WORLD'S MOST DELICIOUS WAR WANES FOR LACK OF FIGHTING

Turks Refuse to Fight and Italians Must Not—Austria Wants to Know Italy's Intentions as to Invasion of European Territory—Bombardment of Tripoli Was Postponed.

LONDON, Oct. 2.—From present appearances the Turco-Italian war promises to be the shortest and most bloodless war in history. Thus far its distinguishing characteristic has been the absence of fighting, and with Germany acting as peacemaker, it may be ended before fighting occurs.

It is concluded that no mediation will be accepted by Italy until she has accomplished the military occupation of the Tripolitan coast.

After that negotiations will be much easier and are likely to be successful. Turkey will accept a money indemnity for allowing Italy to establish herself in Tripoli, as Great Britain did in Egypt.

The news differs in from various points continues to be of a negative kind. Evidently Tripoli has not been bombarded, and it is not likely to be, if the Turks do not oppose the Italian landing.

The warlike operations are confined to a blockade and the capture on either side of a few small vessels.

It is now admitted from the Turkish side that Prevesa, in European Turkey, is not occupied. Italy's announcement that she has no intention to carry the war into European Turkey, will do much to allay apprehension over the Balkan or other complications.

Turkey's ministerial difficulties have not been solved, but generally the situation looks more hopeful.

No Bombardment Before Today.

ROME, Oct. 2.—A despatch to The Tribune from Malta, says that a steamer which arrived there at 6 o'clock this evening, brought the news that the Turkish transport Berna had been shelled and sunk in the harbor of Tripoli. It confirmed the other advice that the bombardment would not begin until Tuesday—this in order to give the population time to withdraw to a place of safety.

LONDON, Oct. 2.—A despatch received here by a news agency from Vienna says that Count Von Aehrenthal, the Austro-Hungarian foreign minister, has informed the Italian ambassador that any further action by the Italians on the Albanian coast will make it necessary for Austria to despatch warships thither.

Count Von Aehrenthal asked the ambassador how he reconciled Italy's naval movements in the vicinity of Albania with her declarations that she

FINLAND JUDGE SHOT DEAD.

ST. PETERSBURG, Oct. 2.—M. Von Helon, president of the high court of justice at Abo, Finland, was shot dead today by an assassin, who immediately killed himself.

CELEBRATION AT NORWAY.

The Norway Conservatives will celebrate the overthrow of the Laurier government at a meeting to-morrow night in St. John's Hall, Woodbine avenue, and a roasting rally is expected.

The speakers will include R. R. Gamay, M.L.A.; W. F. Maclean, M.P., and Alex. McCowan, M.L.A.

PORTUGUESE CONSPIRATORS.

SANTIAGO DE COMPOSTELA, Spain, Oct. 2.—The newspaper Eco says that the Royalist leader, Capt. Couceiro, and the chief Portuguese monarchist conspirators entered Portugal Sunday at the head of 3000 men with several guns and quick-firers, and one hundred and fifty mules.

New Head Yeomen of the Guard.

LONDON, Oct. 2.—The Earl of Craven, who married Cornelia, the daughter of Bradley Martin of New York, was today appointed captain of the Royal Yeomen of the Guard at a salary of \$6000 a year.

HON. MR. GRAHAM FOR GLEN-GARRY?

MONTREAL, Oct. 2.—It is stated in Liberal circles to-night that Mr. McTavish, the Liberal member-elect for Glen-Garry, who carried the county by over two hundred majority, will soon resign his seat, and the opposition will bring forward the Hon. George Graham, defeated in Brockville on the 21st. It is understood that if the ex-minister of railways will accept the nomination, Mr. Duncan McMartin, who was the Conservative candidate, will not run again.

Musical Comedy Popular.

The song hits of "The Beauty Spot," which opened a short engagement at the Princess last night, caught on instantaneously and are pleasing indeed. Musical comedy is always sure of large patronage in this city.

King of Greece Not Worried

COPENHAGEN, Oct. 2.—Much surprise is expressed that King George of Greece, who has been for several days a guest of King Frederick, did not return to Athens immediately on the outbreak of the war. To a court dignitary the king has given this explanation, with permission to publish it:

"I do not fear that the war will be extended to European Turkey or that Greece will be involved. Had I thought so, I should have at once returned. According to information I received today I believe that the war will be short and localized."

The King of Greece added that his action might lead to dangerous complications later, but at present he saw no reason to expect that the war would extend to the Balkans.

VIOLENT EARTHQUAKE

Anticipated by Scientific Men Southwest of New Orleans.

NEW ORLEANS, La., Oct. 3.—A violent earthquake, at an unknown distance, probably southwest of New Orleans, is forecasted by what are regarded as unmistakable indications registered by the seismograph at Loyola University.

The delicate needles of this instrument have recorded microseismograms without interruption since noon last Saturday, the amplitude steadily increasing until late to-day, when it had reached 1.3-4 millimetres.

"These microseismograms," said Father Frankhauser, director of the Loyola Observatory, "are similar in all particulars to those which were recorded for five days preceding the disastrous Turkish quake. The probable location of the upheaval, which promises to be violent, as far as we can ascertain now, is southwest of New Orleans."

"It is all probability this earthquake is of volcanic origin."

ST. K. S. ISMISSES ENGINEER

Criticism of Pavements Leads to David Benzies Being Let Go.

ST. CATHARINES, Oct. 2.—(Special.)—To-night the city council carried a resolution by a vote of seven to three dispensing with the services of City Engineer Benzies one month from today. The resolution was opposed by Chairman Chaplin of the board of works, and Ald. Robinson and Nihan, two colleagues on the committee, because the work now on hand is in a very unfinished condition.

Dissatisfaction with Benzies is due to the fact that A. Cook, a civil engineer recently appointed by the city council to examine into the specifications of pavement work now being done on Queenston, Niagara and Academy streets, reported that the work did not meet the requirements. Two weeks ago the engineer was suspended by Mayor McBride, and a week ago was reinstated by council.

MAN DIES OF GLANDERS

Contracted Disease From a Horse and Doctors Couldn't Save Him.

NEW HAVEN, Oct. 2.—Medical specialists are puzzled at the death by glanders of Dr. James H. Kelly, a leading veterinarian. Cases of humans being afflicted with the disease are rare.

Dr. Kelly was taken ill two weeks ago, and councils of physicians diagnosed the case at first as neuritis and later as typhoid fever.

It was discovered to be glanders only two days ago. The medical fraternity was helpless in fighting it, as no serum has been found with which to effect a cure.

Dr. Kelly undoubtedly became infected thru attending a horse afflicted with the disease.

SIR WILFRID FOR THE HAGUE.

