Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

The copy filmed here has been reproduced thanks to the generosity of:

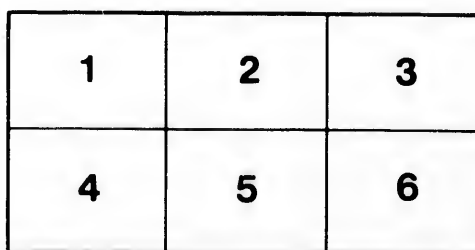

Library Division
Provincial Archives of British Columbia

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shell contain the symbol → (meaning "CONTINUED"), or the symbol ▼ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

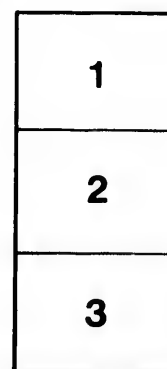

Library Division
Provincial Archives of British Columbia

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▼ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

British Columbia.

GEOGRAPHICAL POSITION AND EXTENT.

ETC., The western portion of British North America, known as British Columbia, extends from the shores of the Pacific Ocean on the west to the Rocky Mountains on the east. Its southern boundary is the 49th parallel and its northern the 60th degree of north latitude.

Included within its limits are the large island of Vancouver, over 200 miles in length, and with an average breadth of 50 miles, the Queen Charlotte group, and some thousands of islands adjacent thereto, a great number of which are well adapted for settlement.

The area of British Columbia, as estimated by the Dominion Minister of the Interior, is 390,344 square miles, containing nearly 250 millions of acres.

British Columbia is three times as large as Great Britain and Ireland; is greater than California, Oregon and Washington Territory, combined, or than the provinces of Ontario, New Brunswick, Nova Scotia, Prince Edward Island and Manitoba collectively.

CLIMATE.

British Columbia is favored with a climate superior to that of any other portion of the Dominion of Canada. Indeed, it is as superior on the continent of America. As might naturally be expected, over so vast a country the climate varies greatly. On Vancouver, Queen Charlotte and adjacent islands and on the coast of the mainland, the mean winter temperature is about 42 degrees, and that of summer a little over 60 degrees Fahrenheit.

Observations taken by the Dominion Government at Fort Simpson, in latitude 54, show a summer temperature approximating closely to that of San Francisco, California, and a winter temperature higher than that of portions of Oregon.

The remarkable mildness of climate, over 350 miles north of the city of Victoria, the capital of British Columbia, is attributed to the warm Japanese current which strikes the Queen Charlotte Islands and flows southerly along the shore of Vancouver Island.

The annual rainfall of the islands and of the coast of the mainland varies from 45 to 60 inches, according to locality.

The southern interior, like that of California and Oregon, is dryer, and has greater extremes of temperature than the coast and islands, which are subject to ocean influences. The mean heat of summer is about 75 degrees and that of winter 26 degrees. In portions of this section the rainfall can be relied upon as ample for agricultural purposes, while in other portions irrigation is, in some years, necessary to secure abundant crops. As the country is bountifully supplied with streams and lakes, facilities for irrigation are abundant and great. The central interior possesses a climate which has been described by Professor Macoun, of the Dominion Geological Survey, as similar to that of North Georgia. Owing to a generous rainfall, the growth of grass in this section is wonderfully luxuriant, affording, over hundreds of miles, opportunities to stockraisers superior to those of the celebrated bunch grass region, further south.

The northern interior, owing to its high latitude, has long summer days and a winter extending from November to April. Its climate resembles that of Manitoba and the Northwest Territories.

The greatest extremes of temperature experienced in British Columbia are met with in some of the gold mining districts situated in mountain ranges, having an altitude of 4,000 to 5,000 feet above sea level. During what are known as cold snaps, which occur occasionally every winter, miners are reminded of Minnesota and Manitoba. These Arctic visitors, however, rarely remain more than a few days.

RESOURCES.

No other province of the Dominion of Canada possesses so many and so varied resources as British Columbia.

GO TO J. B. FERGUSON & CO.'S

Space will not permit us to more than briefly refer to the most important of them, which are agriculture, minerals, fish, furs, oils, coal and timber.

AGRICULTURE.

The most inviting field for agriculturists on the Pacific coast at the present time is British Columbia. The country is remarkably healthy; fever and ague are unknown in it. The land is not subject to floods or drouths. Crops are certain and abundant, and are free from grasshoppers, potato bugs and the thousand and one insect pests which are the curse of agriculturists in the Eastern and Western States and Canada. Owing to the great extent of country open to settlers land is remarkable cheap and can be purchased from the Government in almost any district at the nominal price of one dollar per acre.

