London, Nov. 27.—The foreign office confirms the report that British law officers of the crown, in co-operation with the French authorities, are considering the question of the extradition of the former German emperor. The foreign office says that the law officers have not yet made a report, and consequently no action has yet been taken.

FINE DAY AND GOOD PROSPECTS FOR THE Y. W. C. A. CAMPAIGN

The drive of the Young Women's Christian Association workers in quest of \$10,000 with which to fit up the lately acquired Sears building, 23 King street, is blessed with fine weather today and Mrs. John McAvity, president, told The Times about noon that it looked as if their objective would be reached all right.

WHEN BRITAIN AWOKE

Lloyd George Tells of Blows Which Made Enemy Reel From His Throne

London, Nov. 26.—(Canadian Press despatch from London's Ltd.)—In the course of a second speech at Wolverhampton Premier Lloyd George, referring to Great Britain's enormous industrial effort, mentioned that the guns we had been using for the last two years were guns nobody ever dreamed would be taken except for siege purposes. He remembered how great soldiers had scoffed at the idea that such heavy guns could be dragged to battlefields. At the end of the war we had two hundred times as many German guns in the East as we had at the beginning. We captured sixty times as many German guns in the East as we had at the beginning of the war. The Prussians never understood our spirit. "It was a sight to see the Briton who had become lethargic and who was half-slumbering like a great lazy giant, rise up and bend his back to the task and strike such a blow that the enemy reeled from his throne." (Cheers)

He predicts that this province will profit greatly by the meeting and its decisions.

WORK OF MOBS IN SOUTH AMERICA

Lima, Peru, Nov. 27.—Peruvian men and women were pursued through the streets of Iquique last Saturday and Sunday by Chileans, according to refugees from Iquique who arrived at Montevideo Monday on the steamer Placena. Many of the Peruvians had narrow escapes. Peruvian homes in Iquique were looted and burned.

WOMAN CANDIDATE TO OPPOSE ASQUITH

London, Nov. 27.—Herbert H. Asquith, Liberal leader and former premier, will be opposed for his seat from the east district of Fifehire in the coming elections by Mrs. George Hope, widow of Colonel Hope, who was killed during the war. Colonel Hope was a nephew of the Earl of Rosebery, former premier. Mrs. Hope is running independently of any party, and one of her planks is a demand that William Hobson, the former German emperor, be brought to England to be tried for murder.

HARDSHIPS OF ALLIED TROOPS IN RUSSIA

Archangel, Nov. 22.—(By the Associated Press)—In log huts and wind shelters made of birch boughs, Allied and American troops are holding the line against the Bolsheviks on the middle sector of the northern front in the region of Kadish. After ten weeks of fighting in swamps and thick undergrowth, the Allies now snowed in and are bivouacked along an ice-filled stream on the opposite side of which are the camp fires of the enemy.

GOOD THINGS COMING TO THEATRES OF ST. JOHN
LATEST SOCIETY STEPS AND NEW BALL ROOM DANCES AT THE OPERA HOUSE

The young people who enjoy dancing and who go to all the parties will find much of interest in the exemplification of the latest society steps and new ball room dances by the musical comedy team, Norton and Nobles, at the Opera House this week. For many months previous to their present vaudeville tour they were the principal dancers at one of New York's famous restaurants and saloons and have all the latest fads right at the tip of their toes. Other good features on the bill include Jack Dempsey, the dancing tramp and comedian, who keeps the audience in roars of laughter at every performance; Conroy and Chick in songs and stories; The Rianos in a comedy pantomime, with a funny lion, monkey and the most peculiar looking birds; The Edwards Trio in a class musical feature, and for a picture, The Woman in the Web serial drama. Evenings at 7.30 and 9; afternoons at 2.30.

PLAY WITH A BIG HEART PUNCH!

Have you forgotten the ambitions that your mother had for you? This is a question that ought to make every man pause and reflect, for his mother is one person in the world who has his interest at heart. His success means her happiness. All mothers are unselfish toward their children and would gladly die to make them happy. "Turn to the Right!" the reigning comedy success by Winchell Smith and John E. Hazzard, which comes to the Imperial next week—Wednesday and Thursday—is a story of the unselfish love of a mother for her boy. His friends are her friends and his happiness is her joy. This is the greatest inspiration to make of himself the man that he knows his mother would wish him to be. "Turn to the Right" is his setting in the home and its inspiration in mother. It has a beautiful love story with big dramatic moments and is full of fun. Seat sale starts this—Friday.

THROBBING PICTURE HEADS GEM BILL

There's a picture at the Gem tonight that you'll talk about after you've seen it. It is "Cheating the Public," a throbbing big melodramatic production built upon the tyranny of a factory boss, the mercilessness of a food profiteer, the child labor problem. It is gripping in situation, vibrant with action and commanding attention all the time. With it will be a pleasing Pathé News Weekly. "Cheating the Public" is one of the Gem's new series of really big productions. Come tonight at 7.15 or 8.45.

You Can Do Better Work

Many a man has found that he makes fewer mistakes, does better work and more of it, and feels more fit at the end of the day since he began wearing glasses. The reason is simple. Properly fitted glasses give him clearer vision without the eye strain that causes headaches, nervousness, tired, aching eyes—of course he can do better work. You can, too, if you let Sharpe's optometrist take care of your eyes.

'LONGSHOREMEN DEMAND INCREASE OF THIRTY CENTS

Would Make Rate Seventy-Five Cents an Hour—Offer of Five Cents More Rejected—Work Suspended but Not a "Strike"

The local branch of the International Longshoremen's Association is asking for seventy-five cents an hour or thirty cents more than they were paid last winter. Two delegates from the local branch are in Montreal conferring with the Shipping Federation relative to the increase in the wages.

All work was suspended this morning at eight o'clock, pending the decision of the Shipping Federation. In all about 1,200 men quit work. The president of the association, Thomas J. Sharkey, said that the longshoremen are not out on strike. They are only suspending work pending the reply.

This morning at eight o'clock a meeting was called to decide whether they would accept anything less than the seventy-five cents, should it be offered. As their own rooms proved too small to accommodate the gathering, the management of the Lyric allowed them to have the use of their building. It was decided at the meeting to accept nothing less than seventy-five cents, an increase of thirty cents. In the event of their being refused their demand, it is obvious that a strike will follow.

The longshoremen in Montreal during the summer were receiving fifty cents an hour, the extra five cents being given them without asking. Mr. Sharkey, the president of the local branch, said this morning that the longshoremen in Vancouver are receiving eighty cents an hour for the same class of work that they have to handle here for forty-five cents. He said during the war the longshoremen here were handling high explosives at the rate of forty-five cents an hour when in other parts of the Atlantic coast the men were being paid \$1 an hour. The cause of the local branch, he said, not asking for an increase was due only to their patriotism, believing by working for the forty-five cents they were helping "do their bit."