MONTREAL, Oct. 2.—The Herald (Liberal) to-night publishes the following in large type on the front page:

"It was given out this morning by a man prominent in the councils and friendship of Sir Wilfrid Laurier, that the ex-premier would be offered the position of president of The Hague Peace Tribunal very soon, being the unanimous choice of President Taft and the English authorities. Both great nations had expressed their confidence in Sir Wilfrid Laurier and commissioned Lord Strathcona to offer the ex-premier the position, and this commission is the mission of Lord Strathcona's visit."

VIADUCT BYLAW AGAIN TO PEOPLE

Civic Works Committee Will Report on Re-submitting of Important Improvement Scheme—Car Lines for North Rosedale—Stand by Hospital Site.

The Bloor-street viaduct plan refuses to down. It has persistent vitality for the reason that it has outstanding merits, which the public are beginning to realize.

That same public will have another opportunity next January to pass the bylaw. At least such are the surface indications.

At yesterday's city council meeting, at which all business was despatched in three hours, Ald. O'Neill's motion that the committee of works be required to consider and report as soon as possible on the advisability of submitting a bylaw to the people at the coming election, to vote funds to defray the cost of the extension of Bloor-street easterly to connect with Danforth-avenue, and to Parliament-street northerly to Bloor-street, the improvement to be in the nature of a viaduct suitable for street car traffic as well as pedestrian and vehicular, was carried without dissent.

The recommendation of the board of control to the North Rosedale car line, to authorize the city engineer to construct a line along Glen-road, Summerhill-avenue and Schonfeld-avenue, to a Y at the lacrosse grounds east of St. Andrew's College, was also passed.

The Humber Park-boulevard project was not formally discussed. However, the mayor, in reply to a query, said that at to-day's meeting of the board of control, arrangements would be made for an inspection by the city council of the property.

The controversy between the city and R. H. Schultz over Mr. Schultz's attempt to build an apartment house at Spadina-road and Bloor-street was formally dropped and Mr. Schultz will be given a permit.

Mr. Schultz was formerly refused because of the bylaw forbidding the erection of structures within 25 feet of the street line on Spadina-avenue, whereas he planned to build up to the street line. Chief Justice Falconbridge ruled that he was entitled to do so, because his property was partly on Bloor-street.

Ald. Maguire criticized the action of the council with regard to the proposed Isolation Hospital on Bathurst-street. He asked that the rights of the city in the matter be defined before the property be purchased.

Ald. Chisholm informed him that the ground had been bought, whereupon Ald. Maguire asserted that the council had made a bad move if it was found now that they could not build there because of objections on the part of the township council.

"BLIND PIGGERS" CAUGHT

Provincial Police Round Up Gang of Law-Breakers in Porcupine.

As the result of numerous complaints about "blind pigs" in Porcupine, an investigation has just been made by the provincial police authorities, and valuable information received. Supt. Rogers, accompanied by Inspector Blackwell of the liquor license department, went north and prosecuted 15 of the offenders. Ten of the law-breakers were each fined \$100 and costs, while five others left in a hurry, and confessed their arrest. Some of the liquor was found in the camp tents while a large amount was also concealed in the bush and a few bottles were brought in at a time.

Two Quebec women, who were members of the gang, were also arrested and have been sent to the Mercer Reformatory for three months.

In the same round-up the provincial authorities took a negro into custody, who had slashed a man on the face with a razor. The negro in consequence got three months imprisonment.

"GIVE US OUR DEAD" THE WAIL FROM DESOLATED AUSTIN

Total Fatalities Now Placed at 150—Bodies Buried in Wreckage and Buried in Debris—Recovery of Bodies Proceeding—Army of Laborers Needed to Prevent Epidemic.

AUSTIN, Pa., Oct. 2.—Twenty-four known dead, eighty-six missing and believed to be buried beneath the debris, is the official census to-night of Austin's loss of life in the flood of several visitors and strangers were in town that day, and undoubtedly perished. Including them and allowing for inevitable errors in completion, the total dead will probably reach 150. Twenty-one of the bodies recovered from the ruins have been identified, and of the missing hope is entertained that some may yet be accounted for.

The problem of the hour in Austin to-night is to recover her dead from the thousands of tons of debris choking the narrow valley. To do so before it becomes necessary to burn the ruins and save the living from an epidemic an army of laborers must reach the town within the next 24 hours, officials say. Otherwise the torch may transform the wreckage into a pyre of most of these who have perished.

The single line of wire swinging between Austin and the outside world carried an urgent plea for workmen to the mayors of Buffalo, Pittsburg and Philadelphia. Samuel C. Dixon, state commissioner of health, supreme in command at Austin, voiced the appeal.

Encouraging responses are hoped for early to-morrow.

Queen's Park Will Lift Veil To-day

Sir James Hints at Important Announcement to Follow on Cabinet Session.

The date of the provincial by-elections or whatever else they may lead to, will not be kept in the dark much longer.

Sir James Whitney yesterday afternoon told the newspapermen that there would be a cabinet meeting to-day, and he added significantly that "there would be business of importance discussed."

The premier stated that Hon. Frank Cochrane, minister of lands, forests and mines, would come down from Algonquin Park to attend the cabinet council.

Sir James intimated that he might not have much information to disclose as a result of the meeting, but indications are that a definite date either for holding the by-elections, or "going to the country" will be decided on.

Heavy Rains Cause Floods

PUNXSUTAWNEY, Pa., Oct. 2.—Reports received here to-night are to the effect that flood water, due to heavy rains, has caused upward of \$500,000 damage through the Mahoning Valley. No fatalities are reported.

The reservoir of the Pittsburg, Buffalo & Rochester Railroad, located at Cloe, holding 120,000,000 gallons of water, was believed to be in serious shape, and as a precautionary measure, a sluice was opened and the water allowed to run out. A railroad bridge below this city caught timber and debris, forming a dam that backed the water into Punxsutawney.

Every cellar in the business district was quickly filled and hundreds of residences in the lowlands inundated. In many cases houses were lost from sight. The fire department worked during the night and to-day rescuing numerous families. While a number of houses were torn from their foundations, it is believed that no person was drowned.

Heavy damage was suffered in the country districts. Live stock was drowned and crops and barns washed away.

Local Capital Behind It.

The men behind the project are all well versed in the grain business; they say they are financing the proposition entirely themselves and assert that all the most modern grain-handling and cleaning appliances will be incorporated in their plant.

The capacity of the elevator will be 150,000 bushels of wheat at a time, or considerably more of oats or other feed grains. By the plan of selling which the promoters have mapped out this elevator, small as it may seem compared to the big western ones, will in a year handle as much grain as its bigger brothers on the upper lakes. It has been figured out that with a local elevator, the cost of grain to the retailer could be cut down by two cents at least, this because of the cheaper method of handling than from railroad cars, and also by the elimination of a couple of jobbers' profits that occur between the farmer and consumer.

AN OLD FIRM REMOVES.

