RETURN OF IRISH EMIGRANTS

One of Matters Discussed at Paris Congress.

Bring Home Benefit of Technical Knowledge Acquired Abroad and Boost Farm Work—Some Economic Questions.

(Canadian Press Cable) Paris, Jan. 26.—Nationalization of the Irish railways and banks among measures recommended to the Irish government in today's debate in the world congress of the Irish race when ways and means of helping Ireland to economic independence were under discussion. Delegates also insisted upon the necessity of transforming English owned industries in Ireland to distinctly Irish enterprises. Miss Mary MacSwiney, of Cork, declared the common citizenship of the Irish with the British provided for in the Anglo-Irish treaty would have to be done away with before Ireland could do anything towards keeping British capital out of Ireland.

Thomas Hughes Kelly, of New York, declared all the economic machinery of Irish life was in the hands of interests antagonistic to Ireland, the railroads, ports and all means of transportation, and that the national policy should be strangled until this machinery was gotten out of foreign hands.

The eventual return of Irish emigrants to their native home to help building up the country, was discussed, the speakers agreeing that Ireland should use a great many Irishmen who have learned technical trades abroad, and that the country ultimately be able to utilize much additional farm labor, bringing her agricultural production up to the maximum which speakers estimated would be three times her own needs in food.

TWO BIG LINERS ARRIVED TODAY

Tunisian and Montclair in Port the Later on Her Maiden Voyage.

The Canadian Pacific Ocean Service Ltd. liner, Tunisian, reached port this morning from Glasgow with eighty-eight cabin and 100 third-class passengers, in addition to 800 tons of cargo including 16,000 cases of liquor, and 245 bags of mail. The passengers were sent to their destinations this afternoon on the regular trains. After the passengers' baggage had been removed the steamer was taken to No. 5 berth to make room for the Montclair, which was coming up the bay a couple of hours behind the Tunisian.

The Tunisian encountered heavy storms across the Atlantic, but despite this made remarkable good time. When she came up the harbor this morning she was coated with ice from bow to stern. The passengers on board were an exceptionally fine looking lot and seemed to be both in good health and spirits after their long voyage.

Among the passengers were: Colonel G. G. Bristowe, a director of the Norton Griffiths Construction Company who erected the breaker in Contrecoeur Bay. Colonel Bristowe said he was en route to British Columbia where he had a large contract with the government for the erection of docks at another prominent passenger was A. J. McClure, of Lockerbie, Scotland, who had been home on a visit after spending twenty years in Japan, and who is now en route to the Orient.

Among the Canadian passengers were G. W. Hamilton, J. Miller, Mr. and Mrs. G. Wilson and Mr. and Mrs. A. Scott and family of Toronto; A. M. Farquar of Winnipeg, F. C. Nurse, and Mr. and Mrs. H. S. Shearer of Montreal, and Messrs. A. J. and J. H. Lyon of this city.

The Montclair. The C. P. S. liner Montclair, the first of the three newly-completed oil-burning steamers for the Liverpool-St. John service reached port at noon today and docked at No. 2 and 8 berths, Sand Point, early this afternoon. She brought from Liverpool 184 cabin and ninety-five third class passengers, in addition to 1700 tons of general cargo and 347 bags of mail. She is scheduled to sail on her return trip to Liverpool on February 1 and will maintain a regular service between these ports until the latter part of April.

This is the maiden trip of this big liner. She has a fine appearance and is admirably finished and equipped. She is a geared-turbine steel steamer of over 16,000 tons, with two funnels, is 506 feet in length, seventy feet in breadth and fifty-one and a half feet deep and is the largest steamer calling at this port. A full description of the liner appeared in the Times a few days ago.

The passengers left on a special train for their destinations throughout Canada.

Pope Buried Today Solemn Ceremony

Only Limited Number Admitted to Service—Endless Stream of Humanity Passes by Bier—Burial in Crypt, Body Enclosed in Three Caskets.

(Canadian Press Cable) Rome, Jan. 26.—The body of Pope Benedict XV was entombed with solemn and impressive ceremony this afternoon. Enclosed in three caskets and dressed in the pontifical robes it lies in a crypt under the great basilica of St. Peter, to the right of the entrance.

The historical and beautiful ritual was witnessed only by members of the Sacred College, members of the pontifical household and the papal nobility, and diplomats accredited to the Vatican. Rome, Jan. 26.—Final preparations went forward this morning for the entombment of Pope Benedict XV. The ceremony was to begin at 8 p.m., and at noon the huge bronze doors of St. Peter's swung shut, excluding the public from the vast basilica until after the funeral.

