NO. 19

BLAIR'S OPINION ON HIS SUCCESSOR

Thinks F. B. Wade, Ex-M. P., or F. H. Crysler, M. P., Will Be Chosen

SILENT ABOUT FUTURE

Ex-Chairman of Railway Commission Refuses to Talk About It, But Doesn't Think He'll Reside in Toronto--Just Back from St. Louis Fair, and is Not Well.

Toronto, Nov. 21--(Special)--Hon. A. G. Blair arrived here Sunday morning from St. Louis and spent the day in his private car, leaving for Ottawa at night. A press representative called on him and inquired if he would enlighten the inquisitive public as to his plans for the future.

Mr. Blair, however, declined to make any announcement. He remarked he did not contemplate taking up his residence in Toronto. He expected at the cabinet council meeting to be held in Ottawa this week, before Sir Wilfrid leaves for California, that the new chairman of the railway commission will be appointed. The choice, he thought, would likely fall on Mr. Wade, ex-M. P., or F. H. Crysler, M. P. Either, he thought, would be competent to perform the duties of the office. Neither had intimate acquaintance with railroad affairs, but both were able lawyers.

GREAT CRUSH AT NAN PATTERSON'S TRIAL

State Attorney Said He Would Prove That the Woman Killed "Caesar" Young--Some Testimony.

New York, Nov. 21--The trial of Nan Patterson for the murder of Bookkeeper "Caesar" Young was fairly begun before Justice Davis in the supreme court today and when adjournment was taken at 4 o'clock this afternoon Assistant District Judge Hand had concluded his outline of the state's case and had examined several of the witnesses for the prosecution.

There was some interesting testimony, particularly that of Detective Edward J. Quinn, who took Miss Patterson from the hospital where Young died to the police station. He said the woman said to him: "I don't want to live now. Why should I have killed him?"

The officer said she fainted several times in the station house and that several times she asked him to kill her as she had nothing to live for, now that "Caesar" was dead.

There was an unusually large crowd in the court this morning but when the doors were opened for the afternoon session there was a rush to gain admittance which swept the squad of court officers off their feet.

The main floor of the criminal court building was a solid mass of people and those who had business in the court had to fight to even reach the vestibule. The crush became so serious in a short time that police were called in from the street to assist in obtaining order.

MICHAEL ANGELO ARRESTED FOR MURDER

Caught in Montreal After Killing Wife's Father in Pennsylvania Town.

Montreal, Nov. 21--(Special)--Michael Angelo, wanted in New York, a small town in Pennsylvania, for the murder of his father-in-law, was arrested here today. He was traced here through letters sent by his friends and taken in custody while working in a St. James street barber shop. Angelo killed his wife's father in a dispute over a board bill.

Montreal, Nov. 21--(Special)--Antonio Giacani, who shot and killed Theodore Duval, a French carter, on Aug. 20 in Notre Dame street, was today sentenced to be hanged Jan. 21. The murder was the outcome of a barroom quarrel.

CONSTERNATION IN LIBERAL RANKS

Warrants Out for Arrest of Ontario Candidates in Recent Election.

MEN CAN'T BE FOUND

B. O. Lott, W. J. Shibley and O. J. Reilly Are the Ones Sought in Connection With the Bogus Ballot Box--Case Causes Sensation at Belleville.

Kingston, Ont., Nov. 21--(Special)--There is a warrant issued at Belleville for the arrest of Byron O. Lott. That is the latest development in the bogus ballot box case.

Colonel Sherwood, of the Dominion police, has laid information against Mr. Lott, and Magistrate Flint, of Belleville, has issued the warrant. Lott has not yet been located.

Warrants have also been issued for the arrest of W. J. Shibley, the Liberal candidate in Frontenac, and O. J. Reilly, Kingston.

The news of the intended arrests has caused a tremendous stir in Belleville. So far the only man whose arrest has been effected is Whalen, of Prescott. Colonel Sherwood has left Belleville and is said to be in Ottawa.

Neither Shibley or Reilly, for whose arrests, warrants have been issued in the bogus ballot affair in West Hastings can be found. Reilly was here this morning, having returned from Ottawa, but has since left the city on hearing about the warrant. Shibley is not at Harrowsmith, his home.