For the purpose of encouraging settlement there is a protective duty imposed on animals and agricultural products entering this Province from the neighboring States and Territories.

On animals, the duty is 20 per cent; on butter, 4 cents per pound; on cheese, 3 cents per pound; on oats, barley and potatoes, 10 cents per bushel; on wheat, 15 cents per bushel; in hay, 20 per cent., and on other things in proportion.

As the consumption within the Province is far in excess of the local production, British Columbian farmers enjoy a protection equivalent to from \$5 to \$7.50 per acre, or \$800 to \$1200 per year on a farm of 160 acres under cultivation.

Unlike countries exclusively agricultural, where farm products have to be exported to foreign countries and sold at prices reduced by a world-wide competition to scarcely living rates, in British Columbia, in consequence of its varied industries, home markets absorb quickly, at high prices, all that is annually raised.

The principal markets of the farmers of the interior are the gold mines of Cariboo and the railway works above Yale. The farmers of the coast and of Vancouver Island have as markets the cities of Victoria and New Westminster, Her Majesty's fleet at Esquimalt, the coal mines of Nanaimo, the

For Inks, Pen and Pencils.

fisheries of the Fraser, the lumber mills at Burrard Inlet and from north the railway works along the Fraser river valley now in course which ma of active construction. reasonable.

It is almost unnecessary to remark that whatever is natural capital, w to the temperate zone grows well in British Columbia. Wheat of the Gol oats, barley, potatoes, hops, hemp, flax, rape, root crops of all and silver kinds. Pears, apples, plums, cherries, and the small fruits to be rema all produce abundantly, and in the southern portions of the probably t Province grapes, peaches and melons are successfully grown make a pro

The cattle and sheep of British Columbia have a high of Br reputation all over the Pacific coast. It is well known that Iron ore the beef, off the abundant natural grasses which cover many rious pa hundreds of miles of the great interior, compares favorably Gulf of Ge if it does not surpass, the finest stall-fed to be found in any and limest part of the world. ional valu

Within the narrow limits of a brief summary, the relative Outcrop farming and stock raising advantages of the various districts put in cons into which this Province is divided, cannot be attempted. To those whose thoughts turn westward, and are anxious to commercia improve their condition this we can confidently state—that the st coast in no country will the farmer and the stock raiser find cal mines a pleasanter home, or a more profitable field for their labor and cover. The coal than in British Columbia. an Franc

MINERALS.

The principal minerals, and those most widely distributed rates the in this Province, are gold, silver, copper and iron. British As the Columbia is unquestionably a great mineral country. It was at the the gold found on the bars of Fraser River in 1858 which Vancouver first attracted population to her. Since that time to the continuous present placer mining has been successfully prosecuted in the mines various discovered gold fields, the most important of which 1874 wa are Cariboo, Cassiar, Kootenay and Omenica in the interior and Leech River, on Vancouver Island. The wat

The yield of gold in British Columbia since its discovery the sh in 1858 has been \$46,187,626. Vast extents of auriferous fish. territory remain to be worked. in, whiti

The ranges of mountains which traverse British Columbia antities.

GO TO J. B. FERGUSON & CO.'S

d Inlet and from north to south for 750 miles are continuations of those w in course which made, in pioneer times, the fame of California. It is reasonable to expect that with the advent of population and er is natural capital, will come mineral developments which will equal those ia. Wheat of the Golden State of the Union. Numerous ledges of gold crops of all and silver, the croppings of which have been proved by assays small fruits to be remarkably rich, invite the attention of capitalists, and tions of the probably the time is not far distant when quartz mining will fully grown take a prominent position as one of the most profitable industries of British Columbia.

known that Iron ores, in mountain masses of excellent quality, exist in cover many parts of Vancouver Island, on Texada Island, in the s favorably Gulf of Georgia, and on the mainland. The proximity of coal found in and limestone to the largest of these deposits adds an additional value to them.

