

WORLD'S RECORD GOES ON LAST DAY

Johnstone Climbs to 9,714 Feet in Tiny Wright Roadster--Two Accidents.

Grahame-White Won Speed Contest and Second Largest Amount of Money.

New York, Oct. 31.—J. Armstrong Drexel, announced at a dinner given to a number of his fellow airmen, tonight, that he would resign from the American Aero Club in "disgust," on account of the ruling prohibiting Grahame White a second try for the \$10,000 Statue of Liberty race, which was won by John B. Moisant yesterday.

New York, N. Y., Oct. 31.—A "baby" Wright roadster with Ralph Johnstone at the wheel glided gracefully to earth in the twilight at the close of the international aviation meet at Belmont Park, this evening with the barograph registering a new world's record for altitude.

The little machine of only 35 horsepower had been up 9714 feet, exceeding by 528 feet the height attained in France on Oct. 1 by Henry Wynnman of Holland. But Johnstone's sky climbing feat was not the only notable incident of the closing day of the meet. Claude Grahame-White, the athletic Britisher, who carries away the Gordon-Bennett trophy, sharpened the sporting appetite with a challenge to John B. Moisant, the Chicagoan, for another race around the Statue of Liberty in New York harbor and return.

Moisant, who won his \$10,000 by his last flight around the statue yesterday, ignored the challenge. Then Grahame-White, denied another chance for a visit to Miss Liberty sent a thrill through the spectators when at the close of a speed race with J. A. D. McCurdy of the Curtiss team, his propeller snapped, his monoplane dug into the green sward in front of the grandstand, turned turtle and buried the aviator underneath. He was uninjured, and won the race.

Moisant's winning of the \$2000 distance prize offered by the Aero Club of America, was the other big event of the day. He travelled approximately 87 1/2 miles in 2 hours. In landing after winning the event he smashed his propeller and broke a running wheel, but escaped unscathed.

Johnstone's Story. "I was in a pretty purple haze up here," said Johnstone after he had finished his world record flight, "and I shot clear of the haze. I could see down below buildings and residences which looked like toy blocks. I have been flying only since June, but it was the most satisfactory trip I have ever made."

GEN. ECKERT'S WILL FILED FOR PROBATE

Former Head of Western Union Telegraph Left Estate Valued At Over \$100,000 To Two Sons.

New York, N. Y., Oct. 31.—The will of Gen. Thomas T. Eckert, former president of the Western Union Telegraph Company as filed for probate today leaves practically the entire estate to his two sons, Thomas T. Jr., and James C. Eckert.

The value of the estate is not given except as being "over \$50,000" for real and the same sum for personal property. Gen. Eckert died at Elkton, a suburb of Long Branch, N. J., on Oct. 29, at the age of 85. To the testator's brother, Wm. H. Eckert, and two nieces, Mary P. Taft, of Cincinnati and Alice Baumgartner Hamlin, \$5000 each is left.

COLD WEATHER CAUSES LOSS OF \$750,000

Atlanta, Ga., Oct. 31.—Commissioner of Agriculture Thomas G. Hudson, today estimated the damage to the cotton crop in Georgia from the recent cold weather at \$750,000, amounting to \$750,000.

"I am now convinced," said Mr. Hudson, "that the total production in the state will not exceed 1,300,000 bales as against 1,900,000 or 2,000,000 bales under normal conditions."

GAVE LIFE TO SAVE CHILDREN FROM DEATH

Stephen Jones, Carpenter On Boston and Maine R. R., Intent Upon Warning Tots On Track, Himself Killed.

Lynn, Mass., Oct. 31.—To save three small children who had wandered onto the railroad tracks in front of an express train, Stephen Jones, a Boston and Maine carpenter, gave up his life today. The children were crossing the tracks near the Chatham St. grade, when Jones spotted them. Shouting he ran toward the spot and succeeded in scaring the children so that they ran out of danger but in excitement and anxiety the man failed to notice how close the train was upon himself and the engine struck him. He was almost instantly killed. He was 55 years of age, married and lived at Rialside, Beverly.

58 HEROES ON CARNEGIE LIST

Besides Silver And Bronze Medals Cash Awards Totaling \$40,250 Are To Be Distributed.

Pittsburg, Pa., Oct. 31.—Fifty-eight names were added to the Carnegie Hero list in the United States today by the Carnegie Hero Fund Commission at its fall meeting. For acts of heroism thirty silver and twenty-eight bronze medals were awarded. Life savers or their families in cases where death resulted. In addition, cash awards aggregating \$40,250 were made in 32 of the cases, the cash to be used for educational or other worthy purposes, at the discretion of the executive commission, while 13 other cases of rescue, or attempted rescue, where the heroes died as a result, pensions ranging from \$20 to \$70 a month were made to the dependents with \$5 a month additional for each child left.

The rescues from death, or from attempts, seven were from railroad trains or street cars; 19 from drowning; one from a runaway horse; eight from suffocation in gas producers or stoves; two from fire, and one from shooting.

The mine disaster at Cherry, Ill., in November, 1909, figured prominently in the hero list, with the recognition of the heroism of thirteen miners. Eleven of these died from injuries in rescuing an unknown number of miners and besides a silver medal, the monthly stipend were made to the families in these cases. Two that survived were awarded the silver medal and \$1000 each.

MRS. RICE FILES SUIT FOR DIVORCE

Wife Of Race Track Tipster Names Young Actress And Asks \$1,000 a Month Alimony.

New York, Oct. 31.—Mrs. Francis Drake Rice, wife of George Graham Rice, one of the original race track tipsters, and more recently connected with the firm of B. H. Scheffels & Co., mining stock specialists, whose offices were raided by federal officers, filed suit for divorce in the Supreme Court today. Naming a young actress as co-respondent, she asks \$1,000 a month alimony, and \$2,000 as counsel fees, pending the determination of her suit. In her affidavit, Mrs. Rice says her husband has not contributed to her support since last July. Rice's attorney makes a general denial of the allegations.

BOSTON HERALD IN NEW OWNERS' HANDS

Boston, Mass., Oct. 31.—The receivers for the Boston Herald, John Norris and C. F. Weed, tonight announced that the formal transfer of the Boston Herald to its new owners, the Boston Herald Incorporated was completed late today and that the newspaper would be issued under the new management tomorrow.

WEALTH OF OUR ORCHARDS STRIKINGLY MADE KNOWN AT THE N. B. APPLE SHOW

What New Brunswick Can Do in the Fruit Line—Our Apples Rank With the Best Grown in Canada.

The progress of New Brunswick in the line of apple growing was strikingly illustrated last night at the opening of the New Brunswick Fruit Growers' Association's sixth annual convention and fruit exhibition in the St. Andrew's rink.

The show itself is by all odds the finest of the kind ever seen in the province and it was the opinion of expert fruit men who were present last night, that nothing finer has ever been shown in Canada. As an exhibition it was an important event, but still more important and epoch making in that it typifies the entry of a sturdy competitor into the fruit business of Canada which has previously been largely associated with the provinces of Ontario, Quebec and British Columbia.

A Striking Display. The exhibition was made possible through the assistance of the provincial government, an administrative body which intends to see to it that New Brunswick shall not fail to reap the benefit of her fertile acres because the produce of her orchards is not sold often and well. It was a striking display, mightily well arranged and after the visitor has feasted his eyes on the fine samples of apples from the orchards of the province the one outstanding thought that remains is that there is certainly a vast future in these New Brunswick orchards and that if the destiny of Canada is to be written by the best of some people, the old Loyalist province by the sea will, at any rate, contribute a few interesting chapters on progress.

Particularly impressive was the fine assortment of 400 boxes of apples exhibited by the agricultural department of the province, which was shown on long stands on either side of the rink the apples exhibited were not prepared especially for show purposes neither were there any particular care given to their cultivation. They represent the product of the orchards just as they grow in their natural state without the improving influences of spraying or other assistants to fruit culture.

A Message From New Brunswick. These apples were shown box packed, ready for shipment and it is interesting to note that in this shipment the province under the aggressive policy of the present administration is getting a deal of excellent advertising. Each box of apples, fresh in all its luscious sweetness, is wrapped in a tissue wrapping which bears to the purchaser the following important information respecting New Brunswick: "The land of excellent apples which has nearly 18,000,000 acres with in one week's journey from Great Britain."

"At least 14 million acres are known to be capable of economically producing all the crops and fruits native to the Temperate Zones, and as yet less than 2 million have been developed. Through long years of hard and admirably advertised attraction, the advantages, peculiarly its own, of such orchards and intending investors are being passed on by it offers a quantity sufficient to cause an explosion had escaped, from a defective main, some type setting machines would have been put out of commission."

The operators asserted that everybody in the telegraph room smelled gas and remarked about it. Arthur Bell, a linotype operator, declared, however, that if gas in a room had escaped, from a defective main, some type setting machines would have been put out of commission."

Simultaneously with this testimony witnesses before the special grand jury, swore that no odor of gas was detected in the building.

The operators asserted that everybody in the telegraph room smelled gas and remarked about it. Arthur Bell, a linotype operator, declared, however, that if gas in a room had escaped, from a defective main, some type setting machines would have been put out of commission."

FREE GAS NOTICED BEFORE EXPLOSION

Telegraphers In Los Angeles Times Building Testify To Smelling Gas Before The Explosion Occurred.

Los Angeles, Oct. 31.—Witnesses in the Times explosion case today testified before a coroner's jury that free gas was present in large volumes in the building on the night the explosion occurred. These witnesses, who were telegraph operators in the building testified that they had lost their positions with the Western Union Telegraph Company because of having made their statements.

Simultaneously with this testimony witnesses before the special grand jury, swore that no odor of gas was detected in the building. The operators asserted that everybody in the telegraph room smelled gas and remarked about it. Arthur Bell, a linotype operator, declared, however, that if gas in a room had escaped, from a defective main, some type setting machines would have been put out of commission."

AT HAMILTON.

Hamilton, Ont., Oct. 31.—Jimmie George, the Beaverbrook Indian, won the Herald road race today from 27 starters. Time 1:51.21. George won the race last year, and also the Ward Marathon.

HON. J. B. HAZEN.

ter powers, natural gas, and abundant and early-mined coal mean economical power and transportation, while its maritime location means cheap and most expeditious export and import facilities. Its commercial center—St. John's—is the winter port of Canada, putting the entire of the great highway between Europe and Canada and the Far East.

Every portion of the province is well watered, the climate equable and healthful. Crop failures are unknown. The yearly sunshine record is the largest of all provinces but one. The soil produces abundant fodder, crops, grains, vegetables, and fruits of the highest quality. The law aiding population, good roads, good schools, honest and progressive provincial and municipal administration, with low taxation, make it a most desirable home land.

RECORD MADE AT 6-DAY RACE

Leading Teams Cover 229 Miles In First Day At Boston—Lawson And Anderson Injured, Drop Out

Boston, Oct. 31.—A new record had been made when the six days bicycle riders at the Boston arena completed the first ten hours of their race tonight. The distance covered by the eight leading teams being then 220 miles and one lap; the previous record being 220 miles, three laps, made in 1908 at the Park Square arena. The new mark is accounted for by the fact that the track is steep and prevents loafing, the men being off if they ease up.

Within the first three hours of the race the number of teams had been reduced from twelve to two owing to lead spills, in which Lawson of Salt Lake City received a broken collar bone, and N. M. Anderson of Denver, had a dislocated shoulder and badly lacerated face, and Fred West of San Francisco, was bruised. They retired from the race and Floyd Krebs of Newark, N. J., Anderson's partner, was forced out for lack of a partner.

Worth Milton, of Davenport, and Gordon Walker, of Australia, formed a new team, being given a handicap of one lap however.

Opening of Apple Show Last Evening in St. Andrew's Rink Addressed by Premier Hazen and Others.

Washington, D. C., Oct. 31.—The possibilities for reciprocity with Canada have progressed to the point where the tariff board is about to take up some of the schedules of the present law which would be affected.

The chemical schedule upon which a start was made several weeks ago, will be allowed to wait tentatively at least, and it is said to be not unlikely that an investigation of the lumber schedule which would be one of the principal factors in a reciprocity arrangement will take its place. Experts who have been working on the pulpwood and paper schedule in which the Canadian arrangements also would be concerned are also making progress beyond the expectations of the board. Several large paper companies have volunteered to furnish important information which at one time it was doubtful if the board could obtain.

