#### BOLSHEVIK CAPTURE WHITE SEA FLEET AND WAR MATERIAL

Red Troops in Polish Ukrainian Battle Zone. Continue to Progress.

#### MANY VILLAGES TAKEN

London, May 23.—After the Bolshevik forces occupied Enzeli last week, according to a Bolshevik communication received here from Moscow, they captured the entire White Sea fleet, consisting of six cruisers and seven transports.

A large quantity of war material from the Caucasus, which had belonged to General Denikine, is also reported to have been taken by the Bolsheviks.

Bolshevik troops in the Polish-Ukrainian battle zone continue to make progress, adds the communication, which bears Saturday's date. The communication follows: "Our troops have occupied Utkhtinsk, 70 miles west of Kiev. In the direction of Pytalovo, enemy attacks have been repulsed.

"In the direction of Molodechno, violent fighting is going on about the region southwest of Vseslavino. "Our troops crossed to the right bank of the Peresina River, in the region of the confluence of the River Soguchik, and occupied a number of villages.

"We captured several localities near Borisov (on the Beresina), about 80 miles northwest of Minsk and our aviators are bombing the enemy lines. "In the Humen region (west of Minsk) we have occupied the towns of Boshewichy and Boshewichy, and captured Lubowichy, in the Bobruisk region.

"Scouting operations are going on in the region of Kiev. "On the Caspian Sea, after the occupation of Enzeli (Persia) we captured the whole White Sea fleet of six cruisers and seven transports and enormous quantities of war material evacuated from the Caucasus, where it had belonged to General Denikine."

#### SYSTEM BY SOVIET TO ENFORCE LABOR

Full Registration of All Russian Males and Females Between Certain Ages.

Petrograd, May 23.—The soviet government is taking steps to insure the full utilization of industrial power, and the elimination of parasitic elements by ordering the registration of all males between the ages of 16 and 80 years, and of females between the ages of 15 and 40. Each person registering is to furnish a book containing full particulars regarding the nature and the place of their employment, together with data giving a description of themselves, to establish their identity. No other identification cards are to be valid in the future.

A similar system of identification cards is to be established in Moscow and other Russian cities.

#### TO INVEST BRITISH CAPITAL IN QUEBEC FOREST LANDS

Premier Gouin, Returning From the Old Country, Says Several Large Syndicates and Technical Explorers Are Coming.

Montreal, May 23.—Sir Lomer Gouin, prime minister of the province of Quebec, accompanied by Lady Gouin, returned here today from a trip to Europe. The premier said that what was causing the greatest interest in Europe was the wealth of the Canadian forests, and added that several syndicates with large capital, both in France and England, were coming to Quebec province to secure forest lands.

He said that he expected to see a large influx of technical explorers come out to this province in the near future to look into its mineral resources and later encourage immigration from France, Belgium and England.

#### CAVALRY CHECKS LYNCHING CROWD

Mob Had Threatened to Kill Negro in Village Near Washington.

Washington, May 23.—A detachment of cavalry from Fort Myer was tonight called out to disperse a mob of more than a thousand persons which surrounded the jail at Alexandria court house, 12 miles from the limits of the district of Columbia, attempting to obtain possession of William Turner, a negro.

Arrival of the cavalry which had been requested by the sheriff of Arlington county scattered the mob, which had formed during the afternoon, threatening to lynch the negro. The troopers took up their station about the jail and late tonight the little village was reported quiet.

Turner is accused of having shot to death T. Morgan Moore, an employee of the naval torpedo plant at Alexandria, Va., and of having attempted to attack Miss Pearl Clark of Washington, Moore's fiancée, and secretary to Representative Britten of Illinois. The negro was arrested early today, about two hours after Moore was killed. Turner later confessed, according to the authorities.

#### NINE BUILDINGS BURN IN BRIGHTON

Early Sunday Morning Fire Causes Fifty Thousand Dollars' Damage.

Brighton, May 23.—One of the most disastrous fires in the history of Brighton occurred about 5 o'clock this morning, completely destroying the paint shop and storage of Butler Bros' Garage and Boat Works. Twelve automobiles were completely destroyed, along with some motorboats. Dr. Clarke's residence, garage, automobile and parts of the furniture and clothing were destroyed. M. Spencer's implement shop, Cheer & Tweedie's Coal Office, E. Jacques' Harness Shop and Booth's Shoe Shop were all completely destroyed.

At one time it looked as if the Clarendon Hotel and a portion of Main street was doomed, and Trenton was asked for assistance; they promptly sent their motor hose wagon, but on their arrival the local brigade had the fire well under control. The total loss is estimated at about fifty thousand, and is partly covered by insurance.

#### NOVA SCOTIA GIVES HUGE STEEL MERGER CHARTER REQUESTED

Seventy-Five Thousand Dollar Fee Paid, Largest Known in Canada.

#### MORDEN'S NEW TACK

Halifax, May 23.—On Saturday afternoon the British Empire Steel Corporation was incorporated under the joint stock company's act of Nova Scotia, and subsequently the provincial charter was issued by the provincial secretary. The capital of the company is five hundred million dollars. Its registered office will be at Sydney. The British Empire Steel Corporation first sought a Dominion charter, and application was made for incorporation under the Dominion government act. That application has now been abandoned and the corporation, the second largest in the world, is incorporated in Nova Scotia.

