Voters' Lists, 1916

Municipality of the Township of Ekfrid in the County of Middlesex.

Notice is hereby given that I have transmitted or delivered to the persons mentioned in Section 2 of the Ontario Voters' Lists Act the copies required by the said section to be so transmitted or delivered of the list, made pursuant to said act, of all persons appearing on the last revised assessment roll of the said municipality to be entitled to vote in the said municipality at elections for members of the Legislative Assembly and at municipal elections, and that the said list was first posted up at my office at Melbourne on the fifth day of July, 1916, and remains there for inspection. And I hereby call upon all voters to take immediate proceedings to have any errors or omissions corrected according to law. Dated at Melbourne this 30th day of July, 1916. A. P. McDONALD, Clerk of Municipality of Ekfrid.

Western Farmers' Weather Insurance Company

Insure your buildings against wind and tornado in the largest weather company in Ontario. Insurance in force, nearly 11 million. Our rate is lowest permitted by government.

E. T. Huston, Agent, Glencoe

TAKE YOUR CHOICE

By HOLLAND.

MANUFACTURERS are of two kinds—the honest and dishonest. The one makes the best goods, the other makes the worst. Each has his own particular scheme of life.

The honest manufacturer aims to make the best goods he can and to advertise them so that all the world will know of their merits. He courts investigation. He wants customers to hold him to a rigid accountability.

The dishonest manufacturer hopes to profit by deception. He produces an article that will be offered as "just as good" though he knows it is inferior. He seeks to make a larger profit than the honest manufacturer, and this larger profit is necessary because he has to find new customers day after day.

MANUFACTURERS WHO ADVERTISE ARE THE HONEST ONES.

The 45 great battles of the last century accounted for nearly 1,100,000 men. Yet all this slaughter of these terrific battles does not make half the total of the losses of less than two years of the present horror.

WATCH, CLOCK AND JEWELRY REPAIRING

We make a specialty of watch cleaning and repairing of all kinds. Work entrusted to us is certain to receive careful and intelligent treatment from expert and skilful hands. Clocks cleaned, repaired, regulated and set in fine running order. Jewelry repaired, cleaned and repolished.

BUSINESS CHANGE

Chatham sugar factory has a smoke stack 15 feet high, 18 inches in diameter at the top and 14 feet in diameter at the bottom. The wall is 22 inches in thickness at the bottom and 17 inches at the top.

In most places where the silly "day-light-saving" scheme was adopted as an experiment there has been so much confusion in time that they are glad to go back to the old order of things and run their clocks on Old Sol's schedule.

French Minister of Finance Ribot expects to add \$1,500,000 to the national income by his new tax on dogs. There are 900,000 dogs kept for pleasure in France and 2,700,000 watch dogs. The former must pay \$2 each and the latter \$1.

Mrs. A. D. Ullin, of Hamilton, formerly of Dutton, was robbed of \$30 while visiting Buffalo. A man representing himself as an immigration officer told her that she must deposit \$30 with him, as no one without that amount could enter the country.

At Sarnia last week Judge McWatt gave judgment in the case of Bodkin vs. Euphemia township in favor of the defendant. The action was one in which Bodkin, the plaintiff, sued the township council for \$250 damages, sustained through his traction engine breaking through what he claimed was a defective township bridge.

"You are complaining in America of thirty-cent gasoline," writes a Britisher to an American friend, "but that means to you thirty cents a gallon; what would you say if it meant as it does to us at this moment, thirty cents a quart? When gasoline went up to \$1.25 a gallon, I put up the car and got out my old reliable bicycle."

The establishment, probably at some point in Western Ontario, of a chemical plant for the manufacture primarily of dye stuffs, and kindred products and, while the demand exists, of high explosives, is now under consideration by Toronto interests. The plant is intended not only to supply the home demand for dye-stuffs, which is becoming fairly considerable, but to secure the dye trade of all the British possessions which Germany monopolized before the war.

The people of London, Ont., were some time since promised as large a military camp as they could provide for. In accordance with this promise the people launched into a scheme involving an expenditure of \$80,000 for sewers, water mains, electric lighting, roads, and two thousand acres of suburban and garden lands leased. For a time 11,000 troops were maintained at this camp, but now it is announced that 7,000 of these are going to Camp Borden, and Londoners feel that they have been handed a gold brick.

As Wm. Riddell was plowing on the farm of Ralph Coates, Dunwich, he met with a serious and unusual accident. A horse was running loose in an adjoining field and became so annoying to the team that Mr. Riddell concluded to drive him to the stable. The horse resisted and viciously attacked Mr. Riddell with his teeth despite efforts to drive him away. He attacked Mr. Riddell in the face and lacerated his nose so severely that ten stitches were required to close the wounds. Mr. Riddell fortunately was close by the gate and was then able to reach the other field in time to escape further injury.

District and General.

Principal Elliott, of the Wardsville public school, has resigned.

The hydro commission has offered to supply Watford with a service at \$50.45 per horsepower.

The death occurred suddenly of Donald Paterson, aged 70, a well-known resident of Dutton.

It is stated that out of 270 motor cars on the grounds at Strathroy's Dominion Day celebration, 24 were Ford's.

Fourteen of the leading American automobile manufacturers have increased their prices since last December.

Wm. Reid, a well-known resident of Middlesex for many years, died at his home in Metcalfe last week, in his 77th year.

Delaware township has an outbreak of rabies, and the township council has ordered that all dogs be muzzled immediately.

Mrs. Harry Hodgins, of Ailsa Craig, died on Friday from injuries sustained by falling off the veranda at her home a week previous.

For neglecting to attach a two-cent wax stamp to a box of tooth paste which he had sold, a Montreal druggist was fined \$20 and costs.

Duncan Campbell, of Fingal, died on Thursday, in his 76th year. He was a brother of Malcolm Campbell, late clerk of Southwold township.

It is estimated that upwards of 8,000 people attended Strathroy's Dominion Day celebration. The total proceeds of the day amounted to nearly \$3,000.

Mrs. Duncan McCallum died at her home north of Dutton on Monday last week. She was born in Dunwich, her parents coming from Scotland in the early forties.

The home and contents of Henry Reinhart, of the fourth concession of Adelaide township, was completely destroyed early Thursday morning by fire of unknown origin.

The death occurred at her home on Silver Street, Aldboro, on July 1st, of Mrs. D. M. Gillies, aged 40 years, after an illness of ten days. The deceased was formerly Miss Margaret Kelley.

Farmers throughout Lambton county are protesting to the different departments in Sarnia for help. Record wages are being offered, as high as \$2.50 a day and board being offered in many cases.

Chatham sugar factory has a smoke stack 15 feet high, 18 inches in diameter at the top and 14 feet in diameter at the bottom. The wall is 22 inches in thickness at the bottom and 17 inches at the top.

Mr. Riddell fortunately was close by the gate and was then able to reach the other field in time to escape further injury.

Western Crops.

Regina, Sask., July 10.—The Saskatchewan Department of Agriculture is forthrightly crop report, issued today, states that all crops are making good progress.

Wheat ranges from eight inches in height in the Eastern central districts to 30 inches in the Prince Albert and Battleford districts. A small percentage of the wheat is now in the shot blade, and all other grains are making rapid growth under improved weather conditions prevailing generally during the past week.

Damage from hail is reported from Humboldt, Cadillac, Battum, and along the Saskatchewan River for several miles, south of Swift Current and west to Gull Lake, but in no place has the damage been serious. Heavy rainfalls and high winds have been general, and have delayed plowing of summer fallows and breaking. Weeds are showing up badly on unplowed lands. Continued hot weather with little or no rain is now required for all crops to accelerate maturity and bring the crops through early.

All hay crops have every appearance of a heavy yield. Alfalfa is especially good.

Mal. McKellar, Manitoba, Dead.

The death of Malcolm McKellar, a highly esteemed citizen, occurred at his home at Margaret, Manitoba, on June 20th. Mr. McKellar was born in the township of Metcalfe on October 22nd, 1831, and went to the West in 1882, where his elder brothers, Lachlan and William (now deceased), had previously gone. He homesteaded the same spring and three years later moved to the place at Margaret, where he resided until his death. The Minto Packet says: "The deceased was widely known. He was one of the old pioneers and was a man of sterling qualities, and his place in the community will be hard to fill. He took a great interest in the welfare of his country, and was very successful in farming. The beautiful home which he has left will be a memento in the future."

On Oct. 24th, 1888, he was united in marriage to Miss Mary King, daughter of Mr. and Mrs. David King. Their home was always a welcome hearthstone and they were always ready to lend a helping hand in times of sickness and trouble. Mr. McKellar was not in the best of health for a number of years, but was able to be around and attend to his duties until about two months ago.

The funeral was held on Thursday at the family residence, with his pastor, Rev. Mr. Hanna, of the Presbyterian church, Margaret, preached a very touching and impressive sermon.

He leaves to mourn his loss, a loving wife and family of six sons and two daughters, viz: William of the 10th Batt. now at Camp Hughes, Gordon, Stanley, Melvin, Archie, Robert, Edie, and Margaret, at home. Besides his family he leaves six brothers and two sisters: Angus of Nesbitt, Lachlan of Margaret, John of Greenwood, B. C. Archie, Duncan and Neil of Glencoe, Ont., Mrs. Neil McCallum of Margaret, and Mrs. Donald Mitchell of Francis, Sask.

Thirty Years Ago.

Quite a heavy frost on July 12th.

Old G. T. R. station gets a new coat of paint.

Survey starts for C. P. R. from London to Windsor.

Camp meeting at Middlemiss sets several people crazy.

Members of 26th battalion band, headquarters at Strathroy, resign while at camp.

Glencoe Manufacturing Company does large business in the manufacture and sale of reapers, mowers and hay rakes.

Heavy rain and electrical storm after long drought, does great deal of damage in Glencoe and vicinity. In South Ekfrid J. R. Squire and James Leithbridge are stunned by lightning and Duncan Graham's barns are burned.

The price of paper has increased to such a high rate that this course is imperative.

It was at the piano. Mother's darling firmly refused to do her practice. "What a naughty little girl you are!" chided the mother. "Don't care," grumbled the youngster, as she gave the piano a kick. "Now, treasure, you shall have a nicker if you'll do your exercises nicely," urged mama. "Shan't," retorted treasure, getting off the piano stool. "I can make more than that taking castor oil."

Birthday Was Honored.

The seventieth birthday anniversary of Joseph Watterworth, of Euphemia, was fittingly celebrated on Tuesday, July 11th, when his brothers and sisters and nephews and nieces and relatives of Mrs. Watterworth to the number of about sixty gathered at his home and enjoyed a day of sociability and recreation. During the day Mr. Watterworth was presented with a Morris chair and Mrs. Watterworth with a dinner set in stone china. Her people also presented the couple with a nice purse of money.

Mr. McRobie, Mrs. Watterworth's brother, of Detroit, was a capital entertainer in speech and song. A five o'clock dinner was served on the lawn, and the gathering dispersed after wishing the worthy couple all good success and many happy returns of the day and uniting in singing "Auld Lang Syne."

Among those present from a distance were Joseph W., son of Detroit; Miss Craig, Mrs. Leasley and Mr. and Mrs. McRobie, of Detroit; Mrs. Stuart, of Winnipeg, and Mrs. Charles Watterworth, of Beausville.

Mr. Watterworth has been an invalid and confined to the house for nearly two years, and the gathering for this reason was all the more timely and appreciated.

The Call of the One-One-Four.

When you see our soldier laddies marching up the village street, And their happy, smiling faces, And when you feel that you could wring from their eyes the tears of grief, Well, you'd never have that feeling if you'd join the One-One-Four.

When you see our boys, you're needed: Yes, you'll see our boys, you're needed: And when you've formed the Khaki, Glad you're a doing something To help the poor oppressed, And one of Britain's best, And you only will be sorry That you didn't join before, You'll say the fellow's right That joins the One-One-Four.

Don't you hear your old chums calling From the front line battle line? You'll see our boys, you're needed: Reinforcements all the time: Many men went over, Some never coming back, Don't you feel it's up to you To go and fill the gap? Don't you give the boys a chance To see the yellow flag blown, But be true—Hear 'em—Ready, Join the One-One-Four.

Hilda Lee, age 16, Galesburg.

Metcalf Council.

Council met June 26, 1916. Members all present. Minutes read, approved and signed.

