TWENTY-SEVENTH YEAR

SYMPATHY, NOT CHARITY, MASSES ASK OF CHURCH

Rev. Chas. Stelzle of Chicago Delivers a Plain Spoken Message on the Attitude of the Church Toward the Interests of the Working Classes.

Rev. Chas. Stelzle, Presbyterian clergyman of Chicago, is in the church for the benefit he can bring to the workingman. If it were not for the possibility of working such benefit, he would, to use the colloquialism employed by himself in speaking before an audience in Cooke's Church last night, "cut out the church."

Mr. Stelzle indicated at the outset where his sympathies lay. Labor organizations were stronger now than they had ever been, and the labor union had come to the fore. The question was whether these unions were to be good or bad, and the church was confronted by the duty of seeing that the unions were to exert beneficent influences.

Mr. Stelzle told of his own upbringing in a New York "sweat shop" where he had been sent to work at 8 years of age. His mother, four sisters and himself occupied two small rooms in an east side tenement. He spoke with tenderness of the patient drudgery of the mother, and the cheerless existence, and with a plain guide to the church must study the problem sympathetically, not charitably. It is sympathy these people want," he averred.

The church should make the people the end of its endeavors. Unfortunately some churches make the minister their chief end. Hence, so many churches were planted not where the most people lived, but where they would receive the most monetary support.

Mr. Stelzle criticized the attitude of certain churches, which having given a donation towards the building, showed some such body, thought they had done their duty. To reach the great masses the church must touch as many points as possible in their lives. Down town churches should be kept open every night, and a portion of the services should be physical and intellectual needs should be attended to as well as the spiritual.

Mr. Stelzle criticized the attitude of certain churches, which having given a donation towards the building, showed some such body, thought they had done their duty.

ONTARIO BAR ASSOCIATION IS CALLED INTO EXISTENCE

Constitution and Officers to be Decided on To-Day—Change in Electing Benchers Desired.

Representatives from the County Law Library Association and members of the bar generally met at Osgoode Hall last night and formed the Ontario Bar Association. The objects of the association and election of officers will be the subjects of discussion when the meeting resumes at 10 this morning.

In introducing the resolution, Gordon Waldron said that he thought the time was ripe, and it was the duty of the profession to organize and mould public opinion. Lawyers should be protected and should be in a position to demand the courtesies due to the profession. It was the general feeling of the bench and bar that an association should be formed similar to that in the Province of Quebec. The provincial association, if formed, would be able to do a great deal that the Ontario association could not do.

It was moved by F. E. Hodgins, seconded by F. H. Denton, that "be- leaving it in the hands of the general feeling of the profession that some change should be made in the mode of nominating and voting for benchers to be decided on to-day, and that the following committee confer with the attorney-general and with the benchers to endeavor to bring about the change now proposed: A. H. Clarke, K.C.; Geo. C. Campbell, E. Elliott, F. Arnold, K.C.; Frank Field, W. C. McKee, R. T. McLennan, Mr. Hayton, with power to act to their numbers. The meeting was carried.

Representatives were present from Windsor, Cobourg, Belleville, Bracebridge, Ottawa and Smith's Falls.

NEW LEADER OF GENIUS.

(Canadian Associated Press Cable.) London, Sept. 27.—J. Ramsay MacDonald, in The Daily Chronicle, has called for the labor movement in Canada is the country itself, only in the making. The man who organized the future labor party would be raised to organize a great national party, which would require a leader of national reputation and genius. Because Canada does not cohere as an international whole, and the national results of the MacDonald and Laurier grandiose government will not ripen for some time to come.

It is a grim comment on the imperiousness of the British and the States, that the speaker believed in foreign mission work, but that foreigners were brought to evangelize them was a mission to evangelize them.

HAMILTON RAILWAY SYSTEM GETS TERRIFIC ROASTING

Experts Report to Provincial Board That Equipment is to the Bad.

Hamilton seemed quite aroused, yesterday afternoon, before the Ontario railway and municipal board. There were present Ald. Stewart, chairman board public works; City Engineer E. G. Barrow; W. C. Brennan, secretary board of public works; G. S. Kerr, acting city solicitor; Clyde Green, manager traction department, Cataract Power Co.; W. W. Osborne, solicitor for the Traction Company, and others.

Hamilton has at last rebelled against its bum street car service. It appealed to the railway board, who sent engineers to inspect the system, and yesterday, the city offered testimony, on its own behalf.

George C. Diehl of Guthrie & Diehl, consulting engineers, Buffalo, N.Y., had thoroughly inspected the street railway system of Hamilton. He rode upon 26 different cars inspecting the roadway from the rear platform, and also examining the condition of affairs, in truth, quite remarkable. On asphalt-paved streets, the ties were laid two inches below the cement and incidentally, two inches below the railway iron. The intervening space was filled with wooden blocks, upon which the rails rested. As these blocks wore or became rotten, the rails were depressed two inches, making great cavities along the roadway. The banging of the wheels was inside, instead of outside the rail.

The covers of the car controllers were burned thru, and flames might shoot thru at any time, causing a panic. The brake handles and rods were out of gear, and the cars were universally dirty and unsanitary. One car was so filthy that the witness had to vomit. The rails were three and four inches thick, on the floor. The motor men got a bucket of water and threw it on the floor. Then he called to the motor man for a broom.