Messrs. C. J. Townsend & Co. who have been located on King-st. for over 77 years, announce that they have removed to the northeast corner of Carlton and Church-sts. Special attention is directed to the advantages of the magnificent ball room and picture gallery, for auction sales of real estate and art collections.

PORCUPINE BULLETIN.

PORCUPINE, Oct. 2.—Weather remains bright and cool.

SIR THOMAS TAIT CHAIRMAN OF N. T. RY.

Latest Report From Ottawa Promotes Former Head of Australian State Railways—Laurier Ministry Not To Go Till Thursday—Borden Confers With Grey.

OTTAWA, Oct. 2.—The resignation of the Laurier government, which was to have taken place on Wednesday, goes over for another day.

The reason is that the governor-general will be in Montreal on Wednesday saying good-by to the Mount Royal Club.

The delay means that the Borden ministry will not be sworn into office till Thursday or Friday. In the meantime, every day produces new cabinet possibilities.

It is stated to-night that Dr. Roche's chances for a western portfolio have slumped and that on the other hand George H. Peirce, chief Conservative whip, has signified his desire to be left out of the new government.

Tait for N. T. R. Commission.

One of the most interesting reports circulated to-day was that the chairmanship of the National Transcontinental Railway Commission would be turned over to Sir Thomas Tait, formerly of the C. P. R., and more recently of the Australian government railways.

To-day's arrivals include Mr. A. E. Kemp, Major Currie, Major Sam Sharpe, and H. B. Ames. Mr. Borden had a lengthy conference with the governor-general to-night.

Murphy May Be Unseated.

The only Laurier minister who survived in Ontario is in danger of losing his seat. The election of Hon. Charles Murphy in Russell is likely to be protested. A meeting of 200 workers was held to-day and evidence of Liberal corruption in the election appeared to be plentiful. If Russell is opened the election of J. W. Vincent, K.C., is a sure thing.

Another protracted cabinet council was held to-night. The big item under consideration is said to have been the letting of the contract for the extensive harbor works at St. John, N.B. The right of the beaver government to let these contracts is denied.

No British Precedent.

The minister who recommended the Champlain market terminal contract, Hon. George P. Graham, is not even a member of parliament and will not have to defend his action on the floor of parliament. There is no precedent in British constitutional procedure for the course which the Laurier government is pursuing.

In addition to the Quebec terminal which, with associated works will involve a total expenditure of two millions, the minister of railways has on the ways contracts for intercolonial extensions involving many more millions.

The St. John Harbor Improvements are to cost twelve millions, of which five millions has been voted. Sir Wilfrid Laurier has said that contracts which are ready and for which funds are available will be let. Serious complications are likely to arise when these contracts come up for review before the new government. There is some talk of the Borden cabinet journeying to Quebec to be sworn in by Lord Grey on Oct. 13. This would be his excellency's last official act.

SIGNS OF A HARD WINTER.

WHITBY, Oct. 2.—Farmers in Ontario County are preparing for a hard and long winter, because the red squirrels and chipmunks have become very busy laying in their winter food stores, even going to the extent of collecting green chestnut burrs, breaking them open and hiding away for future use the unripe chestnuts. The natives declare they never before knew the squirrels to open green chestnut burrs or to begin storing food so early in the fall.

Very Fine Fur Goods.

There never will be a better time than right this particular day for you to purchase your fur garments for the season. The Dineen Company's stock is most complete and embraces all the newest Parisian designs made on the premises from personally selected skins. A set in some superior fur, such as Black Fox, Ermine, Persian Lamb or Marten, should be your next purchase. Call at Dineen's and see the unusually good display. The price will prove as attractive as the good quality.

NEVER AGAIN

Editor of La Presse Did Not Refer to Sir Wilfrid in Particular.

MONTREAL, Oct. 2.—Hon. T. Berthelme, proprietor of La Presse, in a statement to-day denied the report published in several journals that he had in an interview stated that Sir Wilfrid Laurier could never be re-elected as a successful leader.

He claims that he was misinterpreted and states that he was asked what effect he considered the recent election would have on Sir Wilfrid's future, to which query he replied that Canada could not expect to see another French-Canadian again at the head of the government.

These words were interpreted, he states, as having particular reference to Sir Wilfrid.

Let Him Down Easy.
When Magistrate Denison imposed a fine of \$5 and costs with an alternative of 30 days in jail upon George Parker, it was in the hope that he had made a good sleep for George, who had evidently not spent his cash for booze, for he set out to pay.

"I'll make it \$1 and costs," remarked the magistrate. "It's no use taking that man's money."

Obliged to Quit Business

So Breadful Was the Suffering From Itching Piles.

After Twenty Years of Pile Torments, Relief and Cure Came With

Dr. Chase's Ointment

You take no risk and you make no experiment when you use Dr. Chase's Ointment for piles. Many doctors still cling to the idea that nothing but an operation will effect a cure. But operations are expensive and dangerous, and often fall in their results. Some have been cured by Dr. Chase's Ointment after operations had failed.

Dr. Chase's Ointment truly has a wonderful record as a cure for piles and all itching skin diseases. Here is a case which was reported recently:

Mr. John P. Marshall, 14 Barnard-st., St. John's, Nfld., writes: "I suffered terribly with itching piles; at times so bad that I was obliged to lay up, unable to attend to business."

HAMILTON HAPPENINGS

WILL INQUIRE INTO CAB-DRIVER'S DEATH

While Thos. Graham is Thought to Have Committed Suicide, Mystery Still Clings.

HAMILTON, Oct. 2.—(Special.)—What at first appeared to be another mysterious murder, but which investigation proved to be a clear case of suicide, was the drowning in Hamilton Bay last night of Thos. Graham, a cab driver, 21 years of age, who lived in his widowed mother at 63 Napier-street.

The young man's death was not discovered until this morning, when the finding of his coat and hat on the pavement led to dragging operations by the police, which soon resulted in bringing the lifeless body to the surface. Found on Graham's coat and a large lump on the back of his head suggested foul play, but after tracing the man's movements last night, the police and Coroner Dickson reached the conclusion that the wound on the head was the result of Graham's own actions and that he had deliberately committed suicide.

After consulting Crown Attorney Washington this afternoon, Coroner Dickson decided that an official inquiry should be held into the circumstances of Graham's death, and an inquest was accordingly opened to-night in the city morgue. The jury viewed the body there, and adjourned until Friday night of this week, when the inquest will be resumed.

Nothing sensational is expected as the result of the inquest, but the crown officers think it would be better to have certain circumstances in connection with the man's movements last night satisfactorily explained.

New Site for Jail.
The total inadequacy of Hamilton's jail accommodation was again brought to the attention of the police and jail committee at its meeting to-night by Governor Ogilvie. The governor was assured that the board of control, who have the matter in hand, is doing everything possible to find a new jail site.

Mortgages or municipal bonds as a medium for the investment of \$5000 of the firemen's benefit fund was debated by the committee without definite results, and the question was sent up to the board of control for consideration, with the recommendation that the body invest the fund as it sees fit.