This will more closely identify its control with Nova Scotia, and, incidentally, it means an addition of seventy-five thousand dollars to the revenue of the province, which is the amount of the fee which the corporation has to pay for its charter. This is believed to be the largest fee ever paid in Canada for the incorporation of a company. The incorporation in this province will preserve not only the old revenue from the Dominion Iron and Steel Company, and the Nova Scotia Steel and Coal Company, but should have a tendency to largely increase it by reason of the much larger capitalization.

#### PLANS IN GERMANY FOR RED RISING

Proposal to Draw Reichswehr Away by Sham Revolts in Other Places.

Berlin, May 23.—The Tagliche Rundschau claims to have special information concerning elaborate preparations that are on foot in the Rheinland, Westphalia, Thuringia and Saxony, which will cause a radical flare-up in central Germany.

Sham outbreaks, according to the story, are to be arranged at remote points with the object of drawing the Reichswehr away from the real centres, after which a sham revolt on the part of the Rightists is to be engineered. After this a real radical revolution would set in at a moment when the harried population is ready to acclaim the Extreme Leftists as the saviors of the fatherland.

This program, says the Tagliche Rundschau, has been worked out in full detail.

Admiral Von Trotha, former chief of the admiralty; Rear Admiral Von Levetzow, recently governor of Kiel, and Major Von Falkenhausem, at one time an assistant secretary of state, with 12 other military and naval officers, have been dismissed from service because of their participation in the Kapp revolt last March. Their cases have been laid before the public prosecutor for consideration relative to further action. Eighty-five cases have so far been disposed of by government officials.

#### UNDER-SECRETARY FOR IRELAND QUILTS AFTER FORTY YEARS

Retirement Said to Be From Overhauling of Office of Chief Secretary.

#### MODERATE POLICY

London, May 23.—It is officially announced that Sir John Taylor has retired from his position as under-secretary in the office of the chief secretary for Ireland and is to be succeeded "during the present pressure of business" by A. W. Cope, second secretary to the minister of pensions. During the same period Sir John Anderson, chairman of the board of inland revenue, is to act jointly with James MacMahon as under secretary to the lord lieutenant.

Sir John Taylor's retirement has been anticipated, the only a few days ago it was announced that his leave of absence had been extended for a month. He has forty years' service to his credit and is looked upon by the Irish as one of those who maintained the old traditions of Dublin Castle.

Announcing the retirement of Sir John, the London Times says that his knowledge extended to the turbulent days of the eighties, and it is believed the advice which he tendered has been in favor of drastic measures. His retirement, adds the Times, will be regarded in Ireland as evidence that more moderate counsels are likely to prevail in the future.

The Times concludes: "There is little doubt that the administration machine of Dublin Castle has fallen into disrepair, and has long required overhauling. The strain of present conditions in Ireland has completely deranged it, and these appointments probably foreshadow complete reorganization of the chief secretary's office and a different orientation of policy."

#### MUNITIONS ARE BLOCKED

Dublin, May 23.—A train of munitions from a steamer arriving at Kingstown, handled by soldiers and destined for Cork, was held up today. The drivers refused to operate the train, and the signalmen declare that they will not pass munitions trains thru.

#### GREEK TROOPS BEGIN OCCUPATION OF THRACE

Constantinople, May 23.—Greek troops began relieving the French forces in Bulgarian Thrace yesterday, occupying the coast area northward from Xanthi to the Frederick line. The occupation thus far has been carried out peacefully. The local administration is being replaced by civil officials from Saloniki.

The Bulgarian peasants evacuating the affected territory are congesting all roads northward with their ox carts. Supplementary transports for the removal of civilians is being furnished by the Bulgarian government.

The Turkish officers and their families are evacuating Turkish Thrace.

#### GREEKS AND TURKS CLASH

Athens, May 23.—It is reported that an encounter has taken place between the Turks and the Greeks in the vicinity of Odemissah. The Turks, 400 strong, captured a position held by the Greeks, but eventually were repulsed. The casualties on both sides are reported to have been unimportant.

#### DEPOSED PRESIDENT OF MEXICO MEETS DEATH AT HANDS OF MAN WHO OFFERED HIM HOSPITALITY

Only One Other of His Followers Killed With Him—Other Members of His Party Claim They Made Unavailing Resistance—Herrero's Men Surrounded Hut and Fired Rifles Furiously Into the Shelter.

Mexico City, May 23.—President Carranza and General Morales Molina were the only persons killed at Taxcoitanango, according to newspaper despatches received here today. General Rodolfo Herrero is quoted by the despatches as saying that he only desired to kill Carranza and Ygnacio Bonillas. General Morales y Molina conducted the military trial of General Roberto F. Cujado, former commander-in-chief of the forces of Emiliano Zapata in Hidalgo, who was accused of dealing with the rebels. He is said to have been mistaken for Bonillas.

The despatches add that the three Carranza cabinet members who were reported to have been killed, have disappeared, and probably are in hiding. A despatch received from Juan Barragan, chief of staff of President Carranza, says Carranza met his death at the hands of General Rodolfo Herrero's forces at Taxcoitanango. The despatch did not give the exact date.

