiers, it was thought that the German general staff would modify that plan. The news received here, however, shows that the Germans are determined to carry out their original intention of proceeding to Paris via Lille.

Two of the Belgian towns from which the Germans are proceeding, namely Alost and Ninove, are to the west of Brussels, the occupied Belgian capital. Alost is a little to the north. Hal is southwest, and all three places are about a dozen to fifteen miles distant from Brussels. The three Belgian towns and Lille taken together form an elongated triangle with the French town situated about fifty miles to the southwest, at the end. Alost and Hal form the two points of the base with Ninove in the middle.

The fact that the German advance on Lille is proceeding from the three Belgian towns indicates that it is in force.

DETAILS OF FIGHTING.

PARIS, Aug. 23.—Details of the fighting between the French and the German armies in the Vosges are contained in an official statement issued by the French War Office today. The statement says that the operations of the French troops were conducted in accordance with the government's orders, given at the time of mobilization.

The order was given that the troops were to remain in the protection zone about eight kilometres from the Alsatian frontier. This order proved of immediate advantage to the Germans, who promptly seized all the ridges and passes in the Vosges, which the French forces were obliged to recapture before any advance could be made into upper Alsace.

After desperate fighting, the French troops successively reoccupied Ballon, Alsace, Hobeck and Schlucht, but on approaching the central section of the Vosges they met with serious difficulties owing to steep slopes and the narrowness of the ridges.

STRONG FORTIFICATIONS.

The Germans, having established strong fortifications, with a plentiful supply of heavy artillery, the French army progressed towards what are known as the Saale Pass and Col Urbeis, where they placed heavy guns threatening the German flank. Severe fighting took place at this point, but the operations were so energetically conducted that several German fortified positions were taken. The French losses were considerable, but the artillery was found very necessary to make a passage thru Col Urbeis.

GERMAN DIRIGIBLE DESTROYED.

An official statement issued here says that French troops fired on a Zeppelin dirigible balloon, No. 8, at Badonviller, Meurthe-et-Moselle, bringing it down.

Badonviller is a small town not far from the boundary of German Lorraine, and not a great distance from Nancy, between which fortified city and Metz the Germans, on Aug. 11, were bombarding Pont-a-Mousson. Probably the German war balloon was doing scout duty, and had crossed the border to observe the French operations, when she was spied by French sentries armed with the new improved guns used especially to bring down balloons and other forms of air craft.

RUSSIAN VICTORY CONFIRMED.

ROME, Aug. 23.—The Russian embassy here this evening con-

MORE BRITISH TROOPS TO LAND ON NORTHWEST GERMAN COAST

Force of 150,000 Will Be Despatched to West Coast of Schleswig-Holstein, and Land Attack Made Under Protection of Guns of British Fleet.

Special to The Toronto World.

NEW YORK, August 23.—On the west coast of Schleswig-Holstein, the most northern of the German provinces, 150,000 British soldiers are to be thrown on the Germans, according to the belief held by officials at London on August 8, when a staff correspondent of the New York World left the British metropolis.

The concentration of the infantry and artillery forces at Harwich, England; Cromarty, Scotland, and the proximity of a squadron of the English navy to these ports indicated to the minds of the men watching the developments of the plans for the northern campaign against the German forces, the purpose of the British War Office to project one-half of the available force, estimated at 300,000 men, on this stretch of the German Empire, while the other half was co-operating with the French troops on the German frontier in the vicinity of Metz.

Point to Land Attack. The preparation for the mobilization of the land forces at Harwich and other eastern and northern points of England were interpreted as pointing to a land attack on Schleswig-Holstein under the guns of a division of the British fleet.

The rigidity of the government censors in England not only prevented the publication of the information as to these government plans, but rendered impossible the sending of it to foreign newspapers. But there was no denial of the information that came from the British war office that a blow was to be struck at Germany on the north while the Belgians and French were engaging the kaiser's forces in the Flemish country, and the combined French and English forces were hammering away at the central border between France and Germany.

Whether the Russians are to take part in this campaign from the other side, as was believed at London during the early preparations for the northern campaign, has yet to be revealed.

The conjunction of a part of the Russians with the expeditionary force of England would only be feasible after exposing it to the obstruction of the bulk of the German war fleet, generally believed to be lurking within the shelter of the Kiel Canal and within easy steaming distance of the lanes in the Baltic at the eastern end of the canal which the Russian transports

would have to traverse, to combine with the British troops in the assault on Schleswig-Holstein. There was reason to believe at London that at least two German army corps were deployed along the coast of the northern province to protect it from just such an assault by British troops as contemplated. It also was expected to take a hand in the efforts of the kaiser's land forces to resist the British invasion.

The point of attack was believed in England, would be between the Weser and the Rike on the north. Vulnerable points selected by the experts placed Frizen Island first, because of its value as a base of operations for the German fleet.

Two of the most important commercial ports of Germany would be exposed to a British attack from the lower field of operation—Bremen and Hamburg. Bremen is on hour's distance from Bremerhaven, its port of entry on the same railway distance from Cuxhaven, its port of entry on the Elbe, which gives the Kiel Canal its western outlet.

Between these points on the south, and Denmark on the north, there is a stretch of less than 300 English miles, with no geographical features of an obstructive character. The most important centres north of the Weser and up to Frizen Island, of the Weser and Blauport, any one of which might be singled out by the British war office as the target for attack. The island, however, seems to possess greater value of strategic importance than any of the others.

Russians to Take Part. There was no mistaking the confidence among British officials in London, in August, while the war plans of the empire were in process of development, that the Russians were to play an important part in the invasion of northern Germany—not only as to land forces, but in co-operation with the British fleet assigned to cover the disembarkation of infantry, cavalry and artillery thrown against the kaiser's plans of the Great Britain, but the participation of the Russians was admitted to present extremely hazardous risks, because of the alien land, water routes to be negotiated. But there was confidence in London that a plan for its accomplishment had been worked out.

THE HOUR OF NEED FOR SOME WHO HAVE SO BRAVELY SEEN THEIR SONS AND HUSBANDS GO FORTH TO EMPIRE DUTY MAY STRIKE AT ANY TIME. THE PATRIOTIC FUND, ORGANIZED THAT YOUR LOYALTY MAY TAKE EXPRESSION, WILL FORESTALL THE STRIKING OF THAT HOUR. THE GREAT MASS MEETING AT MASSEY HALL TONIGHT WILL GIVE IN DETAIL THE PURPOSE OF THE FUND, AND WHAT IS EXPECTED FROM THE CITIZENS IN THE CAMPAIGN TO RAISE IT.

confirmed the reported Russian victory at Gumbinnen, in east Prussia, where three German army corps were put to flight, the Germans retreating in great disorder. It was also stated that further resistance on the part of the Germans is impossible, as Russia is penetrating Germany with a force seven times greater than the Germans can put in the field.

The Russian force, it is said, plans to advance on Berlin by forced marches. TRIESTE TO BE OCCUPIED. The Gazette of Venice has published what purports to be a copy of a proclamation prepared at Malta by the British admiral, and addressed to the citizens of Trieste, in Austria, in anticipation of the occupation of their city.