New Turn to Sordid Tragedy in Montreal--Achille Derome Under Arrest.

Girl Was Not Killed on Night of Auto Ride--She Was Seen Later on Street.

Special to The Standard. Montreal, Que., Oct. 31.—West of known as the Westmount murder mystery has assumed a new phase. A couple weeks ago the remains of a young girl were discovered in a vacant lot in Westmount, they were subsequently identified as those of Cecile Michaud, a thirteen year old girl, who had mysteriously disappeared from her home at the end of last August.

It was ascertained that the young girl had been taken out for an auto ride on August 30 by two young men, Perrault and Chevrier, who were placed under arrest. The coroner's inquiry has been since proceeding, and as the result of developments at the inquiry Achille Derome, the chauffeur, who drove the party to Belliveau's road house on the Lachine road, has been placed under arrest, and is charged with maliciously killing Cecile Michaud on or about August 30.

Derome was examined at the inquest but told contradictory stories about his movements on the night of the tragedy. Last week the detectives believed that the chauffeur was the man who should be arrested instead of Chevrier and Perrault, who had engaged the chauffeur for the original automobile drive around which hung all the circumstances, culminating in the tragedy.

A New Development. A sensational development in the case was that another man was seen near the girl's home on August 30. They were coming out of a small hotel on Chaboullier Square in the heart of the city, when a cabman saw the man with the little girl, and knowing him to be a bar room lounge, stopped him and said: "Where are you taking the little girl?"

The reply was: "I had some fun last night and I am taking her to a place on Laval Avenue." At the time the girl looked ill and she asked for five cents to take a street car.

The cabman said: "Where have you been?" She said: "I don't know where I've been since last night." The man and girl then walked off together.

Not for years has there been such a mystery in the city, and the varied elements in the case make it an intricate puzzle to solve. The automobile, the chauffeur, the two separate parties who were with the girl that night, the two hotels, one in the outskirts of the city, and the other in the very heart of the railway station district, all these are separate threads to the story and have to be worked out in a tangled web brought together in a single net. Doctors now state it is absolutely certain that the girl's body was buried in time, which accounts for the fact that it was reduced to a skeleton. This indicates that the body was placed there after death.

Back of all is the dark mystery surrounding the girl's body lying behind a bush near Kensington avenue, Westmount, being eaten by lime unknown to the residents in whose midst the girl is believed to have been done to death. One step towards the solution, however, is the evidence that Cecile Michaud was seen leaving the Empire Hotel on the day following August 30th. That shows that August 30 was not in any event the date of the murder.

Derome, the chauffeur, arrested on the murder charge, is unmarried. Up to last spring he was a cabman. Last night he sold out his outfit and bought an automobile on the installment plan, but failed to meet his second payment, and the machine was taken away. Since then he has been working as chauffeur for a hotel keeper on St. Catherine street, lately for a Chaboullier Square Hotel. Three arrests are expected to be made.

SIX DEATHS FROM CHOLERA

Rome, Oct. 31.—Six deaths from cholera occurred in the province of Caserta during the past twenty-four hours. Only three new cases, reported during the same period, were in Caserta and one in Salerno.

J. C. MURPHY CHOSEN. Augusta, Me., Oct. 31.—Governor-elect Frederick W. Plaisted tonight announced the appointment as his private secretary of J. Clement Murphy of Augusta, the well-known newspaper correspondent, and the dean of the legislative reporters.

MR. HODGETTS' INJURIES.

HAS MESSAGE FOR CUSTER

"Yarkee" Jim Celebrates 75th Birthday, Looking Forward to Time When He Can Submit Despatch to Custer.

Mont., Oct. 29.—"Yarkee Jim" has just celebrated his seventy-fifth birthday. He may go down in history as the man who discovered Yellowstone Park.

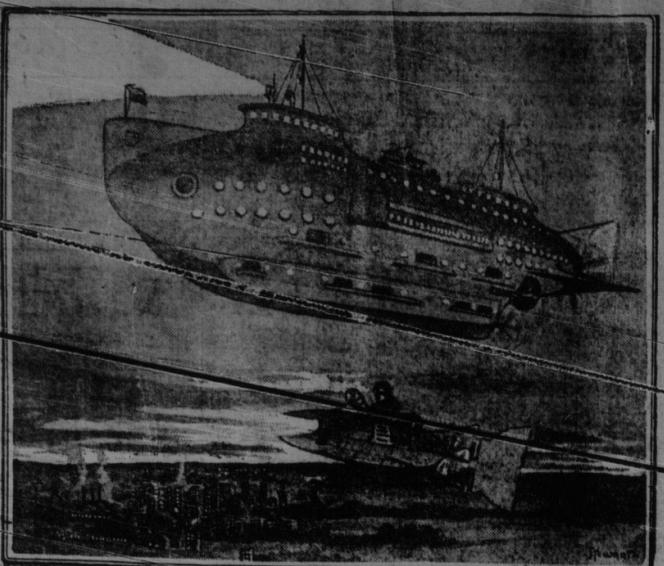

Though still vigorous in spite of his years, "Yarkee Jim" has one ambition—to deliver the despatch to General Custer. He has been offered large amounts of money by the government and by museums, but the old frontiersman clings to the little piece of paper with a tenacity that verges on the fanaticism.

Lives Much in Past. One of the most picturesque figures of a picturesque West, "Yarkee Jim" lives on his mountain ranch eight miles from the entrance to Yellowstone Park, and dreams of the days that are gone.

On his last journey through Montana, this is the White House, Mr. Roosevelt said, that he would like to have "Yarkee Jim" go to the railroad that they might chat for a moment.

Put Out of Business. The value of the territory which the railroad enters, the three built a certain number of miles, and the railroad was built.

To Float Huge Steel Ships By Insulating Gravitation

By W. G. Shepherd.

New York, Oct. 31.—Here's a solution of all the problems of aerial navigation, identical with the strange, weird conception of a spectacular machine advanced by a young college professor, shrewd and serious.

Prof. Ruedhart Wetzel of New York city college—the man who invented a machine which weighs the air—hopes that his machine will solve the problem of aviation, or rather levitation, for Wetzel's machine will not "float"—it will float like some soap.

Several years ago, Roy Norton, in a Johns Verne-like novel called "The Flying Fleet," solved the problem of aviation, to the satisfaction of his readers and the happy winding up of his story by the use of the "insulator" idea. Now comes a real solution as they were when he last saw them, and a few years ago when informed by telegraph that his mother was dead, he wired back that he would not go to the funeral.

THE WETZEL AIRSHIP OF THE FUTURE.

Artist and tells us that Norton's seemingly fantastic story was not fantastic at all, but quite within the pale of possibility. Thus the time may come when Norton's floating airships are as commonplace as Jules Verne's submarines are now.

Prof. Wetzel proposes to use his wonderfully delicate weighing machine to determine whether or not there is available some substance through which the force of gravitation will not act.

Then airships won't have to be built with reference to lightness of construction at all. They can be built as heavy and as big as we want 'em. "We don't know anything about gravitation," said Prof. Wetzel in discussing the possibility of insulation. "We know what it does but we do not know what it is. Does gravitation travel as do rays of light? I think, sometime, we shall prove that it does."

Pungent Preparations Held in High Esteem by Europeans for Medicinal Value—Grow in Torrid Regions.

Los Angeles, Cal., Oct. 25.—Most aromatic, and pungent drugs come from the warmer regions of the globe. The spice islands are far within the tropics. No hot country lacks plants whose juices stimulate the palate and which the natives use in some form to season their diet.

Used As a Drug. Indian pepper was the only kind available for the drug stores and dinner tables of civilization before Cayenne was discovered. It is curious how highly it was esteemed in ancient and mediæval Europe.

It is not impossible that in rare soils such a gravitation-insulating material may exist even now. We do not yet know that radium itself is not this very material. "There are worlds of knowledge yet to be gained about gravitation."

WANT LANDS

Los Angeles, Cal., Oct. 25.—Most aromatic, and pungent drugs come from the warmer regions of the globe.

The African kind is merely of local importance. It grows in the Ashanti country and its pungent seeds are distributed along the trade routes of the Dark Continent wherever a palate tickler is in demand.

Now notice: If you place a piece of glass between the two electrified objects, the glass prevents the passage of the electrical currents, because glass is a non-conductor of electricity.

It is not impossible that in rare soils such a gravitation-insulating material may exist even now. We do not yet know that radium itself is not this very material.

It is not impossible that in rare soils such a gravitation-insulating material may exist even now. We do not yet know that radium itself is not this very material.

WORLD'S RECORD GOES ON LAST DAY OF MEET

Continued from page 1. The Wright brothers were jubilant at Johnstone's success. It was the first time he had ever flown their tiny roadster and he had set a new mark for aviators of the world.

It was an ideal day for the closing of the tournament. The air was cool and crisp, the sun shone from a clear blue sky and there was just enough wind to stir the row of flags along the top of the big grandstand.

The first race of the day began a few minutes after the sheep-crack of the opening bomb.

It was the two-hour distance race for \$3,500, donated by members of the Aero Club of America.

The purse was split so that there were two prizes. The reports of the boys who were flying when far across the field the monoplane shot up from the ground and swept toward the starting line.

The summary of today's events were unofficially announced, subject to change as follows:—Aero Club of America, distance event—two hours around 1.55 mile course; Moisant, 56 laps, no time; Latham, 35 laps, no time; Simon 27 laps, no time.

Grand altitude—Johnstone 9,714 feet (first grand record); Drexel 8,275 feet. First grand record—Grahame White (Bleriot monoplane)—10 laps, 15.53 miles. Time 14:34.25; McCurdy (Curtiss bi-plane) 10 laps, 15.53 miles. Time 25:43.45.

Second grand speed race—Auburn, 7 laps, 12:50 miles. Time 16:37 flat.

Money Winnings. Unofficial total winnings of aviators:—Moisant (America-Bleriot)—\$15,800; Grahame White (England-Farman and Bleriot)—\$9,700; Johnstone (America-Wright)—\$6,625; Holsky (America-Wright)—\$3,675; Latham (France-Antonette)—\$3,250; Auburn (France-Bleriot)—\$1,250; McCurdy (America-Curtiss)—\$1,100; Radley (England-Bleriot)—\$1,050; Drexel (America-Bleriot)—\$800; Simon (France-Bleriot)—\$750; DeLesseps (France-Bleriot)—\$700; Brookins (America-Wright)—\$150; Barrier (France-Bleriot)—\$100; Mills (America-Curtiss)—\$100; Stuard (America-Curtiss)—\$50.

D. P. McLachlan, M. P. P. of Chattanooga, was in the city yesterday.

EXPRESS STRIKE GROWS IN VOLUME

Employees of Two Independent Companies, Platform and Wayon Clerks Go Out in Sympathy With Strikers in New York—One Man Had Skull Fracture

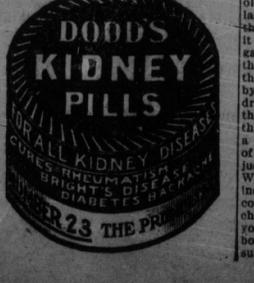

New York, N. Y., Oct. 31.—The striking express men gained adherents today when between 1500 and 1800 workers of Monahan's express, the Boston Despatch and the Manhattan delivery company joined last night with them. The platform men of the American Express Company at the Grand Central station and the same company's waybill clerks went out in sympathy. It had previously been reported that the Boston Despatch and the Manhattan delivery company were involved in the walk-out, but were not until today.

The loss to perishable goods still continues to be heavy. Over the river in New Jersey, there was no disorder today.

Hurt Jewelry Trade. Providence, R. I., Oct. 31.—The jewelry manufacturers of this city and vicinity are seriously affected by the strike of expressmen in New York City. With the factories running to their full capacity, on holiday goods for immediate shipment, the delay in delivery in New York is causing much concern in the trade.

Rear Admiral W. S. Cowles. The rear admiral brother-in-law of Col. Theodore Roosevelt has forsaken the sea for Connecticut politics, accepting the Republican nomination to the state legislature. If elected it will be Admiral Cowles' privilege to vote for or against Governor Bulkeley, the Republican boss of the state, recently charged with buying votes in the interest of his insurance company.