The two representatives in Montreal who are there for the purpose of conferring with the Shipping Federation relative to wages will also get further data with regard to certain provisions which govern the longshoremen. These will be made known to the members of the local branch on the return of the representatives.

Offered Five Cents

The local branch was advised this afternoon by their representatives in Montreal that they had been offered an increase of five cents per hour, making the rate fifty cents an hour. This offer has been rejected at the local branch and, in their reply to their representatives, they told them that in the event of their not being able to get a hearing before the Shipping Federation, they intend to return to St. John tonight.

OAK HALL WAREHOUSE A VERY BUSY CENTRE

101-107 Germain Street Surely is Drawing Crowds—O'Donnell Sale the Reason

The O'Donnell sale of men's and boys' clothing and furnishings being conducted by Oak Hall at their wholesale warehouse, 101-107 Germain street, has proven to be of exceptional interest to the people of St. John.

Oak Hall has accumulated here a stock that is really unusual in the values offered. They purchased a large portion of the M. J. O'Donnell stock of St. Stephen, and, following their usual motto of large volume at minimum profit, are offering this stock for sale at prices which represent large savings when compared with present day values.

As Oak Hall intends to clear up the O'Donnell stock this week, there are only a few days left during which these low prices will prevail, so that all prospective shoppers should visit Germain street west large savings when compared with present day values.

WATCHMAN, WHAT OF THE NIGHT?

(Rev. George Scott.)
Ho! watchman with the troubled eyes,
Peering into the murky night,
This primal night of woe and pain
Sweep thou upon the eastern skies

The dawning of the happier time?
The coming of the age of gold
That prophets have so long foretold
In words that burned in deathless rhyme.

Ho! Watchman with the tearful gaze,
And breaking heart and bruised soul,
Canst tell us of the utmost goal?
To which shall tend these mortal ways?

The watchman threw abroad his hands
"Rejoice, your woe shall turn to mirth,
The time is travelling to birth.
When love and truth shall rule the lands."

"Lift up your heads ye gates of brass,
For Christ the Lord shall be reborn,
Lift up your heads ye ye that mourn,
And see the clouds of darkness pass.

"Lift up your heads ye ancient hills,
I hear the chariots of the King,
I hear the ransomed myriads sing,
A harmony that sobs and thrills.

"And lo, a little child shall lead
The hearts of men to purer faith,
And love shall triumph over death,
And death shall die in very deed.

"Captains and kings and warriors all
Shall cast their empty laurels down
To Him who wore the thorny crown,
Who drank the vinegar and gall.

"Rejoice O earth, for now at last
Hs dawned the deathless sage of gold,
The time your seers have long foretold,
When tears and pain shall all be past."

Wide Awake.
"Is this a hustling town?"
"Sure," answered the old resident.
"We never sleep."
"Right up to snuff, eh?"
"That's the ticket, stranger. The feller down at the depot ain't the only person who stays awake all night this town. We've got an all night restaurant."

ARE CONSIDERING EXTRADITION OF FORMER KAISER
(Continued from page 1)
"The Kaiser is in Holland as a private person," said the premier as quoted by the correspondent. "The hospitality of the country is extended him in accordance with a centuries-old tradition. But it goes without saying that the moment his sojourn becomes a danger to the state he will have to leave. We believe the Kaiser and those with him understand the position and will act according to their interests."

Herr Hohenzollern's Reaction. (By the Associated Press)—William Hohenzollern's entourage has been asked by the Associated Press if the former emperor has any message to send to the American people. The following reply was received today:
"His majesty's suite regrets that it is unable to submit this demand to his majesty."
This forenoon the former emperor, accompanied by his host, Count Von Benckendorff, and preceded and followed by a guard of rural police, walked to the Rhine, which is a half hour's walk from the castle. He spent some time viewing the country property there.

Herr Hohenzollern is in constant communication with the German legation at The Hague.

An icy Reception. Amsterdam, Nov. 22.—The tug bearing the former German Crown Prince to the Island of Wieringen was unable to make the harbor there last night owing to the fog. It turned back and spent the night at Mademblik. When the fog lifted during the morning it started once more and arrived at Wieringen Island this afternoon. The Crown Prince was given an icy reception by the stolid islanders.

Frederick William is not supposed to leave the island except by special permission by the home office at The Hague. He gets food cards the same as an ordinary citizen. In a Bible class room adjoining the Oosterland parsonage, a place of refuge, hangs the picture of the Prudential Son.

London, Nov. 27.—The former German Crown Prince had not seen or heard from his father for weeks up to the time he was taken to the Island of Wieringen, according to an interview he gave to newspapermen who on his way from Holland to his present home on the Zuyder Zee Islands. He said that his wife would remain in Germany.

"A change is coming in Germany," but one has to be careful about prophesying," he replied to a question as to what he thought of the revolution in Germany.

"Will you return to Germany?" was the next question.

"Yes, when the situation changes, but when—here Frederick William broke off to testify to the excellence of the food in Holland.

"Many people here do not think so," some one interjected.

"Oh, I think it is fine," said the former crown prince. "Anyhow I am a small eater and do not want to get fat."

Frederick William was quite accessible to the newspapermen, and said he did not know how long he would remain on the Island of Wieringen. When he reached the main depot at Amsterdam he partook of coffee and biscuits.

HOUSECLEANING IN FEDERAL BASEBALL
New York, Nov. 27.—The way to start baseball house-cleaning is for the National and American leagues to hold a joint session of two days or more and consider the various proposed reforms, John Heydler, acting president of the National League, said here today.

"There is altogether too much sloppiness, suspicion and lack of care between the club-owners of the two leagues," Mr. Heydler said, in explaining his proposal. "It is all right to fight each other on the ball field during the playing season, but at other times there should be at least the ordinary business co-operation that exists in other competitive lines."

"To attempt to carry on a so-called reconstruction programme in baseball without the sincere aid of the sixteen club-owners, as well as of authorized representatives of the minor leagues would result in absolute failure."

SOUTH AFRICA'S SHARE IN EMPIRE'S WAR EFFORT
Cape Town, South Africa, Nov. 26.—(Canadian Press despatch from Reuters Limited)—Thanksgiving services throughout the Union, some held partly in English and partly in Dutch, emphasize the fact that in all war operations in Africa and overseas the Union gave the services of nearly 150,000 men, of whom 818 officers and 6,220 men were killed in action. Eleven thousand six hundred and sixty-one of all ranks were wounded and 1,344 taken prisoner and 398 missing.