DEATH OF MAN SHE LOVED CAUSED STENOGRAPHER'S SUICIDE

Suspicious Death of Railroad Official Brings to Light Sad Tale.

Cincinnati, Nov. 21--Coroner Weaver today began an inquest in the case of C. A. Parker, vice-president of the Cincinnati, Hamilton and Dayton & Pere Marquette Railroad, who fell dead in his office here on Wednesday last. No autopsy was held at the time of his death and no request had been made, and the death certificate gave no cause of death, merely saying "Inquest pending."

Dr. S. B. Grimes, the first witness, said he was called while Mr. Parker was dying. He smelled a pungent odor, as of peach leaves. There were no convulsions. The pupils of the dying man's eyes were dilated. The witness asked what Mr. Parker had taken. He heard a voice say "don't say anything," and thought it was a woman's voice. There were several persons present.

Mrs. Rose Hagerman, a stenographer for Mr. Parker, testified that she saw nothing unusual about him that day. He had just returned from Chicago and had dictated some correspondence to her. He gave no appearance of moroseness. She was the only woman present and had no recollection of hearing Dr. Grimes ask what he had taken nor of saying "Don't say anything."

Former Stenographer of Parker Suicides. Chicago, Nov. 21--Suicide while temporarily insane over the loss of her betrothed, was the verdict of the Illinois jury today in the case of Ella Gasterling, whose dead body was found Saturday in the girl's apartments at the Vendome Hotel.

The death of the young woman, according to police theory, may have been the result of a "suicide agreement" entered into by the dead girl and Charles A. Parker, of Cincinnati, a well-known railroad official. Parker died suddenly in Cincinnati under circumstances that might indicate that he had taken his own life.

Miss Gasterling formerly was one of Parker's stenographers in Denver (Col.), and the friendship existing between them was strong enough to cause comment. The result was the girl's removal to Chicago. Correspondence between Parker and the young woman was intercepted by J. W. Parker, the 29-year-old son of the railway official, and in this manner, it is said, the young man learned that his father contemplated securing a divorce in order that he might marry Miss Gasterling.

Grief over this discovery and a feeling of shame at the father's entanglement, were the causes, it is believed, of the girl's suicide recently in St. Louis.

FIVE PORT ARTHUR WARSHIPS USELESS

Japanese Shells Create Havoc Among Them

Steamer Loaded With Supplies Attempting to Run the Blockade Captured by Togo's Fleet--Oyama's Forces Drive Enemy from Da Pass--Second Division of Baltic Fleet a Big One--Skirmishing Still Continues.

Shanghai, Nov. 21--A ferocious British steamer, the Thales, sold to Germans, has been captured while attempting to run the Port Arthur blockade and has been taken to Sasebo. She had on board a cargo of clothes, blankets, medicine and an enormous quantity of salt beef.

Russians captured near Port Arthur state that five men-of-war in the harbor have been rendered useless by the Japanese fire.

The Thales is undoubtedly the German steamer Batulan, referred to in a despatch to the Associated Press from Tokio today while attempting to run the Port Arthur blockade.

Japs Capture Da Pass. Mukden, Nov. 21--The Russian detachment occupying Da Pass have retired before a Japanese column of 1,000 strong.

The Japanese are reported to be advancing towards Sinsinuin.

Russian Second Squadron a Big One. Canea, Island of Crete, Nov. 21--The second division of the Russian second Pacific squadron, commanded by Vice-Admiral Volkovsk, sailed this afternoon for Port Said. In this squadron are the battleships Sissoi, Veliky and Navarin, the cruisers Kemulung and Alma, the torpedo boats Bravi, Bodoki and Boroi, and the transporters Gorshakoff, Voronoi, Kilia,

Tamboff, Kieff, Jupiter, Merkur and Vladimir.

Russians Criticise American Consul's Report. St. Petersburg, Nov. 22--2:45 a. m.--A special despatch from Tien Tsin printed here, stating that the American consul at Chefoo has warned the state department at Washington of the imminence of the fall of Port Arthur and received with considerable criticism, the allegation being made that the despatch was prompted by a desire to help the Japanese war loan.

