DOWLING BROS., 96 KING ST., ST. JOHN, N. B.

HEADACHE? Often a headache will not yield to favorite remedies, which cure for others. The cause is not the one you think. Dr. Boyaner's Headache Remedy is the only one that will cure. It is a sure cure for all cases of headache, neuralgia, and all other pains of the head. It is a sure cure for all cases of headache, neuralgia, and all other pains of the head. It is a sure cure for all cases of headache, neuralgia, and all other pains of the head.

D. BOYANER, Optician, 242 Main St.

CHARLOTTE POLITICS.

Two Tickets Chosen With Good Prospects of Government Success.

ST. JOHN, Feb. 6.—The Conservative convention met here this afternoon, a small number of delegates attending, and as the matter of choosing a ticket had been cut and dried beforehand and as they could not induce anyone to run from the eastern part of the county, the ticket chosen was J. D. Chipman, M. C. Grimmer and Geo. J. Clarke, all of St. Stephen, and W. H. Hart, of St. Andrews. The convention adjourned their labors before tea time and adjourned.

Every indication points to the defeat of these four gentlemen, as many prominent Conservatives were present at the convention to select candidates in the interest of the government which met at 4 o'clock this afternoon. One hundred and fifty representative men from every polling district were present in Moore's hall, M. N. McMonagle was unanimously elected chairman and N. M. Mills secretary. Messrs C. H. Clarke, St. Stephen, T. Newton, Grand Manan; H. V. Dewar, St. George; and R. B. Killings, of St. Andrews, were appointed a committee on credentials, and after all delegates had been furnished with certificates and other organization work concluded, the meeting adjourned at 7 o'clock.

The candidates presented to the convention were the following five: George F. Hill, W. F. Todd (St. Stephen), James Russell (St. Andrews), James O'Brien (St. George), and W. Talbot (Grand Manan). The results of the balloting was: Hill, 100; Todd, 99; O'Brien, 98; Russell, 78; Talbot, 45.

A motion was made and carried that the nominations be made on the following resolutions: Resolved, That this convention of friends and supporters of the local government take this, the first opportunity of expressing its deep sense of the irreparable loss sustained by this county and the province by reason of the death of the late lamented premier, the Hon. James Mitchell; and further, Resolved, That the convention endorse the policy of this government and the present government in promoting the agricultural, mining, fishing and industrial interests of the province of New Brunswick.

Eloquent speeches were made by Messrs W. F. Todd, W. E. Talbot, George F. Hill, James Russell, George F. Hill, John Mowatt, a prominent farmer of St. Croix; Wardlaw David Johnson, of St. Croix, and others.

This was without doubt the largest, most representative and most enthusiastic political convention ever held in Charlotte and each delegate left for home with a firm determination to elect the man chosen by this convention. The meeting closed with cheers for the candidates, the government and queen.

PROZEN IN THE SNOW. Family Quarrel and Death Near Chatham.

CHATHAM, Feb. 8.—On Friday a man named Cabell, living in Napan, is said to have beaten his wife with a strap having a buckle attached to it, cutting her badly on the head and about the face. Mrs. Cabell left the house and went to a neighbor's. Cabell then started to the woods, leaving two children, one aged 5 years and the other 14 months, alone in the house. The elder one took the baby and started to find its mother, but becoming cold and tired, left it by on the road. It reached its destination in an exhausted condition and, apparently, no questions were asked about the other child, as it was not till Sunday morning that its dead body was found frozen in the snow.

LIGHT FINGERED GENTRY. Source a Good Prize at Norton Station.

Norton, Feb. 6.—The light fingered gentry have been paying the village a visit. While Mr. J. E. McCready, station agent, was busy with the incoming train, some one took an express package of 100 cigs, containing \$40.

STOCKTON'S MANIFESTO.

PREMIER EMMERSON SHOWS HIS UTTER LACK OF FACT.

Chipman and Fowler's Change of Front — Ridiculous Statement Made by the Opposition Leader — Respecting the Bridge Charges — Misrepresentation About the Financial Position and the System of Accounts.

In a recent interview Premier Emerson dealt at considerable length with the manifesto of the leader of the opposition.

Dr. Stockton's manifesto to the electors of New Brunswick must be very disappointing to that gentleman's personal and political friends. He seems to have been afraid that if he spoke forcibly he might hurt somebody, and it is very doubtful if his address has evoked any considerable enthusiasm among his supporters. The learned doctor commends the government for taking steps to bring about a general election before the session of the legislature, but he can scarcely expect to deceive the public as to the real object of the dissolution of the legislative assembly. When the Monoton convention decided that provincial politics must be run on dominion lines the government had as supporters Mr. Chipman of Charlotte, and Mr. Fowler of Kings county. These gentlemen were willing to support the government until an election was brought on, but, in view of their statement that they would desert the government after the present term, Mr. Fowler and in the same year charged the government five cents per pound. He said Mr. Dibbles could not have got a seat in the house had it not been for the Liberals, who had treated him royally and he had gone back to them. He (Dibbles) had got a broker's good office and tried to get himself a seat in the government, and when he failed in that he had gone into opposition.

Mr. Carvell, the new candidate, received loud and vigorous applause on coming to the front. Mr. Carvell is a member of the law firm of Hartley & Carvell and is well and favorably known throughout the county. He is a bright and forcible speaker and will no doubt bring strength to the ticket. Mr. Carvell touched on the bridge question at some length. Referring to Mr. Dibbles he thought that Messrs. Smith and McCain had been too lenient with him. He said he was after Mr. Dibbles and would have something to say to that gentleman at nomination. Mr. Carvell said he had some experience in running elections and gave the delegates some good advice on organization. He had consented to run at a great inconvenience to himself, but was satisfied the ticket would be elected.

The meeting was an enthusiastic one, the hall being packed to the doors. The delegates brought good reports from the different parishes.

SMALLPOX AT WATERVILLE.

The Situation is Generally Improving.

WATERVILLE, Me., Feb. 6.—The small-pox situation at Waterville on Monday night is reported to be much worse; two new cases have been officially reported, and six unofficially. In Winslow there are 30 official cases reported, and 40 unofficial. One of the Winslow patients is not expected to live throughout the night, is the physician's statement.

