PREFACE.

IN presenting to the Public the second edition of the ST. JOHN CITY DIRECTORY, the Publisher begs to say that he has spared neither labor or expense to make it a reliable record of the names and occupations of the citizens of St. John. He cannot guarantee that it will prove perfectly accurate; but hopes that it will be found more reliable than any of the Directories which have preceded it.

The STREET DIRECTORY gives the name and position of every street and alley in the city, the names of their inhabitants; together with all vacant houses and lots, which will be found useful to the capitalist and persons wishing to rent or purchase. Owing to the imperfect system of numbering, it was found impossible to attach a number to *each* house and lot; but inquirers will find no difficulty in obtaining the information they may require.

There will be found also a complete Directory of the inhabitants of PORTLAND—that thriving, and (under its present management) well-governed off-shoot of St. John.

The Historical Sketch of St. John will be found well worth a careful perusal. The Appendix contains an extensive budget of useful and general information, including full details of the Customs and Post Office Departments, and full lists of office bearers of the different Societies, Churches, Institutions, Freemasons, Temperance and Orange Lodges, &c., &c.

Advertisers will find their Advertisements carefully and properly displayed; and the full and copious Indexes will enable the public to discover the great extent and magnitude of the various branches of trade carried on in our good city of Saint John.

The Publisher returns his sincere thanks to the gentlemen who have aided him in bringing to a successful issue this City Directory; and while perfection is unattainable, hopes that it will be found as near thereto as diligence and perseverance could reach.

HISTORICAL SKETCH OF ST. JOHN CITY AND COUNTY.

Previous to 1783, that portion of the Lower Provinces now known as New Brunswick, under the name of Sunbury, formed one of the counties of Nova Scotia. More than twenty years before the separation of New Brunswick from the older province, a settlement existed at Maugerville on the river St. John, and the settlers, who were chiefly Congregationalists, obtained a grant of land for a glebe in connexion with their church. Subsequent to 1758, a few families, chiefly of German extraction, who had removed from the other American colonies, or who had lately immigrated from Europe, went into occupation of the lands, formerly held by the French in the district now divided into Albert and Westmorland Counties, under agreements to purchase from the Nova Scotia government, or as tenants to joint stock companies, which had bought the land on speculation. The remaining portion of the present province, with the exception of a few districts peopled by the *habitans*, who had been driven from their older cultivated farms and dyked marshes, and possibly an occasional trading post at the mouths of the great rivers, was wild and untenanted until the year first referred to. This country, however, is far from being devoid of historical interest as indeed this portion of Acadia—the name originally given to French territory comprising Nova Scotia, New Brunswick, part of the present state of Maine, and of Lower Canada—was the platform upon which many passages of the great drama carried on between England and France in the 17th and 18th centuries were enacted; and in this respect the present site of the City of Saint John and its environs, may be said to possess special interest. In 1604 when de Monts and Poutrincourt, the true pioneers of French colonization in this portion of America, with the little squadron under their command had first landed on the southern coast of Nova Scotia, and at Annapolis, and skirted along the Nova Scotian shore of the Bay of Fundy and the basin of Minas, they crossed over to the mouth of the Ougoudy, which they named the St. John, in honor of the patron saint of the day on which they arrived. They devoted several weeks to the exploration of this noble stream, and seem to have spent a portion of their time in recruiting the sea worn energies of the sailors on the shores of the western side of the harbor. In the year 1629, when the seigneurs D'Aulnay, Charnizai and LaTour were contending for ascendancy in Acadia, the latter built a small fortification near Navy Island, in Carleton, where after repelling a fierce attack on the part of Charnizai, his little garrison was at length obliged to capitulate. The incidents connected with the final assault and the heroic bravery of Madame LaTour, who was at the time in sole command, are referred to by more than one writer, as among the choicest and most memorable reminiscences of French American history. In 1758, it appears that the French were in occupation of a fortress in the same locality, possibly on the same site as fort LaTour; with that want of success, however, which attended their efforts at this period, although really forming a not inconsiderable garrison, they were attacked by a body of British and

Colonial troops and compelled to yield. About the same time Louisbourg and Quebec, and several other strongholds, were ceded to England, and France was obliged to relinquish an ascendancy in America she never afterwards regained. In 1760, Mr. James Simonds visited the river St. John, but was obliged by the hostility of the Indians, who were ever more favorably inclined to the French than to the English cause, to return to New England. In 1764 he was joined by Mr. James White and captain Francis Peabody, and with a small party of fishermen they arrived at the site of the present city and commenced the settlement. In 1768 a block house and stockades were erected and dignified by the name of Fort Howe. After the breaking out of the American rebellion, the revolutionists pillaged every unfortified village in Nova Scotia. A party of filibusters from Machias burned Fort Frederick, before mentioned as captured from the French, and situated near Navy Island. Simonds and White had erected small houses at the foot of Fort Howe hill, and at these the party wantonly discharged a number of cannon shot, having previously robbed the place of every valuable article they could discover.

They also fired at and killed a man named Southacke, who had been rash enough to show himself and attempt to shoot one of their number.

The year 1782 furnishes the first records of St. John, as a port of customs and registry, from which it appears that in this year eleven vessels were entered and twelve cleared; of these the average was about twelve tons, the largest being eighteen tons. Previous to 1783 Mr. William Hazen joined the settlement, and it is worthy of remark that title to the greater portion of landed property in the city is traced through the Simonds', Hazens' and Whites'.

On the 18th of May, 1783, the Loyalists landed at St. John, and in the following year the province, under its present name, was separated from Nova Scotia. In 1785 the city was incorporated, and Gabriel G. Ludlow appointed Mayor. As early as 1765 Mr. Charles Morris, Surveyor General of Nova Scotia, took measurements and observations of the harbor and River St. John, and charts were prepared showing the soundings and the positions of the principal headlands, the reefs and bearings, marked with a tolerable amount of precision. These charts are indeed of more interest to the antiquarian, than of use to the navigator; still they possess some value, if only to show the names of localities before the more extensive settlement of the country. By these it appears that the city proper was known as Parr Town, Red Head as DesBarres' Head, Mispic as Maspic, Negrotown Point as Bruyer's Point, Manawagonish as Meogenes, while the names of Partridge Island and other places were the same as at the present day. It is worthy of remark that Partridge Island received its present name in their own language, from the French. The City was originally divided into four wards; this division, on account of the depopulation of certain districts, was altered in 1803 by an Act of Assembly defining boundaries for newly created wards, to be called King's, Queen's, Duke's and Sydney, and making provisions for elections in Duke's and Guy's in Carleton.

In 1786 an Act was passed by the Legislature, reciting that "the inhabitants of the City of St. John had at great expense supplied themselves and were supplied with two fire engines," and appointing persons to take care of these engines, and

making provisions for putting out fires. On the 3rd of June in the same year the following notice appeared in the Royal Gazette: "The corporation having purchased two fire engines for the use of the City, and having directed one to be kept at the Market place, Upper Cove, the other at the Market place, Lower Cove, those who incline to join the two Engine Companies will leave their names with Mr. Munson Jarvis, and Mr. John Colvill, merchants."