Orders paid: Angus McCallum, \$1, graveling road, div. 5; Dugald McCallum, \$1, S. S. L., 1915; Geo. Lewis, \$200, township grant S. S. No. 8; J. Freer and W. Tibball, \$76.10, balance on culvert Brigham drain, W. A. McCallum, \$1.00, rolling sidewalk 20' and putting in culvert opp. lot 20, con. 13 and 14, div. 5; John A. McCallum, \$4, man and material day on grader, sidewalk 20, div. 5; W. Brigham, \$2, repairing culvert Brigham drain, div. 1; W. Tibball, \$8.50, putting in one culvert Knight sidewalk, one on Kellam sidewalk and grading on Kellam sidewalk, con. 3 and 4, div. 1; J. J. Heattie, \$200, work on Brown drain; Pedlar People, \$99.50, 5 culverts; W. Tibball, \$5, drawing and putting in 2 culverts Carthage sidewalk, div. 1; John A. McCallum, \$10.50, ditching opp. lot 5, con. 1 and 2, div. 1; C. C. Munro, \$20, township grant S. S. 17; John H. Denning, \$8, filling holes Butt line, div. 2; John Dewar, \$30, township grant S. S. No. 5; E. Moore, \$64.00, trustee order S. S. No. 14; James Walker, \$172, trustee order S. S. Perry, \$2, repairing sidewalk 1, con. 12, div. 4; Tom Towers \$7.65, furnishing and putting in 400 4-in. tile opp. lot 14, townline Metcalfe and Ekfrid, Metcalfe share, div. 4; M. McIntyre, \$100, township grant S. S. No. 3; Tom Taylor, \$5, repairing Plum Orchard bridge and road, con. 5 and 6, div. 2; H. Thompson, \$5, clerk's fees McGill ward drain; R. Denning, \$2, trip to Chamber's gravel pit.

The engineer was asked to make an estimate and assessment on the Morrow drain, including only work on Joe Blain's property. Mr. Blain having served the council with a notice that if said work was not done he would enter action for damages.

Council adjourned to Monday, Aug. 7, 10 a. m.

HARRY THOMPSON, Clerk.

Pupils Honor Teacher.

The pupils of S. S. No. 4, Walkers, and the people of that district, gathered at the school on Thursday evening, June 23rd, to bid farewell to their teacher, Miss Jean Rae. Lunch was served on the lawn, after which all assembled in the school house, where a good program was given, the principal item being a presentation by the pupils to Miss Rae of a pearl ring and jewel case. An address accompanied the presentation, expressing recognition of Miss Rae's earnestness and proficiency as a teacher, which was manifested by the gratifying progress made by the pupils under her care.

Twenty Years Ago.

Wheat harvest in full swing.

A Tenderfoot's Wooing

By CLIVE PHILLIPPS WOLLEY
(Author of "Gold, Gold in Cariboo," Etc.)

CHAPTER XXIII.—(Cont'd.)

To this uncomfortable state of things Dick Rolt returned, acquiescing in all the arrangements which combed had made.

"I did not tear down the stable until you came, but they ought to go along with the other buildings if you think that the Indians are still likely to make trouble."

"They may be here any minute. They are too strong to sit down under the dressing we gave them. There must be fifty armed men at least, and they know that there are only four of us, and one of us wounded. How is 'Al now?'"

"Oh, he will do all right. It was only a flesh wound. He has lost a lot of blood, but the old chap says that he has plenty more. But if we tear down the stables what are we going to do about the horses?"

"Turn them loose to rustle for themselves, and take their chance of being shot. We can do nothing else. It won't do to leave ourselves without horses. We might have to ride for our lives, after all."

"It can't come to that."

"It might, Rolt. Think of the women."

Rolt groaned. "I'm never thinking of anything else, Jim. What do you advise?"

"Well, if you ask me, I should knock out a partition or two, and make the dining-room and one of the others into a stable. It will play the devil with the house, but we can fix that up again when the trouble is over. If you say the word I'll have feed brought in, and horses for the ladies and half the men."

"Why half?"

"We can't manage more, and we shouldn't want them. If it comes to a show down some of us will have to stay to hold the Indians whilst the others get through."

"Which horses shall we bring in?"

"Mrs. Rolt's, Miss Kitty's, your own, that stallion (he will be mended by now), and two more. The two sorrels I should think are best."

"What about Mr. Anstruther's hunter?"

"His looks won't pay for his keep. He ain't the horse for his job. We aren't going for hunting or hurdle jumping, and he'd play out before he got half way. The country breeds are the only ones that could stay the distance."

"I think you underrate my horse's staying powers."

Anstruther had come in unobserved and heard the last remark, and though very calm in speech, he was very white and his eyes glittered angrily.

"Maybe, but I wouldn't have thought him any more good for his job than them things you was hauling out of your trunk for Miss Kitty to look at. All right in the shires, no doubt, horses and pink coat, and patient leather pumps, but not built for business," retorted Combe coldly.

Anstruther flushed and bit his lips.

To pass the time during the silence he had been overhauling his trunk, and at the moment when Jim came upon them he had been showing Kitty Clifford a red coat which he had brought with him at her request, or the fancy dress ball at Victoria.

But he left Combe's remark unanswered. Instead of a direct reply he asked Rolt, if as no Indians were in sight, he did not think someone might get through to Soda Creek to send down the road for help.

"I was thinking of it, and mean to send some one as soon as it grows dark if the coast is still clear."

"Then, sir, if you will allow me, I can save stable room for Ruddy-gore, I will take myself to Soda Creek to-night."

"Nonsense, Anstruther. You could not ride half the distance. Your accident—"

"Oh, d—n my accident! I beg your pardon, Mr. Rolt, but I cannot be an invalid forever. I am perfectly able to ride if I cannot do anything else, and I would rather ride my horse to Soda Creek than abandon him."

For a moment Rolt's handsome face clouded. He was himself a hot-tempered man, but he had learned since his marriage to hold himself in check

The Farm

Feeding for the Test.

Feeding cows when under official test is subject of perennial interest to breeders of dairy cattle who value performance ahead of all other things. The methods followed by Fred Blower, New York State dairyman, will therefore be of interest. They are described by H. E. Babcock in the Breeders' Journal. He writes:

"Unlike many breeders, who lay special stress on the preparation of the cow before calving, Mr. Blower believes that one of the most essential things for a successful official test is the ration. This he states must be something that the cows like and do not tire of. Of course, he does not neglect the preparation. He likes to have his cow dry at least two months before she freshens, although he has made some very good records when this has not been the case. When once the cow is thoroughly dry he gradually works her up until he gives her all that she will eat of the following ration: Equal parts of oil meal, wheat, bran, and hominy. This is fed to her three times a day with ensilage twice and hay at noon. With this ration Mr. Blower has never experienced any trouble with his cows at freshening time, and although they make up large udders, has never milked off them out.

"After the cow has freshened, Mr. Blower begins to gradually change from the preparatory ration to his regular test ration. This later ration is made up of 200 pounds of grain—250 pounds of gluten, 200 pounds of Biles or other good brewery grain, 100 lbs. of oil meal, 100 lbs of cotton seed, 100 lbs. of hominy and 100 lbs. of bran, making a total of 1,000 pounds, and is fed three times with beans and once with ensilage. Alfalfa hay is never fed but in small quantities. This is not Mr. Blower's regular dairy ration, he states he believes it would be a very good one to feed with ensilage and mixed hay, were it not for the difficulty of securing such variety of feeds.

Ordinary by the end of six days the cow is completely on this ration and is ready for the tests. During the period between the time of freshening and the completion of the official test, she is milked four times a day and fed just before each milking. Each day she is given some exercise. Mr. Blower, however, takes great care in this matter and is especially careful not to let his cow out where she will get in drafty places or become suddenly cooled. Unless the day is very favorable indeed, the cow receives her exercise in the barn."

"In the matter of milkers, Mr. Blower again differs from a good many breeders in that he believes a change of milkers is beneficial. He states that it is his observation made on over fifty cows that where the milkers change occasionally a better milk flow is secured.

"Another point about which Mr. Blower is very careful, is letting the cow down at the completion of the test. He believes that more cows are ruined at this time than at any other period in official test work. He begins by gradually reducing the feed, continuing the four milkings a day until the cow falls below fifty pounds, when he believes she can safely be left to two milkings."

What Makes Milk Yellow?

That the rich yellow color demanded by the public in dairy products is primarily due to the character of the cow's feed is demonstrated by recent experiments carried on by the U. S. Department of Agriculture in co-operation with the Missouri State Experiment Station. For some years dairy experts have been studying this question. Their conclusion is that, although to some extent a breed characteristic, the intensity of this yellow color may, within certain limits, be increased or diminished at will by changing the animal's rations.

Chemical tests show that the yellow pigment in milk consists of several well-known pigments found in green plants. Of these the principal one is carotin, so called because it constitutes a large part of the coloring matter of carrots. The other yellow pigments in the milk are known as xanthophylls. These are found in a number of plants, including grass, but are especially abundant in yellow autumn leaves.

These pigments pass directly from the feed into the milk. This explains the well-known fact that fresh green grass and carrots increase the yellowness of milk, the only standard by which the average person judges its richness. On the other hand, a large proportion of these pigments is deposited in the body fat and elsewhere in the cow. When the ration is changed to one containing fewer carotin and xanthophyll constituents, this hoarded store is gradually drawn upon and consequently the yellowness of the milk does not diminish so rapidly as it otherwise would. This yellowness increases, however, the instant the necessary plant pigments are restored to the ration.

Green grass is probably richer in carotin than any other dairy feed. Cows fed on it will therefore produce the highest color butter. Green corn, in which xanthophylls constitute the chief pigment, will also produce a highly colored product. On the other hand a ration of bleached clover hay and yellow corn is practically devoid of yellow pigments and the milk from cows fed upon it will gradually lose its color. It is, of course, indisputably true that the breed does influence the color of the milk, but vary the ration and there will be a corresponding variation in the color of the milk fat in each breed.—Dairy Record.

German Spy's Recent Feat Has Been Out-done Many Times.

ABOUT EATING PAPER.

It is with a mitigated commiseration that one reads the story of how von der Goltz, the German spy, finding himself recognized in Petrograd, "spent some hours eating two parcels of incriminating papers which he dare not burn in the grate."

As a feat of mastication von der Goltz by no means holds the record, says the London Observer. Paper is easily reduced to pulp and swallowed (the ink acting as an appetizer), and the only difficulty in this case was the quantity. Leather is another matter, but apart from meals of hard-pressed explorers there are authenticated instances of meals of the kind. One took place at a Covent Garden hostelry famous in the fashionable annals of the eighteenth century. A tipsy gallant, enraptured by the charms of a certain lady, snatched off her shoe, and filling it with champagne, drank a bumper to her health.

"Then, to carry the compliment still further," so runs the tale, "he ordered the shoe itself to be dressed and served up for supper. The cook set himself seriously to work upon it. He pulled the upper part, which was of damask into shreds, and tossed it up in a ragout, minced the sole, cut the wooden heel into very fine slices, fried them in butter and placed them round the dish for garnish."

Still more formidable, and much less romantic, was the dinner of the shoe maker of Don Carlos, the son of Philip II. of Spain. This is the incident as Dr. Rappoport relates it:

"The young nobleman of that time wore boots with high, wide legs, so as to allow a small pistol to be concealed in them. A shoemaker having sent the Prince a pair of boots with narrow legs, Don Carlos went into a fit of fury, ordered the boots to be cut up into small pieces, cooked and sent over to the shoemaker for him to eat. According to some accounts the latter was actually forced to swallow his own boots."

What may be described as a paper meal de luxe was that of the famous Fanny Murray mentioned by Horace Walpole: "I liked her spirit in an instance I heard of 'to-day night. She was complaining of want of money, Sir Richard Atkins immediately gave her a twenty-pound note. She said: 'D— your twenty pounds! What does it signify?' clapped it between two pieces of bread and butter and ate it."

Cows Needs to Kick for Long.

The many methods recommended for curing the kicking cow of her worst offence are all applicable, only in individual cases, except the advice to stay with the animal until she is tired of presenting opposition to the operation. Tying strings round the body of the cow, hobbling hind or front legs, holding up her head, or other drastic procedure only results in harm to the cow, and very often injury to the milker.

If the cow is tied in the ordinary way, and next to a solid wall on her left side, she has to be a pretty strong animal if a husky milker cannot keep her in place with his head, until she is ready to give down her milk quietly. The longer the trial will last the more will the milk supply bother the cow, so the operator can afford to go slowly.

There are exceptional cases, but such ones make beef, and prices for this commodity are such that they are not to be despised. A good butcher will soon take the kick out of the very worst subject.

For Preserving, Use LILY WHITE CORN SYRUP

One-third "Lily White" to two-thirds Sugar, by weight.
"Lily White" Corn Syrup prevents fermentation and mold—brings out the natural flavour of fruits and berries—and makes much more delicious Preserves, Jams and Jellies than you can make with all sugar.

In 2, 5, 10 and 20 pound tins at all dealers.

HYMN OF THE GERMAN SWORD

Extraordinary Example of German Conceit.

This composition was published in Leipzig in October, 1915, and had a run of several editions. It is possibly the most extraordinary example of that arrogant conceit and maudlin pride which obsessed Germany early in the war.

"Germany is so far above and beyond all the other nations that all the rest of the earth, be they who they may, should feel themselves well done by when they are allowed to fight with the dogs for the crumbs that fall from her table."

"When Germany the divine is happy then the rest of the world basks in her smiles; but when Germany suffers, God in person is rent with anguish, and wrathful and avenging. He turns all the waters into rivers of blood."

"It is no duty of mine to be either just or compassionate; it suffices that I am sanctified by my exalted mission, and that I blind the eyes of my enemies with such streams of tears as shall make the proudest of them cringe in terror under the vault of Heaven."

