Moncton Likely to be Chosen for Site of the Proposed Institution.

TWELFTH CELEBRATION MAY BE PLANNED

St. John Officer is Presented With Splendid Silver Service.

Special to The Standard Moncton, N. B., April 20.—The Grand Lodge of the Loyal Orange Association of New Brunswick resumed at ten o'clock this morning in the social hall of the First Baptist church, a large number of delegates being in attendance. Grand Master L. A. Palmer, of Bathurst, presided. The report of Grand Master Palmer, which was delivered at yesterday afternoon's session, was adopted. The report of the executive committee was also adopted. A pleasing feature of this morning's session was the presentation of a beautiful silver service to Past Grand Secretary, N. J. Morrison, of St. John. The presentation was made by Grand Master Palmer. Mr. Morrison thanked the officers and members for their kindness.

QUESTION RIGHT OF LEMIEUX TO HOLD TWO SEATS

Ex-Postmaster General Centre of Bitter Assault in Parliament.

REPRESENTS GASPE AND MAISONNEUVE

Premier Claims Election Petition Looks Fictitious from Start to Finish.

Ottawa, April 20.—After a debate lasting through the afternoon and well into the evening, the House tonight referred the case of Hon. Rodolphe Lemieux to the committee on privileges and elections. For some time past, Mr. Lemieux has been criticized from the Government side of the House for continuing to sit as member both for Maisonneuve (Montreal), and for Gaspe. Dr. Edwards (Frontenac) today brought the criticism to a head when a motion that the House committee on privileges and elections should consider whether Mr. Lemieux "has not infringed the privileges of this House and violated its rules in not electing for which of the two districts he should serve."

Contest Audit Commenced

An Audit of the Standard's Automobile and Motor Star Contest records was begun today by the firm of Paul F. Blanchet, Chartered Accountant.

DOMINION STEEL MEETING

Moncton, April 20.—The regular monthly meeting of the board of Dominion Steel Corporation was held here today. The proceedings, it was stated at the conclusion of the meeting, were of a purely routine nature. Out-of-town members of the board present included: Sir Henry M. P. L. Smith, D. H. MacDowell, S. B. McKinnon, M. P., and J. E. M. Storrace.

Exchange Rates Hit Methodist Mission Boards Hard Blow

Toronto, April 20.—As a result of the adverse exchange conditions and the general increase in the cost of living, the estimates for the requirements of the mission work of the Methodist Church for five years commencing in 1921 will fall short of the actual requirements by at least \$4,000,000. Dr. S. D. Chown, the superintendent of the Methodist Church, stated today that the Methodist church pays New York exchange on every dollar that it sends out of the country for mission purposes. The estimates made in 1918, by a commission of fifty appointed by the board of missions, amounted to \$8,000,000. The work cannot be done, says Dr. Chown with less than \$12,000,000.

WHISKEY HIDDEN IN CARLOAD OF POTATOES FOUND

New York Police Capture Five Hundred Cases Consigned from Montreal.

ALLEGED SHIPPER MAY BE A FAKE

Dealers to Whom Car Sent Declare Load Was Never Ordered.

New York, April 20.—Five hundred cases of whiskey, concealed in a freight car supposed to be loaded with potatoes, which the police say was supposed to have been shipped from Canada, were seized here today by federal prohibition enforcement officers in the New York Central Railroad freight yards. The liquor was estimated to be worth \$50,000. On the car was found, according to the agent, data which investigation proved to be false to the effect that the shipment was sent by the firm of Joseph Decary section 48, Montreal, which was supposed to be delivered to E. A. Sullivan & Company, produce dealers, of 639 West 34th street, New York.

Not Expecting Load

Mr. Sullivan in reply to questions said he was not expecting any potatoes to be shipped to any shipper from the Montreal firm in question, and the agents were convinced that the names had been placed on the cases without authority to give the consignment the appearance of legitimacy. The shipment left Canada on April 16, and the charge for transportation, according to the agents was \$200. The labels on the cases bore the name of "B and L Scotch Whisky," according to the dry agents.

Labor Rally Held in Sackville Theatre

Appeal Made for Citizens to Support Men Who Are in Conflict With Employers.

Special to The Standard

Sackville, April 20.—A mass meeting in the Sackville Theatre this evening was largely attended by representatives of all classes of citizens. Alderman Towne presided and introduced the speakers of the evening. Vigorous and interesting addresses were delivered by William Varley, Toronto, organizer of A. F. of L. for Canada; J. B. Tighe, St. John, President of New Brunswick Federation of Labor, and William Rogers, of Moncton, President of the Independent Labor Party.

NO AID FOR BRIDGE

Quebec, April 20.—Premier Taschereau, who has returned from Ottawa, stated today that he had discussed with the federal authorities the Leonard bridge project across the St. Lawrence, but it appeared that the cost of building this bridge was to be a purely provincial affair, though previous arrangements to the contrary had been made.

BURN HOUSES BECAUSE IRISH? DERAIL TRAIN

Guerrilla Warfare Reported Again from Many Parts of Ireland.

BATTLE RAGES FOR TWO HOURS

Jean Hayes, M. P. Sent to Jail for Consorting With the Rebels.

Cork, April 20.—Jean Hayes, Sinn Fein member of the British House of Commons who was arrested here Monday when police suddenly invaded the monthly meeting of the managing committee of the Cork Lunatic Asylum, was today sentenced to six months in prison at hard labor by a military court. He was convicted of giving a false name and consorting with rebels.

Train is Derailed

Dublin, April 20.—Guerrilla warfare in Ireland continues with unabated violence. Some of the cars of a train conveying military police were derailed last evening between Gortais, County Kerry, and Castle Island, County Kerry, and subjected to machine gun fire from a ruined building. The attacking forces were driven off. The police suffered no casualties.

Bomb More Houses

Nine houses in Tralee were bombed last night. These included the offices of the newspapers, Kerryman and Liberator, the printing machines of which were wrecked. There were no casualties. Several attacks on police barracks in various parts of the country are reported. At Oakley a light raged for two hours, during which the court house was burned down.

Newfoundland To Aid Unemployed

Premier Tells Demonstrators That Resolutions Presented by Jobless Will be Regarded

St. John's, Nfld., April 20.—A parade of the city's unemployed today ended at the Parliament House where leaders of the demonstration presented resolutions demanding work, removal of all enactments that have survived the war, cessation of state interference with business, withdrawal of restrictions on export of codfish and control of foodstuffs.

Filip Konowal's Trial for Murder Ends After Hearing Lasting One Week.

Ottawa, April 20.—The unanimity of the medical experts called for both the prosecution and defence as to the mental derangement of Filip Konowal, who he stabbed and killed, will be a factor in the verdict at a trial which lasted a week.

Dail Eireann To Prevent Emigration To Violate Regulation Will be Deemed Guilty of Offence Against State at War.

Dublin, April 20.—The Dail Eireann has decreed that no citizen of the republic shall leave Ireland without permission from the proper authority. Under the decree shipping and immigration agents henceforth are forbidden to accept passage money or to issue tickets to intending Irish emigrants unless they produce a printed permit signed by the minister for home affairs and sealed with the seal of the republic.

Wants C. P. R. To Take Boston And Maine

Boston, April 20.—Taking over the Boston & Maine Railroad, which put back to this port after breaking her crank shaft Sunday, when 600 miles off the French coast, returned here today. The vessel which sailed April 15 for New York, expects to make repairs and resume the voyage Sunday morning. First class passengers on the Frenchman, who have pressing business in the United States, however, will sail Saturday on the Aquitania.

POLICE CAPTURE BANDIT GANG IN REVOLVER FIGHT

One Wounded, Five Taken Uninjured When Girl Gives Warning of Attack.