Japs Return All Valuables on Dead Russians. Berlin, Nov. 21--A despatch to the Lokal Anzeiger from Mukden under today's date says:

"The reconnaissance fights have assumed a more violent character during the past few days. Particularly hot was the fighting on Poutouf Hill (Lone Tree Hill) where the Japanese were repulsed with a loss of over 100 killed. All signs indicate that great events are imminent. The roads of Sinsinuin, owing to the excellent railroad service, are quite safe from Chinese bandits guaranteeing unimpeded communication with Tien Tsin and establishing a second line of intercourse with the outside world.

The Russians admire the cleanliness, perfect order and equipment of the Japanese. One does not see any trace of race hatred. It is a fact that the Japanese restrain through French intermediation all valuables found on dead Russians. This has made a deep impression here and is reciprocated."

McADAM WOMAN STOPS HUSBAND FROM WEDDING ANOTHER

Mrs. Almado B. Adams Prevents Murray Adams From Marrying Under Assumed Name.

Portland, Me., Nov. 21--(Special)--Mrs. Almado B. Adams, of Bangor, who came here personally to protest against the issuing of a marriage certificate to James W. Murray and Mrs. Sarah A. Kemp, succeeded in her endeavor.

She informed the police and the city clerk that Murray, who is yard foreman at the Grand Trunk, is passing under an assumed name, that his real name is Murray Adams and that he is her husband.

At a hearing today Mrs. Adams said her maiden name was Almado M. Baker and her home was McAdam Junction (N. B.) when she was 16 years of age she met Murray Adams and they were married the next spring at Houlton (Me.).

CABINET AWARDS BIG CONTRACTS

Harwood, Ex-M. P., New Postmaster at Montreal--Laurier Off to California Today.

Ottawa, Nov. 21--(Special)--Sandon and Sutherland, of Kingston have been awarded the contract for erecting the Canadian mint in Ottawa. The price is \$320,000.

The contract for the Royal Victoria museum, which also is to be erected in Ottawa, has been awarded to Geo. Goodwin, of Ottawa, for about \$850,000.

NEW RAILWAY FROM CAMPBELLTON

First Twenty Miles Completed Towards the St. John River

AN UP-TO-DATE ROAD

Laid With Heavy Rails and Splendid Road-bed, It is Said the International Will Rank With Any on the Continent--Hon. Mr. LaBillois and H. F. McLatchey, M. P. P., Inspect It.

Campbellton, N. B., Nov. 21--(Special)--Hon. C. H. LaBillois, chief commissioner of public works, and H. F. McLatchey, M. P. P., accompanied by Thomas Malcolm, contractor, made an examination today of the first twenty miles of road completed on the International Railway.

The party left Campbellton with an engine and passenger car and ran over the eighteen miles of splendid road laid with heavy rails. They walked two miles over the unfinished part of the second section where they saw several hundred men at work who are completing the twenty miles to reach the Upsquitch River in a couple of weeks. This structure is the largest that will be found on the whole route from Campbellton to the River St. John. Its length is about 225 feet and will cost about \$20,000.

Contractor Malcolm has commenced work on the third section. He has had considerable trouble to keep men at the work. With over 1,100 men employed since August, he has only been able to count on 400 men working.

The members were much pleased with the roadbed and learn from the contractor that he expects the international to have one of the best roadbeds of any railway on the continent, and when completed he says that passengers will be carried from St. John to Campbellton in less than three hours.

Mr. Malcolm has leased the Upsquitch River for a period of ten years and intends putting up a hotel near the Upsquitch river bridge next year for the comfort of passengers and employees.

EARL GREY PREDICTS GREAT FUTURE FOR CANADA

At Farewell Banquet at London He Said He Looked to the Population to Equal Britain's Within the Lifetime of Some Present.

London, Nov. 22--Lord Stratfordon presided at a farewell banquet tonight to Earl Grey, on the eve of the latter's departure to assume the governor-generalship of Canada. There were 200 guests, including the Archbishop of Canterbury, the Earl of Aberdeen, Mr. Bowditch, secretary for India, and a number of other prominent gentlemen. Lord Stratfordon proposed the toast: "The Dominion of Canada and the Governor-General-elect."

