KING EDWARD IS DEAD--GEORGE THE FIFTH SUCCEEDS

King George V., who visited London on Saturday, Oct. 12, 1901, said in reply to an address presented to him by the city of London: "Gentlemen,—The kind words of greeting you have addressed to the duchess and myself in welcoming us to your city, are a gratifying addition to the tributes of welcome extended to us since our first arrival in Canada. "We thank you truly, and it will afford us much satisfaction to convey to our dear father, the King, your declarations of loyalty and devotion, as also your touching references to the visit paid by his majesty to this city many

years ago. "We deeply regret that it has been impossible for us to avail ourselves so fully as we would have wished of those generous invitations which have been put before us, from this and other cities of Canada. "We deeply regret that it has been impossible for us to avail ourselves so fully as we would have wished of those generous invitations which have been put before us, from this and other cities of Canada. "We especially regret that it was impossible to become personally acquainted with the agricultural and other associated industries for which this district is so well known. We have, however, seen enough to carry with us a lasting impression of the vast resources and wealth of the Dominion, still awaiting that development which can only be attained by the enterprise and perseverance of its inhabitants, which ever call for the steady reinforcement of

Monarch Passed Away At Midnight Friday Due to Pneumonia

With Members of Royal Family at Bedside, Sworn in Today by the Edward Expired Peacefully After an Illness of Only Three Days---Prince of Wales Succeeded to Crown Immediately Without Ceremony.

London, May 7.-King Edward VII., who returned to England from a vacation ten days ago, in the best of health, died at 11:45 o'clock last night in the presence of his family, after an illness of less than a week, which was serious hardly more than three days.

The Prince of Wales succeeded to the crown immediately, according to the laws of the kingdom, without ceremony. His first official act was to dispatch to the lord mayor the announcement of his father's death, in pursuance of custom. His telegram

"I am deeply grieved to inform you that my beloved father, the King, passed away peacefully at 11:45 tonight. "GEORGE."

The physicians soon afterward issued their official bulletin, nich was as follows:

"May 6, 11:50 p.m .- His Majesty the King breathed his last at 11:45 tonight, in the presence of Her Ma Queen Alexandra, the Prince and Princess of Wales, Princess Royal, the Duchess of Fyfe, Princess Victoria and Princess Louise, the Duchess of Argyll.

The King's brother, the Duke of Connaught, with his family, is at Suez, hastening home from Africa. The King's daughter, Queen Maud of Norway, will start for England tomorrow.

The intelligence that the end of King Edward's reign had was so timed as to be concluded with come was not a surprise at the last. The people had been expect- the close of the formalities in coning to hear it at any hour since the evening's bulletin was posted at Buckingham Palace and flashed throughout the kingdom. Gigantic Move of the Big Railroad—\$100,000 Worth of Land Bonded in the East End of the City Around Quebec Street.

COMING IN OVER THE L. AND P. S. RAILWAY

Loop Will Be Built From Pottersburg to Connect With the City's Railway --- A New Depot at Quebec Street and One Down Town Also-City May Now Get a Union Depot.

The Canadian Pacific Railway has just completed a deal whereby they take over \$100,000 worth of land in the East End in the vicinity of Quebec street. For some time Mr. Arthur E. Hourd, of Hourd & Co., their confidential agent in this city, has been busily engaged in obtaining options on

the property, and last night the deal was closed.

The land will be used for new shops, roundhouse. building. They will be erected on the south side of the tracks on Quebec street. The roundhouse will be situated further west. In addition there is another big deal on foot, that will mean a great deal for the city. Particulars of this are not available, but an announcement of great importance will be made in a short time.

A DOWN-TOWN STATION.

The company is also making arrangements for a down-town station, and the location of this will also be announced shortly.

This is the first practical step towards enlarging the company's premises in London and it has been received with great pleasure on all sides.

"Yes, I have just completed the deals for the company," said Mr. Hourd to Th Advertiser. "For three weeks I have been acting as confidential agent of the company, and we have purchased about \$100,000 worth of land in the vicinity of Quebec, Elias and Ontario streets.