The commercial cultivation of the pepper vine has extended from southern India to the Malay peninsula and some of the islands, notably Penang, of the archipelago. But the plant has not the range of the American capsicum. It demands a climate that is damp as well as hot, and refuses to grow in dry tropical climates like northern India. The yield of the vine is said to be less when grown in the islands. But a very respectable amount of pepper finds its way to the great mart of further India, considerably more than twenty million pounds of pepper is exported annually from Singapore. Much of it is eventually distributed for western use in the form of "dashes of pepper" called for in cook books. Wherever the white cloth of civilization is spread the pepper castor is seen.

Cravenette advertisement. There are many kinds of so-called "water-proof" goods, but only one "Cravenette". The "Cravenette" process is patented—the product unequalled. Cravenette is ideal for Rain-coats and Rainy-Day and Outing Skirts. It is light, porous, comfortable and dressy in fine weather, yet proof against the heaviest down-pour. Rain will neither wet nor spot it. See that you get the genuine "Cravenette"—not something said to be "just as good". You can tell by the "Cravenette" Registered Trademark, which is stamped on every yard of the genuine "Cravenette" cloth, and is inside the collar of every Raincoat.

SAINT JOHN, TUESDAY MORNING, NOV. 1st, 1910

NEW BRUNSWICK'S FIRST FRUIT EXHIBITION.

The exhibit of New Brunswick fruit, which was opened by Premier Hazen last evening in St. Andrew's Rink, marks an epoch in the fruit growing industry of the province. For the first time the possibilities of New Brunswick, as a fruit growing country, are being demonstrated in a way that brings home their true significance. In spite of this being a bad year for apples, and the same is general all over Canada, there are on view an excellent and varied assortment of this fruit consisting of 150 barrels, 500 boxes, and 1,000 plates, representative collections of all the small fruits, and plums and cherries bottled in preserving solutions together with a splendid exhibit of fruit jellies and table preserves, all the product of New Brunswick's soil.

The united efforts of the Provincial Department of Agriculture, and the Provincial Fruit Growers' Association, have made the exhibition possible. The show is something more than a display of fruit. It is evidence of the practical policy of the Hazen government to develop the New Brunswick fruit lands, and demonstrate that this province can hold its own in fruit growing with other, and, in the past, more extensively advertised parts of the Dominion. It is no new thing to be told that New Brunswick can grow excellent fruit. But the initiative to develop this industry and to place it in the forefront as one of the great assets of the province has been lacking.

At the first session of the Legislature after the Hazen government came into power, an Act providing for an agricultural commission was passed. In the course of the debate the premier expressed the opinion that the proposal to appoint the commission would meet with general approval. He believed, he said, that there was just as great an opportunity for profitable agriculture in New Brunswick as in any part of Canada, and he hoped that the government in its desire to promote this great industry, would receive united support.

The commission, after a careful investigation of conditions throughout the province, recommended in its report the appointment of a provincial horticulturist. The appointment of Mr. A. G. Turney to that position followed, and a campaign to stimulate fruit growing and apple raising throughout the province was undertaken. With the hearty co-operation of Hon. D. V. Landry, Commissioner of Agriculture, and the Provincial Fruit Growers' Association, the membership of which has been largely increased, the campaign has been eminently successful. The exhibition in St. Andrew's Rink is a practical demonstration of this fact.

In the past many people in New Brunswick have been accustomed to look to other provinces for their supply of apples. They have everything to gain by encouraging a home industry as far as fruit growing is concerned. The soil and climate in this province are as favorable to the production of apples and small fruits as anywhere on the continent. The success of the exhibition will, it is hoped, not only stimulate the industry, but prove a profitable advertisement outside the province. The Department of Agriculture has wisely decided to send photographs of the exhibits to England for distribution among the immigration agencies and the fruit dealers' associations. They will also provide excellent material in the active campaign which the Hazen government is carrying on through the provincial agency in London to secure settlers with the object of starting fruit farms.

An important feature in connection with the exhibition is the annual convention of the Fruit Growers' Association. An attractive programme of addresses and demonstrations by experts, who are the best obtainable in the Dominion, has been arranged for the next three days, and should prove of exceptional interest to farmers and those who have so far given little attention to fruit raising. Evidence of the progressive policy which the government has undertaken to make the resources of New Brunswick more widely known, it is to be found in this exhibition, the first of the kind ever held in the province, and in the facilities which are being afforded to learn how these resources can best be developed. The opportunity to see what can be done, even in a poor year, should be taken advantage of. It will bring home to doubting minds, as nothing else can, that here in New Brunswick the industry of fruit raising and apple growing presents tremendous possibilities.

CAMPBELLTON'S FINANCES.

The Campbellton Graphic, in its last issue, refers to certain inaccuracies in the Telegraph with regard to the town's finances, and also points out that the delay of the Dominion government in dealing with the question of assistance has been a source of embarrassment to Campbellton. The Graphic is optimistic, and hopes shortly to announce that the petition of the citizens will be acceded to. The Graphic may be right in its surmise, but the excuses for inaction that Mr. Pugsley has been offering for months past, reflect anything but credit on the Dominion government.

The editorial in the Graphic follows:—
"An article in the St. John Telegraph of a recent date and copied in the last issue of the Graphic had many inaccuracies which should not go without correction. In an article on Campbellton's finances the statement is made that it will require \$115,000 to restore the electric light and educational plants. This is by no means correct. The town officials are asking for authority to issue this amount of bonds, which amount, with the insurance on the property destroyed

will be sufficient to pay all outstanding accounts and salaries, and restore the electric lighting plant, sewerage and water, and the school. This is the total sum needed.

Through the judicious management of the electric light business, Manager Farrar has been able to give the town a splendid lighting system at a very small cost, and the plant is now in operation.

The delay of the Dominion Cabinet in dealing with the matter of the assistance to be granted to Campbellton has no doubt been embarrassing to the town, but owing to the continued absence of the ministers of the Crown, and of late the illness of Sir Richard Cartwright, it has been impossible to attend to this business.

It seems hardly fair to us for the Telegraph to lay the blame on the local administration. Here in Campbellton we know what the local government intends to do, but it is waiting the action of the Dominion Cabinet before it finally deals with the question. This is a very proper course, and is also in the best interests of Campbellton. That the government will agree to assist this town we never for one moment doubted, and we hope shortly to announce that the petitions of our citizens has been acceded to.

The Graphic is to be commended for its honesty in giving credit to the local government for the prompt offer of assistance in guaranteeing the interest on the bonded indebtedness in conjunction with the Dominion government. This offer has now been standing some months, awaiting the time when Sir Wilfrid Laurier and his colleagues can be brought to realize the pressing needs of the case. The Telegraph's attitude is well understood. The dredgers' organ would not commend the Hazen government under any circumstances. It is paid to do otherwise.

DEATH-RATE FIGURES.

"A funeral will soon be a curiosity," declares one Western editor, if only the coming years keep up the good work of 1908 and 1909 in setting a new low-water mark for the nation's death-rate. Last year's unprecedentedly low level of only 15 deaths per 1,000 inhabitants is acclaimed by other papers as the most important financial news of the season, for nothing, says the New York Times, "so affects the finances of a nation as its death-rate."

These figures, recently published in a census bulletin, cover only cities and States having laws requiring the registration of deaths, and represent 55.3 per cent of the estimated population of the country. The number of deaths recorded last year was 723,538, with the greatest mortality in March and the lowest in June. The death-rate in 1908 was 15.4, so that last year's rate of 15 per 1,000 indicates a material falling off. One piece of information which has been respectfully referred to the suffragettes for their encouragement is the fact that 54 per cent of those who succumbed were men.

The New York Times notes that England's death-rate is lower than America's, being 14.5 per 1,000, while it goes yet lower in France, Prussia, Denmark, and Sweden. The decreasing death-rate in the United States impresses upon the Omaha World-Herald the fact that the "good-health propaganda is now beginning to tell." Never, we are reminded "has medical science been so efficient in preventing disease, and especially those ravaging epidemics of contagious or infectious diseases, which we trust for the last time have been the terrors of citizens, States, and large sections of the world. And one hesitates to undertake to list the regimens of exercise, of recreation, of open-air sleeping, and outdoor life that have been more generally accepted and followed in late years than ever before. Indeed, the people have waked up to the importance of keeping well. Sickness has gone out of fashion. With almost anybody it is felt to be a shame and with a large modern school it is rated a positive sin. It is all beginning to count, and everybody ought to help in hastening the time when a funeral will be a curiosity and the undertakers will be talking about emigrating to a sicklier planet."

In the Census Bureau's volume of mortality statistics for 1908, Prof. Irving Fisher, of Yale University, is quoted as maintaining that of all the diseases of infancy (up to one year) 47 per cent may be prevented, and that 67 per cent of all the diseases of childhood (two to eight years) are likewise preventable. The volume referred to admits that "the work of preventing infant and child mortality has only made a beginning," and goes on to say of Professor Fisher's claims:—
"This would mean, applied to the 200,000 deaths of infants and children in the registration area, or the possible 400,000 deaths of these classes in the United States, a saving of at least 100,000 or 200,000 lives each year, respectively. It does not seem unreasonable, when we consider the fact that there is apparently no reason why infants, if properly born (and this means simply the prevention of antenatal disease and the improvement of the health and conditions of living of their parents), should die at all in early infancy or childhood except from the comparatively small proportion of accidents that are strictly unavoidable."

Current Comment

(Victoria Colonist.)

In the United States there are 400,000 automobiles in use, and the annual demand is for about 200,000. At an average of \$2,000 a car, this comes to \$400,000,000. Putting the cost of upkeep and chauffeur's wages at \$1,000 a car, which is not high, this takes another \$400,000,000, or in all \$800,000,000 spent in a year on the new means of locomotion. Add the cost of "joy rides" and the whole business will foot up at about a billion.

(Windsor Record.)

In various places in Canada there has been begun a campaign against profanity. Windsor needs it badly—a strong and determined movement against that blatant, blackguard blasphemy that assails the ears of innocence on the sidewalk, wherever a group of two or three is gathered together. The by-law provides in plenty for prosecution of offenders of this class but it is a dead letter. When did anybody hear of a prosecution for profanity?

(Ottawa Journal.)

"Let Laurier finish his work," was the slogan of the last general election, and a rallying cry is good enough for the next one, remarks a Calgary Herald paper, which reminds us of what happened when the book "The Last Days of Richard Baxter," was published. It proved such a success that the enterprising publisher got out another work and entitled it "More Last Days of Richard Baxter."

(Guelp Mercury.)

Theodore Roosevelt is to lecture on "Peace" at Harvard. Might as well get Doctor Cook to address a few words on modesty.

(Guelp Herald.)

A sulphur company is being formed in Toronto, but why couldn't these men have waited for what is coming to them?

EXPRESS STRIKE TO SPREAD

Drivers And Helpers To Number Of 5,000 Will Swell The Ranks Of New York Strikers.

New York, N. Y., Oct. 30.—Patrolling to keep warm was about the hardest work the police in New York and New Jersey had to do today in connection with the express strike. None of the express companies made efforts to deliver goods and the strikers throughout the day were quiet and peaceful. But that the men intend to continue the fight here with added vigor and that it necessary it would be extended throughout the country, was declared today by Vice-President Hofman, of the national brotherhood of teamsters. Hofman said that tomorrow all drivers and helpers of the express companies in Brooklyn and the employees of the smaller express companies in Manhattan would be called out. This, he declared, would increase the number of men on strike from 5,000 to 10,000. Hofman added that he received a letter from the national president of the international brotherhood of teamsters of Indianapolis, who is now in Boston, informing him that he had sent word to all the organizers of the brotherhood throughout the country, telling them to organize the drivers, helpers and stablemen of the express companies so that they could all be called out at a moment's notice if necessary. He said that President Tobin is going to stop at the large cities between here and St. Louis on his way home to Indianapolis and personally conduct the organizing of the express companies' employees.

POSTMASTER RESIGNS AFTER LONG SERVICE

Isaac Smith of Daniel Post Office Retires—Had Been Postmaster for thirty-two Years.