Comparative statement of value of merchandise exported from St. John for January:

Table with 2 columns: Product, Value. Rows include Produce of mine, Fisheries, Animals and their produce, Agricultural machinery, Miscellaneous.

La Grippe

Have you had it? If not, be prepared, for it is here. You needn't dread the disease so much as the suffering afterwards.

Why have it? 'Tis the weak, nervous, pale and thin you suffer most.

Scott's Emulsion corrects these conditions. It gives strength and stability and the strong throw off the disease. 'Twill lift you out of that terrible depression which follows.

large would say they exercised a wise judgment in that regard. Dr. Stockton's words of 1888, when he was supporting the government—that the government was certainly not responsible for the increase in the interest account—are as true today as they were when he spoke them in the legislature.

STOCKTON MISREPRESENTS FACTS. What the leader of the opposition has done for by misrepresenting the facts with respect to the increase of the public debt cannot be foreseen. He says that "nearly one-half of the increase in our debt during the last 15 or 16 years has been for public services outside of railway subsidies and chiefly for services which before that time were paid out of the ordinary annual revenues." As a matter of fact the increase in the debt for other than railway subsidies, with which legislation this government had nothing to do, was less than \$500,000. During the years that Dr. Stockton supported the government the increase in the public debt exceeded \$60,000 a year more than the increase since he has ceased to support the government.

Dr. Stockton says our system of auditing the public accounts should be entirely changed, and rather intimates that the auditor general is a tool in the hands of the administration. As a matter of fact the auditor general's attempts to influence the auditor general in connection with the work of the government, as I have pointed out in the past, is in quite an independent position as the same officer is at Ottawa. Dr. Stockton says it would be the auditor general's duty to see that vouchers are produced for each payment, and all accounts showing in detail the items of which they are composed should be filed in his office. It is made a point to say that we have no such system.

Dr. Stockton will turn to changing the system of auditing the public accounts committee, which committee consisted of Mr. Burrell, Dr. Moore, Mr. John A. Hunter, Mr. G. E. Ketchum and last, but not least, Dr. A. Stockton. The report, among other things, says: "The expenditure of the public service were laid before the committee and found to correspond with the Auditor General's Report." And further: "The committee desire to express their appreciation of the ready and cheerful assistance rendered by the Auditor General in the examination of the accounts. The work of this department is important and is apparently increasing. Where million dollars or more annually sent out of the province for four should be retained within the province, the result of our policy in this regard has been eminently satisfactory, notwithstanding that last season was a particularly unfavorable one for wheat growing. It is a well known fact that the result of the government's policy with respect to butter and cheese has been to give great impetus to both these industries. In 1881 the output of cheese from New Brunswick was scarcely worth mentioning, while last year, as a result of the government's encouragement, eight hundred tons were produced. Last year's output of butter was nearly 100,000 tons, against a little more than half that amount the year before, and the government expected soon to have as many butter factories as it has cheese factories, and hoped to build up a great trade in both industries with the outside market. The government has been giving great deal of attention to the pork question, and the intention was to stimulate the pork raising industry by subsidizing the establishment of a pork packing factory, to be located at St. John or some other important center, and in connection with the development of policy until the province of New Brunswick is known all over the world because of the excellence of its farms and dairy products. The leader of the opposition condemns the government for going outside of the province for their purchase of thoroughbred stock. The hon. gentleman is

more positive now than he was a couple of years ago. If he will turn to the Debates of 1887 he will find himself reported as follows on this question: "Dr. Stockton was not prepared to give a final judgment on this question. He was not prepared to say which policy was the best for the country, but he felt that there was a great deal of plausibility in the argument, to say the least, that if our farmers could purchase as good stock in the province as the government could import, then the government should refrain from entering into competition with our own stock raisers." As I pointed out on a previous occasion, one is able to see how nearly the leader of the opposition had belated his sentences in making his speech in the legislature in 1887 on this question. He (Dr. Stockton) was not then prepared to give a final judgment on this question. He was not prepared to say which policy was the best for the country, but he felt that there was a great deal of plausibility in the argument, to say the least, that if our farmers could purchase as good stock in the province as the government could import, then the government should refrain from entering into competition with our own stock raisers." As I pointed out on a previous occasion, one is able to see how nearly the leader of the opposition had belated his sentences in making his speech in the legislature in 1887 on this question. He (Dr. Stockton) was not then prepared to give a final judgment on this question. He was not prepared to say which policy was the best for the country, but he felt that there was a great deal of plausibility in the argument, to say the least, that if our farmers could purchase as good stock in the province as the government could import, then the government should refrain from entering into competition with our own stock raisers." As I pointed out on a previous occasion, one is able to see how nearly the leader of the opposition had belated his sentences in making his speech in the legislature in 1887 on this question. He (Dr. Stockton) was not then prepared to give a final judgment on this question. As I pointed out on a previous occasion, one is able to see how nearly the leader of the opposition had belated his sentences in making his speech in the legislature in 1887 on this question. He (Dr. Stockton) was not then prepared to give a final judgment on this question. He was not prepared to say which policy was the best for the country, but he felt that there was a great deal of plausibility in the argument, to say the least, that if our farmers could purchase as good stock in the province as the government could import, then the government should refrain from entering into competition with our own stock raisers." As I pointed out on a previous occasion, one is able to see how nearly the leader of the opposition had belated his sentences in making his speech in the legislature in 1887 on this question. He (Dr. Stockton) was not then prepared to give a final judgment on this question. He was not prepared to say which policy was the best for the country, but he felt that there was a great deal of plausibility in the argument, to say the least, that if our farmers could purchase as good stock in the province as the government could import, then the government should refrain from entering into competition with our own stock raisers." THE SEMI-WEEKLY TELEGRAPH, ST. JOHN, N. B. FEBRUARY 8 1899.

THE FOUR TO WIN.

A Grand Convention Selects Candidates

To Represent the City on the Government Side—A Stirring Meeting Indicative of Unity and Great Strength—Hon. Mr. Emmerson Delivers a Very Able Address—Other Speeches.