"We will have to return to the board for directions," he replied. Accordingly, the car returned to the barn, only to find no broom. And the dust was turned into mud.

Fred D. Gatchell, superintendent Gulf Port Railway, in Louisiana, corroborated the testimony of Mr. Diehl. "The cars had no overhead switch or lightning arrester; the fuse-boxes were also worthless. There were no provisions against cars being destroyed by a stroke of lightning or by excessive current from the power house.

Mr. Gatchell's examination showed the rails were in a bad way, and the line poor and in bad repair. The rails are not flush with the pavement, in some cases, they are down two inches, in others, they are above; and in others, below the level of the highway. The cars oscillate from side to side and also up and down; they are, as a rule, filthy and not commodious.

The board will consider what shall be done.

Gulf Coast Storm Swept Many Towns Submerged

Wind of Tremendous Velocity Causes Immense Damage—Property Loss at Pensacola, Fla., is Three Million Dollars.

Louisville, Ky., Sept. 27.—The tropical hurricane, which for 24 hours has been churning the waters of the Gulf of Mexico, and did much damage on the coast and far inland to-night, is whipping thru North Alabama in a northerly direction at a velocity but slightly less than 48 miles an hour reported in New Orleans during the day. Reports received by the Associated Press do not indicate any loss of life, but the damage to property is enormous.

All wire communication is seriously disrupted, and in some instances has resulted in cutting off cities completely. Mobile has been completely cut off, and in other places, the interruption has been partial. The interruption from this cause in one case extending to Pensacola, where the maximum velocity of wind was probably felt early in the morning, reports a property loss of \$3,000,000, and rumors of loss of life, which it is impossible to confirm as the uncertain nature of the information late this afternoon failed with the coming of night.

NO LOSS OF LIFE.

New Orleans furnished numerous wild rumors during the day, but later reports from the officials of the Louisville and Nashville road, which is the only wire there has been no loss of life. Wires between New Orleans and other large towns which held long enough before anything can be heard from the territory between that city and the Gulf, or from the territory which is in danger of being cut off by the storm in the open Gulf. Point, Miss., Mississippi City and Moss Point, Miss., have not been heard from since the storm, and it is feared that the Atlantic began to feel the storm at Memphis the rain has been continuing for 36 hours.

SERIES OF QUAKES.

San Juan, Puerto Rico, Sept. 27.—This city experienced a series of heavy earthquake shocks to-day. Beginning at 10:47 a.m., increasing in intensity and lasting 30 seconds.

The American commissioners have the confidence in the seriousness of the intentions these nine days of futile negotiations. This being the situation nobody is inclined to doubt to-night that within twenty-four hours Secretary Taft, by authority of the president of the United States, will proclaim himself provisional governor of Cuba. Such a government, however, would be made up of Cubans as far as possible, thereby continuing the various departments under the immediate control of the president.

Smoke Taylor's Maple Leaf Cigars TOTAL LOSS.

Montreal, Sept. 27.—(Special.)—The officers of the Ottawa River Navigation Company in Montreal started to-day that the steamship Maude, which was sunk near Hudson in collision with the steamship Ottawa will be a total loss. The vessel was badly broken up by the force of the impact being as she was a very old boat, in service on the river for many years. The only way to take her over would be in pieces.

MORE APPOINTMENTS MADE BY UNIVERSITY GOVERNORS

The board of governors of the University of Toronto have made the following appointments:

Prof. Oswald Smith, to be lecturer in Latin at University College.

A. G. Brown, to be instructor in agent and modern history.

Dr. Wallace, at present lecturer in English, to be registrar of University College.

W. E. Collins, to be lecturer in department of mineralogy.

Misses Creighton and Baines, to be delivery clerks in the library for the coming session.

The site of proposed students' residence has been discussed, and it was decided that it should be erected on the northeast corner of Hoskin-avenue and Devonshire-place.

HAVERA. Sept. 27.—The moderate part to-night decided to make a final effort to perpetuate the authority of the Palma administration by determining to reject the resignation of the president when presented to congress to-morrow.

When this decision was reached Secretary Bacon, the American commissioner, had already concluded to withdraw his resignation.

NEW BOARD OF HEALTH DR. SHEARD INCLUDED

Official Announcement is Made—Former Members Are All Superseded.

Ontario again rejoices in a provincial board of health. There has been a board since Aug. 21, but without any membership. After the council meeting yesterday afternoon, Provincial Secretary Hanna announced that the vacancies were filled by the following appointments:

Dr. Charles Sheard, M.H.O., Toronto; Dr. Milton Ira Beaman of Newburgh; Dr. John William Scott McCulloch of Alliston.

Dr. Charles Bernard Coughlin of Peterboro; Dr. William John Robinson of Guelph; Dr. William Robert Hall of Chatham.

None of the old board are reappointed. They were: E. E. Kitchen, M.D., St. George (chairman); Dr. A. C. G. G. Toronto; Dr. A. Cassidy, M.D., Toronto; W. J. Douglas, M.D., Cobourg (deceased); R. P. Boucher, M.D., Peterboro; Alex. Thompson, Sr., Strathroy (deceased).

Dr. Hodgetts will still continue as secretary. "How is the board politically?" Mr. Hanna was asked.

"There's as many Liberals on it as there are Conservatives on the old one," he replied. "And there you are."