ONLY ONE THUG MADE HIS ESCAPE

City Detectives, Expecting a Raid, Were Hidden in Closet at Scene of Attempt.

Cleveland, O., April 20.—One bandit was shot and five were captured in a gun fight between police and a band of seven men who attempted to hold up the plant of the Inter-State Chemical Company here today.

Acting on advance information that a robbery was contemplated, a squad of city detectives were concealed in a closet when the bandits broke up in a nearby street and entered the company's office with drawn revolvers.

Girl Gave Warning. When Miss Ruth Kaminsky, bookkeeper screamed at the command "hands up," the officers sprang out. The robbers ran for the door with the detectives in pursuit, the latter opening fire. When the fusillade began, five of the raiders surrendered. The other two, however, returned the fire, one of the pair was wounded and the other escaped. The Inter-State Chemical Company has a stock of \$1,500 worth of alcohol two months ago by five men who operated in a fashion similar to today's attempt.

Boston Takes No Chances

Boston, April 20.—Officials of the Boston Postal district said today they had received from the Government arsenal 600 revolvers, 20,000 rounds of ammunition, and a number of sawed-off shot guns for use in guarding the mails against attacks by robbers. Of the supply 20 revolvers with magazines will be used for guards at the Central Post Office, where most of the valuable packages are handled, and the remainder will be distributed to first, second and third class officers in the district at the rate of two to twelve for each station. Veterans of the war will be selected to do guard in the transfer of the mail to and from stations, and will be given ample target practice.

EXPLAINING C. N. R. COSTS

Ottawa, April 20.—The newly organized standing committee of Canadian National Railways and Shipping met this morning under the chairmanship of Major-General McEwen, to hear President D. B. Hanna's statement upon the status and policy of the government lines.

The very large increase in expenditures which is so much discussed, was said Mr. Hanna, largely accounted for by the desire of the management to bring their lines up to a good standard of efficiency and thus increase traffic.

NEW EVIDENCE IN YARMOUTH MURDER FOUND

Crown Still Suppressing Names of Witnesses and Silent on Their Story.

EXPECT REVIEW OF INQUEST EVIDENCE

Man Who Spent Evening With Murdered Captain Also to be Called.

Yarmouth, N. S., April 20.—Yarmouth tonight is awaiting feverishly the disclosures promised for tomorrow when the preliminary examination of Clara Elizabeth Perry, charged with the murder of her husband, Captain George Henry Perry, on the night of February 26 last, will be commenced in earnest.

Crown Prosecutor R. S. MacKay and W. J. O'Hearn, K. C., of Halifax, who have been called by the Attorney-General's department to assist in the prosecution, were reticent tonight concerning tomorrow's developments, but both exhibited an air of quiet confidence that served to heighten the belief that the mystery which has surrounded the death of Captain Perry, since his body was found on the threshold of his own home, nearly two months ago is about to be solved.

Duplicate the Inquest.

Mr. MacKay stated this evening that much of the evidence to be adduced tomorrow would duplicate that given at the coroner's inquest, and that the new evidence to be introduced would not be reached until tomorrow afternoon. The first witness to be examined would be in all probability be Thomas Nickerson, from whose house the murdered man left for his death on the evening night in February. Following Nickerson it is anticipated that Mansfield Ross, fiancé of Eleanor Perry, daughter of the murdered sea captain, and the man now charged with being an accomplice in the murder, will be put on the stand in his capacity as discoverer of the body, and the remaining witnesses will testify as to the facts in the case, in the chronological order of their occurrence.

Some New Witnesses.

The new witnesses to be examined, Mr. MacKay stated, would not reach Yarmouth until the late afternoon and if necessary, in order to get their own statements, an evening session would be held. The names of these witnesses were withheld.

Mr. O'Hearn stated he knew of no statements for submission from anyone under apprehension in the case. (See also page 3.)

Railroads Predict Blue Ruin Soon

Transportation Companies Plead for Wage Reductions to Avert Disaster.

Chicago, April 20.—Setting a whirlwind pace, more than thirty railroads laid their pleas for wage reductions before the railroad labor board today in the final day of an aching wage strike. The board then adjourned for one week until April 28, to allow the employees time to prepare their reply. Predictions of a general strike in the transportation industry are being made by the roads to show decreases in outside industry wages and the cost of living since the present railroad wage scale was made effective.

Civilization Depending Upon Sane Development of Unions Says Gompers

Toronto, April 20.—President Samuel Gompers, when asked for a message to the workers of Canada before his departure today for Washington, replied: "The safety of democracy and civilization depends on the unity and practical, sane development of the great international trades unions." President Gompers and Mrs. Gompers were the recipients of congratulations from a great number of Toronto labor officials before their departure for Washington. In addition, the Toronto Trades and Labor Council sent vice-president Bert Herson and James Simpson to convey the congratulations of the trades unionists of Toronto, and also to present Mrs. Gompers with a very pretty chateleine as a remembrance of her visit to Toronto.

HARDING WINS FIRST BATTLE IN THE SENATE

Colombia Treaty, Ratified by Big Leads, Will Pay \$25,000,000.

PART OF AMERICA'S FOREIGN POLICY

Vote Was Eleven More Than the Required Two-Thirds Majority.

Washington, April 20.—The Colombia treaty growing out of the partitioning of Panama was ratified today by the Senate. It provides for the payment by the United States of \$25,000,000 to the South American republic, but has yet to be approved by the Colombian Assembly. The vote on ratification was 69 to 19, or 11 more than the necessary two-thirds majority.

The Harding administration through ratification of the treaty won its first fight in the Senate.

President's Action

The President in a message to the special session of the Senate March 9, five days after his inauguration recommended ratification as "very helpful at the present time in promoting our friendly relationships." This recommendation was supplemented today by Senator Lodge, of Massachusetts, the Republican leader, who in reply to attacks of Republican Senators of the Progressive group, declared ratification of the pact was "part of a grand national foreign policy," contemplated by President Harding "towards our neighbors in the Southern and Eastern hemispheres."

Fatally Pounded By Buggy Wheel

Ontario Man Wedged Between Spring and Wheel Until Killed.

Teeswater, April 20.—Wedged between a wheel and the spring of his buggy, and the horse standing in the barnyard attached to carriage, John Valaid, aged 27, a farmer on the Dundas road, near Riverdale, was found dead yesterday morning by his brother.

The young man went to visit John McGlynn of Calcross and left there about 10 o'clock to go home. The horse Valaid had been in the habit of driving the horse without a bit in the bridle and it is thought that the animal suddenly started and threw him forward in such a manner that he fell head downward between the wheel and the buggy spring. How far the horse traveled before reaching home is not known. A wound on the head indicated that Valaid had been kicked while in the suspended position. The spokes of the wheel also pounded the victim.

St. John Man Is Married At Moncton

Jeremiah Murray Weds Miss Mary O'Neill in St. Bernard's Church.

Special to The Standard. Moncton, N. B., April 20.—A wedding of much interest took place in St. Bernard's Church this morning when Miss Mary O'Neill, daughter of Mr. and Mrs. Geo. O'Neill, was united in marriage with Jeremiah Murray, son of Mr. and Mrs. James Murray, St. John. Rev. W. J. Mallette, curate at St. Bernard's, officiated in the presence of a large number of friends. Among out of town guests were the groom's parents and brothers of St. John. The bride was formerly employed in the office of the Chief Engineer, C. N. R., and the groom is an employee of the Audit Department of the C. N. R. Mr. and Mrs. Murray left this afternoon on an extended wedding trip to Colorado.

MINE STRIKE WILL NOT END FOR WEEK YET

General View in England is That Nothing Will be Settled for a Week.