COAL.

the relative Outerops of coal are found in many places in the interior, ous district. ut in consequence of their remoteness from markets their e attempted commercial value at the present time is not great. On the e anxious to est coast of Vancouver Island are situated the most valuable r state—that gal mines of the Pacific coast. They are favorably situated raiser find and cover hundreds of thousands of acres. their labor

The coals of Vancouver Island command a higher price in an Francisco than those from England, and \$2 per ton more than those from Washington Territory. This fact demonstrates their superior quality.

iron. British As the consumption of coal on the Pacific coast is increasing. It was at the rate of 100,000 tons annually, and the supply on a 1858 which Vancouver Island is practically inexhaustible, a steady and time to the continuous increase in the output from the Vancouver Island ecuted in the mines may, with certainty, be looked for. The output tant of which 1874 was 81,000 tons and in 1881, 228,000 tons. in the interior

FISH, OILS AND FURS.

its discovered The waters of the Gulf of Georgia, the Straits of Fuca of auriferous the shores of the Pacific Ocean are literally swarming h fish. Salmon, halibut, cod, herring, smelt, sturgeon, dog sh, whiting and many other varieties abound in incredible ish Columbian quantities.

For Xmas and Birthday Cards.

The fisheries of British Columbia are yet in their infancy. At present salmon is the only fish caught for export. The industry of canning salmon is yearly assuming larger proportions. In 1881 about 185,000 cases, each containing 48 one and a half pound tins were put up. This is a very profitable industry and a number of new canneries are now in course of construction on Fraser, Naas and Skeena Rivers.

Herring, dog fish and oolachans are caught for oil. Besides private firms there are two joint stock companies, one at Skidegate, the other at Burrard Inlet. The fish oil and fish manure business promise to assume large dimensions.

So far halibut, cod, smelt, whiting, etc., are caught merely for local consumption. It is to be hoped outside markets will be found for these fish, and that ere long they will contribute to swell the exports of this Province.

Fur seal are caught in spring and early summer off the coast of Vancouver Island as they travel northward to the breeding grounds. Last season the fur schooners engaged in this business captured about 24,000, the skins of which sold at from \$8 to \$9 each. This season small steamers will be employed, as fur sealing has been found to be highly remunerative.

The land skins which figure most prominently in the export returns of British Columbia are beaver, martin, fox and deer. They are highly valued in New York, and also all over Europe. The product of the furs and fisheries of the Province in 1881 amounted to \$1,454,000, or more than double that of 1880.

TIMBER.

The coast of the mainland, Vancouver and Queen Charlotte Islands contain magnificent forests of Douglas pine, cedar and other kinds of valuable timber. Besides sawmills in the interior, there are two large lumber mills at New Westminster, one at Victoria, another at Sooke, and another at Cowichan. The two largest in the Province are situated at Burrard Inlet. These are almost exclusively employed in cutting timber for export. The principal markets are South America, Australia, China and Great Britain.

GO TO J. B. FERGUSON & CO.'S

SCHOOLS AND CHURCHES.

their infancy. The British Columbia is well provided with free public schools, exporting 48 and also with churches. The Provincial Government constructs school houses and pays resident teachers whenever there are twelve children of school age in a school district.

The religious welfare of the community is well looked after by ministers of all denominations, who, however, receive no state aid, but rely upon the voluntary contributions of the people.

MEANS OF COMMUNICATION.

There are mail steamers running from San Francisco to Victoria three times per month; from Puget Sound to Victoria six times per week; from Victoria to Nanaimo and the east coast, bi-weekly; from Victoria to New Westminster almost daily, and from New Westminster up the Fraser River almost daily also.

British Columbia has better macadamized roads, and more of them, than all the rest of the Pacific coast put together. There are over 2000 miles of first-class waggon road within the Province. At least three millions of dollars have been expended in their construction, and there is an annual outlay of about seventy-five thousand dollars by the government in keeping them in repair.

The railways of British Columbia are yet in their infancy, but railway works of great magnitude are now under construction. The estimated cost of the Canadian Pacific railway to be built in British Columbia, and completed within the next eight years, is about twenty-five millions of dollars. Two millions have already been expended upon it within the past five years, and contracts have been let for about twelve millions between Burrard Inlet, on the sea coast, and Savona's Ferry, in the interior. Work on these sections is being pushed as rapidly as possible. Thousands more men are wanted by the contractors and labor of all kinds is in active demand.

In addition to the extensive work on the mainland in connection with the Canadian Pacific railway, a company of American capitalists have recently secured a valuable conces-

sion of coal lands on Vancouver Island, and have agreed to commence, this summer, the construction of a railway from the harbor of Esquimalt to Seymour Narrows, a distance of 150 miles, the cost of which will probably amount to four millions of dollars.

The impetus given to the leading industries of this Province by the large railway expenditures is already very considerable and for many years it must continue rapidly to increase and develop. Now is the time for the farmers, miners, capitalists, mechanics, laborers, and all other classes desirous of improving their condition to come to British Columbia.

