

BEHIND SCENES IN DUAL EMPIRE

Vienna Pays Little Attention To Campaign

Hungary is Interested

Work on the Land Largely Carried on by Women and Children

Americans who have recently traveled through Austria-Hungary say they have been much impressed by the difference in the attitude of the people in the two countries toward the war.

Foreigners are anxious to see how few newspapers the Viennese read, and they buy still less, preferring to read them in the cafes.

The Viennese are as friendly as ever to foreigners. The police do not trouble them and it is not even necessary to produce a passport for a short visit.

French citizens have remained in Vienna and can talk in their own language on the streets unmolested.

German Trade With Balkans. In Budapest, the war seems much more in evidence.

This last is a very significant indication of the new political and economic development going on between the Central Powers and the Balkans.

Notices of Births, Marriages and Deaths, 50c.

DEATHS. KIRKPATRICK—At Gasperens Station, on Aug. 18th inst., Phyllis Audrey, youngest daughter of Anley P. and Minnie M. Kirkpatrick, leaving father, mother, two brothers, and one sister.

BROWN—On the 21st inst., at her home, 81 Portland street, Margaret S. widow of James Brown, in the 74th year of her age, leaving four sons and one daughter to mourn.

Funeral will take place at 8 o'clock Wednesday at Fernhill.

together, having shown Germany and Austria-Hungary how absolutely essential it is to maintain open communication through the Balkans with Turkey and the near east.

TORONTO MAYOR SAYS TOO MUCH RED TAPE

Critical of Some Phases of the War Situation in Canada

Montreal, Aug. 22.—The annual meeting of the Union of Canadian Municipalities is being held here.

In the inaugural address Mayor Church complained that there was too much red tape about the militia department.

He said the pension question should be settled at once. Returned soldiers should be handled by a government department, and not by commissions.

Hard Coal Economy. Schooner Lydia Roper is landing 300 tons of Triple X Lehigh for Gibbon & Company, Limited; chestnut, stave, egg and furnace.

NO LOTTERY—A SURE THING. Dollars, dollars, dollars, dollars, no telling, no guessing, come and see how many.

OLD CLOTHES FOR NEW LANDS GIRL IN POLICE HANDS. Fifth Avenue Shop Delivery Boy Blocks Alleged Fraud.

Nothing new under the sun? Wait until you hear of this talented young woman's contribution to the ever-expanding science of how to get something for nothing.

Back to the flat she flitted. From the window she called to the delivery boy when he arrived to bring the goods to the second floor.

She had \$21 in her hand, but the bill was \$27.50. With an embarrassed glance in the direction of her stocking she retired with the packages into another room to find more cash.

Joseph McNaught died in Chatham last Thursday. He was seventy-six years of age and is survived by three daughters and two sons.

Engagement Announced. Mr. and Mrs. Hedley Welford Kilburn of Central Kingscliff, announced the engagement of their daughter, Miss Nereen Lillian, to William Irving Young, of Brockway, York county.

Wise Sayings. Living is not breathing; it is acting—Rousseau.

Men may live fools, but fools they cannot die—Young.

More wasy weaght by honey than by vinegar—Old Proverb.

To make the best use of time we must have life in the soul—J. F. Clarke.

Mother is the name for God in the lips and hearts of little children—Thackeray.

Miss Alice L. Fairweather returned last evening from Digby.

Mrs. Annie F. McLean and niece, Miss Frances McLean, returned home last evening after spending several weeks in Digby.

Mr. and Mrs. Nicholas Kennedy announced the engagement of their daughter, Margaret, to Captain Arthur Leeger, of the 185 French-Canadian Overseas Battalion. The wedding is to take place towards the end of the month.

Mrs. J. W. Wordley and two children, of Toronto, are visiting Mrs. Benjamin Goddard, Church avenue, Fairville.

ACCUSES GERMAN PRESS. Vienna Socialist Says It Hides Admitted Defeats.

The German press as a whole is accused by The Arbeiter-Zeitung of Vienna in its issue of July 15 of trying its best to conceal the occasional defeats.

"They do not become conscious at all that the actual and considerable successes have been won and maintained by the German people."

"Such manufacture of opinion cannot have any effect upon sensible people. Perhaps it rather has a tendency to arouse the suspicion. Among the foolish, on the other hand, these methods do not produce the confidence in success which we all need, but a frivolity which results in the worst political mistakes."

"In Vienna, according to The Arbeiter-Zeitung, matters are still worse regarding war news and the newspapers are ridiculed for their constant quotations of pro-Turkish utterances by more or less obscure Swiss papers and military experts."

Morris-Hughson. At the residence of the officiating minister, Rev. G. Dickie, Miss M. Margaret-Hughson of this city became the bride of Francis Edward Morris of Southwood, Fairville, on August 10.

They will reside in St. John.

Good Furniture -- Attractive Prices Satisfied Customers! Has Made MARCUS' The Most Popular Furniture House. J. MARCUS 30 Dock Street. Look For the Electric Sign.

MacLaren's Imperial Dessert Jelly. All Flavors. 10c a Package 3 for 25c. Gilbert's Grocery.

Protect Your Eyes. Those to whom nature has given extra good vision are apt to be rather proud of it and nearly always abuse it.