TRAIN DERAILED. Columbia, S.C., Sept. 27.—A north-bound thru Southern Railway passenger train was derailed at Cosanatchie, twelve miles from Allendale, early to-day, by train wreckers.

Fireman Andrew Smith was killed and Engineer J. E. McDaniel was scalped. None of the passengers was injured. The train had been removed from the tracks.

FAMOUS TYPE FOUNDERS.

From Chicago Inland Printer. Of the leading type foundries in the world, the greatest is now in the hands of the greatest of all, Miller & Richard of Edinburgh, particularly well and favorably known to our readers in Canada, where their high and successful reputation is associated with the name of the "Gothic" type.

It was started in 1859 by William Miller, who had been an originator of the ancient old style foundry, which was now known as the "Gothic" type foundry of Edinburgh. He published a specimen book the same year, and it has since been reissued in its "typographic" form. Wilson's punches were used extensively to produce the "Gothic" type. YOUR COLUMN

Editor World: Several brief articles having recently appeared in the World, in which Mr. John Nott of Port Perry figured prominently, a little curiosity has arisen as to their authorship.

No doubt, however, can exist on that point in regard to the paragraph which appeared on Sept. 5 last, in which the "World" states that "Squire Nott of Port Perry called on the World" and it is quite clear that Squire Nott dictated, and the greater curiosity is, what motive induced Squire Nott to call at the "World" office? He is a stranger in that sanctum, not acquainted with the proprietor or managers, and doesn't read the "World" newspaper.

The Globe has been reading the "World" news, his Bible, prayer-book and almanac, since the early days of Hon. George Brown, but the mystery has been made quite clear from the fact that Squire Nott had heard of the fame of our "Friend from Cannington" late of the "World" and was desirous in looking up prominent business men in Toronto and elsewhere and of giving a unique and witty description of their meetings and discussions.

It was fair time, but Squire Nott could easily forego the attractions of a National Exhibition for the sake (if possible) of meeting the facetious and sportive "Billee Glynn" which was no doubt his real object in rushing to the World office. But, unlike the Hon. Senator Cox, he would not say: "Call again; I'm busy very busy and don't wish to talk for publication." No, indeed, that's not John's fond of publicity.

But the ex-squire is incorrect. To the World he glories in the fact that he is "the oldest extant example of a justice of the peace appointed by a Liberal government, and released by Premier Whitney." The ex-squire can easily recollect a neighbor within 200 yards of his own door, who was appointed by the same government as himself, and also dismissed at the same time as himself, Mr. Nott could in a moment think of two others in his own village who were appointed under the same government, and at the same time as himself, whose commissions were renewed under the present administration a few months ago.

Again, the ex-J. P. informs the World that it was not because he had incurred the animosity of the stalwarts of the party in power that he was removed, but rather owing to the fact that a reorganization of the Ontario County magistracy did not take place. The statement is not true, and none is more painfully conscious of the fact than Mr. Nott, and the fact that there was a reorganization in the only reason to be given for his release, or rather, dismissal.

And why, we would ask, are so many Liberals who were appointed justices in Ontario County under a Liberal government, continued in the new commission by the Whitney administration? Simply because their fitness for the position. The position is a responsible one, and the statute requires that the "most efficient persons in a community be selected to perform the duties of the office."

Therefore the patronage committee and others interested in the matter, after mature deliberation, were justified in recommending the dismissal of Mr. Nott.

To Ethel Blinwood he was married three years ago and after six separations, they finally left one another. Last Saturday he married Mary Montano at Niagara Falls. He had courted her on the street for a few weeks and asked her on Thursday, while they were talking in the street corner, to marry him. She consented and they were married by Rev. Dr. Roy at the Falls two days later.

Water Pressure Low. Montreal, Sept. 27.—Mayor Gelinas of St. Louis de Mile End, the suburb where yesterday's disastrous fire occurred, stated today that the town will take out an injunction against the Montreal Water & Power Co.

The town authorities have been trying for months to secure a better water pressure from the company, without success. During the fire the pressure did not exceed 50 pounds.

HAMILTON HAPPENINGS

HORSE THIEF ARRESTED AT THE BURLINGTON FAIR

Arbitrators in Street Railway Dispute Will Make Award To-Night

Hamilton, Sept. 27.—(Special)—A cheery horse thief was arrested at the Burlington Fair this afternoon in the person of Frank Cunningham.

Cunningham speeded a horse and buggy at Caledonia and drove to Waterdown, where he sold the outfit and hired another. He then drove to Burlington and was trying to sell the second outfit when arrested. He was taken back to Caledonia.

A sacred concert was held in Erskine Presbyterian Church to-night to inaugurate the new organ. The concert, which was under the direction of Dr. C. Harris, organist and choir leader, was largely attended. Daniel Beddoe of Philadelphia was the assisting artist.

Award To-Night. The arbitration in the street railway dispute will most likely make their award by to-morrow night. They were in session until late to-night, the principal business being the arranging of the order in which the questions will be voted on. If the award is made to-morrow it is unlikely that it will be given out for a few days, as copies will be given to the company and the union, and it will rest with them as to when the information will be given out.

Hardware Men Meet. The annual meeting of the Canadian Wholesale Hardware Dealers' Association was held at the Hotel Royal to-day. Matters relative to the trade were discussed. The election of officers resulted as follows: T. H. New, president; T. G. Dexter, Toronto, vice-president; Jenkinson Hardy, Toronto, secretary-treasurer; executive committee, James G. Lewis, Montreal; F. C. Fisher, Toronto; A. LeLang, Montreal; Thomas Birkeat, Ottawa; D. H. Houden, London; and J. G. Fisher, Toronto.