The following extracts are taken from the same paper of different dates. 26th August, 1787: "On Wednesday last, after administering confirmation to a great number of persons, and delivering an excellent charge to the clergy, the Right Reverend the Bishop of Nova Scotia with the accustomed ceremonies, laid the foundation stone of Trinity Church."

18th December, 1787. "At a court of General Quarter Sessions of the Peace, held at the City Hall of this city (St. John) on the 4th instant, Silas Stutt was indicted for a felony, convicted, and sentenced to receive thirty-nine stripes, which were afterwards well laid on."

26th February, 1810, Postscript. "We were last evening favored with a London paper of November 27th; a Liverpool paper of the 22nd and two or three Cork papers to the 15th December, received overland from Yarmouth, U. S., to which place they were brought by the Brig "Dasher" from Liverpool, England."

In 1788 an Act was passed by the Legislature for the support of a light house on Partridge Island.

St. Andrew's Church (the Established Church of Scotland,) generally known as "The Kirk," was built in 1816 and inaugurated in the following year. The Rev. Dr. Waddell, father of the present medical superintendent of the Provincial Lunatic Asylum, preached in the Kirk before, and Dr. Burns after the inauguration. In 1820, the Bank of New Brunswick was established in St. John.

In 1824, the Legislature passed an Act empowering the corporation of St. John to order the Surveyor of highways, immediately after the first fall of snow, to summon the inhabitants and mark out roads in the city and county of Saint John, with a row of ever-green bushes, erected at distances of not less than four rods from each other; and by the same Act, "persons travelling with their horses, cattle, sleighs, sleds and carriages, of what kind soever, in the winter season, are directed under a penalty "of ten shillings for each offence to leave the said row of bushes always on the left hand." From this it would appear that street communication in those early days was not in the best condition, and that the fall of snow during the winter seasons was probably greater than at the present time. There are indeed one or two old inhabitants who can remember when it was an extremely difficult task to walk from Lower Cove to the head of Jeffrey's hill, especially after a snow storm.

The changes of duty on Baltic timber and the high prices given in Great Britain in 1824 gave rise to much speculation, and the market was soon overloaded with colonial ships and timber. The result was that the price of wood fell one half, many persons were ruined, and the most cautious merchants sustained severe losses. The great conflagration usually known as the Miramichi fire, occurred in the summer of 1825; the loss of personal property on that occasion was estimated

at nearly £225,000, and the destruction of the forest, although scarcely a subject for calculation, is said to have amounted to the value of more than £500,000. This was of course very severely felt in St. John as well as the whole province. On the 14th January, 1837, another fire occurred which affected St. John more immediately than that of 1825. By this event one hundred and fifteen stores and houses, equal at the time to one third of the commercial portion of the city, were entirely destroyed. The loss was estimated at £250,000. In 1839 disputes arose between New Brunswick and the State of Maine as to their common boundary line; when the latter made preparations to invade this Province, New Brunswick appropriated its whole revenue, and Nova Scotia £100,000 and 8000 men in defence of this Province. Through the exertions of the Governor, Sir John Harvey, however, actual hostilities were avoided. On this occasion the military furor was raging in St. John, and almost all the male population were being exercised in arms, and expecting, if not desiring, war. The boundary dispute were adjusted in 1842.

In 1845 the Gas Light Company was incorporated, and on the evening of the 18th September in the same year gas was turned on for the first time in a few stores and offices on Prince William Street and the Market square.

In 1849 serious disturbances arose between the orangeman and catholics. It is a pleasing reflection, however, that these were almost the last troubles of this nature, and that the old feeling of religious bigotry, once so prevalent in St. John, has since, almost, if not entirely, disappeared.

In the month of January, 1853, the Suspension Bridge across the rapids at the mouth of the river St. John, was commenced by the projector, W. K. Reynolds, and in October, 1853, was finally completed.

In 1853 the first sod of the European and North American Railway was turned, the day being set apart as a public holiday, and celebrated with a large procession of an elaborate nature, representing all the principal trades and businesses of the city. The sod was turned by Sir Edmund Head, then Lieutenant Governor of the Province. Unfortunately on the evening of the same day, at a public and crowded ball given in a new building, a gallery gave way under the weight of people, and the destruction of both life and limb was very serious. In the summer of 1854, the cholera visited St. John and carried off an immense number of persons, especially among the poorer classes. This calamity caused a fearful consternation among the inhabitants, who for the most part fled into the country districts, and business for the time was suspended to a great extent.

In the latter part of the year 1854, the Crimean war commenced, and owing to the stoppage of trade between England and the Baltic, an excellent opportunity was afforded to the St. John merchants for supplying the home timber market, and during the period in which the war was carried on, very respectable fortunes, were realized by them through this source of business. Comparatively handsome subscriptions were collected in St. John and the province generally for the purposes of this war, which was watched with the greatest interest by the colonists; the rejoicings at the different successes of the British arms were most exuberant, and the fall of Sebastopol was received in St. John with acclamations which knew no

bounds; a public holiday was proclaimed, and in the evening the whole city was brilliantly illuminated.

In 1860, His Royal Highness the Prince of Wales visited America. On the occasion of his arrival at St. John the city was decorated with flags and garlands; while a number of arches, of the most tasteful description, were erected along the length of Prince William street, to the mansion assigned for his residence. This building, which is still in existence, is surrounded by a roomy park-like enclosure, and was erected by the late Chief Justice Chipman, and is now tenanted by his widow. It had formerly been occupied by the Duke of Kent on a like occasion, and was on that account deemed most suitable for the present purpose. When the Prince made his entry into the city, the fire brigades formed single lines on each side of the street, while the volunteers acted as a guard of honor at the landing. In the evening the city was brilliantly illuminated, many of the citizens displaying great taste in their luminous devices.

On his return from Fredericton, the Prince drove through Carleton, where he received similar attentions, the whole city doing its utmost to exhibit loyal devotion to the heir apparent of the British throne.

Late in the autumn of the same year, what is generally known as the Trent affair occurred, and there was every prospect of war between England and the United States. In the early winter of 1861, several regiments of British troops passed through and were quartered in St. John; great excitement prevailed, and the citizens vied with each other in showing hospitality to the soldiery and giving proofs of their loyalty. The people of Portland feted the Guards, both Grenadiers and Scotch Fusiliers, while other regiments were treated by the townsfolk with like distinction. Fortunately the good sense of the two nations prevented a rupture of those friendly relations which had so long subsisted between them, and the Empire and the Republic, but above all the British Colonies were saved from the impending calamity of a great war.

In 1864 delegates from the maritime provinces were sent to Charlottetown, being duly empowered for that purpose, to consider the desirability of uniting their respective colonies in federal or legislative union.

During the conference, a delegation arrived from Canada with proposals that the two provinces of Canada should also form a portion of the proposed union.

Delegates from all these provinces afterwards met at Quebec, where they drafted what is generally known as the Quebec scheme. This measure having been submitted to the people of New Brunswick at the polls in 1865, its supporters were defeated; in the following year, however, the Provincial Parliament having been dissolved and a second general election ensuing, the scheme with alterations and modifications was carried. An Act was afterwards passed by the British Parliament, and under its provisions, New Brunswick now forms one of the provinces of the Dominion of Canada.