They will find it a country with a climate health-restoring and invigorating. A land of forest clad mountains, of fertile valleys, of grass-covered hills, of lakes and rivers, and a park-like prairie, fair to the eye and beautiful to look upon, a land upon which nature has lavished her richest gifts, and on which the Almighty has showered His choicest blessings.

Constitution.

ARTICLE I.—NAME.

SECTION 1. This Society shall be called the British Columbia Agricultural Association.

ARTICLE II.—OBJECT.

SECTION 1. It shall be the object of this Association to encourage the cultivation of the soil and the general development of all the agricultural resources of the province.

SEC. 2. To foster every branch of mechanical and household arts calculated to increase the happiness of home life.

SEC. 3. To extend and facilitate the various branches of mining and mining interests.

ARTICLE III.

SECTION 1. Any person may become a member of this Association by paying into the funds of the same an initiation fee of three (\$3) dollars, and causing his name to be registered in a book kept by the secretary for that purpose, and he may continue such membership by paying to the Secretary the sum of one dollar and fifty cents annually thereafter.

SEC. 2. Any person may become a member for life by the payment of twenty-five dollars.

SEC. 3. Any person being a member of this Association shall be eligible to office, entitled to vote, receive a printed copy of the constitution, and such other matter as the Association may publish, and have free admission to all the exhibitions of the Association.

ARTICLE IV.—OFFICERS.

SECTION 1. The officers of this Association shall consist of a President, two Vice-Presidents, a Secretary and a Treasurer, together with ten members to be elected at an annual meeting of the Association, who shall constitute a Board of

For the September number of the West Shore.

Managers. At any meeting of the Managers (5) five members shall constitute a quorum to transact business.

SEC. 2. The President shall preside at all meetings of the Association and shall, at the written request of five members of the Board of Managers, call special meetings; shall appoint all committees not otherwise ordered; shall vote only at the election of officers and in case of a tie; and sign all financial and official documents or papers emanating from the Secretary and not otherwise provided for, and have a general supervision of all matters pertaining to the interests of the Association and its affairs.

In the absence of the President and Vice-Presidents the Association may choose a Chairman, *viva voce*, unless voting by ballot be requested by two or more members.

SEC. 3. DUTIES OF SECRETARY.—The Secretary shall conduct the correspondence of the Association, keeping in separate book copies of all letters in the name and on behalf of the Association, holding the same free to the inspection of any member of the Association at any regular meeting of the same.

He shall receive and file all letters addressed to the Association, holding the same subject to the Board of Managers.

He shall attend all meetings of the Association and of the Board, keeping a full record of all the doings of each in a separate book, and shall, if required, furnish a copy of the proceedings for publication. He shall prepare and publish all notices of meetings; prepare and sign all gratuitous complimentary cards or tickets of admission; shall countersign all diplomas, certificates of merit, etc., awarded by the Association and forward the same to their respective claimants.

He shall keep the seal and all plates, dies, engravings, etc., belonging to the Association, and shall cause to be struck therefrom such medals and impressions as may from time to time be required.

He shall have charge of all specimens, molds, plates, sections, books, etc.; arrange, prepare or distribute the same under the direction of the Board.

He shall receive all moneys due or payable to the Association, and pay the same over to the Treasurer, taking his receipt for the same; shall hold all bonds filed by the officers for the faithful performance of their duty, and all vouchers for every class of expenditure. He shall countersign all drafts ordered by the Board of Managers or Finance Committee, and record the names of life and annual members in a book kept for that purpose in alphabetical order, and shall, at the annual meeting of each year, prepare a tabular statement of the receipts and expenditures of the Association, and place the same in the hands of the committee on printing for publication, and, when required, present the same to the Board of Managers. He shall prepare all reports to be made by the Board to the Association, and perform such other duties as the Association or the Board of Managers may require, and for his services he shall receive such compensation as the Board shall decide to pay.

SEC. 4. DUTIES OF TREASURER—The Treasurer shall receipt for all monies received from the hands of the Secretary or any other person; shall disburse the same when audited and allowed by the Finance Committee on an order from the Secretary. But this provision shall not apply in the payment of premiums on the fair grounds, but he may there pay demands against the Association when satisfied of their justice. He shall also hold in trust all bonds, notes, deeds, or other evidence of debt or possession belonging to the Association, and shall transfer, invest or dispose of the same only by direction of the Association, or by written order of the Board.