D. BOYANER. TWO STORES: 28 Dock Street, 111 Charlotte Street.

"Food Is Its Own Best Digestant". "All too frequently, we prescribe medicines for patients who suffer from indigestion, when, as a matter of fact, what they actually need is a simple course of dietetic training, and the proper food-stuffs to train on." Grape-Nuts. "This is the famous 'reason' for the popularity of Grape-Nuts as an article of diet, viz, that it furnishes this very course of training for the digestion." Grape-Nuts. "One ought not to leave out of consideration the psychic element—the delicious treat to the palate afforded by a dish of Grape-Nuts and cream." Grape-Nuts. "There's a Reason". Made in Canada. Canadian Postum Cereal Co., Ltd., Windsor, Ont.

The Evening Times and Star

The St. John Evening Times is printed at 27 and 29 Canterbury Street over, evening (Sunday excepted) by the St. John Times Printing and Publishing Co. Ltd., a company incorporated under the Joint Stock Companies Act.

THE DEBEC ELECTION

Righteous indignation is doubtless the correct phrase to describe the feelings of the Standard as expressed in its comments this morning on the well-meant suggestion of the Times yesterday concerning the disposal of the Carleton county fund.

TWO LONG YEARS HE SUFFERED

"Fruit-a-lives" Made Him Feel As If Walking on Air

Ottawa, Ont., Nov. 28th, 1914. "For over two years, I was troubled with Constipation, Drowsiness, Lack of Appetite and Headaches. One day I saw your sign which read 'Fruit-a-lives' and I decided to try a box. In a very short time, I began to feel better, and now I feel fine. I have a good appetite, sleep everything I eat, and the Headaches are gone entirely. I recommend this pleasant fruit medicine to all my friends."

LIGHTER VEIN

Wanted to Enjoy His Leave Two soldiers caused some amusement at a Scottish golf course the other day. The first man teed up and made a mighty sweep, but failed to shift the ball. The miss was repeated no fewer than three times. His pal was unable to stand it any longer, and said in an angry voice: "For gude's sake, Jock, hit the bloomin' thing—ye know we have only fewer days' leave."

THE QUESTION OF RECRUITING

Touching the matter of recruiting the Toronto Telegram, Conservative, makes some very blunt remarks, as follows: "Canada should not put khaki covering on the civilian side of every article of apparel which is called to the discharge of lucrative and comfortable duties in connection with the registration of this country's recruitable population. If public money is to be spent in salaries every salary should go to a wounded soldier, Canada's first contingent and other contingents attracted many of the ablest men in this country."

SOUTH WEST TORONTO

The spell has been broken. For the first time in twenty-seven years a Liberal has been elected in Toronto for the seat in the provincial legislature. Mr. Dewar, the candidate nominated by the Liberal convention, although not supported by the Star, and although the Globe remained neutral, was elected by a large majority. There were four candidates and many issues in the campaign, but the significant fact remains that the Conservative was defeated. The Liberal question, Sir Sam Hughes' nickel quest, and the various topics of discussion. An effort is being made to counter the impression that the liquor vote defeated the government candidate, and perhaps a poor excuse is better than none; but one of the charges made by the Conservatives against the Conservative candidate was that he was in favor of a modification of the prohibition act and "went around with beer tickets in one pocket and wine tickets in another" to catch the liquor vote.

OUR HEROES

The Times yesterday published photographs of three young men from this city who have fallen in the great war. Many such photographs have been reproduced since the war began. Of the strong young men who went in thousands from New Brunswick the last post has sounded for so many that our hearts ache when we turn from the stern reality of war to consider the cost.

THE BALKAN FRONT

The Balkan front grows in importance in the war news. If it be true that the Greeks have clashed with the Bulgars a new element enters into the situation. There are also fresh rumors that Roumania may join the Allies. Meanwhile the latter are exerting increased pressure on a wide front, and the indications point to a smashing drive, in which the Serbian, British, French, Russians and apparently Italians are to take part. It is also reported to be landing there. With such an array of forces the operation there may assume as great if not greater importance in the near future than those on any other front. For the moment the operations on the British and French, Italian and Russian fronts give first place in public interest to the developments in the Balkans.

THE SHOOTING SEASON

is nearly here. Are you "fixed" for it? If not, you'll find all the "fixings" at our store.

We carry a full line of all the standard makes of Guns and Rifles and Ammunition for all kinds of shooting. Ask for a Copy of Our Shooting Supply Messenger

THE DEBEC ELECTION

Righteous indignation is doubtless the correct phrase to describe the feelings of the Standard as expressed in its comments this morning on the well-meant suggestion of the Times yesterday concerning the disposal of the Carleton county fund. The Standard says it is an "alleged fund." That, however, was not the view of the royal commissioners, two of whom were prominent Conservatives and the other a judge of the supreme court. They discovered a real fund, which had been gathered in from the lumber operators. It was a very large fund, and it could only have been collected for corrupt purposes. Mr. E. Reed was the treasurer of the fund, although for a short time, by his own admission, Mr. J. K. Flemming held the key of the strong box. The royal commissioners also found that Mr. Flemming took "by compulsion" the sum of \$2,000 from a railroad contractor. They would have made further interesting discoveries but for the fact that certain books and witnesses could not be brought before them, because they were not in the country at the time and could not be prevailed on to return.