"I have slaughtered the old and sorrowful; I have struck off the breasts of women; and I have run through the body of children who gazed at me with the eyes of the wounded lion."

"Day after day I ride along on the shadowy horse in the Valley of Cyprus; and as I ride I draw forth the life blood from every enemy's son that dares to dispute my path."

"It is meet and right that I do cry aloud my pride, for am I not the flaming messenger of the Lord Almighty?"

Doctor Tells How To Strengthen Eyesight 50 per cent In One Week's Time In Many Instances

A Free Prescription You Can Have Filled and Use at Home.

Philadelphia, Pa. Do you wear glasses? Are you a victim of eye strain or other eye weakness? If so, you will be glad to know that according to Dr. Lewis there is a new hope for you. Many whose eyes were failing say they have had their eyes restored through the principle of this new, certain, free prescription. One man says, "After trying it, I was able to read the smallest print without any glasses, and my eyes do not water any more. At night they would pain dreadfully; now they feel like all the time. It was, by a miracle to me." A lady who used it says: "The atmosphere seemed heavy with or without glasses, but after using this prescription for three days everything seems clear. I can even read the smallest print without glasses. It is believed that thousands who wear glasses can now discard them in a reasonable time and maintain more will be able to do so. It is sold in Toronto by Walrus Drug Co.

to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. Eye troubles of many descriptions may be wonderfully benefited by following the simple rules. Here is the prescription: Go to any active drug store and get a bottle of Bon-Opto Tablets. Drop one Bon-Opto tablet in a fourth of a glass of water, and stir. With this liquid bathe the eyes two to four times daily. You should notice your eyes clear up perceptibly right from the start and inflammation will quickly disappear. If your eyes are bothering you, even a little, take steps to save them now before it is too late. Many hopelessly blind might have seen loved if they had cared for their eyes in time.

Note: Another product, Phosphorus to whom the above article was submitted, said: "Bon-Opto is a very remarkable remedy. Its constituent ingredients are well known to ophthalmologists and are superiorly prepared for their use. The manufacturer guarantees it in strengths enough to pay out in one week to save them now before it is too late. It can be obtained from any good druggist and is one of the very best remedies to use. It should be kept on hand for ready use. It is sold in Toronto by Walrus Drug Co.

POULTRY

Sunshine a Foe of Mites.

Everyone knows the grey poultry mite which takes on a distinct reddish cast after the meal of blood. It is commonest in dark, damp, dirty poultry houses, where it thrives upon filth, and the best remedies are sunshine, ventilation and cleanliness. The hen house should be so constructed that there will be no cracks or crevices in the roosts or elsewhere to furnish hiding places for the mite during the daytime, when they are not on the fowl. They feed at night, crawling from fowl to fowl, so that one infested bird may introduce them into the entire flock.

Sunshine is one of the best disinfectants as well as a great foe to the mite, and it should be given access to past as much of the hen house as possible. Regular spraying with kerosene emulsion, strong tobacco solutions, or commercial stock dips will help greatly. Commercial lime-sulphur and miscible oils put on the market in such form that they mix readily with water for use in spraying orchards are also helpful in combating the mite.

Kerosene emulsion properly prepared at home will give as good results as anything which can be purchased. Following are the directions for making it: Dissolve half a pound of laundry soap, or a pound of lye soap, in a gallon of soft water; take the solution off the fire and add two gallons of kerosene before cooling. Mix them thoroughly by churning ten or fifteen minutes and use one part of the emulsion to eight or nine parts of water when ready to apply.

One part boiled lime-sulphur made exactly as for orchard spraying may be mixed with eight parts of water, and the commercial stock dips may be used in accordance with printed directions usually furnished with them. Strong tea made by boiling tobacco stems in water give good results, and whitewashing should not be neglected.

Spray pumps of many different sizes and types will give good results. Bucket pumps, knapsack sprayers and automatic sprayers will be useful in the garden and orchard as well as in the hen house, although a longer hose or extension rod will be needed in the orchard. A barrel pump or power sprayer may be used with good results if it is already on hand, but is more expensive than the average farm needs for hen house work.

Poultry Notes.

Now is the time to plan on housing for the fall and winter months. Birds reared in fireless brooders are very apt to be slow in taking to the roosts.

Mark your best layers with leg bands. In other words, cull the drones.

Look over the flock for vermin. Lice and mites will cause havoc in the flock.

Impure drinking water will surely result in disease in the flock. Scour the vessels often.

Eliminate culls as early as possible. They consume lots of feed, more than they are worth.

Don't expect your chicks to do well on nothing but grain. They need animal food and plenty of greens.

If you are through using eggs for hatching, it is advisable to take the males from the breeding pens.

You can't master the poultry business in a day; you must start at the bottom and gradually climb up.

Some of the growing stock will soon be ready for the market. Select carefully. Sometimes a cockerel will not look very promising, but later will develop into a good breeding bird.

Remember, the properly fed pullets develop into the best layers. Some say well-fed, but a pullet may be well fed on fat-forming feeds and not get productive; properly fed means fed well on the right kind of feed in the right way.

Don't overcrowd. Your colony houses may have been large enough for the chicks a month back, but are they spacious enough now? Give the growing stock plenty of room. It will do much to help to develop the birds early and keep them healthy.

Long Way Down to Z.

Mr. Capron and his wife struggled valiantly to teach their little daughter Edith to repeat the letter "Z". Try as they might, the little girl refused to pronounce the first letter of the alphabet, and after several vain efforts Mr. Capron retired from the struggle discouraged.

Mrs. Capron called the child to her and, in an affectionate manner, asked:

"Edith, dear, tell mother why you won't learn to say 'Z'."

"Well, mother," explained Edith, "it's because just as soon as I say 'Z' you and father will want me to say 'Y.'"

The Neighbor's Boy.

Willie (to Mrs. Bayberry, who lives next door)—Where did you get your tongue?

Mrs. Bayberry—What do you want to know for?

Willie—It was mother who wanted to know.

A witty girl may be a drug on the matrimonial market.

What Makes Milk Yellow?

That the rich yellow color demanded by the public in dairy products is primarily due to the character of the cow's feed is demonstrated by recent experiments carried on by the U. S. Department of Agriculture in co-operation with the Missouri State Experiment Station. For some years dairy experts have been studying this question. Their conclusion is that, although to some extent a breed characteristic, the intensity of this yellow color may, within certain limits, be increased or diminished at will by changing the animal's rations.

Chemical tests show that the yellow pigment in milk consists of several well-known pigments found in green plants. Of these the principal one is carotin, so called because it constitutes a large part of the coloring matter of carrots. The other yellow pigments in the milk are known as xanthophylls. These are found in a number of plants, including grass, but are especially abundant in yellow autumn leaves.

These pigments pass directly from the feed into the milk. This explains the well-known fact that fresh green grass and carrots increase the yellowness of milk, the only standard by which the average person judges its richness. On the other hand, a large proportion of these pigments is deposited in the body fat and elsewhere in the cow. When the ration is changed to one containing fewer carotin and xanthophyll constituents, this hoarded store is gradually drawn upon and consequently the yellowness of the milk does not diminish so rapidly as it otherwise would. This yellowness increases, however, the instant the necessary plant pigments are restored to the ration.

Green grass is probably richer in carotin than any other dairy feed. Cows fed on it will therefore produce the highest color butter. Green corn, in which xanthophylls constitute the chief pigment, will also produce a highly colored product. On the other hand a ration of bleached clover hay and yellow corn is practically devoid of yellow pigments and the milk from cows fed upon it will gradually lose its color. It is, of course, indisputably true that the breed does influence the color of the milk, but vary the ration and there will be a corresponding variation in the color of the milk fat in each breed.—Dairy Record.

The All-Purpose Sugar

RUSSIAN OFFENSIVE AGAINST GEN. HINDENBURG

In the Region of Dvinsk Part of the German First Line Trenches Were Captured.

A despatch from London says:— Surprising even in importance, the allies' great effort on the western front, the news from the eastern battlefield shows that the Russians have extended their offensive on an extensive scale. On the whole front from Riga to Baranovichi, a distance of about 800 miles, the Russians are being hurled against the German lines. Further to the south General Kaledines is driving steadily forward toward Kovell and has captured two villages and a railroad station on the Sary-Kovel road. Military critics of the allies assert that unless the Germans can halt the Russian advance in the immediate future they will have to withdraw their lines along the entire eastern front and probably abandon Lemberg.

In the tremendous offensive against Field Marshal von Hindenburg's forces General Evert is leading the Czar's troops in furious attacks extending along a hundred-mile front from the Vilna line in the north to Baranovichi in the south. Preceding their infantry assaults by a bombardment of such intensity during its 24 hours' duration, that the Germans were blinded and stunned into helplessness, the Russians hurled themselves at the enemy's lines in such overpowering numbers that the first-line trenches held by the Germans were penetrated with astonishing ease. The few German soldiers who recovered from the shock of the assault quickly enough to offer a half-hearted resistance, were swept aside at the point of the bayonet as the Russian wave surged through the shattered lines.

So overwhelming was the Russian attack in the region south-west of Lake Narocz, where Petrograd claims the greatest successes in the new drive, than an enormous number of prisoners and a vast amount of booty

were taken by the attacking forces. Furious fighting is continuing along this whole line. The Germans, speedily rallying from the first Russian onslaughts, are launching counter-attacks in rapid succession in an attempt to win back the lost positions. Unless the Russians can be checked immediately at the vital points where their first thrusts have succeeded, it is believed that their whole lines in the northern sector will be greatly endangered.

Russians Strike Two Blows.

London, July 9.—Two heavy blows were delivered against the Teutonic battlefield in the east yesterday by the Russians. The first was the capture of two important villages in the drive on Kovell. The second was the capture of Delatyn, an important railway junction through which the Austrians had supplied their armies at Stanislaw and Tarnopol, protecting Lemberg. Several days ago Russian troops cut the Delatyn Railway, west of Kolomea, but not until yesterday did they occupy the junction city.

Heavy fighting continues between the Stokhod and the Styk Rivers. Petrograd officially announces to-day that the Teutons are retiring in great disorder on the Lower Stokhod, where the Czar's troops took 12,000 unwounded prisoners, including 300 officers, between July 5 and 7. Forty-five guns of heavy and small calibre and forty-five machine guns also were captured. By the capture of the villages of Golevitchi and Kacheva the Russians have further imperilled the Germans' hold on Kovell. In the event Kovell falls, military experts declare, the Germans will be forced to retire on the entire front northeast to Baranovichi in order to straighten out their lines.

\$25,000,000 PLANT WILL BE ERECTED

United States Steel Corporation Plans for Works at Ojibway.

A despatch from Ottawa says:— That erection would start immediately by the big steel plant which the United States Steel Corporation plans to erect at Ojibway, near Windsor, Ont., was the statement made by Mr. Wallace Nesbitt, K.C., on Friday. Mr. Nesbitt was in the city arranging certain departmental matters in connection with the going ahead of the work. The company over two years ago secured a large tract of land at Ojibway, but little has been done up to the present. It is understood the plant to be erected will cost about \$25,000,000.

RISING AGAINST THE AUSTRIANS

A despatch from London says:— The London Times understands that a rising against the Austrians has broken out in Montenegro. Its leaders is a former War Minister, upon whose head the Austrians set a high price. The Montenegrins who have risen have taken to the woods parts of the country. The rising is prompted by the destitution in which the inhabitants have been left by Austria.

TEUTONS LOSE 500,000 MEN IN THE RUSSIAN CAMPAIGN

German and Austrian Soldiers Captured, 230,000—Officers, 4,500—Wounded 200,000 to 220,000.

A despatch from Petrograd says:— Nearly half a million Austrians and Germans have been put out of commission since General Brusiloff began his great advance a month ago. The grand total of prisoners to date is in round numbers 235,000, of which 4,500 are officers.

The War Office announced the further capture of more than 10,000 Teuton, of whom 5,000 were taken on the Dniester front.

Without the actual figures regarding the dead and wounded, careful estimates by military experts, based on the best information, place the

SUBMARINE CROSSES OCEAN.

Germany Send the First Across the Atlantic.

A despatch from Baltimore says:— The world's first submarine merchantman, the German underwater liner Deutschland, anchored below Baltimore on Sunday night after voyaging safely across the Atlantic, passing and eluding enemy cruisers watching for her off the American coast. She carries mail and a cargo of 750 tons of coal, chemicals and dyestuffs, and a message from Emperor William to President Wilson, and is to carry back home a cargo of nickel and crude rubber, sorely needed by the German army. The Deutschland carries, mounted in her conning tower, two small guns of about three-inch calibre. No torpedo tubes are visible. She is capable of submerging in less than two minutes. On the surface of the water the submarine has a speed of from two to three knots an hour more than the average merchant steamer. Fifteen days out from Bremerhaven to Baltimore, the submarine reached safely between the Virginia Capes at 1.45 o'clock on Sunday morning.