Progress had been made towards the defining of the powers of Fire Chief TenEyck, and this matter was again laid over.

Kinrade House Sold.
It was reported to-day that the Kinrade home at 105 Herkimer-st., which will be remembered as the scene of the celebrated Ethel Kinrade murder, had been sold for \$5000. For some time after the murder the house stood vacant, but for nearly two years the place has been rented at \$15 a month. It is still the name of a Mr. Elliott is given as the present purchaser.

Mr. Shirley Benn, Unionist member of parliament for Plymouth, England, arrived in Canada Saturday by the Empress of Britain, and is staying at the Windsor, Montreal. He will remain for a while in Canada on business, and then hurry back to England for the opening of the imperial parliament.

Mrs. T. W. Dyas and Miss Marjorie Dyas left yesterday to spend a month in Boston.

A wedding took place at half-past two o'clock yesterday afternoon at the residence of Mr. and Mrs. Percy Hamilton Kane, 111 Farnham-ave., when the marriage was solemnized of Miss Mary MacKidd, younger daughter of the late A. A. MacKidd and of Mr. MacKidd, to Mr. Gerald Brock Jackson, son of Mr. and Mrs. J. G. Jackson, Lincoln, Mass. The ceremony was performed in the presence of only the immediate relations, by Rev. Canon Bryan of the Church of the Epiphany, in the drawing room, which was decorated with quantities of golden chrysanthemums, white roses and palms. The bride, standing in the bow window, which was banked with palms, having a canopy of roses and smilax. An orchestra played the wedding march, and the bride and groom were escorted to the altar by the bridesmaid, Miss Maudie Kendall, who was given away by her brother-in-law, Mr. P. Hamilton Kane, who wore a green and white crepe de chine, made simply in simple style and trimmed with seed pearls, the front and back of the bodice being trimmed with the same. Her veil was arranged in a Juliet cap with white ribbons and a sheaf of pearls, and she carried a shower of roses and lily of the valley, her only ornament being the groom's gift, a diamond necklace and earrings. The bride's sister, who was matron of honor, wore a gown of pale blue, paneled with fringed embroidered marquisette. She carried a sheaf of American Beauty roses and wore the groom's gift, a drop pendant of a diamond, set in a diamond and white pearl necklace. The groom wore a tuxedo, and the bride wore a gown of white, trimmed with black velvet. Go to Fight Turkey.
NIAGARA FALLS, Ont., Oct. 2.—(Special.)—Niagara Falls Italians are anxious to take up arms for their native land. Some have already left for Italy. There are more than eight thousand Italians on both sides of the river.

An argument over a seventy-five cent debt, with talk of Turco-Italian war thrown in, caused a fight in which Tony Zappano, Italian, bit Sam Delaney's arm. Tony was fined ten dollars. The fight almost resulted in a race riot in the foreign section of the city.

Nearly Every Merchant Needs More Light

Nearly every merchant can use more light. The Humphrey System solves the problem. More light—less cost—that's the ideal illumination. It is one of the best forms of advertising. Keep advertisers realize this fully. The brightness of a store enhances the value of whatever other advertising is being done by the merchant.

The Humphrey Gas Arc Makes Dull Stores Bright

You can illuminate your whole store every night with the Humphrey Lamp System, making a show room of the store at less expense than by any other system. No matter how your lighting is now accomplished, if you will abandon your present equipment and have the Humphrey system of Gas Illumination installed, it will bring you a marked saving within a year.

Our representatives will supply you with many interesting particulars of value to you and your business. His time is at your service free. Phone Main 707.

Note and Comment

Why make excuses? The Tecumseh are keeping their engagement, and the lifting of the Minto Cup would have been a surprise. Vancouver are only ahead 5 to 0, and will hardly hold the silverware by better than 10 to 0. In fact, the Indians will hardly go thru two games without scoring.

The Eastern Baseball League post-season series has been abandoned with four left unplayed. It should not have been necessary to call the games off. They should never have been started.

With the Giants and the Athletics competing in the world's series, a noteworthy feature will be the presence of an Indian on each team. Chief Meyers, the Giants' star catcher, and Chief Bender, the Athletics' midget in the box. Also several other ball players might be figuring in the world's series if they were not Indians.

As a slight equivalent for the loss of the United States golf championship to H. H. Hilton of England, the Yankees boast the titles of France, Germany, Eastern Austria, and Switzerland. Chief Evans is responsible for the first named and A. H. Revell for the other three.

Baseball is not exacting so much attention in big old New York that cricket is neglected. Far from it, in the second season of the New York and New Jersey Cricket Association no less an interest was experienced among the members of the clubs composing that thriving organization. The eleven of the Staten Island Cricket and Tennis Club, which formerly was so successful in the Metropolitan League, again secured the championship series without a single defeat. Eight matches were contested, of which six were won by the Staten Islanders and two were drawn. In addition to this, one of the members of the Staten Island club, H. R. Nicol, was placed first among the association bowlers for the season.

The New York Veterans' Cricket Association, that sent a team to Toronto last summer, finished below Staten Island in the competition, and enjoyed the distinction of claiming the batsman with the best association batting average in Dr. C. Beiling. Sidney Deane ranked high as always, while G. W. Hayman, F. J. Kelly, G. Brown and E. J. Frazer were all well up in the double-figure list. A. Hignall of Richmond County, whose batting placed third in the standing, was second among the batsmen. L. W. Stoughton, J. N. Escobal, W. Radford, C. Purville, E. C. Hull and E. O. Challenger being also placed well up in the averages.

Post Season Series Declared Off by President Barrow

A report from Rochester says that the post-season series is off. President Barrow of the Rochester Club refused to live up to the agreement made by his manager, John Ganzel, with President Jarro and Jack Dunn, to play yesterday in Newark, so President Barrow declared the series off.

President Edward Barrow of the Eastern League will be in Toronto this morning, and may throw some light on the unsatisfactory ending of the series.

President McCaffery of the Toronto Club, when asked his opinion, preferred not to have anything to say in the matter.

Sporting Editor World: On behalf of the Boston Baseball Club I hereby wish to accept the challenge of the Wellington baseball team. We are willing to play best two out of three games commencing Saturday, Oct. 14, and would suggest playing one game at Dufferin Park, one at Scarborough Beach, and the third game, if necessary, on the island—Stam Whitney, manager Eastern Baseball Club.

The Detroit News says that the Detroit American League Baseball Club has secured waivers on Left-Fielder Davey Jones and Catcher Sam Rice. Jones has been definitely sold, but disposition will be made of the veterans, but it is intimated that they will go to the American Association.

OTTAWA'S PROSPECTS NOW LOOK VERY BRIGHT

Good Turn-out at the Capital on Saturday—Local Clubs Practicing Hard—Gossip.