A BIG PROPOSITION.

"The company purpose erecting a large block of buildings, comprising new station, roundhouse, shops and office. It will be remembered that the city in its agreement with the company stipulated that a station should be built at Adelaide street when the C. P. R. came to the city. The present one was found to be too small for their needs and a larger and more commed-

ious station will be built on Quebec street. There are other very important developments pending in this section, but the announcement cannot be made at this juncture. It may be stated that they will add greatly to the prosperity of the city. It is practical boost

ing, I can assure you.' "I would like to tell you just what the prospects are, but it would be unwise at this moment to make them known.

WILL COME DOWN TOWN.

Another very important announcement in connection with this is the statement that the company will come down town. A loop will be run, it is stated, from the other side of Pottersburg, crossing the Grand Trunk at the cut near the gravel pit, by an overhead bridge, coming into the city at Trafalgar street, and joining the London and Port Stanley near the bridge. Again the company may parallel the G. T. R. tracks immediately to the

The Michigan Central depot could be used, or a depot of their own could be erected at moderate cost, and the C. P. R. would then be down pown, in close touch with the business of the city.

This move may prove of inestimable value to the city in compelling the Grand Trunk to erect a union station when negotiations are opened up with that company in reference to elevated tracks

As a matter of fact, negotiations are already being conducted with the Pere Marquette on this subject.

There was a rumor to the effect that the C. P. R. would come down town from the northeast section of the city. One of the officials of the com-

pany stated today that this was not feasible, owing to the fact that it would mean track elevation through a very expensive part of the city, and that the cost would be out of the question. The other plan of entering the city on the south side is quite feasible

and not expensive. DO ALL REPAIR WORK HERE.

The new works would employ several hundred men. Practically all the repair work of Western Ontario, and much of that done at present in Toconto would be transferred to this city. No definite estimate of the number of men that would be employed here could not be obtained. One official made the assertion that the would at least give employment to Buy Packing Company Site.

Sale of Brussels and Axminster Room Size Rugs Monday

Two battalions have received their marching orders for Monday, one of Brussels and the other Axminster, the wearing qualities and lasting colors of which are so well understood, we need say little of either. The prices will tell this side of the story, but you must see the Rugs before you can fully appreciate even these big reductions, which are of still more importance when you realize that our Carpets are all new, mostly this season's importing. The question most important is, Have we the size you need in these? There are 39 in all, in beautiful colorings, which we will not attempt to enumerate, but we are confident you will have little trouble in satisfying your desire in both color and design for DRAWING-ROOM, DINING-ROOM, DEN or BEDROOM. Look the sizes over. Will they meet your measurements?

Window Shades

Let us quote you prices on the new and popular colors and color combinations. We have only been in the window shade business one year, and that our goods, prices and work is satisfactory and being appreciated, is shown by the number who are kept busy in our workrooms on special orders, besides the quantities of stock shades we are selling.

Stock, or Ready-Made, Shades

The Marshall Mattress

The MARSHALL SANITARY MATTRESS has perfect ventilation, and the above illustration, showing its construction, will convince anyone not only as to the importance of this feature, but as to its comfort as well.

The body of this Mattress contains more than one thousand coppered steel springs, incased and arranged in cotton pockets, so that each spring is independent of the other, never touching. Thus they never get out of order, and are absolutely noiseless. The body is inclosed in a stout case, covered with felt, and upholstered. Thus this Mattress virtually consists of an air chamber, surrounded by a

layer of felt, supported on a number of small steel springs. VENTILATORS are placed at each end of the Mattress, allowing a free circulation of air, protected by fine wire gauze to prevent the entry of dust, keeping it pure and fresh, and rendering it absolutely sanitary, THE MARSHALL SANITARY MATTRESS is recommended by medical men, and many ocean liners are furnished

LICELIA WASN'T THERE

Called in Vain by Court and Warrant Is Issued.