The people of Trieste are assured that they will be saved from the rigors of war, and they are urged to resume their commerce by sea. While the authenticity of this proclamation has not been established, it is said to have made a very deep impression in Italy.

DARDANELLES REOPEN. Canadian Press Despatch. CONSTANTINOPLE, Aug. 22.—(Via Amsterdam and London) —The Porte has sent a circular telegram to the foreign diplomat representatives here, declaring that the Dardanelles are now open to all commercial vessels.

ANOTHER NAVAL ENGAGEMENT. ROME, Aug. 23.—(Via London).—The Avanti says today that there has been another naval engagement in the Adriatic, in which some Austrian ships were sunk. The same paper says that Greece has despatched troops to the aid of Serbia in her fight against Austria.

FOUGHT ON FIELD OF WATERLOO. BULLETIN.—ANTWERP, Aug. 23.—(Via Paris, 12.30 p.m.) —An English and a German cavalry brigade had a sharp fight Saturday on the battlefield of Waterloo.

FORMER BANK CLERK SENTENCED TO PRISON. Special to The Toronto World. NORTH BAY, Aug. 22.—At the police court today Magistrate Weegar sentenced James Guthrie, a former bank clerk, a recent arrival from Scotland, to four months in the Central Prison, for obtaining money under false pretences.

Only a few months ago he was being held \$700 on one of the local banks where he was employed. His parents in Scotland had to make good the amount. He will probably be deported.

R. M. C. COURSE CHANGES. Special to The Toronto World. KINGSTON, Aug. 22.—It is officially announced that the Royal Military College will be in session again this fall. A special army class is to be organized. The following military courses are to be held in abeyance: LONG COURSE, beginning November, 1914, and test examinations beginning in September.

PRINCE STILL AT DURAZZO. PARIS, Aug. 22.—(7.15 p.m.)—A despatch to the Havas Agency from Rome says the correspondent has learned from an authoritative source that the Prince of Wied has not left Durazzo, Albania, but that two of his sons have departed.

MINISTERS APPEAL FOR RELIEF MONEY

Toronto and York Patriotic Fund Receives Pulpit Endorsement.

HUGE MASS MEETING

Inaugural Assembly Tonight Will Be Addressed by Whitney and Rowell.

From 350 Toronto pulpits yesterday came an appeal for a generous support of the Toronto and York County Patriotic Fund. Ministers in all the churches and religious institutions before every congregation made a special point of urging that every purse-string should be loosened for the advancement of the cause of the wives and little ones left at home by volunteers. Archdeacon Oddy referred to the "grave duty placed before every one." All, he said, were fellow-sufferers, affected in one way or the other, but the first consideration was for the dependents of the brave fellows gone to the front. Business men who were undertaking such a generous scheme should have universal support.

Arrangements are completed for the mass meetings in Massey Hall tonight. The list of speakers has been revised, and those on the platform will be Sir James Whitney and Rev. H. Hearst, Archdeacon Oddy and Rev. J. Logan Goggin. A vocal concert will be given, in addition and massed bands will render martial airs.

CANADIANS SHOULD BUY HOME GOODS

Meeting of Women at Ottawa Urges That Industries Be Stimulated.

Canadian Press Despatch. OTTAWA, August 22.—At a time when the empire is straining every effort to defeat the common enemy, it is essential that each and every section of the community should stand together. Canada is sending her soldiers to the help of Great Britain, but less effective help can be rendered by keeping trade and industries prosperous thruout the Dominion.

By purchasing only commodities produced in Canada we should largely increase the output of our industries and provide employment for large numbers of workmen. To attain this desirable end, it is hoped that, in so far as possible housewives and others will buy products made in Canada."

This was the resolution passed at a meeting of leading Canadian women, held under the auspices of the Household League of Ottawa.

THOUSANDS JOIN IN PRAYER AT OTTAWA

Impressive Ceremony Marked Departure of Three Hundred Men for Camp.

Canadian Press Despatch. OTTAWA, Aug. 23.—Ottawa's quota of infantrymen for the overseas campaign was given a rousing send-off Saturday afternoon. Three hundred men of the D.C.O.R. and Governor-General's Foot Guards entrained for Valcartier, in the drill hall and when the men were assembling on Cartier Square, in the presence of a vast throng which joined in the words, "God bless our brave boys." Rev. A. F. Mackay, in the words of the Lord's Prayer, it was an impressive sight to witness the multitude silent and bareheaded.

His Royal Highness the Duke of Connaught, who had just prorogued parliament, hastened to the station to bid farewell to the local members of the contingent. He was accompanied by Sir Robert Borden, Hon. Sam Hughes and many members of parliament.

GERMAN WIN OPENS NEW PHASE IN WAR

If True, Washington Says It Means Operations South of Belgium.

Special to The Toronto World. WASHINGTON, Aug. 23.—If the meagre report, minus all convincing details, of the German victory between Metz and the Vosges Mountains, as received by the Franco-German frontier, in New York, is true, it probably means that a new and important phase of the war strategy has been opened. Thus far the chief interest has centred on the operations in Belgium, whereas this indicates extensive operations of the German forces south of Belgium, in the locality along the Franco-German frontier, between Metz and the Vosges ranges.

The War and a Revolution in Our Banking System

It will take the businessmen and the general public some time to grasp the revolution in our banking system that was brought about in three days last week in the special war session of parliament.

We have practically made Dominion notes—government money—and the Dominion coinage the basis of our currency system. Hitherto bank notes have been the basis, and while bank notes may continue in use, our prediction is that the Dominion notes will take their place.

Still more important, we have suddenly injected into our system of banking the principle of the government thru its fiscal agents rediscounting any approval securities or prime commercial paper presented by any bank, and giving in exchange therefor Dominion notes—this same government money. In one stroke we have got a national currency and lots of it, and we've got flexibility into it; under the new law there ought to be money enough for any emergency, and good money at that.

This new system is based on the credit of the nation and not on the resources of the banks. The banks, as a matter of fact, were utterly unable to meet the war conditions; they saw a risk in lending additional money, but mainly because they were afraid that the depositors might withdraw deposits, and that if they had ever lent the assets of the bank they would not be able to repay deposits. This dread of being called for deposits has been a nightmare on the Canadian banking system. When in times of panic or semi-panic our banks talked of making themselves strong in view of stress and storm, they were refusing all accommodation in order to be able to meet a demand for deposits. They were anxious about themselves; they said it was about the public! All that is now a thing of the past. If a bank finds depositors asking for their money it knows that it can go to the government and convert its securities, even its own bank notes, the commercial paper that it has discounted into this government money already mentioned, and these can be paid out as a discharge of the obligation to depositor or any one else!

Courage takes the place of dread on the part of the bank in times of stress. The same revolution will be effected in the United States within the next fortnight or so when the National Reserve Bank, established by congress, will be organized for rediscounting for the regular banks by means of an unlimited supply of government money (national notes) secured like ours by gold reserves.