Review Shows Stupendous-ness of the Effort
Figures From France

Almost Two Million Men Overseas—Complete Railway Systems Constructed and Operated—Docks and Warehouses Built—The Food Problem

American Headquarters in France, Tuesday, Nov. 19 (by the Associated Press)—The extent of America's military effort in France at the time the armistice was declared is shown by statistics which the Associated Press is now permitted to make public. While the stupendous figures required to tell the story are in themselves amazing, it should be remembered that they show only a part of the great effort made in war preparations in men, money and material.

On the morning of November 11 the United States had in France 78,891 officers and 1,281,876 men, a total of almost 2,000,000. As has already been announced, there were 750,000 combat troops in the Argonne action. This number does not include the American units engaged in other parts of the front.

Man power alone, however, was but one factor in the preparations for Allied participation in the war. Behind it lay vast machinery which was required in operations. Railways and motor roads were constructed, and across the sea were brought locomotives, cars, tanks and motor transport of every kind.

Behind this, again, was the requisite food, clothing and general supplies for the men, as well as the construction of house construction. Every effort of civil life, plus the requirements of war, was exerted.

The American army has brought over to France and has in operation 67 standard gauge locomotives and 13,174 standard gauge freight cars of American manufacture.

These figures represent a fairly good-sized American railway company, but railways represent only a fraction of the transport effort. Modern warfare is motor warfare and it is virtually impossible to present in figures the place of the work of the American army in building new roads as the exigencies of battle operations required, in keeping French roads under the American, in lessening the time of transport and in constructing bridges in devastated battle regions.

Even at the present stage of the armistice, which may precede peace, it is not permissible to hint at the vast stores of munitions and armament brought over and held in readiness. The Associated Press, however, is allowed to give approximate figures showing what has been accomplished in the accumulation of food supplies. It will be seen that the American Expeditionary forces were in no danger of being placed on short rations, had the war continued, although the American Expeditionary forces have vast quantities of food, in addition to their own needs.

constructed. This development of French ports increased facilities to such an extent that even if the Germans had captured Calais and other channel ports, as they had planned, the Allied loss would have been strategically unimportant.

So largely were facilities increased that the English armies could have had their bases at the lower French ports, if necessary. In other words, American work in port construction lessened to a material degree the value to the Germans of their proposed capture of the channel ports.

These figures serve in a measure to show the magnitude of American accomplishment, and the great machine is in operation today as the American Third Army moves forward into German territory.

Sends Record
Of Sea Monster
Forty-five Feet Long, Weighed
Fifteen Tons, and at That It
Was Only a Baby of its Kind

A record of a most unusual monster of the deep caught near her home in Brodentin, Florida, has been forwarded to W. H. Parler of this city, by his daughter, Mrs. Williams. The clipping from a Florida newspaper is as follows: The monster was captured on the 21st of October, 1918, by the fisherman, James Williams, near Brodentin, Florida. The monster was forty-five feet long, weighed fifteen tons and was only a baby of its kind.

It was twenty-three feet around the body and its tail measured ten feet from tip to tip. It had swallowed an octopus weighing 1,500 pounds, which was still alive in its stomach when caught. It could have swallowed twenty tons of food without suffering the slightest pang of indigestion.

It smashed a boat into thousands of pieces and crushed the rudder and propeller of a thirty-one-ton yacht with a single swipe of its mighty tail. Five harpoon thrusts and 150 large caliber rifle bullets only served to increase its fury and it took five days to finally kill it.

The creature is not classified in natural history, the genus or species are unknown and it is not only the most remarkable zoological specimen but the largest specimen of the fish tribe known in history.

Although the largest fish ever captured, scientists claim it was only a baby of its tribe and if it had grown to full size it would have been two and one-half times as large.

Every undertaking establishment on the Florida coast from Jacksonville to Key West gave up their entire supply of formaldehyde to preserve the monster and over nineteen barrels were used. It was mounted by S. W. Warne, the celebrated taxidermist of the Smithsonian Institution who was also chosen to accompany Admiral Peary on his famous trip to the Pole.

Now on exhibition in Tampa at the city club in front of the Tampa Bay Hotel. On board Captain Thompson's large sea-going yacht which he built at a cost of \$30,000.

lected until it is finished, as there will be a steady demand for men and breeding stock from Europe with the re-establishment of normal communication and the release of ships from war services.

Winter Trawling
Off Nova Scotia
Long Hours of Hard Work Under
Difficult Conditions at Sea

"If most of the people who eat fish, especially in winter time, had to catch their own fish, the world would be a very different place," remarked Gert Myhre, captain of the steam trawler, Triumph, "the word would soon disappear from the menu cards."

The captain had just made his ship fast to her wharf in the morning. He had been out for three days recently, so usual in Nova Scotia, says the Canadian Fisherman. The Triumph coasted with gleaming ice from the top of her mast to the water line, suggested a Viking ship. The trawler's captain and crew—descendants of the Norwegian, and indeed returned from a grim battle, not with their fellow-men, but with the gale of the ocean.

Winter fishing on the Grand Banks means long hours of hard work and under about the most difficult conditions one can conceive. The Triumph leaves Halifax for the Grand Banks every week. Only the fisherman's most treacherous foe, foggy weather, can deter Captain Myhre from setting out.

There is no telling just where fish will be found, but the fishing grounds from December to April are the western Grand Banks around Sable Island. When the steamer reaches a point some hundred and twenty-five miles off Nova Scotia, and almost directly east of Halifax, the trawl is let out. The depth here is 100 to 150 fathoms. It doesn't make any difference whether it is day or night, almost constant driving gale, the Triumph is fitted with electric lights, and the crew often are obliged to work from fifty to seventy hours without sleep.

Another danger to which winter trawlers are exposed is that of icing up. The steel hulls frequently so heavily coated with ice as to give the ship a dangerous list, and if she should happen to encounter a storm while in this condition the Triumph would never make Halifax again.

It is not always fish the trawl brings up from the depths of the ocean. Sometimes they are bits of wrecked ships, or again, a slime-covered skull—silent messenger from the unknown past—may be seen in fact they informed us that we had them all beaten from \$18 to \$80. Remember, we are located at 104 King street, in the low rent section. That's how we sell good clothes lower.

We are also giving 10 per cent. discount off our regular goods to soldiers for their first civilian overcoat or suit since discharge.

Y. M. C. A. Texts Boys. The weekly convalescence of Texts boys was held last evening in the Y. M. C. A. About eighty boys were present. At 9:30 o'clock the first meeting of the Boys' Council was held. This council is composed of representatives from various churches who are taking the co-operative boys' work in the Y. M. C. A. Ronald Shaw was elected mayor, Donald Humphrey recorder, commissioners, Horace Wetmore, Robert Towse, Harry Coleman and George Purdy.