The despatch follows: "Villa Juarez State of Puebla, May 22. "General Alvaro Obregon. "Referring to your telegram of this date, Herrero joined the column at Puebla professing loyalty. IDEALS OF LABOR SUBJECT OF ADDRESS

Theosophists Treated to Exposition of Old Philosophy in New Form.

"Brotherhood and Labor" was the theme of an address delivered by Jas. E. Dodds before the Theosophical Society on Sunday evening, in which he declared that science had demonstrated a vital relationship between all forms of life in the three kingdoms known as inanimate, vegetable and animal, including man.

Mr. Dodds stated that a lack of wisdom and love for humanity on the part of the leaders of world affairs had led the world into its present appalling condition and he stated that labor should make an effort to create a new world where there was no more war.

Mr. Dodds stated that at least 90 per cent. of the children today get no further than the public school, and then drifted into unskilled occupations to earn a livelihood.

PORT STANLEY STRIKE AT END

That higher wages can be paid. At the end of that time Mr. Parker and Mr. Compton will again confer with Sir Adam Beck.

Mr. Hall would not express any opinion as to the action of the men if the commission do not grant a further increase. The matter had not been discussed, he said.

Back is interviewed. Sir Adam Beck, in an interview, said the men had gone back to work with the understanding that the commission had not altered its attitude in the slightest degree.

Not Adding to Note. Sir Adam said the suggestion made by Mr. Parker at the council meeting last week that the revenue be increased by a 70-cent excursion rate, instead of the 40 cents now charged, could not be considered, as such a rate would cause a loss of traffic.

Sir Adam does not expect another strike if at the end of two weeks it has been found impossible to give more than the commission has offered.

Choreboy for the Churches?

The Salvation Army self-denial week did not raise all the money that was hoped for, which is not surprising. The public has not become accustomed to thinking of the Army as a competitor in the tag-day field, and an ecclesiastical appeal from behind luncheon tables in fashionable hotels.

For fifty years the self-denial week has been a feature of the Salvationist year. It began for what it was called—a season for deprivation for the Salvationist, who believed in blood and fire, in the reality of the wrath to come, and in rescuing the perishing.

The money raised was into social work, and there the modern development of the Army's work has made its popular appeal. As was said on Saturday by a candid friend of the self-denial week, the Salvation Army has become the choreboy among the churches, and it is a little difficult to decide where what may be called its denominational work ends, and its truly catholic beneficence begins.

A minister went to a Salvation Army officer in a part of Toronto last winter for some help, and expressed deep appreciation of the assistance that was readily promised. "Oh," said the officer, "we are doing nothing like as much for you as you do for us. Half the bills of my corps are paid by members of your congregation."

The Salvation Army is a vast clearing house for the alleviation of suffering and the recovery of broken moralities. It is eloquent of the New Jerusalem, and how to get there, but its spirituality is not quite so ethereally aesthetic as that which belongs to some abodes of godliness in which the fishermen of Galilee would feel most miserably strange.

The public doesn't quite know where to place the Salvation Army in relation to the more definite churches. It doesn't call itself a church. It is more than a philanthropy. But it is doing a church's work, if ever it was done. For pure religion and undefiled is this—to visit the widow and fatherless in their affliction—and not to be careful whether they are members of the church.

Our Two Mexican Interests.

There are two Canadian interests to which the latest Mexican revolution is of intimate concern. Everybody knows that Canadians controlled certain public utilities in Mexico City and Monterey. But everybody does not know that Mexicans have been imported to ease an Ontario farm labor situation—to wit, the sugar beet industry in the Kent and Essex peninsula. How do Mexican revolutions look to Canadians who have financial interests in Mexico and to Mexicans who have had financial interests and residence in Canada?

In a way, in relation to its more advanced North American neighbors, there is a certain similarity between Mexico and Russia. It is not fair to judge Mexico by the standards of the United States and Canada. Those standards are the outcome of a north-western European civilization in which political and religious liberty were developed more extensively than anywhere else in the world. They are the expression of vastly different characteristics from those which belong to an intermingling of Iberian and Indian blood.

It was never fair to judge Russia by western European criteria. She was pitifully behind France and Britain, and her neighbor, Germany. But she was ahead of Asia, to which racially and culturally she was more akin, and was historically allied. Only a rough comparison between Russia and Asia has been possible. The only possible comparison for Mexico is with herself—and she has always been the impossible in North America.

Canadians who went into Mexico to make big money out of electrical franchises, knew the chances they were taking, when they preferred foreign speed in moneymaking to domestic stability. If their experience has made them more appreciative of their native north, they may come out on the more solidly profitable side. Who sups with the devil must have a long spoon. Who ventures into Mexico must take a long chance of seeing his concerns come to a violent end.

Did the host of Mexican men, women and children who were brought to Ontario to cultivate sugar beets learn much that they could turn to benefit when they returned home? They were not of the intellectualists, but they were learned enough to know that politics in this country are extremely quiet affairs compared with the life-and-death attendances on differences of opinion below the Rio Grande. They were not an extra-provident com-

pany. They revelled in pallor of ice cream and could not bring themselves, in midsummer, to believe that warm clothing would be needed by and by. They didn't want to return to Mexico; but contracts had to be fulfilled, and transportation arrangements respected.