There was the greatest enthusiasm prevalent in every minute of the meeting held Friday night in McLaughlin's hall, to nominate candidates to contest St. John city in support of the government. Before 8 o'clock the hall was almost filled, and before the meeting opened seats there were none, and a comfortable standing position was hard to get. Still the people came and crowded the aisles and hallway. The ticket nominated was received with great acclamation and there was a unanimity apparent that presaged the heartiest kind of united effort to send four government supporters to Fredericton—an effort that will end in success.

As Hon. H. B. Emmerson entered the hall he was given a magnificent reception, and again as he stood to open the meeting he was loudly cheered. He spoke of his calling this convention and asked the meeting to elect a chairman. Mr. John Sealy was chosen chairman and Mr. A. D. G. Vann was secretary. Just at this moment Hon. A. T. Dunn entered the hall and was called to the platform. He was received with vigorous applause as he complied with the request. Mr. John McLeod, M. P. for the county, arrived a moment later and was also splendidly welcomed.

As to the mode of procedure Mr. H. A. McKewen said there were three ways to nominate from open meeting, to hold preliminary meetings and choose delegates in which each ward would be represented, to retire and nominate candidates. He thought the latter the best way and moved that seven representatives of each ward be called as nominating committee; also that this committee be an executive during the campaign.

Mr. James Barry favored nominating in open convention on account of its being the most democratic method. He moved in amendment that the selection be in open convention. The meeting carried the amendment.

Nominations were then taken, the names proposed being H. A. McKewen, D. J. Parry, W. G. Rudman Allan, George Robertson, and W. K. Reynolds. As it would be quite an undertaking to receive and count ballots from the city, Mr. McKewen's suggestion was adopted to appoint a committee of five from each ward to consider the nominations and select four. The committee chosen were:—Kings—P. W. Lantlam, Jas. V. Lantlam, M. B. E. Ward, Dr. Gorham, Dr. Aldy; Wellington—James Barry, Arthur Dawson, Alfred Pound, John Keeffe, Jeremiah Griffin; Prince—G. Knowlton, G. A. Knodell, Joseph Hayes, G. H. Flood, Denis McCarthy; Queens—W. A. Lockhart, James Estey, John F. Morrison, Thomas Dunning and John McAvity.

Dukes—Col. Blaine, W. G. Scovil, Henry Finlayson, J. H. Doody, John F. Ashe, Sidney—Eos Burns, Thos. Killen, Col. O'Connell, Thos. Gorman, R. O'Brien; Gays—Wm. Bayles, E. B. Allan, J. E. Smith, John Galey, J. W. Brittain; Brooks—W. E. Scully, Richard Retalick, Henry Brennan, T. C. Olive, S. M. Murray; Dufferin—James V. Russell, John McGowan, H. E. Cobber, A. E. Jordan, F. A. Foster; Victoria—T. A. Linton, J. K. Hamm, J. Jamieson, P. McManis, J. B. McLean, Stanley—John McGooldrick, Jacob Toole, E. H. Terrell, John P. McIntyre, F. Green; Louis—John McMurkin, Geo. B. Reynolds, Wellington Hamm, D. H. Nash, John H. Green; Lansdowne—Thomas Buckley, George Craigie, John Murphy, Lucien V. DeBary.

They retired from the hall and selected Messrs. Robertson, McKewen, Parry and Reynolds. The announcement was received with loud and continued applause, and when the names were put before the convention for ratification, the ringing shouts of approval of the ticket such as to make any opposition people within hail, feel that there was, indeed, trouble ahead for them.

The nomination was passed by unanimous vote and then there were calls for speeches. Mr. George Robertson was first called on and he covered himself with glory in an address of exceptional merit. He referred to the conspicuous effort made to select on Friday night Emmerson and his government and also showed how the campaign had been absolutely defeated. He also showed up the usual St. John attitude to the people as compared with the bright, tangible, popular methods of the premier. Mr. Robertson made a very clever and original address and was warmly applauded.

Mr. McKewen followed in a better speech. He spoke for a time on general political matters and then said a few words about his colleagues on the ticket, showing their worthiness as representatives of the people which was enough, he modestly claimed, to carry them, and himself also, to Fredericton.

Brunswick was enabled to give them legislation which would ensure to them any benefits which might accrue from their efforts in prospecting for oil in this province, by giving them a title to the area of land, that they were prepared to at once expend not less than \$100,000 in prospecting for oil. We have had the opinion of experts—one of them being the head of the oil branch of the geological survey in the United States—and these experts are satisfied that we have in this province a vast deposit of oil. And we have had evidence of it. Some fifteen years ago there was an oil well bored in this country. It was only bored down 1,000 feet, but at that depth the oil was struck and 150 barrels of oil were taken out. For reasons which it was not necessary to state this well was abandoned, but it was evidence that there is oil in this province. This is a thing which can be done without it costing the province one single cent, and it will be found that it will simply revolutionize the condition of things in this province. It will not only be of great benefit to the particular localities which it is found, but will be of immense benefit to the whole province. (Applause.)

Mr. Emmerson next referred to the Extension claim. Previous to confederation the government of New Brunswick had expended \$400,000 in the construction of a railway from Palms Junction to the Nova Scotia boundary line. At the time of confederation the Dominion government took over this piece of road and made it a part of the Intercolonial, placing to the credit of the government of New Brunswick in payment of the claim the sum of \$250,000, which they paid us interest at the rate of 5 per cent. The government of New Brunswick, however, paid the interest in 1884 this amount was placed to the credit of this province at the rate of 5 per cent. It was in a fair way to be paid, but the late Premier, Sir Charles Tupper, was willing that it should be settled, and Sir Charles Tupper, who was then minister of railways, made a recommendation to council and urged it upon the government. A caucus was called with respect to the payment of that money to this province? George E. Foster and J. Douglas Hesse. Why did not the late Premier, Sir Charles Tupper, who was then minister of railways, make a recommendation to council and urged it upon the government. A caucus was called with respect to the payment of that money to this province? George E. Foster and J. Douglas Hesse.

Mr. Emmerson said that at such a late hour he would not attempt to make a speech. Shakespeare had written this: "Imperial Caesar dead and turned to clay might stop a hole to keep the wind away." But after the 18th of this month there would not be enough of Dr. Stockton's ticket left to stop the smoking of a pipe or cigarette. It was a glorious day to be on the side of victory and there was victory in the air for the government. It was a glorious day, as well as York county. The north shore was solid for the government and from all over the province news of the most glorious news as to the success of the government's candidates. The Premier's manifesto breathed a spirit of hope, while Dr. Stockton's manifesto was one of woe and lamentation. He closed by proposing three cheers for the government ticket, which were given amid great enthusiasm.