All the morning a seemingly endless stream of humanity followed past the bier in the basilica where the body lay, and the scenes of the last three days were repeated except that the crowd seeking admittance was greater than before. Churchmen, pilgrims and laymen mingled in the mass that strove to gain admittance in time to get a glimpse of the dead pontiff.

High masses were planned in virtually all the churches in Rome simultaneously with the solemn and impressive service in St. Peter's, which was to be held in the strictest privacy. Those attending were limited to the cardinals, members of the pontifical household, diplomats accredited to the Vatican and members of the papal nobility. Newspaper correspondents were barred.

Cardinals continue to arrive and it was expected that at least thirty would participate in the burial service. Benedict will be buried in a crypt beneath the floor of the basilica, near the right of the entrance of the cathedral, the body being enclosed in three caskets, the inner of cypress, the middle of lead and the outer of polished hard wood.

Washington, Jan. 26.—A poor service is being rendered Cardinal Maffi, who is recognized as a probable successor to the late Pope by that section of the Italian press which is representing him as almost subservient to the House of Savoy and declaring that Premier Bonomi is trying to influence the Sacred College, so it was said last night in circles informed on conditions in Rome.

It was said that no attempt to influence the Sacred College was made by the Italian government in the three conclaves which have been held since the fall of the temporal power in 1870, and that if such an attempt had been made, a most unfortunate situation would have been created.

In fact, it was added, the tendency has been quite the contrary in recent years, a more cordial relation, although unofficial, having developed under Mussolini and under Benedict XV, while Premier Nitti and then Premier Orlando encouraged the plan for reconciliation with the Holy See. What the Vatican insists upon, it was expressed, is that the status of the Pope in Rome, his freedom from any extraneous influence and his complete independence as a sovereign shall be recognized and guaranteed by the powers. Italian statesmen, however, are hesitant in agreeing to such conditions for fear, it was said, that this might provide a pretext for unfriendly countries to interfere in the internal affairs of the kingdom.

The claim for temporal power has been tacitly abandoned, it was emphasized, and the projects of many years ago that would have been a source of contention.

HERE'S A ROW FOR OFFER OF SOCIAL GLASS

Complaint that Colonel Suggested a Drink to Governor of New York.

(Toronto, Jan. 26.—Under the heading "said the Colonel of the 1st to the Governor of New York," the Globe publishes the following special from Albany, N. Y.)

New York State national guard officials are in hot water—or something else—over a complaint that Lieut.-Colonel Bligh, of the 1st Infantry, offered Governor Miller a drink one night recently in the officers' mess room of the armory in New York city, where during the Americanization campaign, the governor was a guest. "I got to prove that the military law was broken along with the Volstead law, or perhaps to go to prove he was 'a good fellow,'" it is alleged that the officer suggested, to the governor that a third quencher might be had.

The governor declined. Officers of the governor's staff were astounded. Later a letter reached division headquarters complaining that the military law was being "wrenched."

Now it is reported Colonel Eben may have to face a court martial. The military law of the state prohibits intoxicating liquors being taken into a state armory.

HAMMERING DOWN THE ASSESSMENT

Council Endeavoring to Pare Estimates to the Minimum—Proposed Extension of Indiantown Wharf.

The 1922 estimates for the department of water and sewerage were again discussed after a committee meeting of the common council this morning. Several items were considered and a reduction in some recommended. The mayor presided and except Mr. Thornton, who is still confined to his home through illness.

D. J. Purdy applied for the privilege of extending his wharf at Indiantown by twenty-five feet to make more warehouse room for river steamers. The wharf, he said, would still be within the harbor line.

The engineer reported that the extension might inconvenience some of the adjoining owners. He recommended that the matter be referred to the city solicitor.

Commissioner Frink thought all parties likely to be affected by the proposed extension of the wharf should be heard before definite action was taken.

On motion of Commissioner Bullock the matter was referred to the city solicitor and himself for a report.

Com. Frink submitted plans of a proposed diversion of the Millidgeville road near the intersection of the lower's Head road. He said the work was not absolutely necessary, but was brought forward to alleviate unemployment and to provide material for the filling at Newnan brook.

The road engineer said the work would also improve the road.