SOUTH WEST TORONTO

Advertisement for The Canadian Merchantman. H. H. Blanchet of Toronto Urging Matter of Shipbuilding. H. H. Blanchet, of Toronto, who is staying at the Dufferin, is deeply interested in the regulation and upbuilding of the Canadian merchant marine, and is urging the government to take the matter up seriously. "I find in the maritime provinces," said Mr. Blanchet, "that what merchant marine we have has a great grievance, which they are asking the Dominion government to investigate through the medium of a royal commission. This is that the coal companies will not allow wooden vessels to load at their docks in turn with the steel vessels, but allow the steel vessels to have right of way over the wooden ones."

Advertisement for Catarrhal Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, it swells and becomes obstructed, and hearing is lost. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will never be recovered. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts through the blood on the mucous surfaces of the system. We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c. F. J. CHENEY & CO., Toledo, O.

THREE STORES

KING MAIN UNION

LOCAL NEWS

Miss Beatrice Gigg of this city, who is spending a few weeks at Hopewell Cape, was injured when a team in which she was driving collided with an automobile.

A hand concert given last evening by the City Cornet band in King square was greatly enjoyed and appreciated by a large number of people.

The South Bay fair, which was continued last night from Saturday, was a great success. Hundreds of people attended and the weather conditions were excellent. Some \$700 worth of prizes were disposed of. The games were all in full swing and a substantial sum was added to the receipts of Saturday.

Elias George and Elias Tom are paying dearly for their dash across the border in not declaring their automobile. As announced they were forced to pay \$800 as the value of the car and an additional \$200 as duty. The Canadian immigration officials have now had them in the police court for violation of the immigration laws. It is said they may be deported. The case now rests with the immigration officials.

PRESENTATION TO H. SELLEN

At a meeting of Dominion Lodge No. 141, L. O. A., last night, an address and past master's jewel were presented to Past Master Q. M. Sergt. Harry Sellen, who has sailed with No. 8 Field Ambulance. All the male members of Mr. Sellen's family, and his mother's family are now in khaki with the exception of one son, who is medically unfit through deafness. He has one son, three brothers and seven nephews in uniform.

Addresses were delivered by Henry Kilpatrick, P. L. C., Pott, Sgt.-Major Westall and H. W. Sullis; piano solos were given by Miss Kierstead and Mr. Bond. The presentation of the past master's jewel was made by Mr. Kilpatrick and the address was signed by him and by George T. Corbett and Charles L. Hamilton.

A Sad Decree

As she stood outside the little country inn two great tears shone in her innocent eyes, tears so large that the passing cyclist saw them. Beauty in distress called him to dismount and ask if he could be of any assistance. "I'm afraid not, thank you," replied the damsel sorrowfully, as she pointed to an automatic chocolate machine attached to the wall of the inn. "I put a penny in that thing and nothing has come out." "That's soon remedied," said the young man confidently. He slipped a coin in the slot, and then another, and another. After the sixth he muttered angrily, raised his cap and pedaled wildly away. As he disappeared a female head peeped round the door. "Any luck?" asked the owner cheerfully. "Oh, yes, my dear," replied the simple damed girl. "That's the tenth. I've netted three bob since dinnertime."

Men's Fall Overcoats

Prepare For Cool Evenings With One of These Fashionable New Models

In bringing these Fall Overcoats to the attention of St. John men, we are quite certain of general approval, as considerable time and study have been given to the selection of these garments. They were made by Canada's leading manufacturers, and in designing, tailoring and quality of materials are most exceptional. There is a good variety of models, affording opportunity of satisfying every individual desire. Special mention might be made of the "Huddler," also a Covert "Slip-on" Coat destined to be very popular. These attractive Fall Overcoats are either full-back or semi-fitting and in three-quarter lengths.

You owe it to yourself to see this exhibit and try on a few coats while assortments are unbroken.

Prices from \$10.00 to \$28.50

SIX OFFICERS OF THE 115TH SOON GOING TO FRANCE

All Lieutenants Volunteered When the Call Came

CAST LOTS TO SEE WHO'D GO

Not Sure Yet Whether Battalion Will be Held Together But May Form Nucleus of Fifth Division—Five Hundred Men Get Six Days' Leave

A letter received by a friend in this city from an officer in the 115th Battalion gives some interesting particulars about that unit. In part he writes: "We are not yet aware what our fate will be—whether we shall be held together as a battalion or be broken into detachments. Staff officers have told us that we reached England at an exceptionally favorable time for being held together—that we shall probably form the nucleus of a new division, the fifth Canadian division now being contemplated. They especially urge that this is the case since we are under instructions to move to Bramshotte Camp after the transfer of the fourth division to France.