Hon. Mr. Emmerson had been called on earlier by the nominating committee having returned to the hall to give him great pleasure to stand before an audience such as he saw before him. He recognized the fact that this—one of the largest and most representative conventions ever held in the city of St. John was a triumph for the government. He was glad to be on the platform upon which the government stood in this campaign. He had stated in his manifesto what the government had done and what they proposed to do. The government had advanced the cause of the agricultural industry in the province, and particularly the agricultural industry, which after all was the basis of all other industries. (Applause.)

He was glad to see that the city of St. John was undergoing a process of change—that it was not merely the metropolitan city of New Brunswick, but had become the maritime European gateway of this great continent to shores beyond. (Applause.)

Re-answering to repeated calls, after the other speakers, the premier had been an abiding faith that 18th of this month the present administration would be handsomely sustained, and no felt, after listening to the speeches of the candidates who had just been nominated, and seeing the enthusiasm displayed by this large audience, that the city of St. John could be depended on to send four good men to Fredericton to support the government. (Applause.)

He wished to congratulate the men who had been honored with the nomination, and he also wished to congratulate the convention on the choice which they had made. They were all men of ability, men of integrity, men who had the interests of their constituency at heart, and who would spare no efforts to promote those interests, as well as the interests of the province at large. (Applause.)

Referring to the statements which had been made with reference to his manifesto, Mr. Emmerson said it was an easy matter to tear down, but it took good side by side with Dr. Stockton on many political platforms and in the legislature, and he could not recall that he had ever created an idea or that he had ever had a ray of hope to throw out to the people of the province. He has waited about the (remon-strances) and the wise-pleases of Sir Charles Tupper, and he has carried his little oil can about with him, but he (Emmerson) could not recall that he had ever brought a single idea of hope, or had ever given encouragement to any industry or any body of men. (Applause.)

Referring to the oil industry, which had been mentioned in his manifesto, Mr. Emmerson said he had been working in connection with this matter for nearly a year, and he now had the pledge of some of the most reputable Canadian and American financiers on the committee, that if the government of New

PROSPECTS IN YORK.

A SWEEPING GOVERNMENT VICTORY CERTAIN.

The Cathedral Shire Tired of the Men Who for Years Have Advanced Nothing in the Legislature But Bottomless Charges—Assurances of a Triumph for Thompson, Whitehead, Campbell and Gibson.

FREDERICTON, Feb. 3.—While it was generally felt that the county of York had become heartily tired of the four so-called representatives, Messrs. Finner, Pitts, Howe and Black, yet it was not until certain till the convention met and a comparison of reports was made with the old time system of taxing invitations to the parishes to send delegates had not been observed, every parish was represented by responsible men, those having a stake in the county, men who could voice the sentiments of their districts, as they were represented by men such as Messrs. Campbell, Whitehead, farmers and lumbermen. There were 80 men present who are competent to judge of the old time system of taxing, and these said that the people had compared the progress in the agricultural policy of the government, as presented in the manifesto of Hon. Mr. Emmerson, with the very weak and illogical statement issued by Dr. Stockton, and were convinced that it would be doing York an irreparable injury to support Dr. Stockton any longer.

A former part the matter very plainly that Mr. Campbell is as completely acquainted with all departments of farm work, stock raising, dairying, and general agriculture as any man in the province. He is a practical farmer, and a logical, sound reasoning, gentlemanly man. His views, as set forth in his manifesto, are all very strong men. Messrs. Whitehead and Thompson are well known to the general public as Messrs. Campbell and Gibson, but these are two of York's most important men.

It will be of saying too much that Mr. Campbell is a completely acquainted with all departments of farm work, stock raising, dairying, and general agriculture as any man in the province. carried thousands of cars of bark, loam, wood and starch, all giving work and wages to the people. When this road was sold the Gibson firm might have placed the money in banks or mortgages, but instead they immediately began the erection of a cotton factory that has provided work to a thousand people. These people give a market to the farmers and the work people carry at the best calculation \$7,000 monthly to Fredericton, where all, directly or indirectly, get the benefit. The sale will yield the farmer and the miller a great market, the result of which is cash, and the Canada Eastern railway the outcome of the enterprise and energy of Messrs. Gibson and Miramichi, and it placed another larger amount of cash in circulation.

Alex. Gibson Jr., the candidate, who was so heartily nominated, is a worker. He possesses much of the keen foresight, business tact and attention to detail that has so marked his father, the Lumber King, and he confidently looks to the people of York to return him as their representative. He has carried on extensive lumbering operations on his own responsibility and has devoted upon him all the work connected with the management of the mills at Marysville. This he has conducted with marked ability, and these things show that York will in him have a worthy representative. This is the feeling expressed in the city and county, that Marysville should be accorded the honor asked, and there is a unanimity of political expression in York such as was never seen before, that the government ticket is the strongest that has ever asked the suffrages of the people.

WESTMORLAND NOMINEES.

A ROUSING MEETING OF FRIENDS OF THE LOCAL GOVERNMENT AT DORCHESTER.

DORCHESTER, Feb. 2.—The local government supporters of Westmorland held their convention for the selection of candidates to stand in the ensuing provincial election today. The convention was the largest political one ever held in Westmorland county. Nearly four hundred delegates were present of whom one-third were never before in New Brunswick, will be of great advantage to the government and to the people. No man can dispute his claim to represent honest, upright, a man of keen foresight and good common sense, and has the respect of a large acquaintance. He explained his position yesterday, that he had always been a Conservative, and was so yet, but he had always supported the local government, and was more certainly sure they now demand his best efforts than ever. Mr. Campbell is said to rally a great majority of the river voters to his support.

Kingesford should give him a solid vote as this is the first time that large and important parish has put a man in the field. Mr. Campbell will be a credit to the parish, and there is every confidence that he brings a very strong support in city and county to the ticket.