The harbor of St. John is safe but not very spacious, especially at low water. The tides, as is the case with all the harbors and sea ports on the Bay of Fundy, rise to a great height; at St. John as much as twenty-six feet. On this account great facilities are afforded for repairing and launching vessels; for during the retreat of the sea, the shores are left dry. From this circumstance a good oppor-

tunity is afforded for forming dry docks, an idea which it is not improbable may at some future day be carried into practice. During the flow, there is a strong inward current, and the harbor is therefore easy of access to the largest ships. Owing, however to the great quantity of fresh water which descends from the river St. John, during the spring and autumn freshets, a strong and favorable breeze is necessary to enable ships to enter; in calm weather and when encountered by head winds they are frequently towed in by steamers. Partridge Island is situated at the mouth of the harbor. On this island are erected a battery, lighthouse, signal station, and hospital for the accommodation of sick immigrants and sailors, who are removed from vessels on their entering quarantine station. Here is also a steam whistle, which can be heard at a great distance and is of incalculable service during the foggy season, which usually continues from the latter part of June until nearly the end of July, although sometimes extending later into the summer. Between the Island and the main land, westward, there is a long narrow bar, dry at low water. There is a beacon-light of considerable brilliancy and utility, on a reef situate some distance inside the island, towards the city.

Eastward of the harbor is a broad and shallow estuary, known as Courtenay Bay, terminating in a marsh, which produces excellent hay, and a deep ravine that runs westward and separates the parish of Portland from St. John. The city proper is built upon a rocky promontory of very uneven ground, sloping in opposite directions from a central ridge. Carleton, situate on the western side of the harbor, also constitutes a part of the city, at least for civic electoral purposes, and is built on a somewhat gradual but steep ascent, overlooked by rocky heights. The city is divided into Sydney, Duke's, Queen's, Prince's, King's, and Wellington wards; and Carleton, into Guy's, Albert and Brooks. The parish of Portland, which lies adjacent to and almost forms part of the city, includes Indiantown, formerly the site of an Indian village, and is subdivided, for ecclesiastical purposes only, into the parishes of St. Luke and St. Paul.

Two vacant spaces, one at the lower, the other at the upper central part of the square. They are both ornamented with trees, and the latter contains a fountain. The buildings in the city, both public and private, are for the most part more noticeable in a utilitarian point of view than for any special architectural beauties. Many private residences, however, both in the environs of the city and the less public streets, are exceedingly attractive, and there are several handsome shop fronts and buildings on Prince William and King streets. There is a substantial stone custom house, fronting on the harbor, and adjoining the principal wharves; a court house built of the same material, fronting on King's square, with a stone jail adjoining; a public hospital built of brick, the provincial Lunatic Asylum, situate in Carleton, built of the same material; and several Banks and other buildings constructed of like durable materials. There are three banks in Saint John, not including the Savings bank; the St. John Branch of the Bank of British North America, the St. John Branch of the Bank of Montreal, and the Bank of New Brunswick. The Savings Bank building is a handsome edifice, situate at the corner of Princess and Canterbury streets. The Skating Rink is one of the finest structures of the nature in America; and the railway buildings are also exceedingly chaste in

design. The Mechanics' Institute is a large wooden building situated at the end of Germain street; this establishment contains a museum, a library and news room, and a public hall; to these attractions may be added, during the winter season, a course of lectures under the management of the Board of Directors.

The Provincial Penitentiary, a massive stone structure, is situated on the eastern side of Courtenay Bay, as are also the Poor House buildings. The St. John Rural Cemetery Company are in possession of a beautifully situated piece of ground distant a little more than a mile beyond the city which is adorned with many finely executed monuments. The principal societies of St. John, besides those already mentioned, are the Board of Trade; the Natural History Society; the Gymnasium, having a building on King street; the Agricultural Society; the Bible Society; the Missionary, the Religious Tract, and other associations of a similar nature; the Protestant Orphan Asylum, the Female Reform Society, the Ragged School Association, the different National Societies, several Masonic Lodges, and the various divisions of Good Templars and Sons of Temperance.

The barrack buildings are situated at the extreme southerly portion of the city, at the mouth of the harbor. There are batteries erected here and at Negrotown point; while heavy guns are mounted on a stone tower on Carleton heights. These are all under the control of the regular military authorities, who also keep a guard at Fort Howe. As is always the case with cities built principally of wood, St. John has suffered severely from fires, and whole streets, including the North and South Market wharves, have been laid in ruins. At one time the fire engine companies were a source of great pride and satisfaction to the citizens, and acted a very important part in all public demonstrations; within the last few years, however, the corporation have procured three steam fire engines, and the old hand companies are now disorganized.

Of the different places of worship, St. Paul's, Episcopal, and the Roman Catholic Cathedral are the most handsome, although St. James, the Episcopal church in Lower Cove, St. Jude's in Carleton, the Baptist Church in Germain street, the new Kirk at the foot of Jeffrie's hill, and a few others, present a very respectable appearance.

The following files of newspapers are in the possession of gentlemen in the city, who have agreed to transfer them to the St. John Mechanics' Institute, upon the Directors providing a suitable place for their reception:

A complete file of the *St. John Courier*, commencing with the issue of the 2nd May, 1811, published by H. Chubb & Co., down to the last issue on the 15th July, 1865.

These seem to have been the earliest papers published in St. John, although it is quite possible there have been others of which the record is either lost or not known. Previous to the 1st of July, in this year, there were seventeen newspapers published in St. John; three of these having been absorbed at that date, there are now but fourteen; of these three are daily, nine weekly and two tri-weekly. The following statistics in regard to two of the most important and useful institutions in St. John, are offered to the reader, as affording a slight idea of civil progress for the last twenty-five years, and enabling a stranger to form some estimate of the present conditions of the city. The St. John Gaslight Company was incorporated in April, 1845, with a capital of £20,000, which has subsequently been increased to £50,000. During the summer of '45 about $4\frac{1}{2}$ miles of pipes were laid, a retort and rarifying house with workshops and offices built, and the gas holder erected. Up to the 1st of May, 1869, the Company have expended \$196,000 on the works, and have laid over 38 miles of pipes extending through all the principal streets of the city, the parish of Portland and Indiantown: there are about 1200 private services in use and 280 public lamps. The works on Carmarthen street, comprise two retort houses, a purifying and condensing house, limekiln, station metre house, three gas holders, blacksmiths and metre repairing shops, store-rooms and offices, with sheds for holding 2800 tons of coals, being the year's supply. The St. John Water Company was incorporated in 1832, the water being first pumped from Lily Lake and the supply up to 1850 was only for two hours each morning. In 1849 twelve inch pipes were run out to Little River and the pumping was abandoned. In 1855 the Company transferred their works to the city and parish of Portland. In 1857 a twenty-four inch main was carried to Little River Reservoir, five miles from the city; and there are now over forty miles of pipe, with a never failing supply of water, over the whole city. The Suspension Bridge, built across the picturesque rapids at the mouth of the St. John river, is also deserving of mention, as an instance, not only of the enterprise of the talented projector, Mr. W. K. Reynolds, but also of the progressive tendencies of the citizens of St. John. The entire space of this structure is 630 feet. The towers, 53 feet in height, are 15 feet square at the base, tapering gradually to the top where they are 7 feet square. The roadway is 23 feet wide between the rails; the cables are ten in number, 1030 feet in length by 3 inches diameter, are composed of 300 wires and weigh ten tons each. The aggregate strength of the cables is 2250 tons, and the whole length of wire, if extended, would be about six hundred miles.