The name of Licelia Haynes was called in vain at police court yesterday morning to answer to a charge of using abusive language, obtaining entrance to premises at 48 Craig street, South London, in a forcible manner, and damaging property there. The magistrate thereupon ordered a warrant for her arrest. Mrs. Haines, it is stated, is in Detroit, and her landlord only succeeded in getting his money by the merest chance. He secured a summons, and with Detective Down found Mrs. Haines on the Detroit train just few minutes before it pulled out. pon being threatened with arrerst she offered to pay up. This offer was accepted, and when the money was paid over she went away to Detroit, and said she would return later and get the things.

"You were lucky to get your money all right" said the magistrate to the landlord this morning. "I am glad the summons was so effective. Haines comes back she will be arrested.'

READ THIS, GIRLS.

Marcel Boulanger, a noted French writer, gives this sane advice de girls: "Remember, girls, that your faces really matter little or nothing. To preserve for a long time the illus sion that you are fresh as the morning, and to show off dress to the best advantage, you must study our bodies above everything else and become mistresses of the art of movement and charm. Never allow yourselves to become 'slack;' carry yourselves well, keep in good health and keep your minds keen. And, above all, don't become round-shouldered and crooked by constantly sitting in one position for hours playing bridge. Take plenty of fresh air and exercise and live als life ought to be lived."

The Cost of Living Increases.

There are two reasons for this that increased cost of production and the demand for expensive goods. One item of expense is the household meat bill -butcher's meat is extravagantly high. CLARK'S MEATS effect a meat cost saving of one-quarter to one-half and are always ready.

In Harlem court, before Magistrate Corrigan, the youth said he was Frank Lombardo.

May O'Connor testified that she worked in the factory of the Manhattan Novelty Company, where 100 girls and 50 men are employed. She was in a hallway, she said, when Lombardo stepped from behind a pillar and seizing her about the waist, planted a kiss on her lips. She seized him and screamed for help. Then her girl friends and a group of men workers came to her rescue.

"We girls did him up good and plenty," said Miss O'Connor. "The men stood about and prevented any one from interfering with us until they thought we had taught this young masher his lesson. We beat and scratched him until we were tired, and then we kicked him."

Policeman Sullivan said the kept the glass door of the factory closed on him, and he witnessed the beating, but was powerless to rescue Lombardo until the door was unlocked. Lombardo denied the charge and was much concerned over the damage to his clothing. There are probably few sportsmen who were able, like King Edward, to look back on half a century of deerstalking, or who have achieved such a splendid record in that difficult branch of sport. Indeed, long before he was allowed to handle a gun, his majesty was serving his apprenticeship to tracking that most coy and elusive of animals under the eye of his father, the Prince Consort, who was an enthusiastic and skillful deer-stalker.

It was not long, however, before the young prince proved himself his father's superior, for he quickly surpassed him as a deadly shot, and stories are still told in Highland cottages of his early feats of marksmanship. R. G. Dun's Report Says Business in London Is Backward.

R. G. Dun & Co.'s trade report says; Retail business in London in most lines has been comparatively quiet during the past week, the cold weather having had a depressing effect. Stocks have not moved off as well as was hoped, and the first week of May has not fulfilled the average trader's expectations. However, the spring has hardly begun, and a few warm days will change all this. Factories are still busy, and the wholesale trade have got their stocks fairly well down. Money is reported in fair demand, with a hardening tendency of rates. Payments continue to be fairly well met. Northwest paper especially is taken care of.

MARKET PRICES SHOW NO CHANGE

Plenty of Butter and Eggs Offered On the Local Square Today.

LIVE HOGS AT \$8.60 A CWT.

This Will Be the Top Price On Monday-The Quotations Today.

This morning's market was about equal to last Saturday's, but there was very attle change in prices on any line. The market square was crowded, while the dairy hall was well filled with sellers

of butter and eggs.
Eggs were plentiful and very firm, selling well at 20c a dozen. The price of crate lots was 19c to 20c a dozen. Grass butter is coming in in fairly good quantities, which is having the effect of lowering the price considerably. Creamery butter sold for 25c and 27c in the market hall this morning, while rolls and crocks were quoted at 23c and 24c.

Dressed Pork. Dressed pork deliveries were larger than any day this week. Sales were made at \$12 25 to \$12 59 per cwt.