While it has taken congress and the Wilson administration two years to get this change put into law, and organized, we did ours in three days. For this the Borden government and the minister of finance deserve every credit.

But do not run away with the idea that money will be easier for you to get; it will be easier for the bank to get it if it is willing to lend it to you! You will still have to show the bank that it is good banking to let you have the cash. But they can't plead any longer that they haven't got or can't get the money! They can get all that the business of the country requires. They do not now need to fear withdrawal of deposits. Instead of on depositors only, our banking facilities will have to draw on the credit of the country and of the national assets, as well as on the assets of the banks. The country has gone into partnership with our banks, and as senior partner!

How has this revolution been effected? You will be told there has been no revolution, or that if there is it doesn't mean much. We believe that among newspapers the World has had a leading share. It has been the only paper either to expound the new system of the States or to advocate a similar one here. As for the member for New York, he was treated as a faddist by many of his fellow-members when he tried to discuss these things during the time the Bank Act was under revision.

The ardent friends of the old system told him to go 'way back and sit down! And the wise owls of American bankers who were brought to Ottawa, to tell us all about it pretended they did not understand what the M. P. was driving at when he got to know a lot about it when they ran up against the banking committee of congress. Mr. Forgan, the great bank manager of Chicago, a former Canadian, told the Ottawa committee that the only relief was in getting more capital in bank shares. He had no use for a national currency. His handout was swallowed like candy by the Ottawa committee, but when he got into the big convention of the bankers of the United States, he, too, did a lot of sudden swallowing and held up two hands for more government money and for reserve banks with rediscounting power!

"The best banking system in the world," as our banks have been called, has been suddenly changed for a much better one, one that is still capable of improvement.

But we do commend our bank managers and directors for accepting the change, and the minister of finance for making it. Our banks have been good servants of the country in the past; they will be better ones now, now that they have got a strong senior partner with unlimited credit.

And if you desire further light on the topic you will, in another column, see a report of a speech made in the commons last Thursday by Mr. Maclean of South York.

GERMANS RESENTED GOLD SHIPMENT NOT NECESSARY

Burned Twenty Houses in Liege and Killed Many of the Inmates.

Special Direct Copyrighted Cable to The Toronto World. LONDON, August 23.—A News Agency despatch contains the following account of the present situation at Liege: "The firing of a shot from a private house on the Quai des Pêcheurs in Liege yesterday was the signal for the widespread bombardment by the Germans of ten other houses. As soon as the shot was fired the Germans opened up with their machine guns, destroying twenty houses and killing the inmates of ten other houses.

The Germans, in addition to levying a war tribute of 10,000,000 upon the province and city, have seized \$2,000,000 in cash in private banks. All citizens have been ordered to hand over their arms, and at the same time, the peasants had been invited to return to the country and begin harvesting.

"The lives of foreigners in Liege are in danger. There are a great many Dutchmen in the city, and the Dutch Government is taking measures for their protection."

GERMAN CAVALRY THREATENS DUTCH

Holland Gives Assurance That It Will Resist Invasion Vigorously.

AMSTERDAM, Aug. 22.—The Netherlands now believes that invasion by the Germans is a certainty. German cavalry in force have been sighted three miles from the Dutch frontier, near Eschen, which is 15 miles north of Antwerp.

The Dutch government has given fresh assurance to the British and French governments that it will defend its neutrality vigorously. This statement was called forth by the presence of large bodies of German troops on the Dutch frontier near Antwerp.

Powers Notified That State of War Exists Between Japan and Germany and German Ambassador at Tokio Handed His Passports.

BULLETIN---

Washington, Sunday, Aug. 23---Word was received at the Japanese embassy here this morning that the German ambassador at Tokio has been handed his passports and the powers had been notified that a state of war exists between Japan and Germany. Officials at Washington had been asked to notify Germany that Japan had declared war against that country.

U.S. MARINES AND BRITISH SAILORS WATCH GERMAN SHIP LEAVE HAVEN AT NEW YORK

Brandenburg, of North German Lloyd, Weighed Anchor Yesterday and Steered for the Open Sea, Flying the Flag of Germany—It is a Step Prompted by German Strategy.

Special to The Toronto World. PHILADELPHIA, Aug. 22.—The North German Lloyd liner Brandenburg, which was halted yesterday afternoon at the navy yard, lifted her anchor this morning and steamed down the river. She passed out of the breakwater at 8.30 o'clock tonight ostensibly bound for Bergen, Norway, with a full cargo of coal.

According to news dispatches from Lewes, Delaware, an unidentified cruiser has been lying eight miles off Cape Henlopen all the afternoon. The boardwalk at Rehoboth was crowded all afternoon by persons who were watching the movements of the cruiser. When the coal laden steamer anchored off the navy yard soon after leaving the Greenwich coal piers yesterday afternoon it was rumored that she had been held up by government officials, but this the officials denied. An officer of the steamship company today said that the vessel had been held up by the storm, and that it was decided to cast anchor to keep her from running aground. This action was taken at the direction of the pilot, the officer explained.

This morning a British tramp steamer was steaming down the river and passed the Brandenburg. The crews of the Brandenburg and the tramp steamer crowded against the rails and watched one another but no word was exchanged. The sailors aboard the Michigan and the Connecticut at the navy yard watched the tramp steamer pass the German boat.

Made No Sign. As the British steamer passed the Brandenburg the tramp dipped her colors three times, but the Brandenburg refused to answer the salute, and paid not the least attention to the British ship. The sailors on the battleship remained silent and watched the crew of the tramp turn their backs on the German boat and go about their work. The Germans remained by the rail and watched the tramp pass out of sight around the bend of the river.

It is said that five British cruisers are steaming under forced draught in an effort to intercept the Brandenburg should she attempt to run for it. Several naval officers here believe that the Branding is only a piece of strategy on the part of Germany to draw the cruisers of Great Britain into a trap.

Is it a Attempted Trap? "Germany has more vessels along the Atlantic coast than she has been given credit for," said one. "When the Brandenburg started loading coal the news was shouted from the house to house, and the Germans told everyone they were loading coal. Of course the British in this city know what was taking place."

"I believe that a number of German cruisers are stationed off the New Jersey coast, and that English cruisers are racing towards the breakwater to capture the Brandenburg. They will run into a hornet's nest and be surprised. There is a possibility that a naval fight will take place off the Atlantic coast, if this is true."

JAP CRUISER WILL LOOK FOR LEIPSIG

Leaves San Francisco Harbor Hurriedly, to Anticipate War Declaration.

MEXICAN SHIP IS HELD Mazatlan Avowed Her Intention of Carrying Coal to German Battleship.

Special to The Toronto World. SAN FRANCISCO, Cal., Aug. 22.—The detention of the steamship Mazatlan by orders of John O. Davis, collector of the port, who has refused her clearance papers because her cargo contained five hundred tons of sacked coal from J. Rothschild and Company, avowedly for the German cruiser Leipzig, to be transferred on the high seas, has passed from the jurisdiction of Davis to the treasury department at Washington. Davis this morning was advised by the assistant secretary of the treasury that the Mazatlan in the harbor until he receives orders to the contrary from the treasury office.