The population of St. John, in 1840 was 19,281, in 1851 it was 22,745, and in 1861, it numbered 27,317. Including Carleton, the total population, according to Munroe, in 1864, was 38,817 souls: the result of the census for the present year

is as yet unknown, although a large increase is anticipated over the last return. The manufacturing interests have not, until somewhat recently, received a very marked degree of attention; and for many years, articles of various kinds both in iron, wood and other materials, and of such a nature as to be constantly in demand over the whole province, were imported from Europe and the neighboring States. At the present day, however, there is a marked improvement in this respect; as there are two or three woolen and one cotton factories, producing fabrics of superior workmanship, several foundries and factories in iron, turning out almost all varieties of machinery for railway, steam-boat, mill and other purposes; while the demand for all description of household furniture, carriages and ornamental wood and iron work in the city and province, is supplied to a very great extent by native mechanics; while different kinds of fish, meats and fruit, are potted and cured for the home market, and for exportation.

Ship building has always been an important branch of industry in St. John; but it is somewhat curious to observe the enormous strides which were made in this department in comparatively few years. For this purpose a few extracts from the register of shipping may be quoted, as the greater number of vessels owned in St. John are built there. In 1782, the total tonnage of the province alone did not exceed 250 tons; while in 1795 the tonnage of St. John alone was 4,000; in 1824, 16,000, and in 1836, 59,663. In 1835, the total tonnage of the Province was 80,876, tons; in 1839, the tonnage of St. John alone was 80,830.

One of the most lucrative businesses, however, in the earlier days of the colony was the timber trade, which since the removal of duties on Baltic lumber cannot be considered remarkably profitable, though still carried on with a tolerable amount of success. In 1791, when the export of timber from New Brunswick had barely commenced, the duty on Baltic timber was only six shillings and sixpence per load; that duty was gradually raised, and in 1812 amounted to £2 14 8 per load, while in 1820, though afterwards lowered, it was as high as £3 5 0 per load.

At the present day mill owners are doing a large and profitable business in the manufacture of sugar shooks, which are sent down in immense numbers to the West Indies. As St. John is the terminus of a line of railway from Shediac, which taps the settled route of the Intercolonial, and of the unfinished line of railway running westward towards the United States, a brilliant prospect seems open to the city; and if a renewal of the reciprocity treaty is only effected it seems not at all improbable that St. John may at some future and not far distant day, fairly claim the name which has already been applied to her as the Liverpool of British North America.

NEW BRUNSWICK, -	1,000 tons, - - - - -	CAPT. S. H. PIKE.

Leave the End of Commercial Wharf, Boston, at 8 A. M., and Railroad Wharf, Portland, at 6 P. M., for Eastport and St. John, N. B., as follows:

In April, May and June, one of these Steamers will leave every MONDAY and THURSDAY. In July, August and September, every MONDAY, WEDNESDAY and FRIDAY. In October and November, every MONDAY and THURSDAY, and in December, every MONDAY. Passengers by the 7½ A. M. and 12 M. trains of Boston and Maine and Eastern Railroads from Boston, can take the Steamer at Portland at 6 P. M.

In January, February and March, one of these Steamers leaves PORTLAND for EASTPORT and ST. JOHN every MONDAY, P. M., connecting with morning Trains from BOSTON.

Returning—A Steamer will leave ST. JOHN at 8 A. M., and EASTPORT at 1 P. M. for PORTLAND and BOSTON, on the same days as from BOSTON and PORTLAND, except when making one trip per week, when the day for leaving the Eastern end of the route will be Thursday.

Usual running time between Boston and Portland, eight to nine hours; Portland and Eastport, fifteen to seventeen hours; Eastport and St. John, four to five hours.

CONNECTIONS—At Eastport, steam ferry to Lubec; Daily Stages to Pembroke, Dennysville, and Machias, and Steamers "Queen" and "Belle Brown" in regular connection to Robbinston and Calais, Me., and St. Andrews and St. Stephen, N. B., and from the latter places the New Brunswick and Canada Railway runs northward to Woodstock and Houlton Station, making this the best route for travellers to Aroostook County, Maine. At St. John, Steamers run daily up the River St. John to Fredericton; the European and North American Railway has two trains a day to Shediac; from Shediac Steamers run to Bedeque, Charlottetown and Georgetown, P. E. I., Pictou, N. S., and Hawkesbury and Port Hood, Cape Breton; and during the Summer there are also Steamers to the places on the north shore of New Brunswick. Passengers are forwarded by Steamer "Empress" from St. John to Digby and Annapolis, N. S., thence by Railway to Windsor and Halifax, N. S.

ARCHITECTURAL ROOMS,

(BAYARD'S BUILDING),

106 Prince Wm. Street, (Up Stairs.)

D. E. DUNHAM, ARCHITECT AND DESIGNER

OF ALL

Classes of Public and Private Buildings,

AND LANDSCAPE GARDENING.

Having a thorough practical knowledge of Constructive
Architecture in all its details of

Carpentering, Masonry, Painting, Heating, Ventilation, &c.,

the Subscriber is enabled to draw Designs, and furnish
reliable Estimates, to suit any proposed outlay in building.

Special attention is given to economy (as well as beauty
and convenience) of Designs and Estimates, enabling parties
to secure the best building with the least possible cost.

Designs are furnished of the latest improved fittings;
and orders for the same will be made for parties when de-
sired, from England, Canada, and United States.

Personal supervision given to the erection of Buildings,
in all its Branches.

D. E. DUNHAM.

North British & Mercantile Insurance Company,

OF EDINBURGH AND LONDON.

Established in 1809.

Incorporated by Royal Charter and Special Acts of Parliament.

PRESIDENT :

His Grace the DUKE OF ROXBURGHE, K. T.

VICE-PRESIDENTS :

His Grace the DUKE of SUTHERLAND, K. G.

His Grace the DUKE of ABERCORN, K. G.

The Right Hon. LORD LAWRENCE, G.C.B. & K.S.I.

Capital, £2,000,000 Sterling.

TOTAL ACCUMULATED FUNDS (31st Dec. 1870,) - - - - -	£3,286,169
TOTAL REVENUE FOR 1870, - - - - -	969,321

FIRE DEPARTMENT.

THIS Company insures against loss or damage by fire—Dwellings, Household Furniture, Farm Property, Stores, Merchandise, Vessels on Stocks or in Harbour, and other Insurable Property, on the most favorable terms. This Company also pays for damage done by explosion of Gas taking place within buildings insured. Claims settled promptly without reference to the Head Office.

LIFE DEPARTMENT.

THE principles on which this Company was founded, and on which it continues to act, combine the System of Mutual Assurance with the safety of a large Protecting Capital and Accumulated Funds, and thus afford all the facilities and advantages which can prudently be offered by any Life Assurance Office.

Ninety per Cent. of the whole Profits is divided among the Assured on the Participating Scale.

The Profits are divided every five years. Next division, 31st Dec. 1875. All Policies effected before that date will share in the Fund then to be divided.