Waterborough, Q. C., Oct. 28.—Isaac Smith, who has been postmaster of Daniel P. O. here for thirty-two years, has sent in his resignation, and it is likely that the office will be closed, as nearly all the residents have rural boxes. Mr. Smith was well liked by all who knew him, and had the confidence and esteem of all his patrons by whom he will be greatly missed. Mr. Smith having sold his farm to his son, Hamilton, is going to reside with his son-in-law, L. D. Ferris, Young's Cove road. The weekly meeting of the Women's Auxiliary was held at the home of the secretary, Mrs. Robt. Kennedy, yesterday afternoon, where considerable business was done for the Dorcas work. Mrs. Thos. M. Wiggins spent a very pleasant day, the guest of Mr. and Mrs. Warren Cody, Cody's. G. M. Thorne, general merchant at Cody's, Q. C., has erected a large store, with modern improvements. His increasing trade was too large for the small store he first built. Mr. Thorne has only been in business for a short time and has worked up a large trade. The farmers in this section have done a large amount of ploughing this fall, and have succeeded in housing all of their vegetables and grain in good condition. While driving along the highway the other day, a resident saw a cow with a heavy wire fastened through her nose and the two ends fastened to her horns so tightly that the cow could hardly eat as the wire was passed through the division of the nostrils and tied in a knot. The attention of S. M. Wetmore should be called to this matter and the owner severely punished.

NEARLY DIED OF STONE IN THE BLADDER

GIN PILLS SAVED HIM

513 James St. Hamilton, Ont.
"Five years ago, I was taken down with what the doctors called inflammation of the bladder—intense pains in back and loins, and difficulty in urinating, and the attacks which became more frequently, amounted to unbearable agony. I became so weak that I could not walk across the floor.
My wife read in the papers about GIN PILLS and sent for a box. From the very first dose, the GIN PILLS were doing me good. I was relieved at once and the attacks were less frequent.
In six weeks the Stone in the Bladder came away. When I recall how I suffered and how now I am healthy and able to work, I cannot express myself strongly enough when I speak of what GIN PILLS have done for me."
John Herman, 48
GIN PILLS are sold at 50c. a box—6 for \$2.50. Sent on receipt of price if your dealer does not handle them. Sample box free if you write us, mentioning this paper. Money back, if GIN PILLS do not give full satisfaction. National Drug and Chemical Co., Dept. Y, Toronto.

Fireplace Fixtures

Our stock of fireplace fixtures, in both brass and black iron is very complete and includes:—
Andirons, Fire Sets, Spark Guards, Fenders, Basket Grates, Wood Baskets.
Illustrated circular describing these goods will be mailed on request.

ECZEMA CURE WORTH LIFE ITSELF To all who suffer from Eczema and other skin diseases it is WORTH LIFE ITSELF to know that a simple wash of Oil of Wintergreen, Thymol, and other carefully compounded ingredients give instant and positive relief to that awful burning itch. You know that unless you do get relief from that torturing agony, life is not worth living. Write the D. D. Laboratories, Dept. S. S. 49 Colbourne St. Toronto, for a free trial bottle of this wonderful Eczema wash. It is called the D. D. D. Prescription. The very first drops will give you absolute and instant relief. They will show you that life is worth while, for your suffering ceases with the very first application, and you feel that in D. D. D. Prescription you have at last found a cure. At any rate, you know you have instant relief. Clinton Brown, Chas. R. Wasson, (2 stores.)

Government's Fruit Policy Justified by Great Show

Continued from page 1. C. N. Vroom of St. Stephen, president of the association, presided during the opening proceedings and introduced as the first speaker Hon. D. Hazen, premier of the province. Mr. Hazen in opening said he had been asked by the president of the New Brunswick Fruit Growers' Association to declare the exhibition open and he was sure that any man would feel proud to officiate in such a capacity as such a large number of the members of the association for the honor they had done him in asking him to officiate and also in electing him honorary president of the association.

An Object Lesson. The purpose of the exhibition was to afford an object lesson to people in this province, and in other provinces, as to the quality of the apples it was possible to raise in the province of New Brunswick. For many years there had been an erroneous idea in the minds of many people that New Brunswick was raising inferior things. First, that this province could not raise as good apples as the provinces of Nova Scotia or Ontario, and secondly, that when the mineral wealth of the world had been distributed the province had been left out. This idea, he said, was incorrect, and he thought the events and the development of the past few years would show that New Brunswick was not behind in the matter of mineral wealth and the activities of the provincial department of agriculture and the Fruit Growers' Association would dispel the idea that this province could not raise as good fruit as any other province in the Dominion of Canada.

Exhibits in England. He expected that this exhibition would be a revelation to all, and yet it should be known that during the last few years this province could hold its own with any of the others in the matter of fruit raising. Last year the department of agriculture very hurriedly got together an exhibit of apples and sent it over to London to the exhibition of the Royal Horticultural Society and there it had been in competition with the best in that line that could be produced by the other provinces and states. As a result of that exhibition this province received a gold medal and three of the leading fruit growers of the St. John valley received silver medals for the excellence of their fruit. This year the government of this province has a larger showing in London, for they believed that there was nothing more attractive to the settler who leaves the British Isles in search of a new home than to find that the country to which he thinks of coming abounds in good fruit.

To show what the province can do in the way of fruit growing he considered one of the best exhibits at the exhibition that could be had for the encouragement of immigration to the province. It had been abundantly shown that the province could raise the very best apples and in support of this contention he quoted the opinions of well known fruit experts. G. H. Vroom, fruit inspector of the province of Nova Scotia had said in reference to New Brunswick apple growing: "I feel satisfied that the St. John River Valley is destined to become one of the largest growing sections of the Dominion."

Strong Testimony. A. McNeill, chief of the Dominion fruit division, after seeing an exhibit of apples in Fredericton, which exhibited many more than the present one, had said: "Any man who says apples cannot be grown successfully in the province of New Brunswick in face of the exhibits we have here today, does not know what he is talking about." These two statements came from officials, expert men in their line who had every knowledge of the subject. The opinion was not confined to officials but the fruit growers of Nova Scotia were also loud in their praise of the New Brunswick fruit. R. W. Starr, pioneer of the apple industry in Nova Scotia, had said: "There is no doubt that there are large portions of New Brunswick well adapted to the growing of fruit, especially of apples, as any other part of the Dominion."

Encouraged by reports of that sort the provincial government had added a trained horticulturist to the staff of the agricultural department and had secured A. G. Turney to take up the work. Mr. Turney had come to the province highly recommended from the experimental farm at Guelph and had been engaged in stimulating the interest in the agricultural resources of the province. He has gone through the province and has advised the fruit growers in the matter of spraying and in the general cultivation and development of their trees and as a result the interest in fruit growing in this province is now greater than for years.

Creating a Demand. A gentleman who had been and still is a leading citizen of St. John, had told the speaker that in the past he had been the custom to import the apples. In fact people who had come into his grocery store had asked for Nova Scotia or Ontario apples. The provincial government is laboring to change these conditions. It is their aim to have the province produce not only enough of the finest apples for our own use but also to send tens of thousands of dollars worth across the water for sale in the British and European markets and thus bring a large revenue to the agriculturists of the province.

He was glad to see that the New Brunswick Fruit Growers' Association was taking on new life. Their membership in the past has been small and this is the first occasion they have attempted a big show. He thought the results from it would be a great benefit to the province. He expressed the hope that the press of the city would adequately report for the people, the splendid character of the exhibition and he was sure that as a result of what it was known the association could make exhibitions of this sort that would in the future, have great results for the province and for the fruit growers who would profit by it. In conclusion he congratulated President Vroom, Mr. Hubbard and Mr. Turney through whose efforts so much had been done to make the show a success.

WEDDINGS. Cooper-Badcock. An event which has been anticipated with much pleasure by the Newfoundland residents of this city, took place at the Carmarthen Street Methodist church on the night of the 28th inst., when Miss Jennie Badcock, daughter of Mr. and Mrs. Badcock of Bay Roberts, N. F., was united in marriage to William J. Cooper of Northern Bight, N. F., by the pastor of the church, Rev. Mr. Dienstadt. The bride looked very charming in a suit of cream serge with a large picture hat to match. The bridesmaid, Miss Kate Vey, was becomingly attired in white cashmere with a white turban. At the conclusion of the ceremony the guests repaired to the residence of Mr. Cooper, 315 Germain street, where a wedding supper was served. The many beautiful gifts received by the young couple give evidence of the high esteem in which they are held.

LITTLE DOING IN THE STOCK MARKET

New York, N. Y., Oct. 31.—The spirit of the speculation in stocks was inclined to drop today. Unsatisfactory steel trade advices, the money requirements incident to the November settlements and the credits and investment position generally and the near approach of the elections were factors in the action of the market.

CLOSING STOCK LETTER.

New York, Oct. 31.—The cautious and even pessimistic character of the week end newspaper comments caused a resumption of bearish operations this morning on a more aggressive scale with the result that the morning session witnessed another sharp reaction through the general list.

CLOSING COTTON LETTER.

New York, Oct. 31.—The virtual unanimity of reports from the whole belt corroborating the government advices of killing frosts, caused a considerable influx of buying orders in today's cotton market.

NEW YORK STOCK MARKET

Table with columns: Shares, Sold, Previous, High, Low, Close. Lists various stocks like Am. Copper, Am. Beet Sugar, Am. Car and Ferry, etc.

TIPS ON STOCK SPECULATION

The great bulk of the vast fortunes of the present day are based on speculative successes of one kind or another. Millions struggle along through life on a mere competence, derived out of hard work applied to the various channels of commercial and industrial enterprise, while the few create fortunes in a comparatively short space of time.

Reports and Disasters.

Marcus Hook, Oct. 29.—Sigs Sir Ernest Cessel (SW) from Narvik and New Orleans from Providence, were in collision off Bellefleur here about 8:40 this morning.

Dangers to Navigation.

St. Katerina Auguste Victoria (Gr) reports Oct. 25, lat 48, lon 40 passed a spar standing upright projecting 15 feet above water and apparently attached to some submerged wreck.

Shipping Notes.

The Donaldson line str. Indrala, Captain Young, reported in yesterday's issue that she was en route to Glasgow.

Variety of Conditions.

There are a great variety of conditions and circumstances of which an accurate knowledge is required to make a successful stock trader.

On the Other Hand.

On the other hand he is likewise easily swayed and stampeded into selling when the keen manipulators want to break the market and create a low range of prices, so that they may buy to advantage what they have sold at a higher level.

That is why so many people.

are more inclined to hand their money to an experienced stock manipulator, one who understands the market, who has years of study, to invest for them and make money for them.

There is a great deal more science.

and technical knowledge required in stock market matters than the general bulk of people imagine. The trained and experienced trader has ninety-nine chances of success in a hundred, whereas in the case of the novice the proportion is just reversed.

There are many other points of the speculative game that the trained trader requires to be familiar with.

It all requires knowledge born of experience to understand and put to advantageous practice.

They are in fact, so numerous that it tends to demonstrate how futile it is for anyone not well versed in such matters to expect to be anything more than a stock market lamb and render himself the object to be plucked by the professional traders, ever on the alert for their prey.

It simply demonstrates the necessity of being guided in such matters by the experience of those who have thoroughly studied the market and its eccentricities and are making a close study of all the new phases which are ever presenting themselves to puzzle and mystify the uninitiated.

W. B. HOWARD D. P. A., C. P. R., ST. JOHN N. B.

NEW YORK STOCK EXCHANGE.

Where Millions are Won and lost almost any day during brisk trading.

It does not wait for conditions, it anticipates them. The market is a prophet; a forecaster of what is to come. It other words it discounts the future.

The great financiers are not playing at a game of guess work when they stake their millions in stocks. They make it their business to know how the great industries of the country are doing, whether the percentage of profit is good or bad. They have in their hands the trained and experienced faculty of finding out whether the great railways of the country are earning plenty of money to maintain their dividend rates. If a railway reduces or passes its dividend, it may be a great shock or surprise to the average citizen but not so to the financier. He saw what was coming. He was watching and knew what to expect. If on the other hand an increase was forthcoming the big man had a shrewd idea that it was in sight and had planned his dealings in the market accordingly. It is the small, uninitiated trader who is taken by surprise. He has no doubt, however, that a certain stock goes up sometime before he gets the news. It was the trained speculator getting ready to reap a harvest, then the small fellow jumps in as they always do.

Then again one of the most intricate studies of the stock market is the relation of the money market thereto. Millions of shares are bought very largely on borrowed money. To buy stocks outright requires an enormous amount of capital and reduces the margin of profit so that most people prefer to buy larger blocks of shares and borrow a proportion of the money from the bank or trust companies.

Sometimes the supply of money for such purposes is in plentiful supply, and at other times it is scarce. Conditions tending to create these two extremes are often at work months before they are realized by the general public but the close student of financial and monetary affairs can read these signs of the times in advance and prepare for them.