He shall, before entering upon the duties of his office, file with the Secretary a bond for the faithful performance of his duties, said bond to be approved by the Board, and to be in sum equal to the combined amounts of funds on hand and to estimate revenue for the year. He shall at each annual meeting make the Board of Managers a detailed report of all doings during the year, for which service he shall receive such compensation as the Board shall from time to time decide to pay.

ARTICLE V.—BOARD OF MANAGERS.

SECTION 1. OF WHOM COMPOSED.—The Board of Managers shall meet on the 2nd day of the fair at 10 A. M. of each year and shall be composed of the officers named in Article 4.

SEC. 2. DUTIES OF THE BOARD.—The Board of Managers shall have the general financial management of the affairs of the Association in the interim of annual meetings. They shall fill vacancies occurring between elections and make the necessary arrangements and preparations for all meetings, fairs, exhibitions, etc. The Board shall also have power to make its own by-laws (not inconsistent with this Constitution) and arrange the time and place of holding its own meetings.

ARTICLE VI.—STANDING COMMITTEE.

SECTION 1. Committee on Finance shall consist of three members of the Board of Managers to be elected at the annual meeting, whose duty it shall be to audit the Treasurer's and Secretary's accounts; to examine and approve all bills before they are paid; to have a general supervision of the finances of the Association and report their doings in full to the Board when called upon to do so.

SEC. 2. COMMITTEE OF PUBLICATION.—The Committee of Publication shall consist of three, whose duty it shall be to contract for and superintend under the directions of the Board all printing and publishing necessary for the prosperity of the Association.

ARTICLE VII.—DONATIONS AND BEQUESTS.

SECTION 1. All donations, bequests and legacies to this Association designated by their donors for any particular purpose embraced within the objects of this Association shall be, with strict fidelity, so applied, and the name of each donor, together with the description and amount of such donation, and the object for which it is designated, shall be registered in a book kept for that purpose.

ARTICLE VIII.—MEETINGS AND EXHIBITIONS.

SECTION 1. The Association shall hold an annual Fair at

GO TO J. B. FERGUSON & CO.'S

Battle Show at such times and places as shall be agreed upon by the Board of Managers.

SEC. 2. ELECTION OF OFFICERS.—The election of officers shall take place annually at a meeting called for that purpose by the Board of Managers, notice of such meeting to be published in not less than two papers in the Province for not less than one month before such election takes place, said meeting to be called in March or April of each year.

SEC. 3. SPECIAL MEETINGS. HOW CALLED.—No special meeting shall be called by the Association but upon fourteen days' notice given and published in some newspaper in the Province, nor without a request signed by at least ten members,

SEC. 4. It shall not be admissable for any member to vote by proxy in any meeting of this Association or at its Board of Managers.

SEC. 5. QUORUM OF THE ASSOCIATION.—At any meeting of the Association ten members shall constitute a quorum.

ARTICLE IX.—OFFICE AND ROOMS.

The office of the Association shall be permanently located in the capital of the Province, at which place the Secretary and Treasurer shall reside.

ARTICLE X.—AMENDMENTS.

Amendments must be presented in writing, at an annual meeting, when, if agreed to by three-fourths of the members present, shall be adopted.

ARTICLE XI.

The Association shall hold an annual meeting at such place and time as the Board of Managers shall decide.

ARTICLE XII.

This Constitution shall take effect from and after its adoption.

ITIONS.

annual Fair at

CO'S

For their Celebrated Calendar Pad.

Entries.

1. All entries to be made two clear days before Friday the 26th of September. Can be made by letter to the Secretary.

2. Exhibitors shall be charged entrance fees as follows:

For cattle, sheep, horses and pigs on amount of prizes	15 per cent
For silver medal	2 50
Agricultural implements	1 00
Field produce	50
Dairy produce	50
Fruits	50
Vegetables	50
Entrance Band Contest	10 per cent

Special and other entries, 50 cents, except for ladies and misses, 25 cents. Trials of speed, 15 per cent on amount of purse offered.

3. All live stock to be in the show yard not later than eight o'clock A. M. Friday, the 26th, at which hour the gate will be closed, after which nothing will be admitted.

4. All animals shall remain in the show yard until 6 P. M. Saturday the 27th.

5. The Society will not be liable for any losses or damages to which stock may sustain.

6. Pens will be provided for all live stock.

7. In awarding prizes for breeding cattle, sheep or pigs the judges will be especially instructed not to take into consideration their present value to the butcher, but to decide according to their relative merits for the purpose of breeding.

8. All articles of field, garden and dairy produce, etc., must be, *bona fide*, the production of the exhibitor, and must be entered with the Secretary two clear days previous to the day of show. All articles to be exhibited to be at the show ground the day previous to the day of show.