During the present Quinquennial Period 4567 new Life Policies have been issued Assuring **£4,132,141.**

The Premiums are moderate, and Tables have been framed to suit the requirements of all contingencies connected with Life, including the Half Premium, Half Credit, Double Assurance and Annuity Tables, &c.

Policies indisputable after five years.

For Prospectuses, Forms of Proposal, Rates, and other information, apply at the Office of the Company, on the corner of Princess and Canterbury Streets, Saint John, N. B.

AYER'S HAIR VIGOR,

FOR RESTORING ITS NATURAL COLOR AND VITALITY TO THE HAIR.

IT has been prepared to meet the everywhere prevailing want of a safe and effectual restorative for the hair, which personal ornament is so essential to both our comeliness and comfort. A delightful dressing, it renders the hair soft, pliant and glossy, and perfumes it with an odour of rare delicacy, which is much admired. The VIGOR is in large request and high appreciation by ladies whose hair is so abundant as only to require a rich dressing. Where a preparation is not needed to restore color to the hair, this is highly beneficial in maintaining its vitality, and therewith its healthy growth and preservation. Stimulating the scalp, it promotes the natural moisture of the hair, and thus keeps it fresh, soft, and lustrous; hence weak, brashy hair is speedily invigorated and restored. As a dressing, it is superior to any other, and may be relied on to produce the desired effect without being offensive or injurious to the hair.

For RESTORING its natural color to faded or gray hair, use the VIGOR daily for a week or two. It never fails. When the full shade shall have returned, apply the VIGOR about once a week, as may be necessary to maintain it. There is no dye or coloring substance at all about the VIGOR. It makes no deposit of color which will rub from the hair; cannot soil the dress or the bedding, or leave any unpleasant odour, stickiness, or foulness upon the hair. Those who have plenty of hair, but unfortunately gray, will rejoice over the effect of the VIGOR, when they find that it restores their faded locks to the color and freshness of youth. All should keep their personal appearance agreeable to those around them; and fresh, bright hair does greatly soften the austerity of age. Gray hair gives, especially to ladies, a harsh, hard aspect, which, happily, now they do not need to wear, since this VIGOR so readily restores its color, and calls back the distinctive feature of youth again. Men, as well as women, are greatly improved by the restoration of their gray hair to its original color.

To color the whiskers, they should be thoroughly rubbed with the VIGOR at night, and then wrapped in a handkerchief or cloth, to retain the heat and moisture until morning. This treatment must be continually repeated, as the whiskers change much more slowly than the hair.

DANDRUFF in the hair betokens an unhealthy condition of the scalp, which, if not remedied, will ultimately destroy the roots of the hair. By its stimulating effect upon the scalp, the VIGOR restores its healthy action, and thus at once stops the uncleanly formation—a result which may be surely effected by a few applications of the VIGOR, and should not be neglected, because at that stage the preservation of the hair is so easy and so certain.

Heat or humor in the scalp, which makes the hair come out, is often wholly cured by a few applications of the VIGOR diluted with an equal part of water.

BALDNESS.—To reproduce hair on bald heads in persons advanced in years, it is sometimes, but not always successful. Nothing will restore the hair where the glands are decayed and gone; but, if they are merely inactive, the VIGOR will correct this; and a new growth of hair follows naturally. The places where the new hair first starts are generally around the margin of the bald part, near the permanent hair, gradually extending upwards till the crown is covered more or less thickly with fine, soft hair. When the new hair has become plainly visible, excessive brushing should be guarded against; but the scalp should be sponged occasionally with soft water, and gently pressed and moved on the bone beneath by the finger-ends. This quickens the circulation, and removes the hardness which characterises places long bald. After a trial of a few weeks, if no effect is seen, then it is useless to continue the application; for, if new hair does not appear in a month, it will not at all.

When the hair has been lost by fevers or other active inflammatory diseases, the Vigor rarely fails to reproduce it and often in its full original strength and thickness.

COUNTY COURTS.

The Courts are established by 30th Victoria, cap. 10, passed 17th June 1867. The Act authorises the appointment of one judge for the counties of Charlotte, Carleton, and Victoria; one judge for the counties of Albert, Westmorland, and Kent; one judge for the counties of Northumberland, Gloucester, and Restigouche; and one judge for the counties of King's and St. John—provided that said Court for the county of St. John shall not have or exercise any jurisdiction in any cause in which the City Court in and for the city of St. John, or the Police Court in the parish of Portland, in the county of St. John, have or claim jurisdiction.

The Act also authorises the appointment of a clerk for each Court, who shall be an attorney. The sittings of the respective Courts shall be held at or near the County Court-house in the shire town.

The County Courts have not cognizance of any action—

- 1st. When the title to land is brought in question; or,
- 2d. In which the validity of any devise, bequest, or limitation is disputed, except as hereinafter mentioned; or,
- 3d. For criminal conversation or seduction; or,
- 4th. For breach of promise of marriage; or,
- 5th. Of any action against a justice of the peace for anything done by him in the execution of his office.

Subject to the above, the County Courts have jurisdiction, and may hold plea in all personal actions of debt, covenant, and assumpsit, when the debt or damages do not exceed the sum of one hundred dollars; and in actions on bail bonds given to a sheriff in any case in a County Court, whatever may be the penalty or amount sought to be recovered.

SITTINGS OF THE COUNTY COURTS.

The Courts hold Terms every year in each county, which Terms annually commence as follows:—

Charlotte County—On the second Tuesday in the months of January and June; on the fourth Tuesday in March, and on the first Tuesday in October.

MANCHESTER, ROBERTSON & ALLISON—No. 2 Market Square.

REGISTRATION.—Letters for registry must be posted fifteen minutes previous to the closing of the mail by which they are to be sent. The postage, as well as the registration fee, *must be prepaid*. The registration of a letter addressed to any place in New Brunswick or the Dominion is 2 cents, to the United States 5 cents, to the United Kingdom 8 cents, to Australia and all other places, when passing through the United Kingdom, a fee equal to one rate.

Registration is applicable to all descriptions of letters and parcels, whether they contain articles of value or not. Registration is not an absolute guarantee against the miscarriage or loss of a letter; but a registered letter can be traced when one unregistered cannot, and the posting and delivery or non-delivery can be proven. A registered letter is thus secured against many of the casualties which, from incorrect address, forgetfulness of the receiver, or other error, may effect an unregistered letter. "Moreover the safety of an unregistered letter is dependent on the integrity of a post-office clerk during the whole time it remains in his custody, frequently for hours, and even days; whilst a registered letter will almost invariably have to be acknowledged at the moment of its passing into an officer's hands, and cannot therefore be suppressed without leaving him individually accountable for its disposal." "If the consequences were limited to the mere risk of the loss of the money so sent, the senders of money in unregistered letters might reasonably urge, that if they choose to encounter the risk, they should be free to do so; but higher considerations are involved in the question, and the chance of loss to the careless remitter is really but the smallest part of the evil associated with the practice." The attentive perusal of the above remarks by those who are in the habit of sending money by mail in unregistered letters is strongly recommended, and it is further suggested that letters containing money should invariably be secured with *wax*, and not by the usual method, by mucilage, or self-sealing envelope.