PROGRESS MADE IN
PEAT DEVELOPMENT
The coming of peace will not interfere with the plans of the Dominion and Ontario governments for the development of the peat industry. The report of the department of mines gives out the following statement:
The joint committee that is dealing with this question is composed of Messrs. A. A. Cole (chairman), R. C. Harris, R. A. Ross and B. F. Haanel (secretary). This committee has arranged for the construction of two large quantities of different types, that will handle large quantities of peat automatically, thus doing away with costly hand labor. It was hoped that these machines would have been ready for operation this summer, but so much delay was experienced in having them manufactured that it will not be possible to do more than try them out for a short time before the winter sets in. However, next spring will see them producing regularly.

GROCERY SITUATION
The following comment on the market situation as regards food stuffs will appear in Canadian Grocer this week: Raising relief to more than one in the grocery trade today, and the reason is not far to seek. The embargo against the export of these has been lifted by the United States Food Administration, and Canada stands a chance of receiving a few new crop raisins for the Christmas trade. It is intimated that other dried fruits, such as prunes, apricots and peaches, are also removed from the embargo list, but few if any of these are expected, owing to heavy government orders which have largely absorbed the small production.

NO FAITH IN GERMANY.

Some fear is expressed that President Wilson may be disposed to treat Germany, now that she is beaten, as an honorable foe whose word may be trusted and who may safely be given lenient consideration.

A HINT FROM ENGLAND.

A remarkable tribute to democracy and social progress in England is paid by Dr. Edith Abbott, lecturer in sociology in the University of Chicago.

"From Germany has issued, since Nov. 11, no sentence or word that by any stretch of the imagination could be interpreted as sorrowful or penitential. Such communications as have been received from a government that professes to be at once revolutionary and reformatory are confined to pleas for consideration, leniency, and mercy in behalf of a people who long ago eliminated all of these qualities from their philosophy.

"It would be a mistake, and a great mistake, for the American people, at this juncture, to give to Germany's pleadings any consideration whatsoever. Her case should be left altogether to the Peace Conference. She is, in all probability, no more sincere than she is penitent. She has proven herself to be utterly untrustworthy.

This striking appeal is from a speech last week by Premier Lloyd George: "Timidity is fatal to great action, and these are days when great action is required. Do not let us approach this great task confronting us in the spirit of huckstering or seeking to buy off trouble at the cheapest price."

The Standard is still yelping at the heels of Premier Foster, who has declared his intention of getting back some of the money traced to the pockets of some of the Standard's political parasites.

STREAMER AFIRE THEN SINKS AT PIER IN NORTH RIVER. New York, Nov. 26—After fire today had destroyed part of the British steamship City of Lahore, of 6,946 tons gross, the vessel sank at her North river pier under the weight of the water which the firemen poured into her holds. Only the smokestacks and part of the upper-deck were above water tonight. United States sailors removed fifty boxes of ammunition before the flames could reach the explosive. SUBSTITUTE FOR BRAN. In reply to complaints reaching the Canada Food Board of a shortage of bran for dairy cattle it is pointed out that there are many thousands tons of sugar beet meal at the Dominion Sugar Company's plant, Chatham, Ontario. The feed value of this meal is high. United States farmers are offering more than the price quoted here, but its export has been embargoed. Canadian dairymen are recommended to obtain a supply of this food. Recruiting Officer—But what could a boy like you do in the army? THE LATE PTE. T. W. SELLEN. PREDICT'S FLIGHT ACROSS THE ATLANTIC IN ONE DAY. Within six months the Atlantic ocean will be crossed by an airplane and it will take less than twenty-four hours to make the journey. This was the prediction of G. Douglas Wardrop, editor of the Aerial Age, who has just returned from the western front, made Thursday night before members of the New York Electrical Society at the Engineering Society building, in New York. It is merely a sporting proposition between Italy, England and the United States, Mr. Wardrop said, as to which nation will first make the epoch-breaking flight. In Italy the Caproni brothers have an airplane of 18,000 horse power half constructed, Mr. Wardrop said, and before the year ends this machine will be completed, and if the weather is favorable will attempt the transatlantic flight. A machine of similar power is being built here to make the flight, Mr. Wardrop added. "This war did not see the full development of the aerial service," he said. "In England the aircraft factories were producing thousands of machines daily, and of these two-thirds were being constructed for the great spring offensive, when with the co-operation of armored tanks the Allies hoped to smash the German army into pulp. "The invention of the radio airplane by an American has indicated the reason why American pursuit planes established a mastery of the air within the past two months. "In England the government is con-

OCTOBER COST OF LIVING. During October, the last full month of the war period the cost of living in Canada was still ascending, according to figures compiled by the department of labor. This statement applies both to the index number of wholesale prices, which rose approximately four points as compared with September, and the weekly budget of staple foods. This budget averaged \$18.54 in some sixty cities, as compared with \$18.31 in September, and \$18.81 in October, 1917. The retail price of meats was slightly lower than in September, but eggs, milk, and butter were higher.

THOUGHT IT WAS A BOIL

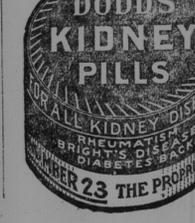

Doctor Said Abscess Mr. Gleason R. Young, Kingscroft, N. B., under date of Feb. 9th, 1913, writes us as follows: "About five months ago a lump came on my jaw-bone. I thought it was a boil, and after it had been there quite a while it began to get larger. I went to a doctor and he said it was an abscess, and lanced it. He gave me directions for it, so I went by his directions until it healed up, but it commenced coming again, and in about three weeks it broke itself. I thought it would get better, but it didn't. A neighbor advised me to get a bottle of Burdock Blood Bitters, so I sent and got a bottle, and by the time it was all gone, the abscess had disappeared, and now it is all better."

LET PUBLIC WORKS TAKE UP THE LACK.

(Editorial from Engineering News-Record, N. Y., Nov. 21, 1913.) Each day that labor is unemployed there is an economic loss to the community. Every man not employed is either a public charge or an idle-producing unit, and since it is certain that return to peace basis will take some time, public works should absorb labor as fast as possible, even under conditions which might seem uneconomical.

Aged Woman Found Dead.

Mrs. Charlotte Watts, an old colored woman who resided near Norton, was found dead under a tree about twenty yards from her home. She was ninety-three years of age and had been residing alone for six years. A neighbor went looking for her to give her some eatables and failed to find her in the house. A searching party located her body under a tree.

NERVOUS PROSTRATION

May be Overcome by Lydia E. Pinkham's Vegetable Compound—This Letter Proves It.

West Philadelphia, Pa.—"During the thirty years I have been married, I have been in bad health and had several attacks of nervous prostration until it seemed as if the organs in my whole body were worn out. I was finally persuaded to try Lydia E. Pinkham's Vegetable Compound and it made a well woman of me. I can now do all my housework and advise all ailing women to try Lydia E. Pinkham's Vegetable Compound and I will guarantee they will derive great benefit from it."—Mrs. FRANK FITZGERALD, 25 N. 41st Street, West Philadelphia, Pa.