Mrs. Morris, 40 South Duke-street, died this evening in her 72nd year. She had been about a week a patient in the hospital. Her husband, four sons and one daughter survive.

No Cause For Alarm. Dr. Roberts, medical health officer, said this morning that there was no need for the citizens of Hamilton to feel alarmed over the report of Dr. G. G. Craven, Toronto, vice-president of the Ontario Health Association, that there are bacilli in Hamilton's drinking water. He said there were no cases of cholera in the city, and that they need not occasion alarm. He said a high authority to show that bacteria of the very name of which frightened over the report of Dr. Craven, are not harmful to man.

Lieut.-Col. Van Wagner has written a letter to the papers, stating that he is the engineer who reported on the filtering basins, based his report on the assumption that the intake pipe into the basin was closed. Sept. 13 for 24 hours his report is valueless, as the intake was not closed on those days.

Not in Hurry. The Toronto & Niagara Power Co. is not in a hurry to build to Hamilton, said Allan H. Royce of Royal Bank, Hamilton yesterday. He said the people of Hamilton did not seem to take kindly to the company, and even manifested hostility to its schemes. He expects the company will be supplying power to Toronto about six weeks.

As the result of a scrap in the foreign settlement a couple of nights ago, Russian and English sailors, one of the latter named Bezil Rutukw was committed for trial on the charge of cutting and wounding Napoleon Virginal. The gang had been indulging before the scrap. He got bail in the sum of \$100.

Charles Griffin, 114 North Wellington-street, received word this morning that his brother, Fred, had been killed at Pleasant Lake, Ind., on Tuesday.

Several armed robbers and a woman at robbery have been reported from the beach. It is thought some of the race-track followers are responsible for them.

Baptist Church Extension. Dr. Tracy Retires as President—Oslington Church Nearly Ready.

The regular quarterly meeting of the Toronto Baptist Church extension board, held last night in McMaster University, was marked by a large attendance and much interest.

Dr. Tracy presided. The report of the field secretary, Rev. C. W. King, was presented, in which marked progress was noted in every department of the work. The report, as presented, was unanimously adopted, and the energetic work of the secretary commended.

The resignation of Dr. Tracy, as president of the Baptist extension board, was accepted with regret, but his services will still be retained on the executive. An address expressive of the appreciation was passed to which Dr. Tracy briefly replied, and in which he stated that pressure of other work was responsible for his present step.

Rev. W. J. Scott reported that the additions to the Ossington-avenue Baptist Church would be sufficiently advanced to permit of the opening on or about Thanksgiving Day, and that the total cost of the work would be about \$15,000.

BIGAMIST SENT FOR TRIAL. St. Catharines, Sept. 27.—(Special)—George Gough, who was arrested on a charge of bigamy on Monday, was today committed for trial by Police Magistrate Comfort. Both wives were present and testified.

To Ethel Blinwood he was married three years ago and after six separations, they finally left one another. Last Saturday he married Mary Montano at Niagara Falls. He had courted her on the street for a few weeks and asked her on Thursday, while they were talking in the street corner, to marry him. She consented and they were married by Rev. Dr. Roy at the Falls two days later.

Fire in Winipeg. Winnipeg, Sept. 27.—The Boyd Carriage Works were damaged by fire to extent of \$4000 to-night.

Water Pressure Low. Montreal, Sept. 27.—Mayor Gelinas of St. Louis de Mile End, the suburb where yesterday's disastrous fire occurred, stated today that the town will take out an injunction against the Montreal Water & Power Co.

The town authorities have been trying for months to secure a better water pressure from the company, without success. During the fire the pressure did not exceed 50 pounds.

RADIAL RAILWAY ENTRANCE

HOW ABOUT FREIGHT RATES?

Property Commissioner Harris is Warm After Mr. Moore, Who Said Report Was Absurd.

Two bright young men are at daggers drawn in connection with the entrance of the radial railways into Toronto. Mr. Harris, property commissioner, says that Commissioner Harris has absurd ideas about it. Due prominence has been given to Mr. Moore's contention and this is what Mr. Harris has to say about it:

W. H. Moore, manager of the Toronto and York Radial Railway Company, in criticism of my report relative to the financial terms upon which radials should be admitted to the City of Toronto, states that the proposition is absurd, inasmuch as it entails the payment to the corporation of a percentage upon each passenger carried within the city by radial lines, which would be 10 per cent for each mile in and out respectively.

The manager of the radials, with characteristic acumen, endeavors to place a specious construction upon my recommendation, to the end that the public mind may be misled, and diverted from the essential issue.

At a conference held in the mayor's office on July 16, Mr. Moore stated that in the event of radials entering the city, passengers would be referred to the cars of the Toronto Railway system at existing termini, and such passengers would be charged a separate fare would be charged by the Toronto company, upon which the city would receive no benefit, inasmuch as such fares would augment the gross receipts of the Toronto Railway Corporation.

My report, if adopted, will guard against the Toronto Railway Company, and the Toronto city, from being misled by the Toronto company, and from being misled by the Toronto company, and from being misled by the Toronto company.