TO CONFER PEERAGE UPON SIR EDWARD GREY

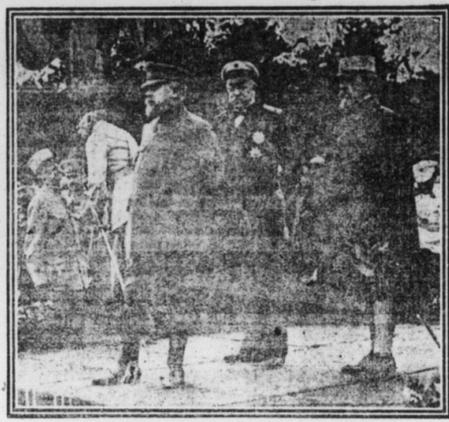

A despatch from London says:— The King has decided to confer a peerage upon Sir Edward Grey, Secretary of Foreign Affairs, according to the Daily Chronicle.

LLOYD GEORGE, EARL OF DERBY NEW BRITISH WAR SECRETARIES

Directors of Munitions and Recruiting Respectively to Conduct the Campaign.

A despatch from London says:— David Lloyd George has been appointed Secretary for War.

The Earl of Derby, director of recruiting, has been appointed Under Secretary for War.

PRESIDENT OF FRANCE REVIEWS THE RUSSIANS. One of the outstanding figures in the present great war is President Poincaré of France. Calm, dignified—the elected head of a great republic, cruelly tried in the great strife, M. Poincaré presents a picture for admiration. The Russian Ambassador, to France, and a French general are with Poincaré in the picture.—(London Daily Mirror photo.)

BOUGHT PRODUCTS GERMANY IS SEEKING.

British Money Used in Holland and Sweden to Buy Foodstuffs.

A despatch from London says:— Neutral diplomats express the belief that the existing orders-in-council will be superseded by the declaration of an actual blockade, in pursuance of Great Britain's avowed intention of strengthening her legal position. No evidence of an actual change in the administration of the blockade has been procurable since the announcement of the abandonment of the Declaration of London. However, the increased economic pressure on Germany which recently has become apparent is due, according to the best informed neutral diplomats, to the British campaign in Holland and Sweden, resulting in the purchase of products which otherwise probably would have found their way to Germany.

STROMBOLI IN ERUPTION.

People Are Fleeing to Relief Ships for Refuge.

A despatch from Rome says:— The eruption of Stromboli has become serious. The flow of lava is spreading to the sparse coast settlement, burning and destroying houses, and the population is fleeing to the sea and taking refuge on relief ships sent from Messina. Telephonic communication with Messina has been interrupted. There are many signs of seismic disturbances throughout Italy. The heat has been intense for the past two days. Earth shocks occurred Wednesday morning at Arcana, Rimini, Bellvedere, Marettimo and other Adriatic districts, but no loss of life has been reported.

WINNINGS GRAIN.

Winnings, July 11. Cash settlements:—Wheat—No. 1 Northern, \$1.12; No. 2 do, \$1.04; No. 3 do, \$1.14; No. 4 do, \$1.04; No. 5 do, \$0.96; No. 6 do, \$0.88; No. 7 do, \$0.80; No. 8 do, \$0.72; No. 9 do, \$0.64; No. 10 do, \$0.56; No. 11 do, \$0.48; No. 12 do, \$0.40; No. 13 do, \$0.32; No. 14 do, \$0.24; No. 15 do, \$0.16; No. 16 do, \$0.08.
Corn—No. 2, \$0.80; No. 3, \$0.72; No. 4, \$0.64; No. 5, \$0.56; No. 6, \$0.48; No. 7, \$0.40; No. 8, \$0.32; No. 9, \$0.24; No. 10, \$0.16; No. 11, \$0.08.
Rye—No. 1, \$1.10; No. 2, \$1.00; No. 3, \$0.90; No. 4, \$0.80; No. 5, \$0.70; No. 6, \$0.60; No. 7, \$0.50; No. 8, \$0.40; No. 9, \$0.30; No. 10, \$0.20; No. 11, \$0.10; No. 12, \$0.05.
Barley—No. 1, \$1.10; No. 2, \$1.00; No. 3, \$0.90; No. 4, \$0.80; No. 5, \$0.70; No. 6, \$0.60; No. 7, \$0.50; No.

FOOTWEAR OF QUALITY

We have the New Style Shoes for Spring, 1916. For Ladies we have a Vici Dull Kid Shoe, Good Year Welt, Bridge Heel, in Button or Lace. A very smart shoe. Call and ask for the stock number, 1007. Sizes 2 1/2 to 7.

Men's Shoes of every description are here. One of the newest models for 1916 is the compound New Process Rubber sole and heel, and made out of the very best box calf. The price is \$5.00 and \$6.00.

The Custom Made Shoe which we carry is a regular working shoe, suitable for the country. Come in and try on a pair. These shoes are guaranteed not to rip. If they should rip or the sole come loose we fix them free of charge.

STRICKEN IN THE STREET

Completely Restored To Health By "Fruit-a-tives"

382 St. Valer St., MONTREAL.
"In 1912, I was taken suddenly ill with Acute Stomach Trouble and dropped in the street. I was treated by several physicians for nearly two years, and my weight dropped from 225 pounds to 160 pounds. Then several of my friends advised me to try "Fruit-a-tives". I began to improve almost with the first dose, and by using them, I recovered from the distressing Stomach Trouble—and all pain and Constipation were cured. Now I weigh 208 pounds. I cannot praise "Fruit-a-tives" enough". H. WHITMAN.
50c. a box, 6 for \$2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

PERSONAL AND SOCIAL

LOCAL

War news in brief: All's well. Three weeks tomorrow since the last rain.
First early tomatoes are being shipped from Blenheim.
Mesa council will meet at Glencoe on Saturday, July 22nd.
Robert Dobson, near Crinan, has a field of corn four feet high.
Miss Ada Reyecraft has been engaged to teach a school near Merlin.
Glencoe has nine automobile salesmen, handling eight different makes.
A number of Orangemen went from here to Windsor to celebrate the 12th of the 13th (Middlesex) Battalion arrived at Camp Borden Sunday morning.
"Bo" is already looking forward to Christmas. "Get all the money; buy boldly."
The immigration into Canada for the past fiscal year was 48,337, the smallest since 1910.
Mrs. Leitch, at the home of William Quick, is recovering from an attack of blood poisoning.
The mercury was up among the nimeties on Tuesday—the hottest day thus far this season.
Glencoe merchants are closing their stores at 1 o'clock on Wednesdays during July and August.
Mosa and Ekfrid farmers are harvesting the greatest hay crop in the recollection of the oldest inhabitant.
Miss Lena Reyecraft has been engaged to teach the school near Wharton, taught last term by Miss Ada Reyecraft.
Miss Jean Wood, school teacher in S. S. No. 5, Ekfrid, has been engaged for another term at an increased salary.
A Popular Piano.—About one hundred homes throughout Ekfrid are satisfied owners of Gerhard-Heintzman pianos.
It is estimated that the percentage of lying increases twenty-seven per cent. over the normal average during the fishing season.
A large number of 135-h (Middlesex) Battalion men came home last week, making their last visit before leaving for Camp Borden.
John McAlpine, at the River Thames, has a field of oats from which a sample measures 60 inches in the straw. His other crops are equally good.
Teachers and secretaries of school boards are requested to send the Transcript their list of midsummer promotions for publication.
Miss Mary McEachern has resigned as principal of the Glencoe high school. The board is advertising for a staff of teachers throughout, but this does not necessarily mean that the old staff will not be re-engaged.
Charles Murray, of the Union stockyards, Chicago, has purchased through Ed. de Gex, proprietor of the Chantry Farm, Kerwood, the McDonald farm, consisting of 300 acres of land in Metcalfe. Mr. Murray is an old Strathroy boy. He will use the farm for grazing purposes.

About the House

Useful Hints and General Information for the Busy Housewife

Selected Recipes.

Children like fruit drop cakes for their school-lunches. Beat the yolks of four eggs until thick. Add the grated rind of one-quarter of a lemon and one teaspoonful of lemon juice and beat again; then work in gradually one cupful of ground nut meats and one cupful of fine-chopped dates. When thoroughly beaten stir in the stiffly whipped whites of the eggs and two tablespoonfuls of whole wheat flour. Drop by small spoonfuls on flat greased pans and bake in a moderate oven.

Peach Cream.—Two tablespoonfuls granulated gelatin, one-half cup cold water, one-half cup boiling water, one pint crushed peaches (or apricots, if preferred), the whip from one pint of cream, one-half cup sugar. Soak gelatin in cold water, dissolve in boiling water. Add fruit and sugar, stir until mixture begins to thicken. Cut and fold in the whip from the cream. Line a mold with halves of apricots or peaches, pour in cream mixture. Chill, garnish with beaten cream and halves of fruit.

Pineapple Marmalade.—Two pineapple or basket apricots, six large oranges, eight pounds sugar. Shred the pineapples, wash apricots, cut into halves without removing skins; cut oranges into small pieces, carefully removing rind and thin white skin. Put in preserving kettle pineapples, apricots, oranges; add sugar; let simmer until fruit is clear and forms a jelly substance. When cold put into glass preserving jars.

Unfermented Grape Juice.—Wash grapes and pick them from the stems. Mash the grapes and squeeze gently through cloth. Have sterilized bottles prepared. Into these put the juice, but do not fill quite to the top, then cover lightly. Place a cloth into the bottom of a kettle and fill about half full of water. Set bottles into the kettle and put on to boil. When the boiling point is reached remove the bottles and set them in cold water. (When placing the bottles put them into the water with a slanting position or they will break.) Repeat the process for three successive days, and the last time seal well.

Mexican Relish.—Thirty-six green tomatoes (medium size), five large onions, five green peppers, one cup sugar, three cups vinegar, two table-spoons salt, one teaspoon cloves, one teaspoon cinnamon, one teaspoon white pepper, one teaspoon mustard seeds. Chop tomatoes and onions fine, cover with the salt, let stand overnight; in the morning pour off the brine, add all the other ingredients but the peppers; after cooking ten minutes add the peppers, chopped fine. Let boil one hour. This relish will keep without sealing.

Apple Flambé.—For eight apples use two cups sugar, one cup water, one cup rum, little rum or brandy and one cup beaten cream. Pare and core apples, boil sugar and water together ten minutes, arrange apples in buttered baking-dish two inches apart, add syrup, cover and bake until apples are tender. Be careful to preserve shape of apples. Remove from dish, boil syrup until thick, fill cavities in apples with jam, pour syrup around them, and just before serving pour them over to a boil slowly. Light and serve. The apples are delicious without the rum or brandy served with a little whipped cream. Some housewives add chopped nuts to jam in filling.

Preserved Quince.—Pare and quarter the quince, remove the core, and take equal weight in sugar. Cover them with cold water and let them come to a boil slowly. Skim and when nearly soft put one-quarter of the sugar on the top. When this boils add another part of the sugar, and continue this way until all the sugar is used up. Let them continue to boil slowly until the color is either light or dark, as you prefer, or, another way, is to cook until tender, drain and put in a stone jar, with an equal weight of sugar, and cover. They will keep fully perfect. They will be found more tender than when cooked in the syrup. Watch the first rind to see if there is any sign of fermentation. If so, heat by setting stone jar in hot water until thoroughly sealed. In cooking quince one may add equal parts of sweet apple, which makes an excellent preserve.

Can You Make Gravy?

It is really amazing how many fairly good cooks fail in the simple art of gravy making, who, instead, serve up insipid greasy brown water that really spoils the meat. Yet it is the easiest thing in the world to make well and add immeasurably to the pleasure of a meal.

Real gravy is the juice from the meat which comes out in the course of cooking, so it is a very valuable part of the food and should not be wasted on any account.

To make these juices really nice, seasoning must be added, and in some instances a slight thickening is correct. Gravy for roast beef, mutton or lamb should be unthickened, and the best way to make it is the following: Put any trimmings, such as gristle or odd rough pieces from the meat, in-

to a small pan and simmer while the meat is cooking. They will make very good stock.

When the joint is cooked lift it from the baking tin on to a dish and keep it hot in the oven.

Then pour the hot drippings from the tin into a clean jar. Do this very steadily, so that all the brown part remains in the tin.

Put the tin over the fire and pour into it the cupful of hot stock you have got ready, or any other you may have. If you have no stock you must use boiling water. Then, with an iron spoon, scrape well over the tin, and you can also scrape the bars of the trivet, if one has been used, as the meat always leaves some of its brown covering on them. It all helps to color the gravy.

Let the gravy in the pan boil well, and if there is any fat skim it off.

Season with a little pepper and salt, and if it seems too pale in color add a little brown sugar or caramel.

Strain a little round the joint, but do not put much, or the carver will splash it over when serving. Strain the remainder into a really hot tureen or sauce-boat, and send to the table as hot as possible. Nothing is more disagreeable than tepid gravy.

Gravy served with poultry, veal and pork is usually slightly thickened.

Pour off the dripping as before, but leaving a little behind in the pan. Stand the pan over the fire and shake into it about a teaspoonful of flour and stir well into the dripping till it becomes a good brown color, but do not allow it to burn.