PREACHERS URGING MORE CONSIDERATION

Gov't Taking Steps to Alleviate Suffering from Cold of Poor People.

London, April 20.—It is practically certain there will be no settlement of the coal strike before next week. The miners' federation has decided that the new proposals made public by the owners are too vague to afford a basis for negotiations.

Both sides, however, continue to display a desire to get together if a negotiable basis can be found, and should Frank Hodges, secretary of the Miners' Union, succeed in the admittedly hard task of swinging 150 delegates' conference Friday to his side, it is believed that another joint conference will assemble possibly Monday.

The statement of the Miners' Federation regarding the proposals issued last night by the owners, says they are "vague and meaningless, and in the main merely reformulate previous offers."

The federation adds that its own proposals are perfectly clear—a national wages board with a national tonnage levy to enable the poorer pits to pay the rates of wages agreed upon out of funds contributed through a levy by the miners and mine owners. In the event of a new conference this point will be thoroughly discussed. It invites neither side to discuss state subsidy.

New York Police Secure Power to Seize Chateaux to Pay Liquor Fines.

"CLEAN AS WHISTLE" NEW CIVIC MOTTO

Huge Stocks of Wet Goods Captured in Police Raids Recently.

New York, April 20.—Drying up New York after the manner prescribed in the state's new prohibition law today assumed a new legal aspect, when deputy police commissioner Leah announced his intention of obtaining liens against 1,000 property owners to insure payment of possible fines for liquor law infractions on their premises.

Citing a provision in the new law allowing this procedure, the official said this legal action already has been taken against 500 property owners on whose premises arrests have been made, and that notices have been sent to the others that similar action will be taken in the event that suspicion held by the police should lead to arrests on their premises.

"Clean As a Whistle"

Coincident with this announcement Police Commissioner Enright predicted that the city can be made "as clean as a whistle" if the administration granted him the "man force" he has asked for to enforce the law. He estimated that enforcement will necessitate the expenditure of \$3,000,000 a year, \$2,500,000 of which would be necessary for salaries and the remainder for expenses. Under this head he listed the expenses of buying "evidence" on which to base arrests.

Within fifteen days, since the police campaign started, said the commissioner, 700 barrels and 7,000 bottles of liquor have been taken.

CALLS Y. M. C. A. SPECIAL DANGER TO THE CHURCH

Pastoral Letter by Archbishop Bruchesi Deals With Many Subjects

WOMEN'S DRESS OF TODAY CONDEMNED Charges That Association Leads Young Men and Women Away from Church

Montreal, April 19.—Among the topics dealt with in a pastoral letter by Archbishop Bruchesi, read Saturday in all Montreal Catholic churches, were modern feminine fashions, certain tendencies of the cinematograph films, extreme dancing and the Young Men's Association, the latter described as "a special danger."

The title of the Pastoral letter is "The evils of the day" and at the beginning the Archbishop comments that "disregard of—Gospel doctrine bids fair to lead us back to the degradation of Paganism again."

Urged to Pray. The Archbishop, after ascribing the arch-enemy of mankind to behind this wave of irreligion, appeals to the people to be on guard lest they be caught by the multiform snares of this wily enemy and urges prayer as a means of overcoming the danger.

In regard to feminine dress the Grace says: "Some of the styles are merely ludicrous; others, by adding indecency to wretched taste, shock the upright conscience."

These semi-modern fashions are not fit for even for questionable characters, yet respectable married women and young girls do not hesitate to appear at the very altar rail attired in a manner shocking to common decency."

Condemns Y. M. C. A. The dance "craze" is described as "suggestive of evil" whilst "the moving picture film adds also its quota of corrupting influence."

The pastor adds that it is the duty of young people of both sexes to avoid such associations since the Holy Office deems them dangerous to Catholics and in the Faith. They must not attend their lectures treating religious or moral subjects, nor "read their pamphlets, periodicals, etc., which, by the very fact that they are their organs of propaganda, are received with the same interest as the news."

Campbellton Gets Another Inspector

Temperance Alliance and Town Officials Clash Over Enforcement of Laws.

Chief Inspector Hawthorne, who was in the City last night, was en route to his home in Fredericton where he was called by enforcement matters. The officials of Campbellton refuse to take any part in the enforcement of the prohibition measure, unless the town's exchequer becomes enriched by a portion of the fines collected.

The Temperance Alliance put up a sheet at the police station taken by the town's authorities and clamored for action. The Mayor of Campbellton was acting in accordance with a vote of his town and could not cut loose his blue coat to clean up illegal traffic in intoxicants.

Action On Many Bills In Commons

Consideration of the Grand Trunk Measure Will Begin This Afternoon.

Ottawa, April 20.—First reading was given a bill introduced by Hon. J. A. Calder to amend the Royal Canadian Mounted Police Act. The purpose of the bill, said Mr. Calder, was to divert the fines resulting from prosecutions to a fund for the benefit of the force.

On a motion for second reading of the Grand Trunk Arbitration Bill, Hon. W. L. Mackenzie King objected, as the bill had only been printed in English today.

DARING HOLD-UP AND ROBBERY

A daring robbery occurred in the Aylm ground in Fairville Tuesday evening, when Frank N. Calder, of the L. R. Stone Service Corporation, had \$65 taken from him. He was countered by two men, one of whom asked for a match, and as he was in the act of handing over the same, a revolver was pointed at him and he was ordered to hold up his hands.

POSSIBLE GOOD HEALTH By Looking After THE BOWELS

A slow motion of the bowels, once in twelve hours, should be the rule of every one, as half the ills of life are caused by allowing the bowels to get into a congested condition.

When the bowels are allowed to become congested, the stomach gets out of order, and the liver does not do its work properly on account of backing back the bile so that it does not pass through the bowels, but is allowed to get into the blood, thus causing a poisoning of the whole system.

When you would escape congestion, such as bilious headaches, heartburn, flatulency, specks before the eyes, constipation, bad breath, the nasty liver taint, bleeding itching and protruding piles, you should keep your liver active and up by the use of Hillman's Liver-Laxer.

These pills, being purely vegetable, keep your liver working actively, helping it to remove its proper functions, and thereby removing the bile that is circulating in the blood and poisoning the whole system.

Mrs. E. Barrow, Enfield, N. B., writes: "I was troubled with such indigestion and constipation. One day a friend told me of Hillman's Liver-Laxer. I got two vials, and found they did me a world of good. I have since kept a box of them by me, and I have never had a day since that I do not feel as well as I do now."

ORANGE ORDER TO BUILD BIG ORPHANS' HOME

Moncton Likely to be Chosen for Site of the Proposed Institution.

TWELFTH CELEBRATION MAY BE PLANNED

St. John Officer is Presented With Splendid Silver Service.

(Continued from Page 1.) Following the meeting of the directors of the orphanage board next month it is expected a site will be purchased and plans prepared for a modern building, suitable for the accommodation of all the children needing such institutional care. It will probably require several hundred thousand dollars to float the project. A drive in all parts of the province to secure the necessary money is contemplated. During the year nearly \$2,000 was received in additional subscriptions for the project. Of this amount Sussex raised \$1,000, being the largest single subscription from any part of the province.