OTTAWA, Oct. 2.—Counting upon the addition of Jack Williams this week, Ottawa will face Montreal at Lansdowne Park Saturday in the opening game of the Big Four schedule with the strongest line-up that has won Ottawa jerseys for a number of years. Marty Walsh, the midget coach, is turning out a team that is drilled in every department of the game, and when the M. A. A. fourteen take the field they will be opposed by a bunch of Rugbyists trained to the minute and with the confidence necessary to go out and win. Ottawa is looking forward to winning the I. R. F. U. honors this fall, also the Earl Grey Cup, and if the team is to get away to a good start a smooth-pulling fourteen is a necessity. Coach Walsh believes he has a winner in the material he has on hand, and, with every man paying particular attention to his job, they are going to get away in getting away with the big end of the score.

Thursday afternoon, with forty men in uniform, the team went thru a snatching practice, the seniors working a bunch of fifty signals, and amply play featuring the workout. Gordon Johnston, Eddie Gerard, Toady Robertson and Dave McCann comprise the back division that has a bundle of speed and nerve, while Charlie Snelling is rounding in nicely as quarter. The scrummers will likely be Ed Martin, Kuhn and Wilkinson, while, on the wings, Ryan Kirk, Vaughan, Sullivan, Finlay and Hill present a great front. The spares, Hickey, Dunmy and one or two of the junior squad, look mighty nifty.

The Argonauts were at it last night and are determined to be ready for the start on Saturday. Two full teams were out and were lined up. One little surprise was noticed in the Argonauts when the line-up was made. It was seen that Mallett, who was at full back last night, was now at full back, and that the Argonauts were now at full back. INTERNATIONAL POLO

Buffalo and Toronto to Play Saturday Afternoon.

On Saturday afternoon next the only international match of polo to be played in this city, carrying the annual tournament, will take place at the Woodbine, between Buffalo and Toronto. The Buffalo team, which was defeated by Toronto in 1906, last year Buffalo challenged and was beaten. This challenge was accepted, and the two teams are coming over two teams strong, supported by ponies bought in New York that were used in the international match with England, when it was said the British were beaten by the superiority of the mounts of their opponents.

Smith Boys' Marathon

The second annual Smith boys' road race will be run from Vermont Park, on Saturday, Oct. 7, at 8 p.m., for boys 14 and under. The distance is three miles and the course is as follows: Starting at Vermont Park, running east on Vermont avenue to Bathurst street, north on Bathurst street to the west end of the street, and then back to Vermont Park.

New York Cinches Pennant

At Pittsburgh—the New York team appeared in the closing game of the local baseball season yesterday, defeating Pittsburgh by a score of 3 to 0. It was an exceptionally well-played contest. The prominent feature was the pitching of Wilton, who held the local batsmen to two singles, one of a decided scratchy character. Not a Pittsburgh player reached second base, and only four got to first base in all only two were out.

Chicago at St. Louis—Postponed; wet grounds.

At Philadelphia—Philadelphia hit the double in the first inning and defeated Boston, 5 to 2. Hog, the third pitcher used by Boston, and Chalmers, who succeeded Curtis, were effective. Score: R. H. E. Boston..... 0 0 1 0 0 0 0 0 2 3 Philadelphia..... 5 0 1 2 0 0 0 0 2 3 Batteries—Hendrix and Gibson; Wilton and Myers.

The making of Goad's Atlas, so well known to insurance and real estate people, is no mean undertaking, as evidenced by the fact that the business has just been sold to the executors of C. E. Goad, civil engineer, to C. E. Goad, Jr., V. A. E. Goad and J. L. Goad, for \$151,000.

NEW YORK, Oct. 2.—Neither the Italian nor the Turkish consulate in this city received communications from their respective governments on matters concerning the Turkish consular officers in this country. It was said at the Italian consulate that some young Italians were returning to their native lands under the conscription law, which compels service in the army for two years on reaching the age of twenty, no move had been made, but it was likely to be made for compulsory registration in this country for Italians liable for service. At the Turkish consulate it was said that the services of the Ottomans in the United States, of whom there are about 200,000, would not be needed.

EATON'S Stylish Hats for Men

THIS Hat is an actual drawing by our own artist from a hat in our department, so you are sure you will get just what we represent, or we will quickly refund your money. It is one of the very newest and latest styles for the young man, and is made of fine fur felt in a medium shade of brown, with silk trimmings of darker shade. Edge of brim is finished with silk stitching, and fits in admirably with the prevailing brown tones in clothing and season's tints. Price 2.50

NEW FIND IN PORCUPINE TICKLED HON. MR. HANNA

Quartz Outcropping Discovered in Hitherto Untapped Region.

PORT HURON, Oct. 2.—(Special.)—While tracing a lead on the David lot in Whitney in an endeavor to find it on the Eldorado property, Supt. Tom Jenkins discovered a quartz outcropping in virgin territory on the United Porcupine from which pay values were taken Saturday. Lenses of quartz appear over a stretch of schist for forty feet, and may prove to be a big factor in Porcupine's future mining.

BOASTED OF BURGLARY

Man Arrested at Prince Rupert Thought to Know of Bank Robbery.

PRINCE RUPERT, B.C., Oct. 2.—A man using the names of Alexander Johnson and William Wheeler was arrested here to-day as a suspect in the New Westminster bank robbery. He had attracted attention from the police by displaying large sums of money at various amusement resorts. He at first boasted that the money was part of the \$250,000 stolen from the bank. Later he said the money was received from the sale of a Montana ranch. When searched by the police, \$500 in United States bank notes was found in his possession. He is also said to have deposited \$10,000 in banks since arriving here.

WASHINGTON, Oct. 2.—Transportation of United States mail across the continent by aeroplane, over an official designated route, by a special mail messenger appointed by Postmaster-General Hitchcock, is a test that will be undertaken this week.

The aeroplane will complete preparations for the long and perilous feat of transporting official mail across the continent from New York to Los Angeles in his airplane.

A special mail messenger appointed by Postmaster-General Hitchcock to act as a mail carrier, and directing the postmaster at New York to designate letters for the aeroplane route. Official sanction of the postoffice department not only was given to the undertaking, but a special mail messenger was also appointed by Postmaster-General Hitchcock to carry the ordinary pouch being too cumbersome and unwieldy. The pouch will contain letters for Chicago delivery as well as for delivery in Los Angeles. The postmasters in both cities have been instructed to receive and handle the mail delivered by Ovington.

The aeroplane will carry a small sign bearing the words "U. S. Mail." Ovington will also carry his credentials from Postmaster-General Hitchcock, which will insure him every possible aid from postmasters and postal officials en route.

No date for the beginning of the flight yet has been announced, but Ovington has assured the postoffice department that he will start from New York within a day or two.