The manager of the radial company pretends to misconceive the proposition relative to a rental required by the city on account of any space which the company might occupy at St. Lawrence Market. At every freight terminal it is necessary to provide warehouse accommodation, and if this were not available at St. Lawrence Market, the company would have to acquire real estate and erect buildings, yet they cavil at the proposition of paying the city for space used for such purposes. The rental could not be construed into a "rent" by the most elastic mind; it would simply be a rental paid to the municipality, by a company deriving profits and paying dividends from the operation of a carrying business.

Market Rentals. "I have never made the statement that rentals at St. Lawrence Market are decreasing. Indeed, the tendency is to the contrary. The conditions are improving and the volume of trade transacted at the present market could not have been cared for at the old structure.

"If the policy of the radial company is in consonance with the expression of the city, and inasmuch as the council to immediately deliver an ultimatum as per the terms of my report, and if such is not accepted, to cease negotiation.

"I repeat that Toronto is of more importance to the radials than radials are to the city, and that the company may appreciate the fact that in this matter they are not dealing with the municipality of East Toronto."

SHAPE RATHER THAN CIRCULAR

Secretary Fitzgerald Before Insurance Commission—Chancellor Boyd Renders an Opinion.

The insurance commission proceedings yesterday were tame. In connection with the Woodmen of the World, a society with head offices at London, W. C. Fitzgerald, secretary and organizer, was in the box all day.

When the commission opened Sir John Boyd was present and made the following statement, supplementing his evidence of the day before, Sir John said:

"I would like, with the permission of the board, just to supplement what I said last night—I am aware I am under the impression that there might be any mistaken impression or any injustice done to anybody. I have been thinking the matter over, and I cannot recall just the details, I may have said to Mr. Wilson in an interview with him that it was competent for this company to go into this business, but that this joint deal and that there might be proper compensation made if the syndicate would have any objection to their being an independent concern and having it in hand might say the terms on which they might come in; that that was satisfactory and acceptable to all parties concerned then that might be carried out.

"If they were going on as a joint concern, which I understood was the case, I do not recollect it in that shape, but if it was carried out in that way, that is one thing but what was presented to my mind in advising Mr. Wilson was not so much that as that there was a partnership concern. If the transaction had been understood by me to be money paid, that there was to be a sum of money paid, then, such as \$85,000 for anything, I do not recollect anything in the transaction would have assumed a very different form; that they would have been then ready to purchase of all the syndicate's interests and all the profits should have gone to the trust company, and the syndicate should have gone out.

HEARST; HIS RISE TO FAME

HOW "MAN OF THE HOUR" IN U.S. POLITICS CLIMBED FROM UNSUCCESSFUL STUDENT TO POSITION OF WORLD'S MOST POWERFUL EDITOR.

William Randolph Hearst has for years been one of the most-talked-of men in the United States, and even in Canada, altho he has not exactly been a public personage, his career in the press not bringing him greatly to the front, except thru a vicarious encounter with an antagonist of equal celebrity.

According to a writer in Collier's, "No other American of equal celebrity is so little known personally as our foremost champion of unrestrained publicity. The character of Hearst himself has been hidden in the shadows behind the searchlight, whose rays he has so mercilessly directed against the affairs of other men. It would seem as if his adjutants, by his own connivance, had surrounded him with a screen of other men. He has entered the arena of journalism as a man of letters, and his work has been done in the quiet of a study, not in the glare of a public place. He has not been a man of letters, but a man of letters, and his work has been done in the quiet of a study, not in the glare of a public place.

He was known as a good fellow and generally liked. His associates in the wealthy class of students. But he really had no intimate friends. His character as "amiable indolence broken up by spasms of energy." He was a good student, but he was not a man of letters, but a man of letters, and his work has been done in the quiet of a study, not in the glare of a public place.

COBALT - LATCHFORD
FATHER OF 29 CHILDREN.
 Henhelm Negro, Aged 107, Attending a Re-union of his Family.
 Windsor, Sept. 27.—Addison Smith, a negro, who lives at Shrewsbury, a few miles from Henhelm, Ont., is here attending a reunion of his family.
 He was born in Tennessee in May, 1798, and is therefore over 107 years of age. He is almost blind, but his hearing is preserved. He has been married three times and is the father of 29 children. He has been away from Henhelm, Chatham in 1860.
 The great tragedy of Smith's life occurred several years ago, at his present home, when two of his sons were concerned in the murder of a man named Custard, who had insulted one of their sisters. One boy was sentenced to be hanged, the other to life imprisonment. Thru the intervention of prominent citizens throughout Kent County, and mitigating circumstances, the older boy's sentence was changed to ten years and the younger brother was released. Both are now industrious and respected men.

HOSPITAL SHIP IN STORM
WEATHERED WITH DIFFICULTY
 Halifax, N. S., Sept. 27.—A St. John's, Nfld., despatch to the government mail boat from Labrador has arrived, bringing 400 men, women and children, who constituted the sailing crew wrecked in the Strait of Belle Isle and along the coast of Newfoundland during the recent storm.
 The survivors report the narrow escape of the missing hospital ship, Strathcona, which was caught in a gale that it weathered with difficulty.

LOCAL FRUIT MARKET.
 An immense amount of fruit charged from the market yesterday. Some excellent shipments of peaches were received yesterday, and for really extra choice lots as high as \$1.25 a basket were paid, but this was the exception, the greater bulk being at \$1.00. Grapes were in rather heavy supply, and the price, if anything, advanced a little, but the general tone of the market is firm. Tomatoes are the scarce article, and the general impression is that there are still large deliveries of pimento on the market. D. Spence and other commission men are receiving large supplies daily.