Caring for Children

The report said that in the Martello Home, for which this grand lodge is largely responsible, there are about 90 children. The British street home, which has accommodation for 45 children, is always filled to capacity. "The large permanent home cannot come too soon if we are going to keep up with the needs." The matter of holding a provincial 12th of July celebration this year was left to the incoming executive with a recommendation to have it held at Moncton, if possible. Following are the committees appointed for the session:—Credentials, M. A. Wilcox, W. L. Rogers, D. Dupuis, Wallace Chabot; correspondence, R. G. Magee, Wm. M. Campbell, Kenneth Spear, M. E. Baldwin, W. J. Wilcox; finance and audit, James Arthur, H. R. Keith, E. J. Wilson, John Robinson, C. B. Ward; suspensions and expulsions, Rev. B. H. Penwarden, J. D. Perkins, M. A. Wilcox, Wesley Cropley, Geo. Adams; petitions and appeals, Stanley Tait, Stephen Palmer, James Duncan, J. L. Gay and E. L. Lunnin; returns, J. M. Campbell, Charles H. Soule, Martin Boone, W. Cook.

The New Officers

At the evening session the officers were elected as follows:—Grand Master, J. H. Cochrane, Moncton (re-elected); Junior Deputy Grand Master, J. E. Arthur, St. John; Thomas Griffiths, Woodville, York county; Deputy Grand Chaplain, Westmorland, Rev. E. H. Cochrane, Moncton; York, east, Rev. David Jones, Charlottetown; Rev. A. D. Remand Mrs. Perry Until Tomorrow

Prisoners Held in Connection With Death of Capt. Perry Are Unmoved.

Yarmouth, N. S., April 20.—Charged with murdering her husband at his home on the night of Saturday, Feb. 26, Clara Elizabeth Perry was arraigned before Stipendiary Magistrate Pelton in the Yarmouth police court this morning, when the preliminary examination will begin. Mansfield Ross, fiancé of Mrs. Perry's daughter, Eleanor, and who has been residing at the Perry home since the murder, was arraigned on the charge of being accessory after the fact and remanded until tomorrow. Both prisoners, whose arrests came with dramatic suddenness, appeared quite calm and gave no indication of emotional strain.

When Mrs. Perry entered the prisoner's box and the stipendiary read the charge accusing the widow of filial "wilful killing and slaying with malice aforethought" of her husband, she showed no apparent concern, nor did her countenance change in the least.

Adjourned One Day.

So soon as the charge was read W. J. O'Hearn addressed the court, stating that he had been retained by the attorney-general's department to assist Crown Prosecutor McKay, and he asked with permission of the court and E. Landry, Mrs. Perry's counsel, that the preliminary hearing be adjourned until tomorrow morning. This request was for the reason that certain important witnesses who are being brought from Montreal and other places will not reach Yarmouth until this afternoon's train arrives. Stipendiary Pelton then charged Mansfield Ross, that he knowing that the said Clara Elizabeth Perry did commit such crime, did wilfully comfort, receive, protect and assist her in escaping justice.

For this charge Mr. O'Hearn made a similar plea for adjournment which was allowed, and both prisoners were remanded to jail.

Owing to the fact that a report was current that the preliminary examination would not begin until ten o'clock tomorrow morning, and that the prisoners would not be brought down before that time, only representatives of the press were at the police court this morning. There was a small gathering of the curious at the door.

Yarmouth To Erect War Memorial

Yarmouth, April 20.—A Russian named Kovarevich was arrested here this week as a spy. Formerly a colonel in the Czar's army, he had been employed lately by an English firm engaged in the destroying of unexploded shells. Somehow he aroused suspicion of a French Army captain, who informed the Secret Police.

Then the Russian was watched and it is said it was found that he was sending specifications of various military matters to the German War Ministry.

Montreal, April 20.—A recommendation that Canada should appoint commercial agents in the United States to do the same kind of commercial work which the consuls of the United States do in Canada, was made by the Chambre de Commerce at its meeting today on report of the committee on business expansion and legislation.

The town of Yarmouth, N. S., wishes to erect a monument in memory of those of its sons who died in the war and in communication with the Chamber asked for the name of a Montreal sculptor to do the work.

Close Coal Mines

Glouce Bay, N. S., April 20.—In line with its policy of retrenchment, the Dominion Coal Company is considering the advisability of closing down collieries No. 5, 10, 11, 15 and 24, until such time as there is a demand for the company's full output. From 2,000 to 2,500 men who will thus be released will be distributed among the other collieries.

Fear Man a Suicide

North Sydney, N. S., April 20.—Abe Stumford, a young Newfoundlander who was here awaiting deportation to Newfoundland, disappeared from his lodgings last night, and it is feared he jumped over the terminus wharf and was drowned. Following an exhaustive search of the neighborhood, a cap was found this morning on the terminus wharf, which is said to have been identified as belonging to the missing man.

CLASSIFIED AS THEOLOGICAL BOLSHEVIST

Dr. Grant of New York So Designated by a Brooklyn Boston.

HERESIES POINTED OUT BY SPEAKER

Resents Rector's Statement That Intelligent Persons Reject the Virgin Birth.

New York, April 20.—The utterances of Dr. Percy S. Stokely Grant, rector of the Church of the Apostles, were denounced in a sermon Sunday by the Rev. Saml. S. Harper, of All Saints' Episcopal Church, in Brooklyn, as "the sort of influence which is undermining the spiritual power of the churches today."

The Rev. Mr. Harper said after the sermon that Dr. Grant's remarks were "a lot of short haired Heronisms and long haired Puhelgall Phineses" were not the persons who suffered through his remarks, but those really seeking spiritual comfort in the churches who read Dr. Grant's sensational statements and were not equipped to refute them.

Theological Bolshevism.

The Brooklyn clergyman, who was a chaplain in the Twenty-seventh Division overseas, has been preaching a series of sermons on the "Apostasy of the Virgin Birth" in the course of his sermon Mr. Harper quoted Dr. Grant as saying several weeks ago that no person of intelligence holds this creed today.

"When Dr. Grant said that," he continued, "he spoke with cruel disregard for the feelings of other persons, and that many people of intelligence do hold to that creed, and for Dr. Grant to make such a statement shows him to be a theologian as well as a political Bolshevist."

"These witnesses who have discarded the doctrine of the Virgin birth of Christ have nothing to put in its place. They try to explain everything by heredity and environment, but neither of these can explain Jesus Christ properly. Yet these people who reject His miracles overlook the miracle of His being."

Backed by Laymen.

Justice Stephen Callahan of the Supreme Court, vestman in Mr. Harper's church, backed up his rector's position. "I wish more ministers would speak out as Mr. Harper did," he said. "When Dr. Grant says the sort of things which our rector criticized him, he does not speak for the Episcopal Church, or for any other church. I am sure Mr. Harper's attitude is one reflected by his entire congregation. The rocks were not talk from a pulpit is an influence with considerable power for harm."

Some one who said she was "Dr. Grant's personal representative at the rector's," when informed of Mr. Harper's remarks, declared that "no person who said such things about Dr. Grant need expect a reply from him."

OBITUARY

Harold Lovitt, only son of the late Senator John W. Lovitt, of Yarmouth, died very suddenly in Philadelphia on Monday, after only a few hours' illness, from heart disease. He was about fifty years of age, and resided in that city following very soon upon that of his wife who died on April 12. Of late years he had occupied the position of financial secretary of the Main street Baptist church. Previous to that he conducted a shoe business. He leaves to mourn two daughters—Mrs. William Sanborn of Halifax and Miss Edith at home to whom the sympathy of a large circle of friends is extended.

Daniel G. Toole.

The death of Daniel G. Toole occurred on Tuesday at his residence, 228 St. George street, West Side, after a few days' illness. Mr. Toole was well known on the West Side, where he resided all his life. Besides his wife he leaves two daughters—Mrs. Fawcett L. Craft and Mrs. John J. Burt, both of the West Side. The funeral will take place this afternoon at 2:30 from his late residence.

William Heathfield.