Earl Grey in responding paid a tribute to the great loyalty of the Canadians and said he looked forward with the greatest satisfaction to his residence in Canada, whose population, he said, there was every reason to expect "in the lifetime of our sons and perhaps even of some of us here tonight, would equal that of the United Kingdom."

TRIPLE CEREMONY; MARRY THREE SISTERS

Chippewa Falls, Wis., Nov. 21--Rev. E. M. Nelson, Andrew and Charles Nelson, brothers, today were married to Jessie Johnson, Amanda Johnson and Clara Johnson, sisters. After the triple ceremony, Rev. C. J. Erdman, who officiated, asked Rev. Mr. Nelson, one of the newly married brothers, to marry him to one of the guests. All the bridegrooms and brides will spend their honeymoon at the World's Fair.

LAST STEAMERS OF SEASON AT MONTREAL

Montreal, Nov. 21--(Special)--Elder Dempster steamer Etolia, from Demerara, and Manchester Trader, of the Manchester line, will arrive in port tomorrow and will be the last of the ocean vessels to Montreal this season. This will bring the number of seagoing vessels arriving in port this season up to 735 with a total registered tonnage of 1,860,136 as compared with 822 vessels aggregating 1,800,000 tons last season, falling off of seven vessels and 40,785 tons.

STEAMER REPORTED FOUNDERED TURNS UP

New York, Nov. 21--The Red Star steamship Kronland, about which there has been some anxiety because of an unconfirmed report published here Sunday that she had foundered, anchored in quarantine tonight. She will proceed to her dock tomorrow morning.

While the report of the foundering of the Kronland was not taken seriously by the steamship company officials, it caused considerable anxiety among those who had relatives on board.

LONDON PRESS ON ELECTION FRAUDS

The Westminster Gazette Sorry That Liberal Party is Guilty One

EQUALS THE YANKEES

St. James Gazette Says the United States Never Did Anything Cleverer, and Hopes the False Ballot Boxes Won't Spread to England.

London cable says:-- "The Westminster Gazette, referring to the false ballot boxes used in Ontario constituencies, says: 'We are sorry that of all parties the Liberal party should be associated with such a disgraceful fraud, and if the allegations are true we can only hope that such culpability will be meted out as will prevent a recurrence of the scandal.'

"The St. James Gazette says: 'The old world has much to learn from the new in the manipulation of elections and it is to be hoped that we remain too obtuse for teaching of unscrupulous English electioneers compared with the ingenious ballot box, whose existence has been revealed by a lucky mishap to the Canadian authorities. The United States never did anything cleverer.'

"The Westminster Gazette, commenting on the Conservatives' action in Quebec, says: 'Possibly the party feeling thus developed may incur to the administrative advantage of the now sulking Conservatives.'

ONLY HALF-PAY FOR JUDGE TASCHEREAU

Sworn in Monday as Administrator of Dominion, But Lord Minto Will Divide Salary With Him.

Ottawa, Nov. 21--(Special)--Sir Elmer Taschereau, chief justice of Canada, was sworn in this afternoon administrator of the dominion. He will act in that capacity until the arrival of Earl Grey. The half of salary goes to the administrator and the other half to Lord Minto until such time as his successor has been sworn in.

TWO BARGES ADRIFF; SEVEN PEOPLE ABOARD

Highland Light, Mass., Nov. 21--Two Lehigh Valley R. R. barges, the Buffalo and Barden, are adrift tonight somewhere outside Cape Cod. They broke away from the tug Lehigh in Massachusetts Bay last night while en route from Perth Amboy to Boston and have not been seen since, although the Lehigh and the Shawnee searched diligently for them both inside and outside Cape Cod today. The barges are loaded with coal and have a crew of three men each, while a woman is on board one vessel. The tugs will resume their search tomorrow assisted by another tug from Vineyard Haven.

Prominent Boston Banker Dead.