There are thousands of women everywhere in Mrs. Fitzgerald's condition, suffering from nervousness, backache, headaches, and other symptoms of a functional derangement. It was a grateful spirit for health restored which led her to write this letter so that other women may benefit from her experience and find health as she has done.

For suggestions in regard to your condition write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of their 40 years experience is at your service.

PREPARE CLAIMS FOR DAMAGES

Government Directs Canadians Suffering by War to File Proof

Ottawa, Nov. 18.—The government has directed the preparation of a list of claims by Canadians arising out of the illegal methods of warfare by the enemies during the war. These claims arise through the torpedoing of ships without warning, the aerial bombing of undefended places, and commandeering or requisitioning without compensation, destruction and similar illegal acts.

The Canadian claims are largely limited to the first class mentioned. The claims relate to loss of life, as well as property. A further list is also being made covering claims for damages arising out of breaches of contracts with neutrals which were declared illegal because of the neutrals making the claims being on the statutory list of persons in neutral countries commonly called the black list.

All persons having claims indicated should file without delay. The making of this list does not imply an undertaking on the part of the government to put forward the claims at the Peace Conference, or any assurance that if put forward they will be paid. But the list should be completed without delay so as to enable the government to make a demand if an occasion arises.

Instructions showing the method of filing claims and the proof to be forwarded may be obtained from Thomas Mulvey, Under Secretary of State. The officer appointed by order-in-council to prepare, examine and report upon the claims, or to C. B. Allan, secretary Navy League, 46 Germain street, St. John.

THE LEAGUE OF NATIONS TO TAKE A FIRST PLACE

Paris, Nov. 26.—(By the Associated Press)—A league of nations is likely to be decided before the peace conference at a very early stage of the proceedings, instead of being relegated to the close, after the territorial aspirations of the various nations have been settled.

Two distinct views point have now developed on this subject. The American view is that the coming congress will not be like the Vienna congress, which devoted itself principally to arranging what each power should receive as a result of a Napoleonic upheaval. According to the American view, the present war was based on certain high ideals and was not a struggle for territorial gains.

Therefore, if it is maintained, ideals should come before territorial aspirations in the deliberations of the congress and these ideals have been first defined and thereafter be the main guide in national aspirations.

One of the chief of these ideals, it is pointed out, was to prevent future warfare, and a league of nations has been generally and officially accepted as the most practical organization for accomplishing that ideal. It is therefore held that this should be one of the first subjects considered, and should set a standard of ideals for other subjects following.

It can be stated that this view of procedure has found warm supporters in England and France, though there is also another view-point, which clings to the old procedure under the Vienna congress, where individual aspirations for territorial gains had first consideration.

Those urging that territorial questions should come first, say that it is highly desirable to sign a peace treaty embodying the essential details at the earliest possible moment, so as to terminate the official war period under which troops are held for the duration of the war, and railroads, telegraphs and other public utilities are similarly affected until peace is declared.

According to this view, an early peace agreement on essentials would release the armies holding the occupied regions.

PLANS TO AVERT DEPRESSION WHEN WAR ORDERS END

Ottawa, Nov. 26.—To avert acute depression in Canada despite the cessation of war orders, Hon. A. R. MacLean, chairman of the reconstruction committee of the privy council, is co-operating with the Canadian Association of Building Industries in formulating a programme that will result in the employment of returned soldiers and of idle munition workers.

Speaking today at a meeting of the association, Mr. MacLean said that the municipalities alone in Canada are probably nearly a billion dollars behind in construction, due to postponements of work on account of the war. This figure does not include large sums that will be spent by the dominion and provincial governments, the railways and private corporations, nor does it include orders for reconstruction that have been promised to Canada by various European nations.

"Provinces, cities and towns in Canada which have reconstruction programmes should resume them at once; it is their clear duty to do so," declared Mr. MacLean. "There are now no restrictions on issues of bonds for these communities. The representative bodies must give the lead to the people of this country if confusion is to be avoided."

Recognizing the importance of the economic problem now facing Canada, and desiring to help the cabinet by making suggestions that would result in the quickest relief to the greatest number of people, several hundred leading business men connected with building industries are gathered here in a three-day conference. Delegates from Halifax to Victoria are in attendance, and every building exchange in the dominion is represented, also the largest supply and manufacturing firms and general trade contractors.

To insure co-operation in stabilizing the building industries throughout the country, a permanent association has been formed, known as the Canadian Association of Building Industries, with J. P. Anglin of Montreal as president.

Recommend That Sale of Extract Be Restricted

That Samuel Emery, who was found dead on the Mispec road, on Sunday afternoon, had come to his death as the result of falling from a wagon on the night of November 23, about six miles from St. John, and being in an intoxicated condition, due to indulging in lemon extract, was the verdict of the jury at the inquest held by Coroner Kenney last evening into Emery's death. Several witnesses were called including Dr. H. L. Abramson, who held the post-mortem; Sergeant Price Edwards, who found the body; Cyril Moore, whose home Emery visited before leaving for Red Head, and where he sustained the cuts on the face by falling down stairs; Samuel J. Thomas, who met McBrine on the road after the accident; Edward L. Stevens, who gave McBrine a hat, when he called at the home of Fred Anthony, at Red Head; Cyril Hopkins, policeman, who accompanied the coroner when he viewed the body where it was at Red Head; and James McBrine, who was in company with Emery at the time of the accident. The jury recommended that there be restrictions on the sale of lemon extract.

SIXTH OF HIS FAMILY TO DIE AT FRONT

Word was received in Halifax yesterday that Lieutenant Philip S. Stairs, of that city, had died in France from pneumonia. He is the sixth member of his family to give his life in the war. Fourteen members of his family signed on with various units. It is understood that Lieutenant Stairs had been recommended for the V. C.

Private Wilfred Pelerin, son of Michael Pelerin, of Sunny Brae, who a few weeks ago was awarded the Military Medal, had been officially reported to have died of influenza in France on November 16. He was on active service for more than three years.

Tells of Death.
E. H. Frost, of Hampton Village, has received a letter from a captain in the 80th Forestry Corps, telling of the death of his son, Private Egbert H. Frost, who died in France, October 30, from pneumonia. The captain writes that he was buried with full military honors near where he labored well in the just cause.

CUTICURA

Heals Pimples With One Cake Soap and One Box Ointment.

Face never free from them for two or three years. Were sore and often became large and hard. Left dark, red blotches that disfigured face. Nothing did much good till tried Cuticura. Helped from first application and now face is healed.

From signed statement of Miss Lorena Kennedy, R. R. 1, Williams-town, Ont., March 7, 1917.