William Heathfield, of 133 Main street, aged eighty-one years, passed quietly away yesterday morning at his home. His death followed very soon upon that of his wife who died on April 12. Of late years he had occupied the position of financial secretary of the Main street Baptist church. Previous to that he conducted a shoe business. He leaves to mourn two daughters—Mrs. William Sanborn of Halifax and Miss Edith at home to whom the sympathy of a large circle of friends is extended.

Daniel G. Toole.

The death of Daniel G. Toole occurred yesterday at his residence, 228 St. George street, West Side, after a few days' illness. Mr. Toole was well known on the West Side, where he resided all his life. Besides his wife, he leaves two daughters—Mrs. Fawcett L. Craft and Mrs. John J. Burt, both of the West Side. The funeral will take place Thursday afternoon at 2:30 from his late residence.

Particularly sad was the death, late Tuesday night, of James T. Matthews, child of Mr. and Mrs. William C. Matthews, 22 Rock street, of the two children in the family, Ronald E., an infant child, died on Monday. The sympathy of the community will be extended to Mr. and Mrs. Matthews in their double bereavement. The funeral of James will be held this afternoon from his parents' residence.

The women of Constantinople have been emancipated, but in the streets they wear what appears almost like a uniform. The cut of all street costumes is almost the same, the only difference being in color.

AN IDEAL REMEDY FOR SPRING ILLS

Weak, Run Down People Should Try Dr. Williams' Pink Pills.

Do you find it hard these spring days to apply yourself to your work? Do you feel tired, without ambition or energy? These are the symptoms of a condition which our grandparents used to meet each spring with a medical tonic, and medical practice today supports their wisdom. During the winter months the blood frequently becomes weak and thin, especially in those whose work keeps them indoors most of the time.

Weak blood frequently causes indigestion, lack of appetite, sleeplessness, and a constantly tired feeling. Sometimes there are headaches or a feeling of nervousness, or there may be unsightly pimples or blotches on the skin. Any of these indicate that the blood is out of condition, and any improvement in the condition of the blood improves the general health.

The right tonic to improve the blood is shown by the statement of Miss L. Evelyn Brown, Milltown, N. B., who says: "I can say for myself that I was greatly benefited by taking Dr. Williams' Pink Pills. My work keeps me indoors many hours in the day and many days in the year. When feeling exhausted and tired out from long hours and hard work, Dr. Williams' Pink Pills make me feel entirely made over. For several years I have taken them in the spring and find they are the only medicine I need to keep me in good health. I believe every girl and woman would find her blood better and nerves stronger by using Dr. Williams' Pink Pills."

You can get these pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Snowstorm Liable To Disable Airplane

Experiments Show This Fact—Methods to Provide Heated Air Being Tried Out.

Washington, April 20.—A snowstorm in a racing airplane engine may cause it to stall and crash plane after aviator to earth, it has been discovered during experimental work in the automotive power plant tests at the National Bureau of Standards here.

Even when the temperature is that of a comfortable room, 68 degrees, engineers have seen the snow fall in and clog the fuel and air intakes of the engine.

"This may explain the cause of some of those accidents that occur and cannot be explained by some definite defect, such as a break in the fuel line or a collapse wire," declared Stuart W. Sparrow in a report of the National Advisory Committee on Aeronautics.

Air Expands.

The rushing air, carrying as much moisture as the outside air, expands as soon as it comes into the manifold. This causes the temperature of the air to drop, and the colder air finds that it cannot keep hold of the water it has been carrying. It lets go of it and there is a regular snowstorm that delays fuel traffic and causes a shut-down in the power factory of the airplane.

MURDER BULLET FOUND

London, April 20.—While carving his initials on a tree near the scene of murder of Bella Wright, a Leicester Boy Scout found a revolver bullet embedded in the tree trunk. The bullet was handed over to the Leicester police and found to be the same as the one which killed Miss Wright. The discovery is not expected to throw any additional light on the mystery.

Had Bad Cough For Three Years.

The constant hacking, racking, persistent cough that sticks to you in spite of everything you have done to get rid of it, is the kind that is dangerous.

The longer the cough sticks, the more serious becomes it, because it weakens you.

There is no remedy that will relieve coughs—coughs that won't let go—like Dr. Wood's Norway Pine Syrup. It has a healing and soothing action on the air passages, and at the same time acts as a disinfectant of the respiratory organs, destroying the germs that produce serious lung conditions.

EX-EMPRESS OF GERMANY LAID TO REST

Husband and Eldest Son Not Allowed to Attend Funeral.

BELLS TOLLED WHILE SERVICE GOING ON

Day Passed Quietly Despite Presence of Very Large Crowds at Ceremony.

Potsdam, April 20.—Marked the tolling of bells, which marked the solemn hour, funeral services for Augusta Victoria, former German empress, were held yesterday in this, the rural residence suburb of Berlin, which had witnessed so many scenes of splendor in the departed days of Hohenzollern.

Over the simple coffin in the Mausoleum, or antique temple in the Potsdam Palace grounds where the body had been guarded overnight by faithful mourners after its arrival by special train from Doorn, the emperor's home in Holland, and proceeded shortly before 10 o'clock to the mausoleum in the palace grounds a mile and a half distant.

At 11:30 o'clock the cortege reached the mausoleum, where were held the services, to which only the members of the Hohenzollern family were admitted. They were conducted by Dr. Dryander, the former court chaplain, assisted by the choir of the Dom Cathedral, which sang "I Know That My Redeemer Liveth," and "Christ Is My Life," and other hymns familiar to Protestants and Germans.

At the conclusion of the services throughout which the tolling of the church bells continued, the admission of the public to the mausoleum was begun.

The day passed without untoward incident, despite the vast throngs that assembled to witness the ceremony and the fears that the communists or other ultraradical groups would engage in demonstrations. The crowd made the exercises the occasion for a stirring ovation to General von Hindenburg, who is said to be a popular idol. The officers saluted him and the people cheered him as he left the antique temple. The other generals were greeted less enthusiastically.

BULLET FROM LUNG THROUGH HIS THROAT

Bronchoscope Made Possible Its Removal Without Any Cutting.

QUICKLY RECOVERED FROM OPERATION

Was Able to Leave for His Home Two Days After Bullet Removed.

Philadelphia, April 20.—Extraction of a bullet from a lung, where it had become imbedded, through the breathing tubes and the throat, has been accomplished at Jefferson Hospital. Not only that, the feat is said to be the first occasion when a bullet fired into a lung has been removed without the aid of a lance.

Chronologically, the story started in Nanticoke, Lunenburg county, last week, when and where Stanley Butt, a seventeen-year-old male worker, had accidentally shot in the back. Application of an X-ray showed the bullet imbedded in the lung, where the Nanticoke and Wilshire surgeons declared it would be almost certain death to apply a knife or lance.

One of the surgeons mentioned the apparatus called the bronchoscope, which long has been in use at the Jefferson College and Hospital for removing foreign objects from human interiors. He suggested that Butt make the journey here and take a chance on getting the bullet out through his throat rather than have it abstract and cause hemorrhage.

Operations Successful.

The bronchoscope was applied to Butt. With its aid the bullet was extracted through the boy's throat and removed.

The bronchoscope is a thin silver pipe, varying in length from twelve to sixteen inches and in diameter from one-tenth to one-eighth of an inch. It is connected with a small electric battery, by means of which a light is produced in the end of the tube, where also magnifying glasses of varying strength can be inserted. The principle is that of a periscope, but inverted. Instead of being used so one may look upwards from below it enables one to look downwards from above. Through the opening of the bronchoscope, forceps and other holding instruments may be inserted for the purpose of removing substances from the organs affected.

In the case of Butt the bronchoscope was inserted through the larynx and through the windpipe into the right lung. Butt left the hospital two days after the operation and went back to his home in Nanticoke.

Instant relief for sore, swollen, tender, calloused feet and corns.