This is the first time Marysville and York county should not hesitate to give Alex. Gibson, Jr., a complete support. He bases his claim to the nomination on strong grounds. Let us look at a few of them. As a member of the firm of Gibson & Sons he has a very large interest in all that pertains in New Brunswick to the lumbering industry. For thirty years or more the Gibson firm have been pouring money into the hands of the farmers of the county and the merchants and manufacturers of Fredericton.

They did not hoard up their wealth, or take it to some other city and expend it, as so often done; they made money and York county got the benefit of it. The New Brunswick railway (now the Canadian Pacific Railway) northern division was the creation of the Gibson firm. Their money gave labor and wages to the extent of hundreds of thousands of dollars, much of which went into the pockets of York. This road

county in the provincial legislature recently dissolved. Resolved, that this convention, recognizing the justice and wisdom of according additional representation in the provincial government to our Acadian fellow-citizens, expresses its hearty appreciation and approval of the selection of the Hon. A. D. Richard of this county for that honor.

(Signed) J. T. HAWKE, A. T. LEBLANC.

These resolutions were adopted unanimously. During the absence of the committee speeches were delivered by W. W. Wells, A. D. Richard, C. W. Robinson, A. E. Wells and Senator Fortier. Senator Fortier in the course of his remarks said that as a Conservative he was convinced from observation of the prejudicial effects of dividing provincial and municipal politics on Dominion party lines. He was very sorry that he could not subscribe to the views of his political friends expressed in a convention at Moncton in that respect. He then referred in appreciative terms to the policy of the Emmerson government and especially commented on the beneficial effect their agricultural policy must have on the farming of this country. The nominating committee, through their chairman, W. F. George, reported the following nominations: Hon. A. D. Richard, Dorchester; W. W. Wells, Fort Erie; C. W. Robinson, Moncton; Arthur Copp, Sackville. These nominations were unanimously adopted on motion of B. H. Ayrer.

The candidates addressed the meeting in terms stating the government's policy and their hearty second therewith. J. T. HAWKE, editor of the Moncton Transcript, made the closing speech. The convention then broke up with hearty cheers for the Queen, the Emmerson government, the candidates, and the Transcript editor.

CHARLOTTE POLITICS.

DELEGATES ELECTED TO ATTEND GOVERNMENT CONVENTION.

ST. STEPHEN, Feb. 3.—A very largely attended meeting of the supporters of the local government was held last night in Moore's hall. Mr. M. McMonagle, attorney, and for many years a prominent worker in the Conservative party, was appointed chairman, and Mr. N. Marks, secretary of the meeting. Mr. McMonagle in a few well chosen remarks thanked those present for choosing him by his appointment as chairman and stated that the principal business to come before the meeting was the election of delegates to attend a county convention of the supporters of the local government to be held on Monday next in this hall. The following were unanimously elected such delegates:—Messrs. L. A. Mills, Joseph McVay, Geo. Byrd, Jas. N. Clark, Wm. Keyes, Thos. Byrne, Daniel Ferguson, H. F. Todd, D. T. Dewar, Hugh Lovell, M. McMonagle, Hugh McKay, C. H. Clarke, Hugh McKinnon, Chas. Vanstone, C. N. Vroom, J. H. Maxwell, and George Nelson.

And the following alternates: Frank Todd, F. E. Rose, Dr. Moore, J. Bridges, Frank Carter, Robert Ross, T. K. McGee, Fred Ham, Dr. Egan, Alex. McVay, James Egan, F. W. Andrews, A. D. Taylor, M. McGarrity, also, N. Marks, Mills was elected as representative of the executive committee at the convention. The Hon. correspondent stated that a Liberal convention would be held on Monday, but this is an error as there will be a convention of the supporters of the Emmerson government at which prominent Conservatives will take part as delegates—gentlemen who have been strong workers in that party during past Dominion elections and who no doubt will be found during the same in future contests but who do not believe in running this election on Dominion issues. Messrs. McMonagle, Byrd and Dr. Byrne made forcible speeches during the meeting. Mr. McMonagle makes a point which should be taken under serious consideration by many sincere friends of the Hon. Mr. Mitchell and that is: The Emmerson government is only about one year old; that any scandal, if there be any in regard to two pipe bridges was done while Mr. Mitchell was either premier or a member of the cabinet and any charges made against the government is a slander on his honor and revered memory. That he being dead of course cannot answer those charges. That he be McMonagle as a friend, neighbor, brother attorney and particularly a Conservative feel it his bounden duty to repel and deny those charges against the memory of the late premier, Hon. James Mitchell.

IT WAS A FAILURE.

York County Conservative Convention Not a Success.

FREDERICTON, Feb. 5.—According to all the stories told and which as well authenticated the Conservatives did not go to the Y. M. C. A. hall because their old hall was too small for them but the very good reason that the key had been turned against them and they could not get in. Standing on the street they drew a crowd and that crowd flowed them to the Y. M. C. A. hall.

Determined efforts were made to shut Mr. Pitts from the nomination and Messrs. Carter, McLeod and others were nominated or proposed with the determination to keep Mr. Pitts out, but no one would accept, and Messrs. Byrd and Co. had to take Mr. Pitts with them. Friends and foes of Mr. Pitts think he was very meanly treated.

Nature's Own Dyspepsia Cure. DR. VON STAN'S PINEAPPLE TABLETS. The pineapple contains a large amount of Vegetable Pepsin... TORONTO, CAN., AND BUFFALO, N.Y.

NOTABLE STOCK SHOW.

One Hundredth Annual Exhibition of the Smithfield Club.

The hundredth annual show of the famous British Smithfield club was held at the Agricultural Exhibition grounds in London, England, and was attended by the Prince of Wales, the Duke of York and other notables.

The Queen's Hereford Steer. First prize 2883. As a donor of prizes and eminent patron, well sustaining the example set by his father, the prince consort, as founder of the Royal Agricultural Society and a leading improver of cattle and other live stock.

Just a century ago, continues The News, in its good old days of farming, the American beef and Australian mutton were not, when sheep stealing was a hanging matter and wheat was low at 40 shillings a quarter.

Ensilage is good for breeding animals and those that are giving milk. But in cold weather some dry food should be given daily, else the ensilage does not make an animal lose flesh, unless it is fed with some dry food, both hay and grain.