"Although but one week in England, our battalion has furnished six officers and ten men to complete one of the units of the Fourth. They left for Bramshotte today to report. As soon as the request was transmitted through Colonel Wedderburn for the six officers (lieutenants) every one of his subs had volunteered. That meant a "toss-up" and the result was that the following six were eventually selected in the process: Lieutenants D. B. Clarkson, L. Scott, E. A. Porter, Hazen Thompson, all of St. John; Lieut. Charles Fitzhandolph of Fredericton, and Lieut. D. B. Widon of Moncton. It was sudden notice, but they realized that war was now the game and they accepted cheerfully. All are competent officers and have been popular with the officers and men in the battalion. Mr. Fitzhandolph is now with the 44th Winnipeg Battalion and the other five with the 47th from British Columbia.

"Five hundred men of the 115th will start tomorrow on a six days' leave. Practically all the officers will also go to various parts of the British Isles on a holiday before settling down to the work of further training. On their return all the officers will be sent to training schools to take courses in one or other subject.

"The reputation of the baseball team of the 115th Battalion is being steadily upheld and last night a match between them and the nine of the 115th, Nova Scotia resulted in a win for our team 16 to 7. Some 4,000 soldiers witnessed the game. We have been exciting these last few weeks and a person does not get much time to write.

"We are having fine weather out here and that helps us out a lot. I hardly think I'll finish this year, but perhaps I will. I am waiting for my pass, but I will have to wait till after the big push is over, it will be kind of a relief to see him one day last week.

"But, Mother, I think we'll have been pretty well after being out here so long and only have had one killed. We have had a few wounded, but they will come back again. We have been pretty busy these last few weeks and a person does not get much time to write.

"The annual picnic of St. Rose's congregation is being held today and will continue in the afternoon. The picnic is being held on the grounds of the church, and is being supervised by the Rev. Father Hayes. The weather is delightful.

"William Hayes, the capable chairman of the field committee, has arranged for games of all kinds, and beautiful prizes have been offered for the successful competitors in bean bag, bowling alley, ping-pong, tables on the block, Klondike block, ball toss, Bunny in the Hole, etc.

"The following compose the general committee: John Butler, James Butler, James Hanlon, John Hooley, Daniel Hooley, Maxie O'Keefe, Frank O'Keefe, Edward Gillis, Jean Gillis, John McKinnon, Jr., James Dawson, Nicholas Ryan, John O'Neill, James Hennessey, and Thomas Lee.

"The refreshment table is in charge of Misses Maggie Ryan, Mary O'Toole and May O'Keefe, while Miss Mary O'Brien supervises the ice cream booth, with several assistants, and the supper table is directed by Mrs. William Hayes with a corps of helpers.

"As usual the grounds present a most attractive appearance with trimming of flags and bunting. Provision has also been made for the illumination of the grounds this evening by electric light, this work having been done by James Wallace.

"This evening the City Cornet band will discourse music as at previous picnics and indications point to a large crowd and a good time.

ST. ROSE'S PICNIC IS BEING HELD TODAY

The annual picnic of St. Rose's congregation is being held today and will continue in the afternoon. The picnic is being held on the grounds of the church, and is being supervised by the Rev. Father Hayes. The weather is delightful.

William Hayes, the capable chairman of the field committee, has arranged for games of all kinds, and beautiful prizes have been offered for the successful competitors in bean bag, bowling alley, ping-pong, tables on the block, Klondike block, ball toss, Bunny in the Hole, etc.

The following compose the general committee: John Butler, James Butler, James Hanlon, John Hooley, Daniel Hooley, Maxie O'Keefe, Frank O'Keefe, Edward Gillis, Jean Gillis, John McKinnon, Jr., James Dawson, Nicholas Ryan, John O'Neill, James Hennessey, and Thomas Lee.

The refreshment table is in charge of Misses Maggie Ryan, Mary O'Toole and May O'Keefe, while Miss Mary O'Brien supervises the ice cream booth, with several assistants, and the supper table is directed by Mrs. William Hayes with a corps of helpers.

As usual the grounds present a most attractive appearance with trimming of flags and bunting. Provision has also been made for the illumination of the grounds this evening by electric light, this work having been done by James Wallace.

This evening the City Cornet band will discourse music as at previous picnics and indications point to a large crowd and a good time.

CITY TRAFFIC CASES

R. W. Carson was fined \$10 for not giving a signal at the corner of Main and Mill streets and refusing to move his car when told to do so by Traffic Policeman Lucas.

Arthur London was fined a like sum for allowing his fifteen-year-old nephew to drive his wood truck. A further charge was laid against the defendant that of having his team in such condition that it was dangerous to property and pedestrians. Policeman Lucas made the report. The report was the outcome of a runaway in which Policeman Wines did heroic work. The boy was receiving \$8 a week for driving the team.

THE ROTARY CLUB

The Rotary Club, at luncheon at Bond's today, was addressed by Rev. Mr. Bedell, of Shamokin, Penn. Mr. Bedell, who is a native of St. John, is himself a rotarian. He spoke interestingly of the Pennsylvania coal regions and in a reference to the war said that the great mass of the American people were in sympathy with the Allies, and that there never was a kinder feeling in that country toward the British Empire and Canada. Charles E. Vail of Truro was also a guest at the luncheon and spoke briefly. The club will cooperate to make the Labor Day celebration a success.

THE SCHOOL CHILDREN

Vaccination is still going on in the Board of Health rooms, and the number of children is still on the increase. The fact that school will open on next Monday is acting as a spur to the parents whose children have not yet been vaccinated and are about to start school for the first time.