Use Cuticura Soap for toilet purposes, assisted by touches of Cuticura Ointment to soothe and heal any tendency to irritation of the skin and scalp. By using these fragrant, super-creamy emollients for all toilet purposes you may prevent many skin and scalp troubles becoming serious.

For Free Sample Each by Mail address post-card: "Cuticura, Dept. A, Boston, U.S.A." Sold everywhere.

WRECK ON C. G. R.

Ten cars of a west-bound freight left the rails near Gayton's siding, on the C. G. R., yesterday, and did considerable damage. About 200 yards of track and sleepers were torn up. A wrecking crew from Moncton are clearing the wreck and repairing the track.

MORNING NEWS OVER THE WIRES

Hon. J. A. Calder, minister of immigration and colonization, denied that W. D. Scott, superintendent of immigration, is to be superannuated and that E. B. Robertson, assistant superintendent, is to be given another position.

At a conference of prominent builders and contractors of Canada, and of allied industries, being held in Ottawa, the problems of the reconstruction period and re-organization of the industry were discussed yesterday.

At a conference of dairying interests being held in Ottawa under the auspices of the Department of Agriculture, a proposal to form a dominion wide organization was introduced and a resolution was adopted endorsing the project.

Dr. Gervais, of the Steep Creek gang, attempted to commit suicide yesterday in his cell in Prince Albert, Sask. He took the sheet off his bed and tied it around his neck and fastened the other end to a hook in the wall, and then jumped from the bed. He was almost strangled when the jailers found him.

A luncheon presided over by Mr. and Mrs. John A. McAvity was given yesterday at the McAvity ammunition plant, Marsh road, to about sixty of the workers and collectors who will take part in the Y. W. C. A. drive for funds for the new building for the association.

Battery Repairs

Our U. S. L. Battery Service Station is now completely equipped with the necessary apparatus and electrical instruments for the care and repair of storage batteries of all makes, and in charge of expert battery men. We carry a full line of spare parts and make repairs promptly and at reasonable prices.

Winter Storage and Overhaul

Your storage battery requires special winter care. Batteries stored wet in apparently good condition frequently develop trouble during the winter or soon after being placed in service in the spring. You can't determine the condition of the working parts without disassembling the battery. They deteriorate appreciably in acid, even though standing idle and properly cared for, and usually require overhauling annually.

We therefore store "dry" by a new process all batteries left with us—overhaul, wash, re-insulate, re-assemble, charge completely, then remove acid and seal them. We make only our regular overhauling charge of \$40.00, and store your battery free until next spring.

Columbia Grafonola

Which Columbia Will You Buy?

Of course, you realize the value of the best music in your home.

That being so, you will want a Columbia Grafonola, for that instrument has always proved the most permanently satisfactory of music makers.

Their remains the selection of the right Columbia model for your family. Here, we believe, we can give you one comforting assurance. You will get your full money's worth whatever Columbia you choose.

Every Columbia Grafonola gives you the utmost in volume and quality of tone, in grace and beauty of design, in richness of finish, in skill of workmanship, in convenience and dependability of mechanism.

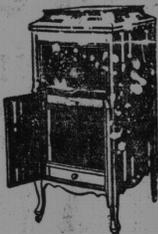

The way to be sure of selecting the right Grafonola is to hear and see and judge them all. Any Columbia dealer will be glad to have you play any record on any Grafonola, whenever you like and as often as you want. That is the surest way to tell.

Tone is a test for the ear, not for the eye. It cannot be argued in type. It must be tested. Go to the nearest Columbia dealer and make this final and conclusive test.

USED AUTOMOBILE SHOW

We are now conducting a used Automobile Show and Motor Car Exchange in our Showrooms, 45 Princess street, every day and evenings, 7 to 9 p. m. Each car on exhibition has either been thoroughly overhauled and repainted, or was in perfect condition when received.

If you have a car that you desire to dispose of and is in the above good condition, or if you wish to purchase a good car for cash or on time payment plan, consult us. Our list of used cars includes all well known makes, and prices range from \$200 to \$1400.

Correct style worn by well dressed young men in all localities. Lace boot—medium narrow recede toe, low heel—made in black, tan or patent calf. Price, \$7.00 to \$10.00.

Style—Plus Service at a Fair Price

THE style illustrated above is one that is largely preferred by Canadian business men—especially young men. It has the medium long vamp and narrow, somewhat pointed toe which gives the foot a slim and "dressy" appearance, without being extreme in style. Those who like this type of shoe will find it thoroughly satisfactory in fitting qualities and a comfortable easy shoe to walk in.

This style can be obtained in several grades of black and tan. The price range—\$7 to \$10—considering the present leather market, is extremely moderate.

Next spring a shoe of the same wearing qualities will cost from ten to twenty per cent more. It would cost more now except for the fact that the resources of this company enable us to cover our needs well in advance.

CANADA WILL NOT FAIL IN TASK NOW CONFRONTING HER

Plans for Meeting Post-Demobilization Problems—What Sir J. Loughheed Says—Many of Administrative Features Contingent on Decisions Reached at Premier's Conference

Ottawa, Nov. 21.—"Canada will not fail in the task that now confronts her—the repatriation and industrial re-absorption of her citizen army," confidently asserted Sir James Loughheed, Minister of Soldiers' Civil Re-establishment and a member of the new Repatriation Committee of the Cabinet in an interview. Sir James said that well-developed plans for dealing with the problems which would follow the demobilization of Canada's army have been prepared not only by his own department of Soldiers' Civil Re-establishment, but

THEY do not fear coughs, colds and allied complaints. For over 60 years they have relied on

also by the other departments which are to co-operate under the Repatriation Committee. A series of announcements dealing with these plans, he intimated, would be forthcoming shortly. Upon the decisions reached at the conference of provincial premiers with members of the federal government, he said, would depend many administrative features.

"Insofar as the placement of the individual soldier is concerned," the minister stated, "the basis of procedure is quite simple. The men are to be surveyed with a view to ascertaining their industrial and professional training and experience, together with the province and, when possible, town or county in which they wish to live. Similarly the whole country is to be surveyed with a view to listing the opportunities and openings in every line of industrial occupation. The distribution of labor will follow the conditions thus disclosed, and efforts will be made to create work for any balance left over.

"A scheme has been devised which will enable the committee to obtain this essential information easily and expeditiously. Neither survey presents serious difficulties, and both can be done quickly by the scheme which is being evolved.

"The care of invalided men has already proceeded far enough in the Department of Soldiers' Civil Re-establishment during the past two or three years to give assurance that this phase of the situation will be adequately met. The medical branch has during the past few months augmented its professional staff considerably by the appointment of representatives in thirty or forty of the principal cities and towns. These medical men are charged with the duty of attending discharged soldiers suffering breakdown in health due to their military service, or experiencing recurrence of disability caused or aggravated by service. It is aimed to have these repre-

sentatives within reach of discharged soldiers throughout the country, no matter where they reside.