Then add the stock and boil up scraping the tin well. Skim away any surplus fat, add pepper and salt, and strain into a hot tureen.

Household Hints.

Use a clothiepin for scraping pants, etc.

Bread, cheese and fruit make a perfect lunch.

Cream puffs take twenty-five minutes to bake.

Cheese soup is much more nutritious than any other kind.

Muffs and calico batters require half as much liquid as flour.

Yeast bread is as a rule reckoned more wholesome than baking powder bread.

Peppers can be stuffed with almost any thing that is well seasoned and savory.

Asparagus prepared as usual on buttered toast and with grated cheese scattered over it is often a pleasant change.

Mashed summer squash should always have a pinch of sugar stirred in with the butter, pepper and salt used for seasoning.

A brilliant polish may be given to brass door fixtures ornaments, etc., by washing them in alum and lye.

Make a solution by boiling an ounce of alum in a pint of lye and wash the articles in it.

When putting away the flatirons, if the house is to be closed for any length of time, take the precaution of rubbing them over with a little lard; then there is no danger of their rusting.

It is a good plan to suspend from a nail on the kitchen wall, a pad and pencil. During the cooking, when any article of food is nearly used up, jot it down so when you make your order, nothing will be forgotten.

To make a sofa pillow that will be almost as fluffy as though stuffed with goose feathers, use cotton that has been torn in bits and thoroughly heated in an oven. It will not pack or get hard if it has been heated enough.

GERMAN FOOD SHORTAGE.

Fear Situation Will Be Made Excuse to Keep Captives Hungry.

Considerable alarm exists over the possible consequences to British prisoners of war in Germany because of reports of food shortage there, received from sources generally regarded as reliable.

ROSEBERY NOT COMING TO CANADA

SAID TO ADORN EVERYTHING HE TOUCHES.

Could Have Been Governor-General If He Were Willing to Take Post.

A cable despatch from England mentioned Lord Rosebery as a possible successor to the Duke of Connaught in the Governor-Generalship of Canada. Had this been true he would have been the first Governor-General of any of His Majesty's Dominions who had previously held the British Premier-ship. Reorganization (in some shape or other) of the Empire after the war seems in the air, and one can well believe that the British Government would have wished for the presence in the largest of the self-governing Dominions of the Crown of one so well versed in the problems of Empire at such a time.

But one cannot forget that Lord Rosebery is no longer a young man—he entered his seventieth year on the seventh of last month.

One thing is pretty certain—if he had come to this country, he would have been as amazingly popular as he has been everywhere else all his life long.

People have differed a good deal about Lord Rosebery as a politician. But there is only one opinion about him as a man—that "he's a jolly good fellow, which nobody can deny."

His easy and free manner, which yet never degenerates into the free-and-easy, his distinguished appearance, his well-graced oratory, his love of sport, his fund of humor, and good humor, his ready wit, his winning ways generally—all these attri-

butes have long ago combined and conspired to make him probably a more personally popular man with a larger number of his compatriots than any other figure in the public eye.

Maker of Epigrams.

As an all-round speaker there is nobody in the United Kingdom to touch him. Every resource of the orator is at his command, and he excels in every style of speech-making, whether the speech in question be one in Parliament, on the political platform, at a recruiting meeting, or after a dinner.

He can be impassioned, ironical, dramatic, and jocular, by turns and at will. And always he carries with him the good-will, if not always the assent, of his audience.

Yet Lord Rosebery does not love making a big speech. He is always fearful that his hearers may find it boring—a quite ungrounded fear, by the way. Nor does he love listening to a big speech. That nearly always bores him.

When Mr. Gladstone formed his Ministry, a new Lord Chancellor (Lord Herschell) presided over the debates of the House of Lords. The first evening he took his seat on the Woolpack, all the big guns among the peers thought fit to address the House. "There, now you have heard the worst of them," said Lord Rosebery at length, slipping over to his colleagues to proffer comfort.

But, whatever his opinion of the great speeches he has made, he is undoubtedly not a little proud of his reputation as a maker of epigrams.

He was a prime favorite with Queen Victoria. She summoned him to the Premiership of her own motion, without asking the advice of Mr. Gladstone, the retiring Premier, who, as it happened (as we know from Morley's Life of Gladstone) meant to recommend Lord Spencer to the Queen. It was whispered, in his

THE FASHIONS

Fashions in Summer Fabrics.

Summer finds us very much inclined towards stripes, in linens, pongees, tussahs, volles, crepes and the various imported and domestic novelty cottons. The ground of these materials is usually white, or the natural crash or linen color, and the stripe, either a vivid or a soft tone, according to the purpose of the frock, or the fancy of the wearer.

These striped materials are usually combined with a plain fabric, corresponding with the color of the stripe, or the ground. On the Russian blouse models, and the other designs, Norfolk, and the various poplin models, now so well liked, the striped silk or linen is used for the coat, and the plain for the skirt, or vice versa.

Another Find in the Upholstery Department.

Last summer we took crotone from the upholstery department and transferred it in great quantities to the dressgoods counter; still on the lookout for novelties, we discovered this season that the plain and striped cotton and linen homespuns, intended for summer cottage furnishings, were charmingly suited to sports suits and skirts, being especially practical for those which require a bit harder wear than the ordinary linen or silk garment will stand.

These also have the natural crash and linen grounds, and are striped in the same tones, bearing the softer shades. The black and white combination is especially smart, and there are bright green, purple, orange, and a wide choice of the other

OLD AS DAYS OF JEREMIAH.

Book in Synagogue at Shechem is Jealously Guarded.

In an ancient Samaritan synagogue at Shechem a double roll of parchment is guarded jealously and is as zealously preserved. It was to Shechem that Abraham came in his first visit to Canaan.

Near Shechem Jacob sank his famous well, and the returning Israelites heard here for the last time the voice of Joshua. Shechem was the first residence of the Kings of Israel and was a city of refuge. Here, at Jacob's well, Jesus met the woman of Samaria. Here the great Justin Martyr was born. After the division of Israel into two kingdoms, Shechem became the religious centre of the northern kingdom, and Jeroboam's self-appointed faith degenerated into the Samaritan worship of our Lord's day, which is perpetuated in the old synagogue which holds this scroll.

This double roll of parchment, says the Christian Herald, possibly the oldest in the world, contains the first five books of the Old Testament and may be as old as the days of Jeremiah, who said: "This word came unto Jeremiah from the Lord, saying, Take thee a roll of a book and write therein."

CUPID CONSCRIPTION NOW.

Merchants, Taken For Army, Marry For Business Reasons.

Cupid and Mars have always gone hand in hand, and the present war, as far as at least, as England is concerned, has proved no exception to the rule. At the beginning of the war, when hundreds of thousands of young men were volunteering, the marriage rate went up with a bound. Couples who had been engaged for years and were waiting for the time when their material circumstances would justify the taking on of new responsibilities, decided to marry before the man went to war, and thousands of love matches were thus completed.

To-day Cupid is trotting along with one hand in that of Mars and the other held by Commerce. The coming of conscription for all has led to another crop of marriages for other motives, for the men with little business, who expect to be called to the colors at once are taking to themselves wives in order that they may have someone whom they can trust to leave behind in charge of these businesses. Everywhere in the little news-vendors' shops, sweet shops and small groceries and tobacco shops one sees new faces, the faces of young and capable looking women who are busy learning the mysteries of commerce under the tutelage of the men who formerly ran the businesses.

POIU REFUSED TREATMENT.

Paris Paper Attacks the Sentence Imposed Upon Him.

The sentence of two years' imprisonment inflicted recently by the court-martial of Tours, France, on a soldier for refusal to submit to electrical treatment has caused some comment. The Paris Temps, in an editorial, points out that the Tours judges dealt with the soldier as if he were on active service and not on the hospital beds, inflicting the full penalty provided by the military code for disobedience. The editor detected, it says, an attempt at fraud on the part of the prisoner, or else they themselves failed to consider the case in all its bearings. It is not permissible for a patient refusing to submit to a treatment both painful and dangerous, or a wounded man refusing to submit to an operation, to be classed as guilty of ordinary disobedience. The right of a human being to dispose of his own body as he thinks fit is both unquestionable and unquestioned.

WEAR FLEET FOOT SHOES

FOR EVERY SPORT AND RECREATION

rose-bud and white dimity trimmed with frills of Valenciennes lace and insertion, is being displayed in the smart shops, for the little miss of two or three summers.

The flowered, printed or embroidered crepes and volles are very pretty used this way, and there are printed silks being combined with plain tafetas and satins, in the same way, for afternoon frocks.

Handkerchief Linen for Blouses.

For blouses, both of the sports type and the more dressy models, the striped and figured handkerchief linens are modish. These have usually whitened grounds with colored stripes, floral, or conventionalized patterns.

The stripes are much more in evidence than the figured linens. For the costume blouse Georgette crepe is the general favorite. In white or the soft tones of pink, blue, café au lait, Nile green, and the various other pastel shades, this material washes perfectly; the dark tones are excellent, and are practical for the tailored suit, being selected to harmonize, or match the shade of the suit.

Linen and Georgette are often combined most effectively in the smart afternoon models for country club and like wear. One unusually attractive costume shows a Russian blouse of mauve color Georgette worn with a full, short skirt of mauve linen; another imported model, made on Russian blouse lines, shows the novel combination of foulard and muslin; the blouse is of the muslin and the skirt of foulard.

Trimmings for Lingerie Dresses.

Much narrow Valenciennes and flit lace edging and insertion is used to trim the dainty muslin and voile dresses this summer. It edges the frills of bodice and skirt, finishes the collar and cuffs, joins the seams, or is applied in any way that strikes the individual fancy. Embroidery is another strong trimming feature. Scarcely a blouse or tub-frock but shows a touch of white or colored handwork on collar, cuff, belt, or at the closing.

Novelty buttons, embroidered or stenciled, lend a touch of effective color to the dark linen or serge frock, and light crystal buttons add a pretty finish to the voile and crepes.

These patterns may be obtained from your local McCall dealer, or from The McCall Co., 70 Bond St., Toronto, Ont., Dept. W.

THE BRIGHT SIDE OF LIFE.

With all its cares and woes, Its disappointments grim And all the grief it knows, The hopes, far off and dim, With all its bickerings small, Its hours of hateful strife, There's something after all That makes a joy of life.

There's something every day Or so it seems to me That truthfully I say I'm glad I've lived to see. Despite the care and pain, The heartache and the tear, The sun comes out again And I am glad I'm here.

There have been times I thought The end of joy had come, That all in vain I'd wrought, And sick at heart and glum I've heard the robin's song, The baby's prattling voice, And that I've lived along To hear them I rejoice.

It's all worth while, I find, Each burden that I bear; The tears that come to hind, The dreary hours of care Depress me for a time, Then splendid joys appear And life becomes sublime And I am glad I'm here.

The Wherefore.

"Fluddub's home seems badly neglected."

"Well, his wife is interested in prison reform, better roads, pure politics and clean plays."

Responsibility is always lying about waiting for some wide-awake young chap to come along and take it on his shoulders.

Many a man after attaining a high position in life forgets all about the laws of gravity until it is everlastingly too late.

Sure Sign.

"Harold isn't doing so well in school as he did."

"Did the teacher say so?"

"No, but the boys have quit teasing him about being teacher's pet."

Freedom is the very essence of humanism as it is the very essence of the gospel.—Henry Mills Alden.

From the Ocean Shore

BITS OF NEWS FROM THE MARITIME PROVINCES.

Items of Interest From Places Lapped By Waves of the Atlantic.

New Brunswick has almost 3,000 automobiles now.

Five Austrians escaped last week from the mines at Minto, N.B. Tuttle's lumber mill at Moncton, N.B., was completely destroyed by fire.

A. F. McCuspie, for many years postmaster at St. Peter's, N.S., is dead.

Jas. W. Rutherford, a highly respected citizen of Passmore, died.

The current revenue for St. John's, Nfld., is \$16,000 behind what it was last year.

Abraham Lingley, a lifelong resident of Westfield, N.B., died at the age of 80.

Newfoundland fishermen are becoming discouraged at the poor yields from lobster fishing.

Two-year-old Roy Scott, of Fredericton, is dead as a result of drinking a quantity of turpentine.

Fire did considerable damage in a building of the Consumers' Sack Supply Company at St. John's, N.B.

Malcolm McPherson, an aged P.E.I. man, has been sentenced to die Sept. 17 for the murder of his wife.

The steamer Arachute, bound from Montreal with 8,000 tons of grain, went ashore at Point Platte, Little Miquelon Island.

Major J. P. Edwards, late of London-derry, has been appointed inspector of taxation for Nova Scotia, with headquarters at Halifax.

The Knights of Columbus of St. John honored three of their members—Lieuts. Cronin, Dever and Grannan—who are leaving for overseas.

The tank of a large gasoline boat at North Sydney exploded and the boat, which was owned by Messrs. Marden Orth and Hastings, was badly burned.

The antimony mines at Lake George, N.B., have been closed as a result of the New Brunswick Metals, Limited, who have been operating the mines, being in financial difficulties.