Boston, Nov. 21--William A. Tower, senior member of the prominent banking firm of Tower, Giddings & Co. of this city, died today at his home in Lexington. Mr. Tower was about 55 years of age.

JANUARY 11 FIXED FOR OPENING OF PARLIAMENT

Will Elect Speaker on That Day, and the Following Earl Grey Will Deliver Speech from Throne.

Ottawa, Nov. 21--(Special)--At the cabinet meeting today an order in council was passed calling parliament for the dispatch of business on Wednesday, Jan. 11.

The usual day for the opening of parliament is Thursday, but every new parliament is called a day earlier for the purpose of electing a speaker. The speaker will be elected on Wednesday, the 11th, and on the following day Earl Grey will deliver the speech from the throne.

Parliament has not been called so early since 1896, the last year of the Conservative regime. This was the session of the remedial bill and Sir Mackenzie Bowell called the house as early as possible with a view of getting the business through be-

fore the estimates passed before parliament died through effluxion of time but in this he was disappointed.

There are only two other instances since confederation of parliament meeting so early. One was in 1880, when it was called to ratify the C. P. R. contract on Dec. 9. The other was in 1888, the year after confederation, when parliament met on Nov. 4, besides 1896 the other years in which the house met in January were 1884, Jan. 17; 1885, Jan. 29; 1889, Jan. 31, and 1890, Jan. 14.

FROM ALL OVER
NEW BRUNSWICK

ST. STEPHEN. St. Stephen, N. B., Nov. 17.—Mrs. James G. Stevens gave a "Cinderella" party on Saturday evening to a number of her young society friends. What was the chief feature of entertainment and the party was a very merry one and greatly enjoyed by all who were present.

Thursday morning after an illness of several months. She was a woman highly esteemed among her circle of friends, and in her church. She leaves her husband and three married daughters, Mrs. Cooke of Houlton (Me.), Mrs. Newell, of Newburyport (Mass.), and Mrs. Dimnick, of Haverhill (Mass.).

CHAPTER XXI.

Strook him to silence. The police!" he exclaimed under his breath.

The cries of the situation roused Fausenberg from his stupor. "They will make me a murderer," he gasped with an awful fear in his eyes. "They shall never—"

He raised the pistol to his head. As though he had by some prescience anticipated the act, Paul sprang to him and arrested his hand.

"No, no!" he cried in a hurried whisper. "Come, here, quick! Give me the pistol."

"The knocking was repeated more loudly, men's voices were heard outside. Scarcely knowing what he did, Fausenberg snatched up the pistol and took the revolver from him and dragged him into the close-room.

"Here is the key," Paul said, trembling with excitement, "take it, let yourself out by the farther door and leave me here."

"You, Paul? They will hang you," he expostulated in a dazed way.

"No, no. And if they do I am fitted to die than you. It is only a few weeks sooner and you must not go to your death like this. Quick, don't be a fool. Before they open the door, take the pistol and rush back into the ante-room, shutting the door behind him. The panic of self-preservation seized Fausenberg and he did as he was told. He was in the hall where the concert had been held, and through it to the door leading out into another street. He unlocked it and passed out unobserved.

He walked quietly away, his mind whirling with excitement; he knew not whether he was going, but he kept up his fast pace, walking as a man in a dream. He kept straight on until he had gone more than a mile. Then he stopped suddenly. The usefulness of his blind progress struck him as he began to realize what he was doing.

He looked round, he was in an unfamiliar street, by a public house beneath the pretentious signs of a wretched man was howling a music-hall song to the accompaniment of a companion's banjo. The sound of the stupid song with the intense desire of his mind sickened him. An intense desire seized him to go back, at any rate to the Hotel and hear the worst. He inquired the way of a passer-by and he found he was in an access of feverish haste, the abominable song and its yanked accompaniment jangling in his ears.

He soon reached the Hotel and went in as quickly as he could. He was going straight up to Hascombe's room when the Matron came hurrying after him.

"Oh, Mr. Fausenberg," she said, in that manner of reproached attention at had news which they acquire who live in an atmosphere of sorrow and death; "you had better not go up there. The police are in Mr. Hascombe's room."