Needs of the Minister. Rev. Thomas Walkenshaw, of Bristol, England, gave the address at the first fall gathering of the General Missionary Association in the Wesleyan Building yesterday morning. His subject was the qualification of a minister and he declared that a minister should not only have high ideals, but be spiritually minded and very energetic.

This being the first meeting for the fall the new officers were chosen. They are: President, Rev. Dr. Brantwell; vice-president, Rev. L. Skoy; secretary-treasurer, Rev. John Coburn.

Along the Waterfront. On account of the strong easterly wind the water level in Toronto Bay yesterday rose from 6 1/2 degrees to 5 1/2 below the zero mark.

Bound for the head of the lakes the three big freighters Regina, the Canadian Line; Rosedale of the Inland Line, Limited, and Jacques of the Merchants' Mutual Line, left the waterfront yesterday.

Young Girl's Plight. Seldom are sadder sights to be seen, even in that sad clearing house of tears, the police court, than that which presented itself yesterday morning when Susan Crawford, just 18 years old, was sent to the Mercer Reformatory as a vagrant.

She admitted that she had lived in a house of ill-fame, but declared that since then she had kept straight; indeed, she had, and then the same comes, amidst which she was led away.

New Pastor From Glasgow. Rev. D. Miller of Glasgow, Scotland, the new pastor of Beverley-Baptist Church, will probably arrive in Toronto, Oct. 16. He sailed from Scotland Oct. 7, and will preach his initial sermon Oct. 22.

Child Burned to Death. MARGARET, Oct. 2.—Aime Forger, aged 1 1/2 years, living in St. Henri, was burned to death at 8 o'clock this morning. The little boy's mother had raised there yesterday morning when she heard him crying, and rushing to the room found him enveloped in flames.

BLANKET OF RETAILERS Put in Evidence in Missouri Probe of Lumber Trust.

ST. LOUIS, Mo., Oct. 2.—Official documents of the Southwestern Lumber Dealers' Association, which contain a virtual blacklist of retailers, were put in evidence by the state today in the hearing here of the suit to break up the alleged lumber trust.

Another document placed in the record by the state was the speech of A. Long of Kansas City, who, as president of the Southern Lumber Manufacturers' Association, told the members at a meeting in New Orleans, Jan. 24, 1905, that thru the agreement...

Invitation is extended to ladies to call at Rutherford's, 642 Yonge-street. They are showing the latest in fall millinery.

THE WEATHER

OBSERVATORY, TORONTO, Oct. 2.—(8 p.m.)—Pressure is high over the great lakes, while a marked depression covers the western states. Rain has occurred 30-day in the western provinces, but from Ontario eastward the weather has been fine.

SEAT FOR T. H. LENNOX IN WHITNEY CABINET?

May Succeed Hon. W. J. Hanna if Latter Becomes Attorney-General.

T. Herbert Lennox, M.L.A., is the latest potentiality in the list of "probables" who may be raised to cabinet rank in the Ontario Government.

As regards the provincial treasury, it has been said that Hon. A. J. Matheson does not intend much longer to be burdened with the cares of state, and the responsibility of his office is very great.

It is reported that Mr. Lennox is being considered for the position of secretary of the Ontario Government.

Among the more promising members of the government, Mr. Lennox is being considered for the position of secretary of the Ontario Government.

"GIVE US OUR SHARE" THE WAIL FROM AUSTIN

left town after the disaster to take refuge with relatives or friends. Twenty-five coffins reached Austin today, and 100 more ordered by wire are expected here to-morrow.

Rescuers to-day found one woman with five small children, whose clothing averaged less than two garments each. Three men carried armfuls of garments to the house, where she and her little ones were cared for.

A woman, mistaking the relief station for the house, where she and her little ones were cared for.

"This is all I saved," she said. "I slept Saturday night on the ground with the book for a pillow and the chocolate mixed with cold water is all that I had to eat until Sunday night."

A gaunt old man, with sunken eyes, clad only in shirt and trousers, plucked at the sleeve of an officer of the state military police.

"Can you lend me an overcoat for my wife?" he asked. "She is up the line here, where we took her on Friday—had been there six months—and I'm afraid she will die if I can't get some clothes for her."

"Here," answered the officer, removing his own overcoat, "take that to your wife; assume it as a cooper removed his 'is one for you."

NEW CEMETERY DEAL SPRING ON THE COUNCIL

York Township Council yesterday afternoon, when Solicitor J. R. L. Starr, for the municipality, presented an entirely new scheme for the opening up of a new highway thru Mount Pleasant Cemetery, going away with the proposed crossing over the Belt Line near Merton-street, and later skirting the north side of the Belt Line until the old Moore Park bridge is reached.

It was a brand new scheme in the mind of the solicitor, and while it is not so original as it looks, it strongly impressed the township council and Engineer James of North Toronto, who was present, was delighted with the project.

Major Brown, who also was present, not apparently so impressed with the scheme, but promised to confer with his colleagues on the council board at the finance committee meeting later in the day.

It may be as well in the outset to explain that after long-continued struggles, and thru the intervention of the legislature, the township of York forced in getting authority to force a highway thru Mount Pleasant Cemetery, connecting on the northerly side at Merton-street, with a new highway from Yonge-street, east about half a mile, south from Merton-street to the proposed road in a straight line.

News of Railways

When the British editors who recently made a tour of Western Canada were conducted over the Canadian Northern lines by Rex Toronto...

A couple of wheels of freight train No. 64 ran off the track at Cobourg, on the G.T.R. Toronto to York Bay line, yesterday afternoon.

The right-of-way of the transcontinental railway is now cleared from Port Arthur to several miles beyond Neponset.

A new foundry, employing several hundred men, is shortly to be erected in Port Arthur in the interests of those who control the Atholton Iron Works.

M. G. Murphy, who recently occupied the position of general traveling passenger agent in Montreal for the C.P.R., commenced his duties yesterday as district passenger agent for Ontario.

It was announced yesterday that C. N. E. engines would no longer be housed by the G.T.R. in their Toronto round-house because of the lack of accommodation.

It is rumored that the G. T. R. are considering acquiring the property known as Wolfe Park, at the corner of Queen-street and Sunnyside-ave., to be used in connection with their new station.

Notice is hereby given that at a meeting of the Council of the Corporation of the Township of York, to be held at their Council Chambers on the northeast corner of King and Jarvis-streets, in the City of Toronto...

Noderate Speculation Checks Enthusiasm and Prices Back and Fill Alternately—Nor Wheat Markets Easier.

CHICAGO, Oct. 2.—Corn led all the other markets to-day in point of activity and strength. Wet weather and heavy clouds was the cause. In the morning prices were 1/2 to 1/4 higher than Saturday night. Wheat closed unchanged to a sixteenth lower, oats made a net advance of 1/16 and hog products were at the same level as the previous close to 1/4 up.