And now Carranza is a corpse, the fourth Mexican dictator who has ended ignominiously in less than a decade, the fifty-eighth in the last hundred years. The Mexicans hate the Americans. They respect the British. Probably they know next to nothing of us northerners who are like and different from both.

It would be interesting to know which works the more agreeable heaven—the influence of Canadian commercial methods in Mexico, or the association of Mexican labor with farming in Ontario.

The First Thanksgiving.

On a car coming down town last night two friends were talking about the holiday.

"They call it Victoria Day," said one, "and so I suppose it is. But at our house we call it the first Thanksgiving, and make a real holy day of it."

"That's a new one on me," replied his friend. "What's your thanksgiving about?"

"Spring cleaning," "I didn't know you had anything to do with that?" "Haven't I? You bet I have, and more than being thankful it's over, too. I was beating carpets Saturday afternoon. Look at my hands," and he displayed three shining blisters, and proceeded to discourse on the propriety of making the twenty-fourth of May a day of thanksgiving that the latest spring cleaning is accomplished.

The Lord deliver us from the household wife—and also from her who is not a merciless foe of moths, and a believer in supplementing the vacuum cleaner with the good old-fashioned beater that reminds father that there is other serious work in life besides strenuously filling an office chair.

Many of us nourish the delusion that our wives really love spring cleaning. The truth is that they see martyrs to it; but cheerful martyrs withal. They go thru the house from attic to cellar with a relentless militancy that conceals how tired it makes them. Your wife looks cheerful if you happen home unexpectedly around lunch time, she wishes for once that you would become really infatuated with business.

She deplores the rising cost of soap, but uses all she has a mind to. She doesn't tell you that, try as she will, the moths persist in making assaults on the edges of the rugs that are hidden under the sofa or the gramophone. You think it is a relief when the last moth egg being captured, Minerva is herself again; but you don't know half of the pleasure it is to Minerva to know that for another year the most poignant of domestic travail is over, and that the twenty-fourth of May offers a beginning of summer peace—and only a beginning.

National Control Essential.

The enemies of public ownership of railways are not calling attention to their recent trumpeting of the incapacity of national control that they held to be proved by the return of the United States lines to their private owners, less than three months ago. They said national management was a clumsy, costly failure. They spoke and wrote as if public direction could only be justified if, with swiftly-rising costs of operation, profits were made by the reduction of unspecified expenses.

They apparently forgot that national control became necessary because high efficiency for war service could not be obtained if profits instead of patriotism dictated the routing of freight and the co-ordination of passenger traffic. But, they said, give the railways back to the private controllers and you will see efficiency promoted to the nth degree, and business will be itself again.

In twelve weeks, private ownership has been compelled to ask for a re-secure efficiency and save the country from commercial chaos, and the interstate commission becomes runner-in-chief of the railways. The fact is that the war demonstrated finally the futility of running vast public utilities as mere addenda to the hunger of groups of financiers for personal gain, and its attendant social and political power.

The magnate men have tried a reversion to their ancient methods, only to discover the folly of trying to put the new wine of community duty into the old bottle of incorporated exploitation. If they and their newspaper choruses would put half the toil and ingenuity into public service that they formerly gave to damning every manifestly of economic patriotism, nationalization of railways would speedily come into its own, and the magnate men would learn how trivial their former ambitions were.

JUST ABOUT WHAT IT AMOUNTS TO

IRISH PRELATE IS BEATIFIED

Many Irish Divines Attend Ceremony Held at Rome.

Rome, May 23.—Oliver Plunket, the Irish divine, who was made first Archbishop of Armagh in 1699 by Pope Clement IX, and who was executed for treason at Tyburn, July 1, 1681, was today beatified.

The ceremony of beatification took place this morning in the Basilica. In the congregation were Count and Countess George Plunket, representing the family of the archbishop; Sir T. Cranston Bannock, and family, Dean of the cathedral, and family, Dean O'Connell, member of the Irish parliament, and the vice-mayor and members of the municipal council of Dublin.

It had been originally announced the mass would be celebrated by Archbishop Edward Ilaly of Birmingham, but Irish bishops objected to the choice of an Englishman for the service, and Monsignor Pietro Paolo, canon of St. Peter's Church, officiated. Monsignor Hagan, rector of the Irish college, delivered the address in the name of the postulants, a reliquary containing fragments of the bones of the archbishop. This reliquary was a replica of the shrine which contains the bell of St. Patrick in Dublin.

The papal bull, announcing the beatification, was read, the relics were exposed, and a "Te Deum" was chanted. Then the curtain before the picture of the beatified was withdrawn, and the bell of St. Peter's rang out the tidings, being answered by bells from other churches throughout the city.

This afternoon there was a great concourse when Pope Benedict, in the midst of gorgeously robed and uniformed dignitaries and attaches of the Vatican visited the Basilica to beatify the relics. The ceremonies ended with the Eucharistic Benediction by the Pontiff.