The vast majority of buyers throughout the country have the unfortunate faculty of buying after prices have risen considerably and the result is an over-extended speculative account. Then comes the day of reckoning. There is always some incident forthcoming to start selling, and the professional trader is ever ready to facilitate it with short selling and the downward movement grows like the snowball a boy rolls down a hill. Every few points decline uncovers a fresh series of depleted margins, and crash goes until the lambs are wiped out and the market is ready to repeat the process.

There are many other points of the speculative game that the trained trader requires to be familiar with. It all requires knowledge born of experience to understand and put to advantageous practice.

They are in fact, so numerous that it tends to demonstrate how futile it is for anyone not well versed in such matters to expect to be anything more than a stock market lamb and render himself the object to be plucked by the professional traders, ever on the alert for their prey. It simply demonstrates the necessity of being guided in such matters by the experience of those who have thoroughly studied the market and its eccentricities and are making a close study of all the new phases which are ever presenting themselves to puzzle and mystify the uninitiated.

ST. JOHN TEAM 2ND AT HALIFAX

ERNIE STERLING WHO FINISHED FIFTH IN FIELD OF FIFTY-SIX RUNNERS.

Large Number of Competitors from Chebucto Club Handicapped Team from New Brunswick --Michael Thomas, P. E. I. Indian, Individual Winner--White 14th, Stubbs 23rd.

Halifax, Oct. 31.—Michael Thomas, the fleet Indian runner of the Abegweit Club, Charlottetown, won the Herald and Mail's ten mile championship road race here today from a field of fifty-six starters. The team prize was won by the Chebucto Club of Halifax. St. John runners were the favorites but owing to the large number of competitors from the Chebucto club, the fleet runners from the sister city were badly handicapped. Ernie Sterling of St. John ran a game race and finished in fifth place.

The St. John men finished as follows: Sterling fifth, White fourteenth, Stubbs twenty-third, Horseman twenty-ninth, St. John was second in the team race. They left for home this evening. Thirty thousand people witnessed the race. The road race was the most successful ever held by the Herald and Mail. The weather conditions were most favorable for Eastern Canada's greatest athletic event. Fifty-six of the fastest runners in the Maritime Provinces lined up before the Herald building at five minutes after ten. Over twenty thousand enthusiasts lined the sidewalks from the Herald building to North street station. Attorney General MacLean discharged the pistol which started the runners on their long grind. Sterling in the lead. Sterling of the Every Day Club, St. John, took the lead starting off at a brisk pace. The New Brunswicker was passed, however, before he reached North street station by Michael Thomas (Indian) of the Abegweit, Charlottetown. Thomas lengthened his stride and set a swift pace which Sterling followed for hundred yards. The red skin runner shook the St. John man off than he set even a faster pace. At the two mile station he was leading the field by almost a quarter of a mile. He was not taken seriously, however, as it was the general opinion that the terrific pace would compel him to retire from the race. The St. John runners were all running together saving their energies for the last four miles. Sterling was attacked by cramps but gamely stuck to it until he was relieved. At the

Arms bridge where he was in thirty-seventh position his trainer gave him sponges. The work of the great St. John runner after this was simply phenomenal. He made a desperate effort to win even where victory looked impossible. He passed man after man and finished fifth with a sensational burst of speed. Thomas held his long lead on the rest of the runners until within a mile of the finish, when Rodgers of the Chebuctos sprinted and reduced the lead to a hundred yards.

ST. JOHN HIGH TRIMS SUSSEX

St. John High School 26, Sussex 0. The football team of the Sussex high school, yesterday afternoon, had a match on the Every Day Club grounds with the St. John High School. In the first half the score was eight to nothing in favor of St. John and when the final whistle blew the locals had made a score of twenty-six while the visitors had failed to score. The line ups were as follows:—

St. John: Fullback, Carlton; Halves, J. Bunnell, Malcolm; Alton, Donnelly; G. Bunnell, Nobles; Quarters, Machum; Friers, Jones; Nobles; Jones; Odell, Nugent; Forwards, Neals, Driscoll; Murphy, Lelacheur; McMonagle, deVeber; Dalting, Nelson; Wier, McDonald; Wilson, Megarity.

Here's what one subscriber says:— Port Dover, Ontario Oct. 20th, 1910 Canadian Century Company Montreal Dear Sir: I have just received my first copy of your paper, and am more than delighted with it. I would like to see it in every Canadian home. I am sorry for those who do not subscribe. It is the best value for money ever offered to people in Canada. Wishing you every success.

To-day is the Last Day you can buy THE CANADIAN CENTURY AT THIS SPECIAL PRICE TWO CENTS A COPY

After to-day you will have to pay MORE THAN DOUBLE. Here are some good reasons why you should clip out the coupon and mail it now. The Canadian Century is a genuine Canadian journal, a live, interesting weekly magazine published for Canadians. You should be interested in Canada's welfare—this is Canada's century. The Canadian Century keeps you in personal touch with the happenings—all the events of national importance. It is the home entertainer, and should be read by every Canadian. Each issue has one or more bright, breezy stories by your favorite author, a Boy Scout News Column, a Kitchen Calendar, a humorous corner, a page of toilette suggestions and fashion hints, especially interesting to women, and many other features entertaining to young and old.

CUT OUT THIS COUPON TO-DAY and mail with one dollar to The Canadian Century, Montreal. Send me The Canadian Century each week for one year from Nov. 1st, 1910, at your Special Offer of \$1.00. Name, Street, P.O., Prov., St. John Standard, Nov. 1, 1910.

THE CANADIAN CENTURY - MONTREAL October 31st. being Thanksgiving, all subscriptions mailed to-day will be accepted.

Y.M.C.A. HAVE FULL PROGRAM Harriers Have Three Cross Country Runs in Morning--Hallowe'en Socials Make Evening Enjoyable.

Yesterday was a great one in Y. M. C. A. circles. In the morning great interest was manifested in the Harrier cross country runs and it brought out some excellent material. All of the participants finished in good shape and showed the effects of their gymnasium training. The races were excellent considering the condition of the roads. The senior race was won by Roy Pendleton with H. A. Wetmore second, J. Elliott third, and Harvey Wetmore fourth. The intermediate race was won by H. Wetmore with S. Slocum second, and W. Swetka third. The course for this event was from the association building to Sandy Point, thence to the Mountain in Rockwood Park and back to the building. In the boys' race H. Peacock was first, G. Seely second, H. Evans third and D. G. Linsley fourth. The course was from the building to the Log Cabin in Rockwood Park and return. Halloween Social. In the evening the association rooms presented a fine appearance. There were large, cheerful fires in the fire places and the rooms were decorated in true Halloween manner. At 8:15 o'clock the large association hall was well filled with members and friends, and a most pleasing entertainment was carried through. Harrison's orchestra was present and rendered a number of selections. A number of clowns amused the audience with some tumbling. Harry Heans gave a good exhibition of club and torch swinging. The cock fighting contest was most amusing. A boys quintette from the Trinity church choir were heard to advantage in a couple of selections. Herbert Bree rendered selections on the banjo and accordion. The tumbling team composed of Messrs. Chester Alexander, Lawrence Dow, Stanley Slocum and Arthur Magee gave a fine exhibition, and their work was highly commented. Twelve members of the Gym class performed some pretty work in the Gypsy Trip Pyramids, and the entertainment closed with the singing of the National Anthem. At ten o'clock the senior members, with their lady and gentlemen friends assembled in the upper room where there were arranged thirteen booths. These were designated as follows: "Hall of Fame," "Fortune Booth," "Past and Present," "Floating Fortune," "Witch's Cauldron," "Shoe Race or Peanut Race," "Chinese Fortune," "Old Egypt," "Popping Corn," "Toasting marshmallows," and "Guessing Contest, one, two and three." Refreshments were served and the affair was one of the most enjoyable ever held by the association.

ALGONQUINS WON FIRST VICTORY FROM U. N. B. St. John Team Defeated College Fifteen by Score of 5-0--F. Finley Star of the Game--Victors Will Play Fredericton City Here on Saturday--A Great Game.

Fredericton, Oct. 31.—The holiday football attraction today drew a large crowd at college field, St. John Algonquins winning from U. N. B. one try to none in an exciting game, the final score being 3 to 0. The only score was made by Fred Finley, who played a fine game throughout. He made a dashing run along the side in returning Bakam's short punt and got over the U. N. B. line. U. N. B. players claimed that Finley had stepped into touch while making his run along side, but Joe Brossman, of St. John, who was touch line judge, declared otherwise and the try counted. Brossman was then replaced as touch judge by Holly Wandless, of the Fredericton football club. Sandy Thorne, of the visitors, always a fair player, was only a few feet from Finley and he stated tonight that the fullback had not gone over. In the second half towards the latter part of the game, U. N. B. team's trained condition commenced to tell and they carried the ball over the Algonquin line twice for safety touches. Some of the U. N. B. backs tumbled considerably when the ball came out to them. Quarters were beaten out in the playback of scrimmage while the visiting forwards played with more snap and glider than the college pack. Finley was the star of the St. John team while Dryan, McGowan and Thorne were the pick of the back divisions and Leonard Turner and Stan Sealey were the pick of the forwards. The U. N. B. team were without services of McNair, Vavasour, Kubring and Alexander, four of their players. Howe was back in the game and was able to make gains when he got hold of the ball and was not tackled low. There is a strong feeling among followers of the U. N. B. team that in face of the record of the team's 4 defeats in five games on home grounds, a shakeup should be made. U. N. B. team will leave for Sackville tomorrow morning and will play at Sackville on Wednesday and at Moncton on Thursday. The teams lined up as follows: U. N. B. Fullback, Algonquins, McGibbon; Fred Finley Halfbacks, Binney, Roy Drinan, Kinghorn, Walter Willis, Machum, Alex. Thorne, Balkam, Hazen Howard Quarters, Jennings, L. McGowan, Loggie, Roy Armstrong, Howe, Geo. Clarke Forwards, Jewett, Guy Turner, Gunter, Colby Gardner, Vanwart, E. Knowlton, Deedes, Chas. Leonard, Patterson, H. Seely, Rigby, F. L. Grierson, McIrose, Stan Sealey Spares, H. Murray, Creaghan, Porter, E. Knowlton, Vanwart, Parker, A. Murray, J. Dolan made a satisfactory referee.

BOY SCOUTS IN NEW GAME Six Patrols Represented in Rockwood Park Outing Yesterday--Capturing Staves as Prisoners of War.

About 400 boy scouts assembled at the Y. M. C. A. building at 2 o'clock yesterday afternoon, formed into companies, marched out to the north side of the lake, and spent the rest of the afternoon playing a novel kind of game. The boys were formed into two parties. One party under the command of T. Powers and W. E. Anderson took up a position along the Bluff Drive. The other party commanded by Colonel Baxter and Captain Miller were stationed on Look-out Hill. Each party marked its position with staves driven in the ground about 100 yards apart, and in front of their lines. According to the rules of the game, which were explained to the boys by T. Malcolm McAvity, each party tried to capture the staves of the other party, while keeping enough boys within their lines to defend their own staves. The defenders were stationed about 25 yards behind their staves, and when they saw the assailants approaching, they ran out and tagged them. If they could. Every boy tagged became a prisoner of war, and had to report at the headquarters of the enemy. The party commanded by Messrs. Powers and Anderson won the game, capturing 115 staves to their opponents 107. The boys enjoyed the sport a good deal, and returned home at dusk, feeling fit to tackle their Hallowe'en suppers. In addition to the Y. M. C. A. patrols, there were present at the battle the boys of the St. John (Stone) church, Trinity church, St. Luke's church, St. Jude's church, and detachments of the A. O. H. cadets.

R.K.Y.C. CLOSE SUCCESSFUL SEASON'S SPORT The R. K. Y. C. closed the season yesterday afternoon. Commodore Robert Thomson visited the club house and a cannon boomed forth a loud report. The past season has been a most enjoyable one for the yachtmen. The large number of yachts have about all been pulled out on the railway. The running gear and sails have been stowed away, and owners and crews will rest easily until next spring.

LITTLE DOING IN SPORT LINE AT MONCTON Moncton, Oct. 31.—Bright sunshine greeted holiday makers today but there was little outdoor sport. The High School and Pastime Club met on the gridiron, the game resulting in a draw, neither scoring.