All letters are charged by weight, irrespective of distance, and a uniform rate of postage of 3 cents per $\frac{1}{2}$ oz. has been established throughout the Dominion of Canada. The rates of postage mentioned all refer to a *single letter*. If it exceeds the $\frac{1}{2}$ oz. it is charged double, and so on, according to weight. Ship letters, 5 cents; *letters for consignees free*.

PRINCIPAL RATES OF POSTAGE.

Letters.

On letters passing between any two places within the Dominion of Canada, a uniform rate (irrespective of distance) of 3 cents per $\frac{1}{2}$ oz., if prepaid; and 5 cents per $\frac{1}{2}$ oz., if posted unpaid.

On letters between any place in the Dominion and any place in the United States—

6 cents per $\frac{1}{2}$ oz., if prepaid;
10 cents do., if posted unpaid.

On letters to or from the United Kingdom, in mails by Canada packets, to or from Quebec in summer, or Portland in winter; or by mail packet to or from Halifax, 6 cents per $\frac{1}{2}$ oz.

On letters in mails *via* United States per Cunard packets, 8 cents per $\frac{1}{2}$ oz.

On letters to Prince Edward Island, if prepaid, 3 cents per $\frac{1}{2}$ oz.; if posted unpaid, 5 cents per $\frac{1}{2}$ oz.

On letters to Bermuda and Newfoundland, $12\frac{1}{2}$ cents per $\frac{1}{2}$ oz.; to be in all cases prepaid.

On letters to British Columbia and Vancouver }
Island, 6 cents per $\frac{1}{2}$ oz. } to be in all cases prepaid.

On letters to Red River, 3 cents per $\frac{1}{2}$ oz.
Postal cards to any part of the Dominion, 1 cent.

quarterly in advance, either by the publisher, at the post office where the papers are posted, or by the subscriber at the post office where the papers are delivered :

For a paper published once a week, 5 cents per quarter of a year.

Do.	twice	10	"	"	"
Do.	three times	15	"	"	"
Do.	six times	30	"	"	"

If the above rates are prepaid by the publisher, the postmaster receiving payment must be careful to have the papers so prepaid separately put up, and marked distinctly as prepaid.

When the above rates are not paid in advance, by either the publisher at the office of posting, or by the subscriber at the office of delivery, the papers are to be charged one cent each on delivery.

Canadian newspapers, addressed from the office of publication to subscribers in the United Kingdom, the United States, Prince Edward Island, British Columbia, Bermuda, or Newfoundland, may be forwarded, on prepayment at the office in Canada where posted, at the above commuted rates, applicable to such papers within the Dominion.

Publishers of newspapers in Canada may post such numbers of their papers addressed to parties *within* the Dominion who are *not subscribers* at a rate of one-half cent prepaid by stamp.

Exchange papers passing between publishers in Canada, and between publishers in Canada and publishers in the United States, Prince Edward Island, Bermuda, and Newfoundland, are to pass free—one copy of each paper to each publisher.

Transient newspapers include all newspapers posted in Canada *other than Canada newspapers sent from the office of publication*; and when addressed to any place within the Dominion, to the United Kingdom, to the United States, Prince Edward Island, Bermuda, or Newfoundland, must be prepaid *two cents* each by postage stamp.

Newspapers coming into Canada will be subject to the following charges on delivery:—

If from the United Kingdom, by mail packet to Quebec, Halifax, or Portland, free on delivery.

By mails *via* the United States (New York), two cents each.

If from the United States, and posted by a publisher, one cent each. Transient papers two cents each, to be rated at the Canada frontier or exchange office receiving mails from the United States.

If from Prince Edward Island, Bermuda, or Newfoundland, when received by regular subscribers in Canada from the office of publication, the ordinary commuted rates applicable to Canada newspapers.

Transient papers, two cents each.

The Canada postage rates on newspapers coming from or going to the United Kingdom and United States will thus be the same as those charged in the United Kingdom and the United States on newspapers there received from or sent to Canada.

Canada news agents may post to regular subscribers in Canada British newspapers *free*, and the United States newspapers *unpaid*; such papers, in the latter case, must be duly rated one cent each for collection on delivery.

Books.

Book-packets can be forwarded by post from Canada to the United Kingdom, Bermuda, and British West Indies, and *vice versa*, at the following rates:—

For each packet weighing under 1 oz., 2 cents.

Above 1 oz. and not exceeding 2 oz., 4 cents.

Above 2 oz. and not exceeding 4 oz., 6 cents.

Above 4 oz. and not exceeding 8 oz., 12 cents.

Above 8 oz. and not exceeding 12 oz., 18 cents.

Above 12 oz. and not exceeding 16 oz., 24 cents.

J. S. TURNER, Importer and Dealer in West India Goods.—(See page 236.)

FAMILY MOURNING—at MANCHESTER, ROBERTSON & ALLISON'S.

Every book-packet must be without a cover, or in a cover open at both ends, and must not contain any writing whatever.

It must not exceed 4 lbs. in weight, nor the size exceed 2 feet in length, or 1 foot in width or depth.

Must be prepared by stamps.

Printed Papers, Circulars, Prices Current, Hand Bills, Books, Pamphlets.

The rate on printed matter of this description posted in Canada, and addressed to any place in Canada, Prince Edward Island, Newfoundland, or United States, will be one cent per ounce, to be prepaid by postage stamp; and a like rate will be payable on delivery when received from the United States, Prince Edward Island, or Newfoundland.

Periodical Publications.

When posted in Canada for any place in Canada, Prince Edward Island, Newfoundland, or United States, the rate will be one cent per four ounces, to be prepaid by stamp.

A like rate will be payable on delivery in Canada, when received from the United States, Prince Edward Island, or Newfoundland.

Periodicals weighing less than one ounce per number, when posted in Canada for any place within the Dominion, Prince Edward Island, Newfoundland, or the United States, may, when put up singly, pass for one-half cent per number, to be prepaid by postage stamp.

As the postage rates on periodicals, other than newspapers, will be payable in advance, and as certain classes of such periodicals, printed and published in Canada, and sent from the office of publication to regular subscribers, have for some time past been exempted from postage, when exclusively devoted to the education of youth, to temperance, agriculture, and science, or for other reasons; it has been ordered that all such special exemptions and privileges shall cease.

Parcel Post.

The rate on parcels, by parcel post, will be 12½ cents per 8 oz., that is to say:

On a parcel not exceeding 8 oz., 12½ cents.

Over 8 oz., and not exceeding 1 lb., 25 cents.

Over 1 lb., and not exceeding 24 oz., 37½ cents.

And so on to the limit of three pounds.

Book and Newspaper Manuscript, and other Miscellaneous Matter.

On book and newspaper manuscript (meaning written articles intended for insertion in a newspaper or periodical, and addressed to the editor or publisher thereof, for insertion), printer's proof sheets, whether corrected or not, maps, prints, drawings, engravings, music, whether printed or written, packages of seeds, cuttings, roots, scions or grafts, and botanical specimens, the rate will be one cent per ounce, when posted for any place in Canada or the United States, and prepaid by postage stamp.

Postage Stamps.