Valuable Holstein Dies; Was Canadian Champion

Guelph, May 23.—(Special).—"Lowbanks Prilly Korndyke," one of the best-bred Holstein cows in Canada, owned by K. M. Daigleish of Kinnore, Ont., and valued in the neighborhood of \$6000, died at Speedwell Hospital Stock Farm. The animal was brought to Speedwell about two months ago to undergo a milk test, and while there, contracted a disease known as milk fever, which caused its death. Three years old, this noted cow held the championship record for Canada, having produced 720 pounds of milk in seven days.

THE GIRL WHO SMILED THRU

By MARION RUBINCAM

Synopsis of Preceding Chapters. Alice Fairbanks has won her way thru life by her optimism. She has had the wonderful ability to smile in the face of the most discouraging circumstances. Her sunny disposition first attracts to her David Thorne, with whom she falls in love. When a pretty, silly little cousin of hers takes him away from her and marries him, she is heartbroken.

Later she meets and becomes engaged to Lawrence Marlowe. She feels her old love for David has gone—then, while at college in the city, she meets David and knows she still cares. She runs away from him and comes home, and breaks her engagement to Lawrence.

EXPECTATION.

Chapter 91. After a little time, Alice was able to go on with the letter. But there was very little more about the thing that most interested her. She went back to the beginning of it. "Guess what? David Thorne's wife died yesterday. He sent word he couldn't lecture because she was seriously sick and he had been sent for, of course, there was a lot of comment among the girls, for your old-time friend was awfully popular—I don't suppose you knew that, but Thorne was the youngest lecturer in this solid institution, and he was good looking in the bargain."

Alice frowned impatiently. She wanted more details of this sudden death. She wasn't a bit interested in whether the college girls thought David good looking or not. Christine's habit of talking all around subjects frequently annoyed her. She read on—"Lola Hunt said she thought Mrs. Thorne must be in a hospital. If he had been sent for, of course I knew they weren't living together—you had told me—but I was a nice child and didn't let on. Then Louise Hammond went to the dance, usually with different men—evidently she created lots of scandal among the ignorant elevator boys and janitresses—anyway, she came in one night all tired out and soaking wet. It appeared she was in a bad broken down condition, and she had broken down about two or three blocks away, and Lola—don't that her name?—had to walk the rest of the distance. There was snow and sleet and she had on satin slippers and a light cloak—you know how little fashionable women are wearing this season anyway!—and she caught cold."

"She was cross and inclined to blame the man she was with for the accident—now isn't that like some women, Alice, to blame a perfectly patient man for trouble with a car-buretor or a differential or some-thing? Anyway, she said good-bye to him in the hall and snapped at my husband on the wire at once—you know his number?"

"Well, I don't know what she told poor long-suffering David when she talked to him on the phone, or even whether the boy got him for her. Anyway, she had been ill and was supposed to go out, and she developed pneumonia and died yesterday. So that's all I know about it. "Now, why couldn't all that have happened a long time ago, if it had to happen at all? I suppose now there's

no reason why you shouldn't marry David—only please don't, Alice! He really isn't worthy of a fine girl like you. I shan't speak to him myself, except to tell him the conventional words of sympathy. Of course, we girls are subscribing for a gigantic bunch of roses to send to the funeral. Now I want to tell you about—"

But Alice was not interested in college gossip. She only half read the rest of the letter. And when she had finished she sat for a long time staring out the window. Clara had gone out. Mrs. Fairbanks was busy with some one of the tasks she seemed to find about her house. Alice called to her and read her the letter.

"Poor Lois!" Alice echoed. "Poor Lois! Why do you say that? Where is there any need of pitying her?" "To die so young," Mrs. Fairbanks began timidly. "She was pretty."

"So it's the thing to pity her for couldn't get her way, by dying?" Alice's eyes flashed as she stirred to such a heat by anger. "I think she was lucky to die so soon. She had everything she ever wanted, she could not have gone on as she was without finding a time sooner or later when she was the youngest lecturer in this solid institution, and he was good looking in the bargain."

Alice frowned impatiently. She wanted more details of this sudden death. She wasn't a bit interested in whether the college girls thought David good looking or not. Christine's habit of talking all around subjects frequently annoyed her. She read on—"Lola Hunt said she thought Mrs. Thorne must be in a hospital. If he had been sent for, of course I knew they weren't living together—you had told me—but I was a nice child and didn't let on. Then Louise Hammond went to the dance, usually with different men—evidently she created lots of scandal among the ignorant elevator boys and janitresses—anyway, she came in one night all tired out and soaking wet. It appeared she was in a bad broken down condition, and she had broken down about two or three blocks away, and Lola—don't that her name?—had to walk the rest of the distance. There was snow and sleet and she had on satin slippers and a light cloak—you know how little fashionable women are wearing this season anyway!—and she caught cold."

"She was cross and inclined to blame the man she was with for the accident—now isn't that like some women, Alice, to blame a perfectly patient man for trouble with a car-buretor or a differential or some-thing? Anyway, she said good-bye to him in the hall and snapped at my husband on the wire at once—you know his number?"