9. That green crops and vegetables of all kinds should be delivered into the show room cleanly washed.

10. All articles of manufacture of every kind and special prizes are eligible for entry for prizes only by the exhibitor or the authorized agents.

11. Three bands to enter or no prize to be awarded.

12. The President and the Board of Managers shall have

GO TO J. B. FERGUSON & CO.'S

the general supervision of the grounds and entire exhibition and control the police regulations, and entrance and exit gates.

13. The fair grounds will be open for the reception of all articles one day before the commencement of the fair, and anything may be shipped to the care of the general superintendent of the grounds, but in no case will such articles be brought on the grounds and placed on exhibition except by and at the expense of the owner or his authorized agents.

14. All feed for stock will have to be provided by the exhibitor. But there will be hay and feed on the ground for sale should any one desire to buy it.

15. The Board of Managers will use every precaution in their power for the safe preservation of all articles and stock on exhibition, but will not be accountable for loss or damage. Exhibitors must give attention to their articles or animals during the fair and at the close of the exhibition attend to their removal. Only the owners of the different animals entered for exhibition will be admitted free of charge.

16. Exhibitors of thoroughbred stock must hand in the pedigrees to the judges when examining the stock.

17. Any person knowingly violating any of the rules of this Society will therefor forfeit and be debarred from receiving any premium that may be awarded them.

18. All trials of speed shall be governed by the rules and regulations herewith published, so far as practicable.

19. Judges shall have power to withhold any prizes when they are of the opinion that any animal or article exhibited is not worthy of the same.

20. Officers of different divisions to be distinguished by different colored badges.

21. Should there not be funds enough on hand to pay prizes in full they will be paid *pro rata*.

22. Should there be any disputes or misunderstanding which none of our by-laws, rules or regulations will govern whether in connection of speeding horses or decisions of judges or anything in connection with the exhibition it shall be referred to the Board of Managers whose decision will be final.

23. In contest for bands, three to enter. Contest to take place Friday at 3 P. M., at exhibition grounds; each band to play three exercises of their own selection and band taking prize to play at Exhibition grounds during Saturday afternoon 2 to 6 P. M.

awarded.

O'S

For their beautiful Views of Victoria.

Powers of Stewards.

OF THE

British Columbia Agricultural Society.

The stewards shall have full power to make all such arrangements for the conduct of the meeting as they may think fit, and to regulate and control the conduct of all officials and of all jockeys, grooms and persons attending on horse and to determine all questions or disputes arising between persons at or in relation to anything done or omitted in reference to racing, except only disputes or claims relating to betting.

A judge, a starter and other officials shall be appointed by the stewards.

3. There shall be three judges, a permanent judge and two assistants. The judge shall decide which horse wins and assign their respective places in the race, except in running the best of heats. If one of the judges be in the stand during the running of a heat or race it shall not be void. The permanent judges shall decide all disputes relative to racing. He shall receive no *evidence* in regard to foul riding except from the racing officials. The places of horses starting shall be determined by lot by the judges.

When no weight is mentioned the horses shall carry the established weight for age—i. e.:

For 2 years old.....	86 pounds
For 3 years old.....	90 pounds
For 4 years old.....	104 pounds
For 5 years old.....	110 pounds
For 6 years old and upwards.....	114 pounds

Three pounds shall be allowed for mares and geldings.

All riders must be dressed in colors (a cap and jacket of silk or satin).

DISTANCING,

In heats of one mile.....	45 yards
In heats of three miles.....	65 yards

4. In all matters relating to races or running of a race provided for, the judges shall decide according to the best of their judgment and the usage of the turf.

Every rider shall *immediately* after the race or heat ride his horse to the usual place of weighing and alight *after* obtaining the PERMISSION of the judge and NOT before, and weigh to the satisfaction of the clerk of the course, before doing which he is forbidden to TOUCH anything beyond the equipments of his horse. The rider must not suffer any person to touch or put cover on his horse.

Speed Programme for 1884.

Editors and reporters for the press will be provided with ample facilities for obtaining and transmitting information. No reporter, unless known as such to some member of the Board, or provided with a certificate from the publisher he claims to represent, shall be entitled to free admission to the grounds. Permits for the reporters can be obtained from the Secretary, one for each paper. The judges of the various classes will report themselves at the Secretary's office at 1 P. M., the 26th of September, and should there be any vacancies they will be filled by the Resident and Board of Managers.