George Burns of Blackville, Northumberland Co., returned home from St. John, where he had been working. He disappeared from his home and his body was found later, his throat having been cut.

Reginald Carruthers, son of Mr. and Mrs. J. C. Carruthers, has enlisted for overseas service with the 145th Battalion, Moncton. This is the third and last son of Mr. and Mrs. Carruthers to enlist in the service of his country.

ENGLISH FOREST AREAS.

They Are More Extensive Than Generally Supposed.

Many Canadians who have not visited Great Britain suppose that there is little woodland in the old country, and it is natural to think of the United Kingdom as cleared of timber and cultivated like a garden.

In England and Wales, according to a recent report of the forestry branches of the British Government, there are nearly 2,000,000 acres of forest, and large areas of uncultivated land on which it is the intention to cultivate a growth of timber. There are, it is estimated, 2,500,000 acres of afforested land in England and Wales.

Of course most of the British forests are held for park and estate purposes. The area of crown forests in England and Wales is only 65,796 acres, made up mostly of the historical estates of the crown.

BAR GERMAN FROM FRANCE.

Bill to Exclude Them for Ever is Before French Government.

A bill to exclude all Germans from France for ever has been prepared by the French Government. The measure is shortly to be submitted to Parliament, and will without doubt be passed, with the exception of one Socialist organ, all the newspapers enthusiastically endorse it.

The newspapers point to the American law excluding the Chinese from the United States as an analogy. They advocate that all of the allied countries keep the Germans, Austrians and Hungarians out of their territories in the future.

The Journal thinks that the neutral nations should be asked to close their frontiers not only against German immigration, but also against German travellers.

A CAUSE OF INDIGESTION

People Who Complain of This Trouble Usually Are Thin Blooded.

Thin blooded people usually have stomach trouble. They seldom recognize the fact that thin blood is the cause of the trouble, but it is. In fact thin, impure blood is the most common cause of stomach trouble; it affects the digestion very quickly. The glands that furnish the digestive fluid are diminished in their activity; the stomach muscles are weakened, and there is a loss of nervous force. In this state of health nothing will more quickly restore the appetite, the digestion and normal nutrition than good rich, red blood. Dr. Williams' Pink Pills act directly on the blood, making it rich and red, and this enriched blood strengthens weak nerves, stimulates tired muscles and awakens the normal activity of the glands that supply the digestive fluids. The first sign of improving health is an improved appetite, and soon the effect of these blood making pills is evident throughout the system. You find that what you eat does not distress you, and that you are strong and vigorous instead of irritable and listless. This is proved by the case of Mrs. J. Harris, Gerrard St., Toronto, who says: "About three years ago I was seized with a severe attack of indigestion, and vomiting. My food seemed to turn sour as soon as I ate it, and I would turn so drowsy sick that sometimes I would fall on the floor after vomiting. I tried a lot of home remedies, but they did not help me. Then I went to a doctor who gave me some powders, but they seemed actually to make me worse instead of better. This went on for nearly two months, and by that time my stomach was so weak that I could not keep down a drink of water, and I was wasted to a skeleton and felt that life was not worth living. I was not married at this time, and one Sunday evening on the way to church with my intended husband I was taken with a bad spell on the street. He took me to a drug store where the clerk fixed up something to take, and my intended got me a box of Dr. Williams' Pink Pills. By the end of the first week I could feel some improvement from the use of the pills, and I gladly continued taking them until every symptom of the trouble was gone, and I was again enjoying the best of health. These pills are now my standby and I tell all my friends what they did for me."

You can get Dr. Williams' Pink Pills from any dealer in medicine or by mail for 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

GERMAN SOLDIERS HOMESICK.

Write Their Letters From the Front in Melancholy Tones.

The "Kölnische Zeitung" remarks that it has been generally observed that numerous letters from German soldiers at the front are couched in melancholy tones, giving to friends and relatives the impression that the writer is sad, and filling the hearts of those at home with uneasiness. And yet, after exact investigation, says the "Kölnische," it has been proved that the writers of these letters are in excellent spirits. What, then, is the explanation? The writers are simply afflicted with homesickness. They are thinking of their homes. They do not wish to make those at home sad or cheerless, but so long as they have a pen in their hands they see their home-life swim before their eyes, and hear the children's talk, they see the friendly faces of wives, parents, friends, they see the sunshine round their homes, and a longing for the old life and peace comes over them. It is this that casts a shadow over their surroundings, and this shadow finds its expression in their letters.

As a matter of fact, says the "Kölnische," they do not know what they have written. After they have written and sealed their letters they forget all about them, and they wonder when they hear from home, why their friends are all so anxious about them. That is the explanation. It is only homesickness.

Simply Ferocious.

"Yes," said the cynical old sea captain, "when I was shipwrecked in South America I came across a tribe of wild women who had no tongues."

"Good gracious!" exclaimed a listener.

"How could they talk?"

"They couldn't," was the reply. "That was what made them wild."

20 Assorted Coloured Buttons and Flags for 25c

The above illustration shows three of the twenty different Buttons and Flags of the Allied Nations which Canadians are proudly wearing to-day. In order to advertise our Tag Day Supplies we will send you these twenty buttons, with receipt of 25 cents. This is a collection you will prize and keep. GREAT BRITAIN'S PRIME CONDITION

JOHN BULL'S REMARKABLE FINANCIAL POSITION.

Lending to Russia, France, Italy and Serbia, and Supporting Belgium.

John Hart, political economist and director of "London Opinion" Corporation, who has just arrived in the United States, gives a lucid explanation of the financial conditions of Great Britain. He says: "Notwithstanding the heavy expenditure of Great Britain since the outbreak of the war, and the heavy drafts upon the public, the debt of Great Britain to-day is only about one-half of what it was per capita at the end of the Napoleonic War. In 1816, just after the Battle of Waterloo, the public debt per capita was \$43. That amount in proportion to the income of the country at that time, compared with the income of the present day, represented a debt of \$120 per head. In August, 1914, the public debt was \$14 per capita, and every one thousand millions of pound sterling issued since represents \$20 per capita; so that the present day debt of Britain is not much more than 50% of the equivalent debt at the end of the Napoleonic War."

A Creditor Nation.

"It should be borne in mind that England is financing France, Italy, Russia and Serbia in the present war, and is carrying the entire charge of Belgium. The money so employed in loaning to these nations so that England is still largely a creditor nation. The financial condition of Great Britain at this advanced period of the war is most remarkable. The markets are all buoyant, the minimum restriction on sales of stocks is being removed, and as they reach a proper level as regards the value of money today (due to war conditions), there is a tremendous amount of money for investment. A large part of the money whereby England is financing herself and other nations is the proceeds of the sale of American securities, made by private holders to the British Government, which is being used as it is collected. Another large part is derived from the enormous amount of profit being made by manufacturing war supplies. Then, a gain, the restriction imposed by the Government on the investment of British capital outside of the country is responsible for a tremendous amount of money being kept at home which would otherwise find investment abroad."

Benefits of Advertising

"Strange as it may sound, an enormous portion of the money raised by the British Government has been due to advertising. For the first time in history the British Government has made use of the gratuitous service of some of the leading advertising men, which service has been immensely profitable to the Government. The British Treasury has used the same methods adopted by high-class mercantile houses to sell their goods and they have succeeded beyond expectation. A very large amount of the five-year Treasury bonds has been sold to the working classes. The lowest denomination of these bonds is \$1, which is sold as advertised for 15c. 6d. for which amount the investor obtains the face value of the bond at maturity, or, in other words, he makes a profit of 4s. 6d., or a little over 29% in the five years, which represents nearly 6% annually.

"It is calculated that 70% of the war revenue is contributed by payers of income tax and other direct taxation, that is by persons whose income is above \$800 per annum, and only 30% by those with smaller incomes. The entire taxation, direct and indirect, last year amounted to about \$350,000,000.

"Of the \$350,000,000 daily war expenditures of England about 40% is coming back to the country in wages and expenditures for war supplies; about 40% is money loaned to the Allies, the colonies, India, and other dependencies, so that of the total amount only about 20% is an actual charge against the Government."

ARMY GROWS POTATOES.

British Soldiers Planting Between Camp Huts.

The army has started to grow its own potatoes. Instructions have been sent, or are being sent, from the War Office to every command, indicating the lines which should be followed, says a story from British army headquarters.

Military requirements are very large and little more than half the usual supplies of potatoes are coming into the markets, with the result that pre-war prices to the public are nearly doubled.

At one camp in Surrey digging operations began last week, and the seed potatoes are to be planted in a few days in rows between the huts. A number of men are being told off each day for digging, and others are being asked to help in spare time. At a camp in Yorkshire potato growing began some weeks ago. It is understood that instructions will soon be issued for the growing of vegetables.

And the more some people are worth the more worthless they are.

A FAMOUS HORSE.

Thoroughbred Stallion "Amner" Will Be Seen at Canadian National Exhibition.

In the interests of the breeders of Ontario and the united efforts of the various breed societies to encourage the farmers and breeders of Canada to raise horses that will meet the demand expected from buyers from foreign countries during the years succeeding the termination of the war, the Canadian National Exhibition, at Toronto, has arranged with the Dominion Government and the Canadian Thoroughbred Horse Society to have Amner, the thoroughbred stallion presented by His Majesty, King George, as a sire suitable to improve the stock in Canada, paraded every afternoon during the Exhibition.

As an encouragement to breeders the Thoroughbred Horse Society has decided to distribute the revenues obtained from "Amner's" stud fees in premiums at Agricultural Shows to classes of horses sired by a thoroughbred, which are best suited for remount and cavalry purposes.

Thoroughbred Stallion "Amner."

"Amner" is a beautifully bred horse and stands 16 hands, with plenty of quality and substance, and a good disposition. He was elected by Lord Marcus Beresford from the Royal Stud as a horse most suitable for the Canadian requirements, and has been pronounced by successful breeders to be the best stallion that has ever left the shores of the world's greatest nursery.

It will be remembered that in 1913 "Amner" was the King's Derby candidate and was running well up in that historic event when a suffragette ran out on the course, endeavoring to snatch at the bridle. "Amner" was thrown and the woman was trampled to death. The fall also nearly proved fatal for the jockey, Herbert Jones.

"Amner" was a winner in England in the 14 miles Hastings plate, second in the Payne Stakes, third in the Newmarket, St. Ledger and Royal Stakes. His sire, Florissell II, was a winner of the Ascot Gold Cup, Jersey Club Cup, Goodwood Cup and Manchester Cup and an owner brother to Diamond Jubilee and Persimmon, both Derby winners for the late King Edward and both successful sires. Diamond Jubilee was sold at the end of his racing career for \$150,000 to go to the Argentine Republic, where he has headed the list of winning sires for several years. Guinea Hen, the dam of Amner, is also a winner and the dam of Brakespear, Pintadeau and Jungle Cock. She is by Gallinule, sire of the great Pretty Polly.

The gracious and timely action of King George in presenting to Canada such a stallion for the improvement of thoroughbred stock is very much appreciated by horsemen. "Amner" has been quarantined at Emisclair farms, Oakville, but will be brought in to Toronto for the whole period of the Exhibition, the only place where the Thoroughbred Horse Society has consented to exhibit him.

YOUNG FOLKS

The Circus Baby.

Before Billy Hall was a year old and of course long before he ever saw a circus, or even knew what a circus was, they called him "the circus baby."

One Saturday in June just after the circus came to Belton Dick and Dorothy, who are Billy's brother and sister, joined with a dozen or more other little folk of the neighborhood in having a circus of their own in the Hall's big stable. Dick was one of the clowns. He wore a long gown, spotted with many colors, a big ruff round his neck and a pointed paper cap on his head. Dorothy was a Spanish dancer, with a dress of bright colors and many ribbons in her hair. To be sure, the cat had to be kept in the menagerie got out of the box and ran away; and old Major, the Newfoundland dog, was too good-natured to make the right kind of lion; but most of the other animals did very well indeed, especially the rabbit that was a kangaroo and the toy snake that jumped out of a box.

The performance itself was wonderfully pleasing to those who saw it from the row of boxes that served for seats. When Tom Skinner hung by his toes from the flying rings above the haymow there was much hand-clapping, but there was even more when Dick, the clown, tried to do the same thing, only to tumble into the hay below. And when Dorothy had danced gracefully on the bottom of an overturned box, Dick climbed up to the top of the box and fell through the bottom of the box and disappeared inside.

When the performance was over, "Reddy" Carter, the ringmaster, made an announcement.

"Ladies and gentlemen," he shouted, "don't miss the great side show! It is sabetter than the main performance! Step right into the house and see the wild man of Borneo! He has been in this country only a few months. No one can understand a word of his language, and he has to be kept in a strong cage. Step right in and see the wild man of Borneo!"

So everyone that was there, with many giggles and whispers, filed into the house. There they found that "the wild man of Borneo" was Baby Billy, who was lying in his crib, which was indeed a strong cage for him. And of course it was true that no one could understand a word of his language, although it was plain that he was trying to tell his callers something very important.

When they had all gone, Dick and Dorothy lingered a moment beside Billy's crib.