"Well, I don't know what she told poor long-suffering David when she talked to him on the phone, or even whether the boy got him for her. Anyway, she had been ill and was supposed to go out, and she developed pneumonia and died yesterday. So that's all I know about it. "Now, why couldn't all that have happened a long time ago, if it had to happen at all? I suppose now there's

no reason why you shouldn't marry David—only please don't, Alice! He really isn't worthy of a fine girl like you. I shan't speak to him myself, except to tell him the conventional words of sympathy. Of course, we girls are subscribing for a gigantic bunch of roses to send to the funeral. Now I want to tell you about—"

## PLAYING COUNCIL CRICKET GAMES

### Dovercourt Defeats Albion, While Grace Church Win From Grand Trunks.

At Trinity Park on Saturday, in their first council game, Dovercourt beat Albion by 69 to 36. Welman, a good batsman of 16 was the one redeeming feature in a poor batting display by the home team. The wicket was none too good, and F. Colborne and Butterfield, the two Dovercourt bowlers, took full advantage of it, the former sending down 12 overs, of which 7 were maidens, for 5 wickets, for 17 runs, and the latter getting 4 wickets for 17 runs in 12 overs, with 5 maidens. Griffiths and Butterfield brought off spectacular catches, and the fielding all round was better than that of the home team. For Dovercourt, Watson played a steady innings of 15, and, with more vigorous displays by Simmons, J. Colborne and Kent, who also made doubles, the visitors went well past the Albion total. J. Colborne has returned to the game for keeps, and seems not to have in any way lost his scoring abilities. Albion used six bowlers, who procured results as follows: Sparling, 3 for 11; F. Smith, 2 for 7; Roberts, 2 for 17; Hall, 1 for 7; Wakefield, 1 for 17; Yaxley, 1 for 18.

Dovercourt wants game on opponents' grounds May 29 and June 5. Secretary, W. H. Garrett, care of Edwards & Edwards, 27 E. Front street. Phone Main 2619.

### JIMMIE WILDE AND PATSY WALLACE TEN ROUNDS TONIGHT TO A DECISION

The big crowds which have flocked to the sport throughout the world. The Rev. D. W. R. Taylor, rector of St. George's Protestant Episcopal Church, in New York, before Gov. Smith, in advocating the signing of the new boxing bill for the Empire State, said: "Opponents of boxing are the residuary legates of the old Puritan spirit, which is against everything giving pleasure to the body. I have stood up in 17-round bouts with barefists myself and I am still here. The sporting blood in me has not become my moral forces. I wouldn't give a fig for anybody, man or woman, who hasn't got some sporting blood in him. I think that even the cat and respected Canon Chase would like to see a little bout."

Of course Gov. Smith signed the bill. And a boxing bill will also be passed for Ontario, and women will become the most earnest supporters of the commendable sport.

To accommodate the thousands of racing men who necessarily will be late getting back from the track, wanting time to wash up and eat, the big championship bout will not be put on until ten o'clock. There will be thirty-two rounds of boxing altogether, and as the championship bout comes last those who come early will have plenty of entertainment waiting them.

Ladies, make your husbands take the scene is beautiful, for one can look right over the ring out on the Ontario, which will make a fascinating and attractive view.

Jack Munroe, one of Canada's grand heroes of the world war, will be official champion Jimmy Wilde's statement of the fight, as it progresses. The Times, Telegraph, Standard, Daily Mirror, Daily Sketch, Evening News, Evening Standard and Sporting Life of London, and The Express, Echo, and West-end Mail of Cardiff, Wales, will also have a similar service from the ring-side.

Both the champions, Wilde and Wallace, made their final preparations yesterday and each pronounced himself fit for the fray. It will be Wilde's first bout on this continent to a decision, but he has won them all by newspaper verdict or the K.O.

From the many thousands of reservations already made a very big attendance of ladies is assured. The contest will make many fans and supporters from the ranks of the women who will be enabled to see what a glorious sport a glove duel between well-trained, healthy and scientific professional boxers is, and vice versa.

FRANCE IS HEARING OF CANADA'S CATTLE

Town Criers in Villages Aid in Popularizing Campaign—Two Champion Steers on Exhibition.

CREATE GREAT INTEREST

Ottawa, May 23. — (By Canadian Press.)—Town criers in the villages of France have been helping to popularize Canadian cattle in that country, according to a letter recently received by the minister of agriculture from Mr. Patrick Ross, who, for the past three months, has been in charge of the two champion steers which he has been exhibiting on the continent of Europe. The steers were shipped to Antwerp in January, and it had been intended that some time should have been spent in Belgium, but, owing to the prevalence of foot and mouth disease, they were forwarded at once to the great La Villette in Paris. This is the greatest cattle market of France, and, after having been displayed there for a few days, where they attracted particularly the attention of butchers and country buyers, they were sent at once to the most important pasture areas of France, proceeding from Caen, the birthplace of William the Conqueror, in Normandy, to Lyons, in southern France. The mayors of many of the villages en route, to whom news of the exhibit was forwarded in advance, utilized the services of the town criers, who, following ancient custom, went out into the streets beating a drum, and announced to the people the coming of the exhibit.

Very great interest was created amongst the "herbageers," or big cattle graziers in the pasture districts. The continued high ocean rates on live cattle, and the serious exchange rate against France, are presenting difficulties in the movement of cattle from Canada, but the fact that France now realizes the advantage to herself of importing dependable supply of feeding cattle from the clean herds of Canada is confidently expected to establish this trade on a permanent basis, and is a noteworthy accomplishment of Mr. Ross' mission.