Admiral Pond was informed of the instructions from Washington, and extra precautions have been taken by him to see that the Mazatlan does not slip out of port under cover of darkness from the torpedo boat that has been detailed to watch the Mexican steamship. The two vessels lie close together in the harbor.

The Japanese cruiser Izuma left the harbor at noon today on rush orders, and before she had completed coaling. She steamed out of the Farallon Islands slowly and it is understood she will await the sailing of the Japanese liner Shinyo Maru from this port Monday to convey her on her way to Oriental ports until the Chyo Maru, another Japanese liner, is met. Then the Izuma, according to present plans, will convey her back to San Francisco. It is believed the Izuma got away from this harbor hurriedly before war between Japan and Germany may be declared, thereby preserving her right to coal in this neutral port again.

Has Warlike Intentions. Capt. Moriama before departing said to newspapermen: "I will prevent the Leipzig from leaving this harbor after we sight her. We will not go directly to Japan, but will remain not far from this coast, probably within a couple of hundred miles."

SAN FRANCISCO, Aug. 23.—A British cruiser is to be added to the monitoring of this port. The projected cruiser is expected to arrive off this harbor today.

The large cruiser reported to be coaling at Esquimalt is now definitely established as the Montcalm of the French fleet.

BRITISH RESERVISTS ORDERED TO REPORT

Twenty Thousand Men in New York and District Are Liable.

NEW YORK, Aug. 22.—England today summoned the total of her army reserves from all over the world. Official notice was received by the British consul-general here to hasten the departure of all British citizens liable to military duty within his district. The order will result in 20,000 men in and near New York City leaving for England at once to enlist under the royal standard.

When the war started the British ordered only the naval reservists to report. Up to today no great haste has been displayed in sending them home. When German stokers and seamen quit a British vessel their places were filled by the naval reservists. Few others were returned to England, and the majority of those who registered here after the call was issued are still here.

NO FRENCH LINERS LEFT AT NEW YORK

Germania, of Fabre Line, Cleared Last Night for Marseilles.

DOZEN GERMAN SHIPS Remain at Brooklyn Docks, Awaiting Destruction of British Fleet.

Special to The Toronto World. NEW YORK, Aug. 22.—Dozens of ships empty and sitting high in the water above the piers along the south Brooklyn waterfront, and groups of longshoremen loitering about in hope of work, testify to the effect of the European war on the shipping that puts into this port. The almost general idleness is broken only by a few ships floating the British flag or the flags of smaller European countries not involved in the war. It is the German and Austrian bottoms which make up the bulk of the empty vessels.

Not a French boat is left along the waterfront. The Fabre liner Germania got out last night for Marseilles and Mediterranean ports with six hundred passengers aboard her. She was heavily loaded with foodstuffs, and for five days had given constant work to one hundred longshoremen.

Half a dozen British ships, mostly tramp freighters showed activity, loading up for voyages to all parts of the world, relying on Great Britain's declaration that the seas were safe. A few Dutch, Danish, Swedish and Norwegian boats loaded also. A dozen ships of the Hamburg-American line, four flying the Austrian flag and two over which floated the Russian emblem, stuck to their piers, occupied only by their officers and crews.

DEADLY FRENCH ARTILLERY DEFEATED GERMANS IN SOUTH

Swiss Despatch Declares French Defeated Attempt by the Southern Army to Cut off Their Retreat at a Point North of Basle—Suffering of the Wounded.

The Toronto World. BERNE, Aug. 22.—Göbweiler, Alsace, twenty kilometres to northwest of Mulhausen, was taken by the French at the point of the bayonet on Aug. 20. My correspondent, just arrived from Basle, and from the field of battle, and says that eight battalions of the German 114th Regiment, numbering about 10,000 men, engaged the French army. The French artillery was deadly, and caused great ravages amongst the Germans, few officers escaping during the whole night. The wounded are being transported to the villages in the neighborhood, beyond reach of the artillery. All the buildings of Merens are filled with wounded.

Hundreds of horses are stretched on the field of battle. Those of the German artillery were killed, consequent upon the action of the German forces in leaving their artillery, of which about twenty guns are now in the hands of the French. The object of the German troops was to cut off the retreat of the French and force them towards the Swiss frontier, which they did not succeed in achieving.

The wounded received here state they passed a terrible night in the open without either water or succor, with the piling of the wounded horses ringing in their ears.

Mme. Caillaux Director Of Public Soup Kitchen

Special Direct Copyrighted Cable to The Toronto World. PARIS, Aug. 22.—Mme. Caillaux, who recently was acquitted of the murder of Calmette, editor of the Figaro, is at Marnes, in Normandy, directing a public soup kitchen, and organizing an ambulance corps.

Many American girls, changing to be in France, have offered their services as nurses, but most of them have been rejected, either because they were not robust enough or else were unable to contribute towards the expenses of their keep.

When the war broke out the French women all over the country seized the available positions.

All social amusements and games here have ceased. People are seeking distraction in Red Cross and similar work. Antoine Mercier, the famous French sculptor, and Harry Clews, the American artist have joined the French-American artists' relief committee. There was a lively, almost joyous scene here this morning in the great spaces fronting the Invalides, when between 4,000 and 4,500 foreign volunteers of all nations assembled to await medical inspection. Every corps had its own flag.

MILITARY EXPERT IS SHORT ON FACTS

Aims to Demolish Anti-German Feeling in United States.

SECRET WAR ALLIANCE Germany, He Says, Knew of Plot to Land Britishers on Continent.

Special to The Toronto World. NEW YORK, Aug. 22.—The Chamber of German-American Commerce issued a lengthy report today written by its military expert, and which dealt entirely with "the inside story of Belgian neutrality." The expert begins by declaring that he proposes to demolish the sympathy for Belgium and for England as her protector, by revealing "a few indisputable facts."

His first statement is that a "secret Anglo-Belgian-French agreement" exists, and that Germany knew of it, but he adduces not one proved fact to corroborate his statement.

His next statement is that England began the transportation of her expeditionary force to the continent in the night "between the 3rd and 4th of August," but only declared war against Germany the following night.

The German military expert adds: "The German Government is in possession of documents that were exchanged between the present commander of the British army, Gen. French, and the French secretary of war, in which all the details of a landing of an English army expedition on French and Belgian territory were discussed and settled. English transports were ready to sail."

STEAMER LOADING COAL FOR CRUISERS

Britain Calls Attention of U.S. to Situation at San Francisco.

WASHINGTON, Aug. 22.—Great Britain today brought to the attention of the United States the presence of the German steamer Mazatlan in San Francisco where she is taking on coal. The representations were made to Secretary of State Bryan by Colville Barclay, charge d'affaires of the British Embassy, who declared his government had reason to believe the German vessel was taking on the fuel for the purpose of transferring it to a German warship at sea.

The state department ordered that an inquiry into the matter be made. It was to be entirely independent of the investigation now being conducted by J. O. Davis, collector of the port of San Francisco, who has refused to give the Mazatlan her clearance papers until she has cleared up the ultimate destination of her cargo are dissipated.