"Wasn't he a dear?" cried Dorothy. "No one did his part better than Billy!"

"That's so," agreed Dick. "And see, he's trying to stand on his head now!"

"No, he's just trying to get his foot into his mouth," answered Dorothy, "but he's doing it easier than anyone else in the circus could."

"Next year we'll have him in the main performance," said Dick, "and perhaps he'll make even more of a hit than he did to-day."—Youth's Companion.

THIRD OF FRENCH SERVE.

Seven Out of Twenty Males Engaged in War Duty.

The Bulletin of the Armies of the Republic, which is sent to all French soldiers at the front, published recently a page of statistics showing how the whole of the French nation actually takes part in the war.

Out of every twenty Frenchmen six or seven are actually under arms or engaged in manufacturing munitions. The unit of twenty is composed of the following: One aged or infirm, two small children, two boys at school, two young men under military age either studying or working, four to five soldiers mobilized, one or two men working in munition factories, three engaged in agriculture, three uncalled working men or clerks.

There is only one man in France out of every forty in governmental positions, such as functionaries, judges and teachers.

PEARLS OF TRUTH.

A "just and lasting peace" cannot, in the present case, be negotiated. It must be imposed.—Cecil Chesterton.

He who does wrong does wrong against himself. He who acts unjustly acts unjustly to himself, because he makes himself bad.—Marcus Aurelius.

Men serve the wealth which they seem to command. There is no slave so helpless as the greedy man whom gold makes greedier still.—W. H. Phelps.

A man cannot speak but he judges himself. With his will, or against his will, he draws his portrait to the eye of his companions by every word.—Emerson.

There is some help for all the defects of fortune; for if a man cannot attain to the length of his wishes he may have his remedy by cutting of them shorter.—Covley.

A spinster says an old bachelor is a man who has overlooked an opportunity to make some woman miserable for life.

Lashing a Lazy Liver

with pills may give temporary relief—but the pill habit is not a health habit. It will put the liver out of business in time—and then everything else goes out of business. Get the health habit by eating **Shredded Wheat Biscuit**, the ideal hot-wheat food, which contains more digestible, brain-making, muscle-building material than beefsteak or eggs. The tasty, delicious crispness of the baked wheat gives palate joy and stomach comfort. It supplies the maximum of nutriment in smallest bulk, and its daily use keeps the bowels healthy and active. For breakfast with milk or cream, or for any meal with fresh fruits. **Made in Canada.**

Pepsin Supplanting Rennet.

A Wisconsin cheese firm, in a letter to the Trade Bulletin, states there is a revolution in cheese making in that state, owing to the use of pepsin instead of rennet. It coagulates the milk better, it is of uniform strength, and the test of the whey shows that there is less butter fat and solids in the whey. The price of pepsin is very much cheaper.

They have cheese on hand made with pepsin that are four to six weeks old, and the curing process seems to be identical. The factories are using about 3-8 to 1-2 ounce of pepsin dissolved in warm water at about 90 degrees temperature, then emptied into a bucket of water and put into the milk the same as they have always done with rennet. The use of pepsin will materially relieve the situation on the scarcity of rennet, in fact they believe that in the future pepsin will be used instead of rennet.

Minard's Liniment Used by Physicians.

On the Safe Side.

Jones and his wife were seated at the dining room table perusing the evening papers when the doorbell rang. Jones arose to answer it, when his wife said:

"Let me hide those umbrellas before you let them in."

"Why do you think somebody will steal them?" asked Jones.

"No," replied his wife. "Some one might recognize them."

Sore Eyes

Granulated Eyelids, Eyes inflamed by exposure to Sun, Dust and Wind quickly relieved by **Murine Eye Remedy**. No Smarting, No Stinging, No Burning. At Just Eye Comfort. At Your Druggist's 5c per Bottle. **Murine Eye Remedy**. For Book of the Eye Frequent Druggist or **Murine Eye Remedy Co., Chicago**

Surprised.

"Is that fellow a member of this church?"

"Yes."

"Does he come regularly?"

"Yes, every Sunday."

"That's a surprise to me. I've had several business deals with him and I'd never suspected that he was ever inside a church."

I fell from a building and received what the doctor called a very bad sprained ankle, and told me I must not walk on it for three weeks. I got **MINARD'S LINIMENT** and in six days I was out to work again. I think it was the best Liniment made.

ARCHIE E. LAUNDREY,
Edmonton.

Different.

Redd—An automobile is so different from a horse.

Greene—Why, of course.

"You see, a horse goes faster when he's going home than when going away from home."

"Well, doesn't an automobile?"

"Oh, no; you see, an automobile often has to be towed home."

Ask for Minard's and take no other

A Flat-Dweller's Stratagem.

Mrs. X.—"Bothred with time-wasting callers, are you? Why don't you try my plan?"

Mrs. Y.—"What is your plan?"

Mrs. X.—"Why, when the bell rings I put on my hat and gloves before I press the button. If it proves to be someone I don't want to see, I simply say: 'So sorry, but I'm just going out.'"

Mrs. Y.—"But suppose it's someone you want to see?"

Mrs. X.—"Oh, then I say: 'So fortunate, I've just come in.'"

Taking a Chance.

Lawyer—What evidence have you that he promised to marry you?

Girl—What evidence? Why, my face, my form, and my sweet disposition!

Lawyer—Well, I'll do my best to get a near-sighted bachelor jury.

The trouble is that by the time a girl is old enough to help mother wash the dishes she is also old enough to know that sort of work makes her hands red.

ACROSS THE BORDER

WHAT IS GOING ON OVER IN THE STATES.

Latest Happenings in Big Republic Condensed for Busy Readers.

All the shops at the State penitentiary, at Frankfort, Ky., were destroyed by fire.

Fifteen hundred Sioux Indians in South Dakota have offered to enlist for service in Mexico.

Thirty Chinese citizens of Tucson, Ariz., have formed a company of home guards as a protection against Mexican raiders.

This year the United States will yield 125,000 divorces, the Rev. F. M. Moody, of Chicago, told President Wilson, at Washington.

Twelve Brooklyn physicians are to be prosecuted as a result of a recent crusade for alleged negligence in reporting births of children within ten days.

Chicago packing houses have closed contracts with the army quartermaster there for a monthly supply of 15,000,000 pounds of meat for the army.

In his will as probated, John Black, a retired Baltimore financier, who died recently, gives more than \$275,000 to religious and educational institutions.

Miss Rose Pitonof, of Dorchester, Mass., was married to Dr. Frederick Weene, a dentist of Somerville. She saved his life in Marblehead waters last fall.

Ties were found bound to the tracks of the New York Central main line at Lyons, N.Y., over which trains carrying the Massachusetts National Guard were to pass.

Reports were current that Frank A. Munsey, owner of the New York Press, and William C. Reick, owner of the Sun, are contemplating a merger of their properties.

Five million dollars was added to the fortifications bill as it passed the House at Washington, to be used for purchase and manufacture of mountain, field and siege cannon.

Private Clifford Green, Co. F., of Dover, Me., after being summoned to his company, walked 150 miles from Elm Stream through the woods before he could strike a railroad.

A protest against the promiscuous removal of tonsils from children was voiced by Dr. Royal Copeland, of New York, in a paper read before the American Institute of Homoeopathy at Baltimore.

K. D. Taliaferro, aged 18, son of R. M. Taliaferro, general agent of the Norfolk and Western Railway at Lynchburg, Va., committed suicide when Miss Bertha Pfeister refused to elope with him.

Minard's Liniment—Lumberman's Friend

GEN. SMUTS' CONQUEST.

Usambara Described as the Gem of German East Africa.

Wilhemstal, the capital of the Usambara Highlands, was occupied a short time ago by General Smuts, and as the enemy have abandoned its seaport, Tanga, it would appear that the whole of this region, the most settled and most prosperous part of German East Africa, will shortly be in undisputed possession of the British.

Its healthy climate, picturesque valleys and mountains, and luxuriant vegetation attracted attention to Usambara from the first establishment of German rule, and its nearness to the coast rendered it easily accessible. To-day it possesses scores of thriving plantations, pleasant and well-built towns, and excellent roads. Its European population is about 3,000.

Bordered east and west by arid scrub-covered steppes, north by open country, and south by dense jungle, the highlands form an oasis in the wilderness. Extending southeast and northwest for 75 miles, they vary in breadth from 1 to 45 miles. The hills rise through a plain, the most fertile of the surrounding plain, and the most lofty peaks are over 7,500 feet above the sea. The valleys, deep and narrow, through which rush picturesque torrents, and the hillsides, are under cultivation; the native population is dense, and long before the coming of the white man they had flourishing and extensive shambas.

Soon after the proclamation of the German protectorate a site in one of the south-western valleys was chosen as a Government post. Named Wilhemstal, in honor of the Kaiser, it has grown into a considerable town, with fine public and private buildings.

The Transcript.

THURSDAY, JULY 13, 1916.

Appin

Dr. Stewart, wife and family of Fort William, have returned home after spending a few weeks with Mr. and Mrs. Richard Pettit.

Mrs. Lance Banks met with a painful accident Tuesday morning when her horse became frightened and upset the buggy, throwing her on the stone road.

Mr. and Mrs. J. A. McTaggart have returned after a trip to Cleveland and Buffalo.

Mrs. Dan McIntyre, jr., of Toronto, is visiting her father, James McMaster. The Thamesville baseball team played in Appin on Friday.

Jas. Glasgow and W. R. Stephenson are busy these days building their new houses.

The farmers are busy these days in the hay and report a fine crop.

Mrs. C. B. Edwards, of London, is visiting Mrs. J. S. Macrae, "Inverness Place."

WALKERS.

Mrs. Wm. Johnston, of Alvinston, and Miss Sara Ferguson, of Shields, are visiting friends here.

Mrs. Arch. McCallum is visiting in Cleveland.

Miss Sadie Munroe, of Chicago, is visiting at her old home here.

P. D. McCallum, of Amherstburg, is home for the holidays.

Miss Malcolm's Munroe has been engaged to teach in Walkers.

The many friends of Thomas Fields and Colin C. Munro will be pleased to know that they are recovering from their illness.

Angus Cameron, of Detroit, visited at James Walker's last week.

Mr. and Mrs. Arch. Leitch, of Cleveland, and Pte. Peter Leitch, of London, visited at Arch. McCallum's last week.

H. Denning, of Winnipeg, is visiting at his home here.

We are glad to state that Mrs. A. Williamson is able to be around again after undergoing an operation for appendicitis at St. Thomas.

Miss Mae Munroe returned to Detroit on Monday after spending a month with her mother, Argyle street.

A number of the people in this vicinity attended the raising at Dan L. Walker's on Tuesday. All report a good time.

Mrs. John McCallum and son Gordon, of Cleveland, are visiting at Hugh McCallum's.

PARKDALE

Crops in this vicinity are looking fine. Haying is now in full swing—some have it finished.

Earl and Albert Blain, of Newbury, are holidaying at their grandfathers, H. Blain's.

Mr. Thompson and A. Campbell spent a few days at Strathroy recently.

Percy and Harry Degraw, of Welland, visited relatives here last week.

Miss Nettie Archer has returned home from Toronto.

Mrs. E. Archer and little daughter, of Windsor, are visiting at E. Haggit's.

NOT A NAUSEATING PILL.—The recipient of a pill is the substance which enfolds the ingredients and makes up the pill mass. That of Parmelee's Vegetable Pills is so compounded as to preserve their moisture, and they can be carried into any latitude without impairing their strength. Many pills, in order to keep them from adhering, are rolled in powders, which prove nauseating to the taste. Parmelee's Vegetable Pills are so prepared that they are agreeable to the most delicate.

Newbury

Miss W. Owens left on Wednesday for Toronto, being an examiner for the departmental exams.

Miss Elsie Prangley, of Plattsville, is visiting her grandmother, Mrs. Grant.

Knox church held their annual garden party on the Old Boys' Park Monday evening. The Wardsville band furnished good music. J. C. Elliott, M.P.P., was chairman. The program was given by Mr. Hollingshead, of Dutton, and the male chorus of the town. Proceeds, \$116.

Mrs. Sellars' house had a close call from fire one day last week. The roof took fire from a spark. The bucket brigade were soon on the spot and saved the building, with only slight damage.

H. E. Guppy, wife and daughter called on friends in town on Wednesday on a motor trip from Toronto to their home in Windsor.

Miss Lillian Owens arrived home from Regina on Tuesday.

Mrs. J. J. Whitaker and Donna and Gerald Stephenson, of Windsor, are visiting Miss Gray.

Miss Margaret McRae has arrived home from Detroit.

Miss Jessie Archer came home from Toronto on Thursday.

Mr. and Mrs. Arthur Walker and family, of London, are visiting at Duncan Fletcher's.

Miller's Worm Powders will not only expel worms from the system, but will induce healthful conditions of the system under which worms can no longer thrive. Worms keep a child in a continual state of restlessness and pain, and there can be no comfort for the little one until the cause of suffering is removed, which can be easily done by the use of these powders, than which there is nothing more effective.