BLACK & WHITE The Right Scotch Distilled in the old, slow, good Scottish way, in Scotland, and matured in sherry casks, by James Buchanan & Co., Limited. D. O. ROBLIN, TORONTO Sole Canadian Agent

MONTREAL RACE. Montreal, Oct. 31.—E. White of Brockville won the Herald round the mountain race in easy fashion today in 56.95 3/5. There were 124 runners in the race.

FOGEL SAYS PLAYERS CAN NOT SIGN PHILADELPHIA, Pa., Oct. 31.—I can't help what McQuillan and Bates have done, nor am I responsible for anything unlawful in baseball. President Hermann may do," said President Fogel, of the Philadelphia national league club today when told that these players had signed Cincinnati contracts. "McQuillan and Bates are on the reserve list of the Philadelphia club and no other club has a right to approach them."

TIGERS GO TO CUBA FOR BARNSTORMING Detroit, Mich., Oct. 31.—The members of the Detroit baseball club started tonight for a barnstorming tour of Cuba. Shortstop Bush was unable to go because an X-ray examination has revealed a split bone in his ankle. The men who went were Mullin, manager; O'Leary, Willett, Summers, Merlarty, T. Jones, Casey, Stange, Crawford, Cobb and McIntyre.

CANADIAN RUGBY PLAYED AT CHATHAM Chatham, Oct. 31.—Thanksgiving Day passed off quietly. Many parties took advantage of the beautiful weather and went hunting, meeting with average success. There are no reports of accidents to any hunters. The football match was the chief attraction here this afternoon. A junior town team defeated the St. Thomas college team 5 to 1. The collegians were light for the town boys, but put up a good game. Rev. Fr. I. Roche was referee. The upper Canadian style of Rugby was played. Hallowe'en pranks by boys tonight culminated in setting fire to a barn owned by Wm. Elkin, situated back of the town. The building was formerly used as a slaughter house. There is no insurance as far as is known.

LITTLE DOING IN THE STOCK MARKET

New York, N. Y., Oct. 31.—The spirit of the speculation in stocks was inclined to drop today. Unsatisfactory steel trade advices, the money requirements incident to the November settlements and the credits and investment position generally and the near approach of the elections were factors in the action of the market.

The action of the call loan rate did not show excessive strain on stock market resources for the requirements of the November settlements, the rate going no higher than 4 per cent. Relief is afforded, also, by the improvement in the money position in London which is reflected in lower rates for exchange in New York. The private discount rate declined again in London today.

The sale of \$10,000,000 one year Michigan Central notes in Paris, marking the reappearance of short-time obligations of the railroads for lack of ability to place regular bonds, is regarded as systematic. The terms of the transaction are not divulged, but as long ago as Oct. 13, President W. C. Brown, of the New York Central lines asserted publicly before the interstate commerce commission his conviction that it would be necessary for his company to pay 6 per cent. on these notes. Moreover, the amount sought was \$17,500,000 instead of \$10,000,000 now secured.

Statements that the steel trade went through the last week of October at low tide, with new business for the United States steel corporation, at less than 50 per cent. of capacity, had a disturbing influence. Less hope was professed of any influx of orders from the railroad companies before next year.

Reports of shutting down of tinplate mills were an additional factor in the depression of United States steel. The stock absorbed a third of the total dealings in the market and its movement was decisive in showing the general course of prices. It touched last week's low price, but developed resistance at that level and in its recovery carried the whole list with it.

Bonds were steady. Total sales, par value, for \$65,000. U. S. bonds were unchanged on call.

CLOSING STOCK LETTER.

Furnished by J. C. Mackintosh and Co., direct private wires.

New York, Oct. 31.—The cautious and even pessimistic character of the week end newspaper comments caused a resumption of bearish opposition this morning on a more aggressive scale with the result that the morning session witnessed another sharp reaction through the general list. As prices declined, however, it was withdrawn and the professional movement was left in almost whole charge of the movements. A liberal short covering movement carried many stocks back to about Saturday's final level, but the list as a whole ruled considerably under the average. A very narrow market for inactive stocks developed but happily there was no undue pressure of real stocks against them. The Canadian issues were exceptionally strong. Last week's sharp advance in Soo, accompanied by rumors that the Common and Pfd. shares would be put on an 8 per cent. dividend basis, evidently made the basis of a sharp manipulative movement in Canadian Pacific stock, notwithstanding that these stocks did not receive serious attention. The technical position of the market as a whole seems improved and while there is no reason to expect a resumption of the upward movement in the near future a more two-sided market seems in immediate prospect with opportunities for limited speculative profits both ways.

LAIDLAW & CO.

CLOSING COTTON LETTER.

Furnished by J. C. Mackintosh and Co., direct private wires.

New York, Oct. 31.—The virtual unanimity of reports from the belt corroborating the government advices of killing frosts, caused a considerable influx of buying orders in today's cotton market, in which prices advanced about 1/8 per bale and held most of the gain until the close. Except for reports that spinning interests were showing more disposition to buy there was no further news of importance. The advent of detailed crop estimates is at hand. Already three private authorities who have been successful on the average in approaching the size of the yield in years past have issued estimates that are widely different. They range from 11,000,000 to 12,000,000 bales. It is considered that the top crop, as a whole is a failure, but the bears contend that the spell of favorable weather immediately preceding the recent period of frost, enabled farmers to obtain the best possible results from the first opening. There seems to be considerable cotton for sale on all hands but a reasonable degree of the bullish confidence is reflected in the substantial support which appears on the reactions.

TIPS ON STOCK SPECULATION

The great bulk of the vast fortunes of the present day are based on speculative successes of one kind or another. Millions struggle along through life on a mere competence, derived out of hard work applied to the various channels of commercial and industrial enterprise, while the few create fortunes in a comparatively short space of time.

It is simply quibbling with the subject to say that the world is made merely to make ends meet. There are indeed, few who would not grow richer for the sake of the comforts and influence which wealth bestows. It is human nature to seek to get what many are striving but few really succeed.

There are various forms of speculation, but by far the simplest and quickest method of increasing or decreasing one's capital is in the buying and selling of stocks. The great financiers who are the creators of such forms of wealth, do not hesitate to make money merely to make ends meet. There are indeed, few who would not grow richer for the sake of the comforts and influence which wealth bestows. It is human nature to seek to get what many are striving but few really succeed.

There are hundreds of brokers and bankers in every large financial centre who participate in this business and derive a large revenue by acting as middle men between the genius who creates, and the general public which buys, these stock certificates.

Prices Ever Changing. There are well known conditions and circumstances which make a block of stocks worth more one day than the next. Prices are always changing. If a person buys one hundred shares of stock one day, and it advances \$1.00 per share the next, and the buyer sells his one hundred shares the one hundred dollars profit is legitimate. It is because of the good sense and foresight to buy at the right time and sell at the logical moment.

If it is one thousand shares he happens to have, the profit is correspondingly greater. The larger the amount of trading a man is able to do, so long as he understands his business, the bigger the margin of profit he is able to command.

But as has been truly stated many times, the stock market is merely an exchange of wealth and not a creator. In other words the suggestion in such a line of argument is that when one fellow wins, another loses.

As a matter of fact that is only partially true. It must be remembered that a large number of people scattered all over the world constitute the stock market as a whole. The great international railway and more important class of industrial issues are held by people in every civilized country. There are hundreds of causes which prompt people to buy and sell and they are doing so all the time. At one time the holders of some noted stocks in France or Germany may be forced through some technical reason to sell, while in the United States it may be considered a bargain to buy that stock. The conditions on the two continents may vary greatly. The sellers may not be taking a loss, and yet the buyers may be gaining a decided advantage. Why should a purchaser under such circumstances have any qualms of conscience about seizing an opportunity to get a bargain when it is offering in this manner?

On The Alert. The great financial men who command millions of capital, are ever on the alert, to take advantage of such opportunities and the return is enormous. These chances are occurring every day so extensive are the ramifications of the stock market.

It is admitted that the small trader runs a great risk, in dabbling in stocks about which he knows little. It is the trained and experienced trader, however, who has by long years of study, to invest for them and make money for them.

There is a great deal more science and technical knowledge required in stock market matters than the great bulk of people imagine. The trained and experienced trader has ninety-nine chances of success in a hundred, whereas in the case of the novice the proportions are just reversed. It is the same in every walk of life. The trained business man always has the advantage over a greenhorn, who thinks he knows it all. It has been truly said that a little knowledge is a dangerous thing, and in no case is this truer than in its application to dealings in stocks.

Variety of Conditions. There are a great variety of conditions and circumstances of which an accurate knowledge is required to make a successful trader. The man who has his everyday business to attend to and worry about cannot take these matters up with any degree of certainty.

The stock brokerage business is a highly specialized one, and in order to thoroughly take advantage of the market the ordinary small investor should entrust his money, with which he desires to increase his capital, to a man, who makes a study of investing money for others, and whose interest is rendered the same as his clients.

If the stock market is not suited to certain industrial and financial conditions were an accomplished fact and then created stock values, as a result of that established knowledge, it would be a simple matter. Then everyone might run. But the stock market pursues an entirely different

NOVA SCOTIA STEEL 5's

An absolutely safe investment and a sure return. These bonds are secured by property aggregating four times the amount of bond issue. The character of the steel industry and the splendid earnings of this company make its bonds one of the most desirable on the market.

Where Millions are Won and Lost almost any day during brisk trading.

Method. It does not wait for conditions, it anticipates them. The market is a prophet; a forecast of what is to come. In other words it discloses the future.

The great financiers are not playing at a game of guess work when they stake their millions in stocks. They make it their business to know how the great industries of the country are doing, whether the percentage of profit is good or bad. They have methods of finding out whether the great railways of the country are earning plenty of money to maintain their dividend rates. If a railway reduces or passes its dividend, it may be a great shock or surprise to the average citizen but not so to the financier. He saw what was coming. He was watching and knew what to expect. If on the other hand an increase was forthcoming the big man had a shrewd idea that it was in sight and had planned his dealings in the market accordingly. It is the small, uninitiated trader who is taken by surprise. He has no doubt wondered what made a certain stock go up sometime before he got the news. It was the trained speculator getting ready to reap a harvest, then the small fellow jumps in as they always do when the big chap is ready to take a profit.

Then again one of the most intricate studies of the stock market is the relation of the money market thereto. Millions of shares are bought very largely on borrowed money. To buy the stock market requires an enormous amount of capital and reduces the margin of profit so that most people prefer to buy larger blocks of shares and borrow a proportion of the money from the bank or trust companies. Sometimes the supply of money for such purposes is in plentiful supply, and at other times it is scarce. Conditions tending to create these extremes are often at work months before they are realized by the general public but the close student of financial and monetary affairs can read these signs of the times in advance and prepare for them.

The vast majority of buyers throughout the country have the unfortunate faculty of buying after prices have risen considerably and the result is an over-extended speculative account. Then comes the day of reckoning. There is always some incident forthcoming to start selling, and the professional trader is ever ready to facilitate it with short selling and the downward movement grows like the snowball a boy rolls down a hill. Every few points decline uncovers a fresh series of depleted margins, and crash goes prices until the lambs are wiped out and the market is ready to repeat the process.

There are many other points of the speculative game that the trained trader requires to be familiar with. They all require knowledge born of experience to understand and put to advantageous practice.

They are in fact, so numerous that it tends to demonstrate how futile it is for anyone not well versed in such matters to expect to be anything more than a stock market lamb and render himself the object to be plucked by the professional traders, ever on the alert for their prey. It simply demonstrates the necessity of being guided in such matters by the experience of those who have thoroughly studied the market and its eccentricities and are making a close study of all the new phases which are ever presenting themselves to puzzle and mystify the uninitiated.

Halifax, Oct. 31.—Michael the Indian runner of the West Club, Charlottetown, and Mall's ten mile ship road race here today. It was won by the Charlottetown, St. John runner Ernie Sterling who was favored but owing to the number of competitors from the West Club, the fleet runners of the city were badly beaten. Ernie Sterling of St. John won and finished in fifty minutes. The St. John men finished in fifty-five minutes. ST. JOHN TEAM 2ND AT HALIFAX

ERNIE STERLING WHO FINISHED FIFTH IN FIELD OF FIFTY-SIX RUNNERS.

Large Number of Competitors from Chebucto Club Handicapped Team from New Brunswick --Michael Thomas, P. E. I. Indian, Individual Winner--White 14th, Stubbs 23rd.