The Mazatlan is said to have taken aboard approximately 500 tons of coal. It is the contention of the British Embassy that this is intended for the German cruiser Leipzig, which is believed to be lying off the coast of southern California waiting for the Mazatlan to come out with a fresh supply of fuel.

Not a Protest. Charge Barclay declared that his representations to the state department could not be dignified as a protest. He expressed his confidence that the matter would be adjusted swiftly now that the facts had been laid before the secretary of state. No information has been received by the Washington government relative to the holding of the steamer Mazatlan at San Francisco, supposed to have been loaded with coal for the German cruiser Leipzig, off the California coast. Secretary Daniels said the report that they had been advised that naval officers were holding the vessel was erroneous. When he heard the report that the vessel had been held he telegraphed to the naval station at San Francisco for a report.

DENMARK DECLARES ITS MORATORIUM

Parliament Decides on Three Months' Period for Suspension of Debts.

PARIS, Aug. 22.—Official telegrams from Denmark announce that the Danish parliament has voted a three months moratorium, covering all debts except civil law debts and coupons until Oct. 10.

No suit is possible for a debt contracted after Aug. 1 abroad or toward a foreigner.

FRANCE APPROVES LOAN TO BELGIUM

England Has Replied Nobly to Germany's Brutal Action, Says Temps.

Canadain Press Despatch. LONDON, Aug. 22, 2.12 a.m.—The Paris correspondent of the Reuters Telegram Co., in a despatch says: "A more than favorable impression has been produced here by the decision of the British Government to advance £10,000,000 sterling (\$50,000,000) to Belgium."

The Temps says: "England has replied nobly to Germany's brutal action in exacting a levy on the City of Brussels and the Province of Liege. One more bond thus uplites in close collaboration the armistice arrayed against the welfare of all. England adds her gold."

SUFFOLK MADE USE OF RIGHT OF SEARCH

Was Not Content That Anglo-American Oil Steamer Flew British Flag.

Canadain Press Despatch. NEW YORK, Aug. 22.—While on her trial trip 15 miles off the Jersey coast, to test new oil-burning engines, the Anglo-American Oil Company's tank steamer Narragansett was forced to lay to by the British cruiser Suffolk. The oil steamer had fired four shots across her bow. When the cruiser appeared the captain of the tank steamer had the British flag run up to the masthead and in order to prevent it from falling into the hands of the Germans, destroyed it. He then calmly walked to the frontier and reported upon arriving safely on the Russian side that the German inhabitants of the border region were surprised at the flight of his machine and his own presence but, strange to say, were most friendly to him.

A Russian aviator, who was making a reconnaissance over German territory was compelled, owing to the development of defects in his aeroplane, to descend. He was unable to repair the flying machine and in order to prevent it from falling into the hands of the Germans, destroyed it. He then calmly walked to the frontier and reported upon arriving safely on the Russian side that the German inhabitants of the border region were surprised at the flight of his machine and his own presence but, strange to say, were most friendly to him.

RUSSIANS ADVANCE INTO GERMANY

Kaiser's Troops Opposed, But Lost Two Guns in Attempt.

ST. PETERSBURG, Aug. 22.—(Central News Cable) Announcement is made here that the Russian troops are advancing into Germany on a twenty mile front. Fourteen German infantry regiments with several batteries of artillery were forced to oppose them, but the attempt was vain. The Russian forces were driven back and the Kaiser's forces succeeded in capturing two of the enemy's guns.

A Russian aviator, who was making a reconnaissance over German territory was compelled, owing to the development of defects in his aeroplane, to descend. He was unable to repair the flying machine and in order to prevent it from falling into the hands of the Germans, destroyed it. He then calmly walked to the frontier and reported upon arriving safely on the Russian side that the German inhabitants of the border region were surprised at the flight of his machine and his own presence but, strange to say, were most friendly to him.

WILSON NOT EAGER TO PURCHASE SHIPS

President Would Prefer to Have Private Capital Undertake Risk.

WASHINGTON, Aug. 22.—That the bill providing for the purchase by the government of a fleet of ships to transport American products abroad will be held up temporarily, to permit time for private capital to undertake the business if it will, was the general understanding after a White House conference this afternoon, at which the president, Senator Clark, Arkansas, and Representative Alexander went over the whole situation.

Even after the bill is introduced should it be found necessary that the failure of private capital to appear, it will be advanced slowly. If at any stage of the proceedings it is seen that anything like an adequate amount of capital can be obtained, the bill will be abandoned altogether.

A Necessary Measure. President Wilson it was said, had been convinced that the measure was absolutely necessary, and that unless the government itself should buy a fleet of ships and enter the business American farmers and manufacturers would find it impossible to move their products abroad. It has been represented to him, it was said to-night, that perhaps, if this bill were held off for a few days, there would develop that there would be plenty of private capital which would undertake the business, but that would be frightened away by the news that the British government with the government should appear.

Prefers Private Capital. It was to this argument the president was said to have yielded, as he is said to be much more desirous of enlisting private capital in the work of building up an American merchant marine than to put the government into the business.

While this is the attitude of the United States that has been agreed upon for the present at least, despatches from London tonight brought the news that the British government is taking an active interest in the plans of merchants of that country to wrest from Germany a large part of her world wide trade.

CRUISER OUTRACED BY PASSENGER STEAMER

United States Vessel Panama Carried Forty German Reservists When Sighted.

NEW YORK, Aug. 22.—The Panama railroad steamer Panama, in today from Cristobal with 194 passengers, forty of whom were German reservists, was sighted by the British cruiser, which was chased by a cruiser, which the captain thought was British, that she flies the United States flag. The speed of the Panama was increased, and she out-distanced the war vessel.

NEW YORK TRANSPORTS ARE TO BRING HOME AMERICANS

PARIS, Aug. 22.—Frank A. Munsey remains in Caribbea to conduct the American relief fund.

The American government in reply to a request by Mr. Herrick, the American ambassador, says it expects to send two transports from New York to carry home American refugees.

CZAR AND CZARINA SHOW THEMSELVES TO PEOPLE

Moscow Public Acted as Their Guard on Visit to Hospitals.

PARIS, Aug. 22.—An official telegram from Moscow says the czar and czarina went today accompanied by a few persons of their suite. The public itself acted as their protection and guard that good order would be preserved.

The czar and czarina, in order to show their absolute confidence in the people, visited the chief military hospitals, which have been organized in Moscow.

FRANCE APPROVES LOAN TO BELGIUM

England Has Replied Nobly to Germany's Brutal Action, Says Temps.

Canadain Press Despatch. LONDON, Aug. 22, 2.12 a.m.—The Paris correspondent of the Reuters Telegram Co., in a despatch says: "A more than favorable impression has been produced here by the decision of the British Government to advance £10,000,000 sterling (\$50,000,000) to Belgium."

ANOTHER BATTERY WAS CAPTURED BY SERVIANS

Austrians Fell Back Before Right Wing of Aggressive Opponents.

