There Will Be No Reciprocity

The World has taken pains to size up the situation at Washington and at Ottawa, and has come to the conclusion—and is not afraid to make the prediction—that there will be no reciprocity agreement If Sir Wilfrid Laurier intends to go to England in May there is

If Sir Wilfrid Laurier intends to go to England in May there is not the slightest possibility of the measure passing in the time intervening. If he decides to continue the house in session in May and June, there is still less chance of the proposal going thru.

In June the census will have been taken, and he will be asked in July, if the house is in session, to pass a redistribution bill giving the northwest its proper representation; then he will be forced to go to the country on this reciprocity proposal, still unratified by the house. The opposition can easily hold parliament in session to head off so momentous a preposition.

momentous a proposition. In the other direction, at Washington, all the indications go to show that a great political game is now on between the Democrats and the Republicans, and between Taft and the Democrats, and while and the Republicans, and between Taft and the Democrats, and while the president put the question of reciprocity up to the Democrats in the recent congress, the Democrats in the new congress, which meets next month, will put up the question of a wholesale reduction of the tariff to the president, along with his measure of reciprocity. In other words, a wholesale reduction of the tariff will be hung on to the reciprocity bill, and the president will have to accept both or none. So fierce is the tariff situation becoming in the United States that there is little hope of any settlement in any direction in regard to it until the presidential election next November.

The work that remains to be done, therefore, is for the people

until the presidential election next November.

The work that remains to be done, therefore, is for the people of Canada to continually agitate against the measure so that parliament will be justified in refusing to sanction it until the people have been consulted. Incidentally, it may here be mentioned that Montreal and the Province of Quebec are just as strong against the bill now before parliament as are the people of Ontario and Toronto. Sir Wilfrid Laurier, if he goes to Quebec on this issue has no hope whatever of carrying one-half of the Province of Quebec. Whoever thought he would carry that province on this issue with a sweep has no foundation for that belief.

HAMILTON, March 9 .- (Special) .- "I would very much dislike to wager or the issue of one-quarter the number of Japs opposed to our Canadian soldiers with their present arament, organization and training," said Col. W. Hamilton Merritt of the Canadian Defence League, in speaking before a large gathering of the members of the Canadian-Club at a luncheon at the Royal Hotel to-night. He stated that Canadias militia cost three to four times as much as that of Germany, Japan, Switzerland, Argentina and Bulgaria, and drew unfavorable comparisons of the training even at the greater cost. Speaking of the position of Canada among the nations, he said it was unique, as she had a total disregard for defence. A nation could not stand still when it was indifferent to defence, and the convergence of its interests with those of rival countries. He thought that in all probability the tim would come when the convergence of interests of this country and the Umited States would reach such a stage that it would mean but one thing, and the God of battles alone knew which would come out on top. His whole address was based principally on the fear of invasion from the south, and he said that Great Britain had been "euchred" out of Oregon and Washingington," and had better watch out for a further spasm of expansion in the United States.

Then the gases and foul odors issue forth and pollute your breath making you an object of nausea to your friends. Your tongue quickly becomes coated and you can taste the foulness that is within you.

Now all this condition is changed almost instantly by a Stuart's Dyspepsia Tablet. "Forty cents or nothing by the first of May," was the keynote of the meeting of the Amalgamated Carpenters in the Labor Temple last night, when over 300 members of all the branches gathered together to discuss the question of the wage scale, and incidentally to continue their long standing right against an increased cost in living and a stationary scale of pay fixed by the master builders. When a motion was put by the chairman for the meeting to go on record for the forty cents, or an increase of five cents, it was unani-

mously carried and enthusiasm let Last night's meeting means that the carpenters have sent their ultimatum to the builders, and also that if the raise is not forthcoming, 65 per cent of Toronto's carpenters will refuse to assist in the spring building. Most of the men believe that the trouble can be settled amicably, but they are ready for all that strike means if their request for more pay is refused.

The bricklayers are the only branch of the building trade union who have been granted an increase. All the othof the building trade union who have been granted an increase. EATON'S DAILY STORE NEWS

The "EATON" Watch: High-Grade Reliable Movements, in Superb Cases

The "EATON" is a watch built on the most approved and modern lines by the world's best watchmakers, from the highest grade materials. It was designed to secure the most satisfactory watch that could be put together to bear the name "EATON"; to be typically "EATON" in quality and price.

The "EATON" 21 Jewel Movement

The movement is Swiss built. It was specially designed for us from our own specifications after a careful study of every adaptable invention. Some parts are of hardened steel, others of gold. Breguet hair spring, steel escape wheel, gold centre wheel, exposed winding wheels---these are noteworthy features. Rubies are the jewel bearings of the pivots, and are set in gold---a patent regulator makes possible an almost infinitesimal time adjustment.