RESCUED THE CREW

Portland, Maine, May 23.—The shipping board steamer Lake Elsie, which arrived today from Dalhousie, N.B., had on board Capt. Goldert and the crew of seven men of the British schooner John M. Wood, which the Elsie cut in two and sank in a collision off Little Hope Island last Friday night.

DEPOSED PRESIDENT OF MEXICO KILLED

(Continued From Page 1).  
 ed the shelter where Carranza was sleeping during their furious rush into the hut. Everyone offered resistance, altho with the natural demoralization caused by the unexpected attack.

Much Valiant Resistance.  
 "General Francisco Murguia fought valiantly in the obscurity (semi-darkness), repelling the traitors, who surprised the defenders when they were leaving their shelters to attack the enemy.

"The unexpectedness of the attack enables us to clear our military honor. The defence was general to such an extent that the attackers were forced to take sixty prisoners, among them Mario Mendez, Paulino Fontes, Gilgarras, General Heliodoro Perez, Colonel Gomez, General Villela and Carranza's military aide.

Mendez formerly was director of the national telegraph lines. Fontes was former director of national railways, and Senor Garies was Carranza's private secretary.

"Our conscience is clear. Our grief for the death of the president is inconsolable. We are satisfied that we did not abandon him for one moment.

"The few men wounded and dead is explained by the fact that the attackers planned their crime, knowing the place where the president, who had placed his confidence in Herrero, was sleeping. The loyalty and courage of the president's followers were useless against the treason of those criminals."

The message was signed by Barragan and Marciano Gonzales, Federico Montes, Francisco de H. Maria and others.

Flags at Half-Mast.  
 The flags on the foreign embassies and legations were placed at half-mast when the news of the assassination of President Carranza arrived.

After a conference yesterday between Generals Obregon and Pablo Gonzales, a commission was named to proceed to the scene of Carranza's death to investigate and report.

The permanent commission of the national congress failed to obtain a quorum two attempts to hold sessions yesterday for the purpose of choosing a provisional president. The members of the commission, which functions between the regular sessions of congress, claim the right to name a provisional president under the constitution, following the death of President Carranza.

The majority of the members of congress oppose this view because of their acceptance of the Agun Prieta plan, which calls for extraordinary sessions of congress beginning May 24 for the purpose of choosing a provisional president.

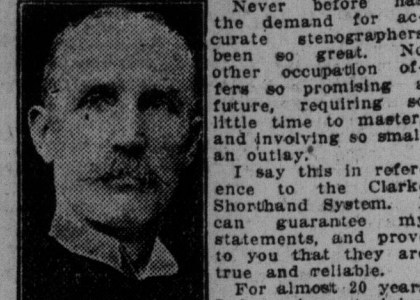

Failure of the commission to obtain a quorum is taken generally as indicating that the choice of the extraordinary session will be accepted.

queira, financial agent of the de facto government, here said:

"I am transmitting the following message received yesterday from Saxa:

"Early this morning at the town of Tlaxcalteango, the president of the republic, Venustiano Carranza, was made a prisoner, and cowardly assassinated at the cry of 'Viva Obregon,' by Colonel Rodolfo Herrero and his men, violating the hospitality that had been offered him by Herrero.

"The undersigned of this message protest with all their energy, honor and loyalty to the entire world this new stain which has been thrown upon our country. After having complied with our duty, which our honor as soldiers and friends of Carranza imposed on us, we are at your service, and we only ask permission to allow us to take the body of our worthy chief to its last dwelling place at the capital city, requesting you to order a special train for this purpose to Beristain."

"This communication, according to General Obregon's message, was signed by Generals Juan Barragan, F. de P. Mariel, Federico Montes and Marciano Gonzales, by Ignacio Bonillas, Lieutenant-Colonel D. M. Fernandez, Colonel F. Lima and other officers.

It carried the notation that the signers were sending it to General Gonzalez.

"I have answered the foregoing message as follows," General Obregon's communication continued:

"Your wire to General Pablo Gonzalez. It is very strange that a group of officers who are vouching their loyalty and honor like yourselves and were accompanying President Carranza with the unflinching duty of protecting him should have allowed him to be assassinated without complying with your duty as it will be viewed by the people of the republic and the people of the world, that you should have shared his fate. More so when the whole nation is aware that you are the only ones responsible for the unfortunate happenings of the last few weeks, and which had such a regrettable finale in the death of Venustiano Carranza, which found him abandoned by his closest friends, who at the critical moment failed in their duty to protect him.

"On repeated occasions, President Carranza was notified that every guarantee would be given him if he would be willing to leave the danger zone, but he refused to accept this offer because he undoubtedly considered it an undignified act of a man of honor to save himself, leaving his companions in danger; this act of Carranza revealed the dignity and good fellowship which you failed to appreciate.

"There are signed to the message the names of thirty-two officers and one civilian, which is more than sufficient in number, if they would have done their duty, to have saved Mr. Carranza's life, if, as you state, he was assassinated."

"I have the right to suppose that you ran away at the critical moment without having even made use of your arms, as none of you were wounded. If you had died defending the life of your chief and friend, who had showered so many favors upon you, you would have been honored by public opinion, and would be at rest with your conscience and would have escaped the shame of your cowardliness."