Special to The Toronto World. LONDON, Aug. 22.—(9.15 p.m.) The correspondent of The Morning Post writes from Nish today: Servians in the region of Drina went in pursuit of enemy's left wing and captured another battery of 6 guns, the enemy falling back before the Serbian right wing. An Austrian attack on Serbian left wing was repulsed, the enemy retiring under a murderous Serbian artillery fire. Near Staro Moldava Serbian artillery destroyed an Austrian naval depot, five Austrian ships and two landing piers.

JAPAN'S ARMY AND NAVY OFF TO BOMBARD PORT

Special Direct Copyrighted Cable to The Toronto World.

SHANGHAI, Aug. 23.—The tenth division of the Japanese army, numbering 16,000 men, is about to depart and the Japanese fleet, which includes the super-dreadnought Kongow, has sailed to bombard Taingtau, the seaport of Kiaochau, and to cover the landing of Japanese troops, according to a report received by an official, but not a Japanese source.

Patrol duty between Corea and the island of Formosa is being done by the Japanese second cruiser squadron from Port Arthur.

DUNNING'S

ROYAL, Hamilton

A BEYER BANKING SYSTEM FOR CANADA

Based on National Currency Instead of Bank Notes, and on the Principle of Redcounting by a Great State Bank Using This National Currency—Stop Watered Stock and Call Loans.

OTTAWA, August 20.—In the debate in the house of commons today on the budget statement of Hon. W. P. White, minister of finance, proposed certain changes in the tariff in order to meet the extraordinary conditions arising out of the war. On the order paper at the same time there were other resolutions in his name authorizing (1) an increase in the issue of Dominion notes for purposes of the government, (2) an exchange as against securities issued by banks, (3) for suspending gold payments, (4) for increasing the issue of bank notes, (5) for providing \$50,000,000 for war purposes. All these resolutions carried and received the hearty assent of the house.

Mr. W. F. Maclean (South York) made Mr. Speaker, I trust the house will bear with me for a few moments while I address myself to the question raised in these proposals and in the statements made by the minister of finance. The proposals of the minister to raise the revenue sufficient for the engagements of this country and to carry on our share of the war meet with my approval, will meet with the approval of the Canadian people. We must do our share in maintaining the honor of the empire and we shall do it both in the way of money and in the way of sending our contingents to the scene of warfare. That sentiment was well expressed yesterday on both sides of the house, but while we have to raise money to meet the ordinary expenditure of this country and for war purposes, and because of the same extraordinary conditions which have arisen, we must also do something in order to carry on the ordinary business of this country. We must do something for the empire, but we must do something also for Canada.

We must help Business. The minister in his speech referred to the fact that business was more or less dislocated by this great war which has sprung up in Europe and in which we are a party. We must, however, carry on the business of the country; we must keep our industries and manufactures going; we must find employment for our people. While this is a war measure and dealing with sources of income for the Dominion, we must find some way—and a budget must deal with the general situation in the country—to increase the currency and the credit resources of this country for the benefit of trade.

More Government Money. The present Dominion note issue is thirty million dollars with a gold reserve of 25 per cent. The minister proposes to increase that issue to fifty million. I am not sure that that will be sufficient. While it may be sufficient for the ordinary commitments of the country and the war expenditure, is there in it any provision for increasing the general employment of our people? The industries of this country? The government ought to ask for power to increase the issue of Dominion notes to at least one hundred million dollars and, if necessary, keep the gold reserve at 25 per cent. In order to secure gold notes, we must maintain the reserve at 25 per cent. We might have to issue bonds. Perhaps in time of war it might be necessary to have a 25 per cent. gold reserve; a 15 per cent. gold reserve would not meet the circumstances. I am not going into the details of that; but it is absolutely necessary that the issue of Dominion notes should be greatly increased over the amount proposed by the minister, and the necessary gold reserve can be secured to maintain that currency in the best possible shape.

Redcounting for Banks. The minister has also made the proposal to issue Dominion notes to any amount for the purposes of the general business purposes. In connection with the currency of Canada I have advocated in this house on previous occasions that we ought to have a system of redcounting in this country which now exists in the United States, and for which there is now organized a system of reserve banks scattered throughout the United States. In that proposal there is the central idea that the United States are not going hereafter to look to the banks for the currency and the credit of the business community; they intend to make the currency rest upon the credit of the country; and they intend to make the currency rest upon the credit of the country by way of national notes secured by gold reserve, and also by increasing the available money of the country by establishing reserve banks or banks of redcount which will be redcount for the banks by use of national notes, commercial paper, and other securities that may be offered to the banks.

Call Loans on Stocks. In Canada the commitments that we have and confronted as we are with this great war, not only must we have means of increasing the resources of the government for war and for ordinary business purposes, but we must have means to supply the country with sufficient currency to carry on business. It might be said that our banks can do this. Can they? Is the government today in the face of this war, able to go to the banks of this country for assistance? Our banks today have of total available assets one thousand five hundred million dollars. Yet apparently the minister of finance says today that he sees no prospect of getting money from the banks for the special requirements to which he has referred, and that he must go to a borrower outside of the country. That is probably the right course to pursue; but does this house and this country know that of that one thousand five hundred million dollars, \$123,000,000 is used up by call loans outside of Canada and \$67,000,000

TEUTONS CLAIMED GREAT SUCCESSES

Report by Wireless Repulse of French in Lorraine and Belgium.

NEW YORK, Aug. 23.—A British military writer, interviewed here by a representative of the Central News, said the report that the German army of the Meuse has occupied Ghent and is marching on Ostend gives rise to the belief in many English minds that the Kaiser has determined to make a desperate and spectacular attempt to invade England.

EIGHT GUNS CAPTURED

Army of Crown Prince Advances on Both Sides of Longwy.

WASHINGTON, Aug. 23.—First messages received at the embassy here from the Berlin foreign office via the wireless station at Saville, Long Island, told of German victories.

DRIVE THE GERMANS FROM BELGIAN SOIL

French Resolved to Free Territory, According to Official Declaration.

PARIS, August 22.—The following official communication was made public today:

"Despite the entry of the Germans into Brussels, France is resolved to free the territory of its ally and she will not consider the task accomplished until every German soldier has been driven from Belgian soil."

JAPS TO OCCUPY SOUTH MANCHURIA

Pekin Despatch Says Large Numbers Are Arriving on Chinese Soil.

PEKIN, Aug. 23.—Having decided on war, the Japanese Government is preparing to extend hostilities over China eastward of the Yellow River. At noon today all Germans were placed under surveillance and already some are being deported to Mukden, Changchun and Dainy. The Germans at Mukden, and other Germans at Manchuria have been ordered to leave or to be deported while large numbers of Japanese are being sent to Manchuria with the object of seizing the German railway at Shantung immediately after hostilities are opened. The Chinese express the belief that the Japs intend to occupy southern Manchuria.

WOMEN PATRIOTS HAVE COMPLETED ORGANIZATION

Opportunity Open Now for Toronto Women to Work Toward War Relief.