SKILFUL WORK BY ENGLISH GIRL GUIDES

Judging the splint bandaging at a recent gathering of Girl Guides in London recently, when Miss Baden-Powell reviewed the girls...

THE BRITISH LEADER

Frederick Palmer Writes of Sir Douglas Haig

Frederick Palmer, brilliant American war correspondent in Europe, wrote as follows from the British Headquarters in France, just before the launching of the big drive:

No military leader is more averse to publicity or works more silently than Sir Douglas Haig. To those who are importunate for the offensive his answer is patience and yet again patience, while the new munition factories begin to pro-

duce and he continues his building. His generals say that he never tells them his plans, only what they are to do.

Few knew him.

Probably not one out of ten of the millions under his command would recognize him if they saw him. Not given to reviews or any kind of display, this quiet and studious Scotsman was the choice of the progressive, practical, driving element of the army as the one fit by equipment, training and experience to succeed Sir John French.

At fifty-five he is nine years younger than Sir John, and ten years younger than Joffre or von Hindenburg.

There is a story that he entered the army as the result of a boyish wager. He went through Oxford with distinc-

KRUMBLES COMING TO NEW BRUNSWICK

Krumbles, "all wheat, ready to eat," will be introduced to New Brunswick households within the next few weeks by one of the biggest advertising campaigns yet put on in New Brunswick by any commercial house. "It's a good thing and the people ought to know about it, and when once they know, they will realize its outstanding value," said one man who knew all about "Krumbles."

Krumbles is a Canadian food, prepared in one of the most hygienic and modern factories in Toronto. To enable New Brunswickers to obtain the benefits of this new whole wheat food, all prepared for eating, the W. K. Kellogg Cereal Company of Toronto are putting on throughout New Brunswick a campaign of modern advertising and sampling.

"Krumbles" is described as a new whole wheat food with "the delicious flavor originated by the Kellogg Toasted Corn Flake Company." Although wheat has been known for years as the most perfectly balanced grain food in the world, yet nobody knew how to make it delicious until Krumbles was discovered as a breakfast food. The advertising matter which will educate people to the value of Krumbles is distinct in that it brings the value of the food before the public in terse sentences, which aptly describe the characteristics of the "sweeter it tastes," is one of the advantages claimed for this new food.

New Brunswick will be covered by T. C. McIver, sent to the province from Toronto.

W. K. Kellogg Cereal Company put up a number of very valuable cereal foods. They are:

Wheat Krumbles, Wheat Flakes, Wheat Biscuit, Rice Flakes, Bran Flakes, and Drinkett. The last is a coffee substitute, powdered from a cereal, and is a fast winner with the children.

tion before he entered the Military School at Sandhurst. His choice of arm was the cavalry, which had so little to do so far in this war. But no sooner had he received his commission, later in life than most officers because of the time he had spent at Oxford, than he set out with the thoroughness of the student to master every branch of his profession.

Not a Brilliant Man.

"It was in Berlin in the autumn that I met Captain Haig who was studying German and the German army," said an Englishman. "I was struck by his industry—not a brilliant man, perhaps, but a sound and well balanced one. A little hesitant of speech, what he did say went to the heart of things."

He studied the French army, too, and the history of all campaigns with the systematic thoroughness that he brought to everything. It was the same with his pastimes as his profession. Whether he had talent for it or not he made himself a first-class golfer, though the form which he developed did not excite the envy of the professionals.

Like General Joffre he sleeps long hours. A rested mind is a clear mind for responsibilities. Like von Hindenburg, he never reads fiction. When reading has not to do with his profession he reads serious books and monthlies and quarterlies. Even during the battle of Ypres, when it was touch and go with disaster, he slept as soundly as Joffre during the battle of the Marne.

At a crisis of the retreat from Mons he remained as quietly as if he were giving a direction to an aide.

"We shall have to hold on here for a while if we all die for nothing."

Scottish Sense of Humor.

There is never any fustian about these modern scientific soldier organizers. Again during the retreat, when a certain general became somewhat demoralized, Sir Douglas took him by the arm and walked up and down with him in silence until he was over his fit of nerves on that terrible August day. Those who work with him know that his sign of anger is a prolonged silence of a telling kind. He has a temper, but does not let it get past his lips, they say. He has, too, a keen sense of humor with a Scottish flavor.

The impression he leaves is that of a

Gold Soap

TO SATISFY the demand for Gold Soap and other Procter & Gamble products, big factories have been erected in Hamilton, Canada. Canadians are shrewd buyers. They recognize the unusual value offered in the big, good cake of Gold.

Other P. & G. products made in the Hamilton Factories include Ivory Soap, P. and G.—The White Naphtha Soap, Sopade and Pearline.

GO Soap
The Big, Good Laundry Soap

leader without illusions; a soldier who sees with a soldier's logic; who is not afraid to be patient.

Not Like Our Civil War.