Melbourne

Melbourne, July 5.—Quite a number from this vicinity attended the Sunday School convention held at the Muncey Institute and all reports having had a real helpful as well as pleasant day and look forward to next year's convention.

Miss A. Campbell and Miss M. J. Robinson spent the week-end in Strathroy and Komoka.

Mr. Whitfield has gone to Michigan for a few weeks.

Henry Horney motored to Chatham Saturday; from there he will go to Holly, Mich., to visit his daughter.

Rev. Mr. Vance, formerly of Merlin, occupied his own pulpit on Sunday, for the first. The congregation and citizens extend a hearty welcome to Mr. and Mrs. Vance, and trust they may have a pleasant sojourn among us.

Miss Gladys Gleadall is spending the holidays in Petrolia.

Miss A. Thompson has returned to her home in Strathroy.

Mr. and Mrs. J. Collier are spending a few days in Bridgeburg and Buffalo.

The Ladies' Aid tea which was held at the home of Mrs. M. Mather was well attended.

The many friends of Rev. D. C. Stephens will be sorry to hear that he is at present in a very critical condition in a London hospital.

Misses Gertrude and Constance Howell are spending the holidays at the home of their aunt, Mrs. James P. Boulton, Wallaceburg.

Don't submit to asthma. If you suffer without hope of breaking the chains which bind you do not put off another day the purchase of Dr. J. D. Kellogg's Remedy. A trial will drive away all doubt as to its efficiency. The sure relief that comes will convince you more than anything that can be written. When help is so sure, why suffer? This matchless remedy is sold by dealers everywhere.

Wardsville

Mrs. McRoberts and children, of Kenora, are visiting at her home here.

Miss Dessie Purdy is visiting friends at Ridgeway.

Laurence and Jack Dewey, of Detroit, are visiting friends in town.

Mrs. W. Milner is visiting her son and daughter at Detroit.

Mrs. J. A. Mulligan and daughter Marjorie have returned after spending the past month at her home in Birr.

Miss Katherine Vece, of Detroit, is visiting her aunt here.

Mr. and Mrs. Dennis, of Courtright; Mrs. Oliver, of Edmonton, and Mrs. Dennis, of Petrolia, are visiting Mrs. J. W. Tice.

Miss Nellie Jackson is visiting at St. Thomas.

Wm. Randles has purchased a new Gray-Dort car.

GREAT MEDICINE.—Tont, one of the pioneers of French Canada, lost a hand and wore an iron hook as a substitute. He was in the habit of boxing the ears of refractory Indians with this iron hand, and they have remarked that it was "great medicine." Dr. Thomas' Electric Oil is great medicine; it takes hold of pain with an iron hand and knocks it out of the system.

CAIRO.

Mrs. T. E. Fenby is the guest of her mother and friends at Lambeth.

Mr. and Mrs. J. D. Taylor, of London, are enjoying their vacation among friends in this vicinity.

Mrs. H. A. Summers returned from London on Thursday.

Miss Ada Summers, of Chatham, is enjoying her vacation at her former home here.

Master Maurice Baird, of Alvinston, is at the home of his grandpa, Richard Barr.

Mr. Margaret Wehlann enjoyed her first auto trip, since her recent illness, on Sunday with Mr. and Mrs. H. S. Bolton, to her daughter's, Mrs. G. R. Bolton.

Mr. and Mrs. C. J. Watson, accompanied by friends, visited Lake Erie on Sunday in an auto.

Mr. and Mrs. J. P. McVicar, of Aberfeldy, accompanied by Mr. and Mrs. J. N. Switzer, motored to Bothwell, calling on their return to see some friends.

Mr. and Mrs. Geo. Banghart, of London, passed through in their car on Thursday.

CASTORA

For Infants and Children
In Use For Over 30 Years
Always bears
the
Signature of
Chas. H. Hitchcock

KNAPDALE.

Dan McNaughton returned from Detroit on Saturday.

Mrs. F. Ross, of Detroit, visited her friends here last week.

Clayton Armstrong, of Walkerville, visited his parents here last week.

A number from here attended the lawn social at Newbury Monday night and report a fine time.

Miss Cassie Black, of Alvinston, is visiting her sister, Mrs. C. McNaughton.

Miss Mabel Hillman has returned from Shelburne after a pleasant visit.

J. D. and Garfield McNaughton are visiting their grandfather, D. McNaughton.

A reception was held at the home of Thomas Wilson on Friday night in honor of Clifton Wilson and bride, of Shelburne.

A TOUCH OF GOLD.

Its Magic Restored to Its Pedestal His Tottering Dignity.

One day during his prosperous "Adonis" time in London Henry E. Dixey was walking in the Strand when he met an American actor. He belonged to the order of self-satisfied persons who live to give out the impression that the man they deal to speak of is a great man.

gent providence for high favor. This particular haughty one had obviously made acquaintance with misery. His clothes were soiled, and there were written all over him the signs of pressing want.

"Hello, old man, how are you getting on?" was the Dixey hail.

"Very well, I thank you, sir," replied the unbending one.

"Doing anything just now?" queried Dixey.

"Well, no, I may candidly say I'm not. These piteous bounds over here do not estimate art at its proper value, and I have refused, in deference to my dignity, to accept anything less than I consider my services worth. I may be out of an engagement temporarily, but, thank heaven, I have not degraded myself by taking any paltry advances, and I still consider myself a gentleman."

Then he added, in a lower and less aggressive tone, "But I most candidly own that the pangs of hunger may soon make me forget my professional dignity, as I have not had a mouthful to eat in two days."

"For heaven's sake," exclaimed the pitying Dixey, "take this and get something to eat!" And he laid in the starving man's hand a sovereign.

With the touch of gold in his consciousness the recipient's face underwent a magical change. Halting a passing cab, he turned to Dixey and said: "Thanks, old fellow, I'll return this in a couple of days. Calby, drive me to the Cafe Royal."

And away he went to spend that precious sovereign at a single throw. His pride as a gentleman must not be allowed to suffer.

IMPOLITE OFFICIALS.

They Sometimes Get a Jolt, as One of Them Did in Paris.

It would appear that the public servant, no matter how small his position or humble his function, is much the same person in France as in this country, manifesting much the same lack of courtesy as that which meets us so often here.

Recently in one of the departments of a Parisian majority, toward midday, a little old employee was about to begin munching a bunch of carrots. Some one rapped at the door. No response from the little employee.

The person who had rapped entered. "Monsieur," he began.

"Come back at 2 o'clock," growled the little employee, as he continued to gnaw away at the vegetables.

"But—"

"No buts about it. Come back at 2 o'clock."

"It ain't the new chief of the bureau," said the visitor.

At once the little employee jumped up, trying to hide the bunch of carrots behind his back, as he bowed deeply to the visitor.

"Go before me," said the chief, "and show me, if you please, to my bureau."

The little employee was greatly embarrassed by his carrots. He did not know where to put them.

The chief took pity on him. "My friend," he said, "put down your carrots. There is no shame in eating vegetables. But that respectable occupation should not prevent you from giving a gracious welcome to the public. Let this serve as a lesson to you."

Mathematical Prizes.

The Academy of Sciences of Göttingen, Germany, holds \$21,000 to be awarded to whomsoever can furnish a general proof of Fermat's theorem, which is to the effect that in the equation $x^n + y^n = z^n$ if n stands for an integer (whole number) greater than 2 no integral values can be found for x , y and z . This must be furnished before Sept. 1, 2007.

The French Academy of Sciences awards every five years the Jean Reynaud prize of \$53,200 for the best original work in mathematics.

Mark Twain's Advice.

Mark Twain was a firm believer in the higher education of woman, but Hartford still remembers a speech he made one June to a platform of Hartford girl graduates.

This speech, a humorous attack on the college girl, ended:

"Go forth. Fall in love. Marry. Set up housekeeping. And then, when your husband wants a shirt ironed, send out for a gridiron to do it with."

Pride of Pedigree.

"Who was that you just spoke to?"

"Can't think of his name just now, but he is a descendant of one of the old families."

"He hasn't got over it yet?"

"My boy, they never do."

Worth Cultivating.

"I think fortune is beginning to smile on me a little."

"Keep up the flirtation," advised the friend.

Diplomatic.

Bobby—Pa, what are diplomatic relations? Pa—Ask your mother, Robert. Some of hers were, before I married her.—Judge.

FOUNDED ON FACT.

Eugene Aram was a Real Character. Executed in 1759.

Few of those who have read Thomas Hood's ballad of The Dream of Eugene Aram, or Bulwer's romance, Eugene Aram, or who were fortunate enough to have seen Henry Irving in the play founded on the Bulwer novel, know that Eugene Aram was a real character and that the ballad, novel, and play were founded on fact.

Aram was an English scholar, born in 1704 and executed in 1759. The early years of his life were devoted to study. How he gained knowledge is hard to comprehend. His father was a laborer, and the educational facilities of two centuries ago were not what they are now.

However, his learning was soon recognized. In a small circle, and while still a student, he served as an usher in a school at Knaresborough, his native village. Later, he married and wrote several text books, none of them now extant. When he was about 25 years old, he was implicated with a man named Clark in the robbery of a shoemaker of Knaresborough. Clark and Aram were both discharged from lack of evidence.

None of Aram's friends believed in his guilt, but the accusation appeared to weigh upon his mind, and soon afterwards he went to London to teach and study. Less than a year later Clark mysteriously disappeared.

In the succeeding years Aram taught at various schools and academies, and while teaching at an academy at Lynn in Norfolk he completed his comparative Lexicon, few parts of which are now extant, and which dealt with the history of the English, Latin, Greek, Hebrew, and Celtic languages. Shortly after this he was arrested and charged with murdering Clark.

His wife, it appeared, had told it about that her husband and a man named Perry were implicated in the murder of Clark years before. A skeleton was found in a cave near Knaresborough, which it was charged was that of Clark. Aram was tried, and, refusing all counsel, conducted his own defense. He dwelt upon the uncertainty of the evidence against him—all of it being circumstantial—and the doubt of the identity of the skeleton.

The case created wide discussion throughout England, and public sympathy was with Aram. He had led a quiet, peaceful life, apparently caring little for the world's goods, and dividing his time between his studies and his wife and children.

Nevertheless, he was found guilty and sentenced to be hanged. When he saw there was no hope, he confessed the murder of the only witness against him in the robbery of the shoemaker. The night before the day set for his execution he cut his throat, but his life was saved for the time being, and he was hanged the following day.

While in prison he wrote a long treatise on suicide and a history of his life.

Smart Return.

When in December, 1897, on the death of Sir Frank Lockwood, the seat of York became vacant, Lord Charles Beresford stood for the election, and was opposed by Sir Christopher Furness, afterwards Lord Furness. The contest was close and exciting, and eventually won by Lord Charles Beresford with a narrow majority of eleven, after two counts, on a poll of over 11,000 votes. Lord Charles says:

"My brothers, Lord William and Lord Marcus, were helping me. Lord Marcus accompanied me to a meeting, and I told him that he must make a speech.

"I can't," he said. "I don't know what to say."

"I told him to begin, because he would surely be interrupted, and then, being an Irishman, he would certainly find something to say. Lord Marcus thereupon rose to his feet, and a voice immediately shouted:

"Who are ye?"

"It was enough; the fire was kindled."

"Who are we?" cried Lord Marcus. "I'll tell you who we are. We are three brothers, and our names are Shadrach, Meshach, and Abednego, and we have come here to put out the burning fiery Furness."

A Great Tragedy.

Ellis Ashmead-Bartlett, the famous war correspondent, who was the sole representative of the British press at the Dardanelles, declares, that the withdrawal from Gallipoli is the consummation of a great tragedy which has been working out since last March.

The casualties of killed, wounded, and sick have been more than 200,000, he said.

"The fault lay primarily in the military system in England, where there is no directing staff, but where the campaigns are run by certain members of the Cabinet."

He blamed Winston Churchill for conceiving and carrying through the expedition. Churchill's first error was to think that the Dardanelles could be forced by the fleet alone. He said that the choice of Sir Ian Hamilton as commander of the expedition was an unfortunate one, and cost England dearly. With only limited forces the British undertook to attack the whole Turkish Empire at an inaccessible place.

Saved the Pudding.

Mr. A. W. Yeo, the British M.P., was telling a very good story in the House the other week, which has the merit of being true. A soldier at the Front wrote home to his mother a dramatic story of the fighting at Loos at the end of September, and gave a very fair idea of its exceedingly fierce nature. At the end of the letter he finished up by saying: "Fortunately I came through without a scratch, but the bullets were everywhere, and went through everything with the exception of the bread pudding which you sent me."

SAVINGS DEPARTMENT

We give special attention to savings accounts. One dollar only is necessary to open an account. Interest allowed at highest bank rates and added twice a year without application or presentation of pass-book. No delay in withdrawals. Two or more persons may open a Joint Account, and either party can withdraw money.

FARMERS' BUSINESS

Money advanced to Farmers at Reasonable Rates. Sales Notes handled on most favorable terms.

J. A. McKELLAR, Manager GLENCOE BRANCH