Each movement is adjusted to five positions and to extremes of heat and cold. Every preparation of the assembling, polishing, etc., is done by high-grade watch builders, and the adjustment is consequently absolutely accurate. The parts are carefully hand-fitted, that there may be no undue play, and the balance wheel and springs are made to work smoothly at an angle.

A Rigid Guarantee Covers This Movement For Two Years

As to the Case—This you may select according to your taste and pocket, for there is a gratifying selection. They are of gold and gold-filled, and in plain chased or engine-turned design. The "EATON" is a watch that will give the highest satisfaction, because it is built that way, and it also gives the best possible value. In Gold-Filled Cases prices are: Men's, 21 jewels. \$20.00; Women's

Grace Church C.C. Officers Elected At Annual Meeting

The annual meeting of the Grace Church Cricket Club was held at Dr. Smith's residence last night with a very large attendance present. Mr. E. T. Campbell occupied the chair. The treasurer's report showed a slight deficit, but thru the generosity of the vicet president, Mr. Butler, this was wiped off. All other reports were very encouraging. Two teams will be run this year, and the club hope to secure the south lawn of the university. Thru pressure of business Dr. Smith resigned the captaincy of the club after holding office for over six years. Mr. M. Rawlinson's resignation from the presidensy was not accepted.

Baseball Notes.

Another move that may improve the Washington team is the proposed development of Herman Schaefer into an outfielder. Manager McAleer believe the will make good in the position, and he should certainly be as good a judge of an outfielder as anyone, for he was the peer of any in his time. Schaefer will have a thoro try-out in the field during the training season. He is fast, wise, and a good hitter, and no reason why he should not make good is apparent. Mike Kahoe will probably go to Atlanta with the team, and, if so, the young pitchers, and the kid catchers as well will receive his attention. Mike's experience and knowledge of the game should help the recurits greatly, and under his tuftion Alimmith should be a topliner from the start.

The Buffalo team, both youngsters, rolled a total of 1221, Cullen's game of 251 being the best of the six. They take third place in the two-man standing, five pins below Elliott and Knóx of Philadelphia, and 28 pins under the leaders, Kilpatrick and Waldecker of Detroit, Mich. Other good scores in the double events were made by Jones and Neely of Canton, Ohio, 1181; Whitman and Spillman of Richmond, Va., 1173; Blair and Williams, Richmond, 1155.

In the individual event there are now over 30 men with scores over 600, and it requires better than 632 to join the ten leaders. The best score made to-day was that of Walton of Cleveland, who rolled 622. Bassett of Buffalo was second best at 613. Krumhaur of Cleveland third at 608, and German of Utica, fourth, with 604.

SUNLIFE Assurance Company of Canada

HEAD OFFICE

MONTREAL

A GRAND RECORD IN 1910

The increases in Assurances in force, in Cash Income, and in Assets, were never equalled by any Canadian Life Assurance Company in any year.

The expense ratio was again further reduced notwithstanding the large increases in all items of business. The great confidence of the public is shown by the fact that over \$1,400,000 was paid

to the Company for annuities last year. The protection for the policyholders is completely secured by the enormous assets

and surplus of the Company. The high standard of profits to policyholders has been maintained and its continuance is assured by the soundness and exceedingly profitable character of the investments.

The great success of the Company is not confined to Canada alone, but its vast business and important connections in other lands are doing yeoman service in greatly enhancing the prestige of this country abroad, and in bringing home large sums for investment.

The suburbs of Chicago along the lake shore all felt the quaking, and in Evanston, Winnetka. Glencoe, Wilmette and Highland Pärk, to the north of Chicago, many windows and store fronts were shattered.

Direct communication with Pleasant Prairie was cut off by the explosion. There were alarming reports that the number of dead was larger, but later it was reported from Kenosha that only seventeen men were at work in the plant at the time of the explosion, and twelve of them had been accounted for. Racine received intelligence that the number of dead would run as high as forty, but this could not be determined with accuracy. It is known, however, that the number of injured is large, and relief trains were at once sent from Chicago and Kenosha.

The vital point to be emphasized to get the information, "We are going to get this information," he declared. The vital point to be emphasized was the dire effect the agreement would have upon the national life of Canada. Accepting for the sake of argument that all the promises would be fulfilled which the negotiators made, the disintegrating effect it would have to do so. That's what he's paid to do."

Would Steady Prices. H. H. Miller (South Grey), who mov-

He said that the agreement when it went into effect would tend to regulate the prices of commodities in both countries. Mr. Fielding did not think that Lord Strathcona had been quoted correctly. Criticizing Dr. Clark (Red Deer), the member for Kootenay said he had advocated exactly what the opposition was contending for, the making of the Canadian tariff independently of the United States. He pointed out that in no country in the world were there so many people living on charity as in free trade Great Britain.