A Coffee Ring Started.
 New York, Sept. 27.—Announcement was made to-day that a coffee ring had been organized that the financing of Brazil's coffee exportation plan had been arranged. Bankers and merchants are being approached and all identified with the coffee business, are named. Who will advance the money needed—about \$20,000,000. They are located in New York, London, Havre and Hamburg.
 The object of the coffee valorization plan is to maintain coffee at a remunerative price to the grower by establishing a minimum quotation, which it is to be held by purchases of coffee on account of the three coffee states of Brazil, namely, the states of Sao Paulo, Rio and Minas. Interest on the loan made is guaranteed and paid by a tax levied on coffee shipped.
 The contracting states bind themselves to resist or discourage, by discriminating taxation, the exportation of coffee of inferior grades, which is to be held by themselves to pass laws preventing the extension of coffee acreage for two years after Jan. 1, 1907.

 Marshall, Spender & Co. wired J. G. B. Gray, King Edward Hotel, at the close of the market:
 The wheat market was exceedingly firm to-day, prices at one time having an advance of about one cent per bushel over those of previous session. The start was made by the local crop being free sellers, but later, when they attempted to sell, they were met by a decided advance of offerings, and as a result, market was forced higher. In addition to the above, the advance in Manitoba wheat at present local operators were liberal buyers, on the advance in Manitoba wheat at present local operators were liberal buyers, on the advance in Manitoba wheat at present local operators were liberal buyers.

ANNIVERSARY OF SEPTEMBER PANIC, 1902.
 World Office, Thursday, Sept. 27, 1906.
 To-day was the fourth anniversary of the 1902 September panic in the New York stock market, but it passed without further recognition than that of extraordinary manipulation to prevent a necessary lowering in present quotations. The trend of the Wall-street market, altho severely perceptible from day to day is certainly downward. Irregularity serves to conceal the fact, but a comparison of quotations with those of the past few months shows the losses already made. Steel preferred, one of the recognized standards by which the market is gauged, is down already 7 points from its high, but the fact has scarcely revealed itself because of the slow method by which the decline has been brought about. It is coming to be recognized by traders that the market on the low side is of the utmost difficulty. The condition of the market and its need for false stimulants to trading was witnessed to-day in the supposed news of a devastating tidal wave at New Orleans, and its later denial. This market is in an excellent position to leave alone until the buying can be classed as better than the selling.
 Herbert H. Ball.

COBALT PROPERTIES
CHANGING OWNERS
 No less than three deals are reported to be on in the prominent Cobalt properties. The syndicate in the Buffalo Mines are withdrawing their stock from the market as far as themselves are concerned, but the object for the withdrawal has not yet been divulged. The Foster property is understood to be under option for control by a number of capitalists, and in the meantime these shares are not being offered very freely. The stock sold up as high as 275 yesterday morning, but eased slightly during the day. The third deal is taking place in the McKinley Darragh Savage. This property is beginning to be viewed as one of the best outside of the Nipissing mines. The stock of this concern has also been withdrawn from sale this Monday next, altho it was put on call Wednesday on the New York curb. Financiers who are closely allied to the Nipissing syndicate are endeavoring to arrange for an option on a large block of the stock and if the proposition goes thru the shares will be dealt in at both New York and Boston. The price for the stock recently has been around \$1.50 a share, but on the New York curb at the close yesterday it was \$1.25 without effecting transactions.
 In the older list of mining stocks North Star was aggressive at a two point advance. Nipissing sold at New York up to its highest point and closed near that figure. Local mining brokers are astonished at the amount of business that has developed in the last few days, but are handicapped in facilitating sales by the presence of a limited amount of the better class of the securities offering.

MAY HAVE HEADQUARTERS
Plasterers' Union is Now Big Enough to Establish Them.

The advisability of creating an official journal was discussed in the operative plasterers' convention yesterday, and it is possible that such an organ will be established, as most of the delegates favor it. The question of permanent headquarters also came up. Up to the present time the international body has operated successfully without a headquarters, their offices being elected from and residing in districts scattered all over the country. For the past two years Secretary-Treasurer W. A. O'Keefe has resided in St. Louis but during that time the organization has grown so extensively that the need of a convention of executive officers in a more central locality has become imperative.

Cincinnati and Chicago are both suggested, and it is likely the official journal will go with the choice between these two places.

During the past two years the international body have experienced but two lockouts. Over \$13,000 has been paid out for death benefits.

PIMPLES, BLACKHEADS

Get Rid of All Your Face Troubles in a Few Days' Time With the Wonderful Stuart Calcium Wafers.

Trial Package Sent Free. You cannot have an attractive face or a beautiful complexion when your blood is in bad order and full of impurities. Impure blood means an impure face, always.

The most wonderful as well as the most rapid blood cleanser is Stuart's Calcium Wafers. You use them for a few days and the difference tells in your face right away.

Most blood purifiers and skin treatments are full of poison. Stuart's Calcium Wafers are guaranteed free from their poison, mercury, drug, or opiate. They are as harmless as water, but the results are astonishing.