"The police?" he repeated mechanically, wondering at his absolute calmness of nerve.

She looked at him in concern and surprise. "You have not heard what has happened?"

"What?"

"A terrible thing. Will you come in here?" He followed her into a room close by and heard how Sybilla Caspari had been found in the school, and how Paul Hascombe, who was with her, had been taken into custody.

As he listened to the terrible story he felt that his calmness must betray him, but, try as he would, he could not throw off the feeling of deadly apathy. The events of the day had stunned him, his brain seemed benumbed and from it every nerve depended; he could not rouse himself. There was a slight suggestion of reproach in the Matron's tone as she concluded.

"I have feared something of the sort for some time past, Mr. Fausenberg, although of course nothing so terrible as this. Mr. Hascombe is a man of strong feeling, and although he has great self-command, yet there is always the danger of that breaking down under a strain such as the poor fellow has had to bear lately. Nobody seems to have noticed it but myself. Oh, it is horrible—too awful to think of."

Fausenberg could say nothing in reply. He turned to the door. "I will go and try to see Mr. Hascombe at once. You say Miss Caspari is not dead?"

"She was not, half an hour ago. They have taken her to the hospital," he said, and went out.

Once again in the street the ungodly desire or quick movement came upon him and he set off at a rapid pace, vaguely, and not recollecting whether he was bound. He seemed utterly without purpose, without thought or knowledge of

what his next hour, of what the rest of his life was to be. He walked about aimlessly for a while, then suddenly stopped. "What a fool, what a brute I am!" he exclaimed. His apathy now gave place to an intense desire to see Paul Hascombe. The police station! He shuddered. At least Paul should not stay there. The truth should be told at once, and—A faint knock arrested him. He went quickly up the broad steps and asked unhesitatingly, "The police station? Well, your nearest way from here is to take the second on the left and the first turn after you pass the hospital. It lies at the back of it."

The hospital. That came into his purpose too. A very few minutes' walking brought him there. He went quickly up the broad steps and asked unhesitatingly, "The police station? Well, your nearest way from here is to take the second on the left and the first turn after you pass the hospital. It lies at the back of it."

The hospital. That came into his purpose too. A very few minutes' walking brought him there. He went quickly up the broad steps and asked unhesitatingly, "The police station? Well, your nearest way from here is to take the second on the left and the first turn after you pass the hospital. It lies at the back of it."

least. Only one man, and Heaven, knew how noble it had been, how the motive of the act glorified its sordid surroundings. Fausenberg hardly dared think of the night terror, and yet his thoughts were as a legion of devils that had possession of him; sleep was impossible. But in all the while of maddening self-reproach, of passionate despair, the fearful exponent that he had twice been so near carrying into effect never suggested itself; at least that devil was cast out. He had to live; that he must, his wasted life, to justify the poor fellow's sacrifice—ah, that was harder. What could he do? What was his use, his value on earth? The answer was hopeless enough, and so none.

One thing, however, he was resolved. He could not stay there in the Hotel, if he ever had been useful in the work, that was over now. He could not bear it without he bowed his head on his hands and sobbed at the thought that he would never see his mother again, never see the half-reproving, half-humorous glance of those kind grey eyes—ah, and then to think of what he—John Fausenberg, had made him and his dead again, never see the half-reproving, half-humorous glance of those kind grey eyes—ah, and then to think of what he—John Fausenberg, had made him and his dead again, never see the half-reproving, half-humorous glance of those kind grey eyes—ah, and then to think of what he—

"This is the divisional surgeon," the constable said.

"You have called to see Mr. Paul Hascombe?" the doctor asked, looking at him curiously. "Are you a relative?"

"No, a great friend. I am with him at the Hotel."

"Ah," the doctor hesitated a moment as he mechanically calculated the effect of the communication he was about to make. "I am afraid it is no use your seeing him," he said with as near an approach to a sympathetic answer as his coarse life had let him command of. "He is dead."

Fausenberg stared at him blankly. "Paul Hascombe dead?" he gasped.