To enable the public to prepay conveniently by postage stamps the foregoing rates, the following denominations of postage stamps for use throughout the Dominion have been prepared, and will be supplied to postmasters for sale:—

Franking and Free Matter.

The following matter is exempt from *Canadian postage*:
All letters and other mailable matter addressed to or sent by the Governor General of Canada.

All letters and other mailable matter addressed to or sent by any department of the Government, at the seat of Government at Ottawa, under such regulations as may from time to time be made by the Governor in Council.

All letters and other mailable matter addressed to or sent by the Speaker or chief clerk of the Senate, or of the House of Commons, or to or by any member of either House, at the seat of Government, during any session of Parliament, or addressed to any of the members or officers at the seat of Government as aforesaid, during the ten days next before the meeting of Parliament.

All public documents and printed papers sent by the Speaker or chief clerk of the Senate or of the House of Commons to any member of either House during the recess of Parliament.

All papers printed by order of either House sent by members of either House during the recess of Parliament.

Petitions and addresses to either of the Provincial Legislatures of Ontario, Quebec, New Brunswick, and Nova Scotia, or to any branch thereof; and votes, proceedings, and other papers, printed by order of any such Legislature or any branch thereof, during any session thereof,—provided such petitions and addresses, votes, proceedings, and other papers, are sent without covers, or in covers open at the ends or sides, and contain no written communication to serve the purpose of a letter.

Letters and other mailable matter (except that provided for as above) addressed to or sent by the Provincial Governments or Legislatures of Ontario, Quebec, New Brunswick, and Nova Scotia, will be liable to the ordinary rates of postage.

Public documents and printed papers sent under the foregoing clauses should bear, as part of the address, the *bona fide* superscription of the Speaker, chief clerk, or officer specially deputed for this purpose to act for those functionaries, or of the member sending the same.

The privileges of free transmission, as above described, has effect only as respects Canada postage rates.

All letters and other mailable matter to and from the Postmaster-General and the Dep. P. M. General, and all official communications to and from the post-office dep't. and to and from the post-office inspectors, are to pass free of Canada postage.

All letters containing a remittance on account of the public revenue sent by any postmaster in Canada to a bank or bank agency, and all remittances or acknowledgments sent by a bank or bank agency on account of public revenue to any postmaster in Canada, pass free through the post, as respects both postage and registration charge.

Decked vessels under 100 tons, owned and registered at St. John, and all British vessels under that tonnage trading within the Bay of Fundy, or arriving from ports to the northward of Cape Cod, or the westward of Cape Canso, or from any port in Nova Scotia, to pay annually as follows: Under 30 tons, 75 cents; over 30 and under 50 tons, 1 dollar; over 50 and under 75 tons, 1 dollar and 20 cents; over 75 and under 100 tons, 2 dollars.

Anchorage.—Same rates as harbor master's fees.

Rates of Towing.

The following rate of charges for towing in or out of the harbor has been adopted:—Under 200 tons, 8 dols.; 200 to 300 tons, 12 dols.; 300 to 400 tons, 16 dols.; 400 to 500 tons, 20 dols.; 500 to 600 tons, 24 dols.; 600 to 700 tons, 28 dols.; 700 to 800 tons, 32 dols.; 800 to 900 tons, 36 dols.; 900 to 1000 tons, 40 dols.; 1000 to 1100 tons, 44 dols.; 1100 to 1200 tons, 48 dols.; 1200 to 1300 tons, 52 dols.; 6 dols. for every additional 100 tons. For transporting vessels in harbor, from 8 dols. and upwards.

The above rates do not apply in cases of assistance rendered to vessels in distress. The owners will not be responsible for damage occurring to or occasioned by vessels while in tow of the steamer. All unnecessary detention of the boats charged at the rate of 10 dols. per hour.

Stevedore's Bill for Loading.

Including lighterage of cargo, from wharf or mill to ship, 1 dol. 50 c. to 1 dol. 80 c. per St. Petersburg standard of 1980 superficial feet. When ship has crew on board, the Stevedore either pays so much per day for crew, or charges for his own time superintending.

LIGHTHOUSES.

Commissioner of Lighthouses in the Bay of Fundy—George W. Smith, Esq.

Cape Sable Seal Island Light—The first light in approaching the Bay of Fundy is on the south point of Seal Island. This is a plain white light, elevated about 80 feet above high-water mark, and may be seen in approaching the island from any point of the compass. A very dangerous rock, under water, but upon which the sea always breaks, called *Blonde Rock*, lies about $3\frac{1}{2}$ miles S. by W. by compass from the lighthouse. Between this rock and the island there are some dangers—the ground is rocky throughout, and large vessels, therefore, ought not to attempt passing between them.

Brier Island Light—In advancing up the Bay, the next light is situated on Brier Island, about half a mile N.E. from the N.W. point thereof. A plain white light.

Digby Gut Light—The next light, on the coast of Nova Scotia, is placed on the west side of Digby Gut—from Brier Island north-eastward. The coast is very bold, and not indented; the light is, therefore, chiefly intended as a guide into Digby Basin—a white light.

Gannet Rock Light—This light is intended to warn vessels of their approach to a very dangerous range of shoals and ledges, which extend from the Old Proprietor to the Seal Islands off Machias, a distance of about 20 miles. It is a flash light—white—twenty seconds dark and forty light in each minute. The lighthouse is painted in stripes, vertical, black and white. Bearings and distance by compass from the Gannet Rock Lighthouse:—The light bears from the lighthouse on Brier Island, N.N. $\frac{3}{4}$ W. 22 miles; from the Gannet Rock to the Old Proprietor, E. $\frac{1}{2}$ S. distance 7 miles; from the Gannet Rock to the Black Rock, off White Head Island, N.E. $\frac{1}{2}$ E. 7 Miles; from the Gannet Rock to the south-west head of Grand Manan, N.N.W. 6 $\frac{1}{2}$ miles; from the Gannet Rock to the northernmost of the Murr Ledges, N.W. $\frac{1}{2}$ N. 2 $\frac{1}{2}$ miles; to the southernmost of ditto, called St. Mary's Ledge, W.S.W. 2 miles; from the Gannet Rock to Machias Seal Island, W. and by N. 13 miles; from Brier Island Light to Old Proprietor, N. and by W. $\frac{1}{4}$ W. 18 $\frac{1}{2}$ miles; the Blonde Rock from the southernmost point of the Cape Sable Seal Island, S. and by W. 2 $\frac{1}{2}$ miles.

Note—Between the northernmost and southernmost of the Murr Ledges there is a range of dangerous rocks and shoals, many of them always above water, and which extend westward from the lighthouse about four miles; from this range, farther westerly, about six miles from the Gannet Light, lies a dangerous breaker called the Bull. This may be avoided by keeping three remarkable headlands near the S.W. end of Grand Manan open.