The answer of the government was that

they were too late.
Mr. Goodeve sald it would have been much better for British Columbia if, in-stead of obtaining a free market for fruit in the United States, the govern-ment had induced the Americans to

known Motorists-Numbers Should Be Elevated.

"We, the jury, find that Edward Jacobs met his death from injuries received by being run over by an automobile driven recklessly by persons unknown, and that the said persons did

hit himself. "You murderers!" he cried, as they hurnied way. He was unable to see the number.

Harry Walls, 85 Salem-avenue, heard the crash, but did not see the accident, Mrs. M. Goodchild, 372 Clinton-street, and Mrs. James Brash. 448 Clinton-street, both witnessed it. The latter was close enough to see the men. One of them, she thought, was red-faced and was wearing a fur coat and automobile cap, while the other was dark and of slight build. She "couldn't see the number for mud," however, and further averred that no bell or horn of any kind had been sounded.

C. C. Macdonald, 385 Montrose-avenue, helped to carry the man into the drug store. Jacobs had by then recovered consciousness sufficiently to complain of his injuries, and to say: "They must have been drunk."

Not a Ready Witness.

Louis Monahan, K.C., with some difficulty elicited from Joseph Kehoe, 655 West Bloor, an account of the doings of George Thomas, who, was in the police court on Tuesday charged with stealing an auto. No connecting evidence was forthcoming, however.

Robert T. Barton, 319½ Dupont-street, and William Woodhouse, who keeps a shoemaker's shop at 500 Clinton-street, told of a man who came into the shop and declared in their presence that he "knew those men; they were a pair of drunks." Neither of

WEST TORONTO.

WEST TORONTO, March 9 .- (Special.)-The death occurred this morning at the KingEdward Sanitarium of Mr. William Fennel, son of the late, Ephraim Fennel, who was an old resident of the town and who used to reside on Lakeview-avenue. The deceased had been in business in Detroit for five years, but had recently come to the sanitarium on account of his failing health. He was but 29 years of age prand leaves a widow and a little boy five years of age. The funeral will take place on Saturday afternoon at 2 o'clock from Speer's undertaking to attend.

A reception was held last night in to the basement of the Victoria Presbyterian Church to the new members of the congregation. Several speeches were made by promient members of the church and a most enjoyable evbeen opened on Keele-street, just to succeed the present official, J. A month or so ago the Canadian Pa-cific Railway, thru their solicitor, Mr. McMurchy, wrote the Scarboro Township Council with reference to some contemplated changes in the position of the railway bridge crossing the tracks near Wexford. The railway at this point runs in a northerly direction. Important Credit Sale to be held March 13, on lot 31, concession 1, Scarboro, the property of Mr. Henry Brock, who has sold his farm. The whole will be sold without reserve, and consists of horses, a fine herd of dairy cows and farm implements, hogs, poultry, hay, grain and roots, Beldham and Ingleton, auctioneers. but the position of the bridge is such that, running parallel with the York town line, there is a straight and un-interrupted highway. It is proposed to change this, placing the bridge at the same angle as the railway, which would create an unsightly and objectionable turn in the road. For a week or more the C.P.R. have had a man stationed at this point counting the vehicles passing over the bridge, pre-sumably for presentation to the Dominion Railway Board in the event of the rejection of their plans by the Scarboro and York Township Councils each of whom is interested in the high-way. The census, too, is being taken a time when the traffic, owing to the bad roads, is more than ordinarily light. If petitions are needed to frustrate the design of the C.P.R., they can be secured by hundreds. The people simply will not stand for any diversion of the old highway, however

chicago, March 9.—Bigger stores of wheat in farmers' hands than were expected led to heavy stoploss selling here to-day. The market closed weak at a net decline of %c to 1%c to 1%c. And the leading staples firmshed higher than last night—corn and oats up a shade to 1%c to 1%c, and provisions a shade to 10c to 12%c.

For May the principal option wheat closed at the lowest point of the session. The only important rally appeared to reduce the store of the session. The only important rally appeared to reduce the session of the session.

last night—corn and oats up a shade to 14c to 14c, and provisions a shade to 10c to 124c.

For May the principal option wheat closed at the lowest point of the session. The only important rally appeared to result from temporary over-exertion on the part of pit traders, who with might and main had been jumping on prices. There was also general unloading by owners, and especially northwestern people supposed to be miliers unable otherwise to dispose of surplus cash wheat and flour. As if to make the situation worse from a bull standpoint, the majority of crop reports regarding the outlook in the southwest indicated a bountiful yield in prospect. The fact that the Liverpool market failed to show as much weakness as expected gave rise to some interest, but the comparative steadiness there was offset by a forecast of large shipments from India and from the Argentine. On the final decline here some goodsized purchasing was done by a prominent bear house, believed to be working for carrying charges, or with a view to damage reports in the future. Prices for May varied from 89%c to 90%c to 80%c with the close 14c to 1%c down at 89%c.