"The doctor nodded. "Heart disease, no doubt," he replied briefly, brought on by the excitement of this shooting affair. Of course I can't say for certain, but he looked unaccountably like a man who was not without another word, where words were manifestly useless, Fausenberg mechanically turned away, and walked out of the room into the street.

"Paul Hascombe dead!" he cried aloud. "Dead! And he has died for me!"

Doctors Said That Lumps and External Swellings Would Turn to Running Sores.

Mrs. Jacob Wehler, Zurich, Ont., says that Burdock Blood Bitters Saved her from Many Tears of Suffering.

She writes:—"I can imagine how joyous and great was my surprise when a friend told me that Burdock Blood Bitters would cure me, so that the lumps and external swellings, which the doctors told me would turn to running sores, would disappear. I took her advice, and can say that I have no doubt but that Burdock Blood Bitters has saved me from years of suffering. It is with the greatest pleasure and with a thankful heart that I give this testimonial, knowing that Burdock Blood Bitters has done so much for me, and you are at perfect liberty to use this for the benefit of others similarly afflicted."

Burdock Blood Bitters is the best blood medicine on the market to-day, and is composed entirely of roots, herbs, bark, and berries.

BROWN BETTY

This quaint old-style teapot is one whose popularity "age" hath not staled.

ing-up," he said, "as I fear you may find, unless you have something in view."

"Nothing," John said drily. "Yes; I suppose you will be difficult to please."

"Every," the lawyer assured him drily, "and in your case, not; I should imagine, particularly pleasant."

Fausenberg gave a shrug. "I must trust to luck. At least it will be a change."

"Hm!" Mr. Padwick's compressed lips widened into the half of a grim smile. He did not believe in spendthrift luck, or in the rapid supply of a self-choosing tag of it. He turned away and stepped over an open drawer, searching among papers it contained.

"I will be as well to know where a letter may reach you, although I fear there will not in the future be much occasion to write. Perhaps," he added, his usual bland tone muffled by a self-consciousness, "as you whereabouts, in the immediate future likely to be a little uncertain, it might be as well if I made some arrangement in advance of one of our small professional matters which are likely to call for settlement."

Fausenberg gave an awkward laugh. "If you mean I am not out of your debt, Mr. Padwick, I'm afraid you'll have to forgive or at least let it stand over. I haven't a sovereign in the world."

The lawyer raised his hand deprecatingly. "You quite mistake me, Mr. Fausenberg. It is not a matter of money, but of very few of his clients had ever seen on his face. "Had you been in the debt of my firm I should certainly not have alluded to it at this moment." There was a certain air of professional dignity in his manner. "No, he proceeded, "I fancy, although I have not had time to look into the matter closely, that there would be a good reason for your not paying on your credit. I cannot give you the exact figures now, but I fear the amount can be but very trifling. At the same time, if it would be of any convenience to you, I could write you a cheque now for, say, twenty pounds, leaving the exact amount towards me some future time. He drew a cheque-book towards him and opened it with a respectful deliberation. "Shall we say twenty pounds?" he asked without looking up.

"You know best, Mr. Padwick." If not in a spirit of boasting or vanity, but in a quiet, calm statement of fact, he says there is no disgrace in not paying it, and, what is more, a man who has revolutionized the theory and practice of medicine, and whose name has been needlessly sacrificed every year by useless medicines and brutal surgery that kill often than they cure. All spirit members of the medical profession know this, whether they will admit it or not, and it is time that the general public was made aware of the facts.

"Cases have come to me that have baffled some of the best physicians in the country; where one doctor has said 'trouble with the stomach,' another said 'heart,' still another diagnosed 'disease on something else. But each case I was able to see the real cause and by removing it I restored the patient to perfect health. I have a stomach and heart disease, and I have a case of heart disease and rheumatism and other similar instances. When these mistakes are made, and the patient is treated for the wrong disease, how can the sufferer hope to get well. It is as if you tried to cure deafness by wearing eyeglasses. One is just about as sensible as the other. I have a case of heart disease and rheumatism and other similar instances. When these mistakes are made, and the patient is treated for the wrong disease, how can the sufferer hope to get well. It is as if you tried to cure deafness by wearing eyeglasses. One is just about as sensible as the other. I have a case of heart disease and rheumatism and other similar instances. THIS COUPLE MORE THAN SIXTY-SIX YEARS WEDDED

Married Life of Mr. and Mrs. James Dunfield, of Kings County, Rivals That of Any Couple in Canada—Hale and Hearty in Honored Old Age.