You're footsick! Your feet feel tired, puffed up, chafed, aching, sore, and they ache. "Tiz" makes feet remarkably fresh and sore-proof. "Tiz" takes the pain and burn right out of corns, callouses and bunions. "Tiz" is the greatest foot-salve the world has ever known.

Get a box of "Tiz" at any drug store and end foot torture for a whole year. Never have tired, aching, sore, swollen feet; your shoes will fit fine and you'll only wish you had tried "Tiz" sooner. Accept no substitutes.

WANTED DRY CLOTHING

In need of dry clothing after being caught out in the rainstorm at noon yesterday, Richard Murray, aged 65, entered a dilapidated house next to Dominion Park on Notre Dame street. There he started a small fire in the fireplace, using bits of woodwork as kindling. A passerby noticed smoke coming from the house and turned in an alarm. The firemen of the Longue Pointe station turned out, and entered the house, found Murray feeding the fire and waiting for his clothes to dry. Murray told the firemen that he had no home and had entered the house, as he knew there were no occupants. Lieut. Cormier, of the Longue Pointe station, brought Murray to the station, where he was detained on a charge of vagrancy, and will be brought to the Recorder's Court today.

EAT ONIONS CAMPAIGN.

Washington, April 15.—"Eat onions" is the advice given to the public by the U. S. Department of Agriculture. Unless there is increased consumption of the vegetable, the department said, in a recent announcement, there will be a great waste of the old crop, if which there is now an estimated carry-over of 2,500 cars, and the spring crop is almost ready.

Actress Resents Artist's Drawing

Comedie Francaise Star Wants Caricature Destroyed and Demands Damages.

Paris, April 20.—Have people in the public eye the right to resent or try to prevent caricatures? That is the question that is interesting the artistic world in Paris today. The question has been raised by the demand of the well-known Comedie Francaise star, Cecile Sorel, that a caricature of her by an exhibition of humorous illustrators, be forthwith destroyed and that the artist pay her 10,000 francs damages into the bargain.

After having seen the picture an unprejudiced observer is inclined to feel that the actress is justified in her complaint; if ever all the least desirable female qualities were depicted in a human countenance, it is on this canvas, which bears Mlle. Sorel's name in big letters.

On the other hand, a court decision in her favor could not fail to be a precedent for further infringement of the rights of criticism which have already been grossly reduced by a recent judgment in a dispute between a theatre and a dramatic critic.

Meanwhile M. Bid professes himself delighted by the threatened suit and has announced that he will send the caricature a lavish gift of flowers in return for the lavish advertisements she has given.

The picture has been sold to ex-ambassador DeKonde, who lives at 7 Quai Voltaire, in the same apartment house as Mlle. Sorel.

Has Booze In Solid Cubes

Prof. Allyn Refuses However To Impart His Secret to the Thirsty.

Westfield, April 20.—Professor U. B. Allyn, Westfield's noted pure food expert, could be a millionaire overnight did he so desire. The explanation of this is that Professor Allyn has recently exhibited some solid cubes, one of which when consumed would have the same effect as a flask of good whiskey. These cubes can be carried about in the pocket and are soluble in water, and Professor Allyn admits that they have the same effect as a "shot" of whiskey.

Professor Allyn recently exhibited some of the cubes at a meeting of paper-making officials. Publicity was given to Professor Allyn's unique exhibit, as a result of which he has received inquiries and offers for the formula of the cubes from many sections of the country.

However, Professor Allyn has no desire to violate any of the prohibition laws of the country, and the cubes are on exhibition at his laboratory here and will remain on exhibition.

Some concerns have even been bold enough to make known their desire to Professor Allyn of placing the cubes on the market for sale.

High Rents Drive Family To Swamp

Father Erects a One-Room Hut for Family of Seven.

New York, April 20.—Charles H. Warner, superintendent of the Westchester county Society for the Prevention of Cruelty to Children, went to the outskirts of White Plains yesterday morning and found Antonio Mango, his wife and their seven children living in a one room hut which Mango had erected on a platform built on top of four old hot water boilers.

Mango told Mr. Warner he had been forced out of his home by profiteering landlords, and that he could find no place to go for which he was able to pay the rent. He purchased a small lot in the swamp near Lake street, and then bought the old boilers from a junkman. He used old boards and insulation for the sides of the house. The roof consisted of a piece of canvas supported by uprights. To reach the hut it was necessary to climb a ladder.

When Mr. Warner was at the hut rain was pouring through the canvas roof and the whole family was drenched. He took four of the children to the society's rooms in Yonkers. Mrs. Mango and the baby went to the home of a friend, while Mango and his two eldest boys, aged 14 and 15, stayed to complete the building of the hut. Eventually Mango expects to have it fit to live in.

14,000,000 PRESCRIPTIONS.

Washington, D. C., April 18.—Nearly fourteen million prescriptions, most of them calling for one pint of liquor, have been issued by physicians in the United States in the little more than one year that the Volstead act has been in force. They were issued by 45,800 physicians, who are licensed to prescribe liquor for patients.

Venus Changed Into An Amazon

War Work Has Ruined Artists' Models So French Painters Claim.

Paris, April 20.—Feminine nudity has lost its traditional graceful charms, according to critics of the Salon Nationale des Beaux Arts, who are bemoaning the deterioration in the human figure as is depicted in a majority of the exhibits this year which show the undressed figure. Of course, the war is blamed for this new catastrophe, artists declaring that it is no longer possible to find such stylish like figures as they one were delighted to feast their eyes upon while visiting inspired brushes. Instead, on their return from the war's fronts they discovered that their models likewise had been doing war work, some of them in munitions factories, while others had been doing heavy work in hospitals, railroad stations, canteens and even in guiding heavy motor trucks along muddy roads from Flanders to the Vosges.

The models who returned to the artist's studios were hailed with joy, until, alas they resumed their posing. Then their imperfections were revealed. Gone is the peach bloom skin, now roughened by winds, acids and hard work! Gone the softly curving charm of shoulders and arms; and in the place of these one time charms there have been developed muscles which would be the pride of a modern athletic girl.

But artists paint as they see, and unless the public sympathizes with them in this new difficulty in which they are placed, accepting the Amazons of today as a symbol of a changing era, painting an natural may be abandoned until the models regain their former Psyche and Venus attributes.

Task of Great War Unfinished

Conflict but an Incident in Perpetual Teuton-Latin Struggle, Says Fayolle.

Paris, April 20.—According to Marshal Fayolle's reading of history, the world war was only an incident in the struggle between the Teutonic and Latin races which began 2,000 years ago and will continue as far into the future. The Marshal was addressing his former pupils at the War College when he made this statement. In a brief, clear outline, he sketched the history of the war year by year and drew a moral for his audience from the fact that its winners were Joffre, the engineer; Pétain, the infantryman, and Foch, the artilleryman. Then he turned to the philosophy of his subject.

"The task is not finished," he said. "The war of 1914 was only an incident in the fight which has gone on for 2,000 years between the Teutons and the Latins. We must learn our lesson from it, that incessant effort is the lot of humanity and sacrifice its law."

"The war will be renewed—no one can say in what form. It will no more resemble this war than this resembled that of 1870. It will be fought out in the air as much as on land and on the wide seas and more than ever it will demand all the resources of science."

When the Marshal had finished speaking it was noticed that among his audience was Marshal Foch, in multi. "Where have you been hiding?" Fayolle demanded, and Foch laughingly replied: "I have been learning. Like the man in the street."

A speech was demanded from Marshal Foch, but all he would say was to suggest that, in view of "Psychology's" remarks, the meeting should resolve itself into a chemistry class.