Commissioner Frink said that when the annual report on the cost of the work was made it would likely be found there was \$12,000 or \$13,000 surplus which could be used on the job. He said the filling would save \$30,000 on a new bridge which would be required next spring if the plan for which the mayor said Commissioner Thornton expected to be able to be out on Saturday morning.

A letter from the New Brunswick Power Company regarding the amount of work to be taken up by the street table until the public works department estimates were made.

Commissioner Frink said the company proposed replacing the wood ties with all steel construction, the plan for which had been approved by the road engineer.

The Estimates Again. Resuming discussion on the water department estimates, Commissioner Jones explained that the amount of \$240,000 for the sewerage works was for postage stamps and the cost of sending out water bills.

The mayor asked Mr. Jones to bring a report of estimated revenue from the west side mains, so that the matter of a possible increase to those using the water from the new main could be considered.

The mayor asked Commissioner Frink if any reduction could be made in the cost of feed in the stables.

As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hiram Hornbeam, when the latter had removed his ear-taps and woolen mittens and melted the icicles from his whiskers. "I read that at Point Grey, near South Vancouver, the pussy willows are white again, the robins chirping, and the mall carriers distributing seed catalogues. Do we emigrate?"

"Not me," said Hiram. "I haint tapped the maples yet. I wouldn't swap a red Noo Brunswick winter for all the rain they ever had in Vancouver. No, sir—we're all right. One of my cars was tetchel a little with frost yesterday, but it served me right for not putting down my ear-taps. When I git them down, an' a pair o' Hanner's make o' mufflers to keep my wrists warm above my mittens, an' these here mogans on, the frost don't bother me. I'm as healthy as a trool—if I haint keep movin' to keep warm that's what we're livin' ter—yes, sir."

ELECTIONS ON A FIXED DATE

Leader of Opposition in Quebec Legislature Revives Old Question.

(Quebec, Jan. 26.—(Canadian Press)—Arthur Sauve, leader of the opposition, submitted a motion in the Quebec assembly yesterday proposing the holding of provincial elections at a fixed date. He quoted a letter written by the late Hon. S. N. Parent, a former premier, to the late Sir Louis Jetté, a former lieutenant-governor, in which Mr. Parent affirmed that elections were the cause of agitation which was damaging to the country.

Mr. Sauve said that under the present system, elections were often held without sufficient time for all concerned.

Premier Taschereau, in reply, said that the question was not a new one. It was almost as old as the house. So far as he could see all the provinces were abiding by what had been wisely prescribed by the fathers of confederation.

As to Mr. Sauve's contention that elections were the cause of disorder and agitation, he said that there were greater causes of disorder than elections and he spoke of the friends of the leader of the opposition clinging to power. If the people were to be consulted on the question as Laurier had proposed, it was almost as old as the house. So far as he could see all the provinces were abiding by what had been wisely prescribed by the fathers of confederation.

Regarding car repairs, it was reported one car had cost \$480 for repairs, \$108 for tires, \$156 for oil, \$12 for gas, \$118 for the year, exclusive of license and insurance. He said considerable of the usual more work was done with the horse-drawn vehicles.

While the cost of motor equipment was high, Commissioner Jones said that the usual more work was done with the horse-drawn vehicles.

The mayor thought a speedometer should be placed on all cars, and a record of his mileage kept. He also was of the opinion that it would be profitable to get rid of the car which cost so much for repairs.

Regarding the estimate of \$1,281.98 for water department and \$209 for sewerage department for coal, he said that in 1921 it totaled \$1,047.40. The mayor said this might be adjusted. He said the estimate for 1922 was \$1,281.98, which was a possible increase to those using the water from the new main could be considered.

The mayor asked Commissioner Frink if any reduction could be made in the cost of feed in the stables.

FOUR HORSEMEN
OF THE APOCALYPSE

A horse who rode the remarkable Rex Ingram picture, "The Four Horsemen of the Apocalypse," at the Opera House next week will not need a sworn affidavit to convince them that many of the characters, visualized as actual personalities, taken from real life. When the Spanish author of the gripping novel from which the picture was filmed, that a reproduction of such a scene as the dance hall would form a vivid contrast to the subsequent scenes in Paris, and at the same time would serve to visualize the evil influences under which old Madragia, the Centaur, brought up his own grandson, Julio, he objected at first. Two performances will open each day at 2.15 and 8.15. An augmented orchestra will interpret the special musical score.