Many farmers who have a flock of grade Merino ewes only medium in size are questioning whether it is safe to mate such ewes with rams of the coarse wool breed much larger than themselves.

Feeding Wheat to Hogs. Wheat contains more nutritive value than it is popularly supposed to have. Through most of the fats and casien have been taken from it, there is a small proportion of both of these that goes through the press.

ENSILAGE IN FATTENING.

It May Be Injurious When Fed Cold in Winter.

Except in the small amounts that are useful to keep the bowels loose we doubt whether ensilage can be profitably fed to stock of any kind that is being fattened, says the Boston Cultivator.

In winter time especially, and this is often the case, ensilage is usually fed, it may be actually injurious when it is cold as it often is. When we mixed cut feed with scalding hot water, putting it on the cut hay or straw and then while hot adding meal to it, the partial cooking which is the most recommended both in the cut hay or straw more palatable.

Ensilage is good for breeding animals and those that are giving milk. But in cold weather some dry food should be given daily, else the ensilage does not make an animal lose flesh, unless it is fed with some dry food, both hay and grain.

NEW PLUMS.

Four Choices and Tested Varieties Originated by Luther Burbank. Luther Burbank of California, who began his work by originating the Burbank potato while living in his native state of Massachusetts, has made a last-thing mark in American horticulture as the originator of new fruits and flowers.

Some of his choicest new plums, that have been under test sufficiently long to warrant being sent out, are shown in the following in regard to late work with plums is reproduced: Some of his choicest new plums, that have been under test sufficiently long to warrant being sent out, are shown in the following in regard to late work with plums is reproduced:

THE SEMI-WEEKLY TELEGRAPH is an 8-page paper and is published every Wednesday and Saturday at \$1.00 a year.

ADVERTISING RATES. Ordinary commercial advertisements at the rate of 10 cents per line per week.

IMPORTANT NOTICE. Owing to the considerable number of communications to the editor, it is necessary to request our subscribers to send their notices to the office.

FACTS FOR SUBSCRIBERS. Without exception names of new subscribers will be entered until the money is received.

RULES FOR CORRESPONDENTS. Write plainly and take special pains to write on one side of your paper only.

This paper has the largest circulation in the Maritime Provinces.

Semi-Weekly Telegraph, ST. JOHN, N. B., FEBRUARY 8, 1899.

THE GOVERNMENT CANDIDATES. The friends of the government who met Friday night in McLaughlin's Hall, for the purpose of nominating candidates for the city of St. John in the coming provincial election, did their work quietly and without any unnecessary delay.

STOCKTON SNEERING AT OUR INDUSTRIES. Dr. Stockton in his speech at the Conservative convention on Thursday evening is reported by the Sun to have made a sneering reference to Hon. Mr. Emmerson's efforts to induce capitalists to develop the oil business in this province.

WORDS VS. DEEDS. If big words could make a people rich Dr. A. A. Stockton would be worth millions to the people of New Brunswick.

A CONTRAST. Some of the opposition papers are making excuses for the Harris land job because the present government is about to erect an elevator on this land in connection with the Intercolonial terminal facilities.

CHARLOTTE AND CARLETON. The friends of the government nominated candidates in these two counties Monday, putting strong tickets in the field.

THE WAR IN THE PHILIPPINES. The outbreak of hostilities between the Philippine rebels and the American forces is a serious matter and will have highly important consequences.

WOOD'S PHOSPHODINE. The Great English Remedy for all ailments of the lungs, throat, and chest.

DESTROYED BY FIRE. Mills at West Branch, Nova Scotia, Burned.

HALIFAX, Feb 6—Row's grist mill and Ritchie's woolen mill at West Branch, River John, Pictou county, were destroyed by fire.

ment candidates for both the city and county were defeated. The result of this was that for about three years St. John was not represented in the government at all, and for six years and a half no representative of this city or county held a departmental position in the administration.

Now in return for the sacrifices which St. John has made for Messrs Alward and Stockton, what have these persons done for this city? The only reply that can be given to this question is that they have done nothing.

These are the two men who are again offering themselves to the people of St. John and asking for their support. Do the people of St. John want them? We think that on the 18th inst. the answer will be that they do not.

price that a waverer like Mr. Fowler should have been preferred to Dr. Gilechrist by the electors of Kings.

Our advice from Hampton are that the convention of government supporters held on Saturday both in numbers, and in the representative character of those present, far surpassed that of the Conservatives held on the previous day.

The principal grievance that the opposition have against Premier Emmerson is that he gave the work of constructing certain steel bridges to company which has its works in this province and gives employment to our people.

Commodore Stewart of the Chatham World, says: "The Gleaner has not claimed to be the leading Liberal-Conservative daily in New Brunswick, but it has demonstrated its right to that title by its business enterprise, able discussion of public questions, and remarkable political sagacity."

A short time ago Mr. J. Douglas Hasen was declaring with great emphasis that he had no intention whatever of running for the legislature, although it has long been known that he aspired to lead the opposition in the place of Dr. Stockton, of whose ability he has a very poor opinion.

It was hardly worth while for Dr. Stockton and Mr. J. D. Hasen to go all the way to Moncton to repeat their old speeches to the electors, after they had already been published all over the province.

Reginald R. Fairweather and Henry W. Robertson to be notaries public.

Wm W Graham to be a member and chairman of the board of school trustees of the local board of health for the said county.

The lieutenant governor has been pleased to order that Terry J. Commons, a commissioner of the parish of Perseford civil court, in the county of Gloucester, be removed from office, he having left the province.

Of John P. Leger, as stipendiary magistrate for the parish of Wellington, in the county of Kent.

Of John A. Shea, as labor act commissioner for the parish of Northampton, in the county of Carleton.

Edwin L. Perkins and Arthur A. Lewis, M. D., to be coroners.

Fred H. Wetmore to be chairman of the local board of health for the said county.

NOTE AND COMMENT. Mr. Geo. E. Foster's attempt to dictate to the electors of St. John will be resented by hundreds of Conservatives, who recognize in him only an enemy to the interests of this port.

The Sun pretends to be very anxious that there shall be a contest in every constituency in the province. Well, there were contests in twelve constituencies at the last general election, and the opposition were beaten in eleven of them.