W. D. Marrs Is Victim of Sleeping Sickness

Moncton, April 20.—The death of W. D. Marrs, whose case has claimed a great deal of attention for the past week, occurred at his home, 64 Enterprise St. For the past week or ten days Mr. Marrs has been ill with what was designated as sleeping sickness. For some time the late Mr. Marrs was in an unconscious state.

He was 43 years of age and was one of the best known C. N. R. brakemen, running for the most part, on north bound trains. The late Mr. Marrs was a valued member of Westmorland Lodge No. 3, Knights of Pythias, also Prince Albert Lodge, No. 26, I.O.O.F. He also was a member of the I.O.P. and of the B. of E. T.

It will demand all the resources of science."

When the Marshal had finished speaking it was noticed that among his audience was Marshal Foch, in multi. "Where have you been hiding?" Fayolle demanded, and Foch laughingly replied: "I have been learning. Like the man in the street."

A speech was demanded from Marshal Foch, but all he would say was to suggest that, in view of "Psychology's" remarks, the meeting should resolve itself into a chemistry class.

My Birthday Bargain Sale of Semi-ready Suits

When this store was being built a year ago I was "on edge" at the delay in getting into the shop—every day's delay gave me a week of worry. I nearly missed a whole season—

But that was lucky for My Customers—

For whenever I wish to celebrate or rejoice in the happy day that brought me up from the slippery hill to the safe level of Charlotte street—I have to give Bargains right in the middle of the best business season.

Yet, if I really wish to be generous—it were better to give away all profits just when the buyers want the goods.

Selling ice in January is no business for any man.

Miss Haslam Talks On Child Welfare

Gives An Interesting Discussion of Welfare Work at Associated Charities Meet.

The regular monthly meeting of the Associated Charities held yesterday afternoon, was presided over by Miss Haslam, who gave an interesting and instructive address on child welfare work.

Miss Robinson's report of the work for the month was read. Applications received 166; requests for employment 74; recommended 61; employment found for 43; records given 18; seeking relief 19; relief provided for 18; visits made 91; cases investigated 11; clothing given to 6. Miss Robinson said there was a great amount of unemployment, many men coming to her seeking employment.

Child Welfare Work

Miss Haslam, in speaking of child welfare first told of the work in Newfoundland when she went to work there one year ago, having been sent from England to take up the work. There was no hospital in St. John's for children. She organized the people and through their efforts a hospital for children was secured. The only large hospital on the island was in St. John's. Because of that expectant mothers in other sections of the island are left without proper care. Women are now being trained by the Victorian Order to go out in the different sections as welfare nurses.

Conditions Here

Referring to conditions in this city the speaker said there is an urgent need of more nurses and of a maternity hospital. The Victorian Order, she said, was only able to look after mothers at child birth, and the children run up to two years of age. From two years to school age children are without the care they should have. She said that some parents in the city dislike to send their children to the hospital for fear of improper treatment. Because of this, she cited the case of one child who had lost the sight of one eye. Something should be done, she said, to break down this existing prejudice.

She said there was a crying need of greater accommodation for outpatients. There are children in the city suffering with an ailment that could be checked were there ample accommodation for them in the out-patient department of the hospital. As the out-patient department is overcrowded these children cannot receive treatment and the particular ailment referred to is spreading.

Milk Supply Sufficient

Miss Haslam said there had been a prompt and splendid response from the Women's Council of St. John to the appeal for fresh milk. They now have it in abundance for distribution. She made the startling statement that the death rate in St. John among infants was greater than in New York city, and she thought the time for concerted action to overcome this handicap had come.

Miss Haslam's criticisms were of a constructive character, given for the benefit of St. John mothers and their infants. President Fisher extended the thanks of the association to Miss Haslam for the address given them and said he felt sure much good would result from it.

May Call on President

Moreover, Mrs. Park will begin to see Republican leaders in Congress tomorrow and find out whether the women will have any chance competing with tax revision and fixing of tariff. There is a possibility that President Harding will have something to say on women's legislation in his message to congress. There is also a possibility that Mrs. Park will arrange a delegation of women to call upon him before the opening of congress.

Have Obtained Success

Mrs. Park comes back to the National capital after conferences and almost daily speaking engagements in Missouri, Ohio, Illinois, Indiana and Michigan, under the auspices of the League of Women Voters in those states. She said today that the women had worked for bills in all those states, and in each state had been successful.

MRS. SOLOMON SAYS: Being the Confessions of the Seventh-Hundredth Wife.

By HELEN ROWLAND (Copyright, 1920, by The Wheeler Syndicate, Inc.)

A perfect lover, who hath found one? For an ideal husband is a matter of personal preference; and, so long as he payeth the bills and cometh home in time for dinner, a woman can endure many failings in an husband, which she could not abide in a lover.

But the Great Love is a type. The "ideal lover" hath been standardized! Damsels and matrons, blondes and brunettes, highbrows and lightweights, saints and fury things, alike, fall for him.

And, whosoever he goeth, his way is strewn with garlands and conquests and kisses and dinner invitations.

Lo, it signifyeth not, whether he be plain or beautiful, ascetic or athletic, young or old, desirable or ineligible.

For he possesseth the tallness of tallness, and the charm of charm—a WINNING WAY with women!

Behold! he is more thoughtful for a woman's comfort than a trained nurse, and more eager to anticipate her wishes than a good butler. He studyeth her preferences to remember them; he keepeth mental notes of her pet abominations and avoideth them. He getteth not upon her nerves.

When she speaketh, he doth not seek to dazzle her with repartee, but greeteth her words with apparent INTEREST and treateth her opinions with reverence. She thinketh herself SO clever.

He fathometh her with his eyes, and with his lips he payeth her delectable compliments. He praisth the dimple in her cheek, the curl of her eyelash, the musical note in her voice, the cuteness of her fingers.

For he knoweth that a woman preferreth an itemized account, of her charms to glowing generalities.

And what damsel would not rather be praised for the plinkness of her finger-nail, than for the beauty of her soul?

When he escorted her abroad, he doeth the "protecting." He lieth her over the gutters and guideth her across roadways. He guardeth and cheriseth her, as something precious and helpless. He is more comforting than a policeman on a busy corner.

He speaketh not the name of one woman to another; and no damsel may guess what he thinketh or knoweth concerning any OTHER damsel. For his middle name is Chivalry, and his mouth is close.

He speaketh not to be PUNNY, for clownishness is amusing, but he that maketh himself ridiculous before a woman loseth his halo, forever.

His kisses are sweeter than myrrh and tender than spring-hyacinths, yet CONVINCING withal. For, while he kisseth one woman, it is as though no other woman existed in all the world. Yes, it is as though he had never kissed before, and never should kiss, again! As a skilled actor, he putteth his whole heart into his role.

He scorneth not to be sentimental at the right moment; but to be sooty in the presence of others maketh him sick.

He is tender in all things, yet he knoweth NOT weakness; and the impetuosity of the cave-man is not in him. For, he perceiveth that a woman, like unto a cat, preferreth gentle stroking to a crushing caress.

Verily, verily, so subtle are his ways, that though there be twenty women in a room, each woman will think in her heart: "Lo, I AM IT!"

And though, in the days of his life, he may have loved seven hundred damsels, not one of them shall recall him with bitterness; but all shall remember him with tenderness and gratitude, and shall sometimes think of him, when they kiss their husband, after many years.

For, she that hath known ONE Perfect Lover in a world of amateurs, is indeed blessed among women!

Selah.

For Beauty—Keep the skin clean, soft, and white, by regular use of Baby's Own Soap. Lather freely with tepid water—rinse well and rub gently with a soft towel—the skin is improved—the complexion brightened—and the lingering fragrance of roses radiates an added charm.