The result of the president's direct appeal to Minister Seo of the Chinese delegation, that China accept the latest compromise plan sponsored by the Japanese delegates of the renewed offer of "good offices" by Secretary Hughes and American Ambassador H. B. Hays, hitherto declined, was understood to have opened the way for the president's move to secure Chinese acceptance of the compromise plan sponsored by the Japanese delegates.

WRITER OF POISON LETTERS IS FOUND

Graphologist Fixes Guilt on Official's Relative, Who Confesses — Shambles of Gossip.

(Special Cable to the New York Times and Montreal Gazette).

Paris, Jan. 23—Science has at last revealed to the eyes of the law the person believed to be "Tiger's Eye," who during the last three years has, through a gossipy campaign of poisoned letters, turned the happy city of Tulle into a shambles of gossip, in which the good names of all wives and mothers were sullied.

Perhaps the most interesting aspect of the scientific finding is the fact that it coincides with a forecast made last August by a clairvoyant, who predicted the arrest of two women, one of whom would be the sister of an official in the prefecture. Yesterday Dr. Lecard, a graphologist, attached to the prefecture of Lyons, named as the writer of the flood of slanderous letters Mlle. Angele Lavel. This young woman is a sister of the captain of the gendarmes, and it is believed her mother will also be implicated in the writing of the poisoned documents.

This strange coincidence offers a certain amount of vindication of Examining Magistrate Richard, who several weeks ago sought the aid of occultism in the search for the guilty person. It is now known that the magistrate suspected Mlle. Lavel, and as it was occultism which had first directed attention toward her, he wished to confirm the evidence through occultism.

The scientific indication of Mlle. Lavel's guilt followed an exhaustive examination of the writing in the two hundred poisoned missives, and the study of the handwriting of dozens of suspects. The doctor found it almost impossible to secure an undisputed specimen of the young woman's handwriting. It was only after a stormy session lasting several hours, during which she broke down and wept a number of times, that she was coerced into writing naturally the phrases which had occurred in the letters, the expert rendered to the magistrate a decision in which he declared there was no doubt that she was the author of the heartless campaign.

The Tulle poison pen mystery, because of its long duration and its dire effects, has occupied the entire body of French people for more than any other internal happening outside of Briand's resignation during the last month. The campaign was brought sharply to the attention of the nation last month by the death of an official in the prefecture, followed shortly by the insanity of a

REVEAL SCANDALS IN U. S. SCHOOLS
Automobiles Provide Chief Means for Amazing Performances.
Chicago, Jan. 26—Conditions in some of Chicago's high schools are such that investigators employed by the board of education and parents are following the students of both sexes after school hours, and have made discoveries that are likely to result in drastic action.
Automobiles owned by students which their parents permit them to use, provide the chief means for scandalous performances. These are loaded with girls and boys and then begin a round of cabarets, jazz resorts, tea shops, shady flats and road houses. "Lovers' Lanes," and dark and deserted streets, and lonely country roads are favorite haunts of these students.
"Too much spending money and free use of automobiles," furnish the chief reasons for these scandalous performances. Recently two gilded youths were forced to drop out of Nicholas Seon high school after the principal had told their parents some amazing facts. Both youths were liberally supplied with money and costly limousines.
William Allen Nelson, president of Smith College, in an address here, told of banishing limousines from that institution and said, among other things: "The present day girl of college age, known as the 'happer,' is a shrewd, keen, hard, worldly little thing." This verdict for the present day youth of high school, who is subject to no home discipline and who is a vicious influence in the public school."

INFERENCE RE JEWS RESENTED

Local Merchant Discusses Immigration Question.
Points to Characteristics and Record of His People—Not True That Those Coming from Russia are Undesirables.

In the intervening weeks between outgoing government and the new administration at Ottawa—considerable discussion has arisen over the immigration situation, particularly as affecting European peoples and especially those who would come to Canada from revolutionary Russia. In recent newspaper writings and Ottawa correspondence to Toronto papers, re-printed in St. John, much has been said about the inclinations and dislikes of the Jewish emigrants seeking admission to this country. The question has been asked if it is in the best interests of the country to give free entry to those who refuse to work on the land, to become producers and thus to congest the cities with more

workless people and disturb labor conditions generally. Abraham Poyas, one of St. John's prominent Jewish citizens, expresses his mind quite freely to the Times on this important matter and warmly reprints many of the derogatory inferences against the Jewish people as printed in the long articles emanating from upper Canadian sources. He says there can certainly be no "masses" in the increasing Jewish immigration; the Jews have never been harmful to any country, but have been industrious and self-sustaining with a minimum percentage of poor and workless, a high percentage of successful business men and women, and conspicuous in progress and the upbuilding of the communities in which they settle.