"In your Civil War," he said to me, "it was a case of raising armies of untrained men to fight armies of untrained men, while with us the small nucleus of regular officers who survived the retreat had to train even larger forces to meet a military machine which had had forty years of preparation. Not only men to men, but in organizations, must we make ourselves superior to our powerful enemy. The training of battalions and the manufacture of guns in England and their transfer to France represented only the first stage of real preparation for our task. Here they must be organized into divisions, corps and armies under the actual conditions of warfare before they could become worthily effective as a whole in any decisive effort against a foe whose staff training, reinforced by experience in the field must remain excellent, however exhausted he becomes.

"Every day he grows weaker and we grow stronger. Owing to the indomitable spirit of our officers and men in learning we are accomplishing what seemed the impossible to many soldiers at the outset of the war. Our cause gives us strength, for we are fighting for civilization. Those who have looked to us for victory will have their patience rewarded."

Being a good Scot he goes every Sunday morning to a little wooden Presbyterian chapel which has been erected on the outskirts of the headquarters town, where he sits in the company of Scottish officers and soldiers during a good Scottish sermon, and a lone one, too.

SUCCESSFUL SALE

Miss Frances McNally, Miss Duval, Miss Ryan, all of Brantford, Ontario, held a bean supper and candy sale at Brown's Flat on Saturday. Mrs. J. F. Bullock, of St. John, and Mrs. McNally, of Fredericton, poured, and were assisted in the serving by young ladies of the summer colony. About \$70 was handed to the patriotic fund as the fruits of their efforts. The affair was held on the grounds of Miss McNally's cottage, Kouchichewick.

"KEATING" YOUR WINTER THINGS before you put them away. Furs, Blankets, Woolen Clothing, Carpets, Curtains—everything subject to damage by moth—preserved by "Keating's" and dry it will not injure the most delicate fabric—and it is effective.

HONORS WON BY MEN OF THE 26TH

Military Medals For Gallant Conduct; The Local Recruiting

Six members of the 26th Battalion have won military medals for gallant conduct. The names follow: Private Robert Green, Private Carl Peters, Private Samuel Robert Mathers, Private Henry Arsenault, Lance Corporal Charles E. Latham and Sergeant Charles Moore. The names were learned of a letter from Major MacKenzie, O. C. of the 26th Battalion.

The total number of recruits secured in the province during the last week was seventy-two. The total secured during the preceding week was 147. The county totals for last week were: St. John, fifteen; York, seventeen; Chatham, eight; Albert, eight; Westmorland, seven; Carleton, five; Queens and Sunbury, four; Northumberland, three; Antigonish, two; Restigouche, one; Madawaska, one; Kent, one, and fifteen recruits from Nova Scotia for the 10th Battalion.

Lieutenant F. J. P. Travers of the 62nd Regiment, has been recommended for duty overseas with some unit now in England. He was one of the officers selected by the N. B. command when the militia department advised that a certain number of men be recommended to fill vacancies overseas.

Fred Woodbury, a St. George boy, in a recent letter to R. E. Armstrong, secretary of the board of trade here, from Plymouth, England, wrote that he and a party of 26th men were about to leave for France.

Since the opening of the allied offensive in Saloniki there are reports that Roumanian is at last about to throw her lot with the allies. These reports are more circumstantial than credible. Major Morath, a German military critic, believes that Roumanian is negotiating with Russia and hints at an ultimatum to Bucharest from Germany and Austria.

A report from the French war office says that a general offensive along the entire Saloniki front was launched on Sunday by the Allies. The Serbians have captured the first line of the Bulgarians on the left of the battle front, but have lost the town of Banica.

In a letter received in St. John from Private Charles Richardson, at present wounded and in No. 18 general hospital in Boulogne, he writes that the bullet that wounded him passed through his body and killed an enemy soldier standing directly behind him. Private Richardson is a member of the 26th Battalion.

THE MARKETS AT A GLANCE

Hardware and Metal, Aug. 19, says: From the standpoint of prices here the last week has been one of the most important in the last two or three months. Advance in prices chiefly in the prices of iron and steel, fence wire, staples, fence hooks, glass, resin, asbestos wick, revolving chairs, metal washers, handles, escutcheon pins, whitening, curry combs, tacks, nails, thumb latches, and other commodities. The advance in iron and steel is the most noticeable. It has been the result of the bad crop reports which have exercised a bullish influence upon wheat values, with a corresponding strengthening of flour. At the moment of writing wheat has settled somewhat, and flour values are full high. This is particularly true when the amount of business passing is taken into consideration. This is barely moderate, both export and domestic account not taking much. Millers hesitate to say anything as to the immediate flour levels, though one or two are rather expecting to see a substantial drop. Gaspé salmon is to be scarce this year. Supplies are small and price is consequently stiffish. Fraser River salmon is also higher in price. Small catches due, in their turn, to a scarcity of labor, seem to be the main reason. Blacci peppers, which have done little else but soar for the last two years, have dropped this week, and a much easier feeling is abroad in regard to them. Trade seems well stocked, and no heavy buying movement is noticeable. Sicily silbers are up, as buying commences to assume fair proportions. There is to be a large bean crop in Quebec, for which the Saints are praised! Grocers have had ample evidence of the stringency in beans for many months past. It is felt sharply at present. The letter crop that is coming will be welcome, although it will probably be late in arriving and the period between the last crop and the present stocks and the new crop will be one of exceptional tightness. Sugar values were down in New York this week. Canadian refiners did not follow suit, there being no need so to when New York advanced recently. Canadians did not advance. Now New York is down the refiners here may be said to be in the position of anticipatory decline. Budgets in sugar is fair to the middle.