Monday's price for live hogs will be from \$8 50 to \$8 60, a little advance on last

week's figures.

There was a small supply of oats this morning. In consequence the price was fairly high, good loads selling from \$1.25 to \$1.28 per cwt. Potatoes were unchanged in price,

50c a bag wholesale and 60c a bag retail. Several loads of hay were in, and maintained this week's prices, at \$12.50 to \$13 ton. Following are the quotations:

NEW YORK, May 7.—Prices during today's session of one hour showed great firmness, and in every department proper support. There was some short covering, but not a little substantial buying, particularly in Southern Pacific which was the larly in Southern Pacific, which was the leader. The closing tone was strong, with prices at about the best of the day. Our London advices and a careful can-vass of the best opinions here, leads to the deduction that while some little irregularity may exist for a few days, no special weakness is expected to develop. and that the death of the King of England has not altered the situation here or abroad, especially where the financial horizon was showing much improvement

(Continued from Page One.)

Vast Crowd Watched. The Official Gazette, last night, by a coincidence, published the first programme of the court levees.

From early in the morning through day of brilliant sunshine, followed by a stormy evening, with frequent heavy, cold showers, a vast crowd filled the open space in front of Buckingham Palace awaiting news of the King's condition. Even after evening passed into night groups stood about the gates and hung to the iron railings of the big, gold-tipped fence, watching the comings and goings of the members of the royal family, the physicians, officials and other notable persons, until the police, shortly before midnight, with a view to clearing the streets, announced that no further bulletins would be issued until morning. way homeward through the rain, while the revolver in his hand.

Some had spent hours at the fence, having provided themselves with sandwiches, making it unnecessary for them to leave even for their meals. At the same time a steady stream of

callers passed through the diplomatic entrance to sign the visitors' book and make inquiries. During the afternoon the stream grew to such proportions that more than one ambassador had to wait over an hour and a half before he could reach the desk. These visitors received no more in

formation than the waiting crowds outside, simply being shown the bulletins which had been posted for the public. The more intimate friends and mem-

This served to increase rather than illay the fears that the rumors which were flying about that the King was dead or dying were only too true. The people passed the time in watching the arrival of visitors or strolling up and down Constitution Hill, from which a view of the King's apartments

could be obtained. The announcement in the papers that a bulletin would be issued at 6:30 attracted an ever-increasing throng. They came to read the bulletin, or, if strong enough, to force their way heedlessly through the masses which surrounded the fateful document. "Buster Brown" Thursday.

The production of the musical extravaganza, "Buster Brown." which will have two presentations at the Grand Thursday, May 12, is the original and the only company present ing "Buster Brown" on the road. "Buster Brown" is a musical extravaganza in three acts. It is first, last and all the time a triumph for both producer and management alike. It is absolutely useless to attempt to describe the beauty of the costumes and of the stage pictures, of the dances and marches. At every point and in every detail the management shows its artistic mastery. The word "Magnificent" in its proper sense is the only one which fits this georgeous production. There will be a special matiinee Thursday, when popular prices will prevail.

Lillian Russell Coming.

Lillian Russell will be seen at the Grand, Thursday, May 9, for one performance only, in a new comedy "The First Night," by George V. Hobart, author of "Wild Fire," her last season's success. The story was written with Miss Russell in view, and it fits her perfectly, and her work is of a sort that establishes her in an entirely new field. New York sat up and noticed with gasps of surprise the rapid strides forward in the histrionic art that Miss Russell has made, and it was one of the chief matters of interest in the receptions accorded

.The old motto, which we used to work in reds and blues on cardboard or on canvas, and which hangs, faded by the years, in many an attic-"What is home without a mother?"-is as true today as it was when the first home was formed. It is curious and significant that in every home which is truly such, the first inquiry of the returning father is "Where's your mother?" the first cry of the children back from school, or playground, or party, is Mother!" It is lamentably true that there are mothers who are not a source of either comfort or strength to the household; but these failures are so infrequent that your mother and mine inflammation of kidneys and bladder. of the standard attained by mothers may be taken as convincing examples of Canada.