"The vocational branch has its organization ready, so that it will not be overwhelmed by any possible influx of additional work with the speedy return of the 40,000 invalids who have accumulated in England since the submarine menace for hospital ships became acute.

"Lieut.-Colonel F. P. Hesley, who succeeded S. A. Armstrong as Deputy Minister of Soldiers' Civil Re-establishment a short time ago, has devoted his attention especially to the problem of the fit men returning after the war, and Thomas A. Stevenson, of the Toronto Trades and Labor Council, and Major Lawrence L. Anthes, have been appointed a committee to advise with him. Their special study will be the replace-

ment of soldiers in industry." Sir James said that Canada would have faced an influx of four or five hundred thousand European immigrants during a pre-war year with delight as indicating a great increase to her wealth and productive power. The difficulties of absorbing a similar number of young English-speaking members of the male sex, already familiar with the country, and most of them skilled in some of the national industries should be much less, he affirmed.

"The destruction of war and the diversion of productive energy from maintenance effort have created a worldwide market, whose demands will be pressing for all kinds of material. Canada is a nation of vast untouched natural resources; her great crying need is population. The enterprise of Canadian in-

dustrial leaders will not be sorely taxed; own business advantage, already have in finding excuse for speedy expansion their lines laid to obtain their fair share at this period; rather will they wish for of the business that reconstruction will more labor than they can get, unless I bring, and if the people exercise confidence badly mistaken. Most employers, once there can be no doubt of the who naturally have a single eye to their future."

Hideous Flight of Belgians Demands Immediate Help

Peace does not mean Plenty in Stricken Belgium! Germany's hellish policy has been too thoroughly administered for Belgium to be able to feed and clothe herself again—at least, until the Government has been thoroughly organized on a permanent basis. Little children, thousands of them, are hungry for a slice of bread, shivering in their worn-out rags. YOU can help to feed and clothe them. They haven't a cent to buy even what supplies are available. The destitute Belgians need your help about as badly as a human creature could need it.

Frail, Sickly Children Improve Rapidly on Vinol

The reason we so strongly recommend Vinol for frail, sickly children is because it is a non-secret remedy which contains Beef and Cod Liver Peptones, Iron and Manganese Peptonates and Glycerophosphates—but no oil—the very elements needed to build them up. It is delicious to the taste, and children love it.

These Two Mothers Have Proved This. "My little daughter, 13 years old, overworked and run-down, tired all the time, nervous, had headaches, couldn't eat and had to stay out of school. Vinol has built her up. She has a good appetite, no more headaches and has returned to school again."—Mrs. Lester Andrews.

They include some of the most important now engaged in the trans-Atlantic service, such as the Olympic and many others of familiar names.

CHILDREN HATE PILLS, CALOMEL AND CASTOR OIL

If Cross, Feverish, Constipated Give "California Syrup of Figs"

Look back at your childhood days. Remember the "dose" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "insides" are injured by them.

Ask your druggist for a bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Beware of counterfeits sold here. See that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

LOCAL NEWS

NO NEW CASES TODAY.

There were no influenza cases reported at the Board of Health offices today. Several houses were removed from quarantine and placards removed.

K. O. P. WILL REMAIN.

A paragraph in The Times on Monday to the effect that the Knights of Pythias were planning to leave their present quarters was incorrect. One of the officials of the order informs this paper that the lodges desire to remain where they are.

FAMOUS WRITERS COMING HERE

Joe Page, the sporting writer and transportation promoter, will bring another batch of noted writers to New Brunswick next fall, provided the war does not break out ahead of the time. He had such success with his salmon fishing party of Saturday Evening Post writers last season that next time the dollar-a-word men will bring their guns. In next year's party Ring W. Gardner, the famous baseball humorist, will be included.

THE COUNTY COURT.

In the County Court this morning in the case of the King vs. McLellan, in which the defendant is charged with stealing from the C. P. R., was resumed. The case for the defence was opened, and Atkinson, who was arrested on the same charge as the defendant, gave testimony for the defence. The case will likely go to the jury this afternoon. His Honor stated at noon that it was his intention to proceed with the criminal business, and he requested all the petit jurymen to be present tomorrow morning at ten o'clock.

GAVE LIFE MEMBERSHIP.

At a meeting of the Red Cross workers of St. John Stone church, held yesterday afternoon, Mrs. G. A. Kuhring, on behalf of the circle, presented to Miss Alice Farmer of North End, one of the most faithful and indefatigable laborers in the good work, a certificate of life membership in the Canadian Red Cross Society, accompanied by a life membership badge. The presentation was most unexpected, so far as Miss Farmer was concerned, and she expressed herself thankfully and in a splendid patriotic spirit.

HOME FROM SYDNEY.

A Knights of Columbus degree team that recently went over to Sydney, N. S., to work upon a class of new knights, returned this morning. The party included State Deputy Dr. W. B. Broderick, William M. Ryan, Edward Simpson, Matthew Morris, James I. McManus and Arthur Owens. While in the Cape Breton city the St. John visitors were royally treated. Though the influenza was a deterrent to large gatherings, the St. John Knights were entertained to a smoker and shown about the wonderful steel industrial plant.

ANOTHER CASE OF SMALLPOX HERE BUT OF A MILD TYPE

Another case of smallpox was discovered in the city today, located in a house near the foot of Elliott Row. The patient, mother of several small children, has been removed to the Isolation Hospital and the household carefully quarantined, also all the people with whom the patient came in contact.

It is understood the lady who is suffering from a mild attack of the disease, recently arrived from Halifax, which makes the second case imported into St. John from that city. Altogether there have been three cases of smallpox this fall and it is said they all came from the sister province.

A few days ago one of the patients in the Isolation Hospital was discharged completely cured, so the new patient of today does not alter the situation.

In conversation with health officials this forenoon it was learned the Elliott Row patient had not been vaccinated. She was visiting in Halifax and until a physician was called it was not dreamed she had the dreaded disease.

"This goes to show," it was remarked, "how the neglect of taking the vaccination precaution places everybody—rich, poor, banker or organist—in danger."

ALLIES FIRST, THEN NEUTRAL AND LASTLY TO ENEMY NATIONS

Paris, Nov. 27.—(Havas Agency)—Herbert Hoover, American food administrator, is here and is taking up with the Allies the re-partition of disposable foodstuffs.

The plan under consideration would give food first to the Allies, then to neutrals and then to enemies. Mr. Hoover desires that a commission meet at Brussels to examine the situation of the Rhenish Westphalian Gazette, and to decide upon means for meeting them.

New Nation Under Arms.

Amsterdam, Nov. 26.—The Czechoslovak department of national defense has mobilized the active reservists for the years 1895 to 1899, inclusive, and ordered all men under arms up to forty years of age to remain in the service, according to a Prague despatch under Friday's date.