The Sun says that the nomination of Mr. Parker Gleaser as an opposition candidate for Sunbury is no surprise to anyone. Why should it be? Mr. Gleaser was a candidate in 1895 and was defeated. The electors of Sunbury can be relied on to defeat him again.

Dr. Stockton pretends to be quite certain of success in the coming election. He pretends to be quite as certain of it in 1892 and in 1895, yet he was beaten badly on both occasions.

Mr. George W. Fowler published a farewell letter to the electors of Kings on Wednesday last and on Friday he accepted the opposition nomination as one of their candidates for the representation of that county.

We hope that the readers of the Sun will carefully preserve the predictions of the editor of that paper and his correspondents in the several counties are making with respect to the elections, and on the 19th inst. they will have an opportunity of learning how little reliance is to be placed in any statement the Sun may make.

The Conservatives of Kings must have been hard pressed for candidates when they were driven to accept Mr. George W. Fowler, who has during his term as a member of the legislature, constantly approved of what he is now called on to condemn, and Dr. J. H. Morrison, who was rejected at the St. John convention, and who is not only a non-resident of Kings, but has not even a vote in the county.

We publish today an interview with Hon. Mr. Emmerson in which he deals with the manifesto of the leader of the opposition, Dr. Stockton. There never was a political document issued by any party in this province that has fallen so flat as that of the member for St. John, so that it was hardly worth answering, but there was ever any vitally in it the premier has effectually crushed it out in the interview which we publish.

The opposition in the county are entitled to a great deal of sympathy for their valiant efforts to induce two persons to sacrifice themselves by running against the government candidates. It required special inducements to persuade Messrs. Carson and Dean to consent to run, for they positively refused to stand after they had been nominated. What these inducements were will perhaps be known later.

The government convention on Friday last made no objection to the presence of representatives of the Sun and other opposition papers; indeed the reporters were provided with facilities for doing their work, but it was otherwise with the Conservative convention last evening, from which representatives of the government press were ejected. The work to be done at the opposition conventions is of a kind that will not bear publicity.

Dr. Gilechrist got six votes out of about one hundred and fifty in the St. John opposition convention, but only five in the opposition convention for Kings county. It is not surprising that Dr. Gilechrist, who has worked as hard for the opposition as any man in either county, was not well pleased at this result. Dr. Gilechrist deserved better treatment from the party both in St. John and Kings. We are far from being in sympathy with Dr. Gilechrist's political views, but we cannot conceal our surprise.

Annual Sales over 6,000,000 Boxes. BEECHAM'S PILLS FOR BILIOUS AND NERVOUS DISORDERS such as Wind and Pain in the Stomach, Giddiness, Fullness after meals, Headache, Dizziness, Drowsiness, Flushing of Heat, Loss of Appetite, Constipation, Blisters on the Skin, Cold Chills, Disturbed Sleep, Pruritus, Itching, and all Nervous and Trembling Sensations.

WOODSTOCK. Presbyterian Tennyson Club - Christian Endeavor Service.

WOODSTOCK. WEDNESDAY, Feb 6—The Presbyterian Tennyson Club met in the vestry on Thursday evening last. Miss Annie Rankin read a valuable and interesting paper on the sources of the material used by Tennyson for his Idylls of the King. She compared the Arthurian legends and gave the sources from which Malory got the material of his Morris D'Arthur.

WOODSTOCK. A union Christian Endeavor service was held in the vestry of the Methodist church last Friday evening. There were about 200 young people in attendance. Mr. T. A. Lindsay, the president, was in the chair. The first half hour of the service was devoted to singing, after which the following notices and gentlemen made addresses: Miss Lila Johnston, Miss Landra Comben, Mr. Andrew Myles and Rev. H. L. Marr. A very enjoyable evening was spent by all.

WOODSTOCK. Mr. B. Appleby has been confined to his home for the past week with an attack of la grippe.

WOODSTOCK. ST. ANDREWS. Phosphate For the Aroostook—Afflicted With Mosquitoes.

WOODSTOCK. ST. ANDREWS, Feb 6—A cargo of phosphate from Booth Bay was discharged here last week for the Aroostook. There are about 60 families in town afflicted with measles, but no serious cases have yet developed. The result, however, has been to shut off communication among neighbors to such an extent that the town is extremely dull.

WOODSTOCK. ST. ANDREWS, editor of the Beacon, is slowly recovering from his recent severe illness, but is still confined to his bed.

WOODSTOCK. The country roads in this vicinity are in splendid condition now. Large quantities of ice and wood are being hauled in town every day and the hauling could not be better.

WOODSTOCK. The Rev. Mr. Beard conducted the services in Greenock church yesterday, and supplied for the Rev. & W. Mahon who is ill.

WOODSTOCK. FRIENDS PREVAILED. A Nervous Toronto Woman Walked the Floor During the Night for Hours at a Time—She Makes a Statement.

WOODSTOCK. TORONTO, ONT.—"I was troubled with nervousness. It was impossible for me to keep still as if the spells came over me during the night I had to get up and walk the floor for hours at a time. My blood was very poor and I was subject to bilious attacks. My feet would swell and I was not able to do my own housework. I treated with two of the best physicians here but only received relief for a time. I became discouraged. One day a friend called and advised me to try Hood's Sarsaparilla. I laughed at the advice but I was prevailed upon and procured one bottle. Before I used it all I began to feel better. I took several bottles and also several boxes of Hood's Pills. Now I can eat and drink heartily and sleep soundly. Hood's Sarsaparilla has entirely cured me. Also strengthened me so that I now do all my own work. I cheerfully recommend Hood's Sarsaparilla to all sufferers from nervousness, weakness or general debility." Mrs. H. F. FARM, Degraded, S. Mich.

WOODSTOCK. Hood's Pills cure liver ill, easy to take, and do not operate. 15 cents.

All Over New Brunswick

ALBERT. HOPEWELL HILL.

HOPEWELL HILL, N. B. Feb 3.—Capt and Mrs John Shields, of Alma, visited the place recently. Rev Fred LeBeau, of the Grand Ligne Mission, lectured in the Baptist church on Wednesday evening on Missionary Work in the Province of Quebec. It was considered a very excellent address.

CARLETON. WOODSTOCK.