Mild weather, giving promise that farmers would soon be busy with field operations, instead of hauling corn to market, made that cereal strong. Cash demand, however, manifested but little improvement. May ranged between 49%c, and 43%c, closing steady at 48%c to 48%c, a net gain of %c.

Shorts in oats took advantage of the government figures and covered with such vigor as to overcome the bearish effect of the news from Washington. May reached as high and low limits at 30%c and 30%c, with last sales a sixteenth up at 30%c to 30%c. The firmery Centres.

PORCUPINE INDIANS PREDICT EARLY BREAK-UP

Chief Believes Early Spring is Inevitable-Roads Impassable in Four Weeks.

PORCUPINE CITY, March 9 .- (From Our Man Up North.)-Predictions that an early spring is now inevitable are the kind of weather dope Indians living on Nighthawk Lake are handing out, and if all they say, based on an experience that extends over a period of 40 winters in the Porcupine country; is true, four weeks from now the daily snow storm will have changed to a daily rain with floods covering the

John McLeod, who has spent nearly all his life with the Indians and who is the leader of an Indian camp on Nighthawk Lake, visited the camp yesterday and to The World sald: "Within two weeks the break-up will start, and within another two weeks rains will set in. Not much to the roads after two weeks, for the bottom is too soft. That south wind does not mean anything good to the roads and

snow banks."

Two Indians accompanied McLeod and the were also sanguine that Porcupine had seen the best part of its winter, with an early break-up near at

Porcupine Soon in London

The new deal by which the Bewick-Moreing Co.firm of London buy into Hollinger, means that these shares will be lieted in London in a few days, the first of Porcupine in the world's money centre. Others like the Dome and the Preston East Dome and the Dome Extension will soon be able to follow in the same footsteps. In the meantime a lot of the purchases of these two latter stocks are for investors in the States, thus taking them off the Toronto market.

The rapid advance in values early in the week put prices up to a point where good profits were shown on the underwriting figures, and it is liquidation from holders who got in at the original figures which has given an easier trend to the market ever since the high records were reached.

The Porcupine issues to-day were a further demonstration of this fact. Prices sagged in almost every instance, but there was sufficient public demand on the decline to check any material slump in values and quotations at the close showed more firmness than might have been expected on this account.

Hollinger sold as high as \$8.60 early in the day, but was off 45 points on the afternoon board. Preston East Dome opened at 50, and reacted to 43½, but was firmer at the close, when the stock was in demand at 45. Moneta lost 6 points from the early sales, the shares changing hands as low as 30.

A few undeveloped claims in Porcupine have just been sold to a syndicate for \$175,000.00. Suppose one of these days Great Northern sell one of their dozen Porcupine claims for \$100,000, and one of their Silver properties for another hundred thousand. From what we have heard we would not be very much surprised should this happen. One of these times Great Northern will make a clean-up of three or four hundred thousand dollars, and then have as many acres of mining claims left to work as have many companies of twice the capitalization. Great Northern is selling on the market at 15 cents per share, and is intrinsically worth more than some propositions selling at three times the price. Think this over and send us your order to buy at the market.

COSTLY TO TAP LAKE SIMCOE City Engineer Estimates \$18,000,000

Needed for Aqueduct Scheme. The city engineer in his report which will be considered by the civic board of works this afternoon, estimates the cost of bringing the water from Lake Simcoe to Toronto at approximately \$18,000,000. This is in response to a request from the city council for information on the subject.

TRADERS IMPROVE BID PRICES.

World Office
Thursday Evening, March 9.
The Toronto Stock Exchange showed no change in to-day's business from recent operations. If anything, the market was a shade firmer with one definitely strong issue, Burt common. Some of the selling pressure was relieved to-day, and a few traders took advantage of this to improve the bid quotations. There is nothing in the immediate news to give sentiment any particular incentive, and a see-saw movement without very much play is all that can possibly be expected. The reduction in the English bank rate to 3 per cent. should have

Erickson Perkins & Co. had the following at the close:
Trading to-day was on a moderate scale, but the market exhibited a steady undertone with prices slightly higher. Summer options continued in good demand with the trade seemingly awakening to the fact that the statistical position of cotton is materially stronger than last year. Europe has secured a goodly portion of the better grade cotton and the expert demand shows no signs of abating. The new crop railied sharply on reports of high temperatures over the southwest, which was expected to lead to a renewal of drought talk. The opinion was freely expressed that the