# Rinso

this wonderful new form of soap for the family washing —

Not a cake soap —  
 Not a washing powder —  
 But a remarkable new soap product in fine granules!

Just the thing you have been waiting for to take the labor and the hardship out of wash day. Just the thing you need now more than ever to save your clothes the relentless rub, rub, rubbing of the wash board. Just the thing you need to make spotlessly white the hard-to-wash clothes—the aprons, dish-towels, children's rompers, etc.—without boiling and toiling.

RINSO'S fine granules dissolve instantly and stir up into a rich suds.

## Rinso awaits you at your grocer's—to-day!

Start using RINSO this next Monday. RINSO is a new form of soap. Not a cake soap. Not a "washing powder." A wonderful new soap product—in fine granules. These pure, cleansing granules dissolve instantly into a rich suds. There is not a bit of solid soap to stick tight to the fabric and injure it. There are no harsh chemicals to "eat" the fabric—to destroy the colors. Just a rich, purifying suds—as harmless to the clothes as pure water itself.

### A New Idea of Washing

Labor saving! Time saving! Clothes saving! With RINSO you soak the clothes over-night or for three hours in the morning. You then take them out and rinse them. They will be spotlessly, gleaming clean. Only the extremely soiled things—bad spots—need a light rubbing between your hands right in the RINSO suds and they too will be shining clean.

The rich RINSO suds have loosened all the dirt while the clothes soaked.

Only one package of RINSO and your week's wash will be done better and easier than it was ever done before.

Get that package to-day—RINSO—at your grocer's.

Seeding Pretty Well Completed in Province Saturday Night.

Calgary, May 23.—This week-end will see wheat seeding all over the province of Alberta practically completed. The Calgary Herald's second crop report shows that on Friday noon between 87 and 90 per cent of the grain was in, with the fields of four-inch-high wheat showing above the ground in many cases from three to four inches high. The crop this year has been put in under very favorable conditions, plenty of moisture and good frost weather, although there is an indication that rain will be needed within the next two or three weeks.

Five Per cent Short. The acreage of wheat will not be decreased to the extent at first thought, probably about 5 per cent, owing to the fact that the farmers made an extra effort to hustle in the grain. barley and oats acreage will be somewhat less than in previous years, while flax seed is not available in some districts, and there will be a slight decrease in the amount of that grain. Germination in almost every case has been uniform, especially on summer fallow land, where the percentage of the stand is almost 100 per cent, practically 100 per cent. Pasture is in good shape, and the cattle are picking up wonderfully.

Speed is the watchword of "The Tempters," the attraction of the Princess all this week, commencing with a matinee this afternoon, and with matinees also on Wednesday and Saturday, will be the rollicking Canadian comedy of soldier life in France, "The P. B. L., or Mademoiselle of Bully Grenay," by W. L. McGee, M.C. What do the cryptic letters "P. B. L." stand for? Any returned man will tell you that they stand for "Poor Bully Grenay," and it is a play all about the poor bully Grenay, their trials, their tribulations, their joys and their sorrows, their high spirits that will be seen at the Princess. Written, staged and acted as it is by veterans with an average of twenty months' service in the trenches, the play is a masterpiece of high spirits that will be seen at the Princess. Miss Nance O'Neil, starring in "The Passion Flower," which has just closed the season's run at the Belmont Theatre, New York, will be seen at the Princess. Another notable week at the Regent Theatre begins today. There are two very strong attractions. Motion picture especially and music lovers are usually one and the same. They have much to be delighted with in this week's Regent program. Elsie Ferguson, known for her remarkable emotional talent, as well as for her beauty, is starring in "His House in Order," the screen adaptation of Sir Arthur W. Pinero's play. The second big attraction is the continuation of the series of operatic scenes with Elsie Ferguson. This time "Cavalleria Rusticana," by Mascagni, will be offered. The cast includes Miss Kathleen O'Connell, Miss Mary Bothwell, Miss Ruth Smith and Blake Lister. This has been arranged by Mr. John Arthur, musical director, and will be conducted by him. The congratulatory comments that have been heard on the success of this musical innovation at the Regent.

"The Luck of the Navy." Percy Hutchinson and his noted English collaborator, Will present "The Luck of the Navy" at the Grand Opera House next week with the same big production as seen earlier in the season. The play has been one of the biggest successes of the season and has just returned from an extended tour in the Canadian northwest.

Present indications are that one of the largest crowds in the history of Hanlan's Point will cross the bay today and enjoy the official opening of Toronto's favorite resort. Everything is in readiness, all the buildings have been freshly painted, several new games have been added and all the best of the ones. There will be band concerts afternoon and evening, dancing on the new dance floor, all day long, baseball between the Leafs and the Jays, morning and afternoon and—well, there will be something doing all day long. The caterers as usual will cater to the entire party, the best of eatables properly cooked and self served being on display at city prices. The ferry service will be a boat from the foot of the street every few minutes from early morning until late at night.

Weather Conditions Favor Northern Saskatchewan. Prince Albert, Sask., May 23.—When seeding is practically completed in northern Saskatchewan and farmers are sowing a good average crop of oats and barley. The weather conditions have been ideal and some of the first wheat now is up between six and seven inches. The crop prospects have inspired much optimism.