DOLLAR DAY at BROWN'S

THE GROCERY MARKET

The following comment on the market situation as regards food stuffs appeared in Canadian Grocer last week: Office of Publication, Aug. 16: The event of paramount importance to grocers this week was the nation-wide advance in the price of flour. Sixty cents is also higher in price. Small catches due, in their turn, to a scarcity of labor, seem to be the main reason. Blacci peppers, which have done little else but soar for the last two years, have dropped this week, and a much easier feeling is abroad in regard to them. Trade seems well stocked, and no heavy buying movement is noticeable. Sicily silbers are up, as buying commences to assume fair proportions. There is to be a large bean crop in Quebec, for which the Saints are praised! Grocers have had ample evidence of the stringency in beans for many months past. It is felt sharply at present. The letter crop that is coming will be welcome, although it will probably be late in arriving and the period between the last crop and the present stocks and the new crop will be one of exceptional tightness. Sugar values were down in New York this week. Canadian refiners did not follow suit, there being no need so to when New York advanced recently. Canadians did not advance. Now New York is down the refiners here may be said to be in the position of anticipatory decline. Budgets in sugar is fair to the middle.

TEN MINUTE COLD CURE RELIEVES ALMOST INSTANTLY

Nothing cures so quickly as the healing pine essences in Catarrhose. It fills the breathing organs with a healing, soothing vapor that relieves irritation at once. Ordinary colds are cured in ten minutes. Absolutely sure for Catarrh, and in throat trouble like a permanent cure for Bronchitis and throat trouble. Not an experiment—not a temporary relief, but a permanent cure. Get Catarrhose today, and beware of substitutes. The dollar outfit is guaranteed small size 50c; trial size 35c. at all dealers.

An Easy Way to Get Fat and be Strong

The trouble with most thin folks who wish to gain weight is that they insist on drugging their stomach or stuffing it with greasy foods; rubbing on useless "flesh creams"; or following some foolish physical culture stunt, while the real cause of thinness goes untouched. You cannot get fat until your digestive tract assimilates the food you eat. Thanks to a remarkable new scientific discovery, it is now possible to combine into simple form the very elements needed by the digestive organs to help them convert food into rich, fat-laden blood. This master-stroke of modern chemistry is called Sargol and has been termed the greatest of flesh builders. Sargol aims through its re-generative, reconstructive powers to coax the stomach and intestines to literally soak up the fattening elements of your food and pass them into the blood, where they are carried to every starved, broken-down cell and tissue of your body. You can readily picture the result when this amazing transformation has taken place, and you notice how your cheeks fill out, hollows about your forehead, shoulders and bust disappear and you take on from 10 to 20 pounds of solid, healthy flesh. Sargol is absolutely harmless, inexpensive, efficient. Leading druggists, of St. John and vicinity have it and will re-surely your money if you are not satisfied, as per the guarantee found in every package. If you find a druggist who is unable to supply you, send \$1.00 money order or registered letter to the National Laboratories, 74 St. Antoine street, Montreal, and a complete ten days' treatment will be sent you postpaid in plain wrapper. NOTE—Sargol is recommended only as a flesh builder and while excellent results in cases of nervous indigestion, etc., have been reported, care should be taken about using it unless a gain of weight is desired.

LIBERAL WINS IN TORONTO BY-ELECTION

Tory Toronto won Liberal in the by-election in Southwest Toronto yesterday. There was a turnover of 4,284 in favor of Hartley Dewar, K. C. The Conservative candidate frankly opposing prohibition, but supporting policies of the Hearst government was completely snowed under in constituency where Hon. J. J. Foy rolled up a majority of 6,696 in general election. The election was practically a fight between Mr. Dewar and Mr. Morris, the Tory candidate, though others ran. This is the first time in twenty-seven years that the Tory constituency has elected a Liberal to the legislature. Temperature played an important issue in the election.

TEN CENT MILK.

At a meeting of milk dealers of Kings county in Norton yesterday it was decided to increase the price of milk to dealers, 83-8 per cent at the first of next month. At present they are selling eight-quart cans to the dealers at the railway for thirty cents and after the first of next month they say it will be forty cents a can. A good deal of the milk consumed at St. John comes from these farms. It is again said that milk will be ten cents a quart retail in the city after Sept. 1.

Use Cocoon Oil For Hair Washing

If you want to keep your hair in good condition, be careful what you wash it with. Don't use prepared shampoos or anything else, that contains too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain mulified cocoon oil (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, as this can't possibly injure the hair. Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rises out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage. You can get mulified cocoon oil at most any drug store. It is very cheap and a few ounces is enough to last everyone in the family for months.

BOSTON TAX RATE IS \$17.80 ON \$1,000

Boston, Aug. 22.—The tax rate in this city will be \$17.80 on \$1,000 this year. Last year's rate was 20 cents higher.