Halifax, Oct. 31.—Michael Thomas, the fleet Indian runner of the Abegweit Club, Charlottetown, won the Herald and Mail's ten-mile championship road race here today from a field of fifty-six starters. The team prize was won by the Chebucto Club of Halifax. St. John runners were the favorites but owing to the large number of competitors from the Chebucto club, the fleet runners from the sister city were badly handicapped. Ernie Sterling of St. John ran a game race and finished in fifth place. The St. John men finished as follows: Sterling fifth, White fourteenth, Stubbs twenty-third, Horseman twenty-ninth, St. John was second in the team race. They left for home this evening. Thirty thousand people witnessed the race.

The road race was the most successful ever held by the Herald and Mail. The weather conditions were most favorable for Eastern Canada's greatest athletic event.

Fifty-six of the fastest runners in the Maritime Provinces lined up before the Herald building at five minutes after ten. Over twenty thousand enthusiasts lined the sidewalks from the Herald building to North street station. Attorney General MacLean discharged the pistol which started the runners on their long grind.

Sterling in the Lead. Sterling of the Every Day Club, St. John, took the lead starting off at a brisk pace. The New Brunswick runner passed, however, before he reached North street station by Michael Thomas (Indian) of the Abegweit, Charlottetown. Thomas lengthened his stride and set a swift pace which Sterling followed for hundred yards. The red skin soon shook the St. John man off than he set even a faster pace. At the two-mile station he was leading the field by almost a quarter of a mile. He was not taken seriously, however, as it was the general opinion that the terrific pace would compel him to retire from the race.

The St. John runners were all running together saving their energies for the last four miles. Sterling was attacked by cramps but gamely stuck to it until he was relieved. At the

Arm bridge where he was in thirty-seventh position his trainer gave him sponges. The work of the great St. John runner after this was simply phenomenal. He made a desperate effort to win even whose victory looked impossible. He passed man after man and finished fifth with a sensational burst of speed. Thomas held his long lead on the rest of the runners until within a mile of the finish, when Rodgers of the Chebuctos sprinted and reduced the lead to a hundred yards.

The intermediate run was won by H. Wetmore with S. Slocum second, J. Pendleton with H. A. Wetmore second, J. Elliott third, and Harvey Wetmore fourth.

The boys' race H. Pencock was first, G. Seeley second, H. Evans third and D. G. Linsley fourth. The course was from the building to the Log Cabin in Rockwood Park and return.

In the evening the association rooms presented a fine appearance. There were large, cheerful fires in the fire places and the rooms were decorated in true Halloween manner.

At 8:15 o'clock the large association hall was well filled with members and friends, and a most pleasing entertainment was carried through. Harrison's orchestra was present and rendered a number of selections. A number of clowns amused the audience with some tumbling. Harry Heans gave a good exhibition of club and torch swinging. The cock fighting contest was most amusing. A boys quintette from the Trinity church choir were heard to advantage in a couple of selections. Herbert Bree rendered selections on the banjo and accordion. The tumbling team, composed of Messrs. Chester Alexander, Lawrence Dow, Stanley Slocum and Arthur Magee gave a fine exhibition, and their work was highly commented.

Twelve members of the Gym class performed some pretty work in the Gypsy Trip Pyramids, and the entertainment closed with the singing of the National Anthem.

At ten o'clock the senior members, with their lady and gentlemen friends assembled in the upper room where there were arranged thirteen booths. These were designated as follows: "Hall of Fame," "Fortune Booth," "Past and Present," "Floating Fortunes," "Witch's Cauldron," "Shoe Race or Peanut Race," "Chinese Fortune," "Old Egypt," "Popping Corn," "Toasting marshmallows," and "Guessing Contest, one, two and three."

Refreshments were served and the affair was one of the most enjoyable ever held by the association.

MONTREAL RACE.

Montreal, Oct. 31.—E. White of Brockville won the Herald round the mountain race in easy fashion today in 56.55 3/4. There were 124 runners in the race.

Here's what one subscriber says:— Port Dover, Ontario Oct. 26th, 1910 Canadian Century Company Montreal Dear Sir: I have just received my first copy of your paper, and am more than delighted with it. I would like to see it in every Canadian home. I am sorry for those who do not subscribe. It is the best value for money ever offered to people in Canada. Wishing you every success.

"Literature is a guide to youth and an entertainment for age."

To-day is the Last Day you can buy THE CANADIAN CENTURY AT THIS SPECIAL PRICE TWO CENTS A COPY

After to-day you will have to pay MORE THAN DOUBLE. Here are some good reasons why you should clip out the coupon and mail it now. The Canadian Century is a genuine Canadian journal, a live, interesting weekly magazine published for Canadians. You should be interested in Canada's welfare—this is Canada's century. The Canadian Century keeps you in personal touch with the happenings—all the events of national importance. It is the home entertainer, and should be read by every Canadian. ST. JOHN HIGH TRIMS SUSSEX

St. John High School 26, Sussex 0.

The football team of the Sussex high school, yesterday afternoon, had a match on the Every Day Club grounds with the St. John High School.

In the first half the score was eight to nothing in favor of St. John and when the final whistle blew the locals had made a score of twenty-six while the visitors had failed to score.

The line ups were as follows:— St. John, Fullback, St. John, Carleton, Halves, Teed, J. Bunnell, Malcolm, Alton, Donnelly, St. Bunnell, Nobles, Priors, Quarters, Machum, Jones, Nobles, Odell, Nugent, Neals, Driscoll, Murphy, Lelacheur, McLonagle, Jones, Dallog, deVeber, J. McLonagle, Nelson, Wier, McDonald, Wilson, Meararty.

ALGONQUINS WON FIRST VICTORY FROM U. N. B. St. John Team Defeated College Fifteen by Score of 5-0--F. Finley Star of the Game--Victors Will Play Fredericton City Here on Saturday--A Great Game.

Fredericton, Oct. 31.—The holiday football attraction today drew a large crowd at college field, St. John Algonquins winning from U. N. B., one try to none in an exciting game, the final score being 5 to 0.

The only score was made by Fred Finley, who played a fine game throughout. He made a dashing run along the side in returning Balkan's short punt and got over the U. N. B. line. U. N. B. players claimed that Finley had stepped into touch while making his run along side, but Joe Brossman, of St. John, who was touch line judge, declared otherwise and the try counted. Brossman was then replaced as touch judge by Holly Wendless, of the Fredericton football club. Sandy Thorne, of the visitors, always a fair player, was only a few feet from Finley and he stated tonight that the fallback had not gone over.

In the second half towards the latter part of the game, U. N. B. team's trained condition commenced to tell and they carried the ball over the Algonquin line twice for safety touches.

Some of the U. N. B. backs fumbled considerably when the ball came out to them. Quarters were beaten out in the playback of scrimmage while the visiting forwards played with more snap and ginger than the college pack.

Finley was the star of the St. John team while Dryan, McGowan and Thorne were the pick of the back divisions and Leonard Turner and Stan Seeley were the pick of the forwards.

The U. N. B. team were without services of McNair, Vavasour, Kuhring and Alexander, four of their players. Howe was back in the game and was able to make gains when he got hold of the ball and was not tackled low. There is a strong feeling among followers of the U. N. B. team that in face of the record of the team's 4 defeats in five games on home grounds, a shakeup should be made.

U. N. B. team will leave for Sackville tomorrow morning and will play at Sackville on Wednesday and at Moncton on Thursday.

The teams lined up as follows:— U. N. B. Fullback, Algonquins, McGibbon, Fred Finley, Halftbacks, Blaney, Roy Brian, Kinghorn, Walter Willis, Machum, Alex. Thorne, Balkan, Hazen Howard, Quarters, Jennings, L. McGowan, Loggie, Roy Armstrong, Howe, Geo. Clarke, Forwards, Jewett, Guy Turner, Porter, Colby Gardner, Vanwart, Knowlton, Deedes, Chas. Leonard, Patterson, H. Seeley, Rigby, F. L. Grierston, Melrose, Stan Seeley, Spares, H. Murray, Creaghan, Porter, E. Knowlton, Vanwart, Parker, A. Murray, J. Dolan made a satisfactory referee.

As yesterday's victory was the first won by the Algonquins against an outside team since their organization and the first time the U. N. B. team was ever beaten on their grounds by a St. John aggregation, the members of the team were naturally somewhat jubilant on their return. While in Fredericton the Algonquins completed arrangements with the Fredericton city team for a game here on Saturday. The city team is one of the strongest ever formed in the province and the winners of the game should prove a factor in the maritime championship this year, judging from the form shown by Dalhousie and the other Halifax teams. St. John footballists made a late start this year but Manager Grierston seems to have made up for lost time.

BOY SCOUTS IN NEW GAME Six Patrols Represented in Rockwood Park Outing Yesterday--Capturing Staves as Prisoners of War.

About 400 boy scouts assembled at the Y. M. C. A. building at 2 o'clock yesterday afternoon, formed into companies, marched out to the north side of the lake, and spent the rest of the afternoon playing a novel kind of game.

The boys were formed into two parties. One party under the command of T. Powers and W. E. Anderson took up a position along the Bluff Drive. The other party commanded by Colonel Baxter and Captain Miller were stationed on Look-out Hill.

Each party marked its position with staves driven in the ground about 100 yards apart, and in front of their lines. According to the rules of the game, which were explained to the boys by T. Malcolm McAvity, each party tried to capture the staves of the other party, while keeping enough boys within their lines to defend their own staves. The defenders were stationed about 25 yards behind their staves, and when they saw the assailants approaching, they ran out and tagged them, if they could. Every boy tagged became a prisoner of war, and had to report at the headquarters of the enemy.

The party commanded by Messrs. Powers and Anderson won the game, capturing 115 staves to their opponents 107. The boys enjoyed the sport a good deal, and returned home at dusk, feeling fit to tackle their Halloween suppers.

In addition to the Y. M. C. A. patrols, there were present at the battle the boys of the St. John (Stone) church, Trinity church, St. Luke's church, St. Jude's church, and detachments of the A. O. H. cadets.

Chatham, Oct. 31.—Thanksgiving Day passed off quietly. Many parties took advantage of the beautiful weather and went hunting, meeting with average success. There are no reports of accidents to any hunters.

The football match was the chief attraction here this afternoon.

A junior town team defeated the St. Thomas college team 5 to 1. The college team were light for the town boys, but put up a good game. Rev. Fr. J. Roche was referee. The upper Canadian style of Rugby was played.

Halloween pranks by boys tonight culminated in setting fire to a barn owned by Wm. Elkin, situated back of the town. The building was formerly used as a slaughter house. There is no insurance as far as is known.

R.K.Y.C. CLOSE SUCCESSFUL SEASON'S SPORT The R. K. Y. C. closed the season yesterday afternoon. Commodore Robert Thomson visited the club house and a cannon boomed forth a loud report. The past season has been a most enjoyable one for the yachtsmen. The large number of yachts have about all been pulled out on the railway. The running gear and sails have been stowed away, and owners and crews will rest easily until next spring.

LITTLE DOING IN SPORT LINE AT MONCTON Moncton, Oct. 31.—Bright sunshine greeted holiday makers today but there was little outdoor sport. The High School and Pastime Club met on the gridiron, the game resulting in a draw, neither scoring.

FOGEL SAYS PLAYERS CAN NOT SIGN Philadelphia, Pa., Oct. 31.—"I can't help what McQuillan and Bates have done, nor am I responsible for anything unlawful in baseball. President Herman may do," said President Fogel, of the Philadelphia national league club today when told that these players had signed Cincinnati contracts. "McQuillan and Bates are on the reserve list of the Philadelphia club and no other club has a right to approach them."

TIGERS GO TO CUBA FOR BARNSTORMING Detroit, Mich., Oct. 31.—The members of the Detroit baseball club started tonight for a barnstorming tour of Cuba. Shortstop Bush was unable to go because an X-ray examination has revealed a split bone in his ankle. The men who went were Mullin, manager; O'Leary, Willett, Summers, Merliarty, T. Jones, Casey, Stange, Crawford, Cobb and McIntyre.

THE WEATHER.

Maritime—Fair and milder. Toronto, Oct. 31.—Showers have occurred today in British Columbia and there have been local snow flurries in Alberta and Saskatchewan, but elsewhere in Canada the weather has been fine and in Ontario warm.

AROUND THE CITY

Quiet in Police Circles. There were no arrests on Sunday or yesterday. Sunday School Teachers. A meeting for Sunday school teachers will be held in St. David's church this evening at 8 o'clock.