The worst cases of skin diseases have been cured in a week by this quick-acting remedy. It contains the most effective working power of any purifier ever discovered—calcium sulphide. Most blood and skin treatments are terribly slow. Stuart's Calcium Wafers have cured boils in three days. Every particle of impurity is driven out of your system completely, never to return, and it is done without damaging your system in the slightest.

No matter what your trouble is, whether pimples, blotches, blackheads, rash, tetter, eczema, or scabby crusts, you can solemnly depend upon Stuart's Calcium Wafers as never-failing.

Don't be any longer humiliated by having a spotted face. Don't have strangers stare at you, or allow your friends to be ashamed of you because of your face.

Your blood makes you what you are. The men and women who forge ahead are those with pure blood and pure faces. Did you ever stop to think of that?

YORK COUNTY AND SUBURBS

MERCHANTS GIVEN WARNING AGAINST A ROGUE TRAVELER

Has Been Operating Extensively, as Many Dealers Already Know—General News.

Merchants in York County are warned to be on the lookout for a man who, claiming to act as agent for at least two Toronto firms, has been getting orders and cash on same from a number of dealers. The Grand Novelty Company, and the Fugh Manufacturing Company have each received notifications that their names have been used, and they are now warning their storekeepers in Richmond Hill, Thornhill, Elgin Mills, Stouffville, Newmarket and other places.

Toronto Junction. Toronto Junction, Sept. 27.—C. M. Hink for some years past master of the Annet-street Baptist church, has declined a similar position in the Lansdowne-avenue Baptist church, of which Rev. H. H. Wood is pastor.

Between 7 and 8 o'clock to-night the trolley wire at Keele and Dundas streets fell to the ground and caused considerable commotion and traffic was blocked for sometime, and a lad of 15, whose name is not known, had a narrow escape.

The executive committee of the town council met to-night. The report of the park committee was in favor of the Utsey-street ground and was referred to council. Councillors Howell and Greenleaf were appointed a committee to view the lot on Keele-street wanted by Mr. Pringle. D. Saunders complained that the cement sidewalk in front of his store is lower than the street line. A light will be placed outside the door of the police station. It is agreed to sell to Fred Rumble lot No. 18 on Weston road. The superintendent recommended the placing of four in ward three in ward 3; two in ward 4 and balance in ward 5. Street Foreman Moon reported that he would have the Weston road bridge finished at noon on Friday.

On account of a breakdown of the engine at the Humber Power houses there has been no light in the west end of the town for the past three nights. It will be the same for the next three nights as it will take that time to make the repairs.

Preparation is being made for the harvest decoration of St. Andrew's Mission Church for the first annual harvest thanksgiving services next Wednesday evening.

Toddorden. Cornfields around here are infested with large flocks of blackbirds. Several local sportsmen have shot large numbers.

Great inconvenience is experienced by owners of animals who happen to stray on somebody else's property. The owner of that property, as a rule, neglects to notify the township clerk of this fact, as the law demands. Frequently the owners have to hunt for their property for days.

North Toronto. Harvest thanksgiving services were held at Leaside Mission Church on Wednesday evening. Rev. G. I. B. Johnston, rector of Scarborough, preached the sermon, and Rev. T. W. Patterson, rector of Christ Church, Deer Park, and Mr. Lowndes assisted. The church was decorated by Mrs. C. W. Lea and other ladies of the congregation.

The regular meeting of the Women's Home Mission Society of the Eglinton Presbyterian Church was well attended. The ladies collected enough funds to supply two hospital cots for the Saskatchewan District Mission, which mission is wholly supported by the Women's Mission Society.

The St. Clement's day school football team defeated Eglinton Public School team in a game of association football yesterday afternoon by 2 goals to 1.

The at home given by Mrs. (Rev.) Newton Hill at the Daviville parsonage yesterday afternoon was the occasion of a very pleasant gathering. Mrs. Dundas, Toronto; Mrs. Grand, Newtonbrook, and others contributed to an excellent musical entertainment.

Stouffville. The Sutton mixed, due here at 5.30, ran off the track Wednesday evening while coming into the yard. The engine and five or six cars were derailed. The passenger coach and one other car remained on the rails. The train men jumped. No passengers were injured. The fireman is said to have been injured slightly. The cause of the accident is not assigned.

Mrs. S. M. Troyer and family left this week for northern Alberta, where her husband has bought a large wheat farm. He left here early last spring and has broken ground and raised a crop this summer.

Mr. Troyer has rented his brick residence here to J. Boardman, druggist. Mr. Flint has taken the contract from W. B. Sanders to enlarge and beautify his summer cottage at Jackson's Point.

GENERAL CONFERENCE THRU MANY TOPICS DISCUSSED

Marriage of Divorcees and Connection of Ministers With Corporations Subject of Vote.

Montreal, Que., Sept. 27.—(Special.)—After an arduous day's consideration of about a dozen committee reports the Methodist general conference was closed to-night with the usual devotional exercises, the session being the twenty-seventh.

The many topics dealt with were of a varied nature, but as far as possible were carefully discussed. There were 72 votes in one division during the afternoon, representing the average attendance to-day. The high character of the conference as a whole is practically and thoughtfully businesslike has been maintained throughout the sessions. Conservative in trivial matters there has been no hesitancy about radical action where it appeared to be necessary.