Wheat—Wheat was a rather exasperatingly heavy market. Receipts were disappointing and a big increase in the visible supply were expected by the corn strength, by frost reports from the Argentine, and by a forecast of aet in the Canadian Northwest. The tone at the close was easy.

Northwest Receipts.—Receipts of wheat in cars at primary centres were as follows: Week Year Chicago To-day, ago, 80 209 Duluth 100 100 Minneapolis 1000 1001 312

European Markets.—The Liverpool market closed to-day unchanged to 1/4 lower than Saturday, and 1/2 higher than Berlin to low closed 1/4 lower on wheat.

World's Shipments.—The weekly world's shipments were as follows: This week last week Wheat bush 1,017,785 1,130,745 Corn bush 1,440,000 1,450,000

Liverpool Wheat Market.—LIVERPOOL, Oct. 2.—The market opened firm, but weaker after an active session. The weather was liberal, owing to heavy contributions from America, while Russia's exports were at the close of the month.

Visible Supplies.—A comparison of the total grain supplies in the United States to-day and on the corresponding date of the past two years is as follows: 1910 1911 Wheat bush 34,977,000 32,700,000

On Passage Statement.—On passage: Wheat, 21,256,000 bushels, against 23,820,000 last week and 24,100,000 last year; decrease 2,564,000 bushels.

ST. LAWRENCE MARKET.—Receipts of farm produce were 500 bushels grain and 5 bushels of oil. Wheat—Three hundred bushels of fall wheat sold at 80 to 82 per bushel.

Colorless News in Grain Markets—Narrow Trading in Evidence.

J. P. Bickell & Co. received the following news from Logan & Bryan: Wheat—After a fairly quiet day in the market, a narrow range was maintained on both sides of the market.

Wheat—Wheat was a narrow market (receiving affairs) was being actively traded, but colorless. Speculation was on both sides of the market. Local crowd were apparently mixed as to whether they were to follow the lead of the least resistance.

Sharp Upward Swing in Porcupines--Fall Movement in Sight

Market Develops Strong Tone And Prices Advance Sharply

Incoming of More Responsible Demand Brings All-Round Upturn in Porcupines--Optimistic Sentiment Rules.

World Office, Monday Evening, Oct. 2. Concurrent with the upswing in the new month came a decided change in the tendency of the local mining markets, and under a sustained buying demand from outside traders and a shift covering movement on the part of floor brokers, prices were advanced to a material extent.

The market showed a better tone than in a number of weeks, and the manner in which prices were marked up was conclusive evidence that a substantial movement had been engendered. Trading continued quiet in the majority of instances, but this was due to a lack of offerings rather than to any restricted public demand.

Market in Over Gold State. The market had undoubtedly been oversold during the recent period of depression, and it was largely on this fact that the movement today was founded. An excellent public demand was encountered on the rally, however, and this brought about a further advance throughout the whole list.

Hollinger showed a remarkably strong tone, selling 40 points above its price at the close last week. The shares were in great demand, and it was understood that the buying was largely for a short interest, which had grown apprehensive at the improved tendency shown in the cheaper issues.

Bullish Sentiment. A 15 point advance in Rea, which sold up to \$2.65, marked strong covering on the part of traders who had put out stock on the recent slump.

Porcupine Can Come Back. Unlike renegade politicians and peace fighters, "Porcupine" can come back. Several gold mines have received several body blows which served to make it stunner, but the recuperative powers are still there.

The markets for the gold stocks have been demoralized, having very naturally felt the effects of those conditions which have caused pressure on securities of every description.

It is to be wondered at that speculative shares of the nature of the various Porcupines should follow prices, when the world's primest securities, "British consols," have been repeatedly making new low records, or should sympathize with other standard dividend paying shares?

The wonder, if any, is that Porcupines have held up so well. There can be but one explanation for this, and that is that holders have a confidence in Porcupines which, the temporarily shaken, cannot be destroyed. Perhaps at the outset there was a little too much optimism, and estimates were a little premature. Better this, however, than that the camps should have lagged.

Unfortunately for many the fire retarded the realization of predictions which were well in sight before this event. It was confidently expected that a stream of gold bricks would have been coming from the camp by this time. It is to the output of the yellow metal that Porcupine looks for substance, and without any more unfortunate mishaps, this should be in evidence in the course of a few months.

Properties forward in their development, such as the Dome, Dome Extension, Hollinger, Pearl Lake, Jupiter, McIntosh, etc., should tell a story of a valuable output soon in the new year, and leave room for an estimate of dividend returns to those who have bought the shares of these companies for a long date investment. By this time there will be other properties reaching a stage of actual completion, and then the market prices of the shares will have occurred in the fact.

Present day buyers of Porcupine are not the timid ones who always regret that they have been lacking in confidence and judgment at the right time. These with a glimpse of the future and a hopeful disposition, are quietly absorbing moderate amounts of the mining issues of merit, and this is beginning to have its effect on the market.

The trend of prices has changed and who can say that the improvement is not warranted?

STRIKE AT PIKE LAKE. Announcement of another rich strike on the Pike Lake Gold Mines property in Swastika camp, is contained in a special wire from E. F. Reeves, who is in charge of operations. He reports that a new discovery, showing free gold and assaying \$42 in gold to the ton, was made on Saturday last.

WILL RUSH OPERATIONS AT SCOTTISH ONTARIO

New Owners of Property Will Install Up-to-Date Plant and Wage Aggressive Development.

Porcupine, Sept. 29.—(From Our Man Up North.)—Announcement is made to-day that the English Canadian, recent purchasers of the Scottish Ontario, will start work within a few weeks on an exceedingly large scale. Improved modern mining machinery will be installed.

While all the plans of the new operating company are not made known, it is said that the main shaft will be deepened to the 300-foot level with drifts run on each 100-foot level. A large compressor plant will be put in, and a small stamp mill for the purpose of testing out the ore and working out the dump pile installed as soon as the machinery can be gotten in. New camp buildings will be erected.

It is also said that Engineer and Geologist Peter McLaren will remain with the company as chief engineer. George Willocks, at present secretary to the Scottish syndicate, is interested in the new company.

The government road from the station in Golden City to the Scottish Ontario is about completed, so that teams are able to do hauling. It should not be required much time to get in new machinery provided the company's orders can be filled forthwith.

The Scottish-Ontario now enters into the mining period. Chas. Fox.

SHAW AND DELORO

Two Mines Will Reconcile Work When Transportation is Provided.

Porcupine, Sept. 29.—(From Our Man Up North.)—The beginning of a new era in the mining industry of the Shaw and Deloro is now being witnessed. The whole mining crew of the Philadelphia Mines is at work assisting in the grading and laying the roadway along the Tisdale-Whitney boundary line.

The road is now nearly completed to the Steel-Dome claims in the southeast corner of Tisdale. For the present it will be continued to the James Syndicate holding, a distance of nearly 1,000 miles into the Tisdale-Whitney boundary line.