WOODSTOCK, Feb 2.—At a special meeting of the county council, at the court house today, Mr W P Jones was appointed county secretary for Carleton county to fill the office made vacant by the death of his father the late R K Jones. The appointment is a popular one.

CHARLOTTE CO. ST. STEPHEN.

ST. STEPHEN, Feb 3.—Mr Solomon Wheelock, an old resident of this town, was buried on Wednesday at the advanced age of 80 years. The body of the young girl Annie Cox, who was murdered in Rockchester, N. H., will arrive here today. Her parents, Mr and Mrs Norman Cox, are residing in the vicinity of the place where the tragedy occurred.

KINGS CO. SUSSEX.

SUSSEX, Feb 1.—The second fancy dress carnival of the season was held at the Alhambra rink last evening and was fairly well attended. The prize winners were Dr J J Daly, Walter Fairweather, E. B. Ross, Blanche Fairweather and Miss Chapman.

EAST SCOTCH SETTLEMENT.

EAST SCOTCH SETTLEMENT, Kings Co, Feb 1.—After a short illness of 13 days, G. S. Northrup died on Jan 31st, at the home of his son George. He lived a quiet life, was much respected and in his 74th year. Interment took place at Irish Settlement, under the direction of Rev Mr Crowell.

PENOBSCUIS.

PENOBSCUIS, Feb 3.—Mr Murray has recently hung out a new and attractive sign, bearing the name of his hotel, "The Minio House," which is incidentally suggestive of its rank among houses offering accommodation to the public "optimists."

NORTHUMBERLAND CHATHAM.

CHATHAM, Feb 2.—The many friends of Mr H S McGachan, of the Bank of Montreal, regret that he is about to be removed to Amherst. Mr McGachan leaves Chatham on Friday, and Mr Longley, of Halifax, takes his place. On Wednesday a very successful and delicate operation was performed at the Hotel Dieu, by Dr McDonald, Dr J B Benson, and Dr J S Benson, at which Mr John Witzell had one of his eyes removed. During a blast at the eye he was struck in the face and it was thought necessary to have it removed in order to save the sight of the other.

WESTMORLAND. MONCTON.

MONCTON, Feb 3.—A largely attended ball was held at the Hotel Minio to-night, under the auspices of the Moncton Assembly Club. Dancing was commenced at a late hour. An elaborate spread was served by the proprietor of the Minio. Music was rendered by Barker's orchestra. The affair was voted a magnificent success. The patronesses were Mrs F W Sumner, Mrs R A Borden, Mrs E B Chandler and Mrs R W Hewson.

Harry Berryman, a Hopewell Hill young man, who has been spending three months among his friends in the Klondike, left last night on his return to the Pacific coast. Mr Berryman was married about three months ago to a Seattle young lady, and on his return to the Klondike, where he has three claims, he will be accompanied by his wife.

SACKVILLE.

SACKVILLE, N. B. Feb 3.—Miss Bertha Cann, of Yarmouth, is visiting her friend, Miss Janie Fawcett. Miss Cann was a former student of Temple, London, and former professor of mathematics in Dalhousie college. His subject was Great Men I Have Known. The doctor was listened with attention for nearly two hours while he spoke of such men as Abraham Lincoln, U. S. Grant, Marquis de Lafayette, Jefferson Davis, General Miles and Schofield, Lord Palmerston, Spurgeon, Beecher and many others whom it had been his privilege to meet.

YORK CO. MOUTH OF KESWICK.

MOUTH OF KESWICK, Feb 3.—La grippe is raging here, and in almost every house there is someone prostrated with it, and in some instances whole families. Mr Duncan Hallett, who a few weeks ago had to resign his position as station agent here because of ill health, is now confined to his bed, and it is feared, is stricken with that dread disease consumption.

Mr Duncan Hallett, who a few weeks ago had to resign his position as station agent here because of ill health, is now confined to his bed, and it is feared, is stricken with that dread disease consumption.

SAME OLD TICKET

ASKED TO STAND UP FOR GOVERNMENT CANDIDATES TO KNOCK DOWN.

GIBSON.

GIBSON, Feb 2.—Mrs Charlie Cowperthwaite, who has been very ill with la grippe, is improving. Rev Mr Foster, pastor of Keswick F B church, will exchange pulpits with Rev Mr Gray on Sunday, February 5th. Mr A H Sewell left for Woodstock on Tuesday on a business trip.

FREDERICTON.

FREDERICTON, Feb 3.—The annual Bachelors' ball was held this evening at Queen Hotel and was a happy social success. Proprietor Edwards had the house gaily decorated with bunting, and has spared neither pains nor expense to make the affair enjoyable to the one hundred and fifty guests present. Dancing was indulged in to the accompaniment of a fine orchestra. Several refreshments were served and much quiet pleasure to the happy throng.

CARSON AND DEAN.

POLITICIANS IN A BAD FIX TO GET OPPOSITION CANDIDATES IN ST JOHN COUNTY.

Nobody wanted it, and when the opposition nomination in St. John County was offered Capt. Carson, St. Stephen, and Councillor Dean, of Musquodocum, Monday night, at the convention in Foster's corner, they would have none of it. Five others were either directly nominated or their names were before the nominating committee.

AGONCILLO IN MONTREAL.

AGONCILLO'S Representative Seeks a Refuge in Canada. MONTREAL, Feb 6.—General Agoncillo, who was at Washington as the representative of Aguinaldo, the leader of the Filipino insurgents, accompanied by his private secretary, arrived in Montreal today and registered at the Windsor Hotel, which will be his headquarters for the present.

RETURNED FROM NEW YORK.

Ministers Would Say Nothing About the Commission. OTTAWA, Ont. Feb 6.—Hon David Mills, Hon Clifford Bolton, Hon W S Fielding and Hon A G Blair returned here today from New York. Hon J J Tarte, who accompanied them on their return journey, left the train at Montreal.

KILLED BY A TRAIN.

John B McDonald Meets Death Near Bangor. BANGOR, Me. Feb 6.—A man who is supposed to be John B McDonald, whose home was in the provinces, but who is thought to have been working at Bangor and Aroostook plow trails on Sunday evening about a mile from Shirley, Coroner Poole held an inquest today.

Much in Little

As especially true of Hood's Pills, no medicine ever contained so great curative power in so small a space. They are a whole medicine.