Machias Seal Island Lights—There are two fixed white lights upon the Machias Seal Islands, elevated about forty-five feet above high-water, and bear from each other E.S.E. and W.N.W. distant about 200 feet, by which circumstances of two lighthouses at the same station, they will be immediately distinguished from all other lights upon the coast (British or American). Both the buildings are painted white. The following are the bearings from them, viz.:—To the southernmost Murr Ledge (St. Mary's), E.S.E. easterly; to the Gannet Rock Light, E. by S. $\frac{1}{4}$ S. 13 miles; to the southern head of Grand Manan, E. by N. $\frac{1}{2}$ N.; to the northern head of Grand Manan, N.E. $\frac{1}{2}$ E.; to the N.E. Rock, distant 2 miles, N.E. by N.; to the Little River head, N. by W.; to the Libby Island Lighthouse (American), N.W. by W. Vessels standing to the northward, between these lights and the Gannet Rock, should tack or haul off the moment they bring these lights in one, as they will not then be more than three-fourths of a mile from the Murr Ledges, if more than five miles to the east of these lights.

MANCHESTER, ROBERTSON & ALLISON, — DRY GOODS — 2 Market Square.

N.B.—It is recommended that the ship's compasses should be well compared and adjusted (particularly in new ships), before they leave Partridge Island, as serious errors have frequently occurred from want of attention on this point; and as the variation in the Bay of Fundy is seventeen degrees westerley (or $1\frac{1}{2}$ points), it will be found by the latest published Admiralty charts that the course from Partridge Island down the Bay (south channel) between the Old Proprietor and N.W. Ledges is S.W. $\frac{1}{2}$ S., but the course to be steered must depend on the direction of the wind on leaving Partridge Island.

Head Harbor Light.—Next in order after passing Grand Manan, and the plain white light (American), on West Quoddy Point, is Head Harbor Light. This is placed on the north-east extremity of Campo Bello, and is a guide to vessels entering the main channel to West Isles, Moose Island, and the inner Bay of Passamaquoddy; it enables vessels also at all times to enter Head Harbor—it is a fixed white light. The building is painted white with a red cross on it.

Point Le Preaux.—Upon this projecting headland two lights are placed, one above the other, in the same house, and distant 28 feet. Both lights can be seen from every point of compass where they may be useful—both are fixed and white. The lighthouse is painted red and white, in stripes of five feet broad horizontally.

Partridge Island Light.—This light, at the entrance of the river and harbor of St. John, having been established upwards of forty years, requires no particular notice, further than that it is a fixed white light, and that the lighthouse is red and white in vertical stripes. A fog horn or steam whistle (the first of the kind ever used for this purpose), was placed on Partridge Island, near the lighthouse, in Sept. 1860, and is sounded at intervals of ten seconds in every minute, during the prevalence of fogs and snowstorms. The whistle can be distinctly heard at the distance of four to six miles. There is also a bell buoy anchored at extremity of the ledges at the eastern end of the island, which is very useful to vessels in thick or rough weather. The sound of the bell can be heard three miles distant.

Beacon Light.—Within Partridge Island, and upon a spit or bar which extends about half a mile S. S. E. off Sand Point, and which dries at two-thirds ebb, stands the Beacon Tower. Upon this tower a light is established, which is eminently useful to the coasting trade of St. John, and to all other vessels having pilots on board, as it enables them to enter the harbor at all hours of the night. A fixed white light

Quaco.—A revolving white light is placed on a small rock off Quaco Head, showing twice full and twice dark in a minute. This light can be seen from any quarter where a vessel can approach. The lighthouse is painted white and red in horizontal stripes.

Cape Enrage Light.—On the point of that name, in Westmorland, nearly opposite Apple River harbor, N. S. A plain white light. The house is painted white, and is about 120 feet above tide-mark.

West Quoddy Light.—This is an American light, and is placed on the west side of the entrance into the St. Croix by Lubec and Eastport.

Cape Forchu Light.—On Cape Forchu, on the western side of the entrance to Yarmouth (Nova Scotia), in lat. $43^{\circ} 39'$ N., long. 66° S.W. It exhibits a plain revolving light—visible one minute and a quarter, and invisible half a minute. The building is painted white, and is elevated 135 feet above the level of the sea.

Grindstone Island Light.—An octagonal tower, sixty feet above the level of high water, on Grindstone Island, in Chignecto Bay, in lat. $45^{\circ} 43' 13''$ N., lon. $64^{\circ} 37' 25''$ W. The tower is painted white, as is also the keeper's house, one story, situated about 50 feet to the eastward of the tower. Bearings and distances of several places from the above lighthouse, as follows: Cape Enrage Light by compass, S. $61\frac{1}{2}^{\circ}$ W. 10 1-7 miles; highest point of St. Mary's Ledge by compass, N. 40° W., 6-10 miles; the point of low water off the light by compass, S. 78° W., 2-10 miles; Jones' Ledge, N. 10° W., 3-10 miles, it dries at low springs, and has about $2\frac{1}{2}$ fathoms on it at half-tide; the Sand Bank, S. 15° W., 3-10 miles, it has $1\frac{1}{2}$ fathoms on its shoalest part at low-water springs.

Ayar's Ague Cure is an Elegant Tonic—H. L. SPENCER, 20 Nelson Street.

Grand Manan.—There is a lighthouse and keeper's house at the "Swallow Tail" on the north-eastern part of the island of Grand Manan, in the Bay of Fundy. The light is 45 feet from base to deck; the point on which it stands is 103 feet above high-water, making 148 feet elevation. This is a conspicuous mark in the south channel between Brier Island and Grand Manan. Both houses are painted white.

Richibucto Head Light.—This is a fixed white light, situated on Richibucto Head, Northumberland Strait, in the Gulf of St. Lawrence. The light is placed at an elevation of 70 feet above high-water, and should be seen in clear weather from a distance of 14 miles. The illuminating apparatus is dioptric, or by lenses of the fourth order. The tower is square, about 50 feet high from base to vane, painted white, and stands in latitude $46^{\circ} 39' 40''$ N., longitude $64^{\circ} 43' 30''$ W. of Greenwich.

Latitude, longitude, and variation of the compass, at the following light stations in the Bay of Fundy, belonging to New Brunswick:—Partridge Island, lat. $45^{\circ} 14' 20''$ N., long. $65^{\circ} 3' 50''$ W., var. $16^{\circ} 30'$ W.; Beacon, lat. $45^{\circ} 15' N.$, long. $65^{\circ} 2' 36''$ W., var. $16^{\circ} 30'$ W.; Head Harbor, lat. $44^{\circ} 57' 40'' N.$, long. $66^{\circ} 53' 55'' W.$, var. $16^{\circ} 20' W.$; Point LePreaux, lat. $45^{\circ} 3' 50'' N.$, long. $66^{\circ} 27' 4'' W.$, var. $16^{\circ} 30' W.$; Gannet Rock, lat. $44^{\circ} 30' 40'' N.$, long. $66^{\circ} 42' 50'' W.$, var. $16^{\circ} 20' W.$; Machias Seal Island, lat. $44^{\circ} 30' 3'' N.$, long. $67^{\circ} 6' 10'' W.$, var. $16^{\circ} 20' W.$; St. Andrews, lat. $45^{\circ} 4' 10'' N.$, long. $67^{\circ} 4' W.$, var. $16^{\circ} 20' W.$; Quacco, lat. $45^{\circ} 19' 33'' N.$, long. $65^{\circ} 31' 55'' W.$, var. $16^{\circ} 30' W.$; Cape Enrage, lat. $45^{\circ} 36' N.$, long. $64^{\circ} 46' 40'' W.$, var. $16^{\circ} 50' W.$