There is one thing we all may do on the second Sunday in May -write home to those who are left and let them know that our hearts are in the old home still. One warm, living letter is worth all the roses and lilies you can heap on the coffin of the dead.

Just listen for a moment to the nomely advice of a verse-writer who knew the loneliness of the old home, and who spoke from the wisdom of his heart:

Don't go to the theatre, lecture or ball, But stay in your room tonight; Deny yourself to the friends that call, And a good long letter write. Write to the sad old folks at home, Who sit when the day is done With folded hands and downcast eyes,

Don't selfishly scribble: "Excuse my haste, I've scarcely the time to write." Lest their brooding thought go brooding back

orgetful of the desolate ones at home, to whom neglect looms so large and who wonder if all their care and tenderness have been forgotten. So just write the very "homiest" letter you can imagine, with remembrance of the good old days and gratitude for their joy in every line. Such a letter will bring a glow into faded cheeks, a light to dim eyes and the exclamation to the "Bless the boy! He hasn't forgotten

anything about the old times and isn't it good for a busy man like him to spend so much time on a letter home?" There ought to be a white line of carnations from Atlantic to Pacific on the 8th of May and the postmen ought to be carrying packs of Christmas heaviness on May ninth, all filled with letters to mother from the old boys

and girls of Canada. Three years ago the thought came into the mind of a daughter who desired to commemorate the anniversary of her mother's death that it would be a beautiful tribute to all mothers, the living as well as the dead, if their arm and waited for his wife to sense children, on a given day, would unite in the simple wearing of a white flower and thus make "Mothers' Day" universal. The authorship of "Mothers' Day" belongs to a Philadelphia woman-Miss Anna Jarvis.

Formulae Have Been Well Tried Out

Though the NA-DRU-CO line of Medicinal and Toilet Preparations have been on sale for a few months only, don't think for minute that in buying NA-DRU-CO goods you are experimenting with new or untried preparations.

Their Origin

The twenty-one wholesale drug firms now united in the "National" had all of them lengthy careers, some for fifty to one hundred years, prior to the union. Each firm had acquired or developed a number of valuable formulæ for medicinal and toilet preparations, all of which became the property of the "National".

Since the union our expert chemists have carefully one over these formulæ and selected the best for the NA-DRU-CO line. Every formula has been carefully studied by these experts, improved if possible, and then thoroughly tested again, in actual use, before we consider it good enough to bear the NA-DRU-CO Trade Mark.

An Example

A good example of what we mean is NA-DRU-CO Nervozone for Brain Fag or nervous break-down. The formula was pronounced the most scientific combination of nerve medicines, but this was not enough for us; we had it tried out with a dozen different kind of Brain workers - School Teachers, Lawyers, Bookkeepers-as well as Society leaders and home workers, and everywhere the result was so good that we adopted it as one of the best of the NA-DRU-CO line.

There are therefore no experiments among NA-DRU-CO preparations. We have invested altogether too much time, work and money in the NA-DRU-CO line to take any chances of discrediting it with preparations that might not prove satisfactory. We make absolutely certain that each preparation is satisfactory before we endorse it with the NA-DRU-CO

Ask your physician or your druggist about the firm behind NA-DRU-CO preparations and about the NA-DRU-CO line. They can tell you, for we will furnish them, on request, a full list of the ingredients in any NA-DRU-CO article.

"Money Back"

If by any chance you should not be entirely satisfied with any NA-DRU-CO article you try, return the unused portion to the druggist from whom you bought it and he will refund your money-willingly, because we return to him every cent he gives back to you.

If your druggist should not have the particular NA-DRU-CO article you ask for in stock he can get it for you within two days from our nearest wholesale

Saves the

If you want to free your head of dandruff and stop falling hair, you must sooner or later resort to Newbro's

Herpicide. By using Herpicide first you save yourself worry, which is desirable: you save money, which is a consideration; and you save your hair, which is

the most important of all. Why not profit by the experience of Mrs. S. A. Lee, of 110 South Fourth street, Rich-

mond, Va., who writes: "Four years' residence in India ruined my hair until it was but two inches long and very thin, I tried everything in Europe and America without benefit until I was induced to use Herpicide. My hair is now long, soft and silky and natural color while before it was quite grey. My friends never tire of admiring my hair."