The worthy couple whose pictures are printed here have probably the distinction of having lived together longer than any couple in Canada.

JAMES DUNFIELD

There was such another couple in the dominion, but while several who have been more than fifty years married and some who have been nearly sixty years wedded, yet none were heard of to equal the remarkable record of Mr. and Mrs. Dunfield.

Their home is at Portage, Kings county (N. B.), and their hospitable house has been the calling place of many summer visitors and sportsmen anxious to see and talk to the venerable couple who have been so singularly blessed and who can recount in such entertaining way stories of olden days when conditions of life and travel and business and everything in fact were so totally different from the present.

reading this paper, to which he has been a subscriber since the first.

MRS. JAMES DUNFIELD

end of those all are living except George, the eldest son, who for years was a prominent business man in St. John.

Mr. Dunfield has always been an active and energetic worker in church circles and has been a deacon in the Free Baptist church for something like forty years.

BACK FROM WORLD ROAMING TRIP

Lower Cove Lad Who Went from Here as Stow-away.

BACK ON THE MONTROSE

Tom Rogers Returns After Three Years of It—Was in South African War, and Also Sailed the Vasty Deep to Foreign Parts.

Tom Rogers, only eighteen, but with the South African war medal dangling on his vest, returned to the city Monday.

Three years ago, with three comrades, or "pals"—Harry Doherty, Tom Stone, and Jarvis Rogers, the latter his brother—he stowed away on board a steamer running between this city and Cape Town.

After peace was declared he proceeded to England, and again enlisted, but only for a few months. The pay was inadequate and though he wore a uniform—a real nobby one, at that—there was not the remotest chance of the picturesque possibilities in the doughy ranks of Marshall's Horse.

OBITUARY

William MacKay.

Moncton, Nov. 18.—The death of William MacKay, which occurred at his home in Moncton about 1.30 this morning, removes another of Moncton's old landmarks and a highly esteemed citizen.

Arthur Wright. Arthur Wright died Friday night at his home, 46 Wright street, after a lengthy illness. He was for years secretary of the Paris cotton mills and later was connected with the St. John Railway Company.

Mrs. John J. Macfarland.

Mrs. John J. Macfarland died at her home near Whitehead, Kings county, on Thursday night last after several years' suffering caused by valvular lesion of the heart.

Mrs. John J. Macfarland was interred in St. Paul's churchyard, Whitehead, Kings county, Sunday afternoon.

Mrs. James Manzer.

Fredericton, Nov. 21.—The death occurred at Maryville yesterday of Martha, widow of James Manzer, aged 68.

Mrs. Samuel Gross.

NO ADVANCE IN COAL LOOKED FOR

Boston, Nov. 18.—The statement that there had been recently, or is about to be made an advance in the price of anthracite coal amounting to 25 cents a ton is pronounced untrue by coal dealers.

The alleged reason for the increase, that the dealers are getting, getting back some of the money they had lost in the past year or two is said to be equally far from the facts.

A well-known coal dealer said to a Globe reporter yesterday: "The man who wrote those statements must have been dreaming. Coal has not advanced since last September, and it is not contemplated that an increase will come soon.

"I can also say that the idea that the coal dealers have lost a lot of money in the last year is equally untrue. The statement is silly. I can say, however, that the cost of delivering coal has increased a good deal in the past five years. There is not so much profit for the dealer as there was. Labor and every other element that enters in the handling of the coal has decreased our profits."

TWO LOWELL PEOPLE DEAD FROM GAS FUMES

Lowell, Mass., Nov. 20.—Two persons were asphyxiated and a third overcome and made critically ill by illuminating gas in their homes during the night.

The dead are: Miss Lizzie A. Molloy, a school teacher, 38 years of age, of 238 Gorham street, and William Fitzgibbons, aged 40 years, who resided at 619 Gorham street.