Marriage of Divorcees. "A deliverance by the church on the marriage of divorced persons was submitted to the Methodist General Conference to-day, but was referred to the committee for improvement. The committee reported that the law of the land as authorizing but not requiring a minister to solemnize marriage, and that as many Old Testament reasons were not admissible. To say so would be to question which Dr. Carson feared would unsettle many minds.

Dr. Benson considered the deliverance necessary, but wondered if ministers ought to go behind the license issued by the proper authority. It was resolved that no Methodist minister should solemnize a marriage of a divorced person unless the divorce be granted on the ground indicated by Jesus, and that the person be not the guilty party.

There was no discussion last night on the resolution regarding the commercial relations of ministers, but the question came up this morning. No minister or probationer shall engage in any secular business or work which shall detract from his ministerial character or usefulness or interfere with the proper discharge of the duties assigned him by the church, and which shall be due the minister having knowledge or reliable information of such an effort to lay a charge with the proper authorities.

Ministers as Directors. This amendment to discipline, submitted by the committee, was rejected after some debate. The discipline "strongly recommends" ministers not to become members of the secular board of any trading company.

Dr. Young of the amendment that ministers shall not become members of such boards and this was also rejected.

Rev. H. Irwin was against legislation treating men as children. Dr. Williamson did not think the judgment of the world would be with them for expelling a minister because he was a director of a reputable insurance company. Dr. Jackson supported Dr. Young's amendment.

Money Madnes. The committee on sociological questions deplored the money madnes which leads men to oppress the unfortunate and forget their obligations to the best interests of society. The massing of the largest proportion of the wealth of the country in the hands of a few.

A millionaire was defined as one who realized his harvest from a million lives while men of culture had the best fruit of the world. They should face their obligations accordingly. Hospitals and universities enrich the whole community, but such should be the reward for the wrongs perpetrated in the iniquitous acquisition of wealth. The blood of the oppressed should continue to cry to heaven, while the scale of wages is so low that our maidens have set before them the awful choice between hunger and shame and young children are stunted in mind and body. It was time for Christian citizenship to take up the cause of the whip and drive these things from the holy places of civilization. The commercial rogue was a universal enemy. They depressed and opened the gates of the country to the criminal and those with hereditary taint.

We view with alarm the diminishing birthrate in some sections of our population. It must be considered a great national evil that some of the best strains in our country are becoming extinct.

Vested Rights. Legislation was recommended which would not interfere with vested rights, but would prevent individuals or corporations profiting from unearned increments.

The grievous wrong of the violation of the sanctity of the ballot was deplored.

Uniform services were strongly pleaded for by Rev. A. K. Birks. The same kind offices should be observed everywhere in Canada, he thought. He described how the congregation in the Metropolitan Church bowed their heads to pray, and the minister proceeded to read a lesson to their embarrassment.

On Mr. Birks' motion, by a vote of 51 to 38, Methodists will have to stand with bowed heads in silent prayer at the close of all services hereafter.

"It was brought up by a Presbyterian," said a minister who voted for it. "It is altogether more seemly," remarked Rev. Dr. Burns.

The gracious act of Lord Grey and the committee on civil rights and privileges which repeated and strongly affirmed that the practice was contrary to the spirit of our age and custom.

In default of complete abolition it was suggested that the numerical strength of churches according to the last census.

A resolution to confer with other church bodies on the matter was recommended, and the report adopted.

On motion of Dr. Burwash it was determined that wherever an academic degree or title was used in records of the church institution conferring it shall be indicated.

"Then the public will know just what they are worth," remarked the chancellor.

Rev. F. B. Stratton was reported as at the point of death in Kingston Hospital. Sympathy was voted by the conference, and Rev. Dr. Antilife offered prayer in touching phrases.

The reports on temperance and Sabbath observance were adopted. Dr. Levi Curtis objected to the latter speaking of Christ as the world's elder brother. The phrase was changed to "world's saviour."

A resolution of grateful appreciation of the enterprise of the Toronto papers in reporting the conference was adopted on motion of Dr. Burwash.

CAPE COLONY WOX. London, Sept. 27.—Dr. Jameson, premier of Cape Colony, expressed the hope that when the quality of Cape wine became known a substantial trade would be built up between Canada and Cape Colony. He was looking forward to the imperial government granting a similar concession on wines to that given by the Canadian government.

FOSTERS SELL OUT. Cobalt, Sept. 27.—(Special.)—It is undoubtedly true that the Fosters have sold their interest in the Foster Mine at over a million. Buffalo people are largely interested in the syndicate, which purchased 800,000 shares, owned by the Fosters, and 100,000 un-sold shares of treasury stock.

ACCIDENTALLY ASPHYXIATED. Donald Ross, an aged man, who arrived Wednesday night at the Walker House, from Forest, Ont., was found dead in his room yesterday morning. The gas had evidently been turned on, and Coroner Cotton decided an inquest unnecessary.

There are, we believe, few, if any, preparations which have such a remarkable record of cures as has Dr. Chase's Ointment.

Some have found this great ointment the means of healing old ulcers and sores which for years had defied any other treatment.

Others have obtained cure for chafing, skin irritations or eruptions, and poisonous skin.

Again, there are those who have been freed from the keen torture of itching, burning, or stinging piles by using Dr. Chase's Ointment.

From rich and poor alike come tributes of praise for the exceptionally soothing, healing, antiseptic influence of Dr. Chase's Ointment, which in most homes is now considered a household necessity. Sixty cents a box at all dealers.