URGES A BEACON FOR UNFINISHED BREAKWATER

Boston, Aug. 22.—Federal engineers have been hearing a petition of commercial organizations interested in Atlantic coastwise shipping for a continuance of work on the Sandy Bay Harbor of ref. The project has cost the government more than \$2,000,000 and the engineers in charge of the work have recommended that the breakwater work be abandoned because they estimate that about \$5,000,000 additional will be required to complete it and that this outlay would not be justified by the commercial advantages. The petitioners, represented by Ralph S. Burr, president of the Lynn Chamber of Commerce, declared that in its present conditions the breakwater is a menace to shipping. He urged that a superstructure which could be seen in all kinds of weather be erected over the present wall. He presented a list of fifty-six wrecks near Sandy Bay since 1898 and asserted that there was not a single harbor of refuge between Boston and Portland. Witnesses supporting the petition included Congressman A. F. Gardner, chairman John N. Cole of the Massachusetts Commission on Waterways and citizens of several coastal towns.

BOY IS DROWNED

The eight-year-old son of Albert Comau, of Chatham, fell off a wharf at that place yesterday and went down the third time before help could reach him.

The East and The West

(From the Special Correspondent of the Manchester Guardian.)

Tokio, June 30.—Sir Rabindranath Tagore, who is now in Tokio, has had an extremely cordial reception in Japan, which has a significance more than literary and more than personal, for it is one of the many indications of the growing intimacy between Japan and India and of the evolution of a new Asia awakening to a consciousness of unity. Sir Rabindranath is staying with a distinguished Japanese artist, and it was at his host's home, hard by the Meiji Park, that he received me. The house is purely Japanese in structure and furnishing, and as Sir Rabindranath talked, a gardener watered the tiny strip of garden behind him, with its inevitable gold fish, miniature rocky hills, and dwarf trees. Sir Rabindranath's speech is gentle, with the delicate softness of a tongue attuned to a language less harsh than our own, but it has a full range of expression, and it becomes intense when he speaks of the present and the future of his own country. In a brief address at Osaka he had touched in a fashion perhaps not wholly gratifying to the New Japan, upon Eastern and Western civilization, and he had touched him of that, and asked him to elaborate his ideas.

"Japan," he said, "is rapidly acquiring the mechanical apparatus of Western civilization, but I think it would be a grave mistake if the cut loose from her own ideas and her own past. We have been through the same phase in India. When western civilization and western education came to us they exercised a great fascination upon our youth, and for a time our own thoughts and our own traditions seemed to them worthless and fit only to be cast aside. Then came a reaction, perhaps as extreme in the one direction as that in the other, and action and reaction are at work to produce an adjustment, for an adjustment is necessary. I have not been in Japan sufficiently long to say whether this is happening here also, but I feel it must be so. The western apparatus which Japan has borrowed is like a garment rather than part of the individual himself. It is universal and external. True, the west has taken a long time to evolve it, but it has no particular character of its own, and the east can borrow it and transplant it rapidly. Precisely for this reason I cannot of myself feel the soul of a nation. Thoughtful men in Japan with whom I have talked tell me that they are conscious of this, that they feel the need of harmonizing Japan's present with her past, and it is this feeling, I believe, which explains the extreme cordiality with which I have been received here.

"Do I think that eastern thought, the eastern outlook, can be reconciled with the mechanism of western civilization? I think it can and must be. In the east we have striven to disregard matter, to ignore hunger and thirst, and so escape from their tyranny and emancipate ourselves. But that is no longer possible, at least for the whole nation. You in the west have chosen to conquer matter, and the fine task of science is to enable all men to have enough to satisfy their material wants, and by subduing matter to achieve freedom for the soul. This

dividual and of society. It is a problem which the physician, the professor, the preacher and the political reformer will do well to study more. The subject of houses and people is not only important and many sided. It is also universal for it exists everywhere and concerns everybody. The responsibility for its solution in our domain rests upon all the citizens of all the municipalities in the land, for each man and woman can do his or her share in forming public opinion, in demolishing things that are a disgrace to Canadian life, and in bringing about a desirable state of affairs if not in a whole city or in a whole town at least in one home.

Advertisement for Beecham's Pills, titled 'The Household Remedy'. Text describes the benefits for ailments like headache, constipation, and indigestion. Includes the slogan 'Worth a Guinea a Box'.

tered competitor with the attractive clamor and gaudy coloring of the street. "And will not children growing up with little home life create homes with less?" Thorough study of the subject has proved beyond a doubt that slums result in untold evils for the entire municipality in which they are permitted to remain. The existence in every Canadian city of houses that are unfit for human habitation, together with the fact that the authorities allow these places to continue to be the so-called "slums" of men, women and children, constitute a difficult and perplexing problem, which is twofold. Bad living conditions not only indicate a low level of human attainments and human ideals, but also tend to make that level still lower. The housing problem involves two factors, the houses and the people, and both must be changed. Primitive dwellings, in which men first sought shelter from the elements and from the ravages of wild beasts were very rude structures, the product of undeveloped minds and hands that had not yet learned their cunning. But modern, up-to-date houses represent an output of human energies and skill that is varied and remarkable. The production of an ideal abiding place for families demands that municipal legislators enforce regulations for the use and development of land for building purposes; that men of science shall have spent long years of experiment and research to discover the laws of civics, economics,