Ukraine Friendly.

Amsterdam, Nov. 26.—Premier Cerehal of Ukraine, has declared in an interview that Ukraine is already in full accord with the Entente, whose representatives are expected at Kiev soon, according to a Kiev despatch to the Rhenish Westphalian Gazette, of Essen. He added that Ukraine will belong to the new Russian federal state.

Stockholm, Nov. 26.—A new Finnish cabinet has been formed. It is headed by M. Ingham, while Senator Castrén becomes minister of finance and M. Enckell, former state secretary, is foreign minister. This cabinet was appointed yesterday, and marks a complete reversal of Finland's policy.

The new government is that of General Mannerheim, though he is unable to head of the Finnish government, because he is now visiting in England and France. The programme of the new ministry is to bring about recognition of Finland's independence by all the powers, if possible, before the peace conference, stemming Bolshevik propaganda from Russia and solving food problems.

ST. JOHN MEN PLAY BALL IN LONDON

Tied Crack U. S. Navy Team in Twelve Inning Game—A Soldier's Chatty Letter of Experiences During Convalescence

In a letter to Joe Page, written from England, W. Jack Armstrong tells of some of his recent experiences. Mr. Armstrong, who made St. John his headquarters while traveling for a Canadian concern, has many friends here who will be glad to learn that he has recovered from a severe attack of influenza, and is now enjoying a rest in "Brighton." He went over with a siege battery from this city. The breezy letter is as follows— Oct. 25th, 1918.

Dear Joe—

It's a cold, rainy, foggy, October night and as I am comfortably located in front of the fireplace, the old logs crackling away in great shape—congenial company, etc.—methinks I'll settle right here and drop you a few lines—before they get through cleaning up the supper dishes. Oh, yes, Joe, no joking, I'm really living again, getting three squares a day, real butter, sugar, milk, etc. It seems like a dream but nevertheless 'tis true. I'll explain. I have been pretty sick—just discharged from hospital in Bournemouth. There has been a severe epidemic of "Flu" very similar to pneumonia and I was one of the victims. The death list has been terrible. In my hut of twelve men only five are alive today; fifty-one died of it in four days. I pulled through and am now convalescent with a private English family at their summer estate away up near the lakes in Surrey.

I hope to feel fit enough to be able to rejoin my battery soon and when you receive this I hope to be in France so now you know exactly the reasons for my most comfortable and home-like surroundings tonight. It sure was funny, Joe, first night here I came near sleeping on the floor. You see it has been so long since I had a look at a bed and long since I had a look at blankets, pillows, etc., that I came very near putting my clothes on the bed and hitting the cold boards for the night.

Well, Joe, before I took sick I umpired quite a few ball games here in camp. We had a dandy team, Carmel, remember him in the city league? Played great ball, and old Jack Briggs also. We played the crack U. S. Navy team in London and drew a record crowd. Game was a peach and twelve innings; score a tie, five to five.

I have met a score of fellows around here who know you well and lots who don't know you, but have heard of you and read your always very interesting chats on the game in the St. John Times. By the way, we often get that same good old paper here and more than enjoy it, as of old.

I have written quite a little book and have not yet thanked you for sending me Sporting News, received while I was in hospital. Needless to say I was more than tickled to get it. Mighty good old sheets, blanketed, pillows, etc., that I came very near putting my clothes on the bed and hitting the cold boards for the night.

Yours sincerely, (Sgt.) W. JACK ARMSTRONG. If you get a chance, etc, I would appreciate a few St. John papers.

FAVOR STRIKE OF TELEGRAPHERS IN U. S. AND CANADA

Chicago, Nov. 26.—A vote favoring a strike of railway telegraphers on all the roads in the United States and Canada was cast in Chicago today by the general chairman and secretary of the fifty-one divisions of the Order of Railroad Telegraphers in western and middle western states.

The Chicago meeting was representative of 45,000 government employees, who are dissatisfied with the supplements to general order No. 27 affecting wages and working conditions. It was voted to reject all these and telegrams were sent to the meetings in other cities asking similar action.

RED CROSS WORK TO CONTINUE UNTIL 1920

Toronto, Nov. 26.—The Canadian Red Cross Society will continue its work with the same effort which has characterized its activities on behalf of Canada's soldiers overseas until February, 1920, Chairman Noel Marshall announced today at the conclusion of the day's session of the quarterly meeting, which was attended by members of the executive from all parts of the dominion.

THE FREE DISPENSARY

The Society for the Prevention of Tuberculosis continues the medium of its free dispensary. One of the members said to The Times yesterday, however, that despite the work done and the visits of the nurse to homes all over the city, there still seem to be many who do not understand that there is free examination of patients, and that the dispensary is ready and willing to do all in its power to help those who are found to be afflicted with tuberculosis or in need of treatment in the incipient stage of the disease. A great number of patients are treated during the year, and the work of the nurse has proved a blessing in many homes. The society desires to be examined for symptoms of a disease which can easily be cured if taken in the early stages.

LOSS OF \$1,250,000 WHEN FIRE DESTROYED COTTON IN BOMBAY.

Bombay, India, Nov. 27.—(Canadian Press despatch from Reuters' limited)—One of the most serious cotton fires in the history of Bombay occurred today. Seventeen thousand bales of cotton warehoused on the docks were destroyed and the damage is estimated at \$2,000,000 sterling.

More Heat--Less Attention And Less Coal Sums Up This New Silver Moon

The thing most wanted in a Self-feeder is steadiness of fire and the minimum of attention. These two desirable features might be said to constitute the New Silver Moon.

Made by The Burrell Johnson Co., the New Silver Moon gives a steady, even heat. Its scientific construction makes it exceptionally easy on coal; and it requires very little attention—once or twice a day and just before turning in for the night. Our stock of New Silver Moons is quite complete just now, and we are anxious to show this Feeder to you.

Those desiring a good Second-hand Stove or Feeder will do well to look over our lot, in excellent condition and at mighty attractive prices. Always a full line of winter necessities here—Coal Hods, Shovels, Ash Sifters, Ash Barrels; in fact, everything in connection with heat, except fuel!

A Congoleum Rug Is Sure To Give Complete Satisfaction

Congoleum Rugs are made by one of the largest firms in the world, and are one of a family of products surpassed by none in point of quality. Congoleum Rugs come in a variety of designs, from the artistic individual rug to the more every day wood flooring designs.

A feature with the Congoleum Rug is that it will ever lie smoothly on the floor and will not curl up at the edges, thus precluding accidental tripping when entering a room. Easily washed with a damp rag, bringing out the design as fresh and clear as the day it was made.

All the popular sizes, styles and designs are now here for your inspection. Possibly we may be able to suggest Floor-Covering treatment that will be a once inexpensive and permanently satisfying.