The suggestion that the Hebrew people maintain their solidarity as Jews and think more of their Jewish than they do their Canadianism is false, Mr. Poyas avers. He says in the South African war the percentage of Jews in the British

army was far ahead of that of any other racial division of the empire. In the great war just finished the Jews were side in the forefront as a people in the allied ranks. St. John people know of one distinct Jewish unit that was sheltered here temporarily. In money and patriotic co-operation at home the Jewish people joined hearts and hands with their Gentile Canadian fellow-citizens during the terrific struggle.

Jews are anxious to preserve their identity as a people religiously, but in a national sense they are eager to embrace the hearty citizenship of Canada, and are most decidedly doing so. A poor

man without a land of their own for centuries and without any national distinction, naturally grasp at the opportunity to call Canada their own land, and this fact becomes more impressive with each succeeding generation—children born in Canada, schooled in Canada, thoroughly Canadian by environment and assimilation. The only thing Jewish they possess is their racial blood and religious teachings.

As to Farms. That Jews are disinclined to work on farms is another statement Mr. Poyas controverts. He says that in proportion to the population the Jews can be found in good numbers working western farms in a modern way, and also in the nearest west as well as in spots throughout eastern Canada splendid agricultural industries are in the hands of Hebrews. So far as St. John is concerned the most up-to-date farming and dairying plant in its environs is owned and operated by an enterprising Jew. And then again, argues Mr. Poyas, if the immigration laws were to exclude all Jews who did not signify a willingness to work on farms, how would that encourage farming if the cities and populous communities were to be denied the benefits of newcomers to the country and stand still as it were? Where would the market be?

The St. John merchant has been resident here for nearly a quarter of a century. He developed his business, like many other Jews, from a very humble beginning. He asks therefore why an alien cannot be as helpful to a nation in commercial life as on the farm. Are not the Jews in business here a valuable part of the business life of the city? Do they not make use of all the avenue of trade and finance like the native-born? Are they not desirable, law-abiding, tax-paying and co-operating citizens? Are they behindhand in the arts and crafts of the country? Are their children not keeping pace with others? Do they fill the jails, break the most laws, cause the most trouble?

Mr. Poyas says that up to a few years ago Canada was practically dependent upon the United States for its apparel. Then progressive Jewish tailors in Montreal and other Upper Canadian parts invested capital in modern clothing factories and the result is the best manufacturing market for any nation of its

population in the world, a trade employing tens of thousands. In St. John alone, say no means a clothing city, close to 200 operatives work on garments. This applies, also, to the manufacturing fur trade, women's apparel and jewelry making. A vocation sometimes sneered about but most important in the country, the saving and reclamation of metal and fibrous by-products which return to iron mills and paper mills—otherwise known as the junk business—is a worthy and valuable asset to the country's volume of business activity and is conducted almost exclusively by Jews. Canada is also now its own tobacco centre, and the Jews control this practically, snatching this trade from Cuba and the United States as a whole. King George has highlighted a prominent Upper Canadian Jewish tobaccoist in recognition of this successful battle with outside business rivals.

"The thing that hurts the Jewish people most in this anti-Jew immigration agitation," said Mr. Poyas, "is the statement that all Russian passports are definitely marked stating that the owner of the same is a Jew. Canadian officials are pleased to accept this to me; that the deportee is an undesirable of the name of the country, and they don't want him back in Russia—a case of 'good riddance to bad rubbish'."

"This is far from the true state of affairs," says Mr. Poyas. "The Bolshevik government are by this means getting rid of their worst enemies, the sane men of Russia. These Jewish people are so tired and heart-sick of the revolutionary reign of terror over them, so discouraged to know that their land is in the hands of such men as Lenin and Trotsky, that they gladly leave the country to make themselves happier. And the Soviets are pleased to let them go, clinching the argument by writing on the passports that they must not return. Only Red revolutionists are welcome over there, the peace-loving citizen is taboo."