Mrs. Lee's story is a typical history of hair troubles. After everything else fails, Newbro's Herpicide brings relief. It would be just as effective if used first.

Newbro's Herpicide kills the dandruff germ and prevents falling hair. It stops itching of the scalp almost instantly. No matter what the claims of others, Herpicide is the only genuine original dandruff germ destroyer.

AN UP-TO-DATE STOVE Do you realize there is no longer any reason why you should use a coal range? Oil is cheaper than coal; it is lighter and easier to handle, and gives an intense heat. Provided you have the right stove, oil is more

economical, cleaner and less trouble. Have you seen the New Perfection Dil Cook-stove

The accompanying illustration gives you only a rough idea of its appearance. You really can't appreciate it until you either use it yourself, or talk to someone who has used it. It does everything that a coal range will do-except heat the room. The New Perfection Oil Cook-

Stove will do anything, from heating a kettle of water to cooking a course dinner, but it won't heat a room. It doesn't "smell," it doesn't smoke. It can't get out of order. Light it and it is ready. Turn it down and it is out. Only a woman who knows the trouble of carrying coal and cooking in a hot kitchen can appreciate what it means to have a clean, perfect stove that will cook anything, boil, bake or roast, and yet won't heat the kitchen. How is it done? The flame is controlled in turquoise-blue enamel chimneys, and directed against the bottom of pot, pan, kettle or oven, and only there. The flame operates exactly where it is needed -and nowhere else. With this stove your kitchen is cool. The nickel finish with the bright blue

shall we deserve it? More Important Than Tariffs. Tariffs no doubt are very important. But how can they vie in importance with this question? If the nation pronounces with a definite, unfaltering opinion on this, we know where we are. We shall know whether the nation decides to maintain or to abdicate its position. But unless the issue is put alone, as it would be in a referendum, the nation will remain in its presen uncertainty, so fatal to

trade, enterprise and employment. Will the Unionist leaders then not drop for the coming election the tariff ssue and concentrate on the constitution? They could do so either by dropping the question altogether or agreeing to refer it to the Royal Comission. If victorious at the polls they could at once set about a real reform of the second chamber and when that mandate was exhausted appeal to the country on their tariff olicy with the certainty of having placed the constitution on a sure basis for the future. It will be a sacrifice, but all lovers of their country will thank them for making it. I do not exclude the government, for that body must also desire a clear issue and a

BABY CRIED CONTINUALLY

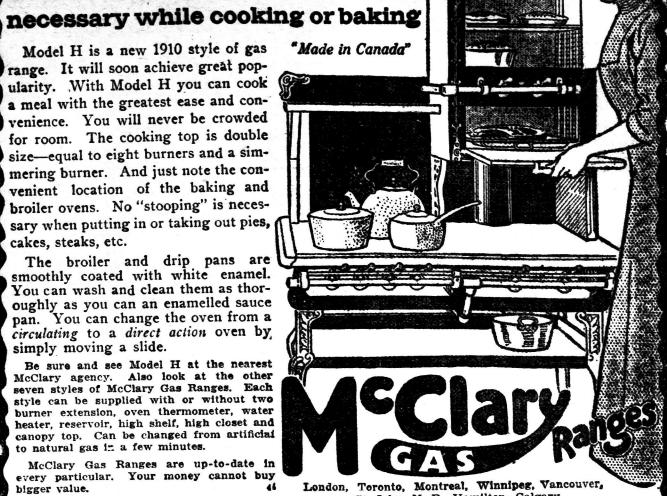

Mrs. Eugene Gagnon, l'Islet Station, Que., says: "I believe Baby's Own Tablets the best medicine in the world for little ones. I have given them to my baby for colic, constipation and sometimes for breaking up a fever, and I have never known them to fail in giving prompt relief. Before I began the use of the Tablets my baby was very thin and cried continually. Since then she has grown splendidly and is plump and healthy. I also gave the Tablets to my four-year-old child who su!fered frequently from convulsions and they made a permanent cure. When I have Baby's Own Tablets in the house I feel safe, and I advise other mothers also to keep them on hand." As nearly as can be estimated, Sergt. His prisoners included Dr. Neil Cream, the notorious poisoner; Prince who murdered William Terris, the actor, and some of the best-known thieves and swindlers of modern times.