A prolonged meeting of the executive committee of the Toronto Women's Patriotic League, held at the city hall Saturday, completed its work of organization. Departments covering every phase of the league's work were arranged, so that any woman in Toronto who wishes to do anything to relieve the suffering caused by war conditions will be able to find scope for her energy. The names of these departments and their convenors will be published shortly, as well as a list of the women who compose the central committee. The meeting passed a resolution calling upon the mayor to give official sanction to all the patriotic funds being collected in the city.

BUST OF KAISER HURLED INTO LAKE

Mayor of Berlin, Ont., Orders Extra Police Patrol For Park.

BERLIN, Ont., Aug. 23.—Early this morning persons unknown tore the bust of Kaiser Wilhelm I from the monument in Victoria Park which was erected seventeen years ago, and threw it into the lake, badly damaged. Three young men were seen at a late hour last night hovering around the bridge in the park.

GERMAN MINES DESTROY STEAMERS

Two Dutch Ships Blown From Swedish Ports Blown Up in Gulf of Finland.

LONDON, Aug. 22.—(Central News Cable). The British Admiralty makes public a report that two Dutch steamers, clearing from Swedish ports, were blown up yesterday by German mines in the Gulf of Finland. It is known that Britain thus far, has laid no mines during the present war, but the Germans continue to indiscriminately scatter mines in direct contradiction of the Hague convention.

RUMOR DROWNING DUE TO FOUL PLAY

Ottawa Police Investigate Death of Major Campbell—Father in Toronto.

OTTAWA, Aug. 23.—The police are investigating rumors of foul play in connection with the death of Major A. R. Campbell of Saskatoon, whose body was found in the Rideau Canal at the exhibition grounds Saturday morning. An inquest was opened Saturday night and adjourned until Monday night.

FRANCHISE IS REFUSED TO SWEDISH WOMEN

Canadian Press Despatch.

STOCKHOLM, Sweden, Aug. 23.—The woman's suffrage bill was rejected by parliament last night. The bill has been supported by the Liberals and Socialists. The vote on it was favorable in the second chamber, but adverse in the first.

BRITISH AND FRENCH ALLIES FACE ALMOST THE ENTIRE GERMAN ARMY

POPE'S ENCOMBRED FUNERAL SEEN BY THOUSANDS

Impressive Ceremony Took Place at Sunset—Cortege Marched to Low-Roofed Crypt Where Remains of Pontiff's Predecessors Lie Buried.

Canadian Press Despatch. ROME, August 22.—The entombment of the late Pope Pius X. took place this evening at sunset. The great basilica of St. Peter's was in semi-darkness. A flickering light came from the perpetually burning tapers about the shrine of the apostles, and the candles in the chapel where the catafalque stood.

Those who witnessed the ceremony, numbering about 1000, came by special invitation and included the diplomatic representatives accredited to the Holy See, the prelates and members of the Roman aristocracy.

The procession formed in the chapel of the Blessed Sacrament, where for hours the body of Pius X. lay in state. The catafalque was surmounted by the triple crown, and the body of the Pope was clad in the pontifical robes and surrounded by the emblems of his sacred office. During the course of the day many thousands of persons passed by the bier.

Solemn Procession.

This evening the bier was removed and placed on a lower platform with wheels. At the gates of the chapel the arch priest of the diocese in violet robes and surrounded by the chapter, joined the procession. First came a jeweled cross held aloft, then the cardinals and high prelates, each carrying a candle. In the centre of the procession was the bier, the cortege passing amid the kneeling crowd, while thru the vast and silent church was heard the Miserere, sung by the Sistine choir.

The solemn cortege marched into the crypt where the body of Pius X. will have its final resting place. Here the roof is very low, and the Miserere had a peculiarly weird and melancholy effect. The tomb of the late pontiff is on the right at the entrance to the subterranean chapel, close to that of several other popes. At this place several ancient marble tables were removed to make room for the tomb of Pius, which, while partly within the wall, also projects into the passage.

Cypress Wood Casket.

The body of the pontiff lies in a cypress wood coffin, on which rests a gold cross. This is encased in zinc and finally in an oak casket. On the casket lies the body of Pius X., born June 2, 1835; died August 20, 1914.

The coffin was placed within the tomb while Cardinal Della Volpe recited prayers for the dead, accompanied by all present kneeling.

A monument to Pius X. will be erected in the crypt.

"Fear Not! Ye Women and Children"

Let every man of us cry this from the very housetops to the mothers, sisters, wives and children of the soldiers we are sending to the front. Well may we spring to the care of these dependents. Well may every instinct within us thrill to this call for contributions.

Mass Meeting Massey Hall To-night 8.15

GIVE! GIVE! GIVE! \$500,000 IN FOUR DAYS

Mass Meeting Massey Hall To-night 8.15

SHALL our women and innocent children, who give their protectors for the cause of Britain and humanity, find any lack of British chivalry and British humanity here at home? A thousand times, "NO"! Every soldier who goes to the front leaves his women and children as a sacred trust with his fellow citizens and no Canadian will disregard his personal obligation.

Tuesday, Wednesday, Thursday, Friday

are the days when a personal canvass of the city will be made by 25 teams of workers under leading citizens. It is not given to us all to go to war. It is not given to us all to work for this fund. But it is the privilege of everyone to meet the call upon him for money in the name of these dependent women and children.

Tuesday morning this work begins and for four days these men, 250 in all, will give their entire time to the canvass.

The organization for handling this fund has been carefully perfected. It will be expended under a most thorough system. Every case will be investigated and overlapping will be avoided.

GIVE! GIVE! GIVE! TO THE WAR RELIEF FUND

KEEP HEART DESPITE REVERSES RIGHT WILL PREVAIL AT LAST

Conservatives and Liberals Join in Declaration of Unswerving Patriotism at Pro rogation of Short Parliament—Every Man a True Volunteer, Hughes' Boast.

By a Staff Reporter. OTTAWA, Aug. 22.—His Majesty the Governor-General prorogued parliament this afternoon in a brief speech in which he commended the legislation which had been so promptly passed and expressed his hope that a favorable and honorable issue would be found for the war in which the empire was now engaged.

The house had an hour's wait this afternoon before being summoned by the gentleman usher of the black rod to the senate chamber, and some excellent speeches were delivered by members of both parties. Dr. Clark, the Liberal member for Red Deer, commended the measures which had been taken by the government in the present crisis as energetic, wise and effective. He submitted that the position of the Liberal party at this time was of the most patriotic character. This had been appreciated by the government and the prime minister had striven to show his appreciation in every way. Dr. Clark hoped that more contingents would be sent from Canada if they were needed. We were engaged in a righteous war and there should be no let up.

Col. Sam Hughes in thanking Dr. Clark for his references to the government referred to the fact that the member for Red Deer had a son in the first contingent. The minister was glad to say that every man going to the front was in the true sense of the word a volunteer. 100,000 men had offered to go but only 20,000 could be sent at this time.

Jump on the Train.

"The patriotic boys," he added, "will not be refused, if left behind at the recruiting station they jump on the trains."