Mr. Poyas asks if this kind of an immigrant should be barred to Canada, a man and his family who want law and

order instead of red revolution and fantastic government. There is never any danger of Bolshevism getting any foothold in this country by the Jewish route, for the people from Russia—past and present—are too happy in their new homes, too closely in touch with relatives in the oppressed land over there to want to introduce any of that far-fetched rule in this land of contentment and plenty.

Mr. James McGrath of Chatham, was severely burned yesterday afternoon, when his apron caught fire, while he was lighting a fire in the stove.

CHURCH DOES NOT WANT TO LOSE MINISTER

Committees to represent St. David's church at a meeting next week of the St. John Presbytery to consider the call to Rev. J. A. MacKegan, St. David's minister, from St. Andrew's church, Moosejaw, were appointed at a special congregational meeting held last evening in the church schoolroom. It was decided that every member of the congregation make an effort to be present at the presbytery meeting in order to strengthen the hands of the official delegation, who will present the case for St. David's as to why their popular pastor should decline the call. Those elected last evening were:—Representing the session, S. R. Jack, Robert Reid and George R. Ewing; representing the trustee board, F. P. Burpee, S. F. Jamieson; representing the congregation, Mrs. R. Jamieson, Dr. G. G. Corbet, D. Gordon Willett, R. E. Armstrong, James W. Brittain and A. R. McInnes.

POLICE COURT.

The case against George Galbraith, charged with having liquor in his possession other than his private dwelling, was finished yesterday afternoon when Inspector Kilien corroborated the evidence of Inspector Henderson. The accused was found guilty and given a fine of \$200 or six months in jail.

The preliminary hearing of the case against John Barry and Matthew Friars, charged with the theft of a car from J. A. Pugley, was resumed yesterday afternoon. Policeman Dykeman told of arresting three men, as he saw them coming out of an alley in which the car was. He got them to the lock-up all night, but when he opened the door two of them, Friars and McCarthy, escaped. McCarthy tried to escape also. He knew that Friars had been arrested later by Detective Biddiscombe, but McCarthy was still at large. The case was postponed until this morning.

EASY TO DARKEN YOUR GRAY HAIR

Try this! Brush Sage Tea and Sulphur Compound through your hair, taking one strand at a time.

When you darken your hair with Sage Tea and Sulphur, so one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is messy and troublesome. At little cost you can buy at any drug store the ready-to-use preparation, improved by the addition of other ingredients called "Weyth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and after another application or two, your hair becomes beautifully darkened, glossy and luxuriant.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Weyth's Sage and Sulphur Compound and look years younger.

I'm So Tired

Fatigue is the result of poisons in the blood. So when the kidneys fail to purify the blood one of the first indications is unusual and persistent tired feelings and pains in the back.

Neglected kidney troubles lead to years of suffering from rheumatism or develop into such fatal ailments as Bright's disease.

The kidney action is promptly corrected by use of Dr. Chase's Kidney-Liver Pills—the best known regulator of kidneys, liver and bowels.

Mrs. John Ireland, R.R. No. 2, King, Ont., writes:

"I was a great sufferer from severe headaches and bilious spells. I tried a number of remedies without obtaining any benefit until I was advised to use Dr. Chase's Kidney-Liver Pills. These completely relieved me and made me feel like a new person. I am very grateful to Dr. Chase's medicines for what they have done for me, and you may use my letter for the benefit of others."

For Hair And Skin Health Cuticura Is Supreme

The majority of skin and scalp troubles might be prevented by using Cuticura Soap exclusively for all toilet purposes. On the slightest eruption, apply a little Cuticura Ointment. Cuticura Soap soothes and cools the skin and overcomes heavy perspiration. Bedclothes, linens, handkerchiefs, etc., should be washed in Cuticura Soap. Cuticura Soap should be used without soap.

Police See Trick in New False "Tip"

New York Times)
The police received another mysterious telephone call yesterday giving a false "tip" on a crime. Investigation showed no such crime as that reported had been committed. Several similar cases have occurred recently, and some of the detectives who have made these needless investigations are wondering whether some criminals have not invented a new trick to entice the police to one place while they commit a robbery or burglary elsewhere in the same precinct.

Yesterday somebody telephoned to the West Thirtieth Street Station and the Jefferson Market Court about the same time that three negroes were shot in West Eighteenth street. Detectives were rushed out to investigate, but could learn nothing. On Saturday morning Sunday the police of the West 123rd street station was routed out on three false telephone tips of a stabbing and two burglaries in that precinct.