On the completion of the road a prospecting plant will be taken to the Philadelphia Mines, where work will start. The former plant was burned in the July fire.

The shafts are down below the 50-foot level, and a steam hoist, as now required, a compressor may be put in. The property has been well prospected on the surface.

With the Philadelphia Mines back at work and a shaft down to the 50-foot level something as to what depth shows in this section will be known. The James Syndicate, who holds the Philadelphia Mines, are working before the fire. Work will also start on this property with the completion of the road.

Chas. Fox.

RICH DISCOVERY MADE

New Vein on Armstrong Doble Traverses Crown Chartered Claim.

Word was received from Montreal yesterday that a rich discovery had been made in the neighborhood of 60 feet on the Armstrong-Doble property in North Tisdale, where active development work has been in progress for many months.

The Armstrong-Doble has just east of the No. 1 claim of the Crown Chartered Co. and the vein on which the rich strike has been made traverses the No. 1 claim of the Crown Chartered Co. as well as claim lying just to the west. Geologists have maintained that the formation of the three claims is the same, and recent developments on the Armstrong-Doble will tend to strongly confirm this theory.

POSSIBILITIES OF SHAW AND DELORO TOWNS.

Engineers Enthusiastic Over Prospects for Southern Section of Porcupine Camp.

Porcupine, Sept. 29.—(From Our Man Up North.)—That large stretch of country lying to the south of Whitney and Tisdale known as Shaw and Deloro Townships is at last to get a fair chance in the way of development.

For a stretch of fully five miles in which the fire of July 11 burned the township, comprising a large portion of the timber and clearing out even the most despoiled swamps where water generally lies the year around.

The country bears a changed appearance. The swamps, laid open to the glare of a hot sunlight with the timber and top layer of rotten vegetable growth removed, dried in many places, and now do not present half so much difficulty in getting thru the district. Roads are more easily made and better still the view is so much clearer and it is easier to determine where the most effective work should be done.

Mine men who have gone over the Shaw and Deloro districts since the fire, declare that there are as many encouraging conditions in this section as in any part of the Porcupine belt. And they even go further in their statements, saying that in Shaw Township alone there is fully 50 per cent. more rock outcropping than in either Whitney or Tisdale.

Authoritative opinions favor the idea that the leads should be prospected as far as possible in the most favorable way to get at the values. It is said that with holes down from 100 to 300 feet the question of values in favoring leads would be decided.

Nearly every one of the quartz leases yield free gold. No one has ever disputed the fact that the gold has been taken from the Shaw-Deloro southern section. But sulphides were looked for, and so far there has not been sufficient depth made to show them.

The Shaw-Deloro district appears to be a part of the great Tisdale-Whitney belt, except that the rock to the south outcrops more than in the north part of Tisdale, and in the central part of Whitney, where the clay and much overburden hides the formation. The government geological maps show that the Keewatin schist covers this territory more evenly than in sections to the north, where the European plays a part.

The Shaw-Deloro district is a large one, and well worth a look from those who desire more than a fair prospect as a start towards mining. Chas. Fox.

BEAR SQUEEZE AFTERMATH

H. B. Wills Would Have Sale of Porcupine Central Declared Void.

A recent flurry in Porcupine Central shares, in which the stock advanced to a dollar and 25 cents, has resulted in a civil action being brought by Hamilton B. Wills against J. Thomas Reinhardt.

The plaintiff, in the information on which the writs were yesterday issued, states that for a client he sold 500 shares of the Porcupine Central, and alleges that before he was able to purchase the shares, they had, by manipulation, been shoved up to an inflated price of \$1.25.

Wills further alleges that nearly all the stock of the Porcupine Central is held by the defendant, so that the price of the shares could be easily manipulated. He wants his suit declared void.

MUST EVANGELIZE WORLD

Sir Andrew Fraser Believes Work is Not Only Needed at Home.

"There is an excuse for the existence of more than one denomination, but there is no reason or excuse for denominational disunion," declared Sir Andrew Fraser after responding to the opening prayer at the Missionary Movement dinner at McCone's yesterday afternoon. Sir Andrew went on to expound the needs of India and the great countries, and pointed out how heathen religions and how the people are crying out for the Gospel of Jesus Christ.

Sir Andrew is lieutenant-governor of Bengal for 20 years and is therefore well acquainted with the needs of that country and speaks from actual experience. He is a great and earnest man, and it is to be hoped that the time is at hand to arouse the people of this country to their responsibility towards the Founder of Christianity and to millions of people existing in religious darkness.

ECUMENICAL CONFERENCE

Meetings Start To-Morrow and Continue Two Weeks. To-morrow morning the Methodist Ecumenical Conference will open in the Metropolitan Church. Meetings will be held every morning, afternoon and evening during the next two weeks. The morning session will start to-morrow at 10 o'clock, and after that at 9:30. The afternoon meetings will start at 3 o'clock and the evenings at 8 o'clock.

Some of the delegates, of whom there will be nearly five hundred, have already arrived, but the great influx is not expected until this afternoon. This is the fourth ecumenical conference, one being held every ten years. The fact of this one being held in Toronto speaks well for the Methodists of this city.

Hurry! Here Comes Jack Frost

Girls, big and little, will have a chance tomorrow, not only to protect themselves from the roguish fellow, but to do it most becomingly, by buying these smart coats that are priced here so economically.

There are stylish coats in all the up-to-date materials, designed on dainty models; coats suitable for the young woman in her teens, or for the little girl six years old. They are all made with the same care, and there is just as much thought given to the designing of the child's coat as there is to the young woman's.

There is one particularly striking style; it is made of all-wool beaver cloth, in colors of navy or olive green; the collar at back is finished with a pointed effect — and is effectively trimmed with Tartan plaid; the coat is lined across shoulder with self material, made for ages 14, 16 and 18 years. Price 19.50

Another taking coat is of imported tweed mixture, in fawn and grey shades; it is made in single-breasted style, and is semi-fitting; the collar is inlaid with black velvet, for ages 14, 16 and 18 years. A wonderful coat at 7.25

A Girl's Coat, of fine kersey cloth, in navy, green or brown, lined to the waist; this coat is single-breasted and fastens close up to the throat; a smart effect is given to this coat by the new plaid rounded collar; for ages 6 to 14 years. Price 4.50

A very handsome Coat of black silk plush, smartly made and lined with heavy twill, which is quilted, making the coat not only dresy looking, but warm and comfortable as well; it is trimmed with large novelty buttons; for 6 to 14 years. Price 10.75

A Wonderful Chance in Our Skirt Section

We have quite a number of broken lines already, and as it is sometimes impossible to get some numbers again from the manufacturers, we are going to clear out these lines with broken sizes; there may not be your size in all the styles, but there's sure to be your size in the lot. They are all Panama cloths, and in navy blue in several different designs. Regular price \$4.50 and \$5.00. Wednesday price 2.39