Steamer Stanley Here. Government steamer Stanley, Capt. Dalton, arrived from Yarmouth last night. She has been down the bay placing buoys.

Horse Shot. Policeman Rankine was called to a yard of Charlotte street, yesterday afternoon, to shoot a disabled horse owned by Horace Hoyt.

Temple Fair. A visit to temple fair reveals a display that is interesting and entertaining. Watching all departments in full swing is worth something and to take part is worth more.

I. C. R. Inspection. F. P. Brady and E. Tiffin, I. C. R. commissioners, were in the city yesterday. In the afternoon they made a trip about the city inspecting sites for new industries.

Dan Littlejohn Away. Dan Littlejohn left on the Atlantic express yesterday for New Glasgow, N. S., where he was booked to box a limited number of rounds last night with an unknown in the Empire Theatre.

A False Alarm. About 8:30 o'clock last evening one of the most foolish Halloween pranks was the ringing of a false alarm from box 121 on the corner of Bay street and the Spar Cove road. The department were given a long and needless run.

Reception to Rev. Mr. Marr. The congregation of the Portland Methodist church held a pleasant reunion last evening when an opportunity was given to all to meet Rev. H. D. Marr, the new pastor of the church. The reunion was held in the school-room, which was filled with people and addresses were delivered during the evening by Rev. G. A. Ross, of Fairville; Rev. W. W. Brewer, of the pastor. Refreshments were served during the evening and a very pleasant hour enjoyed.

Alleged Liquor Violation Case. A police officer walking along Mill street last night saw several men take up a collection and later saw one of the number enter a saloon, returning soon with a bottle of gin. As it was a legal holiday and no saloons were supposed to be doing business, the officer confiscated the liquor and took the man into the place and ordered him to point out the man who sold it. This he refused to do. It is likely that the proprietor of the saloon in question will be called upon to answer the charge of liquor law violation.

St. David's Concert. The Scotch concert held in the schoolroom of St. David's church last evening was well attended, and provided an enjoyable evening. The following programme was carried out: pipes, St. John Pipe Band; quartette, Over the Seas to Skye; song, Miss Jessie's Dream, Miss Bloula Thomson; piano solo, select, Edith H. Cochrane; song, S. J. McGowan; song, How Walker; reading, A. W. Baird; song, Mrs. Burton L. Gow; Auld Lang Syne.

Machine Broke Down. R. S. Low has a brand new gric-ance. Yesterday the Hassam people moved their grouting machine from Bay to Germain street and got ready to start work on the concrete foundation. Then the machine broke down, and as it was a holiday in all the machine shops it was impossible to have it repaired. Owing to the wet weather the work on both streets has been delayed, but it is expected that ten more fine days will see both jobs near completion. One of the company's Apposite experts arrived in the city yesterday and the work of laying the asphalt on Germain street will be started in a few days.

Johnston Lodge Fair. The fair of Johnston Lodge L. O. A., which was opened Saturday evening, was continued last evening, there being a large attendance. The hall on Germain street is prettily decorated and the booths have been well patronized. A number of lotteries are being conducted in connection with the fair and the sale of tickets has been large. Recorder Baxter was present last evening and delivered an interesting address. The fair will be continued this evening. The prize winners were as follows: Ninipine, men's; C. Nicholas, ladies'; Mrs. Stockford, bean board, men's; W. J. Holman; ladies'; Mrs. John Howe; ring toss, Joshua Cogswell; air gun, Charles H. Marshall. The door prize was won by Mrs. W. P. McLean.

The Torrey Campaign. The general committee of the Torrey mission will meet tonight at the Y. M. C. A. and the choir will hold a practice at the Queens Rink. Today the finishing touches are being put on the Queens Rink and all will be in readiness for the opening series next Sunday. Now that the heating difficulty has been so happily overcome by means of the boiler loaned by the city the one problem remaining is how to find room for the audiences. This matter will require to be taken up with Dr. Torrey upon his arrival, and his large experience with this difficulty at other places will probably suggest some remedy. On the opening night of the mission, recently held in Trenton, N. J., it became necessary to close the doors an hour before the time set for the service. Every available space was filled, street traffic was blocked, and people were even climbing up the fire-escapes.

HALLOWE'EN OBSERVED BY CANNY SCOTS

19th Anniversary of Clan MacKenzie Celebrated on Same Evening—Interesting Programme Carried Out.

Hallowe'en and the 19th anniversary of the Clan MacKenzie were royally celebrated last night in the Seaman's Institute hall, and the affair was largely attended, many persons coming in after visiting other entertainments in the city.

The entertainment was divided into three parts. The first took the form of a concert, then refreshments were served and there was dancing at the finish.

The stage was set in scenery representing an old castle and there was also shown an eight foot picture of a Highlander, dressed in MacKenzie kilts. Chief Dr. Corbett opened the entertainment with an address and was followed by a selection on the pipes by Homer Cruikshanks. Miss Starkey gave a recitation and the Misses Megarity rendered a violin duet. A reading was given by Mrs. E. Jamieson and the Highland fling was danced by E. McDonald. Solos were sung by Mr. Walker, Mrs. Jennie Gordon and Miss Helen Irvine. Four pipers played the bagpipes and there were addresses by His Worship Mayor Frink and Dr. McIntosh, the president of St. Andrew's Society.

Fine Tableau. A feature of the entertainment was four tableaux representing four different events in the life of Prince Charlie during the uprising of 1746. The first tableau represented the invitation to Charles to come over and try for the crown, and in this Joseph Murdoch sang "Come over the streams Charlie."

The second represented the gathering of the Clan at Moldart, and Joseph Murdoch sang "Whol be king but Charlie."

The third represented "Campbell's Locks Warning," and Mrs. John McKay sang "Will ye no come back again."

The fourth was "The dejected Highlanders." Master Harry Morrow took the part of Charles; James Malcolm that of Lochiel, and George Shaw that of "The Wizard."

The concert, refreshments and dancing were greatly enjoyed. It was indeed the representative Scottish celebration of Hallowe'en.

LILIPUTIANS PLEASE IN COMIC OPERA

Clever Company of Children Seen at the Opera House—Delighted Large Audiences

Before audiences which tested the capacity of the Opera House, the Simpson-Hogg Lilliputian Opera Company opened a brief engagement yesterday afternoon and evening, and the verdict of the audiences was that the company ranks with the famous Pollards as one of the finest juvenile aggregations which has ever visited the city. The company includes in its roster thirty children. All can sing, act, and dance well and they are provided with a gorgeous wardrobe and scenic investiture for the proper presentation of the operatic works in their repertoire.

Yesterday afternoon the matinee bill was the favorite Gilbert and Sullivan nautical comic opera, Pinafore, and it was never better sung here even by an adult company. The chorus was particularly charming and the manner in which the tiny children carried their roles was a revelation. The singing of the role of Buttercup, the dumboat woman, was very quaintly done by tiny Hazel Lewis, while the clear sweet voice of Pearl Carlyle was heard to advantage in the role of Josephine. Maisie Condon, a lot of about six years essayed the role of Dick Deadeye, and the comedy lost nothing in her hands. Jennie Tansley sang Ralph Rackstraw well and on the whole the performance was a marvellous one and particularly when it is known that yesterday afternoon marked the company's first appearance in Pinafore.

In the evening the comic opera San Toy was given. In this the Pollards made an especial hit but it is doubtful if even Teddy McNamara with all his natural gifts had anything on little Frank Jones in the exuberantly funny role of Li. The manner in which this atom of a boy has mastered the difficult art of facial expression is wonderful, and he is a natural born comedian. Miss Pearl Carlyle as San Toy captured her audience at her first appearance, and continued to gain in popularity as the opera proceeded. In fact all the members of the company gave splendid renderings of their roles and the opera was most enjoyable.

The company will continue all week with a change of bill nightly.

MAY MAKE TEST CASE OF TAX QUESTION

Officials of the Dominion government, resident in this city, are watching with interest the progress of the case in the Toronto courts in which Leprohon, a government official living in Ottawa, contends that the provincial government does not have the power to impose a tax upon the income of a federal official or to confer such power upon municipalities.

A similar case was brought before the courts by the St. John association some time ago, and carried to the Supreme Court, but the ruling was unfavorable to the officials, though two of the Supreme Court judges supported their contention, and advised them to take the case to the Privy Council. Owing to the expense the local association did not do this, but it is understood that if the association in Upper Canada decides to take it to the other side, the local men will bear a portion of the cost.

WIRELESS MESSAGE FROM STANDARD GIRLS

All Happy on Board but Glad to Get Back to New Brunswick—Will Arrive This Evening.

The Standard girls will return today from their trip to New York and Bermuda. The service will assist them some great stories to tell of their experiences in the south. That they have had a great time is evident from the following message from the girls received by wireless from the steamer Calvin Austin via Portland, Me., yesterday: "Standard, St. John, N. B. 'All happy on board. Delightful trip but glad to get back to New Brunswick. 'THE STANDARD PARTY.' The Auth is due to arrive this afternoon or early this evening."

THANKSGIVING DAY WITH THE CHURCHES

Special Services Held by Presbyterians, Salvation Army and in Carleton Methodist Church.

A special Thanksgiving service of all the Presbyterian churches of the city was held yesterday morning in the St. John Presbyterian church, at which there was a very large attendance. Rev. L. A. McLean conducted the service, assisted by Rev. David Lang and Rev. J. H. A. Anderson. Rev. Mr. McLean preached an eloquent sermon, taking as his text the words "God is the author of all gifts."

He showed how the hand of God is manifest in all the affairs of the natural world as well as in the various departments of human life, and pointed out that it was proper for men to exhibit their gratitude for the manifold blessings showered upon them, especially upon the day of the year set apart by the state authorities for a general thanksgiving of the people.

He referred to the progress of Canada during the year, its great industrial and railway developments, and the attention it was attracting in the outside world. He declared that the prospects for the future were very bright and that St. John as the winter port of the northern half of the continent as well as the trading centre of a province that was beginning to realize its possibilities and exploit its natural resources, was bound to grow in greatness with the progress of the nation. He expressed the hope, however, that it would not merely progress in material development, but would become a better as well as a bigger St. John.

Salvation Army. The meeting at the Salvation Army Citadel last evening took the form of a special service of praise and thanksgiving. After the opening hymn, Brigadier Adby read the Scripture lesson, and made a short address, referring to the progress of the Army during the year and the many reasons its members had for giving thanks.

Mr. Freeze then gave a recitation and Brigadier Adby and Capt. Howland followed with a duet. Capt. Dallas contributed a song and there were a number of selections by the band, and the choir of No. 3 division.

The hall was crowded and the meeting was very enthusiastic. Carleton Methodist. In connection with the 69th anniversary of the Carleton Methodist church, a Hallowe'en concert was held last evening in the vestry which proved a very enjoyable event. The entertainment was given under the auspices of the Sunday school and the superintendent, Alfred Burley, presided.

The following programme was carried out: Duet, Messrs. Sloan and Trencart; reading, Mrs. Jamieson; solo, Wm. Layton; violin solo, Miss Hilda Wood; vocal solo, Miss Mabel Ring; recitation, Master Gordon Heaney; quartette, Messrs. Long, Flewelling, Foster and Osborne; reading, Miss Coe; solo, Mr. Osborne; solo, M. W. Long; flute solo, Harold McDufee; piano solo, Miss Nettie Retelle.

A special service will be held this evening under the auspices of the Epworth League and tomorrow evening a congregational reunion will bring the anniversary celebration to a close.

500 TOOK SUPPER AT TEMPLE FAIR

Enjoyable Feature at Popular Amusement Feature Last Evening—Keen Interest in Games—Prize Winners.

There was a very large attendance at the Temple fair in the Temple building, Main street, last evening. An orchestra was present and a large number partook of the thanksgiving supper, over 500 persons being served. C. Shanks won the prize in the bean toss, a pair of slippers. In the shooting gallery, W. Eagles won the prize, a jack knife. The door prize, a half barrel of flour, was won by Garfield Niel.

The nine pin contest, a water set, was won by Silas Perry.

Signalling inspection. Capt. McMillan of Halifax, who arrived in the city yesterday inspected the signalling corps of the 3rd Regiment Royal Canadian Artillery, and the 62nd Regiment at the drill shed last evening. Tonight he will make an inspection of No. 8 Signalling Section.