In the first two days of the hunt for Luther Boody, the negro who killed two detectives in Harlem, the West Sixty-eighth street station received several false telephone calls that Boody was hiding in a house in the San Juan Hill RING.

Brindley leading in a short song service. Rev. J. A. Swetnam was the speaker. He took as his subject, "Oh, Lord, Revive Thy Work." He said that the time had come for a revival, when the material things of the world came into the church, when the people thought more of their money than their souls; when members of the churches had forgotten prayer as their motto. Several in the congregation responded to his plea. Rev. Mr. Swetnam sang a solo, and a mixed choir also took part.

Mr. Howard recalls the Beens and McCormick of former skating days, compliments the Y. M. C. A. people and for the work it did, pays a tribute to Frank White, A. W. Covey, the Woman's Council, the Boy Scout, Charles Gorman and the skaters. Reference is made to St. John's good reputation as a place for clean, honest sports, and a tribute paid to those few who in the last fifteen years were constantly promoting amateur athletics, showing an interest in boys' work, forming Improvement Leagues and doing all they could to encourage clean, manly sports. To these especially, Mr. Howard wishes long, long life and happiness.

NEW COMPETITION WITH THE RIFLE

Looks to the Individual and Should Help Development, Says Lt. Col. A. B. Snow.

The Canadian Rifle League, which has done a great deal in the past to promote good shooting in the Dominion, has given notice of a new year competition for individual scores to be held monthly in February, March and April. It has been suggested on account of trouble found in a great number of the smaller corps in securing a team of eight men who can shoot well enough to make a showing when it might have been possible to find one or two men who could make good shooting. Prizes will be given for the same as those for any miniature range shoot both for rifle and revolver marksmanship. Prizes will be given for the best aggregate for the three months for seniors and juniors as follows:— Miniature rifle and revolver, seniors—1st prize, \$10; 2nd prize, \$7.50; 3rd prize, \$5; 4th prize, \$4; 5th prize, \$3; 6th to 20th prize, \$2 each; 21st to 35th prize, \$1 each. Miniature rifle only, juniors—1st prize, \$2; 2nd prize, \$1.50; 3rd prize, \$1; 4th to 20th prize, \$1 each; 21st to 30th prize, 60 cents each.

It is thought that this year will show a decided change for the better. The results of the second shoot for the Canadian Rifle League held at Rothesay Collegiate School show an even better grade of marksmanship than was shown at the first shoot. The time the team of eleven cadets reached a total of 1019 of a possible 1100 or an average of 92.6 per cent. The individual scores were as follows:— Cadet P. R. Armstrong 97 Cadet E. Bieder 97 Cadet S. Dunham 97 Cadet R. Gibson 96 Cadet R. Schibler 91 Cadet R. Kitchen 91 Cadet H. Nase 91 Cadet J. C. Brownell 90 Cadet F. Gordon 88 Cadet R. Colter 86

CASE OVER AUTO INSURANCE

A claim for \$1,500 on a policy of insurance on an automobile was heard in circuit this morning before Mr. Justice Crockett, the case of James H. McKinney, the Imperial Guarantee and Accident Assurance Co. The car in question was insured in April, 1921, and in July of the same year was destroyed by fire. O. W. Wood was chosen as the appraiser for the company, and Charles P. Kelly for Mr. McKinney. Mr. Wood placed the value of the loss at \$1,500, and Mr. Kelly at \$1,200, and when subsequently H. W. Johnson was chosen as a referee all three agreed on \$1,500. The car had been insured for \$2,000. The company offered to repair the car, having ascertained that they could do so for considerably less. Mr. McKinney contends that the appraiser's figure was in the nature of an award, and is now suing for that sum. The witnesses examined this morning were J. H. Bates and O. W. Wood.

WEATHER HAS BEEN HARD ON SHIPPING

The harbor and waterfront have been quiet this week, due to the storms and severe cold interfering with shipping. Some steamers have sailed, but the ice-ward vessels have been delayed by the weather, and before the arrival of the two Canadian Pacific passenger boats to-day there were only seven steamers in port, one of which was laid up. If the weather is fair, several vessels should reach port by the end of the week, which will bring the number well up to the average.

SOUTH END RACES OFF TILL TUESDAY

Because of the sustained cold spell it has been decided to postpone tonight's races for boys on the South End rink until next Tuesday. The entry list will be kept open until Saturday night. Already nine seniors and eight juniors have given in their names as contestants.