His influence over some old offenders was very great. This was especially marked in the case of "Mog, the Fire man," who, thanks in a large measure to Lady Henry Somerset, is now a reformed character, Mog, a tall gaunt woman, with dark, piercing eyes, and ringlets of raven blackness, was possessed of enormous strength. On one occasion she went behind a policeman who was standing near Merryweather's establishment in Bow street, and, tak ing him in her arms as though he had been a child, deposited him on the pavement on the opposite side of the road, before he had realized what was

No statesman or man of business could have had a wider outlook than Goethe, when, Feb. 21, 1827, he thus spoke: "I should wish to see England o in possession of a canal through the Isthmus of Suez. And it may be fore-seen that the United States, with its decided predilection to the west, will in 30 or 40 years have occupied and peopled the large tract of land beyond the Rocky Mountains. It may, furthermore, be foreseen that along the whole coast of the Pacific Ocean, where nature has already formed the most capacious and secure harbors, important commercial towns will gradually arise for the furtherance of a great intercourse between China and East Indies and the United States. In such a case it would not only be desirable, but almost necessary, that a more rapid communication should be maintained between the eastern and western shores of North America, both by merchant ships and men-of-war, than has hitherto been possible with the tedious, disagreeable and expensive voyage around Cape Horn. It is absolutely indispensable for the United States to effect a passage from the Gulf of Mexico to the Pacific Ocean, F. Rhodes, in Historical Essays.

BAY WINDOWS.

Our last morning in London we went of bay windows on certain estates re to the Wesley home. Upstairs in the minds one of the interesting thing minds one of the interesting things Mr. Shaw Sparrow says about them in his recent book on "The English and white teapot, on which is painted House," A "bay," he sets forth, is properly sixteen feet, the width of a rood of land, the distance between gable and gable in the old frame house, and also the space allotted to a long span of oxen when stabled four abreast, Old cottages and farm buildings are frequently found to measure multiples of bays or half bays, and the original bay windows were sixteen-footers. Mr. Sparrow insists that the well-known saying should run, "Every dog shall have his bay," not "day," and that this does not mean that dogs are at liberty

CHILDREN

Psychine Made Her A Robust Child

It is not necessary for us to speak any words of our own, for the facts given below are trong enough to convince the most skeptical as to PSYCHINE'S power to restore health. Mr. John Sykes, of Victoria Harbor, says:—'When Nellie was about 4 years of age, she had wasted away so much that she looked like a little skeleton. The doctor treated her for 2 or 3 months, but the child got worse, and the doctor said he could do nothing more. We called in another doctor who told us every thing had been done and that the child could not get better. We decided to take the little hing to a Montreal doctor, who said her linng were filled with pus and that she would have to undergo an operation if we would save her life. The next day he came, down from Montreal and operated upon her, but the operation was a failure, as he was unable to get any pus from the lungs.

"We were disappointed, and fully thought little Nellie was not going to get better, but it was cruel to let her suffer so. At this time we heard what a wonderful medicine PSYCHINE was for the lungs. We had been reading some of the advertisements in the papers of neople who had been cured through PSYCHINE. We thought it would suit our little girl, and so decided to give it a trial. This we did, and after Nellie had taken the first bottle we saw an improvement. Gradually the little girl began to fill out, and by the time we had used 8 or 9 bottles, she was quite well. That was two years ago, and she is as well and robust to day as the other children are.

"We have a great deal to be thankful for We firmly believe little Nellie would never have lived if we had not heard of PSYCHINE. We shall be pleased to answer enquiries at any time."

The reasons why Catarrhozone cures