Contrast this treatment which hundreds of thousands of Canadian Mothers have used and are using so successfully on the delicate peach-blow skins of their darling babies—with that of covering up the pores with cosmetics, choking off the air, hiding defects which therefore stand confessed.

PETAL SKIRT IS MOST POPULAR

One of the latest ideas for bridesmaids' wear is the petal skirt, which runs into unexpected points and which is accompanied by an absolutely plain bodice, says a Paris correspondent.

A lovely model seen was made of taffeta and silk net in a soft shade of Parma violet, the taffeta shot with silver, and the beautiful picture hat was covered with deeper violet panne. The girle of roses displayed unexpected tints—purple, puce, and a touch of bright rose that was almost magenta.

Very many of the newest hats for bridesmaids are finished with mask-vels, nearly all have draperies of tulle or lace which form a becoming glorie for the neck and then fall loosely over the shoulder. I have seen small cloche shapes with Lamballe crowns selected for bridesmaids; on one occasion these little hats were made of fine black lace so far as the brim was concerned, while the tall crown was in silver tulle, circled by a wreath of blackberries and dog-roses.

Another model for a pretty bridesmaid took poke-bonnet form, it was made of golden Leghorn and trimmed with a long scarf of midnight blue tulle, the brim was lined with dull rose panne, and the scarf was caught down at the left side by a magnificent crimson rose set in jetted leaves. The long scarf was thrown round the neck, fastened to the shoulder by a loose rosebud, which seemed to have fallen from the big rose on the brim, and then allowed to fall low on the dress, the latter being of very fine black lace over blue chiffon with a hip sash of blue taffeta.

A charming tea gown for the debutante is fashioned of tea rose pink chiffon over ivory pussy willow. The underskirt has a treated border of roses in batik effect. Chiffon roses take the place of the girle at the waistline.

Vivid flowers, ribbon streamers, lace veils, maline drapes, black cherries and electric fans are all seen on smart new spring millinery.

Children Cry for Fletcher's CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrup. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food, giving healthy and natural sleep. British Woman Golf Champion

Miss Cecil Letch Gave Exhibition in London, Making the Course in Seventy.

London, April 20.—Miss Cecil Letch, the British woman champion, gave another fine exhibition of golf this afternoon in the Ranelagh Club, competition, began yesterday, making the course in 70, giving her a total of 144 for the two days' play.

Recently Adopted Golf Programme

Canadian Amateur Championships Will be Held in Winnipeg August 22 to 27.

Winnipeg, Man., April 20.—A review of the recently adopted programme for the Canadian amateur golf championship matches to be held here August 22 to 27, indicates a week of interesting play with representatives from coast-to-coast present for the initial games. A precedent will be established, for not only will the handicap play limit be reduced to 12 from 14, but the qualifying round will be entirely eliminated. Match play will predominate from the start.

Rowdyism Should Be Nipped In Bud

By WIL H. ROCAP. (Copyright, 1921, by Public Ledger.) Some of the major league baseball players have not waited until the official season opens to demonstrate their rowdyism. Almost daily reports have come from the South during the exhibition period with reports of personal encounters between players and insults hurled at umpires. The officials of both leagues should not waste a moment in dilatory tactics. The first man to exhibit rowdyism in a championship game should be permanently sent to the clubhouse and benched for a few days without pay. The tag, bully or rowdy should be given a quarter. Glee and pep in a ball team is commendable, but a distinct line can be drawn between wholesome fair-and-square aggressiveness and that form of the bully. The nagging of umpires should be tolerated. They are employed because of their exceptional ability, keenness of vision and well-balanced judgment, and they should be protected to the limit.

Billiard Champion Defeated Sutton

Chicago, April 20.—Edward Horwans, European billiard champion, defeated George Sutton, 408 to 184 in the first block of a 1600 point 15.3 ball link contest here this afternoon. Horwans' average in 22 innings was 18.3-11. Sutton's average was 9.9-21. Horwans had a high run of 125.

Basketball Game Early This Evening

Y. M. C. A. and Y. M. C. I. Intermediates Play First Match for Championships.

The intermediates of the Y. M. C. A. and Y. M. C. I. will meet at 8.45 in the Y. W. O. A. "gym" tonight in the first game for the championship of the Intermediate City Basketball League. The winner to play the High School for the championship. The game has been looked forward to for some time and should prove interesting in view of the evenly matched teams. The game will be called at the early hour because of the fact that one of the Y. M. C. A. players is to take part in a play the same evening, and the two teams have consented to play at the early hour rather than postpone the game indefinitely.

Feats of Yankee Clipper Ship Retold

Flying Scud is Credited With Having Made Four Hundred Miles a Day.

I have been very much interested by the letters about the records of some of our clipper ships during and before the gold fever days of California and Australia, and about the sturdy, heroic men who sailed and handled these ships, many of whom it has been my privilege to meet and associate with. Nearly all have come to me in their final part of rest; few indeed are left to rehearse the story of battles fought and victories won over the then uncharted oceans of the world.

MOTHER BRAVES DEATH IN WELL TO RESCUE BABE

Makes Descent of Forty Feet to Bring up Her Child.

CARRIED HIM UP TO SAFETY AGAIN

Hands Badly Torn in Climbing Sides of Well—Baby Unharmed.

New York, April 20.—Charles Gurling, who is 16 months old and just learning to walk, was rescued with the spirit of adventure yesterday afternoon as he sat in his high chair on the back porch of his home at Knollwood and Hartside roads, White Plains.

It is very likely he had no definite plan in view, but his attention was attracted by a pile of boards in the yard about fifteen feet from the porch. Charles didn't know it, and it would not have meant anything to him if he had, but the boards covered a well forty feet deep and with twenty feet of water in it. It is built of stone, which are most covered and very slippery, and water is raised by a bucket to which a rope is tied, although there is no windlass.

The boards, written by the child, looked very nice to Charles, and he staggered toward them. He reached the well, managed to push one of the boards slightly, and looked down into the interior. Fascinated by the sight of the water, he leaned too far over and plunged into the well, landing with a splash.

Mother to the Rescue.

Fortunately, the splash was heard by the boy's mother, Mrs. Norman Gurling, who was at work in the kitchen. She ran into the yard and called for Charles. There was no answer. She looked around and saw that the boards over the well had been disturbed. And looking down into the well, she saw the baby's coat floating on top of the water.

Mrs. Gurling didn't hesitate. She didn't even stop to remove her shoes. She went over the side and began descending carefully but as swiftly as possible down the twenty feet of slippery, moss covered rock that was between her and her boy. Digging her fingers and the toes of her shoes into the crevices between the rocks, she made her way downward until at last she reached the water. By that time the boy had gone under the water, and as he came to the surface she seized him by the clothing.

Mrs. Gurling saw that Charles was still alive, but it seemed hardly possible that she would be able to get both herself and the boy out of the well alive. But she tried it, nevertheless. She put the body of the baby between herself and the wall. With one hand she clung to the wall of the well and with the other she wrapped the child's arms around her neck and linked his fingers together.

Mother Love Triumphs.

Then, with the weight of the child around her neck, Mrs. Gurling started slowly up the sides of the well. She went carefully, climbing slowly, feeling ahead for the largest crevices and digging her fingers into them with such force that before she had gone ten feet her hands streamed with blood where they had been cut by the stones.

It took her a long time, but she finally reached the top and barely had strength enough left to push the baby down the edge of the well. Then she got half of her own body over, enough so that she would not fall back, and there she stayed for some time resting before she was able to clamor out.

But after she got out she took Charles into the house, gave him a hot bath and put him to bed, and then busied herself preparing her husband's supper. A physician who was called said last night that the baby would be none the worse for his experience.