There were already, he continued, five thousand men at Valcartier and that number would be doubled tomorrow. Sir Robert Borden took occasion to refer in the most complimentary terms to the leader and members of the opposition. They had co-operated most loyally with the government. The prime minister praised the courage, energy and fortitude of the Belgians and expressed his confidence that the Canadian troops would give as good an account of themselves on the firing line.

A Privilege to Make War.

Hon. George E. Foster made a touching reference to the recent death of his son, Perry. "If Providence had dealt with me differently he said, 'I would today have a representative in the Canadian contingent.' (Applause). Mr. Graham went on to say that Canada was doing her part in this war not as a matter of duty, because she regarded it as a privilege to stand shoulder to shoulder with the rest of the British Empire. Irish, French, Canadians were all today Britishers and all party differences were forgotten.

Sir George E. Foster said that one could not but be impressed with the solemnity of the present hour. We were a nation of different races and languages, but never had we been one as we are today. The generous feeling so often concealed under party strife and racial feuds had today burst these ignoble bonds and all littleness, all meanness, all selfishness was forgotten. This session of parliament had vindicated the public life and the parliamentary life of Canada. (Applause). God and the Right.

"What is before us, no one can tell. The right does not always triumph in a single battle or in a single campaign. There is more to war than the first march out, and the blare of the trumpets and the waving of the flag. Do not lose courage with a reverse or with a series of reverses, for we will may believe that in the end God and the right will prevail."

Sir George in closing referred eloquently to the fact that several members of parliament were leaving today for the front. They were going out not only to fight for the British Empire but to fight for the maintenance and the triumph of freedom and democracy throughout the world.

The Prorogation.

The speaker from the throne proroguing parliament was as follows: "Honorable gentlemen of the Senate,

DEATH AND HAVOC CAUSED BY STORM

Lineman Killed While Repairing Wire—Great Damage to Fruit Crop.

Special to The Toronto World. ST. CATHARINES, Aug. 23.—Considerable damage was done to the fruit crop in Niagara district this afternoon by a southwest wind, which blew down great quantities of half-ripe, unmarketable fruit. The loss will be quite heavy, and will be felt more severely on account of the fact that there is no peach crop this season worth mentioning.

At Niagara-on-the-lake the power house of the Niagara St. Catharines and Toronto Railway was put out of commission by lightning and one car on the line was also burned out. The company expects to have the damage repaired by tomorrow.

In St. Catharines a line of the Lincoln Light and Power Company on Queenston street was blown down, and early this evening Roy Farnell, lineman, whose home is in St. Catharines, was killed while repairing the break. Although working with rubber gloves, his elbow came in contact with another line. His belt kept the body from falling, and fellow-workmen on a pole across the street pulled the wire away from him. Farnell was 27 years of age and married.

BELLEVILLE HONORED DEPARTING SOLDIERS

Fifty-Six Men Left for Valcartier on Saturday.

day afternoon 56 volunteers of the 15th Regiment of this city, in command of Capt. E. D. O'Leary and Lieut. R. D. Ponton, left here for Valcartier. The men were, before leaving the armories, presented with gifts of gold from the city council, the board of education and officers of the regiment. Mayor Willis, Col. Marsh, commanding officer of the regiment; Col. Ponton and Rev. Canon Beamish, chaplain, spoke briefly and feelingly.

The men were escorted to the G. T. R. station by the regimental and Killies Band and members of the 34th Battery, who are here awaiting marching orders. Thousands of citizens lined the walks to the station and cheered. It was a memorable occasion in the city's history.

Four of the volunteers were in active service in South Africa, and one in active service in India.

O. B. M. Lang, a graduate of the school of science, telegraphed to say that he will come to Toronto to re-salut, with the engineers.

DROWNING TO FOUL PLAY

Police Investigate Major Campbell in Toronto.

Despatch. Aug. 23.—The police are rumors of foul play in the death of Major A. S. Campbell, whose body the Rideau Canal at the end Saturday morning. The body was opened Saturday night until Monday night. The 105th Saskatchewan had come to Ottawa broke out to enlist, but attached to any corps. His father, Col. Campbell, in his 30th year, is survived by a telegram from her that she is proud.

IS REFUSED SWEDISH WOMEN

Despatch. M. Sweden, Aug. 23.—A suffrage bill was rejected last night. It has been supported by the socialist parties. The bill is favorable in the second adverse in the first.

TEKUMS, Aug. 22.—The 15th and 16th regiments of the British and Canadian forces are making a total of fifteen regiments. The 15th is being retrained for foreign service, requiring more than \$4,500,000.

Beavers Win Saturday and Sunday at Newark

OUR BOYS IN BLUE BEAT NATIONALS

Being Frenchmen's Only Defeat in Fifteen Games — Irish Beat Indians.

Toronto defeated Nationals Saturday at the beach before a small crowd by 15 to 7, which was the only defeat of the year for the Frenchmen. The Irish railway team led through 5 to 3 at the end of the first quarter, 9 to 3 at half-time, and 19 to 6 in the third quarter. The game was well played and rough at times. It was in the third quarter after Nationals made three in a row that Gauthier struck Harrison over the head when the latter's back was turned. The police interfered, but Gauthier, pretending to be injured, was carried off the field. Lalonde swung a heavy stick and took a rest. Toronto was strongly in the lead when Warwick, flashing in front of L'Heureux, took a pass from Longfellow and slipped it into the hands of the Nationals.

Irish-Canadians Win Tecumsehs in Last Place

MONTREAL, Aug. 23.—By defeating Tecumsehs 6 to 5 in a game which lacrosse Saturday afternoon the Irish-Canadians moved up out of the cellar position of the league for the first time this season. The Indians now occupied last place. Charlie Gorrin had injured his leg the previous week and did not get into the game till the third quarter. Charlie Gorrin, who substituted for different members of the team, made his work count well on the field and tallied half the winners' goals. Ronnyree slanted Fred Scott's kick in the second period and the latter retaliated, with the result that the Tecumsehs man was given a ten minutes' rest and Scott was the best player.

Table with 2 columns: Rank, Team Name, Points. Lists top 11 teams including Tecumsehs, Irish-Canadians, and Rosedale.

Rosedale in Listless Game Beat M.A.A.A.

MONTREAL, Aug. 23.—Rosedale added another victory to their long list when they defeated M.A.A.A. by a score of 6 to 5 on the Westmount grounds Saturday afternoon. Their team play, which is the feature of their attack, was the outstanding feature of the contest. As an exhibition the game was rather listless for the first two periods, the blue team having all the play in their favor. In the second period a first fight between Brady and Britnell invigorated matters. The teams lined-up: Rosedale (5): Goal, Holmes; point, Harshaw; cover, Yentore; defence, 2: Green; outside, Murton; inside, Burnett. M.A.A.A. (6): Goal, Tobin; point, Brady; cover, Currie; defence, Keena, Blake, Rafferty; centre, Collin; outside, Frou, McIntyre, McDonald; outside, Walsh; inside, Butler. Referee: Eddie Robinson. Judge of play: Jim Kavanagh.
